## PART I

### ITEM 1. BUSINESS

#### Forward Looking Statements

This Annual Report contains certain “forward-looking statements” which may be identified by the use of words such as “believe,” “expect,” “anticipate,” “should,” “planned,” “estimated” and “potential.” Examples of forward-looking statements include, but are not limited to, estimates with respect to our financial condition, results of operations and business that are subject to various factors which could cause actual results to differ materially from these estimates and most other statements that are not historical in nature. These factors include, but are not limited to, general and local economic conditions, changes in interest rates, deposit flows, demand for mortgage, commercial and other loans, real estate values, competition, changes in accounting principles, policies, or guidelines, changes in legislation or regulation, and other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing products and services.

#### Recent Developments

On October 12, 2010, the Company entered into an agreement to purchase First Franklin Corporation (Nasdaq: FFHS), the parent company of The Franklin Savings and Loan Company. Under the terms of the agreement stockholders of First Franklin will be entitled to receive \$14.50 in cash for each share they hold. The acquisition is expected to be completed during the first quarter of 2011 following receipt of regulatory approvals and First Franklin Corporation shareholder approval.

#### General

##### Cheviot Financial Corp.

Following completion of our mutual holding company reorganization and stock offering on January 5, 2004, Cheviot Financial Corp. (the “Company”) became the mid-tier stock holding company for Cheviot Savings Bank. The business of Cheviot Financial Corp. consists of holding all of the outstanding common stock of Cheviot Savings Bank. Cheviot Financial Corp. is chartered under Federal law. As part of our reorganization, we issued a total of 9,918,751 shares of common stock. Our mutual holding company parent, Cheviot Mutual Holding Company, received 5,455,313 of our common shares, and we sold 4,388,438 shares to our depositors and a newly formed Employee Stock Ownership Plan. In addition, 75,000 shares were issued to a charitable foundation formed by Cheviot Savings Bank. Under federal regulations, so long as Cheviot Mutual Holding Company exists, it will own at least 50.1% of the voting stock of Cheviot Financial Corp. At December 31, 2010, Cheviot Financial Corp. had total consolidated assets of \$ 358.1 million, total deposits of \$ 257.9 million, and stockholders’ equity of \$69.4 million. For the years ended December 31, 2010 and 2009 we had net income of \$2.0 million and \$1.1 million, respectively. Our executive offices are located at 3723 Glenmore Avenue, Cheviot, Ohio 45211, and our telephone number is (513) 661-0457.

##### Cheviot Savings Bank

Cheviot Savings Bank (the “Bank”) was established in 1911 as an Ohio-chartered savings and loan association. Following our reorganization, we became an Ohio-chartered stock savings and loan. Our primary business activity is the origination of one- to four-family real estate loans. To a lesser extent, we originate construction, multi-family, commercial real estate and consumer loans. We also invest in securities, primarily United States Government Agency securities and mortgage-backed securities. At December 31, 2010, the Bank’s tangible

core and risk-based capital ratios were 16.2%, 16.2% and 34.9%, levels well in excess of regulatory requirements.

---

## Market Area

We conduct our operations from our executive office in Cheviot, Ohio and six full-service branches, all of which are located in the western section of Hamilton County, Ohio. Cheviot, Ohio is located in Hamilton County and is 10 miles west of downtown Cincinnati. Hamilton County, Ohio represents our primary geographic market area for loans and deposits with our remaining business operations conducted in the larger Cincinnati metropolitan area which includes Warren, Butler and Clermont Counties. We also conduct a moderate level of business in the southeastern Indiana region, primarily in Dearborn, Ripley, Franklin and Ohio Counties. We also originate loans in the Northern Kentucky region secured by properties in Campbell, Kenton and Boone Counties. The local economy is diversified with services, trade and manufacturing employment remaining the most prominent employment sectors in Hamilton County. Hamilton County is primarily a developed and urban county. The employment base is well diversified and there is no dependence on one area of the economy for continued employment. Our future growth opportunities will be influenced by the growth and stability of the regional, state and national economies, other demographic trends and the competitive environment.

Hamilton County and Cincinnati have experienced a declining population since the 1990 census while the other counties in which we conduct business had population growth. The population decline in both Hamilton County and the City of Cincinnati results from the other counties and Northern Kentucky being more successful in attracting new and existing businesses to locate within their areas through economic incentives, including less expensive real estate options for office facilities. Individuals are moving to these other areas to be closer to their place of employment, for newer, less expensive housing and more suburban neighborhoods. Median household and per capita income measures for Hamilton County are above comparable measures for both the United States and Ohio, which we believe indicates the relatively stable and diversified economy in the regional market served by Cheviot Savings Bank. Recent employment trends indicate lower levels of unemployment in Hamilton County compared to national and state-wide unemployment rates. During the current economic times our market area has experienced a decrease in property values and building development.

We believe that we have developed products and services that will meet the financial needs of our current and future customer base; however, we plan, and believe it is necessary, to expand the range of products and services that we offer to be more competitive in our market area. Marketing strategies focus on the strength of our knowledge of local consumer and small business markets, as well as expanding relationships with current customers and reaching out to develop new, profitable business relationships.

## Competition

We face significant competition within our market both in making loans and attracting deposits. Hamilton County has a high concentration of financial institutions including large money center and regional banks, community banks and credit unions. Some of our competitors offer products and services that we currently do not offer, such as trust services and private banking. Our competition for loans and deposits comes principally from commercial banks, savings institutions, mortgage banking firms, consumer finance companies and credit unions. We face additional competition for deposits from short-term money market funds, brokerage firms, mutual funds and insurance companies. Our primary focus is to build and develop profitable customer relationships across all lines of business while maintaining our position as a community bank.

### Lending Activities

General. Historically, our principal lending activity has been the origination, for retention in our portfolio, of fixed-rate and adjustable-rate mortgage loans collateralized by one- to four-family residential real estate located within our primary market area. We will sell a portion of our fixed-rate loans into the secondary market. We also originate commercial real estate loans, including multi-family residential real estate loans, construction loans, business lines of credit and consumer loans. During the past year our loan portfolio decreased to \$225.4 million at December 31, 2010 from \$247.0 million at December 31, 2009. The decrease in our loan portfolio reflects management's decision to take advantage of opportunities to obtain a higher rate of return by selling certain mortgage loans to the Federal Home Loan Bank. In addition, the decrease in our loan portfolio reflects lower levels of originations of one-to four-family loans and multi-family loans.

Loan Portfolio Composition. Set forth below is selected information concerning the composition of our loan portfolio in dollar amounts and in percentages as of the dates indicated.

|   | 2010      |          | 2009      |          | At December 31,<br>2008 |          | 2007      |          | 2006      |          |

| Total loans                            | \$ 175,740                  | \$ 49,240                 | \$ 224,980 |

Residential Mortgage Loans. Cheviot Savings Bank originates mortgage loans secured by one- to four-family properties, most of which serve as the primary residence of the owner. As of December 31, 2010, one- to four-family residential mortgage loans totaled \$195.8 million, or 84.8% of our total loan portfolio. At December 31, 2010, our one- to four-family residential loan portfolio consisted of 22.6% in adjustable-rate loans and 77.4% in fixed-rate loans. Most of our loan originations result from relationships with existing or past customers, members of our local community and referrals from realtors, attorneys and builders.

Our mortgage loans generally have terms from 15 to 30 years and amortize on a monthly basis with principal and interest due each month. As of December 31, 2010, we offered the following residential mortgage loan products:

Fixed-rate loans of various terms;

Adjustable-rate loans;

Home equity lines of credit;

Loans tailored for first time home buyers;

Construction/permanent loans;

Auto loans; and

Short-term (bridge) loans.

Residential real estate loans may remain outstanding for significantly shorter periods than their contractual terms as borrowers refinance or prepay loans at their option without penalty. Our residential mortgage loans customarily contain “due on sale” clauses which permit us to accelerate the indebtedness of the loan upon transfer of ownership in the mortgage property.

We currently sell a portion of our conforming fixed-rate loans in the secondary market and hold the remaining fixed-rate loans and adjustable-rate loans in our portfolio. During 2010, we sold \$26.8 million in loans on a servicing retained basis. We lend up to a maximum loan-to-value ratio of 95% on mortgage loans secured by owner-occupied properties, with the condition that private mortgage insurance is required on first mortgage loans with a loan-to-value ratio in excess of 85%. The first time home buyer program allows 100% financing and does not require private mortgage insurance. During 2010, we originated \$3.9 million in loans under this program. As of December 31, 2010, these loans were performing in accordance with the original terms. To a lesser extent, we originate non-conforming loans that are tailored to the needs of the local community.

Our adjustable-rate mortgage loans are originated with a maximum term of 30 years. Adjustable-rate loans include loans that provide for an interest rate based on the interest paid on U.S. Treasury Securities of corresponding terms, plus a margin. Our adjustable-rate mortgages include limits on the increase or decrease in the interest rate. The interest rate may increase or decrease by a maximum of 2.0% per adjustment with a ceiling rate over the life of the loan, which generally is 5.0%. For all adjustable-rate loans, borrowers are qualified at the initial rate and at 2.0% over the initial rate. We do not originate subprime, Alt-A or option arm loans.

The retention of adjustable-rate loans in our portfolio helps reduce exposure to changes in interest rates. However, there are credit risks resulting from potential increased costs to the borrower as a result of rising interest rates. During periods of rising interest rates, the risk of default on adjustable-rate mortgages may increase due to the upward adjustment of interest cost to the borrower. During periods of declining interest rates, our interest income from adjustable rate loans may be significantly decreased.

During the year ended December 31, 2010, we originated \$5.7 million in gross adjustable-rate loans and \$60.9 million in gross fixed-rate loans.

Home equity lines of credit are generally made for owner-occupied homes and are secured by first or second mortgages on residential properties. We are attempting to increase our originations of home equity lines of credit. We generally offer home equity lines of credit with a maximum loan to appraised value ratio of 85% including senior liens on the subject property and with a maximum loan to appraised value of ratio 80% when the senior lien is held elsewhere. We currently offer these loans for terms of up to 10 years, and with adjustable rates that are tied to the prime rate. At December 31, 2010, home equity lines of credit represented \$8.4 million of our one- to four-family residential loans.

Construction Loans. Cheviot Savings Bank originates construction loans for owner-occupied residential real estate, and, to a lesser extent, for commercial builders of residential real estate, improvement to existing structures, new construction for commercial purposes and residential land development.

