The Company has one (1) class of equity securities outstanding, designated Common Stock, \$.001 par value (Common Stock). At the Record Date, 60,679,983 shares of Common Stock, which includes 1,376,421 shares of Common Stock held by the Company as treasury shares, were issued and outstanding.

Voting Rights of Common Stock

Each share of Common Stock outstanding at the record date will be entitled to one (1) vote with respect to each proposal herein and any other matter that properly may come before the Annual Meeting of Stockholders. A total of 59,303,562 votes, excluding 1,376,421 treasury shares, are eligible to be cast at the Annual Meeting.

Voting Your Proxy

If a broker, bank or other nominee holds your shares, you will receive instructions from them that you must follow in order to have your shares voted.

Internet and telephone voting may be available in the instructions from your broker, bank or other nominee. If a bank, broker or other nominee holds your shares and you wish to attend the meeting and vote in person, you must obtain a legal proxy from the record holder of the shares giving you

the right to vote the shares.

If you hold your shares in your own name as a holder of record, you may instruct the proxy holders how to vote your common stock by using the toll free telephone number, the Internet voting site listed on the proxy card, or by signing, dating and mailing the proxy card in the postage paid envelope that we have provided. Of course, you may also choose to attend the meeting and vote your shares in person. Specific instructions for using the telephone and Internet voting systems are on the proxy card. The telephone and Internet voting

systems will be available until 11:59 p.m. (Eastern Time) on May 26, 2008. Whichever of these methods you select to transmit your instructions, the proxy holders will vote your shares in accordance with those instructions. If you sign and return a proxy card without giving specific voting instructions, your shares will be voted as recommended by our Board of Directors.

Matters to be Presented

We are not aware of any matters to be presented other than those described in this Proxy Statement. If any matters not described in the Proxy Statement are properly presented at the meeting, the proxy holders will use their own judgment to determine how to vote your shares. If the meeting is adjourned, the proxy holders can vote your shares on the new meeting date as well, unless you have revoked your proxy instructions, as described below under **Changing Your Vote**.

Changing Your Vote

To revoke your proxy instructions if you are a holder of record, you must (i) advise our Corporate Secretary in writing before the proxy holders vote your shares, (ii) deliver later proxy instructions before the proxy holders vote your shares, or (iii) attend the meeting and vote your shares in person. If your shares are held by a bank, broker or other nominee, you must follow the instructions provided by the bank, broker or nominee.

Cost of This Proxy Solicitation

We will pay the cost of this proxy solicitation. We may, on request, reimburse brokerage firms and other nominees for their expenses in forwarding proxy materials to beneficial owners. In addition to soliciting proxies by mail, we expect that our directors, officers and employees may solicit proxies in person or by telephone or facsimile. None of these individuals will receive any additional or special compensation for doing this, although we will reimburse these individuals for their reasonable out-of-pocket expenses.

How Votes are Counted

The Annual Meeting will be held if a majority of the outstanding Common Stock entitled to vote is represented in person or by proxy at the meeting. If you have returned valid proxy instructions or attend the meeting in person, your Common Stock will be counted for the purpose of determining whether there is a quorum, even if you wish to abstain from voting on some or all matters at the meeting.

Abstentions and Broker Non-Votes

Shares that are voted **WITHHELD** or **ABSTAIN** are treated as being present for purposes of determining the presence of a quorum and as entitled to vote on a particular subject matter at the Annual Meeting. Abstentions will have the same effect as a vote against the proposal related to the ratification of our auditors. If you hold your shares through a broker, bank or other nominee and you do not provide instructions on how to vote, your broker or other nominee may have authority to vote your shares on certain matters, including Proposals 1 and 2.

Our Voting Recommendations

When proxies are properly dated, executed and returned, the shares represented by such proxies will be voted at the Annual Meeting in accordance with the instructions of the stockholder. However, if no specific instructions are given, the shares will be voted in accordance with the following recommendations of our Board of Directors:

FOR the election of the Director nominees to the Board of Directors; and

FOR ratification of McGladrey & Pullen, LLP as our independent auditors for fiscal year ending December 31, 2008.

The Board of Directors has adopted a written charter for the Audit Committee, which is available on Epicor's website at www.epicor.com/investors under Corporate Governance. The audit committee reviews and reassesses the adequacy of the charter on an annual basis.

The Audit Committee oversees the accounting, financial reporting and audit processes; makes recommendations to the Board of Directors regarding the selection of independent auditors; reviews the results and scope of audit and other services provided by the independent auditors; reviews the accounting principles and auditing practices and procedures to be used in preparing our financial statements and reviews our internal controls and procedures to ensure compliance with the Sarbanes-Oxley Act of 2002.

Table of Contents

The Audit Committee works closely with management and our independent auditors. The Audit Committee also meets with our independent auditors in an executive session, without the presence of our management, on a quarterly basis, following completion of their quarterly reviews and annual audit and prior to our earnings announcements, to review the results of their work. The Audit Committee also meets with our independent auditors to approve the annual scope of the audit services to be performed.

Nominating and Governance Committee The Nominating and Governance Committee currently consists of Messrs. Mike Kelly, Hackworth, Copperman and Smith, each of whom is independent within the meaning of the NASDAQ Stock Market, Inc. director independence standards, as currently in effect. Mr. Smith serves as Chairman of the Nominating and Governance Committee and also as the Lead Director. Throughout fiscal year 2007, the Nominating and Governance Committee consisted of Messrs. Thomas Kelly, Copperman and Smith. On February 19, 2008, Thomas Kelly became the Company's President and Chief Executive Officer, therefore he is no longer a member of any of the committees of the Company's Board of Directors, including the Nominating and Governance Committee. Mr. Copperman is not standing for re-election at the 2008 Annual Meeting of Stockholders, therefore, he will no longer be a member of the Nominating and Governance Committee.

The Nominating and Governance Committee held four (4) meetings during fiscal year 2007. The Board of Directors has adopted the Nominating and Governance Committee charter; which is available on Epicor's website at www.epicor.com/investors under Corporate Governance.

The Nominating and Governance Committee considers and periodically reports on matters relating to the identification, selection and qualification of the Board of Directors and candidates nominated to the Board of Directors and its committees; develops and recommends governance principles applicable to the Company and the Board of Directors; oversees the evaluation of the Board of Directors and management and oversees and sets compensation for the Board of Directors.

The Nominating and Governance Committee considers properly submitted stockholder recommendations for candidates for membership on the Board of Directors as described below under Identification and Evaluation of Nominees for Directors. In evaluating such recommendations, the Nominating and Governance Committee seeks to achieve a balance of knowledge, experience and capability on the Board of Directors and to address the membership criteria set forth under Director Qualifications. Any stockholder recommendations proposed for consideration by the Nominating and Governance Committee should include the candidate's name and qualifications for membership on the Board of Directors and should be addressed to our Corporate Secretary. In addition, procedures for stockholder direct nomination of directors are discussed above under the section Deadline for Receipt of Stockholder Proposals and are discussed in detail in our bylaws, which will be provided to you upon written request.

