Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

On July 12, 2005, the Company determined that the Company's historical financial information included in its Form 10-KSB for the year ended December 31, 2004 and its Form 10-QSB for the fiscal quarter ended March 31, 2005 should be restated to correct the presentation of a valuation allowance, amounting to approximately \$298,500, related to our available for sale securities and presented as part of other comprehensive income (loss) in the equity section of the balance sheet. This restatement results from a determination that the decline in value, as previously reported, is other than temporary and, therefore, should be adjusted at the date it is determined to be other than temporary, to the statement of operations. This adjustment did not result in any net adjustment to the Company's balance sheet. Therefore the Company's historical financial statements should no longer be relied upon.

The Company's President and Chief Executive Officer discussed with the Company's independent accountant the matters discussed above and the Company's subsequent filings.
