NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE MONTH  
PERIODS ENDED SEPTEMBER 30, 2001 AND 2000 (UNAUDITED)

NOTE 1. BASIS OF PRESENTATION

-----

The accompanying unaudited consolidated financial statements have been prepared in accordance with instructions for Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. However, such information reflects all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of results for the unaudited interim periods.

The results of operations for the three months ended September 30, 2001 are not necessarily indicative of the results to be expected for the fiscal year ending June 30, 2002 or any other period. The unaudited consolidated financial statements and notes presented herein should be read in conjunction with the audited consolidated financial statements and related notes thereto included in Eagle's Form 10-KSB dated June 30, 2001.

NOTE 4. MORTGAGE SERVICING RIGHTS

-----

The Bank allocates its total cost in mortgage loans between mortgage servicing rights and loans, based upon their relative fair values, when loans are subsequently sold or securitized, with the servicing rights retained. Fair values are generally obtained from an independent third party. Impairment of mortgage servicing rights is measured based upon the characteristics of the individual loans, including note rate, term, underlying collateral, current market conditions, and estimates of net servicing income. If the carrying value of the mortgage servicing rights exceeds the estimated fair market value, a valuation allowance is established for any decline, which is viewed to be temporary. Charges to the valuation allowance are charged against or credited to mortgage servicing income. An independent valuation of the mortgage servicing rights at September 30, 2001 showed a temporary decline in the fair value, resulting in a provision of \$58,433. There was no valuation allowance at June 30, 2001. The following schedules show the activity in the mortgage servicing rights and the valuation allowance.

NOTE 6. EARNINGS PER SHARE

-----

Earnings per share for the three months ended September 30, 2001 are calculated using 1,164,857 weighted average shares outstanding. Diluted earnings per share is computed by adjusting the number of shares outstanding by the shares purchased to fund the Company's restricted stock plan, for which stock was awarded in January 2001, as determined by the treasury stock method. The weighted average shares outstanding for the diluted earning per share calculations are 1,184,857 for the three months ended September 30, 2001.

## Edgar Filing: EAGLE BANCORP/MT - Form 10QSB

Earnings per share for the three months ended September 30, 2000 were calculated using 1,180,258 weighted average shares outstanding.

### NOTE 7. DIVIDENDS AND STOCK REPURCHASE PROGRAM

-----

Eagle paid a dividend of \$0.10 per share on August 24, 2001. A dividend of \$0.10 per share was declared on October 18, 2001, payable November 16, 2001 to stockholders of record on November 2, 2001. Eagle Financial MHC, Eagle's mutual holding company, has waived the receipt of dividends on its 648,493 shares.

A stock repurchase program was announced on December 21, 2000, covering 4% of the Company's outstanding common stock. Through October 18, 2001, 20,000 shares had been repurchased. At the annual meeting held October 19, 2000, shareholders approved stock option and restricted stock plans for the Company covering aggregate grants of up to 80,511 and 23,003, respectively. The repurchase plan announced in December is intended to meet the needs of the restricted stock plan.

#### Financial Condition

Comparisons of quarterly results in this section are between the three months ended September 30, 2001 and June 30, 2001.

Total assets increased by \$5.27 million, or 3.15%, to \$172.39 million at September 30, 2001, from \$167.12 million at June 30, 2001. Total liabilities

## Edgar Filing: EAGLE BANCORP/MT - Form 10QSB

increased by \$4.81 million to \$152.23 million at September 30, 2001, from \$147.42 million at June 30, 2001. Total equity increased \$450,000 to \$20.15 million at September 30, 2001 from \$19.70 million at June 30, 2001.

Growth in the loan portfolio of \$2.74 million accounted for the majority of the growth in total assets. The loan categories with the largest increase were commercial real estate loans, which increased \$1.44 million and consumer loans, which increased \$890,000. These represented increases over the balances at June 30, 2001 of 15.89% and 8.59%, respectively. Total loan originations were \$28.33 million for the three months ended September 30, 2001, with single family mortgages accounting for \$19.93 million of the total. Consumer loan and home equity loan originations totaled \$2.67 million and \$2.15 million, respectively, for the same period. Loans held for sale increased from \$3.03 million at June 30, 2001 to \$4.66 million at September 30, 2001.

### EAGLE BANCORP AND SUBSIDIARY MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Financial Condition (continued)

Growth in deposits funded asset growth. Deposits have grown \$4.22 million, or 3.15%, to \$138.27 million at September 30, 2001 from \$134.05 million at June 30, 2001. Growth in money market accounts contributed to the increase in deposits. Other liabilities increased to \$2.54 million at September 30, 2001 from \$1.93 million at June 30, 2001, primarily due to increases in the balances of deferred income taxes and escrow balances for borrowers' tax and insurance payments.