Director Qualifications

The Nominating and Governance Committee uses a variety of criteria to evaluate the qualifications and skills necessary for members of our Board of Directors. Under these criteria, members of the Board of Directors should have the highest professional and personal ethics and values, consistent with longstanding Epicor values and standards. They should have broad experience at the policy-making level in business, government, education, technology or public interest. They should be committed to enhancing stockholder value and should have sufficient time to carry out their duties and to provide insight and practical wisdom based on experience. Their service on other boards of public companies should be limited to a reasonable number that permits them, given their individual circumstances, to perform responsibly all director duties. Each director must represent the interests of all stockholders.

Identification and Evaluation of Nominees for Directors

The Nominating and Governance Committee utilizes a variety of methods for identifying and evaluating nominees for director. The Nominating and Governance Committee regularly assesses the appropriate size of the Board of Directors, and whether any vacancies on the Board of Directors are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Nominating and Governance Committee considers various potential candidates for director. Candidates may come to the attention of the Nominating and Governance Committee through current members of the Board of Directors, professional search firms, stockholders or other persons. These candidates are evaluated at regular or special meetings of the Nominating and Governance Committee, and may be considered at any point during the year. As described above, the Nominating and Governance Committee considers properly submitted stockholder recommendations for candidates for the Board of Directors. In evaluating such recommendations, the Nominating and Governance Committee uses the qualifications standards discussed above and seeks to achieve a balance of knowledge, experience and capability on the Board of Directors.

All of the nominees for election to the Board this year, other than Mr. Hackworth, have previously stood for election to the Board by the stockholders. Mr. Hackworth joined the Board on November 29, 2007. He first came to the attention of the Board through Board members Robert Smith and Thomas Kelly both of whom knew Mr. Hackworth as a result of their current and/or prior affiliations with Cirrus Logic, Inc. The Board considered Mr. Hackworth and his qualifications and voted to appoint him to the Board on November 29, 2007. Since that time, Mr. Hackworth has served actively on the Board and the Nominating and Governance and Compensation Committees. Mr. Hackworth's background and qualifications are identified in the section entitled "Michael L. Hackworth" beginning on page 6 hereof.

PROPOSAL TWO: RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee of the Board of Directors has selected McGladrey & Pullen, LLP (M&P) to audit our financial statements for the fiscal year ending December 31, 2008.

On April 4, 2006, the Company informed Deloitte & Touche USA LLP (D&T) that D&T would no longer be retained as the Company's independent auditor. The decision not to retain D&T was made and approved by the Audit Committee of the Company's board of directors. D&T audited the Company's consolidated financial statements for the years ended December 31, 2001-2005. D&T's reports on the Company's consolidated financial statements for the years ended December 31, 2004 and 2005 did not contain an adverse opinion or a disclaimer of opinion, nor were such reports qualified or modified as to uncertainty, audit scope or accounting principles.

During the years ended December 31, 2006 and 2005 and during the portion of 2006 prior to the audit committee's decision to make a change, there were no disagreements between the Company and D&T on any matters of accounting principles or practices, financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of D&T, would have caused it to make reference to the subject matter of the disagreement in connection with its reports.

In connection with its audit of the Company's consolidated financial statements for the year ended December 31, 2005, and the effectiveness of the Company's internal control over financial reporting as of December 31, 2005, D&T reported a material weakness related to the Company's determination of the proper accounting treatment for certain aspects of revenue recognition, specifically the application of the residual method under the AICPA's Statement of Position (SOP) 98-9, *Modification of SOP 97-2, Software Revenue Recognition, With Respect to Certain Transactions* as it applies to the Company's allocation of revenues between software license fees and maintenance. Except for the material weakness in internal control over financial reporting described in this paragraph, during the fiscal years ended December 31, 2005 and 2004, and the subsequent interim period through the date of D&T's dismissal, there were no reportable events. The Company has authorized D&T to respond fully to the inquiries of the successor independent registered public accounting firm concerning this material weakness.

On April 4, 2006, the audit committee also approved the retention of M&P as the Company's new independent auditor. During the Company's two most recent fiscal years and during the portion of 2006 prior to the audit committee's decision, the Company did not consult with M&P regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements or (ii) any matter that was either the subject of a disagreement or a reportable event.

Although ratification by stockholders is not required by law, the Board of Directors has determined that it is desirable to request approval of this selection by the stockholders. Notwithstanding its selection, the Board of Directors, in its discretion, may appoint new independent auditors at any time

Table of Contents

during the year if the Board of Directors believes that such a change would be in the best interest of Epicor and its stockholders. If the stockholders do not ratify the appointment of M&P, the Board of Directors may reconsider its selection. The Board of Directors expects that representatives of M&P will be present at the Annual Meeting to respond to appropriate questions and to make a statement if they so desire.

Fees Billed By McGladrey & Pullen, LLP The following tables set forth the approximate aggregate fees billed to Epicor during fiscal years 2007 and 2006 by M&P:

McGladrey & Pullen, LLP	2006	2007

This category also includes advice on audit and accounting matters that arose during, or as a result of, the audit or the review of interim financial statements.
- (2) **Audit-Related Fees:** This category consists of assurance and related services by M&P that are reasonably related to the performance of the audit or review of our financial statements and are not reported above under Audit Fees.
- (3) **Tax Fees:** This Category consists of fees for professional services rendered for tax compliance including tax return preparation as well as any fees associated with tax planning. The Company did not engage M&P for professional services rendered in connection with tax advice or tax planning during the fiscal years ended December 31, 2007 and December 31, 2006.
- (4) **All Other Fees:** This category consists of fees incurred in connection with the CRS valuation and work performed on the VSOE analysis in 2006.
- (5) The dollar amount for Audit Fees in 2006 is more than the 2006 figure for Audit Fees listed in the Company's Proxy Statement for its 2007 annual meeting due to the Company's receipt of additional invoices for 2006 Audit Fees after the filing of the 2007 proxy.

The Audit Committee has established a policy governing our use of our independent auditors M&P for non-audit services. Under the policy, management may use the independent auditors for non-audit services that are permitted under SEC rules and regulations, provided that management obtains the Audit Committee's approval before such services are rendered. In fiscal 2007 and fiscal 2006, all fees identified above under the captions Audit-Related Fees, Tax Fees and All Other Fees that were billed by

Table of Contents

M&P were approved by the Audit Committee pursuant to the Company's pre-approval policies and procedures established by the Audit Committee.

The Audit Committee has determined the rendering of other professional services for tax compliance and tax advice by M&P is compatible with maintaining their independence.

Vote Required

If a quorum is present, the affirmative vote of a majority of the shares present and entitled to vote at the Annual Meeting will be required to ratify the appointment of M&P as our independent auditors. Abstentions will have the effect of a vote against the ratification of M&P as our independent auditors. Broker non-votes will have no effect on the outcome of the vote.

