QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

**For the transition period from _____ to
Commission File Number 1-9753**

AXIALL CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

115 Perimeter Center Place, Suite 460, Atlanta, Georgia

(Address of principal executive offices)

58-1563799

(I.R.S. Employer Identification No.)

30346

(Zip Code)

(770) 395-4500

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a
smaller reporting company)

Edgar Filing: AXIALL CORP/DE/ - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

| Class | Outstanding as of May 6, 2013 |
|--------------------------------|--------------------------------------|
| Common Stock, \$0.01 par value | 69,801,675 |

Significant non-cash transaction

On January 28, 2013 we acquired substantially all of the assets and liabilities of PPG Industries, Inc.'s ("PPG") business relating to the production of chlorine, caustic soda and related chemicals, through a merger between a subsidiary of PPG and a subsidiary of the Company. The purchase price for these transactions was approximately \$2.7 billion and consisted of: (i) the issuance of approximately 35.2 million shares of our common stock valued at approximately \$1.8 billion; (ii) the assumption of \$967.0 million of debt; and (iii) the assumption of certain other liabilities including pension and other postretirement obligations. See Note 2 to the unaudited condensed consolidated financial statements.

See accompanying notes to unaudited condensed consolidated financial statements.

Table of Contents

AXIALL CORPORATION

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The accompanying unaudited condensed consolidated financial statements reflect all of the adjustments that, in the opinion of management, are necessary to present fairly the financial position, results of operations and cash flows for the interim periods reported. Such adjustments are of a normal, recurring nature. Our financial condition as of, and our operating results for the three month period ended, March 31, 2013 are not necessarily indicative of the financial condition and results that may be expected for the full year ending December 31, 2013 or any other interim period. Certain prior period amounts have been reclassified to conform to the current period's presentation. These reclassifications did not impact the Company's operating income or consolidated net income (loss).

On January 28, 2013 we acquired substantially all of the assets and liabilities of PPG Industries, Inc.'s ("PPG") business relating to the production of chlorine, caustic soda and related chemicals (the "Merged Business") through a merger between a subsidiary of PPG and a subsidiary of the Company (the "Merger") we also completed a series of related financings (collectively, the "Transactions"). The purchase price for the Merged Business was approximately \$2.7 billion and consisted of: (i) the issuance of approximately 35.2 million shares of our common stock valued at approximately \$1.8 billion; (ii) the assumption of \$967.0 million of debt; and (iii) the assumption of certain other liabilities including pension and other postretirement obligations. See Note 2 to the unaudited condensed consolidated financial statements.

Through the Merger, we acquired, as part of the Merged Business, the remaining 50 percent interest that we did not previously own of PHH Monomers LLC, a joint venture between us and PPG ("PHH"). Prior to the Merger, we owned 50 percent of PHH and accounted for our ownership interest as an equity method investment. We recognized a gain of \$23.5 million as a result of remeasuring the equity interest we held in PHH before the Merger. The fair value of our prior equity interest in PHH before the Merger was \$25.2 million. PHH is a manufacturing joint venture that consists of plant and equipment and the fair value was estimated based on the replacement cost of similar condition assets.

Accounting Standards Codification ("ASC") 810-10, *Noncontrolling Interests in Consolidated Financial Statements*, provides guidance on accounting for the financial presentation of noncontrolling interest in subsidiaries. Beginning in the first quarter of 2013, we incorporated the noncontrolling interests in our majority-owned subsidiaries in our financial statement presentation including our interest in the Taiwan Chlorine Industries, Ltd. ("TCI") joint venture that we acquired in the Transactions. Such presentation requires us to report our noncontrolling interests in our majority-owned subsidiaries as a separate line item in the equity section of our condensed consolidated balance Sheets. In addition, our condensed consolidated Statements of operations, condensed consolidated Statements of comprehensive income (loss) and condensed consolidated Statements of cash flows reflect the prescribed manner in which the net income of the subsidiary is presented on the controlling company's consolidated financial statements. Accordingly, "attributable to Axiall" refers to our operating results exclusive of any noncontrolling interest in subsidiaries including the interest of our minority partner in TCI.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes to audited consolidated

Table of Contents

financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2012 (the "2012 Annual Report"). There has been no material change in the significant accounting policies followed by us during the three month period ended March 31, 2013 from those disclosed in the 2012 Annual Report. Unless the context otherwise requires, references to "Axiall," the "Company," "we," "our" or "us," means Axiall Corporation and its consolidated subsidiaries.

2. MERGER WITH THE PPG CHEMICALS BUSINESS

The Merger created a leading integrated chemicals and building products company with a broad portfolio of downstream products, and greater scale and ability to capitalize on globally advantaged, low cost North American natural gas. The results of the Merged Business are included in our financial statements from January 28, 2013, the closing date of the acquisition of the Merged Business. We issued 35.2 million shares of our common stock, assumed \$967.0 million of debt and assumed certain other liabilities including pension liabilities and other postretirement obligations as consideration for the Merged Business. In connection with the Transactions, we paid approximately \$49.6 million in fees and expenses, which included approximately \$29.6 million of debt issuance costs of which approximately \$18.5 million was deferred and approximately \$20.0 million of related professional and legal fees.

The initial accounting for the Merged Business (including the allocation of the purchase price to acquired assets and liabilities) is preliminary and subject to change including changes in the fair value of working capital and other assets, completion of an appraisal of assets acquired and liabilities assumed, and final valuation of intangible assets. Goodwill recognized from the acquisition of the Merged Business is primarily due to the combined companies providing an increase in size and economies of scale, a significant increase in chlorine production flexibility, an increase in natural gas integration and strategic, geographic and product synergies. Approximately \$14 million of the goodwill recognized in the Merger is expected to be deductible for tax purposes. The fair value of the noncontrolling interest in TCI was estimated based on the present value of estimated future cash flows from TCI attributable to our minority partner's ownership percentage of TCI. The preliminary allocation of the purchase price to assets acquired and liabilities assumed, is set forth in the table below and is subject to change during the measurement period of up to twelve months.

Table of Contents

Summary Pro Forma Information. The following unaudited pro forma information reflects our consolidated results of operations as if the Transactions had taken place on January 1, 2012. The pro forma information includes primarily adjustments for depreciation based on the estimated fair value of the property, plant and equipment we acquired, amortization of acquired intangibles and interest expense on the debt we incurred to finance the Transactions. The pro forma information is not necessarily indicative of the results of operations that we would have reported had the Transactions actually closed on January 1, 2012, nor is it necessarily indicative of future results.

| <i>In millions, except per share data</i> | Three Months Ended March 31, | |
|---|------------------------------|------------------------|
| | 2013 | 2012 |
| Net sales | \$ 1,168.9 | \$ 1,271.3 |
| Net income (loss) attributable to Axiall | \$ (10.3) ^(a) | \$ 68.4 ^(b) |
| Earnings (loss) per share attributable to Axiall: | | |
| Basic | \$ (0.15) | \$ 0.98 |
| Diluted | \$ (0.15) | \$ 0.97 |

^(a) In addition to the normal pro forma adjustments associated with the Transactions, this amount excludes; (i) the \$23.5 million gain on acquisition of controlling interest in PHH; (ii) \$10.2 million related to the inventory fair value purchase accounting adjustment; and (iii) \$11.0 million related to the expensing of financing fees related to a \$688.0 million bridge loan used in the Transactions. These amounts are excluded from the pro forma amounts for the three months ended March 31, 2013 and comparable amounts are included in the three months ended March 31, 2012 to reflect our consolidated results as if the Transactions had taken place on January 1, 2012.

^(b) In addition to the normal pro forma adjustments associated with the Transactions, this amount includes; (i) the \$23.5 million gain on acquisition of controlling interest in PHH; (ii) \$13.4 million related to the inventory fair value purchase accounting adjustment; and (iii) \$11.0 million related to the expensing of financing fees related to a \$688.0 million bridge loan used in the Transactions. These amounts are excluded from the pro forma amounts for the three months ended March 31, 2013 and included in the three months ended March 31, 2012 to reflect our consolidated results as if the Transactions had taken place on January 1, 2012.

Disclosure of revenues and earnings of the Merged Business since January 28, 2013 on a stand alone basis is not practicable as it is not being operated as a stand alone business.

Increase of Authorized Shares of Common Stock. In connection with the Transactions and effective January 28, 2013, the Company increased the number of authorized shares of Company common stock from 100 million shares to 200 million shares.

3. NEW ACCOUNTING PRONOUNCEMENTS

In December 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU", "Update") 2011-11, which amends ASC Topic 210, *Balance Sheet*. The objective of this amendment is to provide enhanced disclosures that will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements on an entity's financial position. This includes the effect or potential effect of rights of setoff associated with an entity's recognized assets and recognized liabilities within the scope of this update. The amendment requires enhanced disclosures by requiring improved information about financial instruments and derivative instruments that are either (i) offset in accordance with ASC 210 or ASC 815 or (ii) subject to an enforceable master netting arrangement or similar agreement. Implementation of this standard is required for fiscal years beginning on or after January 1, 2013. Implementation of this standard did not have a material impact on our condensed consolidated financial statements.

