JULY 13, 2016

Although we recommend that you read the complete Joint Proxy Statement, for your convenience, we have provided a brief overview of the issues to be voted on.

Q. Why am I receiving the enclosed Joint Proxy Statement?

A. You are receiving this Joint Proxy Statement as a holder of Variable Rate Demand Preferred Shares (VRDP Shares) of Nuveen California Dividend Advantage Municipal Fund (the Acquiring Fund), Nuveen California Dividend Advantage Municipal Fund 2 (Dividend Advantage 2) or Nuveen California Dividend Advantage Municipal Fund 3 (Dividend Advantage 3 and together with Dividend Advantage 2, the Target Funds, or each individually, a Target Fund) in connection with the annual shareholder meetings of the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3.

At the annual meetings, holders of VRDP Shares will vote on the following proposals, as applicable:

(All Funds) the election of members of each Fund s Board of Trustees (each, a Board or the Board) (the list of specific nominees is contained in the enclosed Joint Proxy Statement); and

(All Funds) the reorganization of each of Dividend Advantage 2 and Dividend Advantage 3 into the Acquiring Fund (each, a Reorganization, and together, the Reorganizations).

(Acquiring Fund only) the issuance of additional common shares by the Acquiring Fund in connection with the Reorganizations.

The Board of each Fund, including the independent Board members, unanimously recommends that you vote FOR each proposal applicable to your Fund.

Proposals Regarding the Reorganizations

Q. Why has each Fund s Board recommended the Reorganization proposal(s)?

- A. The boards of directors/trustees of Nuveen's municipal closed-end funds, including the Board of each Fund, have approved a series of combinations of single-state municipal closed-end funds, including the Reorganization of each Target Fund into the Acquiring Fund. Each Fund's Board considered the Reorganization(s) as part of a broad initiative to rationalize the product offerings of Nuveen funds and eliminate overlapping products. The Acquiring Fund and the

Target Funds have the same investment objectives and substantially similar investment policies, risks and portfolio compositions and are managed by the same portfolio manager. For the reasons set forth below, each Fund's Board has determined that its respective Reorganization(s) would be in the best interests of its Fund and has approved its Fund's Reorganization(s).

Q. What are the anticipated benefits of the proposed Reorganizations?

A. Based on information provided by Nuveen Fund Advisors, LLC (Nuveen Fund Advisors), the Funds' investment advisor, each Fund's Board believes that the proposed Reorganizations may benefit common shareholders in a number of ways, including, among other things:

The potential for higher common share net earnings over time from increased operating economies of scale, which may support higher distribution rates in the future and increase investor interest in the combined fund, and, in turn, may lower the trading discount to net asset value of common shares;

Increased portfolio and leverage management flexibility due to the significantly larger asset base of the combined fund;

Improved secondary market trading for common shares as a result of the combined fund's greater share volume, which may lead to narrower bid-ask spreads and smaller trade-to-trade price movements; and

The potential for lower fund operating expenses over time, as certain fixed costs are spread over a larger asset base (however, total expenses including leverage are expected to be slightly higher for each Target Fund due to increased leverage).

Q. What proposals will shareholders of the Funds be asked to vote on in connection with the proposed Reorganizations?

A. Shareholders of each Target Fund will be asked to vote on an Agreement and Plan of Reorganization, with common shareholders and preferred shareholders voting together as a single class and preferred shareholders also voting separately. Shareholders of the Acquiring Fund will be asked to vote on the issuance of additional common shares in connection with the Reorganizations, with common shareholders and preferred shareholders voting together as a single class and common shareholders also voting separately. In addition, preferred shareholders of the Acquiring Fund will be asked to vote on the Agreement and Plan of Reorganization. The Funds are separately soliciting the votes of the holders of common shares and the votes of the holder of the Acquiring Fund's Variable Rate MuniFund Term Preferred Shares (the VMTP Shares) through a separate joint proxy statement/prospectus.

Q. How will holders of VRDP Shares be affected by the Reorganizations?

The Acquiring Fund has one series of VMTP Shares and six series of VRDP Shares outstanding as of the date of the enclosed Joint Proxy Statement, and these shares will remain outstanding following the Reorganizations. Each of Dividend Advantage 2 and Dividend Advantage 3 has one series of VRDP Shares outstanding as of the date of the enclosed Joint

Proxy Statement. Upon the closing of the Reorganizations, holders of VRDP Shares of Dividend Advantage 2 and Dividend Advantage 3 will receive, on a one-for-one basis, newly issued VRDP Shares of the Acquiring Fund having terms substantially similar, as of the closing of the Reorganizations, to those of the VRDP Shares of Dividend Advantage 2 and Dividend Advantage 3, as applicable, exchanged therefor. The outstanding preferred shares of the Acquiring Fund and the preferred shares to be issued by the Acquiring Fund in the Reorganizations will have equal priority with each other and with any other preferred shares that the Acquiring Fund may issue in the future as to the payment of dividends and the distribution of assets upon the dissolution, liquidation or winding up of the affairs of the Acquiring Fund.

Following the Reorganizations, holders of preferred shares of the combined fund will hold a smaller percentage of the outstanding preferred shares of the combined fund as compared to their percentage holdings of their respective Fund prior to the Reorganizations. Additionally, the combined fund will have multiple series of preferred shares outstanding and multiple types of preferred shares outstanding. The different types of preferred shares have different characteristics and features, which are described in more detail in the Joint Proxy Statement. See Proposal No. 2 C. Information About the Reorganizations Description of VRDP Shares to Be Issued by the Acquiring Fund beginning on page 51, Additional Information About the Acquiring Fund Description of Outstanding Acquiring Fund VMTP Shares beginning on page 73 and Additional Information About the Acquiring Fund Description of Outstanding Acquiring Fund VRDP Shares beginning on page 74. In addition, the voting power of certain series of preferred shares may be more concentrated than others. All of the VMTP Shares of the Acquiring Fund are currently owned by a single institutional investor.

Q. Will the terms of the VRDP Shares to be issued by the Acquiring Fund as part of the Reorganizations be substantially similar to the terms of the Target Fund VRDP Shares currently outstanding?

A. Yes. The terms of the VRDP Shares to be issued by the Acquiring Fund as part of the Reorganizations will be substantially similar, as of the closing of the Reorganizations, to the terms of the VRDP Shares of Dividend Advantage 2 and Dividend Advantage 3, as applicable, exchanged therefor, including:

the same short-term credit ratings (without regard to rating modifiers) from one or more rating agencies;

the same liquidation preference;

the same terms with respect to the payment of an adjustable dividend rate set weekly by a remarketing agent;

the same right to give notice on any business day to tender the securities for remarketing in seven days;

the same terms with respect to the mandatory tender for remarketing upon the occurrence of certain events; and

the benefit of an unconditional demand feature pursuant to a purchase agreement provided by a liquidity provider substantially identical to the unconditional demand feature in effect immediately prior to the closing of the Reorganizations with respect to the outstanding series of VRDP Shares.

However, there are certain differences between the VRDP Shares to be issued in the Reorganizations and the Target Fund VRDP Shares exchanged therefor, including changes to: (i) provide increased flexibility and clarification regarding rating agency requirements, further to the increased flexibility and clarification included in offerings by Nuveen funds since at least December 2013; (ii) provide flexibility for different or modified terms in connection with a special rate period; and (iii) for the Acquiring Fund VRDP Shares issued in exchange for the VRDP Shares of Dividend Advantage 3, the final mandatory redemption date. A vote by a holder of VRDP Shares of Dividend Advantage 2 or Dividend Advantage 3 for that Fund's Reorganization is effectively a vote in favor of the foregoing changes.

Q. Do the Funds have similar investment objectives, policies and risks?

- A.** Yes. The Funds have the same investment objectives and substantially similar investment policies and risks. The investment objectives of each Fund are to provide current income exempt from regular federal and California income taxes and to enhance portfolio value relative to the California municipal bond market by investing in tax-exempt California municipal securities that the Fund's investment adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued. Each Fund also emphasizes investments in investment-grade municipal securities. Each Fund is a diversified, closed-end management investment company and currently engages in leverage through the issuance of preferred shares and the use of inverse floating rate securities.

It is a fundamental policy of each Fund that, under normal circumstances, the Fund will invest at least 80% of its net assets, including assets attributable to any principal amount of any borrowings (including the issuance of commercial paper or notes) or any preferred shares outstanding (Managed Assets), in municipal securities and other related investments the income from which is exempt from regular federal and California income taxes.

As a non-fundamental policy, under normal circumstances, each Fund invests at least 80% of its Managed Assets in investment grade securities that, at the time of investment, are rated within the four highest grades (Baa or BBB or better) by at least one of the nationally recognized statistical rating organizations that rate such security or are unrated but judged to be of comparable quality by the Fund's investment adviser and/or sub-adviser. Also, as a non-fundamental policy, each Fund may invest up to 20% of its Managed Assets in municipal securities that, at the time of investment, are rated below investment grade or are unrated but judged to be of comparable quality by the Fund's investment adviser and/or sub-adviser. Securities of below-investment-grade quality (Ba/BB or below) are commonly referred to as junk bonds. Additionally, as a non-fundamental policy, no more than 10% of each Fund's Managed Assets may be invested in municipal securities rated below B3/B- or that are unrated but judged to be of comparable quality by the Fund's investment adviser and/or sub-adviser.

Q. Do the Reorganizations constitute a taxable event for holders of VRDP Shares of Dividend Advantage 2 and Dividend Advantage 3?

- A.** No. Each Reorganization is intended to qualify as a tax-free reorganization for federal income tax purposes. As a holder of VRDP Shares it is expected that you will recognize no gain or loss for federal income tax purposes as a direct result of the Reorganizations. Prior to the closing of the Reorganizations, each Target Fund expects to declare a distribution to its common shareholders of all of its net investment income and net capital gains, if any. Each Target Fund reports distributions to common and preferred shareholders as consisting of particular types of income (such as exempt interest, ordinary income and capital gain) based on each class proportionate share of the total distributions paid by the Fund with respect to the year. As a result, such distribution could cause a portion of the distributions received by preferred shareholders with respect to the year to be taxable for federal income tax purposes. In addition, to the extent that portfolio securities of a Target Fund are sold prior to the closing of the Reorganizations, such Target Fund may recognize gains or losses, which may increase or decrease the net capital gains or net investment income to be distributed by such Target Fund. However, because each Target Fund's current portfolio composition is substantially similar to that of the Acquiring Fund, it is not currently expected that any significant portfolio sales will occur solely in connection with the Reorganizations (such sales are expected to be less than 5% of the assets of each Target Fund).

Q. What will happen if the required shareholder approvals are not obtained?

- A.** The closing of each Reorganization is contingent upon the closing of all of the Reorganizations. The closing of each Reorganization is also subject to the satisfaction or waiver of certain closing conditions, which include customary closing conditions. In order for the Reorganizations to occur, all requisite shareholder approvals must be obtained at the Annual Meetings, and certain other consents, confirmations and/or waivers must also be obtained from various third parties, including the holder of the Acquiring Fund's outstanding VMTP Shares and the liquidity providers with respect to the Funds' outstanding VRDP Shares. Because the closing of the Reorganizations is contingent upon each of the Target Funds and the Acquiring Fund obtaining such shareholder approvals and satisfying (or obtaining the waiver of) other closing conditions, it is possible that the Reorganizations will not occur, even if shareholders of your Fund entitled to vote on your Fund's Reorganization proposal(s) approve such proposal(s) and your Fund satisfies all of its closing conditions, if one or more of the other Funds does not obtain its requisite shareholder approvals or satisfy (or obtain the waiver of) its closing conditions. If the requisite shareholder approvals are not obtained, each Fund's Board may take such actions as it deems in the best interests of its Fund.

Q. Will holders of VRDP Shares have to pay any fees or expenses in connection with the Reorganizations?

- A.** No. Common shareholders will indirectly bear the costs of the Reorganizations, whether or not the Reorganizations are consummated. Preferred shareholders will not bear any costs of the Reorganizations. The total costs of the Reorganizations are estimated to be \$1,085,000, and each Fund's allocable share of such costs will be reflected in its net asset value at or before the close of trading on the business day immediately prior to the closing of the Reorganizations. The estimated allocation of the costs among the Funds is as follows: \$450,000 (0.03%) for the

Acquiring Fund, \$260,000 (0.11%) for Dividend Advantage 2 and \$375,000 (0.11%) for Dividend Advantage 3 (all percentages are based on average net assets applicable to common shares for the twelve (12) months ended February 29, 2016). The allocation of the costs of the Reorganizations will be based on the relative expected benefits of the Reorganizations comprised of forecasted operating cost savings (i.e., total expenses excluding the costs of leverage) and improved secondary market trading, if any, to each Fund during the first year following the Reorganizations.

Q. What is the timetable for the Reorganizations?

A. If the shareholder approval and other conditions to closing are satisfied (or waived), the Reorganizations are expected to take effect on or about October 12, 2016, or as soon as practicable thereafter.

Q. How does each Fund's Board recommend that holders of each Fund's VRDP Shares vote on the Reorganizations?

A. After careful consideration, each Fund's Board has determined that the Reorganizations are in the best interests of its Fund and recommends that you vote FOR your Fund's proposal.

JULY 13, 2016

This Joint Proxy Statement is being furnished to holders of Variable Rate Demand Preferred Shares (VRDP Shares) of Nuveen California Dividend Advantage Municipal Fund (Dividend Advantage or the Acquiring Fund), Nuveen California Dividend Advantage Municipal Fund 2 (Dividend Advantage 2) and Nuveen California Dividend Advantage Municipal Fund 3 (Dividend Advantage 3 and together with Dividend Advantage 2, the Target Funds or each individually, a Target Fund), each a diversified, closed-end management investment company, in connection with the solicitation of proxies by each Fund s Board of Trustees (each, a Board or the Board and each trustee, a Board Member), for use at the Annual Meeting of Shareholders of each Fund to be held at the offices of Nuveen Investments, Inc. (Nuveen or Nuveen Investments), 333 West Wacker Drive, Chicago, Illinois 60606, on Monday, September 12, 2016, at 2:00 p.m. Central time, and at any and all adjournments or postponements thereof (each, an Annual Meeting and collectively, the Annual Meetings), to consider the proposals listed below, as applicable, and discussed in greater detail elsewhere in this Joint Proxy Statement. The Funds are organized as Massachusetts business trusts. The enclosed proxy card and this Joint Proxy Statement are first being sent to shareholders of the Funds on or about July 15, 2016. Shareholders of record of the Funds as of the close of business on June 24, 2016 are entitled to notice of and to vote at the Annual Meeting and any and all adjournments or postponements thereof.

This Joint Proxy Statement explains concisely what you should know before voting on the proposals described in this Joint Proxy Statement or investing in the Acquiring Fund. Please read it carefully and keep it for future reference.

On the matters coming before each Annual Meeting as to which a choice has been specified by shareholders on the accompanying proxy card, the shares will be voted accordingly where such proxy card is properly executed, timely received and not properly revoked (pursuant to the instructions below). If a proxy is returned and no choice is specified, the shares will be voted **FOR** the proposal(s). Shareholders of a Fund who execute proxies or provide voting instructions by telephone or by Internet may revoke them at any time before a vote is taken on a proposal by filing with that Fund, as applicable, a written notice of revocation, by delivering a duly executed proxy bearing a later date or by attending the Annual Meeting and voting in person. A prior proxy can also be revoked by voting again through the toll-free number or the Internet address listed in the proxy card. However, merely attending the Annual Meeting will not revoke any previously submitted proxy.

The Board of each Fund has determined that the use of this Joint Proxy Statement for the Annual Meetings is in the best interest of each Fund in light of the similar matters being considered and voted on by shareholders.

In addition to its common shares, each Fund has one or more series of preferred shares outstanding. Dividend Advantage has one series of Variable Rate MuniFund Term Preferred Shares (the VMTP Shares) and six series of VRDP Shares outstanding, and each of Dividend Advantage 2 and Dividend Advantage 3 has one series of VRDP Shares outstanding.

At the Annual Meetings, the common and preferred shareholders of the Funds will be asked to approve Proposals Nos. 1, 2, and 3, each as described below, which must be approved by the Funds' common and preferred shareholders as follows:

Proposal No. 1. (All Funds) To elect Board Members:

With respect to the Acquiring Fund:

three (3) Class I Board Members are to be elected by a plurality of the Fund's common and preferred shareholders, voting together as a single class; and

two (2) Board Members are to be elected by a plurality of the Fund's preferred shareholders voting separately (but not by the Fund's common shareholders).

Proposal No. 2. (All Funds) To approve the Agreement and Plan of Reorganization:

With respect to Dividend Advantage, Proposal No. 2 must be approved by the Fund's preferred shareholders voting separately (but not by the Fund's common shareholders).

With respect to each of Dividend Advantage 2 and Dividend Advantage 3, Proposal No. 2 must be approved by each Fund's common and preferred shareholders voting together as a single class and by each Fund's preferred shareholders voting separately.

Proposal No. 3. (Dividend Advantage only) To approve the issuance of additional common shares in connection with each reorganization pursuant to the Agreement and Plan of Reorganization:

Proposal No. 3 must be approved by Dividend Advantage's common and preferred shareholders voting together as a single class and by Dividend Advantage's common shareholders voting separately.

Only holders of VRDP Shares are being solicited to vote on the proposals described above pursuant to this Joint Proxy Statement. The common shareholders of the Funds and holders of the VMTP Shares of Dividend Advantage are being solicited to vote on the proposals described above by means of a separate joint proxy statement/prospectus.

Quorum and Voting

A quorum of shareholders is required to take action at each Annual Meeting. A majority (more than 50%) of the shares entitled to vote at each Annual Meeting, represented in person or by proxy, will constitute a quorum of shareholders at that Annual Meeting. Votes cast in person or by proxy at each Annual Meeting will be tabulated by the inspectors of election appointed for that Annual Meeting. The inspectors of election will determine whether or not a quorum is present at the Annual Meeting. The inspectors of election will treat abstentions and broker non-votes (i.e., shares held by brokers or nominees, typically in street name, as to which (1) instructions have not been received from the beneficial owners or persons entitled to vote and (2) the broker or nominee does not have discretionary voting power on a particular matter), if any, as present for purposes of determining a quorum.

Broker-dealer firms holding shares of a Fund in street name for the benefit of their customers and clients will request the instructions of such customers and clients on how to vote their shares before the Annual Meeting. The Funds understand that, under the rules of the New York Stock Exchange (the NYSE), such broker-dealer firms may, for certain routine matters, grant discretionary authority to the proxies designated by each Board to vote without instructions from their customers and clients if no instructions have been received prior to the date specified in the broker-dealer firm's request for voting instructions. Proposal No. 1 is a routine matter, and beneficial owners who do not provide proxy instructions or who do not return a proxy card may have their shares voted by broker-dealer firms in favor of Proposal No. 1.

VRDP Shares held in street name as to which voting instructions have not been received from the beneficial owners or persons otherwise entitled to vote as of one business day before the Annual Meeting, or, if adjourned or postponed, one business day before the day to which the Annual Meeting is adjourned or postponed, and that would otherwise be treated as broker non-votes may, pursuant to NYSE Rule 452, be voted by the broker on the proposal in the same proportion as the votes cast by all holders of VRDP Shares who have voted on the proposal. Rule 452 permits proportionate voting of a Fund's VRDP Shares with respect to a particular item if, among other things, (1) a minimum of 30% of that Fund's outstanding VRDP Shares has been voted by the holders of such shares with respect to such item, (2) less than 10% of that Fund's outstanding VRDP Shares has been voted by the holders of such shares against such item and (3) for any proposal as to which holders of common shares and preferred shares vote as a single class, holders of common shares approve the proposal. For the purpose of meeting the 30% test, abstentions will be treated as shares voted, and for the purpose of meeting the 10% test, abstentions will not be treated as shares voted against the item.

Broker-dealers who are not members of the NYSE may be subject to other rules, which may or may not permit them to vote your shares without instruction. We urge you to provide instructions to your broker or nominee so that your votes may be counted.

Those persons who were shareholders of record of a Fund as of the close of business on June 24, 2016 will be entitled to one vote for each share held and, with respect to holders of common shares, a proportionate fractional vote for each fractional common share held.

As of June 24, 2016, the shares of the Funds issued and outstanding are as follows:

Fund (Ticker Symbol)	Common Shares ⁽¹⁾	VMTP Shares ⁽¹⁾	VRDP Shares ⁽¹⁾
Acquiring Fund (NAC)	107,399,967	1,450	6,996
Dividend Advantage 2 (NVX)	14,760,104		980
Dividend Advantage 3 (NZH)	24,157,633		1,600

- (1) The common shares of the Acquiring Fund are listed on the NYSE, and the common shares of Dividend Advantage 2 and Dividend Advantage 3 are listed on the NYSE MKT. Upon the closing of the Reorganizations, it is expected that the common shares of the Acquiring Fund will continue to be listed on the NYSE. The VMTP Shares of the Acquiring Fund and VRDP Shares of the Funds are not listed on any exchange.

The Reorganizations

The proposed reorganizations are part of a broad initiative to rationalize the product offerings of Nuveen funds and eliminate overlapping products by combining three funds that have the same investment objectives and substantially similar investment policies, risks and portfolio compositions and are managed by the same portfolio manager.

The terms of the reorganization of each Target Fund into the Acquiring Fund are set forth in an Agreement and Plan of Reorganization by and among the Acquiring Fund and each Target Fund (the Agreement). With respect to each Reorganization, the Agreement provides for: (1) the Acquiring Fund's acquisition of substantially all of the assets of the Target Fund in exchange for newly issued common shares of the Acquiring Fund, par value \$0.01 per share, and newly issued VRDP Shares of the Acquiring Fund, with a par value of \$0.01 per share and a liquidation preference of \$100,000 per share, and the Acquiring Fund's assumption of substantially all of the liabilities of each Target Fund; and (2) the distribution of the newly issued Acquiring Fund common shares and Acquiring Fund preferred shares received by the Target Fund to its common and preferred shareholders, respectively, as part of the liquidation, dissolution and termination of the Target Fund in accordance with applicable law (each, a Reorganization and together, the Reorganizations). Preferred shareholders of each Target Fund will receive the same number of Acquiring Fund VRDP Shares having terms substantially similar to those of the outstanding preferred shares of the Target Fund held by such preferred shareholders immediately prior to the closing of the Reorganizations. The aggregate liquidation preference of the Acquiring Fund preferred shares received in connection with each Reorganization will equal the aggregate liquidation preference of the corresponding Target Fund preferred shares held immediately prior to the closing of the Reorganization. The Agreement may be amended by the Funds, as specifically authorized by each Fund's Board, provided that following receipt of shareholder approval of the Agreement at the Annual Meeting, no such amendment may change the provisions for determining the number of Acquiring Fund shares to be issued to Target Fund shareholders to the detriment of such shareholders without their further approval.

Each new series of Acquiring Fund VRDP Shares will have the same variable dividend rate terms, mandatory tender terms, liquidity provider purchase obligation and liquidation preference as the series of Target Fund VRDP Shares for which it will be exchanged. The optional tender for remarketing right of each new series of Acquiring Fund VRDP Shares will be the same as the right of the corresponding series of Target Fund VRDP Share as of the closing of the Reorganizations. However, there are certain differences between the Acquiring Fund VRDP Shares being issued in the Reorganizations and the Target Fund VRDP Shares being exchanged therefor. The changes are described in detail in this Joint Proxy Statement. A vote by a holder of Target Fund VRDP Shares for the applicable Reorganization is effectively a vote in favor of those changes.

The preferred shares of the Acquiring Fund to be issued in connection with the Reorganizations will have equal priority with each other and with the Acquiring Fund's other outstanding preferred shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. In addition, the preferred shares of the Acquiring Fund, including the preferred shares of the Acquiring Fund to be issued in connection with the Reorganizations, will be senior in priority to the Acquiring Fund's common shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The Acquiring Fund will continue to operate after the Reorganizations as a registered closed-end management investment company, with the investment objectives and policies described in this Joint Proxy Statement

With respect to each Target Fund, the Reorganization is required to be approved by the affirmative vote of the holders of a majority (more than 50%) of the Target Fund's outstanding common and preferred shares, voting together as a single class, and by the affirmative vote of a majority of the Target Fund's outstanding preferred shares, voting separately. The affirmative vote of a majority of the common and preferred shareholders of the Acquiring Fund, voting together as a single class, and the affirmative vote of a majority of the common shareholders of the Acquiring Fund, voting separately, are required to approve the issuance of additional common shares of the Acquiring Fund in connection with the Reorganizations. In addition, the Reorganizations are required to be approved by the affirmative vote of a majority of the Acquiring Fund's outstanding preferred shares, voting separately.

The closing of each Reorganization is contingent upon the closing of all of the Reorganizations. The closing of each Reorganization is also subject to the satisfaction or waiver of certain closing conditions, which include customary closing conditions. In order for the Reorganizations to occur, all requisite shareholder approvals must be obtained at the Annual Meetings, and certain other consents, confirmations and/or waivers must also be obtained from various third parties, including the holder of the Acquiring Fund's outstanding VMTP Shares and the liquidity providers with respect to the Funds' outstanding VRDP Shares. Because the closing of the Reorganizations is contingent upon each of the Target Funds and the Acquiring Fund obtaining such shareholder approvals and satisfying (or obtaining the waiver of) other closing conditions, it is possible that the Reorganizations will not occur, even if shareholders of your Fund entitled to vote on your Fund's Reorganization proposal(s) approve such proposal(s) and your Fund satisfies all of its closing conditions, if one or more of the other Funds does not obtain its requisite shareholder approvals or satisfy (or obtain the waiver of) its closing conditions. If the requisite shareholder approvals are not obtained, each Fund's Board may take such actions as it deems in the best interests of its Fund.

PROPOSAL NO. 1 THE ELECTION OF BOARD MEMBERS

(PREFERRED SHAREHOLDERS OF EACH FUND)

Pursuant to the organizational documents of each Fund, the Board is divided into three classes (Class I, Class II and Class III), to be elected by the holders of the outstanding common shares and any outstanding preferred shares, voting together as a single class, to serve until the third succeeding annual meeting of shareholders subsequent to their election or thereafter, in each case until their successors have been duly elected and qualified. Under normal circumstances, holders of preferred shares, voting separately, are entitled to elect two (2) Board Members. The Board Members elected by holders of preferred shares will be elected to serve until the next annual meeting of shareholders or until their successors have been duly elected and qualified.

- a. Three (3) Board Members are to be elected by holders of common shares and preferred shares, voting together as a single class. Board Members Stockdale, Stone, and Wolff have been designated as Class I Board Members and are nominees for election at the Annual Meeting to serve for a term expiring at the 2019 annual meeting of shareholders or until their successors have been duly elected and qualified. Board Members Adams, Cook, Evans, Kundert, Moschner, Nelson, and Toth are current and continuing Board Members. On June 22, 2016, Board Members Cook and Moschner were appointed as Board Members, effective July 1, 2016. Board Members Adams, Kundert, Nelson and Toth have been designated as Class II Board Members to serve for a term expiring at the 2017 annual meeting of shareholders or until their successors have been duly elected and qualified. Board Members Cook, Evans and Moschner have been designated as Class III Board Members to serve for a term expiring at the 2018 annual meeting of shareholders or until their successors have been duly elected and qualified.
- b. Two (2) Board Members are to be elected by holders of preferred shares only, voting separately. Board Members Hunter and Schneider are nominees for election by holders of preferred shares to serve for a term expiring at the next annual meeting of shareholders or until their successors have been duly elected and qualified.

It is the intention of the persons named in the enclosed proxy to vote the shares represented thereby for the election of the nominees listed in the table below unless the proxy is marked otherwise. Each of the nominees has agreed to serve as a Board Member of each Fund if elected. However, should any nominee become unable or unwilling to accept nomination for election, the proxies will be voted for substitute nominees, if any, designated by that Fund's Board.

For the Acquiring Fund, Class I Board Members Stockdale and Stone, nominees for election by holders of common and preferred shares, were last elected at the annual meeting of shareholders held on February 24, 2014. For Dividend Advantage 2 and Dividend Advantage 3, Class I Board Members Stockdale and Stone, nominees for election by holders of common and preferred shares, were last elected at the annual meeting of shareholders held on November 26, 2013. On February 4, 2016, Board Member Wolff, also a nominee for election by holders of common and preferred shares, was appointed as a Board Member and designated as a Class I Board Member with respect to each Fund. Effective February 15, 2016, Class II Board Members Adams, Kundert, Nelson and Toth were last elected at each Fund's annual meeting of shareholders held on August 5, 2014. Class III Board Member Evans was last elected at each Fund's annual meeting of shareholders held on November 17, 2015. Board Members Hunter and Schneider were last elected by holders of preferred shares at each Fund's annual meeting of shareholders held on November 17, 2015. On June 22, 2016, Board Members Cook and Moschner were appointed as Board Members and designated as Class III Board Members with respect to the Target Fund, effective July 1, 2016.

Other than Board Members Adams and Cook (for all Funds), each of the Board Members and Board Member nominees is not an interested person, as defined in the 1940 Act, of the Funds or of Nuveen Fund Advisors, LLC (Nuveen Fund Advisors or the Adviser), the investment adviser to each Fund, and has never been an employee or director of Nuveen Investments, the Adviser's parent company, or any affiliate. Accordingly, such Board Members are deemed Independent Board Members.

For each Fund, the affirmative vote of a plurality of the shares present and entitled to vote at the Annual Meeting will be required to elect each Board Member of that Fund. Accordingly, the three nominees for election as Class I Board Members of each Fund, and the two nominees for election by each Fund's preferred shareholders, who receive the most FOR votes will be elected. For purposes of determining the approval of the proposal to elect nominees for each Fund, abstentions and broker non-votes will have no effect on the election of Board Members.

The Board of each Fund unanimously recommends that shareholders vote FOR the election of each Board Member identified in the table below as having an annual term or designated as a Class I Board Member, as applicable.

- (1) Length of Time Served indicates the year in which the individual became a Board Member of a fund in the Nuveen Fund complex.
- (2) Mr. Schneider is one of several owners and managing members in two limited liability companies and a general partner and one member of the governing body of a general partnership, each engaged in real estate ownership activities. In connection with their ordinary course of investment activities, court appointed receivers have been named for certain individual properties owned by such entities. The individual properties for which a receiver has been appointed represent an immaterial portion of the portfolio assets owned by these entities.
- (3) Mr. Toth serves as a director on the Board of Directors of the Mather Foundation (the Foundation) and is a member of its investment committee. No Independent Board Member or his or her immediate family member owns beneficially or of record any security of Nuveen Fund Advisors, Nuveen Asset Management, LLC, the Funds sub-adviser (Nuveen Asset Management or the Sub-Adviser), Nuveen Investments or any person (other than a registered investment company) directly or indirectly controlling, controlled by or under common control with Nuveen Fund Advisors, Nuveen Asset Management or Nuveen Investments.

As of December 31, 2015, Board Members and executive officers as a group beneficially owned approximately 1,700,000 shares of all funds managed by the Adviser (including shares held by the Board Members through the deferred compensation plan for Independent Board Members and by executive officers in Nuveen s 401(k)/profit sharing plan), and each Board Member s individual beneficial shareholdings of each Fund constituted less than 1% of the outstanding shares of such Fund. As of December 31, 2015, the Board Members and officers of each Fund as a group beneficially owned less than 1% of the total outstanding common shares and less than 1% of the total outstanding preferred shares of each Fund. Information regarding beneficial owners of more than 5% of any class of shares of any Fund is provided under General Information Shareholders of the Acquiring Fund and the Target Funds.

Compensation

Effective January 1, 2016, Independent Board Members receive a \$170,000 annual retainer plus: (1) a fee of \$5,500 per day for attendance in person or by telephone at regularly scheduled meetings of the Board; (2) a fee of \$3,000 per meeting for attendance in person or by telephone at special, non-regularly scheduled meetings of the Board where in-person attendance is required and \$2,000 per meeting for attendance by telephone or in person at such meetings where in-person attendance is not required; (3) a fee of \$2,500 per meeting for attendance in person or by telephone at Audit Committee meetings where in-person attendance is required and \$2,000 per meeting for attendance by telephone or in person at such meetings where in-person attendance is not required; (4) a fee of \$2,500 per meeting for attendance in person or by telephone at Compliance Committee meetings where in-person attendance is required and \$2,000 per meeting for attendance by telephone or in person at such meetings where in-person attendance is not required; (5) a fee of \$1,000 per meeting for attendance in person or by telephone at Dividend Committee meetings; (6) a fee of \$500 per meeting for attendance in person or by telephone at all other committee meetings (\$1,000 for shareholder meetings) where in-person attendance is required and \$250 per meeting for attendance by telephone or in person at such committee meetings (excluding shareholder meetings) where in-person attendance is not required, and \$100 per meeting when the Executive Committee acts as pricing committee for IPOs, plus, in each case, expenses incurred in attending such meetings, provided that no fees are received for meetings held on days on which regularly scheduled Board meetings are held; and (7) a fee of \$2,500 per meeting for attendance in person or by telephone at Closed-End Funds Committee meetings where in-person attendance is required and \$2,000 per meeting for attendance by telephone or in person at such meetings where in-person attendance is not required; provided that no fees are received for meetings held on days on which regularly scheduled Board meetings are held. In addition to the payments described above, the Independent Chairman of the Board receives \$80,000 and the chairpersons of the Audit Committee, the Dividend Committee, the Compliance Committee, the Nominating and Governance Committee and the Closed-End Funds Committee receive \$12,500 each as additional retainers. Independent Board Members also receive a fee of \$3,000 per day for site visits to entities that provide services to the Nuveen funds on days on which no Board meeting is held. When ad hoc committees are organized, the Nominating and Governance Committee will at the time of formation determine compensation to be paid to the members of such committees; however, in general, such fees will be \$1,000 per meeting for attendance in person or by telephone at ad hoc committee meetings where in-person attendance is required and \$500 per meeting for attendance by telephone or in person at such meetings where in-person attendance is not required. The annual retainer, fees and expenses are allocated among the Nuveen funds on the basis of relative net assets, although management may, in its discretion, establish a minimum amount to be allocated to each fund.

The Funds do not have retirement or pension plans. Certain Nuveen funds (the *Participating Funds*) participate in a deferred compensation plan (the *Deferred Compensation Plan*) that permits an Independent Board Member to elect to defer receipt of all or a portion of his or her compensation as an Independent Board Member. The deferred compensation of a participating Independent Board Member is credited to a book reserve account of the Participating Fund when the compensation would otherwise have been paid to such Independent Board Member. The value of the Independent Board Member's deferral account at any time is equal to the value that the account would have had if contributions to the account had been invested and reinvested in shares of one or more of the eligible Nuveen funds. At the time for commencing distributions from an Independent Board Member's deferral account, the Independent Board Member may elect to receive distributions in a lump sum or over a period of five years. The Participating Fund will not be liable for any other fund's obligations to make distributions under the Deferred Compensation Plan.

The Funds have no employees. The officers of the Funds and each Board Member of the Funds who is not an Independent Board Member serve without any compensation from the Funds.

The table below shows, for each Independent Board Member, the aggregate compensation paid by each Fund to the Board Member for its last fiscal year:

Board Leadership Structure and Risk Oversight

The Board of each Fund oversees the operations and management of the Fund, including the duties performed for the Funds by the Adviser. The Board has adopted a unitary board structure. A unitary board consists of one group of board members who serves on the board of every fund in the complex. In adopting a unitary board structure, the Board Members seek to provide effective governance through establishing a board, the overall composition of which will, as a body, possess the appropriate skills, independence and experience to oversee the Nuveen funds' business. With this overall framework in mind, when the Board, through its Nominating and Governance Committee discussed below, seeks nominees for the Board, the Board Members consider, not only the candidate's particular background, skills and experience, among other things, but also whether such background, skills and experience enhance the Board's diversity and at the same time complement the Board given its current composition and the mix of skills and experiences of the incumbent Board Members. The Nominating and Governance Committee believes that the Board generally benefits from diversity of background, experience and views among its members, and considers this a factor in evaluating the composition of the Board, but has not adopted any specific policy on diversity or any particular definition of diversity.

The Board believes the unitary board structure enhances good and effective governance, particularly given the nature of the structure of the investment company complex. Funds in the same complex generally are served by the same service providers and personnel and are governed by the same regulatory scheme that raises common issues that must be addressed by the Board Members across the fund complex (such as compliance, valuation, liquidity, brokerage, trade allocation or risk management). The Board believes it is more efficient to have a single board review and oversee common policies and procedures, which increases the Board's knowledge and expertise with respect to the many aspects of fund operations that are complex-wide in nature. The unitary structure also enhances the Board's influence and oversight over the Adviser and other service providers.

In an effort to enhance the independence of the Board, the Board also has a Chairman that is an Independent Board Member. The Board recognizes that a chairman can perform an important role in setting the agenda for the Board, establishing the boardroom culture, establishing a point person on behalf of the Board for Fund management and reinforcing the Board's focus on the long-term interests of shareholders. The Board recognizes that a chairman may be able to better perform these functions without any conflicts of interests arising from a position with Fund management. Accordingly, the Board Members have elected William J. Schneider as the Independent Chairman of the Board. Specific responsibilities of the Chairman include: (1) presiding at all meetings of the Board and of the shareholders; (2) seeing that all orders and resolutions of the Board Members are carried into effect; and (3) maintaining records of and, whenever necessary, certifying all proceedings of the Board Members and the shareholders.

Although the Board has direct responsibility over various matters (such as advisory contracts, underwriting contracts and Fund performance), the Board also exercises certain of its oversight responsibilities through several committees that it has established and which report back to the full Board. The Board believes that a committee structure is an effective means to permit Board Members to focus on particular operations or issues affecting the Funds, including risk oversight. More specifically, with respect to risk oversight, the Board has delegated matters relating to valuation and compliance to certain committees (as summarized below) as well as certain aspects of investment risk. In addition, the Board believes that the periodic rotation of Board Members among the different committees allows the Board Members to gain additional and different perspectives of a Fund's operations. The Board has established six standing committees: the Executive Committee; the Dividend Committee; the Audit Committee; the Compliance, Risk Management and Regulatory Oversight Committee; the Nominating and Governance Committee; and the Closed-End Funds Committee. The Board may also from time to time create ad hoc committees to focus on particular issues as the need arises. The membership and functions of the standing committees are summarized below.

Executive Committee. The Executive Committee, which meets between regular meetings of the Board as necessary, is authorized to exercise all of the powers of the Board. As of July 1, 2016, the members of the Executive Committee are William J. Schneider, Chair, William Adams IV and Terence J. Toth. During the fiscal year ended February 29, 2016 the Executive Committee did not meet.

Dividend Committee. The Dividend Committee is authorized to declare distributions on each Fund's shares including, but not limited to, regular and special dividends, capital gains and ordinary income distributions. As of July 1, 2016, the members of the Dividend Committee are William C. Hunter, Chair, Judith M. Stockdale and Terence J. Toth. During the fiscal year ended February 29, 2016, the Dividend Committee met 4 times.

Closed-End Funds Committee. The Closed-End Funds Committee is responsible for assisting the Board in the oversight and monitoring of the Nuveen Funds that are registered as closed-end management investment companies (Closed-End Funds). The committee may review and evaluate matters related to the formation and the initial presentation to the Board of any new Closed-End Fund and may review and evaluate any matters relating to any existing Closed-End Fund. The committee operates under a written charter adopted and approved by the Board, a copy of which is available on the Funds website at www.nuveen.com/CEF/Shareholder/FundGovernance.aspx. As of July 1, 2016, the members of the Closed-End Funds Committee are Carole E. Stone, Chair, William Adams IV, Jack B. Evans, Albin F. Moschner, John K. Nelson, William J. Schneider and Terence J. Toth. During the fiscal year ended February 29, 2016, the Closed-End Funds Committee met 4 times.

Audit Committee. The Board has an Audit Committee, in accordance with Section 3(a)(58)(A) of the Exchange Act, that is composed of Independent Board Members who are also independent as that term is defined in the listing standards pertaining to closed-end funds of the NYSE or NYSE MKT, as applicable. The Audit Committee assists the Board in: the oversight and monitoring of the accounting and reporting policies, processes and practices of the Funds, and the audits of the financial statements of the Funds; the quality and integrity of the financial statements of the Funds; the Funds compliance with legal and regulatory requirements relating to the Funds financial statements; the independent auditors qualifications, performance and independence; and the pricing procedures of the Funds and the internal valuation group of Nuveen. It is the responsibility of the Audit Committee to select, evaluate and replace any independent auditors (subject only to Board and, if applicable, shareholder ratification) and to determine their compensation. The Audit Committee is also responsible for, among other things, overseeing the valuation of securities comprising the Funds portfolios. Subject to the Board s general supervision of such actions, the Audit Committee addresses any valuation issues, oversees the Funds pricing procedures and actions taken by Nuveen s internal valuation group which provides regular reports to the committee, reviews any issues relating to the valuation of the Funds securities brought to its attention, and considers the risks to the Funds in assessing the possible resolutions of these matters. The Audit Committee may also consider any financial risk exposures for the Funds in conjunction with performing its functions.

To fulfill its oversight duties, the Audit Committee receives annual and semi-annual reports and has regular meetings with the external auditors for the Funds and the internal audit group at Nuveen. The Audit Committee also may review, in a general manner, the processes the Board or other Board committees have in place with respect to risk assessment and risk management as well as compliance with legal and regulatory matters relating to the Funds financial statements. The Audit Committee operates under a written Audit Committee Charter (the Charter) adopted and approved by the Board, which Charter conforms to the listing standards of the NYSE or NYSE MKT, as applicable. Members of the Audit Committee are independent (as set forth in the Charter) and free of any relationship that, in the opinion of the Board Members, would interfere with their exercise of independent judgment as an Audit Committee member. A copy of the Charter is attached as Appendix B to this Joint Proxy Statement and is available at www.nuveen.com/CEF/Shareholder/FundGovernance.aspx. As of July 1, 2016, the members of the Audit Committee are Jack B. Evans, Chair, David J. Kundert, John K. Nelson, Carole E. Stone and Terence J. Toth, each of whom is an Independent Board Member of the Funds. During the fiscal year ended February 29, 2016, the Audit Committee met 4 times.

Compliance, Risk Management and Regulatory Oversight Committee. The Compliance, Risk Management and Regulatory Oversight Committee (the Compliance Committee) is responsible for the oversight of compliance issues, risk management and other regulatory matters affecting the Funds

that are not otherwise under or within the jurisdiction of the other committees. The Board has adopted and periodically reviews policies and procedures designed to address the Funds' compliance and risk matters. As part of its duties, the Compliance Committee: reviews the policies and procedures relating to compliance matters and recommends modifications thereto as necessary or appropriate to the full Board; develops new policies and procedures as new regulatory matters affecting the Funds arise from time to time; evaluates or considers any comments or reports from examinations from regulatory authorities and responds thereto; and performs any special reviews, investigations or other oversight responsibilities relating to risk management, compliance and/or regulatory matters as requested by the Board.

In addition, the Compliance Committee is responsible for risk oversight, including, but not limited to, the oversight of risks related to investments and operations. Such risks include, among other things, exposures to: particular issuers, market sectors or types of securities; risks related to product structure elements, such as leverage; and techniques that may be used to address those risks, such as hedging and swaps. In assessing issues brought to the Compliance Committee's attention or in reviewing a particular approach, procedure, investment technique or strategy, the Compliance Committee evaluates the risks to the Funds in adopting a particular approach or resolution compared to the anticipated benefits to the Funds and their shareholders. In fulfilling its obligations, the Compliance Committee meets on a quarterly basis, and at least once a year in person. The Compliance Committee receives written and oral reports from the Funds' Chief Compliance Officer (CCO) and meets privately with the CCO at each of its quarterly meetings. The CCO also provides an annual report to the full Board regarding the operations of the Funds' and other service providers' compliance programs as well as any recommendations for modifications thereto. The Compliance Committee also receives reports from the investment services group of Nuveen regarding various investment risks. Notwithstanding the foregoing, the full Board also participates in discussions with management regarding certain matters relating to investment risk, such as the use of leverage and hedging. The investment services group therefore also reports to the full Board at its quarterly meetings regarding, among other things, Fund performance and the various drivers of such performance. Accordingly, the Board directly and/or in conjunction with the Compliance Committee oversees matters relating to investment risks. Matters not addressed at the committee level are addressed directly by the full Board. The Compliance Committee operates under a written charter adopted and approved by the Board, a copy of which is available on the Funds' website at www.nuveen.com/CEF/Shareholder/FundGovernance.aspx. Effective July 1, 2016, the members of the Compliance Committee are John K. Nelson, Chair, William C. Hunter, Albin F. Moschner, Judith M. Stockdale and Margaret L. Wolff. During the fiscal year ended February 29, 2016, the Compliance Committee met 6 times.

Nominating and Governance Committee. The Nominating and Governance Committee is responsible for seeking, identifying and recommending to the Board qualified candidates for election or appointment to the Board. In addition, the Nominating and Governance Committee oversees matters of corporate governance, including the evaluation of Board performance and processes, the assignment and rotation of committee members and the establishment of corporate governance guidelines and procedures, to the extent necessary or desirable, and matters related thereto. Although the unitary and committee structure has been developed over the years and the Nominating and Governance Committee believes the structure has provided efficient and effective governance, the committee recognizes that, as demands on the Board evolve over time (such as through an increase in the number of funds overseen or an increase in the complexity of the issues raised), the committee must continue to evaluate the Board and committee structures and their processes and modify the foregoing as may be necessary or appropriate to continue to provide effective governance. Accordingly, the Nominating and

Governance Committee has a separate meeting each year to, among other things, review the Board and committee structures, their performance and functions and recommend any modifications thereto or alternative structures or processes that would enhance the Board's governance over the Funds' business.

In addition, the Nominating and Governance Committee, among other things: makes recommendations concerning the continuing education of Board Members; monitors performance of legal counsel and other service providers; establishes and monitors a process by which security holders are able to communicate in writing with Board Members; and periodically reviews and makes recommendations about any appropriate changes to Board Member compensation, including the compensation of the Independent Chairman of the Board. In the event of a vacancy on the Board, the Nominating and Governance Committee receives suggestions from various sources, including shareholders, as to suitable candidates. Suggestions should be sent in writing to Lorna Ferguson, Manager of Fund Board Relations, Nuveen Investments, 333 West Wacker Drive, Chicago, Illinois 60606. The Nominating and Governance Committee sets appropriate standards and requirements for nominations for new Board Members and each nominee is evaluated using the same standards. However, the Nominating and Governance Committee reserves the right to interview any and all candidates and to make the final selection of any new Board Members. In considering a candidate's qualifications, each candidate must meet certain basic requirements, including relevant skills and experience, time availability (including the time requirements for due diligence site visits to internal and external sub-advisers and service providers) and, if qualifying as an Independent Board Member candidate, independence from the Adviser, sub-advisers, underwriters or other service providers, including any affiliates of these entities. These skill and experience requirements may vary depending on the current composition of the Board, since the goal is to ensure an appropriate range of skills, diversity and experience, in the aggregate. Accordingly, the particular factors considered and weight given to these factors will depend on the composition of the Board and the skills and backgrounds of the incumbent Board Member at the time of consideration of the nominees. However, all candidates must meet high expectations of personal integrity, independence, governance experience and professional competence. All candidates must be willing to be critical within the Board and with management and yet maintain a collegial and collaborative manner toward other Board Members. The Nominating and Governance Committee operates under a written charter adopted and approved by the Board, a copy of which is available on the Funds' website at www.nuveen.com/CEF/Shareholder/FundGovernance.aspx, and is composed entirely of Independent Board Members, who are also independent as defined by NYSE or NYSE MKT listing standards, as applicable. Accordingly, effective July 1, 2016, the members of the Nominating and Governance Committee are William J. Schneider, Chair, Jack B. Evans, William C. Hunter, David J. Kundert, Albin F. Moschner, John K. Nelson, Judith M. Stockdale, Carole E. Stone, Terence J. Toth and Margaret L. Wolff. During the fiscal year ended February 29, 2016, the Nominating and Governance Committee met 6 times.

