(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED MARCH 31, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM _____ TO _____

Commission File Number 000-23189

C.H. ROBINSON WORLDWIDE, INC.

(Exact name of registrant as specified in its charter)

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-Q

Delaware (State or other jurisdiction of incorporation or organization)	41-1883630 (I.R.S. Employer Identification No.)
14701 Charlson Road, Eden Prairie, Minnesota (Address of principal executive offices)	55347 (Zip Code)
(952) 937-8500 (Registrant's telephone number, including area code)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/>	Smaller reporting company <input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of May 3, 2011, the number of shares outstanding of the registrant's Common Stock, par value \$.10 per share, was 165,563,574.

Table of Contents**C.H. ROBINSON WORLDWIDE INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****1. General*****Basis of Presentation***

C.H. Robinson Worldwide, Inc. and our subsidiaries (the company, we, us, or our) are a global provider of multimodal transportation services and logistics solutions through a network of 232 branch offices operating in North America, Europe, Asia, South America, Australia, and the Middle East. The condensed consolidated financial statements include the accounts of C.H. Robinson Worldwide, Inc. and our majority owned and controlled subsidiaries. Our noncontrolling interests in subsidiaries are not significant. All intercompany transactions and balances have been eliminated in the condensed consolidated financial statements.

The condensed consolidated financial statements, which are unaudited, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). In our opinion, these financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of the results of operations for the interim periods presented. Interim results are not necessarily indicative of results for a full year.

Consistent with SEC rules and regulations, we have condensed or omitted certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States. You should read the condensed consolidated financial statements and related notes in conjunction with the consolidated financial statements and notes in our Annual Report on Form 10-K for the year ended December 31, 2010.

2. Goodwill and Intangible Assets

The change in the carrying amount of goodwill is as follows (in thousands):

Balance December 31, 2010	\$ 359,116
Foreign currency translation	(456)
Balance March 31, 2011	\$ 358,660

A summary of our other intangible assets, with finite lives, which include primarily non-competition agreements and customer relationships, is as follows (in thousands):

	March 31, 2011	December 31, 2010
Gross	\$ 22,329	\$ 25,569
Accumulated amortization	(11,682)	(13,874)
Net	\$ 10,647	\$ 11,695

Other intangible assets, with indefinite lives, are as follows (in thousands):

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-Q

	Three Months Ended	
	March 31,	
	2011	2010
Trademarks	\$ 1,800	\$ 1,800

Amortization expense for other intangible assets is as follows (in thousands):

	Three Months Ended	
	March 31,	
	2011	2010
Amortization expense	\$ 1,084	\$ 1,608

Table of Contents

Estimated amortization expense for each of the five succeeding fiscal years based on the intangible assets at March 31, 2011 is as follows (in thousands):

Remainder of 2011	\$ 2,732
2012	3,079
2013	2,865
2014	1,971
2015	0
Total	\$ 10,647

3. Litigation

On March 20, 2009, at the conclusion of a trial in Illinois State Court, Twelfth Judicial Circuit, Circuit Court of Will County, a jury entered a verdict of \$23.75 million against us, a federally authorized motor carrier with which we contracted, and the motor carrier's driver. The award was entered in favor of three named plaintiffs following a consolidated trial, stemming from an accident that occurred on April 1, 2004. The motor carrier and the driver both admitted that at the time of the accident the driver was acting as an agent for the motor carrier, and that the load was being transported according to the terms of our contract with the motor carrier. Our contract clearly defined the motor carrier as an independent contractor. The verdict has the effect of holding us vicariously liable for the damages caused by the admitted negligence of the motor carrier and its driver. There were no claims that our selection or retention of the motor carrier was negligent.

Given our prior experience with claims of this nature, we believe the court erred in allowing these claims to be considered by a jury. As a result, we sought relief from the verdict in the Appellate Court of Illinois, Third Judicial District. On March 30, 2011 the Illinois Court of Appeals issued an opinion affirming the verdict. Although we and our insurance carriers will continue to pursue legal recourse, we determined that it was appropriate to record a \$5.9 million charge in the first quarter of 2011. This amount represents our \$5.0 million insurance deductible plus accrued post-judgment interest on that amount. Our insurance carrier is responsible for the remaining verdict amount and related post-judgment interest.

We are not subject to any other pending or threatened litigation other than routine litigation arising in the ordinary course of our business operations, none of which is currently expected to have a material adverse effect on our financial condition, results of operations, or cash flows.

