FIRST CITIZENS BANCSHARES, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) JUNE 30, 2007 (Stated in Thousands, except per share data)

NOTE 1 - CONSOLIDATED FINANCIAL STATEMENTS

The consolidated balance sheet as of June 30, 2007, the consolidated statements of income for the three month and six month periods ended June 30, 2007 and 2006, and the consolidated statements of cash flows for the six month periods then ended have been prepared by the company without an audit. The accompanying reviewed condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments necessary to present fairly the financial position, results of operations and cash flows at June 30, 2007 and for all periods presented have been made. Operating results for the reporting periods presented are not necessarily indicative of results that may be expected for the year ended December 31, 2007. For further information, refer to the consolidated financial statements and footnotes thereto included in the company's Annual Report on Form 10-K for the year ended December 31, 2006.

NOTE 2 - ORGANIZATION

First Citizens Bancshares, Inc., is a bank holding company chartered on December 14, 1982, under the laws of the State of Tennessee. On September 23, 1983, all of the outstanding shares of common stock of First Citizens National Bank were exchanged for an equal number of shares in First Citizens Bancshares, Inc.

NOTE 3 - CONTINGENT LIABILITIES

There is no material pending litigation as of the current reportable date that would result in a liability.

NOTE 4 - RESERVE FOR LOAN LOSSES

The Reserve for Loan Losses is evaluated and recorded in accordance with SFAS 5, 114 and 118 as applicable. Accordingly, certain loans have been considered impaired. Approximate investment in impaired loans as of current quarter end is as follows:

	Balance
Impaired loans with specific reserve allocations	\$ 3,025,000
Impaired loans without specific reserve allocations	<u>141,000</u>
	\$ 3,166,000
	=====
Specific reserve for impaired loan losses	\$ 590,000

Interest income recognized on impaired loans has been applied on a cash basis. Interest income recognized on impaired loans is approximately \$44,000 and \$60,000 for the six months ended June 30, 2007 and 2006, respectively. Cash receipts are applied as cost recovery first or principal recovery first, consistent with OCC regulations. Management is confident the overall reserves are adequate to cover possible losses within the portfolio in addition to impaired loans.

NOTE 5 - DERIVATIVE TRANSACTIONS

FASB 133, 137 and 138 - FASB 133 establishes accounting and reporting standards for derivative instruments, embedded in other contracts, and for hedging activities. It requires derivatives to be reported as either assets or liabilities in the statement of financial position and measures those instruments at fair value. The accounting for changes in the fair value of a derivative depends on the intended use of the derivative and the resulting designation. FASB 137 and 138 amended FASB 133. Bancshares' used the derivative as a cash flow to hedge the "Benchmark Interest Rate." First Citizens designated a Federal Home Loan Bank Variable LIBOR Borrowing to be hedged and effectively locked in a fixed cost on the liability.

In June 2000, First Citizens swapped a fixed investment cash flow for a variable cash flow that is tied to the 90 day LIBOR Rate. The new variable investment cash flow is matched with a variable borrowing cash flow generating a positive spread of 250 basis points with no interest rate risk. The transaction was implemented to increase earnings of First Citizens. Volume used in the transaction was \$1.5 million. Volume and risk associated with the transaction is well within the Funds Management Policy of the bank. Maturity of the hedge is 10 years.

The cash flow hedge has produced negative income because First Citizens swapped a fixed cash flow for a variable cash flow, and rates later decreased. The value of the derivative has improved as rates have increased over the last three years, but remains in a negative position as of current quarter end. Value of the derivative increased approximately \$28 during the quarter ended June 30, 2007. Accumulated other comprehensive income reflects a negative value of \$72 thousand, gross and \$51 thousand, net of tax.

NOTE 6 - GOODWILL AND INTANGIBLE ASSETS

Goodwill and intangible assets are accounted for in accordance with SFAS 142. Thus, goodwill is not amortized and is tested for impairment annually. No impairment has been recognized since SFAS 142 was adopted in 2002.

SFAS 142 addresses financial accounting and reporting for acquired goodwill and other intangible assets and supercedes APB 17. SFAS 142 adopts a more aggregate view for goodwill and bases the accounting on the units of the combined units of the combined entity into which an acquired entity is integrated (those units are referred to as reporting units in FASB 131). Currently First Citizens' has one reporting unit and does not meet the tests to segment per FASB 131. As of January 2002, First Citizens ceased to amortize goodwill (\$25 thousand per month). Tests are

performed annually during first quarter and have resulted in an impairment of zero since adoption of FAS 142 in 2002. Total goodwill as of the reportable date is \$11.8 million or 1.4% of total assets or 16.9% of total capital.

Amortization expense of the other identifiable intangibles for the quarter was \$21 thousand for 2007 and 2006.

