Forward-Looking Statements

This report may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which reflect our current views with respect to, among other things, our operations and financial performance. You can identify these forward-looking statements by the use of words such as outlook, believes, expects, potential, continues, may, will, should, approximately, predicts, intends, plans, estimates, anticipates or the negative version of these words or other comparable words. Such forward-looking statements are subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. We believe these factors include but are not limited to those described under the section entitled Risk Factors in our annual report on Form 10-K for the year ended December 31, 2012 and in this report, as such factors may be updated from time to time in our periodic filings with the United States Securities and Exchange Commission (SEC), which are accessible on the SEC's website at www.sec.gov. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report and in our other periodic filings. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

(Unaudited)

1. ORGANIZATION

References herein to Blackstone Mortgage Trust, Company, we, us or our refer to Blackstone Mortgage Trust, Inc. and its subsidiaries unless the context specifically requires otherwise.

We are a real estate finance company that primarily originates and purchases senior mortgage loans collateralized by properties in the United States and Europe. We are externally managed by BXMT Advisors L.L.C., which we refer to as our Manager, a subsidiary of The Blackstone Group L.P., or Blackstone, and are a real estate investment trust, or REIT, traded on the New York Stock Exchange, or NYSE, under the symbol BXMT. We are headquartered in New York City.

We conduct our operations as a REIT for U.S. federal income tax purposes. We generally will not be subject to U.S. federal income taxes on our taxable income to the extent that we annually distribute all of our net taxable income to stockholders and maintain our qualification as a REIT. We also operate our business in a manner that permits us to maintain our exemption from registration under the Investment Company Act of 1940, as amended, or the Investment Company Act. We are organized as a holding company and conduct our business primarily through our various subsidiaries. Our business is organized into two operating segments: the Loan Origination segment and the CT Legacy Portfolio segment.

On April 26, 2013, our board of directors approved the change of our name from Capital Trust, Inc. to Blackstone Mortgage Trust, Inc., which we effected on May 6, 2013 concurrently with a one-for-ten reverse stock split of our class A common stock. Except where the context indicates otherwise, all class A common stock numbers herein have been adjusted to give retroactive effect to the reverse stock split.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, for interim financial information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. The consolidated financial statements, including the notes, are unaudited and exclude some of the disclosures required in audited financial statements. Management believes it has made all necessary adjustments (consisting of only normal recurring items) so that the consolidated financial statements are presented fairly and that estimates made in preparing its consolidated financial statements are reasonable and prudent. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year. The accompanying unaudited consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements and the related management's discussion and analysis of financial condition and results of operations included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012 filed with the Securities and Exchange Commission.

Principles of Consolidation and Basis of Presentation

The accompanying financial statements include, on a consolidated basis, our accounts, the accounts of our wholly-owned subsidiaries, and variable interest entities, or VIEs, of which we are the primary beneficiary. All significant intercompany balances and transactions have been eliminated in consolidation. Certain of the assets and credit of our consolidated subsidiaries are not available to satisfy the debt or other obligations of us, our affiliates, or other entities.

VIEs are defined as entities in which equity investors (i) do not have the characteristics of a controlling financial interest, and/or (ii) do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The entity that consolidates a VIE is known as its primary beneficiary, and is generally the entity with (i) the power to direct the activities that most significantly impact the VIE's economic performance, and (ii) the right to receive benefits from the VIE or the obligation to absorb losses of the VIE that could be significant to the VIE.

We have separately presented, following our consolidated balance sheet, the assets of consolidated VIEs that can only be used to satisfy the obligations of those VIEs, and the liabilities of consolidated VIEs that are non-recourse to us. We have aggregated all of such assets and liabilities of consolidated VIEs in this presentation due to our determination that these entities are substantively similar and therefore a further disaggregated presentation would not be more meaningful.

Our subsidiary, CT Legacy Partners, LLC, or CT Legacy Partners, accounts for its operations in accordance with industry-specific GAAP accounting guidance for investment companies, pursuant to which it reports its investments at fair value. We have retained this specialized accounting in consolidation and, accordingly, report the loans and securities investments of CT Legacy Partners at fair value on our consolidated balance sheet.

Blackstone Mortgage Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

As more fully described in Note 3, we sold our investment management business to Blackstone in December 2012. As a result, the income and expense items related to our investment management business have been reclassified to income from discontinued operations on our consolidated statements of operations.

Certain reclassifications have been made in the presentation of the prior period consolidated financial statements to conform to the current presentation.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may ultimately differ from those estimates.

Revenue Recognition

Interest income from our loans receivable is recognized over the life of the investment using the effective interest method and is recorded on the accrual basis. Fees, premiums, discounts and direct costs associated with these investments are deferred until the loan is advanced and are then recognized over the term of the loan as an adjustment to yield. Income accrual is generally suspended for loans at the earlier of the date at which payments become 90 days past due or when, in the opinion of our Manager, recovery of income and principal becomes doubtful. Income is then recorded on the basis of cash received until accrual is resumed when the loan becomes contractually current and performance is demonstrated to be resumed.

Cash and Cash Equivalents

Cash and cash equivalents represents cash on hand, cash held in banks and liquid investments with original maturities of three months or less. We deposit our cash and cash equivalents with high credit quality institutions to minimize credit risk exposure. We may have bank balances in excess of federally insured amounts. We have not experienced, and do not expect, any losses on our demand deposits, commercial paper or money market investments.

Restricted Cash

We classify the cash balances held by CT Legacy Partners as restricted because, while these cash balances are available for use by CT Legacy Partners for its operations, they cannot be used by us until our allocable share is distributed from CT Legacy Partners, and cannot be commingled with any of our other unrestricted cash balances.

Loans Receivable and Provision for Loan Losses

We purchase and originate commercial real estate debt and related instruments generally to be held as long-term investments at amortized cost. We are required to periodically evaluate each of these loans for possible impairment. Impairment is indicated when it is deemed probable that we will not be able to collect all amounts due according to the contractual terms of the loan. If a loan is determined to be impaired, we write down the loan through a charge to the provision for loan losses. Impairment on these loans is measured by comparing the estimated fair value of the underlying collateral to the book value of the respective loan. These valuations require significant judgments, which include assumptions regarding capitalization rates, leasing, creditworthiness of major tenants, occupancy rates, availability of financing, exit plan, loan sponsorship, actions of other lenders and other factors deemed necessary by our Manager. Actual losses, if any, could ultimately differ from these estimates.

Our Manager performs a quarterly review of our portfolio of loans. In conjunction with this review, our Manager assesses the performance of each loan, and assigns a risk rating based on several factors including risk of loss, loan-to-value ratio, or LTV, collateral performance, structure, exit plan, and sponsorship.

Table of Contents

Blackstone Mortgage Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Loans are rated 1 through 8, from less risk to greater risk, which ratings are defined as follows:

- 1 - **Low Risk:** A loan that is expected to perform through maturity, with relatively lower LTV, higher in-place debt yield, and stable projected cash flow.
- 2 - **Average Risk:** A loan that is expected to perform through maturity, with medium LTV, average in-place debt yield, and stable projected cash flow.
- 3 - **Acceptable Risk:** A loan that is expected to perform through maturity, with relatively higher LTV, acceptable in-place debt yield, and some uncertainty (due to lease rollover or other factors) in projected cash flow.
- 4 - **Higher Risk:** A loan that is expected to perform through maturity, but has exhibited a material deterioration in cash flow and/or other credit factors. If negative trends continue, default could occur.
- 5 - **Low Probability of Default/Loss:** A loan with one or more identified weakness that we expect to have a 15% probability of default or principal loss.
- 6 - **Medium Probability of Default/Loss:** A loan with one or more identified weakness that we expect to have a 33% probability of default or principal loss.
- 7 - **High Probability of Default/Loss:** A loan with one or more identified weakness that we expect to have a 67% or higher probability of default or principal loss.
- 8 - **In Default:** A loan which is in contractual default and/or which has a very high likelihood of principal loss.

Loans Held-for-Sale and Related Allowance

In certain cases, we may classify loans as held-for-sale based upon the specific facts and circumstances of particular loans, including known or expected transactions. Loans held-for-sale are carried at the lower of their amortized cost basis or fair value less cost to sell. A reduction in the fair value of loans held-for-sale is recorded as a charge to our consolidated statement of operations as a valuation allowance on loans held-for-sale.

Equity Investments in Unconsolidated Subsidiaries

Our carried interest in CT Opportunity Partners I, LP, or CTOPI is accounted for using the equity method. CTOPI's assets and liabilities are not consolidated into our financial statements due to our determination that (i) it is not a VIE and (ii) the investors have sufficient rights to preclude consolidation by us. As such, we report our allocable percentage of the net assets of CTOPI on our consolidated balance sheet. We have deferred the recognition of income from CTOPI until cash is collected or appropriate contingencies have been eliminated and, therefore do not recognize any income from equity investments in unconsolidated subsidiaries.

Deferred Financing Costs

The deferred financing costs that are included in prepaid expenses and other assets on our consolidated balance sheets include issuance costs related to our debt obligations, and are amortized using the effective interest method, or a method that approximates the effective interest method, over the life of the related obligations.

Repurchase Obligations

We record investments financed with repurchase obligations as separate assets and the related borrowings under any repurchase agreements recorded as separate liabilities on our consolidated balance sheets. Interest income earned on the investments and interest expense incurred on the repurchase obligations are reported separately on our consolidated statements of operations.

Fair Value of Financial Instruments

The Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or the Codification, defines fair value, establishes a framework for measuring fair value, and requires certain disclosures about fair value measurements under GAAP. Specifically, this guidance defines fair value based on exit price, or the price that would be received upon the sale of an asset or the transfer of a liability in an orderly transaction between market participants at the measurement date.

The Fair Value Measurement and Disclosures Topic of the Codification also establishes a fair value hierarchy that prioritizes and ranks the level of market price observability used in measuring financial instruments. Market price observability is affected by a number of factors, including the type of financial instrument, the characteristics specific to the financial instrument, and the state of the marketplace, including the existence and transparency of transactions between market participants. Financial instruments with readily available quoted prices in active markets generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Table of Contents

Blackstone Mortgage Trust, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Financial instruments measured and reported at fair value are classified and disclosed based on the observability of inputs used in the determination, as follows:

Level 1 Generally includes only unadjusted quoted prices that are available in active markets for identical financial instruments as of the reporting date.

Level 2 Pricing inputs include quoted prices in active markets for similar instruments, quoted prices in less active or inactive markets for identical or similar instruments where multiple price quotes can be obtained, and other observable inputs such as interest rates, yield curves, credit risks, and default rates.

Level 3 Pricing inputs are unobservable for the financial instruments and include situations where there is little, if any, market activity for the financial instrument. These inputs require significant judgment or estimation by management of third parties when determining fair value and generally represent anything which does not meet the criteria of Levels 1 and 2.

Each type of asset recorded at fair value using Level 3 inputs are determined by an internal committee comprised of members of senior management of our Manager, including our chief executive officer, chief financial officer, and other senior officers.

Certain of our assets and liabilities are measured at fair value either (i) on a recurring basis, as of each quarter-end, or (ii) on a nonrecurring basis, as a result of impairment or other events. Our assets and liabilities that are measured at fair value are discussed further in Note 17. Generally, loans held-for-sale and certain of our loans receivable and securities are measured at fair value on a recurring basis, while impaired loans are measured at fair value on a nonrecurring basis.

The following valuation techniques were used to estimate the fair value of each type of asset and liability which was recorded at fair value:

Loans receivable, at fair value Loans receivable are generally valued by discounting expected cash flows using internal cash flow models and estimated market rates. Expected cash flows of each loan are based on our Manager's assumptions regarding the collection of principal and interest from the respective borrowers.

Other assets, at fair value Our other assets balance include certain commercial mortgage-backed securities, collateral debt obligations, and equity investments and are generally valued by a combination of (i) obtaining assessments from third-party dealers and (ii) in cases where such assessments are unavailable or deemed not to be indicative of fair value, discounting expected cash flows using internal cash flow models and estimated market discount rates. In the case of internal models, expected cash flows of each security are based on assumptions regarding the collection of

principal and interest on the underlying loans and securities.

Impaired loans Loans identified as impaired are collateral dependent loans. Impairment on these loans is measured by comparing our Manager's estimation of fair value of the underlying collateral less costs to sell, to the book value of the respective loan. These valuations require significant judgments, which include assumptions regarding capitalization rates, leasing, creditworthiness of major tenants, occupancy rates, availability of financing, exit plan, loan sponsorship, actions of other lenders and other factors deemed necessary by our Manager.