4. Fair Value Measurement

Accounting guidance on fair value measurements for certain financial assets and liabilities requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1 - Quoted market prices in active markets for identical assets or liabilities.

Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3 - Unobservable inputs reflecting the reporting entity's own assumptions or external inputs from inactive markets. A financial asset or liability's classification within the hierarchy is determined based on the lowest level of input that is significant to the fair value measurement.

Table of Contents

The following tables present information as of March 31, 2011 and December 31, 2010, about our financial assets and liabilities that are measured at fair value on a recurring basis, according to the valuation techniques we used to determine their fair values.

	Level 1	Level 2	Level 3	Total Fair Value
March 31, 2011				
Debt securities- Available-for-sale:				
State and municipal obligations	\$ 0	\$ 982	\$ 0	\$ 982
Contingent purchase price related to acquisitions	\$ 0	\$ 0	\$ 12,871	\$ 12,871
December 31, 2010				
Debt securities- Available-for-sale:				
State and municipal obligations	\$ 0	\$ 8,370	\$ 0	\$ 8,370
Corporate bonds	0	920	0	920
Total assets at fair value	\$ 0	\$ 9,290	\$ 0	\$ 9,290
Contingent purchase price related to acquisitions	\$ 0	\$ 0	\$ 16,623	\$ 16,623

The estimated fair values of debt securities held as available-for-sale are based on other market data for comparable instruments and the transactions related in establishing the prices. In measuring the fair value of the contingent payment liability, we used an income approach that considers the expected future earnings of the acquired businesses and the resulting contingent payments, discounted at a risk-adjusted rate.

The table below sets forth a reconciliation of our beginning and ending Level 3 financial liability balance.

	Three Months Ended	
	March 31,	
	2011	2010
Balance January 1	\$ 16,623	\$ 14,658
Payments of contingent purchase price	(3,850)	0
Total unrealized losses included in earnings	98	802
Balance March 31	\$ 12,871	\$ 15,460

5. Stock Award Plans

Stock-based compensation cost is measured at the grant date based on the value of the award and is recognized as expense as it vests. A summary of our total compensation expense recognized in our statements of operations for stock-based compensation is as follows (in thousands):

	Three Months Ended	
	March 31,	
	2011	2010
Stock-based compensation expense	\$ 12,510	\$ 4,664

Table of Contents

Our 1997 Omnibus Stock Plan allows us to grant certain stock awards, including stock options at fair market value and restricted shares and units, to our key employees, directors, and other third parties. A maximum of 28,000,000 shares can be granted under this plan; approximately 7,090,661 shares were available for stock awards as of March 31, 2011, which cover stock options and restricted stock awards. Awards that expire or are cancelled without delivery of shares generally become available for issuance under the plans.

Stock Options The contractual lives of all options as originally granted are ten years. Options vested over a five-year period from the date of grant, with none vesting the first year and one quarter vesting each year after that. Recipients are able to exercise options using a stock swap which results in a new, fully-vested restoration option with a grant price established based on the date of the swap and a remaining contractual life equal to the remaining life of the original option. Options issued to non-employee directors vest immediately. The fair value per option is established using the Black-Scholes option pricing model, with the resulting expense being recorded over the vesting period of the award. Other than restoration options, we have not issued any new stock options since 2003. As of March 31, 2011, there was no unrecognized compensation expense related to stock options since all outstanding options were fully vested.

Restricted Stock Awards We have awarded performance-based restricted shares and restricted units to certain key employees and non-employee directors. These restricted shares and restricted units are subject to certain vesting requirements over a five-year period, based on the company's earnings growth. The awards also contain restrictions on the awardees' ability to sell or transfer vested shares or units for a specified period of time. The fair value of these shares is established based on the market price on the date of grant, discounted for post-vesting holding restrictions. The discounts have varied from 12 percent to 22 percent and are calculated using the Black-Scholes option pricing model. Changes in the measured stock price volatility and interest rates are the primary reason for changes in the discount. These grants are being expensed based on the terms of the awards.

We have also awarded restricted shares and units to certain key employees that vest primarily based on their continued employment. The value of these awards is established by the market price on the date of the grant and is being expensed over the vesting period of the award.

We have also issued to certain key employees and non-employee directors restricted shares and units which are fully vested upon issuance. These shares and units contain restrictions on the awardees' ability to sell or transfer vested shares and units for a specified period of time. The fair value of these shares is established using the same method discussed above. These grants have been expensed during the year they were earned.

