TOTAL SYSTEM SERVICES, INC.

Notes to Unaudited Consolidated Financial Statements

Note 1 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited consolidated financial statements of Total System Services, Inc.[®] (TSYS[®] or the Company) include the accounts of TSYS and its wholly and majority owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

These financial statements have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes required by U.S. generally accepted accounting principles (GAAP) for complete financial statements. The preparation of the consolidated financial statements requires management of the Company to make estimates and assumptions relating to the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. These estimates and assumptions are developed based upon all information available. Actual results could differ from estimated amounts. All adjustments, consisting of normal recurring accruals, which, in the opinion of management, are necessary for a fair presentation of financial position and results of operations for the periods covered by this report, have been included.

Certain prior period amounts have been reclassified to conform to the current period's presentation.

The accompanying unaudited consolidated financial statements should be read in conjunction with the Company's summary of significant accounting policies, consolidated financial statements and related notes appearing in the Company's Annual Report on Form 10-K for the year ended December 31, 2011. Results of interim periods are not necessarily indicative of results to be expected for the year.

Recently Adopted Accounting Pronouncements

In 2012, the Company adopted Accounting Standards Update (ASU) 2011-05, *Comprehensive Income*, ASU 2011-08, *Intangibles - Goodwill and Other* and ASU 2011-12 *Deferral of the Effective Date for Amendments to the Presentation of Reclassification of Items out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05*. The adoption of these standards did not have a material impact on the Company's financial position, results of operations and cash flows.

Note 2 Fair Value Measurement

Refer to Note 3 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the Securities and Exchange Commission (SEC), for a discussion regarding fair value measurement.

ASC 820, *Fair Value Measurements and Disclosure*, requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant level of inputs. The three-tier fair value hierarchy, which prioritizes the inputs used in the valuation methodologies, is as follows:

Level 1 Quoted prices for identical assets and liabilities in active markets.

Level 2 Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 Unobservable inputs for the asset or liability.

At June 30, 2012, the Company had recorded goodwill in the amount of \$354.9 million (Level 2). The Company performed its annual impairment testing of its unamortized goodwill balance as of May 31, 2012, and this test did not indicate any impairment. The fair value of the reporting units substantially exceeds the carrying value.

Table of Contents**Note 3 Supplementary Balance Sheet Information***Cash and Cash Equivalents*

The Company maintains accounts outside the United States denominated in currencies other than the U.S. dollar. All amounts in domestic accounts are denominated in U.S. dollars.

Cash and cash equivalent balances are summarized as follows:

<i>(in thousands)</i>	June 30, 2012	December 31, 2011
Cash and cash equivalents in domestic accounts	\$ 334,567	263,853
Cash and cash equivalents in foreign accounts	84,076	52,484
Total	\$ 418,643	316,337

At June 30, 2012 and December 31, 2011, the Company had approximately \$24.5 million and \$22.0 million, respectively, in Money Market accounts that had an original maturity date of 90 days or less. The Company considers cash equivalents to be short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity at the time of purchase that they present insignificant risk of changes in value because of change in interest rates.

Prepaid Expenses and Other Current Assets

Significant components of prepaid expenses and other current assets are summarized as follows:

<i>(in thousands)</i>	June 30, 2012	December 31, 2011

Total	\$ 160,819	162,987

Amortization expense related to conversion costs, which is recorded in cost of services, was \$7.3 million and \$4.7 million for the three months ended June 30, 2012 and 2011, respectively. For the six months ended June 30, 2012 and 2011, amortization related to conversion costs was \$11.5 million and \$10.1 million, respectively.

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

Amortization related to payments for processing rights, which is recorded as a reduction of revenues, was \$2.9 million and \$4.0 million for the three months ended June 30, 2012 and 2011, respectively. For the six months ended June 30, 2012 and 2011, amortization related to payments for processing rights was \$6.8 million and \$7.9 million, respectively.

During 2011, the Company recognized an impairment loss related to contract acquisition costs of \$773,000.

Table of Contents*Other Current Liabilities*

Significant components of other current liabilities are summarized as follows:

Note 4 Long-Term Debt

Refer to Note 13 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding long-term debt.

Due to increases in transaction volumes, TSYS acquired additional mainframe software licenses to increase capacity. In June 2012, the Company entered into an \$8.6 million financing agreement with the vendor to purchase these additional software licenses.

Note 5 Share-Based Compensation

Refer to Notes 1 and 16 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding the Company's share-based compensation plans and policy.

Share-Based Compensation

TSYS's share-based compensation costs are included as expenses and classified as cost of services and selling, general, and administrative expenses. TSYS does not include amounts associated with share-based compensation as costs capitalized as software development and contract acquisition costs, as these awards are typically granted to individuals not involved in capitalizable activities. For the three months ended June 30, 2012, share-based compensation was \$5.0 million, compared to \$4.3 million for the same period in 2011, which includes approximately \$1.9 million, for both periods, related to expensing the fair value of stock options. For the six months ended June 30, 2012, and 2011, share-based compensation was \$8.6 million, which includes approximately \$3.0 million and \$3.8 million, for 2012 and 2011 respectively, related to

expensing the fair value of stock options.

Nonvested Share Awards

During the first six months of 2012, the Company issued 342,074 shares of TSYS common stock with a market value of \$7.4 million to certain key employees and non-management members of its Board of Directors. The nonvested stock bonus awards to certain key employees are for services to be provided in the future and vest over a period of 3 years. The stock bonus awards to the non-management members of the Board of Directors were fully vested on the date of issuance. The market value of the TSYS common stock at the date of issuance is amortized as compensation expense over the vesting period of the awards.

