Semi-Annual Report

September 30, 2007 (unaudited)

SHAREHOLDER LETTER

September 30, 2007 (unaudited)

To Our Shareholders:

Since the Clough Global Equity Fund's market price is significantly below its net asset value, we thought it important to make the following points...

During the six months ended September 30, 2007, the Fund's net asset value assuming reinvestment of all distributions has increased 9.0%. That compares with an 8.4% gain in the S&P 500.

Since the Fund's inception on April 27, 2005, the total growth in net asset value assuming reinvestment of all distributions has been 44.5%. This compares with a cumulative gain of 38.1% in the S&P 500.

The growth in net asset value has compounded at an annual rate of 16.4% since inception while the S&P 500 rise has compounded at an annual rate of 14.3%.

The Fund's quarterly distribution has increased from \$0.30 per share at inception to \$0.44 per share today. In addition, \$0.59 per share has been distributed in special distributions in the two years since the Fund began trading for a total of \$3.69 in distributions since inception.

The Fund's quarterly distributions have grown in line with the increase in net assets and at the current price they offer a yield of approximately 9%.

It is our view that such fundamental results are incompatible with such a large discount in the Fund's current market price and we think that discount to net asset value over time should close.

The Fund's investment strategy has been to focus on a few sectors or markets where investment returns are likely to be high. At present, our investments in Asian markets make up the Fund's largest single exposure. They are focused on Hong Kong, Korea and smaller markets like Malaysia and Indonesia. Whereas the U.S. economy is slowing under the weight of high consumer debt, Asian economies are relatively debt free and are just entering long periods of rising consumer spending and infrastructure investment cycles. The U.S. may be ending a multi-decade debt super cycle; Asia may be just beginning one.

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

Hong Kong is benefiting from both a combination of strong growth in China and falling U.S. short term interest rates. Because the Hong Kong dollar is pegged to the U.S. currency, declining U.S. rates translate directly into lower rates in Hong Kong. Since growth is already strong there, falling interest rates are likely to benefit both real estate and equities. Hong Kong property prices are still approximately 60% below their 1997 levels and there is little likelihood of excess supply growth due to the shortage of buildable land available.

The financial markets have begun to realize the coming relaxation of Chinese capital controls but the fact that it is recognized does not diminish its potential impact on markets the Fund is not exposed to the inflated Chinese domestic stock market. Nevertheless, in our view, the long term China story is far from discounted in the financial markets. The domestic markets may be inflated but other national markets in Asia still offer good values. Meanwhile, the Chinese currency is undervalued, and that supports profits; the gap between corporate ROE and borrowing costs is still wide and getting wider and China's export markets are highly diversified.

Energy also remains an important secular investment theme for the Fund. The stocks have done well but remain undervalued in our view. OPEC production has been struggling to grow since September of 2005 as have global oil inventories. Declines in OPEC production began well before the so-called voluntary production declines took effect. The great issue

for the industry is whether depletion rates in the major oil fields will continue to exceed new production. So long as that is the case there will be upward pressures on oil prices and day by day the value of companies that own oil and gas reserves or sophisticated deepwater drilling rigs increases. Some estimates of annual global depletion rates are as high as 3.2 to 5.0 million barrels/day. The scramble to replace those reserves is underway as evidenced by the huge lease sale that just occurred in the Gulf of Mexico. The total bids for drilling rights totaled more than five times the total amount bid over the past five years, and the need for deepwater rigs and supplies will continue strong.

The Fund's holdings of energy producer stocks have migrated toward the North American gas producers. The price of natural gas has been held hostage to a series of warm winters, an explosion of drilling rigs producing gas and a sharp rise in imports of liquid natural gas. Yet the depletion of most North American gas fields has accelerated, demand for LNG is rising abroad limiting supplies for North America, and warm winters may become less common. Gas stocks are cheap and we think represent the best values in the sector at present.

