Table of Contents

In this quarterly report, references to Och-Ziff, our Company, the Company, we, us, or our refer, unless the context requires otherwise, to Och-Ziff Capital Management Group LLC, a Delaware limited liability company, and its consolidated subsidiaries, including the Och-Ziff Operating Group. References to the Och-Ziff Operating Group refer, collectively, to OZ Management LP, a Delaware limited partnership, which we refer to as OZ Management, OZ Advisors LP, a Delaware limited partnership, which we refer to as OZ Advisors I, OZ Advisors II LP, a Delaware limited partnership, which we refer to as OZ Advisors II, and their consolidated subsidiaries. References to our intermediate holding companies refer, collectively, to Och-Ziff Holding Corporation, a Delaware corporation, which we refer to as Och-Ziff Corp, and Och-Ziff Holding LLC, a Delaware limited liability company, which we refer to as Och-Ziff Holding, both of which are wholly-owned subsidiaries of Och-Ziff Capital Management Group LLC.

References to our partners refer to the current limited partners of the Och-Ziff Operating Group entities other than the Ziffs and our intermediate holding companies, including our founder, Mr. Daniel S. Och, except where the context requires otherwise. References to the Ziffs refer collectively to Ziff Investors Partnership, L.P. II and certain of its affiliates and control persons.

References to Class A Shares refer to our Class A Shares, representing Class A limited liability company interests of Och-Ziff Capital Management Group LLC, which are publicly traded and listed on the New York Stock Exchange. References to Class B Shares refer to Class B Shares of Och-Ziff Capital Management Group LLC, which are not publicly traded, are currently held solely by our partners and have no economic rights but entitle the holders thereof to one vote per share together with the holders of our Class A Shares.

References to our IPO refer to our initial public offering of 36.0 million Class A Shares that occurred in November 2007. References to the Offerings refer collectively to our IPO and the concurrent private offering of approximately 38.1 million Class A Shares to DIC Sahir Limited, a wholly-owned subsidiary of Dubai International Capital LLC. References to DIC refer to Dubai International Capital LLC and its affiliates.

References to our funds or Och-Ziff funds refer to the hedge funds and other alternative investment vehicles for which we provide asset management services.

No statements herein, available on our website or in any of the materials we file with the Securities and Exchange Commission, which we refer to as the SEC, constitute or should be viewed as constituting an offer of any Och-Ziff fund.

Forward-Looking Statements

Some of the statements under Part I Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations, Part II Item 1A. Risk Factors, Part I Item 3. Quantitative and Qualitative Disclosures About Market Risk and elsewhere in this quarterly report may contain forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933, as amended, which we refer to as the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act, that reflect our current views with respect to, among other things, future events and financial performance. We generally identify forward-looking statements by terminology such as outlook, believe, expect, potential, continue, may, will, should, could, seek, approximately, predict, intend, opportunity, comfortable, assume, remain, maintain, sustain, achieve, see, think, position or the negative version of those words or comparable words.

Any forward-looking statements contained herein are based upon historical information and on our current plans, estimates and expectations. The inclusion of this or other forward-looking information should not be regarded as representation by us or any other person that the future plans, estimates or expectations contemplated by us will be achieved. We caution that forward-looking statements are subject to numerous assumptions, estimates, risks and uncertainties, including but not limited to: global economic, business, market and geopolitical conditions; the failure or perceived risk of failure by the U.S. Government to increase the debt ceiling, any resulting default by the U.S. Government on its financial obligations or any downgrade or perceived risk of downgrade in the credit ratings of the U.S. Government; U.S. and foreign regulatory developments relating to, among other things, financial institutions and markets, government oversight and taxation; the conditions impacting the hedge fund industry; our ability to successfully compete for fund investors, assets, professional talent and investment opportunities; our ability to retain our partners, managing directors and investment professionals; our successful formulation and execution of our business and growth strategies; our ability to appropriately manage conflicts of interest; tax and other regulatory factors relevant to our business; as well as assumptions relating to our operations, investment performance, financial results, financial condition, business prospects, growth strategy and liquidity.

Table of Contents

If one or more of these or other risks or uncertainties materialize, or if our assumptions or estimates prove to be incorrect, our actual results may vary materially from those indicated in these statements. These factors are not and should not be construed as exhaustive and should be read in conjunction with the other cautionary statements and risks that are included in our filings with the SEC, including but not limited to our annual report on Form 10-K for the year ended December 31, 2010 filed on February 28, 2011, which we refer to as our Annual Report. Any forward-looking statements made by us speak only as of the date they are made, and we assume no duty and do not undertake to update any forward-looking statement.

OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED

JUNE 30, 2011

1. BUSINESS

Och-Ziff Capital Management Group LLC (the Registrant), a Delaware limited liability company, together with its consolidated subsidiaries (collectively, the Company), is a global alternative asset management firm with offices in New York, London, Hong Kong, Mumbai and Beijing. The Company provides asset management services to its investment funds (the Och-Ziff funds or the funds), which pursue diverse investment opportunities globally. The Och-Ziff funds seek to generate consistent, positive, risk-adjusted returns across market cycles with low volatility and low correlation to the equity markets. The Company has always limited the use of leverage to generate investment performance in its funds and emphasizes preservation of fund investor capital.

The Company's primary sources of revenues are management fees, which are based on the amount of the Company's assets under management, and incentive income, which is based on the investment performance of the funds. Accordingly, for any given period, the Company's revenues will be driven by the combination of assets under management and the investment performance of the Och-Ziff funds.

The Company conducts substantially all of its operations through its one reportable segment, the Och-Ziff Funds segment, which provides asset management services to the Company's funds. The Company's assets under management are generally invested on a multi-strategy basis, across multiple geographies, although certain funds are focused on specific sectors, strategies or geographies. The primary investment strategies the Company employs in its funds are: convertible and derivative arbitrage, credit, long/short equity special situations, merger arbitrage, private investments and structured credit.

The Company's Other Operations are currently comprised of its real estate business, which provides asset management services to its real estate funds, and investments in businesses established to expand the Company's private investment platforms. The businesses and investments included in the Company's Other Operations do not meet the thresholds of reportable business segments under U.S. generally accepted accounting principles (U.S. GAAP).

The Company generates substantially all of its revenues in the United States. The liability of the Company's Class A Shareholders is limited to the extent of their capital contributions.

References to the Company's partners refer to the current limited partners of OZ Management LP, OZ Advisors LP and OZ Advisors II LP (collectively with their consolidated subsidiaries, the Och-Ziff Operating Group), including the Company's founder, Mr. Daniel S. Och, but excludes Ziff Investors Partnership, L.P. II and certain of its affiliates and control persons (collectively, the Ziffs) and the Company's intermediate holding companies, except where the context requires otherwise. The Company conducts substantially all of its operations through the Och-Ziff Operating Group.

2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

These unaudited, interim, consolidated financial statements are prepared in accordance with U.S. GAAP and should be read in conjunction with the audited financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2010. In the opinion of management, all adjustments considered necessary for a fair presentation of the Company's unaudited, interim, consolidated financial statements have been included and are of a normal and recurring nature. The results of operations presented for the interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year, primarily as a result of the majority of incentive income and discretionary cash bonuses being recorded in the fourth quarter each year. All significant intercompany transactions and balances have been eliminated in consolidation.

Recently Adopted Accounting Pronouncements

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amends fair value disclosure requirements by requiring an entity to: (i) disclose separately the amounts of significant transfers in and out of Level I and Level II fair value measurements and describe the reasons for the transfers; and (ii) present separately information about purchases, sales, issuances and settlements in the roll forward of activity in Level III fair value measurements (i.e. gross presentation).

Table of Contents

OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED

JUNE 30, 2011

Additionally, ASU 2010-06 clarifies existing disclosure requirements related to the level of disaggregation for each class of assets and liabilities and disclosures about inputs and valuation techniques for fair value measurements classified as either Level II or Level III. The new disclosures were effective for the Company in the first quarter of 2010, except for the disclosures requiring separate presentation of information about purchases, sales, issuances and settlements in the roll forward of activity in Level III fair value measurements. Those disclosures were effective for the Company beginning in the first quarter of 2011. The adoption of the new disclosure requirements in ASU 2010-06 did not have any impact on the Company's financial position or results of operations at the date of adoption, as these changes affected disclosure requirements and had no impact on the accounting for items at fair value.

Future Adoption of Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 provides clarifying guidance on how to measure fair value and requires additional disclosures regarding fair value measurements. The amendments, among other things, prohibit the use of blockage factors at all levels of the fair value hierarchy, provide guidance on measuring financial instruments that are managed on a net portfolio basis and clarify guidance on the application of premiums and discounts in measuring fair value. Additional disclosure requirements include the disclosure of transfers between Levels I and II, a description of the valuation processes for Level III fair value measurements, as well as additional information regarding unobservable inputs impacting Level III measurements. The amendments are effective for the Company beginning in the first quarter of 2012. The Company is currently evaluating the impact, if any, that these updates will have on its financial condition or results of operations.

In June 2011, the FASB issued ASU 2011-05, *Presentation of Comprehensive Income*. ASU 2011-05 requires entities to present the components of net income, the components of other comprehensive income and the total of comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Regardless of the option chosen, the entity is required to present items that are reclassified between net income and other comprehensive income on the face of the financial statements where the components of net income and the components of other comprehensive income are presented. This amendment eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The requirements of ASU 2011-05 are effective for the Company beginning in the first quarter of 2012. The adoption of ASU 2011-05 will not have any impact on the Company's financial position or results of operations, as ASU 2011-05 only changes the presentation of other comprehensive income and total comprehensive income. No changes were made to the existing guidance regarding which items are reported in other comprehensive income.

3. REORGANIZATION EXPENSES AND OCH-ZIFF OPERATING GROUP OWNERSHIP

On November 19, 2007, the Company completed its initial public offering (IPO) of 36.0 million Class A Shares and a private offering of approximately 38.1 million Class A Shares to DIC Sahir, a wholly-owned subsidiary of Dubai International Capital LLC (collectively, the Offerings). The Company used the net proceeds from the Offerings to acquire a 19.2% interest in the Och-Ziff Operating Group from the partners and the Ziffs, who collectively held all of the interests in the Och-Ziff Operating Group prior to the Offerings.

Prior to the Offerings, the Company completed a reorganization of its business (Reorganization). As part of the Reorganization, interests in the Och-Ziff Operating Group held by the partners and the Ziffs were reclassified as Och-Ziff Operating Group A Units and accounted for as a share-based payment. The Och-Ziff Operating Group A Units granted to the Ziffs and the units sold by the partners at the time of the Offerings were not subject to any substantive service or performance requirements; therefore, the fair value related to those units were recognized as a one-time charge at the time of the Offerings. The fair value of the Och-Ziff Operating Group A Units that continue to be held by the partners after the Offerings is being amortized on a straight-line basis over the requisite five-year service period following the Offerings. Once vested, these units may be exchanged for Class A Shares of the Registrant on a one-for-one basis, subject to certain transfer restrictions for the five years following the Offerings.

As of June 30, 2011, the Company's interest in the Och-Ziff Operating Group had increased to approximately 24.4%. Increases in the Company's interest in the Och-Ziff Operating Group are driven by the exchange of Och-Ziff Operating Group A Units for an equal number of Class A

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

Shares (Och-Ziff Operating Group A Unit Transactions). Additionally, the issuance of Class A Shares under the Company s Amended and Restated 2007 Equity Incentive Plan, primarily related to the vesting of Class A restricted share units (RSUs) also increases the Company s interest in the Och-Ziff Operating Group. The Company s interest in the Och-Ziff Operating Group is expected to continue to increase over time as additional Class A Shares are issued upon the vesting of RSUs or exchanges of Och-Ziff Operating Group A Units.

Table of Contents**OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED****JUNE 30, 2011****Och-Ziff Operating Group A Unit Transactions**

In connection with the exchange of Och-Ziff Operating Group A Units for Class A Shares and the reallocation of certain Och-Ziff Operating Group A Units forfeited by a former partner that were subsequently reallocated as non-equity profits interests (Och-Ziff Operating Group D Units), the Company recorded the following changes to shareholders' equity in the six months ended June 30, 2011:

	Paid-in Capital	Partners and Others' Interests in Consolidated Subsidiaries
	(dollars in thousands)	
Deferred income tax assets resulting from the exchange, net of increase in tax receivable agreement liability	\$ 1,900	\$
Deficit capital reallocated from partners' and others' interests in consolidated subsidiaries to the Company	(427)	427
	\$ 1,473	\$ 427

Vesting of Class A Restricted Share Units

In connection with the issuance of Class A Shares related to the vesting of RSUs, the Company reallocated \$164 thousand of deficit capital from partners' and others' interests in consolidated subsidiaries to the Company's paid-in capital in the six months ended June 30, 2011.

Conversion of Och-Ziff Operating Group D Units to Och-Ziff Operating Group A Units

During the second quarter of 2011, 1,650,000 non-equity interests (Och-Ziff Operating Group D Units) previously granted to certain partners admitted subsequent to the Offerings were converted to an equal number of Och-Ziff Operating Group A Units. An equal number of Class B Shares were also issued to those partners. Of the 1,650,000 Och-Ziff Operating Group A Units issued, 330,000 were immediately vested, and therefore a one-time charge was recorded within compensation and benefits in the amount of \$4.2 million. The grant-date fair value of the remaining Och-Ziff Operating Group A Units is being amortized on a straight-line basis over the requisite 3.3 year service period following the conversion.

4. FAIR VALUE DISCLOSURES

Fair value represents the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date (i.e., an exit price). Due to the inherent uncertainty of valuations of investments that are determined to be illiquid or do not have readily ascertainable fair values, the estimates of fair value may differ from the values ultimately realized, and those differences can be material.

U.S. GAAP prioritizes the level of market price observability used in measuring assets and liabilities at fair value. Market price observability is impacted by a number of factors, including the type of asset and liability and the specific characteristics of the assets and liabilities. Assets and liabilities with readily-available, actively-quoted prices or for which fair value can be measured from actively-quoted prices generally will have a higher degree of market price observability and lesser degree of judgment used in measuring fair value.

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

Assets and liabilities measured at fair value are classified into one of the following categories:

Level I Fair value is determined using quoted prices that are available in active markets for identical assets or liabilities as of the measurement date. Assets and liabilities that would generally be included in this category include certain listed equities and listed derivatives.

Level II Fair value is determined using quotations received from dealers making a market for these assets or liabilities (broker quotes), valuations obtained from independent third-party pricing vendors (independent pricing services), the use of models or other valuation methodologies based on pricing inputs that are either directly or indirectly market observable as of the measurement date. Consideration is given to the nature of the

Table of Contents

OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED

JUNE 30, 2011

broker quotes (e.g., indicative or executable). Assets and liabilities for which executable broker quotes are significant inputs in determining the fair value of an asset or liability are included within Level II. Assets and liabilities that would generally be included in this category include certain corporate bonds, certain credit default swap contracts, certain bank debt securities, less liquid and restricted equity securities, forward contracts and certain over-the-counter (OTC) derivatives.