-6-

NOTE 7 - LONG TERM OBLIGATIONS

In March 2002, the Company formed a wholly owned subsidiary First Citizens (TN) Statutory Trust II and issued \$5,000,000 in preferred trust securities. This debt was refinanced in March 2007 through a new trust as detailed below. Therefore, First Citizens (TN) Statutory Trust II was terminated in March 2007. The refinancing results in reduced cost on \$5 million of 185 basis points or \$92,500 annually. This transaction had no incremental impact on total borrowings.

In March 2007, the Company formed a wholly owned subsidiary First Citizens (TN) Statutory Trust IV. The Trust was created under the Business Act of Delaware for the sole purpose of issuing and selling preferred securities and using proceeds from the sale to acquire long term subordinated debentures issued by Bancshares. The debentures are the sole assets of the Trust. First Citizens Bancshares owns 100% of the common stock of the Trust.

In March 2007, the Company through its wholly owned subsidiary, First Citizens (TN) Statutory Trust IV, sold 5,000 of its floating rate Preferred Trust Securities at a liquidation amount of \$1000 per security for an aggregate amount of \$5,000,000. For the period beginning on (and including) the date of original issuance and ending on (but excluding) June 15, 2007 the rate per annum of 7.10%. For each successive period beginning on (and including) June 15, 2007, and each succeeding interest payment date at a rate per annum equal to the 3-month LIBOR plus 1.75%. Interest payment dates are: March 15, June 15, September 15, and December 15 during the 30-year term.

Bancshares' obligation under the debentures and related documents constitute a full and unconditional guarantee by the Company of the Trust issuer's obligations under the Preferred Securities. Although the debentures are treated as debt of the Company, they are treated as Tier I capital subject to a limitation that the securities included as Tier I capital not exceed 25% of the total Tier I capital. The securities are callable by the Company after 5 years.

In March 2005, the Company formed a wholly owned subsidiary First Citizens (TN) Statutory Trust III. The Trust was created under the Business Act of Delaware for the sole purpose of issuing and selling preferred securities and using proceeds from the sale to acquire long term subordinated debentures issued by Bancshares. The debentures are the sole assets of the Trust. First Citizens Bancshares owns 100% of the common stock of the Trust.

On March 17, 2005 the Company through its wholly owned subsidiary, First Citizens (TN) Statutory Trust III, sold 5,000 of its floating rate Preferred Trust Securities at a liquidation amount of \$1,000 per security for an aggregate amount of \$5,000,000. For the period beginning on (and including) the date of original issuance and ending on (but excluding) June 17, 2005 the rate per annum of 4.84%. For each successive period beginning on (and including) June 17, 2005, and each succeeding interest payment date at a rate per annum equal to the 3-month LIBOR plus 1.80%. Interest payment dates are: March 17, June 17, September 17, and December 17 during the 30-year term. The entire \$5 million in proceeds was used to reduce Bancshares' revolving line of credit with First Tennessee discussed in Note 8 below.

The ability of First Citizens to service its long-term debt obligation is dependent upon the future profitability of its banking subsidiaries and their ability to pay dividends to the Company.

NOTE 8 - REVOLVING LINE OF CREDIT

In 2002, First Citizens Bancshares obtained a two-year line of credit with First Tennessee Bank in the amount of \$13 million. Since its original maturity in 2004, the line has been renewed annually. As of the reportable date, the drawn amount was \$1.2 million. Interest on the outstanding balance is payable quarterly and is based on 100 basis points below the base prime rate of First Tennessee Bank.

-7-

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL INFORMATION

First Citizens Bancshares, Inc. ("Company") headquartered in Dyersburg, Tennessee, the bank holding company for First Citizens National Bank ("Bank"), First Citizens (TN) Statutory Trust III and First Citizens (TN) Statutory Trust IV. First Citizens National Bank is a diversified financial service institution, which provides banking and other financial services to its customers. The Bank operates two wholly owned subsidiaries: First Citizens Financial Plus, Inc. and First Citizens Investments, Inc. The Bank also owns 50% of White and Associates/First Citizens Insurance LLC and 50% of First Citizens/White and Associates Insurance Company, Inc. The two 50% owned insurance subsidiaries are accounted for using the equity method. First Citizens Investments, Inc. owns First Citizens Holdings, Inc. First Citizens Holdings, Inc. owns First Citizens Properties, Inc. These subsidiary activities consist of: brokerage, investments, insurance related products, credit insurance and investments in real estate mortgage participation interests.

EXPANSION

In first quarter 2007, expansion efforts resulted in the opening of two loan production offices. One loan production office is located in Jackson, Tennessee and the other in Franklin, Tennessee.

