SUMMARY

Because this is a summary, it may not contain all the information that may be important to you. You should read this entire prospectus before making an investment decision. Except as otherwise stated, when used in this prospectus, the terms Anixter, we, our and us refer to Anixter International Inc. and its subsidiaries.

Anixter International

We are the leading global distributor of data, voice, video and security network communication products. In addition, we are the largest North American distributor of specialty wire and cable products. As the result of our recent purchase of the operations and assets of Pentacon, Inc., we also distribute C class inventory components, including screws, bolts, nuts, washers, pins, rings, fittings, springs, electrical connectors and similar small parts, many of which are specialized or highly engineered for particular applications.

We are an industry leader in the provision of advanced inventory management services, including procurement, just-in-time delivery, quality assurance testing, advisory engineering services, component kit production, small component assembly and e-commerce and electronic data interchange, to a broad spectrum of customers. Our comprehensive supply chain management solutions are designed to reduce customer procurement and management costs and enhance overall production efficiencies. Inventory management services in many cases include the interfacing of Anixter and customer information systems and the maintenance of dedicated distribution facilities.

Our customers include international, national, regional, and local companies that include end users of our products, installers and resellers of our products and original equipment manufacturers who use our products as a component of their end product. Customers for our products cover all industry groups, including manufacturing, telecommunications, internet service, finance, education, health care, transportation, utilities and government as well as contractors, installers, system integrators, value added resellers, architects, engineers and wholesale distributors.

Our principal executive offices are located at 2301 Patriot Boulevard, Glenview, Illinois 60025. Our telephone number at those offices is (224) 521-8000.

The Offering

LYONs	\$378,135,000 aggregate principal amount at maturity of Liquid Yield Option Notes due 2033. We will not pay interest on the LYONs prior to maturity unless contingent interest becomes payable as described below. Each LYON was issued at a price of \$380.16 per LYON and has a principal amount at maturity of \$1,000.
Maturity of LYONs	July 7, 2033.
Yield to Maturity of LYONs	3.25% per year (computed on a semi-annual bond equivalent basis) calculated from July 7, 2003, excluding any contingent interest.
Ranking	The LYONs are our unsecured and unsubordinated obligations and rank (i) equally in right of payment to all our existing and future unsecured and unsubordinated indebtedness and (ii) effectively junior to all our existing and future secured indebtedness to the extent of the value of the assets securing such indebtedness. As of July 4, 2003, we had approximately \$189.8 million of indebtedness outstanding

(none of which was secured indebtedness), excluding indebtedness of our subsidiaries.

In addition, we are a holding company and, accordingly, we conduct substantially all of our operations through our subsidiaries. Because claims by creditors of those subsidiaries would be senior to our equity interests in such subsidiaries, our indebtedness, including the LYONs, is structurally subordinated to the claims of such creditors. As of July 4, 2003, our consolidated subsidiaries had approximately \$463.6 million in total liabilities, including \$88.5 million in debt.

Original Issue Discount

We offered each LYON with an original issue discount for United States federal income tax purposes equal to the principal amount at maturity of each LYON less the issue price to investors. You should be aware that, although we will not pay cash interest on the LYONs, U.S. investors must include accrued original issue discount in their gross income for United States federal income tax purposes prior to the conversion, redemption, sale, or maturity of the LYONs (even if such LYONs are ultimately not converted, redeemed, sold or paid at maturity).

Conversion Rights

For each LYON surrendered for conversion, if the conditions for conversion are satisfied, a holder will receive 12.8773 shares of our common stock. Upon conversion, we will have the right to deliver, in lieu of our common stock, cash or a combination of cash and common stock. If we elect to pay holders cash for their LYONs, the payment will be based on the average sale price of our common stock for the five consecutive trading days immediately following either:

the date of our notice of our election to deliver cash, which we must give within two business days after receiving a conversion notice, unless we have earlier given notice of redemption as described in this prospectus; or

the conversion date, if we have given notice of redemption specifying that we intend to deliver cash upon conversion thereafter.

The conversion rate will be adjusted for reasons specified in the indenture but will not be adjusted for accrued original issue discount. Upon conversion, a holder will not receive any cash payment representing accrued original issue discount, contingent interest or accrued tax original issue discount. Instead, such amounts will be deemed paid by the shares of common stock, cash or a combination of cash and common stock received by the holder on conversion. See Description of LYONs Conversion Rights.

Holders may surrender LYONs for conversion in any fiscal quarter commencing after October 3, 2003 if the closing sale price of our common stock for at least 20 trading days in a period of 30 consecutive trading days ending on the last

trading day of the preceding fiscal quarter is more than 120% of the accreted conversion price per share of common stock on the last day of such preceding quarter. The accreted conversion price per share as of any day will equal the issue price of a LYON plus the accrued original issue discount to that day, divided by the conversion rate on that day.

Holders may also surrender a LYON for conversion at any time when (i) the credit rating assigned to the LYONs is B3 or lower by Moody's Investors Service (Moody's), B+ or lower by Standard & Poor's, a division of The McGraw-Hill Companies, Inc. (Standard & Poor's), or B+ or lower by Fitch, Inc. (Fitch) or (ii) the LYONs are no longer rated by either Moody's or Standard & Poor's or the credit rating assigned to the LYONs has been suspended or withdrawn by either Moody's or Standard & Poor's.

LYONs or portions of LYONs in integral multiples of \$1,000 principal amount at maturity called for redemption may also be surrendered for conversion until the close of business on the second business day prior to the redemption date. In addition, if we make certain distributions to our shareholders or if we are a party to certain consolidations, mergers or binding share exchanges, LYONs may be surrendered for conversion as provided in Description of LYONs Conversion Rights. The ability to surrender LYONs for conversion will expire at the close of business on July 6, 2033.

Contingent Interest

We will pay contingent interest to the holders of LYONs during any six-month period from July 8 to January 7 or January 8 to July 7, commencing after July 7, 2011, if the average market price of a LYON for the five trading days ending on the third trading day immediately preceding the first day of such six-month period equals 120% or more of the sum of the issue price and accrued original issue discount for such LYON as of the day immediately preceding such six-month period.

The contingent interest payable per LYON in respect of any six-month period in which contingent interest is payable will equal an annual rate of .25% of the average market price of a LYON for the five trading day measurement period.

Contingent interest, if any, will accrue and be payable on the last day of the relevant six-month period. The original issue discount will continue to accrue at the yield to maturity whether or not contingent interest is paid.

Tax Original Issue Discount

The LYONs are debt instruments subject to the United States federal income tax contingent payment debt regulations. You should be aware that, even if we do not pay any contingent interest on the LYONs, you will be required to include interest in your gross income for United States federal income tax purposes. This imputed interest, also referred to as tax original issue discount, will accrue at a rate equal to 7.3% per year, computed on a semi-annual bond equivalent

basis, which represents the yield we believe we would pay on our noncontingent, nonconvertible, fixed-rate debt with terms otherwise similar to the LYONs, subject to a minimum yield equal to the applicable federal rate (based on the overall maturity of the LYONs). The rate at which the tax original issue discount will accrue for United States federal income tax purposes will exceed the stated yield of 3.25% for the accrued original issue discount. Your adjusted tax basis in a LYON will be increased over time to reflect the accrual of the tax original issue discount and will be decreased to reflect certain projected payments on a LYON.

You will also recognize gain or loss on the sale, exchange, conversion or redemption of a LYON in an amount equal to the difference between the amount realized on the sale, exchange, conversion or redemption, including the fair market value of any common stock received upon conversion or otherwise, and your adjusted tax basis in the LYON. Any gain recognized by you on the sale, exchange, conversion or redemption of a LYON generally will be ordinary interest income; any loss will be ordinary loss to the extent of the interest previously included in income, and thereafter, capital loss. See Certain United States Federal Income Tax Considerations.

Redemption of LYONs at the Option of Anixter

We may redeem all or a portion of the LYONs for cash at any time on or after July 7, 2011 at the redemption prices set forth in Description of LYONs Redemption of LYONs at the Option of Anixter.

Purchase of LYONs by Anixter at the Option of the Holder

Holder may require us to purchase all or a portion of their LYONs:

on July 7, 2007 at a price equal to \$432.48 per LYON;

on July 7, 2009 at a price equal to \$461.29 per LYON;

on July 7, 2011 at a price equal to \$492.01 per LYON;

on July 7, 2013 at a price equal to \$524.78 per LYON;

on July 7, 2018 at a price equal to \$616.57 per LYON;

on July 7, 2023 at a price equal to \$724.42 per LYON; and

on July 7, 2028 at a price equal to \$851.13 per LYON.

In each case, such price includes accrued original issue discount to the purchase date. We may choose to pay the purchase price in cash or in common stock (based on the prevailing market price thereof) or a combination of cash and common stock. See Description of LYONs Purchase of LYONs by Anixter at the Option of the Holder.

Change in Control

Upon a change in control of Anixter occurring on or before July 7, 2011, each holder may require us to purchase all or a

portion of such holder's LYONs for cash at a price equal to 100% of the issue price for such LYONs plus accrued original issue discount to the date of purchase. See Description of LYONs Change in Control Permits Purchase of LYONs by Anixter at the Option of the Holder.

