The Fund follows fair valuation accounting standards (FASB ASC 820-10) which establish a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion of changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

- Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access at the measurement date;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;
- Level 3 Inputs that are unobservable.

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following table summarizes the inputs used to value the Fund's investments in securities as of March 31, 2012:

Investments in Securities:	Level 1	Level 2	Level 3		Total
Assets Common Stocks	\$ 129,793,847	\$ 0	\$	0	\$ 129,793,847
Short-Term Investments	0	7,500,000		0	7,500,000
Total Investments in Securities	\$ 129,793,847	\$ 7,500,000	\$	0	\$ 137,293,847

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2011- 04, "Fair Value Measurements and Disclosures (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs" ("ASU 2011-04"). ASU 2011-04 clarifies the application of existing fair value measurement requirements, changes certain principles related to measuring fair value, and requires additional disclosures about fair value measurements.

Specifically, the guidance specifies that the concepts of highest and best use and valuation premise in a fair value measurement are only relevant when measuring the fair value of nonfinancial assets whereas they are not relevant when measuring the fair value of financial assets and liabilities.

Required disclosures are expanded under the new guidance, especially for fair value measurements that are categorized within Level 3 of the fair value hierarchy, for which quantitative information about the unobservable inputs used, and a narrative description of the valuation processes in place and sensitivity of recurring Level 3 measurements to changes in unobservable inputs will be required. Entities will also be required to disclose the categorization by level of the fair value hierarchy for items that are not measured at fair value in the statement of financial position but for which the fair value is required to be disclosed.

ASU 2011-04 is effective for annual periods beginning after December 15, 2011 and is to be applied prospectively. The Fund is currently assessing the impact of this guidance on its financial statements.

The Fund follows the updated provisions surrounding fair value measurements and disclosures on transfers in and out of all levels of the fair value hierarchy on a gross basis and the reasons for the transfers as well as to disclosures about the valuation techniques and inputs used to measure fair value for investments that fall in either Level 2 or Level 3 fair value hierarchy.

For the period ended March 31, 2012, there was no significant transfer activity between Level 1 and Level 2.

For the period ended March 31, 2012, there were no Level 3 investments. The Schedule of Investments includes a breakdown of the Schedule's investments by category.

Item 2. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in rule 30a-2(c) under the Act (17 CFR 270.30a-2(c)) based on their evaluation of these controls and procedures as of the date within 90 days of filing date of this report, are approximately designed to ensure that material information relating to the registrant is made known to such officers and are operating effectively.
- (b) The registrant's principal executive officer and principal financial officer have determined that there have been no significant changes in the registrant's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including corrective actions with regard to significant deficiencies and material weaknesses.

Item 3. Exhibits:

(a) Certifications of principal executive officer and principal financial officer of the registrant.