FORWARD-LOOKING STATEMENTS

Quarterly reports on Form 10-Q, including all documents incorporated by reference, may contain forward-looking statements. Additional written or oral forward-looking statements may be made from time to time in other filings with the Securities Exchange Commission. The discussion of changes in operations may contain words that indicate the company's future plans, goals, and estimates of assets, liabilities or income. Forward-looking statements will express the company's position as of the date the statement is made. These statements are primarily based upon estimates and assumptions that are inherently subject to significant banking, economic, and competitive uncertainties, many of which are beyond management's control. When used in this discussion, the words, "anticipate," "project," "expect," "believe," "should," "intend," "is likely," and other expressions are intended to identify forward-looking statements. The statements are within the meaning and intent of section 27A of the Securities Exchange Act of 1934. Such statements may include, but are not limited to, projections of income or loss, expenses, acquisitions, plans for the future, and others.

CRITICAL ACCOUNTING ESTIMATES

The accounting and reporting of First Citizens Bancshares and its subsidiaries conform to accounting principles generally accepted in the United States and follow general practices within its industry. The preparation of these financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The company's estimates are based on historical experience, information supplied from professionals, regulators and others believed to be reasonable under the facts and circumstances. Accounting estimates are considered critical if (1) management is required to make assumptions or judgments about items that are highly uncertain at the time the estimate is made, and (2) different estimates reasonably

could have been used during the current period or changes in such estimates are reasonably likely to occur from period to period, that could have a material impact of the presentation of the Consolidated Financial Statements.

The development, selection and disclosure of critical accounting policies are discussed with the Audit Committee of the Board of Directors. Due to the potential impact on the financial condition or results of operations and the required subjective or complex judgments involved, management believes its critical accounting policies to consist of the allowance for loan losses, fair value of financial instruments, and goodwill and assessment of impairment.

ALLOWANCE FOR LOAN LOSSES

The allowance for losses on loans represents management's best estimate of inherent losses in the existing loan portfolio. Management's policy is to maintain the allowance for loan losses at a level sufficient to absorb reasonably estimated and probable losses within the portfolio. The company believes the loan loss reserve estimate is a critical accounting estimate because: changes can materially affect bad debt expense on the income statement, changes in the borrower's cash flows can impact the reserve, and management has to make estimates at the balance sheet date and also into the future in reference to the reserve. While management uses the best information available to establish the allowance for loan losses, future adjustments may be necessary if economic or other conditions change materially.

FAIR VALUE OF FINANCIAL INSTRUMENTS

Accounting principles generally accepted in the United States require that certain assets and liabilities be carried on the balance sheet at fair value. Furthermore, the fair value of financial instruments is required to be disclosed as a part of the notes to the consolidated financial statements for other assets and liabilities. Fair values are volatile and may be influenced by a number of factors, including market interest rates, prepayment speeds, discount rates, the shape of yield curves and the credit worthiness of counter parties.

Fair values for the majority of First Citizens' available-for-sale investment securities are based on quoted market prices from actively traded markets. In instances where quoted market prices are not available, fair values are based on the quoted prices of similar instruments with adjustment for relevant distinctions (e.g., size of issue, interest rate, etc.).

Fair value of the only derivative held by the company is determined using a combination of quoted market rates for similar instruments and quantitative models based on market inputs including rate, price and index scenarios to generate continuous yield or pricing curves and volatility factors. Third party vendors are used to obtain fair value of available-for-sale securities and the cash flow hedge.

GOODWILL

The Company's policy is to review goodwill for impairment at the reporting unit level on an annual basis unless an event occurs that would likely impair the goodwill amount. Goodwill represents the excess of the cost of an acquired entity over fair value assigned to assets and liabilities. Management believes accounting estimates associated with determining fair value, as part of the goodwill test is a critical accounting estimate because estimates and assumptions are made based on prevailing market factors, historical earnings and multiples and other contingencies.

-8-

RESULTS OF OPERATIONS

Second quarter 2007 results of operations reflect strong capital growth and stable earnings. Strong capital growth, modest asset growth and flat earnings result in lower returns on assets and equity for second quarter 2007 compared to second quarter results from prior year. The following key performance ratios for second quarter over the past five

years are noted in the following table:

	AS OF JUNE 30,				
	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
Percentage of Net Income to:					
Average Total Assets	1.02 %	1.07 %	1.13 %	1.09 %	0.92 %
Average Shareholders' Equity	12.16 %	13.71 %	14.18 %	13.54 %	11.80 %
Percentage of Dividends Declared Per Common Share to Net Income	49.57 %	47.93 %	46.67 %	51.38 %	60.06 %
*Percentage of Average Shareholders' Equity to Average Total Assets	9.19 %	8.63 %	8.81 %	8.93 %	8.70 %

*Represents primary capital including the allowance for loan losses.