The growth in total stockholders' equity was the result of earnings for the three months of \$347,000 and an increase in the unrealized gain on securities available for sale of \$144,000. This was partially offset by the payment of a \$0.10 per share regular cash dividend.

#### Results of Operations for the Three Months Ending September 30, 2001 and 2000

##### Net Income

Eagle's net income was \$347,000 and \$304,000 for the three months ended September 30, 2001, and 2000, respectively. The increase of \$43,000, or 14.14%, was primarily due to increases in net interest income of \$109,000 and noninterest income of \$61,000, partially offset by an increase in noninterest expense of \$75,000. Basic earnings per share were \$0.30 for the current period, compared to \$0.26 for the previous year's period.

##### Net Interest Income

Net interest income increased to \$1.46 million for the quarter ended September 30, 2001 from \$1.35 million for the quarter ended September 30, 2000. This increase of \$109,000 was the result of an increase in interest and dividend income of \$135,000, partially offset by an increase in interest expense of \$26,000.

##### Interest and Dividend Income

Total interest and dividend income was \$2.86 million for the quarter ended

## Edgar Filing: EAGLE BANCORP/MT - Form 10QSB

September 30, 2001, compared to \$2.73 million for the quarter ended September 30, 2000, representing an increase of \$135,000, or 4.95%. Interest and fees on loans increased to \$2.38 million for the three months ended September 30, 2001 from \$2.25 million for the same period ended September 30, 2000. This increase of \$130,000, or 5.78%, was due primarily to an increase in the average balances of loans receivable for the quarter ended September 30, 2001. Average balances for loans receivable, net, for the quarter ended September 30, 2001 were \$119.94 million, compared to \$110.79 million for the previous year. This represents an increase of \$9.15 million, or 8.26%. All loan categories except real estate construction and commercial loans have shown increases from the previous year. The average interest rate earned on loans receivable decreased by 21 basis points, from 8.13% at September 30, 2000 to 7.92% at September 30, 2001. Interest and dividends on investment securities available-for-sale (AFS) increased from \$287,000 for the

quarter ended September 30, 2000 to \$303,000 for the current quarter, while interest on securities held to maturity (HTM) decreased from \$162,000 to \$91,000. Interest earned from deposits held at other banks increased from \$5,000 for the quarter ended September 30, 2000 to \$67,000 for the quarter ended September 30, 2001.

Interest Expense

Total interest expense increased to \$1.40 million for the quarter ended September 30, 2001, from \$1.37 million for the quarter ended September 30, 2000, an increase of \$26,000, or 1.90%, due to an increase in interest paid on FHLB advances. Interest on deposits decreased to \$1.22 million for the quarter ended September 30, 2001, from \$1.23 million for the quarter ended September 30, 2000. This decrease of \$8,000, or 0.65%, was the result of a decrease in average rates paid on deposit accounts, even though balances increased significantly. All deposit accounts showed decreases in average rates paid and also had increases in average balances in the current quarter compared to last year's quarter. Certificates of deposit and money market accounts saw the largest increases in balances. The average rate paid on liabilities decreased 33 basis points from the quarter ended September 30, 2000 to the quarter ended September 30, 2001. Interest paid on borrowings increased from \$145,000 for the quarter ended September 30, 2000 to \$179,000 for the quarter ended September 30, 2001. The increase in borrowing costs was due to an increase in the average balance of Federal Home Loan Bank advances. The cost of deposits is expected to continue to decline in the coming quarter, as certificate of deposit accounts opened in previous quarters are renewed at lower rates.

Provision for Loan Losses

Provisions for loan losses are charged to earnings to maintain the total allowance for loan losses at a level considered adequate by Eagle's subsidiary, American Federal Savings Bank, to provide for probable loan losses based on

## Edgar Filing: EAGLE BANCORP/MT - Form 10QSB

prior loss experience, volume and type of lending conducted by American Federal, available peer group information, and past due loans in portfolio. The Bank's policies require the review of assets on a quarterly basis. The Bank classifies loans as well as other assets if warranted. While the Bank believes it uses the best information available to make a determination with respect to the allowance for loan losses, it recognizes that future adjustments may be necessary. No provision was made for loan losses for either the quarter ended September 30, 2001 or the quarter ended September 30, 2000. This is a reflection of the continued strong asset quality of American Federal's loan portfolio, as non-performing loan ratios continue to be below peer averages. Total classified assets declined from \$1.50 million at June 30, 2001 to \$1.33 million at September 30, 2001. The Bank currently has no foreclosed real estate.

