**WINN-DIXIE STORES, INC. AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

Dollar amounts in thousands except per share data, unless otherwise stated

**1. Summary of Significant Accounting Policies and Other Matters**

**General:** All information in this Quarterly Report on Form 10-Q should be read in conjunction with the Consolidated Financial Statements included in Item 8 of the Company's Annual Report on Form 10-K for the fiscal year ended June 29, 2011. See Note 1 to the Consolidated Financial Statements in that Form 10-K for a more detailed discussion of the Company's significant accounting policies.

**The Company:** As of September 21, 2011, the Company operated as a major food retailer in five states in the southeastern United States with 483 retail stores, with four fuel centers and 75 liquor stores at the retail stores. In support of its stores, the Company operated six distribution centers. The Company's operations are reported as a single reportable segment.

**Estimates:** The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions about future events that affect the reported amounts of assets, liabilities, revenues, and expenses, and disclosure of contingent assets and liabilities. The Company cannot determine future events and their effects with certainty. Therefore, the determination of estimates requires the exercise of judgment based on various assumptions and other factors such as historical experience, current and expected economic conditions and, in some cases, actuarial calculations. The Company periodically reviews these significant factors and makes adjustments when appropriate. Actual results could differ from those estimates.

**Basis of Presentation:** The accompanying unaudited Condensed Consolidated Financial Statements are prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the 12 weeks ended September 21, 2011, are not necessarily indicative of the results that may be expected for the fiscal year ending June 27, 2012.

The Condensed Consolidated Balance Sheet as of June 29, 2011, was derived from the audited consolidated financial statements as of that date, but does not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended June 29, 2011.

**Table of Contents**

**WINN-DIXIE STORES, INC. AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

Dollar amounts in thousands except per share data, unless otherwise stated

**Cash and Cash Equivalents:** Cash and cash equivalents consisted of United States government obligations money market funds of \$161.5 million and cash in stores of \$7.0 million as of September 21, 2011, and United States government obligations money market funds of \$200.5 million and cash in stores of \$7.3 million as of June 29, 2011. Book overdrafts of \$21.7 million and \$20.1 million were classified as accounts payable in the Condensed Consolidated Balance Sheets as of September 21, 2011, and June 29, 2011, respectively.

**Earnings (Loss) Per Share:** Basic earnings (loss) per common share is based on the weighted-average number of common shares outstanding for the periods presented. Diluted earnings (loss) per share is based on the weighted-average number of common shares outstanding, plus the incremental shares that would have been outstanding upon the assumed vesting and exercise of all common stock equivalents (options, restricted stock and restricted stock units, collectively "CSEs") using the treasury stock method, subject to anti-dilution limitations.

The calculation of diluted earnings (loss) per share included no potentially dilutive CSEs for the 12 weeks ended September 21, 2011, and September 22, 2010. Excluded from the calculation are approximately 4.6 million and 4.8 million anti-dilutive CSEs for the 12 weeks ended September 21, 2011, and September 22, 2010, respectively.

**Comprehensive Loss:** Comprehensive loss was \$24.1 million and \$76.9 million for the 12 weeks ended September 21, 2011, and September 22, 2010, respectively. Other comprehensive loss consists of changes in the Company's post-retirement benefits obligation.

**Reclassifications and Revisions:** Certain prior year amounts have been reclassified to conform to the current year's presentation.

**2. Merchandise Inventories**

The Company uses the last-in, first-out ("LIFO") method to value approximately 85% of its inventory. LIFO charges increased cost of sales for continuing operations by \$4.4 million and \$1.1 million for the 12 weeks ended September 21, 2011, and September 22, 2010, respectively.

An actual valuation of inventory under the LIFO method is made as of the end of each fiscal year based on the inventory levels and costs as of that date. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs. Because these calculations are estimates of future events and prices, interim results are subject to the final year-end LIFO inventory valuations.

**3. Impairment Charges**

The Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. The Company uses store performance reviews for indications that changes in market factors, traffic patterns, competition and other factors have negatively impacted the operating results

**Table of Contents**

**WINN-DIXIE STORES, INC. AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

Dollar amounts in thousands except per share data, unless otherwise stated

of store locations. Such changes resulted in the identification of underperforming stores that experienced a current period cash flow loss combined with a history of cash flow losses. The Company compared the net book value of those underperforming store assets to the Company's best estimate of the net undiscounted cash flows expected to result from the use and eventual disposition of the assets and, in some cases, the Company concluded that the net undiscounted cash flows were less than the net book value of the related assets. For those stores, the excess of the net book value of the assets over their fair value was recorded as an impairment charge.