Table of Contents

During the first six months of 2011, the Company issued 200,796 shares of TSYS common stock with a market value of \$3.5 million to certain key employees and non-management members of its Board of Directors. The nonvested stock bonus awards to certain key employees are for services to be provided in the future and vest over a period of 3 years. The stock bonus awards to the non-management members of the Board of Directors were fully vested on the date of issuance. The market value of the TSYS common stock at the date of issuance is amortized as compensation expense over the vesting period of the awards.

As of June 30, 2012, there was approximately \$8.9 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements. That cost is expected to be recognized over a remaining weighted average period of 2.1 years.

Performance Share Awards

During the first six months of 2012, TSYS authorized a total grant of 241,095 performance shares to certain key executives with a performance based vesting schedule (2012 performance shares). These 2012 performance shares have a 2012-2014 performance period for which the Compensation Committee established two performance goals: revenues before reimbursable items and income from continuing operations and, if such goals are attained in 2014, the performance shares will vest, up to a maximum of 200% of the total grant. Compensation expense for the award is measured on the grant date based on the quoted market price of TSYS common stock. The Company will estimate the probability of achieving the goals through the performance period and will expense the award on a straight-line basis.

During the first six months of 2011, TSYS authorized a total grant of 263,292 performance shares to certain key executives with a performance based vesting schedule (2011 performance shares). These 2011 performance shares have a 2011-2013 performance period for which the Compensation Committee established two performance goals: revenues before reimbursables and income from continuing operations and, if such goals are attained in 2013, the performance shares will vest, up to a maximum of 200% of the total grant. Compensation expense for the award is measured on the grant date based on the quoted market price of TSYS common stock. The Company will estimate the probability of achieving the goals through the performance period and will expense the award on a straight-line basis.

Compensation costs related to performance shares compensation arrangements are expected to be recognized until the end of 2014.

During 2008, TSYS authorized a total grant of 182,816 shares of nonvested stock to two key executives with a performance schedule (2008 performance shares). These 2008 performance shares have seven one-year performance periods (2008-2014) during each of which the Compensation Committee establishes an earnings per share goal and, if such goal is attained during any performance period, 20% of the performance shares will vest, up to a maximum of 100% of the total grant. Compensation expense for each year's award is measured on the grant date based on the quoted market price of TSYS common stock and is expensed on a straight-line basis for the year.

Compensation costs related to the 2008 performance shares compensation arrangement are expected to be recognized until the end of 2012.

Stock Option Awards

During the first six months of 2012, the Company granted 818,090 stock options to key TSYS executive officers and non-management members of its Board of Directors. The weighted average fair value of the option grant was \$5.27 per option and was estimated on the date of grant using the Black-Scholes-Merton option-pricing model with the following weighted average assumptions: exercise price of \$22.95; risk-free interest rate of 1.69%; expected volatility of 24.11%; expected term of 7.9 years; and dividend yield of 1.75%. The grants to key TSYS executive officers will vest over a period of 3 years. The grants to the Board of Directors were fully vested on the date of grant.

During the first six months of 2011, the Company granted 716,508 stock options to key TSYS executive officers and non-management members of its Board of Directors. The weighted average fair value of the option grant was \$5.78 per option and was estimated on the date of grant using the Black-Scholes-Merton option-pricing model with the following weighted average assumptions: exercise price of \$17.61; risk-free interest rate of 2.96%; expected volatility of 30.0%; expected term of 8.5 years; and dividend yield of 1.59%. The grants to key TSYS executive officers will vest over a period of 3 years. The grants to the Board of Directors were fully vested on the date of grant.

Table of Contents

In April 2010, the Company granted 1.4 million stock options to key TSYS executive officers that are performance- and/or market conditions-based. These stock options will vest and become exercisable on April 30, 2013, only if the stock price is at least a specified percentage above the grant date stock price on April 30, 2013 or TSYS reaches a specified EPS goal by December 31, 2012. Given the market conditions component, TSYS evaluated the impact using the Monte Carlo simulation to value these awards and ultimately determined that the impact was minimal. The average fair value of the option grants was \$3.48 per option and was estimated on the date of grant using the Black-Scholes-Merton option-pricing model with the following weighted average assumptions: exercise price of \$16.19; risk-free interest rate of 2.07%; expected volatility of 30.0%; expected term of 4.0 years; and dividend yield of 1.79%.

As of June 30, 2012, there was approximately \$8.1 million of total unrecognized compensation cost related to TSYS stock options that is expected to be recognized over a remaining weighted average period of 1.7 years.

Note 6 Income Taxes

Refer to Notes 1 and 20 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding income taxes.

TSYS is the parent of an affiliated group that files a consolidated U.S. federal income tax return and most state and foreign income tax returns on a separate entity basis. In the normal course of business, the Company is subject to examinations by these taxing authorities unless statutory examination periods lapse. TSYS is no longer subject to U.S. federal income tax examinations for years before 2008 and with a few exceptions, the Company is no longer subject to income tax examinations from state, local or foreign authorities for years before 2003. There is currently a federal tax examination in progress for the year 2009. Additionally, a number of tax examinations are in progress by the relevant foreign and state tax authorities. Although TSYS is unable to determine the ultimate outcome of these examinations, TSYS believes that its reserve for uncertain tax positions relating to these jurisdictions for such years is adequate.

TSYS' effective tax rate was 26.7% and 30.4% for the three months ended June 30, 2012 and 2011, respectively. TSYS' effective income tax rate for the six months ended June 30, 2012 was 30.4%, compared to 32.2% for the same period in 2011. The decreased rates during the periods ended June 30, 2012, were primarily due to changes in discrete items, tax credits and changes in the jurisdictional sources of income.

TSYS has adopted the provisions of Accounting Standards Codification (ASC) 740, *Income Taxes*, which prescribes a recognition threshold and measurement attribute for the financial statement recognition, measurement and disclosure of a tax position taken or expected to be taken in a tax return. The amount of unrecognized tax benefits increased by \$3.6 million during the six months ended June 30, 2012.