Investment in CT Legacy Asset We arrived at the fair value of our investment in CT Legacy Asset by discounting the net cash flows expected to be distributed to its equity holders after the repayment of the repurchase facility. To determine the net cash flows of CT Legacy Asset, our Manager estimated the timing and recovery amount for each of its assets, and then applied the proceeds to first satisfy the related repurchase facility.

We are also required by GAAP to disclose fair value information about financial instruments, which are otherwise not reported in the statement of financial position at fair value, to the extent it is practicable to estimate a fair value for those instruments. In cases where quoted market prices are not available, fair values are estimated using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the estimated market discount rate and the estimated future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in an immediate settlement of the instrument. Rather, these fair values reflect the amounts that our Manager believes are realizable in an orderly transaction among willing parties. These disclosure requirements exclude certain financial instruments and all non-financial instruments.

(Unaudited)

The following methods and assumptions were used to estimate the fair value of each class of financial instruments, excluding those described above that are carried at fair value, for which it is practicable to estimate that value:

Cash and cash equivalents The carrying amount of cash on deposit and in money market funds approximates fair value.

Restricted cash The carrying amount of restricted cash approximates fair value.

Loans receivable, net Other than impaired loans, these assets are recorded at their amortized cost and not at fair value. The fair values for these instruments are estimated by our Manager taking into consideration factors including capitalization rates, leasing, occupancy rates, availability and cost of financing, exit plan, sponsorship, actions of other lenders and indications of market value from other market participants.

Secured notes These notes are recorded at their aggregate principal balance and not at fair value. The fair value was estimated based on the rate at which a similar instrument would be priced today.

Repurchase obligations These facilities are recorded at their aggregate principal balance and not at fair value. The fair value was estimated based on the rate at which a similar credit facility would be priced today.

Securitized debt obligations These obligations are recorded at the face value of outstanding obligations to third-parties and not at fair value. The fair values for these instruments have been estimated by obtaining assessments from third party dealers.

Income Taxes

Our financial results generally do not reflect provisions for current or deferred income taxes on our REIT taxable income. We believe that we operate in a manner that will continue to allow us to be taxed as a REIT and, as a result, we generally do not expect to pay substantial corporate level taxes other than those payable by our taxable REIT subsidiaries. Many of these requirements, however, are highly technical and complex. If we were to fail to meet these requirements, we may be subject to federal, state and local income tax on current and past income, and penalties. Refer to Note 15 for additional information.

Accounting for Stock-Based Compensation

Stock-based compensation expense is recognized in net income using a fair value measurement method, which we determine with the assistance of a third-party appraisal firm. Compensation expense for the time vesting of stock-based compensation grants is recognized on the accelerated attribution method and compensation expense for performance vesting of stock-based compensation grants is recognized on a straight line basis.

The fair value of the performance vesting restricted class A common stock is measured on the grant date using a Monte Carlo simulation to estimate the probability of the market vesting conditions being satisfied. The Monte Carlo simulation is run approximately 100,000 times. For each simulation, the payoff is calculated at the settlement date, and is then discounted to the grant date at a risk-free interest rate. The average of the values over all simulations is the expected value of the restricted class A common stock on the grant date. The valuation is performed in a risk-neutral framework, so no assumption is made with respect to an equity risk premium. Significant assumptions used in the valuation included an expected term and stock price volatility, an estimated risk-free interest rate and an estimated dividend growth rate.

Earnings per Share of Common Stock

Basic earnings per share, or Basic EPS, is computed based on the net earnings allocable to common stock and stock units, divided by the weighted-average number of shares of common stock and stock units outstanding during the period. Diluted earnings per share, or Diluted EPS, is determined using the treasury stock method, and is based on the net earnings allocable to common stock and stock units, divided by the weighted-average number of shares of common stock, stock units and potentially dilutive common stock options and warrants. On April 26, 2013, our board of directors approved a one-for-ten reverse stock split of our class A common stock which we effected on May 6, 2013. Our earnings per share disclosures have been retroactively adjusted to reflect the reverse stock split.

We have separately determined Basic EPS and Diluted EPS for income (loss) from continuing operations and for net income (loss) allocable to common stockholders. Refer to Note 12 for additional discussion of earnings per share.

Recent Accounting Pronouncements

In January 2013, the FASB issued Accounting Standards Update 2013-01, Balance Sheet (Topic 210): Clarifying the Scope of Disclosures About Offsetting Assets and Liabilities, or ASU 2013-01. ASU 2013-01 was developed to clarify which instruments and transactions are subject to the offsetting disclosure requirements set forth by

Accounting Standards Update 2011-11 Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities. ASU 2013-01 was effective for the first interim or annual period beginning on or after January 1, 2013, and was applied retrospectively for all comparative periods presented. The adoption of ASU 2013-01 did not have a material impact on our consolidated financial statements.

In February 2013, the FASB issued Accounting Standards Update 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income, or ASU 2013-02. ASU 2013-02 implements the previously deferred requirement to disclose reclassification adjustments into and out of accumulated other comprehensive income in either a note or on the face of the financial statements. ASU 2013-02 was effective for the first interim or annual period beginning after December 15, 2012, and was applied prospectively. As we no longer have a balance of accumulated other comprehensive income, the adoption of ASU 2013-02 did not have a material impact on our consolidated financial statements.

In June 2013, the FASB issued Accounting Standards Update 2013-08, Financial Services-Investment Companies (Topic 946): Amendments to the Scope, Measurement, and Disclosure Requirements, or ASU 2013-08. ASU 2013-08 amends the criteria for qualification as an investment company under Topic 946 of the FASB Accounting Standards Codification, or Topic 946, and requires additional disclosure by investment companies. ASU 2013-08 is effective for the first interim or annual period beginning after December 15, 2013, and is to be applied prospectively. We currently consolidate CT Legacy Partners, which accounts for its operations as an investment company under Topic 946. We do not expect the adoption of ASU 2013-08 to impact CT Legacy Partners' status as an investment company. Further, because ASU 2013-08 specifically excludes REITs from its scope, it will not otherwise impact our consolidated financial statements.

3. CORPORATE TRANSACTIONS

Blackstone Loan Warehouse Joint Venture

On May 13, 2013, we entered into a joint venture, 42-16 Partners, LLC, or 42-16 Partners, with an affiliate of our Manager to originate and warehouse loans prior to the completion of our class A common stock offering on May 29, 2013. 42-16 Partners was controlled by us and owned 16.7% by us and 83.3% by an affiliate of our Manager, and originated one senior mortgage loan on May 21, 2013. On May 30, 2013, we ended this relationship with the affiliate of our Manager and purchased 100% of the equity interests in 42-16 Partners held by the affiliate of our Manager using proceeds from the sale of our class A common stock and, as a result, 42-16 Partners became a 100% owned and consolidated subsidiary.

CT Legacy Partners Merger

To maintain its tax efficiency, on March 22, 2013, CT Legacy REIT Mezz Borrower, Inc., or CT Legacy REIT, was merged with and into CT Legacy Partners, LLC, or CT Legacy Partners, whereby CT Legacy Partners was the surviving entity. We refer to this transaction as the Merger. As a result of the Merger, all outstanding shares of class

A-1 common stock, class A-2 common stock, class B common stock, and class A preferred stock of CT Legacy REIT were converted into limited liability company shares, or LLC Shares, in CT Legacy Partners. These LLC Shares have economic and voting rights equivalent to the corresponding shares of stock of CT Legacy REIT. In addition, all outstanding shares of class B preferred stock of CT Legacy REIT were redeemed on March 21, 2013 for an aggregate of \$147,000 in cash, which amount was comprised of the shares' par value, liquidation preference, and accrued dividends thereon.

As a result of the Merger, we have consolidated CT Legacy Partners as of March 20, 2013 and, therefore, the remaining legacy assets and liabilities from our comprehensive debt restructuring on March 31, 2011, which we refer to as our March 2011 Restructuring. Refer to Note 8 and Note 12 for further discussion of CT Legacy Partners.

Investment Management Business Sale

On December 19, 2012, pursuant to a purchase and sale agreement, dated as of September 27, 2012, or Purchase Agreement, by and between us and an affiliate of Blackstone, we completed the disposition of our investment management and special servicing business for a purchase price of \$21.4 million. The sale included our equity interests in CT Investment Management Co., LLC, or CTIMCO, our related private investment fund co-investments, and 100% of the outstanding class A preferred stock of CT Legacy REIT. We refer to the entire transaction as our Investment Management Business Sale. Pursuant to the terms of the Purchase Agreement, on December 19, 2012, we entered into a management agreement with our Manager, which was amended and restated as of March 26, 2013, pursuant to which we are now managed by our Manager pursuant to the terms and conditions of the management

agreement. In addition, Blackstone received the right to designate two members of our board of directors, and exercised that right by designating an employee of Blackstone and one of its senior advisors to replace two former members of our board of directors who resigned effective December 19, 2012. As a result of the Investment Management Business Sale, the income and expense items related to our investment management business have been reclassified to income from discontinued operations on our consolidated statements of operations. Refer to Note 14 for a further discussion of discontinued operations.

On December 19, 2012, we also closed our sale to Blackstone of 500,000 shares of our class A common stock for a purchase price of \$10.0 million.

In connection with the consummation of the Investment Management Business Sale and the closing of our sale of 500,000 shares of class A common stock to Blackstone, we paid a \$20.00 per share special cash dividend on December 20, 2012 to holders of record of our class A common stock at the close of business on November 12, 2012.

CT CDO Deconsolidation

On December 19, 2012, as a result of the Investment Management Business Sale, we are no longer the collateral manager for certain collateralized debt obligations, or CT CDOs, nor are we the special servicer on their collateral assets. Due to the externalization of these management functions, and our lack of material economic interest in the residual equity we own in CT CDOs II and IV, we ceased to be the primary beneficiary of these entities and, therefore, discontinued the consolidation of CT CDOs II and IV, which we refer to as the CT CDO Deconsolidation. We recognized a gain of \$53.9 million on the deconsolidation of CT CDOs II and IV, which was due primarily to the reversal of charges to stockholders' equity resulting from losses previously recorded in excess of our economic interests in these non-recourse securitization vehicles.

4. CASH AND CASH EQUIVALENTS, INCLUDING RESTRICTED CASH

As discussed in Note 2, we deposit our cash and cash equivalents, including restricted cash, with high credit quality institutions to minimize credit risk exposure. The following table provides details of our cash and cash equivalents, including restricted cash balances (\$ in thousands):

Asset Category	Depository	Credit Rating⁽¹⁾	September 30, 2012	December 31, 2012
Cash and cash equivalents	Bank of America	A-1	\$ 10,283	\$ 15,423

			\$ 86,679	\$ 29,669

(1) Represents the short-term credit rating for the Bank of America, N.A. legal entity as issued by Standard & Poor's as of August 22, 2013.

5. LOANS RECEIVABLE

As of September 30, 2013, our consolidated balance sheet included \$1.3 billion of loans receivable related to our Loan Originations segment and \$77.0 million of loans receivable owned by CT CDO I, a consolidated securitization vehicle included in our CT Legacy Portfolio segment. Refer to Note 19 for further discussion of our operating segments.

(1) The difference between principal balance and net book value is due to deferred origination fees on loans in our loan origination segment, and provisions for loan losses in our CT Legacy Portfolio Segment.

- (2) All loans are floating rate loans indexed to LIBOR as of September 30, 2013 and December 31, 2012. LIBOR was 0.18% and 0.21% as of September 30, 2013 and December 31, 2012, respectively; however, certain of our loans receivable earn interest based on a minimum LIBOR floor ranging from 0.20% to 1.00%. Amounts exclude all non-performing loans.
- (3) Maximum maturity date assumes all extension options are exercised.

Loan risk ratings

Quarterly, our Manager evaluates our loan portfolio as described in Note 2. In conjunction with our quarterly loan portfolio review, our Manager assesses the performance of each loan, and assigns a risk rating based on several factors including risk of loss, current LTV, collateral performance, structure, exit plan, and sponsorship. Loans are rated 1 (less risk) through 8 (greater risk), which ratings are defined in Note 2.

