FORWARD-LOOKING STATEMENTS

The United States Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for certain forward-looking statements. Such forward-looking statements are based upon the current expectations of CanArgo and speak only as of the date made. These forward-looking statements involve risks, uncertainties and other factors. The factors discussed elsewhere in this Quarterly Report on Form 10-Q are among those factors that in some cases have affected CanArgo's historic results and could cause actual results in the future to differ significantly from the results anticipated in forward looking statements made in this Quarterly Report on Form 10-Q, future filings by CanArgo with the Securities and Exchange Commission, in CanArgo's press releases and in oral statements made by authorized officers of CanArgo. When used in this Quarterly Report on Form 10-Q, the words "estimate," "project," "anticipate," "expect," "intend," "believe," "hope," "may" and similar expressions, as well as "will," "shall" and other indications of future tense, are intended to identify forward-looking statements.

Few of the forward-looking statements in this Report deal with matters that are within our unilateral control. Acquisition, financing and other agreements and arrangements must be negotiated with independent third parties and, in some cases, must be approved by governmental agencies. These third parties generally have interests that do not coincide with ours and may conflict with our interests. Unless the third parties and we are able to compromise their various objectives in a mutually acceptable manner, agreements and arrangements will not be consummated.

CONSOLIDATED CONDENSED STATEMENTS OF CASH FLOWS

See accompanying notes to unaudited consolidated condensed financial statements.

PART I - FINANCIAL INFORMATION
CANARGO ENERGY CORPORATION AND SUBSIDIARIES

ITEM 1. FINANCIAL STATEMENTS

NOTES TO UNAUDITED CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
SIX MONTHS ENDED JUNE 30, 2001 AND JUNE 30, 2000 (UNAUDITED)

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

(1) Basis of Presentation

The interim consolidated condensed financial statements and notes thereto of CanArgo Energy Corporation and its subsidiaries (collectively, CanArgo) have been prepared by management without audit. In the opinion of management, the consolidated condensed financial statements include all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of the results for the interim period. The accompanying consolidated condensed financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the CanArgo's Annual Report on Form 10-K for the year ended December 31, 2000 filed with the Securities and Exchange Commission. All amounts are in U.S. dollars.

Certain items in the consolidated condensed financial statements have been reclassified to conform to the current year presentation. There was no effect on net loss as a result of these reclassifications.

(2) Need for Significant Additional Capital, Possible Impairment of Assets

Development of the oil and gas properties and ventures in which CanArgo has interests involves multi-year efforts and substantial cash expenditures. Full development of these properties will require the availability of substantial funds from external sources. CanArgo believes that it will be able to generate funds from external sources including quasi-governmental financing agencies, conventional lenders, equity investors and other oil and gas companies that may desire to participate in CanArgo's oil and gas projects.

Ultimate realization of the carrying value of CanArgo's oil and gas properties will require production of oil and gas in sufficient quantities and marketing such oil and gas at sufficient prices to provide positive cash flow to CanArgo. This is dependent upon, among other factors, achieving significant production at costs that provide acceptable margins, reasonable levels of taxation from local authorities and the ability to market the oil and gas produced at or near world prices. In addition, CanArgo must mobilize drilling equipment and personnel to initiate drilling, completion and production activities. If one or more of the above factors, or other factors, are different than anticipated, CanArgo may not recover its carrying value. CanArgo generally has the principal responsibility for arranging financing for the oil and gas properties and ventures in which it has an interest. There can be no assurance, however, that CanArgo or the entities that are developing the oil and gas properties and ventures will be able to arrange the financing necessary to develop the projects being undertaken or to support the corporate and other activities of CanArgo or that such financing as is available will be on terms that are attractive or acceptable to or are deemed to be in the best interests of CanArgo, such entities or their respective stockholders or participants.

The consolidated financial statements of CanArgo do not give effect to any additional impairment in the value of CanArgo's oil and gas properties and ventures or other adjustments that would be necessary if financing cannot be arranged for the development of such properties and ventures or if they are unable to achieve profitable operations. Failure to arrange such financing on reasonable terms or failure of such properties and ventures to achieve profitability would have a material adverse effect on the financial position, including realization of assets, results of operations, cash flows and prospects

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

of the CanArgo.

6

7

(3) Foreign Operations

CanArgo's future operations and earnings will depend upon the results of CanArgo's operations in the Republic of Georgia and the Ukraine. There can be no assurance that CanArgo will be able to successfully conduct such operations, and a failure to do so would have a material adverse effect on the CanArgo's financial position, results of operations and cash flows. Also, the success of CanArgo's operations will be subject to numerous contingencies, some of which are beyond management control. These contingencies include general and regional economic conditions, prices for crude oil and natural gas, competition and changes in regulation. Since CanArgo is dependent on international operations, CanArgo will be subject to various additional political, economic and other uncertainties. Among other risks, CanArgo's operations may be subject to the risks and restrictions on transfer of funds, import and export duties, quotas and embargoes, domestic and international customs and tariffs, and changing taxation policies, foreign exchange restrictions, political conditions and regulations.

(4) Acquisitions

In April 2000, CanArgo acquired approximately 82% (77% on a fully diluted basis) of the outstanding common shares of Lateral Vector Resources Inc. ("LVR") pursuant to an unsolicited offer to purchase all of its outstanding common shares. According to publicly available information at the time CanArgo made its offer in March 2001, LVR negotiated and concluded with Ukrnafta, the Ukrainian State Oil Company, a Joint Investment Production Activity agreement in 1998 to develop the Bugruvativske Field in Eastern Ukraine. In July 2001, CanArgo completed the acquisition of the remaining outstanding common shares and LVR became a wholly owned subsidiary of CanArgo.