Fair value estimates are based on assumptions the Company believes to be reasonable but are inherently uncertain, thus fall within level 3 of the fair value hierarchy. Fair value is determined using a discounted cash flow methodology, which incorporates the terminal value of equipment based on broker quotes and the market value of favorable leases and pharmacy scripts based on broker quotes.

No continuing operations impairment charges were recorded during the 12 weeks ended September 21, 2011, and September 22, 2010. For the 12 weeks ended September 22, 2010, \$0.9 million of impairment charges were included in discontinued operations.

**4. Discontinued Operations**

In evaluating whether store closures qualify for discontinued operations classification, the Company considers each store to be a component of a business, as this is the lowest level at which the operations and cash flows can be clearly distinguished, operationally and for financial reporting purposes. If the cash flows of a store to be exited will not be significant to the Company's ongoing operations and cash inflows of nearby Company stores are not expected to increase significantly because of the exit, the results of operations of the store are reported in discontinued operations. Costs incurred to dispose of a location are included in gain (loss) on disposal of discontinued operations only if the location qualifies for discontinued operations classification; otherwise, such costs are reported as continuing operations.

The Company expects to close one non-remodeled, underperforming store during the second quarter of fiscal 2012. During the 12 weeks ended September 22, 2010, the Company closed 29 non-remodeled, underperforming stores.

Results of operations for the 31 closed stores (including the store expected to close in the second quarter of fiscal 2012 and the store closed in the second quarter of fiscal 2011) were classified as discontinued operations. Net sales from discontinued operations for the 12 weeks ended September 21, 2011, and September 22, 2010, were \$2.2 million and \$50.2 million, respectively. For the 12 weeks ended September 21, 2011, the gain on disposal of discontinued operations consisted of \$0.2 million net gain on sale or retirement of assets and \$0.5 million from the settlement of a lease of a previously closed store. For the 12 weeks ended September 22, 2010, the loss on disposal of discontinued operations consisted of \$8.4 million net gain on sale or retirement of assets, including pharmacy prescription files, \$33.5 million of lease termination costs and \$3.2 million of other costs.

**Table of Contents****WINN-DIXIE STORES, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

Dollar amounts in thousands except per share data, unless otherwise stated

The following table presents the detail of liability activity for costs related to closed stores.

	<b>Liability for Closed Stores</b>
Balance at June 29, 2011	\$ (33,963)
Expense	(498)
Cash payments	3,358
Balance at September 21, 2011	\$ (31,103)

The expense amount includes the effect on operations from the accretion of the present value of the expected future rental payments and an adjustment due to the settlement of a lease. The cash payments include payments made for rent and related costs.

**5. Commitments and Contingencies***Litigation and Claims*

On August 21, 2009, the Company was served with a putative class action lawsuit filed by two former employees in the United States District Court for the Middle District of Florida against Winn-Dixie Stores, Inc., alleging company-wide violations of the federal Fair Credit Reporting Act related to the Company's background check procedures. The Company denied all allegations raised in the lawsuit, answered the complaint and filed motions asserting various defenses to the claims. On October 21, 2010, the parties reached a mutually agreed upon resolution of the case. The resolution of this claim will not result in a material adverse impact on the Company's financial condition or results of operations.

Various claims and lawsuits arising in the normal course of business are pending against the Company, including claims alleging violations of certain employment or civil rights laws, claims relating to both regulated and non-regulated aspects of the business and claims arising under federal, state or local environmental regulations. The Company vigorously defends these actions.

While no one can predict the outcome of any pending or threatened litigation with certainty, management believes that any resolution of these proceedings will not have a material adverse effect on its financial condition or results of operations.

**6. New Accounting Pronouncements**

In June 2011, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) 2011-05, which is an update to Topic 220, Comprehensive Income . The update eliminates the option of presenting the components of other comprehensive income as part of the statement of changes in stockholders' equity. Instead, comprehensive income must be reported in either a single continuous statement of comprehensive income which contains two sections, net income and other comprehensive income, or in two separate but consecutive statements. ASU 2011-05 is effective for all interim and annual reporting periods beginning after December 15, 2011 and is not expected to have a material impact on the Company's financial statements.

## **Table of Contents**

### **ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following should be read in conjunction with the Condensed Consolidated Financial Statements and Notes thereto included in Item 1 of this Quarterly Report on Form 10-Q. Unless specified to the contrary, all information herein is reported as of September 21, 2011, which was the end of our most recently completed fiscal quarter.