Level III Fair value is determined using pricing inputs that are unobservable in the market and includes situations where there is little, if any, market activity for the asset or liability. The fair value of assets and liabilities in this category may require significant judgment or estimation in determining fair value of the assets or liabilities. The fair value of such assets and liabilities may be estimated using a combination of observed transaction prices, independent pricing services, relevant broker quotes, models or other valuation methodologies based on pricing inputs that are neither directly or indirectly market observable as of the measurement date. Assets and liabilities for which indicative broker quotes are significant inputs in determining the fair value of an asset or liability are included within Level III. Assets and liabilities that would generally be included in this category include equity and debt securities issued by private entities, limited partnerships, certain corporate bonds, certain credit default swaps, certain bank debt securities and certain OTC derivatives. Additionally, investments in structured products (as described below) are also generally included within Level III.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset or liability level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

The following table summarizes the Company's assets and liabilities measured at fair value on a recurring basis within the fair value hierarchy:

	Level I	As of June 30, 2011		Total
		Level II	Level III	
	(dollars in thousands)

Other investments	337		13,994	14,331
Financial Assets, at Fair Value, Included Within Investments, at Fair Value	\$ 342	\$	\$ 419,024	\$ 419,366
Deferred Balances, at Fair Value	\$	\$	\$ 2,913	\$ 2,913

As of December 31, 2010, the Company did not have any liabilities carried at fair value.

The Company assumes that any transfers between Level I, Level II or Level III during the period occur at the beginning of the period. For the six months ended June 30, 2011 and 2010, there were no significant transfers between Level I, Level II or Level III assets or liabilities.

Real estate investments include equity, preferred equity, mezzanine debt, and participating debt in entities domiciled primarily in the United States. The fair values of these investments are generally based upon discounting the expected cash flows from the investment or a multiple of earnings. In reaching the determination of fair value for investments, the Company considers many factors including, but not limited to, the operating cash flows and financial performance of the real estate investments relative to budgets or projections, property types, geographic locations, the physical condition of the asset, prevailing market capitalization rates, prevailing market discount rates, general economic conditions, economic conditions specific to the market in which the assets are located, the prevailing interest rate environment, the prevailing state of the debt markets, comparable public company trading multiples, independent third-party appraisals, available pricing data on comparable properties in the specific market in which the asset is located, expected exit timing and strategy and any specific rights or terms associated with the investment.

Structured products include investments in commercial and residential mortgage-backed securities, collateralized debt obligations and other asset-backed securities. The fair value of these investments is generally determined using broker quotes. Generally, these quotations are indicative in nature. If broker quotes are not available or deemed unreliable, fair value may be determined using independent pricing services or cash flow models. The inputs used in these models would include the performance of underlying collateral, prepayment and liquidation rates, credit spreads and discount rates. Market data is used to the extent that it is observable and considered reliable.

All other Level III investments, including those in energy and natural resources limited partnerships, bank debt securities, or for which exchange quotations are not readily available or deemed unreliable, are generally valued using broker quotes or as determined in good faith with third-party input or other observable market inputs, where available. The methods and procedures to value these investments may include, but are not limited to: (i) performing comparisons with prices of comparable or similar securities; (ii) obtaining valuation-related information from the issuers; (iii) calculating the present value of future cash flows; (iv) assessing other analytical data and information relating to the investment that is an indication of value; (v) obtaining information provided by third parties; (vi) reviewing of amounts invested in these investments; and (vii) evaluating financial information provided by the management of these investments. Inputs utilized to determine fair value when the above methods are used include, but are not limited to, the following: market prices for referenced securities; yield curves; spread analysis; discount rates; measures of volatility; net asset values published by third-party fund managers; analysis of qualitative and quantitative data in relation to the strength and condition of the issuer (including budgets, earnings projections and business plans); other information obtained from independent dealers and independent pricing services; market observations and correlations of these inputs.

Deferred balances are made up of deferred incentive income receivable from the Company's offshore funds. Deferred balances are valued based on net asset value information provided by the Och-Ziff funds. The investments within these funds are carried at fair value and are categorized

as Level I, II, and III financial instruments, as appropriate.

Other investments (including derivatives, net)	5,875	
Total, at Fair Value	\$ 5,172	\$ 19,376

Fair Value of Other Financial Instruments

Management estimates that the fair value of its term loan is approximately 95% of its carrying value as of June 30, 2011 based on an analysis of market data. Management believes that the carrying values of all other financial instruments presented on the consolidated balance sheets approximate their fair values.

5. VARIABLE INTEREST ENTITIES

In the ordinary course of business, the Company sponsors the formation of various entities considered to be variable interest entities (VIEs). These VIEs are primarily funds in which the Company serves as the general partner or the investment manager with decision making rights. VIEs consolidated by the Company are primarily funds in which kick-out or liquidation rights, if any, were deemed not to be substantive.

The Company's involvement with funds that are VIEs and not consolidated is generally limited to providing asset management services. The Company's exposure to loss from these entities is limited to a decrease in the management fees and incentive income that may be earned in future

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

periods. The net assets of these VIEs were \$27.0 billion and \$26.6 billion as of June 30, 2011 and December 31, 2010, respectively. The Company does not provide, nor is it required to provide, any type of financial or other support to these entities. The Company's variable interests related to these VIEs relate primarily to management fees and incentive income earned from the VIEs. As of June 30, 2011 and December 31, 2010, the only assets related to these variable interests related to income and fees receivable of \$15.9 million and \$313.9 million, respectively.

In addition, the Company holds variable interests in certain joint ventures determined to be VIEs. The Company's exposure to loss for these joint ventures is limited to its investments in these entities, which totaled \$3.0 million and \$1.7 million as of June 30, 2011 and December 31, 2010, respectively, and are recorded within other assets in the Company's consolidated balance sheets. The Company has not recorded any liabilities with respect to VIEs not consolidated.

Table of Contents**OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED****JUNE 30, 2011**

As substantially all of the funds managed by the Company qualify for the deferral under ASU 2010-10, *Amendments to Statement 167 for Certain Investment Funds*, the Company's determination of whether it is the primary beneficiary of a VIE is generally based on an analysis of which variable interest holder of a VIE is exposed to the majority of the expected losses or receives a majority of the expected residual returns. Fund investors are entitled to substantially all of the economics of these VIEs with the exception of the management fee (generally 1.5% to 2.5% annually of assets under management) and incentive income (generally 20% of net appreciation over a measurement period), if any, earned by the Company. Accordingly, the Company's determination of the primary beneficiary is not impacted by changes in the underlying assumptions made regarding future results or expected cash flows of these VIEs.

The following table presents the assets and liabilities of funds determined to be VIEs and consolidated by the Company as primary beneficiary:

	June 30, 2011	December 31, 2010
	(dollars in thousands)	
Assets		
<i>Assets of consolidated Och-Ziff funds:</i>		
Investments, at fair value	\$ 304,457	\$ 165,551
Other assets of consolidated Och-Ziff funds	19,090	21,253
Total Assets	\$ 323,547	\$ 186,804
Liabilities		
<i>Liabilities of consolidated Och-Ziff funds:</i>		
Securities sold under agreements to repurchase	\$ 64,466	\$ 23,480
Other liabilities of consolidated Och-Ziff funds	1,249	4,107
Total Liabilities	\$ 65,715	\$ 27,587

The assets presented in the table above belong to the investors in those funds, are available for use only by the fund to which they belong, and are not available for use by the Company. The consolidated funds have no recourse to the general credit of the Company with respect to any liability. The Company also consolidates funds not considered to be VIEs and, therefore, the assets and liabilities of those funds are not included in the table above.

7. DEBT OBLIGATIONS

Aircraft Loan

On May 25, 2011, the Company refinanced \$10.7 million of the \$11.3 million remaining principal balance on its aircraft loan and paid the remaining balance with cash on hand. The principal amount borrowed bears an annual interest rate of LIBOR plus 2.35%, is due in full at maturity on May 25, 2014 and is secured by a first priority lien on the aircraft.

The terms of the loan also require the Company to make one or more prepayments or post cash collateral with the lender in the event that the outstanding principal balance of the loan at any time exceeds an amount equal to 70% of the fair market value of the aircraft, as determined by the lender pursuant to an appraisal obtained by the lender that may not be exercised more than once every 12 months.

Table of Contents

OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED

JUNE 30, 2011

The terms of the loan also require the Company to comply with the following financial maintenance covenants in order for it to avoid an event of default:

The minimum amount of assets under management is \$17 billion, tested quarterly;

Annual management fees earned by the Och-Ziff Operating Group must not fall below \$257.3 million, tested annually;

Economic Income must exceed three times the annual principal and interest payments due on all direct or indirect indebtedness of the Och-Ziff Operating Group (excluding principal and interest payments due on scheduled maturity date of any debt), tested quarterly; and

Average cash, unrestricted marketable securities and other liquid investments that may be converted to cash within 90 days must be equal to an amount greater than the outstanding principal balance of the loan, tested quarterly.

Upon an event of default, subject to certain cure periods set forth in the loan, the lender may declare all amounts outstanding under the loan to be due and payable.

Och-Ziff Real Estate Funds Credit Facility

On April 1, 2011, certain Och-Ziff real estate funds consolidated by the Company amended the original syndicated credit facility thereby increasing the total facility to \$150.0 million from \$50.0 million. The amended facility will mature on the earlier of (i) April 1, 2014 and (ii) the date that is ninety days prior to the end of the investment period of the certain real estate funds party to the agreement. The outstanding loans under the credit facility are secured by the unfunded capital commitments of one of the Company's consolidated subsidiaries (as general partner) and the investors in certain of the Och-Ziff real estate funds. The funds are jointly and severally liable for the indebtedness. For each borrowing under the amended credit facility, the funds have the option of borrowing at an interest rate equal to LIBOR plus 2.25%, or 1.25% plus the greater of (i) the prime rate and (ii) the federal funds rate plus 0.50%. For each letter of credit drawn under the new credit facility, the funds pay interest at a rate equal to 2.375%. In addition, the funds pay a minimum usage fee of 0.35% on the average daily amount of the unused portion of the credit facility.

Borrowings under the credit facility are recorded as liabilities by the investment subsidiaries of the funds using the facility. In accordance with U.S. GAAP, investment subsidiaries of the Company's consolidated funds are generally not consolidated, but are carried at fair value within investments, at fair value in the Company's consolidated balance sheets. Accordingly, such borrowings are not included within debt obligations in the Company's consolidated balance sheets. As of June 30, 2011, there were \$41.2 million in outstanding borrowings under the facility with an average interest rate of 2.44%, and \$4.3 million in letters of credit drawn under the facility with an average interest rate of 2.38%. As of December 31, 2010, there were \$250 thousand in outstanding borrowings under the facility with an average interest rate of 3.02%, and \$4.3 million in letters of credit drawn under the facility with an average interest rate of 2.88%.

Total General, Administrative and Other	\$ 27,319	\$ 23,538	\$ 52,424	\$ 46,130

9. INCOME TAXES

The computation of the effective tax rate and provision at each interim period requires the use of certain estimates and significant judgment including, but not limited to, the expected operating income for the year, projections of the proportion of income earned and taxed in foreign jurisdictions, permanent differences, and the likelihood of recovering deferred tax assets existing as of the balance sheet date. The estimates used to compute the provision for income taxes may change as new events occur, additional information is obtained or as tax laws and regulations change. Additionally, the Company records the majority of its incentive income and discretionary cash bonuses in the fourth quarter each year. Accordingly, the effective tax rate for interim periods is not indicative of the tax rate expected for a full year.

The Registrant and each of the Och-Ziff Operating Group entities are partnerships for U.S. federal income tax purposes. As a result of the Company's legal structure, only a portion of the income earned by the Company is subject to corporate-level tax rates in the United States and in foreign jurisdictions. The provision for income taxes includes federal, state and local taxes in the United States and foreign taxes at an approximate effective tax rate of -2.7% and -2.2% for the three months ended June 30, 2011 and 2010, respectively, and -2.6% and -2.2% for the six months ended June 30, 2011 and 2010, respectively. The reconciling items from the Company's statutory rate to the effective tax rate were driven primarily by the following: (i) a portion of the income earned by the Company is not subject to federal, state and local corporate income taxes in the United States; (ii) a portion of the income earned by the Company is subject to the New York City unincorporated business tax; (iii) certain foreign subsidiaries are subject to foreign corporate income taxes; and (iv) the Reorganization expenses related to the reclassification of the partners' and the Ziffs' interests as Och-Ziff Operating Group A Units are not deductible for tax purposes.

As of June 30, 2011 and December 31, 2010, the Company was not required to establish a liability for uncertain tax positions.

Table of Contents**OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED****JUNE 30, 2011****10. NET LOSS PER CLASS A SHARE**

Basic net loss per Class A Share is computed by dividing the net loss allocated to Class A Shareholders by the weighted-average number of Class A Shares outstanding for the period. In addition, for the three months ended June 30, 2011 and 2010, 857,821 and 300,136 RSUs that have vested but have not been settled in Class A Shares as of June 30, 2011 and 2010, respectively, are included in the weighted-average of Class A Shares outstanding in the calculation of basic and diluted net loss per Class A Share. For the six months ended June 30, 2011 and 2010, 917,866 and 450,868 RSUs that have vested but have not been settled in Class A Shares as of June 30, 2011 and 2010, respectively, are included in the weighted-average of Class A Shares outstanding in the calculation of basic and diluted net loss per Class A Share.

The following table presents the computation of basic and diluted net loss per Class A Share for the three months ended June 30, 2011 and 2010:

	Net Loss Allocated to Class A Shareholders	Weighted- Average Class A Shares Outstanding	Net Loss Per Class A Share	Number of Antidilutive Units Excluded from Diluted Calculation
(dollars in thousands, except per share amounts)				
Three Months Ended June 30, 2011				
Basic	\$ (93,362)	97,705,327	\$ (0.96)	
<i>Effect of dilutive securities:</i>				
Och-Ziff Operating Group A Units				300,872,397
Class A Restricted Share Units				13,077,759
Diluted	\$ (93,362)	97,705,327	\$ (0.96)	
Three Months Ended June 30, 2010				
Basic	\$ (89,421)	85,432,135	\$ (1.05)

OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED

JUNE 30, 2011

11. RELATED PARTY TRANSACTIONS**Due to Related Parties**

The following table presents the amounts included within due to related parties:

	June 30, 2011	December 31, 2010
	(dollars in thousands)	
Amounts payable under tax receivable agreement	\$ 789,914	\$ 783,601
Deferred balances and related taxes payable	2,892	5,178
Total Due To Related Parties	\$ 792,806	\$ 788,779

Amounts Payable Under Tax Receivable Agreement

As further discussed in Note 12, the Company entered into an agreement with the partners and the Ziffs, whereby the Company would pay the partners and the Ziffs a portion of any tax savings resulting from the purchase of Och-Ziff Operating Group A Units at the time of the Offerings or as a result of any subsequent exchanges of their interests for Class A Shares.