RISK FACTORS

You should consider carefully the specific factors set forth below as well as the other information contained in, or incorporated by reference into, this prospectus before deciding whether to purchase any of the LYONs offered hereby.

Risks Related to Our Business

We have experienced declines in sales which have adversely affected and could continue to adversely affect our earnings.

We have experienced significant declines in sales in all markets in which we operate. We believe this decline is the result of a significant decline in capital spending in the telecommunications industry, a reduction in technology related capital spending, and general overall economic softness that has negatively affected the markets we serve. In addition, manufacturing overcapacity by our suppliers has reduced our per unit purchase costs, which has in turn reduced our unit sales prices.

While we expect an economic recovery, there can be no assurance as to the timing and strength of such recovery and how it will impact our markets.

A change in sales strategy by our suppliers could adversely affect our sales or earnings.

Most of our agreements with suppliers are terminable by either party on short notice for any reason. We currently source products from approximately 2,000 suppliers. However, approximately 35% of our dollar volume purchases in 2002 was from our five largest suppliers. If any of these suppliers changed its sales strategy to reduce its reliance on distribution channels, or decided to terminate its business relationship with us, our sales and earnings could be adversely affected until we were able to establish relationships with suppliers of comparable products. Although we believe our relationships with these key suppliers is good, they could change their strategies as a result of a change in control, expansion of their direct sales force, changes in the marketplace or other factors beyond our control.

Our foreign operations are subject to political, economic and currency risks.

We derive approximately 30% of our revenues from sales outside of the United States. Economic and political conditions in some of these markets may adversely affect our results of operations, cash flows and financial condition for our business activities in these markets. Our results of operations and the value of our foreign assets are affected by fluctuations in foreign currency exchange rates, and different legal, tax, accounting and regulatory requirements.

We have risks associated with inventory.

We must identify the right product mix and maintain sufficient inventory on hand to meet customer orders. Failure to do so could adversely affect our sales and earnings. However, if circumstances change (for example, an unexpected shift in market demand, pricing or customer defaults) there could be a material impact on the net realizable value of our inventory. To guard against inventory obsolescence, we have negotiated various return rights and price protection agreements with certain key suppliers. We also maintain an inventory valuation reserve account against diminution in the value or salability of our inventory. However, there is no guaranty that these arrangements will be sufficient to avoid write-offs in excess of our reserves in all circumstances.

Changes in the telecommunication products industry could adversely affect our business.

With the deterioration of market conditions in the telecommunication products industry, our two largest customers have experienced significant downturns in their business. This has resulted in each of them incurring large losses and multiple restructuring charges. If these conditions persist for an extended period of time, these customers may experience future liquidity problems. We hold a significant amount of

accounts receivable and inventory relating to these customers. We believe that the inventory and logistics services that we provide to these two customers are critical to their on-going operations. While we believe that the current risk is minimal, if these customers were to default on their obligations to us, the effect on us could be material.

Our common stock price historically has been volatile.

The price of our common stock has fluctuated, and may continue to fluctuate, significantly in response to our operating performance and the performance of other similar companies; news announcements relating to us, our industry or our competitors, vendors or customers; changes in earnings estimates or recommendations by research analysts; changes in general economic conditions; and other developments affecting us or our industry, including our competitors, vendors and customers. The concentration of ownership of our common stock by a small number of holders may result in additional volatility. As a result of such concentration, from time to time, the volume of our stock traded in relation to the number of outstanding shares has been low, which can magnify price changes.

Risks Related to the Offering

Our holding company structure results in substantial structural subordination and may affect our ability to make payments on the LYONs.

The LYONs are obligations exclusively of Anixter International Inc. We are a holding company and, accordingly, we conduct substantially all of our operations through our subsidiaries. As a result, our cash flow and our ability to service our debt, including the LYONs, is dependent upon the earnings of our subsidiaries. In addition, we are dependent on the distribution of earnings, loans or other payments by our subsidiaries to us.

Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the LYONs or to provide us with funds for our payment obligations, whether by dividends, distributions, loans or other payments. In addition, any payment of dividends, distributions, loans or advances by our subsidiaries to us are subject to statutory or contractual restrictions. Payments to us by our subsidiaries will also be contingent upon our subsidiaries' earnings and business considerations. Certain debt agreements entered into by our subsidiaries contain various restrictions, including restrictions on payments to us. We have guaranteed substantially all of the debt of our consolidated subsidiaries.

Our right to receive any assets of any of our subsidiaries upon their liquidation or reorganization, and therefore the right of the holders of the LYONs to participate in those assets, will be structurally subordinated to the claims of that subsidiary's creditors, including trade creditors. The LYONs do not restrict the ability of our subsidiaries to incur additional indebtedness. In addition, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us.

As of July 4, 2003, our consolidated subsidiaries had approximately \$463.6 million in total liabilities, including \$88.5 million in debt, to which the LYONs would have been structurally subordinated as described above.

Our debt agreements could impose restrictions on our business.

Our debt agreements contain numerous financial and operating covenants that limit our discretion with respect to certain business matters. These covenants restrict our ability to incur additional indebtedness, to pay dividends and other distributions, and to merge or consolidate with other entities.

In certain circumstances, your claims as a holder of a LYON could be subordinated in the event of our bankruptcy.

If a holder elects to convert a LYON for common stock of Anixter and we thereafter become the subject of bankruptcy proceedings, if we have failed to deliver our common stock, a holder's claim in respect of the LYONs could be subordinated to all of our existing and future obligations. In addition, if a holder requires us to purchase all or a portion of its LYONs and we elect to deliver common stock in satisfaction of our obligations but fail to deliver such common stock, and we then become the subject of bankruptcy proceedings, a holder may not be able to rescind its notice obligating us to purchase all or a portion of its LYONs, and a holder's claim may be subordinated to all of our existing and future obligations. Furthermore, it is unclear how such a subordinated claim would be valued.

We may not have the funds necessary to purchase LYONs at the option of the holders or upon a change in control.

On July 7, 2007, 2009, 2011, 2013, 2018, 2023 and 2028, holders of LYONs may require us to purchase their LYONs. However, it is possible that we would not have sufficient funds at that time to make the required purchase of LYONs. We may be required to pay all or a portion of the purchase price in shares of common stock, subject to satisfying the conditions in the indenture for making such payments. If we were unable to satisfy the conditions in the indenture to use common stock to pay the purchase price, we could be in default of our obligations on the LYONs. See Description of LYONs Purchase of LYONs by Anixter at the Option of the Holder.

Upon the occurrence of specific kinds of change in control events occurring on or before July 7, 2011, holders of LYONs may also require us to purchase all or a portion of their LYONs. However, it is possible that upon a change in control we would not have sufficient funds to make the required purchase of LYONs or that restrictions in our other indebtedness would not allow those purchases. In addition, certain important corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, would not constitute a change in control under the indenture. See Description of LYONs Change in Control Permits Purchase of LYONs by Anixter at the Option of the Holder. We are subject to similar change in control provisions in the indenture governing our zero coupon convertible senior notes that were issued in June 2000.

In addition, our principal operating subsidiary, Anixter Inc., is subject to change of control provisions, with respect to both Anixter International Inc. and Anixter Inc., in its bank credit agreement. Under the bank credit agreement, if certain change of control events (which may not constitute a change in control under the indenture governing the LYONs) occur, it would constitute an event of default thereunder. It is possible that Anixter Inc. will not have sufficient funds to repay the bank indebtedness in such event. It is also possible that contractual restrictions or the terms of other indebtedness will not allow such payments. In addition, if the LYONs are subject to repurchase, the LYONs will be structurally subordinated to any required repayment under the bank credit agreement.

You should consider the United States federal income tax consequences of owning LYONs.

The LYONs are characterized as indebtedness of ours for United States federal income tax purposes. Accordingly, you will be required to include interest with respect to the LYONs in your income.

The LYONs constitute contingent payment debt instruments. As a result, you will be required to include amounts in income, as ordinary income, in advance of the receipt of the cash attributable thereto, and to accrue interest on a constant yield to maturity basis at a rate comparable to the rate at which we would issue a noncontingent, nonconvertible, fixed-rate debt instrument with terms otherwise similar to the LYONs, subject to a minimum rate equal to the applicable federal rate (based on the overall maturity of the LYONs). This rate will be 7.3% per year on a semiannual compounding basis. The amount of interest income required to be included by you for each year will be in excess of the yield to maturity of the LYONs. You will recognize gain or loss on the sale, exchange, conversion or redemption of a LYON in an amount equal to the difference between the amount realized on such sale, exchange, conversion or

redemption, including the fair market value of any common stock received upon conversion or otherwise, and your adjusted tax basis in the LYON. Any gain recognized by you on the sale, exchange, conversion or redemption of a LYON generally will be ordinary interest income; any loss will be ordinary loss to the extent of the interest previously included in income, and thereafter, capital loss. A summary of the United States federal income tax consequences of ownership of the LYONs is described in this prospectus under the heading Certain United States Federal Income Tax Considerations.

