ITEM 8.01. OTHER EVENTS

On December 15, 2004, DRS Technologies, Inc. (DRS) issued a press release announcing the terms of an offering of an additional \$200 million aggregate principal amount of its 6 7/8 percent senior subordinated notes due 2013, \$50 million more than previously announced. The notes are priced at 105 percent of the principal amount and will be issued as additional debt securities under the indenture dated as of October 30, 2003, pursuant to which DRS, on that date, issued \$350 million aggregate principal amount of 6 7/8 percent senior subordinated notes due 2013. The transaction is expected to close on December 23, 2004.

DRS is obligated, pursuant to its senior credit facility, to offer the lenders under its senior credit facility their pro rata share of the net proceeds of the offering. DRS intends to use any remaining net proceeds of the offering to replenish cash balances, following a \$42.5 million cash payment for its previously announced acquisition of Night Vision Equipment Company on December 14, 2004, and for working capital and general corporate purposes, which may include future acquisitions.

The 6 7/8 percent senior subordinated notes due 2013 have not been registered under the Securities Act of 1933 and may not be offered or sold in the United States without registration or an applicable exemption of registration requirements.