As of March 31, 2011, there was unrecognized compensation expense of \$156.0 million related to previously granted restricted equity. The amount of future expense will be based primarily on company performance, future awards, and certain other conditions.

Employee Stock Purchase Plan Our 1997 Employee Stock Purchase Plan allows our employees to contribute up to \$10,000 of their annual cash compensation to purchase company stock. Purchase price is determined using the closing price on the last day of the quarter, discounted by 15 percent. Shares are vested immediately. The following table summarizes employee stock purchase plan activity for the period:

Three Months Ended March 31, 2011		
Shares purchased by employees	Aggregate cost to employees	Expense recognized by the company
76,488	\$ 4,820,000	\$ 851,000

6. Income Taxes

C.H. Robinson Worldwide, Inc. and its 80 percent (or more) owned U.S. subsidiaries file a consolidated federal income tax return. We file unitary or separate state returns based on state filing requirements. With few exceptions, we are no longer subject to audits of U.S. federal, state and local, or non-U.S. income tax returns before 2005.

	Three Months Ended March 31,	
	2011	2010
Effective income tax rate	38.2%	38.4%

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-Q

The effective income tax rate for both periods is greater than the statutory federal income tax rate primarily due to state income taxes, net of federal benefit.

Table of Contents

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion of our financial condition and results of operations in conjunction with our condensed consolidated financial statements and related notes.

Forward-looking Information

Our quarterly report on Form 10-Q, including this discussion and analysis of our financial condition and results of operations and our disclosures about market risk, contains certain forward-looking statements. These statements represent our expectations, beliefs, intentions, or strategies concerning future events that, by their nature, involve risks and uncertainties. Forward looking statements include, among others, statements about our future performance, the continuation of historical trends, the sufficiency of our sources of capital for future needs, the effects of acquisitions, the expected impact of recently issued accounting pronouncements, and the outcome or effects of litigation. Risks that could cause actual results to differ materially from our current expectations include changes in economic conditions such as the strength of the current recovery and uncertain consumer demand; changes in market demand and pressures on the pricing for our services; competition and growth rates within the third party logistics industry; freight levels and increasing costs and availability of truck capacity or alternative means of transporting freight, and changes in relationships with existing contracted truck, rail, ocean, and air carriers; changes in our customer base due to possible consolidation among our customers; our ability to integrate the operations of acquired companies with our historic operations successfully; risks associated with litigation and insurance coverage; risks associated with operations outside of the U.S.; risks associated with the potential impacts of changes in government regulations; risks associated with the produce industry, including food safety and contamination issues; increases in fuel prices; the impact of war on the economy; and other risks and uncertainties detailed in our Annual and Quarterly Reports. Therefore, actual results may differ materially from our expectations based on these and other risks and uncertainties, including those described in Item 1A. Risk Factors of our Annual Report on Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2010, filed on March 1, 2011.

Overview

Our company. We are a global provider of multimodal transportation services and logistics solutions, operating through a network of branch offices in North America, Europe, Asia, South America, Australia, and the Middle East. We work with approximately 49,000 transportation companies worldwide, and through those relationships we select and hire the appropriate transportation providers to meet our customers' needs. As an integral part of our transportation services, we provide a wide range of value added logistics services, such as supply chain analysis, freight consolidation, outsourced transportation, transportation management, and information reporting.

In addition to multimodal transportation services, we also offer fresh produce sourcing and fee-based information services. Our Sourcing business is the buying, selling, and marketing of fresh produce. We purchase fresh produce through our network of produce suppliers and sell it to retail grocers and restaurant chains, produce wholesalers and foodservice providers. In some cases, we also arrange the transportation of the produce we sell through our relationships with specialized transportation companies. Those revenues are reported as Transportation revenues. Our Information Services business is our subsidiary, T-Chek, which provides a variety of management and business intelligence services to motor carrier companies and to fuel distributors. Those services include funds transfer, fuel purchasing, and online expense management.

Our business model. We are a service company. We act primarily to add value and expertise in the procurement and execution of transportation and logistics, including sourcing of produce products for our customers. Our total revenues represent the total dollar value of services and goods we sell to our customers. Our net revenues are our total revenues less purchased transportation and related services, including contracted motor carrier, rail, ocean, air, and other costs, and the purchase price and services related to the products we source. Our net revenues are the primary indicator of our ability to source, add value, and sell services and products that are provided by third parties, and we consider them to be our primary performance measurement. Accordingly, the discussion of our results of operations below focuses on the changes in our net revenues.

