(Condensed Financial Services Financial Statements)

The following schedules show unaudited condensed financial statements for the Financial Services segment and all other segments excluding Financial Services.

These presentations are not in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which is used by Sony to prepare its consolidated financial statements.

However, because the Financial Services segment is different in nature from Sony's other segments, Sony believes that a comparative presentation may be useful in understanding and analyzing Sony's consolidated financial statements.

Transactions between the Financial Services segment and Sony without the Financial Services segment, including noncontrolling interests, are

included in those respective presentations, then eliminated in the consolidated figures shown below.

Accounting Policies and Other Information

(Number of Consolidated Subsidiaries and Affiliated Companies)

As of December 31, 2017, Sony had 1,308 consolidated subsidiaries (including variable interest entities) and 109 affiliated companies accounted for under the equity method.

(Weighted-average Number of Outstanding Shares Used for the Computation of EPS of Common Stock)

The dilutive effect in the weighted-average number of outstanding shares for the three months and nine months ended December 31, 2016 and 2017 primarily resulted from convertible bonds which were issued in July 2015.

(Segmentation)

Sony realigned its business segments from the first quarter of the fiscal year ending March 31, 2018. As a result of this realignment, the operation of the former Components segment is now included in All Other. In connection with this realignment, the sales and operating revenue and operating income (loss) of each segment for the comparable period have been reclassified to conform to the current presentation.

The G&NS segment includes the manufacture and sales of home gaming products, network services businesses and production and sales of software. The Music segment includes the Recorded Music, Music Publishing and Visual Media and Platform businesses. The Pictures segment includes the Motion Pictures, Television Productions and Media Networks businesses. The HE&S segment includes Televisions as well as Audio and Video businesses. The IP&S segment includes the Still and Video Cameras business. The MC segment includes the manufacture and sales of mobile phones and Internet-related service businesses. The Semiconductors segment includes the image sensors business. The Financial Services segment primarily represents individual life insurance and non-life insurance businesses in the Japanese market and a bank business in Japan. All Other consists of various operating activities, including the overseas disc manufacturing, recording media and battery businesses. Sony's products and services are

generally unique to a single operating segment.

(Accounting Methods Used Specifically for Interim Consolidated Financial Statements)

Income Taxes -

Sony estimates the annual effective tax rate (“ETR”) derived from a projected annual net income before taxes and calculates the interim period income tax provision based on the year-to-date income tax provision computed by applying the ETR to the year-to-date net income before taxes at the end of each interim period. The income tax provision based on the ETR reflects anticipated income tax credits and net operating loss carryforwards; however, it excludes the income tax provision related to significant unusual or infrequent transactions. Such income tax provision is separately reported from the provision based on the ETR in the interim period in which it occurs.

(Reclassifications)

Certain reclassifications of the financial statements and accompanying footnotes for the three and nine months ended December 31, 2016 have been made to conform to the presentation for the three and nine months ended December 31, 2017.

Outlook for the Fiscal Year Ending March 31, 2018

The forecast for consolidated results for the fiscal year ending March 31, 2018, as announced on October 31, 2017, has been revised as follows:

	(Billions of yen)			Change from October Forecast
	March 31, 2017 Results	October Forecast	February Forecast	
Sales and operating revenue	¥7,603.3	¥ 8,500	¥ 8,500	- - +¥90
Operating income	288.7	630	720	billions +¥90 4.3%
Income before income taxes	251.6	600	690	billions +¥90 5.0%
Net income attributable to Sony Corporation's stockholders	73.3	380	480	billions +¥100 26.3%

Assumed foreign exchange rates for the remainder of the fiscal year ending March 31, 2018 are the following:

	Assumed foreign exchange rates for the three months ending March 31, 2018	(For your reference) Assumed foreign exchange rates for the six months ending March 31, 2018 at the time of the October forecast
1 U.S. dollar	approximately 113 yen	approximately 112 yen
1 Euro	approximately 134 yen	approximately 130 yen

The consolidated sales and operating revenue ("sales") forecast for the fiscal year ending March 31, 2018 remains unchanged from the October forecast primarily due to expected increases in sales in the Financial Services and Music segments, substantially offset by expected decreases in sales in the Game & Network Services, Mobile Communications and Semiconductors segments.