Deferred Balances and Related Taxes Payable

Deferred balances relate to incentive income allocated to the partners and the Ziffs prior to the Offerings, net of any taxes owed by the Company related to such balances. Any excess taxes withheld are paid upon the completion of the Company's tax return.

Management Fees and Incentive Income Earned from Och-Ziff Funds

The Company earns substantially all of its management fees and incentive income from the Och-Ziff funds, which are considered related parties as the Company manages the operations of and makes investment decisions for these funds. Management fees related to the real estate funds included within the Company's Other Operations are collected directly from the investors in those funds, and therefore are not considered revenues earned from related parties. The following table presents management fees and incentive income earned from related parties:

	Three Months Ended June 30, 2011	2010	Six Months Ended June 30, 2011	2010
	(dollars in thousands)			
Management fees	\$ 121,058	\$ 107,047	\$ 235,970	\$ 206,280
Incentive income	\$ 6,867	\$ 5,536	\$ 13,833	\$ 5,722

Table of Contents**OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED****JUNE 30, 2011****Management Fees and Incentive Income Earned from Related Parties and Waived Fees**

Prior to the Offerings, the Company did not charge management fees or earn incentive income on investments made by the Company's partners, employees and other related parties. Following the Offerings, the Company began charging management fees and earning incentive income on new investments made in the funds by the partners and certain other related parties, including the partners' reinvestment of the after-tax proceeds from the Offerings. The Company continues to waive fees for employee investments in the funds. The following table presents management fees and incentive income charged on investments held by related parties and amounts waived by the Company for related parties:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(dollars in thousands)			
<i>Fees charged on investments held by related parties:</i>				
Management fees	\$ 7,034	\$ 5,380	\$ 12,753	\$ 10,678
Incentive income	\$ 970	\$ 611	\$ 1,343	\$ 611
<i>Fees waived on investments held by related parties:</i>				
Management fees	\$ 3,473	\$ 3,206	\$ 6,818	\$ 6,416
Incentive income	\$	\$	\$	\$

Corporate Aircraft

The Company's corporate aircraft is used primarily for business purposes. From time to time, Mr. Och uses the aircraft for personal use. The Company recorded revenues of \$433 thousand and \$216 thousand for Mr. Och's personal use of the corporate aircraft based on market rates for the three months ended June 30, 2011 and 2010, respectively, and \$563 thousand and \$306 thousand for the six months ended June 30, 2011 and 2010, respectively.

12. COMMITMENTS AND CONTINGENCIES**Tax Receivable Agreement**

The purchase of Och-Ziff Operating Group A Units from the partners and the Ziffs with the proceeds from the Offerings, as well as subsequent taxable exchanges by the partners and the Ziffs of Och-Ziff Operating Group A Units for Class A Shares on a one-for-one basis (or, at the Company's option, a cash equivalent), resulted, and, in the case of future exchanges, are anticipated to result, in an increase in the tax basis of the tangible and intangible assets of the Och-Ziff Operating Group that would not otherwise have been available. As a result, the Company expects that its future tax liability will be reduced. Pursuant to the tax receivable agreement entered into among the Company, the partners and the Ziffs, the Company has agreed to pay to the partners and the Ziffs 85% of the amount of tax savings, if any, actually realized by the Company. In connection with the departure of certain former partners, the right to receive payments under the tax receivable agreement by such former partners was contributed to the Och-Ziff Operating Group. As a result, the Company now expects to pay to the remaining partners and the Ziffs approximately 78% (from 85% at the time of the Offerings) of the amount of cash savings, if any, in federal, state and local income taxes in the United States that the Company actually realizes as a result of the increases in tax basis discussed above.

The Company recorded its initial estimate of future payments under the tax receivable agreement by recording a decrease to paid-in capital and an increase in amounts due to related parties in the consolidated financial statements. Subsequent adjustments to the liability for future payments under the tax receivable agreement related to changes in estimated future tax rates or state income tax apportionment are recognized through current period earnings within general, administrative and other expenses in the consolidated statements of operations.

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

In connection with the contribution of a former partner's rights to future payments under the tax receivable agreement during the second quarter of 2011, the Company recorded a decrease in the liability for amounts payable under the tax receivable agreement of \$4.6 million, a decrease of deferred income tax assets of \$398 thousand related to income tax expense expected to be incurred as a result of the payments to the Och-Ziff Operating Group, an increase to the Company's paid-in capital of \$723 thousand and an increase to partners' and others' interests in consolidated subsidiaries of \$3.5 million.

Table of Contents

OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED

JUNE 30, 2011

The estimate of the timing and the amount of future payments under the tax receivable agreement involves several assumptions that do not account for the significant uncertainties associated with these potential payments, including an assumption that Och-Ziff Holding Corporation, a wholly-owned corporate-tax paying subsidiary of the Company, will have sufficient taxable income in the relevant tax years to utilize the tax benefits that would give rise to an obligation to make payments. The actual timing and amount of any actual payments under the tax receivable agreement will vary based upon these and a number of other factors.

Lease Obligations

The Company has non-cancelable operating leases for its headquarters in New York and its offices in London, Hong Kong, Mumbai and Beijing, in addition to operating and capital leases on computer hardware. The related lease commitments have not changed materially since December 31, 2010.

Litigation

From time to time, the Company is involved in litigation and claims incidental to the conduct of the Company's business. The Company is also subject, from time to time, in the ordinary course of business, to reviews, inquiries and investigations by agencies that have regulatory authority over the Company's business activities. The Company is currently not subject to any pending judicial, administrative or arbitration proceedings that are expected to have a material impact on the Company's results of operations or financial condition.

Investment Commitments

From time to time, certain funds consolidated by the Company may have commitments to fund investments. These commitments are funded through contributions from investors in those funds. The Company generally only manages these funds and is not an investor in the funds.

The Company has committed to fund a portion of the annual operating budget for a joint venture, and this portion currently totals approximately \$4.7 million annually, of which \$1.1 million has been funded through June 30, 2011. The joint venture periodically returns substantially all of the cash that is contributed by the Company, as expenses incurred by the joint venture are generally reimbursed by the projects it manages.

Other Contingencies

In the normal course of business, the Company enters into contracts that provide a variety of general indemnifications. Such contracts include those with certain service providers, brokers and trading counterparties. Any exposure to the Company under these arrangements could involve future claims that may be made against the Company. Currently, no such claims exist or are expected to arise and, accordingly, the Company has not accrued any liability in connection with such indemnifications.

13. SEGMENT INFORMATION

The Och-Ziff Funds segment is currently the Company's only reportable segment and represents the Company's core business, as substantially all of the Company's operations are conducted through this segment. The Och-Ziff Funds segment provides asset management services to the Company's funds.

The Company's Other Operations are currently comprised of its real estate business, which provides asset management services to the Company's real estate funds, and investments in businesses established to expand certain of the Company's private investment platforms. The businesses and investments included in the Company's Other Operations do not meet the thresholds of reportable business segments under U.S. GAAP.

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

Management does not regularly review assets by operating segment in assessing operating segment performance and the allocation of company resources; therefore, the Company does not present total assets by operating segment.

Table of Contents**OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED****JUNE 30, 2011****Och-Ziff Funds Segment**

Management uses Economic Income to evaluate the financial performance of and make resource allocation and other operating decisions for the Och-Ziff Funds segment. Economic Income is a pre-tax measure of performance that excludes certain adjustments required under U.S. GAAP. See the footnotes that follow the reconciliation tables below for additional information regarding the adjustments made to arrive at Economic Income of the Och-Ziff Funds segment.

The following table presents Economic Income of the Och-Ziff Funds segment:

	Three Months Ended June 30, 2011	2010	Six Months Ended June 30, 2011	2010

The following is a description of the adjustments made to reconcile Economic Income for the Och-Ziff Funds segment to the Company's results on a U.S. GAAP basis:

Funds Consolidation

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

Economic Income for the Och-Ziff Funds segment reflects management fees and incentive income earned from all of the Company's funds, excluding the Company's domestic real estate funds which are included within the Company's Other Operations. The impacts of consolidation and the related eliminations of the Och-Ziff funds are not included in Economic Income.

Other Adjustments

- (a) Economic Income presents management fees net of recurring placement and related service fees on assets under management, as management considers these fees a reduction in management fees, not an expense.
- (b) Economic Income recognizes the full amount of deferred cash compensation and expenses related to compensation arrangements indexed to annual investment performance on the date it is determined (generally in the fourth quarter of each year), as management determines the total amount of compensation based on the Company's performance in the year of the award.
- (c) Economic Income excludes equity-based compensation expenses, as management does not consider these non-cash expenses to be reflective of the operating performance of the Company.

Table of Contents

OCH-ZIFF CAPITAL MANAGEMENT GROUP LLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS UNAUDITED

JUNE 30, 2011

- (d) Economic Income excludes Reorganization expenses, which are non-cash expenses directly attributable to the reclassification of interests held by the partners and the Ziffs prior to the Reorganization as Och-Ziff Operating Group A Units and any subsequent reallocations of such units.
- (e) Economic Income excludes depreciation and amortization, changes in the tax receivable agreement liability and net gains (losses) on investments in Och-Ziff funds, as management does not consider these items to be reflective of the operating performance of the Company. Economic Income also excludes income taxes as it is a measure of pre-tax performance.
- (f) Economic Income excludes amounts allocated to the partners and the Ziffs on their interests in the Och-Ziff Operating Group, as management reviews the performance of the Company at the Och-Ziff Operating Group level, where substantially all of the Company's activities are conducted.

Substantially all of the Company's revenues are earned from the Och-Ziff funds. For the three months ended June 30, 2011, the Company recorded revenues of \$49.6 million, \$22.5 million and \$16.3 million from three individual feeder funds managed by the Och-Ziff Funds segment, each of which represented more than 10% of the Company's total revenues. For the three months ended June 30, 2010, the Company recorded revenues of \$43.5 million, \$18.3 million and \$16.9 million from three individual feeder funds managed by the Och-Ziff Funds segment, each of which represented more than 10% of the Company's total revenues.

For the six months ended June 30, 2011, the Company recorded revenues of \$98.7 million, \$43.1 million and \$32.0 million from three individual feeder funds managed by the Och-Ziff Funds segment, each of which represented more than 10% of the Company's total revenues. For the six months ended June 30, 2010, the Company recorded revenues of \$80.9 million, \$34.3 million and \$33.2 million from three individual feeder funds managed by the Och-Ziff Funds segment, each of which represented more than 10% of the Company's total revenues.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion contains forward-looking statements and involves numerous risks and uncertainties, including, but not limited to, those described in Part I Item 1A, Risk Factors of our Annual Report. Actual results may differ materially from those contained in any forward-looking statements. This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our Annual Report. An investment in our Class A Shares is not an investment in any of our funds.

OVERVIEW

Our Business

We are one of the largest institutional alternative asset managers in the world, with approximately \$29.9 billion in assets under management as of August 1, 2011. We provide asset management services through our funds globally. Our funds seek to generate consistent, positive, risk-adjusted returns across market cycles with low volatility and low correlation to the equity markets. We have always limited our use of leverage to generate investment performance and we emphasize preservation of capital. Our assets under management are generally invested on a multi-strategy basis across multiple geographies. Our primary investment strategies are: convertible and derivative arbitrage, credit, long/short equity special situations, merger arbitrage, private investments and structured credit. Our fund investors value our funds' consistent performance history, our global investing expertise, our diverse investment strategies, our strong focus on risk management and a robust operational infrastructure.

Overview of Our 2011 Second Quarter Results

As of June 30, 2011, our assets under management were \$29.8 billion, compared with \$25.5 billion as of June 30, 2010. The \$4.3 billion, or 17%, year-over-year increase was driven by performance-related appreciation of \$2.7 billion and capital net inflows of \$1.6 billion. During the second quarter of 2011, we maintained an active dialog with a broad range of fund investors, and we continued to see interest from a diverse mix of investors globally. We have seen particular interest from pension funds and private bank platforms. We believe that institutional investors continue to actively seek access to investment managers that generate risk-adjusted returns which are not correlated with the equity markets and have consistently protected capital. We believe that this has led to increased allocations to the hedge fund industry in the first half of 2011 and that this acceleration will continue.

For the second quarter of 2011, we reported a U.S. GAAP net loss allocated to Class A Shareholders of \$93.4 million, compared to a net loss of \$89.4 million for the second quarter of 2010. For the first half of 2011, our U.S. GAAP net loss allocated to Class A Shareholders was \$188.8 million, compared to a net loss of \$178.1 million for the first half of 2010. The U.S. GAAP net losses primarily resulted from non-cash Reorganization expenses associated with our initial public offering in November 2007 of \$399.3 million and \$411.8 million for the three months ended June 30, 2011 and 2010, respectively, and \$805.2 million and \$836.6 million for the six months ended June 30, 2011 and 2010, respectively.

We reported Economic Income for the Company¹ of \$86.4 million for the second quarter of 2011, compared with \$71.6 million for the second quarter of 2010, and \$166.9 million for the first half of 2011, compared with \$129.5 million for the first half of 2010. The increases were primarily attributable to the Och-Ziff Funds segment due to increased revenues driven by the year-over-year growth in assets under management. These increases were partially offset by higher operating expenses.

Overview of 2011 Second Quarter Fund Performance

During the second quarter of 2011, market conditions globally became more difficult and volatile. In this environment, our funds continued to preserve capital and generate strong, risk-adjusted, non-correlated investment returns. Our investment

¹ Economic Income for the Company is a non-GAAP measure. For additional information regarding non-GAAP measures, see Economic Income Analysis.

Table of Contents

returns are a function of our consistent and disciplined approach to investing and actively managing risk, and also to our low use of leverage. Our multi-strategy approach and international capabilities continue to enable us to be nimble in adjusting our portfolio allocations and taking advantage of investment opportunities, which are integral to maintaining broadly diversified portfolios of our investment and risk management processes.

During the second quarter of 2011, the OZ Master Fund generated a net return of 0.0%, the OZ Europe Master Fund a net return of -1.6%, the OZ Asia Master Fund a net return of -0.1% and the OZ Global Special Investments Master Fund a net return of 1.8%.¹ For the first half of 2011, the OZ Master Fund generated a net return of 3.3%, the OZ Europe Master Fund a net return of 1.9%, the OZ Asia Master Fund a net return of 1.3% and the OZ Global Special Investments Master Fund a net return of 6.5%. Our year-to-date performance was primarily driven by our credit-related strategies and equity long/short special situations, as we saw a diverse range of high quality investment opportunities worldwide. Due to the increase in market volatility and difficult market conditions during the 2011 second quarter, we reduced our equity exposures and increased our allocation to cash. As of July 1, 2011, cash comprised 7% of the OZ Master Fund, compared to near 0% as of April 1, 2011.

Financial Market and Capital Flow Environment

Our ability to generate management fees and incentive income is impacted by the financial markets, which influences our ability to generate returns for our fund investors, and by the amount of capital flowing into and out of the hedge fund industry, which impacts our ability to retain existing investor capital and the amount of new assets we attract.

Financial Market Environment

Our ability to successfully generate consistent, positive, risk-adjusted returns is dependent on our ability to execute each fund's investment strategy or strategies. Each investment strategy may be materially affected by conditions in the financial markets and by other global economic conditions.