The following table allocates the principal balance and net book value of our loans receivable based on our internal risk ratings (\$ in thousands):

Risk Rating	September 30, 2013			December 31, 2012		
	Number of Loans	Principal Balance	Net Book Value	Number of Loans	Principal Balance	Net Book Value
1 - 3	19	\$ 1,341,988	\$ 1,335,891	2	\$ 47,000	\$ 47,000

	22	\$ 1,387,067	\$ 1,362,891	7	\$ 164,180	\$ 141,500

In making this risk assessment, one of the primary factors we consider is how senior or junior each loan is relative to other debt obligations of the borrower.

Loan impairments

We do not have any loan impairments in our Loan Origination segment. As of September 30, 2013, CT CDO I, which is in our CT Legacy Portfolio segment, had one impaired subordinate interest in a mortgage loan with a gross book value of \$7.5 million that is current in its interest payments and one impaired subordinate interest in a mortgage loan with a gross book value of \$10.6 million that is delinquent on its contractual payments. We have taken a 100% loan loss reserve on each of these loans.

As of December 31, 2012, consolidated securitization vehicles in our CT Legacy Portfolio segment had one impaired subordinate interest in a mortgage loan with a gross book value of \$7.5 million that was current in its interest

payments and two impaired subordinate interest in a mortgage loans with a combined gross book value of \$17.2 million that was delinquent on their contractual payments. We had an aggregate 92% loan loss reserve on these loans resulting in a net book value of \$2.0 million.

Generally, we have recorded loan loss reserves for loans which are in maturity default, or otherwise have past-due principal payments. As of September 30, 2013, CT CDO I, which is in our CT Legacy Portfolio segment, had one loan with a net book value of \$27.0 million which was in maturity default but had no reserve recorded. We expect to collect all principal and interest due under this loan. We do not have any loans in maturity default or with past-due principal payments in our Loan Origination segment.

There was no income recorded on impaired loans during the nine months ended September 30, 2013. We recorded \$404,000 of income on impaired subordinate interests in mortgage loans owned by CT CDO I that had an average net book value of \$5.1 million during the nine months ended September 30, 2012. In addition, we recorded \$378,000 of income on loans owned by CDOs no longer consolidated that had an average net book value of \$9.4 million during the nine months ended September 30, 2012. Substantially all income recorded on impaired loans during the period was received in cash.

Nonaccrual loans

We do not have any nonaccrual loans in our Loan Origination segment. CT CDO I, which is in our CT Legacy Portfolio segment, had two subordinate interests in mortgages on nonaccrual status with an aggregate principal balance of \$18.1 million and an aggregate net book value of zero as of September 30, 2013. Consolidated securitization vehicles in our CT Legacy Portfolio segment had three subordinate interests in mortgages on nonaccrual status with an aggregate principal balance of \$24.7 million and an aggregate net book value of \$2.0 million as of December 31, 2012. In accordance with our revenue recognition policies discussed in Note 2, we do not accrue interest on loans which are 90 days past due or, in the opinion of our Manager, are otherwise uncollectable. Accordingly, we do not have any material interest receivable accrued on nonperforming loans as of September 30, 2013 or December 31, 2012.

During the first quarter of 2013, we reclassified a \$6.6 million subordinate mortgage loan and its related \$4.6 million provision for loan losses to loans held-for-sale. We subsequently sold this loan and recorded a \$1.2 million valuation adjustment to reflect the position at its fair value based on the proceeds expected to be received from the sale.

7. LOANS RECEIVABLE, AT FAIR VALUE

We record CT Legacy Partners loans receivable investments at fair value, which are determined using internal financial model-based estimations. The CT Legacy Partners loans receivable portfolio included nine loans with an aggregate principal balance of \$176.0 million, which were reported at their aggregate fair value of \$66.1 million as of September 30, 2013. As of December 31, 2012, there were no loans receivables at fair value because we accounted for CT Legacy Partners as a non-consolidated subsidiary. Refer to Note 3 and Note 8 for additional discussion of CT Legacy Partners. Refer to Note 17 for additional disclosure regarding fair value and Note 19 for an allocation of our loans receivable between our operating segments.

8. INVESTMENT IN CT LEGACY ASSET, AT FAIR VALUE

As a result of the merger effective on March 22, 2013, we began consolidating CT Legacy Partners and its subsidiary, CT Legacy Asset, LLC, or CT Legacy Asset. Previously, we accounted for CT Legacy Asset on a non-consolidated basis, and as of December 31, 2012, our consolidated balance sheet included a net investment in CT Legacy Asset of \$132.0 million. We had elected the fair value option of accounting for CT Legacy REIT s

Table of Contents**Blackstone Mortgage Trust, Inc. and Subsidiaries****Notes to Consolidated Financial Statements (continued)****(Unaudited)**

investment in CT Legacy Asset due to our determination that the fair value of the investment in CT Legacy Asset, as a net liquidating portfolio of assets, was more meaningful and indicative of our interests in CT Legacy Asset than equity method accounting. Following its consolidation, the loans receivable and repurchase obligations of CT Legacy Partners, as well as its other assets and liabilities, are included in our consolidated balance sheet. Refer to Note 3 for additional discussion of the consolidation of CT Legacy Partners and Note 7 and Note 10 for further discussion of CT Legacy Partners' loan receivables and repurchase obligation, respectively.

CT Legacy Partners

CT Legacy Partners holds a portion of our legacy portfolio, which we had previously transferred to CT Legacy REIT (the predecessor of CT Legacy Partners) in connection with our March 2011 Restructuring. CT Legacy Partners is beneficially owned 52% by us and 48% by our former lenders. In addition, CT Legacy Partners has issued class B common shares, a subordinate class of equity which entitles its holders to receive approximately 25% of the dividends that would otherwise be payable to us on our equity interest in CT Legacy Partners, after aggregate cash distributions of \$50.0 million have been paid to all other classes of common equity. Further, CT Legacy Partners has issued class A preferred shares which entitle its holder to cumulative preferred distributions in an amount generally equal to the greater of (i) 2.5% of certain of CT Legacy Partners' assets, and (ii) \$1.0 million per annum.

Our equity interest in CT Legacy Partners is comprised of 4,393,750 class A-1 common shares, 775,000 class A-2 common shares, and 118,651 class B common shares. The outstanding common shares of CT Legacy Partners are comprised of 4.4 million class A-1 common shares, 5.6 million class A-2 common shares, and 1.5 million class B common shares. The equity interests of other members of CT Legacy Partners are reflected as non-controlling interests on our consolidated balance sheet. As of September 30, 2013, CT Legacy Partners had not made any distribution payments to its common equity holders; however on October 9, 2013 CT Legacy Partners made a \$75.0 million distribution to its common equity holders. Refer to Note 20 for additional discussion of this distribution.

9. EQUITY INVESTMENTS IN UNCONSOLIDATED SUBSIDIARIES

As of September 30, 2013, our equity investment in unconsolidated subsidiaries consisted solely of our carried interest in CTOPI, a fund sponsored and managed by CTIMCO. Historically, this balance has also included our co-investments in investment management vehicles that were sponsored and managed by CTIMCO. As described in Note 3, we sold two such co-investments to an affiliate of Blackstone in December 2012 in conjunction with our Investment Management Business Sale; however, we retained 100% of our carried interest in CTOPI.

Activity relating to our equity investments in unconsolidated subsidiaries was (\$ in thousands):

CTOPI
Carried Interest ⁽¹⁾

Total as of December 31, 2012	\$	13,306
Incentive income allocation ⁽²⁾		12,326
Total as of September 30, 2013	\$	25,632

- (1) The allocation of carried interest from CTOPI is net of a \$1.4 million advance distribution of incentive compensation to satisfy our 2012 income tax obligation related to the allocation of taxable income in respect of our carried interest in CTOPI.
- (2) We have deferred the recognition of incentive income allocated to us from CTOPI in respect of our carried interest in CTOPI, and recorded an offsetting liability as a component of accounts payable, accrued expenses, and other liabilities on our consolidated balance sheet.

Our carried interest in CTOPI entitles us to earn incentive compensation in an amount equal to 17.7% of the fund's profits, after a 9% preferred return and 100% return of capital to the CTOPI partners. As of September 30, 2013, we had been allocated \$27.0 million of incentive compensation from CTOPI based on a hypothetical liquidation of the fund at its net asset value.

Accordingly, we have recognized this allocation as an equity investment in CTOPI on our consolidated balance sheet; however, we have deferred the recognition of income until cash is collected or appropriate contingencies have been eliminated.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The CTOPI partnership agreement provides for advance distributions in respect of our incentive compensation to allow us to pay any income taxes owed on phantom taxable income allocated to us from the partnership. We refer to these distributions as CTOPI Tax Advances. During 2012, we received one such CTOPI Tax Advance of \$1.4 million, which reduced our equity investment in CTOPI. In the event the performance of CTOPI does not ultimately result in a sufficient allocation of incentive compensation to us, we would be required to return these CTOPI Tax Advances to the fund. As of September 30, 2013, our maximum exposure to loss from CTOPI was \$1.4 million, the amount of CTOPI Tax Advances we have received from CTOPI.

CTOPI Incentive Management Fee Grants

In January 2011, we created a management compensation pool for employees equal to 45% of the CTOPI incentive management fee received by us. As of September 30, 2013, we had granted 96% of the pool to our former employees, and the remainder remained unallocated. If any awards remain unallocated at the time incentive management fees are received by us, any amounts otherwise payable to the unallocated awards will be distributed prorata to the plan participants then employed by an affiliate of our Manager.

Approximately 96% of these grants have the following vesting schedule, which is contingent on continued employment with an affiliate of our Manager: (i) one-third on the date of grant; (ii) one-third on September 13, 2012; and (iii) the remainder vests upon our receipt of incentive management fees from CTOPI. The remaining 4% of these grants vest solely upon our receipt of incentive management fees from CTOPI or the disposition of certain investments owned by CTOPI.

10. DEBT OBLIGATIONS

Secured Notes

In conjunction with our March 2011 Restructuring, certain wholly-owned subsidiaries of ours issued secured notes to our former creditors, which secured notes are non-recourse to us. The secured notes had an aggregate initial face value of \$7.8 million and are secured by 93.5% of our equity interests in the class A-1 and class A-2 common shares of CT Legacy Partners, which represents 48.3% of the total outstanding class A-1 and class A-2 common shares of CT Legacy Partners. The secured notes mature on March 31, 2016 and bear interest at a rate of 8.2% per annum, which interest may be deferred until maturity. All distributions we receive from our equity interests in the common shares of CT Legacy Partners which serve as collateral under the secured notes must be used to pay, or prepay, interest and principal due thereunder, and only after the notes' full satisfaction will we receive any cash flow from the common equity interests in CT Legacy Partners that serve as collateral for the notes. Any prepayment, or partial prepayment, of the secured notes will incur a prepayment premium resulting in a total payment of principal and interest under the secured notes of \$11.1 million. We had secured notes outstanding with an accreted book value of \$9.0 million and \$8.5 million as of September 30, 2013 and December 31, 2012, respectively.

Repurchase Facilities

During the third quarter of 2013, we upsized two existing revolving repurchase facilities and closed two new asset-specific repurchase agreements, providing an additional \$591.8 million of credit. As of September 30, 2013, we had aggregate borrowings of \$643.0 million outstanding under repurchase facilities, with a weighted-average cash coupon of LIBOR plus 2.26% per annum and a weighted-average all-in cost of credit, including associated fees and expenses, of LIBOR plus 2.49% per annum. As of September 30, 2013, these facilities had a weighted-average initial maturity, excluding extension options and term-out provisions, of 2.4 years.

- (1) The difference between principal balance and net book value of collateral assets is due to deferred origination fees.
- (2) Potential borrowings represent the total amount we could draw under each facility based on collateral already approved and pledged. When undrawn, these amounts are immediately available to us at our sole discretion under the terms of each revolving credit facility.
- (3) JP Morgan has a maximum facility size of \$250.0 million plus \$112.0 million related solely to a specific asset with a repurchase date of June 27, 2014.
- (4) Represents an aggregate of three asset-specific repurchase agreements with Wells Fargo. The \$31.0 million of potential borrowings under these agreements are contingent on our funding additional draws by the borrower under a specific collateral asset.

On July 30, 2013, we entered into a \$59.8 million, asset-specific, repurchase agreement with Wells Fargo. Advances under the repurchase agreement accrue interest at a per annum pricing rate equal to LIBOR plus a margin of 2.25%. The initial maturity date of the facility is August 8, 2015, which may be extended pursuant to three one-year extension options, each of which may be exercised by us. We do not guarantee the obligations under this repurchase agreement.