In July 2012, the FASB issued ASU 2012-02 *Intangibles - Goodwill and Other (Topic 350)*. The objective of the amendments in this Update is to reduce the cost and complexity of performing an

Table of Contents

impairment test for indefinite-lived intangible assets by simplifying how an entity tests those assets for impairment and to improve consistency in impairment testing guidance among long-lived asset categories. The amendments permit an entity first to assess qualitative factors to determine whether the existence of events and circumstances indicates that it is more-likely-than-not, that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test in accordance with Subtopic 350-30, *Intangibles Goodwill and Other General Intangibles Other than Goodwill*. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. If, after assessing the totality of events and circumstances, an entity concludes that it is not more-likely-than-not that the indefinite-lived intangible asset is impaired, then the entity is not required to take any further action. However, if an entity concludes otherwise, then it is required to determine the fair value of the indefinite-lived intangible asset and perform the quantitative impairment test by comparing the fair value with the carrying amount in accordance with Subtopic 350-30. Previous guidance in Subtopic 350-30 required an entity to test indefinite-lived intangible assets for impairment, on at least an annual basis, by comparing the fair value of the asset with its carrying amount. If the carrying amount of the intangible asset exceeds its fair value, an entity should recognize an impairment loss in the amount of that excess. The amendments in this Update also allow an entity the option to bypass the qualitative assessment for any indefinite-lived intangible asset in any period and proceed directly to performing the quantitative impairment test. An entity will be able to resume performing the qualitative assessment in any subsequent period. Implementation of this standard is required for fiscal periods beginning after September 15, 2012. Implementation of this standard did not have a material impact on our condensed consolidated financial statements.

In January 2013, the FASB issued ASU 2013-01, *Clarifying the Scope and Disclosures about Offsetting Assets and Liabilities*, which amends ASC Topic 210. The disclosures required by the amendments are the result of a joint project between the FASB and the International Accounting Standards Board. The main objective in developing the amendments is to address implementation issues about the scope of ASU 2011-11, to provide more clarity about offsetting assets and liabilities, reduce diversity in application and provide users of financial information more comparability as it relates to certain reconciling differences between financial statements prepared in accordance with GAAP and those financial statements prepared under International Financial Reporting Standards. The amendments clarify that the scope of the disclosures under GAAP is limited to include derivatives accounted for in accordance with Topic 815, including bifurcated embedded derivatives, repurchase agreements and reverse repurchase agreements, and securities borrowing and securities lending transactions that are either offset in accordance with Section 210-20-45 or Section 815-10-45 or subject to an enforceable master netting arrangement or similar agreement. An entity is required to apply the amendments for fiscal years beginning on or after January 1, 2013, and interim periods within those annual periods. The amendments require retrospective disclosures for all comparative periods presented. Implementation of this standard did not have a material impact on our condensed consolidated financial statements.

In February 2013, the FASB issued ASU 2013-02, which amends ASC Topic 210, an amendment to ASC topic 220. This amendment requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income ("AOCI") by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of AOCI by the respective line items of net income but only if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under GAAP that provide additional detail about those amounts. Implementation of this standard was required for reporting periods beginning after December 15, 2012. In Note 13, we have disclosed significant amounts reclassified out of AOCI by the respective line items of net income.

Table of Contents

In February 2013, the FASB issued ASU 2013-04 *Liabilities (Topic 405) Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation is Fixed at the Reporting Date*. The objective of the amendments in this Update is to provide guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date, except for obligations addressed within existing GAAP guidance. The guidance in this Update requires an entity to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this Update is fixed at the reporting date, as the sum of the following: (i) the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors, and (ii) any additional amount the reporting entity expects to pay on behalf of its co-obligors. The guidance in this Update also requires an entity to disclose the nature and amount of the obligation as well as other information about those obligations. The Update will be effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. We are currently evaluating the amendments in this Update, but do not expect implementation to have a material impact on our condensed consolidated financial statements.

In March 2013, the FASB issued ASU 2013-05 *Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity*. The guidance in this Update provides that when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business (other than a sale of in substance real estate or conveyance of oil and gas mineral rights) within a foreign entity, the parent is required to apply the guidance in Subtopic 830-30 to release any related cumulative translation adjustment into net income. However, the cumulative translation adjustment should be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. For an equity method investment that is a foreign entity, the partial sale guidance in Section 830-30-40 still applies. As such, a pro rata portion of the cumulative translation adjustment should be released into net income upon a partial sale of such an equity method investment. In those instances, the cumulative translation adjustment is released into net income only if the partial sale represents a complete or substantially complete liquidation of the foreign entity that contains the equity method investment. Additionally, this Update clarifies that the sale of an investment in a foreign entity includes both (1) events that result in the loss of a controlling financial interest in a foreign entity (that is, irrespective of any retained investment) and (2) events that result in an acquirer obtaining control of an acquiree in which it held an equity interest immediately before the acquisition date (sometimes also referred to as a step acquisition). Accordingly, the cumulative translation adjustment should be released into net income upon the occurrence of those events. Implementation of this standard is required for fiscal years beginning on or after December 15, 2013. We do not expect implementation of this Update to have a material impact on our condensed consolidated financial statements.

4. INVENTORIES

At March 31, 2013 and December 31, 2012, the major classes of inventories were as follows:

| <i>(In millions)</i> | March 31, 2013 | December 31, 2012 |
|----------------------|---------------------------|------------------------------|
| Raw materials | \$ 162.2 | \$ 115.3 |
| Work-in-progress | 7.6 | 7.1 |
| Finished goods | 273.8 | 166.0 |
| Inventories | \$ 443.6 | \$ 288.4 |

Table of Contents**5. PROPERTY, PLANT AND EQUIPMENT, NET**

At March 31, 2013 and December 31, 2012, property, plant and equipment consisted of the following:

| <i>(In millions)</i> | March 31, 2013 | December 31, 2012 |
|--|---------------------------|------------------------------|
| Machinery and equipment | \$ 2,264.4 | \$ 1,492.6 |
| Buildings | 230.6 | 203.7 |
| Land and land improvements | 278.8 | 90.4 |
| Construction-in-progress | 69.6 | 33.6 |
| Property, plant and equipment, at cost | 2,843.4 | 1,820.3 |
| Less: accumulated depreciation | 1,207.5 | 1,182.6 |
| Property, plant and equipment, net | \$ 1,635.9 | \$ 637.7 |

Depreciation expense is computed using the straight-line method over the estimated useful lives of the assets. We periodically monitor actual experience to determine whether events and circumstances have occurred that may warrant revision of the estimated useful lives of property, plant and equipment. Effective January 1, 2013, we changed the useful lives of certain property, plant and equipment as a result of our historical experience which demonstrated longer useful lives for certain classes of assets. The change was accounted for as a change in estimate and applied prospectively. For the three months ended March 31, 2013, the effect of the change to depreciation expense decreased depreciation expense by \$5.2 million and net loss attributable to Axiall by approximately \$3.3 million and diluted loss per share by \$0.06.

The estimated useful lives of our property, plant and equipment are as follows:

| | |
|---------------------------------|-------------|
| Buildings | 27 39 years |
| Land improvements | 15 20 years |
| Machinery, plant and equipment | 2 25 years |
| Dies and moulds | 3 10 years |
| Office furniture and equipment | 2 10 years |
| Computer equipment and software | 3 10 years |

6. GOODWILL AND OTHER INTANGIBLE ASSETS

In the acquisition of the Merged Business we acquired substantial intangible assets including \$1.5 billion in goodwill and other intangible assets consisting of \$1.2 billion in customer relationships, \$14.9 million in technology and \$6.0 million in product trade names. These amounts are preliminary and are based on the preliminary purchase price allocation of the fair values of the acquired assets and liabilities assumed as of the closing date of the Merger as further described below.