During the second quarter of 2011, global equity markets were volatile as macroeconomic conditions generally weakened and as investor uncertainty increased. Sovereign debt issues remained a major concern in Europe, and in the U.S. both job growth and GDP slowed. In Asia, inflation and monetary tightening in China were a central focus.

Leveraged credit indices were negative in June given concerns over European sovereign debt issues and global economic growth prospects. High yield market inflows reversed during the quarter as June marked the largest monthly outflow on record for high-yield bond funds. In Europe, credit market conditions continued to be positive, although they became softer towards quarter end due to continued concerns about sovereign debt issues and weaker economic data. In Asia, credit market conditions were weak due to a number of factors, including inflation risks, monetary supply uncertainty and the impact of sovereign issues in Europe.

Capital Flow Environment

Capital flows into the hedge fund industry were slightly lower during the second quarter of 2011 compared with the first quarter. However, industry capital flows for the first half of 2011 increased substantially relative to those seen in the second half of 2010, and we believe that they will accelerate further during the remainder of this year. We believe that institutional investor interest in the hedge fund industry continues to grow as these investors seek to increase the proportion of investment strategies that are not correlated to the equity markets in their portfolios in order to mitigate risk and enhance return.

ASSETS UNDER MANAGEMENT

Competitive investment performance in rising markets and preservation of fund investor capital during periods of market volatility or decline are key determinants of the long-term success of our business. These attributes enable us to attract additional assets under management from both existing and new fund investors, as well as minimize redemptions of capital from our funds. Growth in assets under management in turn drives growth in our revenues and earnings. Conversely, poor investment performance slows our growth by decreasing our assets under management and increasing the potential for redemptions from our funds.

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

¹ For important information about our fund performance data, please see Fund Performance Summary.

Table of Contents

Our assets under management are a function of the amount of capital that is placed with us by investors in our funds, and the investment performance of our funds. We typically accept capital from new and existing investors into our funds on a monthly basis on the first day of each month. Investors in our funds, other than investors in private investments, our real estate funds and certain other funds we manage, typically have the right to redeem their interests in a fund following an initial lock-up period of one to three years. Following the expiration of these lock-up periods, subject to certain limitations, investors may redeem capital generally on a quarterly or annual basis upon giving 30 to 45 days prior written notice. However, upon the payment of a redemption fee to the applicable fund and upon giving 30 days prior written notice, certain investors may redeem capital during the lock-up period. The lock-up requirements for the funds may generally be waived or modified in the sole discretion of the fund's general partner or board of directors, as applicable. With respect to investors with quarterly redemption rights, requests for redemptions submitted during a quarter generally are paid on the first day of the following quarter. Accordingly, quarterly redemptions generally will have no impact on management fees during the quarter in which they are submitted. Instead, these redemptions will decrease assets under management as of the first day of the following quarter, which reduces management fees for that quarter. With respect to investors with annual redemption rights, redemptions paid prior to the end of a quarter impact assets under management in the quarter in which they are paid, and therefore impact management fees for that quarter.

Information with respect to our assets under management throughout this quarterly report, including the tables set forth in this discussion and analysis, includes investments by us, our partners, employees and certain other related parties. Prior to our IPO, we did not charge management fees or earn incentive income on these investments. Following our IPO, we began charging management fees and earning incentive income on new investments made in our funds by our partners and certain other related parties, including the reinvestment by our partners of their after-tax proceeds from the Offerings. As of June 30, 2011, approximately 9% of our assets under management represented investments by us, our partners and certain other related parties in our funds. As of that date, approximately 35% of these affiliated assets under management are not charged management fees and are not subject to an incentive income calculation.

As further discussed below in [Understanding Our Results Revenues](#), we generally calculate management fees based on assets under management as of the beginning of each quarter. The assets under management in the tables below are presented net of management fees and incentive income and are as of the end of the period. Accordingly, the assets under management presented in the tables below are not the amounts used to calculate management fees for the respective periods.

Summary of Changes in Assets Under Management

The table below presents the changes to our assets under management and weighted-average assets under management. Weighted-average assets under management exclude the impact of second-quarter performance-related appreciation for the periods presented, as these amounts do not impact management fees calculated for that period.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(dollars in thousands)			
Balance-beginning of period	\$ 29,030,215	\$ 24,849,771	\$ 27,934,696	\$ 23,079,796
Net flows	774,697	1,035,333	925,633	2,060,957
Appreciation (depreciation)	(37,350)	(388,164)	907,233	356,187
Balance-end of period	\$ 29,767,562	\$ 25,496,940	\$ 29,767,562	\$ 25,496,940
Weighted-average assets under management	\$ 29,420,746	\$ 25,643,056	\$ 28,668,682	\$ 24,708,370

Our assets under management increased approximately \$4.3 billion, or 17%, year-over-year as a result of positive investment performance of \$2.7 billion generated by our funds from June 30, 2010 to June 30, 2011 and capital net inflows of \$1.6 billion over the same time period.

In the first half of 2011, our funds experienced performance-related appreciation of \$907.2 million and capital net inflows of \$925.6 million, which were comprised of \$2.7 billion of gross inflows and \$1.8 billion of gross outflows. The inflows came from a diverse mix of investors globally. We believe that institutional investors are continuing to increase the proportion of investment strategies in their portfolios that are not correlated to the equity markets in order to enhance the yield and diversification of their investments. As a result, we believe that capital allocations to the hedge funds are increasing. Additionally, our real estate funds and various other assets that we manage with longer than one-year measurement periods comprised a meaningful portion of gross inflows in the first half of 2011 (see [Understanding our Results Revenues Incentive Income](#)). The outflows were driven by a variety of factors influencing our fund investors.

Table of Contents

In the first half of 2010, our funds experienced capital net inflows of \$2.1 billion, which were comprised of \$3.7 billion of gross inflows and \$1.6 billion of gross outflows, and performance-related appreciation of \$356.2 million. The inflows were driven by increased institutional investor confidence in placing capital with alternative asset managers and, in turn with us, in order to enhance the yield and diversification of their investments. The outflows were driven primarily by quarterly redemption requests, which had normalized to levels seen prior to 2008.

The following table sets forth assets under management of our most significant funds (by asset size):

	June 30,	
	2011	2010
	(dollars in thousands)	
OZ Master Fund	\$ 20,716,749	\$ 18,360,337
OZ Europe Master Fund	\$ 2,675,954	\$ 2,891,561
OZ Asia Master Fund	\$ 1,658,295	\$ 1,330,726
OZ Global Special Investments Master Fund	\$ 1,088,882	\$ 1,183,853

Assets under management presented in the table above do not include assets under management related to our real estate and other funds we manage, which totaled approximately \$3.6 billion and \$1.7 billion as of June 30, 2011 and 2010, respectively. The majority of the increase in these other assets under management was due to assets contributed to various new funds created in order to meet the needs of our fund investors.

OZ Master Fund

The \$2.4 billion year-over-year increase in assets under management for the OZ Master Fund was driven by positive investment performance during the second half of 2010 and first quarter of 2011, as well as capital net inflows in the fourth quarter of 2010 and second quarter of 2011. These increases were partially offset by capital net outflows experienced in the third quarter of 2010 and first quarter of 2011.

OZ Europe Master Fund

The \$215.6 million year-over-year decrease in assets under management for the OZ Europe Master Fund was a result of capital net outflows experienced in each quarter, and performance-related depreciation in the second quarter of 2011. These decreases were partially offset by positive investment performance in the second half of 2010 and first quarter of 2011.

OZ Asia Master Fund

The \$327.6 million year-over-year increase in assets under management for the OZ Asia Master Fund was primarily a result of capital net inflows in each quarter and performance-related appreciation in the second half of 2010 and the first quarter of 2011.

OZ Global Special Investments Master Fund

The \$95.0 million year-over-year decrease in the assets under management for the OZ Global Special Investments Master Fund was driven by capital net outflows in each quarter, partially offset by positive investment performance in each quarter.

FUND PERFORMANCE SUMMARY

Fund investment performance, as generally measured on a calendar-year basis, determines the amount of incentive income we will earn in a given year. Incentive income is generally 20% of the net realized and unrealized profits attributable to each of our fund investors, excluding unrealized profits on private investments and subject to any high-water marks.

Performance information for our most significant master funds is included throughout this discussion and analysis to facilitate an understanding of our results of operations for the periods presented. The performance information reflected in this discussion and analysis is not indicative of the performance of our Class A Shares and is also not necessarily indicative of the future results of any particular fund. An investment in our Class A Shares is not an investment in any of our funds. There can be no assurance that any of our master funds or our other existing and future funds will achieve similar results.

Performance by Fund

UNDERSTANDING OUR RESULTS**Revenues**

Our operations have been financed primarily by cash flows generated by our business. Our principal sources of revenues are management fees and incentive income. For any given fiscal period, our revenues are influenced by the amount of our assets under management, the investment performance of our funds and the timing of when we recognize incentive income for certain assets under management as discussed below.

The ability of investors to contribute capital to and redeem capital from our funds causes our assets under management to fluctuate from period to period. Fluctuations in assets under management also result from our funds' investment performance. Both of these factors directly impact the revenues we earn from management fees and incentive income. For example, a \$1 billion increase or decrease in assets under management subject to a 2% management fee would generally increase or decrease annual management fees by \$20 million. If net profits attributable to a fee-paying fund investor were \$10 million, we generally would earn incentive income equal to \$2 million, assuming a one-year incentive income measurement period, no change in current incentive income rates, no hurdle rate and no high-water marks from prior years.

For any given quarter, our revenues will be influenced by the combination of assets under management and the investment performance of our funds. For the first three quarters of each year, our revenues will be primarily comprised of the management fees we have earned for each respective quarter. In the fourth quarter, our revenues will be primarily comprised of the management fees we have earned for the quarter, as well as incentive income related to the full-year investment performance generated for the majority of our fund investors.

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

Management Fees. Management fees typically range from 1.5% to 2.5% annually of assets under management and currently average approximately 1.7%. This average rate takes into account the effect of non-fee paying assets under management, the management fee charged on capital contributed and the management fee on capital redeemed. Management fees are generally calculated and paid to us on a quarterly basis at the beginning of the quarter, based on assets under management at the beginning of the quarter. Management fees are prorated for capital inflows and redemptions during the quarter. Accordingly, changes in our management fee revenues from quarter to quarter are driven by changes in the quarterly

Table of Contents

opening balances of assets under management, the relative magnitude and timing of inflows and redemptions during the respective quarter, as well as the impact of differing management fee rates charged on those inflows and redemptions.

Incentive Income. We earn incentive income based on the performance of our funds. Incentive income is typically equal to 20% of the net realized and unrealized profits attributable to each fund investor, but excludes unrealized profits on private investments. We do not recognize incentive income until the end of the measurement period when the amounts are contractually payable, or crystallized. Additionally, all of our funds are subject to a perpetual loss carry forward, or perpetual high-water mark, meaning we will not be able to earn incentive income with respect to a fund investor's investment loss in the year or years following negative investment performance until that loss is recouped, at which point a fund investor's investment surpasses the high-water mark. We earn incentive income on any net profits in excess of the high-water mark.

The measurement period for most of our assets under management is on a calendar-year basis, and therefore we generally crystallize incentive income annually on December 31st. We may recognize incentive income during the first three quarters of the year related to assets subject to three-year measurement periods, as well as assets in our real estate funds and certain other funds we manage. Additionally, we may recognize incentive income for tax distributions related to these assets. Tax distributions are amounts distributed to us to cover tax liabilities related to incentive income that has been accrued at the fund level but will not be realized until the end of the relevant measurement period (if at all). Finally, we may also recognize incentive income related to fund investor redemptions during the first three quarters of the year.

The measurement periods with respect to approximately 16.3% of our assets under management as of June 30, 2011 are based on measurement periods longer than one year and include assets subject to three-year measurement periods, as well as our real estate funds and certain other funds that we manage. Incentive income related to assets subject to three-year measurement periods is generally not earned until the end of the three-year period and is based on the cumulative performance over the three-year period. The three-year measurement period with respect to a portion of these assets will begin to expire in 2012. Incentive income related to our real estate funds and certain other funds we manage is generally not earned until it is no longer subject to repayment to the respective fund. Our ability to earn incentive income on these assets, as well as those with three-year measurement periods, is also subject to hurdle rates whereby we do not earn any incentive income until the investment returns exceed an agreed upon benchmark.

Income of Consolidated Och-Ziff Funds. Revenues recorded as income of consolidated Och-Ziff funds consists of interest income, dividend income and other miscellaneous items.

Expenses

Our operating expenses consist of the following:

Compensation and Benefits. Compensation and benefits is comprised of salaries and benefits, payroll taxes, discretionary and guaranteed cash bonus expense and equity-based compensation primarily in the form of Class A restricted share units, or RSUs. On an annual basis, compensation and benefits comprise the most significant portion of total expenses, with discretionary cash bonuses comprising the majority of total compensation and benefits. These cash bonuses are funded by total annual revenues, which are significantly influenced by the incentive income we earn for the year. Annual discretionary cash bonuses in a year with no high-water marks in effect are generally determined and expensed in the fourth quarter each year.

Interest Expense. Amounts included within interest expense relate primarily to interest expense on our term loan and our aircraft loan, both of which are LIBOR-based, variable-rate borrowings. The LIBOR interest rate on our term loan resets every one, two, three or six months (at our option), two business days prior to the start of each interest period. The LIBOR interest rate on our aircraft loan resets on a monthly basis, three business days prior to the start of each month.

General, Administrative and Other. General, administrative and other expenses are related to professional services, occupancy and equipment, business development expenses, information processing and communications, insurance, changes in the tax receivable agreement liability and other miscellaneous expenses.

In addition, the following expenses also impact our U.S. GAAP results:

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

Reorganization Expenses. Prior to the Offerings, we completed a reorganization of our business, which we refer to as the Reorganization. As part of the Reorganization, interests in the Och-Ziff Operating Group held by our partners and the Ziffs were reclassified as Och-Ziff Operating Group A Units, resulting in significant non-cash charges that we have recorded within Reorganization expenses in our consolidated statements of operations.

Table of Contents

Expenses of Consolidated Och-Ziff Funds. Expenses recorded as expenses of consolidated Och-Ziff funds consist of interest expense and other miscellaneous expenses.

Other Income

Our other income consists of:

Net Gains (Losses) on Investments in Och-Ziff Funds and Joint Ventures. Net gains (losses) on investments in Och-Ziff funds and joint ventures primarily consists of net gains (losses) on investments in our funds made by us and net gains (losses) on investments in joint ventures established to expand our private investment platforms.

Change in Deferred Income of Consolidated Och-Ziff Funds. Incentive income allocations from consolidated Och-Ziff funds are recognized through a greater share of these funds' net earnings being allocated to us, and a correspondingly reduced share of these earnings allocated to investors in the funds (partners' and others' interests in consolidated subsidiaries). To the extent we are allocated incentive income by a consolidated Och-Ziff fund that could be subject to repayment in the event of future losses, we defer the recognition of our share of income through change in deferred income of consolidated Och-Ziff funds in the consolidated statements of operations and record a corresponding liability within other liabilities in the consolidated balance sheets. The liability is reversed and recognized in earnings when these amounts are no longer subject to repayment.