Compensation Discussion And Analysis

Overview of Compensation Program and Philosophy

The Company's compensation programs are designed to align the creation of stockholder value with the compensation earned by our executive officers by rewarding the achievement of both annual and longer term goals of the Company. Specifically, the Company's objectives for its compensation programs are to:

- Attract, motivate, reward and retain superior talent;
- Encourage superior performance;
- Ensure that compensation is commensurate with Company performance and stockholder returns;
- Provide performance awards for the achievement of financial and operational targets and other strategic objectives that are critical to our long-term growth and
- Ensure that the executive officers have financial incentives to achieve substantial growth in stockholder value.

Edgar Filing: EPICOR SOFTWARE CORP - Form DEF 14A

In order to achieve these objectives, the Compensation Committee has implemented and maintains compensation plans (both short and long term) that tie a substantial portion of the executives' overall compensation to key financial and operational goals. The Company's compensation programs reward executive officers for achieving these financial and operational goals, as well as achieving other objectives tied to individual performance. The Compensation Committee targets individual executive compensation at levels the Compensation Committee believes are comparable to, and competitive with, executives in other companies that are operating primarily in the high technology marketplace, including, specifically, competitors in the enterprise resource planning (ERP) software mid-market, all while taking into account the Company's relative performance and strategic goals.

Role of Executive Officers and Consultants in Compensation Decisions

The Compensation Committee has the authority to engage its own independent advisors to assist in carrying out its responsibilities and has periodically done so. Prior to 2007, the Compensation Committee had not retained compensation consultants to assist in creating and administering Epicor's compensation policies for its executives. However, to assist management and the Compensation Committee, including in assessing and determining competitive compensation packages, in 2007 the Compensation Committee retained an outside consulting firm specializing in executive compensation, Meyercord and Associates (Meyercord). During 2007, Meyercord assisted the Compensation Committee by conducting an annual benchmark review of our executive compensation against a Committee defined Peer Group as discussed in more detail below. Meyercord has not provided any other services to Epicor and has received no compensation other than with respect to the services provided to the Compensation Committee.

The Compensation Committee meets periodically by invitation with Epicor's Chief Executive Officer (CEO), and/or other company executives such as the Chief Operating Officer (COO), Chief Financial Officer (CFO) and vice president (VP) of human resources (HR) to obtain information and/or recommendations with respect to Company compensation programs, practices and packages for executives and other employees, including base salaries, bonus targets and equity compensation. The Compensation Committee also regularly holds executive sessions, which are not attended by any members of management or non-independent directors. The Compensation Committee considers, but is not bound to and does not always accept, management's recommendations with respect to executive compensation. The Compensation Committee weighs such management recommendations against the information from independent sources, such as compensation survey data from such resources as Meyercord and other available resources, prior to making any final determinations.

The Compensation Committee has the ultimate authority to make decisions with respect to the compensation of the Company's officers, including its named executive officers, but may, if it chooses, delegate any of its responsibilities to subcommittees. For example, during fiscal year 2007, the Compensation Committee delegated to the Company's Chairman and then CEO, George Klaus, the authority to grant long-term incentive awards to employees below the level of executive vice president under Equity Granting guidelines set by the Compensation Committee. The Compensation Committee also has authorized the Company's current CEO to make salary adjustments and short-term incentive (bonus) decisions for employees other than executive officers under guidelines approved by the Compensation Committee. The Compensation Committee has not delegated any of its authority with respect to executive officer compensation and the Compensation Committee makes all determinations regarding executive officer compensation.

Benchmarking of Cash and Equity Compensation

The Compensation Committee believes it is important when making its compensation-related decisions to be informed as to current practices of similarly situated publicly held companies in the high technology industry. In 2007, the Compensation Committee commissioned a benchmarking study conducted by Meyercord. At the Compensation Committee's request, the

Table of Contents

Meyercord studies compiled, reviewed and compared the cash and equity compensation practices of a number of publicly and privately held companies each in the high technology industry with emphasis on software companies (the Peer Group) with the existing compensation program for the Company's Executives. These companies were chosen for inclusion in the study based on certain business characteristics similar to ours, including revenues, stage of development, employee headcount and market capitalization. In addition to benchmarking studies, the Compensation Committee has historically taken into account input from other sources, including input from other independent members of the Company's Board of Directors and publicly available data relating to the compensation practices and policies of other companies within and outside of our industry. While benchmarking may not always be appropriate as a stand-alone tool for setting compensation due to the aspects of our business and objectives that may be unique to us, the Compensation Committee believes that gathering this information is an important part of its compensation-related decision-making process.

2007 and 2008 Executive Compensation The above policies guide the Compensation Committee in assessing the proper allocation between long-term compensation, current cash compensation and short-term annual bonus compensation. Based in large part upon the foregoing compensation objectives, the Compensation Committee has designed the Company's annual and long-term incentive-based cash and non-cash executive compensation to both incentivize its executives to achieve the business goals set by the Company and to reward them for attaining these goals.

In making its compensation decisions, the Compensation Committee has historically benchmarked its salary and short and long term equity and non-equity target incentive levels and practices, as well as its performance results in relation to other comparable software industry companies and high technology companies of comparable size and performance in terms of revenue, market capitalization, number of employees, EPS and other similar factors. This peer group of publicly and privately-held companies (collectively, the Peer Group) is annually reviewed and updated by the Compensation Committee and consists of companies against which the Compensation Committee believes the company competes for executive talent. Such Peer Group data is gathered with respect to base salary, bonus targets and all equity awards (including stock options, performance shares, restricted stock and long-term, cash-based awards). It does not generally include deferred compensation benefits or generally available benefits, such as 401(k) plans or health care coverage.

The companies comprising the 2007 Peer Group for Executive Compensation were:

- Ariba
- Borland Software Corp.
- CSG Systems Intl, Inc.
- I2 Technologies
- Informatica Corp.
- JDA Software Group, Inc.
- Lawson Software, Inc.

While the Peer Groups are comprised of companies that are both smaller and larger than the Company with respect to size and performance criteria, the Company has in recent years begun to compete with many larger entities for its executive talent. Therefore, while historically Epicor's goal had been to target its total compensation package for its executives at the median level (that is, 50th percentile) among its peer group, beginning with 2006, the Compensation Committee decided to target base pay at the median level (that is, 50th percentile) among the Peer Group, but to target the executive's total cash and equity compensation between the 50th and 75th percentiles of the Peer Group. Beginning in 2007 and continuing in 2008, the Compensation Committee decided to target base pay, total cash and equity compensation at the 75th percentile among the Peer Group. This decision was made in part after considering factors such as individual factors as job performance, skill set, experience and the executive's time in his or her position and/or with Epicor in general, as well as growing external pressures to attract and retain talent. Positioning base pay closer to the 75th percentile of peer companies assists the Company in controlling its fixed costs while designing a total compensation plan to target the higher 75th percentile of the Peer Group, provides higher incentive compensation opportunity based on the Company's financial performance, rewards exceptional goal achievement and allows total compensation to be more competitive as a whole.