We keep our business model as variable as possible to allow us to be flexible and adapt to changing economic and industry conditions. We sell transportation services and produce to our customers with varied pricing arrangements. Some prices are committed to for a period of time, subject to certain terms and conditions, and some prices are set on a spot-market basis. We buy most of our transportation capacity and produce on a spot-market basis. Because of this our net revenue per transaction tends to increase in times when there is excess supply and decrease in times when demand is strong relative to supply. We also keep our personnel and other operating expenses as variable as possible. Compensation is performance-oriented and, for most employees in the branch network, based on the profitability of their individual branch office.

In addition, we do not have pre-committed targets for headcount. Our personnel decisions are decentralized. Our branch managers determine the appropriate number of employees for their offices, within productivity guidelines, based on their branch's volume of business. This helps keep our personnel expense as variable as possible with the business.

Our branch network. Our branch network is a competitive advantage. Building local customer and contract carrier relationships has been an important part of our success, and our worldwide network of offices supports our core strategy of serving customers locally, nationally, and globally. Our branch offices help us penetrate local markets, provide face-to-face service when needed, and recruit contract carriers. Our branch network also gives us knowledge of local market conditions, which is important in the transportation industry because it is so dynamic and market-driven.

Table of Contents

Our branches work together to complete transactions and collectively meet the needs of our customers. Approximately 37 percent of our truckload shipments are shared transactions between branches. For many of our significant customer relationships, we coordinate our efforts in one branch and rely on multiple branch locations to deliver specific geographic or modal needs. In addition, our methodology of providing services is very similar across all branches. Our North American branches have a common technology platform that they use to match customer needs with supplier capabilities, to collaborate with other branch locations, and to utilize centralized support resources to complete all facets of the transaction.

During the first quarter of 2011, we opened one branch in Gothenburg, Sweden. We are planning limited branch openings during the remainder of 2011.

Our people. Because we are a service company, our continued success is dependent on our ability to continue to hire and retain talented, productive people, and to properly align our headcount and personnel expense with our business. Our headcount as of March 31, 2011 increased 2.0 percent compared to our headcount as of December 31, 2010. Branch employees act as a team in their sales efforts, customer service, and operations. A significant portion of our branch employees' compensation is performance-oriented, based on individual performance and the profitability of their branch. We believe this makes our sales employees more service-oriented, focused, and creative. In 2003, we implemented a restricted stock program to better align the interests of our key employees with the interests of our shareholders, and to motivate and retain them for the long term. These restricted stock awards vest over a five-year period based on the company's earnings growth, and have been awarded annually since 2003.

Our customers. In 2010, we worked with more than 36,000 customers, up from approximately 35,000 in 2009. We work with a wide variety of companies, ranging in size from Fortune 100 companies to small family businesses, in many different industries. Our customer base is very diverse. Our top 100 customers represented approximately 33 percent of our total revenues and approximately 28 percent of our net revenues. Our largest customer was approximately five percent of our total revenues and approximately three percent of our total net revenues.

Our contracted carriers. Our contracted carrier base includes motor carriers, railroads (primarily intermodal service providers), air freight, and ocean carriers. In 2010, our carrier base was approximately 49,000, up from approximately 47,000 in 2009. Motor carriers that had fewer than 100 tractors transported approximately 83 percent of our truckload shipments in 2010. In our Transportation business, no single carrier represents more than approximately one percent of our contracted carrier capacity.

Our goals. Since we became a publicly-traded company in 1997, our long-term compounded annual growth target has been 15 percent for net revenues, income from operations, and earnings per share. Although there have been periods where we have not achieved these goals, since 1997 we have exceeded this compounded growth goal in all three categories. Our expectation is that over time, we will continue to achieve our long-term target of 15 percent growth, but that we will have periods in which we exceed that goal and periods in which we fall short. We expect to reach our long-term growth primarily through internal growth but acquisitions that fit our growth criteria and culture may also augment our growth.

During the first quarter of 2011, our consolidated total revenues increased 14.0 percent due primarily to volume increases in nearly all of our modes of transportation and increasing transportation rates. Transportation rates increased primarily due to a rise in fuel prices and increased pricing to our customers. Our pricing, exclusive of fuel, increased due to an increase in overall transportation market demand.

