Item 2.02. Results of Operations and Financial Condition.

On October 20, 2004, Digital River, Inc., a Delaware corporation ("Digital River"), issued a press release announcing its financial results for the three-month and nine-month periods ended September 30, 2004 and certain other information. A copy of the press release is attached as Exhibit 99.1 hereto. The press release includes "safe harbor" language indicating that certain statements about Digital River's business and other matters contained in the press release

Edgar Filing: DIGITAL RIVER INC /DE - Form 8-K

are "forward-looking" rather than "historic." The press release also states that a more thorough discussion of certain factors which may affect Digital River's operating results is included, among other sections, under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in Digital River's Annual Report on Form 10-K for the fiscal year ended December 31, 2003 which is on file with the SEC and available at the SEC's website (<http://www.sec.gov>).

The attached press release contains certain non-GAAP financial measures. For purposes of Regulation G, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. To supplement our consolidated financial statements presented in accordance with GAAP, Digital River has supplied non-GAAP measures of net income, earnings per share, and earnings before interest, taxes, depreciation and amortization ("EBITDA") which are adjusted from results based on GAAP to exclude certain expenses. We believe that these non-GAAP measures provide useful information to both management and investors by excluding certain expenses that may not be indicative of our core operating results. In addition, because we have historically reported certain non-GAAP results to investors, we believe the inclusion of non-GAAP results provides consistency in our financial reporting. These measures should be considered in addition to results prepared in accordance with GAAP, but are not a substitute for or superior to GAAP results. These non-GAAP measures included in the attached press release have been reconciled to the nearest GAAP measure.

As used herein, "GAAP" refers to accounting principles generally accepted in the United States.