At December 31, 2010, construction loans represented \$7.1 million, or 3.1%, of Cheviot Savings Bank's total loans. At December 31, 2010, the unadvanced portion of these construction loans totaled \$4.5 million.

Cheviot Savings Bank's construction loans generally provide for the payment of interest only during the construction phase (12 months for single family residential and varying terms for commercial property and land development). At the end of the construction phase, the loan converts to a permanent mortgage loan. Before making a commitment to fund a construction loan, Cheviot Savings Bank requires detailed cost estimates to complete the project and an appraisal of the property by an independent licensed appraiser. Cheviot Savings Bank also reviews and inspects each property before disbursement of funds during the term of the construction loan. Loan proceeds are disbursed after inspection based on the percentage of completion method.

Construction lending generally involves a greater degree of risk than other one- to four-family mortgage lending. The repayment of the construction loan is, to a great degree, dependent upon the successful and timely completion of construction. Various potential factors including construction delays or the financial viability of the builder may further impair the borrower's ability to repay the loan.

**Multi-Family Loans.** At December 31, 2010, \$8.6 million, or 3.7%, of our total loan portfolio consisted of loans secured by multi-family real estate. We originate fixed-rate and adjustable rate multi-family real estate loans with amortization schedules of up to 25 years. We generally lend up to 80% of the property's appraised value. Appraised values are determined by an outside independent appraiser that we designate. In deciding to originate a multi-family loan, we review the creditworthiness of the borrower, the expected cash flows from the property securing the loan, the cash flow requirements of the borrower, the value of the property and the quality of the management involved with the property. We generally obtain the personal guarantee of the principals when originating multi-family real estate loans.

Multi-family real estate lending is generally considered to involve a higher degree of credit risk than one-to four-family residential lending. Such lending may involve large loan balances concentrated on a single borrower or group of related borrowers. In addition, the payment experience on loans secured by income producing properties typically depends on the successful operation of the related real estate project. Consequently, the repayment of the loan may be subject to adverse conditions in the real estate market or the economy generally.

**Commercial Real Estate Loans.** We originate commercial real estate loans to finance the purchase of real property, which generally consists of land and/or developed real estate. In underwriting commercial real estate loans, consideration is given to the property's historic and projected cash flow, current and projected occupancy, location, physical condition and credit worthiness of the borrower. At December 31, 2010, our commercial real estate portfolio totaled \$19.3 million, or 8.4%, of total loans. A majority of our commercial real estate loans are secured by properties in Hamilton County. Our commercial real estate portfolio is diverse as to borrower and property type.

Commercial real estate lending involves additional risks compared to one- to four-family residential lending because payments on loans secured by commercial real estate properties are often dependent on the successful operation or management of the properties, and/or the collateral value of the commercial real estate securing the loan. Repayment of such loans may be subject, to a greater extent than residential loans, to adverse conditions in the real estate market or the economy. Also, commercial real estate loans typically involve large loan balances to single borrowers or groups of related borrowers. Our policies limit the amount of loans to a single borrower or group of related borrowers to reduce this risk.

Commercial real estate loans generally have a higher rate of interest and shorter term than residential mortgage loans because of increased risks associated with commercial real estate lending. Commercial real estate loans are generally offered at adjustable-rates and fixed-rates with a term generally not exceeding 25 years.

Consumer Loans. During 2010, we began offering auto loans to our customers. In addition, on a limited basis, we make loans secured by deposit accounts up to 90% of the amount of the depositor's collected deposit account balance. At December 31, 2010, consumer loans totaled \$207,000, or 0.09%, of total loans. Consumer loans are payable upon demand.

Loan Originations, Purchases, Sales and Servicing. While we originate both fixed-rate and adjustable-rate loans, our ability to generate each type of loan depends upon relative borrower demand and the pricing levels as set in the local marketplace by competing banks, thrifts, credit unions, and mortgage banking companies. Our volume of real estate loan originations is influenced significantly by market interest rates, and, accordingly, the volume of our real estate loan originations can vary from period to period. Our volume of commercial real estate lending has decreased in recent years due to our effort to improve asset quality and to emphasize relationship banking.

The following table sets forth the loan origination, sales and repayment activities of Cheviot Savings Bank for the years indicated.

|   | 2010      | For the Year Ended December 31, |           |           | 2006      |
|---|-----------|---------------------------------|-----------|-----------|-----------|

(1) Includes home equity lines of credit, loans purchased and loans held for sale.

(2) Includes land loans.

(3) Loans secured by deposit accounts for all years and auto loans beginning in 2010.

(4) Loans sold to the Federal Home Loan Bank of Cincinnati.

(5)

Other items consist of loans in process, deferred loan origination fees, unearned interest and the allowance for loan losses.

Loan Approval Procedures and Authority. The lending activities of Cheviot Savings Bank are subject to the written underwriting standards and loan origination procedures established by the board of directors and management. Loan originations are obtained through a variety of sources, primarily consisting of existing customers and referrals from real estate brokers. Written loan applications are taken by one of Cheviot Savings Bank's loan officers. The loan officer also supervises the procurement of reports, appraisals and other documentation involved with a loan. Cheviot Savings Bank obtains property appraisals from independent appraisers on substantially all of its loans.

Cheviot Savings Bank's loan approval process is intended to provide direction to management on all phases of real estate lending activity since such real estate mortgage lending is the single most important revenue producing investment of Cheviot Savings Bank. Therefore, Cheviot Savings Bank believes that the underwriting of mortgage loans should be consistent with safe and sound practices to ensure the financial viability of the Bank. The loan underwriting policy is also established to provide appropriate limits and standards for all extensions of credit in real estate or for the purpose of financing the construction of a building or other improvement. Cheviot Savings Bank's loan committee has the authority to approve or deny loan applications on one- to four-family owner occupied properties up to \$750,000. This committee also has the authority for approving or denying loan applications on non-owner occupied properties up to \$500,000. The loan committee reviews all loan applications submitted to Cheviot Savings Bank and lists such applications on a review sheet that is submitted to the board of directors. The board of directors ratifies all loans approved by the loan committee and approves all other loans other than those specifically set forth above.

**Loans to One Borrower.** State savings and loan institutions are subject to the same loans to one borrower limits as those applicable to national banks, which under current regulations restrict loans to one borrower to an amount equal to 15% of unimpaired equity on an unsecured basis, and an additional amount equal to 10% of unimpaired equity if the loan is secured by readily marketable collateral (generally, financial instruments and bullion, but not real estate). Our loans to one borrower limit under this regulation at December 31, 2010 was \$8.7 million. Our policy generally provides that loans to one borrower (or related borrowers) should not exceed \$4.0 million (excluding the borrower's principal residence). However, the board of directors may approve loans in greater amounts and may amend this limitation annually based on the asset growth and capital position of Cheviot Savings Bank.

At December 31, 2010, the largest aggregate credit exposure to one borrower consisted of one loan totaling \$5.2 million. This loan is secured by commercial real estate and was performing in accordance with contractual terms. There were twelve additional credit relationships, including committed amounts, in excess of \$1.0 million at December 31, 2010. All of the loans, except for one loan totaling \$1.0 million, extended under these credit relationships were performing as of December 31, 2010.

#### Asset Quality.

**General.** One of our key operating objectives has been, and continues to be, to maintain a high asset quality. Our high proportion of one- to four-family mortgage loans, our maintenance of sound credit standards for new loan originations and our loan administration procedures have resulted in our impaired and non-performing loans totaling to \$4.9 million, or 2.2% of net loans at December 31, 2010. During 2010, we addressed the consequences of a weakening national and local economy by adhering to our conservative underwriting standards and limiting our exposure on one-to four-family residential investment properties.

**Collection Procedures.** When a borrower fails to make required payments on a loan, we take a number of steps to induce the borrower to cure the delinquency and restore the loan to a current status. Cheviot Savings Bank has implemented certain loan tracking policies and collection procedures to ensure effective management of classified assets. Cheviot Savings Bank generally sends a written notice of non-payment to its borrower after a loan is first past due. If payment has not been received within a reasonable time period, personal contact efforts are attempted by telephone or by letter. If no payment is received the following month, a letter stating that the borrower is two months behind is mailed indicating that the borrower needs to contact our collections department, and make payment arrangements. If the borrower has missed two consecutive payments, a demand letter will be sent by certified mail. On all accounts that are not current ten days after the completion of the last step set forth above our collection manager or staff member contacts the borrower by phone at their home and if necessary, at their place of employment in order to establish communications with the borrower concerning the delinquency and to try to establish a meeting with the borrower to determine what steps are needed to bring the borrower to a current status. If contact with the borrower by

telephone is unsuccessful and the loan becomes 60 days delinquent Cheviot Savings Bank sends a letter stating its intention to begin foreclosure procedures. If no satisfactory agreement has been reached with the borrower within 15 days after the foreclosure intention letter, the Board of Directors will consider the status of the delinquency and may authorize Cheviot Savings Bank's attorney to send a letter to the borrower advising the borrower that foreclosure proceedings will be initiated and setting forth the conditions which could forestall the foreclosure. In selected cases, Cheviot Savings Bank may make an economic decision to forego foreclosure and work with the borrower to bring the loan current. Repayment schedules may be entered into with chronically delinquent borrowers if management determines this resolution is more advantageous to Cheviot Savings Bank.

In connection with home equity lines of credit, when payment is first past due the collection manager or staff member attempts to contact the borrower by phone at their home. If phone contact is unsuccessful, the collection manager or staff member will mail a late notice to the borrower at the beginning of the following month indicating the need to contact the collections personnel and bring the loan current. If the preceding steps are unsuccessful then the collection manager will implement the steps described above leading to foreclosure.

Cheviot Savings Bank has implemented several credit risk measures in the loan origination process that have served to reduce potential losses. Cheviot Savings Bank also seeks to limit loan portfolio credit risk by originating in the local market generally one- to four-family permanent mortgage loans with a loan-to-value of 85% or less, and one and two family owner-occupied residential mortgage loans with a loan-to-value of 85%, with private mortgage insurance required on first mortgage loans with loan-to-value of greater than 85%. Cheviot Savings Bank consistently observed conservative loan underwriting guidelines and makes exceptions in originating such loans only if there are sound reasons for such exceptions.

Credit risk on commercial real estate loans is managed by generally limiting such lending to local markets and emphasizing sound underwriting and monitoring the financial status of the borrower. In originating such loans Cheviot Savings Bank seeks debt service coverage ratios in excess of 1.00x.