During the last fiscal year, each Board Member attended 75% or more of each Fund's Board meetings and the committee meetings (if a member thereof) held during the period for which such Board Member was a Board Member. The policy of the Board relating to attendance by Board Members at annual meetings of the Funds and the number of Board Members who attended the last annual meeting of shareholders of each Fund is posted on the Funds' website at www.nuveen.com/CEF/Shareholder/FundGovernance.aspx.

Board Diversification and Board Member Qualifications. In determining that a particular Board Member was qualified to serve on the Board, the Board considers each Board Member's background,

skills, experience and other attributes in light of the composition of the Board with no particular factor controlling. The Board believes that Board Members need to have the ability to critically review, evaluate, question and discuss information provided to them, and to interact effectively with Fund management, service providers and counsel, in order to exercise effective business judgment in the performance of their duties, and the Board believes each Board Member satisfies this standard. An effective Board Member may achieve this ability through his or her educational background; business, professional training or practice; public service or academic positions; experience from service as a board member or executive of investment funds, public companies or significant private or not-for-profit entities or other organizations; and/or other life experiences. Accordingly, set forth below is a summary of the experiences, qualifications, attributes, and skills that led to the conclusion, as of the date of this document, that each Board Member should serve in that capacity. References to the experiences, qualifications, attributes and skills of Board Members are pursuant to requirements of the SEC, do not constitute holding out the Board or any Board Member as having any special expertise or experience and will not impose any greater responsibility or liability on any such person or on the Board by reason thereof.

PROPOSAL NO. 2 REORGANIZATION OF EACH TARGET FUND INTO

THE ACQUIRING FUND

(PREFERRED SHAREHOLDERS OF EACH FUND)

A. SYNOPSIS

The following is a summary of certain information contained elsewhere in this Joint Proxy Statement with respect to the proposed Reorganizations. More complete information is contained elsewhere in this Joint Proxy Statement and the appendices hereto. Shareholders should read the entire Joint Proxy Statement carefully.

Background and Reasons for the Reorganizations

The boards of directors/trustees of Nuveen's municipal closed-end funds, including the Board of each Fund, have approved a series of combinations of single-state municipal closed-end funds, including the Reorganization of each Target Fund into the Acquiring Fund. Each Fund's Board has determined that its respective Reorganization(s) would be in the best interests of its Fund. Each Fund's Board considered the Reorganization(s) as part of a broad initiative to rationalize the product offerings of Nuveen funds and eliminate overlapping products. The Acquiring Fund and the Target Funds have the same investment objectives and substantially similar investment policies, risks and portfolio compositions and are managed by the same portfolio manager.

Based on information provided by Nuveen Fund Advisors, LLC (previously defined as Nuveen Fund Advisors or the Adviser), the investment adviser to each Fund, each Fund's Board believes that the Reorganizations may benefit common shareholders in a number of ways, including, among other things:

The potential for higher common share net earnings over time from increased operating economies of scale, which may support higher distribution rates in the future and increase investor interest in the combined fund, and, in turn, may lower the trading discount to net asset value of common shares;

Increased portfolio and leverage management flexibility due to the significantly larger asset base of the combined fund;

Improved secondary market trading for common shares as a result of the combined fund's greater share volume, which may lead to narrower bid-ask spreads and smaller trade-to-trade price movements; and

The potential for lower fund operating expenses over time, as certain fixed costs are spread over a larger asset base (however, total expenses including leverage are expected to be slightly higher for each Target Fund due to increased leverage).

The closing of each Reorganization is contingent upon the closing of all of the Reorganizations. The closing of each Reorganization is also subject to the satisfaction or waiver of certain closing conditions, which include customary closing conditions. In order for the Reorganizations to occur, all requisite shareholder approvals must be obtained at the Annual Meetings, and certain other consents, confirmations and/or waivers must also be obtained from various third parties, including the holder of the Acquiring Fund's outstanding VMTP Shares and the liquidity providers with respect to the Funds' outstanding VRDP Shares. Because the closing of the Reorganizations is contingent upon each of the

Target Funds and the Acquiring Fund obtaining such shareholder approvals and satisfying (or obtaining the waiver of) other closing conditions, it is possible that the Reorganizations will not occur, even if shareholders of your Fund entitled to vote on your Fund's Reorganization proposal(s) approve such proposal(s) and your Fund satisfies all of its closing conditions, if one or more of the other Funds does not obtain its requisite shareholder approvals or satisfy (or obtain the waiver of) its closing conditions. If the requisite shareholder approvals are not obtained, each Fund's Board may take such actions as it deems in the best interests of its Fund. For a fuller discussion of the Boards' considerations regarding the approval of the Reorganizations, see C. Information About the Reorganizations' Reasons for the Reorganizations.

Material Federal Income Tax Consequences of the Reorganizations

As a condition to closing, each Fund will receive, with respect to its proposed Reorganization(s), an opinion of Vedder Price P.C., subject to certain representations, assumptions and conditions, substantially to the effect that the proposed Reorganization(s) will qualify as a tax-free reorganization under Section 368(a) of the Internal Revenue Code of 1986, as amended (the Code). Accordingly, it is expected that no Fund will recognize gain or loss for federal income tax purposes as a direct result of the Reorganizations. It is also expected that preferred shareholders of a Target Fund who receive Acquiring Fund preferred shares pursuant to a Reorganization will recognize no gain or loss for federal income tax purposes as a result of such exchange.

The foregoing discussion and the tax opinion discussed above to be received by the Funds regarding certain aspects of the Reorganizations, including that the Reorganizations will qualify as tax-free reorganizations under the Code and that preferred shareholders of a Target Fund will not recognize gain or loss upon the exchange of their shares, will rely on the position that the Acquiring Fund preferred shares will constitute equity of the Acquiring Fund. See C. Information About the Reorganizations' Material Federal Income Tax Consequences of the Reorganizations.

In addition, the preferred shares of the Acquiring Fund, including preferred shares of the Acquiring Fund to be issued in connection with the Reorganizations, will be senior in priority to the Acquiring Fund's common shares as to payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The preferred shares of the Acquiring Fund to be issued in connection with the Reorganizations will have rights and preferences, including liquidation preferences, that are substantially similar to those of the outstanding Target Fund preferred shares for which they are exchanged.

Investment Objectives and Policies. The Funds have the same investment objectives. The investment objectives of each Fund are to provide current income exempt from regular federal and California income taxes and to enhance portfolio value relative to the California municipal bond market by investing in tax-exempt California municipal securities that the Adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued.

The Funds have substantially similar investment policies. It is a fundamental policy of each Fund that, under normal circumstances, the Fund will invest at least 80% of its net assets, including assets attributable to any principal amount of any borrowings (including the issuance of commercial paper or notes) or any preferred shares outstanding (Managed Assets), in municipal securities and other related investments the income from which is exempt from regular federal and California income taxes. As a non-fundamental policy, under normal market conditions, the Acquiring Fund expects to be fully invested (at least 95% of its assets) in such tax-exempt municipal bonds.

As a non-fundamental policy, under normal circumstances, each Fund invests at least 80% of its Managed Assets in investment grade securities that, at the time of investment, are rated within the four highest grades (Baa or BBB or better) by at least one of the nationally recognized statistical rating organizations (each, an NRSRO or collectively, the NRSROs) that rate such security or are unrated but judged to be of comparable quality by the Adviser and/or the Sub-Adviser. Also, as a non-fundamental policy, each Fund may invest up to 20% of its Managed Assets in municipal securities that, at the time of investment, are rated below investment grade or are unrated but judged to be of comparable quality by the Adviser and/or the Sub-Adviser. Additionally, as a non-fundamental policy, no more than 10% of each Fund's Managed Assets may be invested in municipal securities rated below B3/B- or that are unrated but judged to be of comparable quality by the Adviser and/or the Sub-Adviser.

Securities of below-investment-grade quality (Ba/BB or below) are commonly referred to as junk bonds. Municipal securities rated below-investment-grade quality are obligations of issuers that are considered predominantly speculative with respect to the issuer's capacity to pay interest and repay

principal according to the terms of the obligation and, therefore, carry greater investment risk, including the possibility of issuer default and bankruptcy and increased market price volatility. Municipal securities rated below investment grade tend to be less marketable than higher-quality securities because the market for them is less broad. The market for unrated municipal securities is even narrower. During periods of thin trading in these markets, the spread between bid and asked prices is likely to increase significantly and a Fund may have greater difficulty selling its holdings of these types of portfolio securities. A Fund will be more dependent on the Adviser's and/or the Sub-Adviser's research and analysis when investing in these securities.

Municipal securities rated Baa or BBB are considered investment grade securities. Issuers of municipal securities rated Baa or BBB are regarded as having average creditworthiness relative to other U.S. municipal issuers; however, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the issuer to meet its financial commitments.

The credit quality policies referred to herein apply only at the time a security is purchased, and a Fund is not required to dispose of a security in the event that rating agency downgrades its assessment of the credit characteristics of a particular issuer or that valuation changes of various bonds cause the Fund's portfolio to fail to satisfy those policies. In determining whether to retain or sell such a security, the Adviser and/or the Sub-Adviser may consider such factors as the Adviser's and/or the Sub-Adviser's assessment of the credit quality of the issuer of such security, the price at which such security could be sold and the rating, if any, assigned to such security by other rating agencies. The credit ratings assigned by credit rating agencies from time to time represent their opinions as to the quality of the municipal securities they rate. It should be emphasized, however, that ratings are general and are not absolute standards of quality. Consequently, municipal securities with the same maturity, coupon and rating may have different yields while obligations of the same maturity and coupon with different ratings may have the same yield. A general description of the ratings of municipal securities by Standard & Poor's Ratings Services, a Standard & Poor's Financial Services LLC business (S&P), Moody's Investors Service, Inc. (Moody's) and Fitch Ratings, Inc. (Fitch) is set forth in Appendix C to the Confidential Information Memorandum accompanying this Joint Proxy Statement as Appendix C (the Memorandum).

Each Fund will primarily invest in municipal securities with long-term maturities in order to maintain an average effective maturity of at least 15 years, but the average effective maturity of obligations held by a Fund may be shortened as a result of portfolio transactions effected by the Adviser and/or the Sub-Adviser, depending on market conditions. As a result, a Fund's portfolio at any given time may include both long-term and intermediate-term municipal securities. Moreover, during temporary defensive periods (e.g., times when, in the Adviser's and/or the Sub-Adviser's opinion, temporary imbalances of supply and demand or other temporary dislocations in the tax-exempt bond market adversely affect the price at which long-term or intermediate-term municipal securities are available), and in order to keep a Fund's cash fully invested, the Fund may invest any percentage of its net assets in short-term investments including high quality, short-term debt securities that may be either tax-exempt or taxable and up to 10% of its Managed Assets in securities of other open- or closed-end investment companies (including exchange-traded funds) that invest primarily in municipal securities of the types in which the Fund may invest directly. As of February 29, 2016, the effective maturities of the portfolios of the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3 were 19.88, 21.72 and 21.96 years, respectively.

No Fund has established any limit on the percentage of its portfolio that may be invested in municipal bonds subject to the alternative minimum tax provisions of federal tax law, and each Fund expects that a substantial portion of the income it produces will be includable in alternative minimum taxable income.

Each Fund may purchase municipal securities that are additionally secured by insurance, bank credit agreements, or escrow accounts. The credit quality of companies which provide such credit enhancements may affect the value of those securities. Although the insurance feature may reduce certain financial risks, the premiums for insurance and the higher market price paid for insured obligations may reduce a Fund's income. The insurance feature guarantees only the payment of principal and interest on the obligation when due and does not guarantee the market value of the insured obligations, which will fluctuate with the bond market and the financial success of the issuer and the insurer, and the effectiveness and value of the insurance itself is dependent on the continued creditworthiness of the insurer. No representation is made as to the insurers' ability to meet their commitments.

Each Fund may enter into certain derivative instruments in pursuit of its investment objectives, including to seek to enhance return, to hedge some of the risk of the Fund's investments in municipal securities or as a substitute for a position in the underlying asset. Such instruments include financial futures contracts, swap contracts (including interest rate and credit default swaps), options on financial futures, options on swap contracts or other derivative instruments. A Fund may not enter into a futures contract or related options or forward contracts if more than 30% of the Fund's net assets would be represented by futures contracts or more than 5% of the Fund's net assets would be committed to initial margin deposits and premiums on futures contracts or related options.

Each Fund may invest up to 15% of its Managed Assets in inverse floating rate securities. Inverse floating rate securities represent a leveraged investment in the underlying municipal bond deposited. Inverse floating rate securities offer the opportunity for higher income than the underlying bond, but will subject a Fund to the risk of lower or even no income if short-term interest rates rise sufficiently. By investing in an inverse floating rate security rather than directly in the underlying bond, a Fund will experience a greater increase in its common share net asset value if the underlying municipal bond increases in value, but will also experience a correspondingly larger decline in its common share net asset value if the underlying bond declines in value.

Each Fund may borrow money for the repurchase of its shares or for temporary or emergency purposes, such as for the payment of dividends or the settlement of portfolio transactions.

Each Fund is diversified for purposes of the 1940 Act. Consequently, as to 75% of its assets, a Fund may not invest more than 5% of its total assets in the securities of any single issuer (and in not more than 10% of the outstanding voting securities of an issuer), except that this limitation does not apply to cash, securities of the U.S. Government, its agencies and instrumentalities, and securities of other investment companies.

As noted above, during temporary defensive periods and in order to keep a Fund's cash fully invested, each Fund may deviate from its investment objectives and invest up to 100% of its net assets in short-term investments including high quality, short-term securities that may be either tax-exempt or taxable. It is the intent of each Fund to invest in taxable short-term investments only in the event that suitable tax-exempt short-term investments are not available at reasonable prices and yields.

Investment in taxable short-term investments would result in a portion of your dividends being subject to regular federal and California income taxes, and if the proportion of taxable investments exceeded 50% of a Fund's total assets as of the close of any quarter of the Fund's taxable year, the Fund would not satisfy the general eligibility test that permits it to pay exempt-interest dividends for that taxable year. For more information, see "Material Income Tax Matters" in the Memorandum.

Credit Quality. A comparison of the credit quality (as a percentage of total investment exposure, which includes the leveraged effect of the Funds' investments in inverse floating rate securities of tender option bond trusts) of the portfolios of the Acquiring Fund and each Target Fund, as of February 29, 2016, is set forth in the table below.

Credit Rating ⁽¹⁾	Acquiring Fund	Dividend Advantage 2	Dividend Advantage 3	Combined Fund Pro Forma ⁽²⁾
AAA/U.S. Guaranteed	13.1%	11.9%	6.3%	11.9%
AA	48.4%	40.4%	49.9%	47.9%
A	16.9%	25.5%	19.5%	18.1%
BBB	9.3%	9.6%	10.6%	9.5%
BB or lower	9.3%	10.2%	10.5%	9.6%
N/R (not rated)	3.0%	2.4%	3.2%	3.0%

(1) Ratings shown are the highest rating given by one of the following national rating agencies: S&P, Moody's or Fitch. Credit ratings are subject to change. AAA, AA, A and BBB are investment-grade ratings; BB or lower are below-investment-grade ratings. Certain bonds backed by U.S. government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

(2) Reflects the effect of the Reorganizations.

Leverage. Each Fund may utilize the following forms of leverage: (1) the issuance of preferred shares, (2) bank borrowings and (3) portfolio investments that have the economic effect of leverage, including but not limited to investments in futures, options and inverse floating rate securities (sometimes referred to as "inverse floaters"). Each Fund currently employs leverage through the issuance of preferred shares and the use of inverse floaters. Certain important ratios related to each Fund's use of leverage for the last three fiscal years are set forth below:

Dividend Advantage 3	2016	2015	2014
Asset Coverage Ratio ⁽²⁾	325.18%	321.85%	303.72%
Regulatory Leverage Ratio ⁽³⁾	30.75%	31.07%	32.93%
Effective Leverage Ratio ⁽⁴⁾	37.33%	37.68%	39.70%

(1) As of June 28, 2016, taking into account the issuance by the Acquiring Fund of \$145,000,000 of VMTP Shares at liquidation value in June 2016, the Asset Coverage Ratio was 314.66%, the Regulatory Leverage Ratio was 31.78% and the Effective Leverage Ratio was 36.72%.

(2) A Fund's asset coverage ratio is defined under the 1940 Act as the ratio that the value of the total assets of the Fund, less all liabilities and indebtedness not represented by preferred shares or senior securities representing indebtedness, bears to the aggregate amount of preferred shares and senior securities representing indebtedness issued by the Fund.

- (3) Regulatory leverage consists of preferred shares or debt issued by the Fund. Both of these are part of a Fund's capital structure. Regulatory leverage is sometimes referred to as 1940 Act Leverage and is subject to asset coverage limits set forth in the 1940 Act.
- (4) Effective leverage is a Fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative investments in the Fund's portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings, in addition to any regulatory leverage, are included in effective leverage ratios.

Board Members and Officers. The Funds have the same Board Members and officers. The management of each Fund, including general supervision of the duties performed by the Fund's investment adviser under an investment management agreement between the investment adviser and such Fund (each, an Investment Management Agreement), is the responsibility of its Board. Effective July 1, 2016, each Fund has twelve (12) Board Members, two (2) of whom are interested persons, as defined in the 1940 Act, and ten (10) of whom are not interested persons. The names and business addresses of the Board Members and officers of the Funds and their principal occupations and other affiliations during the past five years are set forth under Proposal No. 1 The Election of Board Members.

Pursuant to each Fund's by-laws, the Fund's Board is divided into three classes (Class I, Class II and Class III) with staggered multi-year terms, such that only the members of one of the three classes stand for election each year; provided, however, that holders of preferred shares are entitled as a class to elect two trustees of each Fund at all times. The staggered board structure could delay for up to two years the election of a majority of the Board of each Fund. To the extent the preferred shares are held by a small number of institutional holders, a few holders could exert influence on the selection of the Board as a result of the requirement that holders of preferred shares be entitled to elect two trustees of each Fund at all times. This board structure will remain in place following the closing of the Reorganizations.

Investment Adviser. Nuveen Fund Advisors, LLC (previously defined as Nuveen Fund Advisors or the Adviser), the Funds' investment adviser, offers advisory and investment management services to a broad range of investment company clients. Nuveen Fund Advisors has overall responsibility for management of the Funds, oversees the management of the Funds' portfolios, manages the Funds' business affairs and provides certain clerical, bookkeeping and other administrative services. Nuveen Fund Advisors is located at 333 West Wacker Drive, Chicago, Illinois 60606.

Nuveen Fund Advisors, a registered investment adviser, is a subsidiary of Nuveen Investments, Inc. (previously defined as Nuveen or Nuveen Investments). Nuveen Investments is an operating division of TIAA Global Asset Management (TGAM), the investment management arm of Teachers Insurance and Annuity Association of America (TIAA). TIAA is a life insurance company founded in 1918 by the Carnegie Foundation for the Advancement of Teaching and is the companion organization of College Retirement Equities Fund. As of March 31, 2016, TGAM managed approximately \$861.4 billion in assets, of which approximately \$229.7 billion was managed by Nuveen Fund Advisors and other subsidiaries of Nuveen Investments.

Nuveen Fund Advisors has selected its wholly owned subsidiary, Nuveen Asset Management, LLC (previously defined as Nuveen Asset Management or the Sub-Adviser), located at 333 West Wacker Drive, Chicago, Illinois 60606, to serve as a sub-adviser to each of the Funds pursuant to a sub-advisory agreement between Nuveen Fund Advisors and Nuveen Asset Management (the Sub-Advisory Agreement). Nuveen Asset Management, a registered investment adviser, oversees day-to-day operations and manages the investment of the Funds' assets on a discretionary basis, subject to the supervision of Nuveen Fund Advisors. Pursuant to the Sub-Advisory Agreement, Nuveen Asset

Management is compensated for the services it provides to the Funds with a portion of the management fee Nuveen Fund Advisors receives from each Fund. Nuveen Fund Advisors and Nuveen Asset Management retain the right to reallocate investment advisory responsibilities and fees between themselves in the future.

Unless earlier terminated as described below, each Fund's Investment Management Agreement with Nuveen Fund Advisors will remain in effect until August 1, 2016. Each Investment Management Agreement continues in effect from year to year so long as such continuation is approved at least annually by: (1) the Board or the vote of a majority of the outstanding voting securities of the Fund; and (2) a majority of the Board Members who are not interested persons of any party to the Investment Management Agreement, cast in person at a meeting called for the purpose of voting on such approval. Each Investment Management Agreement may be terminated at any time, without penalty, by either the Fund or Nuveen Fund Advisors upon 60 days' written notice and is automatically terminated in the event of its assignment, as defined in the 1940 Act.

Pursuant to each Investment Management Agreement, each Fund has agreed to pay an annual management fee for the overall advisory and administrative services and general office facilities provided by Nuveen Fund Advisors. Each Fund's management fee consists of two components—a complex-level fee, based on the aggregate amount of all eligible fund assets managed by Nuveen Fund Advisors, and a specific fund-level fee, based only on the amount of assets within such Fund. This pricing structure enables the Funds' shareholders to benefit from growth in assets within each individual Fund as well as from growth of complex-wide assets managed by Nuveen Fund Advisors.

For the fiscal year ended February 29, 2016, the effective management fee rates of the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3, expressed as a percentage of average total daily net assets (including assets attributable to leverage), were 0.57%, 0.60% and 0.60%, respectively.

The annual fund-level fee rate for each Fund, payable monthly, is calculated according to the following schedules:

Current Fund-Level Fee Schedule for each Fund

Average Total Daily Net Assets*	Fund-Level Fee Rate
For the first \$125 million	0.4500%
For the next \$125 million	0.4375%
For the next \$250 million	0.4250%
For the next \$500 million	0.4125%
For the next \$1 billion	0.4000%
For net assets over \$2 billion	0.3750%

* For this purpose, average total daily net assets include net assets attributable to preferred shares and residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts.

On May 24-26, 2016, Nuveen Fund Advisors proposed and the Board of each Fund approved an amended management fee schedule for each Fund, to take effect as of August 1, 2016, that includes an additional breakpoint, providing for a lower effective fund-level management fee rate payable with respect to managed assets over \$5 billion, and standardizes each Fund's Investment Management Agreement with the investment management agreements of Nuveen's newer municipal closed-end

funds. No Fund individually had managed asset of \$5 billion as of February 29, 2016. In addition, the pro forma managed assets of the combined fund as of February 29, 2016 do not total \$5 billion, and it is not expected that the Acquiring Fund will have \$5 billion in managed assets immediately following the closing of the Reorganizations. Accordingly, it is not expected that shareholders of the Funds will benefit from the new breakpoint prior to or immediately following the Reorganizations.

The annual fund-level fee rate for each Fund under its amended management fee schedule, payable monthly, will be calculated according to the following schedule:

Proposed Fund-Level Fee Schedule for each Fund

Average Daily Managed Assets*	Fund-Level Fee Rate
For the first \$125 million	0.4500%
For the next \$125 million	0.4375%
For the next \$250 million	0.4250%
For the next \$500 million	0.4125%
For the next \$1 billion	0.4000%
For the next \$3 billion	0.3750%
For managed assets over \$5 billion	0.3625%

* For this purpose, managed assets means the total assets of the Fund, minus the sum of its accrued liabilities (other than Fund liabilities incurred for the express purpose of creating leverage). Total assets for this purpose shall include assets attributable to the Fund's use of effective leverage (whether or not those assets are reflected in the Fund's financial statements for purposes of U.S. generally accepted accounting principles).

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. Each Fund pays all of its other costs and expenses of its operations, including compensation of its Board Members (other than those affiliated with the Adviser), custodian, transfer agency and dividend disbursing expenses, legal fees, expenses of independent auditors, expenses of repurchasing shares, expenses of issuing any preferred shares, expenses of preparing, printing and distributing shareholder reports, notices, proxy statements and reports to governmental agencies, listing fees and taxes, if any. For the services provided pursuant to each Fund's Sub-Advisory Agreement, Nuveen Fund Advisors pays Nuveen Asset Management a fee, payable monthly, equal to 38.4615% of the management fee (net of applicable waivers and reimbursements) paid by the Fund to Nuveen Fund Advisors.

The effective fund-level management fee rate as a percentage of average daily managed assets for the combined fund is expected to be lower than the effective fund-level fee rate for each of Dividend Advantage 3 and the Acquiring Fund due to the combination of the assets of the Funds and the combined fund's ability to benefit from available breakpoints in the applicable fee schedule that reduces the fee rate as the managed assets increase in size. However, the effective fund-level management fee rate as a percentage of average daily managed assets for the combined fund is expected to be slightly higher than the current effective fund-level fee rate for Dividend Advantage 2 because the combined fund is expected to make greater use of regulatory leverage (i.e., leverage attributable to preferred shares and bank borrowings) than Dividend Advantage 2. See the Comparative Fee Table on page 37 for more detailed information regarding fees and expenses.

Each Fund also pays a complex-level fee to Nuveen Fund Advisors, which is payable monthly and is in addition to the fund-level fee. The complex-level fee is based on the aggregate daily amount of eligible assets for all Nuveen sponsored funds in the United States, as stated in the table below. As of February 29, 2016, the complex-level fee rate for each Fund was 0.1640%.

The annual complex-level fee for each Fund, payable monthly, is calculated according to the following schedule:

Complex-Level Fee Rates

Complex-Level Managed Asset Breakpoint Level*	Effective Rate at Breakpoint Level
\$55 billion	0.2000%
\$56 billion	0.1996%
\$57 billion	0.1989%
\$60 billion	0.1961%
\$63 billion	0.1931%
\$66 billion	0.1900%
\$71 billion	0.1851%
\$76 billion	0.1806%
\$80 billion	0.1773%
\$91 billion	0.1691%
\$125 billion	0.1599%
\$200 billion	0.1505%
\$250 billion	0.1469%
\$300 billion	0.1445%

* For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to certain types of leverage. For these purposes, leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen funds that constitute eligible assets. Eligible assets do not include assets attributable to investments in other Nuveen funds or assets in excess of \$2 billion added to the Nuveen fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011.

A discussion of the basis for the Board's most recent approval of each Fund's Investment Management Agreement and Sub-Advisory Agreement will be included in the Fund's Semi-Annual Report for the reporting period ending August 31, 2016.

Portfolio Management. Subject to the supervision of Nuveen Fund Advisors, Nuveen Asset Management is responsible for execution of specific investment strategies and day-to-day investment operations. Nuveen Asset Management manages the portfolios of the Funds using a team of analysts and a portfolio manager that focuses on a specific group of funds. Scott R. Romans, Ph.D., is the portfolio manager of the Acquiring Fund and each Target Fund. Mr. Romans assumed portfolio management responsibility for each Fund in September 2003. Mr. Romans will continue to manage the Acquiring Fund upon completion of the Reorganizations.

Scott R. Romans, Ph.D., Senior Vice President of Nuveen Asset Management, joined Nuveen Investments in 2000 as a senior analyst in the education sector. In 2003, he was assigned management responsibility for several closed- and open-ended municipal bond funds, most of which are state funds covering California and other western states. Currently, he manages investments for 16 Nuveen-sponsored investment companies. He holds an undergraduate degree from the University of Pennsylvania and an M.A. and Ph.D. from the University of Chicago.

Comparative Risk Information

Because the Acquiring Fund and the Target Funds have the same investment objectives and substantially similar investment policies and portfolio compositions, the principal risks of an investment in each Fund are substantially similar. Each Fund is subject to various risks associated with investing primarily in a portfolio of municipal securities and employing leverage, which include:

Municipal Securities Risk. Special factors may adversely affect the value of municipal securities and have a significant effect on the yield or value of a Fund's investments in municipal securities. These factors include economic conditions, political or legislative changes, regulatory developments or enforcement actions, uncertainties related to the tax status of municipal securities, or the rights of investors.

Tax Risk. The tax treatment of Fund distributions may be affected by new Internal Revenue Service (IRS) interpretations of the Code and future changes in tax laws and regulations.

Leverage Risk. Each Fund's use of leverage creates the possibility of higher volatility for the Fund's per share net asset value, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful.

Inverse Floater Risk. The Funds may invest in inverse floaters. Due to their leveraged nature, these investments can greatly increase a Fund's exposure to interest rate risk and credit risk. In addition, investments in inverse floaters involve the risk that the Fund could lose more than its original principal amount.

Issuer Credit Risk. This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due. Investments in lower rated securities are subject to higher risks than investments in higher rated securities.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

State Concentration Risk. Each Fund's policy of investing in municipal securities of issuers located in California makes the Fund more susceptible to local adverse economic, political or regulatory changes affecting municipal bond issuers.

Reinvestment Risk. If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

Call Risk or Prepayment Risk. Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower yielding securities.

Derivatives Risk. The Funds may use derivative instruments which involve a high degree of financial risk, including the risk that the loss on a derivative may be greater than the principal amount invested.

Municipal Bond Market Liquidity Risk. Inventories of municipal bonds held by brokers and dealers have decreased in recent years, lessening their ability to make a market in

these securities. This reduction in market making capacity has the potential to decrease a Fund's ability to buy or sell bonds, and increase bond price volatility and trading costs, particularly during periods of economic or market stress. In addition, recent changes to federal banking regulations may cause certain dealers to reduce their inventories of municipal bonds, which may further decrease a Fund's ability to buy or sell bonds. As a result, a Fund may be forced to accept a lower price to sell a security, to sell other securities to raise cash, or to give up an investment opportunity, any of which could have a negative effect on performance. If a Fund needed to sell large blocks of bonds, those sales could further reduce the bonds' prices and hurt performance.

High Yield Securities Risk. High yield securities, which are rated below investment grade and commonly referred to as junk bonds, are speculative and high risk investments that may cause income and principal losses for the Fund. They generally have greater credit risk, involve greater risks of default, downgrade, or price declines, are less liquid and have more volatile prices than investment-grade securities. Issuers of high yield securities are less financially strong, are more likely to encounter financial difficulties, and are more vulnerable to adverse market events and negative sentiments than issuers with higher credit ratings.

The principal risks of investing in the Acquiring Fund are described in more detail in the Memorandum.

Comparative Expense Information

The information in the table reflects the fees and expenses for each Fund's fiscal year ended February 29, 2016, and the pro forma expenses for the twelve (12) months ended February 29, 2016, for the combined fund following the Reorganizations. The figures in the Example are not necessarily indicative of past or future expenses, and actual expenses may be greater or less than those shown. The Funds' actual rates of return may be greater or less than the hypothetical 5% annual return shown in the Example.

	Dividend Advantage 2	Dividend Advantage 3	Acquiring Fund	Nuveen California Dividend Advantage Municipal Fund Pro Forma ⁽²⁾
Annual Expenses (as a percentage of net assets applicable to common shares)

Total Annual Expenses	1.4575%	1.5009%	1.5532%	1.5170%

(1) Annual Expenses (as a percentage of net assets applicable to common shares) for Dividend Advantage 2 and Dividend Advantage 3 are based on the expenses of each Target Fund for the twelve (12) months ended February 29, 2016. Annual Expenses (as a percentage of net assets applicable to common shares) for the Acquiring Fund are based on the expenses of the Acquiring Fund for the twelve (12) months ended February 29, 2016, adjusted for the June 2016 issuance of \$145,000,000 of VMTP Shares at liquidation value. Annual Expenses (as a percentage of net assets applicable to common shares) for the Nuveen California Dividend Advantage Municipal Fund Pro Forma are based on the expenses of the Target Funds and the Acquiring Fund for the twelve (12) months ended February 29, 2016, adjusted for the Acquiring Fund's June 2016 issuance of \$145,000,000 of VMTP Shares at liquidation value.

- (2) Pro Forma figures reflect the anticipated reduction of certain duplicative expenses eliminated as a result of the Reorganization. Pro Forma expenses do not include the expenses to be borne by the common shareholders of the Funds in connection with the Reorganizations, which are estimated to be \$450,000 (0.03%) for the Acquiring Fund, \$260,000 (0.11%) for Dividend Advantage 2 and \$375,000 (0.11%) for Dividend Advantage 3. All percentages are based on average net assets applicable to common shares for the twelve (12) months ended February 29, 2016.
- (3) Fees on Preferred Shares assume annual dividends paid and amortization of offering costs for VRDP Shares and annual liquidity and remarketing fees for VRDP Shares, where applicable. Interest and Related Expenses from Inverse Floaters include interest expense attributable to inverse floating rate securities created by selling a fixed-rate bond to a broker dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (self-deposited inverse floating rate securities). To the extent each Fund creates self-deposited inverse floating rate securities, the Fund recognizes interest expense because accounting rules require the Fund to treat interest paid by such trusts as having been paid (indirectly) by the Fund. Because the Fund also recognizes a corresponding amount of additional interest earned (also indirectly), the Fund's net asset value per share, net investment income and total return are not affected by this accounting treatment. The actual fees on preferred shares and interest and related expenses from inverse floaters incurred in the future may be higher or lower. The Funds' use of leverage will increase the amount of management fees paid to the Adviser and Sub-Adviser.
- (4) Other Expenses are estimated based on actual expenses from the prior fiscal year.

Example: The following examples illustrate the expenses that a common shareholder would pay on a \$1,000 investment that is held for the time periods provided in the table. The examples assume that all dividends and other distributions are reinvested and that Total Annual Expenses remain the same. The examples also assume a 5% annual return. The examples should not be considered a representation of future expenses. Actual expenses may be greater or lesser than those shown.

Dividend Advantage 3	\$ 15	\$ 47	\$ 82	\$ 179

Comparative Performance Information

Comparative total return performance for the Funds for periods ended February 29, 2016:

	Average Annual Total Return on Net Asset Value			Average Annual Total Return on Market Value		
	One Year	Five Years	Ten Years	One Year	Five Years	Ten Years
Acquiring Fund	6.73%	11.43%	6.65%	9.79%	12.28%	6.67%
Dividend Advantage 2	7.03%	9.87%	6.40%	13.22%	10.68%	6.85%
Dividend Advantage 3	7.26%	10.67%	6.01%	13.31%	11.37%	6.41%

Average Annual Total Return on Net Asset Value is the combination of changes in common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvestment price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Average Annual Total Return on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances it may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Past performance information is not necessarily indicative of future results.

B. RISK FACTORS

The principal risks of investing in VRDP Shares of the Acquiring Fund are described under the caption "Risk Factors" in the Memorandum. An investment in the VRDP Shares of Dividend Advantage 2 and Dividend Advantage 3 is also generally subject to these principal risks. The risks and special considerations discussed in the Memorandum should be considered by holders of VRDP Shares of each Fund in their evaluation of the Reorganizations.

C. INFORMATION ABOUT THE REORGANIZATIONS

General

The boards of directors/trustees of Nuveen's municipal closed-end funds, including the Board of each Fund, have approved a series of combinations of single-state municipal closed-end funds, including the Reorganization of each Target Fund into the Acquiring Fund. Each Fund's Board has determined that its respective Reorganization(s) would be in the best interests of its Fund. Each Fund's Board considered the Reorganization(s) as part of a broad initiative to rationalize the product offerings of Nuveen funds and eliminate overlapping products. As noted above, the Acquiring Fund and the Target Funds have the same investment objectives and substantially similar investment policies, risks and portfolio compositions.

Based on information provided by Nuveen Fund Advisors, each Fund's Board believes that the proposed Reorganizations may benefit common shareholders in a number of ways, including, among other things:

The potential for higher common share net earnings over time from increased operating economies of scale, which may support higher distribution rates in the future and increase investor interest in the combined fund, and, in turn, may lower the trading discount to net asset value of common shares;

Increased portfolio and leverage management flexibility due to the significantly larger asset base of the combined fund;

Improved secondary market trading for common shares as a result of the combined fund's greater share volume, which may lead to narrower bid-ask spreads and smaller trade-to-trade price movements; and

The potential for lower fund operating expenses over time, as certain fixed costs are spread over a larger asset base (however, total expenses including leverage are expected to be slightly higher for each Target Fund due to increased leverage).

The pro forma expense ratio of the combined fund including the costs of leverage, expressed as a percentage of net assets applicable to common shares as of February 29, 2016, is estimated to be approximately six basis points (0.06%) higher than the total expense ratio of Dividend Advantage 2 and approximately two basis points (0.02%) higher than the total expense ratio of Dividend Advantage 3 because the combined fund is expected to make greater use of regulatory leverage (i.e., leverage attributable to preferred shares and bank borrowings) than each Target Fund. See the Comparative Fee Table on page 37.

The closing of each Reorganization is contingent upon the closing of all of the Reorganizations. The closing of each Reorganization is also subject to the satisfaction or waiver of certain closing conditions, which include customary closing conditions. In order for the Reorganizations to occur, all requisite shareholder approvals must be obtained at the Annual Meetings, and certain other consents, confirmations and/or waivers must also be obtained from various third parties, including the holder of the Acquiring Fund's outstanding VMTP Shares and the liquidity providers with respect to the Funds' outstanding VRDP Shares. Because the closing of the Reorganizations is contingent upon each of the Target Funds and the Acquiring Fund obtaining such shareholder approvals and satisfying (or obtaining the waiver of) other closing conditions, it is possible that the Reorganizations will not occur, even if shareholders of your Fund entitled to vote on your Fund's Reorganization proposal(s) approve such proposal(s) and your Fund satisfies all of its closing conditions, if one or more of the other Funds does not obtain its requisite shareholder approvals or satisfy (or obtain the waiver of) its closing conditions. If the requisite shareholder approvals are not obtained, each Fund's Board may take such actions as it deems in the best interests of its Fund.

Terms of the Reorganizations

General. The Agreement and Plan of Reorganization by and among the Acquiring Fund and each Target Fund (the "Agreement"), in the form attached as Appendix A to this Joint Proxy Statement, provides for: (1) the Acquiring Fund's acquisition of substantially all of the assets of each Target Fund in exchange for newly issued common shares of the Acquiring Fund, par value \$0.01 per share, and newly issued VRDP Shares of the Acquiring Fund, with a par value of \$0.01 per share and a liquidation preference of \$100,000 per share, and the Acquiring Fund's assumption of substantially all of the liabilities of each Target Fund; and (2) the distribution of the newly issued Acquiring Fund common shares and Acquiring Fund preferred shares received by each Target Fund to its common and preferred shareholders, respectively, as part of the liquidation, dissolution and termination of each Target Fund in accordance with applicable law. No fractional Acquiring Fund common shares will be distributed to a Target Fund's common shareholders in connection with a Reorganization and, in lieu of such fractional shares, each Target Fund's common shareholders entitled to receive a fractional share will receive cash in an amount equal to a pro-rata share of the proceeds from the sale by the Acquiring Fund's transfer agent of the aggregated fractional shares in the open market (as described further below), which may be higher or lower than net asset value. Preferred shareholders of each Target Fund will receive the same number of Acquiring Fund VRDP Shares having terms substantially similar to those of the outstanding preferred shares of the Target Fund held by such preferred shareholders immediately prior to the closing of the Reorganizations. The aggregate liquidation preference of the Acquiring Fund preferred shares received in connection with each Reorganization will equal the aggregate liquidation preference of the corresponding Target Fund preferred shares held immediately prior to the closing of the Reorganization. The preferred shares of the Acquiring Fund to be issued in connection with the Reorganizations will have equal priority with each other and with the Acquiring Fund's other outstanding preferred shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. In addition, the preferred shares of the Acquiring Fund, including the preferred shares of the Acquiring Fund to be issued in connection with the Reorganizations, will be senior in priority to the Acquiring Fund's common shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund.

As a result of the Reorganizations, the assets of the Acquiring Fund and each Target Fund would be combined, and the shareholders of each Target Fund would become shareholders of the

Acquiring Fund. The closing date is expected to be on or about October 12, 2016, or such other date as the parties may agree (the Closing Date). Following the Reorganizations, each Target Fund would terminate its registration as an investment company under the 1940 Act. The Acquiring Fund will continue to operate after the Reorganizations as a registered closed-end management investment company, with the investment objectives and policies described in this Joint Proxy Statement.

Following the Reorganizations, each preferred shareholder of a Target Fund would own the same number of Acquiring Fund preferred shares with the same aggregate liquidation preference as the preferred shares of the Target Fund held by such shareholder immediately prior to the closing of the Reorganizations, with terms substantially similar to those of the outstanding preferred shares of the Target Fund held by such preferred shareholder immediately prior to the closing of the Reorganizations. As a result of the Reorganizations, preferred shareholders of the Funds would hold reduced voting percentages of preferred shares in the combined fund than they held in the Acquiring Fund or Target Fund individually. In addition, all of the VMTP Shares of the Acquiring Fund are currently owned by a single institutional investor.

Valuation of Assets and Liabilities. If the Reorganizations are approved and the other closing conditions are satisfied or waived, the value of the net assets of each Target Fund will be the value of its assets, less its liabilities, computed as of the close of regular trading on the NYSE on the business day immediately prior to the Closing Date (such time and date being hereinafter called the Valuation Time). The value of each Target Fund's assets will be determined by using the valuation procedures of the Nuveen closed-end funds adopted by the Board or such other valuation procedures as will be mutually agreed upon by the parties. The value of each Target Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all outstanding preferred shares of such Target Fund.

Amendments. Under the terms of the Agreement, the Agreement may be amended, modified or supplemented in such manner as may be mutually agreed upon in writing by each Fund as specifically authorized by each Fund's Board; provided, however, that following the receipt of shareholder approval of the Agreement at the Annual Meeting, no such amendment, modification or supplement may have the effect of changing the provisions for determining the number of Acquiring Fund shares to be issued to each Target Fund's shareholders under the Agreement to the detriment of such shareholders without their further approval.

Conditions. Under the terms of the Agreement, the closing of the Reorganizations is subject to the satisfaction or waiver of the following closing conditions: (1) the requisite approval by the shareholders of each Fund, as applicable, of the proposals with respect to the Reorganization(s) in this Joint Proxy Statement, (2) each Fund's receipt of an opinion substantially to the effect that its Reorganization(s) will qualify as a reorganization under the Code (see Material Federal Income Tax Consequences of the Reorganizations), (3) the absence of legal proceedings challenging the Reorganizations, and (4) the Funds' receipt of certain customary certificates and legal opinions. Additionally, in order for the Reorganizations to occur, each Fund must obtain certain consents, confirmations and/or waivers from various third parties, including the holder of the Acquiring Fund's outstanding VMTP Shares and the liquidity providers with respect to the Funds' outstanding VRDP Shares.

Termination. The Agreement may be terminated by the mutual agreement of the parties and such termination may be effected by each Fund's Chief Administrative Officer or a Vice President

without further action by the Board. In addition, any Fund may at its option terminate the Agreement at or before the closing due to: (1) a breach by any other party of any representation, warranty or agreement contained therein to be performed at or before the closing, if not cured within 30 days of the breach and prior to the closing; (2) a condition precedent to the obligations of the terminating party that has not been met and it reasonably appears it will not or cannot be met; or (3) a determination by its Board that the consummation of the transactions contemplated by the Agreement is not in the best interests of the Fund.

Reasons for the Reorganizations

Based on the considerations below, the Board of each Fund, including the Independent Board Members, has determined that its Fund's Reorganization(s) would be in the best interests of its Fund and that the interests of the existing shareholders of such Fund would not be diluted as a result of such Reorganization(s). At a meeting held on May 24-26, 2016 (the May Meeting), the Boards approved the Reorganizations and recommended that shareholders of the respective Funds approve the Reorganizations.

During the time leading up to the May Meeting, the Adviser made presentations, and the Boards received a variety of materials, relating to the proposed Reorganizations, including the rationale therefor. Prior to approving the Reorganizations, the Independent Board Members reviewed the foregoing information with their independent legal counsel and with management, reviewed with independent legal counsel applicable law and their duties in considering such matters and met with independent legal counsel in private sessions without management present. The Boards considered a number of principal factors presented at the time of the May Meeting or at prior meetings in reaching their determinations, including the following:

the compatibility of the Funds' investment objectives, policies and related risks;

the consistency of portfolio management;

the anticipated improved economies of scale and an additional breakpoint in the fund-level management fee schedule, creating the potential for lower fund operating expenses (i.e., total expenses excluding the costs of leverage) over time;

the potential for improved secondary market trading with respect to the common shares;

the anticipated federal income tax-free nature of the Reorganizations;

the expected costs of the Reorganizations;

the terms of the Reorganizations and whether the Reorganizations would dilute the interests of the shareholders of the Funds;

the effect of the Reorganizations on shareholder rights; and

any potential benefits of the Reorganizations to the Adviser and its affiliates as a result of the Reorganizations.

Compatibility of Investment Objectives, Policies and Related Risks. Based on the information presented, the Boards noted that the Funds have the same investment objectives and substantially similar investment policies and risks. The Boards noted that each Fund is a diversified fund that invests primarily in municipal securities the income from which is exempt from regular federal and California income taxes. In addition, under normal circumstances, each Fund invests at least 80% of its Managed Assets in investment-grade securities. The Boards considered that the portfolio compositions of the Funds are substantially similar and considered the impact of the Reorganizations on each Fund's portfolio, including any shifts in sector allocations, credit ratings, duration, yield and leverage costs. Accordingly, they also considered the relative performance of the Funds and the factors that may affect the future performance of the combined fund. The Boards also recognized that each Fund utilizes leverage. Because the Funds have substantially similar investment strategies, the principal risks of each Fund are also substantially similar.

Consistency of Portfolio Management. The Boards considered that each Fund has the same investment adviser, sub-adviser and portfolio manager, and that such portfolio manager would continue to manage the combined fund upon completion of the Reorganizations. Through the Reorganizations, the Boards recognized that shareholders will remain invested in a closed-end management investment company that will have greater net assets and benefits from potential economies of scale; the same investment adviser, sub-adviser, portfolio manager and investment objectives; and substantially similar investment strategies.

Anticipated Improved Economies of Scale and Additional Breakpoint in the Management Fee Schedule, Creating the Potential for Lower Operating Expenses Over Time. The Boards considered the fees and expense ratios of each of the Funds (including estimated expenses of the combined fund following the Reorganizations). In this regard, the Boards recognized the potential for lower fund operating expenses over time, as certain fixed costs are spread over a larger asset base. The Boards also took into account the Adviser's position that the greater asset size of the combined fund may provide increased portfolio and leverage management flexibility. In addition, as each Fund utilizes leverage, the Boards considered the differences in the costs of leverage among the Funds and the impact of the Reorganizations on such costs. The Boards further noted that the combined fund was expected to make greater use of regulatory leverage (i.e., leverage attributable to preferred shares and bank borrowings) than each Target Fund, including through the issuance of preferred shares by the Acquiring Fund. Moreover, they recognized that the combined fund's expected use of leverage could impact its estimated fees and expense ratio. In addition, at the May Meeting, the Adviser proposed and the Board of each Fund approved an amended management fee schedule for each Fund, to take effect as of August 1, 2016, that includes an additional breakpoint, providing for a lower effective fund-level management fee rate payable with respect to managed assets over \$5 billion, and standardizes each Fund's Investment Management Agreement with the investment management agreements of Nuveen's newer municipal closed-end funds.