#### Noninterest Income

Total noninterest income increased to \$404,000 for the quarter ended September 30, 2001, from \$343,000 for the quarter ended September 30, 2000, an increase of \$61,000 or 17.78%. This was the result of an increase in net gain on sale of loans of \$128,000. Increased loan originations compared to a year ago contributed to the increase in income from sale of loans. Mortgage loan servicing fees declined to \$15,000 for the current quarter from \$73,000 for the previous year's quarter. An independent valuation of the Bank's mortgage servicing portfolio indicated a temporary decline in the value of the servicing rights in the amount of \$58,000. A provision was made to a valuation allowance in that amount. Changes to the valuation allowance for mortgage servicing rights are charged against mortgage loan servicing fees. The other categories of noninterest income registered small decreases.

#### Noninterest Expense

Noninterest expense increased by \$75,000 or 6.00% to \$1.32 million for the quarter ended September 30, 2001, from \$1.25 million for the quarter ended September 30, 2000. This increase was primarily due to an increase in salaries and benefits of \$65,000 and in amortization of mortgage servicing fees of \$38,000. The increase in salaries was due to merit raises and expenses related to the stock benefit plan, while the increase in amortization of mortgage servicing fees was related to increased prepayment activity on mortgage loans. Legal and accounting fees decreased \$25,000 due to lower costs for annual report preparation. Furniture and equipment depreciation expense decreased \$14,000 due to computer equipment and ATMs becoming fully depreciated during the current quarter.

#### Income Tax Expense

Eagle's income tax expense was \$195,000 for the quarter ended September 30, 2001, compared to \$144,000 for the quarter ended September 30, 2000. The effective tax rate for the quarter ended September 30, 2001 was 36.03% and was 32.22% for the quarter ended September 30, 2000. The effective tax rate is higher in the current quarter due to taxes paid for the previous fiscal year

## Edgar Filing: EAGLE BANCORP/MT - Form 10QSB

ended June 30, 2001. Management expects Eagle's effective tax rate to be approximately 35%.

### EAGLE BANCORP AND SUBSIDIARY MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Liquidity, Interest Rate Sensitivity and Capital Resources

The Company's subsidiary, American Federal Savings Bank (the Bank), is required to maintain minimum levels of liquid assets as defined by the Office of Thrift Supervision (OTS) regulations. The OTS recently eliminated the statutory requirement based upon a percentage of deposits and short-term borrowings. The OTS states that the liquidity requirement is retained for safety and soundness purposes, and that appropriate levels of liquidity will depend upon the types of activities in which the company engages. For internal reporting purposes, the Bank uses the previous regulatory definitions of liquidity. The Bank's liquidity increased to \$21.96 million due to an increase in deposit balances of \$4.22 million for the three months ended September 30, 2001. Liquidity was \$19.24 million at June 30, 2001.

The Bank's primary sources of funds are deposits, repayment of loans and mortgage-backed securities, maturities of investments, funds provided from operations, and advances from the Federal Home Loan Bank of Seattle. Scheduled repayments of loans and mortgage-backed securities and maturities of investment securities are generally predictable. However, other sources of funds, such as deposit flows and loan prepayments, can be greatly influenced by the general level of interest rates, economic conditions and competition. The Bank uses liquidity resources principally to fund existing and future loan commitments. It also uses them to fund maturing certificates of deposit, demand deposit withdrawals and to invest in other loans and investments, maintain liquidity, and meet operating expenses.

Liquidity may be adversely affected by unexpected deposit outflows, higher interest rates paid by competitors, and similar matters. Management monitors projected liquidity needs and determines the level desirable, based in part on commitments to make loans and management's assessment of the bank's ability to generate funds.

At June 30, 2001 (the most recent report available), the Bank's measure of sensitivity to interest rate movements, as measured by the OTS, worsened slightly from the previous quarter. The Bank's capital ratio as measured by the OTS increased during the same period, offsetting increased interest rate risk. The Bank is well within the guidelines set forth by the Board of Directors for interest rate risk sensitivity.

As of September 30, 2001, the Bank's regulatory capital was in excess of all applicable regulatory requirements. At September 30, 2001, the Bank's tangible, core, and risk-based capital ratios amounted to 10.88%, 10.88%, and 18.65%, respectively, compared to regulatory requirements of 1.5%, 3.0%, and 8.0%, respectively. See the following table (amounts in thousands):

### Impact of Inflation and Changing Prices

Our financial statements and the accompanying notes have been prepared in accordance with generally accepted accounting principles, which require the measurement of financial position and operating results in terms of historical dollars without considering the change in the relative purchasing power of money over time and due to inflation. The impact of inflation is reflected in the increased cost of our operations. Interest rates have a greater impact on our performance than do the general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the prices of goods and services.