An active trading market for the LYONs may not develop.

We cannot assure you that an active trading market will develop for the LYONs. If an active trading market does develop for the LYONs, they may trade at a discount from their initial offering price depending on prevailing interest rates, the market for similar securities, the price of our common stock, its and our performance and other factors.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of the LYONs or common stock by the Selling Securityholders. See Selling Securityholders for a list of those entities receiving proceeds from sales of LYONs

As of August 25, 2003, there were approximately 36,208,080 shares of common stock outstanding and approximately 4,026 holders of record.

We have never paid cash dividends on our common stock. Payment of dividends is at the discretion of our board of directors. Our subsidiaries' debt agreements contain financial covenants that restrict their ability to pay dividends and other distributions to us, which in turn could limit our ability to pay dividends to our shareholders.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of earnings to fixed charges for the periods indicated:

	Fiscal Year Ended				13 Weeks Ended		
	Jan. 1, 1999	Dec. 31, 1999	Dec. 29, 2000	Dec. 28, 2001	Jan. 3, 2003	Apr. 4, 2003	Jul. 4, 2003
Ratio of earnings to fixed charges(1)	2.83	2.44	3.18	1.72	2.93	2.91	1.95

- (1) Earnings represent income before taxes, excluding equity investment income relating to Anixter Receivables Corporation, plus fixed charges. Fixed charges consist of (i) interest on all indebtedness and amortization of debt discount and deferred financing fees, (ii) capitalized interest and (iii) interest factor attributable to rentals. As a result of our adoption of Statement of Financial Accounting Standards No. 145 on January 4, 2003, any gain or loss from the extinguishment of debt is classified as income or loss from continuing operations rather than as an extraordinary item. As a result, the earnings in the above ratio for the fiscal year ended January 3, 2003 and prior periods have been revised to include any loss on extinguishment of debt.

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES

Management used certain non-GAAP financial measures in its Management's Discussion and Analysis of Financial Condition and Results of Operations, or MD&A, in the Annual Report on Form 10-K for the year ended January 3, 2003 and the Quarterly Report on Form 10-Q for the quarter ended April 4, 2003. These non-GAAP financial measures excluded certain items from the GAAP financial measures of operating income and net sales and are presented in order to help identify and isolate trends in the business. Management believes these disclosures are useful to investors in order to make period-to-period comparisons more meaningful. Management excluded the impact of the 2001 restructuring, goodwill amortization in 2001 and fulfillment sales in 2000 in the MD&A in the 2002 Form 10-K and the effect of foreign currency translation in the MD&A in the 2002 Form 10-K and the 2003 first quarter Form 10-Q. Management views the 2001 restructuring as unusual since it was directly related to the deterioration of market conditions in the communications product market. In order to have comparable results, management excluded goodwill from fiscal year 2001 results since Anixter no longer amortizes goodwill in accordance with Statement of Accounting Standards No. 142, Goodwill and Other Intangible Assets. A significant one-time fulfillment sales agreement to the service provider market was excluded from the 2000 results, since it was a major contract that was unlikely to be repeated in the future. The effect of currency translations between periods was made constant in order to analyze the results of the foreign entities in their local currency. Anixter has not used these non-GAAP measures subsequent to the 2003 first quarter Form 10-Q.

The following tables provide a reconciliation from the reported net sales and operating income amounts to the adjusted balances that were used in the MD&A in the 2002 Form 10-K and the 2003 first

quarter Form 10-Q, as well as a reconciliations of percentage changes in net sales and operating income from period to period used in the MD&A.

(3) certifies to its non-U.S. status on IRS Form W-8BEN, IRS Form W-8BEN-E or another applicable form (or the successor to any of them).

A non-U.S. holder that cannot satisfy the above requirements generally will be exempt from U.S. federal withholding tax with respect to interest paid on the notes if the holder establishes that such interest is not subject to withholding tax because it is effectively connected with the non-U.S. holder's conduct of a trade or business in

the United States (generally, by providing an IRS Form W-8ECI). However, to the extent that such interest is effectively connected with the non-U.S. holder's conduct of a trade or business (and, in the case of certain tax treaties, is attributable to a permanent establishment or fixed base within the United States), the non-U.S. holder will be subject to U.S. federal income tax on a net basis and, if it is a foreign corporation, may be subject to a 30% U.S. branch profits tax (or lower applicable treaty rate). In addition, under certain income tax treaties, the U.S. withholding rate on interest payments may be reduced or eliminated, provided the non-U.S. holder complies with the applicable certification requirements (generally, by providing an IRS Form W-8BEN, IRS Form W-8BEN-E or other applicable form or successor form). If a non-U.S. holder does not satisfy the requirements described above, and does not establish that the interest is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States, the non-U.S. holder will generally be subject to U.S. withholding tax, currently imposed at a rate of 30%.

Disposition. Subject to the discussion below regarding information reporting and backup withholding, a non-U.S. holder generally will not be subject to U.S. federal income taxation with respect to gain realized on the sale, exchange or other disposition of a note, unless:

- (1) the non-U.S. holder holds the note in connection with the conduct of a U.S. trade or business (and, in the case of certain tax treaties, the gain is attributable to a permanent establishment or fixed base within the United States); or
- (2) in the case of an individual, such individual is present in the United States for 183 days or more during the taxable year in which gain is realized and certain other conditions are met.

If the non-U.S. holder holds the note in connection with the conduct of a U.S. trade or business (and, in the case of certain tax treaties, the gain is attributable to a permanent establishment or fixed base within the United States maintained by the non-U.S. holder), the first exception applies, and the non-U.S. holder generally will be subject to U.S. federal income tax on a net basis and, if it is a foreign corporation, may be subject to a 30% U.S. branch profits tax (or lower applicable treaty rate). If the non-U.S. holder is an individual that is present in the United States for 183 days or more during the taxable year in which gain is realized (and certain other conditions are met), the second exception applies, and the non-U.S. holder generally will be subject to U.S. federal income tax at a rate of 30% (or at a reduced rate under an applicable income tax treaty) on the amount by which capital gains allocable to U.S. sources (including gains from the sale, exchange, retirement or other disposition of the notes) exceed capital losses allocable to U.S. sources.

Information reporting and backup withholding. A non-U.S. holder not subject to U.S. income tax may nonetheless be subject to backup withholding and information reporting with respect to interest paid or accrued on a note, and with respect to amounts realized on the disposition of a note, unless the non-U.S. holder provides the withholding agent with the applicable IRS Form W-8 or otherwise establishes an exemption. Non-U.S. holders should consult their tax advisors as to their qualifications for an exemption for backup withholding and the procedure for obtaining such an exemption. In addition, payments to a non-U.S. holder and proceeds from certain dispositions of a note may be reported to the IRS and may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder may be credited against the non-U.S. holder's U.S. federal income tax liability, if any, or refunded, if the required information is furnished to the IRS in a timely manner. Non-U.S. holders should consult their tax advisors regarding the information reporting and backup withholding rules to them.

Foreign Account Tax Compliance Act (FATCA). Under Sections 1471 through 1474 of the Code and the Treasury regulations and administrative guidance thereunder, commonly referred to as FATCA, U.S. federal withholding tax at a rate of 30% is imposed on U.S.-source interest on, and, beginning after December 31, 2018, on sales or redemption proceeds of, a note paid to (i) a foreign financial institution (as defined for this purpose) unless such institution is exempt from FATCA withholding pursuant to an applicable intergovernmental agreement between the jurisdiction in which it is located and the United States, enters into an agreement with the

U.S. government to collect and provide to the U.S. tax authorities information regarding U.S. account holders of such institution (which would include certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners) or meets other exemptions or (ii) a foreign entity that is not a financial institution, unless such entity is exempt from FATCA withholding pursuant to an applicable intergovernmental agreement between the jurisdiction in which it is located and the United States, provides the withholding agent with a certification identifying any substantial U.S. owners of the entity (as defined for this purpose) or meets other exemptions.

If FATCA withholding is imposed, a non-U.S. holder that is not a foreign financial institution may under certain circumstances be eligible for a refund or credit of any amounts withheld by filing certain information with the IRS. Prospective investors should consult their own tax advisors regarding the effects of FATCA on their investment in the notes.

CERTAIN ERISA CONSIDERATIONS

Each fiduciary of an employee benefit plan that is subject to Title I of the Employee Retirement Income Security Act of 1974, as amended (ERISA), plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Code, and entities whose underlying assets are considered to include plan assets of such plans, accounts and arrangements (each of the foregoing, a Plan) and plans or arrangements subject to provisions under any federal, state, local or other laws or regulations that are similar to such provisions of ERISA or the Code (Similar Laws) should consider the fiduciary standards of ERISA or Similar Laws (as applicable) in the context of the plan s particular circumstances before authorizing an investment in the notes.

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan and prohibit certain transactions involving the assets of a Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the management or administration of such a Plan or any authority or control over the management or disposition of the assets of such a Plan, or who renders investment advice for a fee or other compensation to such a Plan, is generally considered to be a fiduciary of such Plan.