To limit the impact of loan losses in any given quarter, Cheviot Savings Bank seeks to maintain an adequate level of valuation allowances. Its management and board of directors review the level of general valuation allowances on a quarterly basis to ensure that adequate coverage against known and inherent losses is maintained, based on the level of non-performing and classified assets, our loss history and industry trends and economic trends.

Cheviot Savings Bank has established detailed asset review policies and procedures which are consistent with generally accepted accounting principles. Quarterly reviews of the valuation allowance are conducted by the board of directors. Pursuant to these procedures, when needed, additional valuation allowances are established to cover anticipated losses in the portfolio.

We hold foreclosed property as real estate acquired through foreclosure. We carry foreclosed real estate at lower of cost or fair value less estimated selling costs. If a foreclosure action is commenced and the loan is not brought current, paid in full, or refinanced before the foreclosure sale, we either sell the real property securing the loan at the foreclosure sale or sell the property as soon thereafter as practical.

Marketing real estate owned generally involves listing the property for sale. Cheviot Savings Bank maintains the real estate acquired through foreclosure in good condition to enhance its marketability. As of December 31, 2010, we held eight properties classified as real estate owned totaling \$2.0 million. These properties are insured by the Bank. The Bank takes actions to ensure that the property does not deteriorate due to neglect while held as real estate owned. New appraisals are ordered at the time the Bank takes ownership of the property. We then work with preapproved real estate agents to sell the property.

Delinquent Loans and Non-performing Loans and Assets. Our policies require that the collection manager monitor the status of the loan portfolios and report to the Board on a monthly basis. These reports include information on delinquent loans, criticized and classified assets, foreclosed real estate and our plans to cure the delinquent status of the loans.

It is Cheviot Savings Bank's policy to underwrite single-family residential loans up to a 95% loan-to-value ratio and all other loans (multi-family, construction, commercial and consumer) on no more than an 80% loan-to-value ratio. It has been the Bank's experience that interest on delinquent loans is generally recovered in ultimate settlement of the loan due to this conservative underwriting policy. We generally stop accruing interest on our one-to four-family residential, construction and commercial loans when interest or principal payments are 90 days in arrears. Consumer loans are comprised exclusively of loans secured by deposits with Cheviot Savings Bank. Such loans are placed on non-accrual status should they become 90 days delinquent. The Bank will stop accruing interest earlier when the timely collectibility of such interest or principal is doubtful.

We designate loans on which we stop accruing interest as non-accrual loans and we reverse outstanding interest that we previously credited. We may recognize income in the period that we collect it, when the ultimate collectability of principal is no longer in doubt. We return a non-accrual loan to accrual status when factors indicating doubtful collection no longer exist and the loan has been brought current. In accordance with industry standards and regulatory requirements, it is Cheviot Savings Bank's policy to charge-off a loan when it becomes apparent that recovery of amounts due is not probable, either from expected payments from the borrower or from settlement of the collateral.

The following table sets forth certain information regarding delinquencies in our loan portfolio.

|                                 | At December 31, 2010 |            |                 |            |                 |            |         |      |   |

(1) Includes home equity lines of credit, loans purchased and loans held for sale.

(2) Includes loans secured by land.

(3) Loans secured by deposit accounts for all years and auto loans beginning in 2010.

(4) For the year ended December 31, 2010, gross interest income which would have been recorded had the non-accruing loans been current in accordance with their original terms amounted to \$199,000. \$137,000 in interest income was recorded on such loans during the year ended December 31, 2010.

Non-performing and impaired loans totaled \$4.9 million at December 31, 2010.

Our loan review procedures are performed quarterly. With respect to multi-family and commercial loans, we consider a loan impaired when, based on current information and events, it is probable that we will be unable to collect all amounts due according to the loan's contractual terms.

We review multi-family and commercial loans in amounts greater than \$250,000 for impairment. These loans are individually assessed to determine whether the loan's carrying value is in excess of the fair value of the collateral or the present value of the loan's expected cash flows. Smaller balance homogenous loans that are collectively evaluated for impairment, such as residential mortgage loans and consumer loans, are specifically excluded from individual impairment review.

During the year ended December 31, 2010, Cheviot Savings Bank had total troubled debt restructurings of \$2.4 million. There were four single family loans totaling \$1.1 million in troubled debt restructurings during the year and the largest one totaling \$680,000. These troubled debt restructurings are included in non-accrual loans. These loans were modified due to short term concessions with no impairment as Cheviot Savings Bank expects to recognize the full amount of the commitment. Cheviot Savings Bank has no commitments to lend additional funds to these debtors owing receivables whose terms have been modified in troubled debt restructurings.

Classified Assets. Federal regulations require that each insured savings institution classify its assets on a regular basis. In addition, in connection with examinations of insured institutions, federal examiners have authority to identify problem assets and, if appropriate, classify them. There are three classifications for problem assets: “substandard,” “doubtful” and “loss.” Substandard assets have one or more defined weaknesses and are characterized by the distinct possibility that the insured institution will sustain some loss if the deficiencies are not corrected. Doubtful assets have the weaknesses of substandard assets with the additional characteristic that the weaknesses make collection or liquidation in full on the basis of currently existing facts, conditions and values questionable, and there is a higher possibility of loss. An asset classified as a loss is considered uncollectible and of such little value that continuance as an asset of the institution is not warranted. Another category designated “special mention” also may be established and maintained for assets which do not currently expose an insured institution to a sufficient degree of risk to warrant classification as substandard, doubtful or loss. If a classified asset is deemed to be impaired with measurement of loss, Cheviot Savings Bank will establish a charge-off of the loan pursuant to Accounting Standards Codification (“ASC”) Topic 310, “Receivables”. The following table sets forth information regarding classified assets as of December 31, 2010, 2009 and 2008.

|                           |                | At December 31, |          |
|---------------------------|----------------|-----------------|----------|
|                           | 2010           | 2009            | 2008     |
|                           | (In thousands) |                 |          |
| Classification of Assets: |                |                 |          |

| Special Mention           | \$ —           | \$ —            | \$ —     |

General loss allowances established to cover inherent, but unconfirmed losses in the portfolio may be included in determining an institution's regulatory capital. Federal examiners may disagree with an insured institution's classifications and amounts reserved.

**Allowance for Loan Losses.** We maintain the allowance through provisions for loan losses that we charge to income. We charge losses on loans against the allowance for loan losses when we believe the collection of loan principal is unlikely. Recoveries on loans charged-off are restored to the allowance for loan losses. The allowance for loan losses is maintained at a level believed, to the best of management's knowledge, to cover all known and inherent losses in the portfolio both probable and reasonable to estimate at each reporting date. The level of allowance for loan losses is based on management's periodic review of the collectability of the loans principally in light of our historical experience, augmented by the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and current and anticipated economic conditions in the primary lending area. We evaluate our allowance for loan losses quarterly. We have not made any changes to the external factors in the calculation during the year as we believe the local economy has stabilized. We will continue to monitor all items involved in the allowance calculation closely.

In addition, the regulatory agencies, as an integral part of their examination and review process, periodically review our loan portfolios and the related allowance for loan losses. Regulatory agencies may require us to increase the allowance for loan losses based on their judgments of information available to them at the time of their examination, thereby adversely affecting our results of operations.

At December 31, 2010 and 2009, our allowance for loan losses was \$1.2 million and \$1.0 million, respectively. Our ratio of the allowance for loan losses as a percentage of net loans receivable was 0.55% and 0.41% at December 31, 2010 and 2009, respectively.

The following table sets forth the analysis of the activity in the allowance for loan losses for the years indicated:

|   | 2010      | At or For the Year Ended December 31, |           |           |                        | 2006 |

(1) Includes home equity lines of credit, loans purchased and loans held for sale.

(2) Includes loans secured by land.

(3) Loans secured by deposit accounts for all years and auto loans beginning in 2010.

Edgar Filing: CHEVIOT FINANCIAL CORP - Form 10-K

The following table sets forth the allocation of the allowance for loan losses by loan category for the years indicated. This allocation is based on management's assessment, as of a given point in time, of the risk characteristics of each of the component parts of the total loan portfolio and is subject to changes as and when the risk factors of each such component part change. The allocation is neither indicative of the specific amounts or the loan categories in which future charge-offs may be taken nor is it an indicator of future loss trends. The allocation of the allowance to each category does not restrict the use of the allowance to absorb losses in any category.

| Loan Category                       | At December 31,           |                           |   |   |                           |                           |  |   |

---

(1) Includes home equity lines of credit, loans purchased and loans held for sale.

(2) Includes loans secured by land.

(3) Loans secured by deposit accounts for all years and auto loans beginning in 2010.

## Securities Activities.

General. Our investment policy is established by the board of directors. This policy dictates that investment decisions will be made based on the safety of the investment, liquidity requirements, potential returns, cash flow targets, and consistency with our interest rate risk management. The board of directors, as a whole, acts in the capacity of an investment committee and is responsible for overseeing our investment program and evaluating on an ongoing basis our investment policy and objectives. Our president and chief financial officer have the authority to purchase securities within specific guidelines established by the investment policy. All transactions are reviewed by the board of directors at its regular meeting.

We account for investment and mortgage-backed securities in accordance with ASC Topic 320, "Investments - Debt and Equity Securities." ASC 320 requires that investments be categorized as held-to maturity, trading, or available for sale. Securities classified as held to maturity are carried at cost only if we have the positive intent and ability to hold these securities to maturity. Trading securities and securities available for sale are carried at fair value with resulting unrealized gains or losses recorded to operations or shareholders' equity, respectively. During 2010, we purchased forty investment securities that were designated as available for sale. During 2009, we purchased fifty-four investment securities that were designated as available for sale. During 2008, we purchased nine investment securities that were designated as available for sale. All other investment and mortgage-backed securities purchases have been designated as held-to-maturity. Realized gains or losses on sales of securities are recognized using the specific identification method.

Our current policies generally limit securities investments to U.S. Government, agency and sponsored entity securities and municipal bonds. The policy also permits investments in mortgage-backed securities guaranteed by the Federal National Mortgage Association (FNMA), the Federal Home Loan Mortgage Corporation (FHLMC) and the Government National Mortgage Association (GNMA). Our investments in municipal obligations mature in more than five years. The majority of our investments in U.S. Government and agency obligations are scheduled to mature within fifteen years.