Under purchase accounting, LVR's results have been included in CanArgo's consolidated financial statements since April 30, 2001 the date of the initial acquisition of the LVR shares. Including acquisition costs, total cash consideration paid was allocated to the net assets of LVR as follows:

Cash	\$	52,618
Other current assets		273,251
Accounts payable and accrued liabilities		(1,662,880)
Capital assets (a)		5,009,825
Minority interest		--

Total cash consideration paid	\$	3,672,814
		=====

(a) Includes \$4,308,885 of unevaluated properties.

In April 2001, CanArgo acquired the remaining 50% interest it did not own in CanArgo Power Corporation ("CanArgo Power") for cash consideration of \$425,000. On completion of the acquisition, CanArgo

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

Power became a subsidiary of CanArgo. Under purchase accounting, CanArgo Power's results have been included in CanArgo's consolidated financial statements since the date of acquisition. Total cash consideration paid was allocated to the net assets of CanArgo Power as follows:

Cash	\$	223
Other current assets		69
Accounts payable and accrued liabilities		(33,733)
Capital assets		458,441
Minority interest		--

Total cash consideration paid	\$	425,000
		=====

	=====	=====	=====

Oil and gas related equipment includes new or refurbished drilling rigs and related equipment, substantially all of which have been transported to the Republic of Georgia for use by CanArgo in the development of the Ninotsminda field.

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

(6) Investments in and Advances to Oil and Gas and Other Ventures

CanArgo has acquired interests in oil and gas and other ventures through less than majority interests in corporate and corporate-like entities. A summary of CanArgo's net investment in and advances to oil and gas and other ventures at June 30, 2001 and December 31, 2000 is set out below:

	JUNE 30, 2001 -----
INVESTMENTS IN AND ADVANCES TO OIL AND GAS AND OTHER VENTURES	
Ukraine - Stynawske Field, Boryslaw	
Through 45% ownership of Boryslaw Oil Company	\$6,636,254
Republic of Georgia	
Through 50.0% effective ownership CanArgo Power Corporation	--
Republic of Georgia - Ninotsminda	
Through an effective 50% ownership of East Georgian Pipeline Co.	152,500
Uentech International Corporation	
Through an effective 45% voting interest	--
Other Investments	75,001

EQUITY IN PROFIT (LOSS) OF OIL AND GAS AND OTHER VENTURES

Ukraine - Stynawske Field, Boryslaw	(535,600)
Republic of Georgia - CanArgo Power Corporation	--
Republic of Georgia - East Georgian Pipeline Co.	(112,000)
Uentech International Corporation	--

CUMULATIVE EQUITY IN PROFIT (LOSS) OF OIL AND GAS AND OTHER VENTURES	\$ (647,600)
IMPAIRMENT - STYNAWSKE FIELD	(5,459,793)

TOTAL INVESTMENTS IN AND ADVANCES TO OIL AND GAS AND OTHER VENTURES, NET OF EQUITY LOSS AND IMPAIRMENT	\$ 756,362 =====

In April 2001, CanArgo acquired from a wholly owned subsidiary of Terrenex Acquisition Corporation the remaining 50% interest it did not own in CanArgo Power for cash consideration of \$425,000. In a related but separate transaction, CanArgo sold in April 2001 all of its voting and non voting shares of Uentech International Corporation to a wholly owned subsidiary of Terrenex Acquisition Corporation. Proceeds from the sale of Uentech International Corporation were \$125,000. On completion of the acquisition, CanArgo Power became a subsidiary of CanArgo. At the time of the transactions, two directors of CanArgo were also directors of Terrenex Acquisition Corporation. Accordingly, the transactions were approved by an independent committee of the Board of Directors.

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

CanArgo's ventures are in the development stage. Accordingly, realization of these investments is dependent upon successful development of and ultimately cash flows from operations of the ventures.

Advances received by CanArgo from joint venture partners, which are to be spent by CanArgo on behalf of the joint venture partners, are classified within operating inflows on the basis they do not meet the definition of finance or investing activities. These advances do not contribute to CanArgo's operating profits and are accounted for/disclosed as balance sheet entries only ie within cash and payable to joint venture partner. When the cash advances are spent, the payable is reduced accordingly.

(7) Accrued Liabilities

Accrued liabilities at June 30, 2001 and December 31, 2000 include the following:

	JUNE 30, 2001	DECEMBER 31, 2000

	=====	=====	=====	=====

(9) Net Income (Loss) Per Common Share

Basic and diluted net income (loss) per common share for the six month periods ended June 30, 2001 and 2000 are based on the weighted average number of common shares outstanding during those periods. The weighted average numbers of shares issued and issuable without receipt of additional consideration for the six month periods ended June 30, 2001 and 2000 are 75,950,681 and 38,944,248 respectively. Options to purchase CanArgo's common stock were outstanding at June 30, 2001 but were not included in the computation of diluted net income (loss) per common share because the effect of such inclusion would have been anti-dilutive.