TSYS recognizes potential interest and penalties related to the underpayment of income taxes as income tax expense in the consolidated statements of income. Gross accrued interest and penalties on unrecognized tax benefits totaled \$0.9 million and \$0.6 million as of June 30, 2012 and December 31, 2011, respectively. The total amounts of unrecognized income tax benefits as of June 30, 2012 and December 31, 2011 that, if recognized, would affect the effective tax rates are \$9.2 million and \$5.4 million (net of the federal benefit on state tax issues), respectively, which include interest and penalties of \$0.7 million and \$0.5 million. TSYS does not expect any material changes to its calculation of uncertain tax positions during the next twelve months.

Note 7 Segment Reporting and Major Customers

Nonvested Awards

The Company issued shares of common stock to certain key employees and non-management members of its Board of Directors. The grants to certain key employees were issued under nonvested stock bonus awards for services to be provided in the future by such officers and employees. The grants to the Board of Directors were fully vested on the date of grant. Refer to Note 5 for more information.

Equipment and Software Acquired Under Capital Lease Obligations

The Company acquired equipment and software under capital lease obligations in the amount of \$3.3 million during the first six months of 2012 related to storage and other peripheral hardware. The Company acquired equipment and software under capital lease obligations in the amount of \$1.3 million during the first six months of 2011 related to storage and other peripheral hardware.

Note 9 Commitments and Contingencies

Refer to Note 19 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding commitments and contingencies.

Legal Proceedings

The Company is subject to various legal proceedings and claims and is also subject to information requests, inquiries and investigations arising out of the ordinary conduct of its business. The Company establishes reserves for litigation and similar matters when those matters present loss contingencies that TSYS determines to be both probable and reasonably estimable in accordance with ASC 450, *Contingencies*. In the opinion of management, based on current knowledge and in part upon the advice of legal counsel, all matters are believed to be adequately covered by insurance, or, if not covered, the possibility of losses from such matters are believed to be remote or such matters are of such kind or involve such amounts that would not have a material adverse effect on the financial position, results of operations or cash flows of the Company if disposed of unfavorably.

Note 10 Acquisitions

Refer to Note 24 of the Company's audited financial statements for the year ended December 31, 2011, which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, for a discussion regarding acquisitions.

Other

On February 1, 2012, TSYS acquired contract-based intangible assets in its Merchant Services segment for \$1.7 million. These intangible assets are being amortized on a straight-line basis over their estimated useful lives of five years which approximates their usage.

Pro forma Results of Operations

The pro forma revenue and earnings of TSYS' acquisitions are not material to the consolidated financial statements.

Note 12 Subsequent Events

On July 24, 2012, TSYS announced that its Board had approved an increase in the number of shares that may be repurchased under its current share repurchase plan from up to 15 million shares to up to 20 million shares of TSYS stock. With the increase, TSYS has 10.3 million shares available to be repurchased. In addition, the expiration date of the plan was extended to April 30, 2014.

On July 19, 2012, TSYS announced that it finalized a master services agreement, with a minimum six year term, with Bank of America to provide processing services for its consumer credit card portfolios in the U.S. In addition, TSYS will continue to process Bank of America's commercial credit card portfolios in the U.S. and internationally.

Management performed an evaluation of the Company's activity the date these unaudited financial statements were issued, and has concluded that, other than as set forth above, there are no significant subsequent events requiring disclosure.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.****Financial Overview**

Total System Services, Inc.'s (TSYS or the Company's) revenues are derived from providing payment processing, merchant services and related services to financial and nonfinancial institutions, generally under long-term processing contracts. The Company's services are provided through three of the Company's operating segments: North America Services, International Services and Merchant Services.

Through the Company's North America Services and International Services segments, TSYS processes information through its cardholder systems to financial and nonfinancial institutions throughout the United States and internationally. The Company's North America Services segment provides these services in the United States to clients in the United States, Canada, Mexico and the Caribbean. The Company's International Services segment provides services in England, Japan and Brazil to clients in Europe, Asia Pacific, and Brazil. The Company's Merchant Services segment provides merchant services to financial institutions and other organizations, primarily in the United States.

On May 2, 2011, TSYS completed its acquisition of all of the outstanding common stock of TermNet Merchant Services, Inc. (TermNet), an Atlanta-based merchant acquirer.

For a detailed discussion regarding the Company's Operations, see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations, which is included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

Financial Review

This Financial Review provides a discussion of critical accounting policies and estimates, related party transactions and off-balance sheet arrangements. This Financial Review also discusses the results of operations, financial position, liquidity and capital resources of TSYS and outlines the factors that have affected its recent earnings, as well as those factors that may affect its future earnings. For a detailed discussion regarding these topics, refer to our Notes to Consolidated Financial Statements and Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

Critical Accounting Policies and Estimates

There have been no material changes to the Company's critical accounting policies, estimates and assumptions or the judgments affecting the application of those estimates and assumptions in 2012.

Related Party Transactions

The Company believes the terms and conditions of transactions between the Company and its equity investments, Total System Services de México, S.A. de C.V. (TSYS de México) and China UnionPay Data Co., Ltd. (CUP Data), are comparable to those which could have been obtained in transactions with unaffiliated parties. The Company's margins with respect to related party transactions are comparable to margins recognized in transactions with unrelated third parties.

Table of Contents

Off-Balance Sheet Arrangements

Operating Leases

As a method of funding its operations, TSYS employs noncancelable operating leases for computer equipment, software and facilities. These leases allow the Company to provide the latest technology while avoiding the risk of ownership. Neither the assets nor obligations related to these leases are included on the balance sheet.

Contractual Obligations

The total liability for uncertain tax positions under ASC 740, *Income Taxes*, at June 30, 2012 is \$9.4 million. Refer to Note 6 in the Notes to Unaudited Consolidated Financial Statements for more information on income taxes. The Company is not able to reasonably estimate the amount by which the liability will increase or decrease over time; however, at this time, the Company does not expect a significant payment related to these obligations within the next year.