Goodwill. During the three months ended March 31, 2013, we preliminarily allocated the fair values of assets acquired and liabilities of the Merged Business assumed in the Transactions, which are subject

Table of Contents

to change. The following table provides the detail of the changes made to goodwill during the three months ended March 31, 2013.

| <i>(In millions)</i> | Chlorovinyls | Building Products | Total |
|--|---------------------|--------------------------|-------------------|
| Gross goodwill at January 1, 2013 | \$ 245.4 | \$ 159.5 | \$ 404.9 |
| Accumulated impairment losses | (55.5) | (132.2) | (187.7) |
| Net goodwill at January 1, 2013 | \$ 189.9 | \$ 27.3 | \$ 217.2 |
| | | | |
| Gross goodwill at January 1, 2013 | \$ 245.4 | \$ 159.5 | \$ 404.9 |
| Preliminary addition from the Transactions | 1,454.3 | - | 1,454.3 |
| Foreign currency translation adjustment | (4.3) | - | (4.3) |
| | | | |
| Gross goodwill at March 31, 2013 | 1,695.4 | 159.5 | 1,854.9 |
| Accumulated impairment losses | (55.5) | (132.2) | (187.7) |
| Net goodwill at March 31, 2013 | \$ 1,639.9 | \$ 27.3 | \$ 1,667.2 |

Indefinite-lived intangible assets. Our indefinite-lived intangible assets consisted only of trade names with a carrying value of \$9.1 million at both March 31, 2013 and December 31, 2012.

Definite-lived intangible assets. At March 31, 2013 and December 31, 2012, we had definite-lived intangible assets in our building products segment that related to customer relationships and technology. There were no definite-lived intangible assets in our chlorovinyls segment as of December 31, 2012. In the acquisition of the Merged Business, we acquired definite-lived intangible assets in our chlorovinyls segments. The preliminary value of these assets acquired are \$1.2 billion for customer relationships, \$14.9 million for technology and \$6.0 million for trade names. The following table provides the definite-lived intangible assets, by reportable segment, as of March 31, 2013 and December 31, 2012

| <i>(In millions)</i> | Chlorovinyls | Building Products | | Total | |
|--|---------------------|--------------------------|---------------------|-------------------|---------------------|
| | March 31, | March 31, | December 31, | March 31, | December 31, |
| | 2013 | 2013 | 2012 | 2013 | 2012 |
| Gross carrying amounts | | | | | |
| Customer relationships | \$ 1,203.3 | \$ 35.2 | \$ 35.2 | \$ 1,238.5 | \$ 35.2 |
| Trade names | 6.0 | - | - | 6.0 | - |
| Technology | 14.9 | 17.4 | 17.4 | 32.3 | 17.4 |
| Total | 1,224.2 | 52.6 | 52.6 | 1,276.8 | 52.6 |
| Accumulated amortization: | | | | | |
| Customer relationships | (10.5) | (9.1) | (8.7) | (19.6) | (8.7) |
| Trade names | (0.1) | - | - | (0.1) | - |
| Technology | (0.1) | (10.0) | (9.6) | (10.1) | (9.6) |
| Total | (10.7) | (19.1) | (18.3) | (29.8) | (18.3) |
| Foreign currency translation adjustment: | | | | | |
| Customer relationships | (2.4) | - | - | (2.4) | - |
| Total | (2.4) | - | - | (2.4) | - |
| Net carrying amounts | | | | | |
| Customer relationships | 1,190.4 | 26.1 | 26.5 | 1,216.5 | 26.5 |
| Trade names | 5.9 | - | - | 5.9 | - |
| Technology | 14.8 | 7.4 | 7.8 | 22.2 | 7.8 |
| Total | \$ 1,211.1 | \$ 33.5 | \$ 34.3 | \$ 1,244.6 | \$ 34.3 |

Table of Contents

The weighted average estimated useful life remaining for customer relationships, trade names and technology is approximately 19 years, 17 years and 16 years, respectively. Amortization expense for the definite-lived intangible assets was \$11.6 million and \$0.8 million for the three months ended March 31, 2013 and 2012, respectively. Total definite-lived intangible assets estimated annual amortization expense for the next five fiscal years is approximately \$67.7 million per year.

7. OTHER ASSETS, NET

At March 31, 2013 and December 31, 2012, other assets, net of accumulated amortization, consisted of the following:

| <i>(In millions)</i> | March 31, 2013 | December 31, 2012 |
|--|---------------------------|------------------------------|
| Advances for long-term purchase contracts, net | \$ 16.8 | \$ 19.4 |
| Advances to and investment in joint ventures | 20.2 | 6.1 |
| Deferred financing costs, net | 30.7 | 16.3 |
| Long-term assets held for sale | 11.1 | 13.8 |
| Other | 8.0 | 8.0 |
| Total other assets, net | \$ 86.8 | \$ 63.6 |

The decrease in advances for long-term purchase contracts is the result of amortizing the prepayments over the terms of the related contracts. The increase in deferred financing costs, net, was the result of fees incurred in relation to the issuance and assumption of debt in connection with the Transactions as well as the 4.875 Notes and the New ABL Revolver less the write-off of deferred financing fees associated with the termination of the 9 percent notes (as defined below) and described in Note 8 to the unaudited condensed consolidated financial statements.

8. LONG-TERM DEBT AND LEASE FINANCING OBLIGATION

On March 31, 2013 and December 31, 2012, our long-term debt consisted of the following:

| <i>(Dollar amounts in millions)</i> | Maturity Date | Outstanding Balance at March 31, 2013 | Outstanding Balance at December 31, 2012 |
|--|----------------------|--|---|
| 4.625 Notes | February 15, 2021 | \$ 688.0 | \$ - |
| 4.875 Notes | May 15, 2023 | 450.0 | - |
| Term loan (net of \$3.0 million debt issuance costs) | January 28, 2017 | 196.3 | - |
| ABL revolver | January 28, 2018 | 139.0 | - |
| 9 percent notes | January 15, 2017 | - | 448.1 |
| Total debt | | 1,473.3 | 448.1 |
| Less current portion of long-term debt | | (55.1) | - |
| Long-term debt, net | | \$ 1,418.2 | \$ 448.1 |

Table of Contents

Transaction Financing

In connection with the Transactions, we assumed certain debt obligations and entered into certain new debt arrangements as follows:

4.625 Notes

The Company and certain of its subsidiaries guaranteed \$688 million aggregate principal amount of senior notes due 2021 bearing interest at a rate of 4.625 percent per annum (the "4.625 Notes") that were initially issued by a PPG subsidiary in connection with the Transactions. Interest on the 4.625 Notes is payable semi-annually in arrears on February 15 and August 15, commencing on August 15, 2013. The 4.625 Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by the Company and by the Company's existing and future domestic subsidiaries, other than certain excluded subsidiaries. The proceeds from the 4.625 Notes retired a \$688.0 million bridge loan for which we incurred \$11.0 million related to financing fees that are included in "Loss on redemption and other debt costs, net" in our unaudited condensed consolidated statements of operations for the three months ended March 31, 2013.

Term Loan

The Company also guaranteed a \$279 million term loan due 2017 originally made to the PPG subsidiary with which we merged in the Transactions (the "Term Loan").

The Term Loan bears interest at a rate equal to (at the Company's election): (i) the Base Rate (as defined in the Term Loan agreement and subject to a 2 percent floor) plus 1.50 percent per annum; or (ii) the reserve adjusted Eurodollar Rate (as defined in the Term Loan and subject to a 1 percent floor) plus 2.50 percent per annum. At March 31, 2013, outstanding borrowings under the Term Loan had a stated interest rate of 3.50 percent per annum.

Obligations under the Term Loan are fully and unconditionally guaranteed, on a senior secured basis, by the Company and its existing and future domestic subsidiaries, other than certain excluded subsidiaries and are secured by all the assets of the Company and the subsidiary guarantors.

During the three months ended March 31, 2013, we repaid approximately \$79.0 million of the outstanding balance of the Term Loan. In connection with the repayment, we expensed approximately \$1.4 million of deferred financing fees, which is included in "Loss on redemption and other debt costs, net," in our unaudited condensed consolidated statements of operations.

New ABL Revolver

The Company refinanced its asset-based revolving credit facility (the "New ABL Revolver") increasing the revolver commitment from \$300.0 million to \$500.0 million. At the Company's election, with respect to U.S. borrowings under the New ABL Revolver, the New ABL Revolver will bear interest at a rate equal to either: (i) the higher of certain U.S. index rates; or (ii) three-month London Interbank Offered Rate ("LIBOR"), in each case, plus an applicable margin based on the Company's utilization under the New ABL Revolver. At the election of the Company, with respect to Canadian borrowings under the New ABL Revolver, the New ABL Revolver will bear interest at a rate equal to either: (i) the higher of certain Canadian index rates; or (ii) three-month LIBOR, in each case, plus an applicable margin based on the Company's utilization under the New ABL Revolver. At March 31, 2013, the weighted average interest rate on our outstanding New ABL Revolver balance was 2.6 percent and our availability was approximately \$349.8 million, net of \$139.0 million outstanding balance and letters of credit of \$11.2 million.

The New ABL Revolver is fully and unconditionally guaranteed, on a senior secured basis, by each of the Company's existing and subsequently acquired or organized direct or indirect domestic subsidiaries

Table of Contents

(other than certain excluded subsidiaries). Canadian borrowing obligations under the New ABL Revolver are unconditionally guaranteed by each of the Company's existing and subsequently acquired or organized direct or indirect domestic and Canadian subsidiaries (other than certain excluded subsidiaries). All obligations under the New ABL Revolver, and the guarantees of those obligations, are secured, subject to certain exceptions, by substantially all of the Company's assets and the assets of the guarantors.