(10) Commitments and Contingencies

OIL AND GAS PROPERTIES AND INVESTMENTS IN OIL AND GAS VENTURES

CanArgo has contingent obligations and may incur additional obligations, absolute and contingent, with respect to acquiring and developing oil and gas properties and ventures. At June 30, 2001, CanArgo had the contingent obligation to issue an aggregate of 187,500 shares of its common stock, subject to the satisfaction of conditions related to the achievement of specified performance standards by the Stynawske field project. In December 2000, CanArgo announced that a preliminary development plan had been reached with the joint venture partner.

10

11
(11) Segment Information

For the six month period ended June 30, 2000, CanArgo operated through one business segment, oil and gas exploration and production. In the fourth quarter of 2000, CanArgo expanded its oil and gas exploration and production activities to include the refining and marketing of crude oil and crude oil products. Intersegment revenue eliminations reflect transfers from exploration and production operations to refining operations. Intersegment sales prices approximate market prices.

Operating revenues for the six month periods ended June 30, 2001 and 2000 by geographical area were as follows:

	JUNE 30, 2001	June 30, 2000
	-----	-----
OIL AND GAS EXPLORATION, DEVELOPMENT AND PRODUCTION		
Eastern Europe	\$ 3,524,451	\$3,596,07

(12) Subsequent Events

In July 2001, CanArgo completed the acquisition of the remaining outstanding common shares and Lateral Vector Resources Inc. became a wholly owned subsidiary of CanArgo. In April 2001, CanArgo had acquired approximately 82% (77% on a fully diluted basis) of the outstanding common shares of Lateral Vector Resources Inc. pursuant to an unsolicited offer to purchase all of its outstanding common shares. According to publicly available information at the time CanArgo made its offer in March 2001, Lateral Vector Resources Inc. negotiated and concluded with Ukrnafta, the Ukrainian State Oil Company, a Joint Investment Production Activity agreement in 1998 to develop the Bugruvativske Field in Eastern Ukraine.

In July 2001, CanArgo closed a private placement of 16,057,765 new shares at NOK 4.25 per share (approximately US\$0.45 per share) to certain institutions and qualified purchasers identified in this prospectus. Gross proceeds from the placement were some NOK 68 million (approximately US\$7.2 million). After completion of the private placement, CanArgo had 92,008,446 common and Exchangeable shares issued and issuable. From the net proceeds, CanArgo is required to pay subscribers to the private placement a cash fee of 3.33% of the purchase price of their shares for each full 30 day period after closing until a registration statement registering such shares is declared effective by the Securities and Exchange Commission. The maximum cash fee is 10% of the subscription price with the obligation to file a registration statement and the commencement of the first full 30 day period contingent upon receipt by CanArgo of all such information required to file a registration statement.

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

THE FOLLOWING INFORMATION CONTAINS FORWARD-LOOKING STATEMENTS. SEE "FORWARD-LOOKING STATEMENTS" BELOW AND ELSEWHERE IN THIS REPORT.

LIQUIDITY, CAPITAL RESOURCES AND CHANGES IN FINANCIAL CONDITION

CanArgo's management believes that cash and cash equivalents at June 30, 2001 should be sufficient to cover CanArgo's near term funding requirements with respect to its activities in the Republic of Georgia. Existing cash and cash equivalents at June 30, 2001, however, are not sufficient to adequately finance the acquisition and subsequent development of the Bugruvativske field in Eastern Ukraine. While the July 2001 private placement of 16,057,765 new shares at NOK 4.25 per share (approximately US\$0.45 per share) to certain institutions and qualified purchasers will provide CanArgo with the funds necessary to begin rapid development of the Bugruvativske field, both the Bugruvativske field and the Stynwaske field in Western Ukraine are in the early stage of evaluation and development and are themselves relatively new to CanArgo. Additional financing will likely be required in order to fully develop and exploit these fields. In addition, CanArgo is in the process of establishing its own administrative and finance infrastructure in the Ukraine. Establishment of this infrastructure may result in a diversion, temporary or otherwise, of time and other resources from other operating activities.

To date CanArgo has directed substantially all of its efforts and most of its available funds to the development of the Ninotsminda oil field in the Republic of Georgia and some ancillary activities closely related to the Ninotsminda field project. Current development plans for the Ninotsminda field in the Republic of Georgia includes the drilling of exploration wells N100 and M11, several rehabilitations of existing wells and quantification of the reserve and production potential of the recently announced discoveries in the Saramatian and Upper Eocene sequences. These plans are scheduled to be implemented in 2001 and the first half of 2002, but that timing is dependent upon key supplies and other equipment for the development being available promptly as well as adequate financing.

In Ukraine, an assessment of both the Bugruvativske and Stynawske fields and preparation of a development program with Ukrnafta is currently underway. Based on its efforts to date, CanArgo plans to significantly increase production from these fields by investing in both remedial workover activity and potential infill drilling, horizontal drilling and pressure maintenance utilising appropriate technologies.

While a considerable amount of infrastructure for the Ninotsminda, Bugruvativske and Stynawske fields has already been put in place, CanArgo cannot provide assurance that:

- for the Bugruvativske and Stynawske fields, an adequate investment agreement and development plan can be put in place;
- funding of field development plans will be timely;
- that development plans will be successfully completed or will increase production; or
- that field operating revenues after completion of the development plan will exceed operating costs.

To pursue all of its existing projects and new opportunities, CanArgo will require additional capital. Potential sources of funds include additional equity, project financing, debt financing and the participation of other oil and gas entities in CanArgo's projects. Based on CanArgo's past history of raising

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

capital and continuing discussions including those with major stockholders, investment bankers and other companies, CanArgo believes that such required funds may be available. However, there is no assurance that such funds will be available, and if available, will be offered on attractive or acceptable terms.