Our current investment strategy uses a risk management approach of diversified investing in fixed-rate securities with short- to intermediate-term maturities, as well as adjustable-rate securities, which may have a longer term to maturity. The emphasis of this approach is to increase overall securities yields while managing interest rate risk. To accomplish these objectives, we focus on investments in mortgage-backed securities with short term maturities, and U.S. government and agency obligations and municipal obligations with maturities in excess of 10 years. We monitor our investment portfolio for losses that may be considered other than temporary. At December 31, 2010, all unrealized losses on securities are viewed by management to be temporary. At December 31, 2010, the amortized cost of our investment and mortgage-backed securities portfolio was \$99.0 million, while the estimated fair value was \$97.6 million.

Amortized Cost and Estimated Fair Value of Securities. The following table sets forth certain information regarding the amortized cost and estimated fair values of our securities as of the dates indicated.

Borrowed Funds. As a member of the FHLB of Cincinnati, Cheviot Savings Bank is eligible to obtain advances upon the security of the FHLB common stock owned and certain residential mortgage loans, provided certain standards related to credit-worthiness have been met. FHLB advances are available pursuant to several credit programs, each of which has its own interest rate and range of maturities.

## REGULATION

Cheviot Savings Bank is regulated, examined and supervised by the Ohio Division of Financial Institutions, the Office of Thrift Supervision and the Federal Deposit Insurance Corporation. The Ohio Division of Financial Institutions and the Office of Thrift Supervision have extensive authority over the operations of Ohio-chartered savings institutions. As part of this authority, Ohio-chartered savings institutions are required to file periodic reports with the Ohio Division of Financial Institutions and the Office of Thrift Supervision and are subject to periodic examinations by the Ohio Division of Financial Institutions, the Office of Thrift Supervision and the FDIC. Cheviot Savings Bank also is subject to regulation by the FDIC and to requirements established by the Federal Reserve Board. The investment and lending authority of savings institutions are prescribed by federal laws and regulations, and such institutions are prohibited from engaging in any activities not permitted by such laws and regulations. Cheviot Savings Bank is also subject to the provisions of the Ohio Revised Code applicable to Ohio corporations. Cheviot Savings Bank also is a member of and owns stock in the Federal Home Loan Bank of Cincinnati, which is one of the twelve regional banks in the Federal Home Loan Bank System. Under the recently enacted Dodd-Frank Act, the Office of Thrift Supervision's supervision and examination functions relating to state chartered savings institutions will be transferred to the Federal Deposit Insurance Corporation; however, rulemaking authority will be transferred to the Comptroller of the Currency, all within one year of the date of enactment of the new legislation or by July 21, 2011, unless extended by up to six months by the Secretary of the Treasury.

Cheviot Financial Corp. and Cheviot Mutual Holding Company are regulated by the Office of Thrift Supervision as savings and loan holding companies. They are required to file reports with, and otherwise comply with the rules and regulations of, the Office of Thrift Supervision. Under the Dodd-Frank Act, the functions of the Office of Thrift Supervision relating to savings and loan holding companies and their subsidiaries, as well as rulemaking and supervision authority over thrift holding companies, will be transferred to the Federal Reserve Board.

Any change in the laws or regulations, whether by the Ohio Division of Financial Institutions, Federal Deposit Insurance Corporation, Office of Thrift Supervision, or Congress, could have a material adverse impact on Cheviot Financial Corp. and Cheviot Savings Bank and their operations.

### New Federal Legislation

Congress has recently enacted the Dodd-Frank Wall Street Reform and Consumer Protection Act which will significantly change the current bank regulatory structure and affect the lending, investment, trading and operating activities of financial institutions and their holding companies. The Dodd-Frank Act eliminates the Office of Thrift Supervision and authorizes the Board of Governors of the Federal Reserve System to supervise and regulate all savings and loan holding companies like Cheviot Financial Corp. and Cheviot Mutual Holding Company in addition to bank holding companies which it currently regulates. The Dodd-Frank Act also requires the Federal Reserve Board to set minimum capital levels for all depository institution holding companies that are as stringent as those required for the insured depository subsidiaries, and the components of Tier 1 capital would be restricted to capital instruments that are currently considered to be Tier 1 capital for insured depository institutions. Under the Dodd-Frank Act, the proceeds of trust preferred securities are excluded from Tier 1 capital unless such securities were issued prior to May 19, 2010 by bank or savings and loan holding companies with less than \$15 billion of assets. Bank holding companies with assets of less than \$500 million are exempt from these capital requirements. Savings and loan holding companies are subject to a five year transition period before the holding company capital requirement will apply. The legislation also establishes a floor for capital of insured depository institutions that cannot be lower than the standards in effect today, and directs the federal banking regulators to implement new leverage and capital requirements within 18 months that take into account off-balance sheet activities and other risks, including risks relating to securitized products and derivatives.

The Dodd-Frank Act also creates a new Consumer Financial Protection Bureau with broad powers to supervise and enforce consumer protection laws. The Consumer Financial Protection Bureau has broad rule-making authority for a wide range of consumer protection laws that apply to all banks and savings institutions such as Cheviot Savings Bank, including the authority to prohibit “unfair, deceptive or abusive” acts and practices. The Consumer Financial Protection Bureau has examination and enforcement authority over all banks and savings institutions with more than \$10 billion in assets. Banks and savings institutions with \$10 billion or less in assets will be examined by their applicable bank regulators. The new legislation also weakens the federal preemption available for national banks and federal savings associations, and gives state attorneys general the ability to enforce applicable federal consumer protection laws.

The legislation also broadens the base for Federal Deposit Insurance Corporation insurance assessments. Assessments will now be based on the average consolidated total assets less tangible equity capital of a financial institution. The Dodd-Frank Act also permanently increases the maximum amount of deposit insurance for banks, savings institutions and credit unions to \$250,000 per depositor, retroactive to January 1, 2008, and non-interest bearing transaction accounts have unlimited deposit insurance through December 31, 2012. The Dodd-Frank Act requires companies to give stockholders a non-binding vote on executive compensation and change-in-control payments, and authorizes the Securities and Exchange Commission to promulgate rules that would allow stockholders to nominate their own candidates using a company’s proxy materials. The legislation also directs the Federal Reserve Board to promulgate rules prohibiting excessive compensation paid to bank holding company executives, regardless of whether the company is publicly traded or not. Further, the legislation requires that originators of securitized loans retain a percentage of the risk for transferred loans, directs the Federal Reserve Board to regulate pricing of certain debit card interchange fees and contains a number of reforms related to mortgage origination. Many of the provisions of Dodd-Frank involve delayed effective dates and/or require implementing regulations. Accordingly, it will be some time before management can assess the full impact on operations. However, there is a significant possibility that the Dodd-Frank Act will, at a minimum, result in an increased regulatory burden and compliance, operating and interest expense for Cheviot Savings Bank and Cheviot Financial Corp.

#### Loans-to-One-Borrower

We generally may not make a loan or extend credit to a single or related group of borrowers in excess of 15% of unimpaired capital and unimpaired surplus. An additional amount may be lent, equal to 10% of unimpaired capital and unimpaired surplus, if the loan is secured by readily marketable collateral, which is defined to include certain securities and bullion, but generally does not include real estate. As of December 31, 2010, we were in compliance with our loans-to-one-borrower limitations.

#### Qualified Thrift Lender Test

We are required to satisfy a qualified thrift lender test whereby we must maintain at least 65% of our “portfolio assets” in “qualified thrift investments.” These consist primarily of residential mortgages and related investments, including mortgage-backed and related securities. “Portfolio assets” generally means total assets less specified liquid assets up to 20% of total assets, goodwill and other intangible assets, and the value of property used to conduct business. A savings bank that fails the qualified thrift lender test must operate under specified restrictions. The Dodd-Frank Act makes noncompliance with the QTL test subject to agency enforcement action for a violation of law. As of December 31, 2010, we maintained 87.3% of our portfolio assets in qualified thrift investments and, therefore, we met the qualified thrift lender test.

## Capital Distributions

Office of Thrift Supervision regulations govern capital distributions by savings institutions, which include cash dividends, stock repurchases and other transactions charged to the capital account of a savings institution. A savings institution must file an application for Office of Thrift Supervision approval of the capital distribution if either (1) the total capital distributions for the applicable calendar year exceed the sum of the institution's net income for that year to date plus the institution's retained net income for the preceding two years that is still available for dividend, (2) the institution would not be at least adequately capitalized following the distribution, (3) the distribution would violate any applicable statute, regulation, agreement or Office of Thrift Supervision-imposed condition, or (4) the institution is not eligible for expedited review of its filings. If an application is not required to be filed, savings institutions which are a subsidiary of a holding company, as well as certain other institutions, must file a notice with the Office of Thrift Supervision at least 30 days before the board of directors declares a dividend or approves a capital distribution.

Any additional capital distributions would require prior regulatory approval. In the event our capital falls below our adequately capitalized requirement or the Office of Thrift Supervision notifies us that we are in need of more than normal supervision, our ability to make capital distributions could be restricted. In addition, the Office of Thrift Supervision could prohibit a proposed capital distribution by any institution, which would otherwise be permitted by the regulation, if it determines that the distribution would constitute an unsafe or unsound practice.

## Community Reinvestment Act and Fair Lending Laws

Savings banks have a responsibility under the Community Reinvestment Act and related regulations of the Office of Thrift Supervision to help meet the credit needs of their communities, including low- and moderate-income neighborhoods. In addition, the Equal Credit Opportunity Act and the Fair Housing Act prohibit lenders from discriminating in their lending practices on the basis of characteristics specified in those statutes. An institution's failure to comply with the provisions of the Community Reinvestment Act could, at a minimum, result in regulatory restrictions on its activities, and failure to comply with the Equal Credit Opportunity Act and the Fair Housing Act could result in enforcement actions by the Office of Thrift Supervision, as well as other federal regulatory agencies and the Department of Justice. We received a "Satisfactory" Community Reinvestment Act rating in our most recent examination by the Office of Thrift Supervision.

## Transactions with Related Parties

Our authority to engage in transactions with related parties or "affiliates" is limited by Sections 23A and 23B of the Federal Reserve Act and its implementing regulation, Regulation W. The term "affiliate" for these purposes generally means any company that controls or is under common control with an institution, including Cheviot Financial Corp. and its non-savings institution subsidiaries. Regulation W limits the aggregate amount of certain "covered" transactions with any individual affiliate to 10% of the capital and surplus of the savings institution and also limits the aggregate amount of covered transactions with all affiliates to 20% of the savings institution's capital and surplus. Covered transactions with affiliates are required to be secured by collateral in an amount and of a type described in Regulation W, and purchasing low quality assets from affiliates is generally prohibited. Regulation W also provides that covered transactions with affiliates, including loans and asset purchases, must be on terms and under circumstances, including credit standards, that are substantially the same or at least as favorable to the institution as those prevailing at the time for comparable transactions with non-affiliated companies. In addition, savings institutions are prohibited by Office of Thrift Supervision regulations from lending to any affiliate that is engaged in activities that are not permissible for bank holding companies and no savings institution may purchase the securities of any affiliate other than a subsidiary.