The indenture governing the 4.625 Notes, the Term Loan and the New ABL Revolver each contain customary covenants, including certain restrictions on the Company and its subsidiaries to pay dividends. These covenants are subject to a number of important exceptions and qualifications. In connection with the issuance of the 4.625 Notes, we entered into a registration rights agreement, pursuant to which we and the guarantors agreed to use our commercially reasonable efforts to file an exchange offer registration statement registering exchange notes and to use commercially reasonable efforts to complete the exchange offer within 560 calendar days following the closing of the 4.625 Notes offering.

9 Percent Note Retirement and 4.875 Note Issuance

In February 2013 we retired our then outstanding 9 percent notes with the proceeds of a new debt issuance. Additional information about those transactions is as follows:

4.875 Note Issuance

On February 1, 2013, we issued \$450.0 million in aggregate principal amount of senior notes due 2023 (the "4.875 Notes") which bear interest at a rate of 4.875 percent per annum. Interest on the 4.875 Notes is payable semi-annually in arrears on May 15 and November 15 of each year, commencing on May 15, 2013. The 4.875 Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by each of our existing and future domestic subsidiaries, other than certain excluded subsidiaries.

9 Percent Notes Tender Offer and Redemption

We used the net proceeds from the offering of the 4.875 Notes, together with cash on hand, to fund the repurchase of our 9 percent senior secured notes due 2017 (the "9 percent notes") in a tender offer and related consent solicitation (the "Tender Offer") for an aggregate tender price of \$502.3 million including a make whole payment of \$55.4 million. We accounted for the repurchase of the 9 percent notes as an extinguishment. In addition, we expensed approximately \$8.5 million of deferred financing fees and incurred charges of \$2.2 million associated with the Tender Offer. These costs are included in "Loss on redemption and other debt costs, net," in our unaudited condensed consolidated statements of operations.

Lease Financing Obligation

At March 31, 2013 and December 31, 2012, we had a lease financing obligation of \$110.0 million and \$112.3 million, respectively. The change from the December 31, 2012 balance is due to the change in the Canadian dollar exchange rate for the period ended March 31, 2013. The lease financing obligation is the result of the sale and concurrent leaseback of certain land and buildings in Canada in 2007 for a term of ten years. In connection with this transaction, a collateralized letter of credit was issued in favor of the buyer-lessor resulting in the transaction being recorded as a financing transaction rather than a sale for GAAP purposes. As a result, the land, building and related accounts continue to be recognized in the unaudited condensed consolidated balance sheets. The amount of the collateralized letter of credit was \$3.8 million and \$5.9 million as of March 31, 2013 and December 31, 2012, respectively. We are not obligated to repay the lease financing obligation amount of \$110.0 million. Our

Table of Contents

obligation is for the future minimum lease payments under the terms of the related lease agreements. The future minimum lease payments under the terms of the related lease agreements at March 31, 2013 are \$5.8 million in 2013, \$7.7 million in 2014, \$7.9 million in 2015, \$8.0 million in 2016 and \$2.0 million in 2017, the final year of the lease agreements. The change in the future minimum lease payments from such amounts disclosed at December 31, 2012 is due to current period payments and the change in the Canadian dollar exchange rate as of March 31, 2013.

9. FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments consist primarily of cash and cash equivalents, accounts receivable, accounts payable, accrued expenses and long-term debt. The carrying amount of cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate their fair value because of the nature of such instruments. The fair values of our outstanding notes, as shown in the table below, are based on quoted market values. Our ABL Revolver is fair valued using comparable recent third party transactions.

The FASB ASC 820-10 establishes a fair value hierarchy that prioritizes observable and unobservable inputs to valuation techniques used to measure fair value. These levels, in order of highest to lowest priority are described below:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities at the measurement date.
- Level 2 Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.
- Level 3 Prices that are unobservable for the asset or liability and are developed based on the best information available under the circumstances, which might include the Company's own data.

The following is a summary of the carrying amounts and estimated fair values of our fixed-rate long-term debt and our ABL Revolver as of March 31, 2013 and December 31, 2012:

| <i>(In millions)</i> | March 31, 2013 | | December 31, 2012 | |
|----------------------|-----------------|------------|-------------------|------------|
| | Carrying Amount | Fair Value | Carrying Amount | Fair Value |
| Level 1 | | | | |
| Long-term debt: | | | | |
| 4.625 Notes | \$ 688.0 | \$ 701.3 | \$ - | \$ - |
| 4.875 Notes | 450.0 | 458.7 | - | - |
| Term Loan | 196.3 | 202.3 | - | - |
| 9.0 percent Notes | - | - | 448.1 | 501.8 |
| Level 2 | | | | |
| Long term debt: | | | | |
| ABL Revolver | 139.0 | 139.0 | - | - |

10. COMMITMENTS AND CONTINGENCIES

Legal Proceedings. We are involved in a number of contingencies incidental to the normal conduct of our business including lawsuits, claims and environmental contingencies. The outcome of these contingencies is inherently unpredictable. However, we believe that, in the aggregate, the outcome of all known contingencies including lawsuits, claims and environmental contingencies will not have a material adverse effect on our financial statements; however, such outcome may be material to the financial statements of any particular period in which costs, if any, are recognized. We anticipate that

Table of Contents

the resolution of many contingencies, and in particular environmental contingencies, will occur over an extended period of time. Our assessment of the potential impact of these environmental contingencies is subject to uncertainty due to the complex, ongoing and evolving process of investigation and remediation of such environmental contingencies, and the potential for technological and regulatory developments. In addition, the impact of evolving programs, such as natural resource damage claims, industrial site reuse initiatives and state remediation programs, also adds to the uncertainty of the ultimate resolution of these environmental contingencies.

Environmental Matters. It is our policy to accrue expenses for environmental contingencies when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. Reserves for environmental liabilities do not include any potential offsets related to claims against third parties. As of March 31, 2013 and December 31, 2012 we had reserves for environmental contingencies totaling \$52.1 million and \$7.2 million, respectively of which \$3.8 million and nil, respectively, were classified as current liabilities.

Our reserve at March 31, 2013 included approximately \$15.0 million for environmental contingencies related to onsite remediation at the Lake Charles, Louisiana facility that we acquired as part of the Merged Business (the "Lake Charles South Facility"), approximately \$14.1 million for environmental contingencies related to remediation activities at our Natrium, West Virginia facility (the "Natrium Facility") and approximately \$14.0 million for environmental contingencies associated with the Calcasieu River Estuary located near our Lake Charles, Louisiana facilities. Our reserve at December 31, 2012 included approximately \$7.2 million associated with four plant site locations. Pre-tax charges against income for environmental remediation costs in both the three months ended March 31, 2013 and 2012 were approximately \$1 million. Management expects cash outlays for environmental remediation to range from \$10 million to \$20 million per year, through 2015 and \$3 million to \$5 million per year from 2016 through 2017, due to management's expectation that most of the remediation costs associated with the Calcasieu River Estuary will be incurred during the period of 2013 through 2015.

At our Lake Charles South Facility, we are engaged in ongoing remediation of groundwater and soil in connection with our corrective action permit issued pursuant to the Hazardous and Solid Waste Amendments ("HSWA") of the Resource Conservation and Recycling Act ("RCRA"). These remedial activities consists primarily of the operation of a series of well water treatment systems across the Lake Charles South Facility. In addition, remediation of possible soil contamination will be conducted in certain areas. These remedial activities are expected to continue for an extended period of time. As of March 31, 2013, we had an accrual of approximately \$15.0 million established in connection with these ongoing remediation activities.

At our Natrium Facility, we have implemented remedial actions to address specific National Pollutant Discharge Elimination System ("NPDES") permit requirements related to hexachlorocyclohexane, which is commonly referred to as BHC. We expect that these remedial actions will be in place for an extended period of time. In addition, as a result of a variance issued by the Ohio River Sanitation Commission, related to mercury concentrations in wastewater discharges, we will be required to conduct sampling in and around the Ohio River adjacent to the Natrium Facility for several years. As part of the assessment of our environmental contingencies assumed in connection with the Transactions, we have determined certain assessment and remediation costs associated with these activities to be probable and estimable and have established an accrual of \$14.1 million, in the aggregate, for these matters.