13

14

Development of the oil and gas properties and ventures in which CanArgo has interests involves multi-year efforts and substantial cash expenditures. Full development of CanArgo's oil and gas properties and ventures will require the availability of substantial additional financing from external sources. CanArgo also may, where opportunities exist, seek to transfer portions of its interests in oil and gas properties and ventures to entities in exchange for such financing. CanArgo generally has the principal responsibility for arranging financing for the oil and gas properties and ventures in which it has an interest. There can be no assurance, however, that CanArgo or the entities that are developing the oil and gas properties and ventures will be able to arrange the financing necessary to develop the projects being undertaken or to support the corporate and other activities of CanArgo. There can also be no assurance that such financing as is available will be on terms that are attractive or acceptable to or are deemed to be in the best interest of CanArgo, such entities and their respective stockholders or participants.

Ultimate realization of the carrying value of CanArgo's oil and gas properties and ventures will require production of oil and gas in sufficient quantities and marketing such oil and gas at sufficient prices to provide positive cash flow to CanArgo. Establishment of successful oil and gas operations is dependent upon, among other factors, the following:

- mobilization of equipment and personnel to implement effectively drilling, completion and production activities;
- achieving significant production at costs that provide acceptable margins;
- reasonable levels of taxation, or economic arrangements in lieu of taxation in host countries; and
- the ability to market the oil and gas produced at or near world prices.

CanArgo has plans to mobilize resources and achieve levels of production and profits sufficient to recover the carrying value of its oil and gas properties and ventures. However, if one or more of the above factors, or other factors, are different than anticipated, these plans may not be realized, and CanArgo may not recover the carrying value of its oil and gas properties and ventures.

CanArgo will be entitled to distributions from the various properties and ventures in which it participates in accordance with the arrangements governing the respective properties and ventures.

CHANGES IN FINANCIAL POSITION

As of June 30, 2001, CanArgo had working capital of \$10,207,000, compared to working capital of \$22,687,000 as of December 31, 2000. The \$12,480,000 decrease in working capital from December 31, 2000 to June 30, 2001 is principally due to a reduction in cash as a result of the acquisition of Lateral Vector Resources Inc. ("LVR"), capital and operating expenditures.

Cash and cash equivalents decreased from \$28,627,000 at December 31, 2000 to \$10,902,000 at June 30, 2001. The decrease was primarily due to the cost of a three-well exploration program currently underway at the Ninotsminda field,

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

continued investment in refining and marketing activities and the acquisition of approximately 82% (77% on a fully diluted basis) of the outstanding common shares of LVR.

Cash and cash equivalents at June 30, 2001 included \$178,000 held by Ninotsminda Oil Company with respect to initial advances, less capital expenditures, from AES Gardabani related to AES Gardabani's participation in a three well exploration program in the Republic of Georgia.

Accounts receivable increased from \$787,000 at December 31, 2000 to \$1,320,000 at June 30, 2001. The increase is primarily as a result of accounts receivable generated from oil, natural gas and refined product sales in 2001.

Advances to operator increased from \$1,147,000 at December 31, 2000 to \$1,295,000 at June 30, 2001 as a result of advances to the operator of the Ninotsminda field for future expenditures on behalf and at the direction of CanArgo.

14

15

Inventory increased from \$696,000 at December 31, 2000 to \$1,172,000 at June 30, 2001 primarily as result of the sale of oil by Ninotsminda Oil Company to Georgian American Oil Refinery. Crude oil and refined product inventory increased to provide the refinery feedstock to commence operations and reestablish its position in the domestic and regional market. In addition to crude oil and refined product inventory at Georgian American Oil Refinery, approximately 31,900 barrels of oil were held in storage by Ninotsminda Oil Company at June 30, 2001 for sale either to Georgian American Oil Refinery or the Georgian domestic, region or international market.

Capital assets, net increased from \$50,477,000 at December 31, 2000 to \$63,294,000 at June 30, 2001, primarily as a result of investment of \$8,876,000 in capital assets including oil and gas properties and equipment, principally related to the Ninotsminda field. Capital assets also increased as a result of the acquisition of LVR and CanArgo Power in April 2001. Included in oil and gas related equipment acquired as part of the acquisition of LVR is \$701,000 with respect to oil and gas equipment located in China.

Investments in and advances to oil and gas and other ventures, net increased from \$696,000 at December 31, 2000 to \$756,000 at June 30, 2001. The increase is primarily due to advances to Boryslaw Oil Company of \$550,000 relating to a three well workover program currently underway on the Stynawske field, partially offset by the sale in April 2001 of CanArgo's investment in Uentech and the purchase of a 50% interest in CanArgo Power resulting in CanArgo Power becoming a wholly owned subsidiary of CanArgo.

CanArgo has contingent obligations and may incur additional obligations, absolute or contingent, with respect to the acquisition and development of oil and gas properties and ventures in which it has interests that require or may require CanArgo to expend funds and to issue shares of its Common Stock. At June 30, 2001, CanArgo had a contingent obligation to issue 187,500 shares of common stock to a third party upon satisfaction of conditions relating to the achievement of specified Stynawske field project performance standards. As CanArgo develops current projects and undertakes other projects, it could incur significant additional obligations.

