Exhibit 99.1

#### **Baidu Announces Third Quarter 2006 Results**

#### Net Income Increased by Over 900% Year-Over-Year

**BELJING, China, October 31, 2006** Baidu.com, Inc. (NASDAQ: BIDU), the leading Chinese language Internet search provider, today announced its unaudited financial results for the quarter ended September 30, 2006<sup>1</sup>.

#### **Third Quarter 2006 Highlights**

Total revenues increased by 24.9% sequentially or 169.1% year-over-year to RMB239.3 million (\$30.3 million).

Net income increased by 45.8% sequentially or 902.5% year-over-year to RMB85.3 million (\$10.8 million). Basic and diluted earnings per share (EPS) were RMB2.54 (\$0.32) and RMB2.46 (\$0.31), respectively.

Net income excluding share-based compensation expenses (non-GAAP) was RMB101.6 million (\$12.9 million). Basic and diluted EPS excluding share-based compensation expenses (non-GAAP) were RMB3.03 (\$0.38) and RMB2.94 (\$0.37), respectively.

The number of active online marketing customers grew to more than 102,000, a 13.3% increase from the previous quarter. During the quarter, we continued to strengthen our position as the leading provider of Chinese language search, said Robin Li, Baidu s Chairman and CEO. By focusing on enhancing and expanding both our core search functionality and our suite of community-based search products, we continued to achieve significant traffic growth and market share expansion<sup>2</sup>.

Mr. Li continued, During the second quarter, we optimized our dynamic bidding monetization algorithm, which rationalizes Baidu s key word bidding system. Recently, we also introduced an intelligent ranking system, which ensures better user experience and increased customer ROI by incorporating relevancy into the ranking algorithm for sponsored listings. While these initiatives may affect revenue growth in the near term, we believe they will result in greater revenue growth over the long term.

This announcement contains translations of certain RMB amounts into U.S. dollars at specified rates solely for the convenience of the reader. Unless otherwise noted, all translations from RMB to U.S. dollars are made at a rate of RMB7.9040 to US\$1.00, the effective noon buying rate as of September 30, 2006 in The City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York.

The market share information is derived from CNNIC: 2006 China Search Engine Market Survey.

The Company noted that Baidu Space, launched in the third quarter, along with other community-based products, such as Baidu Knows and Baidu Post Bar, continued to gain in popularity. Baidu enhanced its vertical search products, including Legal Search, Baidu Index, University Search, Government Search and Youth Search, to allow users to focus on specific subject areas. In addition, Baidu expanded its range of products tailored for use on mobile phones and WAP devices.

In October 2006, Baidu entered into a collaborative relationship with MTV Networks to provide video entertainment and music content to China s internet users. This collaboration allows Baidu to directly distribute authorized content from MTV Networks, Nickelodeon and five music companies to its users.

Our robust earnings results reflect the inherent scalability of our business model, commented Shawn Wang, Baidu s CFO. During the quarter, we began to transition from serving customers via third-party distributors to direct sales in the Beijing market and continued to help improve our distributors ability to serve our customers in other cities.

Mr. Wang added, Our investment in monetization and search technology is positioning us for long term growth. While our investment is bringing immediate benefits to our users and customers, we are confident that it will also create significant value for our shareholders over the long term.

#### **Third Quarter 2006 Results**

Baidu reported **total revenues** of RMB239.3 million (\$30.3 million) for the quarter ended September 30, 2006, representing a 24.9% increase from the previous quarter and a 169.1% increase from the corresponding period in 2005.

Online marketing revenues for the third quarter were RMB237.6 million (\$30.1 million), representing a 25.7% increase from the second quarter of 2006 and a 176.7% increase from the third quarter of 2005. The growth was driven by the increase in the number of active online marketing customers, which increased by 13.3% from the second quarter of 2006 to more than 102,000 for the third quarter. Revenue per online marketing customer for the third quarter increased to RMB2,330 (\$294.8) from RMB2,081 in the second quarter, a sequential increase of 12.0%.