Recent Accounting Pronouncements

For a discussion of recent accounting pronouncements, refer to Note 1 in the Notes to Unaudited Consolidated Financial Statements and see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations, which is included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

Results of Operations

Revenues

The Company generates revenues by providing transaction processing and other payment-related services. The Company's pricing for transactions and services is complex. Each category of revenue has numerous fee components depending on the types of transactions or services provided. TSYS reviews its pricing and implements pricing changes on an ongoing basis. In addition, standard pricing varies among its regional businesses, and such pricing can be customized further for customers through tiered pricing of various thresholds for volume activity. TSYS revenues are based upon transactional information accumulated by its systems or reported by its customers. The Company's revenues are impacted by currency translation of foreign operations, as well as doing business in the current economic environment.

Total revenues increased \$15.1 million and \$46.8 million, or 3.4% and 5.3%, respectively, for the three and six months ended June 30, 2012 compared to the same periods in 2011. The increase in revenues for the three and six months ended June 30, 2012 includes a decrease of \$2.6 million and \$3.7 million, respectively, related to the effects of currency translation of foreign-based subsidiaries and branches. The Company has included reimbursements received for out-of-pocket expenses as revenues and expenses. The largest reimbursable expense item for which TSYS is reimbursed by clients is postage. The Company's reimbursable items are impacted with changes in postal rates and changes in the volumes of all mailing activities by its clients. Reimbursable items for the three and six months ended June 30, 2012 were \$64.0 million and \$129.9 million, a decrease of \$3.3 million or 5.0% and \$4.2 million or 3.1%, respectively, compared to \$67.3 million and \$134.1 million for the same periods last year. Excluding reimbursable items, revenues increased \$18.5 million and \$51.0 million, or 4.9% and 6.9%, during the three and six months ended June 30, 2012 compared to the same period in 2011.

Major Customers

For a detailed discussion regarding the Company's major customers, refer to Note 7 in the Notes to Unaudited Consolidated Financial Statements and see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations, which is included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

A significant amount of the Company's revenues is derived from long-term contracts with large clients by providing various processing and other services to these clients, including processing of consumer and commercial accounts, as well as revenues for reimbursable items. In 2011, the Company had one major customer. The loss of one of the Company's large clients could have a material adverse effect on the Company's financial position, results of operations and cash flows.

On July 19, 2012, TSYS announced that it finalized a master services agreement, with a minimum six year term, with Bank of America to provide processing services for its consumer credit card portfolios in the U.S. In addition, TSYS will continue to process

Table of Contents

Bank of America's commercial credit card portfolios in the U.S. and internationally. TSYS plans to complete the conversion of Bank of America's consumer card portfolio from its in-house processing system in mid-2014. Following the processing term, the agreement provides Bank of America the option to use the TS2 software pursuant to a license under a long-term payment structure for purposes of processing its consumer card portfolio.

The master services agreement with Bank of America provides for a tiered-pricing arrangement for both the consumer card portfolio, which is expected to be converted in 2014, and the existing commercial card portfolios.

Operating Segments

TSYS services are provided through its three operating segments: North America Services, International Services and Merchant Services. Refer to Note 7 in the Notes to Unaudited Consolidated Financial Statements for more information on the Company's operating segments.

The Company's North America and International segments have many long-term customer contracts with card issuers providing account processing and output services for printing and embossing items. These contracts generally require advance notice prior to the end of the contract if a client chooses not to renew. Additionally, some contracts may allow for early termination upon the occurrence of certain events such as a change in control. The termination fees paid upon the occurrence of such events are designed primarily to cover balance sheet exposure related to items such as capitalized conversion costs or client incentives associated with the contract and, in some cases, may cover a portion of lost future revenue and profit. Although these contracts may be terminated upon certain occurrences, the contracts provide the segment with a steady revenue stream since a vast majority of the contracts are honored through the contracted expiration date.

A summary of each segment's results follows:

North America Services

The North America Services segment provides payment processing and related services to clients based primarily in North America. This segment has two major customers.

Below is a summary of the North America Services segment:

(in millions)	Three months ended June 30,			Six months ended June 30,		
	2012	2011	Percent Change	2012	2011	Percent Change

Transactions	2,037.9	1,795.1	13.5	3,930.9	3,421.9	14.9

* Segment operating margins do not include expenses associated with Corporate Administration. Refer to Note 7 in the Notes to the Unaudited Consolidated Financial Statements for more information on operating segments.

The increase in total segment external revenues for the three and six months ended June 30, 2012, as compared to the same periods in 2011, is the result of an increase in revenues associated with new business and internal growth partially offset by client portfolio deconversions and price reductions.

The increase in operating income for the three and six months ended June 30, 2012, as compared to 2011, is driven by a decrease in employment expenses due to the dedication of more internal resources to the International Services segment that were previously shared between the North America Services and International Services segments.

International Services

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

The International Services segment provides issuer and merchant card solutions to financial institutions and other organizations primarily based outside the North America region. Changes in revenues in this segment are derived from retaining and growing the core business. Growing the core business comes primarily from an increase in account usage, growth from existing clients and sales to new clients and the related account conversions. This segment has one major customer.

* Segment operating margins do not include expenses associated with Corporate Administration. Refer to Note 7 in the Notes to the Unaudited Consolidated Financial Statements for more information on operating segments.

The increase in total segment revenues for the three and six months ended June 30, 2012, as compared to 2011, is the result of new business and organic growth, which was partially offset by the impact of foreign currency translation, client deconversions, and price reductions.

The decrease in operating income for the three and six months ended June 30, 2012, as compared to 2011, is driven by an increase in employment expenses due to the dedication of more internal resources to the International Services segment.