Accounts payable increased to \$4,350,000 at June 30, 2001 from \$2,691,000 at December 31, 2000 primarily as a result of the acquisition of LVR, including \$701,000 with respect to liabilities related to a previous LVR project in China. Accrued liabilities also increased to \$536,000 at June 30, 2001 from \$324,000 at December 31, 2000 primarily as a result of the acquisition of LVR.

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

Advances from joint venture partner decreased to \$178,000 at June 30, 2001 compared to \$5,889,000 at December 31, 2000 as capital expenditures were incurred as part of a three well exploration program in the Republic of Georgia.

Minority interest in subsidiaries increased to \$3,304,400 at June 30, 2001 compared to \$1,394,000 at December 31, 2000 following the expansion of CanArgo Standard Oil Products in Tbilisi, Georgia and related investment by CanArgo's partners in the venture. CanArgo consolidates its 50% interest in CanArgo Standard Oil Products as it has the ability to control the strategic operating and financial activities of the joint venture.

RESULTS OF OPERATIONS

Six Month Period Ended June 30, 2001 Compared to Six Month Period Ended June 30, 2000

In November 2000, CanArgo acquired a 51% interest in Georgian American Oil Refinery and Georgian American Oil Refinery became a subsidiary of CanArgo. Under purchase accounting, Georgian American Oil Refinery's results have been included in CanArgo's consolidated financial statements since the date of acquisition. In December 2000, the first of several petrol stations planned by CanArgo Standard Oil Products also opened in Tbilisi, Georgia.

CanArgo recorded operating revenue of \$6,561,000 during the six month period ended June 30, 2001 compared with \$3,596,000 for the six month period ended June 30, 2000. The increase is primarily due to refining and marketing revenue from Georgian American Oil Refinery and CanArgo Standard Oil Products.

15

16

Ninotsminda Oil Company generated \$2,618,000 of revenue in the six month period ended June 30, 2001. Its net share of the 232,186 barrels (1,283 barrels per day) of gross oil production for sale from the Ninotsminda field in the period amounted to 140,140 barrels. An additional 16,900 barrels of oil were removed from storage and sold in the period. For the six month period ended June 30, 2000, Ninotsminda Oil Company's net share of the 244,787 barrels (1,352 barrels per day) of gross production was 126,590 barrels.

Ninotsminda Oil Company's entire share of production was sold into the Georgian local and regional market. Because lower transportation costs are involved, CanArgo believes that sales of Ninotsminda oil to customers in the Georgian local and regional market generally yield relatively higher net sales prices to Ninotsminda Oil Company than sales to other customers. Net sale prices for Ninotsminda oil sold during the first half of 2001 averaged \$19.15 per barrel as compared with an average of \$19.06 per barrel in the first half of 2000. Its net share of the 692,700 mcf of gas delivered was 450,250 mcf at an average net sale price of \$1.15 per mcf of gas. For the six month period ended June 30, 2000, Ninotsminda Oil Company's net share of the 791,000 mcf of gas delivered was 514,000 mcf at an average net sales price of \$1.23 per mcf of gas.

Refining and marketing revenue for the six month period ended June 30, 2001 relate to operating activities of Georgian American Oil Refinery and CanArgo Standard Oil Products. In the first half of 2001, sales from the refinery continued to be nominal following the imposition of restrictions and subsequent excise tax on feedstock and refined product. In April 2001, new legislation addressing indigenous refining activities was passed by the Republic of Georgia that removed or reduced excise taxes on feedstock and refined product. Refining operations did not recommence until June 2001.

CanArgo had no revenue from equipment rentals in the first half of 2001 compared

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

to other revenue from equipment rentals of \$196,000 for the six month period ended June 30, 2000.

The operating loss for the six month period ended June 30, 2001 amounted to \$2,100,000 compared with an operating loss of \$65,000 for the corresponding period in 2000. The increase in operating loss is attributable primarily to lower oil and gas revenue as a result of lower production, the sale of oil production to Georgian American Oil Refinery, an increase in Georgian American Oil Refinery's inventory levels following the recommencement of operations in June 2001 and significant increases in operating and corporate activity.

Lease operating expenses increased to \$1,113,000 for the six month period ended June 30, 2001 as compared to \$632,000 for the six month period ended June 30, 2000. The increase is primarily a result of increased activity at the Ninotsminda field.

Purchases of crude oil and products and refinery operating expenses of \$2,629,000 and \$197,000 respectively for the six month period ended June 30, 2001 relate to operating activities of Georgian American Oil Refinery and CanArgo Standard Oil Products.

Direct project costs increased to \$571,000 for the six month period ended June 30, 2001, from \$384,000 for the six month period ended June 30, 2000, reflecting increased activity within Georgia and reestablishment of activity with respect to the licence Boryslaw Oil Company holds in the Stynawske field, Ukraine. Direct project costs are expected to further increase following the acquisition of Lateral Vector Resources Inc. LVR negotiated and concluded a Joint Investment Production Activity (JIPA) agreement in 1998 to develop the Bugruvativske field in eastern Ukraine together with Ukrnafta. CanArgo believes that under the terms of this JIPA, LVR has certain rights to incremental production from the field. Ukrnafta and LVR are required under the terms of the JIPA to make a total initial contribution of \$2 million prior to December 31, 2000. LVR's portion of the initial contribution was \$960,000, which it failed to make. Furthermore, until such time as an investment agreement and valuation of the assets to be contributed by Ukrnafta is completed and accepted by LVR, LVR is not entitled to any of this production and any sharing of future production is to be determined after consideration of base oil. Under the terms of the JIPA and associated work programs, CanArgo expects to bring LVR current with respect to its outstanding investment obligations and to significantly increase production from the field by investment in both remedial workover activity and potential infill drilling, horizontal drilling and pressure maintenance utilizing appropriate technologies. CanArgo is presently evaluating LVR's interest and obligations under the JIPA and information

16

17

regarding the field, and is in discussions with Ukrnafta to resolve these and other open issues under the JIPA. There is no assurance as to whether such discussions will be successfully completed or, if completed, on what terms.

