Private Securities Litigation Reform Act Safe Harbor Statement

In addition to historical information, this report contains statements by us with regard to our expectations as to financial results and other aspects of our business that involve risks and uncertainties and may constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934.

Forward-looking statements are presented for illustrative purposes only and reflect our current expectations concerning future results and events. All statements other than statements of historical fact are forward-looking statements for purposes of federal and state securities laws, including, without limitation, any projections of earnings, revenues or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements concerning proposed new services or developments; any statements regarding future economic conditions or performance; any statements of belief; and any statements of assumptions underlying any of the foregoing.

You can identify forward-looking statements by our use of words such as anticipates, believes, continues, expects, intends, likely, may, opportunity, plans, potential, project, will, and similar expressions which identify forward-looking statements, whether in the negative or the affirmative. We cannot guarantee that we actually will achieve these plans, intentions or expectations. These forward-looking statements are subject to risks, uncertainties and other factors, some of which are beyond our control, which could cause actual results to differ materially from those forecasted or anticipated in such forward-looking statements. You should not place undue reliance on these forward-looking statements, which reflect our view only as of the date of this report. We undertake no obligation to update these statements or publicly release the result of

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

any revision(s) to these statements to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

Key risks to our company are described in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 26, 2009 and as may be supplemented by the risks described under Part II, Item 1A, of our quarterly reports on Form 10-Q and in our Current Reports on Form 8-K.

SUPPLEMENTAL DISCLOSURES ON NON-CASH INVESTING AND FINANCING ACTIVITIES:

During the nine months ended September 30, 2009, the Company issued 0.2 million restricted stock units, recorded modification expense of \$1.4 million and had forfeitures of \$2.4 million that will decrease on an aggregate basis its paid-in capital by \$0.6 million over the vesting period of

the restricted stock units.

During the nine months ended 2008, the Company issued 0.5 million restricted stock units (net of forfeitures) and will increase its paid-in-capital by \$5.6 million over the vesting period of the restricted stock units.

On March 14, 2008, the Company completed an exchange of radio station assets with Bonneville International Corporation and as a result the Company: (1) received \$220.0 million in assets, including cash of \$1.0 million; (2) provided assets with a basis of \$210.0 million (including transaction costs); and (3) recorded a gain of \$10.0 million.

See notes to condensed consolidated financial statements.

ENTERCOM COMMUNICATIONS CORP.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2009 AND 2008

1. BASIS OF PRESENTATION

The condensed consolidated interim unaudited financial statements included herein have been prepared by Entercom Communications Corp. and its subsidiaries (collectively, the Company) in accordance with: (i) generally accepted accounting principles (U.S. GAAP) for interim financial information; and (ii) the instructions of the Securities and Exchange Commission (the SEC) for Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements. In the opinion of management, the financial statements reflect all adjustments considered necessary for a fair statement of the results of operations and financial position for the interim periods presented. All such adjustments are of a normal and recurring nature. The Company's results are subject to seasonal fluctuations and, therefore, the results shown on an interim basis are not necessarily indicative of results for a full year.

This Form 10-Q should be read in conjunction with the financial statements and related notes included in the Company's audited financial statements as of and for the year ended December 31, 2008 and filed with the SEC on February 26, 2009, as part of the Company's Annual Report on Form 10-K. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations.

Recent Accounting Pronouncements

Subsequent Events

In May 2009, an accounting standard on subsequent events was approved, which sets forth the period, circumstances and disclosure after the balance sheet date during which management shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements. This standard, which was effective for the Company for the period ended June 30, 2009, did not have an effect on the Company's result of operations, cash flows or financial position.

Interim Disclosures About Fair Value Financial Instruments

In April 2009, an accounting standard was issued which requires disclosures about the fair value of financial instruments in interim reporting periods that were previously only required in annual financial statements. The Company's adoption of this accounting standard, which was effective for the Company for the period ended June 30, 2009, did not have an effect on the Company's result of operations, cash flows or

financial position.

Accounting Standards Codification

In June 2008, an accounting standards codification was approved as a single source of authoritative nongovernmental U.S. GAAP that was effective for the Company in the third quarter of 2009. The codification does not change current U.S. GAAP, but is intended to simplify user access to all authoritative literature related to a particular topic in one place. The Company's adoption of this codification did not have an impact on the Company's results of operations, cash flows or financial position.

Determination Of The Useful Life Of Intangible Assets

In April 2008, an accounting standard was issued regarding the determination of the useful life of intangible assets. This standard amends the factors that should be considered in developing the renewal or extension assumptions used to determine the useful life of recognized intangible assets. This standard requires expanded disclosure regarding the determination of intangible asset useful lives and also improves the consistency between the useful life of a recognized intangible asset and the period of expected cash flows used to measure the fair value of the asset. This standard was effective for the Company on January 1, 2009. The impact to the Company will be limited to the application of this standard to future acquisitions.

Disclosures About Derivative Instruments And Hedging Activities

Table of Contents

In March 2008, the disclosure requirements for derivative instruments and hedging activities were changed. Entities are required to provide enhanced disclosures about: (1) how and why an entity uses derivative instruments; (2) how derivative instruments and related hedged items are accounted for under U.S. GAAP and its related interpretations; and (3) how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. The Company has included the relevant disclosures effective in its first quarter 2009 financial statements under Note 8, Derivatives And Hedging Activities.

Modifications To Business Combinations

In December 2007, an accounting standard was modified that will significantly change how business combinations are accounted for through the use of fair values in financial reporting and will impact financial statements both on the acquisition date and in subsequent periods. In February 2009, this accounting standard was again modified to allow an exception to the recognition and fair value measurement principles of contingencies in a business combination. This exception requires that acquired contingencies be recognized at fair value on the acquisition date if fair value can be reasonably estimated during the allocation period. These modifications were effective for the Company as of January 1, 2009 for all business combinations that close on or after January 1, 2009.

2. SHARE-BASED COMPENSATION

Restricted Stock Units or (RSUs)

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

A summary of the Company's outstanding RSUs as of September 30, 2009, and changes in RSUs during the nine months ended September 30, 2009, is as follows:

	Period Ended	Number of RSUs	Weighted- Average Purchase Price	Weighted- Average Remaining Contractual Term	Aggregate Intrinsic Value As Of September 30, 2009
RSUs outstanding as of:	December 31, 2008	1,421,985			
RSUs awarded		356,596			
RSUs issued in exchange for options		711,985			
RSUs released		(296,964)			
RSUs forfeited		(262,706)			
RSUs outstanding as of:	September 30, 2009	1,930,896	\$	1.6	\$ 9,847,570
RSUs vested and expected to vest		1,789,354	\$	1.5	\$ 8,785,208
RSUs exercisable (vested and deferred)		66,764	\$		\$ 340,496
Weighted average remaining recognition period in years		2.5			

Options

No options were exercised during the nine months ended September 30, 2009 and 2008.

The following table presents the option activity for the nine months ended September 30, 2009:

Table of Contents

	Period Ended	Number of Options	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Intrinsic Value As of September 30, 2009
Options outstanding as of:	December 31, 2008	2,493,930	\$ 28.33		
Options granted		1,075,250	\$ 1.38		
Options forfeited		(57,312)	\$ 2.58		
Options exchanged for RSUS		(2,084,518)	\$ 29.02		
Options expired		(315,475)	\$ 24.51		
Outstanding as of:	September 30, 2009	1,111,875	\$ 3.37	9.0	\$ 3,825,360
Options vested and expected to vest as of:	September 30, 2009	1,017,727	\$ 3.54	9.0	\$ 3,482,837
Options vested and exercisable as of:	September 30, 2009	56,417	\$ 35.91	3.4	\$
Weighted average remaining recognition period in years		3.3			

As of September 30, 2009, \$1.2 million of accumulated unrecognized compensation costs related to unvested stock options, net of estimated forfeitures, is expected to be recognized in future periods over a weighted average period of 3.3 years.

The fair value of each option grant was estimated on the date of grant using the following weighted average assumptions:

	Nine Months Ended September 30,	
	2009	2008
Expected life (years)	6.3	6.3
	54.9% to	30.9% to
Expected volatility factor (%)	66.6%	32.3%
Risk-free interest rate (%)	2.2% to 2.9%	2.7% to 3.3%
Expected dividend yield (%)	0.0%	3.7% to 14.6%

The following table summarizes significant ranges of outstanding and exercisable options as of September 30, 2009:

Exercise Prices	Options Outstanding			Options Exercisable		
	Number Of Options Outstanding September 30, 2009	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Number Of Options Exercisable September 30, 2009	Weighted Average Exercise Price	
\$ 1.34 \$ 1.34	1,006,750	9.4	\$ 1.34			
\$ 1.57 \$ 11.69	48,125	9.0	\$ 7.57	6,167	\$ 11.50	
\$ 11.78 \$ 11.78	9,000	8.4	\$ 11.78	2,250	\$ 11.78	
\$ 27.75 \$ 40.00	24,500	3.1	\$ 34.11	24,500	\$ 34.11	
\$ 42.88 \$ 48.21	23,500	2.0	\$ 46.51	23,500	\$ 46.51	
\$ 1.34 \$ 48.21	1,111,875	9.0	\$ 3.37	56,417	\$ 35.91	

Recognized Non-Cash Compensation Expense

The following table summarizes stock-based compensation expense related to awards of RSUs, employee stock options and purchases under the employee stock purchase plan for the nine and three months ended September 30, 2009 and 2008:

Table of Contents

	Nine Months Ended		Three Months Ended	
	2009	2008	September 30, 2009	2008
	(amounts in thousands)			
Station operating expenses	\$ 1,460	\$ 1,852	\$ 698	\$ 739
Corporate general and administrative expenses	4,237	5,959	1,300	1,354
Stock-based compensation expense included in operating expenses	5,697	7,811	1,998	2,093
Income tax benefit (net of a fully reserved valuation allowance)		(2,560)		(595)
Total	\$ 5,697	\$ 5,251	\$ 1,998	\$ 1,498

2009 Option Exchange Program

In February 2009, the Company's Board of Directors approved an amendment to the Entercom Equity Compensation Plan (the "Plan") to permit a one-time Option Exchange Program ("2009 OEP"), which amendment was approved at the May 2009 shareholders' meeting. On April 13, 2009, the Company commenced the 2009 OEP, which was subject to shareholder approval, by making an offer to exchange to the Company's eligible employees and non-employee directors. The Company offered such persons the opportunity to make an election to exchange all of their outstanding stock options with exercise prices equal to or greater than \$11.80 per share for a lesser number of RSUs. The exchange ratios were as follows:

Option Strike Price	Exchange Ratio (Options For RSUs)
At least \$11.80, but less than \$30.00	2.25 for 1
\$30.00 or more	4.5 for 1

On May 15, 2009, following the May 14, 2009 expiration of the Company's 2009 OEP, the Company granted 0.7 million RSUs in exchange for 2.1 million options. As a result of the 2009 OEP, the number of RSUs that can be issued under the Plan was effectively increased by 0.7 million as all RSUs granted did not count against the restricted stock sublimit in the Plan. In addition, the number of awards that can be issued under the Plan was effectively reduced by 2.1 million as all options that were exchanged will not be available for re-grant under the Plan.

The Company applied modification accounting for the 2009 OEP and will recognize share-based compensation expense of \$1.2 million on a straight-line basis over the four-year vesting period of the RSUs. Under modification accounting, the fair value of the new shares immediately prior to the exchange was greater by \$1.2 million than the fair value of the surrendered options. In addition, under the bifurcated method, share-based compensation expense of \$0.9 million associated with any unvested options exchanged and cancelled as of the modification date will be recognized over the remaining original option term, and the expense will only be reversed if the original service period is not met.