#### **FORWARD-LOOKING STATEMENTS**

Certain statements made in this report, and other written or oral statements made by us or on our behalf, may constitute forward-looking statements within the meaning of the federal securities laws. Statements regarding future events and developments and our future performance, as well as management's expectations, beliefs, plans, estimates or projections related to the future, are forward-looking statements within the meaning of these laws. These forward-looking statements include and may be indicated by words or phrases such as anticipate, estimate, plans, expects, projects, should, will, believes or intends and similar words and phrases.

All forward-looking statements, as well as our business and strategic initiatives, are subject to certain risks and uncertainties that could cause actual results to differ materially from expected results. Management believes that these forward-looking statements are reasonable. However, you should not place undue reliance on such statements. These statements are based on current expectations and speak only as of the date of such statements. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of future events, new information or otherwise. Additional information concerning the risks and uncertainties and other factors that you may wish to consider are described in Item 1A: Risk Factors in our Annual Report on Form 10-K for the fiscal year ended June 29, 2011, and elsewhere in our filings with the Securities and Exchange Commission. A number of factors, many of which are described in Item 1A: Risk Factors in the Form 10-K, could cause our actual results to differ materially from the expected results described in our forward-looking statements.

#### **OVERVIEW**

During the 12 weeks ending September 21, 2011, our sales were impacted positively by inflation and sustainable merchandising and marketing initiatives and were impacted negatively by competitive activity and other general market factors. As a result, our net sales increased 3.1% for the 12 weeks ended September 21, 2011, as compared to the corresponding period in the prior fiscal year.

Our identical store sales increased 3.3% as compared to the same period in the prior fiscal year due primarily to a pass through of inflationary price increases in certain categories, and to increases in sales from our fuelperks!® Rewards program and computer generated ordering initiatives, and our remodeled stores. The increases were partially offset by competitive activity and other general market factors, and the continued mix shift from brand name pharmaceutical products to generics.

**Table of Contents**

Our gross profit as a percentage of net sales for the first quarter of fiscal 2012 was 10 basis points higher than the same period in the prior fiscal year due to a decrease in other costs, which includes warehouse costs and inventory shrink, partially offset by a higher LIFO charge.

Operating and administrative expenses were essentially flat for the 12 weeks ended September 21, 2011, as compared to the same period in the prior fiscal year. Increases in credit card fees, depreciation and other costs were offset by decreases in payroll and payroll-related costs.

**RESULTS OF OPERATIONS****Continuing Operations**

(Dollar amounts in millions)

	12 Weeks Ended		Increase (Decrease)	%
	Sept. 21, 2011	Sept. 22, 2010		
Net sales	\$ 1,590	1,542	48	3.1%
Other revenue	(10)	(11)	1	
Sales in new and closed stores	(1)	(2)	1	
Identical store sales	\$ 1,579	1,529	50	3.3%
Basket size (average sales per guest visit on identical store sales)				5.5%
Transaction count (number of guest visits on identical store sales)				-2.1%
Gross profit on net sales	\$ 437	423	14	3.3%
% of net sales	27.5%	27.4%	0.1%	
Operating and administrative expenses	\$ 460	460		
% of net sales	28.9%	29.8%	-0.9%	

*Net sales.* Net sales for the 12 weeks ended September 21, 2011, increased as compared to the same period in the prior fiscal year due primarily to the increase in identical store sales. We define identical store sales as sales from continuing operations stores, including stores that we remodeled or enlarged during the period and excluding stores that opened or closed during the period.

Our identical store sales for the 12 weeks ended September 21, 2011, were impacted positively by the pass through of inflationary price increases in certain categories, and by increases in sales from our fuelperks!® Rewards program and computer generated ordering initiatives, and our remodeled stores. Identical store sales were impacted negatively by competitive activity and other general market factors, and the continued mix shift from brand name pharmaceutical products to generics.

*Gross Profit on Net Sales.* Gross profit as a percentage of net sales for the 12 weeks ended September 21, 2011, increased as compared to the same period in the prior fiscal year due primarily to other items (30 basis points), including warehouse costs and inventory shrink, partially offset by a higher LIFO charge (20 basis points).

**Table of Contents**

*Operating and Administrative Expenses.* The table below details the changes in operating and administrative expenses for the 12 weeks ended September 21, 2011, as compared to the same period in the prior fiscal year (in millions):

	<b>12 weeks ended September 21, 2011</b>
Increase (decrease):	
Credit card fees	\$ 0.9
Depreciation	0.4
Other, net	0.1
Payroll and payroll-related expenses	(1.4)
	\$

Operating and administrative expenses were essentially flat during the 12 weeks ended September 21, 2011, as compared to the 12 weeks ended September 22, 2010, due primarily to increases in credit card fees, depreciation and other costs, offset by decreases in payroll and payroll-related costs.