General and administrative costs increased to \$2,048,000 for the six month period ended June 30, 2001, from \$766,000 for the six month period ended June 30, 2000. The increase is primarily attributable to significant increased operating and corporate activity, higher costs attributed to the London office following the move of administrative and finance functions from Calgary to London in 2000 and general and administrative costs of \$375,000 related to refining and marketing activities.

The increase in depreciation, depletion and amortization expense to \$2,102,000 from \$1,879,000 for the six month period ended June 30, 2000 is attributable principally to depletion related to Ninotsminda field oil production and

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

depreciation of drilling equipment.

The equity income from investments increased to \$29,000 for the six month period ended June 30, 2001, from a loss of \$82,000 for the six month period ended June 30, 2000 as a result of equity income from production and sales of crude oil by Boryslaw Oil Company and the sale of Uentech International Corporation. Equity income from Boryslaw Oil Company was partially offset by expenses related to operation of the gas pipeline from Ninotsminda to the Gardabani power station and Rustavi industrial complex.

CanArgo recorded net other income of \$549,000 for the six months ended June 30, 2001, as compared to other loss of \$20,000 during the six months ended June 30, 2000. The principal reason for the increase is interest income on cash balances and equity income from investments.

The net loss of \$1,530,000 or \$0.02 per share for the six month period ended June 30, 2001 compares to a net loss of \$179,000, or \$nil per share for the six month period ended June 30, 2000. The weighted average number of common shares outstanding was substantially higher during the six month period ended June 30, 2001 than during the six month period ended June 30, 2000, due in large part to private placements in April, June and August 2000.

Three Month Period Ended June 30, 2001 Compared to Three Month Period Ended June 30, 2000

In November 2000, CanArgo acquired a 51% interest in Georgian American Oil Refinery and Georgian American Oil Refinery became a subsidiary of CanArgo. Under purchase accounting, Georgian American Oil Refinery's results have been included in CanArgo's consolidated financial statements since the date of acquisition. In December 2000, the first of several petrol stations planned by CanArgo Standard Oil Products also opened in Tbilisi, Georgia.

CanArgo recorded operating revenue of \$2,964,000 during the three month period ended June 30, 2001 compared with \$1,515,000 for the three month period ended June 30, 2000. The increase is due to refining and marketing revenue from Georgian American Oil Refinery and CanArgo Standard Oil Products. In 2001, oil and gas sales revenue decreased as production was sold from Ninotsminda Oil Company to its affiliate, Georgian American Oil Refinery.

Ninotsminda Oil Company generated \$870,000 of revenue in the three month period ended June 30, 2001. Its net share of the 101,230 barrels (1,112 barrels per day) of gross oil production for sale from the Ninotsminda field in the period amounted to 60,380 barrels. An additional 10,200 barrels of oil were removed from storage and sold in the period. For the three month period ended June 30, 2000, Ninotsminda Oil Company's net share of the 117,655 barrels (1,293 barrels per day) of gross production was 60,200 barrels.

Ninotsminda Oil Company's entire share of production was sold into the Georgian local and regional market. Because lower transportation costs are involved, CanArgo believes that sales of Ninotsminda oil to customers in the Georgian local and regional market generally yield relatively higher net sales prices to Ninotsminda Oil Company than sales to other customers. Net sale prices for Ninotsminda oil sold during the second quarter of 2001 averaged \$19.49 per barrel as compared with an average of \$19.42 per barrel in the second quarter of 2000. Its net share of the 246,0000 mcf of gas delivered was 159,915 mcf at an average net sale price of \$1.13 per mcf of gas. For the

three month period ended June 30, 2000, Ninotsminda Oil Company's net share of the 238,000 mcf of gas delivered was 154,700 mcf at an average net sales price

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

of \$1.18 per mcf of gas.

Refining and marketing revenues for the three month period ended June 30, 2001 relate to operating activities of Georgian American Oil Refinery and CanArgo Standard Oil Products. In the second quarter of 2001, sales from the refinery continued to be nominal following the imposition of restrictions and subsequent excise tax on feedstock and refined product. In April 2001, new legislation addressing indigenous refining activities was passed by the Republic of Georgia which removed or reduced excise taxes on feedstock and refined product. Refining operations did not recommence until June 2001.

CanArgo had no revenue from equipment rentals in the second quarter of 2001 compared to other revenue from equipment rentals of \$169,000 for the three month period ended June 30, 2000.

The operating loss for the three month period ended June 30, 2001 amounted to \$1,454,000 compared with an operating loss of \$187,000 for the corresponding period in 2000. The increase in operating loss is attributable primarily to lower oil and gas revenue as a result of lower production, the sale of oil production to Georgian American Oil Refinery, an increase in Georgian American Oil Refinery's inventory levels following the recommencement of operations in June 2001 and significant increases in operating and corporate activity.

Lease operating expenses increased to \$611,000 for the three month period ended June 30, 2001 as compared to \$260,000 for the three month period ended June 30, 2000. The increase is primarily a result of increased activity at the Ninotsminda field.