Potential for Improved Secondary Market Trading with Respect to the Common Shares. While it is not possible to predict trading levels following the Reorganizations, the Boards noted that the Reorganizations are being proposed, in part, to seek to enhance the secondary trading market for the common shares of the Funds. The Boards considered that the combined fund's greater share volume may result in improved secondary market trading after the Reorganizations, which may lead to narrower bid-ask spreads and smaller trade-to-trade price movements.

Anticipated Tax-Free Reorganizations; Capital Loss Carryforwards. The Reorganizations will be structured with the intention that they qualify as tax-free reorganizations for federal income tax purposes, and the Funds will obtain opinions of counsel substantially to this effect (based on certain factual representations and certain customary assumptions). In addition, the Boards considered the impact of the Reorganizations on any estimated capital loss carryforwards of the Funds and applicable limitations of federal income tax rules.

Expected Costs of the Reorganizations. The Boards considered the terms and conditions of the Agreement, including the estimated costs associated with the Reorganizations and the allocation of such costs among the Acquiring Fund and each Target Fund. The Boards also noted, however, that, assuming the Reorganizations are consummated, the Adviser anticipated that the projected costs of each Reorganization may be recovered over time for the common shareholders and that preferred shareholders will not bear any costs of the Reorganizations.

Terms of the Reorganizations and Impact on Shareholders. The terms of the Reorganizations are intended to avoid dilution of the interests of the existing shareholders of the Funds. In this regard, the Boards considered that each holder of common shares of a Target Fund will receive common shares of the Acquiring Fund (taking into account any fractional shares to which the shareholder would be entitled) equal in value as of the Valuation Time to the aggregate per share net asset value of that shareholder's Target Fund common shares held as of the Valuation Time. However, no fractional common shares of the Acquiring Fund will be distributed to a Target Fund's common shareholders in connection with the Reorganizations. In lieu of such fractional shares, the respective Target Fund's common shareholders will receive cash.

Preferred shareholders of each Target Fund will receive the same number of Acquiring Fund VRDP Shares, having terms substantially similar to those of the outstanding preferred shares of the Target Fund held by such preferred shareholders immediately prior to the closing of the Reorganizations. The aggregate liquidation preference of the Acquiring Fund preferred shares received in connection with each Reorganization will equal the aggregate liquidation preference of the corresponding Target Fund preferred shares held immediately prior to the closing of the Reorganization.

Effect on Shareholder Rights. The Boards considered that each Fund is organized as a Massachusetts business trust. In this regard, there will be no change to shareholder rights under state statutory law.

Potential Benefits to Nuveen Fund Advisors and Affiliates. The Boards recognized that the Reorganizations may result in some benefits and economies of scale for the Adviser and its affiliates. These may include, for example, a reduction in the level of operational expenses incurred for administrative, compliance and portfolio management services as a result of the elimination of the Target Funds as separate funds in the Nuveen complex.

Conclusion. Each Board, including the Independent Board Members, approved the Reorganization(s) involving its Fund, concluding that such Reorganization(s) are in the best interests of its Fund and that the interests of existing shareholders of the Fund will not be diluted as a result of the Reorganization(s).

Capitalization

The following table sets forth the unaudited capitalization of the Funds as of February 29, 2016 and the pro-forma combined capitalization of the combined fund as if the Reorganizations had occurred on that date. The table reflects pro forma exchange ratios of approximately 0.99792618 common shares of the Acquiring Fund issued for each common share of Dividend Advantage 2 and approximately 0.92473205 common shares of the Acquiring Fund issued for each common share of Dividend Advantage 3. If the Reorganizations are consummated, the actual exchange ratios may vary.

- (2) The pro forma balances are presented as if the Reorganizations were effective as of February 29, 2016, and are presented for informational purposes only. The actual Closing Date of the Reorganizations is expected to be on or about October 12, 2016, or such later time agreed to by the parties at which time the results would be reflective of the actual composition of shareholders' equity as of that date. All pro forma adjustments are directly attributable to the Reorganizations.

- (3) Assumes the issuance of 14,729,503 and 22,334,076 Acquiring Fund common shares in exchange for the net assets of Dividend Advantage 2 and Dividend Advantage 3, respectively. These numbers are based on the net asset value of the Acquiring Fund and Target Funds as of February 29, 2016, adjusted for estimated Reorganization costs and the effect of distributions.
- (4) Includes the impact of estimated total Reorganization costs of \$1,085,000, which are currently expected to be borne by the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3 in the amounts of \$450,000, \$260,000 and \$375,000, respectively.
- (5) Assumes Dividend Advantage 2 and Dividend Advantage 3 make net investment income distributions of \$322,033 and \$1,284,386, respectively.

Expenses Associated with the Reorganizations

In evaluating the Reorganizations, management of the Funds estimated the amount of expenses the Funds would incur to be approximately \$1,085,000, which includes additional stock exchange listing fees, SEC registration fees, legal and accounting fees, proxy solicitation and distribution costs and other related administrative or operational costs. The expenses of the Reorganizations (whether or not consummated) will be allocated among the Funds ratably based on the relative expected benefits of the Reorganizations comprised of forecasted operating cost savings (i.e., total expenses excluding the costs of leverage) and improved secondary market trading, if any, to each Fund during the first year following the Reorganizations. Reorganization expenses have been or will be accrued as expenses of each Fund prior to the Valuation Time. Reorganization expenses have been or will be reflected in each Fund's net asset value at or before the close of trading on the business day immediately prior to the close of the Reorganizations. These estimated expenses are currently expected to be borne by the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3 in the amounts of \$450,000 (0.03%), \$260,000 (0.11%), and \$375,000 (0.11%), respectively (all percentages are based on average net assets applicable to common shares for the twelve (12) months ended February 29, 2016). Preferred shareholders of the Funds will not bear any costs of the Reorganizations.

Additional solicitation may be made by letter or telephone by officers or employees of Nuveen Investments or the Adviser, or by dealers and their representatives. The Funds have engaged Computershare Fund Services to assist in the solicitation of proxies at an estimated aggregate cost of \$10,500 per Fund plus reasonable expenses, which is included in the foregoing estimate.

Dissenting Shareholders' Rights of Appraisal

Under the charter documents of each Fund, shareholders do not have dissenters' rights of appraisal with respect to the Reorganizations.

Material Federal Income Tax Consequences of the Reorganizations

As a condition to each Fund's obligation to consummate the Reorganizations, each Fund will receive a tax opinion from Vedder Price P.C. (which opinion will be based on certain factual representations and certain customary assumptions) with respect to its Reorganization(s) substantially to the effect that, on the basis of the existing provisions of the Code, current administrative rules and court decisions, for federal income tax purposes:

1. The transfer by the Target Fund of substantially all its assets to the Acquiring Fund solely in exchange for Acquiring Fund shares and the assumption by the Acquiring Fund of substantially all the liabilities of the Target Fund, immediately followed by the distribution of all the Acquiring Fund shares so received by the Target Fund to the Target Fund's shareholders of record in complete liquidation of the Target Fund and the dissolution of the Target Fund as soon as practicable thereafter, will constitute a

reorganization within the meaning of Section 368(a)(1) of the Code, and the Acquiring Fund and the Target Fund will each be a party to a reorganization, within the meaning of Section 368(b) of the Code, with respect to the Reorganization.

2. No gain or loss will be recognized by the Acquiring Fund upon the receipt of substantially all the Target Fund's assets solely in exchange for Acquiring Fund shares and the assumption by the Acquiring Fund of substantially all the liabilities of the Target Fund.
3. No gain or loss will be recognized by the Target Fund upon the transfer of substantially all its assets to the Acquiring Fund solely in exchange for Acquiring Fund shares and the assumption by the Acquiring Fund of substantially all the liabilities of the Target Fund or upon the distribution (whether actual or constructive) of such Acquiring Fund shares to the Target Fund's shareholders solely in exchange for such shareholders' shares of the Target Fund in complete liquidation of the Target Fund.
4. No gain or loss will be recognized by the Target Fund's shareholders upon the exchange, pursuant to the Reorganization, of all their shares of the Target Fund solely for Acquiring Fund shares, except to the extent the Target Fund's common shareholders receive cash in lieu of a fractional Acquiring Fund common share.
5. The aggregate basis of the Acquiring Fund shares received by each Target Fund shareholder pursuant to the Reorganization (including any fractional Acquiring Fund common share to which a shareholder would be entitled) will be the same as the aggregate basis of the Target Fund shares exchanged therefor by such shareholder.
6. The holding period of the Acquiring Fund shares received by each Target Fund shareholder in the Reorganization (including any fractional Acquiring Fund common share to which a shareholder would be entitled) will include the period during which the shares of the Target Fund exchanged therefor were held by such shareholder, provided such Target Fund shares are held as capital assets at the effective time of the Reorganization.
7. The basis of the assets of the Target Fund received by the Acquiring Fund will be the same as the basis of such assets in the hands of the Target Fund immediately before the effective time of the Reorganization.
8. The holding period of the assets of the Target Fund received by the Acquiring Fund will include the period during which those assets were held by the Target Fund.

No opinion will be expressed as to (1) the effect of the Reorganizations on a Target Fund, the Acquiring Fund or any Target Fund shareholder with respect to any asset (including, without limitation, any stock held in a passive foreign investment company as defined in Section 1297(a) of the Code) as to which any unrealized gain or loss is required to be recognized under federal income tax principles (a) at the end of a taxable year (or on the termination thereof) or (b) upon the transfer of such asset regardless of whether such transfer would otherwise be a non-taxable transaction under the Code, or (2) any other federal tax issues (except those set forth above) and all state, local or non-U.S. tax issues of any kind.

The opinions addressing the federal income tax consequences of the Reorganizations described above will rely on the position that the Acquiring Fund preferred shares will constitute equity of the Acquiring Fund. In that regard, Sidley Austin LLP, as special tax counsel to the Acquiring Fund, will deliver an opinion to the Acquiring Fund, subject to certain representations, assumptions and conditions, substantially to the effect that the Acquiring Fund VRDP Shares received in the Reorganizations by the holders of preferred shares of the Target Funds will qualify as equity of the Acquiring Fund for federal income tax purposes. Because the treatment of a corporate security as debt or equity is determined on the basis of the facts and circumstances of each case, and no controlling precedent exists for the preferred shares issued in the Reorganizations, there can be no assurance that the IRS will not question special tax counsel's opinion and the Acquiring Fund's treatment of the preferred shares as equity. If the IRS were to succeed in such a challenge, holders of preferred shares could be characterized as receiving taxable interest income rather than exempt-interest or other dividends, possibly requiring them to file amended income tax returns and retroactively to recognize additional amounts of ordinary income and pay additional tax, interest and penalties, and the tax consequences of the Reorganizations could differ significantly from those described in this Joint Proxy Statement.

Prior to the closing of the Reorganizations, each Target Fund will declare a distribution to its common shareholders, which, together with all other distributions to preferred and common shareholders made with respect to the taxable year in which the Reorganization occurs and all prior taxable years, will have the effect of distributing to shareholders all its net investment income and realized net capital gains (after reduction by any available capital loss carryforwards), if any, through the Closing Date of the Reorganizations. Each Fund reports distributions to common and preferred shareholders as consisting of particular types of income (such as exempt interest, ordinary income and capital gain) based on each class' proportionate share of the total distributions paid by the Fund with respect to the year. As a result, such distribution could cause a portion of the distributions received by preferred shareholders with respect to the year to be taxable for federal income tax purposes.

After the Reorganizations, the combined fund's ability to use the Target Funds' or the Acquiring Fund's pre-Reorganization capital losses may be limited under certain federal income tax rules applicable to reorganizations of this type. Therefore, in certain circumstances, shareholders may pay federal income taxes sooner, or pay more federal income taxes, than they would have had the Reorganizations not occurred. However, the effect of these potential limitations will depend on a number of factors including the amount of the losses, the amount of gains to be offset, the exact timing of the Reorganizations and the amount of unrealized capital gains in the Funds at the time of the Reorganizations. As of February 29, 2016, the Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against capital gains, if any, per the table below.

Capital losses to be carried forward	Acquiring Fund	Dividend Advantage 2	Dividend Advantage 3
Expires February 28, 2017	\$ 13,863,811	\$	\$ 4,536,999
Expires February 28, 2018	731,149	705,843	10,646,251
Expires February 28, 2019			1,340,157
Not subject to expiration	4,827,353	792,392	10,931,933
Total	\$ 19,422,313	\$ 1,498,235	\$ 27,455,340

A Fund is generally able to carry forward net capital losses arising in taxable years beginning after December 22, 2010 (post-enactment losses) indefinitely. However, net capital losses of the Funds from taxable years beginning on or prior to December 22, 2010 are subject to the expiration dates shown above and can be used only after post-enactment losses.

In addition, the shareholders of a Target Fund will receive a proportionate share of any taxable income and gains realized by the Acquiring Fund and not distributed to its shareholders prior to the closing of the Reorganizations when such income and gains are eventually distributed by the Acquiring Fund. Any gain the Acquiring Fund realizes after the Reorganizations, including any built-in gain in the portfolio investments of the Target Funds and Acquiring Fund that was unrealized at the time of the Reorganizations, may result in taxable distributions to shareholders holding preferred shares of the Acquiring Fund (including former Target Fund preferred shareholders who hold shares of the Acquiring Fund following the Reorganizations) to the extent such amounts are required to be allocated to distributions received by preferred shareholders. As a result, shareholders of a Target Fund and the Acquiring Fund may receive a greater amount of taxable distributions than they would have had the Reorganizations not occurred.

This description of the federal income tax consequences of the Reorganizations is made without regard to the particular facts and circumstances of any shareholder. Shareholders are urged to consult their own tax advisers as to the specific consequences to them of the Reorganizations, including the applicability and effect of state, local, non-U.S. and other tax laws.

The foregoing is intended to be only a summary of the principal federal income tax consequences of the Reorganizations and should not be considered to be tax advice. There can be no assurance that the IRS will concur on all or any of the issues discussed above. Shareholders are urged to consult their own tax advisers regarding the federal, state and local tax consequences with respect to the foregoing matters and any other considerations which may be applicable to them.

Shareholder Approval

Each Reorganization is required to be approved by the affirmative vote of the holders of a majority (more than 50%) of each Target Fund's outstanding common shares and preferred shares entitled to vote on the matter, voting together as a single class, and by the affirmative vote of the holders of a majority (more than 50%) of such Target Fund's outstanding preferred shares entitled to vote on the matter, voting separately. The Reorganizations also are required to be approved by the affirmative vote of the holders of a majority (more than 50%) of the Acquiring Fund's outstanding preferred shares (i.e., VMTP Shares and VRDP Shares) entitled to vote on the matter, voting as a separate class. Holders of the Funds' common shares are being solicited separately on the foregoing proposals through a separate joint proxy statement/prospectus and not through this Joint Proxy Statement.

Abstentions and broker non-votes will have the same effect as a vote against the approval of the Reorganizations. Broker non-votes are shares held by brokers or nominees, typically in street name, as to which (1) instructions have not been received from the beneficial owners or persons entitled to vote and (2) the broker or nominee does not have discretionary voting power on a particular matter.

Preferred shareholders of each Fund are separately being asked to approve the Agreement as a plan of reorganization under the 1940 Act. Section 18(a)(2)(D) of the 1940 Act provides that the terms of preferred shares issued by a registered closed-end management investment company must contain provisions requiring approval by the vote of a majority of such shares, voting as a class, of any plan of reorganization adversely affecting such shares. Because the 1940 Act makes no distinction between a plan of reorganization that has an adverse effect as opposed to a materially adverse effect, each Fund is seeking approval of the Agreement by the holders of such Fund's preferred shares.

The closing of each Reorganization is contingent upon the closing of all of the Reorganizations. The closing of each Reorganization is also subject to the satisfaction or waiver of certain closing conditions, which include customary closing conditions. In order for the Reorganizations to occur, all requisite shareholder approvals must be obtained at the Annual Meetings, and certain other consents, confirmations and/or waivers must also be obtained from various third parties, including the holder of the Acquiring Fund's VMTP Shares and the liquidity providers with respect to the Funds' outstanding VRDP Shares. Because the closing of the Reorganizations is contingent upon each of the Target Funds and the Acquiring Fund obtaining such shareholder approvals and satisfying (or obtaining the waiver of) other closing conditions, it is possible that the Reorganizations will not occur, even if shareholders of your Fund entitled to vote on your Fund's Reorganization proposal(s) approve such proposal(s) and your Fund satisfies all of its closing conditions, if one or more of the other Funds does not obtain its requisite shareholder approvals or satisfy (or obtain the waiver of) its closing conditions. VRDP Shares were issued on a private placement basis to one or a small number of institutional holders. To the extent that one or more preferred shareholders of a Fund owns, holds or controls, individually or in the aggregate, all or a significant portion of a Fund's outstanding preferred shares, one or more shareholder approvals required for the Reorganizations may turn on the exercise of voting rights by such particular shareholder(s) and its or their determination as to the favorable view of such proposal(s) with respect to its or their interests. The Funds exercise no influence or control over the determinations of such shareholders with respect to the proposals; there is no guarantee that such shareholders will approve the proposals over which they may exercise effective disposition power. If the requisite shareholder approvals are not obtained, each Fund's Board may take such actions as it deems in the best interests of its Fund.

Description of Common Shares to Be Issued by the Acquiring Fund; Comparison to Target Funds

General

As a general matter, the common shares of the Acquiring Fund and each Target Fund have equal voting rights and equal rights with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of their respective Fund and have no preemptive, conversion or exchange rights, except as the Trustees may authorize, or rights to cumulative voting. Holders of whole common shares of each Fund are entitled to one vote per share on any matter on which the shares are entitled to vote, while each fractional share entitles its holder to a proportional fractional vote. Furthermore, the provisions set forth in the Acquiring Fund's declaration of trust are substantially similar to the provisions of each Target Fund's declaration of trust, and each contains, among other things, similar super-majority voting provisions, as described under Additional Information About the Acquiring Fund Certain Provisions in the Acquiring Fund's Declaration of Trust and By-Laws. The full text of each Fund's declaration of trust is on file with the SEC and may be obtained as described on pages v-vi.

The Acquiring Fund's declaration of trust authorizes an unlimited number of common shares, par value \$0.01 per share. If the Reorganizations are consummated, the Acquiring Fund will issue additional common shares on the Closing Date to the common shareholders of each Target Fund based on the relative per share net asset value of the Acquiring Fund and the net asset value of such Target Fund that are transferred in connection with the Reorganization, in each case as of the Valuation Time. The value of a Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all of the Fund's outstanding preferred shares.

The terms of the Acquiring Fund common shares to be issued pursuant to the Reorganizations will be identical to the terms of the Acquiring Fund common shares that are then outstanding. Acquiring Fund common shares have equal rights with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The Acquiring Fund common shares, when issued, will be fully paid and non-assessable and have no preemptive, conversion or exchange rights or rights to cumulative voting. See also Description of Massachusetts Business Trusts.

Distributions

So long as preferred shares are outstanding, including VRDP Shares, the Acquiring Fund may not declare a dividend or distribution to common shareholders (other than a dividend in common shares of the Fund) or purchase outstanding common shares unless all accumulated dividends on preferred shares have been paid and unless the asset coverage, as defined in the 1940 Act, with respect to its preferred shares at the time of the declaration of such dividend or distribution or at the time of such purchase would be at least 200% after giving effect to the dividend or distribution or purchase price.

Description of VRDP Shares to Be Issued by the Acquiring Fund

The terms of the VRDP Shares of the Acquiring Fund to be issued pursuant to the Reorganization of each of Dividend Advantage 2 and Dividend Advantage 3 into the Acquiring Fund (the New VRDP Shares) will be substantially similar, as of the closing of the Reorganizations, to the outstanding Target Fund VRDP Shares for which they are exchanged. The aggregate liquidation preference of the New VRDP Shares to be received in each such Reorganization will equal the aggregate liquidation preference of the corresponding series of Target Fund VRDP Shares held immediately prior to the closing of the Reorganization.

The outstanding VRDP Shares of each Target Fund had a 30-year final mandatory redemption date as of their date of original issue, subject to earlier redemption or repurchase by the Fund. The Outstanding VRDP Shares of each Target Fund pay, and the New VRDP Shares will pay, an adjustable dividend rate set weekly by the remarketing agent. Holders of New VRDP Shares, like holders of Target Fund VRDP Shares, will have the right to give seven days notice on any business day to tender the securities for remarketing. The New VRDP Shares, like Target Fund VRDP Shares, will also be subject to a mandatory tender for remarketing upon the occurrence of certain events, such as the non-payment of dividends by the Acquiring Fund. Should a remarketing be unsuccessful, the dividend rate will reset to a maximum rate as defined in the governing documents of the New VRDP Shares, as is the case for Target Fund VRDP Shares. The New VRDP Shares issued in exchange for VRDP Shares of Dividend Advantage 2 will have the same final mandatory redemption date as the series of Target Fund VRDP Shares exchanged therefor. The New VRDP Shares issued in exchange for VRDP Shares of Dividend Advantage 3 will have a final mandatory redemption date that is approximately ten years from the date of issuance of such New VRDP Shares.

The Statement Establishing and Fixing the Rights and Preferences (a Statement) for the New VRDP Shares (each a New VRDP Statement , and collectively the New VRDP Statements) of each series generally requires that the Acquiring Fund maintain a purchase agreement which contains an unconditional demand feature pursuant to a purchase obligation provided by an entity acting as liquidity provider to ensure full and timely repayment of the liquidation preference amount plus any accumulated and unpaid dividends to holders upon the occurrence of certain events. The agreement

requires the liquidity provider to purchase from holders all New VRDP Shares of the applicable series tendered for sale that were not successfully remarketed. The liquidity provider also must purchase all outstanding New VRDP Shares of the applicable series prior to termination of the purchase agreement, including by reason of the failure of the liquidity provider to maintain the requisite short-term ratings, if the Acquiring Fund has not obtained an alternate purchase agreement before the termination date.

The obligation of each liquidity provider to purchase the New VRDP Shares of the applicable series pursuant to the applicable purchase agreement will run to the benefit of the holders and beneficial owners of the New VRDP Shares of such series and will be unconditional and irrevocable, and as such the short-term ratings assigned to each series of New VRDP Shares are directly linked to the short-term creditworthiness of the associated liquidity provider. Each liquidity provider entered into a purchase agreement with respect to the applicable series of Target Fund VRDP Shares, subject to periodic extension by agreement with the respective Fund. The initial term of the purchase agreement with the liquidity provider for the New VRDP Shares of each series is expected to be no less than the remaining term immediately prior to the Reorganizations of the applicable purchase agreement with respect to the corresponding series of Target Fund VRDP Shares exchanged therefor.

Prior to the final mandatory redemption date for the New VRDP Shares of each series, the New VRDP Shares of such series will be subject to optional and mandatory redemption by the Acquiring Fund in certain circumstances. New VRDP Shares may be redeemed at any time, at the option of the Acquiring Fund (in whole or, from time to time, in part), out of funds legally available therefor, at a redemption price per share equal to the sum of \$100,000 plus an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared) until, but excluding, the date fixed for redemption. Pursuant to the New VRDP Statements and fee agreements with the liquidity provider for the New VRDP Shares of each series, the Acquiring Fund will have an obligation to redeem, at a redemption price equal to \$100,000 per share plus accumulated but unpaid dividends thereon (whether or not earned or declared) until, but excluding, the date fixed by the Board for redemption, shares of such series purchased by the liquidity provider pursuant to its obligations under the purchase agreement if the liquidity provider continues to be the beneficial owner for a period of six months and such shares cannot be successfully remarketed. If the Acquiring Fund fails to maintain the minimum asset coverage required under the 1940 Act and under the Acquiring Fund's agreement with the liquidity provider with respect to a series of New VRDP Shares, and such failure is not cured by the applicable cure date, the Acquiring Fund also will redeem, at a redemption price equal to the liquidation preference per share plus accumulated but unpaid dividends thereon (whether or not earned or declared) until, but excluding, the date fixed by the Board for redemption, such number of preferred shares as is necessary to achieve compliance with the minimum asset coverage requirement. The number of preferred shares to be redeemed may, at the Acquiring Fund's sole option (to the extent permitted by the 1940 Act and Massachusetts law), include any number or proportion of preferred shares of any series; provided, that to the extent the Acquiring Fund does a mandatory redemption of any VRDP Shares, the Acquiring Fund will allocate the number to be redeemed pro rata among the VRDP Shares of each series subject to redemption or retirement (if more than one such series is then outstanding).

Holders of the New VRDP Shares of each series, as a separate class, will have voting and consent rights with respect to certain actions that would materially and adversely affect any preference, right or power of the New VRDP Shares of each series or holders of the New VRDP Shares of each series. Holders of the New VRDP Shares of each series also will be entitled to vote as a class with holders of other preferred shares of the Acquiring Fund on matters that relate to the conversion of the

Acquiring Fund to an open-end investment company, certain plans of reorganization adversely affecting holders of the preferred shares or any other action requiring a vote of security holders of the Acquiring Fund under Section 13(a) of the 1940 Act. Holders of preferred shares, including the New VRDP Shares of each series, are entitled to elect additional trustees constituting, when added to the two trustees elected exclusively by the holders of preferred shares, a majority of the trustees, in the event at least two full years' dividends are due and unpaid and sufficient cash or specified securities have not been deposited for their payment, or at any time holders of preferred shares are entitled under the 1940 Act to elect a majority of the trustees of the Acquiring Fund.

The New VRDP Shares of each series will be senior in priority to the Acquiring Fund's common shares as to the payment of dividends and as to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The New VRDP Shares of each series will have equal priority with each other and with the other preferred shares of the Acquiring Fund, including the Acquiring Fund's Outstanding VRDP Shares, and any other preferred shares that the Acquiring Fund may issue in the future, as to the payment of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund.

Each holder of VRDP Shares of the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3 should review the more detailed information concerning the terms of the New VRDP Shares contained in the Memorandum, which is attached as Appendix C to this Joint Proxy Statement and forms a part of this Joint Proxy Statement, and the other documents incorporated by reference or otherwise summarized in this Joint Proxy Statement and in the Memorandum, including the information set forth in the sections Comparison of the Investment Objectives and Policies of the Acquiring Fund and the Target Funds below and Risk Factors in the Memorandum as well as the forms of Statements for the New VRDP Shares, which are included in Appendix A to the Memorandum.

Differences Among VRDP Series Following the Reorganizations

Following the Reorganizations, the Acquiring Fund will have eight series of VRDP Shares (VRDP Series) outstanding.

The initial term of the purchase agreement with the liquidity provider for each of the new VRDP Series is expected to be no less than the remaining term of the applicable purchase agreement with respect to the VRDP Shares of each Target Fund immediately prior to the Reorganizations. Each such purchase agreement has an expiration date (a Scheduled Termination Date), subject to periodic extension or replacement. There is no assurance that a liquidity provider will renew, or continue to renew, the purchase agreement or that a replacement liquidity provider will be appointed. Each purchase agreement will provide for the renewal of the purchase obligation upon each Scheduled Termination Date for a minimum term of at least 180 days (or replacement with a purchase obligation with such minimum term). If a liquidity provider does not renew the purchase agreement and it is not replaced, all of the VRDP Shares of the relevant new VRDP Series will be subject to mandatory purchase by the liquidity provider prior to the expiration of the purchase obligation.

While the documents governing each VRDP Series will be substantially similar, dividend rates may vary among the VRDP Series because, for example, the applicable remarketing agent may reset the rate for one such new VRDP Series at a different level from that set by the remarketing agent for the other new VRDP Series, or the rate for one or more new VRDP Series, but not all new VRDP

Series, may reset to the maximum rate (or a different level of maximum rate) in accordance with the terms of the applicable Statement. Also, redemptions prior to the final mandatory redemption date for each VRDP Series may occur at different times and in different amounts. Finally, in the event the Acquiring Fund were to make a partial redemption of VRDP Shares, the redemption may not necessarily be effected pro rata among all series of preferred shares then outstanding.

Each VRDP Series will have the designation and final mandatory redemption date set forth below:

Fund	Current VRDP Series Outstanding	Acquiring Fund VRDP Series to Be
	and Final Mandatory Redemption	Outstanding Following the
	Date	Reorganizations and Final Mandatory
		Redemption Date

	VRDP Shares, Series 2 \$100,000 liquidation value per share Final Mandatory Redemption Date: December 1, 2040	VRDP Shares, Series 2 \$100,000 liquidation value per share Final Mandatory Redemption Date: December 1, 2040

Dividend Advantage 2	VRDP Shares, Series 1 \$100,000 liquidation value per share Final Mandatory Redemption Date: August 3, 2043	VRDP Shares, Series 7 \$100,000 liquidation value per share Final Mandatory Redemption Date: August 3, 2043
Dividend Advantage 3	VRDP Shares, Series 1 \$100,000 liquidation value per share Final Mandatory Redemption Date: September 1, 2043	VRDP Shares, Series 8 \$100,000 liquidation value per share Final Mandatory Redemption Date: Approximately ten years from the date of issuance of the New Series 8 VRDP Shares

Differences Between the VRDP Shares of Dividend Advantage 2 and Dividend Advantage 3 and the New VRDP Shares

Dividend Advantage 2 and Dividend Advantage 3 issued their respective VRDP Shares in August 2013 and September 2013, respectively. Upon consummation of the Reorganizations, the terms of each series of New VRDP Shares of the Acquiring Fund will be substantially similar to the other and consistent with the terms of offerings of VRDP Shares by Nuveen funds since at least December 2013. The following is a summary of the significant differences between the Statement for the VRDP Shares of each of Dividend Advantage 2 and Dividend Advantage 3 (each, a Target Fund VRDP Statement) and the corresponding New VRDP Statements for each series of New VRDP Shares:

for the New VRDP Shares issued in exchange for VRDP Shares of Dividend Advantage 3, a final mandatory redemption date that is approximately ten years from the date of issuance of such New VRDP Shares;

changes reflected in the New VRDP Statement, as compared with the Target Fund VRDP Statement, to conform to the terms of VRDP Shares offerings by Nuveen funds since at least December 2013, including:

further to the increased flexibility and clarification with regard to the role of ratings of VRDP Shares included in VRDP Shares offerings by Nuveen funds since at least December 2013, changes to remove from the New VRDP Statements any VRDP basic maintenance amount requirements, including any related mandatory redemption requirements, with the result that any rating agency requirements will be as set forth in the applicable rating agency guidelines with respect to long-term ratings of the VRDP Shares, as such guidelines may be amended from time to time by the applicable rating agency, and not in the Statement; and

changes to provide the Acquiring Fund with increased flexibility to provide for different or modified terms in connection with establishment of a special rate period; the establishment of a special rate period will require, as is currently the case, prior notice and the consent of the applicable liquidity provider and will constitute a Mandatory Tender Event.

If holders of common and preferred shares of the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3 vote in favor of the Reorganizations, the New VRDP Statements described above will take effect. Accordingly, a vote in favor of the Reorganizations by holders of Target Fund VRDP Shares is effectively a vote in favor of the New VRDP Statements as described above.

Description of Massachusetts Business Trusts

Each Fund is a Massachusetts business trust. The following description is based on relevant provisions of applicable Massachusetts law and each Fund's operative documents. This summary does not purport to be complete, and we refer you to applicable Massachusetts law and each Fund's operative documents.

General

A fund organized as a Massachusetts business trust is governed by the trust's declaration of trust or similar instrument.

Massachusetts law allows the trustees of a business trust to set the terms of a fund's governance in its declaration of trust. All power and authority to manage the fund and its affairs generally reside with the trustees, and shareholder voting and other rights are limited to those provided to the shareholders in the declaration of trust.

Because Massachusetts law governing business trusts provides more flexibility compared to typical state corporate statutes, the Massachusetts business trust is a common form of organization for closed-end funds. However, some consider it less desirable than other entities because it relies on the terms of the applicable declaration of trust and judicial interpretations rather than statutory provisions for substantive issues, such as the personal liability of shareholders and trustees, and does not provide the level of certitude that corporate laws, or newer statutory trust laws such as those of Delaware, provide.

Shareholders of a Massachusetts business trust are not afforded the statutory limitation of personal liability generally afforded to shareholders of a corporation from the trust's liabilities. Instead, the declaration of trust of a fund organized as a Massachusetts business trust typically provides that a shareholder will not be personally liable, and further provides for indemnification to the extent that a shareholder is found personally liable, for the fund's acts or obligations. The declaration of trust for each Fund contains such provisions.

Similarly, the trustees of a Massachusetts business trust are not afforded statutory protection from personal liability for the obligations of the trust. However, courts in Massachusetts have recognized limitations of a trustee's personal liability in contract actions for the obligations of a trust contained in the trust's declaration of trust, and declarations of trust may also provide that trustees may be indemnified out of the assets of the trust to the extent held personally liable. The declaration of trust for each Fund contains such provisions.

The Funds

Each Fund is organized as a Massachusetts business trust and is governed by its declaration of trust and by-laws. Under the declaration of trust, any determination as to what is in the interests of the Fund made by the trustees in good faith is conclusive, and in construing the provisions of the declaration of trust, there is a presumption in favor of a grant of power to the trustees. Further, the declaration of trust provides that certain determinations made in good faith by the trustees are binding upon the Fund and all shareholders, and shares are issued and sold on the condition and understanding, evidenced by the purchase of shares, that any and all such determinations will be so binding. The following is a summary of some of the key provisions of the Funds' governing documents.

Shareholder Voting. The declaration of trust of each Fund requires a shareholder vote on a number of matters, including certain amendments to the declaration of trust, the election of trustees, the merger or reorganization of the Fund (under certain circumstances) or sales of assets in certain circumstances and matters required to be voted by the 1940 Act.

Meetings of shareholders may be called by the trustees and by the written request of shareholders owning at least 10% of the outstanding shares entitled to vote. The by-laws of each Fund provide that the holders of a majority (more than 50%) of the voting power of the shares of beneficial interest of the Fund entitled to vote at a meeting will constitute a quorum for the transaction of business. The declaration of trust of each Fund provides that the affirmative vote of the holders of a majority (more than 50%) of the shares present in person or by proxy and entitled to vote at a meeting of shareholders at which a quorum is present is required to approve a matter, except in the case of the election of trustees, which requires only a plurality vote, and for events to which other voting provisions apply under the 1940 Act or the declaration of trust and by-laws, such as the super-majority voting provisions with respect to a merger, consolidation or dissolution of, or sale of substantially all of the assets by, the Fund, or its conversion to an open-end investment company in certain circumstances under the terms of the declaration of trust.

Election and Removal of Trustees. The declaration of trust of each Fund provides that the trustees determine the size of the Board, subject to a minimum and a maximum number. Subject to the provisions of the 1940 Act, the declaration of trust also provides that vacancies on the Board may be filled by the remaining trustees. A trustee may be removed only for cause and only by action of at least two-thirds of the remaining trustees or by action of at least two-thirds of the outstanding shares of the class or classes that elected such trustee.

Issuance of Shares. Under the declaration of trust of each Fund, the trustees are permitted to issue an unlimited number of shares for such consideration and on such terms as the trustees may determine. Shareholders are not entitled to any preemptive rights or other rights to subscribe to additional shares, except as the trustees may determine. Shares are subject to such other preferences, conversion, exchange or similar rights, as the trustees may determine.

Classes. The declaration of trust of each Fund gives broad authority to the trustees to establish classes or series in addition to those currently established and to determine the rights and preferences, conversion rights, voting powers, restrictions, limitations, qualifications or terms or conditions of redemptions of the shares of the classes or series. The trustees are also authorized to terminate a class or series without a vote of shareholders under certain circumstances.

Amendments to Declaration of Trust. Amendments to the declaration of trust generally require the consent of shareholders owning more than 50% of shares entitled to vote, voting in the aggregate. Certain amendments may be made by the trustees without a shareholder vote, and any amendment to the voting requirements contained in the declaration of trust requires the approval of two-thirds of the outstanding common shares and preferred shares, voting in the aggregate and not by class except to the extent that applicable law or the declaration of trust may require voting by class.

Shareholder, Trustee and Officer Liability. The declaration of trust of each Fund provides that shareholders have no personal liability for the acts or obligations of the Fund and require the Fund to indemnify a shareholder from any loss or expense arising solely by reason of his or her being or having been a shareholder and not because of his or her acts or omissions or for some other reasons. In addition, the Fund will assume the defense of any claim against a shareholder for personal liability at the request of the shareholder. Similarly, the declaration of trust provides that any person who is a trustee, officer or employee of the Fund is not personally liable to any person in connection with the affairs of the Fund, other than to the Fund and its shareholders arising from bad faith, willful misfeasance, gross negligence or reckless disregard for his or her duty. The declaration of trust further

provides for indemnification of such persons and advancement of the expenses of defending any such actions for which indemnification might be sought. The declaration of trust also provides that the trustees may rely in good faith on expert advice.

Derivative Actions. Massachusetts has what is commonly referred to as a universal demand statute, which requires that a shareholder make a written demand on the board, requesting the trustees to bring an action, before the shareholder is entitled to bring or maintain a court action or claim on behalf of the entity.

D. ADDITIONAL INFORMATION ABOUT THE INVESTMENT POLICIES

Comparison of the Investment Objectives and Policies of the Acquiring Fund and the Target Funds

General

The investment objectives of the Funds are the same. The investment objectives of each Fund are to provide current income exempt from regular federal and California income taxes and to enhance portfolio value relative to the California municipal bond market by investing in tax-exempt California municipal securities that the Adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued.

Under normal circumstances, each Fund will invest at least 80% of its Managed Assets in municipal securities and other related investments the income from which is exempt from regular federal and California income taxes. As a non-fundamental policy, under normal market conditions, the Acquiring Fund expects to be fully invested (at least 95% of its assets) in such tax-exempt municipal bonds.

Note that (1) each Fund's investment objectives; and (2) each Fund's policy to invest, under normal circumstances, at least 80% of its Managed Assets in municipal securities and other related investments the income from which is exempt from regular federal and California income taxes are fundamental investment policies of the Fund and may not be changed without the approval of the holders of a majority of the outstanding common shares and preferred shares voting together as a single class, and the approval of the holders of a majority of the outstanding preferred shares, voting separately as a single class. When used with respect to particular shares of a Fund as used in this paragraph, a majority of the outstanding shares means (1) 67% or more of the shares present at a meeting, if the holders of more than 50% of the shares are present in person or represented by proxy, or (2) more than 50% of the shares, whichever is less.

Investment Policies

The Funds have substantially similar investment policies. Each Fund pursues its investment objectives by investing, under normal circumstances, at least 80% of its Managed Assets in municipal securities and other related investments the income from which is exempt from regular federal and California income taxes. As a non-fundamental investment policy, under normal circumstances, each Fund may invest up to 20% of its Managed Assets in securities rated, at the time of investment, below the three highest grades (Baa or BBB or lower) by at least one NRSRO, which includes below-investment-grade securities, or unrated securities judged to be of comparable quality by the Adviser

and/or the Sub-Adviser. Additionally, as a non-fundamental policy, no more than 10% of the Acquiring Fund's Managed Assets may be invested in municipal securities rated below B3/B- or that are unrated but judged to be of comparable quality by the Adviser and/or the Sub-Adviser.

Securities of below-investment-grade quality (Ba/BB or below) are commonly referred to as junk bonds. Municipal securities rated below-investment-grade quality are obligations of issuers that are considered predominantly speculative with respect to the issuer's capacity to pay interest and repay principal according to the terms of the obligation and, therefore, carry greater investment risk, including the possibility of issuer default and bankruptcy and increased market price volatility. Municipal securities rated below-investment-grade tend to be less marketable than higher-quality securities because the market for them is less broad. The market for unrated municipal securities is even narrower. During periods of thin trading in these markets, the spread between bid and asked prices is likely to increase significantly and a Fund may have greater difficulty selling its holdings of these types of portfolio securities. A Fund will be more dependent on the Adviser's and/or the Sub-Adviser's research and analysis when investing in these securities.

Municipal securities rated Baa or BBB are considered investment grade securities. Issuers of municipal securities rated BBB or Baa are regarded as having average creditworthiness relative to other U.S. municipal issuers; however, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the issuer to meet its financial commitments.

The foregoing credit quality policy targets apply only at the time a security is purchased, and a Fund is not required to dispose of a security in the event that a rating agency upgrades or downgrades its assessment of the credit characteristics of a particular issuer or that valuation changes of various municipal securities cause the Fund's portfolio to fail to satisfy those targets. In determining whether to retain or sell such a security, the Adviser and/or the Sub-Adviser may consider such factors as the Adviser's and/or the Sub-Adviser's assessment of the credit quality of the issuer of such security, the price at which such security could be sold and the rating, if any, assigned to such security by other rating agencies. The credit ratings assigned by rating agencies from time to time, represent their opinions as to the quality of the municipal securities they rate. However, it should be emphasized that ratings are general and are not absolute standards of quality. Consequently, municipal securities with the same maturity, coupon and rating may have different yields while obligations of the same maturity and coupon with different ratings may have the same yield.

Each Fund's investment objectives include enhancing portfolio value relative to the municipal bond market by investing in tax-exempt municipal bonds that the Adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued. Underrated municipal securities are those whose ratings do not, in the Adviser's opinion, reflect their true value. Municipal securities may be underrated because of the time that has elapsed since their rating was assigned or reviewed or because of positive factors that may not have been fully taken into account by rating agencies, or for other similar reasons. Municipal securities that are undervalued or that represent undervalued municipal market sectors are municipal securities that, in the Adviser's opinion, are worth more than the value assigned to them in the marketplace. Municipal securities of particular types or purposes (e.g., hospital bonds, industrial revenue bonds or bonds issued by a particular municipal issuer) may be undervalued because there is a temporary excess of supply in that market sector, or because of a general decline in the market price of municipal securities of the market sector for reasons that do not apply to the particular municipal securities that are considered undervalued. A Fund's investment in underrated or undervalued municipal securities will be based on the Adviser's belief that the prices of such municipal securities should ultimately reflect their true value.

Each Fund will invest primarily in municipal securities with long-term maturities in order to maintain an average effective maturity of at least 15 years, but the average effective maturity of obligations held by the Fund may be lengthened or shortened as a result of portfolio transactions effected by the Adviser and/or the Sub-Adviser, depending on market conditions. As a result, a Fund's portfolio at any given time may include both long-term and intermediate-term municipal securities. Moreover, during temporary defensive periods (e.g., times when, in the Adviser's and/or the Sub-Adviser's opinion, temporary imbalances of supply and demand or other temporary dislocations in the tax-exempt bond market adversely affect the price at which long-term or intermediate-term municipal securities are available), and in order to keep a Fund's cash fully invested, the Fund may invest any percentage of its net assets in short-term investments including high quality, short-term debt securities that may be either tax-exempt or taxable and up to 10% of its Managed Assets in securities of other open- or closed-end investment companies (including exchange-traded funds) that invest primarily in municipal securities of the types in which the Fund may invest directly. As of February 29, 2016, the effective maturities of the portfolios of the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3 were 19.88, 21.72 and 21.96 years, respectively.

In addition, each Fund may purchase municipal securities that are additionally secured by insurance, bank credit agreements or escrow accounts. The credit quality of companies that provide such credit enhancements may affect the value of those securities. Although the insurance feature may reduce certain financial risks, the premiums for insurance and the higher market price paid for insured obligations may reduce a Fund's income. The insurance feature guarantees only the payment of principal and interest on the obligation when due and does not guarantee the market value of the insured obligations, which will fluctuate with the bond market and the financial success of the issuer and the insurer, and the effectiveness and value of the insurance itself is dependent on the continued creditworthiness of the insurer. No representation is made as to the insurer's ability to meet their commitments.

Each Fund may enter into certain derivative instruments in pursuit of its investment objectives, including to seek to enhance return, to hedge certain risks of its investments in fixed-income securities or as a substitute for a position in the underlying asset. Such instruments include financial futures contracts, swap contracts (including interest rate and credit default swaps), options on financial futures, options on swap contracts or other derivative instruments. A Fund may not enter into a futures contract or related options or forward contracts if more than 30% of the Fund's net assets would be represented by futures contracts or more than 5% of the Fund's net assets would be committed to initial margin deposits and premiums on futures contracts or related options.

Each Fund may invest up to 15% of its Managed Assets in inverse floating rate securities. Inverse floating rate securities represent a leveraged investment in the underlying municipal bond deposited. Inverse floating rate securities offer the opportunity for higher income than the underlying bond, but will subject a Fund to the risk of lower or even no income if short-term interest rates rise sufficiently. By investing in an inverse floating rate security rather than directly in the underlying bond, a Fund will experience a greater increase in its common share net asset value if the underlying municipal bond increases in value, but will also experience a correspondingly larger decline in its common share net asset value if the underlying bond declines in value.

Each Fund may borrow money to finance the repurchase of its shares or for temporary or emergency purposes, such as for the payment of dividends or the settlement of portfolio transactions. Interest on any borrowings to finance share repurchase transactions or the accumulation of cash by a

Fund in anticipation of share repurchases or tenders will reduce the Fund's net income. Any share repurchase, tender offer or borrowing that might be approved by the Fund's Board would have to comply with the Exchange Act and the 1940 Act and the rules and regulations thereunder.

Each Fund is diversified for purposes of the 1940 Act. Consequently, as to 75% of its assets, the Acquiring Fund may not invest more than 5% of its total assets in the securities of any single issuer (and in not more than 10% of the outstanding voting securities of an issuer), except that this limitation does not apply to cash, securities of the U.S. government, its agencies and instrumentalities, and securities of other investment companies.

As noted above, during temporary defensive periods and in order to keep a Fund's cash fully invested, the Fund may deviate from its investment objectives and invest up to 100% of its net assets in short-term investments including high quality, short-term securities that may be either tax-exempt or taxable. It is the intent of each Fund to invest in taxable short-term investments only in the event that suitable tax-exempt short-term investments are not available at reasonable prices and yields. Investment in taxable short-term investments would result in a portion of your dividends being subject to regular federal and California income taxes, and if the proportion of taxable investments exceeded 50% of a Fund's total assets as of the close of any quarter of the Fund's taxable year, the Fund would not satisfy the general eligibility test that permits it to pay exempt-interest dividends for that taxable year.

Portfolio Investments

Municipal Securities

General. Each Fund may invest in various municipal securities, including municipal bonds and notes, other securities issued to finance and refinance public projects, and other related securities and derivative instruments creating exposure to municipal bonds, notes and securities that provide for the payment of interest income that is exempt from federal income tax and California income tax. Municipal securities are generally debt obligations issued by state and local governmental entities and may be issued by U.S. territories and possessions to finance or refinance public projects such as roads, schools, and water supply systems. Municipal securities may also be issued on behalf of private entities or for private activities, such as housing, medical and educational facility construction, or for privately owned transportation, electric utility and pollution control projects. Municipal securities may be issued on a long-term basis to provide permanent financing. The repayment of such debt may be secured generally by a pledge of the full faith and credit taxing power of the issuer, a limited or special tax, or any other revenue source including project revenues, which may include tolls, fees and other user charges, lease payments, and mortgage payments. Municipal securities may also be issued to finance projects on a short-term interim basis, anticipating repayment with the proceeds of the later issuance of long-term debt. Municipal securities may be issued and purchased in the form of bonds, notes, leases or certificates of participation; structured as callable or non-callable; with payment forms including fixed coupon, variable rate, zero coupon, capital appreciation bonds, tender option bonds and residual interest bonds or inverse floating rate securities; or acquired through investments in pooled vehicles, partnerships or other investment companies. Inverse floating rate securities are securities that pay interest at rates that vary inversely with changes in prevailing short-term tax-exempt interest rates and represent a leveraged investment in an underlying municipal security, which may increase the effective leverage of a Fund.