Except as described above, the Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between short and long-term and cash and non-cash compensation, or among different forms of compensation. This is due in part to the small size of our executive team and the need to tailor each executive's award to attract and retain that executive. However, utilizing these broad goals, the Compensation Committee expects that, over the long term, the Company will be able to attract and retain top executive talent while continuing to generate stockholder returns in excess of the average of its peer group. Historically, and in both fiscal 2007 and 2008, the Compensation Committee granted a majority of total compensation to its executive officers in the form of performance based cash and equity incentive compensation.

2007 Executive Compensation Elements For the fiscal year ended December 31, 2007, the primary components of compensation for the Company's executive officers were:

- base salary;
- annual performance-based non equity incentive cash awards;

Table of Contents

- long-term equity incentive awards;
- deferred compensation and other retirement benefits and
- executive perquisites and generally available benefit programs.

Each of these elements is necessary to meet one or more of the primary objectives of the Company's compensation policy. For instance, base salary levels are set with the intent of attracting employees and adequately compensating and rewarding them on a day-to-day basis for the time spent and the services they perform. Our annual performance-based non equity incentive awards and long-term equity incentive awards are also geared toward providing an incentive and reward for the achievement of long-term business objectives and retaining key talent over the longer term. Epicor believes that these elements of compensation have proven effective, and will continue to be effective in assisting the Company to achieve the objectives of its compensation program.

The Compensation Committee reviews the compensation program on an annual basis, including each of the above elements, other than deferred compensation and retirement benefits, which are reviewed from time to time to ensure that benefit levels remain competitive but are not included in the annual determination of an executive's compensation package. In setting compensation levels for a particular executive, the Compensation Committee takes into consideration the proposed compensation package as a whole and each element individually along with the individual executive's past and expected performance and future contributions to our business.

Base Salary

Base salaries for our executives are generally established based on the scope of their responsibilities, historical pay levels, level of experience and individual performance, taking into account both external competitiveness and internal equity considerations. The goal for the base salary component is to compensate employees at a level that approximates the median salaries of individuals in comparable positions and markets. Even if subject to employment agreements, base salaries are reviewed annually and adjusted from time to time to realign salaries with market levels after taking into account individual responsibilities, performance and experience. This review historically begins in the fourth quarter of each fiscal year and concludes in the first quarter of each fiscal year.

Our management retention agreement with Mr. Klaus, currently our Executive Chairman and formerly the CEO, provided for a set salary in each of the three years, 2006 through 2008, subject to the Compensation Committee's ability to increase his salary upon such annual reviews. In addition, our management retention agreement with the Mr. Tom Kelly, our current President and CEO, provides for an annual cash salary of \$500,000 for fiscal year 2008. Mr. Kelly's annual cash salary was arrived at following the committee's consultation with the Company's Compensation consultant Meyercord, and after extensive deliberation and analysis of the data and peer group information provided by such consultant. Such annual cash salary for Mr. Kelly was considered both competitive and in accord with the Company's desired compensation objectives.

Table of Contents

For fiscal 2007, the Compensation Committee increased the base salaries of Mr. Piraino and Mr. Duffell, our other named executive officers, in order to bring such salaries into conformance with the Compensation Committee's stated compensation objectives for Company executives. Mr. Klaus made recommendations to the Compensation Committee with respect to proposed salaries for fiscal 2007 for each of the named executive officers other than himself. The Compensation Committee considered Mr. Klaus' recommendations and then determined the increases that were appropriate to achieve the desired compensation objectives as stated herein for each executive, namely positioning base pay closer to the 75th percentile of peer companies in order to provide a higher incentive compensation opportunity based on the Company's financial performance, to reward exceptional goal achievement and to allow total compensation to be more competitive as a whole. Specifically, for 2007, Mr. Piraino's annual base salary was increased by 20.1% to \$330,000 and Mr. Duffell's base salary was increased by 6.1% to \$420,000. Mr. Klaus' base salary and bonus target percentages were not increased because Mr. Klaus' salary and bonus targets for 2006 and 2007 were set under the terms of his Retention Agreement and because for 2006 and 2007 the Compensation Committee believed that his level of compensation was adequate given the market data. The fact that his salary amount and bonus percentages were unchanged did not reflect a negative view of his performance.

Similarly, in fiscal 2008, the Compensation Committee again increased the base salaries of Mr. Piraino and Mr. Duffell in order to maintain such salaries in conformance with the Compensation Committee's stated compensation objectives for Company executives. Mr. Klaus made recommendations to the Compensation Committee with respect to proposed salaries for fiscal 2008 for each of the named executive officers other than himself. The Compensation Committee considered Mr. Klaus' recommendations and then determined the increases that were appropriate to maintain the desired compensation objectives as stated herein for each executive, namely positioning base pay at or about the 75th percentile of peer companies in order to maintain a higher level of incentive compensation opportunity based on the Company's financial performance, to reward continued exceptional goal achievement and to maintain total compensation as more competitive as a whole. Specifically, for 2008, Mr. Piraino's annual base salary was increased by 4.8% to \$346,000 and Mr. Duffell's base salary was increased by 4.8% to \$440,000. Mr. Klaus' base salary and bonus target percentages were not increased because Mr. Klaus' salary and bonus targets for 2006 through 2008 were set under the terms of his Retention Agreement. The fiscal 2008 base salary for Mr. Kelly, the Company's current President and CEO, is \$500,000 pursuant to his employment agreement with the Company.

Management Bonus Plan

Each year the Compensation Committee establishes a Management Bonus Plan (the "Bonus Plan") to promote the achievement of company financial performance objectives based on various financial targets. The Bonus Plan is an annual cash incentive program. Annual incentive bonuses for executive officers and other officers of the Company are intended to reflect the Compensation Committee's belief that a significant portion of the compensation of each executive officer should be contingent upon the performance of Epicor, and for non-executive officers, the individual contribution of such officer. The targets for the Bonus Plan are determined

Table of Contents

through our annual planning process, which generally begins in October before the beginning of the next fiscal year. This operating plan is developed by the Board of Directors of the Company, including Messrs. Klaus and Tom Kelly, on the basis of (i) the Company's performance for the prior fiscal year, (ii) estimates of sales revenue for the plan year based upon recent market conditions, trends and competition and other factors that, based on historical experience, are expected to affect the level of sales that can be achieved, (iii) historical operating costs and cost savings that management believes can be realized, (iv) competitive conditions faced by the Company and (v) additional expenditures beyond prior fiscal years. By taking all of these factors into account, including market conditions, the earnings goal and revenue targets are determined. The Compensation Committee believes that achievement of these goals will require significant effort by the Company's officers who participate in the Bonus Plan.

As a result of this Bonus Plan, the proportion of each executive's total cash compensation that is represented by incentive based income, may increase in those years in which the Company's profitability increases. The Bonus Plan is intended to motivate and reward executive officers by directly linking the amount of any incentive bonus to specific company-based performance targets and specific individual-based performance targets. The Compensation Committee evaluates the Company's performance as well as that of its executive officers and approves a bonus percentage based upon the results of its evaluation after the end of each fiscal year. To help achieve Epicor's goal of retaining key talent, an executive must remain an employee for the entire fiscal year in order to be eligible for any bonus under the Bonus Plan that relates to that fiscal year. Historically, bonuses have been payable in cash unless the executive elects to defer all or part of the bonus into the Company's Deferred Compensation Plan described below.