Purchases of crude oil and products and refinery operating expenses of \$1,472,000 and \$77,000 respectively for the three month period ended June 30, 2001 relate to operating activities of Georgian American Oil Refinery and CanArgo Standard Oil Products.

Direct project costs increased to \$322,000 for the three month period ended June 30, 2001, from \$247,000 for the three month period ended June 30, 2000, reflecting increased activity within Georgia and reestablishment of activity with respect to the licence Boryslaw Oil Company holds in the Stynawske field, Ukraine. Direct project costs are expected to further increase following the acquisition of Lateral Vector Resources Inc. See the discussion regarding the acquisition of LVR and projected activities on the Bugruvativske field under the six-month comparison of operating results set forth above.

General and administrative costs increased to \$1,020,000 for the three month period ended June 30, 2001, from \$392,000 for the three month period ended June 30, 2000. The increase is primarily attributable to significant increased operating and corporate activity, higher costs attributed to the London office following the move of administrative and finance functions from Calgary to London in 2000 and general and administrative costs of \$184,600 related to refining and marketing activities.

The increase in depreciation, depletion and amortization expense to \$917,000 from \$804,000 for the three month period ended June 30, 2000 is attributable principally to depletion related to Ninotsminda field oil production and depreciation of drilling equipment.

The equity income from investments increased to \$66,000 for the three month period ended June 30, 2001, from a loss of \$69,000 for the three month period ended June 30, 2000 as a result of equity income from production and sales of crude oil by Boryslaw Oil Company and the sale of Uentech International Corporation. Equity income from Boryslaw Oil Company was partially offset by expenses related to operation of the gas pipeline from Ninotsminda to the Gardabani power station.

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

CanArgo recorded net other income of \$199,000 for the three months ended June 30, 2001, as compared to other income of \$5,000 during the three months ended June 30, 2000. The principal reason for the increase is interest income on cash balances and equity income from investments.

18

19

The net loss of \$1,203,000 or \$0.02 per share for the three month period ended June 30, 2001 compares to a net loss of \$280,000, or \$0.01 per share for the three month period ended June 30, 2000. The weighted average number of common shares outstanding was substantially higher during the three month period ended June 30, 2001 than during the three month period ended June 30, 2000, due in large part to private placements in April, June and August 2000.

NEW ACCOUNTING STANDARDS

In July 2001, the FASB issued Statement No. 141, Business Combinations, and Statement No. 142, Goodwill and Other Intangible Assets. Statement 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001 as well as all purchase method business combinations completed after June 30, 2001. Statement 141 also specifies criteria, which must be met, for intangible assets acquired in a purchase method business combination to be recognized and reported apart from goodwill. Statement 142 will require that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead tested for impairment at least annually in accordance with the provisions of Statement 142. Statement 142 will also require that intangible assets with definite useful lives be amortized over their respective estimated useful lives to their estimated residual values, and reviewed for impairment in accordance with SFAS No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of.

CanArgo is required to adopt the provisions of Statement 141 immediately and Statement 142 effective January 1, 2002. Furthermore, any goodwill and any intangible asset determined to have an indefinite useful life that are acquired in a purchase business combination completed after June 30, 2001 will not be amortized, but will continue to be evaluated for impairment in accordance with the appropriate pre-Statement 142 accounting literature. Based on present circumstances SFAS No. 141 and No. 142 would not have any material effect on CanArgo's financial statements.

FORWARD LOOKING STATEMENTS

The forward looking statements contained in this Item 2 and elsewhere in this Form 10-Q are subject to various risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated in such forward looking statements. Included among the important risks, uncertainties and other factors are those hereinafter discussed.

Operating entities in various foreign jurisdictions must be registered by governmental agencies, and production licenses for development of oil and gas fields in various foreign jurisdictions must be granted by governmental agencies. These governmental agencies generally have broad discretion in determining whether to take or approve various actions and matters. In addition, the policies and practices of governmental agencies may be affected or altered by political, economic and other events occurring either within their own countries or in a broader international context.

CanArgo does not have a majority of the equity in the entity that is the licensed developer of some projects that CanArgo may pursue in Eastern Europe such as the Bugruvativske and Stynawske field projects, even though CanArgo may

be the designated operator of the oil or gas field. In such circumstances, the concurrence of co-venturers may be required for various actions. Other parties influencing the timing of events may have priorities that differ from those of CanArgo, even if they generally share CanArgo's objectives. As a result of all of the foregoing, among other matters, the forward looking statements regarding the occurrence and timing of future events may well anticipate results that will not be realized.

19

20

The availability of equity or debt financing to CanArgo or to the entities that are developing projects in which CanArgo has interests is affected by many factors including:

- world economic conditions;
- international relations;
- the stability and policies of various governments;
- fluctuations in the price of oil and gas and the outlook for the oil and gas industry;
- competition for funds; and
- an evaluation of CanArgo and specific projects in which CanArgo has an interest.

Rising interest rates might affect the feasibility of debt financing that is offered. Potential investors and lenders will be influenced by their evaluations of CanArgo and its projects and comparisons with alternative investment opportunities. CanArgo's ability to finance all of its present oil and gas projects and other ventures according to present plans is dependent upon obtaining additional funding. An inability to obtain financing could require CanArgo to scale back its project development, capital expenditure, production and other plans.