Net Gains of Consolidated Och-Ziff Funds. Net gains of consolidated Och-Ziff funds consist of realized and unrealized gains and losses on investments held by the consolidated Och-Ziff funds.

Income Taxes

Income taxes consist of our provision for federal, state and local income taxes in the United States and foreign income taxes, including provisions for deferred income taxes resulting from temporary differences between the tax and U.S. GAAP basis. The computation of the provision requires certain estimates and significant judgment, including, but not limited to, the expected taxable income for the year, projections of the proportion of income earned and taxed in foreign jurisdictions, permanent differences between the tax and U.S. GAAP basis and the likelihood of being able to fully utilize deferred income tax assets existing as of the end of the period. In addition, the amount of incentive income we earn, the resultant flow of revenues and expenses through our legal entity structure, the effect that changes in our Class A Share price may have on the ultimate deduction we are able to take related to the vesting of RSUs, and any changes in future enacted income tax rates may have a significant impact on our income tax provision and effective tax rate.

Net Loss Allocated to Partners' and Others' Interests in Consolidated Subsidiaries

Partners' and others' interests in consolidated subsidiaries represents ownership interests in the Company's subsidiaries held by parties other than us and is primarily made up of: (i) Och-Ziff Operating Group A Units held by our partners and the Ziffs; and (ii) fund investors' interests in the consolidated Och-Ziff funds. Increases or decreases in this item related to the Och-Ziff Operating Group A Units are driven by the earnings or losses of the Och-Ziff Operating Group. Increases or decreases in this item related to fund investors' interests in consolidated Och-Ziff funds are driven by the earnings or losses of the consolidated Och-Ziff funds.

Other revenues	678	720	1,036	1,111
Income of consolidated Och-Ziff funds	11,396	7,454	21,134	14,570
Total Revenues	\$ 147,285	\$ 123,924	\$ 285,693	\$ 233,359

Total revenues increased by \$23.4 million and \$52.3 million for the three and six months ended June 30, 2011, compared to the corresponding 2010 periods, primarily due to higher management fees resulting from the year-over-year increase in average assets under management. The increase in average assets under management was driven by a combination

Table of Contents

of capital net inflows and performance-related appreciation. Our management fees, before the impact of eliminations, were 1.7% (annualized) of our weighted-average assets under management for the three and six months ended June 30, 2011 and 2010. Also contributing to the increase in total revenues for the year-to-date period was higher incentive income, which was primarily due to amounts taken as tax distributions in the first quarter of 2011 related to assets under management subject to longer than one-year measurement periods.

Income of consolidated Och-Ziff funds increased by \$3.9 million and \$6.6 million for the three and six months ended June 30, 2011, compared to the prior-year periods due to the investment activities of the real estate and other funds that we consolidate.

Expenses

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(dollars in thousands)			
Compensation and benefits	\$ 61,243	\$ 51,729	\$ 120,448	\$ 104,921
Reorganization expenses	399,312	411,789	805,167	836,595
Interest expense	1,843	1,936	3,891	3,893
General, administrative and other	27,319	23,538	52,424	46,130
Expenses of consolidated Och-Ziff funds	2,480	4,297	3,930	5,379
Total Expenses	\$ 492,197	\$ 493,289	\$ 985,860	\$ 996,918

Total expenses decreased by \$1.1 million and \$11.1 million for the three and six months ended June 30, 2011, compared to the corresponding 2010 periods, primarily due to lower Reorganization expenses partially offset by increased compensation and benefits.

The \$12.5 million and \$31.4 million decrease in Reorganization expenses for the three and six month periods, respectively, resulted primarily from lower amortization expense on certain units forfeited by former partners that were subsequently reallocated to the remaining partners. The grant-date fair value of the reallocated units was generally lower than the original grant-date fair value, and therefore the Reorganization expenses associated with the reallocated units decreased. Also contributing to the decrease was the reversal of \$6.1 million of Reorganization expenses related to the forfeiture of Och-Ziff Operating Group A Units by a departing partner in the second quarter of 2011. Contributing to the decrease in the year-to-date period was the acceleration of \$11.4 million of Reorganization expenses on certain Och-Ziff Operating Group A Units related to the departure of certain former partners in the first quarter of 2010. Assuming no material forfeitures or reallocations, the estimated future Reorganization expenses related to the amortization of Och-Ziff Operating Group A Units held by our partners are expected to be approximately \$812.6 million for the remainder of 2011 and \$1.4 billion in 2012.

The decrease in Reorganization expenses for both periods was partially offset by an increase of \$9.5 million and \$15.5 million in compensation and benefits for the three and six month periods, respectively. These increases were primarily due to an increase of \$7.3 million and \$9.9 million in equity-based compensation in the three and six month periods, and an increase of \$3.1 million and \$7.2 million in bonus expense. The increases in equity-based compensation expense were driven by a \$4.2 million one-time charge taken in the second quarter of 2011 related to the conversion of Och-Ziff Operating Group D Units (profits interests) into Och-Ziff Operating Group A Units as discussed in Note 3 to our consolidated financial statements included in this quarterly report. The remaining increase was due primarily to compensation-related grants made in December 2010. The increases in bonus expense were primarily driven by higher guaranteed bonus accruals. These increases were partially offset by a decrease of \$1.0 million and \$2.3 million in salaries and benefits due to a \$3.4 million and \$6.5 million decline related to our Asia real estate business, partially offset by expenses related to the growth in our worldwide headcount from 384 at June 30, 2010 to 421 at June 30, 2011.

Other Income

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(dollars in thousands)			
Net gains (losses) on investments in Och-Ziff funds and joint ventures	\$ 36	\$ (602)	\$ 212	\$ (549)
Change in deferred income of consolidated Och-Ziff funds	(649)	(3,244)	(2,975)	(5,131)

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

Net gains of consolidated Och-Ziff funds	2,912	16,151	11,199	22,342
Total Other Income	\$ 2,299	\$ 12,305	\$ 8,436	\$ 16,662

Table of Contents

Total other income decreased by \$10.0 million and \$8.2 million for the three and six months ended June 30, 2011, compared to the corresponding 2010 periods, primarily due to the decreases in net gains of consolidated Och-Ziff funds. These gains were driven by the investment activities of the real estate and other funds that we consolidate.

Income Taxes

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(dollars in thousands)			
Income taxes	\$ 9,413	\$ 7,744	\$ 18,039	\$ 16,543

Income tax expense increased by \$1.7 million and \$1.5 million for the three and six months ended June 30, 2011, compared to the corresponding 2010 periods. The Registrant and the Och-Ziff Operating Group entities are partnerships for U.S. federal income tax purposes. As a result of our legal structure, only a portion of the income we earn is subject to corporate level tax rates in the United States and foreign jurisdictions. The provision for income taxes includes federal, state and local income taxes in the United States and foreign income taxes at an effective tax rate of -2.7% and -2.6% for the three and six months ended June 30, 2011, respectively, compared to an effective tax rate of -2.2% for the three and six months ended June 30, 2010. The reconciling items between our statutory rate and our effective tax rate were due to the following: (i) a portion of the income we earn is not subject to federal, state and local corporate income taxes in the United States; (ii) a portion of the income we earn is subject to the New York City unincorporated business tax; (iii) certain foreign subsidiaries are subject to foreign corporate income taxes; and (iv) Reorganization expenses are non-deductible for income tax purposes.

As of and for the three and six months ended June 30, 2011 and 2010, we were not required to establish a liability for uncertain tax positions.

Net Loss Allocated to Partners and Others Interests in Consolidated Subsidiaries

The following table presents the components of the net loss allocated to partners and others interests in consolidated subsidiaries:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(dollars in thousands)			
Och-Ziff Operating Group A Units	\$ (269,653)	\$ (291,728)	\$ (546,640)	\$ (611,729)
Consolidated Och-Ziff funds	9,620	15,809	23,482	25,967
Other	1,369	536	2,214	382
Total	\$ (258,664)	\$ (275,383)	\$ (520,944)	\$ (585,380)

Net loss allocated to partners and others interests in consolidated subsidiaries decreased by \$16.7 million and \$64.4 million for the three and six months ended June 30, 2011, compared to the corresponding 2010 periods, primarily due to a decrease in the amount of loss of the Och-Ziff Operating Group allocated to the Och-Ziff Operating Group A Units. The partners and the Ziffs interests in the Och-Ziff Operating Group in the form of Och-Ziff Operating Group A Units declined from 77.6% as of June 30, 2010 to 75.6% as of June 30, 2011 as a result of the vesting of RSUs and the exchange of Och-Ziff Operating Group A Units for Class A Shares. As a result of these issuances, a larger share of losses of the Och-Ziff Operating Group was allocated to us due to the decline in the partners and the Ziffs direct interests in the Och-Ziff Operating Group. The Och-Ziff Operating Group A Units are expected to continue to significantly reduce our net loss in future periods as losses of the Och-Ziff Operating Group are allocated to these interests.

Net Loss Allocated to Class A Shareholders

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(dollars in thousands)			
Net Loss Allocated to Class A Shareholders	\$ (93,362)	\$ (89,421)	\$ (188,826)	\$ (178,060)

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

Net loss allocated to Class A Shareholders increased by \$3.9 million and \$10.8 million for the three and six months ended June 30, 2011, compared to the corresponding 2010 periods. The increase in the net loss was primarily due to an increase in our ownership interest in the Och-Ziff Operating Group due to the vesting of RSUs and the exchange of Och-Ziff Operating Group A Units for Class A Shares. As a result of these exchanges, a larger share of the losses of the Och-Ziff Operating Group was allocated to us. Offsetting the increase in

Table of Contents

the net loss was an improvement in the results of the Och-Ziff Operating Group driven primarily by increased revenues, as well as lower Reorganization expenses.

ECONOMIC INCOME ANALYSIS

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(dollars in thousands)			
<i>Economic Income:</i>				
Och-Ziff Funds segment	\$ 84,453	\$ 74,576	\$ 163,512	\$ 136,723
Other Operations - Non-GAAP	1,944	(2,936)	3,375	(7,201)
Total Company - Non-GAAP	\$ 86,397	\$ 71,640	\$ 166,887	\$ 129,522

We conduct substantially all of our operations through our only reportable segment under U.S. GAAP, the Och-Ziff Funds segment, which provides asset management services to our funds. Our Other Operations are currently comprised of our real estate business, which provides asset management services to our real estate funds, and investments in businesses established to expand certain of our private investment platforms.

In addition to analyzing our results on a U.S. GAAP basis, management also reviews our results on an Economic Income basis. Economic Income for the Company, the Och-Ziff Funds segment and our Other Operations excludes the adjustments described below that are required for presentation of our results on a U.S. GAAP basis, but that management does not consider when evaluating operating performance in any given period. Management, therefore, uses Economic Income as the basis on which it evaluates our financial performance and makes resource allocation and other operating decisions. Management considers it important that investors review the same operating information that it uses.

Economic Income is a measure of pre-tax operating performance that excludes the following from our results on a U.S. GAAP basis:

Income allocations to our partners and the Ziffs on their direct interests in the Och-Ziff Operating Group. Management reviews operating performance at the Och-Ziff Operating Group level, where substantially all of our operations are performed, prior to making any income allocations;

Reorganization expenses related to the Offerings, equity-based compensation expenses and depreciation and amortization expenses, as management does not consider these non-cash expenses to be reflective of operating performance;

Changes in the tax receivable agreement liability and net gains (losses) on investments in Och-Ziff funds, as management does not consider these to be reflective of operating performance; and

Amounts related to the consolidated Och-Ziff funds, including the related eliminations of management fees and incentive income, as management reviews the total amount of management fees and incentive income earned in relation to total assets under management and fund performance.

In addition, the full amount of deferred cash compensation and expenses related to compensation arrangements indexed to annual investment performance are recognized on the date they are determined (generally in the fourth quarter of each year), as management determines the total amount of compensation based on our performance in the year of the award.

For reconciliations of Economic Income of the Och-Ziff Funds segment and its components to the respective U.S. GAAP basis for the periods presented and additional information regarding the reconciling adjustments discussed above, see Note 13 to our consolidated financial statements included in this quarterly report.

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

Economic Income for our Other Operations is a non-GAAP measure that is calculated on the same basis as the methodology that is used to calculate Economic Income for the Och-Ziff Funds segment. Management also evaluates Economic Income for the Company, which is a non-GAAP measure that equals the sum of Economic Income for the Och-Ziff Funds segment and for our Other Operations. Our non-GAAP financial measures should not be considered as alternatives to our U.S. GAAP net loss or cash flow from operations, or as indicative of liquidity or the cash available to fund operations. Our non-GAAP measures may not be comparable to similarly-titled measures used by other companies. For reconciliations of these non-GAAP measures to the respective U.S. GAAP measures, see [Economic Income Reconciliations](#) following [Critical Accounting Policies and Estimates](#) below.

Table of Contents**Och-Ziff Funds Segment Economic Income Analysis**

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(dollars in thousands)			
Economic Income Revenues				
Management fees	\$ 120,539	\$ 107,035	\$ 234,226	\$ 206,609
Incentive income	6,867	5,536	13,833	5,722
Other revenues	590	448	892	732
Total Economic Income Revenues	127,996	113,019	248,951	213,063
Economic Income Expenses				
Compensation and benefits	22,245	16,739	44,672	34,770
Non-compensation expenses	21,333	21,704	40,971	41,335
Total Economic Income Expenses	43,578	38,443	85,643	76,105
Net gains (losses) on joint ventures	35		204	(235)
Economic Income	\$ 84,453	\$ 74,576	\$ 163,512	\$ 136,723

Economic Income Revenues

Economic Income revenues for the segment increased by \$15.0 million and \$35.9 million for the three and six months ended June 30, 2011, respectively, compared to the corresponding 2010 periods, primarily due to higher management fees resulting from the year-over-year increase in average assets under management. The increase in average assets under management was driven by a combination of capital net inflows and performance-related appreciation. Also contributing to the increase in total segment revenues for the year-to-date period was higher incentive income, primarily due to amounts taken as tax distributions in the first quarter of 2011 related to assets under management subject to longer than one-year measurement periods.

Economic Income Expenses

Economic Income expenses for the segment increased by \$5.1 million and \$9.5 million for the three and six months ended June 30, 2011, compared to the corresponding 2010 periods, primarily due to an increase in guaranteed bonus accruals and higher salaries and benefits due to the increase in our worldwide headcount. Non-compensation expenses remained essentially unchanged year-over-year.

Compensation and benefits is comprised of (i) salaries and benefits and (ii) bonus expense. Management reviews the ratio of salaries and benefits to management fees on a quarterly basis. Salaries and benefits for the three months ended June 30, 2011 and 2010 were approximately \$17.6 million and \$15.2 million, respectively, and \$34.6 million and \$30.4 million for the six months ended June 30, 2011 and 2010, respectively. The ratio of salaries and benefits to management fees for the current year and prior year periods was essentially unchanged at 14% to 15%.

