- Also entered into agreements for acquisitions from another three sellers totaling \$7.4 billion in UPB that are expected to close in the third quarter⁽⁴⁾

We reported solid financial results for the second quarter in a mortgage origination market that is transitioning and remains competitive, with lenders managing capacity and production margins for the higher rate environment, said President and CEO David Spector. Our results reflect the strength of our balanced mortgage banking model with production volume and profits up from the prior quarter and the Servicing segment's continued strong earnings contribution, which benefited from an increase in mortgage rates during the quarter. In the third quarter, we have deployed capital into bulk MSR acquisitions totaling \$6.5 billion in UPB and entered into agreements to acquire three additional portfolios totaling \$7.4 billion in UPB. We also continue to invest in growth initiatives, such as broker direct lending, non-delegated correspondent, non-portfolio consumer direct origination and jumbo mortgages, which have the potential to meaningfully contribute to our profitability as they gain traction.

(4) These transactions are subject to continuing due diligence and customary closing conditions. There can be no assurance regarding the size of the transactions or that the transactions will be completed at all.

Production Segment

Production includes the correspondent acquisition of newly originated government-insured mortgage loans for PennyMac Financial's own account, the underwriting and acquisition of loans from correspondent sellers on a non-delegated basis, fulfillment services on behalf of PennyMac Mortgage Investment Trust (NYSE: PMT) and direct lending through the consumer direct and broker direct channels.

PennyMac Financial's loan production activity for the quarter totaled \$15.9 billion in UPB, of which \$10.5 billion in UPB was for its own account, and \$5.4 billion in UPB was fee-based fulfillment activity for PMT. Correspondent government and direct lending IRLCs totaled \$11.9 billion in UPB.

Production segment pretax income was \$19.0 million, an increase of 11 percent from the prior quarter and a decrease of 71 percent from the second quarter of 2017. Production revenue totaled \$89.3 million, an increase of 5 percent from the prior quarter and a decrease of 32 percent from the second quarter of 2017. The quarter-over-quarter change resulted from a \$3.7 million increase in net interest income and a \$2.6 million increase in fulfillment fees from PMT, partially offset by a \$2.2 million decrease in net gains on mortgage loans held for sale. Net interest income in the second quarter includes \$12.5 million in incentives which the Company is currently entitled to receive under one of its master repurchase agreements to finance mortgage loans that satisfy certain consumer relief characteristics, up from \$10.2 million in the prior quarter.

The components of net gains on mortgage loans held for sale are detailed in the following table:

	June 30, 2018	Quarter ended March 31, 2018 (in thousands)	June 30, 2017

(1) Net of cash hedge expense

PennyMac Financial performs fulfillment services for conventional conforming loans acquired by PMT in its correspondent production business. These services include, but are not limited to: marketing; relationship management; the approval of correspondent sellers and the ongoing monitoring of their performance; reviewing loan data, documentation and appraisals to assess loan quality and risk; pricing; hedging and activities related to the subsequent sale and securitization of loans in the secondary mortgage markets for PMT.

Fees earned from the fulfillment of correspondent loans on behalf of PMT totaled \$14.6 million in the second quarter, up 22 percent from the prior quarter and down 31 percent from the second quarter of 2017. The quarter-over-quarter increase in fulfillment fee revenue was driven by higher acquisition volumes by PMT. For the second quarter, the weighted average fulfillment fee rate was 27 basis points, down from 28 basis points in the prior quarter.

Production segment expenses were \$70.3 million, a 3 percent increase from the prior quarter and a 10 percent increase from the second quarter of 2017. The quarter-over-quarter increase was primarily driven by higher production volumes.

Servicing Segment

Servicing includes income from owned MSRs, subservicing and special servicing activities. Servicing segment pretax income was \$54.6 million compared with \$54.9 million in the prior quarter and an \$11.2 million loss in the second quarter of 2017. Servicing segment revenues totaled \$148.1 million, an increase of 1 percent from the prior quarter and 128 percent from the second quarter of 2017. The quarter-over-quarter increase reflects a larger servicing portfolio and higher interest income from custodial deposits, partially offset by increased realization of MSR cash flows and a decrease in revenue related to the reperformance of government-insured and guaranteed loans bought out of Ginnie Mae pools in prior periods.

Net loan servicing fees totaled \$113.7 million and included \$161.9 million in servicing fees reduced by \$65.2 million in realization of MSR cash flows. Valuation-related gains totaled \$17.0 million, which includes MSR fair value gains of \$42.3 million, associated hedging losses of \$24.3 million and changes in fair value of the excess servicing spread (ESS) liability resulting in a \$1.0 million loss. The MSR fair value gains primarily resulted from expectations for lower prepayment activity in the future due to higher mortgage rates.