3. INTANGIBLE ASSETS AND GOODWILL

(A) Indefinite-Lived Intangibles

Under the accounting standards for goodwill and certain intangible assets, these assets are not amortized. The Company has concluded that its acquired broadcasting licenses are treated as an indefinite-lived intangible asset and, similar to goodwill, these assets are reviewed at least annually for impairment. At the time of each review, if the recorded value of goodwill and certain intangibles (such as broadcasting licenses) is more than their fair value, then a charge is recorded to the results of operations.

Under accounting guidance, the Company may only write down the carrying value of its indefinite-lived intangibles, but is not permitted to increase the carrying value if the fair value of these assets subsequently increases.

Change In Annual Testing Period For Broadcasting Licenses

Table of Contents

In 2009, the Company changed the period when it performs its annual impairment test for broadcasting licenses from the first quarter to the second quarter of each year, in line with its annual impairment test for goodwill. An interim impairment test for broadcasting licenses was performed during the fourth quarter of 2008.

Broadcasting Licenses

The Company performs its broadcasting license impairment test by evaluating its broadcasting licenses for impairment at the market level using the direct method. Accounting guidance states that separately recorded indefinite-lived intangible assets should be combined into a single unit of accounting for purposes of testing impairment if they are operated as a single asset. The Company determines the fair value of the broadcasting licenses in each of its markets by relying on a discounted cash flow approach (a 10-year income model) assuming a start-up scenario in which the only assets held by an investor are broadcasting licenses. The Company's fair value analysis contains assumptions incorporating variables that are based on past experiences and judgments about future performance using industry normalized information for an average station within a certain market. These variables include, but are not limited to: (1) the forecast growth rate of each radio market, including assumptions regarding each market's population, household income, retail sales and other factors that would influence advertising expenditures; (2) market share and profit margin of an average station based upon market size and station type; (3) estimated capital start-up costs and losses incurred during the early years; (4) risk-adjusted discount rate; (5) the likely media competition within the market area; (6) an effective tax rate assumption; and (7) future terminal values.

During the second quarter of 2009, the Company completed the impairment test for broadcasting licenses and determined that the fair value of the broadcasting licenses was less than the amount reflected in the balance sheet for each of the Company's markets, other than Seattle, and recorded an impairment loss of \$60.8 million. The prolonged economic downturn negatively impacted the radio broadcasting industry as advertising revenues continued to decline and expectations for growth over the next year were reduced. The projected growth levels for the industry and the Company were less than those originally forecasted for 2009, which was the primary reason for further impairment to broadcasting licenses in the second quarter. As revenues decline, profitability levels are also negatively impacted as fixed costs represent a large component of a radio station's operating expenses. As a result, the asset base is particularly sensitive to the impact of continued declining revenues.

The following table reflects certain key estimates and assumptions since the most recent impairment test in the fourth quarter of 2008. The ranges for operating profit margin and market long-term revenue growth rates are for each of the Company's markets. In general, when comparing between the second quarter of 2009 and the fourth quarter of 2008: (1) the market specific operating profit margin range declined; and (2) the market long-term revenue growth rates were consistent; however, current period revenues were less than previously projected for 2009.

	Second Quarter 2009	Fourth Quarter 2008
Discount rates	10.6%	10.6%
Operating profit margin ranges	21.0% to 44.0%	21.0% to 46.7%
Market long-term revenue growth rates	1.0% to 2.5%	1.0% to 2.0%

The following table presents, in thousands, the changes in broadcasting licenses for the nine months ended September 30, 2009 and 2008:

Table of Contents

	Carrying Amount
Balance as of December 31, 2008	\$ 768,646
Loss on impairment	(60,794)
Balance as of September 30, 2009	\$ 707,852

	Carrying Amount
Balance as of December 31, 2007	\$ 1,316,983
Acquisition	210,358
Loss on impairment	(117,000)
Reversal of assets held for sale	3,650
Balance as of September 30, 2008	\$ 1,413,991

The amount of unamortized broadcasting licenses reflected in the balance sheet as of September 30, 2009 and December 31, 2008 was \$707.9 million and \$768.6 million, respectively. If actual market conditions are less favorable than those projected by the industry or the Company, or if events occur or circumstances change that would reduce the fair value of the Company's broadcasting licenses below the amount reflected in the balance sheet, the Company may be required to recognize impairment charges, which may be material, in future periods.

In connection with the Company's annual review of its goodwill during the second quarter of 2008, the Company determined that the fair value of several of its markets' broadcasting licenses was impaired under the second step of its goodwill analysis. As a result, for the nine months ended September 30, 2008, the Company recorded an impairment loss in the Denver, Greenville, Indianapolis and Memphis markets on an aggregate basis of \$117.0 million and reduced its carrying value of broadcasting licenses. Contributing factors to the impairment were a decline in the advertising dollars in these markets and its effect on the Company's operations, coupled with changes in the anticipated growth of these markets.

Please refer to Note 15, Discontinued Operations, for a discussion of an impairment to broadcasting licenses in Rochester, New York, during the first quarter of 2008.

Goodwill

The Company performs its annual impairment test on its goodwill during the second quarter of each year by comparing the fair value for each reporting unit with the amount reflected on the balance sheet. The Company has determined that a radio market is a reporting unit and in total, the Company assesses goodwill at 22 separate reporting units. If the fair value for any reporting unit is less than the amount reflected in the balance sheet, an indication exists that the amount of goodwill attributed to a reporting unit may be impaired, and the Company is required to perform a second step of the impairment test. In the second step, the Company compares to the amount reflected in the balance sheet, the implied fair value of the reporting unit's goodwill, determined by allocating the reporting unit's fair value to all of its assets and liabilities in a manner similar to a purchase price allocation.

To determine the fair value, the Company uses an income and market approach for each reporting unit. The market approach compares recent sales and offering prices of similar properties. The income approach uses the subject property's income generated over a specified time and capitalized at an appropriate market rate to arrive at an indication of the most probable selling price.

In step one of the Company's goodwill analysis, the Company considered the results of the market approach and the income approach in computing the fair value of the Company's reporting units. In the market approach, the Company applied an estimated market multiple of six times (consistent with the multiple used in the fourth quarter of 2008) to each reporting unit's operating performance to calculate the fair value. The Company applied the same market multiple consistently across all reporting units. In the income approach, the Company utilized the discounted cash flow method to calculate the fair value of the reporting unit (the key estimates and assumptions are included in the table below). The results of step one indicated that it was necessary to perform the second step analysis in seven of the 22 markets (each market is a reporting unit). The fair values for two of the seven markets were marginally above book value. Management believes that these approaches are commonly used methodologies for valuing broadcast radio stations and that a six times multiple is an appropriate measurement given the recent fall in market

Table of Contents

valuations of broadcast radio stations together with a historically low level of market transactions in recent months. The marginal stations were included in the Company's step one impairment testing due to the subjective nature of the step one analysis and the sensitivities inherent in these calculations. Factors contributing to the determination of the reporting unit's operating performance were historical performance and/or management's estimates of future performance.

Under the second step, the Company determined that the fair value of the Company's goodwill was less than the amount reflected in the balance sheet for the seven markets tested, which were Austin, Greensboro, Greenville, Indianapolis, Kansas City, Memphis and Wichita, and recorded an impairment loss of \$6.9 million during the second quarter of 2009. Contributing factors to the impairment were a decline in the advertising dollars in these markets and its effect on the Company's operations, coupled with changes in the anticipated growth and profitability of these markets.

The prolonged economic downturn negatively impacted the radio broadcasting industry as advertising revenues continued to decline and expectations for growth over the next year also declined. The projected revenue growth levels for the industry and the Company were less than those originally forecasted for 2009, which caused further goodwill impairment in the second quarter of 2009. As revenues decline, profitability levels are also negatively impacted as fixed costs represent a large component of a radio station's operating expenses. As a result, the asset base is particularly sensitive to the impact of declining revenues.

The following table reflects certain key estimates and assumptions since the most recent impairment test in the fourth quarter of 2008. The ranges for operating profit margin and revenue growth rates are for each of the Company's markets. In general, when comparing between the second quarter of 2009 and the fourth quarter of 2008: (1) the market specific operating profit margin range declined; and (2) the market long-term revenue growth rates were consistent; however, current period revenues were less than previously projected for 2009.

	Second Quarter 2009	Fourth Quarter 2008
Discount rates	10.6%	10.6%
Operating profit margin ranges	21.0% to 41.0%	21.0% to 44.0%
Market long-term revenue growth rates	1.0% to 2.5%	1.0% to 2.0%

The following table presents, in thousands, the change in goodwill for the nine months September 30, 2009 and 2008:

	Goodwill Carrying Amount	
	2009	2008
	(amounts in thousands)	
Goodwill before cumulative loss on impairment as of January 1,	\$ 163,783	\$ 160,976
Accumulated loss on impairment	(118,733)	(45,362)
Goodwill after cumulative loss on impairment	45,050	115,614
Loss on impairment during the year	(6,882)	(67,587)
Acquisitions during the year		2,807
Ending balance as of September 30,	\$ 38,168	\$ 50,834

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

During the second quarter of 2008, the Company recorded an impairment loss of \$67.6 million on an aggregate basis for the Denver and Indianapolis markets. Contributing factors to the impairment were a decline in the available advertising dollars in these markets and its effect on the Company's operations, coupled with changes in the anticipated growth of the broadcasting industry and its impact on prices paid for radio stations.

Please refer to Note 15, Discontinued Operations, for a discussion of an impairment to goodwill during the nine months ended September 30, 2008 related to the disposition of radio station assets in Rochester, New York.

Table of Contents

The amount of goodwill reflected in the Company's balance sheet as of September 30, 2009 and December 31, 2008 was \$38.2 million and \$45.1 million, respectively. If actual market conditions are less favorable than those projected by the industry or the Company, or if events occur or circumstances change that would reduce the fair value of the Company's goodwill below the amount reflected in the balance sheet, the Company may be required to recognize impairment charges, which may be material, in future periods.

(B) Definite-Lived Intangibles

The Company has definite-lived intangible assets that consist of advertiser lists and customer relationships, acquired advertising contracts and income leases. These assets are amortized over the period for which the assets are expected to contribute to the Company's future cash flows and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The amount of the amortization expense for definite-lived intangible assets was \$0.1 million and \$2.8 million for the nine months ended September 30, 2009 and 2008, respectively. As of September 30, 2009, the Company reflected \$0.8 million in unamortized definite-lived assets, which is included in deferred charges and other assets on the balance sheet.

The following is an estimate of the amortization expense for definite-lived assets, in thousands, for each of the succeeding years ending December 31:

	Definite- Lived Assets
Year ending December 31,:	
2009 (Excludes year-to-date ended September 30, 2009)	\$ 36
2010	124
2011	84
2012	81
2013	53
Thereafter	445
Total	\$ 823

4. ACQUISITIONS, DISPOSITIONS AND UNAUDITED PRO FORMA SUMMARY

Acquisitions And Dispositions For The Nine Months Ended September 30, 2009

There were no acquisitions or dispositions (other than as disclosed under Note 7, Financing Method Lease Obligations and Note 9, Contingencies, Guarantor Arrangements and Commitments), during the nine months ended September 30, 2009.

Unaudited Pro Forma Summary Of Financial Information

The following pro forma information presents the consolidated results of operations as if any acquisitions which occurred had all occurred as of the beginning of each period presented, after giving effect to certain adjustments, including depreciation and amortization of assets and interest expense on any debt incurred to fund the acquisitions which would have been incurred had such acquisitions occurred as of the beginning of the periods presented. For purposes of this presentation, the data does not reflect on a pro forma basis dispositions of radio stations (other than the disposition of: (1) a radio station in Cincinnati as the Company has never operated this station; and (2) the disposition of radio stations in Seattle and Cincinnati as this disposition was in exchange for the assets as described under Note 4). In addition, the tables reflect on a pro forma basis as if the discontinued operations in Rochester were not discontinued. These unaudited pro forma results have been prepared for comparative purposes only and do not purport to be indicative of what would have occurred had the acquisitions been made as of that date or results which may occur in the future.