Due to increased volumes in most of our transportation modes, we achieved our long-term growth goal of 15 percent during the first quarter of 2011. Our net revenues grew 17.4 percent to \$390.3 million. Our income from operations increased 15.2 percent to \$156.7 million and our diluted earnings per share increased 18.0 percent to \$0.59. During the first quarter of 2011, our net revenue margins (net revenues as a percentage of total revenues) increased to 16.5 percent from 16.0 percent in the first quarter of 2010. This increase was primarily due to a decline in our lower margin Sourcing business. Our Transportation net revenue margin decreased slightly due to higher transportation costs and higher fuel prices, partially offset by increased pricing to our customers.

Table of Contents**Results of Operations**

The following table summarizes our total revenues by service line:

	Three Months Ended March 31,		% change
	2011	2010	
Revenues (in thousands)			
Transportation	\$ 1,991,022	\$ 1,639,236	21.5%
Sourcing	360,028	422,655	-14.8%
Information Services	14,422	12,726	13.3%
Total	\$ 2,365,472	\$ 2,074,617	14.0%

The following table illustrates our net revenue margins, or net revenues as a percentage of total revenues, between services and products:

	Three Months Ended March 31,	
	2011	2010
Transportation	17.2%	17.4%
Sourcing	9.2	8.3
Information Services	100.0	100.0
Total	16.5%	16.0%

Income before provision for income taxes	40.2	41.0
Provision for income taxes	15.3	15.8
Net income	24.9%	25.3%

Three Months Ended March 31, 2011 Compared to Three Months Ended March 31, 2010

Total revenues and direct costs. Our consolidated total revenues increased 14.0 percent in the first quarter of 2011 compared to the first quarter of 2010. Total Transportation revenues increased 21.5 percent to \$2.0 billion in the first quarter of 2011 from \$1.6 billion in the first quarter of 2010. This increase was driven by higher volumes in nearly all of our transportation modes and increased pricing to our customers, including the impacts of higher fuel costs. Total purchased transportation services increased 21.7 percent in the first quarter of 2011 to \$1.6 billion from \$1.4 billion in the first quarter of 2010. This increase was due to higher volumes in nearly all of our transportation modes and higher transportation costs, including the impacts of higher fuel costs. Our Sourcing revenue decreased 14.8 percent to \$360.0 million in the first quarter of 2011. This decrease is primarily due to declines in our business with a large customer. Purchased products sourced for resale decreased 15.7 percent in the first quarter of 2011 to \$327.0 million from \$387.7 million in the first quarter of 2010. Our Information Services revenue increased 13.3 percent to \$14.4 million in the first quarter of 2011 from \$12.7 million in the first quarter of 2010. The increase was driven by increases in certain fees that are impacted by fuel prices and an increase in transactions.

Net revenues. Total Transportation net revenues increased 20.3 percent to \$342.9 million in the first quarter of 2011 from \$284.9 million in the first quarter of 2010. The slight decline in our Transportation net revenue margin to 17.2 percent in 2011 from 17.4 percent in 2010 was largely driven by higher transportation costs and higher fuel costs, partially offset by an increase in transportation pricing to our customers. In our largest transportation service, truckload transportation, our different pricing arrangements with customers and contract carriers make it very difficult to measure the precise impact of changes in fuel prices; however, we believe that fuel costs essentially act as a pass-through to our truckload business. Therefore, in times of increasing fuel prices, our net revenue margin percentage declines as it did in the first quarter of 2011.

Our truck net revenues, which consist of truckload and less-than-truckload (LTL) services, comprise approximately 75 percent of our total net revenues. Our truck net revenues increased 21.9 percent to \$294.5 million in the first quarter of 2011 from \$241.7 million in the first quarter of 2010. Our truckload volumes increased approximately 7.5 percent. Our truckload net revenue margin was consistent with the first quarter of 2010. Excluding the estimated impacts of the change in fuel, our truckload pricing to our customers increased approximately eight percent in the first quarter of 2011 compared to the first quarter of 2010. Our truckload transportation costs increased approximately six percent, excluding the estimated impacts of the change in fuel.

During the first quarter of 2011, our LTL net revenues increased approximately 31 percent. The increase was driven by an increase in total shipments of approximately 18 percent, pricing increases, and a small increase in our net revenue margin.

Our intermodal net revenue increase of 13 percent to \$9.6 million in the first quarter was due to increased prices, partially offset by a small volume decline. Our volumes declined due to weather impacts and our geographic mix. Price increases were driven by market conditions and the increased price of fuel. Net revenue margins were slightly higher than the first quarter of 2010.

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-Q

Our ocean transportation net revenue increase of 24.3 percent to \$15.6 million in the first quarter of 2011 was driven by higher pricing and volume increases, partially offset by increased cost of capacity. We experienced a net revenue margin decline due to increased cost of capacity, which was partially offset by increased pricing to our customers.