In considering an investment in the notes of a portion of the assets of any Plan, or any plan or arrangement subject to Similar Laws, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any Similar Laws relating to a fiduciary s duties including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and Similar Laws.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit Plans from engaging in specified transactions involving plan assets with persons or entities who are parties in interest, within the meaning of ERISA, or disqualified persons, within the meaning of Section 4975 of the Code, unless an exemption is available. A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. In addition, the fiduciary of the Plan that engages in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code. The acquisition or holding of notes by a Plan with respect to which we or an underwriter are considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, unless the investment is

acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions (PTCEs), that may apply to the acquisition and holding of the notes. These class exemptions include PTCE 84-14 respecting transactions determined by independent qualified professional asset managers, PTCE 90-1 respecting insurance company pooled separate accounts, PTCE 91-38 respecting bank collective investment funds, PTCE 95-60 respecting life insurance company general accounts and PTCE 96-23 respecting transactions determined by in-house asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide relief from the prohibited transaction provisions of ERISA and Section 4975 of the Code for certain transactions between a Plan and a person that is a party in interest or disqualified person with respect to the Plan solely by reason of providing services to the Plan or a relationship with such a service provider, provided that neither the person transacting with the Plan nor any of its affiliates has or exercises any discretionary authority or control or renders any investment advice with respect to the assets of the Plan involved in the transaction and provided further that the Plan pays no more and receives no less than adequate consideration in connection with the transaction. There can be no assurance that any of the foregoing exemptions or any other exemption will be available with respect to the acquisition and holding of the notes or that all of the conditions of any such exemptions will be satisfied.

S-14

Table of Contents

Because of the foregoing, the notes should not be purchased or held by any person investing plan assets of any Plan, unless such purchase and holding will not constitute or result in a non-exempt prohibited transaction under ERISA and the Code, or with respect to assets of a plan or arrangement that is subject to Similar Laws, a violation of any applicable Similar Laws.

Representation

By acceptance of a note, each purchaser and subsequent transferee of a note will be deemed to have represented and warranted that either (i) no portion of the assets used by such purchaser or transferee to acquire and hold the note constitutes assets of any Plan or assets of a plan or arrangement that is subject to Similar Laws, or (ii) the purchase and holding of the note by such purchaser or transferee will not constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code because such purchase and holding satisfies the conditions for relief under an applicable statutory, class or individual prohibited transaction exemption (or to the extent assets of a plan or arrangement that is subject to Similar Laws are being used by such purchaser or transferee to acquire and hold the note, such purchase and holding will not constitute or result in a violation of any applicable Similar Laws).

The foregoing discussion is general in nature and is not intended to be all-inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries, or other persons considering purchasing the notes on behalf of, or with the assets of, any Plan or assets of a plan or arrangement subject to Similar Laws, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such investment and whether an exemption would be applicable to the purchase and holding of the notes.

The sale of notes to a Plan, or to a plan or arrangement that is subject to Similar Laws, is in no respect a representation by us, the underwriters or any other person that such an investment meets all relevant legal requirements with respect to investments by such plans and arrangements generally or any particular plan or arrangement or that such an investment is appropriate for such plans and arrangements generally or any particular plan or arrangement.

The underwriting agreement provides that the obligations of the underwriters to pay for and accept delivery of the notes offered by this prospectus supplement and the accompanying prospectus are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part. The underwriters are obligated to take and pay for all of the notes offered by this prospectus supplement and the accompanying prospectus if any notes are taken. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

Notes sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover of this prospectus supplement. Any notes sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price of up to 0.25% of the principal amount of notes. Any such securities dealers may resell any notes purchased from the underwriters to certain other brokers or dealers at a

discount from the initial public offering price of up to 0.125% of the principal amount of notes. If all the notes are not sold at the initial public offering price, the underwriters may change the initial public offering price and the other selling terms.

We have agreed that, for the period ending at the time the notes are issued and delivered, we will not, without the prior written consent of the representatives, (i) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of, directly or indirectly, any notes, or any other indebtedness of the Corporation substantially similar to the notes, or any securities convertible into or exercisable or exchangeable for notes, or any other indebtedness of the Corporation substantially similar to the notes, or (ii) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the notes, whether any such transaction described in clause (i) or (ii) above is to be settled by delivery of the notes or such other securities, in cash or otherwise, other than the notes offered hereby.

Our expenses with respect to this offering, not including the underwriting discount, are estimated to be approximately \$1,034,000 and will be payable by us. The underwriters have agreed to reimburse us for \$750,000 of such expenses.

Table of Contents

The notes are a new issue of securities and have no established trading market and will not be listed on any securities exchange or automated quotation system. We have been advised by the underwriters that they presently intend to make a market in the notes, as permitted by applicable laws and regulations.

The underwriters are not obligated, however, to make a market in the notes and may discontinue any market making at any time without notice at their sole discretion. Even if a secondary market for the notes develops, it may not provide significant liquidity and transaction costs in any secondary market could be high. As a result, the difference between bid and asked prices in any secondary market could be substantial. Accordingly, we cannot make any assurance as to the liquidity of, or trading markets for, the notes.

To facilitate the offering of the notes, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the notes. Specifically, the underwriters may sell more notes than they are obligated to purchase under the underwriting agreement, creating a naked short position. The underwriters must close out any naked short position by purchasing notes in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering. As an additional means of facilitating the offering, the underwriters may bid for, and purchase, notes in the open market to stabilize the price of the notes. These activities may raise or maintain the market price of the notes above independent market levels or prevent or retard a decline in the market price of the notes. The underwriters are not required to engage in these activities, and may end any of these activities at any time without notice.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

In general, purchases of a security for the purpose of stabilizing or reducing a syndicate short position could cause the price of the security to be higher than it might otherwise be in the absence of such purchases. If these activities are commenced, they may be discontinued by the underwriters at any time without notice.

Neither we nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor the underwriters make any representation that the underwriters will engage in such transactions or that such transactions will not be discontinued without notice, once they are commenced.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended. If we are unable to provide this indemnification, we will contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and certain of their respective affiliates have performed banking, investment banking, custodial and advisory services for us and our affiliates, from time to time, for which they have received customary fees and expenses. The underwriters and their respective affiliates may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they will receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriters and their respective affiliates have made or held, and may in the future make or hold, a broad array of investments including serving as counterparties to certain derivative and hedging arrangements, and may have actively traded, and, in the future may actively trade, debt and equity securities (or related derivative securities), and financial instruments

(including bank loans) for their own account and for the accounts of their customers and may have in the past and at any time in the future hold long and short positions in such securities and instruments. Such investment and securities activities may have involved and in the future may involve securities and/or instruments of the Corporation. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Delivery is expected to be made against payment for the notes on August 3, 2018, which will be the third business day following the date hereof (this settlement cycle being referred to as T+3). Under Rule 15c6-1 of the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in two business days, unless the parties to that trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date hereof will be required, by virtue of the fact that the notes initially will settle in T+3, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisors.

Selling Restrictions***European Economic Area***

The notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended (MiFID II); or (ii) a customer within the meaning of Directive 2002/92/EC as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended and including any relevant implementing measure in each Member State of the European Economic Area which has implemented such Directive, the Prospectus Directive). Consequently no key information document required by Regulation (EU) No 1286/2014 (the PRIIPs Regulation) for offering or selling the notes or otherwise making them available to retail investors in the European Economic Area has been prepared and therefore offering or selling the notes or otherwise making them available

to any retail investor in the European Economic Area may be unlawful under the PRIIPs Regulation. This prospectus supplement and the accompanying prospectus have been prepared on the basis that any offer of notes in any Member State of the EEA will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of notes. This prospectus supplement and the accompanying prospectus are not a prospectus for the purposes of the Prospectus Directive.

The notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (the Financial Instruments and Exchange Law) and each underwriter has agreed that it will not offer or sell any notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for reoffering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

We may sell the debt securities, including original issue discount securities, at par or at a substantial discount below their stated principal amount. Unless we inform you otherwise in a prospectus supplement, we may issue additional debt securities of a particular series without the consent of the holders of the debt securities of such series or any other series outstanding at the time of issuance. Any such additional debt securities, together with all other outstanding debt securities of that series, may constitute a single series of securities under the indenture.

We will describe in the applicable prospectus supplement any other special considerations for any debt securities we sell which are denominated in a currency or currency unit other than U.S. dollars. failure to pay any installment of interest on any debt security of such series when due, if such failure continues unremedied for 30 days;

failure to pay the principal and premium, if any, of any debt security of such series when due, either at maturity, upon redemption, by declaration or otherwise;

failure to pay any sinking fund installment on any debt security of such series when due, if such failure continues unremedied for 30 days;

failure on our part to perform any other obligation contained in the indenture for the benefit of such series which continues for 90 days after written notice to us by the trustee or to us and the trustee by the holders of at least 25% in outstanding principal amount of the series;

occurrence of certain events of bankruptcy, insolvency or reorganization; or

any other event of default provided with respect to debt securities of such series.