The Compensation Committee uses an adjusted EBITDA measure along with revenue as targets under the Bonus Plan. The adjusted EBITDA measure excludes foreign currency, restructuring charges and in process research and development. The Compensation Committee believes that adjusted EBITDA better facilitates comparisons of the Company's operating performance from period to period by enhancing the understanding of our operating results from period to period and in comparing performance with Peer Group competitors. Adjusted EBITDA is believed to be a useful tool given the significant variation that can result from such factors as the timing of capital expenditures and the amount of intangible assets recorded, foreign currency exchange risk and such other non-operating results. Under the terms of the Bonus Plan, each of the two targets (adjusted EBITDA and revenue) are equally weighted at 50% of each executive's potential plan payout and each goal operates independently of the other in terms of calculating payouts under the Bonus Plan. Target bonus opportunities are established as a percentage of base salary. Bonus amounts for fiscal 2007 were intended to provide total cash compensation for executives at the 75th percentile for executives in comparable positions and markets in the Peer Group when target performance is achieved and at or above the 75th percentile when outstanding financial and operational results are achieved by the Company. If the target levels for one or both of the performance goals are not achieved, executives will earn less or no payments under the Bonus Plan.

Table of Contents

Under the 2007 Bonus Plan, the Company was required to achieve at least 75% of the respective adjusted EBITDA or revenue targets established at the beginning of the year, in order for executives to begin to accrue a bonus under the plan. If the Company achieves 75% or more either the adjusted EBITDA or revenue targets, an eligible executive will receive a bonus under the Bonus Plan, which amount increases as the actual adjusted EBITDA and/or revenue results for the Company increase. The targets are set at levels in line with the Company's budget and announced guidance, and in 2007 required growth well in excess of average current growth amongst the Peer Group. If the adjusted EBITDA and revenue targets are achieved, the Bonus Plan pays out at 100% of the bonus target amount. If the Company performance exceeds the adjusted EBITDA and revenue targets, participants in the plan receive amounts greater than their target bonuses. The bonuses are designed such that as actual adjusted EBITDA and revenue increases as a percentage of the targets, actual bonuses as a percentage of target bonus amounts increase by a greater percentage. The bonus opportunity for any executive is capped at 200% of the targeted bonus amounts.

In 2007, Mr. Klaus' target bonus was 60% of his salary, the target bonus for Mr. Duffell was set at 55% of his base salary and the target bonus for Mr. Piraino was set at 50% of his base salary. Thus, under the formula approved by the Compensation Committee, the fiscal 2007 potential bonus for Mr. Klaus ranged from zero to a maximum of 120% of his annual base salary. For Mr. Duffell and Mr. Piraino, the range for their fiscal 2007 potential bonuses was from zero to a maximum of 110% and from zero to 100% of their annual base salaries, for Messrs Duffell and Piraino, respectively. In 2007, our named executive officers achieved 101.74% of the target Revenue objectives and achieved 89.82% of the targeted EBITDA objectives. These achievements resulted in a combined payout of approximately 99.3% of target under the Bonus Plan.

Actual bonuses paid to our named executive officers under the Bonus Plan for fiscal 2007 were:

Named Executive Officer	2007 Bonus Amount
Mr. Klaus	441,842
Mr. Duffell	231,000
Mr. Piraino	165,000

Target bonuses as a percentage of base salary for fiscal year 2008 under the Bonus Plan remained the same for each named executive officer. Mr. Kelly's target bonus for his position as the Company's current Chief Executive Officer and President was set at 60% of his base salary or \$300,000 for fiscal year 2008 pursuant to the terms of his employment agreement with the Company. In addition, pursuant to Mr. Kelly's employment agreement, payment of 50% of the target bonus, or \$150,000 was guaranteed for fiscal year 2008 and paid upon the commencement of Mr. Kelly's employment with the Company. Similar to 2007, the Bonus Plan targets for 2008 are based upon Adjusted EBITDA and Revenue.

Table of Contents

Minimum, target and maximum bonuses as a percentage of base salary payable to our executive officers under the Bonus Plan for fiscal 2008 are:

Named Executive Officer	Minimum % of Base Salary Payable as Bonus	Target % of Base Salary Payable as Bonus	Maximum % of Base Salary Payable as Bonus
Mr. Thomas Kelly	0%	60%	120%
Mr. Klaus (1)	0%	60%	120%
Mr. Duffell (2)	0%	55%	110%
Mr. Piraino	0%	50%	100%

- (1) Although Mr. Klaus resigned as the Company's Chief Executive Officer, as Executive Chairman, he remains an employee and thus is eligible to participate in the 2008 Bonus Plan.
- (2) Mr. Duffell was no longer an employee of the Company as of March 31, 2008 and therefore is not eligible to receive a bonus under the Bonus Plan for 2008.

Long-Term Incentive Compensation

Historically, Epicor has also provided long-term incentive compensation to its Executive officers through awards of stock options and restricted stock that generally vest over multiple years. Epicor's long-term compensation program is intended to align the interests of our officers with those of our stockholders by creating an incentive for our officers to maximize stockholder value, including through increased stock price. The equity compensation program utilizes vesting periods designed to encourage our officers to remain employed with Epicor despite an increasingly competitive labor market.

As indicated above, Epicor targeted the value of its annual equity awards to its executives, in conjunction with salaries and non-equity incentive compensation to be at the 75th percentile in fiscal 2007. For 2008 and 2009, Epicor continues to target the 75th percentile. The Compensation Committee considers each equity award individually and subjectively at the time of the grant, reviewing factors such as the performance of the executive officer from year to year, as well as historically, the anticipated future contribution toward the attainment of our long term strategic performance goals and the number of other equity awards held by each executive officer at the time of the new grant. Other factors in determining individual equity awards include including length of term with the Company, level of responsibility, skills and experience, and other compensation awards or arrangements.

Equity-based incentives are granted to our officers under Epicor's stockholder-approved stock incentive plans. Historically, the Compensation Committee has granted equity awards at its scheduled meetings or by unanimous written consent. Grants approved during scheduled meetings become effective and are priced as of the date of approval or a designated date in the future (for example, promotion or new hire grants are effective as of the later of the date of approval or the respective promotion or start date). Grants approved by unanimous written consent become effective and are priced as of the date the last signature is obtained or as of a designated future date indicated in the consent. Historically, stock option grants have a per share exercise price equal to the fair market value of Epicor's common stock.

Table of Contents

on the grant date. The Compensation Committee has not historically, nor does it intend in the future to time the granting of equity compensation awards to executives in anticipation of the release of material nonpublic information that is likely to result in changes to the price of Epicor common stock, such as a significant positive or negative earnings announcement. Similarly, the Compensation Committee has not timed, nor does it intend in the future to time, the release of material nonpublic information based on equity award grant dates. Also, because equity compensation awards typically vest over a three- or four-year period, the value to recipients of any immediate increase in the price of Epicor's stock following a grant is expected to be attenuated.

