REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Participants of the

United Airlines Pilot Directed Account Plan

We have audited the accompanying statements of net assets available for benefits of the United Airlines Pilot Directed Account Plan (the Plan), as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedules of (1) assets (acquired and disposed of within the plan year) for the year ended December 31, 2009 and (2) assets (held at end of year) as of December 31, 2009, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plan s management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2009 financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

UNITED AIRLINES PILOT DIRECTED ACCOUNT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2009 AND 2008, AND FOR THE YEAR ENDED DECEMBER 31, 2009

1. DESCRIPTION OF PLAN

The following description of the United Airlines Pilot Directed Account Plan (the Plan) is for general information purposes only. Participants should refer to the Plan document for more complete information.

General and Plan Participants The Plan is a defined contribution plan covering all employees of United Air Lines, Inc. (United or the Company) who are represented by the Air Line Pilots Association, International (ALPA). United pilots are eligible to become participants in the Plan on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Trustee and Record Keeper The Russell Trust Company (Russell or Trustee) serves as Plan Trustee. Per the United Airlines, Inc. Pilots Directed Account Plan Trust Agreement, Russell is responsible for many aspects of the trust, including administration and the management and custody of all Plan assets. As approved by the Retirement and Welfare Administration Committee appointed by the Board of Directors of the Company, Russell has hired The Northern Trust Company to serve as sub-custodian of the Plan and Hewitt & Associates to serve as the subagent performing the participant recordkeeping functions.

Contributions There are several types of contributions that may be made to the Plan on participants' behalf:

Company Contributions: The Company contributes to the Plan an amount equal to 16% of participant eligible earnings. Company contributions on behalf of a participant are allocated directly to each participant's account. The participant is not required to contribute to the Plan to receive this direct employer contribution.

Employee contributions: Eligible employees may elect to contribute to the Plan in any whole percentage from 1% to 60% of eligible earnings. Eligible employees may also make a supplemental election to contribute an additional pretax contribution in an amount equal to 1% to 90% of their net pretax pay. Section 402(g) of the Internal Revenue Code (IRC) limits the amount of pretax 401(k) contributions to a maximum of \$16,500 in 2009. Lower limits may apply to certain highly compensated participants if the Plan does not pass certain nondiscrimination tests required by law. Eligible employees may also elect to make voluntary after-tax contributions to the Plan from 1% to 60% of the participant's earnings (as defined by the Plan) for each pay period only after making the maximum pretax contribution. Section 415(c) of the IRC limits the total amount of contributions to all qualified defined contribution retirement plans to the lesser of 100% of annual taxable earnings or \$49,000.

Table of Contents

Voluntary pretax catch-up contributions: Participants age 50 or older at any time during the Plan year can make additional pretax catch-up contributions to the Plan. This catch-up contribution is available only to the extent the participant has contributed the maximum amount of 401(k) contributions permitted under the Plan and the participant has not exceeded the annual catch-up contribution limit. For calendar year 2009, the maximum amount is \$5,500.

Rollover Contributions Participants may elect to roll over money into the Plan from certain other qualified employer plans or qualified IRA. The Plan will not accept a rollover of after-tax contributions. Rollover contributions for the year ended December 31, 2009, include \$216,393, which were transferred from other qualified plans as rollovers under the IRC Sections 402(c) and 408(d).

Participant Accounts Individual accounts are maintained for each Plan participant. Each participant's account is credited with the contributions, and Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Allocations are based on account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments Participants direct the investment of their contributions and account balances in 1% increments into the following various investment options offered by the Plan:

Money Market Fund

Short-Term Bond Fund

Diversified Bond Fund

Value Equity Fund

Growth Equity Fund

Small Cap Equity Fund

International Equity Fund

S&P 500 Index Fund

AutoPDAP Funds, which are funds that are invested in a diversified portfolio of underlying stock and bond funds strategically mixed for investors based on their estimated retirement date.

Individual Brokerage Account (IBA) Subject to a number of conditions and restrictions, this option allows participants to select from a wide range of investments, including UAL common stock, which are made available through the Charles Schwab and Co., Inc. individual brokerage account network.

Vesting Participants are vested immediately in their contributions and the Company's contributions, plus actual earnings thereon, and the balance of a participant's account is nonforfeitable at all times. Accordingly, there are no forfeitures under the Plan.