Management also reviews the ratio of bonus expense to total Economic Income revenues on an annual basis. The amount of bonuses we pay is influenced by our total annual revenues, which is heavily influenced by the amount of incentive income we earn in the fourth quarter each year.

The ratio of non-compensation expenses to management fees, which management reviews on a quarterly basis, was 18% and 20% for the three months ended June 30, 2011 and 2010, respectively, and 17% and 20% for the six months ended June 30, 2011 and 2010, respectively. The year-over-year decline in the non-compensation ratio was due to the combination of higher management fees resulting from growth in our assets under management, while non-compensation expenses remained unchanged.

Other Operations Economic Income Analysis (Non-GAAP)

Three Months Ended June 30, Six Months Ended June 30,
2011 2010 2011 2010
(dollars in thousands)

Economic Income for Other Operations - Non-GAAP	\$ 1,944	\$ (2,936)	\$ 3,375	\$ (7,201)
---	----------	------------	----------	------------

Our Other Operations are comprised of our real estate business, which provides asset management services to our real estate funds, and investments in businesses established to expand certain of our private investment platforms. The businesses within our Other Operations are not included in the results of the Och-Ziff Funds segment.

Table of Contents

The year-over-year improvement in Economic Income for our Other Operations was primarily due to increased management fees related to the launch of our second domestic real estate fund, as well as lower expenses associated with our Asia Real Estate business.

Economic Income for our Other Operations as discussed above is a non-GAAP measure. For reconciliations of Economic Income of our Other Operations to the respective U.S. GAAP net loss for the periods described above, see Economic Income Reconciliations following Critical Accounting Policies and Estimates below.

The Company Economic Income Analysis (Non-GAAP)

	Three Months Ended June 30,		Six Months Ended June 30,	
	2011	2010	2011	2010
	(dollars in thousands)			
Economic Income for the Company - Non-GAAP	\$ 86,397	\$ 71,640	\$ 166,887	\$ 129,522

Economic Income for the Company increased by \$14.8 million and \$37.4 million for the three and six months ended June 30, 2011, compared to the corresponding 2010 periods. The increases were primarily attributable to the Och-Ziff Funds segment due to increased revenues driven by the year-over-year growth in assets under management, partially offset by higher operating expenses.

Economic Income for the Company as discussed above is a non-GAAP measure. For reconciliations of Economic Income for the Company to the respective U.S. GAAP net loss for the periods described above, see Economic Income Reconciliations following Critical Accounting Policies and Estimates below.

LIQUIDITY AND CAPITAL RESOURCES

Overview

The working capital needs of our business have historically been met and continue to be met through cash generated from management fees and incentive income earned by the Och-Ziff Operating Group from our funds. We currently do not incur any indebtedness to fund our ongoing operations, but have outstanding indebtedness that was incurred in connection with the Reorganization and our aircraft loan.

We expect that our primary liquidity needs over the next 12 months will be to:

pay our operating expenses, primarily consisting of compensation and benefits, as well as any related tax withholding obligations, and non-compensation expenses;

repay borrowings and interest thereon;

provide capital to facilitate the growth of our business;

pay income taxes and amounts to our partners and the Ziffs with respect to the tax receivable agreement as discussed below under Tax Receivable Agreement ; and

make cash distributions in accordance with our distribution policy as discussed below under Distributions.

Table of Contents

Historically, management fees have been more than sufficient to cover all of our fixed operating expenses, which we define as salaries and benefits and our non-compensation costs. As explained above under Understanding Our Results Revenues Incentive Income, we generally do not recognize incentive income during the first three quarters of the year other than amounts earned as a result of fund investor redemptions during the period or, beginning in 2012, amounts earned from fund investors on assets subject to three-year measurement periods. Additionally, we may recognize a portion of incentive income prior to the end of the three-year period for these assets related to tax distributions as discussed in Understanding Our Results Revenues Incentive Income.

We cannot predict the amount of incentive income, if any, which we may earn in any given year. Accordingly, we do not rely on incentive income to meet our fixed operating expenses. Total annual revenues, which typically have been influenced by the amount of annual incentive income we earn, historically have been sufficient to fund all of our other working capital needs, including annual discretionary cash bonuses. These cash bonuses, which historically have comprised our largest operating expense, are variable such that, in any year where total annual revenues are greater or less than the prior year, cash bonuses may be adjusted accordingly. Our ability to scale our largest operating expense to our total annual revenues helps us manage our cash flow and liquidity position from year to year.

Based on our past results, management's experience and our current level of assets under management, we believe that our existing cash resources, together with the cash generated from management fees, will be sufficient to meet our anticipated fixed operating expenses and capital expenditure requirements for at least the next 12 months. As we have done historically, we will determine the actual amount of discretionary cash bonuses for 2011 during the fourth quarter and intend to fund this amount through total annual revenues. Although we cannot predict the amount, if any, of incentive income we may earn, we are able to regularly monitor expected management fees and we believe that we will be able to adjust our expense infrastructure, including discretionary cash bonuses, as needed to meet the requirements of our business and in order to maintain positive operating cash flows. Nevertheless, if we generate insufficient cash flows from operations to meet our short-term liquidity needs, we may have to borrow funds or sell assets, subject to existing contractual arrangements.

Our term loan, discussed below under Debt Obligations Term Loan, matures in July 2012. To date, we have used cash on hand to repurchase and retire \$105 million of the outstanding principal amount of our term loan. In addition, as of June 30, 2011, we had repaid an additional \$20.6 million of the outstanding balance on our term loan from cash on hand, as we are required to make quarterly payments in an aggregate annual amount equal to 1% of the original loan balance. We may continue to use cash on hand to repay the term loan in part or in full prior to the maturity date, which would reduce amounts available to distribute to our Class A Shareholders. For any amounts unpaid as of the maturity date of the term loan, we will be required to either refinance the obligations by entering into new credit facilities, which could result in higher borrowing costs, or raise cash by issuing equity or other securities, which would dilute existing shareholders. No assurance can be given that we will be able to enter into new credit facilities or issue equity or other securities in the future on attractive terms or at all. Any new credit facilities that we may be able to enter into may have covenants that impose additional limitations on us, including with respect to making distributions, entering into business transactions or other matters, and may result in increased interest expense. If we are unable to meet our debt obligations on terms that are favorable to us, our business may be adversely impacted.

For our other longer-term liquidity requirements, we expect to continue to fund our fixed operating expenses through management fees and to fund discretionary cash bonuses and the repayment of our debt obligations through a combination of management fees and incentive income. We may also decide to meet these requirements by issuing debt or additional equity or other securities. Over the long term, we believe we will be able to grow our assets under management and generate positive investment performance in our funds, which we expect will allow us to grow our management fees and incentive income in amounts sufficient to cover our long-term liquidity requirements.

To maintain maximum flexibility to meet demands and opportunities both in the short and long term, and subject to existing contractual arrangements, we may want to retain cash, issue additional equity or borrow additional funds to:

support the future growth in our business;

create new or enhance existing products and investment platforms;

repay borrowings;

pursue new investment opportunities; and

develop new distribution channels.

Market conditions and other factors may make it more difficult or costly to raise or borrow additional funds. Excessive costs or other significant market barriers may limit or prevent us from maximizing our growth potential and flexibility.

Debt Obligations

Term Loan. On July 2, 2007, OZ Management entered into a \$750 million term loan bearing an interest rate of LIBOR plus 0.75%. The term loan will mature on July 2, 2012 and is secured by a first priority lien on substantially all assets of the Och-Ziff Operating Group. The term loan is payable in equal quarterly installments, which began on December 31, 2008, in an aggregate annual amount equal to 1% of the original principal amount borrowed under the term loan, and the balance is payable upon maturity. In June 2009, OZ Management repurchased and retired \$5.0 million of the outstanding balance for \$3.0 million, and in December 2009, it repurchased and retired an additional \$100.0 million of the outstanding balance for \$80.0 million. As of June 30, 2011, the total outstanding amount of the term loan was \$624.4 million.

Table of Contents

The term loan includes provisions that restrict the ability of the Och-Ziff Operating Group to further encumber their assets and make certain distributions. The Och-Ziff Operating Group generally is prohibited from:

incurring further secured indebtedness or issuing certain equity interests;

creating liens;

paying dividends or making certain other payments;

merging, consolidating, selling or otherwise disposing of all or part of their assets;

engaging in certain transactions with shareholders or affiliates;

engaging in a substantially different line of business; and

amending their organizational documents in a manner materially adverse to the lenders.

The term loan permits the Och-Ziff Operating Group to incur up to \$150 million of unsecured indebtedness and additional unsecured indebtedness so long as, after giving effect to the incurrence of such indebtedness, they are in compliance with a leverage ratio (as defined in the credit agreement) of 3.0 to 1.0 and no default or event of default has occurred and is continuing. As of June 30, 2011, we have not incurred any unsecured indebtedness. The term loan does not include any financial maintenance covenants, such as minimum requirements relating to assets under management or profitability. We will not be permitted to make distributions from the Och-Ziff Operating Group to our Class A Shareholders or the holders of Och-Ziff Operating Group A Units if we are in default under the term loan.

The term loan also limits the amount of distributions the Och-Ziff Operating Group can pay in a 12-month period to our free cash flow. Free cash flow for any period includes the combined net income or loss of the Och-Ziff Operating Group entities, excluding certain subsidiaries, subject to certain additions and deductions for taxes, interest, depreciation, amortization and other non-cash charges for such period, less total interest paid, expenses in connection with the purchase of property and equipment, distributions to equity holders to pay taxes, realized gains or losses on investments and dividends and interest from investments. As of June 30, 2011, distributions from the Och-Ziff Operating Group were in compliance with the free cash flow covenant.

Table of Contents

Aircraft Loan. On May 25, 2011, we refinanced \$10.7 million of the \$11.3 million remaining principal balance on our aircraft loan and paid the remaining balance with cash on hand. The principal amount borrowed bears an annual interest rate of LIBOR plus 2.35%, is due in full at maturity on May 25, 2014 and is secured by a first priority lien on the aircraft.

The terms of the loan also require us to make one or more prepayments or post cash collateral with the lender in the event that the outstanding principal balance of the loan at any time exceeds an amount equal to 70% of the fair market value of the aircraft, as determined by the lender pursuant to an appraisal obtained by the lender that may not be exercised more than once every 12 months.

The terms of the loan also require us to comply with the following financial maintenance covenants in order for us to avoid an event of default:

The minimum amount of assets under management is \$17 billion, tested quarterly;

Annual management fees earned by the Och-Ziff Operating Group must not fall below \$257.3 million, tested annually;

Economic Income must exceed three times the annual principal and interest payments due on all direct or indirect indebtedness of the Och-Ziff Operating Group (excluding principal and interest payments due on scheduled maturity date of any debt), tested quarterly; and

Average cash, unrestricted marketable securities and other liquid investments that may be converted to cash within 90 days must be equal to an amount greater than the outstanding principal balance of the note, tested quarterly.

Upon an event of default, subject to certain cure periods set forth in the loan, the lender may declare all amounts outstanding under the loan to be due and payable.

Tax Receivable Agreement

We have made, and may in the future be required to make, payments under the tax receivable agreement that we entered into with our partners and the Ziffs. The purchase by the Och-Ziff Operating Group of Och-Ziff Operating Group A Units from our partners and the Ziffs with proceeds from the Offerings, and subsequent taxable exchanges by our partners and the Ziffs of Och-Ziff Operating Group A Units for our Class A Shares on a one-for-one basis (or, at our option, a cash equivalent), resulted, and, in the case of future exchanges, are anticipated to result, in an increase in the tax basis of the assets of the Och-Ziff Operating Group that would not otherwise have been available. We anticipate that any such tax basis adjustment resulting from an exchange will be allocated principally to certain intangible assets of the Och-Ziff Operating Group, and we will derive our tax benefits principally through amortization of these intangibles over a 15-year period. Consequently, these tax basis adjustments will increase, for tax purposes, our depreciation and amortization expenses and will therefore reduce the amount of tax that Och-Ziff Corp and any other future intermediate corporate taxpaying entities that acquire Och-Ziff Operating Group B Units in connection with an exchange, if any, would otherwise be required to pay in the future. Accordingly, pursuant to the tax receivable agreement, such corporate taxpaying entities (including Och-Ziff Capital Management Group LLC if it is treated as a corporate taxpayer) have agreed to pay our partners and the Ziffs 85% of the amount of cash savings, if any, in federal, state and local income taxes in the United States that these entities actually realize related to their units as a result of such increases in tax basis. In connection with the departure of certain former partners, the right to receive payments under the tax receivable agreement by such partners was contributed to the Och-Ziff Operating Group. As a result, we expect to pay to our remaining partners and the Ziffs approximately 78% (from 85% at the time of the Offerings) of the overall cash savings, if any, in federal, state and local income taxes in the United States that we actually

Table of Contents

realize as a result of such increases in tax basis. To the extent that we do not realize any cash savings in federal, state and local income taxes in the United States, we would not be required to make corresponding payments under the tax receivable agreement.

Payments under the tax receivable agreement are anticipated to increase the tax basis adjustment of intangible assets resulting from a prior exchange, with such increase being amortized over the remainder of the amortization period applicable to the original basis adjustment of such intangible assets resulting from such prior exchange. It is anticipated that this will result in increasing annual amortization deductions in the taxable years of and after such increases to the original basis adjustments, and potentially will give rise to increasing tax savings with respect to such years and correspondingly increasing payments under the tax receivable agreement.

As of June 30, 2011, assuming no material changes in the relevant tax law and that we generate sufficient taxable income to realize the full tax benefit of the increased amortization resulting from the increase in tax basis of our assets, we expect to pay our partners and the Ziffs approximately \$789.9 million over the next 15 years as a result of the cash savings to our intermediate holding companies from the purchase of Och-Ziff Operating Group A Units from our partners and the Ziffs with proceeds from the Offerings and the exchange of Och-Ziff Operating Group A Units for Class A Shares. Future cash savings and related payments to our partners under the tax receivable agreement in respect of subsequent exchanges would be in addition to these amounts. The obligation to make payments under the tax receivable agreement is an obligation of the intermediate corporate taxpaying entities and not of the Och-Ziff Operating Group entities. We may need to incur debt to finance payments under the tax receivable agreement to the extent the entities within the Och-Ziff Operating Group do not distribute cash to our intermediate corporate tax paying entities in an amount sufficient to meet our obligations under the tax receivable agreement. The actual increase in tax basis of the Och-Ziff Operating Group assets resulting from an exchange or from payments under the tax receivable agreement, as well as the amortization thereof and the timing and amount of payments under the tax receivable agreement, will vary based upon a number of factors, including those described below:

The amount and timing of the income of Och-Ziff Corp will impact the payments to be made under the tax receivable agreement. To the extent that Och-Ziff Corp does not have sufficient taxable income to utilize the amortization deductions available as a result of the increased tax basis in the Och-Ziff Operating Group assets, payments required under the tax receivable agreement would be reduced.

