Regulation FD Disclosure

EPAM Systems, Inc. released the following statement.

The situation in the Ukraine is rapidly developing. We are continuing to monitor, adjust our contingency plans and respond to developments.

We have delivery centers in the Ukraine employing approximately 2,600 engineers, none of which are located in Crimea which is the area of reported military activity. We also have delivery centers in Russia, employing approximately 1,300 personnel located in various cities including Moscow and St. Petersburg.

At present we have not experienced any interruption in our office infrastructure, utility supply or Internet connectivity. All EPAM offices remain open and fully functional, including those we use in the Ukraine and Russia to support our clients.

We continue to monitor the situation closely. Our contingency plans include relocating work or personnel to other locations and adding new locations, as appropriate.

We have no way to predict the progress or outcome of the situation, as the political and civil unrest and reported military activities are fluid and beyond our control. Prolonged unrest, military activities, or broad-based sanctions, should they be implemented, could have a material adverse effect on our operations.