Merchant Services

The Merchant Services segment provides merchant processing and related services to clients based primarily in the United States. Merchant services revenues are derived from providing processing services, acquiring solutions, related systems and integrated support services to merchant acquirers and merchants. Revenues from merchant services include processing all payment forms including credit, debit, prepaid, electronic benefit transfer and electronic check for merchants of all sizes across a wide array of market verticals. Merchant services include authorization and capture of transactions; clearing and settlement of transactions; information reporting services related to transactions; merchant billing services; and point-of-sale (POS) equipment sales and service. This segment has one major customer.

Below is a summary of the Merchant Services segment:

* Segment operating margins do not include expenses associated with Corporate Administration. Refer to Note 7 in the Notes to the Unaudited Consolidated Financial Statements for more information on operating segments.

The increase in total segment revenues for the three and six months ended June 30, 2012, as compared to the same period in 2011, is the result of new business, organic growth and acquisitions, which was partially offset by a decrease for client deconversions and price reductions.

Merchant Services segment's results are driven by the authorization and capture transactions processed at the point-of-sale and clearing and settlement transactions. This segment's authorization and capture transactions are primarily through dial-up or Internet connectivity. The direct acquiring business is driven by dollar sales volume processed by merchants.

Operating Expenses

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

The Company's operating expenses consist of cost of services and selling, general and administrative expenses. Cost of services describes the direct expenses incurred in performing a particular service for our customers, including the cost of direct labor expense in putting the service in saleable condition. Selling, general and administrative expenses are incurred in selling or marketing and for the direction of the enterprise as a whole, including accounting, legal fees, officers' salaries, investor relations and mergers and acquisitions.

Table of Contents

The Company's cost of services increased 0.2% and 2.8% for the three and six months ended June 30, 2012, compared to \$312.1 million and \$613.5 million for the same periods last year.

The Company's selling, general and administrative expenses increased 1.6% and 3.6% for the three and six months ended June 30, 2012, compared to \$57.0 million and \$111.9 million for the same periods last year. The increase is the result of merit increases and the acquisition of TermNet, including amortization of acquisition intangibles.

Operating Income

Operating income increased 17.3% and 16.7% for the three and six months ended June 30, 2012, respectively, over the same periods in 2011. The Company's operating profit margin for the three and six months ended June 30, 2012 was 19.9% and 19.2%, respectively, compared to 17.5% and 17.3% for the same periods last year. TSYS' operating margin increased for the three and six months ended June 30, 2012, as compared to the same periods in 2011, as a result of gains in productivity.

Nonoperating Income (Expense)

Interest income for the three months ended June 30, 2012 was \$352,000, an increase of \$198,000, compared to \$154,000 for the same period in 2011. Interest income for the six months ended June 30, 2012 was \$746,000, an increase of \$459,000, compared to \$287,000 for the same period in 2011. The increase in interest income is primarily attributable to the increase in the amount of cash available for investing.

Interest expense for the three months ended June 30, 2012 was \$741,000, a decrease of \$65,000 compared to \$806,000 for the same period in 2011. Interest expense for the six months ended June 30, 2012 was \$1.5 million, a decrease of \$0.1 million compared to \$1.6 million for the same period in 2011. The decrease in interest expense in 2012 compared to 2011 relates to a decline in interest rates.

For the three months ended June 30, 2012 and 2011, the Company recorded a translation loss of approximately \$1.1 million and \$222,000, respectively, related to intercompany loans and foreign-denominated balance sheet accounts. For the six months ended June 30, 2012 and 2011, the Company recorded a translation loss of approximately \$1.6 million and \$574,000, respectively, related to intercompany loans and foreign-denominated balance sheet accounts.

Occasionally, the Company will provide financing to its subsidiaries in the form of an intercompany loan, which is required to be repaid in U.S. dollars. For its subsidiaries whose functional currency is something other than the U.S. dollar, the translated balance of the financing (liability) is adjusted upward or downward to match the U.S. dollar obligation (receivable) on the Company's financial statements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation.

The Company records foreign currency translation adjustments on foreign-denominated balance sheet accounts. The Company maintains several cash accounts denominated in foreign currencies, primarily in Euros and British Pounds Sterling. As the Company translates the foreign-denominated cash balances into U.S. dollars, the translated cash balance is adjusted upward or downward depending upon the foreign currency exchange movements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation in the Company's statements of income. As those cash accounts have increased, the upward or downward adjustments have increased.

The balance of the Company's foreign-denominated cash accounts subject to risk of translation gains or losses at June 30, 2012 was approximately \$7.0 million, the majority of which is denominated in Euros and British Pounds Sterling.

Income Taxes

For a detailed discussion regarding these topics, refer to Notes 1 and 20 in the Notes to Consolidated Financial Statements and Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations which are included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC.

TSYS' effective income tax rate for the three months ended June 30, 2012 was 26.7%, compared to 30.4% for the same period in 2011. TSYS' effective income tax rate for the six months ended June 30, 2012 was 30.4%, compared to 32.2% for the same period in 2011. The reduction in the 2012 rates reflect changes in discrete items, tax credits and in the jurisdictional sources of income. The calculation of the effective tax rate is income taxes adjusted for income taxes associated with noncontrolling interest and equity income divided by TSYS' pretax income adjusted for minority interests in consolidated subsidiaries' net income and equity pre-tax earnings of its equity investments. Refer to Note 6 in the Notes to Unaudited Condensed Consolidated Financial Statements for more information on income taxes.

Table of Contents

In the normal course of business, TSYS is subject to examinations from various tax authorities. These examinations may alter the timing or amount of taxable income or deductions or the allocation of income among tax jurisdictions.

TSYS continually monitors and evaluates the potential impact of current events and circumstances on the estimates and assumptions used in the analysis of its income tax positions, and accordingly, TSYS' effective tax rate may fluctuate in the future.