Our authority to extend credit to executive officers, directors and 10% or greater stockholders, as well as entities controlled by these persons, is governed by Sections 22(g) and 22(h) of the Federal Reserve Act and its implementing regulation, Regulation O. Among other things, these regulations generally require these loans to be made on terms substantially the same as those offered to unaffiliated individuals and do not involve more than the normal risk of repayment. However, executive officers and directors may receive beneficial treatment available on a bank-wide basis to all participating employees. Regulation O also places individual and aggregate limits on the amount of loans we may make to these persons based, in part, on our capital position, and requires that prior approval procedures be followed. At December 31, 2010, we were in compliance with these regulations.

#### Enforcement

The Office of Thrift Supervision has primary enforcement responsibility over savings institutions and has the authority to bring enforcement action against all “institution-related parties,” including stockholders, and attorneys, appraisers and accountants who knowingly or recklessly participate in wrongful action likely to have an adverse effect on an insured institution. Formal enforcement action may range from the issuance of a capital directive or cease and desist order to removal of officers and/or directors of the institution, receivership, conservatorship or the termination of deposit insurance. Civil penalties cover a wide range of violations and actions, and range up to \$25,000 per day, unless a finding of reckless disregard is made, in which case penalties may be as high as \$1.0 million per day. The Federal Deposit Insurance Corporation also has the authority to recommend to the Director of the Office of Thrift Supervision that enforcement action be taken with respect to a particular savings institution. If action is not taken by the Director, the Federal Deposit Insurance Corporation has authority to take action under specified circumstances. The Federal Deposit Insurance Corporation will assume the Office of Thrift Supervision’s enforcement authority over state chartered financial institutions pursuant to the Dodd-Frank Act.

#### Standards for Safety and Soundness

Federal law requires each federal banking agency to prescribe for all insured depository institutions standards relating to, among other things, internal controls, information systems and audit systems, loan documentation, credit underwriting, interest rate risk exposure, asset growth, compensation, and other operational and managerial standards as the agency deems appropriate. The federal banking agencies adopted Interagency Guidelines Prescribing Standards for Safety and Soundness to implement the safety and soundness standards required under the Federal law. The guidelines set forth the safety and soundness standards that the federal banking agencies use to identify and address problems at insured depository institutions before capital becomes impaired. The guidelines address internal controls and information systems; internal audit systems; credit underwriting; loan documentation; interest rate risk exposure; asset growth; and compensation, fees and benefits. If the appropriate federal banking agency determines that an institution fails to meet any standard prescribed by the guidelines, the agency may require the institution to submit to the agency an acceptable plan to achieve compliance with the standard. If an institution fails to meet these standards, the appropriate federal banking agency may require the institution to submit a compliance plan.

## Capital Requirements

Office of Thrift Supervision capital regulations require savings institutions to meet three minimum capital standards: a 1.5% tangible capital ratio, a 4% leverage ratio (3% for institutions receiving the highest rating on the CAMELS rating system) and an 8% risk-based capital ratio. In addition, the prompt corrective action standards discussed below also establish, in effect, a minimum 2% tangible capital standard, a 4% leverage ratio (3% for institutions receiving the highest rating on the CAMELS financial institution rating system), and, together with the risk-based capital standard itself, a 4% Tier 1 risk-based capital standard. Office of Thrift Supervision regulations also require that in meeting the tangible, leverage and risk-based capital standards, institutions must generally deduct investments in and loans to subsidiaries engaged in activities as principal that are not permissible for a national bank.

The risk-based capital standard for savings institutions requires the maintenance of Tier 1 (core) and total capital (which is defined as core capital and supplementary capital) to risk-weighted assets of at least 4% and 8%, respectively. In determining the amount of risk-weighted assets, all assets, including certain off-balance sheet assets, are multiplied by a risk-weight factor of 0% to 100%, assigned by the Office of Thrift Supervision capital regulation based on the risks believed inherent in the type of asset. Core capital is defined as common stockholders' equity (including retained earnings), certain noncumulative perpetual preferred stock and related surplus and minority interests in equity accounts of consolidated subsidiaries, less intangibles other than certain mortgage servicing rights and credit card relationships. The components of supplementary capital currently include cumulative preferred stock, long-term perpetual preferred stock, mandatory convertible securities, subordinated debt and intermediate preferred stock, the allowance for loan and lease losses limited to a maximum of 1.25% of risk-weighted assets, and up to 45% of unrealized gains on available-for-sale equity securities with readily determinable fair market values. Overall, the amount of supplementary capital included as part of total capital cannot exceed 100% of core capital.

The capital regulations also incorporate an interest rate risk component. Savings institutions with "above normal" interest rate risk exposure are subject to a deduction from total capital for purposes of calculating their risk-based capital requirements. For the present time, the Office of Thrift Supervision has deferred implementation of the interest rate risk capital charge. At December 31, 2010, Cheviot Savings Bank met each of its capital requirements.

## Prompt Corrective Regulatory Action

Under the Office of Thrift Supervision Prompt Corrective Action regulations, the Office of Thrift Supervision is required to take supervisory actions against undercapitalized institutions, the severity of which depends upon the institution's level of capital. Generally, a savings institution that has total risk-based capital of less than 8.0% or a leverage ratio or a Tier 1 core capital ratio that is less than 4.0% is considered to be undercapitalized. A savings institution that has total risk-based capital less than 6.0%, a Tier 1 core risk-based capital ratio of less than 3.0% or a leverage ratio that is less than 3.0% is considered to be "significantly undercapitalized." A savings institution that has a tangible capital to assets ratio equal to or less than 2.0% is deemed to be "critically undercapitalized." Generally, the banking regulator is required to appoint a receiver or conservator for an institution that is "critically undercapitalized." The regulation also provides that a capital restoration plan must be filed with the Office of Thrift Supervision within 45 days of the date an institution receives notice that it is "undercapitalized," "significantly undercapitalized" or "critically undercapitalized." In addition, numerous mandatory supervisory actions become immediately applicable to the institution, including, but not limited to, restrictions on growth, investment activities, capital distributions, and affiliate transactions. The Office of Thrift Supervision may also take any one of a number of discretionary supervisory actions against undercapitalized institutions, including the issuance of a capital directive and the replacement of senior executive officers and directors.

## Insurance of Deposit Accounts

We are a member of the Deposit Insurance Fund, which is administered by the Federal Deposit Insurance Corporation. The Dodd-Frank Act increases the maximum amount of deposit insurance for banks, savings institutions and credit unions to \$250,000 per depositor, retroactive to January 1, 2008. Non-interest bearing transaction accounts have unlimited deposit insurance through December 31, 2012.

Pursuant to the Federal Deposit Insurance Reform Act of 2005 (the "Reform Act"), the Federal Deposit Insurance Corporation is authorized to set the reserve ratio for the Deposit Insurance Fund annually at between 1.15% and 1.5% of estimated insured deposits. The Dodd-Frank Act mandates that the statutory minimum reserve ratio of the Deposit Insurance Fund increase from 1.15% to 1.35% of insured deposits by September 30, 2020. Banks with assets of less than \$10 billion are exempt from any additional assessments necessary to increase the reserve fund above 1.15%.

As part of a plan to restore the reserve ratio to 1.15%, the Federal Deposit Insurance Corporation imposed a special assessment equal to five basis points of assets less Tier 1 capital as of June 30, 2009, which was payable on September 30, 2009. In addition, the Federal Deposit Insurance Corporation has increased its quarterly deposit insurance assessment rates and amended the method by which rates are calculated. Beginning in the second quarter of 2009, institutions are assigned an initial base assessment rate ranging from 12 to 45 basis points of deposits depending on risk category. The initial base assessment is then adjusted based upon the level of unsecured debt, secured liabilities, and brokered deposits to establish a total base assessment rate ranging from seven to 77.5 basis points.

On November 12, 2009, the Federal Deposit Insurance Corporation approved a final rule requiring insured depository institutions to prepay on December 30, 2009, their estimated quarterly risk-based assessments for the fourth quarter of 2009, and for all of 2010, 2011, and 2012. Estimated assessments for the fourth quarter of 2009 and for all of 2010 are based upon the assessment rate in effect on September 30, 2009, with three basis points added for the 2011 and 2012 assessment rates. In addition, a 5% annual growth in the assessment base is assumed. Prepaid assessments are to be applied against the actual quarterly assessments until exhausted, and may not be applied to any special assessments that may occur in the future. Any unused prepayments will be returned to the institution on June 30, 2013. On December 30, 2009, we prepaid \$968,000 in estimated assessment fees for the fourth quarter of 2009 through 2012. Because the prepaid assessments represent the prepayment of future expense, they do not affect our regulatory capital (the prepaid asset will have a risk-weighting of 0%) or tax obligations.

In February 2011, as required by the Dodd Frank Act, the Federal Deposit Insurance Corporation adopted a final rule revising the assessment base to consist of average consolidated total assets during the assessment period minus the average tangible equity during the assessment period. In addition, the final rule eliminates the adjustment for secured borrowings and makes certain other changes to the impact of unsecured borrowings and brokered deposits on an institution's deposit insurance assessment. The proposed rule also revises the assessment rate schedule to provide assessments ranging from five to 45 basis points. The final rule is effective April 1, 2011.

Insurance of deposits may be terminated by the Federal Deposit Insurance Corporation upon a finding that an institution has engaged in unsafe or unsound practices, is in an unsafe or unsound condition to continue operations or has violated any applicable law, regulation, rule, order or condition imposed by the Federal Deposit Insurance Corporation. We do not currently know of any practice, condition or violation that may lead to termination of our deposit insurance.

In addition to the Federal Deposit Insurance Corporation assessments, the Financing Corporation (“FICO”) is authorized to impose and collect, with the approval of the Federal Deposit Insurance Corporation, assessments for anticipated payments, issuance costs and custodial fees on bonds issued by the FICO in the 1980s to recapitalize the former Federal Savings and Loan Insurance Corporation. The bonds issued by the FICO are due to mature in 2017 through 2019. For the quarter ended December 31, 2010, the annualized FICO assessment was equal to 1.04 basis points for each \$100 in domestic deposits maintained at an institution.