Each Fund may invest in municipal bonds issued by U.S. territories and possessions (such as Puerto Rico or Guam) the income from which is exempt from regular federal income tax. The yields on municipal securities depend on a variety of factors, including prevailing interest rates and the condition of the general money market and the municipal bond market, the size of a particular offering, the maturity of the obligation and the rating of the issue. The market value of municipal securities will vary with changes in interest rate levels and as a result of changing evaluations of the ability of their issuers to meet interest and principal payments.

Municipal Leases and Certificates of Participation. Each Fund also may purchase municipal securities that represent lease obligations and certificates of participation in such leases. These carry special risks because the issuer of the securities may not be obligated to appropriate money annually to make payments under the lease. A municipal lease is an obligation in the form of a lease or installment purchase that is issued by a state or local government to acquire equipment and facilities. Income from such obligations generally is exempt from state and local taxes in the state of issuance. Leases and installment purchase or conditional sale contracts (which normally provide for title to the leased asset to pass eventually to the governmental issuer) have evolved as a means for governmental issuers to acquire property and equipment without meeting the constitutional and statutory requirements for the issuance of debt. The debt issuance limitations are deemed to be inapplicable because of the inclusion in many leases or contracts of non-appropriation clauses that relieve the governmental issuer of any obligation to make future payments under the lease or contract unless money is appropriated for such purpose by the appropriate legislative body on a yearly or other periodic basis. In addition, such leases or contracts may be subject to the temporary abatement of payments in the event the issuer is prevented from maintaining occupancy of the leased premises or utilizing the leased equipment or facilities. Although the obligations may be secured by the leased equipment or facilities, the disposition of the property in the event of non-appropriation or foreclosure might prove difficult, time consuming and costly, and result in a delay in recovering, or the failure to recover fully, a Fund's original investment. To the extent that a Fund invests in unrated municipal leases or participates in such leases, the credit quality rating and risk of cancellation of such unrated leases will be monitored on an ongoing basis. In order to reduce this risk, each Fund will purchase municipal securities representing lease obligations only where the Adviser and/or the Sub-Adviser believes the issuer has a strong incentive to continue making appropriations until maturity.

A certificate of participation represents an undivided interest in an unmanaged pool of municipal leases, an installment purchase agreement or other instruments. The certificates typically are issued by a municipal agency, a trust or other entity that has received an assignment of the payments to be made by the state or political subdivision under such leases or installment purchase agreements. Such certificates provide a Fund with the right to a pro rata undivided interest in the underlying municipal securities. In addition, such participations generally provide a Fund with the right to demand payment, on not more than seven days' notice, of all or any part of the Fund's participation interest in the underlying municipal securities, plus accrued interest.

Municipal Notes. Municipal securities in the form of notes generally are used to provide for short-term capital needs, in anticipation of an issuer's receipt of other revenues or financing, and typically have maturities of up to three years. Such instruments may include tax anticipation notes, revenue anticipation notes, bond anticipation notes, tax and revenue anticipation notes and construction loan notes. Tax anticipation notes are issued to finance the working capital needs of governments. Generally, they are issued in anticipation of various tax revenues, such as income, sales, property, use and business taxes, and are payable from these specific future taxes. Revenue anticipation notes are

issued in expectation of receipt of other kinds of revenue, such as federal revenues available under federal revenue sharing programs. Bond anticipation notes are issued to provide interim financing until long-term bond financing can be arranged. In most cases, the long-term bonds then provide the funds needed for repayment of the bond anticipation notes. Tax and revenue anticipation notes combine the funding sources of both tax anticipation notes and revenue anticipation notes. Construction loan notes are sold to provide construction financing. Mortgage notes insured by the Federal Housing Authority secure these notes; however, the proceeds from the insurance may be less than the economic equivalent of the payment of principal and interest on the mortgage note if there has been a default. The anticipated revenues from taxes, grants or bond financing generally secure the obligations of an issuer of municipal notes. However, an investment in such instruments presents a risk that the anticipated revenues will not be received or that such revenues will be insufficient to satisfy the issuer's payment obligations under the notes or that refinancing will be otherwise unavailable.

Pre-Refunded Municipal Securities. The principal of, and interest on, pre-refunded municipal securities are no longer paid from the original revenue source for the securities. Instead, the source of such payments is typically an escrow fund consisting of U.S. government securities. The assets in the escrow fund are derived from the proceeds of refunding bonds issued by the same issuer as the pre-refunded municipal securities. Issuers of municipal securities use this advance refunding technique to obtain more favorable terms with respect to securities that are not yet subject to call or redemption by the issuer. For example, advance refunding enables an issuer to refinance debt at lower market interest rates, restructure debt to improve cash flow or eliminate restrictive covenants in the indenture or other governing instrument for the pre-refunded municipal securities. However, except for a change in the revenue source from which principal and interest payments are made, the pre-refunded municipal securities remain outstanding on their original terms until they mature or are redeemed by the issuer.

Private Activity Bonds. Private activity bonds are issued by or on behalf of public authorities to obtain funds to provide privately operated housing facilities, airport, mass transit or port facilities, sewage disposal, solid waste disposal or hazardous waste treatment or disposal facilities and certain local facilities for water supply, gas or electricity. Other types of private activity bonds, the proceeds of which are used for the construction, equipment, repair or improvement of privately operated industrial or commercial facilities, may constitute municipal securities, although the current federal tax laws place substantial limitations on the size of such issues.

Inverse Floating Rate Securities. Each Fund may invest in inverse floating rate securities. Inverse floating rate securities are securities whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index. Generally, inverse floating rate securities represent beneficial interests in a special purpose trust, commonly referred to as a tender option bond trust (TOB trust), that holds municipal bonds. The TOB trust typically sells two classes of beneficial interests or securities: floating rate securities (sometimes referred to as short-term floaters or tender option bonds (TOBs)), and inverse floating rate securities (sometimes referred to as inverse floaters). Both classes of beneficial interests are represented by certificates or receipts. The floating rate securities have first priority on the cash flow from the municipal bonds held by the TOB trust. In this structure, the floating rate security holders have the option, at periodic short-term intervals, to tender their securities to the trust for purchase and to receive the face value thereof plus accrued interest. The obligation of the trust to repurchase tendered securities is supported by a remarketing agent and by a liquidity provider. As consideration for providing this support, the remarketing agent and the liquidity provider receive periodic fees. The holder of the short-term floater effectively holds a demand obligation that bears interest at the prevailing short-term, tax-exempt rate. However, the trust is not

obligated to purchase tendered short-term floaters in the event of certain defaults with respect to the underlying municipal bonds or a significant downgrade in the credit rating assigned to the bond issuer.

As the holder of an inverse floating rate investment, a Fund receives the residual cash flow from the TOB trust. Because the holder of the short-term floater is generally assured liquidity at the face value of the security plus accrued interest, the holder of the inverse floater assumes the interest rate cash flow risk and the market value risk associated with the municipal bond deposited into the TOB trust. The volatility of the interest cash flow and the residual market value will vary with the degree to which the trust is leveraged. This is expressed in the ratio of the total face value of the short-term floaters to the value of the inverse floaters that are issued by the TOB trust, and can exceed three times for more highly leveraged trusts. All voting rights and decisions to be made with respect to any other rights relating to the municipal bonds held in the TOB trust are passed through, pro rata, to the holders of the short-term floaters and to a Fund as the holder of the associated inverse floaters.

Because any increases in the interest rate on the short-term floaters issued by a TOB trust would reduce the residual interest paid on the associated inverse floaters, and because fluctuations in the value of the municipal bond deposited in the TOB trust would affect only the value of the inverse floater and not the value of the short-term floater issued by the trust so long as the value of the municipal bond held by the trust exceeded the face amount of short-term floaters outstanding, the value of inverse floaters is generally more volatile than that of an otherwise comparable municipal bond held on an unleveraged basis outside a TOB trust. Inverse floaters generally will underperform the market of fixed-rate bonds in a rising interest rate environment (i.e., when bond values are falling), but will tend to outperform the market of fixed-rate bonds when interest rates decline or remain relatively stable. Although volatile in value and return, inverse floaters typically offer the potential for yields higher than those available on fixed-rate bonds with comparable credit quality, coupon, call provisions and maturity. Inverse floaters have varying degrees of liquidity or illiquidity based primarily upon the inverse floater holder's ability to sell the underlying bonds deposited in the TOB trust at an attractive price.

Each Fund may invest in inverse floating rate securities issued by TOB trusts in which the liquidity providers have recourse to the Fund pursuant to a separate shortfall and forbearance agreement. Such an agreement would require a Fund to reimburse the liquidity provider, among other circumstances, upon termination of the TOB trust for the difference between the liquidation value of the bonds held in the trust and the principal amount and accrued interest due to the holders of floating rate securities issued by the trust. A Fund will enter into such a recourse agreement (1) when the liquidity provider requires such a recourse agreement because the level of leverage in the TOB trust exceeds the level that the liquidity provider is willing to support absent such an agreement; and/or (2) to seek to prevent the liquidity provider from collapsing the trust in the event the municipal bond held in the trust has declined in value to the point where it may cease to exceed the face amount of outstanding short-term floaters. In an instance where a Fund has entered such a recourse agreement, the Fund may suffer a loss that exceeds the amount of its original investment in the inverse floating rate securities; such loss could be as great as that original investment amount plus the face amount of the floating rate securities issued by the trust plus accrued interest thereon.

Each Fund will segregate or earmark liquid assets with its custodian in accordance with the 1940 Act to cover its obligations with respect to its investments in TOB trusts.

Each Fund may invest in both inverse floating rate securities and floating rate securities (as discussed below) issued by the same TOB trust.

Floating Rate Securities. Each Fund may also invest in short-term floating rate securities, as described above, issued by TOB trusts. Generally, the interest rate earned will be based upon the market rates for municipal securities with maturities or remarketing provisions that are comparable in duration to the periodic interval of the tender option, which may vary from weekly, to monthly, to other periods of up to one year. Since the tender option feature provides a shorter term than the final maturity or first call date of the underlying municipal bond deposited in the trust, a Fund, as the holder of the floating rate securities, relies upon the terms of the remarketing and liquidity agreements with the financial institution that acts as remarketing agent and/or liquidity provider as well as the credit strength of that institution. As further assurance of liquidity, the terms of the TOB trust provide for a liquidation of the municipal bond deposited in the trust and the application of the proceeds to pay off the floating rate securities. The TOB trusts that are organized to issue both short-term floating rate securities and inverse floaters generally include liquidation triggers to protect the investor in the floating rate securities.

Special Taxing Districts. Special taxing districts are organized to plan and finance infrastructure developments to induce residential, commercial and industrial growth and redevelopment. The bond financing methods such as tax increment finance, tax assessment, special services district and Mello-Roos bonds, generally are payable solely from taxes or other revenues attributable to the specific projects financed by the bonds without recourse to the credit or taxing power of related or overlapping municipalities. They often are exposed to real estate development-related risks and can have more taxpayer concentration risk than general tax-supported bonds, such as general obligation bonds. Further, the fees, special taxes, or tax allocations and other revenues that are established to secure such financings generally are limited as to the rate or amount that may be levied or assessed and are not subject to increase pursuant to rate covenants or municipal or corporate guarantees. The bonds could default if development failed to progress as anticipated or if larger taxpayers failed to pay the assessments, fees and taxes as provided in the financing plans of the districts.

Illiquid Securities

Each Fund may invest in illiquid securities (i.e., securities that are not readily marketable), including, but not limited to, restricted securities (securities the disposition of which is restricted under the federal securities laws), securities that may be resold only pursuant to Rule 144A under the Securities Act that are deemed to be illiquid, and certain repurchase agreements.

Restricted securities may be sold only in privately negotiated transactions or in a public offering with respect to which a registration statement is in effect under the Securities Act. Where registration is required, a Fund may be obligated to pay all or part of the registration expenses and a considerable period may elapse between the time of the decision to sell and the time the Fund may be permitted to sell a security under an effective registration statement. If, during such a period, adverse market conditions were to develop, the Fund might obtain a less favorable price than that which prevailed when it decided to sell. Illiquid securities will be priced at a fair value as determined in good faith by the Board or its delegatee.

When-Issued and Delayed-Delivery Transactions

Each Fund may buy and sell municipal securities on a when-issued or delayed delivery basis, making payment or taking delivery at a later date, normally within 15 to 45 days of the trade date. On

such transactions, the payment obligation and the interest rate are fixed at the time the buyer enters into the commitment. Beginning on the date a Fund enters into a commitment to purchase securities on a when-issued or delayed delivery basis, the Fund is required under interpretations of the SEC to maintain in a separate account liquid assets, consisting of cash, cash equivalents or liquid securities having a market value, at all times, at least equal to the amount of the commitment. Income generated by any such assets which provide taxable income for federal income tax purposes is includable in the taxable income of a Fund and, to the extent distributed, will be taxable to shareholders. Each Fund may enter into contracts to purchase municipal securities on a forward basis (i.e., where settlement will occur more than 60 days from the date of the transaction) only to the extent that the Fund specifically collateralizes such obligations with a security that is expected to be called or mature within 60 days before or after the settlement date of the forward transaction. The commitment to purchase securities on a when-issued, delayed delivery or forward basis may involve an element of risk because no interest accrues on the bonds prior to settlement and, at the time of delivery, the market value may be less than cost.

Derivatives

General. Each Fund may invest in certain derivative instruments in pursuit of its investment objectives. Such instruments include financial futures contracts, swap contracts (including interest rate and credit default swaps), options on financial futures, options on swap contracts or other derivative instruments. Credit default swaps may require initial premium (discount) payments as well as periodic payments (receipts) related to the interest leg of the swap or to the default of a reference obligation. If a Fund is a seller of a contract, the Fund would be required to pay the par (or other agreed upon) value of a referenced debt obligation to the counterparty in the event of a default or other credit event by the reference issuer, such as a U.S. or foreign corporate issuer, with respect to such debt obligations. In return, a Fund would receive from the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, a Fund would keep the stream of payments and would have no payment obligations. As the seller, a Fund would be subject to investment exposure on the notional amount of the swap. If a Fund is a buyer of a contract, the Fund would have the right to deliver a referenced debt obligation and receive the par (or other agreed-upon) value of such debt obligation from the counterparty in the event of a default or other credit event (such as a credit downgrade) by the reference issuer, such as a U.S. or foreign corporation, with respect to its debt obligations. In return, a Fund would pay the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, the counterparty would keep the stream of payments and would have no further obligations to a Fund. Interest rate swaps involve the exchange by a Fund with a counterparty of their respective commitments to pay or receive interest, such as an exchange of fixed-rate payments for floating rate payments. A Fund will usually enter into interest rate swaps on a net basis; that is, the two payment streams will be netted out in a cash settlement on the payment date or dates specified in the instrument, with the Fund receiving or paying, as the case may be, only the net amount of the two payments.

The Adviser and/or the Sub-Adviser may use derivative instruments to seek to enhance return, to hedge some of the risk of a Fund's investments in municipal securities or as a substitute for a position in the underlying asset. These types of strategies may generate taxable income.

There is no assurance that these derivative strategies will be available at any time or that the Adviser and/or the Sub-Adviser will determine to use them for a Fund or, if used, that the strategies will be successful.

Limitations on the Use of Futures, Options on Futures and Swaps. The Adviser has claimed, with respect to each Fund, the exclusion from the definition of commodity pool operator under the U.S. Commodity Exchange Act of 1936 (the CEA) provided by Commodity Futures Trading Commission (the CFTC) Regulation 4.5 and is therefore not currently subject to registration or regulation as such under the CEA with respect to the Fund. In addition, the Sub-Adviser has claimed the exemption from registration as a commodity trading advisor provided by CFTC Regulation 4.14(a)(8) and is therefore not currently subject to registration or regulation as such under the CEA with respect to each Fund. In February 2012, the CFTC announced substantial amendments to certain exemptions, and to the conditions for reliance on those exemptions, from registration as a commodity pool operator. Under amendments to the exemption provided under CFTC Regulation 4.5, if a Fund uses futures, options on futures, or swaps other than for bona fide hedging purposes (as defined by the CFTC), the aggregate initial margin and premiums on these positions (after taking into account unrealized profits and unrealized losses on any such positions and excluding the amount by which options that are in-the-money at the time of purchase are in-the-money) may not exceed 5% of the Fund's net asset value, or alternatively, the aggregate net notional value of those positions may not exceed 100% of the Fund's net asset value (after taking into account unrealized profits and unrealized losses on any such positions). The CFTC amendments to Regulation 4.5 took effect on December 31, 2012, and each Fund intends to comply with amended Regulation 4.5's requirements such that the Adviser will not be required to register as a commodity pool operator with the CFTC with respect to the Fund. Each Fund reserves the right to employ futures, options on futures and swaps to the extent allowed by CFTC regulations in effect from time to time and in accordance with the Fund's policies. However, the requirements for qualification as a regulated investment company under Subchapter M of the Code may limit the extent to which a Fund may employ futures, options on futures or swaps.

Structured Notes

Each Fund may utilize structured notes and similar instruments for investment purposes and also for hedging purposes. Structured notes are privately negotiated debt obligations where the principal and/or interest is determined by reference to the performance of a benchmark asset, market or interest rate (an embedded index), such as selected securities, an index of securities or specified interest rates, or the differential performance of two assets or markets. The terms of such structured instruments normally provide that their principal and/or interest payments are to be adjusted upwards or downwards (but not ordinarily below zero) to reflect changes in the embedded index while the structured instruments are outstanding. As a result, the interest and/or principal payments that may be made on a structured product may vary widely, depending upon a variety of factors, including the volatility of the embedded index and the effect of changes in the embedded index on principal and/or interest payments. The rate of return on structured notes may be determined by applying a multiplier to the performance or differential performance of the referenced index or indices or other assets. Application of a multiplier involves leverage that will serve to magnify the potential for gain and the risk of loss.

Special Considerations Relating to California Municipal Securities

As described above, each Fund will invest at least 80% of its Managed Assets in municipal securities and other related investments the income from which is exempt from regular federal and California income taxes. Each Fund is therefore susceptible to political, economic or regulatory factors affecting issuers of California municipal securities. See [Risk Factors](#) [General Risks of Investing in the Fund](#) [Concentration Risk](#) and [Appendix D](#) to the Memorandum. Information regarding the

financial condition of the State of California is ordinarily included in various public documents issued thereby, such as the official statements prepared in connection with the issuance of general obligation bonds of the State of California. Such official statements may be obtained by contacting the State Treasurer's Office at (800) 900-3873 or at www.treasurer.ca.gov. Complete text of the Governor's proposed 2016-2017 budget, the 2015-2016 budget and prior budgets may be found at the electronic budget website of the Department of Finance (www.ebudget.ca.gov).

The State of California is a party to numerous legal proceedings, many of which normally occur in governmental operations. Information regarding some of the more significant litigation pending against the State would ordinarily be included in various public documents issued thereby, such as the official statements referred to above prepared in connection with the issuance of general obligation bonds of California.

The Legislative Analyst's Office (the LAO) has released several reports which include their estimates and assessments of State budget acts and associated fiscal and economic projections.

Publications from the LAO can be read in full by accessing the LAO's website (www.lao.ca.gov) or by contacting the LAO at (916) 445-4656. Complete text of the State Controller's monthly Summary Analysis may be accessed at the State Controller's website (www.sco.ca.gov).

Other Investment Companies

Each Fund may invest up to 10% of its Managed Assets in securities of other open- or closed-end investment companies (including ETFs) that invest primarily in municipal securities of the types in which the Fund may invest directly. In addition, each Fund may invest a portion of its Managed Assets in pooled investment vehicles (other than investment companies) that invest primarily in municipal securities of the types in which the Fund may invest directly. Each Fund generally expects that it may invest in other investment companies and/or other pooled investment vehicles either during periods when it has large amounts of uninvested cash or during periods when there is a shortage of attractive, high yielding municipal securities available in the market. Each Fund may invest in investment companies that are advised by the Adviser and/or the Sub-Adviser or their affiliates to the extent permitted by applicable law and/or pursuant to exemptive relief from the SEC. No Fund has applied for, and no Fund currently intends to apply for, such relief. As a shareholder in an investment company, each Fund will bear its ratable share of that investment company's expenses and would remain subject to payment of its own management fees with respect to assets so invested.

The Adviser and/or the Sub-Adviser will take expenses into account when evaluating the investment merits of an investment in an investment company relative to available municipal security investments. In addition, the securities of other investment companies may also be leveraged and will therefore be subject to the same leverage risks described herein.

Zero Coupon Bonds

Each Fund may invest in zero coupon bonds. A zero coupon bond is a bond that typically does not pay interest for the entire life of the obligation or for an initial period after the issuance of the obligation. The market prices of zero coupon bonds are affected to a greater extent by changes in

prevailing levels of interest rates and therefore tend to be more volatile in price than securities that pay interest periodically. In addition, because each Fund accrues income with respect to these securities prior to the receipt of such interest, it may have to dispose of portfolio securities under disadvantageous circumstances in order to obtain cash needed to pay income dividends in amounts necessary to avoid unfavorable tax consequences.

Hedging Strategies

Each Fund may use various investment strategies designed to limit the risk of bond price fluctuations and to preserve capital. These hedging strategies include using financial futures contracts, options on financial futures or options based on either an index of long-term municipal securities or on taxable debt securities whose prices, in the opinion of the Adviser and/or the Sub-Adviser, correlate with the prices of each Fund's investments. These hedging strategies may generate taxable income.

Portfolio Turnover

Each Fund may buy and sell municipal securities to accomplish its investment objectives in relation to actual and anticipated changes in interest rates. Each Fund also may sell one municipal security and buy another of comparable quality at about the same time to take advantage of what the Adviser and/or the Sub-Adviser believes to be a temporary price disparity between the two bonds that may result from imbalanced supply and demand. Each Fund also may engage in a limited amount of short-term trading, consistent with its investment objectives. Each Fund may sell securities in anticipation of a market decline (a rise in interest rates) or buy securities in anticipation of a market rise (a decline in interest rates) and later sell them, but the Fund will not engage in trading solely to recognize a gain. Each Fund will attempt to achieve its investment objectives by prudently selecting California municipal securities with a view to holding them for investment. Although a Fund cannot accurately predict its annual portfolio turnover rate, each Fund expects, though it cannot guarantee, that its annual portfolio turnover rate generally will not exceed 25% under normal circumstances. For the fiscal year ended February 29, 2016, the portfolio turnover rates of the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3 were 15%, 17% and 18%, respectively. There are no limits on the rate of portfolio turnover, and investments may be sold without regard to length of time held when investment considerations warrant such action. A higher portfolio turnover rate results in correspondingly greater brokerage commissions and other transactional expenses that are borne by a Fund. In addition, high portfolio turnover may result in the realization of net short-term capital gains by a Fund which, when distributed to shareholders, will be taxable as ordinary income for federal income tax purposes.

The Board of each Fund recommends that shareholders vote FOR the approval of the Reorganization(s).

PROPOSAL NO. 3 APPROVAL OF ISSUANCE OF ADDITIONAL COMMON SHARES

OF ACQUIRING FUND

(ACQUIRING FUND ONLY)

In connection with the proposed Reorganizations, the Acquiring Fund will issue additional Acquiring Fund common shares to each of Dividend Advantage 2 and Dividend Advantage 3. Subject to notice of issuance, the Acquiring Fund will list such shares on the NYSE. In addition, the Acquiring Fund will issue VRDP Shares. The Acquiring Fund will acquire substantially all of the assets of each Target Fund in exchange for newly issued Acquiring Fund common shares and newly issued Acquiring Fund preferred shares and the assumption of substantially all of the liabilities of each Target Fund. Each Target Fund will distribute Acquiring Fund common shares to its common shareholders and Acquiring Fund preferred shares to its preferred shareholders and will then terminate its registration under the 1940 Act and dissolve under applicable state law. The Acquiring Fund's Board, based upon its evaluation of all relevant information, anticipates that the Reorganizations may benefit holders of the Acquiring Fund's common shares and preferred shares due to, among other reasons, the increased size of the combined fund. For a fuller discussion of the Board's considerations regarding the approval of the Reorganizations, see Proposal No. 2 Information About the Reorganizations Reasons for the Reorganizations.

The aggregate net asset value, as of the Valuation Time, of the Acquiring Fund common shares received by each Target Fund in connection with a Reorganization will equal the aggregate net asset value of the Target Fund common shares held by shareholders of such Target Fund as of the Valuation Time. Prior to the Valuation Time, the net asset value of each Target Fund and the Acquiring Fund will be reduced by the costs of the Reorganizations borne by such Fund. No fractional Acquiring Fund common shares will be distributed to a Target Fund's common shareholders in connection with a Reorganization and, in lieu of such fractional shares, each Target Fund's common shareholders entitled to receive such fractional shares will receive cash in an amount equal to a pro-rata share of the proceeds from the sale of such shares in the open market, which may be higher or lower than net asset value. The aggregate liquidation preference of the preferred shares issued by the Acquiring Fund in connection with each Reorganization will equal the aggregate liquidation preference of the corresponding Target Fund preferred shares held immediately prior to the closing of the Reorganization. As a result of the Reorganizations, shareholders of the Funds will hold reduced percentages of ownership in the larger combined entity than they held in the Acquiring Fund or Target Fund individually. See Proposal No. 2 C. Information About the Reorganizations Terms of the Reorganizations.

The Reorganizations will result in no reduction in net asset value of the Acquiring Fund's common shares, other than to reflect the costs of the Reorganizations. It is expected that no gain or loss will be recognized by the Acquiring Fund for federal income tax purposes as a direct result of the Reorganizations. To the extent that portfolio securities of a Target Fund are sold prior to the closing of the Reorganizations, such Fund may realize gains or losses, which may increase or decrease the net capital gains or net investment income to be distributed by such Fund. The shareholders of a Target Fund will receive a proportionate share of any income and gains realized by the Acquiring Fund and not distributed to its shareholders prior to the closing of the Reorganizations when such income and gains are eventually distributed by the Acquiring Fund.

The Acquiring Fund will continue to operate following the Reorganizations as a registered closed-end management investment company with the investment objectives and policies described in this Joint Proxy Statement.

While applicable state and federal law does not require the common shareholders of the Acquiring Fund to approve the issuance of additional Acquiring Fund common shares, applicable NYSE rules require shareholder approval of additional Acquiring Fund common shares to be issued in connection with the Reorganizations, and the Statements for the Acquiring Fund's outstanding VMTP Shares and VRDP Shares generally require the common shareholders and preferred shareholders of the Acquiring Fund to vote together on matters submitted to a vote of shareholders.

Shareholder approval of the issuance of additional common shares of the Acquiring Fund requires the affirmative vote of a majority of the votes cast on the proposal, provided that the total votes cast on the proposal, with common and preferred shareholders of the Acquiring Fund voting together as a single class, and common shareholders of the Acquiring Fund voting separately, represent over 50% of the shares entitled to vote on the matter. Abstentions and broker non-votes will have no effect on the proposal. Broker non-votes are shares held by brokers or nominees, typically in street name, as to which (1) instructions have not been received from the beneficial owners or persons entitled to vote and (2) the broker or nominee does not have discretionary voting power on a particular matter.

The consummation of the Reorganizations is contingent on the satisfaction or waiver of all closing conditions, including approval of the proposals relating to the Reorganizations by each Target Fund's shareholders and the Acquiring Fund's shareholders.

The Board of the Acquiring Fund recommends that shareholders of the Acquiring Fund vote FOR the approval of the issuance of additional Acquiring Fund common shares in connection with the Reorganizations.

ADDITIONAL INFORMATION ABOUT THE ACQUIRING FUND

Certain Provisions in the Acquiring Fund's Declaration of Trust and By-Laws

Please see Certain Provisions in the Declaration of Trust and By-Laws in the Memorandum for a description of your rights under Massachusetts law and describing additional rights contained in the Acquiring Fund's declaration of trust and by-laws.

Repurchase of Common Shares; Conversion to Open-End Fund

The Acquiring Fund is a closed-end management investment company, and as such its shareholders do not have the right to cause the Acquiring Fund to redeem their common shares. Instead, the common shares of the Acquiring Fund trade in the open market at a price that is a function of several factors, including dividend levels (which are in turn affected by expenses), net asset value, call protection, dividend stability, portfolio credit quality, relative demand for and supply of such shares in the market, general market and economic conditions and other factors. Because common shares of closed-end management investment companies may frequently trade at prices lower than net asset value, the Acquiring Fund's Board has determined that, at least annually, it will consider action that might be taken to reduce or eliminate any material discount from net asset value in respect of common shares, which may include the repurchase of such shares in the open market or in private transactions, the making of a tender offer for such shares at net asset value, or the conversion of the Acquiring Fund to an open-end investment company. There is no assurance that the Acquiring Fund's Board will decide to take any of these actions, or that share repurchases or tender offers will actually reduce market discount.

Notwithstanding the foregoing, at any time when the Acquiring Fund's preferred shares are outstanding, the Acquiring Fund may not purchase, redeem or otherwise acquire any of its common shares unless (1) all accumulated but unpaid preferred shares dividends due to be paid have been paid and (2) at the time of such purchase, redemption or acquisition, the net asset value of the Acquiring Fund's portfolio (determined after deducting the acquisition price of the common shares) is at least 200% of the liquidation value (expected to equal the original purchase price per share plus any accumulated but unpaid dividends thereon) of the outstanding preferred shares, including VMTP Shares and VRDP Shares.

If the Acquiring Fund converted to an open-end investment company, it would be required to redeem all its preferred shares, including VMTP Shares and VRDP Shares then outstanding (requiring in turn that it liquidate a portion of its investment portfolio), and the common shares would no longer be listed on an exchange. In contrast to a closed-end management investment company, shareholders of an open-end management investment company may require the company to redeem their shares at any time (except in certain circumstances as authorized by or under the 1940 Act) at their net asset value, less any redemption charge that is in effect at the time of redemption. See Certain Provisions in the Acquiring Fund's Declaration of Trust and By-Laws in the Memorandum for a discussion of the voting requirements applicable to the conversion of the Acquiring Fund to an open-end management investment company.

Before deciding whether to take any action if the common shares trade below net asset value, the Board would consider all relevant factors, including the extent and duration of the discount, the liquidity of the Acquiring Fund's portfolio, the impact of any action that might be taken on the

Acquiring Fund or its shareholders and market considerations. Based on these considerations, even if the Acquiring Fund's common shares should trade at a discount, the Board may determine that, in the interest of the Acquiring Fund, no action should be taken.

Description of Outstanding Acquiring Fund VMTP Shares

General

The Acquiring Fund currently has outstanding 1,450 VMTP Shares, Series 2019, par value \$0.01 per share, with a total liquidation preference per share of \$100,000, which will remain outstanding following the completion of the Reorganizations. The Acquiring Fund initially issued the Outstanding VMTP Shares to a single institutional investor in a private transaction exempt from registration under the Securities Act.

Dividends

Holders of VMTP Shares are entitled to receive cash dividends when, as and if declared by the Acquiring Fund's Board. The amount of dividends per VMTP Share payable on any dividend payment date will equal the sum of dividends accumulated but not yet paid for each rate period during the relevant monthly dividend period. The dividend rate applicable to any rate period (which typically consists of seven days) is an index rate based on the SIFMA Municipal Swap Index plus an applicable spread. The applicable spread is subject to adjustment in certain circumstances, including a change in the credit rating assigned to the VMTP Shares.

Redemption

VMTP Shares are subject to optional and mandatory redemption in certain circumstances. The Acquiring Fund is obligated to redeem the VMTP Shares on July 1, 2019, subject to extension, unless earlier redeemed or repurchased by the Acquiring Fund, at a redemption price per share equal to the liquidation preference per share (\$100,000) plus any accumulated but unpaid dividends thereon. VMTP Shares also may be redeemed in whole or in part at the option of the Acquiring Fund at a redemption price per share equal to the liquidation preference per share plus any accumulated but unpaid dividends thereon, plus a certain redemption premium. In the event the Acquiring Fund fails to comply with asset coverage and/or effective leverage ratio requirements and any such failure is not cured within the applicable cure period, the Acquiring Fund may become obligated to redeem such number of preferred shares as are necessary to achieve compliance with such requirements.

Voting and Consent Rights

Except as otherwise provided in the Acquiring Fund's declaration of trust, the statement establishing and fixing the rights and preferences of VMTP Shares, or as otherwise required by applicable law, (1) each holder of VMTP Shares is entitled to one vote for each VMTP Share held on each matter submitted to a vote of shareholders of the Acquiring Fund, and (2) the holders of VMTP Shares, along with holders of other outstanding preferred shares of the Acquiring Fund, vote with holders of common shares of the Acquiring Fund as a single class; provided, however, that holders of preferred shares, including VMTP Shares, are entitled as a class to elect two trustees of the Acquiring Fund at all times. The holders of outstanding common shares and preferred shares, including VMTP Shares, voting as a single class, elect the balance of the trustees of the Acquiring Fund.

Holders of VMTP Shares, as a separate class, have voting and consent rights with respect to certain actions that would materially and adversely affect any preference, right or power of the VMTP Shares or holders of VMTP Shares. In addition, holders of VMTP Shares have certain consent rights under the purchase agreement for the VMTP Shares with respect to certain actions that would affect their investment in the Acquiring Fund. Holders of VMTP Shares also are entitled to vote as a class with holders of other preferred shares of the Acquiring Fund on matters that relate to the conversion of the Acquiring Fund to an open-end investment company, certain plans of reorganization adversely affecting holders of the preferred shares or any other action requiring a vote of security holders of the Acquiring Fund under Section 13(a) of the 1940 Act. In certain circumstances, holders of preferred shares, including VMTP Shares, are entitled to elect additional trustees in the event at least two full years' dividends are due and unpaid and sufficient cash or specified securities have not been deposited for their payment, or at any time holders of preferred shares are entitled under the 1940 Act to elect a majority of the trustees of the Acquiring Fund.

Priority of Payment

The VMTP Shares are senior in priority to the Acquiring Fund's common shares as to the payment of dividends and as to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The VMTP Shares have equal priority as to the payment of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund with other preferred shares of the Acquiring Fund, including the Outstanding VRDP Shares and the New VRDP Shares to be issued in connection with the Reorganizations.

VRDP Shares, Series 6	1,581	\$ 0.01	\$ 100,000	August 1, 2040

(1) In each case, the final mandatory redemption date is subject to earlier redemption or repurchase by the Fund.

The Acquiring Fund has outstanding an aggregate of 6,996 VRDP Shares in six series (previously defined as the Outstanding VRDP Shares). The Outstanding VRDP Shares will remain outstanding following the completion of the Reorganizations. The Acquiring Fund initially issued each series of the Outstanding VRDP Shares to a small number of institutional investors in a private transaction exempt from registration under the Securities Act.

The Outstanding VRDP Shares of each series pay an adjustable dividend rate set weekly by the applicable remarketing agent. Holders of the Outstanding VRDP Shares of each series have the right to give notice on any business day to tender the securities for remarketing in seven days. The Outstanding VRDP Shares of each series are also subject to a mandatory tender for remarketing upon the occurrence of certain events, such as the non-payment of dividends by the Acquiring Fund. Should a remarketing be unsuccessful, the dividend rate will reset to a maximum rate as defined in the governing documents of the Outstanding VRDP Shares of the applicable series.

The Outstanding VRDP Shares of each series have the benefit of an unconditional demand feature pursuant to a purchase agreement provided by a bank acting as liquidity provider to ensure full and timely repayment of the liquidation preference amount plus any accumulated and unpaid dividends to holders upon the occurrence of certain events. The agreement for the Outstanding VRDP Shares of each series requires the applicable liquidity provider to purchase from holders all Outstanding VRDP Shares of such series tendered for sale that were not successfully remarketed. The liquidity provider also must purchase all Outstanding VRDP Shares of the applicable series prior to termination of the purchase agreement for such series, including by reason of the failure of the liquidity provider to maintain the requisite level of short-term ratings, if the Acquiring Fund has not obtained an alternate purchase agreement before the termination date.

The obligation of the liquidity provider for the Outstanding VRDP Shares of each series to purchase the Outstanding VRDP Shares of such series pursuant to the purchase agreement for such series runs to the benefit of the holders of the Outstanding VRDP Shares of such series and is unconditional and irrevocable, and as such the short-term ratings assigned to the Outstanding VRDP Shares of each series are directly linked to the short-term creditworthiness of the associated liquidity provider. The liquidity provider for the Outstanding VRDP Shares of each series entered into a purchase agreement with respect to the Outstanding VRDP Shares of such series, subject to periodic extension by agreement with the Acquiring Fund.

Prior to the applicable final mandatory redemption date, the Outstanding VRDP Shares of each series are subject to optional and mandatory redemption by the Acquiring Fund in certain circumstances. Outstanding VRDP Shares of each series may be redeemed at any time, at the option of the Acquiring Fund (in whole or, from time to time, in part), out of funds legally available therefor, at a redemption price per share equal to the sum of \$100,000 plus an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared) until, but not excluding, the date fixed for redemption. Pursuant to the Statement for the Outstanding VRDP Shares of each series and the fee agreement with the liquidity provider for such series, the Acquiring Fund will have an obligation to redeem, at a redemption price equal to \$100,000 per share plus accumulated but unpaid dividends thereon (whether or not earned or declared) until, but excluding, the date fixed by the Board for redemption, shares of such series purchased by the liquidity provider pursuant to its obligations under the purchase agreement if the liquidity provider continues to be the beneficial owner for a period of six months and such shares cannot be successfully remarketed. The Acquiring Fund also will redeem, at a redemption price equal to the liquidation preference per share plus accumulated but unpaid dividends thereon (whether or not earned or declared) until, but excluding, the date fixed by the Board for redemption, such number of preferred shares as is necessary to achieve compliance with the applicable requirement, if the Acquiring Fund fails to maintain (1) the minimum VRDP asset coverage required under the 1940 Act and the Acquiring Fund's agreement with the liquidity provider for the Outstanding VRDP Shares of each series or (2) the VRDP basic maintenance amount (if any) prescribed by the applicable rating agencies then rating the Outstanding VRDP Shares of each series, and such failures are not cured by the applicable cure date. In the event of changes in, or elimination of, any or all long-term ratings of the Outstanding VRDP Shares of each series, the requirement to effect a mandatory redemption after the applicable cure date upon a failure to maintain the VRDP basic maintenance amount may be changed or eliminated. The Acquiring Fund is not required under the Statement for the Outstanding VRDP Shares of any series to maintain any particular long-term ratings for the Outstanding VRDP Shares of such series and may, at any time, replace a rating agency with another rating agency or terminate the services of any rating agency then providing a rating for the Outstanding

VRDP Shares of such series without replacement, in either case without the approval of holders of the Outstanding VRDP Shares of such series or other shareholders of the Acquiring Fund.

Except as otherwise provided in the Acquiring Fund's declaration of trust or the Statements for the Outstanding VRDP Shares or as otherwise required by applicable law, (1) each holder of Outstanding VRDP Shares is entitled to one vote for each Outstanding VRDP Share held on each matter submitted to a vote of shareholders of the Acquiring Fund, and (2) the holders of Outstanding VRDP Shares, along with holders of other outstanding preferred shares, if any, of the Acquiring Fund, vote with holders of common shares of the Acquiring Fund as a single class; provided, however, that holders of preferred shares, including the Outstanding VRDP Shares of each series, are entitled as a class to elect two trustees of the Acquiring Fund at all times. The holders of outstanding common shares and preferred shares, including the Outstanding VRDP Shares of each series, voting as a single class, elect the balance of the trustees of the Acquiring Fund.

Holders of the Outstanding VRDP Shares of each series, as a separate class, have voting and consent rights with respect to certain actions that would materially and adversely affect any preference, right or power of the Outstanding VRDP Shares of such series or holders of the Outstanding VRDP Shares of such series. Holders of Outstanding VRDP Shares of each series, together, are also entitled to vote as a class with holders of other preferred shares of the Acquiring Fund on matters that relate to the conversion of the Acquiring Fund to an open-end investment company, certain plans of reorganization adversely affecting holders of the preferred shares or any other action requiring a vote of security holders of the Acquiring Fund under Section 13(a) of the 1940 Act. Holders of preferred shares, including the Outstanding VRDP Shares of each series, together, are entitled to elect additional trustees constituting, when added to the two trustees elected exclusively by the holders of preferred shares, a majority of the trustees, in the event at least two full years' dividends are due and unpaid and sufficient cash or specified securities have not been deposited for their payment, or at any time holders of preferred shares are entitled under the 1940 Act to elect a majority of the trustees of the Acquiring Fund.

The Outstanding VRDP Shares of each series are senior in priority to the Acquiring Fund's common shares as to the payment of dividends and as to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund. The Outstanding VRDP Shares of each series have equal priority as to the payment of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund with each other and with other preferred shares of the Acquiring Fund, including the Acquiring Fund's Outstanding VRDP Shares and New VRDP Shares to be issued in connection with the Reorganizations.

Custodian, Transfer Agent, Dividend Disbursing Agent and Redemption and Remarketing Agent

The custodian of the assets of each Fund is State Street Bank and Trust Company (State Street), One Lincoln Street, Boston, Massachusetts 02111. The custodian performs custodial, fund accounting and portfolio accounting services. Each Fund's transfer, shareholder services and dividend disbursing agent and redemption and paying agent is also State Street, 250 Royall Street, Canton, Massachusetts 02021.

The tender and paying agent with respect to the VRDP Shares of the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3 is The Bank of New York Mellon, Corporate Trust Division, Dealing and Trading Group, 101 Barclay Street, Floor 7E, New York, New York 10286 (the Tender

and Paying Agent). The Tender and Paying Agent acts as tender agent, transfer agent and registrar, dividend disbursing agent, paying agent and redemption price disbursing agent with respect to the VRDP Shares of the Acquiring Fund, Dividend Advantage 2 and Dividend Advantage 3.

The remarketing agent for the VRDP Shares of Dividend Advantage 2 is RBC Capital Markets, LLC, Three World Financial Center, 200 Vesey Street, 8th Floor, New York, New York 10281, and the remarketing agent for the VRDP Shares of Dividend Advantage 3 is Barclays Capital Inc., 745 7th Avenue, New York, New York 10019. It is expected that the Acquiring Fund will enter into a remarketing agreement with a remarketing agent for each series of New VRDP Shares that is a nationally recognized securities dealer with expertise in remarketing variable-rate securities and that will be either the current remarketing agent for the applicable series of Target Fund VRDP Shares or a replacement appointed in accordance with the applicable New VRDP Statement and the related agreements.

Federal Income Tax Matters Associated with Investment in the Acquiring Fund

The following information is meant as a general summary of certain federal income tax matters for U.S. shareholders. Investors should rely on their own tax adviser for advice about the particular federal, state and local tax consequences to them of investing in the Acquiring Fund.

The Acquiring Fund has elected to be treated and intends to qualify each year (including the taxable year in which the Reorganizations occur) as a regulated investment company (RIC) under Subchapter M of the Internal Revenue Code of 1986, as amended (previously defined as the Code). In order to qualify as a RIC, the Acquiring Fund must satisfy certain requirements regarding the sources of its income, the diversification of its assets and the distribution of its income. As a RIC, the Acquiring Fund is not expected to be subject to federal income tax on the income and gains it distributes to its shareholders. The Acquiring Fund invests primarily in municipal securities. Thus, substantially all of the Acquiring Fund's dividends paid to you should qualify as exempt-interest dividends. A shareholder treats an exempt-interest dividend as interest on state and local bonds exempt from regular federal income tax. Federal income tax law imposes an alternative minimum tax with respect to corporations, individuals, trusts and estates. Interest on certain municipal obligations, such as certain private activity bonds, is included as an item of tax preference in determining the amount of a taxpayer's alternative minimum taxable income. To the extent that the Acquiring Fund receives income from such municipal obligations, a portion of the dividends paid by the Acquiring Fund, although exempt from regular federal income tax, will be taxable to shareholders to the extent that their tax liability is determined under the federal alternative minimum tax. The Acquiring Fund will annually provide a report indicating the percentage of the Acquiring Fund's income attributable to municipal obligations subject to the federal alternative minimum tax applicable to individuals, if any. Corporations are subject to special rules in calculating their federal alternative minimum taxable income with respect to interest from municipal obligations.

Future legislation could limit the exclusion from gross income of tax-exempt interest (which includes exempt-interest dividends received from the Acquiring Fund). Such legislation could affect the value of the municipal securities owned by the Acquiring Fund. The likelihood of such legislation being enacted cannot be predicted. Shareholders should consult their own tax advisers regarding the potential consequences of future legislation on their investment in the Acquiring Fund.

In addition to exempt-interest dividends, the Acquiring Fund may also distribute to its shareholders amounts that are treated as long-term capital gain or ordinary income (which may include

short-term capital gains). These distributions may be subject to federal, state and local taxation, depending on a shareholder's situation. If so, they are taxable whether or not such distributions are reinvested. Distributions of net capital gains (the excess of net long-term capital gains over net short-term capital losses) are generally taxable at rates applicable to long-term capital gains regardless of how long a shareholder has held its shares. Long-term capital gains are currently taxable to noncorporate shareholders at a maximum federal income tax rate of 20%. In addition, certain individuals, estates and trusts are subject to a 3.8% Medicare tax on net investment income, including net capital gains and other taxable dividends. Corporate shareholders are taxed on capital gain at the same rates as apply to ordinary income. The Acquiring Fund does not expect that any part of its distributions to shareholders from its investments will qualify for the dividends-received deduction available to corporate shareholders or as qualified dividend income to noncorporate shareholders.

As a RIC, the Acquiring Fund will not be subject to federal income tax in any taxable year provided that it meets certain distribution requirements. The Acquiring Fund may retain for investment some (or all) of its net capital gains. If the Acquiring Fund retains any net capital gains or investment company taxable income, it will be subject to tax at regular corporate rates on the amount retained. If the Acquiring Fund retains any net capital gains, it may designate the retained amount as undistributed capital gains in a notice to its shareholders who, if subject to federal income tax on long-term capital gains, (1) will be required to include in income for federal income tax purposes, as long-term capital gain, their share of such undistributed amount; (2) will be entitled to credit their proportionate shares of the federal income tax paid by the Acquiring Fund on such undistributed amount against their federal income tax liabilities, if any; and (3) may claim refunds to the extent the credit exceeds such liabilities. For federal income tax purposes, the basis of shares owned by a shareholder of the Acquiring Fund will be increased by an amount equal to the difference between the amount of undistributed capital gains included in the shareholder's gross income and the tax deemed paid by the shareholder under clause (2) of the preceding sentence.

The IRS currently requires that a RIC that has two or more classes of stock allocate to each such class proportionate amounts of each type of its income (such as exempt interest, ordinary income and capital gains). Accordingly, the Acquiring Fund reports dividends made with respect to common shares and preferred shares as consisting of particular types of income (e.g., exempt interest, net capital gains and ordinary income) in accordance with each class' proportionate share of the total dividends paid by the Acquiring Fund with respect to the year.

Dividends declared by the Acquiring Fund in October, November or December to shareholders of record in one of those months and paid during the following January will be treated as having been paid by the Acquiring Fund and received by shareholders on December 31 of the year the distributions were declared.

Each shareholder will receive an annual statement summarizing the shareholder's dividend and capital gains distributions.