Table of Contents

Net income (loss) per common share - diluted	\$ (0.52)	\$ (2.62)	\$	0.50	\$	0.12

5. SENIOR DEBT***Bank Facility***

Historically, the Company has carried significant amounts of debt. As of September 30, 2009, the Company had: (1) \$758.0 million outstanding under the Bank Facility, including: (i) \$385.0 million in Term Loan; and (ii) \$373.0 million in drawn Revolver; and (2) a \$1.5 million letter of credit. As of September 30, 2009, the Company had \$20.1 million in cash and cash equivalents.

The undrawn amount of the Revolver was \$275.5 million as of September 30, 2009. The amount of the Revolver available to the Company, however, is a function of covenant compliance at the time of borrowing. Based on the Company's financial covenant analysis as of September 30, 2009, the Company would be limited to borrowings significantly less than the undrawn limit unless such borrowings were used to repay indebtedness or for transactions that increase cash flow for purposes of covenant calculation. The Company plans to fund the amortization of the Term Loan with its available Revolver capacity and cash flow from operations.

In June 2007, the Company entered into a credit agreement (the "Bank Facility") with a syndicate of lenders (26 lenders as of September 30, 2009) for a \$1,050 million senior secured credit facility that matures in June 2012. The Bank Facility is comprised of \$650 million in revolving credit ("Revolver") and a \$400 million term loan ("Term Loan"). The Company is required to make repayments of the Term Loan (from and after September 30, 2009) in quarterly amounts starting at \$15 million and increasing to \$60 million. The Bank Facility is secured by a pledge of 100% of the capital stock and other equity interest in all except one of the Company's wholly owned subsidiaries. The Bank Facility requires the Company to comply with certain financial covenants which are defined terms within the agreement, including: (1) Consolidated Funded Indebtedness not to exceed six times Consolidated Operating Cash Flow; and (2) Consolidated Operating Cash Flow to be at a minimum of two times Consolidated Interest Charges.

The Company must maintain compliance with certain covenants under its Bank Facility. Management believes that over the next twelve months, the Company can maintain compliance with these covenants. Management further believes that the Company's ability to maintain compliance with its covenants will be highly dependent on the Company's results of operations as the economy begins to recover from the current economic downturn and the Company's ability to implement, to the extent necessary, remedial measures such as further reductions in operating costs, opportunistically repurchasing debt at a discount, selling assets and taking advantage of actions permitted under the credit agreement such as including cash from unrestricted subsidiaries in Consolidated Operating Cash Flow. If the Company were to enter into an agreement with its lenders for covenant compliance relief, such relief could result in higher interest expense. Failure to comply with the Company's financial covenants or other terms of the Bank Facility or Notes and the failure to negotiate and obtain any required relief from its lenders could result in

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

the acceleration of the maturity of all of the Company's outstanding debt. Under these circumstances, the acceleration of the Company's debt could have a material adverse effect on the Company's business.

The current economic downturn has reduced demand for advertising in general, including advertising on the Company's radio stations. Management anticipates that the negative revenue trends in the radio industry will continue into the fourth quarter of 2009, but reverse in early 2010 as the economy and the advertising environment rebounds and the Company compares favorably to prior periods of economic downturn.

Table of Contents**6. 7.625% SENIOR SUBORDINATED NOTES**

During the nine months ended September 30, 2009 and 2008, the Company repurchased \$59.6 million and \$58.0 million, respectively, of its Notes due March 1, 2014. For the nine and three months ended September 30, 2009, the Company recorded in the statement of operations a gain on the extinguishment of debt of \$19.3 million and \$3.1 million, respectively, net of the write-off of deferred financing costs of \$0.7 million and \$0.2 million, respectively. During the nine and three months ended September 30, 2008, the Company recorded in the statements of operations a gain on the extinguishment of debt of \$4.0 million and \$1.6 million, respectively, net of the write-off of deferred financing costs of \$0.8 million and \$0.2 million, respectively. The Notes outstanding as of September 30, 2009 were \$23.9 million.

In October 2009, the Company purchased in the open market \$12.9 million of the Company's Notes at a price of \$11.5 million.

7. FINANCING METHOD LEASE OBLIGATIONS

In September 2009, the Company entered into an agreement to sell certain tower facilities for up to \$12.6 million in cash and to lease back most of the tower sites for use by the Company's radio stations. In addition, the agreement provides for an earn-out whereby the Company can receive additional cash consideration for up to \$2.0 million after 42 months, depending if the buyer meets certain revenue targets. The sale did not qualify for sale and leaseback accounting as the Company's ability to share in a future earn-out is considered continuing involvement under accounting guidance. As a result, the Company classified these transactions as financing under the accounting guidance for leases. Under the financing method: (1) the assets and accumulated depreciation remain on the consolidated balance sheet and continue to be depreciated; (2) no gain is recognized; (3) proceeds of \$4.5 million received by the Company as of September 30, 2009 from these transactions are recorded as a financing liability; and (4) transaction costs of \$0.2 million as of September 30, 2009 are recorded as deferred financing expense, which will be amortized over 42 months. Payments under these leases over the partial lease term of 42 months are applied as payments of imputed interest at an approximate interest rate of 5.5%. Once the Company has no continuing involvement, the Company expects to apply the accounting provisions for sale and leaseback accounting. The earn-out component of this transaction will enable the Company to participate in the upside potential of these sites as the new owner (whose primary business is managing tower sites) is better suited to maximize the value of these sites through new third party tenants.

As of September 30, 2009, the Company received \$4.5 million in cash that covered eight of the tower facilities. The Company may close on additional tower sites during the fourth quarter of 2009. For the nine and three months ended September 30, 2009, no interest expense associated with lease financing obligations were recognized during these periods as lease payments commenced in October 2009.

The following table presents future minimum interest and principal payments due under financing method leases as of September 30, 2009:

	Principal	September 30, 2009 Interest (amounts in thousands)	Total
Remainder of current year	\$	\$ 55	\$ 55
2010		221	221
2011		231	231

2013		4,531		60		4,591
Total financing method lease obligations		4,531		811		5,342
Less current portion				219		219
Long term financing method lease obligations, net	\$	4,531	\$	592	\$	5,123

The following table presents property and equipment held under financing method leases, by major category, which represent components of property and equipment included in the balance sheet under property and equipment, as of September 30, 2009:

Table of Contents

	September 30, 2009
	(amounts in thousands)
Land and land improvements	\$ 699
Building	216
Equipment	2,800
Total	3,715
Less accumulated depreciation	(2,486)
Property and equipment held under financing method leases, net	\$ 1,229

The portion of depreciation expense attributable to assets held under financing method leases was less than \$0.1 million for the nine and three months September 30, 2009.

8. DERIVATIVES AND HEDGING ACTIVITIES

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

The Company from time to time enters into derivative financial instruments, including interest rate exchange agreements (Swaps) and interest rate collar agreements (Collars), to manage its exposure to fluctuations in interest rates. Under a fixed rate Swap, the Company pays a fixed rate on a notional amount to a bank, and the bank pays to the Company a variable rate on the notional amount equal to the Company's Eurodollar borrowing rate. A Collar establishes two separate agreements: an upper limit or Cap and a lower limit or Floor for the Company's Eurodollar borrowing rate.

During the nine months ended September 30, 2009 and 2008, the Company had outstanding the aggregate notional amount of \$550.0 million of cash flow interest rate transactions that were hedged against the Company's variable rate senior debt. During the nine months ended September 30, 2008, a derivative rate hedging transaction with a notional amount of \$30.0 million and an initial term of 10 years expired.

As of September 30, 2009, the Company had the following derivatives outstanding:

Type Of Hedge	Notional Amount (amounts in millions)	Effective Date	Collar	Fixed LIBOR Rate	Expiration Date	Effective Date That Notional Amount Decreases	Notional Amount After Decrease (amounts in millions)
Swap	\$ 225.0	Jan. 28, 2008	n/a	3.03%	Jan. 28, 2011	Jan. 28, 2010	\$ 150.0
Collar	100.0	Feb. 28, 2008	[Cap Floor	4.00% 2.14%	Feb. 28, 2011	n/a	n/a
Swap	125.0	March 28, 2008	n/a	2.91%	Sept. 28, 2011	n/a	n/a
Swap	100.0	May 28, 2008	n/a	3.62%	May 28, 2012	n/a	n/a
Total	\$ 550.0						

The following is a summary of the fair value of the derivatives outstanding as of September 30, 2009 and December 31, 2008:

Table of Contents

	Balance Sheet Location	Fair Value	
		September 30, 2009	December 31, 2008
		Asset (Liability) (amounts in thousands)	
Designated Derivatives			
Interest rate hedge transactions	Other Long Term Liabilities	\$ (15,246)	\$ (15,262)

The Company does not expect to reclassify to the statement of operations within the next 12 months any portion of the amount outstanding as of September 30, 2009.

The following is a summary of the gains (losses) related to the Company's cash flow hedges for the nine months ended September 30, 2009 and 2008:

Type Of Derivative Designated As A Cash Flow Hedge	Amount Of Gain (Loss) Recognized In Other Comprehensive Income (OCI) (amounts in thousands)	Nine Months Ended September 30, 2009		Location Of Gain (Loss) In Statement Of Operations	Amount Of Gain (Loss) In Statement Of Operations Due To Ineffectiveness (amounts in thousands)
		Location Of Gain (Loss) Reclassified From OCI To Statement Of Operations	Amount Of Gain (Loss) Reclassified From OCI To Statement Of Operations (amounts in thousands)		
Interest Rate	\$ 16	Interest Expense	\$	Interest Expense	\$

Type Of Derivative Designated As A Cash Flow Hedge	Amount Of Gain (Loss) Recognized In Other Comprehensive Income (OCI) (amounts in thousands)	Nine Months Ended September 30, 2008		Location Of Gain (Loss) In Statement Of Operations	Amount Of Gain (Loss) In Statement Of Operations Due To Ineffectiveness (amount in thousands)
		Location Of Gain (Loss) Reclassified From OCI To Statement Of Operations	Amount Of Gain (Loss) Reclassified From OCI To Statement Of Operations (amounts in thousands)		
Interest Rate	\$ 4,758	Interest Expense	\$	Interest Expense	\$ 34

The following is a summary of the gains (losses) related to the Company's cash flow hedges for the three months ended September 30, 2009 and 2008:

Table of Contents

Type Of Derivative Designated As A Cash Flow Hedge	Amount Of Gain (Loss) Recognized In OCI (amounts in thousands)	Three Months Ended September 30, 2009		Location Of Gain (Loss) In Statement Of Operations	Amount Of Gain (Loss) In Statement Of Operations Due To Ineffectiveness (amounts in thousands)
		Location Of Gain (Loss) Reclassified From OCI To Statement Of Operations	Amount Of Gain (Loss) Reclassified From OCI To Statement Of Operations (amounts in thousands)		
Interest Rate	\$ (1,343)	Interest Expense	\$	Interest Expense	\$

Type Of Derivative Designated As A Cash Flow Hedge	Amount Of Gain (Loss) Recognized In OCI (amounts in thousands)	Three Months Ended September 30, 2008		Location Of Gain (Loss) In Statement Of Operations	Amount Of Gain (Loss) In Statement Of Operations Due To Ineffectiveness (amount in thousands)

Interest Rate	\$ (3,133)	Interest Expense	\$	Interest Expense	\$

The following table presents the accumulated derivative gains (losses) recorded in the statements of other comprehensive income (loss) as of September 30, 2009 and December 31, 2008:

	September 30, 2009	December 31, 2008
	Assets (Liabilities) (amounts in thousands)	
Accumulated derivative unrealized loss	\$ (15,246)	\$ (15,262)

9. CONTINGENCIES, GUARANTOR ARRANGEMENTS AND COMMITMENTS

Contingencies

The Company is subject to various outstanding claims which arise in the ordinary course of business and to other legal proceedings. In the opinion of management, any potential liability of the Company which may arise out of, or with respect to, these matters will not materially affect the Company's financial position, results of operations or cash flows.