If an event of default under the indenture occurs and is continuing for any series of debt securities, other than an event of default resulting from a

bankruptcy, insolvency or reorganization of the Corporation, the trustee or the holders of at least 25% in principal amount of the outstanding securities of that series may declare the principal amount of all the securities of that series, or such amount provided for in the debt securities of that series, and all accrued but unpaid interest on all the securities of that series to be due and payable immediately. The debt securities will automatically be accelerated upon the occurrence of an event of default resulting from a bankruptcy, insolvency or reorganization of the Corporation.

In the case of a default in the payment of interest or principal, or premium, if any, we will be required, upon the demand of the trustee, to pay, for the benefit of the holders of the debt securities, the whole amount then due and payable on such debt securities with interest on any overdue principal, and premium, if any, and, to the extent that payment of such interest shall be legally enforceable, on any overdue interest, at the rate or rates prescribed in such debt securities.

If we fail to pay such amounts upon demand, the trustee may institute any action or proceeding at law or in equity for the collection of the sums so due and unpaid, and may prosecute any such action or proceeding to judgment or final decree, and may enforce any such judgment or final decree against the Corporation or any other obligor upon the debt securities of such series, and collect the moneys adjudged or decreed to be payable out of the property of the Corporation or any other obligor upon the debt securities of such series, wherever situated, in the manner provided by law.

The holders of a majority in principal amount of the outstanding debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any

trust or power conferred on the trustee with respect to debt securities of that series, provided that any such direction is not in conflict with the indenture, could lawfully be taken, would not be unduly prejudicial to holders not joining in such direction and would not involve the trustee in personal liability, and the trustee may take any other action deemed proper by the trustee that is not inconsistent with such direction. Subject to the provisions of the indenture relating to the duties of the trustee, before proceeding to exercise any right or power under the indenture at the direction of the holders, the trustee is entitled to receive from those holders security or indemnity satisfactory to it against the costs, expenses and liabilities which might be incurred by it in complying with any direction.

No holder of any debt security of any series will have the right to institute any action, suit or proceeding with respect to an event of default, unless:

that holder previously gives to the trustee written notice of the event of default with respect to debt securities of that series;

the holders of not less than 25% in principal amount of the outstanding debt securities of that series also make a written request to the trustee to take action in respect of the matter complained of;

the holder offers the trustee security or indemnity satisfactory to the trustee against the costs, expenses and liabilities to be incurred;

the trustee has not received from the holders of a majority in principal amount of the outstanding debt securities of that series a direction inconsistent with such request; and

the trustee fails to institute such action, suit or proceeding within 60 days.

However, any holder of a debt security has the absolute right to institute suit for any defaulted payment after the due dates for payment under that debt security.

We are required to furnish an officer's certificate to the trustee each year that states, to the knowledge of the certifying officer, whether we have complied with all conditions and covenants under the terms of the indenture, and, in the event of any default under the indenture, specifying such default and the nature and status thereof to the extent of the certifying officer's knowledge.

Modification and Waiver

Modification

We and the trustee may, with the consent of holders of at least a majority in aggregate principal amount of the debt securities of each series affected, modify and amend the indenture; however, without the consent of each holder of any debt security affected, we may not amend or modify the indenture to:

extend the stated maturity of the principal of, or any installment of interest on, such debt security;

reduce the principal amount of or the interest on or any premium payable upon the redemption of such debt security;

reduce the amount of principal of an original issue discount security payable upon acceleration of its maturity;

change the place of payment where or the currency in which the principal of and premium, if any, or interest on any debt security is denominated or payable;

impair the holder's right to institute suit for the enforcement of any payment on any debt security after the stated maturity or redemption date;

reduce the percentage in principal amount of debt securities of any series, the consent of whose holders is required to modify or amend the indenture or to waive compliance with certain provisions of the indenture or certain defaults and consequences of such defaults; or

Table of Contents

modify any provisions of the indenture related to the foregoing or any of the provisions related to the waiver of certain past defaults or certain covenants, except to increase the required percentage to effect such action or to provide that certain other provisions may not be modified or waived without the consent of all of the holders of each debt security affected.

We and the trustee may modify and amend the indenture without the consent of the holders of the debt securities for specified purposes, including, among other things, to:

add to the covenants of the Corporation for the benefit of the holders of all or any series of debt securities or surrendering any right or power conferred on the Corporation in the indenture;

add any additional events of default for the benefit of the holders of all or any series of debt securities;

delete or modify events of default with respect to all or any series of debt securities, the form and terms of which are established pursuant to a supplemental indenture;

add to or change any of the provisions of the indenture to provide, change or eliminate any restrictions on the payment of principal of, or premium, if any, on, debt securities, provided that any such action will not adversely affect the interests of the holders of debt securities of any series in any material respect;

change or eliminate provisions of the indenture provided that such change or elimination becomes effective only when there is no outstanding debt security of any series created prior to such change or elimination that is entitled to the benefit of such provision and to which such change or elimination would apply;

evidence the succession of another person to the Corporation;

evidence and provide for the acceptance of appointment under the indenture by a successor trustee with respect to the debt securities of one or more series and add to or change any of the provisions of the indenture as shall be necessary to provide for or facilitate the administration of the trusts under the indenture by more than one

trustee;

secure the debt securities of any series or release any collateral or lien securing debt securities of any series in accordance with the terms thereof;

evidence any changes to the indenture in conjunction with the resignation, removal or merger of the trustee in accordance with the terms of the indenture;

cure an ambiguity or correct or supplement any provision of the indenture or any supplemental indenture which may be defective or inconsistent with any other provision thereof;

add to, change or eliminate any provision of the indenture as necessary or desirable in accordance with any amendments to the TIA;

add guarantors or co-obligors with respect to any series of debt securities or release guarantors from their guarantees in accordance with the terms thereof;

make any change in any series of debt securities that does not adversely affect in any material respect the rights of the holders thereof;

provide for uncertificated securities in addition to certificated securities;

supplement any of the provisions of the indenture to the extent necessary to permit or facilitate the defeasance and discharge of any series of debt securities provided that such action does not adversely affect the interests of holders of such series or any other series of debt securities in any material respect;

prohibit the authentication and delivery of additional series of debt securities; or

Table of Contents

establish the form or terms of debt securities of any new series or authorize the issuance of additional debt securities of a series previously authorized or add to the conditions, limitations or restrictions on the issuance of any debt securities of any series.

Waiver of Default

The holders of a majority in principal amount of the outstanding debt securities of any series generally may, on behalf of the holders of all the debt securities of that series, waive an event of default under the indenture with respect to that series and the consequences thereof. However, a default in the payment of the principal of, or premium, if any, or any interest on, any of the debt securities of that series cannot be so waived.

Merger, Consolidation and Sale of Assets

The Corporation may not consolidate with or merge into any other person or sell, convey, transfer or lease all or substantially all its assets to any other person, unless:

the person formed by such consolidation or into which the Corporation is merged, or to which such sale, conveyance, transfer or lease is made, expressly assumes, pursuant to a supplemental indenture, the due and punctual payment of the principal of and interest and premium, if any, on all of the debt securities under the indenture, according to their tenor, and the due and punctual performance and observance of all other obligations to the holders of debt securities and the trustee under the indenture or the debt securities to be performed or observed by the Corporation; and

immediately after giving effect to such consolidation, merger, sale, conveyance, transfer or lease, no default shall have occurred and be continuing under the indenture.

The second bullet above shall not apply to: (i) any sale, conveyance, transfer or lease between or among the Corporation and one or more of its wholly-owned subsidiaries; (ii) any merger of the Corporation into any wholly-owned subsidiary of the Corporation; or (iii) any merger of the Corporation into an affiliate of the Corporation for the purpose of reincorporating or reorganizing.

The indenture provides that the person formed by such consolidation or into which the Corporation is merged or to which such sale, conveyance, transfer or lease is made shall succeed to, and be substituted for, and may exercise every right and power of, the Corporation under the indenture with the same effect as if such successor person had been named as the Corporation in the indenture. In the event of a succession in compliance with this covenant,

except in the case of a lease, the predecessor shall be relieved of and discharged from all of its obligations and covenants under the indenture and the debt securities.

Discharge and Covenant Defeasance

Unless otherwise specified in the applicable prospectus supplement, we may discharge all of our obligations with respect to the debt securities of any series at any time, and we may also be released from our obligations under certain covenants that are described in the indenture with respect to such debt securities, if any, and elect not to comply with those sections and obligations without creating an event of default. Discharge under the first procedure is called discharge and under the second procedure is called covenant defeasance.

Discharge or covenant defeasance may be effected only if:

we irrevocably deposit with the trustee money or U.S. government obligations or a combination thereof, as trust funds in trust in an amount sufficient to pay and discharge each installment of principal of, premium, if any, and interest on, all outstanding debt securities of the applicable series;

no default under the indenture with respect to such series has occurred and is continuing on the date of such deposit; and

Table of Contents

we deliver to the trustee an opinion of counsel to the effect that the holders of the applicable series of debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such discharge or covenant defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such discharge or covenant defeasance had not occurred and, in the case of a discharge, such opinion is accompanied by a ruling to that effect received from or published by the U.S. Internal Revenue Service.