Participant Loans Active employees- receiving regular pay from the Company- may borrow from their fund accounts. A loan may not exceed \$50,000 minus their highest outstanding loan balance over the last 12 months or one-half of their PDAP account balance, whichever is less. The minimum that may be borrowed is \$1,000. Loans will be funded by a pro rata transfer from the assets of the account invested in the investment funds (excluding Individual Brokerage Account). The loan is secured by the participant's account balance, and is generally repaid through payroll deductions on an after-tax basis for the term of the loan, which is a maximum of 60 months. The term of the loan may be extended to a period up to 15 years if the loan is used to acquire a principal residence. Loans are subject to an annual interest rate at one percent above the prime rate listed in the Wall Street Journal on the business day preceding the effective date of the participant request (interest rates ranged from 4.25% to 10.5% at December 31, 2009). Participants may only have one loan outstanding at any time. Participants are eligible to request a new loan 30 days after full repayment of a prior loan. An administrative fee of \$90 is charged to each participant taking a loan and is automatically deducted from the participant's account and added to the loan amount.

Table of Contents

Payment of Benefits Withdrawals from the Plan may be made as follows, as applicable to the participant's eligibility, amount requested, and existing balances:

Participants who have separated from service (for reasons other than death) may elect payment in the form of a lump sum, periodic distributions, irregular partial distributions, or in the form of a fixed or variable annuity. All or a portion of the amount of the distribution may be excluded from income by a direct roll over into an Individual Retirement Account, qualified plan, an annuity contract or annuity plan under Section 403, and certain governmental plans under Section 457. However, distributions required under the minimum distribution rules, a hardship distribution from pretax contributions, or periodic payments in substantially equal amounts over the life, life expectancy or period of 10 years and more are not eligible for rollover distributions. Participants must begin to receive plan benefits not later than April 1st of the year following the year in which they reach age 70 1/2. At a minimum, they must draw benefits in annual installments at least equal to the minimum required by law.

Distributions of accounts due to the death of a participant may be taken by the participant's beneficiaries in any one, or any combination of forms, and in any proportions, as are made available to participant upon retirement or termination of employment. The participant's surviving spouse, if any, is automatically the beneficiary of at least half of the account. The surviving spouse may elect to defer distribution until participant would have attained age 70 1/2 or may elect an earlier distribution. Any designated beneficiary who is not the participant's surviving spouse may elect a direct trustee-to-trustee transfer of eligible distributions.

In-service withdrawals for participants who are actively employed or are absent due to reasons of illness (other than grounded status), or approved leave of absence and maintain an employer-employee relationship with the Company are permitted as follows:

Discretionary withdrawals of after-tax contributions and earnings

Hardship withdrawals of pretax 401(k) contributions, subject to restrictions described in the Plan

After reaching age 59 1/2, rollover contributions (as adjusted for earnings and losses) may be withdrawn at any time. After rollover contributions are depleted, pretax contributions (but no earnings) can be withdrawn.

Generally, withdrawals are allocated pro rata to the balances of each of the investment funds in the participant's account.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein.

Table of Contents

Actual results could differ from those estimates. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

New Accounting Pronouncements In 2009, the FASB issued additional guidance for determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not considered orderly. In addition, the FASB provided guidance on measuring the fair value of certain investments in entities that calculate net asset value per share. The FASB also issued guidance requiring disclosure of changes in valuation techniques, if any, and required expanded disclosure for certain types of investments. The new guidance also requires disclosure of information such as investment objectives and redemption requirements for certain investments in entities that calculate net asset value per share. The Plan's disclosures for the 2009 period reflect the prospective adoption of this guidance.

In August 2009, the FASB issued guidance addressing the measurement of liabilities when a quoted price in an active market for an identical liability is not available and clarifies that a reporting entity should not make an adjustment to fair value for a restriction that prevents the transfer of the liability. The additional guidance will be effective for financial statements issued for the first reporting period beginning after issuance of the guidance. The Plan has not determined the impact of adoption of this guidance on its financial statements.

In January 2010, the FASB released accounting guidance that requires new fair value measurement classification disclosures and clarifies existing disclosures. The guidance requires disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy, and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies the existing fair value disclosures regarding valuation techniques, inputs used in those valuation models and at what level of detail fair value disclosures should be provided. The guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disaggregation of the Level 3 activity, which is effective for interim and annual periods beginning after December 15, 2010. The Plan has not determined the impact of adoption of this guidance on its financial statements.