No provision for U.S. federal and state income taxes has been made in our consolidated financial statements for those non-U.S. subsidiaries whose earnings are considered to be reinvested. The amount of undistributed earnings considered to be reinvested which may be subject to tax upon distribution was approximately \$62.0 million at June 30, 2012. A distribution of these non-U.S. earnings in the form of dividends, or otherwise, would subject the Company to both U.S. federal and state income taxes, as adjusted for non-U.S. tax credits, and withholding taxes payable to the various non-U.S. countries. Determination of the amount of any unrecognized deferred income tax liability on these undistributed earnings is not practicable.

Equity in Income of Equity Investments

The Company has two equity investments located in Mexico and China that are accounted for under the equity method of accounting. TSYS share of income from its equity in equity investments was \$2.3 million and \$0.6 million for the three months ended June 30, 2012 and 2011, respectively. TSYS' share of income from its equity in equity investments was \$5.0 million and \$2.9 million for the six months ended June 30, 2012 and 2011, respectively.

Net Income

Net income for the three months ended June 30, 2012 increased 24.4%, or \$13.4 million, to \$68.0 million, compared to \$54.6 million for the same period in 2011. Net income for the six months ended June 30, 2012 increased 20.7%, or \$21.5 million, to \$125.6 million, compared to \$104.1 million for the same period in 2011.

Net income attributable to TSYS common shareholders for the three months ended June 30, 2012 increased 24.1%, or \$13.0 million, to \$66.7 million, or basic and diluted EPS of \$0.35, compared to \$53.7 million, or basic and diluted EPS of \$0.28, for the same period in 2011. Net income attributable to TSYS common shareholders for the six months ended June 30, 2012 increased 20.1%, or \$20.6 million, to \$123.1 million, or basic and diluted EPS of \$0.65, compared to \$102.5 million, or basic and diluted EPS of \$0.53, for the same period in 2011.

Projected Outlook for 2012

As compared to 2011, TSYS expects its 2012 income from continuing operations to increase by 8%-10%, its EPS from continuing operations available to TSYS common shareholders to increase by 10%-12%, its revenues before reimbursable items to increase by 2%-5% and its total revenues to increase by 0%-2%, based on the following assumptions: (1) there will be no significant movements in London Interbank Offered Rate (LIBOR) and TSYS will not make any significant draws on the remaining balance of its revolving credit facility; (2) there will be no significant movement in foreign currency exchange rates related to TSYS' business; (3) TSYS will not incur significant expenses associated with the conversion of new large clients or acquisitions, or any significant impairment of goodwill or other intangibles; (4) there will be no deconversions of large clients during the year; and (5) the economy will not worsen.

Financial Position, Liquidity and Capital Resources

Cash Flows

The Consolidated Statements of Cash Flows detail the Company's cash flows from operating, investing and financing activities. TSYS' primary method of funding its operations and growth has been cash generated from current operations and the use of leases. TSYS has occasionally used borrowed funds to supplement financing of capital expenditures and acquisitions.

Table of Contents

TSYS' main source of funds is derived from operating activities, specifically net income. The increase in 2012 in net cash provided by operating activities was primarily the result of the increase in net income offset by the net change in current and other assets and current and other liabilities.

Net change in current and other assets and current and other liabilities include accounts receivable, prepaid expenses, other current assets and other assets, accounts payable, accrued salaries and employee benefits, other current liabilities and other liabilities. The change in other noncash items and charges is due primarily to a deferred tax asset related to the purchase of the remaining interest of TSYS Merchant Solutions, LLC (TMS) in 2011. The change in accounts receivable at June 30, 2012, as compared to June 30, 2011, is the result of timing of collections compared to billings. The change in accounts payable and other liabilities for the same period is the result of the payments of vendor invoices and the timing of payments.

The major uses of cash for investing activities in 2012 was for the purchase of licensed computer software and internal development of computer software, investments in contract acquisition costs associated with obtaining and servicing new or existing clients, the addition of property and equipment, acquisitions, and the purchase of private equity investments. The major uses of cash for investing activities in 2011 was for acquisitions, additions to contract acquisition costs, equipment, licensed computer software from vendors and internally developed computer software.

Contract Acquisition Costs

TSYS makes cash payments for processing rights, third-party development costs and other direct salary-related costs in connection with converting new customers to the Company's processing systems. The Company's investments in contract acquisition costs were \$16.7 million for the six months ended June 30, 2012, compared to \$16.0 million for the six months ended June 30, 2011.

Purchase of Private Equity Investments

On May 31, 2011, the Company entered into a limited partnership agreement in connection with its agreement to invest in an Atlanta-based venture capital fund focused exclusively on investing in technology-enabled financial services companies. Pursuant to the limited partnership agreement, the Company has committed to invest up to \$20 million in the fund so long as its ownership interest in the fund does not exceed 50%. In 2011, the Company made investments in the fund of \$1.6 million. During the first six months of 2012, the Company made an additional investment of \$0.6 million.

The main use of cash from financing activities in 2012 has been the payment of dividends and principal payments on long-term debt borrowings and capital lease obligations. The major use of cash from financing activities in 2011 was for the acquisition of the remaining 49% interest in TMS, repurchases of common stock and the payment of dividends.

Table of Contents

Borrowings

Due to increases in transaction volumes, TSYS acquired additional mainframe software licenses to increase capacity. In June 2012, the Company entered into an \$8.6 million financing agreement with the vendor to purchase these additional software licenses.

Stock Repurchase Plan

For a detailed discussion regarding the Company's stock repurchase plan, see Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operations, which is included as Exhibit 13.1 to the Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC. At June 30, 2012, the Company had 5.3 million shares that could be repurchased under the plan. On July 24, 2012, the Company expanded its share repurchase from up to 15 million shares to up to 20 million shares. With the increase, TSYS has 10.3 million shares available to be repurchased. In addition, the expiration date of the plan was extended to April 30, 2014.