The Fund has investments in a number of other varied themes. Product upgrade cycles are underway in both the personal computer and telecommunications markets, enhancing the profit outlook for computer manufacturers, software companies and telecommunications equipment manufacturers. For the first time in years we see opportunities in the large capitalization technology companies such as Oracle Systems (ORCL NYSE) and Cisco Systems (CSCO NYSE). We also see opportunities in companies supplying flat screen TV's and the proliferation of broadband. We have further diversified the Fund with investments in global agriculture, involving companies that grow and process agricultural commodities and provide capital goods for global agriculture. A growing middle class in China consumes 130,000 tons of pork a day and that economy does not have capacity to grow hogs or the feed with which to feed them. We think this once prosaic industry could become a recognized growth sector.

Many financial stocks have declined sharply and we think the sector offers opportunity on both the long and short sides. The Funds do own Citigroup NA (C NYSE) and the American Depository Receipts of UBS AG (UBS NYSE), for example. These companies have been in the headlines as the mortgage cycle and its related derivatives bubble unwind. The positive is that underneath the write-offs and excesses in the sub-prime and CDO space there are highly profitable franchises with high barriers to entry that provide huge cash flows. UBS for example has a highly profitable global wealth management business that allowed the firm to write off a \$4 billion mistake with only a minor hit to book value. Our thinking is that management will eventually find the common sense to stop making \$4 billion mistakes and the underlying value of the firm will show through. Citigroup has an important global broker-dealer franchise and a strong global consumer credit operation. Both companies should benefit from a more positive U.S. yield curve. We currently have these positions partially hedged with short positions in the Regional Bank Holders Trust and in specific regional banks with particularly vulnerable mortgage holdings. We also currently hold modest short positions in the mortgage insurers which have branched out from their original franchises to insure more exotic CDO tranches.

The summer months were particularly volatile for the financial markets and that volatility may be with us for a while. In the developed economies, we live in a highly indebted world, and growth is moving away from the developed economies and toward the emerging world with ever greater speed. One subtle signal from the marketplace that suggests the credit stress we experienced this summer is not over is the behavior of so-called swap spreads for financial companies. These are the interest rates at which financial companies are willing to lend to each other and they have remained at the punitive levels seen during the August turmoil even though the equities have rallied. That suggests that there is still

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

concern over the quality of the collective financial sector balance sheet. For that and for other reasons the Fund is currently balanced among themes and is partially hedged.

In that vein, we think that global equities markets are acting quite rationally and offer meaningful investment upside. In other words, there is a silver lining in all of this for the financial markets. With financial companies announcing write offs of supposedly highly rated mortgage paper and financial executives falling on their swords, the reality is the only way the Federal Reserve can stabilize the financial sector is to reduce short term interest rates and create a positive yield curve. Then, and only then can banks and brokerage firms generate the cash flow that allows the write downs of impaired assets so they can once again function as credit intermediaries.

The media puts an unending negative spin on events, and the current market decline centered on pressures based upon the sub-prime mortgage fallout, is creating concern among investors. However, we think the markets are simply separating winners from losers in an increasingly globalized economy. The winners are those companies exposed to global growth and the losers are those that grew on the back of the huge and unsustainable mortgage boom. Wal-Mart is only the latest company to announce a cutback in U.S. expansion to spend more in countries like China and India. GE recently announced that China, India, Latin America and Russia account for \$32 billion in revenues and that sector is growing 20% per annum.

It is important as an investor to realize the reason why global growth can continue in the face of a U.S. credit slowdown. U.S. financial companies in particular have benefited from the decades long secular expansion in debt. Consumer and business debt combined were 125% of GDP back in the 1960s. Today it is 350% of GDP and it has reached the point of saturation. If debt cannot grow faster than GDP and support growth, U.S. domestic profits will stagnate, particularly for financial companies.

The opposite is true in Asia and in emerging economies generally. As U.S. interest rates fall, capital should migrate to these economies, Asian growth should rise on the support of consumer spending and balance sheets there are clean. Interest rates are 4% while growth rates in domestic spending are 6-10%.

We think the values remain in the sectors that benefit from global growth and the Fund is positioned to benefit from it.

We thank you for investing in the Clough Global Equity Fund and invite you to visit www.cloughglobal.com for updates. If you have questions about your investment, please call 1-877-256-8445.

Sincerely,

Charles I. Clough, Jr.
Chairman and CEO of Clough Capital Partners, L.P.