In Lake Charles, Louisiana we and various governmental agencies including the Louisiana Department of Environmental Quality ("LDEQ") have been evaluating elevated levels of risk in the Calcasieu River Estuary for more than a decade. Principal contaminants of concern, which may require remediation, include various metals, dioxins, furans and polychlorinated biphenyls. The LDEQ has issued a final

Table of Contents

decision document for the Bayou d'Inde area of the Calcasieu River Estuary, which includes the LDEQ's selection of remedial alternatives. LDEQ has also proposed entering into a Cooperative Agreement with the Company and certain other parties covering the implementation of the remediation. We are currently discussing the Cooperative Agreement with the LDEQ and the other parties and we expect to resolve the Cooperative Agreement with LDEQ and the other parties in the near term. Remedy implementation could begin in 2013 and would continue for a number of years thereafter with a period of monitoring for remedy effectiveness to follow remediation. The estimated costs to the Company associated with the Cooperative Agreement are consistent with the amounts currently reserved for this project. However, multiple future events, such as remedy design and implementation and the final allocation of responsibility among the various parties will be required, and considerable uncertainty exists regarding the timing of future events. As of March 31, 2013, we had an accrual of \$14.0 million established for remediation activities associated with the Calcasieu River Estuary.

There are several environmental issues at the Lake Charles, Louisiana facility that we operated prior to the Transactions (the "Lake Charles North Facility"), which we acquired from CONDEA Vista Company ("CONDEA Vista," which is now known as Sasol North America, Inc.) in 1999, and substantial investigation of the groundwater at the site has been conducted. Groundwater contamination was first identified in 1981, and the principal contaminants include ethylene dichloride and vinyl chloride monomer. The site currently contains an extensive network of monitoring wells and recovery wells. While CONDEA Vista has agreed to retain responsibility for substantially all environmental liabilities and remediation activity relating to the vinyl business we acquired from it, including our Lake Charles North Facility, we are responsible for a portion of such expenses, and had a \$3.0 million accrual in other non-current liabilities as of March 31, 2013 for certain remediation costs.

Environmental Remediation: Reasonably Possible Matters. In addition to the amounts currently reserved for environmental remediation, we may be subject to loss contingencies related to environmental matters that at this time are not estimable. Such unreserved losses are reasonably possible but are not currently considered to be probable of occurrence. This reasonably possible unreserved loss relates to environmental matters at several sites. The loss contingencies related to these sites include unresolved issues such as the nature and extent of contamination at these sites and the methods that may have to be employed to remediate them. Initial remedial actions are occurring with respect to these matters at two plant sites: the Lake Charles South Facility and the Natrium Facility. At the Lake Charles South Facility, we have completed a Facility Investigation and Corrective Measure Study ("CMS") under the U.S. Environmental Protection Agency's ("USEPA") RCRA Corrective Action Program under the oversight of the LDEQ. The LDEQ has accepted the proposed remedial alternatives. We received notice of the LDEQ's issuance of the final Hazardous Waste Post-Closure/HSWA Permit on June 28, 2010. The Permit was issued in final form on September 23, 2010. Planning for implementation of these proposed alternatives is in progress.

At the Natrium Facility, investigation has been completed and initial interim remedial measures have been implemented to mitigate soil impacts. There is additional investigation of groundwater contamination ongoing which may indicate the need for further remedial actions to address specific areas of the facility. Installation of a groundwater treatment system has been completed.

As part of the ongoing RCRA Corrective Action investigation for groundwater, the West Virginia Department of Environmental Protection ("WVDEP") and the USEPA Agency Region III requested that PPG perform, and PPG agreed to perform, sampling of sediment pore-water in the Ohio River adjacent to the Natrium Facility to assess the potential for offsite migration of contaminated groundwater. Sampling was performed in August 2012 and the results were submitted to the WVDEP and the USEPA Agency Region III on December 31, 2012. Under the terms of the Separation Agreement, PPG retained all liabilities relating to, arising out of or resulting from contamination in the

Table of Contents

Ohio River which was the subject of or related to, directly or indirectly, sediment sampling conducted or to be conducted by or on behalf of PPG (along with any associated follow-up sampling or testing).

11. EMPLOYEE RETIREMENT PLANS

Defined Benefit Plans

The Company sponsors and/or contributes to pension and postretirement medical, insurance and other benefit plans covering many of our U.S. employees, in whole or in part, based on meeting certain eligibility criteria. In addition, our Company and its subsidiaries have various pension plans and other forms of postretirement arrangements outside the United States, namely in Canada and Taiwan. As part of the Transactions, we assumed certain liabilities related to pension and other postretirement benefit plans. These liabilities relate to various pension, postretirement welfare and defined contribution plans (collectively the "Assumed Plans"). Refer to Note 2 for additional information related to this merger. We did not have any other postretirement benefit obligations prior to the Transactions.

Pension and Postretirement Welfare Plans

Certain employees in the United States who were hired before January 1, 2009 are covered by a defined benefit pension plan. That plan was frozen to future benefit accruals in 2009.

The Assumed Plans provide ongoing benefit accruals to certain employees but the Assumed Plans are closed to new hires. The Assumed Plans are unfunded and provide medical and life insurance benefits for certain employees of the Merged Business and their dependents. In connection with the Merger, we also acquired an Employee Group Waiver Plan ("EGWP") for certain Medicare-eligible retirees of the Merged Business and their dependents. The EGWP includes a fully-insured Medicare Part D prescription drug plan. The postretirement medical and life insurance programs require retiree contributions based on retiree-selected coverage levels for certain retirees and their dependents and provide for sharing of future benefit cost increases between Axiall and participants.

The preliminary estimated fair value of pension investment assets related to the Assumed Plans was \$479.2 million as of January 28, 2013. As of the same date, our estimated preliminary projected benefit obligation with respect to these assets was \$576.1 million. The unfunded status of pension obligations assumed by us and calculated on a projected benefit obligation basis as of January 28, 2013, was approximately \$96.9 million. The aggregate amount of the unfunded other post-retirement benefit obligations assumed by us as of January 28, 2013, was approximately \$182.9 million.

Table of Contents

Net periodic benefit cost (income) for the three months ended March 31, 2013 and 2012 includes the following:

| <i>(In millions)</i> | Pensions | | Other Postretirement Benefits | |
|--|-----------------------------------|-----------------------------------|-----------------------------------|-----------------------------------|
| | Three Months Ended March 31, 2013 | Three Months Ended March 31, 2012 | Three Months Ended March 31, 2013 | Three Months Ended March 31, 2013 |
| Components of net periodic benefit cost (income): | | | | |
| Interest cost | \$ 5.6 | \$ 1.8 | \$ 1.3 | \$ 1.3 |
| Service cost | 1.1 | - | 0.4 | 0.4 |
| Expected return on assets | (7.3) | (2.2) | - | - |
| Amortization of actuarial loss | 0.5 | 0.4 | - | - |
| Total net periodic benefit cost (income) | \$ (0.1) | \$ - | \$ 1.7 | \$ 1.7 |

Assumptions

The following weighted average assumptions were used to determine the benefit obligation for the defined benefit pension and other postretirement welfare plans. The rate of compensation increase was not applicable in 2012 as all future benefits with respect to compensation increases were frozen.

| | Pensions | | Other Postretirement Benefits |
|-------------------------------|----------|----------------|-------------------------------|
| | 2013 | 2012 | 2013 |
| Discount rate | 4.09% | 5.00% | 4.35% |
| Rate of compensation increase | 3.15% | Not Applicable | 3.11% |

The weighted-average healthcare cost trend rate (inflation) used for 2013 is 6.64 percent declining to 4.50 percent in eleven years. In selecting the rates for our current and long-term health care cost assumptions, we take into consideration a number of factors including our actual health care cost increases, the design of our benefit programs, the demographics of our active and retiree populations and external expectations of future medical cost inflation rates.

The preliminary weighted average expected long-term rate of return on plan assets for 2013 is 6.81 percent. For 2012, the expected long-term rate of return on plan assets was 8.25 percent.

Contributions

We made no contributions to the pension plan trusts during the three months ended March 31, 2013 and 2012, respectively. We estimate that we will fund approximately \$2.1 million and \$6.8 million, respectively, to the pension and postretirement welfare plans for the year ending December 31, 2013. Pursuant to the Merger Agreement related to the Transactions, additional payments may be required to PPG or by PPG to Axiall depending on the final funded status of the Assumed Plans.

Table of Contents**Defined Contribution Plans**

Most pre-merger employees are covered by defined contribution plans under which we make contributions to individual employee accounts. Our expense related to our defined contribution plans was approximately \$3.7 million and \$2.0 million for the three months ended March 31, 2013 and 2012, respectively.

12. STOCK-BASED COMPENSATION

On May 17, 2011, our shareholders approved the Axiall Corporation 2011 Equity and Performance Incentive Plan (the "2011 Plan"). In January 2013, our shareholders approved an amendment to the 2011 Plan to increase the number of shares available under the plan by 1.8 million shares. Under the 2011 Plan as it existed at March 31, 2013, we were authorized to grant various stock-based compensation awards for up to 3.6 million shares of our common stock to officers, employees and non-employee directors, among others. We have granted various types of share-based payment awards to participants, including restricted stock unit awards and stock option grants. Our policy is to issue new shares upon the exercise of stock options and the vesting of restricted stock units. As of March 31, 2013, there were approximately 3.0 million shares available for future grant to participants under our 2011 Plan. In connection with our adoption and shareholder approval of the 2011 Plan, we agreed to not grant additional stock-based compensation awards under our previously existing equity compensation plans.