Satisfaction and Discharge

Unless otherwise specified in the applicable prospectus supplement, we may terminate our obligations with respect to the debt securities of any series not previously delivered to the trustee for cancellation when all such securities:

have become due and payable;

will become due and payable at their stated maturity within one year; or

are to be called for redemption within one year under arrangements satisfactory to the trustee for giving notice of redemption by depositing with the trustee or paying agent, as trust funds in trust for that purpose, an amount sufficient to pay and discharge the entire indebtedness on such debt securities.

Subordination

The terms of any series of debt securities under the indenture may provide that such series will be subordinated in right of payment to all senior indebtedness (as defined below). In certain circumstances relating to our dissolution, winding up, liquidation, or reorganization, whether in bankruptcy, insolvency or similar proceedings, the holders of all senior indebtedness will first be entitled to receive payment in full before the holders of subordinated debt securities will be entitled to receive any payment on such subordinated debt securities.

In addition, in the event of any default on senior indebtedness that permits the holders thereof to accelerate the maturity of the senior indebtedness, no payment may be made on subordinated debt securities if notice of such default has been given to us or if judicial proceedings are pending in respect of such default.

Unless otherwise specified in the prospectus supplement relating to the particular series of subordinated debt securities, senior indebtedness is

defined in the indenture as the principal of, premium, if any, and unpaid interest on:

indebtedness of the Corporation for money borrowed;

similar obligations of the Corporation arising from off-balance-sheet guarantees and direct-credit substitutes;

obligations associated with derivative products; and

any renewals, extensions, modifications and refundings of any senior indebtedness in each case, whether outstanding on the date of the indenture or thereafter created, incurred, assumed or guaranteed, other than:

any indebtedness of the Corporation which when incurred was without recourse to the Corporation;

any indebtedness to the Corporation's subsidiaries;

any indebtedness to the Corporation's employees;

Table of Contents

any liability for taxes;

accounts payable or any other indebtedness or monetary obligations to trade creditors created or assumed by us in the ordinary course of business; and

any indebtedness of the Corporation which is expressly subordinate in right of payment to any other indebtedness of the Corporation.

The indenture does not limit the amount of indebtedness, including senior indebtedness, that the Corporation or any of its subsidiaries may issue.

Due to the different subordination provisions of the various series of subordinated indebtedness issued by us, in the event of a dissolution, winding-up, liquidation, reorganization or insolvency, holders of a particular series of subordinated debt securities may recover less, ratably, than holders of other series of our outstanding subordinated indebtedness. In addition, subordinated debt securities may be fully subordinated to interests held by the U.S. government in the event of a receivership, insolvency, liquidation or similar proceeding involving the Corporation, including a proceeding under the orderly liquidation authority provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

The applicable prospectus supplement may further describe or alter the provisions, if any, which may apply to the subordination of the subordinated debt securities of a particular series.

Global Securities

Unless we inform you otherwise in the applicable prospectus supplement, the debt securities of a series may be issued in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depositary identified in the applicable prospectus supplement. Global securities will be issued in registered form and in either temporary or definitive form. Unless and until it is exchanged in whole or in part for the individual debt securities, a global security may not be transferred except as a whole by the depositary for such global security to a nominee of such depositary or by a nominee of such depositary to such depositary or another nominee of such depositary or by such depositary or any such nominee to a successor of such depositary or a nominee of such successor. The specific terms of the depositary arrangement with respect to any debt securities of a series and the rights of and limitations upon owners of beneficial interests in a global security will be described in the applicable prospectus supplement.

Governing Law

The indenture and the debt securities shall be governed by and construed in accordance with the laws of the State of New York.

DESCRIPTION OF THE PREFERRED STOCK

The following summary contains a description of the general terms and provisions of the preferred stock we may issue. Other terms of any series of preferred stock will be described in the prospectus supplement relating to that series of preferred stock. The terms of any series of preferred stock may differ from the terms described below. Certain provisions of the preferred stock described below and in any prospectus supplement are not complete. You should refer to our Restated Certificate of Incorporation and the certificate of designation which will be filed with the SEC in connection with the offering of a particular series of preferred stock.

General

Under our Restated Certificate of Incorporation, our board of directors has the authority, without further stockholder action, to issue up to 10,000,000 shares of preferred stock, without par value, in one or more series, with such terms and for such consideration as the board may determine. The board of directors can determine the rights, preferences and limitations of each series. Therefore, without stockholder approval, our board of directors can authorize the issuance of preferred stock with voting, conversion and other rights that could dilute the voting power and other rights of our common stockholders. Of the 10,000,000 authorized shares of preferred stock:

1,500,000 have been designated as Series A Junior Participating Preferred Stock, none of which have been issued;

1,576,000 were previously designated as Fixed Rate Cumulative Perpetual Preferred Stock, Series B, all of which were redeemed, and for which a Certificate of Elimination was filed with the Delaware Secretary of State, in 2009;

16,000 have been designated as Series C Non-Cumulative Perpetual Preferred Stock, or the series C preferred stock, all of which were outstanding as of June 30, 2017; and

5,000 have been designated as Series D Non-Cumulative Perpetual Preferred Stock, or the series D preferred stock, all of which were outstanding as of June 30, 2017.

The preferred stock will have the terms described in this section unless otherwise provided in the prospectus supplement relating to a particular series of the preferred stock. You should read the prospectus supplement relating to the particular series of the preferred stock being offered for specific terms,

including:

the maximum number of shares to constitute the series;

any annual dividend rate on the shares, whether the rate is fixed or variable or both, the date or dates from which dividends will accrue, whether the dividends will be cumulative and any dividend preference;

whether the shares will be redeemable and, if so, the price at, and the terms and conditions on which, the shares may be redeemed;

any liquidation preference applicable to the shares;

the terms of any sinking fund;

any terms and conditions on which the shares of the series will be convertible into, or exchangeable for, shares of any other capital stock;

any voting rights of the shares of the series;

whether we have elected to offer depositary shares representing interests in a particular series of preferred stock as described under Description of the Depositary Shares ; and

any other preferences or special rights or limitations on the shares of the series.

Unless otherwise specified in the prospectus supplement, each series of the preferred stock will rank equally as to dividends and liquidation rights in all respects with each other series of preferred stock. The rights of

Table of Contents

holders of shares of each series of preferred stock to receive distributions upon our liquidation, dissolution or winding up will be subordinate to those of our general creditors.

As described under Description of the Depositary Shares, we may, at our option, with respect to any series of the preferred stock, elect to offer fractional interests in shares of preferred stock, and provide for the issuance of depositary receipts representing depositary shares, each of which will represent a fractional interest in a share of the series of the preferred stock. The fractional interest will be specified in the prospectus supplement relating to a particular series of the preferred stock.

Rank

Our series C preferred stock and series D preferred stock have, and any other series of preferred stock upon issuance will have, preference over our common stock with respect to the payment of dividends and the distribution of assets in the event of our liquidation, dissolution or winding up. In particular, unless otherwise specified in the prospectus supplement, the preferred stock will, with respect to the priority of the payment of dividends and the distribution of assets upon voluntary or involuntary liquidation, dissolution or winding up, rank:

senior to our common stock and all other equity securities issued by us, the terms of which provide that the equity securities will rank junior to the preferred stock, which we refer to in this prospectus as the junior securities;

equally with all equity securities issued by us, the terms of which provide that the equity securities will rank equally with the preferred stock, which we refer to in this prospectus as the parity securities; and

junior to all equity securities issued by us, the terms of which provide that the equity securities will rank senior to the preferred stock.

Unless the terms of any preferred stock specifically provide that it will rank junior or senior to our series C preferred stock or our series D preferred stock, the series C preferred stock and series D preferred stock will be parity securities with respect to such preferred stock. The consent of at least two-thirds of the outstanding shares of each of our series C preferred stock and series D preferred stock voting as separate classes is required for us to authorize any class or series of capital stock that would rank senior to such series of preferred stock with respect to the payment of dividends or the distribution of assets on our liquidation, dissolution or winding up.

Dividends

Holders of the preferred stock of each series will be entitled to receive, when, as and if declared by our board of directors, cash dividends at such rates and on such dates described in the applicable prospectus supplement. Different series of preferred stock may be entitled to dividends at different rates or based on different methods of calculation. The dividend rate may be fixed or variable or both. Dividends will be payable to the holders of record as they appear on our books on record dates fixed by our board of directors, as specified in the applicable prospectus supplement.

Dividends on any series of the preferred stock may be cumulative or noncumulative, as described in the applicable prospectus supplement. If our board of directors does not declare a dividend payable on a dividend payment date on any series of noncumulative preferred stock, then the holders of that noncumulative preferred stock will have no right to receive a dividend for that dividend payment date, and we will have no obligation to pay the dividend accrued for that period, whether or not dividends on that series are declared payable on any future dividend payment dates. Dividends on any series of cumulative preferred stock will accrue from the date we initially issue shares of such series or such other date specified in the applicable prospectus supplement.

