## I. Operating Results and Financial Conditions

#### 2015 Second Quarter in Review

Looking back at the global economy in the second quarter of 2015, the U.S. economy continued recovering smoothly as employment conditions and consumer spending steadily improved. In Europe, although the U.K. and Germany showed signs of economic recovery, the Russian economy remained stagnant. The pace of economic expansion in China gradually declined while Southeast Asian countries faced slowdowns owing to local currency depreciation. As for the Japanese economy, improvement was seen in the corporate sector and employment conditions continued to recover. As a result, the global economy overall continued to realize moderate growth.

As for the markets in which Canon operates amid these conditions, demand for office multifunction devices (MFDs) and laser printers maintained steady growth, mainly for color models, while demand for semiconductor lithography equipment also increased, fueled by continued customer investment. As for cameras, demand continued to decline both for interchangeable-lens digital cameras and digital compact cameras. Additionally, demand for inkjet printers also decreased from the previous year due to sluggish market conditions in Southeast Asian countries.

The average values of the yen during the second quarter and first half of the year were  $\pm 121.47$  and  $\pm 120.39$  against the U.S. dollar, respectively, year-on-year depreciations of approximately  $\pm 19$  and  $\pm 134.47$  and  $\pm 134.47$  and  $\pm 134.19$  against the euro, respectively, year-on-year appreciations of approximately  $\pm 5$  and  $\pm 6$ .

During the second quarter, despite firm sales in Japan, interchangeable-lens digital cameras continued to face severe conditions in other regions while sales volume for digital compact cameras decreased in most regions compared with the same period of the previous year. By contrast, sales of MFDs were strong and unit sales of semiconductor lithography equipment exceeded those for the same period of the previous year. Consequently, boosted by the positive effect of favorable currency exchange rates, second quarter net sales increased 5.1% year on year to ¥974.4 billion. Net sales for the six months ended June 30, 2015 totaled ¥1,831.9 billion, a year-on-year increase of 2.0%. The gross profit ratio for the second quarter, at 51.7%, remained at a high level thanks to highly profitable new products and ongoing cost-cutting activities, while operating expenses increased 7.0% year on year to ¥399.1 billion owing to such factors as the increase in foreign-currency-denominated operating expenses after conversion into yen due to the depreciation of the yen, along with the increase in R&D expenses related to new business and new products. As a result, second-quarter operating profit decreased by 5.3% to ¥104.7 billion. Other income (deductions) decreased by ¥7.9 billion due to foreign currency exchange losses, leading to a year-on-year decline in income before income taxes of 11.7% to ¥103.2 billion, and a decrease in net income attributable to Canon Inc. of 15.7% to ¥68.2 billion. Operating profit for the first half of the year decreased by 11.5% to ¥170.9 billion while income before income tax decreased by 16.1% to ¥164.5 billion and first-half net income attributable to Canon Inc. decreased by 20.5% to ¥102.1 billion.

Basic net income attributable to Canon Inc. shareholders per share was 462.45 for the second quarter, a year-on-year decrease of 410.16, and 493.52 for the first half, a year-on-year decrease of 420.95.

- 2 -

## **Results by Segment**

Looking at Canon s second-quarter performance by business unit, within the Office Business Unit, as for office MFDs, in addition to healthy demand for the color A4 (letter and legal-sized) imageRUNNER ADVANCE C350/C250 lineup and color imagePRESS C800/C700 models for the light production market, sales of new small-office/home-office color A3 (12 x18 ) imageRUNNER ADVANCE C3300-series models, which feature high image quality, user-friendliness and productivity, proved popular in markets around the world. Among high-speed continuous-feed printers and wide-format printers, the new Océ-produced VarioPrint i300, Canon s first high-speed sheet-fed color inkjet press, gained favorable reviews. As for laser printers, despite steadily growing demand for color models, total sales volume decreased due to weak sales of monochrome models. As a result, coupled with the positive effect of favorable currency exchange rates, sales for the business unit totaled ¥537.0 billion, a year-on-year increase of 2.8%, while operating profit totaled ¥79.4 billion, declining 9.9% due to the increase in R&D and other expenses. Sales for the combined first six months of the year totaled ¥1,066.1 billion, a year-on-year increase of 3.3%, while operating profit totaled ¥151.1 billion, a year-on-year decline of 5.9%.

Within the Imaging System Business Unit, although total sales volume of interchangeable-lens digital cameras declined due to market shrinkage, unit sales of interchangeable-lens digital cameras increased from the same period of the previous year in Japan thanks to healthy demand for such new models as the EOS 5DS, EOS 5DS R and EOS M3. As for digital compact cameras, although sales volume declined amid the ongoing contraction of the market due to the effects of the growing popularity of smartphones, profitability improved thanks to the growing ratio of high-added-value models featuring high image quality and high-magnification zoom capabilities, along with a smooth transition from old products to new products. As for inkjet printers, although sales volume in developed countries, such as the U.S. and Western European nations, increased from the same period of the previous year thanks to sales promotions for new products featuring enhanced mobile-device compatibility and MAXIFY business-model inkjet printers, total sales volume declined slightly due to economic stagnation in Southeast Asian countries. As a result, along with the positive effect of favorable currency exchange rates, sales for the business unit increased slightly to \$332.5 billion, while operating profit totaled \$50.5 billion, a decline of 0.9%. Sales for the combined first six months of the year totaled \$595.2 billion, a year-on-year decrease of 4.8%, while operating profit totaled \$79.6 billion, declining of 14.4% year on year.