**Traffic acquisition cost** (**TAC**) as a component of cost of revenues was RMB21.6 million (\$2.7 million), representing 9.0% of total revenues, compared to 9.2% in the second quarter of 2006.

Selling, general and administrative expenses were RMB70.2 million (\$8.9 million), representing a 19.5% increase from the previous quarter and a 90.0% increase from the third quarter of 2005.

**Research and development expenses** were RMB24.5 million (\$3.1 million), representing a 34.2% sequential increase and a 66.9% increase from the corresponding period in 2005, primarily due to headcount increases.

**Share-based compensation expenses**, which were allocated to related cost and expense line items, increased in aggregate to RMB16.4 million (\$2.1 million) in the third quarter of 2006 from RMB11.7 million in the previous quarter. The increase in share-based compensation expenses primarily reflects a change in accounting estimates of the forfeiture rate. The Company did not grant a significant amount of options or restricted shares during the third quarter.

For the full year 2006, Baidu expects share-based compensation expenses for awards granted to employees prior to October 1, 2006 to be RMB46.6 million, assuming there is no material change in the forfeiture rate. This amount does not include expenses to be recognized over the remainder of the year related to awards granted to employees after October 1, 2006 or awards to non-employees that have been or may be granted.

**Operating profit** was RMB76.2 million (\$9.6 million), representing a 31.5% increase from the previous quarter and a 1002.0% increase from the third quarter of 2005. **Operating profit excluding share-based compensation expenses** (non-GAAP) was RMB92.6 million (\$11.7 million) for the third quarter of 2006, a 32.8% increase from the previous quarter and a 422.5% increase from the corresponding period in 2005.

**Income tax expenses were** RMB2.0 million (\$0.3 million), representing a 80.5% decrease from the second quarter of 2006 and a 8.4% increase from the third quarter of 2005. The sequential decrease was primarily due to tax incentives newly granted to one of Baidu s PRC subsidiaries. As a result, the tax expenses in the third quarter included a reversal of RMB6.0 million (\$0.8 million) that was recognized in previous quarters.

**Net income** was RMB85.3 million (\$10.8 million), representing a 45.8% increase from the previous quarter and a 902.5% increase from the third quarter of 2005. **Basic and diluted EPS** for the third quarter of 2006 amounted to RMB2.54 (\$0.32) and RMB2.46 (\$0.31), respectively.

Net income excluding share-based compensation expenses (non-GAAP) was RMB101.6 million (\$12.9 million), a 44.8% increase from the previous quarter and a 426.3% increase from the third quarter of 2005. Basic and diluted EPS excluding share-based compensation expenses (non-GAAP) for the third quarter of 2006 were RMB3.03 (\$0.38) and RMB2.94 (\$0.37), respectively.

As of September 30, 2006, the Company had **cash, cash equivalents and short-term investments** of RMB1,083.3 million (\$137.1 million). **Net operating cash flow** and **capital expenditures** for the third quarter of 2006 were RMB131.1 million (\$16.6 million) and RMB51.3 million (\$6.5 million), respectively. The increase in capital expenditures was primarily due to expenditures incurred to support traffic growth during the quarter.

**Adjusted EBITDA** (non-GAAP), which is defined as earnings before interest, taxes, depreciation, amortization, other non-operating net income, and share-based compensation expenses, were RMB112.3 million (\$14.2 million) for the third quarter of 2006, representing a 32.2% increase from the previous quarter and a 304.4% increase from the corresponding period in 2005.

#### **CTO Resignation**

Baidu announced on October 24, 2006 that its chief technology officer, Jerry Liu, had submitted his resignation for personal reasons, effective on December 19, 2006. Baidu s technology team, which consists of senior engineers with extensive experience in all aspects of Baidu s technology infrastructure, will continue to lead ongoing technology initiatives. The Company noted that it is considering options for Mr. Liu s successor.

#### **Outlook for Fourth Quarter 2006**

Baidu currently expects to generate total revenues in an amount ranging from RMB270 million (\$34 million) to RMB280 million (\$35 million) in the fourth quarter of 2006, representing a 135% to 143% increase from the corresponding period in 2005. This forecast reflects Baidu s current and preliminary view, which is subject to change.