Clough Capital Partners, L.P. is a Boston-based investment management firm that has approximately \$3.1 billion under management. For equities, the firm uses a global and theme-based investment approach based on identifying chronic shortages and growth opportunities. For

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

fixed-income, Clough believes changing economic fundamentals help reveal potential global credit market opportunities based primarily on flow of capital into or out of a country. Clough was founded in 2000 by Chuck Clough and partners James Canty and Eric Brock. These three are the portfolio managers for the Clough Global Equity Fund.

(1)

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

Total investment return is calculated assuming a purchase of a common share at the opening on the first day and a sale at closing on the last day of each period reported. Total investment return on net asset value excludes a sales load of \$0.90 per share for the period, effectively reducing the net asset value at issuance from \$20.00 to \$19.10. Dividends and distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions on the purchase or sale of the Fund's common shares. Total investment returns for less than a full year are not annualized. Past performance is not a guarantee of future results.

- (2) Annualized.
- (3) Ratios do not reflect dividend payments to preferred shareholders.
- (4) Calculated by subtracting the Fund's total liabilities (excluding Preferred Shares) from the Fund's total assets and dividing by the number of preferred shares outstanding.
- (5) Based on monthly prices.

See Notes to Financial Statements

NOTES TO FINANCIAL STATEMENTS

September 30, 2007 (unaudited)

1. SIGNIFICANT ACCOUNTING AND OPERATING POLICIES

The Fund is a closed-end management investment company (that was organized under the laws of the state of Delaware by an Agreement and Declaration of Trust dated January 25, 2005. The Fund is a non-diversified series with an investment objective to provide a high level of total return. The Declaration of Trust provides that the Trustees may authorize separate classes of shares of beneficial interest.

Security Valuation: The net asset value per Share of the Fund is determined no less frequently than daily, on each day that the American Stock Exchange (the Exchange) is open for trading, as of the close of regular trading on the Exchange (normally 4:00 p.m. New York time). Trading may take place in foreign issues held by the Fund at times when the Fund is not open for business. As a result, the Fund's net asset value may change at times when it is not possible to purchase or sell shares of the Fund. Securities held by the fund for which exchange quotations are readily available are valued at the last sale price, or if no sale price or if traded on the over-the-counter market, at the mean of the bid and asked prices on such day. Over-the-counter securities traded on NASDAQ are valued based upon the closing price. Debt securities for which the over-the-counter market is the primary market are normally valued on the basis of prices furnished by one or more pricing services at the mean between the latest available bid and asked prices. As authorized by the Trustees, debt securities (other than short-term obligations) may be valued on the basis of valuations furnished by a pricing service which determines valuations based upon market transactions for normal, institutional-size trading units of securities. Short-term obligations maturing within 60 days are valued at amortized cost, which approximates value, unless the Trustees determine that under particular circumstances such method does not result in fair value. Over-the-counter options are valued at the mean between bid and asked prices provided by dealers. Financial futures contracts listed on commodity exchanges and exchange-traded options are valued at closing settlement prices. Securities for which there is no such quotation or valuation and all other assets are valued at fair value in good faith by or at the direction of the Trustees.

Foreign Securities: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The accounting records of the Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of exchange at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

The effect of changes in foreign currency exchange rates on investments is included with the fluctuations arising from changes in market values of securities held and reported with all other foreign currency gains and losses in the Fund's Statement of Operations.

Options: The Fund may purchase or write (sell) put and call options. One of the risks associated with purchasing an option among others, is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gains from investments. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option. Written and purchased options are non-income producing securities.

Written option activity as of September 30, 2007 was as follows:

Written Call Options	Contracts	Premiums
Outstanding March 31, 2007	10,000	\$ 1,417,456
Positions opened	1,050	284,162
Expired	(230)	(74,289)
Closed	(10,820)	(1,627,329)
Outstanding, September 30, 2007		\$
Market Value, September 30, 2007		\$

Written Put Options	Contracts	Premiums
Outstanding March 31, 2007	20,000	\$ 2,412,955
Positions opened		
Expired	(20,000)	(2,412,955)
Closed		
Outstanding, September 30, 2007		\$
Market Value, September 30, 2007		\$

Short Sales: The Fund may sell a security it does not own in anticipation of a decline in the fair value of that security. When the Fund sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the termination of the short sale.