Dividends

Dividends on common stock of \$18.9 million were paid during the three months ended June 30, 2012, bringing the total for 2012 to \$37.8 million compared to \$27.1 million paid during the six months ended June 30, 2011.

On October 25, 2011, TSYS announced that its Board of Directors approved a 42.9% increase in the regular quarterly dividend payable on the Company's common stock from \$0.07 per share to \$0.10 per share.

Foreign Operations

TSYS operates internationally and is subject to adverse movements in foreign currency exchange rates. Since December 2000, TSYS has not entered into foreign exchange forward contracts to reduce its exposure to foreign currency rate changes. TSYS continues to analyze potential hedging instruments to safeguard it from significant foreign currency translation risks.

TSYS maintains operating cash accounts outside the United States. Refer to Note 3 in the Notes to Unaudited Consolidated Financial Statements for more information on cash and cash equivalents. TSYS has adopted the permanent reinvestment exception under ASC 740 with respect to future earnings of certain foreign subsidiaries. While some of the foreign cash is available to repay intercompany financing arrangements, remaining amounts are not presently available to fund domestic operations and obligations without paying a significant amount of taxes upon its repatriation. Demand on the Company's cash has increased as a result of its strategic initiatives. TSYS funds these initiatives through a balance of internally generated cash, external sources of capital, and, when advantageous, access to foreign cash in a tax efficient manner. Where local regulations limit an efficient intercompany transfer of amounts held outside of the U.S., TSYS will continue to utilize these funds for local liquidity needs. Under current law, balances available to be repatriated to the U.S. would be subject to U.S. federal income taxes, less applicable foreign tax credits. TSYS has provided for the U.S. federal tax liability on these amounts for financial statement purposes, except for foreign earnings that are considered permanently reinvested outside of the U.S. TSYS utilizes a variety of tax planning and financing strategies with the objective of having its worldwide cash available in the locations where it is needed.

Impact of Inflation

Although the impact of inflation on its operations cannot be precisely determined, the Company believes that by controlling its operating expenses, and by taking advantage of more efficient computer hardware and software, it can minimize the impact of inflation.

Working Capital

TSYS may seek additional external sources of capital in the future. The form of any such financing will vary depending upon prevailing market and other conditions and may include short-term or long-term borrowings from financial institutions or the issuance of additional equity and/or debt securities such as industrial revenue bonds. However, there can be no assurance that funds will be available on terms acceptable to TSYS. Management expects that TSYS will continue to be able to fund a significant portion of its capital expenditure needs through internally generated cash in the future, as evidenced by TSYS' current ratio of 2.0:1. At June 30, 2012, TSYS had working capital of \$381.7 million compared to \$269.6 million at December 31, 2011.

Legal Proceedings

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

The Company is subject to various legal proceedings and claims and is also subject to information requests, inquiries and investigations arising out of the ordinary conduct of its business. The Company establishes reserves for litigation and similar matters

when those matters present loss contingencies that TSYS determines to be both probable and reasonably estimable in accordance with ASC 450, Contingencies. In the opinion of management, based on current knowledge and in part upon the advice of legal counsel, all matters are believed to be adequately covered by insurance, or, if not covered, the possibility of losses from such matters are believed to be remote or such matters are of such kind or involve such amounts that would not have a material adverse effect on the financial position, results of operations or cash flows of the Company if disposed of unfavorably.

Forward-Looking Statements

Certain statements contained in this filing which are not statements of historical fact constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act (the Act). These forward-looking statements include, among others: (i) TSYS' expectation with respect to the timing of the conversion of Bank of America's consumer card portfolios; (ii) TSYS' expectation that it will be able to fund a significant portion of its capital expenditure needs through internally generated cash in the future; (iii) TSYS' earnings guidance for 2012 total revenues, revenues before reimbursable items, income from continuing operations and EPS from continuing operations; (iv) TSYS' belief with respect to lawsuits, claims and other complaints; (v) TSYS' expectation with respect to certain tax matters, and the assumptions underlying such statements. In addition, certain statements in future filings by TSYS with the Securities and Exchange Commission, in press releases, and in oral and written statements made by or with the approval of TSYS which are not statements of historical fact constitute forward-looking statements within the meaning of the Act. Examples of forward-looking statements include, but are not limited to: (i) projections of revenue, income or loss, earnings or loss per share, the payment or nonpayment of dividends, capital structure and other financial items; (ii) statements of plans and objectives of TSYS or its management or Board of Directors, including those relating to products or services; (iii) statements of future economic performance; and (iv) statements of assumptions underlying such statements. Words such as believes, anticipates, expects, intends, targeted, estimates, projects, plans, may, could, should, would, and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying these statements.

These statements are based upon the current beliefs and expectations of TSYS' management and are subject to significant risks and uncertainties. Actual results may differ materially from those contemplated by the forward-looking statements. A number of important factors could cause actual results to differ materially from those contemplated by our forward-looking statements. Many of these factors are beyond TSYS' ability to control or predict. These factors include, but are not limited to:

movements in LIBOR are greater than expected and draws on the revolving credit facility are greater than expected;

TSYS incurs expenses associated with the signing of a significant client;

internal growth rates for TSYS' existing clients are lower than anticipated whether as a result of unemployment rates, card delinquencies and charge off rates or otherwise;

TSYS does not convert and deconvert clients' portfolios as scheduled;

adverse developments with respect to foreign currency exchange rates;

adverse developments with respect to entering into contracts with new clients and retaining current clients;

continued consolidation and turmoil in the financial services and other industries during 2012, including the merger of TSYS clients with entities that are not TSYS processing clients, the sale of portfolios by TSYS clients to entities that are not TSYS processing clients and the nationalization or seizure by banking regulators of TSYS clients;

Edgar Filing: TOTAL SYSTEM SERVICES INC - Form 10-Q

the impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act on TSYS and our clients;

adverse developments with respect to the credit card industry in general, including a decline in the use of cards as a payment mechanism;