The Company uses a combination of insurance and self-insurance mechanisms to provide for the potential liabilities for workers' compensation, general liability, property, director and officers' liability, vehicle liability and employee health care benefits. Liabilities associated with the risks that are retained by the Company are estimated, in part, by considering claims experience, demographic factors, severity factors, outside

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

expertise and other actuarial assumptions. Under one of these policies, the Company is required to maintain a letter of credit in the amount of \$1.5 million.

During January 2007, a suit seeking various damages was filed against the Company relating to an on-air contest. The claims, which were settled in October 2009, were fully covered by the Company's insurance policies. In connection with the settled claim, as of September 30, 2009 the Company recorded an insurance claim receivable from its insurance company of \$16.8 million along with a claim payable to the plaintiff of \$16.8 million.

Table of Contents

The Company could face increased costs in the form of fines and a greater risk that the Company could lose any one or more of its broadcasting licenses if the FCC concludes that programming broadcast by a Company station was obscene, indecent or profane and such conduct warrants license revocation. The FCC's authority to impose a fine for the broadcast of such material is \$325,000 for a single incident, with a maximum fine of up to \$3.0 million for a continuing violation. In the past, the FCC has issued Notices of Apparent Liability and a Forfeiture Order with respect to several of the Company's stations proposing fines for certain programming which the FCC deemed to have been indecent. These cases are the subject of pending administrative appeals. The FCC has also commenced several other investigations based on allegations received from the public that some of the Company's stations broadcast indecent programming. The Company has cooperated in these investigations, which remain pending. The FCC has also initiated an investigation into the suit related to the on-air contest as noted above.

The Company has filed on a timely basis renewal applications for those radio stations with radio broadcasting licenses that are subject to renewal with the FCC. The Company's costs to renew its licenses with the FCC are minimal and are expensed as incurred rather than capitalized. Certain licenses were not renewed prior to the renewal date, which is not unusual. The Company continues to operate these radio stations under their existing licenses until the licenses are renewed. The FCC may delay the renewal pending the resolution of open inquiries. The affected stations are, however, authorized to continue operations until the FCC acts upon the renewal application.

Guarantor Arrangements

The Company enters into indemnification agreements in the ordinary course of business and other agreements which include indemnification provisions. The Company believes the estimated fair value of these agreements is minimal and has not recorded liabilities for these agreements as of September 30, 2009.

Commitments

Disposition Of Multiple Tower Sites

In September 2009, the Company entered into an agreement to sell multiple tower sites for up to \$12.6 million in cash at closing and a contingent earn-out for up to \$2.0 million in cash after 42 months. Concurrently with entering into this agreement, the Company agreed to lease space at many of these tower sites for certain of the Company's broadcasting operations.

The Company completed closing in September 2009 on eight tower sites and may close on several additional tower sites during the fourth quarter of 2009 (for further discussion, see Note 7, Financing Method Lease Obligations).

Termination Of Pending Disposition Of Radio Station In Portland, Oregon

In January 2009, the Company received \$0.4 million as liquidated damages from a buyer as a result of the termination by the buyer of an asset purchase agreement and related TBA with the Company.

10. SHAREHOLDERS EQUITY

Dividend Equivalents

The Company's grants of RSUs include the right, upon vesting, to receive a cash payment equal to the aggregate amount of dividends, if any, that a holder would have received on the shares of common stock underlying their RSUs if such RSUs had been vested during the period. For the nine months ended September 30, 2009 and 2008, the Company paid \$0.8 million and \$0.9 million, respectively, to the holders of RSUs that vested during these periods. The long-term dividend equivalent amount, accrued and unpaid on unvested RSUs, was \$0.3 million and \$1.1 million as of September 30, 2009 and December 31, 2008, respectively, and is included under other long-term liabilities in the balance sheet. The short-term dividend equivalent amount, accrued and unpaid on unvested RSUs, was \$1.5 million and \$1.6 million as of September 30, 2009 and December 31, 2008, respectively, and is included under other current liabilities in the balance sheet. The Company recognizes the tax benefit for income tax purposes as a reduction to its income tax expense (before any adjustment for a valuation allowance) rather than as an increase to its paid-in capital as all dividend equivalent payments are made to the holders of RSUs upon the later of vesting of the units or termination of the deferral period for previously vested units.

Table of Contents

Repurchases Of Vested RSUs

Upon vesting, unless an employee elects to pay the tax withholding obligation in cash, the Company withholds shares of stock in an amount sufficient to cover the employee's tax withholding obligations. As a result, during the nine months ended September 30, 2009 and 2008, the Company was deemed to have repurchased 0.1 million shares of stock during each period.

Share Repurchase Programs

The Company's share repurchase program expired on June 30, 2009.

During the nine months ended September 30, 2009, the Company repurchased 0.7 million shares in the amount of \$0.9 million at an average price of \$1.34 per share. During the nine months ended September 30, 2008, the Company repurchased 1.3 million shares in the amount of \$13.3 million at an average price of \$10.18 per share.

Employee Stock Purchase Plan

The Company's employee stock purchase plan expired on March 31, 2009 and was not renewed.

11. DEFERRED COMPENSATION PLANS

The Company provides certain of its employees and the Board of Directors with an opportunity to defer a portion of their compensation on a tax-favored basis. The obligations by the Company to pay these benefits under these plans represent unsecured general obligations that rank equally with the Company's other unsecured indebtedness. Deferred compensation expense is allocated to corporate general and administrative expenses and station operating expenses.

As of September 30, 2009 and December 31, 2008, \$5.2 million and \$3.7 million, respectively, were deferred under these plans and were included in other long-term liabilities. For the nine months and three months ended September 30, 2009, the Company recorded an increase in deferred compensation expense of \$0.8 million and \$0.6 million, respectively. For the nine months and three months ended September 30, 2008, the Company recorded a decrease in deferred compensation expense of \$0.7 million and \$0.4 million, respectively.

12. NET INCOME (LOSS) PER SHARE

Nine Months Ended September 30, 2009 and 2008

The effect of stock options and RSUs in the calculation of net income (loss) per share, using the treasury stock method, was anti-dilutive for the nine months ended September 30, 2009 and September 30, 2008.

The following table sets forth the computations of basic and diluted net loss per share for the nine months ended September 30, 2009 and 2008:

Table of Contents

	Nine Months Ended					
	September 30, 2009			September 30, 2008		
	(amounts in thousands, except share and per share data)					
	Net Loss	Shares	Net Loss Per Share	Net Loss	Shares	Net Loss Per Share
Basic net loss per common share:						
Loss from continuing operations	\$ (18,302)	35,327,093	\$ (0.52)	\$ (83,350)	36,990,089	\$ (2.25)
Loss from discontinued operations				(3,497)		(0.10)
Net loss	\$ (18,302)	35,327,093	\$ (0.52)	\$ (86,847)	36,990,089	\$ (2.35)
Impact of equity awards						
Diluted net loss per common share:						
Loss from continuing operations	\$ (18,302)	35,327,093	\$ (0.52)	\$ (83,350)	36,990,089	\$ (2.25)
Loss from discontinued operations				(3,497)		(0.10)
Net loss	\$ (18,302)	35,327,093	\$ (0.52)	\$ (86,847)	36,990,089	\$ (2.35)

For the nine months ended September 30, 2009 and 2008, 0.7 million and less than 0.1 million incremental shares, respectively, were not included in diluted net loss per share as the shares were anti-dilutive when reporting a net loss.

In computing the incremental shares under the treasury stock method for the nine months ended September 30, 2009, 0.8 million RSUs (including 0.1 million RSUs with market and service conditions, as half of the RSUs with market conditions were not satisfied as of September 30, 2009) and options to purchase 1.2 million shares of common stock at a range of \$2.20 to \$48.21, were excluded from the computation as they were anti-dilutive.

In computing the incremental shares under the treasury stock method for the nine months ended September 30, 2008, 1.4 million RSUs (including 0.3 million RSUs with market and service conditions as the market conditions were not satisfied as of September 30, 2008) and options to purchase 2.5 million shares of common stock at a range of \$8.92 to \$52.05, were excluded from the computation as they were anti-dilutive.

Three Months Ended September 30, 2009 and 2008

The effect of stock options and RSUs in the calculation of net income per share, using the treasury stock method, was dilutive for the three months ended September 30, 2009 and September 30, 2008.

The following table sets forth the computations of basic and diluted net income per share for the three months ended September 30, 2009 and 2008:

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(amounts in thousands, except share and per share data)	
	Net Income	Net Income

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

	Net Income	Shares	Per Share	Net Income	Shares	Per Share
Basic net income per common share:						
Income from continuing operations	\$ 18,275	35,291,969	\$ 0.52	\$ 3,774	36,366,713	\$ 0.11
Income from discontinued operations				480		0.01
Net income	\$ 18,275	35,291,969	\$ 0.52	\$ 4,254	36,366,713	\$ 0.12
Impact of equity awards		1,328,644			8,160	
Diluted net income per common share:						
Income from continuing operations	\$ 18,275	36,620,613	\$ 0.50	\$ 3,774	36,374,873	\$ 0.11
Income from discontinued operations				480		0.01
Net income	\$ 18,275	36,620,613	\$ 0.50	\$ 4,254	36,374,873	\$ 0.12

Table of Contents

In computing the incremental shares under the treasury stock method for the three months ended September 30, 2009, 0.7 million RSUs (including 0.1 million RSUs with market and service conditions, as half of the RSUs with market and service conditions were not satisfied as of September 30, 2009) and options to purchase 0.1 million shares of common stock at a range of \$3.63 to \$48.21, were excluded from the computation as they were anti-dilutive.

In computing the incremental shares under the treasury stock method for the three months ended September 30, 2008, 1.4 million RSUs (including 0.3 million RSUs with market and service conditions as the market conditions were not satisfied as of September 30, 2008) and options to purchase 2.5 million shares of common stock at a range of \$5.98 to \$52.05, were excluded from the computation as they were anti-dilutive.

13. INCOME TAXES

Effective Tax Rate - Overview

The Company's income tax rates for the nine months and three months ended September 30, 2009 were based on the estimated annual effective tax rate for 2009 (excluding the impact of a valuation allowance for deferred tax assets as described below), and includes: (1) the effect of permanent differences between income subject to income tax for book and tax purposes; and (2) any discrete items of tax. The Company's effective tax rate, which can fluctuate from quarter to quarter, can be higher than the federal statutory rate of 35% primarily as a result of the provision for state taxes (net of a federal tax deduction).

The Company's effective income tax rate may be impacted by: (1) changes in the level of income in any of the Company's taxing jurisdictions; (2) changes in the statutes and rules applicable to taxable income in the jurisdictions in which the Company operates; (3) changes in the expected outcome of income tax audits; (4) changes in the estimate of expenses that are not deductible for tax purposes; (5) income taxes in certain states where the states' current taxable income is dependent on factors other than the Company's consolidated net income; and (6) the effect of recording changes in the Company's liabilities for uncertain tax positions.

An impairment loss will result in an income tax benefit during the period incurred (before any adjustment for a deferred tax asset valuation allowance) as the amortization of broadcasting licenses and goodwill is deductible for income tax purposes.