Beginning in 2006, with the advent of FAS 123R requiring the Company to expense the cost of unvested stock options, the Compensation Committee decided to cease granting options and begin granting shares of restricted common stock. Restricted stock not only results in decreased expense to the Company under FAS 123R, thus maximizing stockholder value compared to options, but also provides a more predictable value to employees than stock options and therefore are efficient tools in retaining and motivating employees, while also serving as an incentive to increase the value of Epicor's stock. Shares of restricted stock are also believed to be efficient with respect to the use of our equity plan share reserves because fewer restricted shares are needed to provide a retention and incentive value similar to stock options.

In order to continue to attract and retain highly skilled employees, the Compensation Committee approved changes to Epicor's equity compensation program beginning in fiscal 2006 that were designed to reward Epicor's employees for their hard work and commitment to the long-term success and growth of Epicor. Specifically, beginning in fiscal 2006, the Company, with review and approval by the Compensation Committee, implemented its Performance Based Restricted Stock Program (the "PBRSP") which program it continued through fiscal 2007 and fiscal 2008. In February 2008, the Compensation Committee approved continuing the PBRSP through 2009.

The terms of the PBRSP provide for the grant of a right to purchase a number of shares of Company common stock subject to a vesting schedule. The recipients vest in the restricted stock, or a portion thereof, in three equal, annual installments depending upon achievement of targets with respect to the Company's revenue and adjusted EBITDA for each of the performance years. In January 2008, the Board of Directors voted to roll the 2008 PBRSP into 2009 for all current participants at their 2008 levels. For 2007, Recipients were required to pay a purchase price per share equal to the par value of Company common stock (\$0.001). For 2008, and the recently approved 2009 grants, payment of such amounts are considered made as part of past or current services rendered by each participant. The recipient must also make satisfactory arrangements to cover applicable tax withholdings, which may include, in the plan administrator's sole discretion, cash, withholding a portion of the shares subject to the grant, delivering already vested and owned shares of restricted stock or selling a sufficient number of Company shares otherwise deliverable to the recipient through such means as the Company may determine in its sole discretion.

Table of Contents

Shares of restricted stock are held in escrow and the Company's reacquisition right does not lapse until vesting. Shares that have not vested upon the employee's termination of service with the Company will be forfeited and automatically transferred to and reacquired by the Company. In addition, shares of restricted stock that do not vest as a result of the Company's failure to achieve with respect to revenue and adjusted EBITDA targets will be forfeited and automatically transferred to and reacquired by the Company.

Epicor and the Compensation Committee believe that granting its executive officers performance-based awards under the PBRSP demonstrates our commitment to using our equity compensation program wisely and to match executive pay to actual performance. The Compensation Committee approved these grants only after extensive deliberation and analysis of data and other information provided by independent compensation consultants such as Meyercord and by management. Due in part to the initial three year horizon of the PBRSP and now continuing into 2009, many of these grants were larger than the one year grants that the Compensation Committee had approved in prior years as part of Epicor's regular long term incentive program. However, the Compensation Committee determined that making the grants was appropriate to help retain our key employees at an important time for Epicor. Specifically, the Company was experiencing tremendous growth both organically as well as from its acquisition activities and thus, the retention and continued motivation of such key employees who were seen as critical to the continued success and growth of the Company became of paramount importance.

Under the 2007 PBRSP, the Company was required to achieve at least 75% of each of the respective adjusted EBITDA and revenue targets established at the beginning of the year, in order for Executives to begin to accrue shares under the PBRSP. If the Company achieved 75% or more of either the adjusted EBITDA or revenue targets, which were each equally weighted at 50% of each executive's potential Restricted Stock grants and which operated independently in terms of calculating Restricted Stock vesting under the PBRSP, an executive received some amount of shares, which share amount increased as the actual adjusted EBITDA and revenue results for the Company increased. That is, failure to achieve target levels on one of the performance goals did not impact the number of shares received for achievement of the target levels on the other performance goal. The targets were set at levels in line with the Company's budget and announced guidance and in 2007 required growth in excess of the average current growth amongst the Peer Group. If either the adjusted EBITDA or revenue targets were achieved, the 2007 PBRSP provided that the participants received up to 100% of the target shares amount which equated to two thirds of the total yearly grant to the recipient. If the Company's performance exceeded the adjusted EBITDA and revenue targets, participants in the plan received amounts greater than their two thirds targeted amounts up to 100% of the shares granted in any one year. In order to vest in the maximum number of shares awarded, the Company's performance must have exceeded the targets in each target category. The number of shares was reduced significantly for each percentage decline in revenue or adjusted EBITDA. The Compensation Committee believed that achievement of these goals required significant effort by the executives. Moreover, the officer must have remained an employee of Epicor through the end of the 2007 fiscal year in order for all of

Table of Contents

the shares to vest. The maximum yearly share grant to any executive was capped at the total amount granted any recipient in any one year. The 2008 PBRSP operates identically in all material respects to the 2007 PBRSP.

For fiscal 2007 and 2008, the Compensation Committee considered Mr. Klaus' recommendations with respect to performance shares for the COO and CFO and other participants. Mr. Klaus recommended increased share amounts in fiscal 2007 and fiscal 2008 over the amounts granted in fiscal 2006 for the other executive officers in order to better align the grants with the Compensation Committee's compensation goal of providing total compensation for executives at the 75th percentile for executives in comparable positions and markets in the Peer Group when target performance is achieved and at or above the 75th percentile when outstanding financial and operational results are achieved. Based upon such recommendations, and after independent consideration of the level to grant, the Compensation Committee in January 2007 granted Messrs. Duffell and Piraino an additional 22,000 and 15,000 shares, respectively, thus bringing their 2007 PBRSP total share grants to 62,000 and 45,000 shares, respectively. In 2006, the Committee had previously granted Mr. Klaus 200,000 shares under the 2007 PBRSP as part of the May 26, 2006 Management Retention Agreement. The awards to Mr. Duffell and Mr. Piraino were 100% performance-based awards. That is, the awards vest based on achievement of the adjusted EBITDA and revenue targets established under the PBRSP. Thus, under the PBRSP formula approved by the Compensation Committee, the possible grants to the executives were as follows:

Named Executive Officer	Min. Shares	Threshold	Target	Maximum
Mr. Klaus	0	66,667	133,333	200,000
Mr. Duffell	0	20,667	41,333	62,000
Mr. Piraino	0	15,000	30,000	45,000

In 2007, the Company achieved revenue and adjusted EBITDA results which, under the terms of the PBRSP, resulted in a share grant level just below the on target amounts. Specifically our named executive officers under the PBRSP received the following shares:

Named Executive Officer	2007 Restricted Shares Received
Mr. Klaus	132,407
Mr. Duffell	41,047
Mr. Piraino	29,792

In fiscal 2007, other than the performance shares granted to the Executive Officers under the Performance Based Restricted Stock Program, the Compensation Committee did not grant any other equity interests to the Officers.