Investment Valuation and Income Recognition The Plan's investments are reported at fair value (See Note 8 Fair Value Measurements). The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

The pending trade receivables (payables) are recorded net of related (payables) receivables and represent net amounts due from to investment managers arising from security trading activities settled subsequent to year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation in Value of Investments Net appreciation in value of investments includes realized and unrealized gains and losses. Realized and unrealized gains and losses are calculated as the difference between fair value at January 1, or date of purchase if subsequent to January 1, and fair value at date of sale or the current year-end. The unrealized gain or loss on investments in the International Equity Fund represents the difference between fair value at January 1, or date of purchase, and the fair value at the date of sale or the current year-end plus, where applicable, the change in the exchange rate between the U.S. dollar and the foreign currency in which the assets are denominated from January 1, or the date of purchase, to the date of sale or the current year-end.

Table of Contents

Administrative and Investment Management Expenses Management and audit fees, which are paid by the Plan, are paid to the trustee based upon investment fund balances. Brokerage and other investment fees are included as an addition to the net appreciation in fair value of investments. United performs certain administrative functions for the Plan without charge.

Payment of Benefits Benefit payments to participants are recorded upon distribution. Amounts relating to participants who have elected to withdraw from the Plan but have not yet been paid were \$713,556 and \$293,262 at December 31, 2009 and 2008, respectively.

Table of Contents**3. INVESTMENTS**

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2009 and 2008, are as follows (in millions):

	2009	2008
Frank Russell Short-Term Investment Fund	\$ 449	\$ 523
Schwab Money Market Fund	185	233

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows (in millions):

Cash and cash equivalents	\$ (1)
Equity securities	369
Corporate and international bonds	18
Government securities and other fixed income instruments	20
Net gain on in-kind Schwab IBA benefit distributions	2
 Total	 \$ 408

Prior to October 30, 2009, the Trustee was authorized to engage in the lending of certain Trust assets. Securities lending was an investment management strategy that utilized the existing securities (government bonds, corporate bonds, or equities) of the Trust to earn additional income (\$464,960 and \$1,566,277 in 2009 and 2008, respectively). It involved the loaning of securities by the Lending Agent (The Northern Trust Company) to a select group of approved broker-dealers. In return for the loaned securities, the Lending Agent simultaneously receives collateral from a borrower (such as in the form of cash, U.S. government securities and irrevocable bank letters of credit) as a precaution against possible default of any borrower on the return of the loan. Each loan was collateralized to the extent of 102% for domestic securities and 105% for international securities of the fair value of the loan (including any accrued interest if appropriate to particular securities). The collateral was marked-to-market on a daily basis to maintain the margin requirement. Effective October 30, 2009, the Trust withdrew from the securities lending program.

Plan assets are invested by a group of investment managers. The investment managers buy or sell securities on behalf of the Plan, in accordance with the investment objectives and guidelines established for each of the investment funds.

Table of Contents

As of December 31, 2009, the investment managers were as follows:

Money Market Fund	Russell Trust Company
Short Term Bond Fund	Pacific Investment Management Company, LLC
Diversified Bond Fund	Western Asset Management Company Pacific Investment Management Company, LLC Russell Trust Company
International Equity Fund	Arrowstreet Capital, LP Marsico Capital Management, LLC MFS Institutional Advisors, Inc. AllianceBernstein, LP RTC Emerging Markets Fund Russell Trust Company

S&P 500 Index Fund	PanAgora Asset Management, Inc. Russell Trust Company
Individual Brokerage Account Option	Self-directed account with Charles Schwab

Table of Contents

4. DERIVATIVE FINANCIAL INSTRUMENTS

The Plan allows certain investment managers to reduce the funds' exposure to foreign currency fluctuations through the use of foreign currency forwards and options. The Plan authorizes certain investment managers to earn equity returns on the funds' cash position through equity index future contracts. Additionally, other investment managers use interest rate futures and money market futures to replicate government bond positions and manage interest rate exposure. Credit default swaps may be used by investment managers to effectively increase or decrease their exposure to individual corporate bond issues or baskets of corporate bond issues. They may also be used to effectively replicate corporate bond positions and manage overall credit risk. The Plan prohibits investment managers from being a party to any leveraged derivatives. All derivative positions are stated at fair value as determined by exchange quoted market prices or through other valuation techniques. The Plan's derivative positions as of December 31, 2009 were not material.