Our air transportation net revenue increased 4.0 percent to \$9.2 million in the first quarter of 2011 due to higher volumes. Our air net revenue margins decreased in the first quarter of 2011 due to higher cost of capacity.

Table of Contents

Other logistics services net revenues consist primarily of transportation management fees and customs brokerage fees. The increase of 4.8 percent was driven primarily by an increase in management fees.

For the first quarter, Sourcing net revenue decreased 5.5 percent to \$33.0 million in 2011 from \$34.9 million in 2010. This decline is primarily due to decreased volumes with a large customer that, due to a change in their sourcing strategy, has eliminated some of our business with them. We continue to help them through the transition and believe that there may be new opportunities for us to grow our business with them in the future. As a result of this change, we believe our Sourcing volumes and net revenues could decline over the next several quarters as this transition will initially lead to more declines than new opportunities available to us. Our net revenue margin increased to 9.2 percent in 2011 from 8.3 percent in 2010. The increased margin was primarily driven by higher prices for certain commodities as a result of bad weather in some growing regions.

Our Information Services net revenue increased 13.3 percent in the first quarter of 2011 to \$14.4 million. The increase was driven by increases in certain fees that are impacted by fuel prices and an increase in transactions.

Operating expenses. For the first quarter, operating expenses increased 18.8 percent to \$233.6 million in 2011 from \$196.6 million in 2010. This was due to an increase of 19.3 percent in personnel expenses and an increase of 17.4 percent in other selling, general, and administrative expenses. As a percentage of net revenues, operating expenses increased to 59.9 percent in the first quarter of 2011 from 59.1 percent in the first quarter of 2010.

Personnel expenses related to our restricted stock program and various other incentive plans increased as many are variable, based on growth in our earnings. For the first quarter, stock based compensation expense increased 168.2 percent to \$12.5 million in 2011 from \$4.7 million in 2010. In addition to our variable compensation plans, our headcount as of March 31, 2011 increased 5.9 percent over March 31, 2010. Our personnel expenses as a percentage of net revenue increased in the first quarter of 2011 to 44.9 percent compared to 44.1 percent in the first quarter of 2010.

For the first quarter, other selling, general, and administrative expenses increased to \$58.5 million from \$49.8 million in the first quarter of 2010. As previously announced, we recorded a \$5.9 million charge in the first quarter due to a ruling by the Illinois Court of Appeals.

Income from operations. Income from operations increased 15.2 percent to \$156.7 million for the three months ended March 31, 2011. Income from operations as a percentage of net revenues was 40.1 percent and 40.9 percent for the three months ended March 31, 2011 and 2010.

Investment and other income. Investment and other income decreased 52.5 percent to \$0.2 million for the three months ended March 31, 2011. Our investment income is down due to lower investment yields during the first quarter of 2011 compared to the first quarter of 2010.

Provision for income taxes. Our effective income tax rate was 38.2 percent for the first quarter of 2011 and 38.4 percent for the first quarter of 2010. The effective income tax rate for both periods is greater than the statutory federal income tax rate primarily due to state income taxes, net of federal benefit.

Net Income. Net income increased 15.5 percent to \$97.0 million for the three months ended March 31, 2011. Basic net income per share was \$0.59 and \$0.51 for the three months ended March 31, 2011 and 2010. Diluted net income per share was \$0.59 and \$0.50 for the three months ended March 31, 2011 and 2010.

LIQUIDITY AND CAPITAL RESOURCES

We have historically generated substantial cash from operations, which has enabled us to fund our growth while paying cash dividends and repurchasing stock. Cash and cash equivalents totaled \$359.3 million and \$229.6 million as of March 31, 2011 and 2010. Available-for-sale securities consisting primarily of highly liquid investments totaled \$1.0 million and \$53.6 million as of March 31, 2011 and 2010. Working capital at March 31, 2011 and 2010 was \$730.3 million and \$567.4 million.

We prioritize our investments to grow the business, as we require some working capital and a relatively small amount of capital expenditures to grow. We are continually looking for acquisitions to support our long-term growth strategy, but those acquisitions must fit our culture and enhance our growth opportunities. We continue to invest our cash with a focus on principal preservation. Our current interest-bearing cash and investments are primarily municipal money markets in tax exempt bonds.