Earnings for second quarter 2007 are flat compared to second quarter 2006 as a result of offsetting increases and decreases in non-interest income and expense. Non-interest income and non-interest expense components are discussed in detail below.

Net interest income is the principal source of earnings for First Citizens and is defined as the amount of interest generated by earning assets minus interest cost to fund those assets. Net interest income is flat with offsetting increases to both gross interest income and interest expense. The net yield on average earning assets increased from 6.57% in June 2006 to 7.47% in June 2007. The net cost of interest bearing liabilities increased from 2.89% in June 2006 to 3.92% in June 2007. Net interest margin for second quarter 2007 was 3.96%, which reflects an increase of 7 basis points above the margin for the year ended December 31, 2006 and is flat compared to 3.95% for second quarter 2006. First Citizens has maintained stable net interest margins in the range of 3.7% to 4.0% from June 2004 to present as federal funds rates increased from 1.00% to the current rate of 5.25%.

Per the Uniform Bank Performance Report, net interest income as a percent of average total assets was the below peer at 3.57% compared to peer at 3.77% as of March 31, 2007 (most recent peer data available). Review of individual components of net interest income reveal that the Bank's investment portfolio and loans have slightly higher yields than peer and their cost of deposits are less than peer while peer banks have lower costs on other borrowed money. Yield on total loans was 8.00% compared to peer at 7.89% at first quarter end 2007. Investment yields are above peer at 5.00% compared to peer at 4.95%. Cost of interest bearing deposits was 3.21% compared to peer at 3.68%, and cost of other borrowed money was 5.53% compared to peer of 4.88%. Other borrowed money has been higher than peer the last few years due to the Bank's fixed rate advances with the Federal Home Loan Bank. The gap between the Bank's cost of borrowings compared to peer has narrowed over the last three years as the cost of borrowings at peer banks increased while the Bank's other borrowings cost remained fairly flat.

-11-

Average earning assets to total average assets is 91% compared to peer of 94% as of March 31, 2007. The dilution is caused by significant investments in fixed assets and Bank-owned life insurance (BOLI) policies, which total approximately \$45 million or 5% of total assets as of June 30, 2007. The statement of cash flows reflects fixed assets purchases of \$717,000 during first two quarters of 2007. Earnings on BOLI policies are included in other non-interest income and totaled approximately \$345,000 for first half of 2007.

The loan loss provision for second quarter 2007 decreased \$58 thousand or 26% compared to second quarter 2006. Second quarter 2007 had net charge offs of \$349 thousand compared to net charge offs of \$383 thousand in second quarter 2006. Reserve for losses on loans as a percent of total loans was 1.11% at June 30, 2007 and 1.14% at December 31, 2006. The level of reserve for loan losses is considered adequate and is evaluated quarterly in accordance with generally accepted accounting principles. See also Loan section below.

Non-interest income represents fees and other income derived from sources other than interest-earning assets. Non-interest income to average assets outpaced peer over the last few years and was 1.18% compared to peer of 0.80% for first quarter ended March 31, 2007. Non-interest income increased approximately 14% from second quarters 2006 to second quarter 2007. The increase in non-interest income is primarily from \$176,000 increase in service charges on deposit accounts and \$131,000 in brokerage fees. In second quarter 2007, fee income (non-interest income) contributed 17.57% to total revenue compared to 16.47% for the same period last year.

The following table compares non-interest income for second quarter of 2007, 2006 and 2005:

	QUARTER ENDING JUNE 30,					
		% of		% of		
	<u>2007</u>	<u>Change</u>	<u>2006</u>	<u>Change</u>	<u>2005</u>	
Income from Fiduciary Activities	\$ 200	11.73 %	\$ 179	-0.56 %	\$ 180	
Service Charges on Deposit Accounts	1,708	11.49 %	1,532	2.41 %	1496	
Brokerage Fees	446	41.59 %	315	2.61 %	307	

Edgar Filing: FIRST CITIZENS BANCSHARES INC /TN/ - Form 10-Q

Earnings from Bank Owned Life Insurance	170	12.58 %	151	-64.64 %	427
Other income	407	3.04 %	395	-0.50 %	397
Total non-interest income	\$ 2,931	13.96 %	\$ 2,572	-8.37 %	\$ 2,807

The largest component of other income totaling \$407,000 for second quarter 2007 consists of income from 50% owned full-service insurance agency, White & Associates/First Citizens Insurance, LLC. Income from this subsidiary for second quarter 2007, 2006 and 2005 was \$158,000, \$163,000 and \$136,000, respectively.