Income Taxes: The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Distributions to Shareholders: The Fund intends to make a level dividend distribution each quarter to Common Shareholders after payment of interest on any outstanding borrowings or dividends on any outstanding preferred shares. The level dividend rate may be modified by the Board of Trustees from time to time. Any net capital gains earned by the Fund are distributed at least annually to the extent necessary to avoid federal income and

excise taxes. Distributions to shareholders are recorded by the Fund on the ex-dividend date. The Fund has applied to the Securities and Exchange Commission for an exemption from Section 19(b) of the 1940 Act and Rule 19b-1 thereunder permitting the Fund to make periodic distributions of long-term capital gains, provided that the distribution policy of the Fund with respect to its Common Shares calls for periodic (e.g., quarterly/monthly) distributions in an amount equal to a fixed percentage of the Fund's average net asset value over a specified period of time or market price per common share at or about the time of distribution or pay-out of a level dollar amount.

Securities Transactions and Investment Income: Investment security transactions are accounted for as of trade date. Dividend income is recorded on the ex-dividend date. Certain dividend income from foreign securities will be recorded as soon as the Fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date and may be subject to withholding taxes in these jurisdictions. Interest income, which includes amortization of premium and accretion of discount, is accrued as earned. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the highest cost basis for both financial reporting and income tax purposes.

Use of Estimates: The Fund's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America. This requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from these estimates.

Reclassifications: Certain prior period amounts have been reclassified to conform to the current year presentation format.

Recent Accounting Pronouncements: In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes, that requires the tax effects of certain tax positions to be recognized. These tax positions must meet a more likely than not standard that, based on their technical merits, have a more than 50 percent likelihood of being sustained upon examination. FASB Interpretation No. 48 is effective for fiscal periods beginning after December 15, 2006. At adoption, the financial statements must be adjusted to reflect only those tax positions that are more likely than not of being sustained. Management of the Fund is currently evaluating the impact that FASB Interpretation No. 48 will have on the Fund's financial statements.

In September 2006, the FASB issued FASB Statement No. 157, Fair Valuation Measurement (SFAS No. 157), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Fund is currently evaluating the potential impact the adoption of SFAS No. 157 will have on the Fund's financial statements.

In February 2007, the FASB issued FASB Statement 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115 (SFAS No. 159), which permits entities to choose to measure many financial instruments and certain other items at fair value. This Statement is expected to expand the use of fair value measurement, which is consistent with the FASB's long-term

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

measurement objectives for accounting for financial instruments. This Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Fund is currently evaluating the potential impact the adoption of SFAS No. 159 will have on the Fund's financial statements.

2. TAXES

Net unrealized appreciation/depreciation of investments based on federal tax cost as of September 30, 2007 were as follows:

Gross appreciation (excess of value over tax cost)	\$	71,966,059
Gross depreciation (excess of tax cost over value)		(17,646,253)
Net unrealized appreciation	\$	54,319,806
Cost of investments for income tax purpose	\$	584,562,887

3. CAPITAL TRANSACTIONS

Common Shares: There are an unlimited number of no par value common shares of beneficial interest authorized.

Transactions in common shares were as follows:

	For the Six Months Ended September 30, 2007	For the Year Ended March 31, 2007
Common shares outstanding - beginning of period	17,840,705	17,662,492
Common shares issued as reinvestment of dividends		178,213
Common shares outstanding - end of period	17,840,705	17,840,705

Preferred Shares: On September 14, 2005, the Fund's Board of Trustees authorized the issuance of an unlimited number of no par value preferred shares, in addition to the existing common shares, as part of the Fund's leverage strategy. Preferred shares issued by the Fund have seniority over the common shares.

The Fund is subject to certain limitations and restrictions while preferred shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Fund from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of Preferred Shares at their liquidation value. Specifically, the Fund is required under the Investment Company Act of 1940 to maintain an asset coverage with respect to the outstanding preferred shares of 200% or greater.