Total after-tax share-based compensation cost by type of program was as follows:

| <i>(In millions)</i> | Three Months Ended March 31 | |
|---|------------------------------------|-------------|
| | 2013 | 2012 |
| Restricted stock units expense | \$ 1.6 | \$ 1.1 |
| Stock options expense | 0.3 | - |
| Before-tax share-based compensation expense | 1.9 | 1.1 |
| Income tax benefit | (0.6) | (0.3) |
| After-tax share-based compensation expense | \$ 1.3 | \$ 0.8 |

The amount of share-based compensation cost capitalized in the periods presented was not material during the three months ended March 31, 2013.

As of March 31, 2013 and 2012, we had approximately \$12.0 million and \$5.1 million, respectively, of total unrecognized compensation costs related to nonvested share-based compensation, which we will record in our Condensed Consolidated Statements of Operations over a weighted average recognition period of approximately two years. The total fair value of shares vested during the three months ended March 31, 2013 and 2012 was approximately \$0.1 million and \$0.4 million, respectively.

Table of Contents

Stock Options. A summary of stock option activity under all plans as of and for the three months ended March 31, 2013 is as follows:

| | Shares | Weighted Average Remaining Contractual Terms (Years) | Weighted Average Exercise Price | Aggregate Intrinsic Value (In millions) |
|---|---------|---|--|---|
| Outstanding on January 1, 2013 | 125,564 | | \$ 292.76 | |
| Granted | 188,330 | | 33.72 | |
| Exercised | (1,832) | | 21.25 | |
| Expired | (5,301) | | 508.64 | |
| Outstanding on March 31, 2013 | 306,761 | 7.0 years | \$ 131.62 | \$ 7.3 |
| Exercisable as of March 31, 2013 | 118,431 | 4.6 years | \$ 287.30 | \$ 1.9 |
| Vested or expected to vest as of March 31, 2013 | 174,030 | 8.4 years | \$ 33.72 | \$ 5.0 |

During the three months ended March 31, 2013, we granted options to purchase shares primarily to replace unvested awards of former employees of the Merged Business who became Axiall employees, in accordance with the Merger Agreement. In 2012, we granted no options to purchase shares. The fair value of stock options when granted has been estimated as of the date of grant using the Black-Scholes option pricing model. Option exercise prices are equal to the closing price of our common stock on the date of grant. Options generally vest over a three year period from the date of grant and expire no more than ten years after the date of grant. The intrinsic value is calculated as the difference between the market value at period end and the exercise price of the shares. There were no significant options exercised during the three months ended March 31, 2012.

Restricted Stock Units. A summary of restricted stock unit activity under all plans as of and for the three months ended March 31, 2013 is as follows:

| | Shares | Weighted Average Remaining Contractual Terms (Years) | Weighted Average Grant Date Fair Value | Aggregate Intrinsic Value (In millions) |
|---|---------|---|--|---|
| Outstanding on January 1, 2013 | 716,907 | | \$ 27.86 | |
| Granted | 89,637 | | 38.26 | |
| Vested and released | (3,975) | | 17.62 | |
| Forfeited | (2,338) | | 26.62 | |
| Outstanding on March 31, 2013 | 800,231 | 1.3 years | \$ 29.08 | \$ 49.7 |
| Vested or expected to vest as of March 31, 2013 | 769,748 | 1.3 years | \$ 29.18 | \$ 47.8 |

During the three months ended March 31, 2013, we granted restricted stock units to purchase shares primarily to replace unvested awards of former employees of the Merged Business who became Axiall employees, in accordance with the Merger Agreement. The restricted stock units normally vest over a one- or three-year period. The weighted average grant date fair value per share of restricted stock units is based on the stock price as of the date of grant or, in the case of the performance restricted stock units ("PRSUs"), the fair value, estimated using a Monte Carlo simulation model. The total intrinsic value of restricted stock units that vested during the three months ended March 31, 2013 and 2012 was \$0.2 million and \$0.1 million, respectively.

Table of Contents

In May 2012, we granted PRSUs, which are a form of restricted stock units in which the number of shares ultimately earned depends on our stock price performance measured against specified performance targets. Following each vesting period, the number of PRSUs subject to award is determined by multiplying the target award by a percentage ranging from 0 percent to 150 percent. The percentage is based on predetermined performance metrics related to our stock price for the stated period. The PRSUs are included with all restricted stock units in all calculations.

13. ACCUMULATED OTHER COMPREHENSIVE LOSS AND OTHER COMPREHENSIVE INCOME (LOSS)

Accumulated other comprehensive loss includes foreign currency translation of assets and liabilities of foreign subsidiaries, effects of exchange rate changes on intercompany balances of a long-term nature, unrealized gains and losses on derivative financial instruments designated as cash flow hedges and adjustments to pension liabilities. There were no outstanding derivative financial instruments as of March 31, 2013 or December 31, 2012. Amounts recorded in accumulated other comprehensive loss, net of tax, as of March 31, 2013 and December 31, 2012, and changes within the period are as follows:

| <i>(In millions)</i> | Accrued Pension Benefit Liability | Foreign Currency Items | Accumulated Other Comprehensive Loss |
|---|--|---------------------------------------|---|
| Balance at December 31, 2012 | \$ (48.6) | \$ 26.7 | \$ (21.9) |
| Other comprehensive income (loss) before reclassifications | 0.7 | (8.1) | (7.4) |
| <u>Less:</u> amounts reclassified from accumulated other comprehensive income into net income | 0.3 | - | 0.3 |
| Net current period other comprehensive income (loss) | 0.4 | (8.1) | (7.7) |
| Balance at March 31, 2013 | \$ (48.2) | \$ 18.6 | \$ (29.6) |

Other comprehensive income (loss) is derived from adjustments to reflect the unrealized loss on derivatives, change in pension liability adjustment and change in foreign currency translation

Table of Contents

adjustment. The components of other comprehensive income (loss) for the three months ended March 31, 2013 and 2012 are as follows:

| <i>(In millions)</i> | Three Months Ended March 31, 2012 | | Affected Line Items on the Condensed Consolidated Statements of Operations |
|---|-----------------------------------|----------|---|
| | 2013 | 2012 | |
| Change in foreign currency translation adjustment: | | | |
| Currency translation adjustments | \$ (11.5) | \$ 7.0 | |
| Tax expense (benefit) | (3.4) | 3.5 | Provision for income taxes |
| Change in foreign currency translation adjustment, net of tax | \$ (8.1) | \$ 3.5 | |
| Unrealized gain on derivatives: | | | |
| Natural gas hedge contracts | \$ - | \$ (1.4) | Cost of sales |
| Tax expense (benefit) | - | (0.5) | Provision for income taxes |
| Change in unrealized gain on derivatives, net of tax | \$ - | \$ (0.9) | |
| Change in pension liability adjustment: | | | |
| Adjustments to pension liabilities | \$ 0.5 | \$ 0.4 | Cost of sales/selling, general and administrative expenses |
| Tax expense (benefit) | 0.1 | 0.1 | Provision for income taxes |
| Pension liability adjustment, net of tax | \$ 0.4 | \$ 0.3 | |
| Other comprehensive income (loss), before income taxes | \$ (11.0) | \$ 6.0 | |
| Total tax expense (benefit) for the period | (3.3) | 3.1 | Provision for income taxes |
| Other comprehensive income (loss), net of tax | \$ (7.7) | \$ 2.9 | |

14. INCOME TAXES

The effective income tax rates of negative 39.5 percent and 34.3 percent for the three months ended March 31, 2013 and 2012, respectively, were determined using an estimated annual effective tax rate and after considering discrete items for each period. The negative effective tax rate for March 31, 2013 was primarily due to income tax expense on the gain attributable to the acquisition of PPG's 50 percent ownership interest in PHH in connection with the Transactions, and the impact of state income taxes due to the Transactions. These items were recorded as discrete tax items for the three months ended March 31, 2013.

The effective tax rate in 2012 was lower than the U.S. statutory federal income tax rate primarily due to provisions for state tax and various permanent differences including deductions for manufacturing activities and the impact of reversing various uncertain tax positions.

