## **Table of Contents**

2011 was a challenging year for Simcere, commented Mr. Jinsheng Ren, Chairman and Chief Executive Officer of Simcere Pharmaceutical Group. Factors including changes in certain provincial tendering processes as well as government pricing policies negatively impacted full year sales of Zailin and our edaravone products. We were encouraged, however, by the solid full year performance of our oncology drugs Endu, Sinofuan and Jiebaishu, as well as the strong sales growth of our new antibiotic drug Anxin.

Mr. Ren added, Looking forward, we plan to allocate more sales resources to oncology drugs and new products. We are pleased that we began to sell Iremod, our new Category I Disease Modifying Anti-rheumatic Drug, in the first quarter of 2012. We believe that both Iremod and Qiangke, Shanghai Celgen's Recombinant Human TNF Receptor-IgG Fusion Protein for Injection, have exciting market potential in China.

Simcere holds a 35% equity interest in Shanghai Celgen Bio-Pharmaceutical Co., Ltd.

Compound Edaravone Injection, a new drug being developed by Simcere, received clinical studies approval in February 2012 from the State Food and Drug Administration. Simcere expects to begin Phase I clinical trials of Compound Edaravone Injection in China during the first quarter of 2012. Simcere previously completed Phase I clinical trials of Compound Edaravone Injection in Australia.

Share-based compensation expenses for the fourth quarter of 2010 were RMB8.1 million. For the full year of 2011, share-based compensation expenses totaled RMB29.3 million (US\$4.7 million), which represented a decrease of 5.7% from RMB31.1 million in 2010.

**Income from operations** was RMB1.6 million (US\$0.3 million) for the fourth quarter of 2011, compared to RMB62.8 million for the same period in 2010. This was primarily due to a decrease in total revenue and an increase in research and development expenses. For the full year of 2011, operating income was RMB143.5 million (US\$22.8 million), which represented a decrease of 34.1% from RMB217.9 million in 2010.

**Income tax benefit** for the fourth quarter of 2011 was RMB41.9 million (US\$6.7 million), compared to income tax benefit of RMB6.8 million for the same period in 2010. This was primarily due to the improved financial results in one of our subsidiaries during 2011, resulting in the reversal of valuation allowance previously made against the deferred tax assets of this subsidiary amounting to RMB32.3 million (US\$5.14 million) and the impact of a non-taxable other operating income of RMB15.0 million (US\$2.4 million) arising from the receipt of settlement in respect of the acquisition of Jiangsu Quanyi in 2009 from certain former shareholders of Jiangsu Quanyi. For the full year of 2011, income tax benefit was RMB35.4 million (US\$5.6 million) compared to income tax expense of RMB10.6 million in 2010.