Non-interest expense represents operating expenses of First Citizens. Non-interest expense for the current quarter increased \$220 thousand, or 3.36%, over second quarter 2006. Salary and benefits increased approximately \$79 thousand or 2.05%. Average full-time equivalent employees are 261.52 for six months ended June 30, 2007 compared to 267.75 and 260.95 for three months ended June 30, 2006 and 2005, respectively. Bancshares' growth strategies over the last few years also impact certain other sectors of the non-interest expense areas such as data processing and depreciation, which increased approximately 11% and 4%, respectively over prior year's second quarter. The efficiency ratio as of June 30, 2007, 2006 and 2005 was 65.4%, 66.2%, and 64.6%, respectively. Impaired Goodwill expense is \$0 for the current and prior reportable periods. Core deposit intangible expense for the current reportable quarter was flat at \$21,000. Quarter-to-date advertising, community relations, and other forms of marketing expenses were \$199 thousand or 2.94% of other non-interest expense in second quarter 2007 compared to \$182 thousand or 2.78% of total non-interest expense in 2006. All marketing or advertising items are expensed at the time they are incurred. Marketing expenses have increased primarily due to marketing efforts for the new loan production offices in Jackson and Franklin, Tennessee.

The following table compares non-interest expense for second quarter of 2007, 2006 and 2005:

QUARTER ENDING JUNE 30,					
	<u>2007</u>	<u>% of</u> <u>Change</u>	<u>2006</u>	<u>% of</u> <u>Change</u>	<u>2005</u>

-12-

CHANGES IN FINANCIAL CONDITION

Loans grew by \$14.2 million or approximately 2.6% (annualized 5.2%) during the first two quarters of 2007. Overall, loan demand continues to be slow in mature Northwest Tennessee markets and at a slower pace in the Southwest Tennessee markets served by First Citizens compared to loan growth rates experienced in prior years. Loan growth rates were approximately 1% and 3% for the years ended December 31, 2006 and 2005, respectively. First Citizens continues its commitment to asset quality by not compromising underwriting standards in order to grow its loan portfolio. Loan growth rates accelerated in second quarter compared to the prior three quarters and are expected to continue at an annualized rate of approximately 5-6% for the remainder of 2007. The addition of two loan production offices has been during the current quarter and is expected to continue to be going forward a significant factor in overall loan growth. Loan production offices were opened in second quarter 2007 in Jackson, Tennessee and

Franklin, Tennessee. These markets are areas experiencing better economic conditions and growth rates than current mature markets of Northwest Tennessee.

Total deposits increased by \$4 million or 0.6% (annualized 1.2%) from year-end 2006 to current quarter end. Average interest-bearing deposits in second quarter 2007 compared to second quarter 2006 reflect an increase of approximately \$11 million or 2 percent. Cost of interest bearing deposits increased 77 basis points from second quarter 2006 to second quarter 2007 and include increases to both time and savings deposits. Cost of time and savings deposits increased approximately 80 and 30 basis points, respectively when comparing the six months ended June 30, 2007 and 2006.

INVESTMENT SECURITIES

Investment securities are primarily held in the bank's subsidiary, First Citizens Investments, Inc. and in its subsidiary, First Citizens Holdings, Inc. The bank has a portfolio advisory agreement with FTN Financial to manage the investment portfolio. Peer data per the March 31, 2007 (most recent available) Uniform Bank Performance Report indicates that yields on investments exceed peer at 5.00% compared to 4.95% peer. Quarterly average rates for taxable securities for the current quarter end increased 121 basis points while tax-exempt securities increased 17 basis points compared to prior year's second quarter. The investment portfolio is heavily weighted in mortgage-related securities, which account for approximately 50% of total portfolio. Bancshares' goal continues to be to steadily maintain or improve the quality of the investment portfolio without taking on material risk.

Pledged investments reflect a market value of approximately \$125 million as of the current reportable period.

The book value of listed investment securities as of dates indicated are summarized as follows:

	AS OF JUNE 30,				
	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>

Accumulated other comprehensive income reflects unrealized gain (loss) on securities, net of tax. During second quarter 2007, gross unrealized gain (loss) on securities decreased approximately \$2.9 million primarily due to fluctuations in the bond market. Market value of the investment portfolio is heavily influenced by 10-year Treasury benchmark due to the volumes of U. S. Government Treasury and Agency securities (including mortgage-related investments) that comprise the portfolio. In June 2007, bond market movement resulted in higher yields on both the 2-year and 10-year treasuries compared to last quarter. The 10-year Treasury rate was in the range of 4.9% to 5.0% in June 2007 compared to 4.6% to 4.7% in March 2007 and December 2006. The 2-year Treasury rates were approximately 4.9% compared to 4.6% in March 2007 compared to 4.75% at year-end 2006. Thus, the shape and position of the curve has shifted as of current quarter end resulting in unrealized losses in the available-for-sale portfolio. Accumulated other comprehensive income for the current quarter, net of tax, was an unrealized loss of \$1.4 million. Fluctuations in market value of the portfolio is due entirely to the current interest rate environment and does not appear to relate to quality of issuers or issuers' ability to repay the bonds.