On July 8, 2013, we entered into a \$32.0 million, asset-specific, repurchase agreement with Wells Fargo. Advances under the repurchase agreement accrue interest at a per annum pricing rate equal to LIBOR plus a margin of 3.50%.

The initial maturity date of the facility is February 9, 2014, which may be extended pursuant to a one-year extension option, which may be exercised by us. We do not guarantee the obligations under this repurchase agreement.

On June 28, 2013, we entered into a \$250.0 million master repurchase agreement with JP Morgan. Advances under the repurchase agreement accrue interest at a per annum pricing rate equal to LIBOR plus a margin of between 2.00% and 3.25% depending on the attributes of the collateral loans. The repurchase agreement specifies a one-year availability period, during which new advances can be made and which availability period is renewable at the discretion of JP Morgan. Maturity dates for individual advances are tied to their respective collateral loan maturity dates subject to annual renewal at our discretion. In the event that the availability period is not renewed, it is followed by a two year stabilization period and then a term out period, during which all collateral interest and principal proceeds would be required to repay existing advances, subject to certain provisions for REIT income distribution requirements. Obligations under this repurchase agreement are not recourse to us, except that we guarantee 25% of the advances related to senior mortgage collateral and 100% of the advances related to mezzanine and junior mortgage collateral. On September 30, 2013, we entered into an agreement with JP Morgan to advance \$112.0 million under the facility related to a specific asset and to increase the maximum facility size by the amount of that advance, which matures in June 2014.

On June 12, 2013, we entered into a \$250.0 million master repurchase agreement with Citibank. Advances under the repurchase agreement accrue interest at a per annum pricing rate equal to LIBOR plus a margin of between 2.00% and 2.25% depending on the attributes of the collateral loans. The initial facility expiration date is June 12, 2016, which may be extended annually by us. If upon the initial facility expiration date, Citibank does not extend the facility availability period, in its sole discretion, then no new advances may be drawn and all collateral interest and principal proceeds would be required to repay existing advances, subject to certain provisions for REIT income distribution requirements. In either case, individual advances mature upon the maturity date of the respective collateral maturity dates. We guarantee 25% of the advances under this facility. Otherwise, obligations under this repurchase agreement are not recourse to us. On July 26, 2013, we amended our master repurchase agreement with Citibank to provide for a second \$250.0 million tranche of potential advances. The second tranche is subject to a one year availability period, during which new financing transactions can be initiated. All other terms, including maturity dates, for the second tranche advances are the same as the original \$250.0 million tranche.

On June 7, 2013, we entered into a \$250.0 million, asset specific, repurchase agreement with Wells Fargo. Advances under the repurchase agreement accrue interest at a per annum pricing rate equal to LIBOR plus a margin of 2.50%. The initial maturity date of the facility is June 7, 2016, which may be extended pursuant to (i) two one-year extension options, each of which may be exercised by us, and (ii) an additional one-year extension option, contingent upon notice regarding the failure of the collateral mortgage loan to be repaid at its final maturity. We do not guarantee the obligations under this repurchase agreement.

On May 21, 2013, we entered into a \$250.0 million master repurchase agreement with Bank of America. Advances under the repurchase agreement accrue interest at a per annum pricing rate equal to LIBOR plus a margin of between 1.75% and 3.25% depending on the attributes of the collateral loans. The initial maturity date of the facility is May 21, 2016, subject to two one-year extension options, each of which may be exercised by us. Obligations under this repurchase agreement are not recourse to us, except that we guarantee 50% of the advances related to senior collateral and 100% of the advances related to mezzanine and junior mortgage collateral. On September 23, 2013, we amended our master repurchase agreement with Bank of America to provide for an additional \$250.0 million of potential advances. All of the terms of the additional potential advances, including maturity dates, are the same as the original \$250.0 million.

Each of the guarantees related to our master repurchase agreements contain the following uniform financial covenants: (i) our ratio of earnings before interest, taxes, depreciation, and amortization, or EBITDA, to fixed charges shall be not less than 1.40 to 1.0; (ii) our tangible net worth, as defined in the agreements, shall not be less than \$525.0 million plus 75% of the net cash proceeds of future equity issuances; (iii) cash liquidity shall not be less than the greater of (x) \$10.0 million or (y) 5% of our recourse indebtedness; and (iv) our indebtedness shall not exceed 80% of our total assets. As of September 30, 2013, we were in compliance with all applicable covenants.

The weighted average outstanding repurchase obligation balance for the three months ended September 30, 2013 was \$428.7 million.

Repurchase Obligations CT Legacy Partners

As of March 31, 2013, CT Legacy Partners was party to a repurchase facility with JP Morgan with an outstanding balance of \$20.2 million. On June 5, 2013, CT Legacy Partners repaid the outstanding balance and terminated the repurchase facility. CT Legacy Partners has no outstanding debt obligations as of September 30, 2013.

Securitized Debt Obligations

The balances of each of our consolidated securitization vehicles outstanding securitized debt obligations, their respective coupons and all-in effective costs, including the amortization of fees and expenses, were as follows (\$ in thousands):

Non-Recourse Securitized Debt Obligations	September 30, 2013		December 31, 2012	Coupon ⁽¹⁾	September 30, 2013	Maturity Date ⁽²⁾

Total/Weighted-Average	\$ 74,203	\$ 74,203	\$ 139,184	L+1.60%	L+1.60%	July 2039

(1) Represents a weighted-average for the facility. All non-recourse securitization obligations are floating rate obligations indexed to LIBOR as of September 30, 2013. LIBOR was 0.18% as of September 30, 2013.

(2) Maturity date represent the contractual maturity of the securitization vehicle. Repayment of securitized debt is a function of collateral cash flows which are disbursed in accordance with the contractual provisions of each vehicle, and is generally expected to occur prior to the maturity date above.

As of September 30, 2013, loans receivable with an aggregate book value of \$77.0 million served as collateral for the non-recourse debt and equity securities issued by our consolidated securitizations vehicles. As of December 31, 2012, loans receivable with an aggregate book value of \$141.5 million served as collateral for the securities issued by these same vehicles.

Table of Contents**Blackstone Mortgage Trust, Inc. and Subsidiaries****Notes to Consolidated Financial Statements (continued)****(Unaudited)**

Our consolidated securitization vehicle, CT CDO I, is subject to interest coverage and overcollateralization tests which, when breached, provide for hyper-amortization of the senior notes by a redirection of cash flow that would otherwise have been paid to the subordinate classes, some of which are owned by us. Furthermore, CT CDO I provides for the re-classification of interest proceeds from impaired collateral as principal proceeds, which also serve to hyper-amortize the senior notes sold. As a result of collateral asset impairments and the related breaches of these interest coverage and overcollateralization tests, we currently do not receive any cash payments from CT CDO I.

11. DERIVATIVE FINANCIAL INSTRUMENTS

As of, and during the nine months ended, September 30, 2013, we were not party to any derivative financial instruments. However, our consolidated subsidiary, CT Legacy Partners, was party to five interest rate swaps which it terminated in June 2013. A gain of \$136,000 resulting from the termination is included as a component of interest expense on our consolidated statements of operations for the nine months ended September 30, 2013. CT Legacy Partners is no longer party to any derivative financial instruments as of September 30, 2013.

12. EQUITY**Balance Sheet Activity**

Total equity increased \$650.0 million during the first nine months of 2013 to \$803.5 million. This increase was primarily driven by the issuance of additional shares of our class A common stock in our May 2013 equity offering. See below for further discussion on the share issuance.

Accumulated Other Comprehensive Loss

We did not have any accumulated other comprehensive income or loss as of September 30, 2013. The following table details the primary components of accumulated other comprehensive loss as of September 30, 2012, and significant activity for the nine months ended September 30, 2012 (\$ in thousands):

Share and Share Equivalents*Authorized Capital*

We have the authority to issue up to 200,000,000 shares of stock, consisting of 100,000,000 shares of class A common stock and 100,000,000 shares of preferred stock. Subject to applicable NYSE listing requirements, our board of directors is authorized to cause us to issue additional shares of authorized stock without stockholder approval. In addition, to the extent not issued, currently authorized stock may be reclassified between class A common stock and preferred stock.

Reverse Stock Split

On April 26, 2013, our board of directors approved a one-for-ten reverse stock split of our class A common stock which we effected on May 6, 2013. As a result of the reverse stock split, the number of outstanding shares of our class A common stock was reduced to 2,926,651. In addition, there was a reclassification of \$263,000 from the par value of

our class A common stock to additional paid-in capital to reflect the impact of the reverse stock split.

Class A Common Stock and Deferred Stock Units

Holders of shares of class A common stock are entitled to vote on all matters submitted to a vote of stockholders, subject to the voting rights of any outstanding shares of preferred stock. Holders of record of shares of class A common stock on the record date fixed by our board of directors are entitled to receive such dividends as may be authorized by our board of directors and declared by us, subject to the rights of the holders of any shares of outstanding preferred stock. On May 29, 2013, we issued 25,875,000 shares of class A common stock at a public offering price of \$25.50 per share. We generated net proceeds from the issuance of \$633.8 million after underwriting discounts and other offering expenses.

In addition to our class A common stock, we also issue deferred stock units to certain members of our board of directors in lieu of cash compensation for services rendered. These deferred stock units are non-voting, but carry the right to receive dividends in the form of additional deferred stock units in an amount equivalent to the cash dividends paid to holders of shares of class A common stock.

A total of 28,898,165 shares of class A common stock and stock units were issued and outstanding as of September 30, 2013.

- (2) Deferred stock units held by members of our board of directors totaled 96,514, and 61,652 as of September 30, 2013 and 2012, respectively.
- (3) Share amounts have been retroactively updated to reflect the one-for-ten reverse stock split which we effected as of May 6, 2013. See above for further discussion.

Preferred Stock

We have not issued any shares of preferred stock since we repurchased all of our previously issued and outstanding preferred stock in 2001.

Dividends

We generally intend to distribute each year substantially all of our taxable income, which does not necessarily equal net income as calculated in accordance with GAAP, to our stockholders to comply with the REIT provisions of the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code.

Our dividend policy remains subject to revision at the discretion of our board of directors. All distributions will be made at the discretion of our board of directors and will depend upon our taxable income, our financial condition, our maintenance of REIT status, applicable law, and other factors as our board of directors deems relevant.

On September 10, 2013, we declared a dividend of \$7.8 million, or \$0.27 per share, which was paid on October 15, 2013 to class A common stockholders of record as of September 30, 2013.

(1) Represents the accrual of amounts payable under the CT Legacy Partners management incentive awards during the period. See below for discussion of the CT Legacy Partners management incentive awards plan.

As a result of our Investment Management Business Sale, the operating expenses related to our investment management business have been reclassified to income (loss) from discontinued operations on our consolidated statements of operations. Refer to Note 3 for further discussion of the Investment Management Business Sale.

In conjunction with the Investment Management Business Sale, we entered into a new management agreement with our Manager, which was amended and restated as of March 26, 2013, pursuant to which our Manager earns a base management fee in an amount equal to the greater of (i) \$250,000 per annum and (ii) 1.50% per annum multiplied by our outstanding Equity balance, as defined in the management agreement with our Manager. In addition, our Manager is entitled to an incentive fee in an amount equal to the product of (i) 20% and (ii) the excess of (a) our Core Earnings (as defined in the management agreement) for the previous 12-month period (or the period since January 1, 2013, whichever is shorter) over (b) an amount equal to 7.00% per annum multiplied by our outstanding Equity, provided that our Core Earnings over the prior three-year period (or the period since the date of the first offering of our class A common stock following December 19, 2012, whichever is shorter) is greater than zero. Core Earnings is generally equal to our net income (loss) prepared in accordance with GAAP, excluding (i) certain non-cash items and (ii) the net income (loss) related to our legacy portfolio.

Table of Contents**Blackstone Mortgage Trust, Inc. and Subsidiaries****Notes to Consolidated Financial Statements (continued)****(Unaudited)**

During the nine months ended September 30, 2013, we incurred \$3.4 million of management fees payable to our Manager, which are included in general and administrative expenses. We did not incur any incentive fees payable to our Manager during the nine months ended September 30, 2013.

CT Legacy Partners Management Incentive Awards Plan

In conjunction with our March 2011 Restructuring, we created an employee pool for up to 6.75% of the distributions paid to the common equity holders of CT Legacy Partners (subject to certain caps and priority distributions). As of September 30, 2013, incentive awards for 92% of the pool were granted to our former employees, and the remainder remains unallocated. If any awards remain unallocated at the time distributions are paid, any amounts otherwise payable to the unallocated awards will be distributed pro rata to the plan participants then employed by an affiliate of our Manager.