*Impairment Charges.* No impairment charges were recorded during the 12 weeks ended September 21, 2011, and September 22, 2010. See Part I, Item 1, Note 3 for further discussion of impairment charges.

*Interest Expense, Net.* Interest expense is primarily interest related to our credit facility and capital leases, offset by interest income. Interest expense, net was \$1.8 million and \$1.2 million for the 12 weeks ended September 21, 2011, and September 22, 2010, respectively. The increase in interest expense, net, was related primarily to an increase in capital lease interest for new leases and an increase in interest expense associated with the amended and restated \$600.0 million credit facility.

*Income Taxes.* We had no income tax for the 12 weeks ended September 21, 2011, and income tax benefit of \$1.2 million for the 12 weeks ended September 22, 2010. The benefit reflects our ability to carry back certain net operating losses and certain refundable credits. Beginning in fiscal 2012 we have no further ability to carry back net operating losses.

We maintain a full valuation allowance against substantially all of our net deferred tax assets. The valuation allowance will be maintained until there is sufficient positive evidence to conclude that it is more likely than not that the net deferred tax assets will be realized.

As of September 21, 2011, we had net operating loss carryforwards ( NOLs ) for federal income tax purposes of approximately \$776.5 million that will begin to expire in fiscal 2025.

**Discontinued Operations**

In evaluating whether store closures qualify for discontinued operations classification, we consider each store to be a component of a business, as this is the lowest level at which the operations and cash flows can be clearly distinguished, operationally and for financial reporting purposes. If the

## **Table of Contents**

cash flows of a store to be exited will not be significant to our ongoing operations and cash inflows of our nearby stores are not expected to increase significantly because of the exit, the results of operations of the store are reported in discontinued operations. Costs incurred to dispose of a location are included in gain (loss) on disposal of discontinued operations only if the location qualifies for discontinued operations classification; otherwise, such costs are reported as continuing operations.

The Company expects to close one non-remodeled, underperforming store during the second quarter of fiscal 2012. During the 12 weeks ended September 22, 2010, the Company closed 29 non-remodeled, underperforming stores.

Results of operations for the 31 closed stores (includes the store expected to close in the second quarter of fiscal 2012 and the store closed in the second quarter of fiscal 2011) were classified as discontinued operations. Net sales from discontinued operations for the 12 weeks ended September 21, 2011, and September 22, 2010, were \$2.2 million and \$50.2 million, respectively. For the 12 weeks ended September 21, 2011, the gain on disposal of discontinued operations consisted of \$0.2 million net gain on sale or retirement of assets and \$0.5 million from the settlement of a lease of a previously closed store. For the 12 weeks ended September 22, 2010, the loss on disposal of discontinued operations consisted of \$8.4 million net gain on sale or retirement of assets, including pharmacy prescription files, \$33.5 million of lease termination costs and \$3.2 million of other costs.

## **LIQUIDITY AND CAPITAL RESOURCES**

### **Summary**

As of September 21, 2011, we had \$551.5 million of liquidity, comprised of \$383.0 million of borrowing availability under the Credit Agreement (defined below) and \$168.5 million of cash and cash equivalents. We anticipate our capital expenditures for the remainder of fiscal 2012 will be funded substantially by cash flows from operations, working capital improvements, and cash and cash equivalents on hand. Based on anticipated cash flow from operations and borrowing availability, we believe that we will have sufficient resources beyond fiscal 2012 to operate our business and fund capital expenditures.

### **Credit Agreement**

On March 18, 2011, Winn-Dixie Stores, Inc., and certain of our subsidiaries entered into a Second Amended and Restated Credit Agreement ( Credit Agreement ). The Credit Agreement provides for a \$600.0 million ( Maximum Credit ) senior secured revolving credit facility, of which a maximum of \$300.0 million may be utilized for letters of credit. The Credit Agreement matures March 18, 2016, at which time all principal amounts then outstanding under the agreement will be due and payable. At our request, under certain conditions the facility may be increased by up to \$100.0 million. Obligations under the Credit Agreement are guaranteed by certain of our subsidiaries and are secured by senior liens on substantially all of our assets. Debt issuance costs of \$9.0 million are being amortized over the term of the Credit Agreement. This Form 10-Q contains

**Table of Contents**

only a general description of the terms of the Credit Agreement and is qualified in its entirety by reference to the full Credit Agreement (filed as Exhibit 10.1 to the Form 8-K filed on March 21, 2011). The following capitalized terms have specific meanings as defined in the Credit Agreement: Agent, Borrowing Base, Minimum Excess Availability, Maximum Credit and Reserves.