The redemption, sale or exchange of shares normally will result in capital gain or loss to shareholders who hold their shares as capital assets. Generally, a shareholder's gain or loss will be long-term capital gain or loss if the shares have been held for more than one year even though the increase in value in such shares is attributable to tax-exempt interest income. The gain or loss on shares held for one year or less will generally be treated as short-term capital gain or loss. Current law taxes both long-term and short-term capital gains of corporations at the same rates applicable to ordinary

income. However, for noncorporate taxpayers, long-term capital gains are currently taxed at a maximum federal income tax rate of 20%, while short-term capital gains are currently taxed at ordinary income rates. An additional 3.8% Medicare tax may also apply to certain individual, estate or trust shareholders' capital gain from the sale or other disposition of their shares. Any loss on the sale of shares that have been held for six months or less will be disallowed to the extent of any distribution of exempt-interest dividends received with respect to such shares, unless the shares are of a RIC that declares exempt-interest dividends on a daily basis in an amount equal to at least 90% of its net tax-exempt interest and distributes such dividends on a monthly or more frequent basis. Any remaining loss on the sale or disposition of shares held for six months or less will be treated as a long-term capital loss to the extent of any distributions of net capital gains received by the shareholder on such shares. Any loss realized on a sale or exchange of shares of the Acquiring Fund will be disallowed to the extent those shares of the Acquiring Fund are replaced by other substantially identical shares of the Acquiring Fund or other substantially identical stock or securities (including through reinvestment of dividends) within a period of 61 days beginning 30 days before and ending 30 days after the date of disposition of the original shares. In that event, the basis of the replacement shares will be adjusted to reflect the disallowed loss. The deductibility of capital losses is subject to limitations.

Any interest on indebtedness incurred or continued to purchase or carry the Acquiring Fund's shares to which exempt-interest dividends are allocated is not deductible. Under certain applicable rules, the purchase or ownership of shares may be considered to have been made with borrowed funds even though such funds are not directly used for the purchase or ownership of the shares. In addition, if you receive Social Security or certain railroad retirement benefits, you may be subject to U.S. federal income tax on a portion of such benefits as a result of receiving investment income, including exempt-interest dividends and other distributions paid by the Acquiring Fund.

If the Acquiring Fund invests in certain pay-in-kind securities, zero coupon securities, deferred interest securities or, in general, any other securities with original issue discount (or with market discount if the Acquiring Fund elects to include market discount in income currently), the Acquiring Fund must accrue income on such investments for each taxable year, which generally will be prior to the receipt of the corresponding cash payments. However, the Acquiring Fund must distribute to shareholders, at least annually, all or substantially all of its investment company taxable income (determined without regard to the deduction for dividends paid) and its net tax-exempt income, including such income it is required to accrue, to qualify as a RIC and (with respect to its ordinary income and capital gain) to avoid federal income and excise taxes. Therefore, the Acquiring Fund may have to dispose of its portfolio securities under disadvantageous circumstances to generate cash, or may have to leverage itself by borrowing the cash, to satisfy these distribution requirements.

The Acquiring Fund may hold or acquire municipal obligations that are market discount bonds. A market discount bond is a security acquired in the secondary market at a price below its redemption value (or its adjusted issue price if it is also an original issue discount bond). If the Acquiring Fund invests in a market discount bond, it will be required to treat any gain recognized on the disposition of such market discount bond as ordinary taxable income to the extent of the accrued market discount.

The Acquiring Fund may be required to withhold U.S. federal income tax at a rate of 28% from all distributions (including exempt-interest dividends) and redemption proceeds payable to a shareholder if the shareholder fails to provide the Acquiring Fund with his, her or its correct taxpayer identification number or to make required certifications, or if the shareholder has been notified by the IRS (or the IRS notifies the Acquiring Fund) that he, she or it is subject to backup withholding. Backup

withholding is not an additional tax; rather, it is a way in which the IRS ensures it will collect taxes otherwise due. Any amounts withheld may be credited against a shareholder's U.S. federal income tax liability.

Sections 1471-1474 of the Code and the U.S. Treasury and IRS guidance issued thereunder (collectively, "FATCA") generally require the Acquiring Fund to obtain information sufficient to identify the status of each of its shareholders. If a shareholder fails to provide this information or otherwise fails to comply with FATCA, the Acquiring Fund may be required to withhold under FATCA at a rate of 30% with respect to that shareholder on Acquiring Fund dividends and distributions and redemption proceeds. The Acquiring Fund may disclose the information that it receives from (or concerning) its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA, related intergovernmental agreements or other applicable law or regulation. Investors are urged to consult their own tax advisers regarding the applicability of FATCA and any other reporting requirements with respect to the investor's own situation, including investments through an intermediary.

With respect to the preferred shares of the Acquiring Fund issued in the Reorganizations, the Acquiring Fund will receive an opinion from special tax counsel that the preferred shares will constitute equity of the Acquiring Fund, and the foregoing discussion and the tax opinion received by the Funds regarding certain aspects of the Reorganizations, including that the Reorganizations will qualify as tax-free reorganizations under the Code and that preferred shareholders of a Target Fund will not recognize a gain or loss upon the exchange of their shares, relies on the position that the preferred shares will constitute equity of the Acquiring Fund. Accordingly, distributions with respect to the preferred shares (other than distributions in redemption of preferred shares subject to Section 302(b) of the Code) will generally constitute dividends to the extent of the Acquiring Fund's current or accumulated earnings and profits, as calculated for federal income tax purposes and to the extent allocable to such distribution. Because the treatment of a corporate security as debt or equity is determined on the basis of the facts and circumstances of each case, and no controlling precedent exists for the preferred shares issued in the Reorganizations, there can be no assurance that the IRS will not question special tax counsel's opinion and the Acquiring Fund's treatment of the preferred shares as equity. If the IRS were to succeed in such a challenge, holders of preferred shares could be characterized as receiving taxable interest income rather than exempt-interest or other dividends, possibly requiring them to file amended income tax returns and retroactively to recognize additional amounts of ordinary income and pay additional tax, interest and penalties.

California Tax Matters

The following is based upon the advice of Sidley Austin LLP, special tax counsel to the Acquiring Fund.

The following is a general, abbreviated summary of certain provisions of the applicable California tax law as presently in effect as it directly governs the taxation of resident individual and corporate shareholders of the Acquiring Fund. This summary does not address the taxation of other shareholders nor does it discuss any local taxes that may be applicable.

The following is based on the assumptions that the Acquiring Fund will qualify under Subchapter M of the Code as a regulated investment company and that it will satisfy the conditions that will cause distributions by the Acquiring Fund to qualify as exempt-interest dividends to shareholders for federal and California purposes.

The Acquiring Fund intends to distribute substantially all of its net income and gains to its shareholders, and therefore, it is not expected that the Acquiring Fund will be subject to California corporate franchise or corporation income tax to the extent its earnings are so distributed.

If, at the close of each quarter of the Acquiring Fund's taxable year, at least 50% of the aggregate value of its total assets consists of obligations that, when held by individuals, pay interest that is exempt from tax by California under California or federal law, then distributions by the Acquiring Fund that are attributable to interest on any such obligation will not be subject to the California personal income tax; provided that such distributions are properly reported by the Acquiring Fund as exempt-interest dividends in written statements furnished to the Acquiring Fund's shareholders. All other distributions, including distributions attributable to capital gains, will be includable in gross income for purposes of the California personal income tax.

Interest on indebtedness incurred or continued for the purpose of acquiring or maintaining an investment in the shares will not be deductible for purposes of the California personal income tax.

All distributions of the Acquiring Fund, regardless of source, to corporate shareholders that are subject to the California corporate franchise tax will be included in gross income for purposes of such tax, notwithstanding that all or a portion of such distributions may be exempt from California personal income tax.

Gain on the sale, exchange, or other disposition of shares will be subject to the California personal income and corporate franchise tax. In addition, any loss realized by a shareholder upon the sale of shares held for six months or less may be disallowed to the extent of any exempt interest dividends received with respect to such shares. Moreover, any loss realized upon the sale of shares within thirty days before or after the acquisition of other shares may be disallowed under the "wash sale" rules.

Shares may be subject to the California estate tax if held by a California decedent at the time of death.

The foregoing is a general summary of certain provisions of applicable California tax law as presently in effect as it directly governs the taxation of California resident individual and corporate holders of shares of the Acquiring Fund. These provisions are subject to change by legislative, judicial or administrative action, and any such change may be retroactive. This summary does not address the taxation of other shareholders nor does it discuss any local taxes that may be applicable. Shareholders should consult with their own tax advisor for more detailed information concerning California and other state and local tax matters.

Other State and Local Tax Matters

While distributions qualifying as exempt-interest dividends under federal and California law will be exempt from regular federal and California personal income taxes, they may not be exempt from other state or local income or other taxes. Some states exempt from state income tax that portion of any exempt-interest dividend that is derived from interest a regulated investment company receives on its holdings of securities of that state and its political subdivisions and instrumentalities. Therefore, the Acquiring Fund will report annually to its shareholders the percentage of interest income the Fund earned during the preceding year on tax-exempt obligations and the Acquiring Fund will indicate, on a state-by-state basis, the source of this income. Shareholders are advised to consult with their own tax advisors for more detailed information concerning California tax matters or the tax laws of their state and locality of residence.

Net Asset Value

The Acquiring Fund's net asset value per common share is determined as of the close of the regular session trading (normally 4:00 p.m. Eastern time) on each day the NYSE is open for business. Net asset value is calculated by taking the market value of the Acquiring Fund's total assets, including interest or dividends accrued but not yet collected, less all liabilities, and dividing by the total number of shares outstanding. The result, rounded to the nearest cent, is the net asset value per share. All valuations are subject to review by the Acquiring Fund's Board or its delegate.

The Acquiring Fund's custodian calculates the Fund's net asset value. The custodian uses prices for portfolio securities from a pricing service the Acquiring Fund's Board has approved. The pricing service values portfolio securities at the mean between the quoted bid and asked price or the yield equivalent when quotations are readily available. Securities for which quotations are not readily available (which will constitute the majority of the Acquiring Fund's portfolio securities) are valued at fair value as determined by the Board in reliance upon data supplied by the pricing service. The pricing service uses methods that consider yields or prices of municipal securities of comparable quality, type of issue, coupon, maturity and ratings; dealers' indications of value; and general market conditions. The pricing service may use electronic data processing techniques or a matrix system, or both. The Acquiring Fund's officers review the pricing service's procedures and valuations, under the general supervision of the Board.

VRDP Shares are designed to be eligible for purchase by money market funds. Based on information provided by the remarketing agent for the VRDP Shares (Series 3 and 4) of the Acquiring Fund, money market funds within certain fund complexes may hold, in the aggregate, greater than 5% of the outstanding VRDP Shares of the Acquiring Fund of such series, and individual money market funds within such complexes may beneficially own an indeterminable amount of VRDP Shares of such series exceeding 5% of the outstanding VRDP Shares of the Acquiring Fund. Information with respect to aggregate holdings of VRDP Shares associated with fund complexes identified by the remarketing agent for the VRDP Shares (Series 3 and 4) of the Acquiring Fund (number of VRDP Shares and percentage of total outstanding) is as follows: Acquiring Fund (Series 3): The Vanguard Group (408 shares (81.93%)) and Wells Fargo Asset Management (90 shares (18.07%)); and Acquiring Fund (Series 4): The Vanguard Group (430 shares (40.72%)), JP Morgan (310 shares (29.36%)), Morgan Stanley Investment Management (130 shares (12.31%)), Charles Schwab Investment Management (126 shares (11.93%)) and Deutsche Asset Management (60 shares (5.68%)). Based on the foregoing holding information and the Funds' preferred shares outstanding as of June 24, 2016, the estimated pro forma ownership of the combined fund's VRDP Shares for The Vanguard Group would be 8.75%, and the estimated pro forma ownership of all preferred shares of the combined fund (i.e., VMTP Shares and VRDP Shares) would be 7.60%. The Funds have received no information regarding any shareholders or groups of shareholders that beneficially own greater than 5% of the outstanding VRDP Shares of the Acquiring Fund (Series 1, 2, 5 and 6), Dividend Advantage 2 (Series 1) or Dividend Advantage 3 (Series 1).

Expenses of Proxy Solicitation

Common shareholders will indirectly bear the costs of the Reorganizations, whether or not the Reorganizations are consummated. Preferred shareholders will not bear any costs of the Reorganizations. The total costs of the Reorganizations, which include the cost of preparing, printing and mailing the enclosed proxy, the accompanying notice and this Joint Proxy Statement and all other costs in connection with the solicitation of proxies, are estimated to be \$1,085,000, and each Fund's allocable share of such costs will be reflected in its net asset value at or before the close of trading on the business day immediately prior to the closing of the Reorganizations. The estimated allocation of the costs among the Funds is as follows: \$450,000 (0.03%) for the Acquiring Fund, \$260,000 (0.11%) for Dividend Advantage 2 and \$375,000 (0.11%) for Dividend Advantage 3 (all percentages are based on average net assets applicable to common shares for the twelve (12) months ended February 29, 2016). The allocation of the costs of the Reorganizations will be based on the relative expected benefits of the Reorganizations comprised of forecasted operating cost savings (i.e., total expenses excluding the costs of leverage) and improved secondary market trading, if any, to each Fund during the first year following the Reorganizations. The Reorganizations are expected to result in the potential for operating cost savings (i.e., total expenses excluding the costs of leverage) for common shareholders of each Fund (as shareholders of the combined fund following the Reorganizations) and for increased distributions over time for the common shareholders of each Fund in their capacity as common shareholders of the combined fund following the Reorganizations. Distribution increases, if any, would be realized following the recoupment of the expenses of the Reorganizations.

Audit Committee Report

The Audit Committee of each Fund's Board is responsible for the oversight and monitoring of (1) the accounting and reporting policies, processes and practices, and the audit of the financial statements, of each Fund, (2) the quality and integrity of the Funds' financial statements and (3) the independent registered public accounting firm's qualifications, performance and independence. In its oversight capacity, the committee reviews each Fund's annual financial statements with both management and the independent registered public accounting firm and the committee meets periodically with the independent registered public accounting firm and internal auditors to consider their evaluation of each Fund's financial and internal controls. The Committee also selects, retains, evaluates and may replace each Fund's independent registered public accounting firm. The Committee is currently composed of five Independent Board Members and operates under a written charter adopted and approved by each Board. Each Committee member meets the independence and experience requirements, as applicable, of the New York Stock Exchange, NYSE MKT, LLC, NASDAQ Stock Market, LLC, Section 10A of the Exchange Act and the rules and regulations of the SEC.

The Committee, in discharging its duties, has met with and held discussions with management and each Fund's independent registered public accounting firm. The Committee has also reviewed and discussed the audited financial statements with management. Management has represented to the independent registered public accounting firm that each Fund's financial statements were prepared in accordance with generally accepted accounting principles. The Committee has also discussed with the independent registered public accounting firm the matters required to be discussed under relevant auditing standards. Each Fund's independent registered public accounting firm provided to the Committee the written disclosure required by Public Company Accounting Oversight Board Rule 3526 (Communications with Audit Committees Concerning Independence), and the Committee discussed

with representatives of the independent registered public accounting firm their firm’s independence. As provided in the Audit Committee Charter, it is not the Committee’s responsibility to determine, and the considerations and discussions referenced above do not ensure, that each Fund’s financial statements are complete and accurate and presented in accordance with generally accepted accounting principles.

Based on the Committee’s review and discussions with management and the independent registered public accounting firm, the representations of management and the report of the independent registered public accounting firm to the Committee, the Committee has recommended that the audited financial statements be included in each Fund’s Annual Report.

As of February 15, 2016 the members of the Committee are:

Jack B. Evans

David J. Kundert

John K. Nelson

Carole E. Stone

Terence J. Toth

Appointment of the Independent Registered Public Accounting Firm

Each Fund’s Board has appointed KPMG LLP as independent registered public accounting firm to audit the books and records of each Fund for its current fiscal year. A representative of KPMG LLP will be present at the Annual Meeting to make a statement, if such representative so desires, and to respond to shareholders’ questions. KPMG LLP has informed each Fund that it has no direct or indirect material financial interests in the Funds, Nuveen, the Adviser or any other investment company sponsored by Nuveen.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve each Fund's independent registered public accounting firm's engagements (1) with the Fund for audit or non-audit services and (2) with the Adviser and Adviser entities for non-audit services if the engagement relates directly to the operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent registered public accounting firm for each Fund and the Adviser and Adviser entities (with respect to the operations and financial reporting of each Fund), such engagements will be (1) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (2) reported to the Audit Committee Chairman for his/her verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (3) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

The Audit Committee has approved in advance all audit services and non-audit services that the independent registered public accounting firm provided to each Fund and to the Adviser and Adviser entities (with respect to the operations and financial reporting of each Fund). None of the services rendered by the independent registered public accounting firm to each Fund or the Adviser or Adviser entities were pre-approved by the Audit Committee pursuant to the pre-approval exception under Rule 2-01(c)(7)(i)(C) or Rule 2-01(c)(7)(ii) of Regulation S-X.

Section 16(a) Beneficial Interest Reporting Compliance

Section 30(h) of the 1940 Act and Section 16(a) of the Exchange Act require Board Members and officers, the Adviser, affiliated persons of the Adviser and persons who own more than 10% of a registered class of a Fund's equity securities to file forms reporting their affiliation with that Fund and reports of ownership and changes in ownership of that Fund's shares with the SEC and the NYSE or NYSE MKT. These persons and entities are required by SEC regulation to furnish the Funds with copies of all Section 16(a) forms they file. Based on a review of these forms furnished to each Fund, each Fund believes that its Board Members and officers, the Adviser and affiliated persons of the Adviser have complied with all applicable Section 16(a) filing requirements during its last fiscal year. To the knowledge of management of the Funds, no shareholder of a Fund owns more than 10% of a registered class of a Fund's equity securities, except as provided above in the section entitled "Shareholders of the Acquiring Fund and the Target Funds."

Shareholder Proposals

To be considered for presentation at the 2017 annual meeting of shareholders of the Funds, a shareholder proposal (including the nomination of an individual for election as a Board Member) submitted pursuant to Rule 14a-8 under the Exchange Act must have been received at the offices of the Funds, 333 West Wacker Drive, Chicago, Illinois 60606, not later than March 17, 2017. A shareholder wishing to provide notice in the manner prescribed by Rule 14a-4(c)(1) under the Exchange Act of a proposal (including the nomination of an individual for election as a Board Member) submitted outside of the process of Rule 14a-8 must, pursuant to each Fund's by-laws, submit such written notice to the respective Fund by the later of 45 days prior to the 2017 annual meeting or the tenth business day following the date the 2017 annual meeting is first publicly disclosed. Timely submission of a proposal does not mean that such proposal will be included in a proxy statement.

The Acquiring Fund expects to hold its 2017 annual meeting of shareholders in November 2017. If all proposals are approved and the Reorganizations are consummated, the Target Funds will cease to exist and will not hold their 2017 annual meetings. If the Reorganizations are not approved or are not consummated, each Target Fund will hold its 2017 annual meeting of shareholders, expected to be held in November 2017.

Shareholder Communications

Fund shareholders who want to communicate with the Board or any individual Board Member should write to the attention of Lorna Ferguson, Manager of Fund Board Relations, Nuveen Investments, 333 West Wacker Drive, Chicago, Illinois 60606. The letter should indicate that you are a Fund shareholder and note the Fund or Funds that you own. If the communication is intended for a specific Board Member and so indicates, it will be sent only to that Board Member. If a communication does not indicate a specific Board Member it will be sent to the Independent Chairman and the outside counsel to the Independent Board Members for further distribution as deemed appropriate by such persons.

Fiscal Year

The fiscal year end for each Fund is February 28 (or February 29 in leap years).

Shareholder Report Delivery

Shareholder reports will be sent to shareholders of record of each Fund following each Fund's fiscal year end. Each Fund will furnish, without charge, a copy of its annual report and/or semi-annual report as available upon request. Such written or oral requests should be directed to a Fund at 333 West Wacker Drive, Chicago, Illinois 60606 or by calling (800) 257-8787.

Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting to Be Held on September 12, 2016:

The Joint Proxy Statement is available at <http://www.nuveenproxy.com/Closed-End-Fund-Proxy-Information/>. For more information, shareholders may also contact the applicable Fund at the address and phone number set forth above.

Please note that only one annual report or proxy statement may be delivered to two or more shareholders of a Fund who share an address, unless the Fund has received instructions to the contrary. To request a separate copy of an annual report or proxy statement, or for instructions as to how to request a separate copy of such documents in the future or as to how to request a single copy if multiple copies of such documents are received, shareholders should contact the applicable Fund at the address and phone number set forth above.

Other Information

Management of the Funds does not intend to present and does not have reason to believe that others will present any items of business at the Annual Meetings, except as described in this Joint Proxy Statement. However, if other matters are properly presented at the meetings for a vote, the proxies will be voted upon such matters in accordance with the judgment of the persons acting under the proxies.

A list of shareholders of each Fund entitled to be present and to vote at the Annual Meetings will be available at the offices of the Funds, 333 West Wacker Drive, Chicago, Illinois 60606, for inspection by any shareholder of the Funds during regular business hours for ten days prior to the date of the Annual Meetings.

In the absence of a quorum for a particular matter, business may proceed on any other matter or matters that may properly come before the Annual Meeting if there are present, in person or by proxy, a quorum of shareholders in respect of such other matters. The chairman of the meeting may, whether or not a quorum is present, propose one or more adjournments of the Annual Meeting on behalf of a Fund without further notice to permit further solicitation of proxies. Any such adjournment will require the affirmative vote of the holders of a majority of the shares of the Fund present in person or by proxy and entitled to vote at the session of the Annual Meeting to be adjourned.

Broker-dealer firms holding shares in street name for the benefit of their customers and clients will request the instruction of such customers and clients on how to vote their shares on the proposals. A broker-dealer firm that has not received instructions from a customer prior to the date specified in its request for voting instructions may not vote such customer's shares on the proposals described in this Joint Proxy Statement except for Proposal No.1. A signed proxy card or other authorization by a beneficial owner of shares of a Fund that does not specify how the beneficial owner's shares are to be voted on a proposal may be deemed to be an instruction to vote such shares in favor of the proposal.

IF YOU CANNOT BE PRESENT AT THE MEETING, YOU ARE REQUESTED TO FILL IN, SIGN AND RETURN THE ENCLOSED PROXY PROMPTLY. NO POSTAGE IS REQUIRED IF MAILED IN THE UNITED STATES.

APPENDIX A

AGREEMENT AND PLAN OF REORGANIZATION

THIS AGREEMENT AND PLAN OF REORGANIZATION (the Agreement) is made as of this [] day of [] 2016, by and among Nuveen California Dividend Advantage Municipal Fund, a Massachusetts business trust (the Acquiring Fund), Nuveen California Dividend Advantage Municipal Fund 2, a Massachusetts business trust (Dividend Advantage 2 or a Target Fund), and Nuveen California Dividend Advantage Municipal Fund 3, a Massachusetts business trust (Dividend Advantage 3 or a Target Fund and, together with Dividend Advantage 2, the Target Funds). The Acquiring Fund and each Target Fund may be referred to herein each as a Fund and collectively as the Funds.

For each Reorganization (as defined below), this Agreement is intended to be, and is adopted as, a plan of reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (the Code), and the Treasury Regulations promulgated thereunder. The reorganization of each Target Fund into the Acquiring Fund will consist of (i) the transfer of substantially all of the assets of the Target Fund to the Acquiring Fund in exchange solely for newly issued common shares of beneficial interest, par value \$0.01 per share, of the Acquiring Fund (the Acquiring Fund Common Shares) and newly issued Variable Rate Demand Preferred Shares (VRDP Shares) of the Acquiring Fund, with a par value of \$0.01 per share and liquidation preference of \$100,000 per share (the Acquiring Fund Preferred Shares and, collectively with the Acquiring Fund Common Shares, the Acquiring Fund Shares), and the assumption by the Acquiring Fund of substantially all of the liabilities of the Target Fund; and (ii) the distribution of all of the Acquiring Fund Common Shares and Acquiring Fund Preferred Shares received by the Target Fund to the holders of common shares and VRDP Shares, respectively, of the Target Fund as part of the complete liquidation, dissolution and termination of the Target Fund as provided herein, all upon the terms and conditions set forth in this Agreement (each, a Reorganization and, together, the Reorganizations).

WHEREAS, each Fund is a closed-end, management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act), and each Target Fund owns securities that generally are assets of the character in which the Acquiring Fund is permitted to invest;

WHEREAS, the Acquiring Fund is authorized to issue the Acquiring Fund Shares; and

WHEREAS, the Board of Trustees of the Acquiring Fund (the Acquiring Fund Board) has determined that the Reorganizations are in the best interests of the Acquiring Fund and that the interests of the existing shareholders of the Acquiring Fund will not be diluted as a result of the Reorganizations, and the Board of Trustees of each Target Fund (each, a Target Fund Board) has determined that the applicable Reorganization is in the best interests of such Target Fund and that the interests of the existing shareholders of such Target Fund will not be diluted as a result of the Reorganizations.

NOW, THEREFORE, in consideration of the premises and of the covenants and agreements hereinafter set forth, the parties hereto covenant and agree as follows:

ARTICLE I

TRANSFER OF ASSETS OF EACH TARGET FUND IN EXCHANGE FOR ACQUIRING FUND SHARES AND THE ASSUMPTION OF THE LIABILITIES OF EACH TARGET FUND AND TERMINATION AND LIQUIDATION OF EACH TARGET FUND

1.1 **THE EXCHANGE.** Subject to the terms and conditions contained herein and on the basis of the representations and warranties contained herein, each Target Fund agrees to transfer substantially all of its assets, as set forth in Section 1.2, to the Acquiring Fund. In consideration therefor, the Acquiring Fund agrees (i) to issue and deliver to such Target Fund (A) the number of Acquiring Fund Common Shares computed in the manner set forth in Section 2.3, and (B) the same number of Acquiring Fund Preferred Shares as the number of VRDP Shares of such Target Fund outstanding immediately prior to the Closing (as defined in this Section 1.1) and having substantially similar terms as the VRDP Shares of the Target Fund as of the Closing, and (ii) to assume substantially all of the liabilities of such Target Fund, if any, as set forth in Section 1.3. The Acquiring Fund Preferred Shares to be issued to each Target Fund will consist of a separate series, as set forth in Exhibit A hereto, and such series will (i) have equal priority with each other and with any other outstanding preferred shares of the Acquiring Fund as to the payment of dividends and as to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund; and (ii) have, along with any other outstanding preferred shares of the Acquiring Fund, preference with respect to the payment of dividends and as to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Acquiring Fund over the common shares of the Acquiring Fund. With respect to each Reorganization, the foregoing transactions will take place at the closing provided for in Section 3.1 (the Closing).

1.2 **ASSETS TO BE TRANSFERRED.** Each Target Fund will transfer all of its assets to the Acquiring Fund, including, without limitation, cash, securities, commodities, interests in futures, dividends or interest receivables owned by the Target Fund and any deferred or prepaid expenses shown as an asset on the books of the Target Fund as of the Closing, except that the Target Fund will retain assets sufficient to pay the preferred share dividends as set forth in Section 1.4 and the dividend or dividends set forth in Section 8.5.

Each Target Fund will, within a reasonable period of time before the Closing Date (as defined in Section 3.1), furnish the Acquiring Fund with a list of such Target Fund's portfolio securities and other investments. The Acquiring Fund will, within a reasonable period of time before the Closing Date, identify the securities, if any, on each Target Fund's list referred to in the foregoing sentence that do not conform to the Acquiring Fund's investment objectives, policies or restrictions and will notify each Target Fund accordingly. Each Target Fund, if requested by the Acquiring Fund, will dispose of such non-conforming securities identified by the Acquiring Fund before the Closing Date. In addition, if it is determined that the portfolios of the Target Funds and the Acquiring Fund, when aggregated, would contain investments exceeding certain percentage limitations applicable to the Acquiring Fund with respect to such investments, the Target Fund(s) holding such securities, if requested by the Acquiring Fund, will dispose of a sufficient amount of such investments as may be necessary to avoid violating such limitations as of the Closing; *provided, however*, that if more than one of the Target

Funds hold such securities, the Acquiring Fund will apportion all such sales between the Target Funds in a reasonable manner. Notwithstanding the foregoing, nothing herein will require any Target Fund to dispose of any investments or securities if, in the reasonable judgment of the applicable Target Fund Board or Nuveen Fund Advisors, LLC, the investment adviser to the Funds (the Adviser), such disposition would adversely affect the status of such Target Fund's Reorganization as a reorganization, as such term is used in Section 368(a) of the Code, or would otherwise not be in the best interests of such Target Fund.

1.3 LIABILITIES TO BE ASSUMED. Each Target Fund will endeavor to discharge all of its known liabilities and obligations to the extent possible before the Closing Date, except for the preferred share dividends set forth in Section 1.4 and the dividend(s) set forth in Section 8.5. Notwithstanding the foregoing, the liabilities not so discharged will be assumed by the Acquiring Fund, which assumed liabilities will include all of each Target Fund's liabilities, debts, obligations, and duties of whatever kind or nature, whether absolute, accrued, contingent, or otherwise, whether or not arising in the ordinary course of business, whether or not determinable at the Closing, and whether or not specifically referred to in this Agreement, provided that the Acquiring Fund will not assume any liabilities with respect to the preferred share dividends set forth in Section 1.4 or the dividend or dividends set forth in Section 8.5.

1.4 DECLARATION OF PREFERRED SHARE DIVIDENDS. Dividends will accumulate on the existing VRDP Shares of a Target Fund up to and including the day immediately preceding the Closing Date and then cease to accumulate, and dividends on the Acquiring Fund Preferred Shares will accumulate from and including the Closing Date. Prior to the Valuation Time (as defined in Section 2.1), each Target Fund will declare all accumulated but unpaid dividends on its VRDP Shares up to and including the day immediately preceding the Closing Date. With respect to the existing VRDP Shares of each Target Fund, such dividends will be paid on the Closing Date to holders thereof as of the day immediately preceding the Closing Date. Each Target Fund will retain assets in an amount sufficient to pay the dividends declared by it pursuant to this Section 1.4, and such assets will not be transferred to the Acquiring Fund on the Closing Date.

1.5 LIQUIDATION AND DISTRIBUTION.

(a) As soon as practicable after the Closing, each Target Fund will distribute in complete liquidation of such Target Fund, (i) pro rata to its common shareholders of record (the Target Fund Common Shareholders), as of the time of such distribution, all of the Acquiring Fund Common Shares received by such Target Fund pursuant to Section 1.1 (together with any dividends declared with respect thereto to holders of record as of a time after the Valuation Time and payable prior to such distribution (Interim Dividends)) and (ii) to its preferred shareholders of record (Target Fund Preferred Shareholders) and, together with Target Fund Common Shareholders, the Target Fund Shareholders, as of the time of such distribution, one Acquiring Fund Preferred Share received by such Target Fund in exchange for each VRDP Share of the Target Fund held by such Target Fund Preferred Shareholder immediately prior to the Closing (together with any dividends declared and paid pursuant to Section 1.4). Such distributions will be accomplished by the transfer of the Acquiring Fund Shares then credited to the account of each Target Fund on the books of the Acquiring Fund to open accounts on the share records of the Acquiring Fund in the names of Target Fund Shareholders and representing, in the case of a Target Fund Common Shareholder, such shareholder's pro rata share of the Acquiring Fund Common Shares received by such Target Fund and, in the case of a Target Fund Preferred Shareholder, the same number of Acquiring Fund Preferred

Shares as the number of VRDP Shares of the Target Fund held by such Target Fund Preferred Shareholder immediately prior to the Closing, and by paying to Target Fund Common Shareholders any Interim Dividends on Target Fund common shares exchanged for Acquiring Fund Common Shares in the Reorganizations. All issued and outstanding common and preferred shares of each Target Fund simultaneously will be canceled on the books of the Target Fund. The Acquiring Fund will not issue certificates representing Acquiring Fund Shares in connection with such transfers, except for any global certificate or certificates required by a securities depository in connection with the establishment of book-entry ownership of the shares.

(b) On or as soon after the Closing Date as is practicable, but in no event later than 12 months after the Closing Date, each Target Fund will thereupon proceed to dissolve and terminate as set forth in Section 1.8 below.

1.6 OWNERSHIP OF SHARES. Ownership of Acquiring Fund Shares will be shown on the books of the Acquiring Fund's transfer agent.

1.7 TRANSFER TAXES. Any transfer taxes payable upon the issuance of Acquiring Fund Shares in a name other than the registered holder of a Target Fund's common shares or preferred shares on the books of such Target Fund as of that time will, as a condition of such issuance and transfer, be paid by the person to whom such Acquiring Fund Shares are to be issued and transferred.

1.8 TERMINATION. Each Target Fund will completely liquidate and be dissolved, terminated and have its affairs wound up in accordance with the laws of the Commonwealth of Massachusetts promptly following the Closing and the payment of all dividends and distributions pursuant to, as applicable, Section 1.4, Section 1.5 and Section 8.5.

1.9 REPORTING. Any reporting responsibility of a Target Fund, including, without limitation, the responsibility for filing regulatory reports, tax returns or other documents with the Securities and Exchange Commission (the Commission), the exchange on which such Target Fund's common shares are listed or any state securities commission and any federal, state or local tax authorities or any other relevant regulatory authority, is and will remain the responsibility of such Target Fund.

1.10 BOOKS AND RECORDS. All books and records of each Target Fund, including all books and records required to be maintained under the 1940 Act and the rules and regulations thereunder, will be available to the Acquiring Fund from and after the Closing Date and will be turned over to the Acquiring Fund as soon as practicable following the Closing.

ARTICLE II

VALUATION

2.1 VALUATION OF ASSETS. The value of the net assets of each Target Fund will be the value of its assets, less its liabilities, computed as of the close of regular trading on the New York Stock Exchange on the business day immediately prior to the Closing Date (such time and date being hereinafter called the Valuation Time), using the valuation procedures of the Nuveen closed-end funds adopted by the applicable Target Fund Board or such other valuation procedures as may be

mutually agreed upon by the parties. For purposes of this Section 2.1, the value of each Target Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all outstanding preferred shares of such Target Fund.

2.2 VALUATION OF SHARES. The net asset value per Acquiring Fund Common Share will be computed as of the Valuation Time, using the valuation procedures of the Nuveen closed-end funds adopted by the Acquiring Fund Board or such other valuation procedures as may be mutually agreed upon by the parties. For purposes of this Section 2.2, the value of the Acquiring Fund's net assets will be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all outstanding preferred shares of the Acquiring Fund.

2.3 COMMON SHARES TO BE ISSUED. The number of Acquiring Fund Common Shares to be issued in exchange for a Target Fund's assets transferred to the Acquiring Fund will be determined by dividing the value of such assets transferred to the Acquiring Fund (net of the liabilities of such Target Fund that are assumed by the Acquiring Fund), determined in accordance with Section 2.1, by the net asset value of an Acquiring Fund Common Share, determined in accordance with Section 2.2. The aggregate net asset value of Acquiring Fund Common Shares received by each Target Fund in a Reorganization will equal, as of the Valuation Time, the aggregate net asset value of the Target Fund's common shares held by Target Fund Common Shareholders as of such time. In the event there are fractional Acquiring Fund Common Shares due Target Fund Common Shareholders after a Target Fund's assets have been exchanged for Acquiring Fund Common Shares, the Acquiring Fund's transfer agent will aggregate all such fractional common shares and sell the resulting whole on the exchange on which such shares are listed for the account of all such Target Fund Common Shareholders, and each such Target Fund Common Shareholder will be entitled to a pro rata share of the proceeds from such sale. With respect to the aggregation and sale of fractional common shares, the Acquiring Fund's transfer agent will act directly on behalf of the Target Fund Common Shareholders entitled to receive fractional shares and will accumulate such fractional shares, sell the shares and distribute the cash proceeds net of brokerage commissions, if any, directly to the Target Fund Common Shareholders entitled to receive the fractional shares (without interest and subject to withholding taxes).

2.4 EFFECT OF SUSPENSION IN TRADING. In the event that at the Valuation Time an accurate appraisal of the value of the net assets of the Acquiring Fund or a Target Fund is impracticable due to either (a) the closure of, or the imposition of a trading restriction on, the exchange on which shares of a Fund are listed or another exchange on which the portfolio securities of the Acquiring Fund or a Target Fund are purchased or sold; or (b) a disruption in trading or the reporting of trading on the exchange on which shares of a Fund are listed or elsewhere, the Closing Date will be postponed until at least the first business day after the day on which trading is fully resumed and/or reporting is restored or such later time as the parties may agree pursuant to Section 3.1.

2.5 COMPUTATIONS OF NET ASSETS. All computations of net asset value in this Article II will be made by or under the direction of State Street Bank and Trust Company ("State Street") in accordance with its regular practice as custodian of the Funds.

ARTICLE III

REPRESENTATIONS AND WARRANTIES

4.1 REPRESENTATIONS OF EACH TARGET FUND. Each Target Fund represents and warrants solely on its own behalf with respect to its Reorganization as follows:

(a) The Target Fund is a business trust duly organized, validly existing and in good standing under the laws of the Commonwealth of Massachusetts.

- (b) The Target Fund is registered as a closed-end management investment company under the 1940 Act, and such registration is in full force and effect.
- (c) The Target Fund is not, and the execution, delivery and performance of this Agreement (subject to shareholder approval and compliance with the other provisions hereof) will not result, in violation of any provision of the Target Fund's Declaration of Trust, By-Laws or Statement Establishing and Fixing the Rights and Preferences of Variable Rate Demand Preferred Shares (Target Fund VRDP Statement) or of any material agreement, indenture, instrument, contract, lease or other undertaking to which the Target Fund is a party or by which it is bound.
- (d) Except as otherwise disclosed in writing to and accepted by the Acquiring Fund, the Target Fund has no material contracts or other commitments that will be terminated with liability to it on or before the Closing Date.
- (e) No litigation, administrative proceeding or investigation of or before any court or governmental body currently is pending or to its knowledge threatened against the Target Fund or any of its properties or assets, which, if adversely determined, would materially and adversely affect its financial condition, the conduct of its business or the ability of the Target Fund to carry out the transactions contemplated by this Agreement. The Target Fund knows of no facts that might form the basis for the institution of such proceedings and is not a party to or subject to the provisions of any order, decree or judgment of any court or governmental body that materially and adversely affects its business or its ability to consummate the transactions contemplated herein.
- (f) The financial statements of the Target Fund as of February 29, 2016, and for the fiscal year then ended, have been prepared in accordance with generally accepted accounting principles in the United States of America and have been audited by independent auditors, and such statements (copies of which have been furnished to the Acquiring Fund) fairly reflect the financial condition of the Target Fund as of February 29, 2016, and there are no known contingent liabilities of the Target Fund as of such date that are not disclosed in such statements.
- (g) Since the date of the financial statements referred to in subsection (f) above, there have been no material adverse changes in the Target Fund's financial condition, assets, liabilities or business (other than changes occurring in the ordinary course of business), and there are no known contingent liabilities of the Target Fund that have arisen after such date. For the purposes of this subsection (g), a decline in the net asset value of the Target Fund will not constitute a material adverse change.
- (h) All federal, state, local and other tax returns and reports of the Target Fund required by law to be filed by it (taking into account permitted extensions for filing) have been timely filed and are complete and correct in all material respects. All federal, state, local and other taxes of the Target Fund required to be paid (whether or not shown on any such return or report) have been paid, or provision will have been made for the payment thereof, and any such unpaid taxes, as of the date of the financial statements referred to above, are properly reflected thereon. To the best of the Target Fund's knowledge, no tax authority is currently auditing or preparing to audit the Target Fund, and no assessment for taxes, interest, additions to tax or penalties has been asserted against the Target Fund.
- (i) The authorized capital of the Target Fund consists of the shares set forth in Exhibit B hereto. All issued and outstanding shares of the Target Fund are duly and validly issued,

fully paid and non-assessable by the Target Fund. All of the issued and outstanding shares of the Target Fund will, at the time of the Closing, be held by the persons and in the amounts set forth in the records of the Target Fund's transfer agent or tender and paying agent, as applicable, as provided in Section 3.3. The Target Fund has no outstanding options, warrants or other rights to subscribe for or purchase any shares of the Target Fund and has no outstanding securities convertible into shares of the Target Fund.

(j) At the Closing, the Target Fund will have good and marketable title to the Target Fund's assets to be transferred to the Acquiring Fund pursuant to Section 1.2, and full right, power and authority to sell, assign, transfer and deliver such assets, and the Acquiring Fund will acquire good and marketable title thereto, subject to no restrictions on the full transfer thereof, including such restrictions as might arise under the Securities Act of 1933, as amended (the "1933 Act"), except those restrictions as to which the Acquiring Fund has received notice and necessary documentation at or prior to the Closing.

(k) The execution, delivery and performance of this Agreement have been duly authorized by all necessary action on the part of the Target Fund, including the determinations of the Target Fund Board required by Rule 17a-8(a) under the 1940 Act. Subject to approval by shareholders, this Agreement constitutes a valid and binding obligation of the Target Fund, enforceable in accordance with its terms, subject as to enforcement to bankruptcy, insolvency, reorganization, moratorium and other laws relating to or affecting creditors' rights and to general equity principles.

(l) The information to be furnished by the Target Fund for use in any "no-action" letters, applications for orders, registration statements, proxy materials and other documents that may be necessary in connection with the transactions contemplated herein will be accurate and complete in all material respects and will comply in all material respects with the requirements of the federal securities laws and other laws and regulations.

(m) From the effective date of the Registration Statement (as defined in Section 5.7) through the time of the meeting of shareholders and on the Closing Date, any written information furnished by the Target Fund with respect to the Target Fund for use in the Proxy Materials (as defined in Section 5.7), or any other materials provided in connection with the Target Fund's Reorganization, does not and will not contain any untrue statement of a material fact or omit to state a material fact required to be stated or necessary to make the statements, in light of the circumstances under which such statements were made, not misleading.

(n) For each taxable year of its operations (including the taxable year ending on the Closing Date), the Target Fund (i) has elected to qualify, and has qualified or will qualify (in the case of the taxable year ending on the Closing Date), as a regulated investment company under the Code (a "RIC"); (ii) has been eligible to compute and has computed its federal income tax under Section 852 of the Code, and on or prior to the Closing Date will have declared a distribution with respect to all of its investment company taxable income (determined without regard to the deduction for dividends paid), the excess of its interest income excludible from gross income under Section 103(a) of the Code over its deductions disallowed under Sections 265 and 171(a)(2) of the Code and its net capital gain (after reduction for any available capital loss carryforward) (as such terms are defined in the Code) that has accrued or will accrue on or prior to the Closing Date; and (iii) has been, and will be (in the case of the taxable year ending on the Closing Date), treated as a separate corporation for federal income tax purposes.

4.2 REPRESENTATIONS OF THE ACQUIRING FUND. The Acquiring Fund represents and warrants as follows:

- (a) The Acquiring Fund is a business trust duly organized, validly existing and in good standing under the laws of the Commonwealth of Massachusetts.
- (b) The Acquiring Fund is registered as a closed-end management investment company under the 1940 Act, and such registration is in full force and effect.
- (c) The Acquiring Fund is not, and the execution, delivery and performance of this Agreement (subject to shareholder approval and compliance with the other provisions hereof) will not result, in violation of the Acquiring Fund's Declaration of Trust, By-Laws, Statement Establishing and Fixing the Rights and Preferences of Variable Rate MuniFund Term Preferred Shares (Acquiring Fund VMTP Statement) or Statements Establishing and Fixing the Rights and Preferences of Variable Rate Demand Preferred Shares (Acquiring Fund VRDP Statements) or any material agreement, indenture, instrument, contract, lease or other undertaking to which the Acquiring Fund is a party or by which it is bound.
- (d) No litigation, administrative proceeding or investigation of or before any court or governmental body currently is pending or to its knowledge threatened against the Acquiring Fund or any of its properties or assets, which, if adversely determined, would materially and adversely affect its financial condition, the conduct of its business or the ability of the Acquiring Fund to carry out the transactions contemplated by this Agreement. The Acquiring Fund knows of no facts that might form the basis for the institution of such proceedings and it is not a party to or subject to the provisions of any order, decree or judgment of any court or governmental body that materially and adversely affects its business or its ability to consummate the transactions contemplated herein.
- (e) The financial statements of the Acquiring Fund as of February 29, 2016, and for the fiscal year then ended, have been prepared in accordance with generally accepted accounting principles in the United States of America and have been audited by independent auditors, and such statements (copies of which have been furnished to each Target Fund) fairly reflect the financial condition of the Acquiring Fund as of February 29, 2016, and there are no known contingent liabilities of the Acquiring Fund as of such date that are not disclosed in such statements.
- (f) Since the date of the financial statements referred to in subsection (e) above, there have been no material adverse changes in the Acquiring Fund's financial condition, assets, liabilities or business (other than changes occurring in the ordinary course of business), and there are no known contingent liabilities of the Acquiring Fund that have arisen after such date. For the purposes of this subsection (f), a decline in the net asset value of the Acquiring Fund will not constitute a material adverse change.
- (g) All federal, state, local and other tax returns and reports of the Acquiring Fund required by law to be filed by it (taking into account permitted extensions for filing) have been timely filed and are complete and correct in all material respects. All federal, state, local and other taxes of the Acquiring Fund required to be paid (whether or not shown on any such return or report) have been paid, or provision will have been made for the payment thereof, and any such unpaid taxes, as of the date of the financial statements referred to above, are properly reflected thereon. To the best of the Acquiring Fund's knowledge, no tax authority is currently auditing or preparing to audit the Acquiring Fund, and no assessment for taxes, interest, additions to tax or penalties has been asserted against the Acquiring Fund.

(h) The authorized capital of the Acquiring Fund consists of an unlimited number of common and preferred shares of beneficial interest, par value \$0.01 per share. All of the issued and outstanding shares of the Acquiring Fund are duly and validly issued, fully paid and non-assessable by the Acquiring Fund (recognizing that under Massachusetts law, Acquiring Fund shareholders, under certain circumstances, could be held personally liable for the obligations of the Acquiring Fund). The Acquiring Fund has no outstanding options, warrants or other rights to subscribe for or purchase any shares of the Acquiring Fund and has no outstanding securities convertible into shares of the Acquiring Fund.

(i) The execution, delivery and performance of this Agreement have been duly authorized by all necessary action on the part of the Acquiring Fund, including the determinations of the Acquiring Fund Board required pursuant to Rule 17a-8(a) under the 1940 Act. Subject to approval by shareholders, this Agreement constitutes a valid and binding obligation of the Acquiring Fund, enforceable in accordance with its terms, subject as to enforcement to bankruptcy, insolvency, reorganization, moratorium and other laws relating to or affecting creditors' rights and to general equity principles.

(j) The Acquiring Fund Shares to be issued and delivered to each Target Fund for the account of Target Fund Shareholders pursuant to the terms of this Agreement will, at the Closing, have been duly authorized. When so issued and delivered, such Acquiring Fund Shares will be duly and validly issued shares of the Acquiring Fund and will be fully paid and non-assessable by the Acquiring Fund (recognizing that under Massachusetts law, Acquiring Fund shareholders, under certain circumstances, could be held personally liable for the obligations of the Acquiring Fund).

(k) The information to be furnished by the Acquiring Fund for use in any no-action letters, applications for orders, registration statements, proxy materials and other documents that may be necessary in connection with the transactions contemplated herein will be accurate and complete in all material respects and will comply in all material respects with the requirements of the federal securities laws and other laws and regulations.