In the Industry and Others Business Unit, within the semiconductor lithography equipment segment, ongoing strong investment by manufacturers led to an increase in second-quarter unit sales of lithography systems for memory devices, image sensors and power semiconductor devices compared with the same period of the previous year. As for FPD lithography equipment, amid solid market growth, unit sales for the quarter matched those for the corresponding period of the previous year, and progress was also made in orders and shipments. Looking at medical equipment, although sales volume for Canon s mainstay digital radiography systems decreased from the same period of the previous year owing to fierce market competition, total sales for the segment increased year on year thanks to efforts to boost sales of high-value-added models. Consequently, along with the impact of the acquisition of Axis, which became a consolidated subsidiary in the second quarter, sales for the business unit increased 36.8% year on year to \$130.4 billion, while operating profit recorded a loss of \$3.1 billion owing to upfront investment into next-generation technologies. Sales for the combined first six months of the year totaled \$219.7 billion, a year-on-year increase of 18.7%, while the operating loss totaled \$10.9 billion.

#### **Cash Flow**

During the first half of 2015, cash flow from operating activities totaled \$224.7 billion, declining \$69.8 billion compared with the same period of the previous year due to the decrease in profit along with an increase in inventory. Cash flow from investing activities increased \$163.9 billion year on year to \$306.0 billion, mainly due to the payment for the acquisition of Axis. Accordingly, free cash flow totaled negative \$81.3 billion, a decrease of \$233.7 billion compared with the corresponding year-ago period.

Cash flow from financing activities recorded an outlay of ¥123.6 billion, mainly arising from the dividend payout.

Owing to these factors, as well as the negative impact of foreign currency translation adjustments, cash and cash equivalents decreased by ¥217.6 billion to ¥627.0 billion from the end of the previous year.

### Outlook

As for the outlook in the third quarter onward, the U.S. is expected to continue to lead the recovery of the global economy while projections for the European economy point to recovery mainly in Western Europe despite the uncertainty surrounding the political tensions between Russia and Ukraine. As for the Asian economy, beginning with China, despite lingering concerns, exports to the U.S. and Western Europe are expected to support a gradual recovery. With regard to the Japanese economy, the outlook indicates a gradual acceleration of the recovery trend amid improvements in employment conditions. Overall, the global economy is expected to move toward a modest recovery.

In the businesses in which Canon is involved, demand for MFDs is projected to expand moderately, mainly for color models. Likewise, demand for color multifunction models in the laser printer market is also expected to continue to realize growth. As for interchangeable-lens digital cameras, despite the slight weakness in the Chinese market, demand is expected to gradually recover in Europe and Southeast Asia, and continue to pick up momentum in the U.S. and Japanese markets. Within the digital compact camera market, although projections point to continued market contraction for low-end models, demand for high-added-value models featuring high image quality and high-magnification zoom capabilities is expected to grow steadily. Looking at inkjet printers, forecasts indicate a year-on-year decline in sales due to weak market conditions in Southeast Asian countries. Within the industrial equipment market, the outlook points to an increase in demand for semiconductor lithography equipment compared with the previous year as manufacturers are expected to boost capital outlays in response to growing demand for memory devices, image sensors and power semiconductors, while demand for FPD lithography equipment is also projected to increase as device manufacturers boost capital investment for larger-size LCD panels offering higher levels of resolution.

With regard to currency exchange rates for the third quarter onward, on which the Company s performance outlook is based, Canon anticipates exchange rates of \$125 to the U.S. dollar and \$135 to the euro, representing a depreciation of approximately \$17 against the U.S. dollar and an appreciation of approximately \$6 against the euro compared with the annual average rates of the previous year.

Upon taking into consideration these foreign exchange rate assumptions and the impact of the acquisition of Axis, Canon projects full-year consolidated net sales in 2015 of \$3,930.0 billion, a year-on-year increase of 5.4%; operating profit of \$380.0 billion, a year-on-year increase of 4.5%; income before income taxes of \$380.0 billion, a year-on-year decrease of 0.8%; and net income attributable to Canon Inc. of \$245.0 billion, a year-on-year decrease of 3.8%.

#### **Basic Policy Regarding Profit Distribution**

Canon is being more proactive in returning profits to shareholders, mainly in the form of a dividend, taking into consideration medium-term profit forecasts along with planned future investments, cash flow and other factors.

Canon Inc. plans to distribute an interim dividend of ¥75.00 per share for the fiscal year 2015, half the amount of the annual dividend paid out in fiscal 2014, to provide a stable return to shareholders. The year-end dividend, however, has yet to be decided.