The only derivative transaction of Bancshares or its subsidiaries is an interest rate swap, which is discussed in the derivative transactions footnote.

-14-

LOANS

One of Bancshares' primary objectives is to seek quality-lending opportunities within its markets. The majority of First Citizens' borrowers lives and conducts business in West Tennessee. First Citizens has recently expanded its footprint in West Tennessee and into Middle Tennessee with the opening of loan production offices in Jackson and Franklin, Tennessee. Overall, loans decreased approximately \$11 million from June 30, 2006 to June 30, 2007 but have increased approximately \$14 million from December 31, 2006 to June 30, 2007. Real estate loans have decreased \$5 million when comparing June 2007 to June 2006. In 2006, First Citizens experienced unusual loan growth trends compared to prior years in that loan growth was strong in first and second quarter 2006 and then slowed to less than one percent growth for the year ended December 31, 2006. Annualized loan growth at 5% for the first six months of 2007 is comparable to historical trends. First Citizens remains committed to asset quality and will not sacrifice quality for growth. Loan growth rates are expected to be in the range of 5% to 6% for the year ended December 31, 2007 primarily from growth in the more metropolitan markets including Shelby, Madison and Williamson Counties of Tennessee. Overall economic factors for Tennessee appear stable including the unemployment rate for Tennessee of 4.1% as of June 2007 which is the lowest rate since December 2000. Unemployment rates have steadily declined from 5.6% in June 2006. Low unemployment levels have been supported primarily by employment increases in service jobs such as leisure, hospitality, education and health services while manufacturing jobs have decreased. The following table sets forth loan totals net of unearned income by category for the past five years:

Total deposits increased by \$4 million or 0.6% (annualized 1.2%) from year-end 2006 to current quarter end. Average

Edgar Filing: FIRST CITIZENS BANCSHARES INC /TN/ - Form 10-Q

	AS OF JUNE 30,				
	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
Real Estate:					
Construction	\$ 91,707	\$ 85,440	\$ 97,346	\$ 87,155	\$ 67,398
Mortgage	349,239	360,191	333,817	314,198	300,383
Commercial, Financial and Agricultural	81,086	88,306	75,884	73,014	80,202
Consumer Installment	37,357	38,048	38,122	38,224	38,598
Other	6,631	5,551	4,351	6,573	4,080
Total Loans	\$ 566,020	\$ 577,536	\$ 549,520	\$ 519,164	\$ 490,661

*Mortgage loans include loans held for sale in the secondary mortgage market. Balances are \$3.0 million, \$3.2 million, \$2.4 million, \$1.6 million, and \$5.5 million for June 30, 2007, 2006, 2005, 2004 and 2003, respectively.

The following table sets forth the balance of non-performing loans as of June 30, for the years indicated:

	AS OF JUNE 30,				
	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
Non-Performing Loans:					
Non-accrual	\$ 335	\$ 2,219	\$ 816	\$ 1,017	\$ 1,470
90 Days Past Due					
Accruing Interest	1,551	957	703	313	1,438
Total	\$ 1,886	\$ 3,176	\$ 1,519	\$ 1,330	\$ 2,908

Non-performing loans at quarter end were 0.33% of total loans. Non-performing loans have decreased \$1.3 million since second quarter end 2006 primarily due to a small volume of larger balance loans being foreclosed and recorded as other real estate at appraised market value. See also Other Real Estate section discussed below.

The aggregate amount of loans the company is permitted to make under applicable bank regulations to any one borrower is 15% of unimpaired capital. First Citizens National Bank's legal lending limit at June 30, 2007 was \$11.4 million. Weighted average loan yields increased 90 basis points from second quarter 2006 to second quarter 2007. Loan rates steadily increased in the rising rate environment over the last three years but the cost of deposits and other funding also increased resulting in a steady but flat net interest margins.

AGRICULTURAL LOANS

First Citizens is one of the largest agriculture lenders in the State of Tennessee and is the only preferred Farm Services Agency community bank lender in Tennessee. Agriculture makes a significant contribution to Dyer County commerce, generating approximately over \$60 million in revenue on an annual basis. Agricultural credits secured by farmland and other types of collateral comprise approximately \$62 million of total loans as of June 30, 2007 and \$65 million as of June 30, 2006. Recoveries, net of charge-offs in this category were \$3 thousand for first six months of 2007.