The following table presents a breakdown of net loan servicing fees:

	June 30, 2018	Quarter ended March 31, 2018 (in thousands)	June 30, 2017
Servicing fees (1)	\$ 161,942	\$ 160,673	\$ 134,192
Effect of MSRs:			
Amortization and realization of cash flows	(65,227)	(61,176)	(55,482)
Change in fair value and provision for/reversal of impairment of MSRs carried at lower of amortized cost or fair value	42,259	127,806	(36,927)
Change in fair value of excess servicing spread financing	(996)	(6,921)	7,156
Hedging losses	(24,289)	(103,593)	(2,026)
Total amortization, impairment and change in fair value of MSRs	(48,253)	(43,884)	(87,279)
Net loan servicing fees	\$ 113,689	\$ 116,789	\$ 46,913

(1) Includes contractually-specified servicing fees

Servicing segment revenue also included \$27.0 million in net gains on mortgage loans held for sale from the securitization of reperforming government-insured and guaranteed loans, compared with \$35.2 million in the prior quarter and \$23.4 million in the second quarter of 2017. These loans were previously purchased out of Ginnie Mae securitizations as early buyout (EBO) loans and brought back to performing status through PennyMac Financial's successful servicing efforts, primarily with the use of loan modifications. Net interest income totaled \$6.7 million, up from net interest expense of \$6.3 million in the prior quarter and \$5.8 million in the second quarter of 2017. Interest income increased by \$9.9 million from the prior quarter, driven by income from custodial deposits and capitalized interest resulting from an increase in modification of EBO loans during the quarter. Interest expense decreased by \$3.1 million from the first quarter; interest expense was elevated in the first quarter due to the accelerated recognition of costs related to the refinancing of MSR-backed term notes.

Servicing segment expenses totaled \$93.5 million, a 2 percent increase from the prior quarter and a 23 percent increase from the second quarter of 2017. The quarter-over-quarter increase was driven by servicing portfolio growth and an increase in EBO-related expenses resulting from higher volume of buyouts from Ginnie Mae securitizations.

The total servicing portfolio reached \$263.5 billion in UPB at June 30, 2018, an increase of 3 percent from the prior quarter end and 15 percent from a year earlier. Servicing portfolio growth during the quarter was driven by the Company's loan production activities. Of the total servicing portfolio, prime servicing was \$262.6 billion in UPB and special servicing was \$0.9 billion in UPB. PennyMac Financial subservices and conducts special servicing for \$81.2 billion in UPB, an increase of 5 percent from March 31, 2018 and 21 percent from a year earlier. PennyMac Financial's owned MSR portfolio grew to \$178.3 billion in UPB, an increase of 3 percent from the prior quarter end.

Investment Management Segment

PennyMac Financial manages PMT for which it earns base management fees and may earn incentive compensation. PennyMac Financial has also managed two private Investment Funds that sold or liquidated all of their remaining assets in 2017 and the six months ended June 30, 2018. Net assets under management were \$1.5 billion as of June 30, 2018, essentially unchanged from March 31, 2018, and down 3 percent from June 30, 2017.

Pretax income for the Investment Management segment was \$1.1 million, compared with \$1.0 million in the prior quarter and \$2.5 million in the second quarter of 2017. Management fees, which include base management fees from PMT and the private Investment Funds, decreased 2 percent from the prior quarter and 6 percent from the second quarter of 2017. No incentive fee was paid by PMT during the quarter as in the prior quarter; incentive fees of \$0.3 million were paid for the second quarter of 2017.

The following table presents a breakdown of management fees and carried interest:

	June 30, 2018	Quarter ended March 31, 2018 (in thousands)	June 30, 2017
Management fees:			
PennyMac Mortgage Investment Trust

Performance incentive			304
	5,728	5,696	5,638
Investment Funds	(64)	79	369
Total management fees	5,664	5,775	6,007
Carried Interest	(168)	(180)	241
Total management fees and Carried Interest	\$ 5,496	\$ 5,595	\$ 6,248
Net assets of Advised Entities:			
PennyMac Mortgage Investment Trust	\$ 1,545,487	\$ 1,542,258	\$ 1,454,832
Investment Funds	765	2,668	144,744
	\$ 1,546,252	\$ 1,544,926	\$ 1,599,576

Investment Management segment expenses totaled \$5.8 million, down 2 percent from the prior quarter and up 50 percent from the second quarter of 2017.

The increase from the prior year was primarily due to a change in accounting for expenses reimbursed by PMT under the Company's management agreement with PMT. Beginning January 1, 2018, PennyMac Financial is required to include such expense reimbursements in its net revenue and the expenses reimbursed in its expenses. Previously, PennyMac Financial accounted for such reimbursements as reductions to its expenses.

Consolidated Expenses

Total expenses for the second quarter were \$169.6 million, a 3 percent increase from the prior quarter and an 18 percent increase from the second quarter of 2017. The quarter-over-quarter change was driven by higher expenses in both the Servicing and Production segments due to higher volumes of activity.

Executive Chairman Stanford L. Kurland concluded, "We continue to invest and pursue the buildout of our business model into new market segments, products and channels. We believe we are well-positioned to expand our growth and earnings opportunities with the investments we are making in our Production and Servicing businesses. In consumer direct lending, we are seeing success in non-portfolio and purchase-money originations, both of which are important to growing volumes. Further, our investments in the broker direct channel are beginning to deliver results and demonstrate our ability to access this previously untapped market segment. We are making technology investments across our business, such as in loan servicing where system enhancements will allow us to capture greater scale efficiencies. We also remain mindful of prudent expense management and are monitoring the deployment of our human resources and capital to ensure we continue to operate at high levels of efficiency and continue delivering attractive returns to stockholders."

Management's slide presentation will be available in the Investor Relations section of the Company's website at www.ir.pennymacfinancial.com beginning at 1:10 p.m. (Pacific Daylight Time) on Thursday, August 2, 2018.