Approximately 82% of these grants have the following vesting schedule, which is contingent on continued employment with an affiliate of our Manager: (i) 25% vests on the date of grant; (ii) 25% vests in March 2013; (iii) 25% vests in March 2014; and (iv) the remainder vests upon our receipt of distributions from CT Legacy Partners. The remaining 18% of these grants vest upon our receipt of distributions from CT Legacy Partners.

We accrue a liability for the amounts due under these grants based on the value of CT Legacy Partners and the periodic vesting of the awards granted. Accrued payables for these awards were \$7.3 million and \$5.3 million as of September 30, 2013 and December 31, 2012, respectively.

14. DISCONTINUED OPERATIONS

As more fully described in Note 3, we sold our investment management business, CTIMCO, to an affiliate of Blackstone in December 2012. As a result, the income and expense items related to our investment management business have been reclassified to loss from discontinued operations on our consolidated statement of operations.

The following table provides additional information on the components of discontinued operations (\$ in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,

15. INCOME TAXES

We elected to be taxed as a REIT, effective January 1, 2003, under the Internal Revenue Code for U.S. federal income tax purposes. We generally must distribute annually at least 90% of our net taxable income, subject to certain adjustments and excluding any net capital gain, in order for U.S. federal income tax not to apply to our earnings that we distribute. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our net taxable income, we will be subject to U.S. federal income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under U.S. federal tax laws.

Our qualification as a REIT also depends on our ability to meet various other requirements imposed by the Internal Revenue Code, which relate to organizational structure, diversity of stock ownership and certain restrictions with regard to the nature of our assets and the sources of our income. Even if we qualify as a REIT, we may be subject to certain U.S. federal income and excise taxes and state and local taxes on our income and assets. If we fail to maintain our qualification as a REIT for any taxable year, we may be subject to material penalties as well as federal, state and

local income tax on our taxable income at regular corporate rates and we would not be able to qualify as a REIT for the subsequent four full taxable years. As of September 30, 2013 and December 31, 2012, we were in compliance with all REIT requirements.

During the nine months ended September 30, 2013, we recorded a current income tax provision of \$329,000 related to our taxable REIT subsidiaries. As a result of our sale of CTIMCO we no longer have any deferred tax assets or liabilities as of December 31, 2012.

As a result of our issuance of 25,875,000 shares of class A common stock in May 2013, the availability of our net operating losses, or NOLs, and net capital losses, or NCLs, is significantly limited by change of control provisions promulgated by the Internal Revenue Service with respect to the ownership of Blackstone Mortgage Trust, Inc. As of December 31, 2012, we had NOLs of \$161.5 million and NCLs of \$121.4 million available to be carried forward and utilized in current or future periods. If we are unable to utilize our NOLs, they will expire in 2029. If we are unable to utilize our NCLs, \$2.0 million will expire in 2013, \$87.4 million will expire in 2014, \$31.4 million will expire in 2015, and \$602,000 will expire in 2017.

As of September 30, 2013, tax years 2009 through 2012 remain subject to examination by taxing authorities.

16. STOCK-BASED INCENTIVE PLANS

We do not have any employees following the consummation of the Investment Management Business Sale on December 19, 2012, as described in Note 3. However, as of September 30, 2013, our Manager, certain individuals employed by an affiliate of our Manager, and certain members of our board of directors are compensated, in part, through the issuance of stock-based instruments. In addition, certain of our former employees continue to participate in the CTOPI incentive management fee grants and the CT Legacy Partners management incentive awards plan.

We had stock-based incentive awards outstanding under four benefit plans as of September 30, 2013: (i) our amended and restated 1997 non-employee director stock plan, or 1997 Plan; (ii) our 2007 long-term incentive plan, or 2007 Plan; (iii) our 2011 long-term incentive plan, or 2011 Plan; and (iv) our 2013 stock incentive plan, or 2013 Plan. No awards have been granted under our 2013 manager incentive plan, or 2013 Manager Plan, as of September 30, 2013. We refer to our 1997 Plan, our 2007 Plan, and our 2011 Plan as our Expired Plans and we refer to our 2013 Plan and 2013 Manager Plan as our Current Plans.

Our Expired Plans have expired and no new awards may be issued under them. Under our Current Plans, a maximum of 2,160,106 shares of our class A common stock may be issued to our Manager, our directors and officers, and certain employees of affiliates of our Manager. As of September 30, 2013, there were 2,154,956 shares available under the Current Plans.

Awards outstanding under these plans as of September 30, 2013 was comprised entirely of 96,514 deferred stock units granted to certain members of our board of directors in lieu of cash compensation for services and in lieu of dividends

earned on previously granted stock units. Awards outstanding under Expired Plans have been adjusted to reflect the one-for-ten reverse stock split which we effected as of May 6, 2013. Refer to Note 12 for further discussion of our reverse stock split.

Refer to Notes 9 and 13 for additional discussion of the CTOPI incentive management fee grants and the CT Legacy Partners management incentive awards plan, respectively.

Loans receivable, at fair value The following table lists the range of key assumptions for each type of loans receivable as of September 30, 2013 (\$ in millions):

			\$ 66.1	

(1) Excludes loans for which there is no expectation of future cash flows.

(2) Represents the proportion of the principal expected to be collected relative to the loan balance as of September 30, 2013.

Other assets, at fair value Our other assets balance include certain CMBS, CDO, equity investments, and other receivables and are generally valued by a combination of (i) obtaining assessments from third-party dealers and (ii) in cases where such assessments are unavailable or deemed not to be indicative of fair value, discounting expected cash flows using internal cash flow models and estimated market discount rates. In the case of internal models, expected cash flows of each security are based on assumptions regarding the collection of principal and interest on the underlying loans and securities.

Impaired loans receivable Our impaired loans receivables, which are held by our CT CDO I, include two subordinate interests in mortgage loans with an aggregate principal balance of \$18.1 million. These hotel loans are in maturity default as of September 30, 2013. The range of key assumptions used for arriving at the fair value of these loans included capitalization rates between 9% and 15% and assumed occupancy rates between 75% and 83%.

Investment in CT Legacy Asset We elected the fair value option of accounting for CT Legacy REIT's investment in CT Legacy Asset, at December 31, 2012. We arrived at the fair value of our Investment in CT Legacy Asset by discounting the net cash flows expected to be distributed to its equity holders after the repayment of the repurchase facility. The key assumptions for significant unobservable inputs were: (i) a discount rate of 15% and (ii) loss severities applied to the underlying assets.

Fair Value of Financial Instruments

As discussed in Note 2, GAAP requires disclosure of fair value information about financial instruments, whether or not recognized in the statement of financial position, for which it is practicable to estimate that value. The following table details the carrying amount, face amount, and approximate fair value of the financial instruments described in Note 2. All fair value estimates, except for cash and cash equivalents, are measured using significant unobservable inputs, or Level 3 inputs, as further described above. (\$ in thousands):

18. TRANSACTIONS WITH RELATED PARTIES

Transactions Related to Our Manager and its Affiliates

As further described in Note 3, in December 2012 we concluded multiple, related transactions with Blackstone and its affiliates, including: (i) the Investment Management Business Sale; (ii) the sale of 500,000 shares of our class A

(Unaudited)

common stock for \$20.00 per share; and (iii) the execution of a new external management agreement with our Manager. In addition, Blackstone received the right to designate two members of our board of directors, and exercised that right by designating an employee and one of its senior advisors to replace two former members of our board of directors who resigned effective December 19, 2012. Certain of our former employees are now employed by an affiliate of our Manager.

On March 26, 2013, we amended the external management agreement with our Manager to, among other things, amend our investment guidelines to permit the investment risk management committee of our board of directors, which consists of only independent directors, to approve any proposed investment by our Manager.

As of September 30, 2013, our consolidated balance sheet included \$2.4 million of accrued management fees payable to our Manager. During the nine months ended September 30, 2013, we paid \$920,000 of management fees to our Manager. In addition, as of September 30, 2013, our consolidated balance sheet includes \$306,000 of preferred distributions payable by CT Legacy Partners to an affiliate of our Manager. During the nine months ended September 30, 2013, CT Legacy Partners made aggregate preferred distributions of \$3.4 million to such affiliate.

During the nine months ended September 30, 2013, CT CDO I, which is consolidated by us, paid \$704,000 of special servicing fees to CTIMCO, which is an affiliate of our Manager.

There may be conflicts between us and our Manager with respect to certain of the investments in the CT Legacy Partners and CTOPI portfolios where an affiliate of our Manager holds a related investment that is senior, junior, or *pari passu* to the investments held by these portfolios.

The management agreement with our Manager excludes from the management fee calculation our interests in CT Legacy Partners, CTOPI, and CT CDO I, which may result in further conflicts between the economic interests of us and our Manager. Refer to Note 13 for further discussion of the management agreement with our Manager.

On May 13, 2013, we entered into a joint venture, 42-16 Partners, with an affiliate of our Manager to originate and warehouse loans prior to the completion of our class A common stock offering on May 29, 2013. 42-16 Partners was owned 16.7% by us and 83.3% by an affiliate of our Manager, and originated one senior mortgage loan on May 21, 2013. On May 30, 2013, we ended this relationship with the affiliate of our Manager and purchased 100% of the equity interests in 42-16 Partners held by the affiliate our Manager using proceeds from the sale of our class A common stock and, as a result, 42-16 Partners became a 100% owned and consolidated subsidiary. We recorded a \$193,000 charge to non-controlling interest as a result of the purchase of these equity interests at their fair value, rather than GAAP book value.

An affiliate of our Manager purchased 1,960,784 shares of our class A common stock as part of our stock offering on May 22, 2013. These shares were purchased for \$25.50 each, the same price offered to non-affiliated purchasers. This affiliate owned class A common stock representing 9.5% of outstanding class A common stock and stock units as of October 22, 2013. In addition, an affiliate of our Manager was compensated \$1.0 million for its role as co-manager

of our offering of class A common stock on May 22, 2013.

On October 2, 2013 we originated a \$71.0 million loan, the proceeds of which were used by the borrower to repay an existing loan owned by an affiliate of our Manager.

On October 23, 2013, we purchased a \$176.9 million loan from a third-party. In conjunction with our acquisition of this loan we consented to its restructuring, which restructuring resulted in an affiliate of our Manager earning a \$2.3 million modification fee. This affiliate was previously named special servicer of the related mortgage loan in 2011 by the then controlling holder, and was entitled to the modification fee without respect to our purchase of the loan.

Other Related Party Transactions

In conjunction with the Investment Management Business Sale, we entered into a letter agreement with W.R. Berkley Corporation, or WRBC, pursuant to which we agreed not to undertake any offering of our class A common stock, or other equity securities, in an aggregate amount greater than \$30.0 million without prior approval of a majority of the independent members of our board of directors. This approval was obtained in conjunction with our May 2013 offering of Class A common stock, and no further approval requirement remains. WRBC beneficially owned class A common stock representing 1.3% of our outstanding class A common stock and stock units as of October 22, 2013, and a member of our board of directors is an employee of WRBC.

19. SEGMENT REPORTING

We operate our real estate finance business through a Loan Origination segment and a CT Legacy Portfolio segment. The Loan Origination segment includes our activities associated with the origination and acquisition of mortgage loans, the capitalization of our loan portfolio, and the costs associated with operating our business generally. The CT

Legacy Portfolio segment includes our activities specifically related to CT Legacy Partners, CT CDO I, and our equity investment in CTOPI. Our Manager identifies, makes operating decisions, and assesses the performance of each of our business segments based on financial and operating data and metrics generated from our internal information systems.

Our Loan Origination business commenced during 2013. Accordingly, no comparable segment data exists for 2012 or any other prior period, and we have therefore not retrospectively restated our previously reported information.

20. SUBSEQUENT EVENTS

Subsequent to quarter-end, we originated an additional three loans with total commitments of \$330.8 million, of which an aggregate \$315.7 million was funded at closing, and we borrowed \$214.3 million under existing repurchase facilities.

On October 3, 2013, we granted 470,593 shares of restricted class A common stock to certain officers and members of our board of directors, our Manager, and an employee of an affiliate of our Manager. These awards were granted pursuant to award agreements under our Current Plans. Refer to Note 16 for additional discussion of our Current Plans.