15. INVESTMENTS

We own a 50 percent interest in several manufacturing joint ventures in both our building products and chlorovinyls segments. In addition, and in connection with the Merger, we acquired a 50 percent ownership interest in RS Cogen, LLC ("RS Cogen"), which toll produces electricity and steam that are primarily sold to Axiall and its joint venture partner under take-or-pay contracts with terms that extend to 2022. The joint venture was formed with a wholly-owned subsidiary of Entergy Corporation ("Entergy") in 2000 for the construction and operation of a \$300 million 425 megawatt combined cycle, natural gas-fired cogeneration facility in Lake Charles, Louisiana, the majority of which was financed by loans having terms that extend to 2022 from a syndicate of banks. The joint venture also maintains revolving credit arrangements that are drawn upon to manage short-term cash flow needs. These arrangements are subordinate to the senior credit facilities. The cogeneration facility serves as collateral

Table of Contents

under the most senior credit facility and neither owner has provided guarantees to any of the lenders to RS Cogen.

Axiall's future commitment to purchase electricity and steam from the joint venture approximates \$23 million per year subject to contractually defined inflation adjustments for the next 10 years. The purchases from the closing date of the Transactions through March 31, 2013 approximated \$4.1 million.

RS Cogen is a variable interest entity under U.S. accounting guidance. The daily operations of the cogeneration facility are the activities of RS Cogen that most significantly impact its economic performance. These activities are directed by a management team with oversight by a management committee that has equal representation from Axiall and Entergy. By the terms of the joint venture agreement, all decisions of the management committee require approval by a majority of its members. Accordingly, the power to direct the activities of RS Cogen is equally shared between RS Cogen's two owners and, thus, Axiall does not consider itself to be the joint venture's primary beneficiary. Accordingly, Axiall accounts for its investment in RS Cogen under the equity method of accounting.

The following table summarizes our maximum exposure to loss associated with RS Cogen.

(In millions)

| | | |
|---|----|-------|
| Investment in and advances to RS Cogen | \$ | 20.1 |
| Take-or-pay obligation under power tolling arrangement through 2022 | | 227.8 |
| Maximum exposure to loss as of March 31, 2013 | \$ | 247.9 |

16. EARNINGS PER SHARE

We calculate earnings per share using the two-class method. The two-class method requires that share-based awards with non-forfeitable dividends be classified as participating securities. In calculating basic earnings per share, this method requires net income to be reduced by the amount of dividends declared in the period for each participating security and by the contractual amount of dividends or other participation payments that are paid or accumulated for the period. Undistributed earnings for the period are allocated to participating securities based on the contractual participation rights of the security to share in those current earnings assuming all earnings for the period are distributed. Recipients of certain of our restricted stock unit awards have contractual participation rights that are equivalent to those of common stockholders. Therefore, we allocate undistributed earnings to these restricted stock unit participating securities and common stock based on their respective participation percentage.

The two-class method also requires the denominator to include the weighted average number of shares of restricted stock units participating securities when calculating basic earnings per share. Basic and diluted loss per share for the three months ended March 31, 2013, include the weighted average share impact of the 35.2 million shares issued in connection with the Merger from January 28, 2013, the date of issuance. For the three months ended March 31, 2013 and 2012, there were 0.1 million and 0.5 million weighted average restricted stock units participating securities, respectively, included in the denominator. Diluted earnings per share also include the additional share equivalents from the assumed conversion of stock based awards including options and certain restricted stock units. Conversion of stock options and certain restricted stock units are calculated using the treasury stock method, subject to anti-dilution provisions.

In computing diluted earnings per share for the three months ended March 31, 2013 and 2012, common stock equivalents of 0.5 million and 0.2 million shares, respectively, were not included due to

Table of Contents

their anti-dilutive effect. Computations of basic and diluted earnings per share are presented in the following table:

| <i>(In millions, except per share data)</i> | Three Months Ended March 31, | |
|---|-------------------------------------|-------------|
| | 2013 | 2012 |
| Numerator | | |
| Net income (loss) attributable to Axiall | \$ (3.5) | \$ 35.3 |
| Less: Net income attributable to participating securities | - | 0.5 |
| Net income (loss) attributable to common stockholders | \$ (3.5) | \$ 34.8 |
| Denominator | | |
| Weighted average common shares outstanding Basic | 59.3 | 34.2 |
| Plus: Dilutive effect of stock options and awards | - | 0.2 |
| Weighted average common shares outstanding Diluted | 59.3 | 34.4 |
| Earnings (loss) per common share attributable to Axiall: | | |
| Basic | \$ (0.06) | \$ 1.02 |
| Diluted | \$ (0.06) | \$ 1.01 |

17. SEGMENT INFORMATION

We have three reportable segments through which we manage our operating activities: (i) chlorovinyls; (ii) building products; and (iii) aromatics. These three segments reflect the organization used by our management for internal reporting purposes. Our chlorovinyls segment produces a highly integrated chain of products, including chlor-alkali and derivative products (chlorine, caustic soda, vinyl chloride monomer ("VCM"), vinyl resins, ethylene dichloride, chlorinated solvents, calcium hypochlorite, muriatic acid and phosgene derivatives) and compound products (vinyl compounds, compound additives and plasticizers). The financial results of the Merged Business are included with the chlorovinyls segment from the closing date of the Merger. Our building products segment consists of two primary product groups: window and door profiles and mouldings products, which include extruded vinyl window and door profiles and interior and exterior moulding products; and vinyl-based home improvement and building products. Our aromatics segment is highly integrated and manufactures cumene products and phenol and acetone products (co-products made from cumene).

Earnings of our segments exclude interest income and expense, unallocated corporate expenses and general plant services and provision for income taxes. Transactions between operating segments are

Table of Contents

valued at market based prices. The revenues generated by these transfers are provided in the table below.

| <i>(In millions)</i> | Chlorovinyls | Building Products | Aromatics | Eliminations, Unallocated and Other | Total |
|--|--------------|----------------------|-----------|--|------------|
| Three Months Ended March 31, 2013: | | | | | |
| Net sales | \$ 614.5 | \$ 162.2 | \$ 284.5 | \$ - | \$ 1,061.2 |
| Intersegment revenues | \$ 58.5 | - | - | (58.5) | - |
| Total net sales | \$ 673.0 | 162.2 | 284.5 | (58.5) | \$ 1,061.2 |

18. SUPPLEMENTAL GUARANTOR INFORMATION

Axiall Corporation is effectively a holding company for all of its wholly-and majority-owned subsidiaries. Our payment obligations under the indenture for the 4.625 Notes, the 4.875 Notes and the Term Loan, as described in Note 8, are guaranteed by Axiall, LLC, Axiall Lake Charles, LLC, Royal Mouldings Limited, Royal Window and Door Profiles Plant 13 Inc., Royal Window and Door Profiles Plant 14 Inc., Exterior Portfolio, LLC, Plastic Trends, Inc., Royal Group Sales (USA) Limited, Rome Delaware Corporation, Royal Plastics Group (U.S.A.) Limited, PHH Monomers, L.L.C., Eagle Holdco 3 LLC, Eagle US 2 LLC, Eagle Controlled 2 Ohio Spinco, Inc., Eagle Natrium LLC, and Eagle Pipeline, Inc., all of which are wholly-owned subsidiaries (together with Splitco the "Guarantor Subsidiaries") of Axiall Corporation effective January 28, 2013. Our wholly owned subsidiary Splitco is the issuer of the 4.625 Notes and the borrower under the Term Loan (as to each of which obligations Axiall is also a guarantor) and a subsidiary guarantor of the 4.875 Notes. Splitco is included in the Guarantor columns of the supplemental condensed consolidating balance sheet, statement of operations and comprehensive income and statements of cash flows as of, and for the three months ended March 31, 2013.

Our payment obligations under the indenture for the prior 9 percent notes were guaranteed by Georgia Gulf Lake Charles, LLC, Axiall, LLC, Royal Mouldings Limited, Royal Plastics Group (USA) Limited, Rome Delaware Corporation, Plastic Trends, Inc., Royal Group Sales (USA) Limited, Royal Outdoor Products, Inc., Royal Window and Door Profiles Plant 13 Inc., Royal Window and Door Profiles Plant 14 Inc. and Exterior Portfolio LLC, all of which are wholly-owned subsidiaries (the "Prior Guarantor Subsidiaries") of Axiall Corporation. Many of the covenants under this indenture were terminated in connection with the redemption of the 9 percent notes in February 2013. Information regarding the Prior Guarantor Subsidiaries of the 9 percent notes is included in the supplemental condensed consolidating balance sheet as of December 31, 2012, and supplemental statement of operations and comprehensive income and statement of cash flows for the three months ended March 31, 2012.

The guarantees are full, unconditional and joint and several. Investments in subsidiaries in the supplemental guarantor financial statements reflect investments in wholly-owned entities within Axiall. The Guarantor Subsidiaries and Non-Guarantor Subsidiaries are not consistent with the Company's business groups or geographic operations; accordingly this basis of presentation is not included to present the Company's financial condition, results of operations or cash flows for any purpose other than to comply with the specific requirements for subsidiary guarantor reporting.