TSYS is unable to successfully manage any impact from slowing economic conditions or consumer spending;

the impact of potential and completed acquisitions, including the costs associated therewith and their being more difficult to integrate than anticipated;

the costs and effects of litigation, investigations or similar matters or adverse facts and developments relating thereto;

the impact of the application of and/or changes in accounting principles;

TSYS inability to timely, successfully and cost-effectively improve and implement processing systems to provide new products, increased functionality and increased efficiencies;

TSYS inability to anticipate and respond to technological changes, particularly with respect to e-commerce;

changes occur in laws, rules, regulations, credit card association rules or other industry standards affecting TSYS and our clients that may result in costly new compliance burdens on TSYS and our clients and lead to a decrease in the volume and/or number of transactions processed;

successfully managing the potential both for patent protection and patent liability in the context of rapidly developing legal framework for expansive patent protection;

the material breach of security of any of our systems;

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk.****Foreign Exchange Risk**

The Company is exposed to foreign exchange risk because it has assets, liabilities, revenues and expenses denominated in foreign currencies other than the U.S. dollar. These currencies are translated into U.S. dollars at current exchange rates, except for revenues, costs and expenses and net income, which are translated at the average exchange rate for each reporting period. Net exchange gains or losses resulting from the translation of assets and liabilities of foreign operations, net of tax, are accumulated in a separate section of shareholders' equity entitled accumulated other comprehensive income, net.

Currently, the Company does not use financial instruments to hedge exposure to exchange rate changes.

The following table presents the carrying value of the net assets of TSYS' foreign operations in U.S. dollars at June 30, 2012:

<i>(in millions)</i>	June 30, 2012
Europe	\$ 160.6
China	79.9
Japan	30.1
Mexico	6.3
Canada	1.4
Other	37.8

TSYS records foreign currency translation adjustments associated with other balance sheet accounts. The Company maintains several cash accounts denominated in foreign currencies, primarily in Euros and British Pounds Sterling. As TSYS translates the foreign-denominated cash balances into U.S. dollars, the translated cash balance is adjusted upward or downward depending upon the foreign currency exchange movements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation in the statements of income. As those cash accounts have increased, the upward or downward adjustments have increased. TSYS recorded a net translation loss of approximately \$1.1 million and \$1.6 million for the three and six months ended June 30, 2012, respectively, relating to the translation of cash and other balance sheet accounts. The balance of the Company's foreign-denominated cash accounts subject to risk of translation gains or losses at June 30, 2012 was approximately \$7.0 million, the majority of which was denominated in Euros and British Pounds Sterling.

The Company provides financing to its international operation in Europe through an intercompany loan that requires the operation to repay the financing in U.S. dollars. The functional currency of the operation is the respective local currency. As it translates the foreign currency denominated financial statements into U.S. dollars, the translated balance of the financing (liability) is adjusted upward or downward to match the U.S. dollar obligation (receivable) on its financial statements. The upward or downward adjustment is recorded as a gain or loss on foreign currency translation.

The net asset account balance subject to foreign currency exchange rates between the local currencies and the U.S. dollar at June 30, 2012 was \$13.3 million.

The following table presents the potential effect on income before income taxes of hypothetical shifts in the foreign currency exchange rate between the local currencies and the U.S. dollar of plus-or-minus 100 basis points, 500 basis points and 1,000 basis points based on the net asset account balance of \$13.3 million at June 30, 2012.

Item 3. Quantitative and Qualitative Disclosures About Market Risk (continued).

Interest Rate Risk

TSYS is also exposed to interest rate risk associated with the investing of available cash and the use of debt. TSYS invests available cash in conservative short-term instruments and is primarily subject to changes in the short-term interest rates.

The Company's Annual Report on Form 10-K for the year ended December 31, 2011, as filed with the SEC, contains a discussion of interest rate risk and the Company's debt obligations that are sensitive to changes in interest rates.

On December 21, 2007, the Company entered into a Credit Agreement with Bank of America N.A., as Administrative Agent, The Royal Bank of Scotland plc, as Syndication Agent, and other lenders. The Credit Agreement provides for a \$168 million unsecured five-year term loan to the Company and a \$252 million five-year unsecured revolving credit facility. The principal balance of loans outstanding under the credit facility bears interest at a rate of LIBOR plus an applicable margin of 0.60%. Interest is paid on the last date of each interest period; however, if the period exceeds three months, interest is paid every three months after the beginning of such interest period.

On October 31, 2008, the Company's International Services segment obtained a credit agreement from a third party to borrow up to approximately ¥2.0 billion, or \$21 million, in a Yen-denominated three year loan to finance activities in Japan. The rate is LIBOR plus 80 basis points. The Company initially made a drawdown of ¥1.5 billion, or approximately \$15.1 million. In January 2009, the Company made an additional draw down of ¥250 million, or approximately \$2.8 million. In April 2009, the Company made an additional draw down of ¥250 million, or approximately \$2.5 million. On December 30, 2011, the Company renewed its loan to extend the maturity date to November 5, 2014.

Item 4. Controls and Procedures.

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this quarterly report as required by Rule 13a-15 of the Securities Exchange Act of 1934, as amended ("Exchange Act"). This evaluation was carried out under the supervision and with the participation of our management, including our chief executive officer and chief financial officer. Based on this evaluation, the chief executive officer and chief financial officer concluded that as of June 30, 2012, TSYS' disclosure controls and procedures were designed and effective to ensure that the information required to be disclosed by TSYS in reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and were also designed and effective to ensure that the information required to be disclosed in the reports that TSYS files or submits under the Exchange Act is accumulated and communicated to management, as appropriate to allow timely decisions regarding required disclosure.

No change in TSYS' internal control over financial reporting occurred during the period covered by this report that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