On October 9, 2013, CT Legacy Partners made a \$75.0 million distribution to its Class A-1, Class A-2, and Class B common shareholders, including \$36.2 million to us. We paid \$11.1 million of this distribution to fully repay the principal and interest due under our secured notes, and \$4.8 million under the CT Legacy Partner s management incentive awards plan.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

References herein to Blackstone Mortgage Trust, Company, we, us or our refer to Blackstone Mortgage Trust, Inc. and its subsidiaries unless the context specifically requires otherwise.

The following discussion should be read in conjunction with the unaudited consolidated financial statements and notes thereto appearing elsewhere in this quarterly report on Form 10-Q. In addition to historical data, this discussion contains forward-looking statements about our business, operations and financial performance based on current expectations that involve risks, uncertainties and assumptions. Our actual results may differ materially from those in this discussion as a result of various factors, including but not limited to those discussed in Item 1A. Risk Factors in our annual report on Form 10-K for the year ended December 31, 2012 and elsewhere in this quarterly report on Form 10-Q.

Introduction

We are a real estate finance company that primarily originates and purchases senior mortgage loans collateralized by properties in the United States and Europe. We are externally managed by BXMT Advisors L.L.C., which we refer to as our Manager, a subsidiary of The Blackstone Group L.P., or Blackstone, and are a real estate investment trust, or REIT, traded on the NYSE under the symbol BXMT. We are headquartered in New York City. Further information is available at www.bxmt.com.

We conduct our operations as a REIT for U.S. federal income tax purposes. We generally will not be subject to U.S. federal income taxes on our taxable income to the extent that we annually distribute all of our net taxable income to stockholders and maintain our qualification as a REIT. We also operate our business in a manner that permits us to maintain our exemption from registration under the Investment Company Act of 1940, as amended, or the Investment Company Act. We are organized as a holding company and conduct our business primarily through our various subsidiaries.

We operate our real estate finance business through a Loan Origination segment and a CT Legacy Portfolio segment. The Loan Origination segment includes our activities associated with the origination and acquisition of mortgage loans, the capitalization of our loan portfolio, and the costs associated with operating our business generally. The CT Legacy Portfolio segment includes our activities specifically related to our CT Legacy Partners, LLC, or CT Legacy Partners, subsidiary, CT CDO I, and our equity investment in CT Opportunity Partners I, LP, or CTOPI.

I. Key Financial Measures and Indicators

As a real estate finance company, we believe the key financial measures and indicators for our business are earnings per share, dividends declared, book value per share, and Core Earnings. Our book value per share was \$24.68 as of September 30, 2013, and for the three months ended September 30, 2013 we recorded earnings per share of \$0.29, declared a dividend of \$0.27 per share, and reported \$0.28 per share of Core Earnings. As further described below, Core Earnings is a measure that is not prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP. We use Core Earnings to evaluate our performance excluding the effects of certain transactions and GAAP adjustments that are not necessarily indicative of our current investment portfolio and operations.

Income from loans and other investments, net

Income from loans and other investments increased \$9.7 million, or 207%, during the third quarter of 2013 compared to the second quarter of 2013. The increase was primarily due to (i) earning a full quarter of interest on the loans originated during the second quarter of 2013, and (ii) additional interest earned on the \$629.1 million of loans

originated and funded during the third quarter of 2013. This was offset by additional interest expense resulting from \$477.8 million of additional net borrowings under repurchase agreements.

General and administrative expenses

General and administrative expenses primarily include our management fees, operating expenses, and various professional fees. General and administrative expenses increased by \$621,000 during the third quarter of 2013 compared to the second quarter of 2013 primarily due to a \$1.5 million increase in management fees to our Manager, representing a full quarter of fees following our May 2013 equity offering. This was partially offset by a decrease in professional and other fees.

Other (loss) income

During the third quarter of 2013, we recognized \$136,000 of net unrealized losses on investments carried at fair value in the CT Legacy Portfolio. During the second quarter of 2013, we recognized \$6.0 million of net unrealized gains on investments carried at fair value in the CT Legacy Portfolio.

Dividends per share

On September 10, 2013, we declared a dividend of \$7.8 million, or \$0.27 per share, which was paid on October 15, 2013 to class A common stockholders of record as of September 30, 2013. We did not declare any dividends during the three months ended June 30, 2013.

Core Earnings

Core Earnings is a non-GAAP measure, which we defined as GAAP net income (loss), including realized losses not otherwise included in GAAP net income (loss), and excluding (i) net income (loss) attributable to our CT Legacy Portfolio segment, (ii) non-cash equity compensation expense, (iii) incentive management fees, (iv) depreciation and amortization, and (v) unrealized gains (losses) or similar non-cash items. Core Earnings may also be adjusted from time to time to exclude one-time events pursuant to changes in GAAP and certain other non-cash charges as determined by our Manager, subject to approval by a majority of our independent directors.

We believe that Core Earnings provides meaningful information to consider in addition to our net income and cash flow from operating activities determined in accordance with GAAP. This adjusted measure helps us to evaluate our performance excluding the effects of certain transactions and GAAP adjustments that are not necessarily indicative of our current investment portfolio and operations. We also use Core Earnings to calculate the incentive and base management fees due to our Manager under our management agreement and, as such, we believe that the disclosure of Core Earnings is useful to our investors.

Core Earnings does not represent net income or cash generated from operating activities and should not be considered as an alternative to GAAP net income, or an indication of our cash flow from GAAP operating activities, a measure of our liquidity, or an indication of funds available for our cash needs. In addition, our methodology for calculating Core Earnings may differ from the methodologies employed by other companies to calculate the same or similar supplemental performance measures, and accordingly, our reported Core Earnings may not be comparable to the Core Earnings reported by other companies.

The following table provides a reconciliation of Core Earnings to GAAP net income (\$ in thousands, except per share data):

II. Loan Origination Portfolio

During the three months ended September 30, 2013, our Loan Origination segment funded \$629.1 million under new and existing loan commitments and generated interest income of \$15.1 million. Our loan portfolio was financed with \$643.0 million of borrowings under repurchase facilities, resulting in interest expense of \$3.8 million during the period. In the aggregate, our Loan Origination segment generated net interest income of \$11.3 million during the period.

Portfolio Overview

The following table details our loan originations activity during the three months ended September 30, 2013 (\$ in thousands):

	Loans Originated	Loan Commitments	Loan Fundings⁽¹⁾
Senior mortgage loans	10	\$ 728,925	\$ 629,091

(1) Includes additional fundings of \$1.4 million under new and existing loan commitments.

The following table details our loan repayment activity during the three months ended September 30, 2013 (\$ in thousands):

	Satisfactions	Principal Repayments	Participation Sales	Total
Senior mortgage loans	\$ 58,000	\$ 17,838	\$ 17,903	\$ 93,741

Table of Contents

As of September 30, 2013, all loans in the Loan Origination segment are senior mortgage loans. The following table details overall statistics for our loans receivable portfolio within the Loan Origination segment (\$ in thousands):

	September 30, 2013
Number of loans	17
Principal balance	\$ 1,291,988
Net book value ⁽¹⁾	\$ 1,285,891

Weighted-average all-in yield ⁽²⁾	L+4.88%
Weighted-average maximum maturity (years) ⁽³⁾	4.3

(1) The difference between principal balance and net book value is due to deferred origination fees.

(2) All loans are floating rate loans indexed to LIBOR as of September 30, 2013. LIBOR was 0.18% as of September 30, 2013; however, certain of our loans receivable earn interest based on a minimum LIBOR floor ranging from 0.20% to 1.00%.

(3) Maximum maturity date assumes all extension options are executed.

The charts below detail the geographic distribution and types of properties securing these loans, as of September 30, 2013:

Refer to section IV of this Item 2 for details of our loan portfolio, on a loan-by-loan basis.

Floating Rate Portfolio

Our Loan Origination portfolio as of September 30, 2013 was comprised entirely of floating rate mortgage loans and all of our debt financing was also floating rate, which results in a return on equity that is correlated to one-month LIBOR. Generally, our business model is such that rising interest rates will increase our net income, while declining interest rates will decrease net income. For instance, all other things being equal, as of September 30, 2013, a 100 basis point increase in LIBOR would have increased our net income by \$6.5 million per annum. The following table details our Loan Origination segment's sensitivity to interest rates (\$ in thousands):

Interest Rate Sensitivity - Loan Origination Segment

	September 30, 2013
Floating rate loans ⁽¹⁾	\$ 1,291,988
Floating rate debt ⁽¹⁾	(643,040)
Net floating rate exposure	\$ 648,948
Net income impact from 100 bps increase in LIBOR ⁽²⁾	\$ 6,489

- (1) All of our loans and credit facilities were indexed to one-month LIBOR as of September 30, 2013.
- (2) Excludes the impact of LIBOR floors on certain of our loans receivable investments.

Asset Management and Performance

We actively monitor and manage the investments in our Loan Origination portfolio, and exercise the rights afforded to us as a lender. These rights may include collateral level budget approvals, lease approvals, loan covenant enforcement, escrow/reserve management/collection, collateral release approvals and other rights that we may negotiate.

As discussed in Note 2 to our consolidated financial statements, our Manager performs a quarterly review of our loan portfolio, assesses the performance of each loan, and assigns it a risk rating between 1 (lowest risk) to 8 (highest risk). Loans that pose a higher risk of non-performance and / or loss are placed on our Watch List. Watch list loans are those with an internal risk rating of 4 or higher.

As of September 30, 2013, all of the investments in the Loan Origination segment are performing as expected and the weighted-average risk rating of our loan portfolio is 2.6.

Repurchase Facilities

During the third quarter of 2013, we upsized two existing revolving repurchase facilities and closed two new asset-specific repurchase agreements, providing an additional \$591.8 million of credit. As of September 30, 2013, we had aggregate borrowings of \$643.0 million outstanding under these facilities, with a weighted-average cash coupon of

Table of Contents

LIBOR plus 2.26% per annum and a weighted-average all-in cost of credit, including associated fees and expenses, of LIBOR plus 2.49% per annum. As of September 30, 2013, these facilities had a weighted-average initial maturity, excluding extension options and term-out provisions, of 2.4 years and contain margin call provisions limited to asset-specific credit events. The following table details the repurchase obligations outstanding as of September 30, 2013 (\$ in thousands):

Lender	Maximum Facility Size	Collateral Assets		Repurchase Borrowings ⁽²⁾

- (1) The difference between principal balance and net book value of collateral assets is due to deferred origination fees.
- (2) Potential borrowings represent the total amount we could draw under each facility based on collateral already approved and pledged. When undrawn, these amounts are immediately available to us at our sole discretion under the terms of each revolving credit facility.
- (3) JP Morgan maximum facility size is \$250 million plus \$112 million related solely to a specific asset with a repurchase date of June 27, 2014.
- (4) Represents an aggregate of three asset-specific repurchase agreements with Wells Fargo. The \$31.0 million of potential borrowings under these agreements are contingent on our funding additional draws by the borrower under a specific collateral asset.

Refer to Note 10 to our consolidated financial statements for additional terms and details of our repurchase facilities.

III. CT Legacy Portfolio

Our CT Legacy Portfolio consists primarily of: (i) our interests in CT Legacy Partners; (ii) our carried interest in CTOPI, a private investment fund that was previously under our management and is now managed by an affiliate of our Manager; and (iii) our subordinated interests in CT CDO I.

During the three months ended September 30, 2013, our CT Legacy Portfolio segment recorded net income of \$437,000 driven primarily by the net interest margin generated by the CT Legacy Partners loan portfolio. We collected \$51.5 million of repayments on investments in our CT Legacy Portfolio segment during the three months ended September 30, 2013, and as of September, 30, 2013, our CT Legacy Portfolio segment had \$76.4 million of

cash and cash equivalents. In addition, our net investment in the CTOPI carried interest increased by \$2.4 million during the three months ended September 30, 2013.

CT Legacy Partners

Portfolio Overview

Our investment in CT Legacy Partners represents our 52% equity interest in a vehicle we formed to own and finance certain assets that we retained in connection with a comprehensive debt restructuring in 2011. As of September 30, 2013, the CT Legacy Partners portfolio included loans with an aggregate principal balance of \$176.0 million and securities with an aggregate face value of \$135.0 million. Refer to section IV of this Item 2 for details of the CT Legacy Partners loan portfolio, on a loan-by-loan basis.