#### Temporary Liquidity Guarantee Program

The Federal Deposit Insurance Corporation’s Temporary Liquidity Guarantee Program guarantee newly issued senior unsecured debt of a participating organization, up to certain limits established for each institution, issued between October 14, 2008 and June 30, 2009. The Federal Deposit Insurance Corporation extended this component of the program to cover debt issued through October 31, 2009. The Federal Deposit Insurance Corporation paid the unpaid principal and interest on Federal Deposit Insurance Corporation-guaranteed debt instruments upon the uncured failure of the participating entity to make timely payments of principal or interest in accordance with the terms of the instrument. The guarantee will remain in effect until December 31, 2012. In return for the Federal Deposit Insurance Corporation’s guarantee, participating institutions will pay the Federal Deposit Insurance Corporation a fee based on the amount and maturity of the debt. We opted not to participate in this part of the Temporary Liquidity Guarantee Program.

The other part of the Temporary Liquidity Guarantee Program provided full federal deposit insurance coverage for noninterest-bearing transaction deposit accounts, regardless of dollar amount, until December 31, 2010. Through December 31, 2009, an annualized 10 basis point assessment on balances in noninterest-bearing transaction accounts that exceed \$250,000 was assessed to insured depository institutions that have not opted out of this component of the Temporary Liquidity Guarantee Program. Beginning January 1, 2010, the fees were based on the institution’s risk category rating assigned with respect to regular Federal Deposit Insurance Corporation assessments. Institutions in Risk Category I (generally well-capitalized institutions with composite CAMELS 1 or 2 ratings) pay an annualized assessment rate of 15 basis points. Institutions in Risk Category II (generally adequately capitalized institutions with composite CAMELS 3 or better) pay an annualized assessment rate of 20 basis points. Institutions in Risk Category III or IV (generally under capitalized or composite CAMELS 4 or 5) pay an annualized assessment rate of 25 basis points. We opted to participate in this component of the Temporary Liquidity Guarantee Program. The Dodd-Frank Act extended the unlimited coverage for certain non-interest bearing transaction accounts through December 31, 2012 with no opt out option. The cost is included in the regular FDIC assessment.

#### Federal Home Loan Bank System

We are a member of the Federal Home Loan Bank System, which consists of 12 regional Federal Home Loan Banks. The Federal Home Loan Bank System provides a central credit facility primarily for member institutions. As a member of the Federal Home Loan Bank of Cincinnati we are required to acquire and hold shares of capital stock in the Federal Home Loan Bank in an amount equal to at least 1% of the aggregate principal amount of our unpaid residential mortgage loans and similar obligations at the beginning of each year, or 1/20 of our borrowings from the Federal Home Loan Bank, whichever is greater. As of December 31, 2010, we were in compliance with this requirement. The Federal Home Loan Banks are required to provide funds for the resolution of insolvent thrifts and to contribute funds for affordable housing programs. These requirements could reduce the amount of dividends that the Federal Home Loan Banks pay to their members and could also result in the Federal Home Loan Banks imposing a higher rate of interest on advances to their members.

## Ohio Savings and Loan Law

The Ohio Division of Financial Institutions is responsible for the regulation and supervision of Ohio savings institutions in accordance with the laws of the State of Ohio. Ohio law prescribes the permissible investments and activities of Ohio savings and loan associations, including the types of lending that such associations may engage in and the investments in real estate, subsidiaries, and corporate or government securities that such associations may make.

The Ohio Division of Financial Institutions also has approval authority over the payment of dividends and any mergers involving or acquisitions of control of Ohio savings institutions. The Ohio Division of Financial Institutions may initiate certain supervisory measures or formal enforcement actions against Ohio associations. Ultimately, if the grounds provided by law exist, the Ohio Division of Financial Institutions may place an Ohio association in conservatorship or receivership.

The Ohio Division of Financial Institutions conducts regular examinations of Cheviot Savings Bank approximately once every eighteen months. Such examinations are usually conducted jointly with one or both federal regulators. The Ohio Division of Financial Institutions imposes assessments on Ohio associations based on their asset size to cover the cost of supervision and examination.

## Other Regulations

Interest and other charges collected or contracted for by Cheviot Savings Bank are subject to state usury laws and federal laws concerning interest rates. Cheviot Savings Bank's operations are also subject to federal laws applicable to credit transactions, such as the:

Truth-In-Lending Act, governing disclosures of credit terms to consumer borrowers;

Home Mortgage Disclosure Act, requiring financial institutions to provide information to enable the public and public officials to determine whether a financial institution is fulfilling its obligation to help meet the housing needs of the community it serves;

Equal Credit Opportunity Act, prohibiting discrimination on the basis of race, creed or other prohibited factors in extending credit;

Fair Credit Reporting Act, governing the use and provision of information to credit reporting agencies;

Fair Debt Collection Act, governing the manner in which consumer debts may be collected by collection agencies;

Truth in Savings Act; and

Rules and regulations of the various federal agencies charged with the responsibility of implementing such federal laws.

The operations of Cheviot Savings Bank also are subject to the:

Right to Financial Privacy Act, which imposes a duty to maintain confidentiality of consumer financial records and prescribes procedures for complying with administrative subpoenas of financial records;

Electronic Funds Transfer Act and Regulation E promulgated thereunder, which govern automatic deposits to and withdrawals from deposit accounts and customers' rights and liabilities arising from the use of automated teller machines and other electronic banking services;

Check Clearing for the 21st Century Act (also known as "Check 21"), which gives "substitute checks," such as digital check images and copies made from that image, the same legal standing as the original paper check;

The USA PATRIOT Act, which requires savings banks to, among other things, establish broadened anti-money laundering compliance programs, and due diligence policies and controls to ensure the detection and reporting of money laundering. Such required compliance programs are intended to supplement existing compliance requirements that also apply to financial institutions under the Bank Secrecy Act and the Office of Foreign Assets Control regulations; and

The Gramm-Leach-Bliley Act, which places limitations on the sharing of consumer financial information by financial institutions with unaffiliated third parties. Specifically, the Gramm-Leach-Bliley Act requires all financial institutions offering financial products or services to retail customers to provide such customers with the financial institution's privacy policy and provide such customers the opportunity to "opt out" of the sharing of certain personal financial information with unaffiliated third parties.

#### Holding Company Regulation

General. Cheviot Mutual Holding Company and Cheviot Financial Corp. are nondiversified mutual savings and loan holding companies within the meaning of the Home Owners' Loan Act. As such, Cheviot Mutual Holding Company and Cheviot Financial Corp. are registered with the Office of Thrift Supervision and are subject to Office of Thrift Supervision regulations, examinations, supervision and reporting requirements. In addition, the Office of Thrift Supervision has enforcement authority over Cheviot Financial Corp. and Cheviot Mutual Holding Company and their subsidiaries. Among other things, this authority permits the Office of Thrift Supervision to restrict or prohibit activities that are determined to be a serious risk to the subsidiary savings institution. As federal corporations, Cheviot Financial Corp. and Cheviot Mutual Holding Company are generally not subject to state business organization laws. Under the Dodd-Frank Act, the functions of the Office of Thrift Supervision relating to savings and loan holding companies and their subsidiaries, as well as rulemaking and supervision authority over thrift holding companies, will be transferred to the Federal Reserve Board. There can be no assurance that the Federal Reserve Board will not impose additional regulations on savings and loan holding companies.

Permitted Activities. Pursuant to Section 10(o) of the Home Owners' Loan Act and Office of Thrift Supervision regulations and policy, a mutual holding company, such as Cheviot Mutual Holding Company, and a federally chartered mid-tier holding company such as Cheviot Financial Corp. may engage in the following activities: (i) investing in the stock of a savings association; (ii) acquiring a mutual association through the merger of such association into a savings association subsidiary of such holding company or an interim savings association subsidiary of such holding company; (iii) merging with or acquiring another holding company, one of whose subsidiaries is a savings association; (iv) investing in a corporation, the capital stock of which is available for purchase by a savings association under federal law or under the law of any state where the subsidiary savings association or associations share their home offices; (v) furnishing or performing management services for a savings association subsidiary of such company; (vi) holding, managing or liquidating assets owned or acquired from a savings subsidiary of such company; (vii) holding or managing properties used or occupied by a savings association subsidiary of such company; (viii) acting as trustee under deeds of trust; (ix) any other activity (A) that the Federal Reserve Board, by regulation, has determined to be permissible for bank holding companies under Section 4(c) of the Bank Holding Company Act of 1956, unless the Director, by regulation, prohibits or limits any such activity for savings and loan holding companies; or (B) in which multiple savings and loan holding companies were authorized (by regulation) to directly engage on March 5, 1987; (x) any activity permissible for financial holding companies under Section 4(k) of the Bank Holding Company Act, including securities and insurance underwriting; and (xi) purchasing, holding, or disposing of stock acquired in connection with a qualified stock issuance if the purchase of such stock by such savings and loan holding company is approved by the Director. If a mutual holding company acquires or merges with another holding company, the holding company acquired or the holding company resulting from such merger or acquisition may only invest in assets and engage in activities listed in (i) through (xi) above, and has a period of two years to cease any nonconforming activities and divest of any nonconforming investments.

The Home Owners' Loan Act prohibits a savings and loan holding company, including Cheviot Financial Corp. and Cheviot Mutual Holding Company, directly or indirectly, or through one or more subsidiaries, from acquiring another savings institution or holding company thereof, without prior written approval of the Office of Thrift Supervision. It also prohibits the acquisition or retention of, with certain exceptions, more than 5% of a nonsubsidiary savings institution, a nonsubsidiary holding company, or a nonsubsidiary company engaged in activities other than those permitted by the Home Owners' Loan Act; or acquiring or retaining control of an institution that is not federally insured. In evaluating applications by holding companies to acquire savings institutions, the Office of Thrift Supervision must consider the financial and managerial resources, future prospects of the company and institution involved, the effect of the acquisition on the risk to the insurance fund, the convenience and needs of the community and competitive factors.

The Office of Thrift Supervision is prohibited from approving any acquisition that would result in a multiple savings and loan holding company controlling savings institutions in more than one state, subject to two exceptions: (i) the approval of interstate supervisory acquisitions by savings and loan holding companies, and (ii) the acquisition of a savings institution in another state if the laws of the state of the target savings institution specifically permit such acquisitions. The states vary in the extent to which they permit interstate savings and loan holding company acquisitions.

