AETERNA ZENTARIS REPORTS FIRST QUARTER 2008 FINANCIAL AND OPERATING RESULTS

ALL AMOUNTS ARE IN U.S. DOLLARS

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

QUEBEC CITY, CANADA, MAY 7, 2008 - AEterna Zentaris Inc. (NASDAQ: AEZS, TSX: AEZ), a global biopharmaceutical company focused on endocrinology and oncology, today reported financial and operating results for the first quarter ended March 31, 2008.

FIRST QUARTER 2008 HIGHLIGHTS

- Cetorelix: first patients treated in second efficacy trial of the Phase 3 program in benign prostatic hyperplasia (BPH);
- AEZS-108: first patients treated in Phase 2 trial in ovarian and endometrial cancers;
- Miltefosine (Impavido(R)): rights sold to Paladin Labs Inc. (TSX:PLB) for approximately \$8.9 million.

SUBSEQUENT TO FIRST QUARTER END

- Cetorelix: recruitment of 600 patients completed for first efficacy trial of the Phase 3 program in BPH;
- Juergen Ernst, AEterna Zentaris Chairman, appointed Interim President and CEO, replacing David J. Mazzo. Departure of Ellen McDonald, Senior Vice President, Business Operations and Chief Business Officer;
- Board member Jose P. Dorais appointed to the Corporate Governance, Nominating and Human Resources Committee, replacing Mr. Juergen Ernst, the Company's Chairman of the Board and Interim President and CEO, who had previously stepped down from the committee in connection with his appointment as Interim President and CEO.

Juergen Ernst, Chairman, Interim President and CEO at AEterna Zentaris commented, "During the quarter, we continued to move forward with our Phase 3 program in BPH with our lead compound cetorelix, as we completed patient recruitment for our first efficacy trial in North America and started patient dosing in our second similar efficacy trial in Europe. We also achieved an important milestone with our lead oncology compound AEZS-108, as we started patient dosing for our Phase 2 trial in endometrial and ovarian cancer. Subsequent to quarter end, we had to make important changes to our management team in order not to stray from our corporate strategy which is based on the following priorities: concentrate on the advancement of our lead value-drivers cetorelix in BPH and AEZS-108 in oncology, pursue strategic partnership opportunities for cetorelix and other compounds from our rich pipeline, continue monetizing our non-core assets to provide additional sources of non-dilutive funding and apply strict control of our burn-rate. We believe that by staying the course with our strategy, we will be able to meet our mid and long-term goals for the benefit of both patients and shareholders."

CONSOLIDATED RESULTS FOR THE FIRST QUARTER ENDED MARCH 31, 2008

CONSOLIDATED REVENUES were \$9.7 million for the three-month period ended March 31, 2008 compared to \$9.2 million for the same period in 2007. The increase in revenues is primarily related to additional sales of Cetrotide(R) to Merck Sereno, mainly offset by decreased sales activities of Impavido(R) and Cetrotide(R) in Japan, as well as a reduction in license fees revenues related to services rendered through our collaborations with Spectrum Pharmaceuticals, Inc. and Keryx Biopharmaceuticals, Inc.

CONSOLIDATED SELLING, GENERAL AND ADMINISTRATIVE (SG&A) EXPENSES were \$4.4

Edgar Filing: Aeterna Zentaris Inc. - Form 6-K

million for the three-month period ended March 31, 2008 compared to \$4.9 million for the same period in 2007. The decrease in SG&A expenses for the three-month period ended March 31, 2008, compared to the same period in 2007, is primarily due to non-recurring corporate expenses related to organizational changes that were implemented in the first quarter of 2007. A decrease in selling expenses was further impacted by lower royalties and commission expenses related to lower sales volumes of Cetrotide(R) in Japan and Impavido(R).

CONSOLIDATED R&D COSTS, NET OF TAX CREDITS AND GRANTS were \$13.7 million for the three-month period ended March 31, 2008 compared to \$7.9 million for the same period in 2007. Additional R&D expenses of \$5.8 million spent in the first quarter 2008 compared to the same period in 2007 are mainly related to the advancement of our lead product cetrorelix in Phase 3 for BPH, as well as further advancement of targeted, earlier-stage development programs including AEZS-108 and AEZS-112, our tubulin inhibitor, both of which are in oncology.

CONSOLIDATED NET LOSS for the three-month period ended March 31, 2008 was \$10.9 million or \$0.20 per basic and diluted share, compared to \$5.1 million or \$0.10 per basic and diluted share for the same period in 2007. The increase in net loss is primarily attributable to the increased R&D costs related to the advancement of cetrorelix in Phase 3 for the treatment of BPH.

The consolidated cash and short-term investments were \$38.7 million as of March 31, 2008.
