### **SIGNET REPORTS FIRST QUARTER RESULTS**

Signet Group plc (LSE: SIG and NYSE: SIG), the world's largest speciality retail jeweller, today announced its first quarter results for the 13 weeks from 4 February to 5 May 2007. These results are presented in US dollars following the change in the functional currency of the Company and the move to reporting in US dollars which took effect from 5 February 2007.

#### **Group**

Total sales rose by 8.1% at constant exchange rates (see note 10); the reported increase was 10.9% to \$814.4 million (13 weeks to 29 April 2006: \$734.3 million). Like for like sales increased by 3.1%. Group profit before tax was \$50.8 million (13 weeks to 29 April 2006: \$53.7 million) and operating profit was \$54.0 million (13 weeks to 29 April 2006: \$56.3 million). Operating margin was 6.6% (13 weeks to 29 April 2006: 7.7%). At constant exchange rates operating profit decreased by 2.9% and profit before tax by 4.3% (see note 10). The average US dollar rate was £1/\$1.96 (13 weeks to 29 April 2006: £1/\$1.75).

The tax rate was 36.0% (13 weeks to 29 April 2006: 35.9%). Earnings per share were 1.9 cents (13 weeks to 29 April 2006: 2.0 cents), equivalent to 19.1 cents per American Depositary Share (13 weeks to 29 April 2006: 19.8 cents).

#### **United States (circa 75% of Group annual sales)**

Total sales increased by 10.1% to \$632.3 million (Q1 2006/07: \$574.5 million). Like for like sales rose by 3.2%. The rate of growth has slowed from that of the prior year due to a more challenging retail environment. On an underlying basis the increase in like for like sales was estimated to have been 1.9% after taking into account the adverse weather disruption over Valentine's Day and the benefit of a shift in the timing of a promotional event at the beginning of the quarter.

Operating profit was \$59.9 million (13 weeks to 29 April 2006: \$62.7 million). The results were adversely impacted by net expense timing differences in respect of marketing events, which are estimated to have reduced operating profit by about \$5 million. As anticipated, gross margin was lower due to commodity cost increases and changes in sales mix. The mix changes reflected factors, including the growth of Jared, which again enhanced like for like sales performance. The operating margin was 9.5% (Q1 2006/07: 10.9%). The bad debt ratio was comfortably within the tight range of the last ten years.

#### **United Kingdom (circa 25% of Group annual sales)**

Total sales were up by 1.7% at constant exchange rates (see note 10); the reported increase was 14.0% to \$182.1 million (13 weeks to 29 April 2006: \$159.8 million). Like for like sales rose by 2.6%, with H.Samuel up by 1.9% and Ernest Jones by 3.5%. The normal seasonality in trading was reflected in an operating loss of \$1.9 million (13 weeks to 29 April 2006: loss \$2.8 million). As expected, gross margin was little changed.

#### **Group Costs, Financing Costs and Net Debt**

Group costs were \$4.0 million (13 weeks to 29 April 2006: \$3.6 million). Primarily as a result of the \$100 million share buy back programme, which was substantially completed during the period, financing costs rose to \$3.2 million (13 weeks to 29 April 2006: \$2.6 million) and net debt, at 5 May 2007, to \$286.2 million (29 April 2006: \$169.5 million).

**Comment**

Terry Burman, Group Chief Executive, commented: In the first quarter the US trading environment weakened and the UK marketplace was a little stronger. Against this background, profit before tax of \$50.8 million demonstrates the underlying strength of the Group.

The US division experienced weak sales over the Mother's Day period at the start of the second quarter. Trading since then has seen like for like sales return to the underlying rate of growth achieved in the first quarter. The sales performance of the UK business has seen a further small improvement to that of the first 13 weeks.

**Notes to the condensed consolidated financial statements (unaudited)**

**5. Translation differences**

The exchange rates used for the translation of UK pound sterling transactions and balances in these interim statements are as follows:

|                                 | <b>5 May<br/>2007</b> | 29 April<br>2006 | 3 February<br>2007 |
|---------------------------------|-----------------------|------------------|--------------------|
| Income statement (average rate) | <b>1.96</b>           | 1.75             | 1.88               |
| Balance sheet (closing rate)    | <b>1.99</b>           | 1.82             | 1.97               |

The effect of restating the balance sheet at 29 April 2006 to the exchange rates ruling at 5 May 2007 would be to decrease net debt by \$2.3 million to \$167.2 million. Restating the income statement would decrease the pre-tax profit for the 13 weeks ended 29 April 2006 by \$(0.6) million to \$53.1 million.

On 5 February 2007, the Company redenominated its share capital into US Dollars by way of a reduction in capital and subsequent issue and allotment of new dollar ordinary shares, which had been approved by shareholders on 12 December 2006 and received Court approval on 31 January 2007.

The nominal value of each dollar denominated ordinary share is 0.9 cent, and shareholders received one new dollar denominated ordinary share for each sterling ordinary share held. The new shares have the same rights and restrictions as the previously issued ordinary shares and the existing share certificates remain valid.

Additionally, to comply with UK listing requirements, £50,000 of share capital is required to be denominated in pounds sterling to which end 50,000 deferred shares of £1 each were allotted and issued and credited to the Company Secretary of the Company on 5 February 2007. These shares have limited and deferred rights.

**10. Impact of constant exchange rates**

The Group has historically used constant exchange rates to compare period-to-period changes in certain financial data. This is referred to as 'at constant exchange rates' throughout this release. The Group considers this a useful measure for analysing and explaining changes and trends in the Group's results. The impact of the re-calculation of sales, operating profit, profit before tax and net debt at constant exchange rates, including a reconciliation to the Group's GAAP results, is analysed below.