The following supplemental condensed consolidating balance sheets, statements of operations and comprehensive income and statements of cash flows present the combined financial statements of the parent company and the combined financial statements of our Guarantor Subsidiaries, (or Prior Guarantor Subsidiaries, as appropriate) and our remaining subsidiaries (the "Non-Guarantor Subsidiaries"). Separate financial statements of the Guarantor Subsidiaries and Prior Guarantor Subsidiaries are not presented because we have determined that they would not be material to investors.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

General

We are a leading North American manufacturer and international marketer of chemicals and building products. Our chlorovinyls and aromatics chemical products are sold for further processing into a wide variety of end-use applications, including plastic pipe and pipe fittings, siding and window frames, bonding agents for wood products, high-quality plastics, acrylic sheeting and coatings for wire and cable, paper, minerals, metals and water treatment industries. Our building products segment manufactures window and door profiles, mouldings, siding, pipe and pipe fittings and deck products.

Merger with PPG's Chemicals Business

On January 28, 2013, Axiall Corporation ("Axiall") completed a series of transactions resulting in the Merger with the PPG Chemicals Business ("the Merged Business") and the related financings (collectively the "Transactions"). The operations of the Merged Business are included in our financial results from the closing date of the Merger.

The purchase price of the Merged Business of approximately \$2.7 billion consists of: (i) shares of our common stock received by PPG shareholders valued at approximately \$1.8 billion, based on the closing stock sale price of \$50.24 on the last trade date prior to the closing date of the Transactions; (ii) debt assumed of approximately \$967.0 million; and (iii) the assumption of other liabilities, including pension liabilities and other post-retirement obligations.

In connection with the Transactions, we paid approximately \$49.6 million in fees and expenses, which included approximately \$29.6 million of debt issuance costs and approximately \$20.0 million of related professional and legal fees.

We expect to continue to incur significant costs in connection with the Transactions, including approximately \$55.0 million in transition and integration expenses, such as consulting professionals' fees, information technology implementation costs, relocation costs and severance costs, that management believes are necessary to realize approximately \$115.0 million of annualized cost synergies within two years from the consummation of the Transactions.

Consolidated Overview

For the three months ended March 31, 2013, net sales totaled \$1,061.2 million, an increase of 23 percent compared to \$859.9 million for the three months ended March 31, 2012. Operating income was \$71.2 million for the three months ended March 31, 2013, an increase of \$3.0 million from the \$68.2 million of operating income for the three months ended March 31, 2012. Adjusted EBITDA was \$133.4 million for the three months ended March 31, 2013 as compared to \$75.4 million in three months ended March 31, 2012. In addition, the company reported a net loss attributable to Axiall of \$3.5 million, or \$0.06 per diluted share for the first quarter of 2013, compared to net income attributable to Axiall of \$35.3 million, or \$1.01 per diluted share, for the first quarter of 2012. Excluding the non-recurring items described in the Reconciliation of Non-GAAP Financial Measures from the calculation of Net income (loss) attributable to Axiall, the company reported Adjusted Net Income of \$45.1 million, or Adjusted Earnings per Share of \$0.75 for the first quarter of 2013, compared to Adjusted Net Income of \$27.6 million, or Adjusted Earnings per Share of \$0.79 for the first quarter of 2012. See Reconciliation of Non-GAAP Financial Measures. These changes are primarily attributable to the inclusion of results of operations from the Merged Business since January 28, 2013, the closing date of the Transactions.

Table of Contents

Chlorovinyls Business Overview

Our chlorovinyls segment produces a highly integrated chain of chlor-alkali and derivative products (chlorine, caustic soda, VCM, vinyl resins, ethylene dichloride, chlorinated solvents, calcium hypochlorite, muriatic acid and phosgene derivatives) and compound products (vinyl compounds and compound additives and plasticizers). As discussed further below, certain highlights from our chlorovinyls segment results of operations for the three months ended March 31, 2013 were as follows:

Net sales totaled \$614.5 million and \$329.5 million for the three months ended March 31, 2013 and 2012, respectively, increasing approximately 86 percent, principally due to the inclusion of sales results from the Merged Business.

Operating income and Adjusted EBITDA increased to \$91.3 million and \$134.2 million, respectively during the three months ended March 31, 2013 versus operating income and Adjusted EBITDA of \$51.9 million and \$45.6 million, respectively, for the comparable period in the prior year. The increase was principally due to the inclusion of operating results from the Merged Business.

Our chlorovinyls segment and the chemical industry in general are cyclical in nature and are affected by domestic and worldwide economic conditions. Cyclical price swings, driven by changes in supply and demand, can lead to significant changes in the overall profitability of our chlorovinyls segment. The demand for our chlorovinyls products tends to reflect fluctuations in downstream markets that are affected by consumer spending for durable and non-durable goods as well as construction. Global capacity also materially affects the prices of chlorovinyls products. Historically, in periods of high operating rates, prices rise and margins increase and, as a result, new capacity is announced. Since world scale size plants are generally the most cost-competitive, new increases in capacity tend to be on a large scale and are often undertaken by existing industry participants. Usually, as new capacity is added, prices decline until increases in demand improve operating rates and the new capacity is absorbed or, in some instances, until less efficient producers withdraw capacity from the market. As the additional supply is absorbed, operating rates rise, prices increase and the cycle repeats.

In addition, purchased raw materials and natural gas costs account for the majority of our cost of sales and can also have a material effect on our profitability and margins. Some of the primary raw materials used in our chlorovinyls products, including ethylene, are crude oil and natural gas derivatives and therefore follow the oil and gas industry price trends.

Building Products Business Overview

Our building products segment consists of two primary product groups: (i) window and door profiles and mouldings products, which include extruded vinyl window and door profiles and interior and exterior mouldings products; and (ii) outdoor building products, which currently includes siding, pipe and pipe fittings and deck products. Our vinyl-based building products are marketed under the Royal Building Products, Celect, Zuri, Korflo, Overture, S4S and Exterior Portfolio brand names. As discussed further below, certain highlights from our building products segment results of operations for the fiscal three months ended March 31, 2013 were as follows:

Net sales totaled \$162.2 million for the three months ended March 31, 2013, a decrease of 13 percent compared to net sales of \$187.2 million for the three months ended March 31, 2012. The net sales decrease was a result of lower sales volume partially due to winter weather in the first quarter of 2013 being less favorable for building and construction activity in the geographical areas where the company's building products are primarily sold, as compared to the more favorable weather in those geographic areas in the first quarter of 2012.

Operating loss and Adjusted EBITDA declined to \$13.8 million and negative \$2.6 million, respectively for the three months ended March 31, 2013 compared to an operating loss and

Table of Contents

Adjusted EBITDA of \$6.4 million and \$3.3 million, respectively for the three months ended March 31, 2012. This decrease is primarily a result of decreased sales.

The building products segment is impacted by changes in the North American home repair and remodeling sectors, as well as the new construction sector, which may be significantly affected by changes in economic and other conditions such as gross domestic product levels, employment levels, demographic trends, consumer confidence, increases in interest rates and availability of consumer financing for home repair and remodeling projects as well as the availability of financing for new home purchases. These factors can lower the demand for, and pricing of our products, while we may not be able to reduce our costs by an equivalent amount.

Aromatics Business Overview

Our aromatics segment is highly integrated and manufactures cumene products and phenol and acetone products (co-products made from cumene). As discussed further below, certain highlights of our aromatics segment results of operations for the three months ended March 31, 2013 were as follows:

Net sales were \$284.5 million and \$343.2 million for the three months ended March 31, 2013 and 2012, respectively, a decrease of 17 percent which reflects a 39 percent decrease in the sales volume of cumene, a 23 percent decrease in sales volumes for phenol and acetone driven by lower demand which were somewhat offset by an overall average sales price increase for cumene, phenol and acetone of 27 percent, driven primarily by higher costs for the feedstock propylene.

Operating income and Adjusted EBITDA decreased to \$13.0 million and \$13.3 million, respectively, for the three months ended March 31, 2013 versus operating income and Adjusted EBITDA of \$37.5 million and \$37.9 million, respectively, for the comparable period in the prior year. This decrease is primarily the result of a \$20.0 million inventory holding gain and the benefit of opportunistic high margin export sales in 2012.

Significant volatility in raw materials costs can decrease product margins as sales price increases sometimes lag raw materials cost increases. Product margins may also suffer from a sharp decline in raw materials costs due to the time lag between the purchase of raw materials and the sale of the finished goods manufactured using those raw materials.

Table of Contents**Results of Operations**

The following table sets forth our unaudited condensed consolidated statements of operations data for each of the three month periods ended March 31, 2013 and 2012, and the percentage of net sales of each line item for the three month periods presented.

| <i>(Dollars in millions)</i> | Three Months Ended March 31, | | | | | |