The Fund has two series of Auction Market Preferred Shares (AMPS), M28 and F7. On September 14, 2005, the Fund issued 4,000 shares of Series M28 AMPS and 3,000 shares of Series F7 AMPS, with net asset and liquidation values of \$25,000 per share plus accrued dividends for both series. Dividends on the AMPS are cumulative and are paid based on an annual rate set through auction procedures. Distributions of net realized capital gains, if any, are paid annually. As of September 30, 2007, the annualized dividend rates for the M28 and F7 series were 6.60% and 5.89%, respectively. The dividend rate, as set by the auction process, is generally expected to vary with short-term interest rates.

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

The rate may vary in a manner unrelated to the income received on the Fund's assets, which could have either a beneficial or detrimental impact on net investment income and gains available to Common Shareholders. Preferred Shares, which are entitled to one vote per share, generally vote with the Common Shares but vote separately as a class to elect two Trustees and on any matters affecting the rights of the Preferred Shares.

4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, other than short-term securities, for the six months ended September 30, 2007 aggregated \$411,249,760 and \$463,849,531, respectively. Purchase and sales of U.S. government and agency securities, other than short-term securities, for the six months ended September 30, 2007 aggregated \$10,241,406 and \$24,871,205, respectively.

5. INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENTS

Clough Capital Partners L.P. (Clough) serves as the Fund's investment adviser pursuant to an Investment Advisory Agreement (Advisory Agreement) with the Fund. As compensation for its services to the Fund, Clough receives an annual investment advisory fee of 0.90% based on the Fund's average daily total assets, computed daily and payable monthly. ALPS serves as the Fund's administrator pursuant to an Administration, Bookkeeping and Pricing Services Agreement with the Fund. As compensation for its services to the Fund, ALPS receives an annual administration fee of 0.32% based on the Fund's average daily total assets, computed daily and payable monthly. ALPS will pay all expenses incurred by the Fund, with the exception of advisory fees, trustees' fees, portfolio transaction expenses, litigation expenses, taxes, cost of preferred shares, expenses of conducting repurchase offers for the purpose of repurchasing fund shares, and extraordinary expenses.

6. OTHER

Each Independent Trustee of the Fund receives a quarterly retainer of \$3,500 and an additional \$1,500 for each meeting attended. The Chairman of the Board of Trustees receives a quarterly retainer of \$4,200 and \$1,800 for each meeting attended. The Chairman of the Audit Committee receives a quarterly retainer of \$3,850 and attendance fee of \$1,650 per meeting.

dividend reinvestment plan

September 30, 2007 (unaudited)

Unless the registered owner of Common Shares elects to receive cash by contacting The Bank of New York (the Plan Administrator or BONY), all dividends declared on Common Shares will be automatically reinvested by the Plan Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the Plan), in additional Common Shares. Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by BONY as dividend disbursing agent. You may elect not to participate in the Plan and to receive all dividends in cash by contacting BONY, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional Common Shares for you. If you wish for all dividends declared on your Common Shares to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever the Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from the Fund (Newly Issued Common Shares) or (ii) by purchase of outstanding Common Shares on the open market (Open-Market Purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the net asset value per Common Share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the net asset value per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open-Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Shares acquired in Open-Market Purchases. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per Common Share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment

date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at the net asset value per Common Share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of Common Shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a sale of Common Shares through the Plan Administrator are subject to brokerage commissions.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, The Bank of New York, 101 Barclay Street, New York, New York 10286, 11E, Transfer Agent Services, 800 433-8191.

Fund Proxy Voting Policies & Procedures

September 30, 2007 (unaudited)

Fund policies and procedures used in determining how to vote proxies relating to portfolio securities and a summary of proxies voted by the Fund for the period ended June 30, 2007, are available without a charge, upon request, by contacting the Fund at 1-877-256-8445 and on the U.S. Securities and Exchange Commission's (Commission's) website at <http://www.sec.gov>.

Portfolio Holding

September 30, 2007 (unaudited)

The Fund files its complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q within 60 days after the end of the period. Copies of the Fund's Forms N-Q are available without a charge, upon request, by contacting the Fund at 1-877-256-8445 and on the Commission's website at <http://www.sec.gov>. You may also review and copy Form N-Q at the Commission's Public Reference Room in Washington, D.C. For more information about the operation of the Public Reference Room, please call the Commission at 1-800-SEC-0330.