Table of Contents

The following table details the components of our gross investment in CT Legacy Partners included in our consolidated balance sheet, as well as our net investment in CT Legacy Partners after the future payments under the secured notes and management incentive awards plan as of September 30, 2013 (\$ in thousands):

<u>Gross investment in CT Legacy Partners</u>	
Restricted cash	\$ 76,396
Loans receivable, at fair value	66,063
Accrued interest receivable, prepaid expenses, and other assets	21,054
Accounts payable, accrued expenses and other liabilities	(412)

Secured notes, including prepayment premium ⁽¹⁾	(11,059)
Management incentive awards plan, fully vested ⁽²⁾	(11,010)
Net investment in CT Legacy Partners	\$ 50,817

- (1) Includes the full potential prepayment premium on secured notes, as described below. We carry this liability at its amortized basis of \$9.0 million on our balance sheet as of September 30, 2013. The remaining interest and prepayment premium will be recognized, as applicable, over the term of the secured notes as a component of interest expense.
- (2) Assumes full payment of the management incentive awards plan, as described below, based on the hypothetical GAAP liquidation value of CT Legacy Partners as of September 30, 2013. We periodically accrue a payable for the management incentive awards plan based on the vesting schedule for the awards and continued employment with an affiliate of our Manager of the award recipients. As of September 30, 2013, our balance sheet includes \$7.3 million in accounts payable and accrued expenses for the management incentive awards plan.

Asset Management and Performance

The CT Legacy Partners portfolio is primarily comprised of investments that were originated in 2006 and 2007, a substantial portion of which are distressed and not expected to repay in full or, in certain cases, at all. As discussed in the loan origination section in this Item 2, our Manager performs a quarterly review of our loan portfolio and higher risk assets on our Watch List. Watch List Loans include those which are risk rated 4 or higher.

The table below details the Watch List Loans held in CT Legacy Partners (\$ in millions):

Watch List Loans - CT Legacy Partners ⁽¹⁾

	September 30, 2013
CT Legacy Partners loans receivables (\$ / #)	\$ 66 / 9
Watch list loans (\$ / #)	\$ 46 / 8

-----------------------------------	-------

(1) All values are in terms of net book value.

Secured Notes

In conjunction with our comprehensive debt restructuring on March 31, 2011, which we refer to as our March 2011 Restructuring, certain wholly-owned subsidiaries of ours issued secured notes to our former creditors, which secured notes are non-recourse to us. Any prepayment, or partial prepayment, of the secured notes will incur a prepayment premium resulting in a total payment of principal and interest under the secured notes of \$11.1 million. Refer to Note 10 of our consolidated financial statements for further discussion of the secured notes.

Table of Contents

CT Legacy Partners Management Incentive Awards Plan

In conjunction with our March 2011 Restructuring, we created an employee pool for up to 6.75% of the distributions paid to the common equity holders of CT Legacy Partners (subject to certain caps and priority distributions).

We accrue a liability for the amounts due under these grants based on the value of CT Legacy Partners and the periodic vesting of the awards granted. Accrued payables for these awards were \$7.3 million and \$5.3 million as of September 30, 2013 and December 31, 2012, respectively. Refer to Note 13 of our consolidated financial statements for further details.

Repurchase Obligations

As of March 31, 2013, CT Legacy Partners was party to a repurchase facility with JP Morgan with an outstanding balance of \$20.2 million. On June 5, 2013, CT Legacy Partners repaid the outstanding balance and terminated the repurchase facility. CT Legacy Partners has no outstanding debt obligations as of September 30, 2013.

Interest Rate Swap Liabilities

CT Legacy Partners was party to five interest rate swaps which it terminated in June 2013. A gain of \$136,000 resulting from the termination is included as a component of interest expense on our consolidated statement of operations for the nine months ended September 30, 2013. CT Legacy Partners is no longer party to any derivative financial instruments as of September 30, 2013.

CT Legacy Partners Background

On March 31, 2011, we restructured, amended, or extinguished all of our outstanding recourse debt obligations, which we refer to as our March 2011 Restructuring. Our March 2011 Restructuring involved: (i) the contribution of certain of our legacy assets to a newly formed subsidiary, CT Legacy REIT Mezz Borrower, Inc., or CT Legacy REIT, (the predecessor of CT Legacy Partners); (ii) the assumption of our legacy repurchase obligations by CT Legacy REIT; and (iii) the extinguishment of the remainder of our recourse obligations, our senior credit facility and junior subordinated notes. CT Legacy Partners is beneficially owned 52% by us and 48% by our former lenders. In addition, CT Legacy Partners has issued class B common shares, a subordinate class of equity which entitles its holders to receive approximately 25% of the dividends that would otherwise be payable to us on our equity interest in CT Legacy Partners, after aggregate cash distributions of \$50.0 million have been paid to all other classes of common equity. Further, CT Legacy Partners has issued class A preferred shares which entitle its holder to cumulative preferred distributions in an amount generally equal to the greater of (i) 2.5% of certain of CT Legacy Partners' assets, and (ii) \$1.0 million per annum. Refer to Note 8 to our consolidated financial statements for additional details on CT Legacy Partners.

To maintain its tax efficiency, on March 20, 2013, a majority of the stockholders CT Legacy REIT voted in favor of a plan of merger, dated March 22, 2013, or the Merger, whereby CT Legacy REIT merged with and into CT Legacy Partners, effective as of March 22, 2013. Refer to Note 3 to our consolidated financial statements for further details on the Merger.

Our economic interest in CT Legacy Partners is subject to (i) the secured notes, which are non-recourse obligations that are collateralized by certain of our equity interests in the common shares of CT Legacy Partners, (ii) incentive awards that provide for the participation in amounts earned from our retained equity interests in CT Legacy Partners, and (iii) the subordinate class B common stock of CT Legacy Partners.

Carried Interest in CTOPI

CTOPI is a private equity real estate fund that we sponsored and formed in 2007. The fund invested \$491.5 million in 39 transactions between 2007 and the end of its investment period in 2012. To date, \$295.4 million of these investments have been realized and \$196.1 million remain outstanding (carried at 143.5% of cost) as of September 30, 2013. In conjunction with the sale of our investment management business, we transferred our management of CTOPI and sold our 4.6% co-investment to Blackstone. However, we retained our carried interest in CTOPI following the sale.

Our carried interest in CTOPI entitles us to earn incentive compensation in an amount equal to 17.7% of the fund's profits, after a 9% preferred return and 100% return of capital to the CTOPI partners. We own a net 55% of the carried interest of CTOPI's general partner; the remaining 45% is payable under incentive awards to our former employees.

As of September 30, 2013, we had been allocated \$27.0 million of incentive compensation from CTOPI based on a hypothetical liquidation of the fund at its net asset value, and after payment of the related incentive awards. The CTOPI partnership agreement provides for advance distributions in respect of our incentive compensation to allow us to pay any income taxes owed on phantom taxable income allocated to us from the partnership. We refer to these distributions as CTOPI Tax Advances. During 2012, we received one such CTOPI Tax Advance of \$1.4 million, resulting in a net asset value for our investment in CTOPI of \$25.6 million as of September 30, 2013. In the event the performance of CTOPI does not ultimately result in a sufficient allocation of incentive compensation to us, we would be required to return these CTOPI Tax Advances to the fund.

We have elected to defer the recognition of income on our carried interest in CTOPI until cash is collected or appropriate contingencies have been eliminated. As a result, our net investment in the CTOPI carried interest has a book value of zero as of September 30, 2013.

Table of Contents

Refer to Note 9 of our consolidated financial statements for additional discussion on the CTOPI incentive management fee awards to our former employees.

CT CDO I*Portfolio Overview*

As of September 30, 2013, our consolidated balance sheet included an aggregate \$83.3 million of assets and \$74.2 million of liabilities related to CT CDO I, a highly-levered securitization vehicle that we formed in 2004.

Specifically, we own the residual debt and equity positions of CT CDO I. As a result of consolidation, our subordinate debt and equity ownership interests in CT CDO I not included on our balance sheet, which instead reflects both the assets held and debt issued by CT CDO I to third-parties. Similarly, our operating results and cash flows include the gross amounts related to the assets and liabilities of CT CDO I, as opposed to our net economic interests in this entity.

Our economic interest in the loans receivable assets held by CT CDO I, which is consolidated on our balance sheet, is restricted by the structural provisions of CT CDO I, and our recovery of these assets will be limited by its distribution provisions. The liabilities of CT CDO I, which are also consolidated on our balance sheet, are non-recourse to us, and can only be satisfied by proceeds from its collateral asset pool.

We are not obligated to provide, nor have we provided, any financial support to CT CDO I.

The following table details the components of CT CDO I included in our consolidated balance sheet (\$ in thousands):

<i>Income from loans and other investments, net</i>				

Interest income increased \$11.9 million during the third quarter of 2013 compared to the third quarter of 2012 primarily due to the interest earned on our \$1.4 billion of new loan originations during 2013. Interest expense decreased during the same period, primarily as a result of expenses recognized in 2012 related to previously consolidated securitization vehicles. Income from loans and other investments increased \$12.6 million on a net basis during the third quarter of 2013 compared to the third quarter of 2012.

General and administrative expenses

General and administrative expenses primarily include our management fees, operating expenses, and various professional fees. General and administrative expenses increased by \$57,000 during the three months ended September 30, 2013 compared to the three months ended September 30, 2012. The net increase was primarily the result of (i) \$2.4 million of management fees to our Manager and \$528,000 of additional corporate expenses incurred during 2013, offset by (ii) \$2.1 million of professional fees related to the sale of our investment management business and \$770,000 of non-cash compensation expenses incurred during the three months ended September 30, 2012. All general and administrative expenses incurred during the third quarter of 2012 related to our former investment management business have been reclassified to loss from discontinued operations.

Impairments, provisions, and valuation adjustments

During the third quarter of 2013, we recognized (i) \$464,000 of net unrealized gains on investments held by CT Legacy Partners and (ii) a \$600,000 negative valuation adjustment on CT CDO I's loan classified as held-for-sale. During the third quarter of 2012, we recognized (i) a \$12.0 million positive fair value adjustment on our net investment in CT Legacy Asset, LLC, or CT Legacy Asset, a subsidiary of CT Legacy Partners and (ii) a net \$2.8 million of recovery of provisions for loan losses.

Table of Contents*Other significant items*

In December 2012, we sold our investment management business, including CT Investment Management Co., LLC, or CTIMCO and our co-investments in CTOPI and CT High Grade Partners II, LLC. As a result, our 2013 operating results do not include any income or expense items related to our former investment management business, and the income and expense items related to our investment management business in 2012 have been reclassified to loss from discontinued operations.

During the third quarter of 2013, we recorded an income tax benefit of \$264,000 related to activities of our taxable REIT subsidiaries. During the third quarter of 2012, we recorded a \$166,000 provision primarily related to alternative minimum taxes incurred as a result of our use of net operating losses, or NOLs, to offset 2012 taxable income. All income taxes related to our former investment management business have been reclassified to loss from discontinued operations.

Dividends per share

On September 10, 2013, we declared a dividend of \$7.8 million, or \$0.27 per share, which was paid on October 15, 2013 to class A common stockholders of record as of September 30, 2013. We did not declare any dividends during the three months ended September 30, 2012.

As discussed in Note 3 to our consolidated financial statements, we deconsolidated the assets and liabilities of CT CDOs II and IV in 2012. As a result of this deconsolidation and significant repayments in our portfolio, interest income decreased \$2.1 million, or 7.4%, and interest expense decreased by \$27.4 million, or 81%, during the first nine months of 2013 compared to the first nine months of 2012. Also, interest expense for 2012 included \$10.2 million relating to the acceleration of discount associated with the \$83.0 million CT Legacy Partners mezzanine loan. On a net basis, net interest income increased by \$25.3 million as the decrease in interest income was less than the reduction in interest expense.

Table of Contents

General and administrative expenses

General and administrative expenses primarily include our management fees, operating expenses, and various professional fees. General and administrative expenses increased by \$3.2 million during the first nine months of 2013 compared to the first nine months of 2012 primarily due to (i) an increase of \$3.4 million of management fees to our Manager, (ii) \$872,000 of additional professional fees and other operating costs, (iii) \$660,000 of additional expenses of our consolidated securitized vehicles, and (iv) \$350,000 of additional non-cash compensation expenses incurred during the nine months ended September 30, 2013. These were partially offset by a decrease of \$2.1 million resulting from professional fees related to the sale of our investment management business during the nine months ended September 30, 2012. All general and administrative expenses incurred during the first nine months of 2012 related to our former investment management business have been reclassified to income from discontinued operations.