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-Q

Cash flow from operating activities. We generated \$52.6 million and \$3.9 million of cash flow from operations during the three months ended March 31, 2011 and 2010. Accounts payable increased by \$81.7 million from December 31, 2010 to March 31, 2011. The increase in payables was driven by growth in transaction volumes and the increased cost of capacity. Accounts receivable increased by \$139.7 million from December 31, 2010 to March 31, 2011. This increase was driven by growth in total revenues and transaction volumes during the same period.

Table of Contents

Cash flow from investing activities. We used \$1.3 million and \$6.5 million of cash flow for investing activities during the three months ended March 31, 2011 and 2010. We used \$9.6 million and \$4.4 million of cash for capital expenditures, including the purchase and development of software, during the three months ended March 31, 2011 and 2010. We had \$8.3 million of cash provided from net purchases, sales, and maturities of available-for-sale securities during the three months ended March 31, 2011.

Cash flow from financing activities. We used \$89.5 million and \$102.9 million of cash flow for financing activities during the three months ended March 31, 2011 and 2010.

We used \$48.9 million and \$42.4 million to pay cash dividends during the three months ended March 31, 2011 and 2010, with the increase in 2011 due to a 16 percent increase in our quarterly dividend rate to \$0.29 per share in 2011 from \$0.25 per share in 2010.

We used \$45.5 million and \$68.2 million of cash flow for share repurchases during the three months ended March 31, 2011 and 2010. The decrease is due to a decline of approximately 50 percent in the number of shares purchased during the first three months of 2011 compared to the same period of 2010. The number of shares we repurchase, if any, during future periods will vary based on our cash position, potential uses of our cash, and market conditions.

We also used \$3.9 million of cash flow for the payment of contingent consideration during the three months ended March 31, 2011.

Assuming no change in our current business plan, management believes that our available cash, together with expected future cash generated from operations, will be sufficient to satisfy our anticipated needs for working capital, capital expenditures, and cash dividends in future periods. We also believe we could obtain funds under lines of credit on short notice, if needed.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our condensed consolidated financial statements include accounts of the company and all majority-owned subsidiaries. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions. In certain circumstances, those estimates and assumptions can affect amounts reported in the accompanying condensed consolidated financial statements and related footnotes. In preparing our financial statements, we have made our best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. We do not believe there is a great likelihood that materially different amounts would be reported related to the accounting policies described below. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. Note 1 of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2010, includes a summary of the significant accounting policies and methods used in the preparation of our consolidated financial statements. The following is a brief discussion of our critical accounting policies and estimates.

Revenue recognition. Total revenues consist of the total dollar value of goods and services purchased from us by customers. Net revenues are our total revenues less purchased transportation and related services, including motor carrier, rail, ocean, air, and other costs, and the purchase price and services related to the products we source. We act principally as the service provider for these transactions and recognize revenue as these services are rendered or goods are delivered. At that time, our obligations to the transactions are completed and collection of receivables is reasonably assured. Most transactions in our Transportation and Sourcing businesses are recorded at the gross amount we charge our customers for the service we provide and goods we sell. In these transactions, we are the primary obligor, we are a principal to the transaction, we have all credit risk, we maintain substantially all risks and rewards, we have discretion to select the supplier, and we have latitude in pricing decisions.

Additionally, in our Sourcing business, we take loss of inventory risk during shipment and have general inventory risk. Certain transactions in customs brokerage, transportation management, and all transactions in Information Services are recorded at the net amount we charge our customers for the service we provide because many of the factors stated above are not present.

Valuations for accounts receivable. Our allowance for doubtful accounts is calculated based upon the aging of our receivables, our historical experience of uncollectible accounts, and any specific customer collection issues that we have identified. The allowance of \$31.7 million as of March 31, 2011, increased compared to the allowance of \$30.9 million as of December 31, 2010. We believe that the recorded allowance is sufficient and appropriate based on our customer aging trends, the exposures we have identified, and our historical loss experience.

Goodwill. We manage and report our operations as one operating segment. Our branches represent a series of components that are aggregated for the purpose of evaluating goodwill for impairment on an enterprise-wide basis. In the case where we have an acquisition that we feel has not yet become integrated into our branch network component, we will evaluate the impairment of any goodwill related to that specific acquisition and its results.