We had no material borrowings on the Credit Agreement, other than fees charged by the lender, during the 12 weeks ended September 21, 2011.

Borrowing availability was \$383.0 million as of September 21, 2011, as summarized below (in thousands):

	<b>September 21, 2011</b>	
Borrowing Base <sup>1</sup>	\$	553,515
Outstanding letters of credit		(115,172)
Minimum Excess Availability		(55,351)
Outstanding borrowings		(12)
<b>Borrowing availability</b>	<b>\$</b>	<b>382,980</b>

<sup>1</sup> The lesser of the value of collateral or the Maximum Credit net of Reserves.

As shown in the table above, the Borrowing Base under the Credit Facility is determined net of Reserves, which are subject to revision by the Agent to reflect events or circumstances that adversely affect the value of the Borrowing Base assets. Accordingly, a determination by the Agent to increase Reserves would reduce availability.

As of September 21, 2011, letters of credit totaling \$115.2 million were issued under the Credit Agreement. Outstanding letters of credit related primarily to insurance programs including workers' compensation.

**Historical Cash Flow Data**

The table below sets forth certain Condensed Consolidated Statements of Cash Flows data for the 12 weeks ended September 21, 2011, and September 22, 2010 (in thousands):

	<b>12 weeks ended</b>	
	<b>September 21, 2011</b>	<b>September 22, 2010</b>
Cash (used in) provided by:		
Operating activities	\$ (14,036)	(8,995)
Investing activities	(23,671)	(21,397)
Financing activities	(1,600)	8,367

*Operating Activities.* Net cash used in operating activities for the 12 weeks ended September 21, 2011, was due primarily to changes in working capital items and operating cash flows. Net cash used in operating activities for the 12 weeks ended September 22, 2010, was due to operating losses from both continuing and discontinued operations and changes in working capital items.

**Table of Contents**

*Investing Activities.* For the 12 weeks ended September 21, 2011, net cash used in investing activities was due primarily to capital expenditures, including our store-remodeling program. For the 12 weeks ended September 22, 2010, net cash used in investing activities was due primarily to capital expenditures, including our store-remodeling program. In addition, we received \$9.8 million in proceeds from sales of pharmacy prescription files related to the discontinued operations stores during the 12 weeks ended September 22, 2010.

*Financing Activities.* For the 12 weeks ended September 21, 2011, net cash used in financing activities was due primarily to payments on capital leases. For the 12 weeks ended September 22, 2010, net cash used in financing activities was due primarily to an increase in book overdrafts offset by payments on capital leases.

*Capital Expenditures.* In fiscal 2012, we expect capital expenditures to total approximately \$200.0 million, of which approximately \$125.0 million is for our store-remodeling program and new stores. We anticipate spending approximately \$75.0 million on other capital expenditures, including retail store maintenance, information technology, and other projects.

**CRITICAL ACCOUNTING ESTIMATES**

Our critical accounting estimates for the first quarter of fiscal 2012 are consistent with those included in our Annual Report on Form 10-K for the fiscal year ended June 29, 2011.

**Table of Contents**

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

As of September 21, 2011, we had no derivative instruments that increased our exposure to market risks for interest rates, foreign currency rates, commodity prices or other market price risks. We do not use derivatives for speculative purposes. Our current exposure to market risks results primarily from changes in interest rates, principally with respect to our Credit Agreement, which is a variable rate financing agreement. As of September 21, 2011, we had \$12.0 thousand outstanding under the Credit Agreement. We currently do not use swaps or other interest rate protection agreements to hedge this risk.

**Item 4. Controls and Procedures**

***Evaluation of Disclosure Controls and Procedures***

As of September 21, 2011, the Chief Executive Officer and the Chief Financial Officer, together with a disclosure review committee appointed by the Chief Executive Officer, evaluated the Company's disclosure controls and procedures. Based on the evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that, as of September 21, 2011, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the Exchange Act) and are effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

***Changes in Internal Control over Financial Reporting***

There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter ended September 21, 2011, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Part II - Other Information**

**Item 1. Legal Proceedings**

See Part I, Item 1, Note 5 for a discussion of legal proceedings.

**Item 1A. Risk Factors**

The risks described in Item 1A, Risk Factors, in our Annual Report on Form 10-K for the fiscal year ended June 29, 2011, could materially and adversely affect our business, financial condition and results of operations. There have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K for the fiscal year ended June 29, 2011. Additional information concerning those risks and uncertainties and other factors that you may wish to consider are contained elsewhere in our filings with the Securities and Exchange Commission.