(l) From the effective date of the Registration Statement through the time of the meeting of shareholders and on the Closing Date, any written information furnished by the Acquiring Fund with respect to the Acquiring Fund for use in the Proxy Materials, or any other materials provided in connection with the Reorganizations, does not and will not contain any untrue statement of a material fact or omit to state a material fact required to be stated or necessary to make the statements, in light of the circumstances under which such statements were made, not misleading.

(m) For each taxable year of its operations, including the taxable year that includes the Closing Date, the Acquiring Fund (i) has elected to qualify, has qualified or will qualify (in the case of the year that includes the Closing Date) and intends to continue to qualify as a RIC under the Code; (ii) has been eligible to and has computed its federal income tax under Section 852 of the Code, and will do so for the taxable year that includes the Closing Date; and (iii) has been, and will be (in the case of the taxable year that includes the Closing Date), treated as a separate corporation for federal income tax purposes.

(n) The Acquiring Fund agrees to use all reasonable efforts to obtain the approvals and authorizations required by the 1933 Act, the 1940 Act and any state securities laws as it may deem appropriate in order to continue its operations after the Closing Date.

ARTICLE V

COVENANTS OF THE FUNDS

5.1 **OPERATION IN ORDINARY COURSE.** Subject to Sections 1.2, 1.4 and 8.5, the Acquiring Fund and each Target Fund will operate their respective business in the ordinary course from the date of this Agreement through the Closing, it being understood that such ordinary course of business will include customary dividends and distributions and any other distributions necessary or desirable to avoid federal income or excise taxes.

5.2 **APPROVAL OF SHAREHOLDERS.** The Acquiring Fund and each Target Fund will call meetings of their respective shareholders to consider and act upon this Agreement and to take all other appropriate action necessary to obtain approval of the transactions contemplated herein.

5.3 **INVESTMENT REPRESENTATION.** Each Target Fund covenants that the Acquiring Fund Shares to be issued pursuant to this Agreement are not being acquired for the purpose of making any distribution other than in connection with such Target Fund's Reorganization and in accordance with the terms of this Agreement.

5.4 **ADDITIONAL INFORMATION.** Each Target Fund will assist the Acquiring Fund in obtaining such information as the Acquiring Fund reasonably requests concerning the beneficial ownership of the Target Fund's shares.

5.5 **FURTHER ACTION.** Subject to the provisions of this Agreement, each Fund will take or cause to be taken all action, and do or cause to be done all things, reasonably necessary, proper or advisable to consummate and make effective the transactions contemplated by this Agreement, including any actions required to be taken after the Closing.

5.6 **STATEMENT OF EARNINGS AND PROFITS.** As promptly as practicable, but in any case within 60 days after the Closing Date, each Target Fund will furnish the Acquiring Fund, in such form as is reasonably satisfactory to the Acquiring Fund and which will be certified by such Target Fund's Controller, a statement of the earnings and profits of the Target Fund for federal income tax purposes, as well as any net operating loss carryovers and capital loss carryovers that will be carried over to the Acquiring Fund pursuant to Section 381 of the Code.

5.7 **PREPARATION OF REGISTRATION STATEMENT AND PROXY MATERIALS.** The Funds will prepare and file with the Commission one or more registration statements on Form N-14 relating to the Acquiring Fund Common Shares to be issued to Target Fund Common Shareholders and related matters (the *Registration Statement*) and one or more proxy statements relating to the Acquiring Fund Preferred Shares to be issued to the Target Fund Preferred Shareholders (the *Proxy Statement*). Each Registration Statement will include a proxy statement of the Funds and a prospectus of the Acquiring Fund relating to the transactions contemplated by this Agreement, as applicable (the *Joint Proxy Statement/Prospectus*). Each Registration Statement and Proxy Statement will be in compliance with the 1933 Act, the Securities Exchange Act of 1934, as amended, and the 1940 Act, as applicable. 5.8 **TAX STATUS OF REORGANIZATIONS.** The intention of the parties is that each Reorganization will qualify as a reorganization within the meaning of Section 368(a) of the Code. None of the Target Funds or the Acquiring Fund will take any action, or cause any action to be taken (including, without limitation, the filing of any tax return), that is inconsistent with such treatment or that results in the failure of the transactions to qualify as reorganizations within the meaning of Section 368(a) of the Code. At or prior to the Closing, the parties to this Agreement will take such action, or cause such action to be taken, as is reasonably necessary to enable counsel to render the tax opinions contemplated in Section 8.8.

ARTICLE VII

CONDITIONS PRECEDENT TO OBLIGATIONS OF THE ACQUIRING FUND

The obligations of the Acquiring Fund to consummate the transactions provided for herein will be subject to the fulfillment or waiver of the following conditions:

ARTICLE VIII

FURTHER CONDITIONS PRECEDENT

The obligations of each Target Fund and the Acquiring Fund hereunder will also be subject to the fulfillment or waiver of the following conditions:

8.1 This Agreement and the transactions contemplated herein will have been approved by the requisite vote of the holders of the outstanding common and preferred shares of each Target Fund in accordance with applicable law and the provisions of each Target Fund's Declaration of Trust, By-Laws and Target Fund VRDP Statement. In addition, this Agreement, the issuance of Acquiring Fund Shares and the transactions contemplated herein, will have been approved by the requisite votes of the holders of the outstanding common and preferred shares of the Acquiring Fund in accordance with applicable law, the requirements of any applicable national securities exchange(s) and the provisions of the Acquiring Fund's Declaration of Trust, By-Laws, Acquiring Fund VMTP Statement and Acquiring Fund VRDP Statements.

Furthermore, no action, suit or other proceeding will be threatened or pending before any court or governmental agency in which it is sought to restrain or prohibit, or obtain damages or other relief in connection with, this Agreement or the transactions contemplated herein.

8.3 All consents, orders and permits of federal, state and local regulatory authorities (including those of the Commission and of state securities authorities, including any necessary no-action positions and exemptive orders from such federal and state authorities) to permit consummation of the transactions contemplated herein will have been obtained or made. All notices to, or consents or waivers from, other persons, including without limitation holders of preferred shares or liquidity providers with respect to preferred shares, or other actions necessary to permit consummation of the transactions contemplated herein will have been obtained or made.

8.4 The Registration Statement will have become effective under the 1933 Act, and no stop orders suspending the effectiveness thereof will have been issued. 8.5 Each Target Fund will have declared, prior to the Valuation Time, a dividend or dividends that, together with all previous such dividends, will have the effect of distributing to its shareholders at least all of the Target Fund's investment company taxable income for all taxable periods ending on or before the Closing Date (computed without regard to any deduction for dividends paid), if any, plus the excess of its interest income excludible from gross income under Section 103(a) of the Code, if any, over its deductions disallowed under Sections 265 and 171(a)(2) of the Code for all taxable periods ending on or before the Closing Date and all of its net capital gains realized in all taxable periods ending on or before the Closing Date (after reduction for any available capital loss carryforward).

8.6 The Target Funds will have received an opinion from Vedder Price P.C. dated as of the Closing Date substantially to the effect that:

(a) The Acquiring Fund has been formed as a voluntary association with transferable shares of beneficial interest commonly referred to as a Massachusetts business trust, and is existing under the laws of the Commonwealth of Massachusetts and, to such counsel's knowledge, has the power as a business trust to carry on its business as currently conducted as described in the definitive Joint Proxy Statement/Prospectus as filed with the Commission pursuant to Rule 497 under the 1933 Act.

(b) The Acquiring Fund is registered as a closed-end management investment company under the 1940 Act, and, to such counsel's knowledge, such registration under the 1940 Act is in full force and effect.

(c) Assuming that the Acquiring Fund Shares will be issued in accordance with the terms of this Agreement, the Acquiring Fund Shares to be issued and delivered to each Target Fund on behalf of its Target Fund Shareholders as provided by this Agreement are duly authorized and, upon such delivery, will be validly issued and fully paid and non-assessable by the Acquiring Fund, except that, as described in the definitive Joint Proxy Statement/Prospectus as filed with the Commission pursuant to Rule 497 under the 1933 Act, shareholders of the Acquiring Fund may, under certain circumstances, be held personally liable for its obligations under Massachusetts law, and no shareholder of the Acquiring Fund has, as such holder, any preemptive rights to acquire, purchase or subscribe for any securities of the Acquiring Fund under the Acquiring Fund's Declaration of Trust, By-Laws or Massachusetts law.

(d) The Registration Statement is effective and, to such counsel's knowledge, no stop order under the 1933 Act pertaining thereto has been issued.

(e) To the knowledge of such counsel, no consent, approval, authorization or order of any court or governmental authority of the United States or the Commonwealth of Massachusetts is required for consummation by the Acquiring Fund of the transactions contemplated herein, except as have been obtained.

(f) The execution and delivery of this Agreement by the Acquiring Fund did not, and the consummation by the Acquiring Fund of the transactions contemplated herein will not, violate the Acquiring Fund's Declaration of Trust, By-Laws, Acquiring Fund VMTP Statement or Acquiring Fund VRDP Statements (assuming the requisite approval of the Fund's shareholders has been obtained in accordance with its Declaration of Trust, By-Laws, Acquiring Fund VMTP Statement and Acquiring Fund VRDP Statements).

Insofar as the opinions expressed above relate to or are dependent upon matters that are governed by the laws of the Commonwealth of Massachusetts, Vedder Price P.C. may rely on the opinions of Morgan, Lewis & Bockius LLP.

8.7 The Acquiring Fund will have received an opinion from Vedder Price P.C. dated as of the Closing Date substantially to the effect that:

(a) Each Target Fund has been formed as a voluntary association with transferable shares of beneficial interest commonly referred to as a Massachusetts business trust, and is existing

under the laws of the Commonwealth of Massachusetts and, to such counsel's knowledge, has the power as a business trust to carry on its business as currently conducted as described in the definitive Joint Proxy Statement/Prospectus as filed with the Commission pursuant to Rule 497 under the 1933 Act.

(b) Each Target Fund is registered as a closed-end management investment company under the 1940 Act, and, to such counsel's knowledge, such registration under the 1940 Act is in full force and effect.

(c) To the knowledge of such counsel, no consent, approval, authorization or order of any court or governmental authority of the United States or the Commonwealth of Massachusetts is required for consummation by the Target Funds of the transactions contemplated herein, except as have been obtained.

(d) With respect to each Target Fund, the execution and delivery of this Agreement by the Target Fund did not, and the consummation by the Target Fund of the transactions contemplated herein will not, violate the Target Fund's Declaration of Trust, By-Laws or Target Fund VRDP Statement (assuming the requisite approval of the Fund's shareholders has been obtained in accordance with its Declaration of Trust, By-Laws and Target Fund VRDP Statement).

Insofar as the opinions expressed above relate to or are dependent upon matters that are governed by the laws of the Commonwealth of Massachusetts, Vedder Price P.C. may rely on the opinions of Morgan, Lewis & Bockius LLP.

8.8 With respect to each Reorganization, the Funds participating in such Reorganization will have received an opinion of Vedder Price P.C. dated as of the Closing Date and addressed to the Acquiring Fund and the Target Fund substantially to the effect that for federal income tax purposes:

(a) The transfer by the Target Fund of substantially all its assets to the Acquiring Fund solely in exchange for Acquiring Fund Shares and the assumption by the Acquiring Fund of substantially all the liabilities of the Target Fund, immediately followed by the distribution of all the Acquiring Fund Shares so received by the Target Fund to the Target Fund's shareholders of record in complete liquidation of the Target Fund and the dissolution of the Target Fund as soon as practicable thereafter, will constitute a reorganization within the meaning of Section 368(a)(1) of the Code, and the Acquiring Fund and the Target Fund will each be a party to a reorganization, within the meaning of Section 368(b) of the Code, with respect to the Reorganization.

(b) No gain or loss will be recognized by the Acquiring Fund upon the receipt of substantially all the Target Fund's assets solely in exchange for Acquiring Fund Shares and the assumption by the Acquiring Fund of substantially all the liabilities of the Target Fund.

(c) No gain or loss will be recognized by the Target Fund upon the transfer of substantially all its assets to the Acquiring Fund solely in exchange for Acquiring Fund Shares and the assumption by the Acquiring Fund of substantially all the liabilities of the Target Fund or upon the distribution (whether actual or constructive) of such Acquiring Fund Shares to the Target Fund's shareholders solely in exchange for such shareholders' shares of the Target Fund in complete liquidation of the Target Fund.

(d) No gain or loss will be recognized by the Target Fund's shareholders upon the exchange, pursuant to the Reorganization, of all their shares of the Target Fund solely for Acquiring Fund Shares, except to the extent the Target Fund's common shareholders receive cash in lieu of a fractional Acquiring Fund Common Share.

(e) The aggregate basis of the Acquiring Fund Shares received by each Target Fund shareholder pursuant to the Reorganization (including any fractional Acquiring Fund Common Share to which a Target Fund shareholder would be entitled) will be the same as the aggregate basis of the Target Fund shares exchanged therefor by such shareholder.

(f) The holding period of the Acquiring Fund Shares received by each Target Fund shareholder in the Reorganization (including any fractional Acquiring Fund Common Share to which a Target Fund shareholder would be entitled) will include the period during which the shares of the Target Fund exchanged therefor were held by such shareholder, provided such Target Fund shares are held as capital assets at the effective time of the Reorganization.

(g) The basis of the assets of the Target Fund received by the Acquiring Fund will be the same as the basis of such assets in the hands of the Target Fund immediately before the effective time of the Reorganization.

(h) The holding period of the assets of the Target Fund received by the Acquiring Fund will include the period during which those assets were held by the Target Fund.

No opinion will be expressed as to (1) the effect of the Reorganizations on a Target Fund, the Acquiring Fund or any Target Fund Shareholder with respect to any asset (including, without limitation, any stock held in a passive foreign investment company as defined in Section 1297(a) of the Code) as to which any unrealized gain or loss is required to be recognized under federal income tax principles (a) at the end of a taxable year (or on the termination thereof) or (b) upon the transfer of such asset regardless of whether such transfer would otherwise be a non-taxable transaction under the Code, or (2) any other federal tax issues (except those set forth above) and all state, local or foreign tax issues of any kind.

Such opinions will be based on customary assumptions and such representations as Vedder Price P.C. may reasonably request of the Funds, and each Target Fund and the Acquiring Fund will cooperate to make and certify the accuracy of such representations. Notwithstanding anything herein to the contrary, neither the Acquiring Fund nor any Target Fund may waive the conditions set forth in this Section 8.8. Insofar as the opinions expressed above relate to or are dependent upon the classification of the Acquiring Fund Preferred Shares as equity securities for U.S. federal income tax purposes, Vedder Price P.C. may rely on the opinion delivered to the Acquiring Fund by Sidley Austin LLP with respect to such issue for the Acquiring Fund Preferred Shares.

ARTICLE IX

EXPENSES

9.1 The expenses incurred in connection with the Reorganizations (whether or not the Reorganizations are consummated) will be allocated among the Funds pro rata based on the projected relative benefits to each Fund during the first year following the Reorganizations, and each Fund will

have accrued such expenses as liabilities at or before the Valuation Time. Reorganization expenses include, without limitation, (a) expenses associated with the preparation and filing of the Registration Statement and other Proxy Materials; (b) postage; (c) printing; (d) accounting fees; (e) legal fees incurred by each Fund; (f) solicitation costs of the transactions; and (g) other related administrative or operational costs.

9.2 Each party represents and warrants to the other parties that there is no person or entity entitled to receive any broker's fees or similar fees or commission payments in connection with structuring the transactions provided for herein.

9.3 Notwithstanding the foregoing, expenses will in any event be paid by the party directly incurring such expenses if and to the extent that the payment by another party of such expenses would result in the disqualification of a Target Fund or the Acquiring Fund, as the case may be, as a RIC under the Code.

ARTICLE X

ENTIRE AGREEMENT; SURVIVAL OF WARRANTIES

10.1 The parties agree that no party has made to any other party any representation, warranty or covenant not set forth herein and that this Agreement constitutes the entire agreement between and among the parties.

NUVEEN FUND BOARD AUDIT COMMITTEE CHARTER

I. Organization and Membership

There shall be a committee of each Board of Directors/Trustees (the Board) of the Nuveen Management Investment Companies (the Funds or, individually, a Fund) to be known as the Audit Committee. The Audit Committee shall be comprised of at least three Directors/Trustees. Audit Committee members shall be independent of the Funds and free of any relationship that, in the opinion of the Directors/Trustees, would interfere with their exercise of independent judgment as an Audit Committee member. In particular, each member must meet the independence and experience requirements applicable to the Funds of the exchanges on which shares of the Funds are listed, Section 10A of the Securities Exchange Act of 1934 (the Exchange Act), and the rules and regulations of the Securities and Exchange Commission (the Commission). Each such member of the Audit Committee shall have a basic understanding of finance and accounting, be able to read and understand fundamental financial statements, and be financially literate, and at least one such member shall have accounting or related financial management expertise, in each case as determined by the Directors/Trustees, exercising their business judgment (this person may also serve as the Audit Committee's financial expert as defined by the Commission). The Board shall appoint the members and the Chairman of the Audit Committee, on the recommendation of the Nominating and Governance Committee. The Audit Committee shall meet periodically but in any event no less frequently than on a semi-annual basis. Except for the Funds, Audit Committee members shall not serve simultaneously on the audit committees of more than two other public companies.

II. Statement of Policy, Purpose and Processes

The Audit Committee shall assist the Board in oversight and monitoring of

- (1) The accounting and reporting policies, processes and practices, and the audits of the financial statements, of the Funds;
- (2) The quality and integrity of the financial statements of the Funds;
- (3) The Funds' compliance with legal and regulatory requirements,
- (4) The independent auditors' qualifications, performance and independence; and
- (5) Oversight of the Pricing Procedures of the Funds and the Valuation Group.

In exercising this oversight, the Audit Committee can request other committees of the Board to assume responsibility for some of the monitoring as long as the other committees are composed exclusively of independent directors.

In doing so, the Audit Committee shall seek to maintain free and open means of communication among the Directors/Trustees, the independent auditors, the internal auditors and the management of the Funds. The Audit Committee shall meet periodically with Fund management, the Funds' internal auditor, and the Funds' independent auditors, in separate executive sessions. The Audit Committee shall prepare reports of the Audit Committee as required by the Commission to be included in the Fund's annual proxy statements or otherwise.

The Audit Committee shall have the authority and resources in its discretion to retain special legal, accounting or other consultants to advise the Audit Committee and to otherwise discharge its responsibilities, including appropriate funding as determined by the Audit Committee for compensation to independent auditors engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for a Fund, compensation to advisers employed by the Audit Committee, and ordinary administrative expenses of the Audit Committee that are necessary or appropriate in carrying out its duties, as determined in its discretion. The Audit Committee may request any officer or employee of Nuveen Investments, Inc. (or its affiliates) (collectively, Nuveen) or the Funds independent auditors or outside counsel to attend a meeting of the Audit Committee or to meet with any members of, or consultants to, the Audit Committee. The Funds independent auditors and internal auditors shall have unrestricted accessibility at any time to Committee members.

Responsibilities

Fund management has the primary responsibility to establish and maintain systems for accounting, reporting, disclosure and internal control.

The independent auditors have the primary responsibility to plan and implement an audit, with proper consideration given to the accounting, reporting and internal controls over financial reporting. Each independent auditor engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for the Funds shall report directly to the Audit Committee. The independent auditors are ultimately accountable to the Board and the Audit Committee. It is the ultimate responsibility of the Audit Committee to select, appoint, retain, evaluate, oversee and replace any independent auditors and to determine their compensation, subject to ratification of the Board, if required. These Audit Committee responsibilities may not be delegated to any other Committee or the Board.

The Audit Committee is responsible for the following:

With respect to Fund financial statements:

1. Reviewing and discussing the annual audited financial statements and semi-annual financial statements with Fund management and the independent auditors including significant issues regarding accounting and auditing principles and practices, and the Funds disclosures in its periodic reports under Management s Discussion and Analysis.
2. Requiring the independent auditors to deliver to the Chairman of the Audit Committee a timely report on any issues relating to the significant accounting policies, management judgments and significant accounting estimates and related significant assumptions, or other matters that would need to be communicated under PCAOB Auditing Standard No. 16, Communications with Audit Committees., that arise during the auditors review of the Funds financial statements, which information the Chairman shall further communicate to the other members of the Audit Committee, as deemed necessary or appropriate in the Chairman s judgment.
3. Discussing with management, as applicable, the Funds press releases regarding financial results and dividends, as well as financial information and earnings guidance provided to analysts and rating agencies. This discussion may be done generally, consisting of discussing the types of information to be disclosed and the types of presentations to be made. The Chairman of the Audit Committee shall be authorized to have these discussions with management on behalf of the Audit Committee.

4. Discussing with management and the independent auditors (a) significant financial reporting issues and judgments made in connection with the preparation and presentation of the Funds' financial statements, including any significant changes in the Funds' selection or application of accounting principles and any major issues as to the adequacy of the Funds' internal controls over financial reporting and any special audit steps adopted in light of significant control deficiencies; and (b) analyses prepared by Fund management or the independent auditor setting forth significant financial reporting issues and judgments made in connection with the preparation of the financial statements, including analyses of the effects of alternative GAAP methods on the financial statements.
5. Discussing with management and the independent auditors the effect of new or proposed regulatory and accounting standards on the Funds' financial statements.
6. Reviewing and discussing reports, both written and oral, from the independent auditors and/or Fund management regarding (a) all critical accounting policies and practices to be used; (b) all alternative treatments of financial information within generally accepted accounting principles that have been discussed with management, ramifications of the use of such alternative treatments and disclosures, and the treatment preferred by the independent auditors; and (c) other material written communications between the independent auditors and management, such as any management letter or schedule of unadjusted differences.
7. Discussing with Fund management the Funds' major financial risk exposures, including the risk of fraud or error, and the steps management has taken to monitor and control these exposures, including the Funds' risk assessment and risk management policies and guidelines and anti-fraud programs and controls. In fulfilling its obligations under this paragraph, the Audit Committee may review in a general manner the processes other Board committees have in place with respect to risk assessment and risk management.
8. Reviewing disclosures made to the Audit Committee by the Funds' principal executive officer and principal financial officer during their certification process for the Funds' periodic reports about any significant deficiencies in the design or operation of internal controls or material weaknesses therein and any fraud involving management or other employees who have a significant role in the Funds' internal controls. In fulfilling its obligations under this paragraph, the Audit Committee may review in a general manner the processes other Board committees have in place with respect to deficiencies in internal controls, material weaknesses, or any fraud associated with internal controls.

With respect to the independent auditors:

1. Selecting, appointing, retaining or replacing the independent auditors, subject, if applicable, only to Board and shareholder ratification; and compensating, evaluating and overseeing the work of the independent auditor (including the resolution of disagreements between Fund management and the independent auditor regarding financial reporting).
2. Meeting with the independent auditors and Fund management to review the scope, fees, audit plans and staffing for the audit, for the current year. At the conclusion of the audit, reviewing the audit results, including any and all communications required by the current auditing standards.
3. the audit, in accordance with any policies or procedures relating thereto as adopted by the Board or the Audit Committee. The Chairman of the Audit Committee shall be authorized to give pre-approvals of such non-audit services on behalf of the Audit Committee.

4. Obtaining and reviewing a report or reports from the independent auditors at least annually (including a formal written statement delineating all relationships between the auditors and the Funds consistent with PCAOB Ethics and Independence Rules) regarding (a) the independent auditor's internal quality-control procedures; (b) any material issues raised by the most recent internal quality-control review, peer review or PCAOB review or inspection, of the firm, or by any inquiry or investigation by governmental or professional authorities within the preceding five years, respecting one or more independent audits carried out by the firm; (c) any steps taken to deal with any such issues; and (d) all relationships between the independent auditor and the Funds and their affiliates, in order to assist the Audit Committee in assessing the auditor's independence. After reviewing the foregoing report[s] and the independent auditor's work throughout the year, the Audit Committee shall be responsible for evaluating the qualifications, performance and independence of the independent auditor and their compliance with all applicable requirements for independence and peer review, and a review and evaluation of the lead partner, taking into account the opinions of Fund management and the internal auditors, and discussing such reports with the independent auditors. The Audit Committee shall present its conclusions with respect to the independent auditor to the Board.
5. 6. Ensuring the rotation of the lead (or coordinating) audit partner having primary responsibility for the audit and the audit partner responsible for reviewing the audit as required by law, and further considering the rotation of the independent auditor firm itself.

2. Receiving a summary of findings from any completed internal audits pertaining to the Funds and a progress report on the proposed internal audit plan for the Funds, with explanations for significant deviations from the original plan.

With respect to pricing and valuation oversight:

1. The Board has responsibilities regarding the pricing of a Fund's securities under the 1940 Act. The Board has delegated this responsibility to the Committee to address and oversee valuation

issues, subject to the Board's general supervision of such actions. The Committee is primarily responsible for the oversight of the Pricing Procedures and actions taken by the internal Valuation Group (Valuation Matters). The Valuation Group will report on Valuation Matters to the Committee and/or the Board of Directors/Trustees, as appropriate.

2. Performing all duties assigned to it under the Funds' Pricing Procedures, as such may be amended from time to time.
3. Periodically reviewing and making recommendations regarding modifications to the Pricing Procedures as well as consider recommendations by the Valuation Group regarding the Pricing Procedures.
4. Reviewing any issues relating to the valuation of a Fund's securities brought to the Committee's attention, including suspensions in pricing, pricing irregularities, price overrides, self-pricing, NAV errors and corrections thereto, and other pricing matters. In this regard, the Committee should consider the risks to the Funds in assessing the possible resolutions of these Valuation Matters.
5. Evaluating, as it deems necessary or appropriate, the performance of any pricing agent and recommend changes thereto to the full Board.
6. Reviewing any reports or comments from examinations by regulatory authorities relating to Valuation Matters of the Funds and consider management's responses to any such comments and, to the extent the Committee deems necessary or appropriate, propose to management and/or the full Board the modification of the Fund's policies and procedures relating to such matters. The Committee, if deemed necessary or desirable, may also meet with regulators.
7. 3. Reviewing with the independent auditors, with any internal auditor and with Fund management, the adequacy and effectiveness of the accounting and financial controls of the Funds, and eliciting any recommendations for the improvement of internal control procedures or particular areas

where new or more detailed controls or procedures are desirable. Particular emphasis should be given to the adequacy of such internal controls to expose payments, transactions or procedures that might be deemed illegal or otherwise improper.

9. Reviewing and reassessing annually the adequacy of this charter and recommending to the Board approval of any proposed changes deemed necessary or advisable by the Audit Committee.
10. Undertaking an annual review of the performance of the Audit Committee.

12. Resolving any disagreements between Fund management and the independent auditors regarding financial reporting.

Although the Audit Committee shall have the authority and responsibilities set forth in this Charter, it is not the responsibility of the Audit Committee to plan or conduct audits or to determine that the Funds' financial statements are complete and accurate and are in accordance with generally accepted accounting principles. In connection with the Reorganizations, the Fund is making certain changes to the Statement Establishing and Fixing the Rights and Preferences of VRDP Shares ("VRDP Statement") for each New VRDP Series (each, a "New VRDP Statement" and collectively, the "New VRDP Statements") relative to the Statement Establishing and Fixing the Rights and Preferences of VRDP Shares currently in effect with respect to the corresponding Target Fund VRDP Series (each, a "Target Fund VRDP

Statement and collectively, the Target Fund VRDP Statements); including changes to: (i) provide increased flexibility and clarification regarding rating agency requirements, further to the increased flexibility and clarification included in offerings by Nuveen funds since at least December 2013; (ii) provide flexibility for different or modified terms in connection with a special rate period; and (iii) for the New VRDP Shares issued in exchange for the VRDP Shares of Dividend Advantage 3, the final mandatory redemption date.

Information regarding the Fund s, Dividend Advantage 2 s and Dividend Advantage 3 s current short-term ratings and long-term ratings assigned by, as applicable, Fitch Ratings, Inc., Moody s Investors Service, Inc. and Standard & Poor s Ratings Services, a Standard & Poor s Financial Services LLC business, is available at www.fitchratings.com, www.moodys.com and www.standardandpoors.com, respectively. No assurances can be given that the current ratings will be maintained.

Terms of the New VRDP Shares. The terms of the New VRDP Shares to be issued pursuant to the Reorganizations will be substantially similar, as of the closing of the Reorganizations, to the terms of the outstanding Target Fund VRDP Shares for which they are exchanged. Attached as Appendices A and B to this Information Memorandum are the forms of the New VRDP Statements and the forms of the VRDP Purchase Agreements, respectively, with respect to each New VRDP Series (each, a New VRDP Purchase Agreement and collectively, the New VRDP Purchase Agreements). You are urged to review the New VRDP Statements and the New VRDP Purchase Agreements. This Information Memorandum only summarizes some of the terms of the New VRDP Shares and some of the differences between the New VRDP Series and the corresponding currently outstanding Target Fund VRDP Series, and it is qualified in its entirety by the terms set forth in the New VRDP Statements and the New VRDP Purchase Agreements. Certain of the capitalized terms used herein and not defined herein shall have the meanings ascribed to them in the New VRDP Statements. See Description of the New VRDP Shares.

The New VRDP Shares have the following features, which will be substantially similar to those of the Target Fund VRDP Shares as of the closing of the Reorganizations:

the same short-term credit ratings (without regard to rating modifiers) from one or more rating agencies;

the same Liquidation Preference (\$100,000 per share);

the same terms with respect to the payment of an adjustable dividend rate set weekly by a Remarketing Agent;

the same right to give notice on any business day to tender the securities for remarketing in seven days;

the same terms with respect to the Mandatory Tender for remarketing upon the occurrence of certain events; and

the benefit of an unconditional demand feature pursuant to a New VRDP Purchase Agreement substantially identical to the unconditional demand feature in effect with respect to the Target Fund VRDP Shares immediately prior to the closing of the Reorganizations.

Changes to VRDP Shares. The following is a summary of the significant differences between each New VRDP Statement and the corresponding Target Fund VRDP Statement:

for the New VRDP Shares issued in exchange for VRDP Shares of Dividend Advantage 3, a final mandatory redemption date that is approximately ten years from the date of issuance of such New VRDP Shares;

changes reflected in the New VRDP Statement, as compared with the Target Fund VRDP Statement, to conform to the terms of VRDP Shares offerings by Nuveen funds since at least December 2013, including:

further to the increased flexibility and clarification with regard to the role of ratings of VRDP Shares included in VRDP Shares offerings by Nuveen funds since at least December 2013, changes to remove from the New VRDP Statement any VRDP basic maintenance amount requirements, including any mandatory redemption requirements, with the result that any rating agency requirements will be as set forth in the applicable rating agency guidelines with respect to long-term ratings of the VRDP Shares, as such guidelines may be amended from time to time by the applicable rating agency, and not in the New VRDP Statement, and further subject to the right of the Fund to accept a downgrade of a rating or terminate the services of a rating agency (as each Target Fund may do currently with respect to its VRDP Shares); and

changes to provide the Fund with increased flexibility to provide for different or modified terms in connection with establishment of a special rate period; the establishment of a special rate period will require, as is currently the case, prior notice and the consent of the applicable Liquidity Provider and will constitute a Mandatory Tender Event.

Remarketing. The terms of the remarketing for the New VRDP Shares will be the same as for the Target Fund VRDP Shares. Holders of the New VRDP Shares will have the option to tender New VRDP Shares for remarketing at the Purchase Price (as defined below) on any Business Day not less than seven days after delivery of a Notice of Tender to a tender and paying agent appointed by the Fund (each, a Tender and Paying Agent) with the consent of the applicable Liquidity Provider. In addition, the New VRDP Shares will be subject to mandatory tender for remarketing by a Remarketing Agent at the Purchase Price in the circumstances set forth in the New VRDP Statements. The applicable Remarketing Agent will use its best efforts in each case to remarket any New VRDP Shares so tendered. If no remarketing occurs on or before the relevant Purchase Date (as defined below), or New VRDP Shares remain unsold pursuant to an attempted remarketing, the applicable Tender and Paying Agent will deliver all such unsold New VRDP Shares that have been delivered to such Tender and Paying Agent to the applicable Liquidity Provider for purchase on such Purchase Date. In addition, the New VRDP Shares will be subject to mandatory purchase by the applicable Liquidity Provider at the Purchase Price for such New VRDP Shares in the event of termination of a New VRDP Purchase Agreement if the Fund has not obtained an alternate VRDP Purchase Agreement prior to such termination. The Purchase Price with respect to the New VRDP Shares is equal to the Liquidation Preference of New VRDP Shares to be purchased on a Purchase Date plus any accumulated but unpaid dividends (whether or not earned or declared), if any, to, but excluding, the relevant Purchase Date. The date designated for (i) purchase of New VRDP Shares pursuant to an optional or mandatory tender for remarketing or (ii) mandatory purchase by a Liquidity Provider is referred to herein as a Purchase Date.

Unconditional Demand Feature. The New VRDP Shares of each New VRDP Series will have the benefit of an unconditional demand feature, under a purchase agreement that contains a purchase obligation substantially identical to the unconditional demand feature in effect for the corresponding Target Fund VRDP Series as of the closing of the Reorganizations, to be provided by the bank then acting as liquidity provider (the Liquidity Provider), pursuant to a New VRDP Purchase Agreement. The purchase obligation of the Liquidity Provider is transferable only in connection with a transfer of New VRDP Shares; it is not separately transferable.

A Target Fund or the Fund may replace the bank acting as Liquidity Provider for a series of VRDP Shares as of the date hereof, in accordance with the applicable VRDP Statement and the related agreements. The purchase agreement with the replacement Liquidity Provider must contain a purchase obligation substantially identical to the purchase obligation of the current Liquidity Provider, as required under the applicable VRDP Statement. Whether or not the Liquidity Provider for a series of VRDP Shares is changed, the New VRDP Purchase Agreement will contain a purchase obligation substantially identical to the purchase obligation with respect to the applicable VRDP Shares and will be substantially in the form attached as Appendix B hereto.

Dividends and Rate Periods. It is anticipated that the Reorganizations will close on or about October 12, 2016, or such other date as the parties may agree. The applicable dividend rate of the New VRDP Shares of each New VRDP Series commencing on and including the date of issuance, to and including the next succeeding Rate Determination Date, will be equal to the dividend rate in effect for the corresponding Target Fund VRDP Series immediately prior to the closing. Generally, the dividend rate will be reset weekly by the applicable Remarketing Agent. Dividends on New VRDP Shares are expected to be exempt from regular federal and California income taxes, with exceptions for certain portions that may represent income subject to alternative minimum tax and capital gains or ordinary income, if any, generally from portfolio transactions and market discount.

Dividends on the New VRDP Shares will be declared daily to the holders thereof at the close of business on each such day and paid on each Dividend Payment Date to the holders thereof at the close of business on the day immediately preceding such Dividend Payment Date. In connection with any transfer of New VRDP Shares, the transferor as Beneficial Owner of New VRDP Shares will be deemed to have agreed pursuant to the terms of the New VRDP Shares to transfer to the transferee the right to receive from the Fund any dividends declared and unpaid for each day prior to the transferee becoming the Beneficial Owner of the New VRDP Shares in exchange for payment of the Purchase Price for such New VRDP Shares by the transferee.

Maximum Rate. The Maximum Rate for the New VRDP Shares on any Rate Determination Date or in respect of the occurrence of a failed remarketing for the New VRDP Shares will be the Applicable Percentage of the Applicable Base Rate plus the Applicable Spread. The terms of the Maximum Rate, including the Applicable Percentage of the Applicable Base Rate and Applicable Spread, are described in the New VRDP Statements. The Maximum Rate for the New VRDP Shares will depend on the long-term rating assigned to the New VRDP Shares, the length of the Rate Period and whether or not the Fund has given notification to the applicable Remarketing Agent and the applicable Tender and Paying Agent that any ordinary income or capital gains will be included in the dividend on the New VRDP Shares for that Rate Period.

The New VRDP Shares of each series will be subject to mandatory redemption by the Fund on the applicable date set forth in the chart above, unless earlier redeemed or repurchased by the Fund.

Investing in VRDP Shares involves risks. See Risk Factors beginning on page 42 of this Information Memorandum.

The investment objectives of the Fund are to provide current income exempt from regular federal and California income taxes and to enhance portfolio value relative to the California municipal bond market by investing in tax-exempt California municipal securities that the Fund's investment adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued.

As a fundamental investment policy, under normal circumstances, the Fund will invest at least 80% of its net assets, including assets attributable to any principal amount of any borrowings (including the issuance of commercial paper or notes) or any preferred shares outstanding (Managed Assets), in a portfolio of securities the income from which is exempt from regular federal income tax and California income taxes. As a non-fundamental investment policy, under normal circumstances, the Fund invests at least 80% of its Managed Assets in investment grade securities that, at the time of investment, are rated within the four highest grades (Baa or BBB or better) by at least one of the nationally recognized statistical rating organizations (each, an NRSRO, or collectively, the NRSROs) that rate such security or are unrated but judged to be of comparable quality by the Fund's investment advisor, Nuveen Fund Advisors, LLC (Nuveen Fund Advisors or the Investment Adviser), and or the Fund's sub-adviser, Nuveen Asset Management, LLC (Nuveen Asset Management or the Sub-Adviser).

As described in the Joint Proxy Statement, dated July 13, 2016, relating to each Target Fund's 2016 Annual Meeting of Shareholders, as filed with the Securities and Exchange Commission (the Proxy Statement), the proposed Reorganizations are part of a broad initiative to rationalize the product offerings of Nuveen funds and eliminate overlapping products by combining three funds that have the same investment objectives and substantially similar investment policies, risks and portfolio compositions and are managed by the same portfolio manager.

There can be no assurance that the Fund will achieve its investment objectives.

The Fund's principal office is located at 333 West Wacker Drive, Chicago, Illinois 60606, and its telephone number is (800) 257-8787.

SUMMARY

This is only a summary. You should review the more detailed information contained elsewhere in this Information Memorandum and the documents incorporated by reference or otherwise summarized in this Information Memorandum, including the information set forth in the sections Risk Factors, How the Fund Manages Portfolio Risk and The Fund's Investments Derivatives and Hedging Strategies, the forms of the New VRDP Statements, attached hereto as Appendix A, and the forms of the New VRDP Purchase Agreements, attached hereto as Appendix B. Additional information about the Fund may be obtained from www.sec.gov or by visiting www.nuveen.com, as set forth in the section Available Information. Information on those websites is not part of this Information Memorandum, except to the extent specifically incorporated by reference. Certain of the capitalized terms used herein and not defined herein shall have the meanings ascribed to them in the New VRDP Statements.

The Fund

Nuveen California Dividend Advantage Municipal Fund (previously defined as the Fund) is a diversified, closed-end management investment company. The Fund's common shares, \$0.01 par value per share, are traded on the New York Stock Exchange (NYSE) under the ticker symbol NAC. Upon the closing of the Reorganizations, it is expected that the Fund will continue the listing of its common shares on the NYSE. As of June 24, 2016, the Fund had 107,399,967 common shares outstanding. As of June 24, 2016, the Fund also had 6,996 VRDP Shares outstanding and 1,450 VMTP Shares outstanding. In connection with the Reorganization of Nuveen California Dividend Advantage Municipal Fund 2 (previously defined as Dividend Advantage 2) into the Fund, the Fund will issue 980 New VRDP Shares. In connection with the Reorganization of Nuveen California Dividend Advantage Municipal Fund 3 (previously defined as Dividend Advantage 3) into the Fund, the Fund will issue 1,600 New VRDP Shares.

The Fund, without the consent of shareholders, may from time to time issue additional preferred shares of a new or existing series in connection with new financings, refinancing or reorganizations. The issuance by the Fund of additional preferred shares may require the consent of liquidity providers or other Fund counterparties.

The Offering

This Information Memorandum is provided for information purposes in connection with the offering of the New VRDP Shares of Series 7 and Series 8 pursuant to the Reorganization of each of Dividend Advantage 2 and Dividend Advantage 3 into the Fund. Each New VRDP Share has a Liquidation Preference of \$100,000.

This Information Memorandum is provided exclusively to holders of Dividend Advantage 2 and Dividend Advantage 3 who were holders of Target Fund VRDP Shares as of the close of business on June 24, 2016. Upon the closing of the Reorganizations, each Target Fund will transfer substantially all of its assets to the Fund in exchange for common and preferred shares of the Fund, and the assumption by the Fund of substantially all of the liabilities of the Target Fund. Each Target Fund will then be liquidated, dissolved and terminated in accordance with applicable law. Holders of VRDP Shares of Dividend Advantage 2 and Dividend Advantage 3 will receive, on a one-for-one basis, New VRDP Shares of the Fund having substantially similar terms, as of the closing of the Reorganizations, as the VRDP Shares of Dividend Advantage 2 and Dividend Advantage 3, as applicable, exchanged therefor.

Description of the New VRDP Shares

The terms of the New VRDP Shares of the Fund to be issued pursuant to the Reorganizations will be substantially similar, as of the closing of the Reorganizations, to the Target Fund VRDP Shares exchanged therefor. Also, the terms of the remarketing for the New VRDP Shares will be the same as those for the Target Fund VRDP Shares. The description of the New VRDP Shares is qualified in its entirety by the terms set forth in the New VRDP Statements and the New VRDP Purchase Agreements. See Description of the New VRDP Shares.

Changes to the New VRDP Shares

In connection with the Reorganizations, the Fund is making certain changes to each New VRDP Statement relative to the corresponding Target Fund VRDP Statement. The changes include: for the New VRDP Shares issued in exchange for VRDP Shares of Dividend Advantage 3, a final mandatory redemption date that is approximately ten years from the date of issuance of such New VRDP Shares; providing increased flexibility and clarification regarding rating agency requirements, consistent with, and further to, the terms of VRDP Shares offerings by Nuveen funds since at least December 2013; and increased flexibility for different or modified terms in connection with a Special Rate Period.

Liquidity Providers;

the Purchase Obligation

The New VRDP Shares of each New VRDP Series will have the benefit of an unconditional demand feature, pursuant to a purchase obligation, substantially identical to the unconditional demand feature in effect for the corresponding Target Fund VRDP Series as of the closing of the Reorganizations, to be provided by the bank then acting as liquidity provider (previously defined as the Liquidity Provider), pursuant to a New VRDP Purchase Agreement.

The Liquidity Provider for each series of Target Fund VRDP Shares entered into a VRDP Purchase Agreement with respect to the applicable Target Fund VRDP Shares, subject to periodic (i) extension by agreement with the applicable Target Fund or (ii) replacement of the Liquidity Provider in accordance with the applicable Target Fund VRDP Statement and the related agreements. The New VRDP Statement for each series of New VRDP Shares also contains such provisions for extension or replacement. If the bank acting as Liquidity Provider for a series of VRDP Shares as of the date of this Information Memorandum is replaced, the VRDP Purchase Agreement with the replacement Liquidity Provider must contain a purchase obligation substantially identical to the purchase obligation of the current Liquidity Provider, as required under the applicable VRDP Statement. Whether no change, or such a change, in Liquidity Provider occurs, the New VRDP Purchase Agreement will contain a purchase obligation substantially identical to the purchase obligation of the current Liquidity Provider.

The initial term of each New VRDP Purchase Agreement with the Liquidity Provider for the applicable New VRDP Series is expected to be no less than the remaining term of the purchase agreement with respect to the corresponding Target Fund VRDP Series immediately prior to the Reorganizations. See The Purchase Obligation and Liquidity Provider.

Ratings

The Fund will obtain short-term and long-term ratings for each New VRDP Series. However, the Target Funds are not, and the Fund will not be, required under the respective Target Fund VRDP Statements and New VRDP Statements to maintain any particular (or particular level of) ratings for the VRDP Shares, except that, under the New VRDP Statements, the Fund will be required to use reasonable best efforts to maintain at least one short-term rating of each New VRDP Series to the extent that the applicable Liquidity Provider has a short-term debt rating.

The short-term ratings of each New VRDP Series are directly related to the short-term ratings assigned to the applicable

Liquidity Provider. Changes in the credit quality of a Liquidity Provider could cause a downgrade in the short-term credit ratings of the applicable New VRDP Shares, make the New VRDP Shares less liquid in the secondary market and cause losses to holders of New VRDP Shares.

Investment Objectives and Policies

The investment objectives of the Fund are to provide current income exempt from regular federal and California income taxes and to enhance portfolio value relative to the California municipal bond market by investing in tax-exempt California municipal securities that the Fund's investment adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued.

As a fundamental investment policy, under normal circumstances, the Fund will invest at least 80% of its net assets, including assets attributable to any principal amount of any borrowings (including the issuance of commercial paper or notes) or any preferred shares outstanding (previously defined as Managed Assets), in a portfolio of securities the income from which is exempt from regular federal income tax and California income taxes. As a non-fundamental investment policy, under normal circumstances, the Fund invests at least 80% of its Managed Assets in investment grade securities that, at the time of investment, are rated within the four highest grades (Baa or BBB or better) by at least one of the nationally recognized statistical rating organizations (each previously defined as an NRSRO, or collectively, the NRSROs) that rate such security or are unrated but judged to be of comparable quality by the Fund's investment advisor, Nuveen Fund Advisors, LLC (previously defined as Nuveen Fund Advisors or the Investment Adviser), and or the Fund's sub-adviser, Nuveen Asset Management, LLC (previously defined as Nuveen Asset Management or the Sub-Adviser).

See The Fund's Investments Investment Objectives and Policies. There can be no assurance that the Fund will achieve its investment objectives.

Management of the Fund

Nuveen Fund Advisors, LLC (previously defined as Nuveen Fund Advisors or the Investment Adviser) is the Fund's investment adviser. Nuveen Fund Advisors, a registered investment adviser, is a wholly-owned subsidiary of Nuveen Investments, Inc. Nuveen Fund Advisors has selected Nuveen Asset Management, LLC (previously defined as Nuveen Asset Management or the Sub-Adviser) to serve as the sub-adviser to the Fund. See Management of the Fund.

Taxation

The Fund has elected to be treated, and intends to continue to qualify each year, as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code), and generally does not expect to be subject to federal income tax.

Under normal circumstances, as a fundamental investment policy, the Fund invests at least 80% of its Managed Assets in municipal securities and other related investments the income from which is exempt from regular federal and California income taxes. Accordingly, the dividends paid by the Fund from such interest will ordinarily be similarly exempt. All of a portion of the income from municipal securities may be subject to the federal alternative minimum tax. See Material Income Tax Matters for a detailed discussion of the foregoing matters.

Governing Law

The Fund's declaration of trust, as amended (the Declaration of Trust), and the New VRDP Statements are governed by the laws of the Commonwealth of Massachusetts.

The New VRDP Purchase Agreements and the Tender and Paying Agent Agreements and Remarketing Agreements with respect to each New VRDP Series are governed by the laws of the State of New York.

the same terms with respect to the Mandatory Tender for remarketing upon the occurrence of certain events; and

the benefit of an unconditional demand feature pursuant to the New VRDP Purchase Agreement substantially identical to the unconditional demand feature in effect with respect to the Target Fund VRDP Shares as of the closing date of the Reorganizations.

