INFORMATION TO BE INCLUDED IN THE REPORT

Item 2.02 Results of Operations and Financial Condition.

On November 2, 2009, Consolidated Edison, Inc. issued a press release reporting, among other things, its results of operations for the three months ended September 30, 2009. The press release is furnished as an exhibit to this report pursuant to Item 2.02 of Form 8-K.

Item 8.01 Other Events.

On November 6, 2009, Consolidated Edison Company of New York, Inc. (Con Edison of New York) filed a request with the New York State Public Service Commission (PSC) for a three-year gas rate plan, with level annual rate increases effective October 2010, 2011 and 2012 of \$115.5 million per year. The filing reflects a return on common equity of 11.3 percent and a common equity ratio of 48.2 percent. In the alternative, the company requested a net increase in the rates it charges for gas service, effective October 2010, of \$160.8 million that would cover the period October 2010 through September 2011. The filing proposes continuation of the current gas rate plan's revenue decoupling mechanism and provisions with respect to recovery from customers of the cost of purchased gas and the reconciliation of actual expenses allocable to the gas business to the amounts for such expenses reflected in gas rates for pension and other postretirement benefit costs, environmental remediation expenses, property taxes and municipal infrastructure support.

On November 6, 2009, Con Edison of New York filed a request with the PSC for a four-year steam rate plan, with level annual rate increases effective October 2010, 2011, 2012 and 2013 of \$66.1 million per year. The filing reflects a return on common equity of 11.4 percent and a common equity ratio of 48.2 percent. In the alternative, the company requested a net increase in the rates it charges for steam service, effective October 2010, of \$128.8 million that would cover the period October 2010 through September 2011. The filing proposes implementation of a revenue decoupling mechanism for steam and the continuation of the current steam rate plan's provisions with respect to recovery from customers of the cost of fuel and purchased steam and the reconciliation of actual expenses allocable to the steam business to the amounts for such expenses reflected in steam rates for pension and other postretirement benefit costs, environmental remediation expenses, property taxes and municipal infrastructure support.