Impairments, provisions, and valuation adjustments

During the first nine months of 2013, we recognized (i) \$4.5 million of net unrealized gains on investments held by CT Legacy Partners and (ii) a \$1.2 million positive valuation adjustment on CT CDO I's loan classified as held-for-sale. During the first nine months of 2012, we recognized (i) a \$19.6 million positive fair value adjustment on our net investment in CT Legacy Asset, and (ii) a \$2.8 million net recovery of provision for loan losses.

Other significant items

In December 2012, we sold our investment management business, including CTIMCO and our co-investments in CTOPI and CT High Grade Partners II, LLC. As a result, our 2013 operating results do not include any income or expense items related to our former investment management business, and the income and expense items related to our investment management business in 2012 have been reclassified to loss from discontinued operations.

During the first quarter of 2012, we recognized a gain of \$146.4 million on the deconsolidation of CT Legacy Asset. This gain was primarily the result of a reversal of charges to GAAP equity resulting from losses previously recorded in excess of our economic interests in securitization vehicles which were consolidated by CT Legacy Asset, and therefore us.

During the first nine months of 2013, we recorded an income tax provision primarily related to income generated by investments held by taxable REIT subsidiaries. During the first nine months of 2012, we recorded an income tax provision primarily related to alternative minimum taxes incurred as a result of our use of net operating losses, or NOLs, to offset 2012 taxable income. All income taxes related to our former investment management business have been reclassified to loss from discontinued operations.

Dividends per share

On September 10, 2013, we declared a dividend of \$7.8 million, or \$0.27 per share, which was paid on October 15, 2013 to class A common stockholders of record as of September 30, 2013. We did not declare any dividends during the three months ended September 30, 2012.

Liquidity and Capital Resources

Capitalization

On May 29, 2013, we issued an additional 25,875,000 shares of class A common stock in a public offering at a price of \$25.50 per share. We generated net proceeds from the issuance of \$633.8 million after underwriter discounts and other offering expenses. Our stockholders' equity was comprised entirely of 28,801,651 shares of class A common stock as of September 30, 2013.

In addition, as of September 30, 2013, we were party to six repurchase agreements which collectively provide us with \$1.7 billion of maximum available credit. As of September 30, 2013, we had aggregate borrowings of \$643.0 million outstanding under these facilities. As of September 30, 2013, these facilities had a weighted-average initial maturity, excluding extension options and term-out provisions, of 2.4 years. Refer to Note 10 to our consolidated financial statements for additional details about our repurchase facilities.

As of September 30, 2013, our CT Legacy Portfolio's consolidated debt obligations included our non-recourse secured notes secured only by certain of our equity interests in the common stock of CT Legacy Partners and the non-recourse securitized debt obligations of CT CDO I. See above discussion of CT Legacy Partners and the related secured notes, as well as the discussion of CT CDO I for further information.

Table of Contents*Sources of Liquidity*

Our primary sources of liquidity include cash and cash equivalents and available borrowings under our repurchase facilities. The following table sets forth our sources of liquidity (\$ in thousands):

	Available Liquidity as of	
	September 30, 2013	December 31, 2012
Cash and cash equivalents	\$ 10,283	\$ 15,423
Available borrowings under repurchase facilities	344,541	
	\$ 354,824	\$ 15,423

See to Note 10 to our consolidated financial statements for additional terms and details of our repurchase facilities.

We currently do not have access to liquidity from our CT Legacy Portfolio, including our equity interests in CT Legacy Partners, our carried interest in CTOPI, and our residual ownership interest in CT CDO I, other than to the extent we received cash distributions from these vehicles. We have received no cash distributions from these vehicles as of September 30, 2013, however we received a cash distribution from our equity interests in CT Legacy Partners on October 11, 2013. Refer to Note 20 to our consolidated financial statements for additional details on this distribution. We expect to realize cash recoveries from each of these portfolios over the next several years.

Liquidity Needs

In addition to our ongoing loan origination activity, our primary liquidity needs include interest and principal payments under our \$643.0 million of outstanding repurchase facilities, our \$96.3 million of unfunded loan commitments, dividend distributions to our stockholders, and operating expenses.

We have no obligations to provide financial support to CT Legacy Partners, CTOPI, or CT CDO I, and all debt obligations of such entities, some of which are consolidated onto our financial statements, are non-recourse to us.

Cash Flows

The following table provides a breakdown of the net change in our cash and cash equivalents (\$ in thousands):

	Nine Months Ended September 30,		
	2013	2012	\$ Change
Cash flows from operating activities	\$ 14,445	\$ 11,598	\$ 2,847
Cash flows from investing activities	(1,195,694)	126,049	(1,321,743)
Cash flows from financing activities	1,176,109	(133,598)	1,309,707
Net (decrease) increase in cash and cash equivalents	(\$ 5,140)	\$ 4,049	(\$ 9,189)

We experienced a net decrease in cash of \$5.1 million for the nine months ended September 30, 2013, compared to a net increase of \$4.0 million for the nine months ended September 30, 2012. The decrease was primarily due to the financing and investing activities associated with our loan origination business.

During the nine months ended September 30, 2013, we (i) generated \$633.8 million of net proceeds from the sale of our class A common stock, (ii) borrowed \$643.0 million under our repurchase facilities, and (iii) collected \$242.8 million of proceeds from loans receivables. We used the proceeds from our debt and equity financing activities and loan repayments to originate \$1.4 billion of new loans during the nine months ended September 30, 2013. Refer to Note 12 and Note 10 to our consolidated financial statements for additional discussion of our sale of shares of class A common stock and our repurchase facilities, respectively. Refer to Note 5 to our consolidated financial statements for further discussion of our loan origination activity.

Our consolidated statements of cash flows also include the cash inflows and outflows of the consolidated entities described in Note 3 to our consolidated financial statements. While this does not impact our net cash flow, it does increase certain gross cash flow disclosures. As discussed above, we do not have access to the liquidity in our CT Legacy Portfolio other than to the extent we receive cash distributions.

Table of Contents

Income Taxes

We made an election to be taxed as a REIT, effective January 1, 2003, under the Internal Revenue Code for U.S. federal income tax purposes. We generally must distribute annually at least 90% of our net taxable income, subject to certain adjustments and excluding any net capital gain, in order for U.S. federal income tax not to apply to our earnings that we distribute. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our net taxable income, we will be subject to U.S. federal income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under U.S. federal tax laws.

Our qualification as a REIT also depends on our ability to meet various other requirements imposed by the Internal Revenue Code, which relate to organizational structure, diversity of stock ownership and certain restrictions with regard to the nature of our assets and the sources of our income. Even if we qualify as a REIT, we may be subject to certain U.S. federal income and excise taxes and state and local taxes on our income and assets. If we fail to maintain our qualification as a REIT for any taxable year, we may be subject to material penalties as well as federal, state and local income tax on our taxable income at regular corporate rates and we would not be able to qualify as a REIT for the subsequent four full taxable years. As of September 30, 2013 and December 31, 2012, we were in compliance with all REIT requirements.

During the nine months ended September 30, 2013, we recorded a current income tax provision of \$329,000 related to our taxable REIT subsidiaries. As a result of our sale of CTIMCO we no longer have any deferred tax assets or liabilities as of December 31, 2012.

As a result of our issuance of 25,875,000 shares of class A common stock in May 2013, the availability of our NOLs and net capital losses, or NCLs, is significantly limited by change of control provisions promulgated by the Internal Revenue Service with respect to the ownership of Blackstone Mortgage Trust, Inc. As of December 31, 2012, we had net operating losses, or NOLs, of \$161.5 million and net capital losses, or NCLs, of \$121.4 million available to be carried forward and utilized in current or future periods. If we are unable to utilize our NOLs, they will expire in 2029. If we are unable to utilize our NCLs, \$2.0 million will expire in 2013, \$87.4 million will expire in 2014, \$31.4 million will expire in 2015, and \$602,000 will expire in 2017.

As of September 30, 2013, tax years 2009 through 2012 remain subject to examination by taxing authorities.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP. The preparation of these financial statements requires our Manager to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. Actual results could differ from these estimates. There have been no material changes to our Critical Accounting Policies described in our annual report on Form 10-K filed with the Securities and Exchange Commission on March 26, 2013.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK****Interest Rate Risk**

Our business is exposed to the risks related to interest rate fluctuations. We generally originate floating rate assets and finance those assets with index-matched floating rate liabilities. As a result, we effectively eliminate exposure to changes in portfolio value related to changes in interest rates.

Our investments in fixed rate assets are generally exposed to changes in value due to interest rate fluctuations, and our investments in floating rate assets are generally exposed to cash flow variability from fluctuations in rates.

Loan Origination Portfolio

Our Loan Origination investments are exposed to the risks related to interest rate fluctuations discussed above. The table below details our interest rate exposure to this portfolio (\$ in thousands):

	September 30, 2013	
Cash flow exposure to interest rates ⁽¹⁾		
Floating rate assets	\$	1,291,988
Floating rate debt		(643,040)
Net floating rate exposure	\$	648,948
Weighted-average cash coupon ⁽²⁾		L + 4.31%
Net income impact from 100 bps increase in LIBOR ⁽³⁾	\$	6,489

(1) All values are in terms of face or notional amounts.

(2) LIBOR was 0.18% as of September 30, 2013.

(3) Excludes the impact of LIBOR floors on certain of our loans receivable investments.

CT Legacy Partners

Our investment in CT Legacy Partners is exposed to the risks related to interest rate fluctuations discussed above. The table below details our interest rate exposure to this portfolio (\$ in thousands):

(2) LIBOR was 0.18% as of September 30, 2013.

CTOPI

Although our carried interest investment in CTOPI generally relates to a portfolio of interest earning assets, our economic interest in this portfolio relates primarily to the realization of investments purchased at a discount by CTOPI. Accordingly, our investment in this portfolio is not exposed to a significant degree of interest rate risk. Refer to Note 9 to our consolidated financial statements for additional discussion of CTOPI.

Secured Notes

Although our secured notes are interest-bearing liabilities, they contain prepayment provisions such that we will ultimately be required to pay \$11.1 million to satisfy these obligations. Accordingly, we are not exposed to any interest rate risk under our secured notes. Refer to Note 10 to our consolidated financial statements for additional discussion of our secured notes.

Risk of Non-Performance

In addition to the risks related to fluctuations in asset values and cash flows associated with movements in interest rates, there is also the risk of non-performance on floating rate assets. In the case of a significant increase in interest rates, the additional debt service payments due from our borrowers may strain the operating cash flows of the collateral real estate assets and, potentially, contribute to non-performance or, in severe cases, default.

Market Risks

Our loans and investments are also subject to credit risk. The performance and value of our loans and investments depends upon the owners' ability to operate the properties that serve as our collateral so that they produce cash flows adequate to pay interest and principal due to us. To monitor this risk, our Manager's asset management team reviews our investment portfolios and in certain instances is in regular contact with our borrowers, monitoring performance of the collateral and enforcing our rights as necessary.

In addition, we are exposed to the risks generally associated with the commercial real estate market, including variances in occupancy rates, capitalization rates, absorption rates, and other macroeconomic factors beyond our control. We seek to manage these risks through our underwriting and asset management processes.

Capital Market Risks

We are exposed to risks related to the equity capital markets, and our related ability to raise capital through the issuance of our class A common stock or other equity instruments. We are also exposed to risks related to the debt capital markets, and our related ability to finance our business through borrowings under repurchase obligations or other debt instruments. As a REIT, we are required to distribute a significant portion of our taxable income annually, which constrains our ability to accumulate operating cash flow which requires us to utilize debt or equity capital to finance our business.

Counterparty Risk

The nature of our business requires us to hold our cash and cash equivalents, obtain financing from, and enter into hedging agreements with various financial institutions. This exposes us to the risk that these financial institutions may not fulfill their obligations to us under these various contractual arrangements. We mitigate this exposure by depositing our cash and cash equivalents, and entering into financing and hedging agreements with high credit quality institutions.

Table of Contents

The nature of our loans and investments also expose us to the risk that our counterparties do not make required interest and principal payments on scheduled due dates. We seek to manage this risk through a comprehensive credit analysis prior to making an investment and actively monitoring the asset portfolio that serves as our collateral.

Currency Risk

We are not currently exposed to future changes in foreign currency rates.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as of the end of the period covered by this quarterly report on Form 10-Q was made under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (a) are effective to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by Securities and Exchange Commission rules and forms and (b) include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls over Financial Reporting

There have been no significant changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the period covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