Following the Reorganizations, based on the number of the Fund's VRDP Shares outstanding as of June 24, 2016, the Fund will have 9,576 VRDP Shares outstanding in eight series and 1,450 VMTP Shares outstanding in one series. Each New VRDP Share will have the same Liquidation Preference (\$100,000 per share) and will be entitled to one vote. The New VRDP Shares will have equal priority with each other and with the Fund's other outstanding preferred shares, including the Fund's outstanding VMTP Shares and the Outstanding VRDP Shares, with respect to the payment of dividends by the Fund and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund.

Changes to VRDP Shares. Dividend Advantage 2 and Dividend Advantage 3 issued VRDP Shares in August 2013 and September 2013, respectively. Upon consummation of the Reorganizations, the terms of each New VRDP Series will be substantially similar to each other and consistent with the terms of offerings of VRDP Shares by Nuveen funds since at least December 2013. The following is a summary of the significant differences between each Target Fund VRDP Statement and the corresponding New VRDP Statement:

for the New VRDP Shares issued in exchange for VRDP Shares of Dividend Advantage 3, a final mandatory redemption date that is approximately ten years from the date of issuance of such New VRDP Shares;

changes reflected in the New VRDP Statement, as compared with the Target Fund VRDP Statement, to conform to the terms of VRDP Shares offerings by Nuveen funds since at least December 2013, including:

further to the increased flexibility and clarification with regard to the role of ratings of VRDP Shares included in VRDP Shares offerings by Nuveen funds since at least December 2013, changes to remove from the New VRDP Statement any VRDP basic

maintenance amount requirements, including any mandatory redemption requirements, with the result that any rating agency requirements will be as set forth in the applicable rating agency guidelines with respect to long-term ratings of the VRDP Shares, as such guidelines may be amended from time to time by the applicable rating agency, and not in the New VRDP Statement; and

changes to provide the Fund with increased flexibility to provide for different or modified terms in connection with establishment of a special rate period; the establishment of a special rate period will require, as is currently the case, prior notice and the consent of the applicable Liquidity Provider and will constitute a Mandatory Tender Event.

Differences Among VRDP Series. Upon issuance of the New VRDP Shares, the Fund will have eight series of VRDP Shares outstanding. The Fund expects that there will be two different banks serving as Liquidity Provider to the New VRDP Shares. The initial term of each New VRDP Purchase Agreement with the Liquidity Provider for the applicable New VRDP Series is expected to be no less than the remaining term of the purchase agreement with respect to the corresponding Target Fund VRDP Series immediately prior to the Reorganizations.

Dividend rates for the New VRDP Shares may vary from series to series because, for example, the applicable Remarketing Agent may reset the rate for one such New VRDP Series at a different level from that set by the Remarketing Agent for the other New VRDP Series, or the rate for one New VRDP Series, but not both New VRDP Series, may reset to the Maximum Rate (or a different level of Maximum Rate) depending on the terms of the applicable New VRDP Statement. Redemptions prior to the Final Mandatory Redemption Dates for each VRDP Series may occur at different times and in different amounts from series to series pursuant to the respective VRDP Statements. In the event that the Fund were to make a partial redemption of VRDP Shares, the redemption may not necessarily be effected pro rata among all VRDP Series then outstanding.

Each New VRDP Purchase Agreement has an expiration date (each expiration date being referred to as a Scheduled Termination Date), subject to periodic extension or replacement. There is no assurance that a Liquidity Provider will renew, or continue to renew, the New VRDP Purchase Agreement or that a replacement will be appointed. Each New VRDP Series will require that the applicable Liquidity Provider's purchase obligation be renewed upon each Scheduled Termination Date for a term of at least 180 days (or replaced with a purchase obligation with such minimum term). If a Liquidity Provider does not renew the applicable VRDP Purchase Agreement and it is not replaced, all VRDP Shares of the relevant New VRDP Series will be subject to Mandatory Purchase by such Liquidity Provider prior to the expiration of the purchase obligation.

Remarketing. The terms of the remarketing for the New VRDP Shares will be the same as for the Target Fund VRDP Shares. Holders of the New VRDP Shares will have the option to tender New VRDP Shares for remarketing at the Purchase Price on any Business Day not less than seven days after delivery of a Notice of Tender to a tender and paying agent appointed by the Fund (previously each defined as a Tender and Paying Agent) with the consent of the applicable Liquidity Provider. In addition, the New VRDP Shares will be subject to mandatory tender for remarketing by a Remarketing Agent at the Purchase Price in the circumstances set forth in the New VRDP Statements. The applicable Remarketing Agent will use its best efforts in each case to remarket any New VRDP Shares so tendered. If no remarketing occurs on or before the relevant Purchase Date, or New VRDP Shares

remain unsold pursuant to an attempted remarketing, the applicable Tender and Paying Agent will deliver all such unsold New VRDP Shares that have been delivered to such Tender and Paying Agent to the applicable Liquidity Provider for purchase on such Purchase Date. In addition, the New VRDP Shares will be subject to mandatory purchase by the applicable Liquidity Provider at the Purchase Price for such New VRDP Shares in the event of termination of a New VRDP Purchase Agreement if the Fund has not obtained an alternate VRDP Purchase Agreement prior to such termination. The Purchase Price with respect to the New VRDP Shares is equal to the Liquidation Preference of New VRDP Shares to be purchased on a Purchase Date plus any accumulated but unpaid dividends (whether or not earned or declared), if any, to, but excluding, the relevant Purchase Date.

The Remarketing Agent for each New VRDP Series is expected to be the same remarketing agent as the remarketing agent for the corresponding Target Fund VRDP Series.

Unconditional Demand Feature. The New VRDP Shares of each New VRDP Series will have the benefit of an unconditional demand feature, under a purchase agreement that contains a purchase obligation substantially identical to the unconditional demand feature in effect for the corresponding Target Fund VRDP Series as of the closing of the Reorganizations, to be provided by the bank then acting as liquidity provider (previously defined as the Liquidity Provider), pursuant to a New VRDP Purchase Agreement. The purchase obligation of the Liquidity Provider is transferable only in connection with a transfer of New VRDP Shares; it is not separately transferable.

The bank acting as Liquidity Provider for a series of VRDP Shares as of the date hereof may be replaced in accordance with the applicable VRDP Statement and the related agreements. The purchase agreement with the replacement Liquidity Provider must contain a purchase obligation substantially identical to the purchase obligation of the current Liquidity Provider, as required under the applicable VRDP Statement. Whether or not the Liquidity Provider for a series of VRDP Shares is changed, the New VRDP Purchase Agreement will contain a purchase obligation substantially identical to the purchase obligation with respect to the applicable Target Fund VRDP Shares and will be substantially in the form attached as [Appendix B](#) hereto.

Dividends and Rate Periods. It is anticipated that the Reorganizations will close on or about October 12, 2016, or such other date as the parties may agree. The applicable dividend rate of the New VRDP Shares of each New VRDP Series commencing on and including the date of issuance, to and including the next succeeding Rate Determination Date, will be equal to the dividend rate in effect for the corresponding Target Fund VRDP Series immediately prior to the closing. Generally, the dividend rate will be reset weekly by the applicable Remarketing Agent. Dividends on New VRDP Shares are expected to be exempt from regular federal income tax, with exceptions for certain portions that may represent income subject to alternative minimum tax and capital gains or ordinary income, if any, generally from portfolio transactions and market discount.

Dividends on the New VRDP Shares will be declared daily to the holders thereof at the close of business on each such day and paid on each Dividend Payment Date to the holders thereof at the close of business on the day immediately preceding such Dividend Payment Date. In connection with any transfer of New VRDP Shares, the transferor as Beneficial Owner of New VRDP Shares will be deemed to have agreed pursuant to the terms of the New VRDP Shares to transfer to the transferee the right to receive from the Fund any dividends declared and unpaid for each day prior to the transferee becoming the Beneficial Owner of the New VRDP Shares in exchange for payment of the Purchase Price for such New VRDP Shares by the transferee.

Maximum Rate. The Maximum Rate for the New VRDP Shares on any Rate Determination Date or in respect of the occurrence of a failed remarketing for the New VRDP Shares will be the Applicable Percentage of the Applicable Base Rate plus the Applicable Spread. The terms of the Maximum Rate, including the Applicable Percentage of the Applicable Base Rate and Applicable Spread, are described in the New VRDP Statements. The Maximum Rate for the New VRDP Shares will depend on the long-term rating assigned to the New VRDP Shares, the length of the Rate Period and whether or not the Fund has given notification to the applicable Remarketing Agent and the applicable Tender and Paying Agent that any ordinary income or capital gains will be included in the dividend on the New VRDP Shares for that Rate Period.

LEVERAGE

The Fund may utilize the following forms of leverage: (1) the issuance of preferred shares, (2) bank borrowings, and (3) inverse floating rate securities (sometimes referred to as inverse floaters), which have the economic effect of leverage. The Fund currently engages in leverage through the issuance of preferred shares and the use of inverse floaters. Certain important ratios related to the use of leverage by the Fund and each Target Fund for the last three fiscal years are set forth below:

Fund ⁽¹⁾	2016	2015	2014
Asset Coverage Ratio ⁽²⁾	346.53%	344.94%	353.64%
Regulatory Leverage Ratio ⁽³⁾	28.86%	28.99%	28.28%

Dividend Advantage 2	2016	2015	2014
Asset Coverage Ratio ⁽²⁾	341.94%	338.20%	323.59%
Regulatory Leverage Ratio ⁽³⁾	29.25%	29.57%	30.90%

- (1) As of June 28, 2016, taking into account the issuance by the Fund of \$145,000,000 of VMTP Shares at liquidation value in June 2016, the Asset Coverage Ratio was 314.66%, the Regulatory Leverage Ratio was 31.78% and the Effective Leverage Ratio was 36.72%.
- (2) A fund's asset coverage ratio is defined under the 1940 Act as the ratio that the value of the total assets of the fund, less all liabilities and indebtedness not represented by preferred shares or senior securities representing indebtedness, bears to the aggregate amount of preferred shares and senior securities representing indebtedness issued by the fund.
- (3) Regulatory leverage consists of preferred shares or debt issued by the fund. Both of these are part of a fund's capital structure. Regulatory leverage is sometimes referred to as 1940 Act Leverage and is subject to asset coverage limits set forth in the 1940 Act.
- (4) Effective leverage is a fund's effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative investments in the fund's portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings, in addition to any regulatory leverage, are included in effective leverage ratios.

THE PURCHASE OBLIGATION

The following is a brief description of the terms of the New VRDP Purchase Agreements. This description does not purport to be complete and is subject to and qualified in its entirety by reference to the forms of the New VRDP Purchase Agreements attached hereto as Appendix B.

As long as New VRDP Shares of any New VRDP Series are outstanding, except as otherwise provided pursuant to the applicable New VRDP Statement in connection with a Special Rate Period (which requires prior notice and the consent of the Liquidity Provider and constitutes a Mandatory Tender Event), the New VRDP Statements require that the Fund maintain a New VRDP Purchase Agreement for each such New VRDP Series providing for a purchase obligation with a Liquidity Provider with short-term debt ratings in one of the two highest ratings categories from the requisite NRSROs or such other short-term debt ratings, if any, as may be required for the New VRDP Shares to satisfy the eligibility criteria under Rule 2a-7 under the 1940 Act on an ongoing basis to the extent that the Fund can do so on a commercially reasonable basis as determined in the sole discretion of the Fund's Board of Trustees (the Board).

Pursuant to each New VRDP Purchase Agreement, the Liquidity Provider will purchase at the Purchase Price any outstanding New VRDP Shares of the applicable New VRDP Series that are properly tendered in accordance with the applicable New VRDP Statement and New VRDP Purchase Agreement, including any such New VRDP Shares that are the subject of a failed remarketing on the Purchase Date for an Optional Tender or a Mandatory Tender for remarketing, and all outstanding New VRDP Shares of the applicable New VRDP Series on the Purchase Date for a Mandatory Purchase Event. The obligation of a Liquidity Provider to purchase New VRDP Shares pursuant to a New VRDP Purchase Agreement will run to the benefit of holders or beneficial owners of New VRDP Shares of the applicable New VRDP Series and will be unconditional and irrevocable in accordance with the provisions of such New VRDP Purchase Agreement, without regard to, without limitation, any failure of the representations, warranties, agreements or performance of the Tender and Paying Agent set forth in such New VRDP Purchase Agreement or of the Fund set forth in the applicable New VRDP Fee Agreement (as defined below) or the termination of the obligations of the Remarketing Agent under the applicable Remarketing Agreement.

VRDP Fee Agreement

Pursuant to a VRDP Fee Agreement with the Liquidity Provider with respect to each New VRDP Series (each, a New VRDP Fee Agreement), the Fund will pay to the Liquidity Provider a monthly fee in consideration of the Liquidity Provider's agreement to provide the purchase obligation for the New VRDP Series under the applicable New VRDP Purchase Agreement. Each New VRDP Fee Agreement is expected to have substantially the same terms and conditions as the corresponding existing agreement with each Target Fund, including certain representations, warranties and covenants as to the New VRDP Shares of the applicable New VRDP Series, including the covenant that the Fund will not agree or consent to any amendment, supplement, modification or repeal of such New VRDP Shares, such New VRDP Fee Agreement, the Declaration of Trust, the applicable New VRDP Statement, the Fund's by-laws, as amended and restated (the By-Laws), the applicable Remarketing Agreement or the applicable Tender and Paying Agent Agreement or any provision therein, nor waive any provision thereof without the prior written consent of the applicable Liquidity Provider, and such Liquidity Provider, without the prior written consent of the Fund, will not agree or consent to any amendment, supplement, modification or repeal of the applicable New VRDP Purchase Agreement, nor waive any provision thereof.

In addition, each New VRDP Fee Agreement is expected to include a covenant substantially as follows, as in the corresponding existing agreement with each of Dividend Advantage 2 and Dividend Advantage 3:

Unless the Fund receives the prior written consent of the Liquidity Provider, the Fund's Effective Leverage Ratio will not exceed 45% (or 46% solely by reason of fluctuations in the market value of its portfolio securities) as of the close of business on any Business Day, and to the extent the Effective Leverage Ratio exceeds 45% (or 46%, as applicable) as of the close of business on any Business Day, the Fund shall cause its Effective Leverage Ratio to be 45% or lower within 10 Business Days.

Effective Leverage Ratio generally is defined to mean the quotient of:

(A) the sum of (i) the aggregate liquidation preference of the Fund's senior securities (as that term is defined in the 1940 Act) that are stock, excluding, without duplication, any such senior securities consisting of VRDP Shares for which the Fund has issued a Notice of Redemption and either has delivered Deposit Securities to the Tender and Paying Agent or otherwise has adequate Deposit Securities on hand for the purpose of such redemption (or, in the case of any other Preferred Shares, the Fund has taken the equivalent action under the statement applicable to such Preferred Shares); (ii) the aggregate principal amount of a Fund's senior securities representing indebtedness (as that term is defined in the 1940 Act); and (iii) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund;

divided by

(B) the sum of (i) the Market Value of the Fund's total assets (including amounts attributable to senior securities, but excluding, without duplication of any amounts otherwise subtracted as accrued liabilities, any assets consisting of Deposit Securities (or any assets delivered in connection with the equivalent action taken in respect of Preferred Shares other than the New VRDP Shares) referred to in clause (i) of paragraph (A) above), less the amount of the Fund's accrued liabilities (which accrued liabilities shall include obligations of the Fund under each Derivative Contract in an amount equal to the Derivative Termination Value thereof payable by the Fund to the related counterparty), other than liabilities for the aggregate principal amount of senior securities representing indebtedness, and (ii) the aggregate principal amount of floating rate securities not owned by the Fund that correspond to the associated inverse floating rate securities owned by the Fund.

The definition of Effective Leverage Ratio for each series of New VRDP Shares will be as agreed by the Fund and the applicable Liquidity Provider, and may be amended from time to time.

LIQUIDITY PROVIDER

Additional information regarding the current short-term and long-term debt ratings assigned by Fitch Ratings, Inc. (Fitch), Moody's Investors Service, Inc. (Moody's) and Standard & Poor's Ratings Services, a Standard & Poor's Financial Services LLC business (S&P), to the Liquidity Provider is available at www.fitchratings.com, www.moodys.com and www.standardandpoors.com, respectively. No assurances can be given that the current ratings of a Liquidity Provider's instruments will be maintained. As described above under Description of the New VRDP Shares Unconditional

Demand Feature, the bank acting as liquidity provider for either series of Target Fund VRDP Shares as of the date hereof may be replaced prior to or upon the closing of the Reorganizations.

Additional information regarding Liquidity Provider is available in public reports filed by the Liquidity Provider with the Securities and Exchange Commission (the SEC) and/or applicable bank regulatory authority.

BOOK-ENTRY PROCEDURES AND SETTLEMENT

None of the Fund, the Investment Adviser, any Liquidity Provider, any Remarketing Agent or any Tender and Paying Agent takes any responsibility for the accuracy of the information in this section concerning DTC and DTC's book-entry system, makes any representation as to the completeness of such information or makes any representation as to the absence of material changes in such information subsequent to the date hereof.

The New VRDP Shares will be book-entry (global) securities. Upon issuance, all book-entry securities will be represented by one or more fully-registered global securities. Each global security will be deposited with, or on behalf of, DTC, a securities depository, and will be registered in the name of DTC or a nominee of DTC. DTC will thus be the only registered holder of New VRDP Shares.

Purchasers of New VRDP Shares may only hold interests in the global securities directly through DTC if they are participants in the DTC system. Purchasers may also hold interests through a securities intermediary banks, brokerage houses and other institutions that maintain securities accounts for customers that has an account with DTC or its nominee. DTC will maintain accounts showing the security holdings of its Agent Members, and these Agent Members will in turn maintain accounts showing the security holdings of their customers. Some of these customers may themselves be securities intermediaries holding securities for their customers. Thus, each Beneficial Owner of a book-entry security will hold that security indirectly through various intermediaries.

The interest of each Beneficial Owner in a book-entry security will be evidenced solely by entries on the books of the Beneficial Owner's securities intermediary or Agent Member. The actual purchaser of the securities will generally not be entitled to have the securities represented by the global securities registered in its name and will not be considered the owner under the terms of the securities and their governing documents. That means that the Fund and a Tender and Paying Agent or any other agent of the Fund will be entitled to treat the registered holder, DTC or its nominee, as the holder of the securities for all purposes. In most cases, the Beneficial Owner will also not be able to obtain a paper certificate evidencing its ownership of New VRDP Shares. The laws of some jurisdictions require some purchasers of securities to take physical delivery of their securities in definitive form. These laws may impair the ability to own, transfer or pledge beneficial interests in book-entry securities.

A Beneficial Owner of book-entry securities represented by a global security may exchange the securities for definitive (paper) securities only if:

DTC is unwilling or unable to continue as depository for such global security and the Fund does not appoint a qualified replacement for DTC within 90 days; or

the Fund in its sole discretion decides to allow some or all book-entry securities to be exchangeable for definitive securities in registered form.

Unless indicated otherwise, any global security that is so exchangeable will be exchangeable in whole for definitive securities in registered form, with the same terms and of an equal aggregate amount. Definitive securities will be registered in the name or names of the person or persons specified by DTC in a written instruction to the registrar of the New VRDP Shares. DTC may base its written instruction upon directions that it receives from Agent Members.

In this Information Memorandum, in the case of book-entry securities, references to actions taken by Beneficial Owners will mean actions taken by DTC upon instructions from its Agent Members, and references to payments and notices relating to redemptions or the tendering of New VRDP Shares will mean payments and notices related to the redemption or tender of New VRDP Shares to DTC as the registered holder of the securities for distribution to Agent Members in accordance with DTC's procedures. If fewer than all the New VRDP Shares are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Agent Member in the New VRDP Shares to be redeemed.

Each sale of a book-entry security will settle in immediately available funds through DTC unless otherwise stated. Neither the Fund nor the Tender and Paying Agent, or any agent of either, will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in any book-entry securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Neither DTC nor DTC's nominee will consent or vote with respect to the New VRDP Shares unless authorized by a participant in accordance with DTC's procedures. Under its usual procedures, DTC mails an omnibus proxy (the Omnibus Proxy) to the Fund as soon as possible after the record date. The Omnibus Proxy assigns DTC's nominee consenting or voting rights to the Agent Members to whose accounts the New VRDP Shares are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Dividend payments on the New VRDP Shares and payments upon redemption of New VRDP Shares will be made to DTC's nominee or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit participants' accounts upon DTC's receipt of funds and corresponding detailed information from the Fund or the Tender and Paying Agent on the payment date in accordance with their respective holdings shown on DTC records. Payments by Agent Members to Beneficial Owners will be governed by standing instructions and customary practices. Payment of dividends or redemption proceeds to DTC's nominee is the responsibility of the Fund or the Tender and Paying Agent, disbursement of such payments to participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Agent Members or securities intermediaries who hold through an Agent Member.

THE INFORMATION IN THIS SECTION CONCERNING DTC AND DTC'S BOOK-ENTRY SYSTEM HAS BEEN OBTAINED FROM SOURCES THAT THE FUND BELIEVES TO BE RELIABLE. THE FUND, THE INVESTMENT ADVISER, THE SUB-ADVISER, THE LIQUIDITY PROVIDERS, THE REMARKETING AGENTS AND THE TENDER AND PAYING AGENTS TAKE NO RESPONSIBILITY FOR THE ACCURACY OF THE INFORMATION IN THIS SECTION CONCERNING DTC AND DTC'S BOOK-ENTRY SYSTEM. NO REPRESENTATION IS MADE BY THE FUND, THE INVESTMENT ADVISER, THE SUB-ADVISER, ANY LIQUIDITY PROVIDER, ANY REMARKETING AGENT OR ANY TENDER AND PAYING AGENT AS TO THE COMPLETENESS OR ACCURACY OF SUCH INFORMATION OR AS TO THE ABSENCE OF MATERIAL ADVERSE CHANGES IN SUCH

INFORMATION SUBSEQUENT TO THE DATE HEREOF. NO ATTEMPT HAS BEEN MADE BY THE FUND, THE INVESTMENT ADVISER, THE SUB-ADVISER, ANY LIQUIDITY PROVIDER, ANY REMARKETING AGENT OR ANY TENDER AND PAYING AGENT TO DETERMINE WHETHER DTC IS OR WILL BE FINANCIALLY OR OTHERWISE CAPABLE OF FULFILLING ITS OBLIGATIONS. THE FUND AND THE LIQUIDITY PROVIDERS WILL NOT HAVE ANY RESPONSIBILITY OR OBLIGATIONS TO ANY DTC AGENT MEMBER, SECURITIES INTERMEDIARIES, OR THE PERSONS FOR WHOM THEY ACT AS NOMINEES WITH RESPECT TO DIVIDEND PAYMENTS TO OR THE PROVIDING OF NOTICE FOR THE DTC AGENT MEMBERS, THE SECURITIES INTERMEDIARIES OR THE BENEFICIAL OWNERS.

IT IS THE DUTY OF EACH BENEFICIAL OWNER TO ARRANGE WITH THE DTC AGENT MEMBER OR SECURITIES INTERMEDIARIES TO RECEIVE FROM SUCH DTC AGENT MEMBER OR SECURITIES INTERMEDIARY DIVIDEND PAYMENTS AND ALL OTHER COMMUNICATIONS WHICH THE DTC AGENT MEMBER OR SECURITIES INTERMEDIARY RECEIVES FROM DTC.

THE FUND S INVESTMENTS

Investment Objectives and Policies

The Fund s investment objectives are to provide current income exempt from regular federal and California income taxes and to enhance portfolio value relative to the California municipal bond market by investing in tax-exempt California municipal bonds that the Investment Adviser believes are underrated or undervalued or that represent municipal market sectors that are undervalued.

The Fund has a fundamental investment policy requiring it to invest, under normal circumstances, at least 80% of its Managed Assets in a portfolio of securities the income from which is exempt from regular federal and California income taxes. As a non-fundamental policy, under normal market conditions, the Fund expects to be fully invested (at least 95% of its assets) in such tax-exempt municipal bonds.

As a non-fundamental policy, under normal circumstances, the Fund invests at least 80% of its Managed Assets in investment grade securities that, at the time of investment, are rated within the four highest grades (Baa or BBB or better) by at least one of the NRSROs that rate such security or are unrated but judged to be of comparable quality by the Investment Adviser and/or the Sub-Adviser. Also, as a non-fundamental policy, the Fund may invest up to 20% of its Managed Assets in municipal securities that, at the time of investment, are rated below investment grade or are unrated but judged to be of comparable quality by the Sub-Adviser. Additionally, as a non-fundamental policy, no more than 10% of the Fund s Managed Assets may be invested in municipal securities rated below B3/B- or that are unrated but judged to be of comparable quality by the Investment Adviser and/or the Sub-Adviser.

Securities of below-investment-grade quality (Ba or BB or below) are commonly referred to as junk bonds. Municipal securities rated below investment-grade quality are obligations of issuers that are considered predominantly speculative with respect to the issuer s capacity to pay interest and repay principal according to the terms of the obligation and, therefore, carry greater investment risk, including the possibility of issuer default and bankruptcy and increased market price volatility. Municipal securities rated below investment grade tend to be less marketable than higher-quality securities because the market for them is less broad. The market for unrated municipal securities is even narrower. During periods of thin trading in these markets, the spread between bid and asked

prices is likely to increase significantly and the Fund may have greater difficulty selling its holdings of these types of portfolio securities. The Fund will be more dependent on the Investment Adviser's and/or the Sub-Adviser's research and analysis when investing in these securities.

Municipal securities rated Baa or BBB are considered investment grade securities. Issuers of municipal securities rated BBB or Baa are regarded as having average creditworthiness relative to other U.S. municipal issuers; however, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the issuer to meet its financial commitments.

The foregoing credit quality policies apply only at the time a security is purchased, and the Fund is not required to dispose of a security in the event that a rating agency upgrades or downgrades its assessment of the credit characteristics of a particular issuer or that valuation changes of various municipal securities cause the Fund's portfolio to fail to satisfy those targets. In determining whether to retain or sell such a security, the Investment Adviser and/or the Sub-Adviser may consider such factors as the Investment Adviser's and/or the Sub-Adviser's assessment of the credit quality of the issuer of such security, the price at which such security could be sold and the rating, if any, assigned to such security by other rating agencies. The credit ratings assigned by rating agencies from time to time represent their opinions as to the quality of the municipal securities they rate. It should be emphasized, however, that ratings are general and are not absolute standards of quality. Consequently, municipal securities with the same maturity, coupon and rating may have different yields while obligations of the same maturity and coupon with different ratings may have the same yield. A general description of the ratings of municipal securities by S&P, Moody's and Fitch is set forth in [Appendix C](#).

The Fund will primarily invest in municipal securities with long-term maturities in order to maintain an average effective maturity of at least 15 to 30 years, but the average effective maturity of obligations held by the Fund may be shortened as a result of portfolio transactions effected by the Investment Adviser and/or the Sub-Adviser, depending on market conditions. As a result, the Fund's portfolio at any given time may include both long-term and intermediate-term municipal securities. Moreover, during temporary defensive periods (e.g., times when, in the Investment Adviser's and/or the Sub-Adviser's opinion, temporary imbalances of supply and demand or other temporary dislocations in the tax-exempt bond market adversely affect the price at which long-term or intermediate-term municipal securities are available), and in order to keep the Fund's cash fully invested, the Fund may invest any percentage of its net assets in short-term investments including high quality, short-term debt securities that may be either tax-exempt or taxable and up to 10% of its Managed Assets in securities of other open- or closed-end investment companies (including exchange-traded funds (ETFs)) that invest primarily in municipal securities of the types in which the Fund may invest directly. As of February 29, 2016, the average effective maturity of the Fund's portfolio was 19.88.

The Fund has not established any limit on the percentage of its portfolio that may be invested in municipal bonds subject to the alternative minimum tax provisions of federal tax law, and the Fund expects that a substantial portion of the income it produces will be includable in alternative minimum taxable income.

The Fund may purchase municipal securities that are additionally secured by insurance, bank credit agreements or escrow accounts. The credit quality of companies that provide such credit enhancements may affect the value of those securities. Although the insurance feature may reduce certain financial risks, the premiums for insurance and the higher market price paid for insured obligations may reduce the Fund's income. The insurance feature guarantees only the payment of principal and interest on the obligation when due and does not guarantee the market value of the

insured obligations, which will fluctuate with the bond market and the financial success of the issuer and the insurer, and the effectiveness and value of the insurance itself is dependent on the continued creditworthiness of the insurer. No representation is made as to the insurers' ability to meet their commitments.

The Fund may enter into certain derivative instruments in pursuit of its investment objectives, including to seek to enhance return, to hedge some of the risk of its investments in municipal securities or as a substitute for a position in the underlying asset. Such instruments include financial futures contracts, swap contracts (including interest rate and credit default swaps), options on financial futures, options on swap contracts or other derivative instruments. The Fund may not enter into a futures contract or related options or forward contracts if more than 30% of the Fund's net assets would be represented by futures contracts or more than 5% of the Fund's net assets would be committed to initial margin deposits and premiums on futures contracts or related options.

The Fund may invest up to 15% of its Managed Assets in inverse floating rate securities. Inverse floating rate securities represent a leveraged investment in the underlying municipal bond deposited. Inverse floating rate securities offer the opportunity for higher income than the underlying bond, but will subject the Fund to the risk of lower or even no income if short-term interest rates rise sufficiently. By investing in an inverse floating rate security rather than directly in the underlying bond, the Fund will experience a greater increase in its common share net asset value if the underlying municipal bond increases in value, but will also experience a correspondingly larger decline in its common share net asset value if the underlying bond declines in value.

The Fund may borrow money to finance the repurchase of its shares or for temporary or emergency purposes, such as for the payment of dividends or the settlement of portfolio transactions.

The Fund is diversified for purposes of the 1940 Act. Consequently, as to 75% of its assets, the Fund may not invest more than 5% of its total assets in the securities of any single issuer (and in not more than 10% of the outstanding voting securities of an issuer), except that this limitation does not apply to cash, securities of the U.S. government, its agencies and instrumentalities, and securities of other investment companies.

As noted above, during temporary defensive periods and in order to keep the Fund's cash fully invested, the Fund may deviate from its investment objectives and invest up to 100% of its net assets in short-term investments including high quality, short-term securities that may be either tax-exempt or taxable. It is the intent of the Fund to invest in taxable short-term investments only in the event that suitable tax-exempt short-term investments are not available at reasonable prices and yields. Investment in taxable short-term investments would result in a portion of your dividends being subject to regular federal and California income taxes, and if the proportion of taxable investments exceeded 50% of the Fund's total assets as of the close of any quarter of the Fund's taxable year, the Fund would not satisfy the general eligibility test that permits it to pay exempt-interest dividends for that taxable year. For more information, See [Material Income Tax Matters](#).

Municipal Securities

General. The Fund may invest in various municipal securities, including municipal bonds and notes, other securities issued to finance and refinance public projects, and other related securities and derivative instruments creating exposure to municipal bonds, notes and securities that provide for the payment of interest income that is exempt from federal income tax and California income tax. Municipal

securities are generally debt obligations issued by state and local governmental entities and may be issued by U.S. territories and possessions to finance or refinance public projects such as roads, schools, and water supply systems. Municipal securities may also be issued on behalf of private entities or for private activities, such as housing, medical and educational facility construction, or for privately owned transportation, electric utility and pollution control projects. Municipal securities may be issued on a long-term basis to provide permanent financing. The repayment of such debt may be secured generally by a pledge of the full faith and credit taxing power of the issuer, a limited or special tax, or any other revenue source including project revenues, which may include tolls, fees and other user charges, lease payments, and mortgage payments. Municipal securities may also be issued to finance projects on a short-term interim basis, anticipating repayment with the proceeds of the later issuance of long-term debt. Municipal securities may be issued and purchased in the form of bonds, notes, leases or certificates of participation; structured as callable or non-callable; with payment forms including fixed coupon, variable rate, zero coupon, capital appreciation bonds, tender option bonds and residual interest bonds or inverse floating rate securities; or acquired through investments in pooled vehicles, partnerships or other investment companies. Inverse floating rate securities are securities that pay interest at rates that vary inversely with changes in prevailing short-term tax-exempt interest rates and represent a leveraged investment in an underlying municipal security, which may increase the effective leverage of the Fund.

The Fund may invest in municipal bonds issued by U.S. territories and possessions (such as Puerto Rico or Guam) that are exempt from regular federal income tax. The yields on municipal securities depend on a variety of factors, including prevailing interest rates and the condition of the general money market and the municipal bond market, the size of a particular offering, the maturity of the obligation and the rating of the issue. The market value of municipal securities will vary with changes in interest rate levels and as a result of changing evaluations of the ability of their issuers to meet interest and principal payments.

Municipal Leases and Certificates of Participation. The Fund also may purchase municipal securities that represent lease obligations and certificates of participation in such leases. These carry special risks because the issuer of the securities may not be obligated to appropriate money annually to make payments under the lease. A municipal lease is an obligation in the form of a lease or installment purchase that is issued by a state or local government to acquire equipment and facilities. Income from such obligations generally is exempt from state and local taxes in the state of issuance. Leases and installment purchase or conditional sale contracts (which normally provide for title to the leased asset to pass eventually to the governmental issuer) have evolved as a means for governmental issuers to acquire property and equipment without meeting the constitutional and statutory requirements for the issuance of debt. The debt issuance limitations are deemed to be inapplicable because of the inclusion in many leases or contracts of non-appropriation clauses that relieve the governmental issuer of any obligation to make future payments under the lease or contract unless money is appropriated for such purpose by the appropriate legislative body on a yearly or other periodic basis. In addition, such leases or contracts may be subject to the temporary abatement of payments in the event the issuer is prevented from maintaining occupancy of the leased premises or utilizing the leased equipment or facilities. Although the obligations may be secured by the leased equipment or facilities, the disposition of the property in the event of non-appropriation or foreclosure might prove difficult, time consuming and costly, and result in a delay in recovering, or the failure to recover fully, the Fund's original investment. To the extent that the Fund invests in unrated municipal leases or participates in such leases, the credit quality rating and risk of cancellation of such unrated leases will be monitored on an ongoing basis. In order to reduce this risk, the Fund will only purchase municipal securities representing lease obligations where the Investment Adviser and/or the Sub-Adviser believes the issuer has a strong incentive to continue making appropriations until maturity.

A certificate of participation represents an undivided interest in an unmanaged pool of municipal leases, an installment purchase agreement or other instruments. The certificates typically are issued by a municipal agency, a trust or other entity that has received an assignment of the payments to be made by the state or political subdivision under such leases or installment purchase agreements. Such certificates provide the Fund with the right to a pro rata undivided interest in the underlying municipal securities. In addition, such participations generally provide the Fund with the right to demand payment, on not more than seven days' notice, of all or any part of the Fund's participation interest in the underlying municipal securities, plus accrued interest.

Municipal Notes. Municipal securities in the form of notes generally are used to provide for short-term capital needs, in anticipation of an issuer's receipt of other revenues or financing, and typically have maturities of up to three years. Such instruments may include tax anticipation notes, revenue anticipation notes, bond anticipation notes, tax and revenue anticipation notes and construction loan notes. Tax anticipation notes are issued to finance the working capital needs of governments. Generally, they are issued in anticipation of various tax revenues, such as income, sales, property, use and business taxes, and are payable from these specific future taxes. Revenue anticipation notes are issued in expectation of receipt of other kinds of revenue, such as federal revenues available under federal revenue sharing programs. Bond anticipation notes are issued to provide interim financing until long-term bond financing can be arranged. In most cases, the long-term bonds then provide the funds needed for repayment of the bond anticipation notes. Tax and revenue anticipation notes combine the funding sources of both tax anticipation notes and revenue anticipation notes. Construction loan notes are sold to provide construction financing. Mortgage notes insured by the Federal Housing Authority secure these notes; however, the proceeds from the insurance may be less than the economic equivalent of the payment of principal and interest on the mortgage note if there has been a default. The anticipated revenues from taxes, grants or bond financing generally secure the obligations of an issuer of municipal notes. An investment in such instruments, however, presents a risk that the anticipated revenues will not be received or that such revenues will be insufficient to satisfy the issuer's payment obligations under the notes or that refinancing will be otherwise unavailable.

Pre-Refunded Municipal Securities. The principal of, and interest on, pre-refunded municipal securities are no longer paid from the original revenue source for the securities. Instead, the source of such payments is typically an escrow fund consisting of U.S. government securities. The assets in the escrow fund are derived from the proceeds of refunding bonds issued by the same issuer as the pre-refunded municipal securities. Issuers of municipal securities use this advance refunding technique to obtain more favorable terms with respect to securities that are not yet subject to call or redemption by the issuer. For example, advance refunding enables an issuer to refinance debt at lower market interest rates, restructure debt to improve cash flow or eliminate restrictive covenants in the indenture or other governing instrument for the pre-refunded municipal securities. However, except for a change in the revenue source from which principal and interest payments are made, the pre-refunded municipal securities remain outstanding on their original terms until they mature or are redeemed by the issuer.

Private Activity Bonds. Private activity bonds are issued by or on behalf of public authorities to obtain funds to provide privately operated housing facilities, airport, mass transit or port facilities, sewage disposal, solid waste disposal or hazardous waste treatment or disposal facilities and certain local facilities for water supply, gas or electricity. Other types of private activity bonds, the proceeds of which are used for the construction, equipment, repair or improvement of privately operated industrial or commercial facilities, may constitute municipal securities, although the current federal tax laws place substantial limitations on the size of such issues.

Inverse Floating Rate Securities. The Fund may invest in inverse floating rate securities. Inverse floating rate securities are securities whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index. Generally, inverse floating rate securities represent beneficial interests in a special purpose trust, commonly referred to as a tender option bond trust (TOB trust), that holds municipal bonds. The TOB trust typically sells two classes of beneficial interests or securities: floating rate securities (sometimes referred to as short-term floaters or tender option bonds (TOBs)), and inverse floating rate securities (sometimes referred to as inverse floaters). Both classes of beneficial interests are represented by certificates or receipts. The floating rate securities have first priority on the cash flow from the municipal bonds held by the TOB trust. In this structure, the floating rate security holders have the option, at periodic short-term intervals, to tender their securities to the trust for purchase and to receive the face value thereof plus accrued interest. The obligation of the trust to repurchase tendered securities is supported by a remarketing agent and by a liquidity provider. As consideration for providing this support, the remarketing agent and the liquidity provider receive periodic fees. The holder of the short-term floater effectively holds a demand obligation that bears interest at the prevailing short-term, tax-exempt rate. However, the trust is not obligated to purchase tendered short-term floaters in the event of certain defaults with respect to the underlying municipal bonds or a significant downgrade in the credit rating assigned to the bond issuer.

As the holder of an inverse floating rate investment, the Fund receives the residual cash flow from the TOB trust. Because the holder of the short-term floater is generally assured liquidity at the face value of the security plus accrued interest, the holder of the inverse floater assumes the interest rate cash flow risk and the market value risk associated with the municipal bond deposited into the TOB trust. The volatility of the interest cash flow and the residual market value will vary with the degree to which the trust is leveraged. This is expressed in the ratio of the total face value of the short-term floaters to the value of the inverse floaters that are issued by the TOB trust, and can exceed three times for more highly leveraged trusts. All voting rights and decisions to be made with respect to any other rights relating to the municipal bonds held in the TOB trust are passed through, pro rata, to the holders of the short-term floaters and to the Fund as the holder of the associated inverse floaters.

Because any increases in the interest rate on the short-term floaters issued by a TOB trust would reduce the residual interest paid on the associated inverse floaters, and because fluctuations in the value of the municipal bond deposited in the TOB trust would affect only the value of the inverse floater and not the value of the short-term floater issued by the trust so long as the value of the municipal bond held by the trust exceeded the face amount of short-term floaters outstanding, the value of inverse floaters is generally more volatile than that of an otherwise comparable municipal bond held on an unleveraged basis outside a TOB trust. Inverse floaters generally will underperform the market of fixed-rate bonds in a rising interest rate environment (i.e., when bond values are falling), but will tend to outperform the market of fixed-rate bonds when interest rates decline or remain relatively stable. Although volatile in value and return, inverse floaters typically offer the potential for yields higher than those available on fixed-rate bonds with comparable credit quality, coupon, call provisions and maturity. Inverse floaters have varying degrees of liquidity or illiquidity based primarily upon the inverse floater holder's ability to sell the underlying bonds deposited in the TOB trust at an attractive price.

The Fund may invest in inverse floating rate securities issued by TOB trusts in which the liquidity providers have recourse to the Fund pursuant to a separate shortfall and forbearance agreement. Such an agreement would require the Fund to reimburse the liquidity provider, among other

circumstances, upon termination of the TOB trust for the difference between the liquidation value of the bonds held in the trust and the principal amount and accrued interest due to the holders of floating rate securities issued by the trust. The Fund will enter into such a recourse agreement (1) when the liquidity provider requires such a recourse agreement because the level of leverage in the TOB trust exceeds the level that the liquidity provider is willing to support absent such an agreement; and/or (2) to seek to prevent the liquidity provider from collapsing the trust in the event the municipal bond held in the trust has declined in value to the point where it may cease to exceed the face amount of outstanding short-term floaters. In an instance where the Fund has entered such a recourse agreement, the Fund may suffer a loss that exceeds the amount of its original investment in the inverse floating rate securities; such loss could be as great as that original investment amount plus the face amount of the floating rate securities issued by the trust plus accrued interest thereon.

The Fund will segregate or earmark liquid assets with its custodian in accordance with the 1940 Act to cover its obligations with respect to its investments in TOB trusts.

The Fund may invest in both inverse floating rate securities and floating rate securities (as discussed below) issued by the same TOB trust.

Floating Rate Securities. The Fund may also invest in short-term floating rate securities, as described above, issued by TOB trusts. Generally, the interest rate earned will be based upon the market rates for municipal securities with maturities or remarketing provisions that are comparable in duration to the periodic interval of the tender option, which may vary from weekly, to monthly, to other periods of up to one year. Since the tender option feature provides a shorter term than the final maturity or first call date of the underlying municipal bond deposited in the trust, the Fund, as the holder of the floating rate securities, relies upon the terms of the remarketing and liquidity agreements with the financial institution that acts as remarketing agent and/or liquidity provider as well as the credit strength of that institution. As further assurance of liquidity, the terms of the TOB trust provide for a liquidation of the municipal bond deposited in the trust and the application of the proceeds to pay off the floating rate securities. The TOB trusts that are organized to issue both short-term floating rate securities and inverse floaters generally include liquidation triggers to protect the investor in the floating rate securities.

Special Taxing Districts. Special taxing districts are organized to plan and finance infrastructure developments to induce residential, commercial and industrial growth and redevelopment. The bond financing methods such as tax increment finance, tax assessment, special services district and Mello-Roos bonds, generally are payable solely from taxes or other revenues attributable to the specific projects financed by the bonds without recourse to the credit or taxing power of related or overlapping municipalities. They often are exposed to real estate development-related risks and can have more taxpayer concentration risk than general tax-supported bonds, such as general obligation bonds. Further, the fees, special taxes, or tax allocations and other revenues that are established to secure such financings generally are limited as to the rate or amount that may be levied or assessed and are not subject to increase pursuant to rate covenants or municipal or corporate guarantees. The bonds could default if development failed to progress as anticipated or if larger taxpayers failed to pay the assessments, fees and taxes as provided in the financing plans of the districts.

The foregoing information constitutes only a brief summary of some of the general factors which may impact certain issuers of municipal securities and does not purport to be a complete or exhaustive description of all adverse conditions to which the issuers of municipal securities held by the

Fund are subject. Additionally, many factors including national economic, social and environmental policies and conditions, which are not within the control of the issuers of the municipal securities, could affect or could have an adverse impact on the financial condition of the issuers. The Fund is unable to predict whether or to what extent such factors or other factors may affect the issuers of the municipal securities, the market value or marketability of the municipal securities or the ability of the respective issuers of the municipal securities acquired by the Fund to pay interest on or principal of the municipal securities. This information has not been independently verified.

Special Considerations Relating to California Municipal Securities

As described above, the Fund will invest at least 80% of its Managed Assets in municipal securities and other related investments the income from which is exempt from regular federal and California income taxes. The Fund is therefore susceptible to political, economic or regulatory factors affecting issuers of California municipal securities. See Risk Factors General Risks of Investing in the Fund Concentration Risk. Information regarding the financial condition of the State of California is ordinarily included in various public documents issued thereby, such as the official statements prepared in connection with the issuance of general obligation bonds of the State of California. Such official statements may be obtained by contacting the State Treasurer's Office at (800) 900-3873 or at www.treasurer.ca.gov. Complete text of the California Governor's proposed 2016-2017 budget, the 2015-2016 budget and prior budgets may be found at the electronic budget website of the Department of Finance (www.ebudget.ca.gov).

The State of California is a party to numerous legal proceedings, many of which normally occur in governmental operations. Information regarding some of the more significant litigation pending against the state would ordinarily be included in various public documents issued thereby, such as the official statements referred to above prepared in connection with the issuance of general obligation bonds of California.

The Legislative Analyst's Office (the LAO) has released several reports which include their estimates and assessments of State budget acts and associated fiscal and economic projections.

Short-Term Investments

Short-Term Taxable Fixed-Income Securities. For temporary defensive purposes or to keep cash on hand fully invested, the Fund may invest up to 100% of its net assets in cash equivalents and short-term taxable fixed-income securities, although the Fund intends to invest in taxable short-term investments only in the event that suitable tax-exempt short-term investments are not available at reasonable prices and yields. Investment in taxable short-term investments would result in a portion of the dividends paid being subject to regular federal and California income taxes. Short-term taxable fixed-income investments are defined to include, without limitation, the following:

- (1) U.S. government securities, including bills, notes and bonds differing as to maturity and rates of interest that are either issued or guaranteed by the U.S. Treasury or by U.S. government

agencies or instrumentalities. U.S. government agency securities include securities issued by (a) the Federal Housing Administration, Farmers Home Administration, Export-Import Bank of the United States, Small Business Administration, and the Government National Mortgage Association, whose securities are supported by the full faith and credit of the United States; (b) the Federal Home Loan Banks, Federal Intermediate Credit Banks, and the Tennessee Valley Authority, whose securities are supported by the right of the agency to borrow from the U.S. Treasury; (c) the Federal National Mortgage Association, whose securities are supported by the discretionary authority of the U.S. government to purchase certain obligations of the agency or instrumentality; and (d) the Student Loan Marketing Association, whose securities are supported only by its credit. While the U.S. government provides financial support to such U.S. government-sponsored agencies or instrumentalities, no assurance can be given that it always will do so since it is not so obligated by law. The U.S. government, its agencies, and instrumentalities do not guarantee the market value of their securities. Consequently, the value of such securities may fluctuate.

(2) Certificates of deposit issued against funds deposited in a bank or a savings and loan association. Such certificates are for a definite period of time, earn a specified rate of return, and are normally negotiable. The issuer of a certificate of deposit agrees to pay the amount deposited plus interest to the bearer of the certificate on the date specified thereon. Under current Federal Deposit Insurance Corporation regulations, the maximum insurance payable as to any one certificate of deposit is \$250,000; therefore, certificates of deposit purchased by the Fund may not be fully insured.