Notice

September 30, 2007 (unaudited)

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase at market prices from time to time shares of its common stock in the open market.

Shareholder Meeting

September 30, 2007 (unaudited)

On July 23, 2007, the Fund held its Annual Meeting of Shareholders (the Meeting) for the purpose of voting on a proposal to re-elect two trustees of the Fund. The meeting was adjourned on July 23 until August 6, 2007, when quorum was present. The results of the proposal are as follows:

Proposal 1: Re-election of Trustees

	Robert L. Butler	Richard C. Rantzow
For	16,928,914	16,928,914
Abstain	0	0
Withheld	511,342	511,342

Investment Advisory agreement

September 30, 2007 (unaudited)

On July 12, 2007, the Board of Trustees met in person to, among other things, review and consider the renewal of the Advisory Agreement. In its consideration of the Advisory Agreement, the Trustees, including the non-interested Trustees, considered in general the nature, quality and scope of services to be provided by Clough.

Prior to the beginning of their review of the Advisory Agreement, counsel to the Fund, who also serves as independent counsel to the non-interested Trustees, discussed with the Trustees their fiduciary responsibilities in general and also specifically with respect to the renewal of the Advisory Agreement.

Mr. Canty, as Partner of Clough, next presented Clough's materials regarding consideration of renewal of the Advisory Agreement. Mr. Canty stated that included in the Board materials were responses by Clough to a questionnaire drafted by legal counsel to the Fund to assist the Board in evaluating whether to renew the Advisory Agreements (the 15(c) Materials). Mr. Canty noted that the 15(c) Materials were extensive, and included information relating to the Fund's investment results; portfolio composition; advisory fee and expense comparisons; financial information regarding Clough; descriptions such as compliance monitoring; and portfolio trading practices and information about the personnel providing investment management services to the Fund, and the nature of services provided under the Advisory Agreement.

Mr. Canty discussed the organizational structure of Clough and the qualifications of Clough and its principals to act as the Fund's adviser. He reviewed the professional experience of the portfolio managers, referring the Trustees to the biographies of Chuck Clough, Eric Brock, and himself, Partners at Clough, emphasizing that Mr. Clough, Mr. Brock, and he each had substantial experience as an investment professional. Mr. Canty stated that Clough is the investment adviser to the Fund, the Clough Global Allocation Fund and the Clough Global Opportunities Fund, all closed-end funds. The Trustees, all of whom currently serve as Trustees for the Fund, the Clough Global Allocation Fund and the Clough Global Opportunities Fund, acknowledged their familiarity with the expertise and standing in the investment community of Messrs. Clough, Canty, and Brock, and their satisfaction with the expertise of Clough and the services provided by Clough to the Fund. The Trustees concluded that the portfolio management team was well qualified to serve the Fund in those functions.

Mr. Canty then reviewed Clough's current staffing as well as future staffing plans. He described Clough's procedures relating to compliance and oversight with respect to Clough's brokerage allocation policies. He discussed Clough's order management systems that contain pre-trade compliance functions that review each trade against certain of the Fund's investment restrictions and applicable 1940 Act and Internal Revenue Code restrictions, and the efforts that Clough's Chief Compliance Officer will undertake to summarize monthly for Clough's management and quarterly for the Trustees any violations that may occur, as well any other violations detected through the manual monitoring that supplements the order management system's testing. He also reviewed the adequacy of Clough's facilities. Mr. Canty further discussed the portfolio turnover rates of the Fund. The Trustees concluded that Clough appeared to have adequate procedures and personnel in place to ensure compliance by Clough with applicable law and with the Fund's investment objectives and restrictions.

Mr. Canty next reviewed the terms of the Advisory Agreement, stating that Clough would receive a fee of 0.90% of the average daily total assets of the Fund. He then discussed the fees charged by Clough to other clients for which it provides comparable services.

Edgar Filing: Clough Global Equity Fund - Form N-CSRS

Mr. Canty discussed the actual dollar amount of management fees paid under the Advisory Agreements. The Trustees then reviewed Clough's income statement for the year ended December 31, 2006, and its balance sheet as of that date. The Trustees further reviewed a profit and loss analysis as it relates to Clough's advisory businesses.