#### **Conference Call Information**

Baidu s management will hold an earnings conference call at 8 PM on October 31, 2006 U.S. Eastern Standard Time (9 AM on November 1, 2006 Beijing/Hong Kong time).

Dial-in details for the earnings conference call are as follows:

US: 1 617 786 2961

UK: 44 207 365 8426

Hong Kong: 852 3002 1672

Passcode for all regions: 46025967

A replay of the conference call may be accessed by phone at the following number until 11 PM on November 3, 2006 U.S. Eastern Standard Time.

International: 1 617 801 6888

Passcode: 92261904

Additionally, a live and archived webcast of this conference call will be available at http://ir.baidu.com.

#### **About Baidu**

Baidu.com, Inc. is the leading Chinese language Internet search provider. As a technology-based media company, Baidu aims to provide the best way for people to find information. In addition to serving individual Internet search users, Baidu provides an effective platform for businesses to reach potential customers. Baidu s ADSs, each of which represents one Class A ordinary share, currently trade on the NASDAQ Global Market under the symbol BIDU.

#### **Safe Harbor Statement**

This announcement contains forward-looking statements. These statements are made under the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as will, believes, estimates and similar statements. Among other things, the outlook for third quarter 2006 and quotations from management in this announcement, as well as Baidu s strategic and operational plans, contain forward-looking statements. Baidu may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about Baidu s beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, including but not limited to the following: our growth strategies; our future business development, results of operations and financial condition; our ability to attract and retain users and customers; competition in the Chinese language Internet search market; competition for online marketing customers; changes in our revenues and certain cost or expense items as a percentage of our revenues; the outcome of ongoing, or any future, litigation or arbitration, including those relating to copyright and other intellectual property rights; the expected growth of the Chinese language Internet search market and the number of Internet and broadband users in China; and Chinese governmental policies relating to the Internet and Internet content providers. Further information regarding these and other risks is included in our annual report on Form 20-F and other documents filed with the Securities and Exchange Commission, Baidu does not undertake any obligation to update any forward-looking statement, except as required under applicable law. All information provided in this press release and in the attachments is as of October 31, 2006, and Baidu undertakes no duty to update such information, except as required under applicable law.

#### **About Non-GAAP Financial Measures**

To supplement Baidu's consolidated financial results presented in accordance with GAAP, Baidu uses the following measures defined as non-GAAP financial measures by the SEC: adjusted EBITDA, operating profit excluding share-based compensation expenses, net income excluding share-based compensation expenses, and basic and diluted EPS excluding share-based compensation expenses. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. For more information on these non-GAAP financial measures, please see the tables captioned Reconciliations of non-GAAP results of operations measures to the nearest comparable GAAP measures and Reconciliation from net cash provided by operating activities to adjusted EBITDA set forth at the end of this release.

Baidu believes that these non-GAAP financial measures provide meaningful supplemental information regarding its performance and liquidity by excluding certain expenses and expenditures that may not be indicative of its operating performance from a cash perspective. We believe that both management and investors benefit from referring to these non-GAAP financial measures in assessing our performance and when planning and forecasting future periods. These non-GAAP financial measures also facilitate management is internal comparisons to Baidu is historical performance and liquidity. Baidu computes its non-GAAP financial measures using the same consistent method from quarter to quarter, except that the non-GAAP measures for the quarter ended March 31, 2006 reflected the one-time cumulative effect of change in accounting principle due to our adoption of SFAS 123(R) since January 1, 2006. We believe these non-GAAP financial measures are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its financial and operational decision making. A limitation of using non-GAAP operating profit excluding share-based compensation expenses, net income excluding share-based compensation expenses, and basic and diluted EPS excluding share-based compensation expenses is that these non-GAAP measures exclude share-based compensation charge that has been and will continue to be for the foreseeable future a significant recurring expense in our business. A limitation of using non-GAAP Adjusted EBITDA is that it does not include all items that impact our net income for the period. Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The accompanying tables have more details on the reconciliations between GAAP financial measures that are most directly comparable to non-GAAP financial measures.