The price of our Class A Shares at the time of any exchange will determine the actual increase in tax basis of the Och-Ziff Operating Group assets resulting from such exchange; payments under the tax receivable agreement resulting from future exchanges, if any, will be dependent in part upon such actual increase in tax basis.

The composition of the Och-Ziff Operating Group's assets at the time of any exchange will determine the extent to which Och-Ziff Corp may benefit from amortizing its increased tax basis in such assets and thus will impact the amount of future payments under the tax receivable agreement resulting from any future exchanges.

The extent to which future exchanges are taxable will impact the extent to which Och-Ziff Corp will receive an increase in tax basis of the Och-Ziff Operating Group assets as a result of such exchanges, and thus will impact the benefit derived by Och-Ziff Corp and the resulting payments, if any, to be made under the tax receivable agreement.

The tax rates in effect at the time any potential tax savings are realized, which would affect the amount of any future payments under the tax receivable agreement.

Depending upon the outcome of these factors, payments that we may be obligated to make to our partners and the Ziffs under the tax receivable agreement in respect of exchanges could be substantial. In light of the numerous factors affecting our obligation to make payments under the tax receivable agreement, the timing and amounts of any such actual payments are not reasonably ascertainable.

Other Future Liquidity and Capital Needs

Restricted Share Units (RSUs). Substantially all of the RSUs that we have awarded to date accrue dividend equivalents equal to the dividend amounts paid on our Class A Shares. To date, these dividend equivalents have been awarded in the form of additional RSUs, which accrue

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

additional dividends. The dividend equivalents will be paid if and when the related RSUs vest. Our Board of Directors has the right to determine whether the RSUs and any related dividend equivalents will be settled in Class A Shares or in cash. We currently withhold shares to satisfy the tax withholding obligations of holders of vested RSUs and dividend equivalents, which results in the use of cash from operations or borrowings to satisfy these tax withholding payments.

Table of Contents

Tax Liability Distributions. In accordance with the Och-Ziff Operating Group entities' limited partnership agreements, we may cause the applicable Och-Ziff Operating Group entities to distribute cash to the intermediate holding companies, the partners and the Ziffs in an amount at least equal to the presumed maximum tax liabilities arising from their direct ownership in these entities. The presumed maximum tax liabilities are based upon the presumed maximum income allocable to any such unit holder at the maximum combined U.S. federal, New York State and New York City tax rates. Holders of our Class A Shares may not always receive distributions at a time when our partners and the Ziffs are receiving distributions on their interests, as distributions to our intermediate holding companies may be used to settle tax liabilities, if any, or other obligations. Such tax distributions will take into account the disproportionate income allocation (but not a disproportionate cash allocation) to the unit holders with respect to built-in gain assets, if any, at the time of the Offerings. Consequently, Och-Ziff Operating Group tax distributions may be greater than if such assets had a tax basis equal to their value at the time of the Offerings.

Distributions

The following table presents the cash dividends declared on our Class A Shares in 2011 and the related cash distributions to our partners and the Ziffs with respect to their direct ownership interests in the Och-Ziff Operating Group:

Class A Shares		Dividend	Related Distributions
Payment Date	Record Date	per Share	to the Partners and the Ziffs (dollars in thousands)
August 22, 2011	August 15, 2011	\$ 0.14	\$ 54,802
May 19, 2011	May 12, 2011	\$ 0.13	\$ 48,713
February 25, 2011	February 18, 2011	\$ 0.71	\$ 264,876

Our intention is to distribute to our Class A Shareholders substantially all of their pro rata share of annual Economic Income (as described above under Economic Income Analysis) in excess of amounts determined by us to be necessary or appropriate to provide for the conduct of our business, to pay income taxes, to pay any amounts owed under the tax receivable agreement, to make appropriate investments in our business and our funds, and to make payments on any of our debt obligations, including our term loan and aircraft loan. When we pay dividends on our Class A Shares, subject to the terms of the limited partnership agreements of the Och-Ziff Operating Group entities, we intend to make corresponding distributions to our partners and the Ziffs on their interests in the Och-Ziff Operating Group.

Our ability to make cash distributions to our partners and the Ziffs and pay dividends to our Class A Shareholders depends on a number of factors that our Board of Directors takes into account as it may deem relevant. These factors include: revenues earned and profits generated by the Och-Ziff Operating Group; general economic and business conditions; our strategic plans and prospects; the impact of tax and other regulatory factors relevant to our structure and operations; our business and investment opportunities; our financial condition and operating results; our working capital requirements and anticipated cash needs; the need or ability of the Och-Ziff Operating Group to secure additional sources of liquidity; and contractual obligations, including payment obligations pursuant to the tax receivable agreement, our term loan and other indebtedness. If we generate insufficient cash flows from operations to make such distributions or payments, we may need to borrow funds or sell assets, subject to existing contractual obligations. In addition, we may not be able to obtain additional financing on terms that are acceptable, if at all.

The declaration and payment of future distributions will be at the sole discretion of our Board of Directors, which may change our distribution policy at any time. In determining whether to pay any dividend our Board of Directors will take into account such factors as it may deem relevant, including those noted above. Depending on the facts and circumstances at any given time, our Board of Directors may determine to reduce, increase or suspend from time to time at any time, the payment of dividends to our Class A Shareholders.

Our Funds' Liquidity and Capital Resources

Our funds have access to liquidity from our prime brokers and other counterparties. Additionally, our funds may have committed facilities in addition to regular financing from our counterparties. These sources of liquidity provide our funds with additional financing resources, allowing them to take advantage of opportunities in the global marketplace.

Our funds' current liquidity position could be adversely impacted by any substantial, unanticipated investor redemptions from our funds that are made within a short time period. As discussed above in Assets Under Management, capital contributions from investors in our funds generally are subject to initial lock-up periods of one to three years. These lock-ups and redemption notice periods help us to manage our liquidity position.

Table of Contents

We also follow a thorough risk management process and regularly monitor the liquidity of our funds' portfolios in relation to economic and market factors and the timing of potential investor redemptions. As a result of this process, we may determine to reduce exposure or increase the liquidity of our funds' portfolios at any time, whether in response to global economic and market conditions, redemption requests or otherwise. For these reasons, we believe we will be well prepared to address market conditions and redemption requests, as well as any other events, with limited impact on our funds' liquidity position. Nevertheless, significant redemptions made during a single quarter could adversely affect our funds' liquidity position, as we may meet redemptions by using our funds' available cash or selling assets (possibly at a loss). Such actions would result in lower assets under management, which would reduce the amount of management fees and incentive income we may earn. Our funds could also meet redemption requests by increasing leverage, provided we are able to obtain financing on reasonable terms, if at all. We believe our funds have sufficient liquidity to meet any anticipated redemptions for the foreseeable future.

Cash Flows Analysis

Operating Activities. Net cash provided by operating activities was \$353.0 million and \$464.1 million for the six months ended June 30, 2011 and 2010, respectively. For both periods, net cash flows from operating activities were primarily related to the collection of prior-year incentive income and current-year management fees, less interest expense and other operating expenses. Additionally, during the first six months of 2010, we collected \$231.6 million of deferred balances, which we in turn distributed to our partners and the Ziffs, net of taxes. The deferred balances distributed to Mr. Och, net of taxes, in the amount of \$129.5 million during the six months ended June 30, 2010 were recorded within cash flows from financing activities, as these were distributions on Mr. Och's pre-IPO equity interest. Additionally, cash flows from operating activities also include the investment activities of our consolidated funds.

Investing Activities. There were no significant changes in the net cash used in investing activities for the six months ended June 30, 2011 and 2010, as investment-related cash flows of the consolidated Och-Ziff funds are classified within operating activities in our consolidated statements of cash flows.

Financing Activities. Net cash used in financing activities was \$301.9 million and \$416.1 million for the six months ended June 30, 2011 and 2010, respectively. For the six months ended June 30, 2011 and 2010, net cash flows from financing activities were primarily related to the dividends paid of \$81.2 million and \$54.9 million, respectively, to our Class A Shareholders and distributions to our partners and the Ziffs of \$308.2 million and \$231.8 million, respectively, on their Och-Ziff Operating Group A Units. As discussed above, deferred balances distributed to Mr. Och, net of taxes, in the amount of \$129.5 million during the six months ended June 30, 2010 were also recorded as financing-related cash outflows. Additionally, capital inflows and outflows of our consolidated funds are included within financing activities.

CONTRACTUAL OBLIGATIONS

There have been no significant changes to our contractual obligations reported in our Annual Report.

OFF-BALANCE SHEET ARRANGEMENTS

As of June 30, 2011, we did not have any off-balance sheet arrangements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Critical accounting policies are those that require us to make significant judgments, estimates or assumptions that affect amounts reported in our financial statements or the notes thereto. We base our judgments, estimates and assumptions on current facts, historical experience and various other factors that we believe to be reasonable and prudent. Actual results may differ materially from these estimates. See Note 2 to our consolidated financial statements included in our Annual Report for a description of our accounting policies. The following is a summary of what we believe to be our most critical accounting policies and estimates:

Fair Value of Investments

The valuation of investments held by our funds is the most critical estimate made by management impacting our results. The Och-Ziff funds are considered investment companies for U.S. GAAP purposes. Pursuant to specialized accounting for investment companies under U.S. GAAP, investments of these funds are carried at their estimated fair values. The valuation of investments in our funds has a significant impact on our results, as our management fees and incentive income are determined based on the fair value of the investments held by the funds.

Table of Contents

Assets and liabilities measured at fair value are classified into one of the following categories:

Level I Fair value is determined using quoted prices that are available in active markets for identical assets or liabilities as of the measurement date. Assets and liabilities that would generally be included in this category include certain listed equities and listed derivatives.

Level II Fair value is determined using quotations received from dealers making a market for these assets or liabilities (broker quotes), valuations obtained from independent third-party pricing vendors (independent pricing services), the use of models, or other valuation methodologies based on pricing inputs that are either directly or indirectly market observable as of the measurement date. Consideration is given to the nature of the broker quotes (e.g., indicative or executable). Assets and liabilities for which executable broker quotes are significant inputs in determining the fair value of an asset or liability are included within Level II. Assets and liabilities that would generally be included in this category include certain corporate bonds, certain credit default swap contracts, certain bank debt securities, less liquid and restricted equity securities, forward contracts and certain over-the-counter (OTC) derivatives.

Level III Fair value is determined using pricing inputs that are unobservable in the market and includes situations where there is little, if any, market activity for the asset or liability. The fair value for assets and liabilities in this category may require significant judgment or estimation in determining fair value of the assets or liabilities. The fair value of such assets and liabilities may be estimated using a combination of observed transaction prices, independent pricing services and relevant broker quotes. Assets and liabilities for which indicative broker quotes are significant inputs in determining the fair value of an asset or liability are included within Level III. Assets and liabilities that would generally be included in this category include equity and debt securities issued by private entities, limited partnerships, certain corporate bonds, certain credit default swaps, certain bank debt securities and certain OTC derivatives. Additionally, investments in commercial and residential mortgage-backed securities, collateralized debt obligations and other asset-backed securities (collectively, structured products) are also generally included within Level III.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

As of June 30, 2011, the absolute values of our funds' invested assets and liabilities were classified within the fair value hierarchy as follows: approximately 48% within Level I; approximately 21% within Level II; and approximately 31% within Level III. As of December 31, 2010, the absolute values of our funds' invested assets and liabilities were classified within the fair value hierarchy as follows: approximately 45% within Level I; approximately 26% within Level II; and approximately 29% within Level III. The classification of our funds' assets and liabilities within the fair value hierarchy will fluctuate based on the investments made at any given time and such fluctuations could be significant.

A portion of our funds' Level III assets relate to private or other investments on which we do not earn any incentive income until such investments are sold or otherwise realized. Upon the sale or realization event of these assets, any realized profits are included in the calculation of incentive income for such year. Accordingly, the estimated fair value of our funds' Level III assets may not have any relation to the amount of incentive income actually earned with respect to such assets.

Valuation of Investments. Fair value represents the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants as of the measurement date. The fair value of our funds' investments is based on observable market prices when available. Such values are generally based on the last sales price.

We, as the investment manager of the Och-Ziff funds, determine the fair value of investments that are not actively traded on a recognized securities exchange or otherwise lack a readily ascertainable market value. The methods and procedures to value these investments may include, but are not limited to: (i) performing comparisons with prices of comparable or similar securities; (ii) obtaining valuation-related information from the issuers; (iii) calculating the present value of future cash flows; (iv) assessing other analytical data and information relating to the investment that is an indication of value; (v) obtaining information provided by third parties; (vi) reviewing of amounts invested in these investments; and (vii) evaluating financial information provided by the management of these investments. See Note 4 to our consolidated financial statements included in this quarterly report for additional information.

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

Significant judgment and estimation goes into the assumptions that drive our valuation methodologies and procedures for assets that are not actively traded on a recognized securities exchange or otherwise lack a readily ascertainable market value and the actual amounts ultimately realized could differ materially from the values estimated based on the use of these

Table of Contents

methodologies. Realizations at values significantly lower than the values at which investments have been reflected could result in losses at the fund level and a decline in future management fees and incentive income. Such situations may also negatively impact fund investor perception of our valuation policies and procedures, which could result in redemptions and difficulties in raising additional capital.

We have established an internal control infrastructure over the valuation of financial instruments that requires ongoing independent oversight by our Financial Control Group as well as periodic audits by our Internal Audit Group. These management control functions are independent of the trading and investing functions. We have also established a Valuation Committee, comprised of non-investment professionals, that is responsible for overseeing and monitoring the pricing of our funds' investments. The Valuation Committee may obtain input from investment professionals for consideration in carrying out their responsibilities.

We employ resources to help ensure that the Financial Control and Internal Audit Groups are able to function at an appropriate quality level. We believe our internal control infrastructure utilizes an effective and appropriate level of segregation of duties. Specifically, the Financial Control Group is responsible for establishing and monitoring compliance with valuation policies, as well as reporting compliance with these policies to our Audit Committee. Our Internal Audit Group employs a risk-based program of audit coverage that is designed to provide an independent assessment of the design and effectiveness of controls over our operations, regulatory compliance, valuation of financial instruments and reporting. Additionally, our Internal Audit Group meets with management periodically to evaluate and provide guidance on the existing risk framework and control environment assessments. Within our trading and investing functions, we have established policies and procedures that relate to the approval of all new transaction types, transaction pricing sources, and fair valuation hierarchy coding within our financial reporting system. The appropriate internal and external resources with technical expertise and product, market and industry knowledge, perform independent verification of prices, profit and loss review, and validation of the models used in our valuation process.

The analysis used in measuring the fair value of financial instruments is generally related to the level of observable pricing inputs. For Level III inputs that are less observable, to the extent possible, procedures have been established to discuss the valuation methodology, including pricing techniques, with senior management of the trading and investing functions, to compare the inputs to observable inputs for similar positions, to review subsequent secondary market activities and to perform comparison of actual versus projected cash flows.

As of June 30, 2011 and December 31 2010, our only assets and liabilities carried at fair value were the deferred balances and the investment holdings of the consolidated Och-Ziff funds. The deferred balances and the investments held by the consolidated Och-Ziff funds are predominately valued using sources other than observable market data, which are considered to be within Level III of the fair value hierarchy.