Mr. Canty discussed the possible benefits Clough may accrue because of its relationship with the Fund as well as potential benefits that accrue to the Fund because of its relationship with Clough. Mr. Canty stated that Clough does not realize any direct benefits due to the allocation of brokerage and related transactions on behalf of the Fund.

The Board of Trustees reviewed and discussed materials prepared and distributed in advance of the meeting regarding the comparability of the investment advisory fees of the Fund with the investment advisory fees of other investment companies, which had been prepared at the request of ALPS by Lipper Analytical Services (Lipper). Lipper's report contained information regarding investment performance, comparisons of cost and expense structures of the Fund with other funds' cost and expense structures, as well as comparisons of the Fund's performance with the performance during similar periods of members of an objectively identified peer group and related matters.

As the Fund is unique in the marketplace, Lipper had a difficult time presenting a large peer group for comparison. The Trustees compared fees from nine (9) closed-end investment companies that are leveraged (i.e., issue debt or preferred stock) versus the Fund's fees. The investment advisory fee for this group ranged from 0.645% to 1.00%, with a median of 0.940%. The total expenses for this group ranged from 0.711% to 1.340%, with a median of 1.108%. The Fund's total expenses were 1.245%.

The Trustees stated that the objectives of the funds in the analysis differed from the Fund's objectives and policies. In conjunction with Lipper's reports, the Trustees also reviewed a comparative fund universe prepared by Clough. The Trustees believed that the Lipper report, augmented by Clough's analysis, provided a sufficient comparative universe. Nevertheless, the Trustees requested that there be an on-going effort to identify funds and groups of funds that might provide additional benchmarks that could be useful.

The Trustees then reviewed the Fund's performance as compared to the performance of nine (9) leveraged closed-end fund universe selected by Lipper for one-year ended performance as of May 31, 2007. The performance ranged from a high of 37.61% to the Fund's low of 11.38% with a median of 23.23%. The Trustees then reviewed performance data for the leveraged funds as compared to the Fund from the Fund's inception through May 31, 2007. The performance data ranged from the high of 30.68% to a low of 17.12%, with a median of 18.49%. The Fund's performance during such time period was 17.65%.

At this point, Mr. Burke and Mr. Canty, both interested persons of the Fund, as well as the other representatives of ALPS and Clough, left the meeting. The non-interested Trustees, with the assistance of legal counsel, reviewed and discussed in more detail the information that had been presented relating to Clough, the Advisory Agreement and Clough's profitability.

Mr. Burke, Mr. Canty, and the representatives of ALPS rejoined the meeting. The Board of Trustees of the Fund, present in person, with the non-interested Trustees present in person voting separately, unanimously concluded that the investment advisory fee of 0.90% of the Fund's total assets are fair and reasonable for the Fund and that the renewal of the Advisory Agreement is in the best interests of the Fund and its shareholders.

Trustees & Officers

September 30, 2007 (unaudited)

Information pertaining to the Trustees and Officers of the Trust is set forth below. Trustees deemed to be interested persons of the Trust as defined in the 1940 Act are referred to as Interested Trustees. Additional information about the Trustees is available, without charge, upon request by contacting the Fund at 1-877-256-8445.

INTERESTED TRUSTEES AND OFFICERS

Name, Age and Address	Position(s) Held with Funds/Length of Time Served	Principal Occupation(s) During Past 5 Years* and Other Directorships Held by Trustee	Number of Portfolios in Fund Complex Over-seen by Trustee
James E. Canty Age - 45 One Post Office Square 40th Floor Boston, MA 02109	Trustee and Portfolio Manager/ Since Inception	Mr. Canty is a founding partner, Chief Financial Officer and General Counsel for Clough. Prior to founding Clough in 2000, Mr. Canty worked as a corporate and securities lawyer and Director of Investor Relations for Converse, Inc. from 1995 to 2000. He was a corporate and securities lawyer for the Boston offices of Goldstein & Manello, P.C. from 1993 to 1995 and Bingham, Dana and Gould from 1990 to 1993.