Table of Contents

For fiscal 2008 and fiscal 2009, under the terms of the PBRSP, the performance shares granted to the executives will again vest only upon the achievement of the targeted levels of revenue and adjusted EBITDA during each year. Specifically our named executive officers under the PBRSP received the following shares for fiscal 2008 and 2009:

Named Executive Officer	2008	2009
	Restricted Shares Received	Restricted Shares Received
Mr. Thomas Kelly (1)	114,000	114,000
Mr. Klaus (2)	200,000	-
Mr. Duffell (3)	66,000	66,000
Mr. Piraino (4)	48,000	48,000

- (1) Pursuant to Mr. Kelly's employment agreement with the Company, The restrictions on the restricted stock shall lift based on achievement of applicable Company performance goals during 2008 and 2009, as determined in accordance with the terms of the Company's PBRSP and subject to Mr. Kelly's continued service to the Company through the 2008 and 2009 performance periods. For the 2008 fiscal year only, all Company performance goals applicable to the 114,000 shares of restricted stock will be deemed achieved at 100% target (equaling 76,000 shares), subject to the Mr. Kelly's continued service to the Company through the 2008 performance period. The award for the 2009 fiscal year contains no deemed achievement level.
- (2) Mr. Klaus was granted 200,000 shares of the Company's restricted stock in 2007 based on the Company's performance in 2008 pursuant to the terms of his employment agreement with the Company.
- (3) Mr. Duffell is no longer an employee of the Company and therefore his 2008 and 2009 restricted stock awards have been forfeited. The 66,000 shares for each of 2008 and 2009 include 4,000 additional shares per year granted by the Committee to Mr. Duffell on January 31, 2008.
- (4) The 48,000 shares for each of 2008 and 2009 include 3,000 additional shares per year granted by the Committee to Mr. Piraino on January 31, 2008.

Deferred Compensation Plan

In December 2004, the Board adopted the Epicor Software Deferred Compensation Plan (the EDCP). The EDCP provides selected officers and senior managers of the Company with the opportunity to enter into agreements to defer the receipt of up to seventy percent of future cash compensation from base salary and up to one hundred percent of future cash compensation from bonus awards and/or commissions. In addition, the EDCP gives the Company discretion to award additional employer contributions to participants at the Company's discretion. The EDCP is offered to higher level employees in order to allow them to defer more compensation than they would otherwise be permitted to defer under a tax-qualified retirement plan, such as our Epicor 401K plan (the 401(k) Plan). Further, Epicor offers the EDCP as a competitive practice to enable it to attract and retain top talent. The plan year for the EDCP is the calendar year. The Company has the authority to amend, modify or terminate the EDCP; provided no such amendment shall reduce amounts allocated to participant's EDCP accounts.

Table of Contents

While retaining the right to do so, Epicor has not to date made any matching or other employer contributions to the EDCP. The EDCP is evaluated for competitiveness in the marketplace from time to time, but the level of benefits provided is not typically taken into account in determining an executive's overall compensation package for a particular year due to its conservative nature. In 2007, Mr. Piraino was the only one of our named executive officers who participated in this plan.

At the time of making the deferral election, the participant in the EDCP designates the types of investment funds in which the participant's account will be deemed to be invested for purposes of determining the amount of earnings and losses to be credited to that account. The Company does not have any responsibility for and does not participate in any individual EDCP participant's designation or decisions as to how and where to invest their account. Although the participant in the EDCP may designate the type of investments, the administrator of the EDCP is not bound by such designation. The administrator selects from time to time, in its sole and absolute discretion, commercially available investments of each of the types communicated by the administrator to the participant pursuant to EDCP. The interest rate of each such commercially available investment fund is used to determine the amount of earnings or losses to be credited to each participant's account under the EDCP.

Distributions under the EDCP are subject to certain restrictions, which vary depending on the circumstances of each participant, including the amount in the participant's account, whether the participant is a key employee as defined under the EDCP, whether the participant has retired from the Company, whether the participant has terminated employment with the Company not due to retirement, whether the participant has elected a scheduled withdrawal date, whether the participant has suffered death or disability or whether a change of control has occurred.

Retirement Benefits under the 401(k) Plan, Executive Perquisites and Generally Available Benefit Programs

Other Compensation. All of our executives are eligible to participate in our employee benefit plans, including medical, dental, life insurance and 401(k) plans. These plans are available to all salaried employees and do not discriminate in favor of executive officers. The main objectives of Epicor's benefits programs are to give our employees access to quality healthcare, financial protection from unforeseen events, assistance in achieving retirement financial goals, enhanced health and productivity and to provide support for global workforce mobility, in full compliance with applicable legal requirements. We have no current plans to make changes to levels of benefits and perquisites provided to executives.

In fiscal 2007, the executive officers were eligible to receive an Executive supplemental health coverage which supplements the coverage provided by the Company's standard health insurance offerings. Each of our three Executive Officers is also reimbursed for the initial and annual membership dues associated with one social or country club membership and which is expected to be utilized by such executive to enhance and facilitate business and in performance of the Executive's duties. Any additional monthly or annual charges related to the Executives' personal use of such facilities are not reimbursed by the Company. Mr. Klaus received a membership at the Big Canyon Country Club in Newport Beach, CA, as part of his employment agreement when he joined the Company in 1996. Such benefit is described below under the paragraph entitled "Compensation of Chief Executive Officer."

In addition to the EDCP, Epicor maintains the tax-qualified 401(k) Plan, which provides for broad-based employee participation. Under the 401(k) Plan, all Epicor employees, including Executives, are eligible to receive matching contributions from Epicor that are subject to vesting over time. The matching contributions for the 401(k) Plan years 2006 and 2007 were \$0.50 for each dollar of participating employee's contribution, up to 4% of the employee's salary, and was calculated and paid on a payroll-by-payroll basis subject to applicable Federal limits, and subject to vesting. Epicor does not provide defined benefit pension plans or defined contribution retirement plans to its executives or other employees other than the 401(k) Plan.

Epicor also offers a number of other benefits to the named executive officers pursuant to benefit programs that also provide for broad-based employee participation. These benefits programs include the employee stock purchase plan, long-term and short-term disability insurance, life and accidental death and dismemberment insurance, health and dependent care flexible spending accounts, wellness programs, educational assistance, employee assistance and certain other benefits. Many employees are also eligible for variable pay under sales incentive plans, profit sharing programs and/or the incentive plans described above. The 401(k) Plan and other generally available benefit programs allow Epicor to remain competitive for employee talent, and Epicor believes that the availability of the benefit programs generally enhances employee productivity and loyalty to Epicor. These generally available benefits typically do not specifically factor into decisions regarding an individual executive's total compensation or equity award package. On an annual basis, Epicor evaluates and benchmarks its overall benefits programs,

including our 401(k) Plan against our peers, using various subscription services such as Radford or Towers Perrin's data. Epicor generally targets its overall benefits programs, in the 75th percentile of this peer group, which Epicor believes allows us to remain competitive in attracting and retaining talent. We also evaluate the competitiveness of our 401(k) Plan as related to similar plans of our peer group members by analyzing the dollar value to an employee and the dollar cost to Epicor for the benefits under the applicable plan. We analyze changes to our benefits programs in light of the overall objectives of the program, including the effectiveness of the retention and incentive features of such programs and our targeted percentile range.

