Real Estate Investment Activity

In October 2011, the Company formed a joint venture with Stonehenge Partners and entered into a contract to acquire eight retail and multifamily properties in Manhattan for \$416 million. The transaction is expected to be completed in the first quarter of 2012.

In November 2011, the Company acquired all of the interests in 51 East 42nd Street, a 142,000 square-foot office building for approximately \$80.0 million, or \$563 per square foot, inclusive of the issuance of \$2.0 million in preferred operating partnership units. With this transaction, the Company now owns all of the buildings on the block bounded by Madison and Vanderbilt Avenues between East 42nd and East 43rd streets.

In November 2011, the Company, along with The Moinian Group, formed a joint venture to recapitalize 180 Maiden Lane, a fully-leased, 1.1 million-square-foot Class A office tower, for a gross value of \$425.7 million. The consideration for the Company's 49.9 percent stake in the joint venture included \$41.0 million in cash and operating partnership units valued at \$31.7 million. Simultaneous with the closing of the recapitalization, the joint venture refinanced the existing \$344.2 million indebtedness with a five-year \$280-million mortgage which bears interest at a spread of 211 basis points over the 90-day LIBOR.

In October 2011, the Company entered into an agreement to sell the leased fee interest at 292 Madison Avenue for \$85 million. The transaction, which includes assumption by the purchaser of \$59.1 million of existing debt, is subject to certain closing conditions, including the lender's approval of the transfer of ownership. There can be no assurance as to when the conditions precedent contemplated in the sale agreement will be fulfilled, or that the transaction will be consummated.

In October 2011, the Company, along with our joint venture partner, Jeff Sutton, entered into an agreement to sell two retail condominium units at 141 Fifth Avenue for \$46.0 million. The transaction, which includes the assumption by the purchaser of \$25.0 million of existing debt, is subject to certain closing conditions, including the lender's approval of the transfer of ownership. There can be no assurance as to when the conditions precedent contemplated in the sale agreement will be fulfilled, or that the transaction will be consummated.

In November 2011, the Company, along with our joint venture partner, entered into an agreement to sell One Court Square for approximately \$472.5 million. The transaction, which includes the assumption by the purchaser of \$315.0 million of existing debt, is subject to certain conditions, including the lender's approval of the transfer of ownership. There is no assurance that the conditions precedent contemplated in the sale agreement will be fulfilled or that the transaction will be consummated at such time or at all.

In December 2011, the Company entered into an agreement to acquire the 390,000 square-foot office building located at 10 East 53rd Street through a joint venture with an institutional partner for \$252.5 million, or \$647 per square foot. This transaction, which is subject to customary closing conditions, is expected to close during the first quarter of 2012.

In December 2011, WPP's Young & Rubicam Group, signed an agreement with the Company and the Moinian Group to relocate Y&R, Wunderman and their network companies to 3 Columbus Circle. During the fourth quarter, the Company purchased and originated new debt and preferred equity investments totaling \$106.9 million, all of which are directly or indirectly collateralized by New York City commercial office properties, and received \$9.1 million of proceeds from investments that were sold or repaid. The debt and preferred equity investment portfolio had a weighted average maturity of 3.0 years as

of December 31, 2011 and had a weighted average yield for the quarter ended December 31, 2011 of 9.1 percent, exclusive of loans with a net carrying value of \$84.0 million, which are on non-accrual status.

Financing and Capital Activity

In November 2011, the Company closed on a \$1.5 billion revolving credit facility, which refinanced the Company's previous \$1.5 billion revolving credit facility that was set to mature in June 2012. The new investment grade facility currently bears interest at 150 basis points over LIBOR, which is based on the unsecured bond rating of Reckson Operating Partnership, L.P. - \$0.25 per share of common stock, which was paid on January 13, 2012 to stockholders of record on the close of business on January 2, 2012; and
- \$0.4766 and \$0.4922 per share on the Company's Series C and D Preferred Stock, respectively, for the period October 15, 2011 through and including January 14, 2012, which were paid on January 13, 2012 to stockholders of record on the close of business on January 2, 2012, and reflect regular quarterly dividends which are the equivalent of annualized dividends of \$1.9064 and \$1.9688, respectively.

Funds from Operations (FFO)

FFO is a widely recognized measure of REIT performance. We compute FFO in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than we do. The revised White Paper on FFO approved by the Board of Governors of NAREIT in April 2002, and subsequently amended, defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from debt restructuring, sales of properties and real estate related impairment charges, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. We present FFO because we consider it an important supplemental measure of our operating performance and believe that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, particularly those that own and operate commercial office properties. We also use FFO as one of several criteria to determine performance-based bonuses for members of our senior management. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets

diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, interest costs, providing perspective not immediately apparent from net income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of our financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions.

Same-Store Net Operating Income

The Company presents same-store net operating income on a cash and GAAP basis because the Company believes that it provides investors with useful information regarding the operating performance of properties that are comparable for the periods presented. For properties owned since January 1, 2010 and still owned at the end of the current quarter, the Company determines GAAP net operating income by subtracting property operating expenses and ground rent from recurring rental and tenant reimbursement revenues. Cash net operating income (Cash NOI) is derived by deducting straight line and free rent from, and adding tenant credit loss allowance to, GAAP net operating income. Same-store net operating income

is not an alternative to net income (determined in accordance with GAAP) and same-store performance should not be considered an alternative to GAAP net income performance.