Tax Rate For The Nine Months And Three Months Ended September 30, 2009

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

The effective income tax rates (benefits) were 4.0% and 2.4% for the nine months and three months ended September 30, 2009, respectively. For the nine and three months ended September 30, 2009, the effective income tax rates reflect an increase and a decrease, respectively, in the deferred tax asset valuation allowance for the reasons as described below under Valuation Allowance For Deferred Tax Assets (after consideration for any net deferred tax liabilities associated with non-amortizable assets such as broadcasting licenses and goodwill).

Tax Rate For The Nine Months And Three Months Ended September 30, 2008

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

The effective income tax rates (benefits) were (27.9%) and 84.1% for the nine months and three months ended September 30, 2008, respectively. The effective income tax rates for the nine and three months ended September 30, 2008 were negatively impacted by an increase in the deferred tax asset valuation allowance.

Deferred Tax Liabilities

As of September 30, 2009 and as of December 31, 2008, deferred tax liabilities were fully offset by deferred tax assets. The income tax accounting process to determine the deferred tax liabilities involves estimating all temporary differences between the tax and financial reporting bases of the Company's assets and liabilities, based on enacted tax laws and statutory tax rates applicable to the period in which the differences are expected to affect taxable income. The Company estimated the current exposure by assessing the temporary differences and computing the provision for income taxes by applying the estimated effective tax rate to income.

Valuation Allowance For Deferred Tax Assets

Table of Contents

The Company increased its valuation allowance by \$4.4 million to \$71.8 million as of September 30, 2009 from \$67.4 million as of December 31, 2008, primarily as a result of an increase in its deferred tax assets as of September 30, 2009 as compared to December 31, 2008. As a result of cumulative losses incurred by the Company since 2006, a deferred tax asset valuation allowance was established due to the uncertainty that the deferred tax assets would be realized in future years (after consideration for any net deferred tax liabilities associated with non-amortizable assets such as broadcasting licenses and goodwill). The valuation allowance as of September 30, 2009 and December 31, 2008 includes an income tax benefit recorded in other comprehensive income (loss) of \$6.0 million for each period.

The Company has also considered future taxable income and ongoing prudent and feasible tax-planning strategies in assessing the need for the valuation allowance. On a quarterly basis, management assesses whether it remains more likely than not that the deferred tax assets will not be realized. In the event the Company determines at a future time that it could realize its deferred tax assets in excess of the net amount recorded, the Company will reduce its deferred tax asset valuation allowance and decrease income tax expense in the period when the Company makes such determination.

Income Tax Payments And Refunds

The Company made income tax payments of \$0.2 million and less than \$0.1 million for the nine months ended September 30, 2009 and 2008, respectively. The Company received income tax refunds of less than \$0.1 million and \$14.5 million for the nine months ended September 30, 2009 and 2008, respectively.

Liabilities For Uncertain Tax Positions

For the nine and three months ended September 30, 2009, the Company recorded increases of \$0.5 million and \$0.4 million, respectively, to income tax expense, which amounts consisted primarily of tax liabilities for the current year (including interest and principal), partially offset by the expiration of statutes of limitation for certain tax liabilities (including interest and principal). For the nine and three months ended September 30, 2008, the Company recorded income tax expense of less than \$0.1 million for each period, which amounts consisted primarily of interest and penalties. The Company's liabilities for uncertain tax positions as of September 30, 2009 and December 31, 2008 were \$4.8 million and \$4.3 million, respectively, which were recorded in the balance sheets as long-term tax liabilities. The Company reviews its estimates on a quarterly basis, and any change in its liabilities for uncertain tax positions will result in an adjustment to its income tax expense in the statement of operations in each period measured. It is reasonably possible that the Company's gross unrecognized tax benefits balance (exclusive of interest and penalties) may change within the next twelve months by a range from zero to \$1.2 million. This change would be primarily due to the expiration of various statutes of limitation, offset by additional accruals of tax for existing liabilities,

Federal And State Income Tax Audits

The Company is subject to federal and state income tax audits from time to time that could result in proposed assessments. The Company cannot predict with certainty how these audits will be resolved and whether the Company will be required to make additional tax payments, which may or may not include penalties and interest. The Company is currently under audit by the Internal Revenue Service for the tax years of 2004 through 2007. For most states where the Company conducts business, the Company is subject to examination for the preceding three to six years. In certain states, the period could be longer.

14. ACCOUNTS RECEIVABLE AND RELATED ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable are primarily attributable to advertising that has aired on the Company's radio stations, but for which payment has not been collected, net of agency commissions and an estimated allowance for doubtful accounts. Estimates of the allowance for doubtful accounts are recorded based on management's judgment of the collectability of the accounts receivable based on historical information, relative improvements or deteriorations in the age of the accounts receivable and changes in current economic conditions.

The accounts receivable balances and reserve for doubtful accounts as of September 30, 2009 and December 31, 2008 are presented in the following table:

Table of Contents

	September 30, 2009		December 31, 2008
	(amounts in thousands)		
Accounts receivable	\$ 77,966	\$	79,830
Allowance for doubtful accounts	(3,392)		(4,476)
Accounts receivable, net of allowance for doubtful accounts	\$ 74,574	\$	75,354

As of September 30, 2009 and December 31, 2008, the Company recorded accounts receivable credits in the amounts of \$1.8 million and \$1.9 million, respectively, which amounts are included in the balance sheets under other current liabilities.

As of September 30, 2009 and December 31, 2008, the Company recorded: (1) short-term unearned revenues of \$1.0 million and \$1.4 million, respectively, which amounts are included in the balance sheets under other current liabilities; and (2) long-term unearned revenues of \$0.2 million and \$0.7 million, respectively, which amounts are included in the balance sheets under other long-term liabilities.

15. DISCONTINUED OPERATIONS

Discontinued Operations

The Company applied the accounting guidance for the disposal of assets to: (1) the disposition on July 14, 2008 of radio broadcasting assets in the Rochester, New York, market; (2) the disposition on March 14, 2008 of radio broadcasting assets in the Cincinnati, Ohio, market and in the Seattle, Washington, market; and (3) the disposition on January 15, 2008 of a radio station in Austin, Texas. This requires that in a period in which a component of an entity has been disposed of or is classified as held for sale, the income statement of a business enterprise for current and prior periods shall report the results of operations of the component, including any gain or loss recognized, in discontinued operations.

The Company did not report as discontinued operations the disposition during the first quarter of 2008 of the radio stations in Cincinnati, Ohio, as there was no activity in this market by the Company since the Company's acquisition of these stations during the fourth quarter of 2007 (these stations were operated by a third party pursuant to a TBA for the period from February 26, 2007 through March 14, 2008).

The Company did not report as discontinued operations the disposition during the first quarter of 2008 of the radio station in the Austin market or the disposition of the three radio stations in the Seattle market as these operations did not meet the criteria for the reclassification of operating results to discontinued operations due to the expected migration of cash flows from the disposed stations to other Company-owned radio stations. Therefore, the results remain classified in income from continuing operations.

The Company did not allocate any interest expense for the periods presented, as no debt was required to be repaid under the Company's Bank Facility as a result of the disposition of these radio station assets.

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

Selected financial information related to discontinued operations in the Rochester market for the nine months and three months ended September 30, 2008 is as follows:

Table of Contents

	Nine Months Ended September 30, 2008 (amounts in thousands)	Three Months Ended
Net broadcast revenues	\$ 1,440	\$
Station operating (income) expenses	1,456	(21)
Time brokerage agreement income	(45)	(45)
Gain on disposition of assets	(725)	(725)
Impairment loss	6,675	
Total operating (income) expense	7,361	(791)
Income (loss) before income taxes (benefit)	(5,921)	791
Income taxes (benefit)	(2,424)	311
Income (loss) from discontinued operations, net of income taxes (benefit)	\$ (3,497)	\$ 480

During the first quarter of 2008, the Company reviewed its carrying amount for the Rochester assets held for sale at that time and determined that an aggregate impairment loss for broadcasting licenses and goodwill of \$6.7 million was necessary due to: (1) the continued decline in advertising revenues; (2) the filing of an application with the FCC to place these stations into a disposition trust; and (3) the potential for a forced sale by the disposition trustee.

16. FAIR VALUE MEASUREMENTS

Effective January 1, 2008, the Company began providing enhanced disclosures about assets and liabilities carried at fair value.

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Company utilizes market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The fair value hierarchy prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

Recurring Fair Value Measurements

The following tables set forth, by level within the fair value hierarchy, the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of September 30, 2009 and December 31, 2008. The financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Table of Contents

Description	Total	As Of September 30, 2009 Value Measurements At Reporting Date Using Quoted Prices In Active Markets For Identical Assets Or Liabilities (Level 1)			Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
		Assets (Liabilities) (amounts in thousands)				
Assets						
Available For Sale Securities	\$ 1,384	\$	\$	\$	\$ 1,384

Description	Total	As Of December 31, 2008 Value Measurements At Reporting Date Using Quoted Prices In Active Markets For Identical Assets Or Liabilities (Level 1)			Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
		Assets (Liabilities) (amounts in thousands)				
Assets						
Available For Sale Securities	\$ 1,399	\$	\$	\$	\$ 1,399	
Liabilities						
Interest Rate Cash Flow Hedges	\$ (15,262)	\$	\$	\$ (15,262)	\$	

For the Company's interest rate hedges, the Company pays a fixed rate and receives a variable interest rate that is observable based upon a forward interest rate curve and is therefore considered a level 2 item (based on London Interbank Offered Rate, or LIBOR).

For the Company's assets measured at fair value on a recurring basis using significant unobservable inputs (level 3), the following amounts in thousands are a reconciliation of the activity during each of the quarters within the nine months ended September 30, 2009 and 2008:

Table of Contents

		Available For Sale Securities

Non-Recurring Fair Value Measurements

The Company has certain assets that are measured at fair value on a non-recurring basis under the circumstances and events described in Note 3, Intangible Assets And Goodwill, and are adjusted to fair value only when the carrying values are more than the fair values. The categorization of the framework used to price the assets is considered a level 3, due to the subjective nature of the unobservable inputs used to determine the fair value (see Note 3, Intangible Assets And Goodwill, for the disclosure of certain key assumptions used to develop the unobservable inputs).

Included in the following table are the major categories of assets measured at fair value on a non-recurring basis as of September 30, 2009, along with the impairment loss recognized on the fair value measurement for the nine and three months ended September 30, 2009:

Description	Non-Recurring Assets Subject To Fair Value Measurement As Of September 30, 2009						
	Total	Fair Value Measurements Using Quoted Prices In Active Markets For			Significant	Significant

Table of Contents

Fair Value Of Financial Instruments Subject To Disclosure

The estimated fair value of financial instruments is determined using the best available market information and appropriate valuation methodologies. Considerable judgment is necessary, however, in interpreting market data to develop the estimates of fair value. Accordingly, the estimates presented are not necessarily indicative of the amounts that the Company could realize in a current market exchange, or the value that ultimately will be realized upon maturity or disposition. The use of different market assumptions may have a material effect on the estimated fair value amounts.

The following methods and assumptions were used to estimate the fair value of financial instruments:

(1) Cash and cash equivalents, accounts receivable and accounts payable, including accrued liabilities: The carrying amount of these assets and liabilities approximates fair value because of the short maturity of these instruments.

(2) Senior debt (see Note 5, Senior Debt): As of September 30, 2009 and December 31, 2008, the fair value of the Company's senior debt under the Company's Bank Facility was \$697.7 million and \$700.3 million, respectively, while the carrying value was \$758.0 million and \$750.0 million, respectively. The Company's determination of the fair value was based on a risk adjusted rate.

(3) 7.625% Senior Subordinated Notes (see Note 6): As of September 30, 2009 and December 31, 2008, the fair value of the Company's Notes was \$20.5 million and \$45.8 million, respectively, while the carrying value was \$23.9 million and \$83.5 million, respectively. The fair values were based on available market prices.