Waivers of Dividends by Cheviot Mutual Holding Company. Office of Thrift Supervision regulations require Cheviot Mutual Holding Company to notify the Office of Thrift Supervision of any proposed waiver of its receipt of dividends from Cheviot Financial Corp. The Office of Thrift Supervision reviews dividend waiver notices on a case-by-case basis, and, in general, does not object to any such waiver if: (i) the mutual holding company's board of directors determines that such waiver is consistent with such directors' fiduciary duties to the mutual holding company's members; and (ii) the waiver would not be detrimental to the safe and sound operation of the subsidiary savings bank. Under Office of Thrift Supervision regulations, our public stockholders would not be diluted because of any dividends waived by Cheviot Mutual Holding Company (and waived dividends would not be considered in determining an

appropriate exchange ratio) in the event Cheviot Mutual Holding Company converts to stock form.

The Dodd-Frank Act addressed the issue of dividend waivers by mutual savings and loan holding companies in the context of the transfer of the supervision of savings and loan holding companies from the OTS to the Federal Reserve Board. The Dodd-Frank Act specified that dividends may be waived if certain conditions are met, including that the Federal Reserve Board does not object after being given written notice of the dividend and proposed waiver. The Dodd-Frank Act indicates that the Federal Reserve Board may not object to such a waiver (i) if the mutual holding company involved has, prior to December 1, 2009, reorganized into a mutual holding company structure, engaged in a minority stock offering and waived dividends; (ii) the board of directors of the mutual holding company expressly determines that a waiver of the dividend is consistent with its fiduciary duties to members and (iii) the waiver would not be detrimental to the safe and sound operation of the savings association subsidiaries of the holding company.

The Federal Reserve Board has not permitted dividend waivers by mutual bank holding companies in the past and it is uncertain whether the Federal Reserve Board would permit dividend waivers by mutual savings and loan holding companies notwithstanding the Dodd-Frank provision that would otherwise allow Cheviot Mutual Holding Company to waive dividends.

Conversion of Cheviot Mutual Holding Company to Stock Form. Office of Thrift Supervision regulations permit Cheviot Mutual Holding Company to convert from the mutual form of organization to the capital stock form of organization (a "Conversion Transaction"). In a Conversion Transaction a new holding company would be formed as the successor to Cheviot Financial Corp. (the "New Holding Company"), Cheviot Mutual Holding Company's corporate existence would end, and certain depositors of Cheviot Savings Bank would receive the right to subscribe for additional shares of the New Holding Company. In a Conversion Transaction, each share of common stock held by stockholders other than Cheviot Mutual Holding Company ("Minority Stockholders") would be automatically converted into a number of shares of common stock of the New Holding Company determined pursuant an exchange ratio that ensures that Minority Stockholders own the same percentage of common stock in the New Holding Company as they owned in Cheviot Financial Corp. immediately prior to the Conversion Transaction. Under Office of Thrift Supervision regulations, Minority Stockholders would not be diluted because of any dividends waived by Cheviot Mutual Holding Company (and waived dividends would not be considered in determining an appropriate exchange ratio), in the event Cheviot Mutual Holding Company converts to stock form. The total number of shares held by Minority Stockholders after a Conversion Transaction also would be increased by any purchases by Minority Stockholders in the stock offering conducted as part of the Conversion Transaction.

Capital. Savings and loan holding companies are not currently subject to specific regulatory capital requirements. The Dodd-Frank Act, however, requires the Federal Reserve Board to promulgate consolidated capital requirements for depository institution holding companies that are no less stringent, both quantitatively and in terms of components of capital, than those applicable to institutions themselves. Instruments such as cumulative preferred stock and trust preferred securities will no longer be includable as Tier 1 capital as is currently the case with bank holding companies. Instruments issued by May 19, 2010 will be grandfathered for companies with consolidated assets of \$15 billion or less. There is a five-year transition period (from the July 21, 2010 effective date of the Dodd-Frank Act) before the capital requirements will apply to savings and loan holding companies.

Source of Strength. The Dodd-Frank Act also extends the "source of strength" doctrine to savings and loan holding companies. The regulatory agencies must issue regulations requiring that all bank and savings and loan holding companies serve as a source of strength to their subsidiary depository institutions by providing capital, liquidity and other support in times of financial stress.

Dividends. Cheviot Savings Bank must notify the Office of Thrift Supervision thirty (30) days before declaring any dividend to Cheviot Financial Corp. The financial impact of a holding company on its subsidiary institution is a matter that is evaluated by the Office of Thrift Supervision and the agency has authority to order cessation of activities or divestiture of subsidiaries deemed to pose a threat to the safety and soundness of the institution.

#### Sarbanes-Oxley Act of 2002

The Sarbanes-Oxley Act of 2002 was enacted in response to public concerns regarding corporate accountability in connection with a number of accounting scandals. The stated goals of the Sarbanes-Oxley Act were to increase corporate responsibility, to provide for enhanced penalties for accounting and auditing improprieties at publicly traded companies, and to protect investors by improving the accuracy and reliability of corporate disclosures pursuant to the securities laws. The Sarbanes-Oxley Act generally applies to all companies that file or are required to file periodic reports with the SEC, under the Securities Exchange Act of 1934.

The Sarbanes-Oxley Act includes very specific additional disclosure requirements and new corporate governance rules requiring the SEC and securities exchanges to adopt extensive additional disclosure, corporate governance and other related rules, and mandates further studies of certain issues by the SEC. The Sarbanes-Oxley Act represents significant federal involvement in matters traditionally left to state regulatory systems, such as the regulation of the accounting profession, and to state corporate law, such as the relationship between a board of directors and management and between a board of directors and its committees.

## TAXATION

### Federal Taxation

For federal income tax purposes, Cheviot Financial Corp. and Cheviot Savings Bank file a consolidated federal income tax returns on a calendar year basis using the accrual method of accounting.

As a result of the enactment of the Small Business Job Protection Act of 1996, all savings banks and savings associations may convert to a commercial bank charter, diversify their lending, or merge into a commercial bank without having to recapture any of their pre-1988 tax bad debt reserve accumulations. However, transactions which would require recapture of the pre-1988 tax bad debt reserve include redemption of Cheviot Savings Bank's stock, payment of dividends or distributions in excess of earnings and profits, or failure by the institution to qualify as a bank for federal income tax purposes. At December 31, 2010, Cheviot Savings Bank had pre-1988 bad debt reserves totaling approximately \$3.0 million. A deferred tax liability has not been provided on this amount as management does not intend to make distributions, redeem stock or fail certain bank tests that would result in recapture of the reserve.

Deferred income taxes arise from the recognition of items of income and expense for tax purposes in years different from those in which they are recognized in the consolidated financial statements. Cheviot Financial Corp. will account for deferred income taxes by the asset and liability method, applying the enacted statutory rates in effect at the balance sheet date to differences between the book basis and the tax basis of assets and liabilities. The resulting deferred tax liabilities and assets will be adjusted to reflect changes in the tax laws.

Cheviot Financial Corp. is subject to the corporate alternative minimum tax to the extent it exceeds Cheviot Financial Corp.'s regular income tax for the year. The alternative minimum tax will be imposed at the rate of 20% of a specially computed tax base. Included in this base are a number of preference items, including interest on certain tax-exempt bonds issued after August 7, 1986, and an "adjusted current earnings" computation which is similar to a tax earnings and profits computation. In addition, for purposes of the alternative minimum tax, the amount of alternative minimum

taxable income that may be offset by net operating losses is limited to 90% of alternative minimum taxable income.

Cheviot Savings Bank's income tax returns have not been audited by the Internal Revenue Service within the past five years.

#### State Taxation

Cheviot Financial Corp. and Cheviot Savings Bank are subject to Ohio taxation in the same general manner as other corporations. In particular, Cheviot Financial Corp. and Cheviot Savings Bank are subject to the Ohio corporation franchise tax, which is an excise tax imposed on corporations for the privilege of doing business in Ohio, owning capital or property in Ohio, holding a charter or certificate of compliance authorizing the corporation to do business in Ohio, or otherwise having nexus with Ohio during a calendar year. The franchise tax is imposed on the value of a corporation's issued and outstanding shares of stock. Financial institutions determine the value of their issued and outstanding shares based upon the net worth of the shares. For Ohio franchise tax purposes, savings institutions are currently taxed at a rate equal to 1.3% of taxable net worth. Cheviot Savings Bank is currently under audit with respect to its 2005 Ohio franchise tax returns.

#### MANAGEMENT

Executive Officers of Cheviot Financial Corp.

The following individuals hold the following executive officer positions with Cheviot Financial Corp.

| Name               | Age | Position                              |
|--------------------|-----|---------------------------------------|
| Thomas J. Linneman | 57  | President and Chief Executive Officer |
| Scott T. Smith     | 41  | Chief Financial Officer               |

#### Availability of Annual Report on Form 10-K

Our Annual Report on Form 10-K may be accessed on our website at [www.cheviotsavings.com](http://www.cheviotsavings.com). Information on our website should not be considered a part of this annual report.

#### ITEM 1A.

#### RISK FACTORS

Changing Interest Rates May Cause Net Earnings to Decline.

In the event that interest rates rise, our net interest margin and interest rate spread will be adversely affected by the high level of assets with fixed rates of interest which we retain in our portfolio. As market interest rates rise, we will have competitive pressures to increase the rates we pay on deposits, which will result in a decrease of our net interest income. Furthermore, the value of our loans will be less should we choose to sell such loans in the secondary market. Since, as a general matter, our interest-bearing liabilities reprice or mature more quickly than our interest-earning assets, an increase in interest rates generally would result in a decrease in our average interest rate spread and net interest income.

**If Our Allowance for Loan Losses is Not Sufficient to Cover Actual Loan Losses, Our Earnings Could Decrease.**

Our loan customers may not repay their loans according to their terms, and the collateral securing the payment of these loans may be insufficient to pay any remaining loan balance. We may experience significant loan losses, which could have a material adverse effect on our operating results. We make various assumptions and judgments about the collectibility of our portfolio, including the creditworthiness of our borrowers and the value of the real estate and other assets serving as collateral for the repayment of many of our loans.