If full dividends are not paid on the shares of a series of preferred stock, dividends declared upon shares of preferred stock and any parity securities will be declared on a proportional basis so that the amount of dividends

Table of Contents

declared per share will bear to each other the same ratio that accrued dividends per share on the preferred stock, and accrued dividends, including any accumulations, on any parity securities, bear to each other. No dividends may be declared or paid or funds set apart for the payment of dividends on any junior securities unless full dividends will have been paid or declared and a sum sufficient for the payment set apart for payment on the preferred stock: (i) in the case of a series of preferred stock with cumulative dividend rights, for all dividend periods; (ii) in the case of the series C preferred stock, for the then-current dividend period; and (iii) in the case of the series D preferred stock, and any other series of preferred stock without cumulative dividend rights, for the then most recently completed dividend period.

Our ability to pay dividends on our preferred stock is subject to policies established by the Board of Governors of the Federal Reserve System, or the Federal Reserve Board.

Rights Upon Liquidation

If we liquidate, dissolve or wind up our affairs, either voluntarily or involuntarily, the holders of each series of preferred stock, will be entitled to receive, before any payment or distribution of assets is made to holders of junior securities, liquidating distributions in the amount described in the prospectus supplement relating to that series of the preferred stock, plus an amount equal to declared and unpaid dividends and, if the series of the preferred stock is cumulative, for all dividend periods prior to that point in time. If the amounts payable with respect to the preferred stock of any series and any other parity securities are not paid in full, the holders of the preferred stock of that series and of the parity securities will share proportionately in the distribution of our assets in proportion to the full liquidating distribution owed to those holders. After the holders of preferred stock are paid in full, they will have no right or claim to any of our remaining assets.

Because we are a bank holding company, our rights, the rights of our creditors and of our stockholders, including the holders of any series of preferred stock offered by this prospectus, to participate in the assets of any subsidiary upon the subsidiary's liquidation or recapitalization may be subject to the prior claims of the subsidiary's creditors except to the extent that we may ourselves be a creditor with recognized claims against the subsidiary.

Redemption

A series of the preferred stock may be redeemable, in whole or in part, at our option with prior Federal Reserve Board approval. In addition, a series of preferred stock may be subject to mandatory redemption pursuant to a sinking fund or otherwise. The redemption provisions that may apply to a series of preferred stock, including the redemption dates and the redemption prices for that series, will be described in the applicable prospectus supplement.

In the event of partial redemptions of preferred stock, whether by mandatory or optional redemption, our board of directors will determine the method for selecting the shares to be redeemed, which may be pro rata, by lot or by any other method determined to be fair and equitable.

On or after a redemption date, unless we default in the payment of the redemption price, dividends will cease to accrue on shares of preferred stock called for redemption. In addition, all rights of holders of the shares will terminate except for the right to receive the redemption price.

Under current regulations, bank holding companies generally may not exercise any option to redeem shares of preferred stock included as Tier 1 capital without the prior approval of the Federal Reserve Board.

Voting

Unless otherwise described in the applicable prospectus supplement, holders of the preferred stock will have no voting rights except as required by law or specifically provided for by our board of directors.

Table of Contents

Under regulations adopted by the Federal Reserve Board, if the holders of shares of any series of preferred stock become entitled to vote for the election of directors, such series may then be deemed a class of voting securities. A holder of 25% or more of such series (or a holder of 5% if it otherwise exercises a controlling influence over us) may then be subject to regulation as a bank holding company in accordance with the Bank Holding Company Act. In addition, at such time as such series is deemed a class of voting securities, (i) any other bank holding company may be required to obtain the approval of the Federal Reserve Board to acquire or retain 5% or more of such series, and (ii) any person other than a bank holding company may be required to file with the Federal Reserve Board under the Change in Bank Control Act, to acquire or retain 10% or more of such series. While we do not believe any series of our preferred stock is considered voting securities currently, holders of preferred stock should consult their own counsel with regard to regulatory implications. A holder or group of holders may also be deemed to control us if they own more than one-third of our total equity, both voting and nonvoting, aggregating all shares held by the holders across all classes of stock.

Transfer Agent and Registrar

Unless otherwise indicated in the applicable prospectus supplement, Wells Fargo Bank, N.A. will be the transfer agent, dividend and redemption price disbursement agent and registrar for shares of each series of the preferred stock.

DESCRIPTION OF THE DEPOSITARY SHARES

General

We may, at our option, elect to offer fractional interests in shares of preferred stock, which we call depositary shares, rather than full shares of preferred stock. If we do, we will issue to the public receipts, called depositary receipts, for depositary shares, each of which will represent a fraction, to be described in the applicable prospectus supplement, of a share of a particular series of preferred stock. Unless otherwise provided in the prospectus supplement, each owner of a depositary share will be entitled, in proportion to the applicable fractional interest in a share of preferred stock represented by the depositary share, to all the rights and preferences of the preferred stock represented by the depositary share. Those rights include dividend, voting, redemption, conversion and liquidation rights.

The shares of preferred stock underlying the depositary shares will be deposited with a bank or trust company selected by us to act as depositary under a deposit agreement between us, the depositary and the holders of the depositary receipts. The depositary will be the transfer agent, registrar and dividend disbursing agent for the depositary shares.

The depositary shares will be evidenced by depositary receipts issued pursuant to the deposit agreement. Holders of depositary receipts agree to be bound by the deposit agreement, which requires holders to take certain actions such as filing proof of residence and paying certain charges.

The summary of terms of the depositary shares contained in this prospectus is not complete. You should refer to the form of the deposit agreement and the certificate of designation for the applicable series of preferred stock that are, or will be, filed with the SEC.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions, if any, received in respect of the preferred stock underlying the depositary shares to the record holders of depositary shares in proportion to the numbers of depositary shares owned by those holders on the relevant record date. The relevant record date for depositary shares will be the same date as the record date for, or otherwise in accordance with the terms of, the underlying preferred stock. The depositary will not distribute amounts less than one cent. The depositary will distribute any balance with the next sum received for distribution to record holders of depositary shares.

If there is a distribution other than in cash, the depositary will distribute property received by it to the record holders of depositary shares, unless the depositary determines that it is not feasible to make the distribution. If this occurs, the depositary may, with our approval, adopt another method for the

distribution, including selling the property and distributing the net proceeds from the sale to the holders.

Liquidation Preference

If a series of preferred stock underlying the depositary shares has a liquidation preference, in the event of the voluntary or involuntary liquidation, dissolution or winding up of the Corporation, holders of depositary shares will be entitled to receive the fraction of the liquidation preference accorded each share of the applicable series of preferred stock, as set forth in the applicable prospectus supplement.

Withdrawal of Stock

Unless the related depositary shares have been previously called for redemption, upon surrender of the depositary receipts at the office of the depositary, the holder of the depositary shares will be entitled to delivery, at the office of the depositary to or upon his or her order, of the number of whole shares of the preferred stock

Table of Contents

and any money or other property represented by the depositary shares. If the depositary receipts delivered by the holder evidence a number of depositary shares in excess of the number of depositary shares representing the number of whole shares of preferred stock to be withdrawn, the depositary will deliver to the holder at the same time a new depositary receipt evidencing the excess number of depositary shares. In no event will the depositary deliver fractional shares of preferred stock upon surrender of depositary receipts.

Redemption of Depositary Shares

Whenever we redeem shares of preferred stock held by the depositary, the depositary will redeem, as of the same redemption date, the number of depositary shares representing the preferred stock redeemed, so long as we have set aside all funds necessary for the redemption, including the redemption price for such shares and all dividends declared but not paid as of the date fixed for redemption. The redemption price per depositary share will bear the same relationship to the redemption price per share of preferred stock that the depositary share bears to the underlying preferred stock. If less than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected pro rata, by lot or by any other equitable method.

After the date fixed for redemption, the depositary shares called for redemption will no longer be outstanding. When the depositary shares are no longer outstanding, all rights of the holders will cease, except the right to receive money or other property that the holders of the depositary shares were entitled to receive upon the redemption. Payments will be made when holders surrender their depositary receipts to the depositary.

Voting the Preferred Stock

Upon receipt of notice of any meeting at which the holders of the preferred stock are entitled to vote, the depositary will forward the information contained in the notice of meeting to the record holders of the depositary receipts relating to that preferred stock. The relevant record date for depositary shares will be the same date as the record date for, or otherwise in accordance with the terms of, the underlying preferred stock. Each record holder of the depositary shares on the record date will be entitled to instruct the depositary as to the exercise of the voting rights pertaining to the number of shares of preferred stock represented by that holder's depositary shares. The depositary will endeavor, insofar as reasonably practicable, to vote the number of shares of preferred stock represented by the depositary shares in accordance with those instructions, and we will agree to take all reasonable action requested by and deemed necessary by the depositary in order to enable the depositary to do so. In the absence of any specific instructions from a holder of depositary shares, the depositary will, subject to any applicable restrictions, cast votes pertaining to the number of whole shares of preferred stock represented by such depositary shares proportionately with instructions actually received.