The development of oil and gas properties is subject to substantial risks. Expectations regarding production, even if estimated by independent petroleum engineers, may prove to be unrealized. There are many uncertainties inherent in estimating production quantities and in projecting future production rates and the timing and amount of future development expenditures. Estimates of properties in full production are more reliable than production estimates for new discoveries and other properties that are not fully productive. Accordingly, estimates related to CanArgo's properties are subject to change as additional information becomes available.

Most of CanArgo's interests in oil and gas properties and ventures are located in Eastern European countries. Operations in those countries are subject to certain additional risks including the following:

- enforceability of contracts;
- currency convertibility and transferability;
- unexpected changes in tax rates;
- sudden or unexpected changes in demand for crude oil and or natural gas;
- availability of trained personnel; and

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

- availability of equipment and services and other factors that could significantly change the economics of production.

Production estimates are subject to revision as prices and costs change. Production, even if present, may not be recoverable in the amount and at the rate anticipated and may not be recoverable in commercial quantities or on an economically feasible basis. World and local prices for oil and gas can fluctuate significantly, and a reduction in the revenue realizable from the sale of production can affect the economic feasibility of an oil and gas project. World and local political, economic and other conditions could affect CanArgo's ability to proceed with or to effectively operate projects in various foreign countries.

Demands by or expectations of governments, co-venturers, customers and others may affect CanArgo's strategy regarding the various projects. Failure to meet such demands or expectations could adversely affect CanArgo's participation in such projects or its ability to obtain or maintain necessary licenses and other approvals.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

CanArgo principal exposure to market risk is due to changes in oil and gas prices and currency fluctuations. As indicated elsewhere in this Report, as a producer of oil and gas CanArgo is exposed to changes in oil and gas prices as well as changes in supply and demand which could affect its revenues. CanArgo does not engage in any commodity hedging activities. Due to the ready market for its production in the Republic of Georgia, CanArgo does not believe that any current exposures from this risk will materially affect CanArgo's financial position at this time, but there can be no assurance that changes in such market will not affect CanArgo adversely in the future. Also as indicated elsewhere in this Report, because all of CanArgo's operations are being conducted in Eastern Europe, CanArgo is potentially exposed to the market risk of fluctuations in the relative values of the currencies in areas in which it operates. At present CanArgo does not engage in any currency hedging operations since, to the extent it receives payments in local currencies, it is utilizing such currencies to pay for its local operations. In addition, it currently has contracts to sell its production from the Ninotsminda field in the Republic of Georgia which provide for payment in dollars. Accordingly, at present CanArgo does not believe that any exposure to the risk of fluctuations in currency values will materially affect CanArgo's financial position. There can be no assurance, however, that this continues into the future. CanArgo had no material interest in investments subject to market risk during the period covered by this report.

PART II - OTHER INFORMATION CANARGO ENERGY CORPORATION AND SUBSIDIARIES

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On June 7, 2001, the Annual Meeting of Stockholders was held at the Felix Konferansesenter, Bryggetorget 3, Aker Brygge, Oslo, Norway for the following purposes; to elect four directors to serve until the next Annual Meeting of Stockholders or until their successors are duly elected and qualified, and to approve a proposal to amend the 1995 Long-Term Incentive Plan to increase the number of shares that may be issued thereunder from 4,000,000 to 7,500,000 shares, subject to a limit on the number of outstanding stock options and stock

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

appreciation rights under the Plan to an amount that would not exceed 10% of the number of then outstanding shares of Common Stock. The matters were voted upon at the meeting, and the number of votes cast for, against or withheld, as to each matter, where applicable, are set forth below.

PROPOSAL -----	VOTES FOR -----	VOTES AGAINST -----	VOTES WITHHELD -----
To elect Messrs. Roger Brittain, David Robson, Russell Hammond and Nils Trulsvik to the Board of Directors	64,297,344	-	1,957,711
To ratify amendments to the Long Term Stock Incentive Plan	15,734,221	2,821,626	1,876,798

(b) Reports on Form 8-K:

On July 5, 2001 CanArgo completed the acquisition of the remaining outstanding common shares of Lateral Vector Resources Inc. ("LVR") and LVR became a wholly owned subsidiary of CanArgo. LVR is an oil and gas company with activities principally in east Ukraine. According to publicly available information, LVR negotiated and concluded a Joint Investment Production Activity (JIPA) agreement in 1998 to develop the Bugruvativske Field (the "Field") in eastern Ukraine together with Ukrnafta. Under the terms of this JIPA, LVR have certain rights to

Edgar Filing: CANARGO ENERGY CORP - Form 10-Q

incremental production from the Field, which CanArgo understands is currently producing oil, and is one of the larger oil fields in that area.

On July 4, 2001, CanArgo announced that it closed a private placement of approximately 16 million shares of its common stock for net proceeds of approximately \$6.8 million. Such proceeds will be used to replenish cash resources used to acquire LVR, to initiate development of its Ukrainian properties and for working capital purposes. Sundal Collier & Co ASA and Den norske Bank ASA, DnB Markets acted as placement agents for this transaction and received a success fee of 5.75% of the gross proceeds of NOK 68,245,500 (approximately US\$ 7,280,000). The shares to be issued in connection with this placement were issued under Regulation S of the Securities Act of the United States and have not been registered under the Securities Act of 1933, as amended, and may not be offered or sold in the United States or to U.S. persons (as defined in such Regulation) absent registration or an applicable exemption from registration.

SIGNATURES

In accordance with the requirements of the Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