(4) Outstanding Letters of Credit: The Company had a letter of credit outstanding in the amount of \$1.5 million as of September 30, 2009 and 2008. The Company does not believe it is practicable to estimate the fair value of this financial instrument and does not expect any material loss from the resolution since performance is not likely to be required.

17. DEFERRED CHARGES AND OTHER ASSETS AND OTHER LONG-TERM LIABILITIES

Deferred charges and other assets, including definite-lived intangible assets, consist of the following:

	September 30, 2009		December 31, 2008
	(amounts in thousands)		
Debt issuance costs, net	\$ 4,139	\$	5,775
Software costs, net	1,556		2,454
Prepaid assets - long term	1,463		1,600
Deferred contracts and other agreements, net	768		857
Leasehold premium, net	728		795
Deposits - long term	353		
Advertiser lists and customer relationships, net	51		80
Other	153		147
	\$ 9,211	\$	11,708

As of September 30, 2009 and December 31, 2008, the deferred rent liabilities were \$3.5 million and \$3.4 million, respectively, and are included in other under long-term liabilities.

18. SUBSEQUENT EVENTS

The Company has performed an evaluation of subsequent events through November 9, 2009, which is the

Table of Contents

date the financial statements were issued.

ITEM 2. Management's Discussion And Analysis Of Financial Condition And Results Of Operations

In preparing the discussion and analysis contained in this Item 2, we presume that readers have read or have access to the discussion and analysis contained in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on February 26, 2009. In addition, you should read the following discussion and analysis of our financial condition and results of operations in conjunction with our consolidated financial statements and related notes included elsewhere in this report. The following results of operations include a discussion of the nine and three months ended September 30, 2009 as compared to the nine and three months ended September 30, 2008. Our results of operations during the relevant periods: (i) represent the operations of the radio stations: (1) owned and operated by us; (2) operated by us pursuant to time brokerage agreements ("TBAs"); and (ii) exclude those radio stations owned by us but operated by others pursuant to TBAs.

We discuss net revenues, station operating expenses and operating income by comparing the performance of stations owned or operated by us throughout a relevant period to the performance of those same stations in the prior period whether or not owned or operated by us. We use these comparisons to assess the performance of our operations by analyzing the effect of acquisitions and dispositions of stations on net revenues and station operating expenses throughout the periods measured.

Results of Operations

The following significant factors affected our results of operations for the nine months ended September 30, 2009 as compared to the nine months ended September 30, 2008:

Acquisitions

- On March 14, 2008, we acquired three radio stations in San Francisco, California, that in 2008 increased our depreciation and amortization expense as we acquired amortizable assets with lives of a short duration.

Dispositions

- On July 14, 2008, we sold three of our eight Rochester, New York, radio stations, which the buyer began operating on May 1, 2008 under a TBA with us, for net cash proceeds of \$12.2 million. The results for these stations were recognized as discontinued operations.
- On March 14, 2008, we sold three of our seven Seattle, Washington, radio stations and recognized a gain of \$10.0 million on the disposition of these assets.
- On January 15, 2008, we sold an Austin, Texas, radio station for \$20.0 million in cash.

Financing

- Our interest expense decreased due to: (1) a decrease in interest rates; (2) a decrease in our outstanding debt; and (3) the redemption of a portion of our 7.625% Senior Subordinated Notes (Notes) that had a higher interest rate than the rate under our senior debt.
- During the nine months ended September 30, 2009, we repurchased \$59.6 million of our Notes and recognized a net gain on extinguishment of debt of \$19.3 million (net of deferred financing expenses). During the nine months ended September 30, 2008, we repurchased \$58.0 million of our Notes and recognized a net gain on extinguishment of debt of \$4.0 million.

Other

- During the second quarters of 2009 and 2008, we recorded an impairment loss of \$67.7 and \$184.6 million, respectively, in connection with our review of certain intangible assets.
- Since the third quarter of 2008, we have increased the valuation allowance for our net deferred tax assets (after consideration for any net deferred tax liabilities associated with non-amortizable assets such as

Table of Contents

broadcasting licenses and goodwill) due to the cumulative losses incurred by us since 2006, which caused uncertainty as to the realization of the deferred tax assets in future years.

- During the second quarter of 2008, we recovered \$3.5 million from our insurance company for damages resulting from Hurricane Katrina.
- During the first quarter of 2008, we reviewed our carrying amount for the Rochester assets then held for sale and determined that an impairment loss of \$6.7 million was necessary as a result of the status of our then ongoing divestiture process.

Nine Months Ended September 30, 2009 As Compared To The Nine Months Ended September 30, 2008

Net Revenues

	Nine Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Net Revenues	\$ 276.4	\$ 334.7
Amount of Change	\$ (58.3)	
Percentage Change	(17.4)%	

Our decrease in net revenues was impacted by the current economic downturn that caused declines in advertising and radio revenues. Net revenues declined in most of the markets where we operate stations. Our net revenues were impacted the most by the decline in net revenues for those radio stations located in the Boston, Sacramento, San Francisco and Seattle markets. Management anticipates that the negative revenue trends in the radio industry will continue into the fourth quarter of 2009, but reverse in early 2010 as the economy and the advertising environment rebounds and we compare favorably to prior periods of economic downturn.

Station Operating Expenses

	Nine Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Station Operating Expenses	\$ 192.0	\$ 210.7
Amount of Change	\$ (18.7)	
Percentage Change	(8.9)%	

The decrease in station operating expenses was primarily due to: (1) a decrease in net revenues as described above as certain variable expenses decrease with a corresponding decrease in net revenues; and (2) certain cost reduction initiatives that commenced during the fourth quarter of 2008, including but not limited to reductions in workforce and the elimination of the 401(k) employer matching contribution. Management anticipates that the trend of declining station operating expenses will continue for the balance of the year as we realize the effects of previously implemented cost-cutting measures together with the decline in variable station operating expenses.

Table of Contents*Depreciation And Amortization Expense*

	Nine Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Depreciation And Amortization Expense	\$ 12.7	\$ 16.0
Amount of Change	\$ (3.3)	
Percentage Change	(20.6)%	

Depreciation and amortization expense decreased in 2009 as the expense in 2008 was higher due to acquisitions during the first quarter of 2008 and the fourth quarter of 2007, which included certain amortizable assets with lives of a short duration.

Corporate General And Administrative Expenses

	Nine Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Corporate General And Administrative Expenses	\$ 17.4	\$ 21.5
Amount of Change	\$ (4.1)	
Percentage Change	(19.0)%	

Corporate general and administrative expenses decreased primarily due to: (1) a decrease in non-cash compensation expense of \$1.7 million as a result of a decrease in the fair value of equity awards issued; and (2) a decrease in legal expense of \$1.0 million associated with certain legal proceedings during 2008 which did not reoccur in 2009. The decrease was offset by a \$1.1 million net increase in deferred compensation expense as our deferred compensation liability generally tracks the movements in the stock market.

Operating Loss

	Nine Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Operating Loss	\$ (13.4)	\$ (88.0)
Amount of Change	\$ 74.6	
Percentage Change	84.8%	

The decrease in operating loss was primarily due to a reduction in impairment loss of \$116.9 million in connection with our review of broadcasting licenses and goodwill in the second quarter of 2009 as compared to our review of goodwill during the second quarter of 2008. The decrease in operating loss was offset by: (1) a decrease in net revenues for the reasons described above under Net Revenues, net of a decrease in station operating expenses for the reasons described under Station Operating Expenses; and (2) a decrease in net gain on sale or disposal of

assets of \$10.0 million as a result of the sale in 2008 of our Seattle stations.

Table of Contents**Interest Expense**

	Nine Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Interest Expense	\$ 23.8	\$ 34.8
Amount of Change	\$ (11.0)	
Percentage Change	(31.6)%	

The decrease in interest expense was primarily due to: (1) a decrease in interest rates on outstanding debt during the nine months ended September 30, 2009 as compared to the nine months ended September 30, 2008; (2) a decline in outstanding debt upon which interest is computed; and (3) the repurchase of our Notes, which have a higher interest rate than the replacement debt.

Loss From Continuing Operations Before Income Taxes (Benefit)

	Nine Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Loss From Continuing Operations Before Income Taxes (Benefit)	\$ (17.6)	\$ (115.7)
Amount of Change	\$ 98.1	
Percentage Change	84.8%	

The decrease was primarily attributable to: (1) a decrease in operating loss for the reasons as described above under Operating Loss; (2) a \$15.2 million increase in gain on the retirement of our Notes as we repurchased debt at a larger discount; and (3) a decrease in our interest expense of \$11.0 million for the reasons described above under Interest Expense.

Income Taxes (Benefit)

	Nine Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Income Taxes (Benefit)	\$ 0.7	\$ (32.3)
Amount of Change	\$ 33.0	
Percentage Change	102.1%	

Our income tax expense was higher in 2009 as a result of recording a valuation allowance for the full amount of our net deferred tax assets, net of deferred tax liabilities (after consideration for any net deferred tax liabilities associated with non-amortizable assets such as broadcasting licenses and goodwill). The recording of a valuation allowance commenced during the third quarter of 2008, which was required due to the

cumulative losses incurred by us over the past three years.

Table of Contents*Loss From Discontinued Operations, Net Of Tax Benefit*

	Nine Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Loss From Discontinued Operations, Net Of Tax Benefit	\$	\$ (3.5)
Amount of Change	\$	3.5
Percentage Change		100.0%

The net change was primarily due to a non-cash impairment loss of \$6.7 million (before income tax benefit) in the first quarter of 2008 for the Rochester assets that were held for sale and that were subsequently disposed of during the third quarter of 2008.

Net Loss

	Nine Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Net Loss	\$	\$ (86.9)
Amount of Change	\$	68.6
Percentage Change		79.0%

The net change was primarily attributable to the reasons described above under Loss From Continuing Operations Before Income Taxes (Benefit) and Income Taxes (Benefit).

Three Months Ended September 30, 2009 As Compared To The Three Months Ended September 30, 2008

Net Revenues

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Net Revenues	\$ 99.8	\$ 115.6
Amount of Change	\$ (15.8)	
Percentage Change	(13.7)%	

The decrease in net revenues was impacted by the current economic downturn that contributed to weak demand for advertising in general, including advertising on our radio stations. Our net revenues were impacted the most by the decline in net revenues for those radio stations located in the Boston, Portland, Sacramento and Seattle markets.

Table of Contents*Station Operating Expenses*

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Station Operating Expenses	\$ 66.3	\$ 72.1
Amount of Change	\$ (5.8)	
Percentage Change	(8.0)%	

The decrease in station operating expenses was primarily due to: (1) the factors leading to the decrease in Net Revenues as described above as certain variable expenses decrease with a corresponding decrease in net revenues; and (2) certain cost reduction initiatives that commenced during the fourth quarter of 2008, such as reductions in workforce and the elimination of the 401(k) employer matching contribution.

Depreciation And Amortization Expense

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Depreciation And Amortization Expense	\$ 4.1	\$ 4.5
Amount of Change	\$ (0.4)	
Percentage Change	(8.9)%	

Depreciation and amortization expense decreased as 2008 was impacted by acquisitions during the first quarter of 2008 and the fourth quarter of 2007, which included certain amortizable assets with lives of a short duration.

Corporate General And Administrative Expenses

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Corporate General And Administrative Expenses	\$ 5.8	\$ 6.2
Amount of Change	\$ (0.4)	
Percentage Change	(6.5)%	

Corporate general and administrative expenses decreased primarily due to certain cost cutting measures that commenced during the fourth quarter of 2008. The decrease was offset by a \$0.8 million net increase in deferred compensation expense as our deferred compensation liability generally tracks the movements in the stock market.

Operating Income

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Operating Income	\$ 23.4	\$ 32.8
Amount of Change	\$ (9.4)	
Percentage Change	(28.6)%	

Table of Contents

The decrease in operating income was due to a decrease in net revenues for the reasons described above under Net Revenues, net of a decrease in station operating expenses for the reasons described under Station Operating Expenses.