Stock Ownership Guidelines

To date, the Board has not adopted any stock ownership guidelines.

Tax Deductibility of Executive Compensation

Limitations on deductibility of compensation may occur under Section 162(m) of the Internal Revenue Code, as amended, which generally limits the tax deductibility of compensation paid by a public company to its chief executive officer and certain other highly compensated executive officers to \$1 million in the year the compensation becomes taxable to the applicable executive officer. There is an exception to the limit on deductibility for qualifying performance-based compensation that meets certain requirements. Specifically, compensation in excess of \$1 million may be deductible if the individual's performance meets pre-established and stockholder approved goals based on identified performance criteria. The Company does not currently have a policy that requires or encourages the Compensation Committee to qualify stock options or restricted stock awarded to executive officers for deductibility under Section 162(m) of the Internal Revenue Code. Although deductibility of compensation is preferred and the Compensation Committee does consider the net cost to the Company in making all compensation decisions, in certain situations, the Compensation Committee may approve compensation that will not meet these requirements in order to ensure competitive levels of total compensation for its executive officers. In this regard, for fiscal 2007, the amount of base salary in excess of \$1,000,000 for any named executive officer was not deductible for federal income tax purposes. Furthermore, while all of the stock options granted to our Executive Officers qualify under Section 162(m) as performance-based compensation, none of the restricted stock granted to our executive officers prior to the 2007 annual Shareholders meeting in May 2007 qualified as performance-based compensation under Section 162(m). However, following Shareholder approval of the 2007 Stock Incentive Plan at the Company's 2007 Annual Meeting in May 2007, which Stock Incentive Plan included the adoption and approval of specific performance criteria, all of Company's grants of Restricted Stock to qualifying officers following May 2007 may qualify as performance-based compensation under Section 162(m). We reserve the right to maintain flexibility in how we compensate our executive officers that may result in limiting the deductibility of amounts of compensation from time to time and the Compensation Committee is currently investigating the possibility of implementing programs that would allow for deductibility under Section 162(m).

George Klaus, who served as the Company's Chairman and CEO through February 19, 2008. The Agreement sets forth several terms and provisions that governed Mr. Klaus' employment as Chairman and CEO of the Company and was designed to replace Mr. Klaus' former agreement, which expired at the end of 2005.

Term of Agreement. The Agreement has a term of two (2) years expiring December 31, 2007 (the "Employment Term"). The Agreement may be terminated by either party at any time with or without cause.

Base Salary. During the Employment Term, the Company will pay Mr. Klaus a salary at an annualized rate of \$736,403 as compensation for his services (the "Base Salary"). The Base Salary

will not be increased during the Employment Term without the prior written approval of the Company's Board of Directors.

form of restricted stock agreement approved by the Company. Severance Benefits. Upon the occurrence of an Involuntary Termination as defined in the Agreement, Mr. Klaus shall be entitled to the following benefits:

- twelve (12) months of Mr. Klaus' Base Salary as in effect as of the date of the Involuntary Termination, to be paid periodically in accordance with the Company's normal payroll policies;
- Any bonus that would have been earned by Mr. Klaus in the twelve (12) month period following the date of the Involuntary Termination (as determined by the Company in its discretion); and
- Mr. Klaus, his spouse and Mr. Klaus' dependents who are participating in Company group medical or dental plans on the date of Mr. Klaus' termination of service ("Covered Persons") shall be entitled to continued participation in such plans, as they may be modified by the Company from time to time, at no additional after-tax cost to Mr. Klaus (or Mr. Klaus' spouse or dependents, as applicable) other than Mr. Klaus would have were he an employee, from year to year, for the remainder of the lifetimes of each Covered Person (or with respect to dependents of Mr. Klaus, until the earlier of i) the death of both Mr. Klaus and Mr. Klaus' spouse covered hereunder; ii) the time such dependents reach eighteen (18) years of age, if they do not continue thereafter as full time students; or iii) through the period from 18 years of age up to 25 years of age during which such dependents remain full time students); provided, however, that such coverage shall be suspended for any period during which any Covered Persons obtain or are covered by other comparable group health coverage. In the event that Mr. Klaus and/or Mr. Klaus' spouse and dependents, as applicable, are not eligible to continue their participation in the Company's group medical or dental plans, then alternatively, such individuals shall be entitled to receive equivalent coverage under a separate plan according to the same terms and conditions as indicated in the Agreement.

In the event Mr. Klaus' employment with the Company terminates by reason of Mr. Klaus Retirement (as such term is defined in the Agreement), and provided that Mr. Klaus has substantially completed a successful CEO succession plan acceptable to the Company's Board of Directors, Mr. Klaus and such other Covered Persons will be entitled to the continued participation described in the immediately preceding paragraph.

Other Termination. If Mr. Klaus' employment with the Company terminates other than as a result of an Involuntary Termination or Retirement as defined in the Agreement, then Mr. Klaus shall not be entitled to receive severance or other benefits hereunder, but may be eligible for those benefits (if any) as may then be established under the Company's then existing severance and benefits plans and policies at the time of such termination.

Except for the transactions described below, there was not during fiscal year 2007 nor is there currently proposed, any transaction or series of similar transactions to which Epicor was or is to be a party in which the amount involved exceeds \$120,000 and in which any director, nominee for director, executive officer, five percent stockholder or any member of the immediate family of any of the foregoing persons had or will have a direct or indirect material interest.

It is the policy of the Company's Board of Directors that all Related Person Transactions, as that term is defined in the Company's Related Person Transaction Policy, shall be subject to approval or ratification in accordance with the procedures set forth in such policy. Pursuant to the policy, the Audit Committee reviews the material facts of all Related Person Transactions that require the Committee's approval and either approve or disapprove of the entry into the Related Person Transaction, subject to the exceptions described below. In determining whether to approve a Related Person Transaction, the Audit Committee will take into account, among other factors it deems appropriate, whether the Related Person Transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the Related Person's interest in the transaction.

Other Related Person Transactions

George Klaus, the Company's Chairman and CEO during fiscal 2007, is married to one of the Company's Executive Vice Presidents. The Executive Vice President with whom he is in the relationship is not an executive officer of the Company, and, during fiscal 2007, she reported directly to the President and Chief Operating Officer of the Company, Mr. Duffell, and not directly to Mr. Klaus. In addition, following a thorough board review of the relationship, the Board determined that, so long as Mr. Klaus and his wife remain employed by the Company, all employment and compensation matters relating to her will be made by Mr. Kelly, the current President and Chief Executive Officer, subject to review and approval by the Chair of the Audit Committee or the entire Audit Committee of the Board. Mr. Klaus's wife is currently compensated at a level that the Company believes is comparable to other employees in similar positions of responsibility at the Company.