Charges of Depositary

We will pay all transfer and other taxes and governmental charges arising solely from the existence of the depositary arrangements. We will pay associated charges of the depositary in connection with the initial deposit of the preferred stock and any redemption of the preferred stock. Holders of depositary receipts will pay transfer, income and other taxes and governmental charges and such other charges as are expressly provided in the deposit agreement to be for their accounts. If these charges have not been paid by the holders of depositary receipts, the depositary may refuse to transfer depositary shares, withhold dividends and distributions and sell the depositary shares evidenced by the depositary receipt.

Amendment and Termination of the Deposit Agreement

The form of depositary receipt evidencing the depositary shares and any provision of the deposit agreement may be amended by agreement between us and the depositary. However, any amendment that materially and adversely alters the rights of the holders of depositary shares will not be effective unless the amendment has been approved by at least a majority (or, in the case of such amendments relating to or affecting rights to receive

Table of Contents

dividends or distributions or voting or redemption rights, holders of at least two-thirds) of the outstanding depositary shares. The deposit agreement may be terminated by the depositary or us only if:

all outstanding depositary shares have been redeemed; or

there has been a final distribution of the preferred stock in connection with our liquidation, dissolution or winding up and such distribution has been made to all the holders of depositary shares.

Resignation and Removal of Depositary

The depositary may resign at any time by delivering to us notice of its election to do so, and we may remove the depositary at any time. Any resignation or removal of the depositary will take effect upon our appointment of a successor depositary and its acceptance of such appointment. The successor depositary must be appointed within 60 days after delivery of the notice of resignation or removal and must be a bank or trust company having its principal office in the United States and having the requisite combined capital and surplus as set forth in the applicable agreement.

Notices

The depositary will forward to holders of depositary receipts all notices, reports and other communications, including proxy solicitation materials received from us, that are delivered to the depositary and that we are required to furnish to the holders of the preferred stock. These payments may be unsecured or prefunded on some basis. Our obligation to settle pre-paid stock purchase contracts on the relevant settlement date may constitute indebtedness. The stock purchase contracts may require holders to secure their obligations under those contracts in a specified manner.

If we issue stock purchase contracts or stock purchase units, the applicable prospectus supplement will describe the terms of the stock purchase contracts or stock purchase units, including:

the designation and terms of the stock purchase contracts and, if applicable, the stock purchase units of which they are a part, including whether and under what circumstances the securities forming a stock purchase unit may be held or transferred separately;

whether the stock purchase contracts obligate the holder to purchase or sell, or both purchase and sell, our securities, and the nature and amount of those securities, or the method of determining those amounts;

PLAN OF DISTRIBUTION

We may offer and sell the securities described in this prospectus through underwriters, through dealers, through agents, directly to purchasers, through or in connection with hedging transactions, or through any combination of such methods of sale and may do so at a fixed price or prices (which may be changed), at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices. In addition, we may issue securities as a dividend or distribution, in a subscription rights offering to our existing securityholders.

Each time we sell securities, we will provide a prospectus supplement that will describe the method of distribution of the securities and name any underwriter, dealer or agent involved in the offer and sale. The prospectus supplement will also set forth the terms of the offering, including the purchase price of the securities and the proceeds we will receive from the sale of the securities, any underwriting discounts and other items constituting underwriters' compensation related to the offering, public offering or purchase price and any discounts or commissions allowed or paid to dealers, any commissions allowed or paid to agents and any securities exchanges on which the securities may be listed.

Distribution Through Underwriters

We may offer and sell securities from time to time to one or more underwriters who would purchase the securities as principal for resale to the public, either on a firm commitment or best efforts basis. If the securities are sold to underwriters, we will execute an underwriting agreement with them at the time of the sale and we will name them in the applicable prospectus supplement. In connection with these sales, the underwriters will receive compensation in the form of underwriting commissions, which will be paid by us. The underwriters also may receive commissions from purchasers of securities for whom they may act as agent. Unless we specify otherwise in the applicable prospectus supplement, the underwriters will not be obligated to purchase the securities unless the conditions set forth in the underwriting agreement are satisfied, and if the underwriters purchase any of the securities, they will be required to purchase all of the offered securities. The underwriters may acquire the securities for their own account and may resell the securities from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or varying prices determined at the time of sale. The underwriters may sell the offered securities to or through dealers, and those dealers may receive discounts, concessions or commissions from the underwriters as well as from the purchasers for whom they may act as agent. Any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

Distribution Through Dealers

We may offer and sell securities from time to time to one or more dealers who would purchase the securities as principal. The dealers then may resell the offered securities to the public at fixed or varying prices to be determined by the dealers at the time of resale. We will set forth the names of the dealers and the terms of the transaction in the applicable prospectus supplement.

Distribution Through Agents

We may offer and sell securities through agents that become parties to a distribution agreement. We will name any agent involved in the offer and sale and describe any commissions payable by us in the applicable prospectus supplement. Unless we specify otherwise in the applicable prospectus supplement, the agent will be acting on a best efforts basis during the appointment period.

Direct Sales

We may sell directly to, and solicit offers directly from, one or more purchasers without the involvement of any underwriters, dealers or agents. We will describe the terms of any sales of this kind in the prospectus supplement relating to the offer.

Table of Contents

General

In connection with offerings made through underwriters or agents, we may enter into agreements with such underwriters or agents pursuant to which we receive our outstanding securities in consideration for the securities being offered to the public for cash. In connection with these arrangements, the underwriters or agents may also sell securities covered by this prospectus to hedge their positions in these outstanding securities, including in short sale transactions. If so, the underwriters or agents may use the securities received from us under these arrangements to close out any related open borrowings of securities.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement or a post-effective amendment to the registration statement of which this prospectus forms a part.

We may loan or pledge securities to a financial institution or other third party that in turn may sell the securities using this prospectus. Such financial institution or third party may transfer its short position to investors in our securities or in connection with a simultaneous offering of other securities offered by this prospectus.

If indicated in the applicable prospectus supplement, we will authorize underwriters, dealers or agents to solicit offers by certain institutional investors to purchase securities from us pursuant to contracts providing for payment and delivery at a future date. In all cases, these purchasers must be approved by us. Unless otherwise set forth in the applicable prospectus supplement, the obligations of any purchaser under any of these contracts will not be subject to any conditions except that (i) the purchase of the securities must not at the time of delivery be prohibited under the laws of any jurisdiction to which that purchaser is subject and (ii) if the securities are also being sold to underwriters, we must have sold to these underwriters the securities not subject to delayed delivery. Underwriters and other agents will not have any responsibility in respect of the validity or performance of these contracts.

Underwriters, dealers, agents and other persons may be entitled under agreements which may be entered into with us to indemnification against and

contribution toward certain civil liabilities, including liabilities under the Securities Act and to be reimbursed by us for certain expenses.

Subject to any restrictions relating to debt securities in bearer form, any securities initially sold outside the United States may be resold in the United States through underwriters, dealers or otherwise.

Securities other than common stock may represent a new issue of securities with no established trading market. Any underwriters to whom offered securities are sold by us for public offering and sale may make a market in such securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time.

The anticipated date of delivery of the securities offered by this prospectus will be described in the applicable prospectus supplement. The securities offered by this prospectus may or may not be listed on a national securities exchange or a foreign securities exchange. No assurance can be given as to the liquidity or activity of any trading in the offered securities.

In connection with an underwritten offering, the underwriters may engage in over-allotment, stabilizing transactions and syndicate covering transactions in accordance with Regulation M under the Exchange Act.

Table of Contents

Over-allotment involves sales in excess of the offering size, which creates a short position for the underwriters. The underwriters may enter bids for, and purchase, securities in the open market in order to stabilize the price of the securities. Syndicate covering transactions involve purchases of the securities in the open market after the distribution has been completed in order to cover short positions. In addition, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the securities in the offering if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transactions, or otherwise. These activities may cause the price of the securities to be higher than it would otherwise be. Those activities, if commenced, may be discontinued at any time.

Under Rule 15c6-1 of the SEC under the Exchange Act, trades in the secondary market generally are required to settle on the third business day following the trade date unless the parties to any such trade expressly agree otherwise. Commencing September 5, 2017, trades in the secondary market generally will be required to settle on the second business day following the trade date unless the parties to any such trade expressly agree otherwise. It is possible that we or any underwriter, dealer or agent selling our securities in reliance on this prospectus will elect to settle the sale of securities offered and sold in reliance on this prospectus in accordance with a longer than standard settlement cycle, in which case the alternative settlement cycle to be used will be specified in the applicable prospectus supplement. In the event such a longer than standard settlement cycle is elected, purchasers who desire to effect a trade of the securities they purchase at any time prior to the third business day (or, on or after September 5, 2017, the second business day) preceding the issue date of such securities will be required to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement. Any such purchasers of securities who desire to trade on any such day should consult their own advisers regarding the date on which such purchasers' trades may be settled.

The underwriters, agents, dealers and their affiliates may engage in financial or other business transactions with us and our subsidiaries in the ordinary course of business.