Interest Expense

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Interest Expense	\$ 7.9	\$ 10.4
Amount of Change	\$ (2.5)	
Percentage Change	(24.0)%	

The decrease in interest expense was primarily due to: (1) a decrease in interest rates on outstanding debt during the three months ended September 30, 2009 as compared to the three months ended September 30, 2008; (2) a decline in outstanding debt upon which interest is computed; and (3) the repurchase of our Notes, which have a higher interest rate than the replacement debt.

Income From Continuing Operations Before Income Taxes

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Income From Continuing Operations Before Income Taxes	\$ 18.7	\$ 23.8
Amount of Change	\$ (5.1)	
Percentage Change	(21.4)%	

The decrease was primarily attributable to a decrease in operating income for the reasons as described above under Operating Income and an increase in gains on the retirement of our Notes as we repurchased debt at a higher discount.

Income Taxes

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Income Taxes	\$ 0.4	\$ 20.0
Amount of Change	\$ (19.6)	
Percentage Change	(97.9)%	

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

Due to the cumulative losses incurred by us over the past three years, effective with the third quarter of 2008, we recorded a valuation allowance for the full amount of our net deferred tax assets, net of deferred tax liabilities (after consideration for any net deferred tax liabilities associated with non-amortizable assets such as broadcasting licenses and goodwill). Even though we continue to record in each quarter a full valuation allowance for the full amount of our net deferred tax assets, the initial recording substantially increased our income tax expense during the third quarter of 2008.

Table of Contents*Income From Discontinued Operations, Net Of Taxes*

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Income From Discontinued Operations, Net Of Taxes	\$	\$ 0.5
Amount of Change	\$	(0.5)
Percentage Change		(104.2)%

During the third quarter of 2008, we completed the transaction to sell the assets of three radio stations in Rochester, New York.

Net Income

	Three Months Ended	
	September 30, 2009	September 30, 2008
	(dollars in millions)	
Net Income	\$	\$ 4.3
Amount of Change	\$	14.0
Percentage Change		329.4%

The net change was primarily attributable to the reasons described above under Income Taxes and the reasons described above under Income From Continuing Operations Before Income Taxes.

Future Impairments

We may determine that it will be necessary to take impairment charges in future periods for various reasons, including if the economic downturn worsens and/or continues for an extended period of time. Although the annual impairment test of our broadcasting licenses and goodwill was performed in the second quarter of 2009, we may be required to retest prior to our next annual evaluation. Any such impairment could be material.

Liquidity And Capital Resources*Liquidity*

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

Historically, we have carried significant amounts of debt. As of September 30, 2009, we had outstanding \$788.1 million in debt, including: (1) \$758.0 million under our Bank Facility, which is comprised of \$385.0 million in Term Loan and \$373.0 million in drawn Revolver; (2) \$23.9 million in Notes; (3) finance method lease obligations of \$4.5 million; and (4) \$1.5 million in a letter of credit.

As of September 30, 2009, we had \$20.1 million in cash and cash equivalents. During the nine months ended September 30, 2009, we decreased our outstanding debt by \$47.1 million (which included a discount of \$19.9 million on the retirement of our Notes).

We believe that cash on hand and cash from operating activities, together with available borrowings under the Bank Facility, will be sufficient to permit us to meet our liquidity requirements. While our operating cash flow has been reduced from prior periods during the recent economic downturn, it has remained positive and adequate to fund our operating needs. As a result, we have not been required to rely upon, and we do not anticipate having to rely upon, our Revolver to fund our operations. Notwithstanding the foregoing, we may from time to time seek to amend our existing Bank Facility or obtain other funding or additional financing.

The undrawn amount of the Revolver was \$275.5 million as of September 30, 2009. The amount of the Revolver available to us, however, is a function of covenant compliance at the time of borrowing. Based on our financial covenant analysis as of September 30, 2009, we would be limited to borrowings significantly less than the undrawn limit unless such borrowings were used to repay indebtedness or for transactions that increase cash flow for purposes of covenant calculation. We plan to fund the amortization of the Term Loan with our available Revolver capacity and cash flow from operations.

Table of Contents

Our lenders require that we remain in compliance with certain covenants in our credit agreements. We believe that over the next 12 months we can maintain our compliance with these covenants. Our ability to maintain compliance with our covenants will be highly dependent on our results of operations as the economy begins to recover from the current economic downturn and our ability to implement, to the extent necessary, remedial measures such as further reductions in operating costs, opportunistically repurchasing debt at a discount, selling assets and taking advantage of actions permitted under our credit agreement such as including cash from unrestricted subsidiaries in Consolidated Operating Cash Flow. If we were to enter into an agreement with our lenders for covenant compliance relief, such relief could result in higher interest expense. Failure to comply with our financial covenants or other terms of our credit agreements and the failure to negotiate and obtain any required relief from our lenders could result in the acceleration of the maturity of all outstanding debt. Under these circumstances, the acceleration of our debt could have a material adverse effect on our business.

The current economic downturn has reduced demand for advertising in general, including advertising on our radio stations. Management anticipates that the negative revenue trends in the radio industry will continue into the fourth quarter of 2009, but reverse in early 2010 as the economy and the advertising environment rebounds and we compare favorably to prior periods of economic downturn.

Our Credit Agreement

Our credit agreement (the Bank Facility), currently with a syndicate of 26 lenders, provides for \$1,050 million in senior secured credit that matures on June 30, 2012, which is comprised of \$650 million in revolving credit (Revolver) and \$400 million in a term loan (Term Loan). The Term Loan reduces (from and after September 30, 2009) in quarterly amounts starting at \$15 million and increasing to \$60 million. The Revolver provides us with working capital and capital for general corporate purposes, including capital expenditures and any or all of the following: Term Loan principal payments, repurchases of our Notes, repurchases of Class A common stock, investments, dividends and acquisitions. The Bank Facility is secured by a pledge of 100% of the capital stock and other equity interest in all but one of our wholly owned subsidiaries. The Bank Facility requires us to comply with certain financial covenants which are defined terms within the agreement, including: (1) Consolidated Funded Indebtedness not to exceed six times Consolidated Operating Cash Flow; and (2) Consolidated Operating Cash Flow to be at a minimum of two times Consolidated Interest Charges. Management believes we are in compliance with the financial covenants and all other terms of the Bank Facility.

NYSE Continued Listing

Our common stock is currently listed on the New York Stock Exchange (NYSE). The continued listing requirements of the NYSE include, among other things, a minimum closing price of our common stock and a minimum market capitalization. While we are presently in compliance with the NYSE continued listing requirements, if we can not meet the continued listing requirements that may be in effect at a future time, it is possible our common stock may be subject to suspension and delisting procedures.

Operating Activities

Net cash flows provided by operating activities were \$46.0 million and \$87.9 million for the nine months ended September 30, 2009 and 2008, respectively. The decrease in 2009 was mainly attributable to: (1) a decrease in net revenues, net of station operating expenses, of \$39.6 million; and (2) a decrease in prepaid and refundable taxes of \$14.4 million as we received most of our state and federal tax refunds during the prior year.

Investing Activities

Net cash flows used in investing activities were \$1.3 million for the nine months ended September 30, 2009 and net cash flows provided by investing activities were \$33.2 million for the nine months ended September 30, 2008.

For the nine months ended September 30, 2009, the cash used in investing activities primarily reflects \$1.7 million for additions to property and equipment. For the nine months ended September 30, 2008, the cash provided by investing activities primarily reflects \$20.0 million in cash proceeds from the sale of a station in Austin, Texas and \$12.2 million in cash proceeds from the sale of three stations in Rochester, New York, offset by cash used in investing activities for the additions to property and equipment of \$6.0 million.

Table of Contents

Financing Activities

Net cash flows used in financing activities were \$28.8 million and \$130.1 million for the nine months ended September 30, 2009 and 2008, respectively.

For the nine months ended September 30, 2009, the cash flows used in financing activities primarily reflect the repurchase of our Notes at \$39.7 million (after a discount of \$19.9 million). This was offset by additional net borrowings of \$8.0 million under our Revolver and \$4.5 million under finance method lease obligations. For the nine months ended September 30, 2008, the cash flows used in financing activities primarily reflect the net repayment of debt of \$93.7 million (including the repurchase of our Notes), the payment of dividends of \$21.6 million and the repurchase of our common stock of \$13.3 million.

Dividends

Any future dividends will be at the discretion of the Board of Directors based upon the relevant factors at the time of such consideration. Previously, we used a portion of our capital resources to pay dividends on a quarterly basis, effective with the first quarter of 2006 through the third quarter of 2008.

Share Repurchase Programs

Our most recent share repurchase program, which had \$25.4 million remaining in authorization for repurchases, expired on June 30, 2009.

Debt Repurchases

We may from time to time seek to repurchase and retire our outstanding debt through cash purchases, open market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material. During the nine months ended September 30, 2009, we repurchased and retired \$59.6 million of our Notes.

2009 Option Exchange Program

In February 2009, our Board of Directors approved an amendment to the Entercom Equity Compensation Plan to permit a one-time Option Exchange Program (2009 OEP), which amendment was approved at the May 2009 shareholders meeting. On April 13, 2009, we commenced the

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

2009 OEP (subject to shareholder approval) by making an offer to exchange to our eligible employees and non-employee directors. We offered such persons the opportunity to make an election to exchange all of their outstanding stock options with exercise prices equal to or greater than \$11.80 per share for a lesser number of restricted stock units. The exchange ratio under the 2009 OEP was as follows:

Option Strike Price	Exchange Ratio (Options For RSUs)
At least \$11.80, but less than \$30.00	2.25 for 1
\$30.00 or more	4.5 for 1

On May 15, 2009, following the May 14, 2009 expiration of our 2009 OEP, we granted 0.7 million restricted stock units in exchange for 2.1 million options. As a result of the 2009 OEP, the number of restricted stock units that can be issued under the Plan was effectively increased by 0.7 million as all restricted stock units granted did not count against the restricted stock sublimit. In addition, the number of awards that can be issued under the Plan was effectively reduced by 2.1 million as all options that were exchanged will not be available for re-grant under the Plan.

Income Taxes

During the nine months ended September 30, 2009, we paid \$0.2 million in state income taxes. We anticipate that it will not be necessary to make any quarterly estimated federal and state income tax payments for the remainder of 2009 based upon existing prepayments and expected quarterly income subject to tax.

Table of Contents**Capital Expenditures**

Capital expenditures for the nine months ended September 30, 2009 were \$1.7 million. We anticipate that capital expenditures in 2009 will be between \$2.5 million and \$3.0 million.

Contractual Obligations

The following table reflects a summary as of September 30, 2009 of our calendar contractual obligations for the remainder of the year 2009 and thereafter:

Contractual Obligations:	Total	Payments Due By Period				
		Less Than 1 Year	1 To 3 Years	3 To 5 Years	More Than 5 Years	
			(amounts in thousands)			
Long-term debt obligations (1)	\$ 838,541	\$ 21,733	\$ 291,285	\$ 501,279	\$ 24,244	
Operating lease obligations	68,218	2,985	22,559	17,689	24,985	
Finance method lease obligations (2)	5,342	55	452	4,835		
Purchase obligations (3)	244,222	20,571	105,919	63,036	54,696	
Other long-term liabilities (4)	30,429	59	11,550	5,911	12,909	
Total	\$ 1,186,752	\$ 45,403	\$ 431,765	\$ 592,750	\$ 116,834	

(1) (a) Our Bank Facility had outstanding debt in the amount of \$758.0 million as of September 30, 2009. The maturity under our Bank Facility could be accelerated if we do not maintain compliance with certain covenants.

(b) Under our Notes, the maturity could be accelerated if we do not maintain compliance with certain covenants or could be repaid in cash by us at our option prior to the due date of the notes.