This document contains forward-looking statements with respect to future results, performance and achievements that are subject to risk and uncertainties and reflect management s views and assumptions formed by available information. All statements other than statements of historical fact are statements that could be considered forward-looking statements. When used in this document, words such as anticipate, believe, estimate. expect. intend. may, or should and similar expressions, as they relate to Canon, are intended to identify forward-looking statements. Many factors could cause the actual results, performance or achievements of Canon to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, changes in general economic and business conditions, changes in currency exchange rates and interest rates, introduction of competing products by other companies, lack of acceptance of new products or services by Canon s targeted customers, inability to meet efficiency and cost reduction objectives, changes in business strategy and various other factors, both referenced and not referenced in this document. A detailed description of these and other risk factors is included in Canon s annual report on Form 20-F, which is on file with the United States Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein. Canon does not intend or assume any obligation to update these forward-looking statements.

Notes: 1. The primary products included in each of the segments are as follows:

#### Office Business Unit :

Office multifunction devices (MFDs) / Laser multifunction printers (MFPs) / Laser printers / Digital production printing systems / High speed continuous feed printers / Wide-format printers / Document solutions

Imaging System Business Unit :

Interchangeable lens digital cameras / Digital compact cameras / Digital camcorders / Digital cinema cameras / Interchangeable lenses / Compact photo printers / Inkjet printers / Large-format inkjet printers / Commercial photo printers / Image scanners / Multimedia projectors / Broadcast equipment / Calculators Industry and Others Business Unit :

Semiconductor lithography equipment / FPD (Flat panel display) lithography equipment / Digital radiography systems / Ophthalmic equipment / Vacuum thin-film deposition equipment / Organic LED (OLED) panel manufacturing equipment / Die bonders / Micromotors / Network cameras / Handy terminals / Document scanners

2. The principal countries and regions included in each regional category are as follows:

Americas: United States of America, Canada, Latin America Europe: United Kingdom, Germany, France, Netherlands, European countries, Middle East and Africa Asia and Oceania: China, Asian countries, Australia

This document contains forward-looking statements with respect to future results, performance and achievements that are subject to risk and uncertainties and reflect management s views and assumptions formed by available information. All statements other than statements of historical fact are statements that could be considered forward-looking statements. When used in this document, words such as anticipate, believe, estimate, expect, project or should and similar expressions, as they relate to Canon, are intended to identify intend, may, plan, forward-looking statements. Many factors could cause the actual results, performance or achievements of Canon to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, changes in general economic and business conditions, changes in currency exchange rates and interest rates, introduction of competing products by other companies, lack of acceptance of new products or services by Canon s targeted customers, inability to meet efficiency and cost reduction objectives, changes in business strategy and various other factors, both referenced and not referenced in this document. A detailed description of these and other risk factors is included in Canon s annual report on Form 20-F, which is on file with the United States Securities and Exchange Commission. Should one or more of these

risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein. Canon does not intend or assume any obligation to update these forward-looking statements.

#### **10. INCREASE IN PP&E & DEPRECIATION AND AMORTIZATION**

	2015					
	2nd quarter	1st half	Year (P)	2nd quarter	1st half	Year
Increase in PP&E Depreciation and	58,829	104,031	200,000	46,963	85,017	182,343
amortization	67,561	131,977	270,000	62,163	123,515	263,480 (P)=Projection

### **11. INVENTORIES**

(1) Inventories		(Millions of yen			
	2015	2014	Difference		
	Jun.30	Dec.31	Difference		
Office	255,842	238,344	+17,498		
Imaging System	189,020	168,802	+20,218		
Industry and Others	146,621	121,021	+25,600		
Total	591,483	528,167	+63,316		
(2) Inventories/Sales*			(Days)		
	2015	2014	Difference		
	Jun.30	Dec.31	Difference		
Office	44	42	+2		
Imaging System	58	43	+15		
Industry and Others	157	132	+25		
Total	59	50	+9		

\*Index based on the previous six months sales.

#### **12. DEBT RATIO**

	2015	2014	Difference
	Jun.30	Dec.31	Difference
Total debt / Total			
assets	0.0%	0.0%	0.0%

#### **13. OVERSEAS PRODUCTION RATIO\***

	2015	2014		
	1st half	Year		
Overseas production				
ratio	48%	45%		
*From this quarter, the method used to calculate the overseas				
production ratio has chan	ged. The distinc	tions between domestic		
and arranges of monto array	1 ad array as fu	and Ionon on mullion		

and overseas of parts supplied overseas from Japan as well as other adjustments have been made to more accurately reflect the underlying reality. Past figures have been adjusted to conform to the new method of calculation.

#### **14. NUMBER OF EMPLOYEES**

	2015	2014	Difference
	Jun.30	Dec.31	Difference
Japan	69,272	69,201	+71
Overseas	125,726	122,688	+3,038
Total	194,998	191,889	+3,109