Consolidated operating income is expected to be higher than the October forecast mainly due to the absence of allocations for contingencies incorporated into the October forecast for All Other, Corporate and elimination, as well as expected increases in operating income in the Music, Semiconductors, Financial Services, and Home Entertainment & Sound segments.

Restructuring charges for the Sony Group are expected to be approximately 15 billion yen in the fiscal year ending March 31, 2018, which remains unchanged from the October forecast, compared to 60.2 billion yen recorded in the fiscal year ended March 31, 2017. Restructuring charges are recorded as an operating expense and are included in the above-mentioned forecast for operating income.

Net income attributable to Sony Corporation's stockholders is expected to be higher than the October forecast mainly due to the above-mentioned higher-than-expected consolidated operating income and an expected decrease in income tax expense mainly due to the recording of a tax benefit, as a result of tax reform in the U.S., in the third quarter ended December 31, 2017.

Game & Network Services

Sales are expected to be lower than the October forecast primarily due to the impact of a change in launch dates of certain software titles, as well as the impact of higher-than-expected sales of hardware at promotional prices during the holiday season. The forecast for operating income remains unchanged primarily due to a reduction in selling, general and administrative expenses, substantially offset by the impact of the above-mentioned decrease in sales.

Music

Sales and operating income are expected to be higher than the October forecast primarily due to higher-than-expected Recorded Music sales as well as Visual Media and Platform sales.

Pictures

The forecasts for sales and operating income remain unchanged from the October forecast, primarily due to the stronger-than-expected theatrical performance of Jumanji: Welcome to the Jungle being substantially offset by lower-than-expected home entertainment revenues for Motion Pictures.

Home Entertainment & Sound

The forecast for sales remains unchanged from the October forecast. Operating income is expected to be higher than the October forecast mainly due to an improvement in product mix and a reduction in fixed costs and other operating costs, both in home audio and video.

Mobile Communications

Sales are expected to be lower than the October forecast primarily due to an expected decrease in smartphone unit sales. The forecast for operating income remains unchanged as the impact of the above-mentioned expected decrease in sales is expected to be offset by a reduction in operating costs.

Semiconductors

Sales are expected to be lower than the October forecast primarily due to an expected decrease in unit sales of image sensors for mobile products. Operating income is expected to be higher than the October forecast primarily due to higher-than-expected profits resulting from sales of assets and cost reductions, partially offset by the above-mentioned expected decrease in sales.

Financial Services

Financial services revenue and operating income are expected to be higher than the October forecast because results in the third quarter ended December 31, 2017 exceeded expectations.

The effects of future gains and losses on investments held by the Financial Services segment due to market fluctuations have not been incorporated within the above forecast as it is difficult for Sony to predict market trends in the future. Accordingly, future market fluctuations could further impact the current forecast.

The forecasts for sales and operating income for the IP&S segment remain unchanged from the October forecast. The forecasts for additions to long-lived assets, depreciation and amortization, and research and development expenses for the current fiscal year remain unchanged from the October forecast:

Notes about Financial Performance of the Music, Pictures and Financial Services segments

The Music segment results include the yen-translated results of Sony Music Entertainment and Sony/ATV Music Publishing, both U.S.-based operations which aggregate the results of their worldwide subsidiaries on a U.S. dollar basis, and the results of Sony Music Entertainment (Japan) Inc., a Japan-based music company which aggregates its results in yen. The segment also includes equity in net income (loss) for EMI Music Publishing (“EMI”), an affiliated company accounted for under the equity method for which Sony records 39.8% of EMI’s net income in the segment operating income.

The results presented in Pictures are a yen-translation of the results of Sony Pictures Entertainment Inc., a U.S.-based operation that aggregates the results of its worldwide subsidiaries on a U.S. dollar basis.

The Financial Services segment results include Sony Financial Holdings Inc. (“SFH”) and SFH’s consolidated subsidiaries such as Sony Life Insurance Co., Ltd. (“Sony Life”), Sony Assurance Inc. and Sony Bank Inc. The results of Sony Life discussed in the Financial Services segment differ from the results that SFH and Sony Life disclose separately on a Japanese statutory basis.

Cautionary Statement

Statements made in this release with respect to Sony’s current plans, estimates, strategies and beliefs and other statements that are not historical facts are forward-looking statements about the future performance of Sony.