In determining the amount of the allowance for loan losses, we review individual delinquent multi-family and commercial real estate loans for potential impairments in their carrying values. Additionally, we apply a factor to the loan portfolio principally based on historical loss experience as applied to the composition of the one- to-four family loan portfolio and integrated with our perception of risk in the economy related to past experience. Since we must use assumptions regarding individual loans and the economy, our current allowance for loan losses may not be sufficient to cover actual loan losses, and increases in the allowance may be necessary. Consequently, we may need to significantly increase our provision for losses on loans, particularly if one or more of our larger loans or credit relationships becomes delinquent or if we expand our non-residential, multi-family or commercial business lending. In addition, federal and state regulators periodically review our allowance for loan losses and may require us to increase our provision for loan losses or recognize loan charge-offs.

**If Economic Conditions Deteriorate, Our Earnings Could be Adversely Impacted as Borrowers' Ability to Repay Loans Declines and the Value of the Collateral Securing Our Loans Decreases.**

Our financial results may be adversely affected by changes in prevailing economic conditions, including decreases in real estate values, changes in interest rates which may cause a decrease in interest rate spreads, adverse employment conditions, the monetary and fiscal policies of the federal government and other significant external events. Since we have a significant amount of real estate loans, decreases in real estate values could adversely affect the value of property used as collateral. Advance changes in the economy may also have a negative effect on the ability of our borrowers to make timely repayments of their loans, which would have an adverse impact on our earnings.

In addition, substantially all of our loans are to individuals and businesses in Hamilton County, Ohio. Consequently, any decline in the economy of this market area could have an adverse impact on our earnings.

**Our Public Shareholders Do Not Exercise Voting Control Over Cheviot Financial Corp.**

A majority of the voting stock of Cheviot Financial Corp. is owned by Cheviot Mutual Holding Company. Cheviot Mutual Holding Company is controlled by its board of directors, who consist of those persons who are members of the board of directors of Cheviot Financial Corp. and Cheviot Savings Bank. Cheviot Mutual Holding Company elects all members of the board of directors of Cheviot Financial Corp., and, as a general matter, controls the outcome of all matters presented to the stockholders of Cheviot Financial Corp. for resolution by vote, except for matters that require a vote greater than a majority vote. Consequently, Cheviot Mutual Holding Company, acting through its board of directors, is able to control the business and operations of Cheviot Financial Corp. and may be able to prevent any challenge to the ownership or control of Cheviot Financial Corp. by stockholders other than Cheviot Mutual Holding Company. There is no assurance that Cheviot Mutual Holding Company will not take actions that the public stockholders believe are against their interests.

We Operate in a Highly Regulated Environment and may be Adversely Affected by Changes in Laws and Regulations.

We are subject to extensive regulation, supervision and examination by the Office of Thrift Supervision, our chartering authority, and by the Federal Deposit Insurance Corporation, as insurer of deposits. As federally chartered holding companies, Cheviot Financial Corp. and Cheviot Mutual Holding Company also will be subject to regulation and oversight by the Office of Thrift Supervision. Such regulation and supervision govern the activities in which an institution and its holding companies may engage and are intended primarily for the protection of the insurance fund and depositors. Regulatory authorities have extensive discretion in connection with their supervisory and enforcement activities, including the imposition of restrictions on the operation of an institution, the classification of assets by the institution and the adequacy of an institution's allowance for loan losses. Any change in such regulation and oversight, whether in the form of regulatory policy, regulations, or legislation, including changes in the regulations governing mutual holding companies, could have a material impact on Cheviot Savings Bank, Cheviot Financial Corp., and our operations.

Financial reform legislation recently enacted by Congress will, among other things, eliminate the Office of Thrift Supervision, tighten capital standards, create a new Consumer Financial Protection Bureau and result in new laws and regulations that are expected to increase our costs of operations.

Congress recently enacted the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act"), which will significantly change the current bank regulatory structure and affect the lending, investment, trading and operating activities of financial institutions and their holding companies. The Dodd-Frank Act will eliminate the Office of Thrift Supervision's supervision and examination functions relating to Cheviot Savings Bank which will be transferred to the Federal Deposit Insurance Corporation; however, rulemaking authority will be transferred to the Comptroller of the Currency, all by July 21, 2011, unless extended by up to six months by the Secretary of the Treasury. The Dodd-Frank Act also authorizes the Board of Governors of the Federal Reserve System to supervise and regulate all savings and loan holding companies like Cheviot Financial Corp., in addition to bank holding companies which it currently regulates. The Dodd-Frank Act also requires the Federal Reserve Board to set minimum capital levels for bank holding companies that are as stringent as those required for the insured depository subsidiaries, and the components of Tier 1 capital would be restricted to capital instruments that are currently considered to be Tier 1 capital for insured depository institutions. Savings and loan holding companies are subject to a five year transition period before the holding company capital requirement will apply. The legislation also establishes a floor for capital of insured depository institutions that cannot be lower than the standards in effect today, and directs the federal banking regulators to implement new leverage and capital requirements within 18 months that take into account off-balance sheet activities and other risks, including risks relating to securitized products and derivatives.

The Dodd-Frank Act also creates a new Consumer Financial Protection Bureau with broad powers to supervise and enforce consumer protection laws. The Consumer Financial Protection Bureau has broad rule-making authority for a wide range of consumer protection laws that apply to all banks and savings institutions such as Cheviot Savings Bank, including the authority to prohibit "unfair, deceptive or abusive" acts and practices. The Consumer Financial Protection Bureau has examination and enforcement authority over all banks and savings institutions with more than \$10 billion in assets. Banks and savings institutions with \$10 billion or less in assets will be examined by their applicable bank regulators. The new legislation also weakens the federal preemption available for national banks and federal savings associations, and gives state attorneys general the ability to enforce applicable federal consumer protection laws.

The legislation also broadens the base for Federal Deposit Insurance Corporation insurance assessments. Assessments will now be based on the average consolidated total assets less tangible equity capital of a financial institution. The Dodd-Frank Act also permanently increases the maximum amount of deposit insurance for banks, savings institutions and credit unions to \$250,000 per depositor, retroactive to January 1, 2008, and non-interest bearing transaction accounts have unlimited deposit insurance through December 31, 2012. The Dodd-Frank Act will increase stockholder influence over boards of directors by requiring companies to give stockholders a non-binding vote on executive compensation and so-called “golden parachute” payments, and by authorizing the Securities and Exchange Commission to promulgate rules that would allow stockholders to nominate their own candidates using a company’s proxy materials. The legislation also directs the Federal Reserve Board to promulgate rules prohibiting excessive compensation paid to bank holding company executives, regardless of whether the company is publicly traded or not. Further, the legislation requires that originators of securitized loans retain a percentage of the risk for transferred loans, directs the Federal Reserve Board to regulate pricing of certain debit card interchange fees and contains a number of reforms related to mortgage origination. Many of the provisions of Dodd-Frank involve delayed effective dates and/or require implementing regulations. Accordingly, it will be some time before management can assess the full impact on operations. However, there is a significant possibility that the Dodd-Frank Act will, at a minimum, result in an increased regulatory burden and compliance, operating and interest expense for Cheviot Savings Bank and Cheviot Financial Corp.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements identified in Item 15(a)(1) hereof are incorporated by reference to the Annual Report to Shareholders included as Exhibit 13 to the Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision, and with the participation, of our Chief Executive Officer and Chief Financial Officer, our management evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-15(b), as adopted by the Securities and Exchange Commission (the "SEC") under the Securities Exchange Act of 1934 (the "Exchange Act"). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this annual report.

Disclosure controls and procedures are the controls and other procedures that are designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) Management's Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. Our system of internal control is designed under the supervision of management, including our Chief Executive Officer and Chief Financial Officer, to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of the Company's financial statements for external reporting purposes in accordance with U.S. generally accepted accounting principles ("GAAP").

Our internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of assets, provide reasonable assurances that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures are made only in accordance with the authorization of management and the Boards of Directors of the Company and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that the controls may become inadequate because of changes in conditions or that the degree of compliance with policies and procedures may deteriorate.

As of December 31, 2010, management assessed the effectiveness of the Company's internal control over financial reporting based upon the framework established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based upon its assessment, management believes that the Company's internal control over financial reporting as of December 31, 2010 is effective using these criteria.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to provisions of the Dodd-Frank Act that permit the Company to provide only management's report in this annual report.

#### (c) Changes in Internal Control over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

See the Certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

ITEM 9B.

#### OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information concerning Directors of the Company is incorporated herein by reference from the Company's definitive Proxy Statement (the "Proxy Statement"), specifically the section captioned "Proposal I—Election of Directors." In addition, see "Executive Officers of Cheviot Financial Corp." in Item 1 for information concerning the Company's executive officers. Information concerning corporate governance matters is incorporated by reference from the Company's Proxy Statement.

The Board of Directors has adopted a Code of Ethics, applicable to the Chief Executive Officer and Chief Financial Officer. The Code of Ethics may be accessed through our website at [www.cheviotsavings.com](http://www.cheviotsavings.com) and is filed as Exhibit 14 hereto.

ITEM 11. EXECUTIVE COMPENSATION

Information concerning executive compensation is incorporated herein by reference from the Company's Proxy Statement, specifically the section captioned "Executive Compensation."

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information concerning security ownership of certain owners and management is incorporated herein by reference from the Company's Proxy Statement, specifically the section captioned "Voting Securities and Principal Holder Thereof."

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information concerning relationships and transactions, and director independence, is incorporated herein by reference from the Company's Proxy Statement, specifically the sections captioned "Transactions with Certain Related Persons" and "Proposal I-Election of Directors."

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information concerning principal accountant fees and services is incorporated herein by reference from the Company's Proxy Statement under the caption "Proposal II-Ratification of Independent Registered Public Accountants."

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

The exhibits and financial statement schedules filed as a part of this Form 10-K are as follows:

(a)(1) Financial Statements

Report of Independent Registered Public Accounting Firm.

Consolidated Statements of Financial Condition at December 31, 2010 and 2009.

Consolidated Statements of Earnings for the Years Ended December 31, 2010, 2009 and 2008.

Consolidated Statements of Comprehensive Income for the Years Ended December 31, 2010, 2009 and 2008.

Consolidated Statements of Stockholders' Equity for the Years Ended December 31, 2010, 2009 and 2008.

Consolidated Statements of Cash Flows for the Years Ended December 31, 2010, 2009 and 2008.

Notes to Consolidated Financial Statements.

(a)(2) Financial Statement Schedules

No financial statement schedules are filed because the required information is not applicable or is included in the consolidated financial statements or related notes.