The following table presents the fair values of assets and liabilities classified as Level III within the fair value hierarchy and a brief description of the valuation technique for each type of asset:

	June 30, 2011 (dollars in thousands)	Valuation Technique
Deferred balances, at fair value	\$ 2,892	Deferred balances are valued based on net asset value information provided by the underlying funds. The underlying investments within these funds are carried at fair value and are comprised of Levels I, II, and III financial instruments.
Assets and liabilities (net) of consolidated Och-Ziff funds	570,166	Assets and liabilities (net) of the consolidated Och-Ziff funds are generally based upon discounted cash flows, a multiple of earnings, broker quotes or as determined in good faith with third-party input or other observable market inputs, where available. See Note 4 to the consolidated financial statements for additional information.
Total Level III assets and liabilities, at fair value	573,058	
Level III assets and liabilities for which we do not bear economic exposure	(570,220)	
Net Economic Exposure to Level III Assets and Liabilities	\$ 2,838	

Table of Contents

Level III assets and liabilities for which we do not bear economic exposure include: (i) deferred balances, as changes in the fair value of such receivables are offset by changes in a corresponding liability to our partners and the Ziffs; and (ii) substantially all of the investments of consolidated Och-Ziff funds, as substantially all of the changes in the fair values of these investments are absorbed by fund investors in these consolidated funds (i.e. partners' and others' interests in consolidated subsidiaries in our consolidated balance sheets).

Impact of Fair Value Measurement on Our Results. A 10% change in the estimate of fair value of the investments held by our funds would have the following effects on our results:

Och-Ziff Funds

	(excluding real estate and certain other funds)	Och-Ziff Real Estate and Certain Other Funds
Management fees	Generally, a 10% change in the period subsequent to the change in fair value, as management fees are charged based on the assets under management at the beginning of the period.	None, as management fees are generally charged based on committed capital during the original investment period and invested capital thereafter.
Incentive income	Generally, an immediate 10% impact if the change in fair value continues at the end of the measurement period, at which time incentive income is recognized.	None, as incentive income is based on realized profits, subject to clawback.

As management fees are charged based on the fair value of assets under management subject to fees at the beginning of the period, a 10% change in the fair value of the investments held by the Och-Ziff funds as of July 1, 2011 would impact management fees calculated on such date by approximately \$12.3 million.

Variable Interest Entities

The determination of whether or not to consolidate a variable interest entity under U.S. GAAP requires a significant amount of judgment concerning the degree of control over an entity by its holders of variable interests. To make these judgments, management has conducted an analysis, on a case-by-case basis, of the relationship of the holders of variable interests to each other, the design of the entity, the expected operations of the entity, which holder of variable interests is most closely associated to the entity and which holder of variable interests is the primary beneficiary required to consolidate the entity. Upon the occurrence of certain events, such as redemptions by all unaffiliated investors in any fund and modifications to fund organization documents and investment management agreements, management reviews and reconsiders its previous conclusion regarding the status of an entity as a variable interest entity. Additionally, management continually reconsiders whether we are deemed to be a variable interest entity's primary beneficiary who consolidates such entity.

Income Taxes

We use the asset and liability method of accounting for deferred income taxes. Under this method, deferred income tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the carrying amounts of existing assets and liabilities and their respective tax bases. Additionally, a valuation allowance is established when management believes it is more likely than not that a deferred income tax asset will not be realized.

Substantially all of our deferred income tax assets relate to the goodwill and other intangible assets deductible for tax purposes by Och-Ziff Corp that arose in connection with the purchase of Och-Ziff Operating Group A Units from our partners and the Ziffs with proceeds from the Offerings, subsequent exchanges of Och-Ziff Operating Group A Units for Class A Shares and subsequent payments to our partners and the Ziffs made under the tax receivable agreement, in addition to any related net operating loss carryforward. In accordance with relevant provisions of the Internal Revenue Code, we expect to take these goodwill and other intangible deductions over the 15-year period following the Offerings and the additional 20-year loss carryforward period available to us. Our analysis of whether we expect to have sufficient future taxable income to realize these deductions is based solely on estimates over this period.

We generated taxable income in the amount of \$38.9 million in the first six months of 2011 before taking into account deductions related to the amortization of the goodwill and other intangible assets. We determined that we would need to generate taxable income of at least \$2.2 billion over the remaining 12-year weighted-average amortization period and the additional 20-year loss carryforward period available to us in order to fully realize the deferred income tax assets. In this regard, Reorganization expenses and certain other expenses are considered permanent book to

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

tax differences, and therefore do not impact taxable income. Accordingly, while we reported net losses on a U.S. GAAP basis, and expect to continue to report a U.S. GAAP net loss on an annual basis through 2012, we generated income before the amortization of goodwill and other intangible assets on a tax basis over these prior periods. As of June 30, 2011, using the estimates and assumptions discussed below, we expect to generate sufficient taxable income over the remaining amortization and loss carryforward

Table of Contents

periods available to us in order to fully realize these deferred income tax assets. As of June 30, 2011, we had \$109.9 million of net operating losses available to offset future taxable income for federal income tax purposes that will expire between 2029 and 2031. Additionally, as of June 30, 2011, we had \$127.4 million of net operating losses available to offset future taxable income for state and \$116.6 million for local income tax purposes that will expire between 2028 and 2031.

To generate \$2.2 billion in taxable income over the remaining amortization and loss carryforward periods available to us, we estimated that, based on assets under management of \$29.3 billion as of July 1, 2011, we would need to generate a minimum compound annual growth rate in assets under management of less than 1% over the period for which the taxable income estimate relates to fully realize the deferred income tax assets, assuming no performance-related growth, and therefore no incentive income. The assumed nature and amount of this estimated growth rate are not based on historical results or current expectations of future growth; however, the other assumptions underlying the taxable income estimate, such as general maintenance of current expense ratios and cost allocation percentages among the Och-Ziff Operating Group entities, which impact the amount of taxable income flowing through our legal structure, are based on our near-term operating budget. If our actual growth rate in assets under management falls below this minimum threshold for any extended time during the period for which these estimates relate and we do not otherwise experience offsetting growth rates in other periods, we may not generate taxable income sufficient to realize the deferred income tax assets and may need to record a valuation allowance.

Management regularly reviews the model used to generate the estimates, including the underlying assumptions. If it determines that a valuation allowance is required for any reason, the amount would be determined based on the relevant circumstances at that time. To the extent we record a valuation allowance against our deferred income tax assets related to the goodwill and other intangible assets, we would record a corresponding decrease in the liability to our partners and the Ziffs under the tax receivable agreement equal to approximately 78% of such amount; therefore, net earnings would only be impacted by 22% of any valuation allowance recorded against the deferred income tax assets.

Actual taxable income may differ from the estimate described above, which was prepared solely for the purpose of determining whether we currently expect to have sufficient future taxable income to realize the deferred income tax assets. Furthermore, actual or estimated future taxable income may be materially impacted by significant changes in assets under management, whether as a result of fund investment performance or fund investor contributions or redemptions, significant changes to the assumptions underlying our estimates, future changes in income tax law, state income tax apportionment or other factors.

Based on the analysis set forth above, we have determined that it is not necessary to record a valuation allowance with respect to our deferred income tax assets related to the goodwill and other intangible assets deductible for tax purposes, and any related net operating loss carryforward, as of June 30, 2011. We have, however, determined that we may not realize certain deferred state income tax credits. Accordingly, a valuation allowance in the amount of \$5.0 million has been established for these credits.

Impact of Recently Adopted Accounting Pronouncements on Recent and Future Trends

None of the changes to U.S. GAAP that went into effect during the first half of 2011 are expected to have an impact on our future trends.

Expected Impact of Future Adoption of New Accounting Pronouncements on Future Trends

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 provides clarifying guidance on how to measure fair value and requires additional disclosures regarding fair value measurements. The amendments, among other things, prohibit the use of blockage factors at all levels of the fair value hierarchy, provide guidance on measuring financial instruments that are managed on a net portfolio basis and clarify guidance on the application of premiums and discounts in measuring fair value. Additional disclosure requirements include the disclosure of transfers between Levels I and II, a description of the valuation processes for Level III fair value measurements, as well as additional information regarding unobservable inputs impacting Level III measurements. The amendments are effective for us beginning in the first quarter of 2012. We are currently evaluating the impact, if any, that these updates will have on our future trends.

Table of Contents**ECONOMIC INCOME RECONCILIATIONS**

The following tables present the reconciliations of Economic Income to our U.S. GAAP net loss for the periods previously discussed:

	Three Months Ended June 30, 2011		
	Och-Ziff Funds Segment	Other Operations	Total Company
	(dollars in thousands)		
Net Income (Loss) Allocated to Class A Shareholders - U.S. GAAP	\$ (93,579)	\$ 217	\$ (93,362)
Reorganization expenses	399,312		399,312
Net loss allocated to the Och-Ziff Operating Group A Units	(269,263)		(269,263)
Equity-based compensation	34,217	1,588	35,805
Income taxes	9,413		9,413
Depreciation and amortization	2,203	186	2,389
Amortization of deferred cash compensation and expenses related to compensation arrangements indexed to annual fund performance	1,535		1,535
Net gains on investments in Och-Ziff funds	(5)	(69)	(74)
Change in tax receivable agreement liability	43		43
Other	577	22	599
Economic Income - Non-GAAP	\$ 84,453	\$ 1,944	\$ 86,397

	Three Months Ended June 30, 2010		
	Och-Ziff Funds Segment	Other Operations	Total Company
	(dollars in thousands)		
Net Loss Allocated to Class A Shareholders - U.S. GAAP	\$ (81,468)	\$ (7,953)	\$ (89,421)
Reorganization expenses	411,789		411,789
Net loss allocated to the Och-Ziff Operating Group A Units	(291,728)		(291,728)
Equity-based compensation	24,710	3,828	28,538
Income taxes	6,574	1,170	7,744
Depreciation and amortization	2,095	186	2,281

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our predominant exposure to market risk is related to our role as general partner or investment manager for the Och-Ziff funds, and the sensitivities to movements in the fair value of their investments that may adversely affect our management fees and incentive income.

Fair value of the financial assets and liabilities of the Och-Ziff funds may fluctuate in response to changes in the value of securities, foreign currency exchange rates, commodity prices and interest rates. With regards to the consolidated Och-Ziff funds, the net effect of these fair value changes impacts the net gains (losses) of consolidated Och-Ziff funds in our consolidated statements of operations; however, the majority of these fair value changes are absorbed by the investors of these funds (partners and others interests in consolidated subsidiaries). To the extent the Och-Ziff funds are not consolidated, the fair value changes in the assets and liabilities of the Och-Ziff funds affect our management fees and incentive income.

Impact on Management Fees

Our management fees are generally based on the net asset value of the funds we manage. Accordingly, management fees will change in proportion to changes in the market value of investments held by our funds.

Impact on Incentive Income

Our incentive income is generally based on a percentage of annual profits generated by our funds, which is impacted by global market conditions and other factors. Major factors that influence the degree of impact include how the investments held by our funds are impacted by changes in the market and the extent to which any high-water marks impact our ability to earn incentive income. Consequently, incentive income cannot be readily predicted or estimated.

Market Risk

The amount of our assets under management is primarily based on the net asset value of each of our funds. A 10% change in the fair value of the investments held by our funds as of June 30, 2011 would result in a change of approximately \$2.8 billion in our assets under management. A 10% change in the fair value of the investments held by our funds as of December 31, 2010 would have resulted in a change of approximately \$2.4 billion in our assets under management.

A 10% change in the fair value of the investments held by our funds as of July 1, 2011 (date management fees are calculated for the following quarter), would impact management fees calculated on such date by approximately \$12.3 million. A 10% change in the fair value of the investments held by our funds as of January 1, 2011, would have impacted management fees calculated on such date by approximately \$11.3 million.

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

A 10% change in the fair value of the investments held by our funds as of the end of any year (excluding private investments), could significantly affect our incentive income by a corresponding amount, as incentive income is generally based on a percentage of annual profits generated by our funds. We do not earn incentive income on unrealized gains and losses on our private investments, and therefore a change in the fair value of those investments would have no effect on incentive income.

Table of Contents

Exchange Rate Risk

Our funds hold investments denominated in non-U.S. dollar currencies, which may be affected by movements in the rate of exchange between the U.S. dollar and foreign currencies. We estimate that, as of June 30, 2011 and December 31, 2010, a 10% weakening or strengthening of the U.S. dollar against all or any combination of currencies to which our funds have exposure to exchange rates would not have a material effect on our revenues, net loss allocated to Class A Shareholders or Economic Income.

Interest Rate Risk

Our funds have financing arrangements and hold credit instruments that accrue interest at variable rates. Interest rate changes may therefore impact the amount of interest payments, future earnings and cash flows. In the event LIBOR, and rates directly or indirectly tied to LIBOR, were to increase by 10% over LIBOR as of June 30, 2011 and December 31, 2010, based on our funds' debt investments and obligations as of such date, we estimate that the net effect on interest income and interest expense would not result in a material impact to our earnings. A tightening of credit and an increase in prevailing interest rates could make it more difficult for us to raise capital and sustain our growth rate.

In addition, our debt obligations bear interest at rates indexed to LIBOR. For every increase or decrease of 10% in LIBOR as of June 30, 2011, our annual interest expense will increase or decrease by approximately \$211 thousand. For every increase or decrease of 10% in LIBOR as of December 31, 2010, our annual interest expense would have increased or decreased by approximately \$269 thousand.

Credit Risk

Credit risk is the risk that counterparties or debt issuers may fail to fulfill their obligations or that the collateral value may become inadequate to cover our exposure. We manage credit risk by monitoring the credit exposure to and the creditworthiness of counterparties, requiring additional collateral where appropriate.

Item 4. Controls and Procedures

Effectiveness of Disclosure Controls and Procedures

We maintain disclosure controls and procedures, as defined in Rule 13a-15(e) of the Exchange Act, that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of June 30, 2011, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective and were operating at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting, as defined in Rule 13a-15(f) under the Exchange Act, that occurred in the second quarter of 2011 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur

Edgar Filing: Och-Ziff Capital Management Group LLC - Form 10-Q

or that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override

Table of Contents

of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of the effectiveness of controls to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

We are not currently subject to any pending judicial, administrative or arbitration proceedings that we expect to have a material impact on our results of operations or financial condition. We may from time to time be involved in litigation and claims incidental to the conduct of our business. Like other businesses in our industry, we are subject to scrutiny by the regulatory agencies that have or may in the future have regulatory authority over us and our business activities, which could result in regulatory agency investigations or litigation related to regulatory compliance matters. See Item 1A. Risk Factors Risks Related to Our Business Extensive regulation of our business affects our activities and creates the potential for significant liabilities and penalties. Our reputation, business and operations could be materially affected by regulatory issues and Item 1A. Risk Factors Risks Related to Our Business Increased regulatory focus could result in additional burdens on our business in our Annual Report.