(c) The above table includes projected interest expense under the remaining term of our Bank Facility and our Notes.

(2) Finance lease obligations outstanding were \$5.3 million as of September 30, 2009, which include principal and interest expense. When our continuing involvement in this transaction ceases after a period of 42 months, we will discontinue finance accounting and instead treat our obligations under the accounting guidance for capital and operating leases.

Also, we will recognize additional obligations not included in the above table of \$18.2 million that cover: (i) lease payments of \$16.4 million for the period subsequent to the 42 month period of continuing involvement; and (ii) finance lease payments of \$1.8 million for transactions not yet

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

completed. The minimum term for each of the leases is 20 years, which covers the period of continuing involvement and the period subsequent to continuing involvement. For further discussion, see Note 7, Financing Method Lease Obligations in the accompanying notes to the financial statements.

(3) (a) We have \$1.5 million in liabilities primarily related to our obligation to provide a letter of credit.

(b) In addition to the above, purchase obligations of \$242.7 million include contracts primarily for on-air personalities, sports programming rights, ratings services, music licensing fees, equipment maintenance and certain other operating contracts.

(4) Included within total other long-term liabilities of \$30.4 million are liabilities for unrecognized tax positions of \$4.8 million, which have been reflected in the above table in the column labeled as *More Than 5 Years* as it is impractical to determine whether there will be a cash impact to an individual year. See Note 13, Income Taxes, in the accompanying notes to the consolidated financial statements for a discussion of deferred tax liabilities, including liabilities for unrecognized tax positions.

Table of Contents

Off-Balance Sheet Arrangements

Variable interest entity accounting was not applicable as of September 30, 2009 as we had no pending transactions to acquire or dispose of radio station assets. As of September 30, 2009, we had no other off-balance sheet arrangements.

Recent Accounting Pronouncements

See Note 1 to the accompanying financial statements, Basis Of Presentation - New Accounting Pronouncements, for a discussion of the status and potential impact of new accounting pronouncements.

Critical Accounting Policies

The SEC defines critical accounting policies as those that are most important to the portrayal of a company's financial condition and results and that require management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

There have been no material changes to our critical accounting policies from the information provided in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, under the heading "Critical Accounting Policies" in our Annual Report on Form 10-K for the year ended December 31, 2008. We have, however, provided additional disclosures to one of our critical accounting policies for impairment testing of radio broadcasting licenses and goodwill.

Radio Broadcasting Licenses And Goodwill

We have made acquisitions in the past for which a significant amount of the purchase price was allocated to broadcasting licenses and goodwill assets. As of September 30, 2009, we have recorded approximately \$746.0 million in radio broadcasting licenses and goodwill, which represents 78.7% of our total assets at that date. We must conduct impairment testing at least annually, or more frequently if events or changes in circumstances indicate that the asset might be impaired and charge to operations an impairment expense only in the periods in which the recorded value of these assets is more than their fair value. After an impairment expense is recognized, the recorded value of these assets will be reduced by the impairment recognized and this shall be the assets' new accounting basis. In 2009 and 2008, we recorded an impairment loss of \$67.7 million and \$835.7 million, respectively, for radio broadcasting licenses and goodwill.

We believe our estimate of the value of our radio broadcasting licenses and goodwill assets is a critical accounting estimate as the value is significant in relation to our total assets, and our estimate of the value uses assumptions that incorporate variables based on past experiences and judgments about future performance of our stations. These variables include but are not limited to: (1) the forecast growth rate of each radio

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

market, including assumptions regarding each market's population, household income, retail sales and other expenditures that would influence advertising expenditures; (2) market share and profit margin of an average station within a market; (3) estimated capital start-up costs and losses incurred during the early years; (4) risk-adjusted discount rate; (5) the likely media competition within the market area; and (6) terminal values. Changes in our estimates of the fair value of these assets could result in material future period write-downs in the carrying value of our broadcasting licenses and goodwill assets.

If we were to assume a 100 basis point change in certain of our key assumptions (a reduction in the long-term revenue growth rate, a reduction in the operating performance cash flow and an increase in the weighted average cost of capital) used to determine the fair value of our broadcasting licenses and goodwill during the second quarter of 2009, the following would be the incremental impact:

Table of Contents**Sensitivity Analysis**

	Results Of Long-Term Revenue Growth Rate Decrease	Results Of Operating Performance Cash Flow Decrease (amounts in millions)	Results Of Weighted Average Cost Of Capital Increase
<u>Broadcasting Licenses</u>			
Impairment assumption sensitivity result	\$ 127.6	\$ 84.0	\$ 159.7
Impairment recorded during the second quarter of 2009	60.8	60.8	60.8
Incremental broadcasting licenses impairment	66.8	23.2	98.9
<u>Goodwill</u>			
Impairment assumption sensitivity result	2.6	6.6	5.0
Impairment recorded during the second quarter of 2009	6.9	6.9	6.9
Incremental goodwill impairment (decrease)	(4.3)	(0.3)	(1.9)
Total incremental impairment from sensitivity analysis	\$ 62.5	\$ 22.9	\$ 97.0

The prolonged economic downturn negatively impacted the radio broadcasting industry as advertising revenues continue to decline and expectations for growth over the next year also declined. The projected revenue growth levels for the industry and for us are now less than those originally forecasted for 2009, which caused further impairment to broadcasting licenses and goodwill in the second quarter of 2009. As revenues decline, profitability levels are also negatively impacted as fixed costs represent a high component of a radio station's operating expenses. As a result, the asset base is particularly sensitive to the impact of declining revenues. Please refer to Note 3, Intangible Assets And Goodwill, in the accompanying notes to the financial statements for a discussion of several key assumptions used in the fair value estimate of our broadcasting licenses and goodwill during the second quarter of 2009 as compared to the fourth quarter 2008 interim impairment test.

For a more comprehensive list of our accounting policies, please see Note 2, Significant Accounting Policies, accompanying the consolidated financial statements included in our latest annual report on Form 10-K for the year ended December 31, 2008. Note 2 to the consolidated financial statements included with Form 10-K contains several other policies, including policies governing the timing of revenue recognition, that are important to the preparation of our consolidated financial statements, but do not meet the SEC's definition of critical accounting policies because they do not involve subjective or complex judgments. In addition, for further discussion of new accounting policies that were effective for us on January 1, 2009, please refer to the new accounting pronouncements under Note 1 to the accompanying notes to the financial statements.

ITEM 3. Quantitative And Qualitative Disclosures About Market Risk

We are exposed to market risk from changes in interest rates on our variable rate senior debt. From time to time, we may seek to limit our exposure to interest rate volatility through the use of derivative rate hedging instruments. If the borrowing rates under LIBOR were to increase 1% above the current rates as of September 30, 2009, our interest expense on our senior debt would increase by approximately \$2.0 million on an annual basis, including any interest benefit or interest expense associated with the use of derivative rate hedging instruments as described below. We do not have interest rate risk related to our Notes, which have a fixed interest rate of 7.625%.

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

The following derivative rate hedging transactions, which fix interest on our variable rate debt, are outstanding as of September 30, 2009 in the aggregate notional amount of \$550.0 million. These rate hedging transactions are tied to the one-month LIBOR interest rate.

Table of Contents

Type Of Hedge	Notional Amount (amounts in millions)	Effective Date	Collar	Fixed LIBOR Rate	Expiration Date	Effective Date That Notional Amount Decreases	Notional Amount After Decrease (amounts in millions)
Swap	\$ 225.0	Jan. 28, 2008	n/a	3.03%	Jan. 28, 2011	Jan. 28, 2010	\$ 150.0
Collar	\$ 100.0	Feb. 28, 2008	[Cap Floor	4.00% 2.14%	Feb. 28, 2011	n/a	n/a
Swap	\$ 125.0	March 28, 2008	n/a	2.91%	Sept. 28, 2011	n/a	n/a
Swap	\$ 100.0	May 28, 2008	n/a	3.62%	May 28, 2012	n/a	n/a

The fair value (based upon current market rates) of the rate hedging transactions is included as derivative instruments in long-term assets and/or liabilities as the maturity dates on these instruments are greater than one year. The fair value of the hedging transactions is affected by a combination of several factors, including the change in the one-month LIBOR rate and the forward interest rate to maturity. Any increase in the one-month LIBOR rate and/or the forward interest rate to maturity results in a more favorable valuation, while any decrease in the one-month LIBOR rate and/or forward interest rate to maturity results in a less favorable valuation. Our credit exposure under these hedging agreements, or similar agreements we may enter into in the future, is the cost of replacing an agreement in the event of non-performance by our counter-party. As of September 30, 2009, the fair value of our derivative instruments was a liability of \$15.2 million, which represented no change from the balance as of December 31, 2008. In most cases, the liability would decrease over time as the remaining term for each derivative instrument decreases. There was no decrease in the liability since December 31, 2008, however, as there was a corresponding increase in the liability due to a decline in the forward-looking interest rates over the remaining terms of the hedged transactions. The liability as of September 30, 2009 included a reduction in value for non-performance in accordance with the accounting provisions for fair value measurement.

Our cash equivalents are money market instruments consisting of short-term government securities and repurchase agreements that are fully collateralized by government securities. We do not believe that we have any material credit exposure with respect to these assets.

Our credit exposure related to our accounts receivable does not represent a significant concentration of credit risk due to the quantity of advertisers, the minimal reliance on any one advertiser, the multiple markets in which we operate and the wide variety of advertising business sectors.

See also additional disclosures regarding liquidity and capital resources made under Liquidity and Capital Resources in Part 1, Item 2 above.

ITEM 4. Controls And Procedures**Evaluation Of Controls And Procedures**

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) that are designed to ensure that: (i) information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms; and (ii) such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, our management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and our management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Table of Contents

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our President/Chief Executive Officer and Executive Vice President - Operations/Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

Changes In Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

ITEM 1. Legal Proceedings

Except as described below, there have been no material developments relating to the legal proceedings described in our Annual Report on Form 10-K for the year ended December 31, 2008, filed with the Securities and Exchange Commission on February 26, 2009:

During January 2007, a suit seeking various damages was filed against us relating to an on-air contest. The claims, which were settled in October 2009, were fully covered by our insurance policies.

ITEM 1A. Risk Factors

There have been no material changes from the Risk Factors described in our Form 10-K, filed with the SEC on February 26, 2009.

ITEM 2. Unregistered Sales Of Equity Securities And Use Of Proceeds

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

A \$100 million share repurchase program adopted by our Board of Directors on May 8, 2006 and extended on May 3, 2007 and on April 23, 2008, expired on June 30, 2009.

During the three-month period ending September 30, 2009, we withheld shares of stock upon the vesting of restricted stock units to cover withholding tax obligations, unless an employee elected to pay such tax in cash. The following table provides information on shares withheld (which are considered repurchased) during the three-month period ended September 30, 2009:

Period	(a) Total Number Of Shares Purchased	(b) Average Price Paid Per Share	(c) Total Number Of Shares Purchased As Part Of Publicly Announced Plans Or Programs	(d) Maximum Approximate Dollar Value Of Shares That May Yet Be Purchased Under The Plans Or Programs
July 1, 2009 - July 31, 2009	344	\$ 1.72		\$
August 1, 2009 - August 31, 2009		\$		\$
September 1, 2009 - September 30, 2009	1,044	\$ 4.87		\$
Total	1,388			

In connection with employee tax obligations related to the vesting of restricted stock units during the three months ended September 30, 2009 and in accordance with elections by certain employees, we are deemed to have purchased the shares withheld to satisfy employees' tax obligations of 344 shares at an average price of \$1.72 per

Table of Contents

Edgar Filing: ENTERCOM COMMUNICATIONS CORP - Form 10-Q

share in July 2009 and 1,044 shares at an average price of \$4.87 per share in September 2009. These shares are included in the above table.