Stock-based compensation. The fair value of each share-based payment award is established on the date of grant. For grants of restricted shares and restricted units, the fair value is established based on the market price on the date of the grant, discounted for post-vesting holding restrictions. The discounts have varied from 12 percent to 22 percent and are calculated using the Black-Scholes

Table of Contents

option pricing model. Changes in the measured stock price volatility and interest rates are the primary reason for changes in the discount. For grants of options, we use the Black-Scholes option pricing model to estimate the fair value of share-based payment awards. The determination of the fair value of share-based awards is affected by our stock price and a number of assumptions, including expected volatility, expected life, risk-free interest rate, and expected dividends.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We had \$360.3 million of cash and investments on March 31, 2011, consisting of \$359.3 million of cash and cash equivalents and \$1.0 million of short-term available-for-sale securities. Although these investments are subject to the credit risk of the issuer, we manage our investment portfolio to limit our exposure to any one issuer. Substantially all of the cash equivalents are money market securities consisting of tax exempt bonds. All of our available-for-sale securities are high-quality bonds and are exempt from U.S. federal income taxes. Because of the credit risk criteria of our investment policies and practices, the primary market risks associated with these investments are interest rate and liquidity risks. A hypothetical 100-basis-point change in the interest rate would not have a material effect on our earnings. We do not use derivative financial instruments to manage interest rate risk or to speculate on future changes in interest rates. A rise in interest rates could negatively affect the fair value of our investments. Market risk arising from changes in foreign currency exchange rates are not material due to the size of our international operations.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective.

(b) Changes in internal controls over financial reporting.

There were no changes that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect the company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. Legal Proceedings

On March 20, 2009, at the conclusion of a trial in Illinois State Court, Twelfth Judicial Circuit, Circuit Court of Will County, a jury entered a verdict of \$23.75 million against us, a federally authorized motor carrier with which we contracted, and the motor carrier's driver. The award was entered in favor of three named plaintiffs following a consolidated trial, stemming from an accident that occurred on April 1, 2004. The motor carrier and the driver both admitted that at the time of the accident the driver was acting as an agent for the motor carrier, and that the load was being transported according to the terms of our contract with the motor carrier. Our contract clearly defined the motor carrier as an independent contractor. The verdict has the effect of holding us vicariously liable for the damages caused by the admitted negligence of the motor carrier and its driver. There were no claims that our selection or retention of the motor carrier was negligent.

Given our prior experience with claims of this nature, we believe the court erred in allowing these claims to be considered by a jury. As a result, we sought relief from the verdict in the Appellate Court of Illinois, Third Judicial District. On March 30, 2011 the Illinois Court of Appeals issued an opinion affirming the verdict. Although we and our insurance carriers will continue to pursue legal recourse, as previously disclosed we determined that it was appropriate to record a \$5.9 million charge in the first quarter of 2011. This amount represents our \$5.0 million insurance deductible plus accrued post-judgment interest on that amount. Our insurance carrier is responsible for the remaining verdict amount and related post-judgment interest.

We are not subject to any other pending or threatened litigation other than routine litigation arising in the ordinary course of our business operations, none of which is currently expected to have a material adverse effect on our financial condition, results of operations, or cash flows.

ITEM 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Table of Contents**ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The following table provides information about purchases by the company during the quarter ended March 31, 2011 of equity securities that are registered by the company pursuant to Section 12 of the Exchange Act:

Period		(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs (1)	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
January 1, 2011	January 31, 2011	0	\$ 0	0	8,605,169
February 1, 2011	February 28, 2011	305,678	\$ 73.60	305,678	8,299,491
March 1, 2011	March 31, 2011	317,537	\$ 72.44	317,537	7,981,954
Total:		623,215	\$ 73.01	623,215	7,981,954

- (1) In August 2009, the C.H. Robinson Board of Directors authorized management to repurchase an additional 10,000,000 shares. These repurchases are expected to take place over multiple years. During the first quarter of 2011, we purchased 623,215 shares under the 2009 authorization.

ITEM 3. Defaults on Senior Securities

None

ITEM 5. Other Information

None

ITEM 6. Exhibits and Reports on Form 8-K

(a) Exhibits

- 31.1 Certification of the Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of the Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Certification of the Chief Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Certification of the Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 101 Financial statements from the Quarterly Report on Form 10-Q of the Company for the period ended March 31, 2011, formatted in XBRL

(b) Reports on Form 8-K

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-Q

We filed a report on Form 8-K February 1, 2011; this report contained information under Item 12 (Results of Operations and Financial Condition) and included as an exhibit under Item 7 a copy of our earnings release for the quarter ended December 31, 2010.

We filed a report on Form 8-K on February 10, 2011; this report contained information regarding our announcement that our Board of Directors declared a regular quarterly cash dividend.