LOAN LOSS EXPERIENCE AND RESERVES FOR LOAN LOSSES

An analytical model based on historical loss experience, current trends and economic conditions as well as reasonably foreseeable events is used to determine the amount of provision to be recognized and to test the adequacy of the loan

Total deposits increased by \$4 million or 0.6% (annualized 1.2%) from year-end 2006 to current quarter end. Average

loss allowance. The ratio of allowance for loan losses to total loans, net of unearned income, was 1.14% for the current quarter and 1.12% at year-end 2006. A recap of activity posted to the Reserve account in current quarter resulted in the following transactions: (1) loans charged-off (\$411,000) (2) recovery of loans previously charged off \$62,000 and (3) additions to reserve \$167,000. The provision for loan losses decreased \$58,000 when compared to the same time period in 2006.

Non-performing loans as of current quarter end decreased approximately \$1.2 million from June 2006 to June 2007. Non-performing loans remain in the range of less than 1% of total loans maintained the last five years and are expected to continue at a very manageable level. First Citizens does not anticipate any material negative trends in problems loans for 2007. First Citizens had no concentrations of credit of 10 percent or more of total loans in any single industry. There are no material reportable contingencies as of this report date.

OTHER REAL ESTATE

Other real estate is significantly higher at June 30, 2007 and December 31, 2006 compared to prior periods as a result of foreclosures on a small volume of significant balance loans. Management expects the properties to be liquidated in second half of 2007. Fair market values of significant properties are based on independent appraisals.

LIQUIDITY

Liquidity is managed to ensure there is ample funding to satisfy loan demand, investment opportunities, and large deposit withdrawals. Bancshares primary funding sources include customer core deposits, FHLB borrowings, other borrowings, and correspondent borrowings. Customer based sources accounted for 85% of funding in both second quarter 2007 and 2006. Borrowed funds from the FHLB amounted to 6.1% of total funding as of June 30, 2007 and 7.9% of total funding as of June 30, 2006. The decrease in FHLB advances is due to deleveraging approximately \$20 million in FHLB advances during 2006. The FHLB line of credit is approximately \$95 million with \$21 million available at current quarter end. The Company has \$23 million in deposit funds from the State of Tennessee. First Citizens National Bank has approximately \$28 million of brokered certificate of deposits comprising 4.2% of total deposits as of current quarter end. The current quarter total of brokered deposits is flat compared to June 2006.

The bank's current liquidity position has tightened slightly since year-end 2006 due to loan growth and declining federal funds sold balances. Securities sold under agreements to repurchase balances have increased approximately \$10 million from year-end 2006 to end of second quarter 2007. Investments have increased approximately \$6 million and debt has been reduced by approximately \$700,000.

The bank's liquidity position is strengthened by ready access to a diversified base of wholesale borrowings. These include correspondent borrowings, federal funds purchased, securities sold under agreements to repurchase, Federal Home Loan Bank, Brokered certificates of deposit, and others. First Citizens National Bank has available lines of credit for federal fund purchases totaling \$52.5 million with four correspondent banks as well as additional borrowing capacity of approximately \$21 million with FHLB. Bancshares has a (\$13 million) line of credit established for acquisitions and other holding company needs (see long-term debt and revolving line of credit footnotes). Since the 2002 merger with Munford Union Bank, the focus for growth has been on internally generated growth through new branches. The company has a crisis contingency liquidity plan at the bank and holding company level to defend against any material downturn in our liquidity position.

CAPITAL RESOURCES

Management of shareholder equity in a highly regulated environment requires a balance between leveraging and return on equity while maintaining adequate capital amounts and ratios. Total capital on June 30, 2007 was \$69.9 million, up 0.54% from \$69.5 million on December 31, 2006. The increase in capital was primarily from undistributed income from the Bank and its subsidiaries which was offset by decreases in accumulated other

Total deposits increased by \$4 million or 0.6% (annualized 1.2%) from year-end 2006 to current quarter end. Average

comprehensive income as a result of temporary declines in current market value of available-for-sale securities. Bancshares has historically maintained capital in excess of minimum levels established by the Federal Reserve Board. Total risk-based capital ratio as of June 30, 2007 was 12.49%, significantly in excess of the 8% mandated by Regulatory Authorities. Capital growth has outpaced asset growth in 2006 and 2007 resulting in higher capital to asset ratio for the current period. Capital as a percentage of total assets for the quarter ending June 30, is presented in the following table for the years indicated (excluding loan loss reserves):

AS OF JUNE 30,				
<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>
8.26%	7.73%	7.99%	7.84%	7.82%

The dividend payout ratio was 49.6% for the current period versus 47.9% and 44.2% for second quarter 2006 and 2005, respectively. We anticipate the dividend payout ratio to end the year in the range of 48-52%. Dividends per share are \$0.29 per quarter in 2006 and 2007 compared to \$0.28 per quarter in 2005. Bancshares re-purchased approximately 7,000 shares of its own stock in the open market since December 31, 2006. Stock repurchase average price for second quarter 2007 was \$35.00 per share. Bancshares has no formal plans or programs in place to repurchase common stock as it pursues its current strategy to reduce outstanding debt on the revolving line of credit. Purchases of treasury stock in second quarter 2007 are as follows:

	Shares	Price Paid
	<u>Purchased</u>	<u>Per Share</u>
April	2,840	35.00
May	550	35.00
June	-	-
Total	3,390	\$ 35.00

RECENTLY ISSUED ACCOUNTING STANDARDS

Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements

In September 2006, FASB ratified Emerging Issues Task Force (EITF) Issue No. 06-4, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements" (EITF 06-4). EITF 06-4 addresses accounting for split-dollar life insurance arrangements after the employer purchases a life insurance policy on the covered employee. This EITF states that an obligation arises as a result of a substantive agreement with an employee to provide future postretirement benefits. Under this issue, the obligation is not settled upon entering into an insurance arrangement. Since the obligation is not settled, a liability should be recognized in accordance with applicable authoritative guidance. EITF 06-4 is effective for fiscal years beginning after December 15, 2007. Bancshares is currently in the process of evaluating and determining the impact of adoption of EITF 06-4.

Fair Value Measurements

In September 2006, FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This statement was issued to address the need for increased consistency and comparability in fair value measurements and for expanded disclosures about fair value measurements. The statement emphasizes that fair value measurement should be determined based on assumptions that market participants would use in pricing the asset or liability. Also, SFAS 157 establishes a fair value hierarchy that prioritizes information used to develop those assumptions. SFAS 157 is effective for fiscal years beginning after November 15, 2007. Adoption of this statement is not expected to materially impact Bancshares' consolidated financial statements.

Total deposits increased by \$4 million or 0.6% (annualized 1.2%) from year-end 2006 to current quarter end. Average

The Fair Value Option for Financial Assets and Financial Liabilities

In February 2007, FASB issued SFAS No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities" to permit entities to choose to measure certain financial instruments at fair value. This statement is expected to expand the use of fair value measurement with the intent to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FASB Statement No. 157, Fair Value Measurements. Bancshares did not elect early adoption of SFAS 157 and 159. Adoption effective January 1, 2008 is not expected to materially impact consolidated financial statements.

INTEREST RATE RISK

The bank maintains a formal asset and liability management process to quantify, monitor and control interest rate risk. The Funds Management Committee strives to maintain stability in net interest margin assuming various interest rate cycles. Multiple strategies are utilized to reduce interest rate risk and include but are not limited to the following: use of Federal Home Loan Bank borrowings, shortening or lengthening the re-pricing date of loans and/or time deposits depending on the current rate environment, managing overnight borrowings exposure, use an interest rate swap (see below), and increased mortgage-related investments securities to provide constant cash inflows. Currently, implemented strategies have placed the Company in a liability sensitive position in which the Company would likely experience a small increase in net interest margin should rates begin declining in 2007 or 2008. Interest rate risk exposures are well within policy limits and stable net interest margins are expected to continue in the range of 3.7% to 4.0% experienced over the last three years.

First Citizens swapped a \$1,500,000 fixed investment cash flow for a variable cash flow stream tied to 90 day LIBOR rate June 2000. The new variable investment cash flow is matched with a variable borrowing, resulting in an ongoing positive spread of 250 basis points with no interest rate risk. The transaction was implemented to reduce interest rate risk. The value of the derivative has improved in the rising rate environment over the last three years. See also Footnote 5 Derivative Transactions. The volume and risk associated with this derivative is well within the Funds Management Policy of the bank. There have been no material changes since year-end 2001 applicable to this transaction.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A comprehensive qualitative and quantitative analysis regarding market risk was disclosed in the Company's December 31, 2006 Form 10-K. The Company maintains a fairly neutral interest rate risk position overall which is evidenced by stable net interest margins maintained in a rising rate environment over the last three years. The effects of the current rate environment are discussed throughout Item 2 - Management's Discussion and Analysis including the following sections: Results of Operations, Loans, Investments, Liquidity, and Interest Rate Risk. The analysis included in the December 31, 2006 Form 10-K included scenarios for a rising rate environment. Actual results for the year ended December 31, 2007 will differ from simulations due to timing, magnitude, and frequency of interest rate changes, market conditions and management strategies.

ITEM 4 - CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation of the effectiveness of the design and operation of disclosure controls and procedures was performed as of June 30, 2007 under the supervision and with the participation of Management, including the Chief Executive Officer and Chief Financial Officer. Based on that evaluation, Management including the Chief Executive Officer and Chief Financial Officer, concluded that disclosure controls and procedures were designed and operating effectively as of June 30, 2007.

Changes in Internal Control over Financial Reporting

There have been no material changes in internal control over financial reporting during the quarter ended June 30, 2007 or subsequently.