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan holds investments managed by Russell. Russell is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Total fees and commissions paid by the Plan to Russell for plan year 2009 totaled \$9,457,955.

The Plan invests in shares of UAL common stock. UAL is the parent company of United and, as such, investment activity related to UAL common stock qualifies as exempt party-in-interest transactions.

6. PLAN TERMINATION

The Company expects to continue the plan indefinitely, but reserves the right to terminate the Plan, in whole or in part, provided that Plan termination is effected by a written resolution adopted by a majority of the Board of Directors of the Company subject to the provisions set forth in ERISA and the currently effective collective bargaining agreement with ALPA. If the Plan is terminated, employer contributions would cease and all amounts credited to a participant's account at the time of termination shall be retained in the Plan and will be distributed in accordance with ERISA and the normal distribution rules of the Plan.

7. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by a letter, dated March 31, 2009, that the Plan and related trust were designed in accordance with applicable regulations of the Internal Revenue Code. United and Plan management believe the Plan is currently designed and operated in accordance with applicable requirements of the Internal Revenue Code, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Table of Contents**8. FAIR VALUE MEASUREMENTS**

Effective January 1, 2008, the Plan adopted FASB ASC Topic 820, *Fair Value Measurements* (ASC 820), which establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 Quoted market prices in active markets for identical assets that are accessible at the measurement date.
- Level 2 Quoted market prices of identical assets in inactive markets or similar assets in active markets; and observable or correlated inputs for the asset (e.g., interest rates and yield curves observable at commonly quoted intervals).
- Level 3 Unobservable inputs that reflect the reporting entity's own assumptions about inputs used by market participants in pricing assets or liabilities.

Mutual funds and collective trusts represent investments with various investment managers. The respective fair values of these investments are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at the closing share price, which is based on the funds' net asset value at year-end. Units held in collective trusts are valued at the unit value as reported by the investment managers at year-end.

Participant loans are valued at cost, which approximates fair value.

Investments in Individual Brokerage Accounts and the UAL Stock Fund are described below:

Cash and short-term investments include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest, which approximates market value.

Common stock, preferred stock, and fixed income securities traded in active markets on national and international securities exchanges are valued at closing prices on the last business day of each period presented. Fixed income securities classified as level 2 are valued based on quoted prices in inactive markets.

The following tables presents the Trust's investment assets and liabilities at fair value categorized in the different levels, as of December 31, 2009 and 2008. As required by ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

<i>(In millions)</i>	Investment Assets at Fair Value as of			
	Level 1	Level 2	Level 3	Total
Assets:				
Cash and cash equivalents net of offsets	\$ 37	\$ 12	\$	\$ 49

Total investment assets at fair value	\$ 1,635	\$ 1,156	\$ 37	\$ 2,828	

Table of Contents

(a) Generally, the investment objective is to utilize longer-term, diversified holdings to provide as high a level of current income as possible within the confines of a passive management strategy. The redemption of units is available on any business day

(b) Generally, the investment objective is to provide current income and growth by focusing on a specific industry or index of equities while minimizing portfolio risk exposure. The redemption of units is available on any business day.

(c) Generally, the investment objective is to provide the highest current income with stability of capital and liquidity through the utilization of high quality securities. The redemption of units is available on any business day.

<i>(In millions)</i>	Investment Assets and Liabilities at

Table of Contents**Level 3 Gains and Losses**

The table below summarizes the changes in the fair value of the Trust's level 3 investment assets for the year ended December 31, 2009.

<i>(In millions)</i>	Equity Securities- Other	Fixed Income- Asset-Backed Securities	Fixed Income- Government securities	Other	Participant Loans	Total
Fair value balance, January 1, 2009	\$	\$ 1	\$ 1	\$ 1	\$ 23	\$ 26
Realized and unrealized gains / (losses)	1					1
Purchases, issuances and settlements		(1)		5	6	10
Fair value balance, December 31, 2009	\$ 1	\$	\$ 1	\$ 6	\$ 29	\$ 37

The amount of total gains or losses for the period included in net appreciation in value of the Plan's investments attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.

\$	\$	\$	\$	\$	\$
----	----	----	----	----	----

Note: This table was derived under the election to treat both transfers in and transfers out as having occurred at the end of the period.

9. PLAN AMENDMENTS

During 2009, certain distribution guidelines under the Plan were amended. Participants should refer to the Plan document for information on distribution guidelines.
