Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Conflict Minerals Disclosure

Amkor conducted in good faith, a reasonable country of origin inquiry (RCOI) on the source of its conflict minerals for 2013. Our RCOI was designed to determine whether the tantalum, tin, tungsten, and gold (Conflict Minerals) we used when performing semiconductor packaging services originated from the Democratic Republic of the Congo or an adjoining country (Covered Countries) or are from recycled or scrap sources.

We conducted our RCOI with our direct suppliers using the Conflict Minerals Reporting Template, a supply chain survey tool provided by the Conflict-Free Sourcing Initiative. We relied primarily on responses received from our direct suppliers to identify sources of Conflict Minerals.

The responses to our RCOI listed the sources of Conflict Minerals as: (1) unknown, (2) from recycled or scrap sources, (3) from within a Covered Country, or (4) from outside the Covered Countries. Based on these responses, we determined that some of our Conflict Minerals came from recycled or scrap sources. In addition, we have reason to believe that some of our Conflict Minerals may have originated in a Covered Country and were not from recycled or scrap sources.

In accordance with Rule 13p-1 under the Securities Exchange Act of 1934, Amkor has filed this Specialized Disclosure Form (Form SD) and the attached Conflict Minerals Report. Both reports are available on the “Investors” tab of www.amkor.com, under “SEC filings”. This Form SD and Exhibit 1.02 contain references to our website. The information on this website is not incorporated by reference into this Form SD or Exhibit 1.02.