(3) Repurchase agreements, which involve purchases of debt securities. At the time the Fund purchases securities pursuant to a repurchase agreement, it simultaneously agrees to resell and redeliver such securities to the seller, who also simultaneously agrees to buy back the securities at a fixed price and time. This assures a predetermined yield for the Fund during its holding period, since the resale price is always greater than the purchase price and reflects an agreed-upon market rate. Such actions afford an opportunity for the Fund to invest temporarily available cash. The Fund may enter into repurchase agreements only with respect to obligations of the U.S. government, its agencies or instrumentalities; certificates of deposit; or bankers' acceptances in which the Fund may invest. Repurchase agreements may be considered loans to the seller, collateralized by the underlying securities. The risk to the Fund is limited to the ability of the seller to pay the agreed-upon sum on the repurchase date; in the event of default, the repurchase agreement provides that the Fund is entitled to sell the underlying collateral. If the value of the collateral declines after the agreement is entered into, and if the seller defaults under a repurchase agreement when the value of the underlying collateral is less than the repurchase price, the Fund could incur a loss of both principal and interest. The Investment Adviser monitors the value of the collateral at the time the action is entered into and at all times during the term of the repurchase agreement. The Investment Adviser does so in an effort to determine that the value of the collateral always equals or exceeds the agreed-upon repurchase price to be paid to the Fund. If the seller were to be subject to a federal bankruptcy proceeding, the ability of the Fund to liquidate the collateral could be delayed or impaired because of certain provisions of the bankruptcy laws.

(4) Commercial paper, which consists of short-term unsecured promissory notes, including variable rate master demand notes issued by corporations to finance their current operations. Master demand notes are direct lending arrangements between the Fund and a corporation. There is no secondary market for such notes. However, they are redeemable by the Fund at any time. The Investment Adviser will consider the financial condition of the corporation (e.g., earning power, cash flow, and other liquidity ratios) and will continuously monitor the corporation's ability to meet all of

its financial obligations, because the Fund's liquidity might be impaired if the corporation were unable to pay principal and interest on demand. Investments in commercial paper will be limited to commercial paper rated in the highest categories by an NRSRO and that matures within one year of the date of purchase or carry a variable or floating rate of interest.

Short-Term Tax-Exempt Fixed-Income Securities. Short-term tax-exempt fixed-income securities are securities that are exempt from regular federal income tax and mature within three years or less from the date of issuance. Short-term tax-exempt fixed-income securities are defined to include, without limitation, the following:

- (1) Bond Anticipation Notes (BANs) are usually general obligations of state and local governmental issuers which are sold to obtain interim financing for projects that will eventually be funded through the sale of long-term debt obligations or bonds. The ability of an issuer to meet its obligations on its BANs is primarily dependent on the issuer's access to the long-term municipal bond market and the likelihood that the proceeds of such bond sales will be used to pay the principal and interest on the BANs.
- (2) Tax Anticipation Notes (TANs) are issued by state and local governments to finance the current operations of such governments. Repayment is generally to be derived from specific future tax revenues. TANs are usually general obligations of the issuer. A weakness in an issuer's capacity to raise taxes due to, among other things, a decline in its tax base or a rise in delinquencies, could adversely affect the issuer's ability to meet its obligations on outstanding TANs.
- (3) Revenue Anticipation Notes (RANs) are issued by governments or governmental bodies with the expectation that future revenues from a designated source will be used to repay the notes. In general, they also constitute general obligations of the issuer. A decline in the receipt of projected revenues, such as anticipated revenues from another level of government, could adversely affect an issuer's ability to meet its obligations on outstanding RANs. In addition, the possibility that the revenues would, when received, be used to meet other obligations could affect the ability of the issuer to pay the principal and interest on RANs.
- (4) Construction loan notes are issued to provide construction financing for specific projects. Frequently, these notes are redeemed with funds obtained from the Federal Housing Administration.
- (5) Bank notes are notes issued by local government bodies and agencies, such as those described above to commercial banks as evidence of borrowings. The purposes for which the notes are issued are varied but they are frequently issued to meet short-term working capital or capital project needs. These notes may have risks similar to the risks associated with TANs and RANs.
- (6) Tax-exempt commercial paper (Municipal Paper) represents very short-term unsecured, negotiable promissory notes, issued by states, municipalities and their agencies. Payment of principal and interest on issues of municipal paper may be made from various sources to the extent the funds are available therefrom. Maturities of municipal paper generally will be shorter than the maturities of TANs, BANs or RANs. There is a limited secondary market for issues of Municipal Paper.

Certain municipal securities may carry variable or floating rates of interest whereby the rate of interest is not fixed but varies with changes in specified market rates or indices, such as a bank prime rate or a tax-exempt money market index.

While the various types of notes described above as a group represent the major portion of the short-term tax-exempt note market, other types of notes are available in the marketplace, and the Fund may invest in such other types of notes to the extent permitted under its investment objectives, policies and limitations. Such notes may be issued for different purposes and may be secured differently from those mentioned above.

Illiquid Securities

The Fund may invest in illiquid securities (i.e., securities that are not readily marketable), including, but not limited to, restricted securities (securities the disposition of which is restricted under the federal securities laws), securities that may be resold only pursuant to Rule 144A under the Securities Act that are deemed to be illiquid, and certain repurchase agreements.

Restricted securities may be sold only in privately negotiated transactions or in a public offering with respect to which a registration statement is in effect under the Securities Act. Where registration is required, the Fund may be obligated to pay all or part of the registration expenses and a considerable period may elapse between the time of the decision to sell and the time the Fund may be permitted to sell a security under an effective registration statement. If, during such a period, adverse market conditions were to develop, the Fund might obtain a less favorable price than that which prevailed when it decided to sell. Illiquid securities will be priced at a fair value as determined in good faith by the Board or its delegatee.

When-Issued and Delayed Delivery Transactions

The Fund may buy and sell municipal securities on a when-issued or delayed delivery basis, making payment or taking delivery at a later date, normally within 15 to 45 days of the trade date. On such transactions, the payment obligation and the interest rate are fixed at the time the buyer enters into the commitment. Beginning on the date the Fund enters into a commitment to purchase securities on a when-issued or delayed delivery basis, the Fund is required under interpretations of the SEC to maintain in a separate account liquid assets, consisting of cash, cash equivalents or liquid securities having a market value, at all times, at least equal to the amount of the commitment. Income generated by any such assets which provide taxable income for federal income tax purposes is includable in the taxable income of the Fund and, to the extent distributed, will be taxable to shareholders. The Fund may enter into contracts to purchase municipal securities on a forward basis (i.e., where settlement will occur more than 60 days from the date of the transaction) only to the extent that the Fund specifically collateralizes such obligations with a security that is expected to be called or mature within 60 days before or after the settlement date of the forward transaction. The commitment to purchase securities on a when-issued, delayed delivery or forward basis may involve an element of risk because no interest accrues on the bonds prior to settlement and, at the time of delivery, the market value may be less than cost.

Derivatives and Hedging Strategies

The Fund may periodically engage in hedging transactions, and otherwise use various types of derivative instruments, described below, to reduce risk, to effectively gain particular market exposures, to seek to enhance returns, and to reduce transaction costs, among other reasons. In addition to inverse floating rate securities and structured notes, the Fund may invest in certain other derivative instruments in pursuit of its investment objectives. Such instruments include financial futures contracts, swap contracts (including interest rate and credit default swaps), options on financial futures, options on swap contracts or other derivative instruments whose prices, in the Investment Adviser's and/or the

Sub-Adviser's opinion, correlate with the prices of the Fund's investments. The Investment Adviser and/or the Sub-Adviser uses derivatives to shorten or lengthen the effective duration of the Fund's portfolio securities, and therefore the interest rate risk, and to adjust other aspects of the portfolio's risk/return profile. The Fund may use these instruments if the Fund deems it more efficient from a transaction cost, total return or income standpoint than investing in cash securities.

Hedging is a term used for various methods of seeking to preserve portfolio capital value by offsetting price changes in one investment through making another investment whose price should tend to move in the opposite direction.

A derivative is a financial contract whose value is based on (or derived from) a traditional security (such as a stock or a bond), an asset (such as a commodity like gold), or a market index (such as the Barclays Capital Municipal Bond Index). Some forms of derivatives may trade on exchanges, while non-standardized derivatives, which tend to be more specialized and complex, trade over-the-counter (OTC) or a one-on-one basis. It may be desirable and possible in various market environments to partially hedge the portfolio against fluctuations in market value due to market interest rate or credit quality fluctuations, or instead to gain a desired investment exposure, by entering into various types of derivatives transactions, including financial futures and index futures as well as related put and call options on such instruments, structured notes, or interest rate swaps on taxable or tax-exempt securities or indexes (which may be forward-starting), credit default swaps, and options on interest rate swaps, among others.

These transactions present certain risks. In particular, the imperfect correlation between price movements in the futures contract and price movements in the securities being hedged creates the possibility that losses on the hedge by the Fund may be greater than gains in the value of the securities in the Fund's portfolio. In addition, futures and options markets may not be liquid in all circumstances. As a result, in volatile markets, the Fund may not be able to close out the transaction without incurring losses substantially greater than the initial deposit. Finally, the potential deposit requirements in futures contracts create an ongoing greater potential financial risk than do options transactions, where the exposure is limited to the cost of the initial premium. Losses due to hedging transactions will reduce yield. The Fund will not make any investment (whether an initial premium or deposit or a subsequent deposit) other than as necessary to close a prior investment if, immediately after such investment, the sum of the amount of its premiums and deposits would exceed 15% of the Fund's Managed Assets. The Fund will invest in these instruments only in markets believed by the Investment Adviser and/or the Sub-Adviser to be active and sufficiently liquid. Net gains, if any, from hedging and other portfolio transactions will be distributed as taxable distributions to shareholders.

The Investment Adviser and/or the Sub-Adviser may use derivative instruments to seek to enhance return, to hedge some of the risk of the Fund's investments in municipal securities or as a substitute for a position in the underlying asset. These types of strategies may generate taxable income.

Both parties entering into an index or financial futures contract are required to post an initial deposit, typically equal to from 1% to 5% of the total contract price. Typically, option holders enter into offsetting closing transactions to enable settlement in cash rather than take delivery of the position in the future of the underlying security. Interest rate swap and credit default swap transactions are typically entered on a net basis, meaning that the two payment streams are netted out with the Fund receiving or paying, as the case may be, only the net amount of the two payments. The Fund will sell only covered futures contracts, which means that the Fund segregates assets equal to the amount of the obligations.

There is no assurance that these derivative strategies will be available at any time or that the Investment Adviser and/or the Sub-Adviser will determine to use them for the Fund or, if used, that the strategies will be successful.

Swap Transactions. The Fund may enter into total return, interest rate and credit default swap agreements and interest rate caps, floors and collars. The Fund may also enter into options on the foregoing types of swap agreements (swap options).

Swap agreements typically are two-party contracts entered into primarily by institutional investors for periods ranging from a few weeks to several years. In a standard swap transaction, two parties agree to exchange the returns (or differentials in rates of return) earned or realized on particular predetermined investments or instruments. The gross returns to be exchanged or swapped between the parties are calculated with respect to a notional amount (i.e., the change in the value of a particular dollar amount invested at a particular interest rate, in a particular foreign currency, or in a basket of securities representing a particular index).

The notional amount of a swap agreement is the agreed upon basis for calculating the obligations that the parties to a swap agreement have agreed to exchange. Under most swap agreements entered into by the Fund, the obligations of the parties would be exchanged on a net basis. Consequently, the Fund's obligation (or rights) under a swap agreement will generally be equal only to the net amount to be paid or received under the agreement based on the relative values of the positions held by each party to the agreement. The Fund's obligation under a swap agreement will be accrued daily (offset against amounts owed to the Fund) and any accrued but unpaid net amounts owed to a swap counterparty will be covered by segregating cash and/or other appropriate liquid assets.

The swap market has grown substantially in recent years with a large number of banking firms acting as both principals and agents using standardized swap documentation. As a result, the swap market has become relatively liquid. However, swap agreements may still be subject to liquidity risk, which exists when a particular swap is difficult to purchase or sell. If a swap transaction is particularly large or if the relevant market is illiquid, it may not be possible to initiate a transaction or liquidate a position at an advantageous time or price, which may result in significant losses. Caps, floors and collars are more recent innovations for which standardized documentation has not been fully developed and, accordingly, swaps with these features are less liquid.

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act) sets forth a new regulatory framework for certain derivatives, such as swaps, in which the Fund may be authorized to invest. The Dodd-Frank Act requires many swap transactions to be executed on registered exchanges or through swap execution facilities, cleared through a regulated clearinghouse and publicly reported. In addition, many market participants are now regulated as swap dealers or major swap participants and are, or will be, subject to certain minimum capital and margin requirements and business conduct standards. The statutory requirements of the Dodd-Frank Act are being implemented primarily through rules and regulations adopted by the SEC and/or the Commodity Futures Trading Commission (CFTC). The CFTC is responsible for the regulation of most swaps, and has completed most of its rules implementing the Dodd-Frank Act swap regulations. The SEC has jurisdiction over a small segment of the market referred to as security-based swaps, which includes swaps on single securities or credits, or narrow-based indices of securities or credits, but has not yet completed its rulemaking. There is a prescribed phase-in period during which most of the mandated

rulemaking and regulations are being implemented, and temporary exemptions from certain rules and regulations have been granted so that current trading practices will not be unduly disrupted during the transition period.

Cleared swaps are transacted through futures commission merchants that are members of central clearinghouses with the clearinghouse serving as a central counterparty similar to transactions in futures contracts. Currently, central clearing is required only for certain market participants trading certain instruments, although central clearing for additional instruments is expected to be implemented by the CFTC until the majority of the swaps market is ultimately subject to central clearing. In addition, uncleared OTC swaps will be subject to regulatory collateral requirements that could adversely affect the Fund's ability to enter into swaps in the OTC market. These developments could cause the Fund to terminate new or existing swap agreements or to realize amounts to be received under such instruments at an inopportune time. Until the mandated rulemaking and regulations are implemented completely, it will not be possible to determine the complete impact of the Dodd-Frank Act and related regulations on the Fund, and the establishment of a centralized exchange or market for swap transactions may not result in swaps being easier to value or trade. However, it is expected that swap dealers, major market participants and swap counterparties will experience other new and/or additional regulations, requirements, compliance burdens and associated costs. The legislation and rules to be promulgated may exert a negative effect on the Fund's ability to meet its investment objectives, either through limits or requirements imposed on the Fund or its counterparties. The swap market could be disrupted or limited as a result of the legislation, and the new requirements may increase the cost of the Fund's investments and of doing business, which could adversely affect the Fund's ability to buy or sell derivatives.

Interest Rate Swaps, Caps, Collars and Floors. Interest rate swaps are bilateral contracts in which each party agrees to make periodic payments to the other party based on different referenced interest rates (e.g., a fixed rate and a floating rate) applied to a specified notional amount. The purchase of an interest rate floor entitles the purchaser, to the extent that a specified index falls below a predetermined interest rate, to receive payments of interest on a notional principal amount from the party selling such interest rate floor. The purchase of an interest rate cap entitles the purchaser, to the extent that a specified index rises above a predetermined interest rate, to receive payments of interest on a notional principal amount from the party selling such interest rate cap. Interest rate collars involve selling a cap and purchasing a floor or vice versa to protect the Fund against interest rate movements exceeding given minimum or maximum levels.

The use of interest rate transactions, such as interest rate swaps and caps, is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. Depending on the state of interest rates in general, the Fund's use of interest rate swaps or caps could enhance or harm the overall performance of the Fund's common shares. To the extent there is a decline in interest rates, the value of the interest rate swap or cap could decline, and could result in a decline in the net asset value of the common shares. In addition, if short-term interest rates are lower than the Fund's fixed rate of payment on the interest rate swap, the swap will reduce common share net earnings. If, on the other hand, short-term interest rates are higher than the fixed rate of payment on the interest rate swap, the swap will enhance common share net earnings. Buying interest rate caps could enhance the performance of the common shares by providing a maximum leverage expense. Buying interest rate caps could also decrease the net earnings of the common shares in the event that the premium paid by the Fund to the counterparty exceeds the additional amount the Fund would have been required to pay had it not entered into the cap agreement.

Total Return Swaps. In a total return swap, one party agrees to pay the other the total return of a defined underlying asset during a specified period, in return for periodic payments based on a fixed or variable interest rate or the total return from other underlying assets. A total return swap may be applied to any underlying asset but is most commonly used with equity indices, single stocks, bonds and defined baskets of loans and mortgages. The Fund might enter into a total return swap involving an underlying index or basket of securities to create exposure to a potentially widely diversified range of securities in a single trade. An index total return swap can be used by the Investment Adviser and/or the Sub-Adviser to assume risk, without the complications of buying the component securities from what may not always be the most liquid of markets.

In connection with the Fund's position in a swap contract, the Fund will segregate liquid assets or will otherwise cover its position in accordance with applicable SEC requirements. See Segregation of Assets below.

Credit Default Swaps. A credit default swap is a bilateral contract that enables an investor to buy or sell protection against a defined-issuer credit event. The Fund may enter into credit default swap agreements either as a buyer or a seller. The Fund may buy protection to attempt to mitigate the risk of default or credit quality deterioration in an individual security or a segment of the fixed-income securities market to which it has exposure, or to take a short position in individual bonds or market segments which it does not own. The Fund may sell protection in an attempt to gain exposure to the credit quality characteristics of particular bonds or market segments without investing directly in those bonds or market segments.

As the buyer of protection in a credit default swap, the Fund would pay a premium (by means of an upfront payment or a periodic stream of payments over the term of the agreement) in return for the right to deliver a referenced bond or group of bonds to the protection seller and receive the full notional or par value (or other agreed upon value) upon a default (or similar event) by the issuer(s) of the underlying referenced obligation(s). If no default occurs, the protection seller would keep the stream of payments and would have no further obligation to the Fund. Thus, the cost to the Fund would be the premium paid with respect to the agreement. If a credit event occurs, however, the Fund may elect to receive the full notional value of the swap in exchange for an equal face amount of deliverable obligations of the reference entity that may have little or no value. The Fund bears the risk that the protection seller may fail to satisfy its payment obligations.

If the Fund is a seller of protection in a credit default swap and no credit event occurs, the Fund would generally receive an up-front payment or a periodic stream of payments over the term of the swap. If a credit event occurs, however, generally the Fund would have to pay the buyer the full notional value of the swap in exchange for an equal face amount of deliverable obligations of the reference entity that may have little or no value. As the protection seller, the Fund effectively adds economic leverage to its portfolio because, in addition to being subject to investment exposure on its total net assets, the Fund is subject to investment exposure on the notional amount of the swap. Thus, the Fund bears the same risk as it would by buying the reference obligations directly, plus the additional risks related to obtaining investment exposure through a derivative instrument discussed below under Risks Associated with Swap Transactions.

Swap Options. A swap option is a contract that gives a counterparty the right (but not the obligation), in return for payment of a premium, to enter into a new swap agreement or to shorten, extend, cancel, or otherwise modify an existing swap agreement at some designated future time on

specified terms. A cash-settled option on a swap gives the purchaser the right, in return for the premium paid, to receive an amount of cash equal to the value of the underlying swap as of the exercise date. The Fund may write (sell) and purchase put and call swap options. Depending on the terms of the particular option agreement, the Fund generally would incur a greater degree of risk when it writes a swap option than when it purchases a swap option. When the Fund purchases a swap option, it risks losing only the amount of the premium it has paid should it decide to let the option expire unexercised. However, when the Fund writes a swap option, upon exercise of the option the Fund would become obligated according to the terms of the underlying agreement.

Risks Associated with Swap Transactions. The use of swap transactions is a highly specialized activity which involves strategies and risks different from those associated with ordinary portfolio security transactions. If the Investment Adviser and/or the Sub-Adviser is incorrect in its forecasts of default risks, market spreads or other applicable factors or events, the investment performance of the Fund would diminish compared with what it would have been if these techniques were not used. As the protection seller in a credit default swap, the Fund effectively adds economic leverage to its portfolio because, in addition to being subject to investment exposure on its total net assets, the Fund is subject to investment exposure on the notional amount of the swap. The Fund generally may close out a swap, cap, floor, collar or other two-party contract only with its particular counterparty, and generally may transfer a position only with the consent of that counterparty. In addition, the price at which the Fund may close out such a two party contract may not correlate with the price change in the underlying reference asset. If the counterparty defaults, the Fund will have contractual remedies, but there can be no assurance that the counterparty will be able to meet its contractual obligations or that the Fund will succeed in enforcing its rights. It also is possible that developments in the derivatives market, including changes in government regulation, could adversely affect the Fund's ability to terminate existing swap or other agreements or to realize amounts to be received under such agreements.

Futures and Options on Futures Generally. A futures contract is an agreement between two parties to buy and sell a security, index or interest rate (each a financial instrument) for a set price on a future date. Certain futures contracts, such as futures contracts relating to individual securities, call for making or taking delivery of the underlying financial instrument. However, these contracts generally are closed out before delivery by entering into an offsetting purchase or sale of a matching futures contract (same exchange, underlying financial instrument, and delivery month). Other futures contracts, such as futures contracts on interest rates and indices, do not call for making or taking delivery of the underlying financial instrument, but rather are agreements pursuant to which two parties agree to take or make delivery of an amount of cash equal to the difference between the value of the financial instrument at the close of the last trading day of the contract and the price at which the contract was originally written. These contracts also may be settled by entering into an offsetting futures contract.

Unlike when the Fund purchases or sells a security, no price is paid or received by the Fund upon the purchase or sale of a futures contract. Initially, the Fund will be required to deposit with the futures broker, known as a futures commission merchant (FCM), an amount of cash or securities equal to a varying specified percentage of the contract amount. This amount is known as initial margin. The margin deposit is intended to ensure completion of the contract. Minimum initial margin requirements are established by the futures exchanges and may be revised. In addition, FCMs may establish margin deposit requirements that are higher than the exchange minimums. Cash held in the margin account generally is not income producing. However, coupon-bearing securities, such as

U.S. Treasury securities, held in margin accounts generally will earn income. Subsequent payments to and from the FCM, called variation margin, will be made on a daily basis as the price of the underlying financial instrument fluctuates, making the futures contract more or less valuable, a process known as marking the contract to market. Changes in variation margin are recorded by the Fund as unrealized gains or losses. At any time prior to expiration of the futures contract, the Fund may elect to close the position by taking an opposite position that will operate to terminate its position in the futures contract. A final determination of variation margin is then made, additional cash is required to be paid by or released to the Fund, and the Fund realizes a gain or loss. In the event of the bankruptcy or insolvency of an FCM that holds margin on behalf of the Fund, the Fund may be entitled to the return of margin owed to it only in proportion to the amount received by the FCM's other customers, potentially resulting in losses to the Fund. Futures transactions also involve brokerage costs and the Fund may have to segregate additional liquid assets in accordance with applicable SEC requirements. See Segregation of Assets below.

A futures option gives the purchaser of such option the right, in return for the premium paid, to assume a long position (call) or short position (put) in a futures contract at a specified exercise price at any time during the period of the option. Upon exercise of a call option, the purchaser acquires a long position in the futures contract and the writer is assigned the opposite short position. Upon the exercise of a put option, the opposite is true.

Bond Futures and Forward Contracts. Bond futures contracts are agreements in which one party agrees to deliver to the other an amount of cash equal to a specific dollar amount times the difference between the value of a specific bond at the close of the last trading day of the contract and the price at which the agreement is made. No physical delivery of securities is made. Forward contracts are agreements to purchase or sell a specified security or currency at a specified future date (or within a specified time period) and price set at the time of the contract. Forward contracts are usually entered into with banks, foreign exchange dealers or broker-dealers and are usually for less than one year, but may be renewed. Forward contracts are generally purchased or sold in OTC transactions.

Under regulations of the CFTC currently in effect, which may change from time to time with respect to futures contracts purchased by the Fund, the Fund will set aside in a segregated account liquid securities with a value at least equal to the value of instruments underlying such futures contracts less the amount of initial margin on deposit for such contracts. The current view of the staff of the SEC is that the Fund's long and short positions in futures contracts must be collateralized with cash or certain liquid assets held in a segregated account or covered in order to counter the impact of any potential leveraging.

Parties to a futures contract must make initial margin deposits to secure performance of the contract. There are also requirements to make variation margin deposits from time to time as the value of the futures contract fluctuates.

Options on Currency Futures Contracts. Currency futures contracts are standardized agreements between two parties to buy and sell a specific amount of a currency at a set price on a future date. While similar to currency forward contracts, currency futures contracts are traded on commodities exchanges and are standardized as to contract size and delivery date. An option on a currency futures contract gives the holder of the option the right to buy or sell a position in a currency futures contract, at a set price and on or before a specified expiration date. Trading options on international (non-U.S.) currency futures contracts is relatively new. The ability to establish and close out positions on such options is subject to the maintenance of a liquid secondary market.

Index Futures. A tax-exempt bond index which assigns relative values to the tax-exempt bonds included in the index is traded on the Chicago Board of Trade. The index fluctuates with changes in the market values of all tax-exempt bonds included rather than a single bond. An index future is a bilateral agreement pursuant to which two parties agree to take or make delivery of an amount of cash rather than any security equal to a specified dollar amount times the difference between the index value at the close of the last trading day of the contract and the price at which the index future was originally written. Thus, an index future is similar to traditional financial futures except that settlement is made in cash.

Index Options. The Fund may also purchase put or call options on U.S. government or tax-exempt bond index futures and enter into closing transactions with respect to such options to terminate an existing position. Options on index futures are similar to options on debt instruments except that an option on an index future gives the purchaser the right, in return for the premium paid, to assume a position in an index contract rather than an underlying security at a specified exercise price at any time during the period of the option. Upon exercise of the option, the delivery of the futures position by the writer of the option to the holder of the option will be accompanied by delivery of the accumulated balance of the writer's futures margin account which represents the amount by which the market price of the index futures contract, at exercise, is less than the exercise price of the option on the index future.

Bond index futures and options transactions would be subject to risks similar to transactions in financial futures and options thereon as described above.

Limitations on the Use of Futures, Options on Futures and Swaps. The Investment Adviser has claimed, with respect to the Fund, the exclusion from the definition of "commodity pool operator" under the Commodity Exchange Act of 1936, as amended (CEA), provided by CFTC Regulation 4.5 and is therefore not currently subject to registration or regulation as such under the CEA with respect to the Fund. In addition, the Sub-Adviser has claimed the exemption from registration as a commodity trading advisor provided by CFTC Regulation 4.14(a)(8) and is therefore not currently subject to registration or regulation as such under the CEA with respect to the Fund. In February 2012, the CFTC announced substantial amendments to certain exemptions, and to the conditions for reliance on those exemptions, from registration as a commodity pool operator. Under amendments to the exemption provided under CFTC Regulation 4.5, if the Fund uses futures, options on futures, or swaps other than for bona fide hedging purposes (as defined by the CFTC), the aggregate initial margin and premiums on these positions (after taking into account unrealized profits and unrealized losses on any such positions and excluding the amount by which options that are "in-the-money" at the time of purchase are "in-the-money") may not exceed 5% of the Fund's net asset value, or alternatively, the aggregate net notional value of those positions may not exceed 100% of the Fund's net asset value (after taking into account unrealized profits and unrealized losses on any such positions). The amendments to CFTC Regulation 4.5 took effect on December 31, 2012, and the Fund intends to comply with amended CFTC Regulation 4.5's requirements such that the Investment Adviser will not be required to register as a commodity pool operator with the CFTC with respect to the Fund. The Fund reserves the right to employ futures, options on futures and swaps to the extent allowed by CFTC regulations in effect from time to time and in accordance with the Fund's policies. However, the requirements for qualification as a regulated investment company under Subchapter M of the Code, may limit the extent to which the Fund may employ futures, options on futures or swaps.

Segregation of Assets

As a closed-end investment company registered with the SEC, the Fund is subject to the federal securities laws, including the 1940 Act, the rules thereunder, and various interpretive provisions of the SEC and its staff. In accordance with these laws, rules and positions, the Fund must set aside (often referred to as asset segregation) liquid assets, or engage in other SEC or staff-approved measures, to cover open positions with respect to certain kinds of derivatives instruments. In the case of forward currency contracts that are not contractually required to cash settle, for example, the Fund must set aside liquid assets equal to such contracts' full notional value while the positions are open. With respect to forward currency contracts that are contractually required to cash settle, however, the Fund is permitted to set aside liquid assets in an amount equal to the Fund's daily marked-to-market net obligations (i.e., the Fund's daily net liability) under the contracts, if any, rather than such contracts' full notional value. The Fund reserves the right to modify its asset segregation policies in the future to comply with any changes in the positions from time to time articulated by the SEC or its staff regarding asset segregation.

To the extent that the Fund uses its assets to cover its obligations as required by the 1940 Act, the rules thereunder, and applicable positions of the SEC and its staff, such assets may not be used for other operational purposes. The Investment Adviser and/or the Sub-Adviser will monitor the Fund's use of derivatives and will take action as necessary for the purpose of complying with the asset segregation policy stated above. Such actions may include the sale of the Fund's portfolio investments.

The Fund may invest in inverse floating rate securities issued by special purpose trusts. With respect to such investments, the Fund will segregate or earmark assets in an amount equal to at least 100% of the face amount of the floating rate securities issued by such trusts.

Structured Notes

The Fund may utilize structured notes and similar instruments for investment purposes and also for hedging purposes. Structured notes are privately negotiated debt obligations where the principal and/or interest is determined by reference to the performance of a benchmark asset, market or interest rate (an embedded index), such as selected securities, an index of securities or specified interest rates, or the differential performance of two assets or markets. The terms of such structured instruments normally provide that their principal and/or interest payments are to be adjusted upwards or downwards (but not ordinarily below zero) to reflect changes in the embedded index while the structured instruments are outstanding. As a result, the interest and/or principal payments that may be made on a structured product may vary widely, depending upon a variety of factors, including the volatility of the embedded index and the effect of changes in the embedded index on principal and/or interest payments. The rate of return on structured notes may be determined by applying a multiplier to the performance or differential performance of the referenced index or indices or other assets. Application of a multiplier involves leverage that will serve to magnify the potential for gain and the risk of loss.

Other Investment Companies

The Fund may invest up to 10% of its Managed Assets in securities of other open- or closed-end investment companies (including ETFs) that invest primarily in municipal securities of the types in which the Fund may invest directly. In addition, the Fund may invest a portion of its Managed Assets

in pooled investment vehicles (other than investment companies) that invest primarily in municipal securities of the types in which the Fund may invest directly. The Fund generally expects that it may invest in other investment companies and/or other pooled investment vehicles either during periods when it has large amounts of uninvested cash or during periods when there is a shortage of attractive, high-yielding municipal securities available in the market. The Fund may invest in investment companies that are advised by the Investment Adviser and/or the Sub-Adviser or their affiliates to the extent permitted by applicable law and/or pursuant to exemptive relief from the SEC. The Fund has not applied for and currently does not intend to apply for such relief. As a shareholder in an investment company, the Fund will bear its ratable share of that investment company's expenses and would remain subject to payment of its own management fees with respect to assets so invested.

The Investment Adviser and/or the Sub-Adviser will take expenses into account when evaluating the investment merits of an investment in an investment company relative to available municipal security investments. In addition, the securities of other investment companies may also be leveraged and will therefore be subject to leverage risk.

Other Investment Policies and Techniques

Portfolio Trading and Turnover Rate. The Fund may buy and sell municipal securities to accomplish its investment objectives in relation to actual and anticipated changes in interest rates. The Fund may also sell one municipal security and buy another of comparable quality at approximately the same time to take advantage of what the Investment Adviser and/or the Sub-Adviser believes to be a temporary price disparity between the two bonds that may result from imbalanced supply and demand. The Fund also may engage in a limited amount of short-term trading consistent with its investment objectives. The Fund may sell Securities in anticipation of a market decline (a rise in interest rates) or buy securities in anticipation of a market rise (a decline in interest rates) and later sell them, but the Fund will not engage in trading solely to recognize a gain. The Fund will attempt to achieve its investment objectives by prudently selecting California municipal securities with a view to holding them for investment. Although the Fund cannot accurately predict its annual portfolio turnover rate, the Fund expects, though it cannot guarantee, that its annual portfolio turnover rate generally will not exceed 25% under normal circumstances. For the fiscal year ended February 29, 2016, the Fund's portfolio turnover rate was 15%. There are no limits on the rate of portfolio turnover, and investments may be sold without regard to length of time held when investment considerations warrant such action. A higher portfolio turnover rate results in correspondingly greater brokerage commissions and other transactional expenses that are borne by the Fund. In addition, high portfolio turnover may result in the realization of net short-term capital gains by the Fund which, when distributed to shareholders, will be taxable as ordinary income for federal income tax purposes. See *Material Income Tax Matters*.

Repurchase Agreements. As temporary investments, the Fund may invest in repurchase agreements. A repurchase agreement is a contractual agreement whereby the seller of securities (U.S. government securities or municipal securities) agrees to repurchase the same security at a specified price on a future date agreed upon by the parties. The agreed-upon repurchase price determines the yield during the Fund's holding period. Repurchase agreements are considered to be loans collateralized by the underlying security that is the subject of the repurchase contract. Income generated from transactions in repurchase agreements will be taxable. See *Material Income Tax Matters* for information relating to the allocation of taxable income between common shares and preferred shares. The Fund will enter into repurchase agreements only with registered securities dealers

or domestic banks that, in the opinion of the Investment Adviser and/or the Sub-Adviser, present minimal credit risk. The risk to the Fund is limited to the ability of the issuer to pay the agreed-upon repurchase price on the delivery date; however, although the value of the underlying collateral at the time the transaction is entered into always equals or exceeds the agreed-upon repurchase price, if the value of the collateral declines there is a risk of loss of both principal and interest. In the event of default, the collateral may be sold but the Fund might incur a loss if the value of the collateral declines, and might incur disposition costs or experience delays in connection with liquidating the collateral. In addition, if bankruptcy proceedings are commenced with respect to the seller of the security, realization upon the collateral by the Fund may be delayed or limited. The Investment Adviser and/or the Sub-Adviser will monitor the value of the collateral at the time the transaction is entered into and at all times subsequent during the term of the repurchase agreement in an effort to determine that such value always equals or exceeds the agreed-upon repurchase price. In the event the value of the collateral declines below the repurchase price, the Investment Adviser and/or the Sub-Adviser will demand additional collateral from the issuer to increase the value of the collateral to at least that of the repurchase price, including interest.

Zero Coupon Bonds and Other Original Issue Discount Instruments. A zero coupon bond is a bond that typically does not pay interest for its entire life. When held to its maturity, the holder receives the par value of the zero coupon bond, which generates a return equal to the difference between the purchase price and its maturity value. A zero coupon bond is normally issued and traded at a deep discount from face value. This original issue discount (OID) approximates the total amount of interest the security will accrue and compound prior to its maturity and reflects the payment deferral and credit risk associated with the instrument. Because zero coupon securities and other OID instruments do not pay cash interest at regular intervals, the instruments' ongoing accruals require ongoing judgments concerning the collectability of deferred payments and the value of any associated collateral. As a result, these securities may be subject to greater value fluctuations and less liquidity in the event of adverse market conditions than comparably rated securities that pay cash on a current basis. Because zero coupon bonds, and OID instruments generally, allow an issuer to avoid or delay the need to generate cash to meet current interest payments, they may involve greater payment deferral and credit risk than coupon loans and bonds that pay interest currently or in cash. The Fund generally will be required to distribute dividends to shareholders representing the income of these instruments as it accrues, even though the Fund will not receive all of the income on a current basis or in cash. Thus, the Fund may have to sell other investments, including when it may not be advisable to do so, and use the cash proceeds to make income distributions to its shareholders. For accounting purposes, these cash distributions to shareholders will not be treated as a return of capital.

Further, the Investment Adviser collects management fees on the value of a zero coupon bond or OID instrument attributable to the ongoing non-cash accrual of interest over the life of the bond or other instrument. As a result, the Investment Adviser receives non-refundable cash payments based on such non-cash accruals while investors incur the risk that such non-cash accruals ultimately may not be realized.

Investment Restrictions

In addition to the Fund's investment objectives, the Fund's policy to invest, under normal circumstances, at least 80% of its Managed Assets in a portfolio of securities the income from which is exempt from regular federal and California income tax is a fundamental investment policy of the Fund and may not be changed without the approval of the holders of a majority of the outstanding common

shares and preferred shares of the Fund, voting together as a single class, and of the holders of a majority of the outstanding preferred shares, voting separately as a single class. For this purpose, a majority of the outstanding shares means the vote of (1) 67% or more of the voting securities present at a meeting, if the holders of more than 50% of the outstanding voting securities are present or represented by proxy; or (2) more than 50% of the outstanding voting securities, whichever is less.

Except as described below, the Fund may not:

1. Issue senior securities, as defined in the Investment Company Act of 1940, other than preferred shares, except to the extent permitted under the Investment Company Act of 1940 and except as otherwise described in the prospectus.
2. Borrow money, except from banks for temporary or emergency purposes or for repurchase of its shares, and then only in an amount not exceeding one-third of the value of the Fund's total assets (including the amount borrowed) less the Fund's liabilities (other than borrowings).
3. Act as underwriter of another issuer's securities, except to the extent that the Fund may be deemed to be an underwriter within the meaning of the Securities Act of 1933 in connection with the purchase and sale of portfolio securities.
4. Invest more than 25% of its total assets in securities of issuers in any one industry; provided, however, that such limitation shall not apply to municipal bonds other than those municipal bonds backed only by the assets and revenues of non-governmental users.
5. Purchase or sell real estate, but this shall not prevent the Fund from investing in municipal bonds secured by real estate or interests therein or foreclosing upon and selling such security.
6. Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from purchasing or selling options, futures contracts, derivative instruments or from investing in securities or other instruments backed by physical commodities).
7. Make loans except as permitted by the Investment Company Act of 1940, as amended, and exemptive orders granted under the Investment Company Act of 1940, as amended.
8. Invest more than 5% of its total assets in securities of any one issuer, except that this limitation shall not apply to bonds issued by the United States Government, its agencies and instrumentalities or to the investment of 25% of its total assets.

For the purpose of applying the limitation set forth in subparagraph 1 above, an issuer will be deemed the sole issuer of a security when its assets and revenues are separate from other governmental entities and its securities are backed only by its assets and revenues. Similarly, in the case of a non-governmental issuer, such as an industrial corporation or a privately owned or operated hospital, if the security is backed only by the assets and revenues of the non-governmental issuer, then such non-governmental issuer would be deemed to be the sole issuer. Where a security is also backed by the enforceable obligation of a superior or unrelated governmental or other entity (other than a bond insurer), it will also be included in the computation of securities owned that are issued by such

governmental or other entity. Where a security is guaranteed by a governmental entity or some other facility, such as a bank guarantee or letter of credit, such a guarantee or letter of credit would be considered a separate security and would be treated as an issue of such government, other entity or bank. When a municipal security is insured by bond insurance, it will not be considered a security that is issued or guaranteed by the insurer; instead, the issuer of such municipal security will be determined in accordance with the principles set forth above. The foregoing restrictions do not limit the percentage of the Fund's assets that may be invested in municipal securities insured by any given insurer.

The Fund is diversified for purposes of the 1940 Act. Consequently, as to 75% of the Fund's total assets, a Fund may not (1) purchase the securities of any one issuer (other than cash, securities of other investment companies and securities issued by the U.S. government or its agencies or instrumentalities) if immediately after such purchase, more than 5% of the value of the Fund's total assets would be invested in securities of such issuer or (2) purchase more than 10% of the outstanding voting securities of such issuer.

Subject to certain exemptions under the 1940 Act, the Fund may invest up to 10% of its total assets in the aggregate in shares of other investment companies and up to 5% of its total assets in any one investment company, provided the investment does not represent more than 3% of the voting stock of the acquired investment company at the time such shares are purchased. As a shareholder in any investment company, the Fund will bear its ratable share of that investment company's expenses and will remain subject to payment of the Fund's management, advisory and administrative fees with respect to assets so invested. Holders of common shares of the Fund would therefore be subject to duplicative expenses to the extent a Fund invests in other investment companies. In addition, the securities of other investment companies may be leveraged and therefore will be subject to leverage risks.

In addition to the foregoing fundamental investment policies, the Fund is also subject to the following non-fundamental restrictions and policies, which may be changed by the Board. The Fund may not:

- (1) Sell securities short, unless the Fund owns or has the right to obtain securities equivalent in kind and amount to the securities sold at no added cost, and provided that transactions in options, futures contracts, options on futures contracts, or other derivative instruments are not deemed to constitute selling securities short.
- (2) Invest in securities of other open- or closed-end investment companies (including ETFs) except in compliance with the Investment Company Act of 1940 or any exemptive relief obtained thereunder.
- (3) Enter into futures contracts or related options or forward contracts, if more than 30% of the Fund's net assets would be represented by futures contracts or more than 5% of the Fund's net assets would be committed to initial margin deposits and premiums on futures contracts and related options.
- (4) Purchase securities when borrowings exceed 5% of its total assets if and so long as preferred shares are outstanding.

(5) Purchase securities of companies for the purpose of exercising control, except that the Fund may invest up to 5% of its net assets in tax-exempt or taxable fixed-income securities or equity securities for the purpose of acquiring control of an issuer whose municipal bonds (a) the Fund already owns and (b) have deteriorated or are expected shortly to deteriorate significantly in credit quality, provided the Investment Adviser determines that such investment should enable the Fund to better maximize the value of its existing investment in such issuer.

The restrictions and other limitations set forth above will apply only at the time of purchase of securities and will not be considered violated unless an excess or deficiency occurs or exists immediately after and as a result of an acquisition of securities.

The Fund may be subject to certain restrictions imposed by either guidelines of one or more NRSROs that may issue ratings for preferred shares, or, if issued, commercial paper or notes, or, if the Fund borrows from a lender, by the lender. These guidelines may impose asset coverage or portfolio composition requirements that are more stringent than those imposed on the Fund by the 1940 Act. If these restrictions were to apply, it is not anticipated that these covenants or guidelines would impede the Investment Adviser from managing the Fund's portfolio in accordance with the Fund's investment objectives and policies.

At least six months prior to the scheduled final mandatory redemption of all outstanding VRDP Shares of each series, the Fund will maintain segregated assets rated at least investment grade (and including Deposit Securities in an amount equal to 20% of segregated assets, with 135 days remaining to the redemption date, increasing to 100% with 15 days remaining) with a Market Value equal to at least 110% of the Liquidation Preference of all outstanding VRDP Shares of such series until the redemption of all such outstanding VRDP Shares.

MANAGEMENT OF THE FUND

Trustees and Officers

The management of the Fund, including general supervision of the duties performed by the Investment Adviser under an investment management agreement between the Investment Adviser and the Fund (the Investment Management Agreement), is the responsibility of the Board. The Fund currently has eleven (11) trustees, two (2) of whom are interested persons (as defined in the 1940 Act) and nine (9) of whom are not interested persons. Information concerning the trustees and officers of the Fund, including, as applicable, their principal occupations and other affiliations, the number of portfolios each oversees, other directorships they hold and their compensation and share ownership is incorporated into this Information Memorandum by reference to the Fund's Annual Report for the fiscal year ended February 29, 2016.

Investment Adviser and Sub-Adviser

Nuveen Fund Advisors, LLC (previously defined as Nuveen Fund Advisors or the Adviser), the Funds' investment adviser, offers advisory and investment management services to a broad range of investment company clients. Nuveen Fund Advisors has overall responsibility for management of the Funds, oversees the management of the Funds' portfolios, manages the Funds' business affairs and provides certain clerical, bookkeeping and other administrative services. Nuveen Fund Advisors is located at 333 West Wacker Drive, Chicago, Illinois 60606.

Nuveen Fund Advisors, a registered investment adviser, is a subsidiary of Nuveen Investments, Inc. (previously defined as Nuveen or Nuveen Investments). Nuveen Investments is an operating division of TIAA Global Asset Management (TGAM), the investment management arm of Teachers Insurance and Annuity Association of America (TIAA). TIAA is a life insurance company founded in 1918 by the Carnegie Foundation for the Advancement of Teaching and is the companion organization of College Retirement Equities Fund. As of March 31, 2016, TGAM managed approximately \$861.4 billion in assets, of which approximately \$229.7 billion was managed by Nuveen Fund Advisors and other subsidiaries of Nuveen Investments.

Nuveen Fund Advisors has selected its wholly owned subsidiary, Nuveen Asset Management, LLC (previously defined as Nuveen Asset Management or the Sub-Adviser), located at 333 West Wacker Drive, Chicago, Illinois 60606, to serve as a sub-adviser to the Fund pursuant to a sub-advisory agreement between Nuveen Fund Advisors and Nuveen Asset Management (the Sub-Advisory Agreement). Nuveen Asset Management, a registered investment adviser, oversees day-to-day operations and manages the investment of the Fund's assets on a discretionary basis, subject to the supervision of Nuveen Fund Advisors. Pursuant to the Sub-Advisory Agreement, Nuveen Asset Management is compensated for the services it provides to the Fund with a portion of the management fee Nuveen Fund Advisors receives from the Fund. Nuveen Fund Advisors and Nuveen Asset Management retain the right to reallocate investment advisory responsibilities and fees between themselves in the future.

Portfolio Management

Subject to the supervision of Nuveen Fund Advisors, Nuveen Asset Management is responsible for execution of specific investment strategies and day-to-day investment operations. Nuveen Asset Management manages the Fund using a team of analysts and a portfolio manager that focuses on a specific group of funds. Scott R. Romans, Ph.D., is the portfolio manager of the Fund, Dividend Advantage 2 and Dividend Advantage 3. Mr. Romans assumed portfolio management responsibility for the Fund, Dividend Advantage 2 and Dividend Advantage 3 in September 2003. Mr. Romans will continue to manage the Fund upon completion of the Reorganizations.

Scott R. Romans, Ph.D., Senior Vice President of Nuveen Asset Management, joined Nuveen Investments in 2000 as a senior analyst in the education sector. In 2003, he was assigned management responsibility for several closed- and open-ended municipal bond funds, most of which are state funds covering California and other western states. Currently, he manages investments for 16 Nuveen-sponsored investment companies. He holds an undergraduate degree from the University of Pennsylvania and an M.A. and Ph.D. from the University of Chicago.

Investment Management Agreement and Sub-Advisory Agreement

Pursuant to the Investment Management Agreement, the Fund has agreed to pay an annual management fee for the overall advisory and administrative services and general office facilities provided by Nuveen Fund Advisors. The Fund's management fee consists of two components a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by Nuveen Fund Advisors. The fund-level fee is currently a maximum of 0.45% of the Fund's average daily assets (including assets attributable to leverage), with lower fee levels for assets that exceed \$125 million. The complex-level fee is a maximum of 0.20% of the daily managed assets for all Nuveen-sponsored funds in the U.S. that constitute eligible assets, with lower fee levels of complex-level assets that exceed \$55 billion.

Eligible assets do not include assets attributable to investments in other Nuveen funds or assets in excess of \$2 billion added to the Nuveen fund complex in connection with Nuveen Fund Advisors' assumption of the management of the former First American Funds effective January 1, 2011.

In addition to Nuveen Fund Advisors' management fee, the Fund pays all of its other costs and expenses of its operations, including compensation of its trustees (other than those affiliated with Nuveen Fund Advisors), custodian, transfer agency and dividend disbursing expenses, legal fees, expenses of independent auditors, expenses of repurchasing shares, expenses of issuing any preferred shares, expenses of preparing, printing and distributing shareholder reports, notices, proxy statements and reports to governmental agencies, listing fees and taxes, if any. All fees and expenses are accrued daily and deducted before payment of distributions to shareholders.

RISK FACTORS

Risk is inherent in all investing. Investing in any investment company security involves risk, including the risk that the holders of VRDP Shares of any series may receive little or no return on their investment or even that holders of VRDP Shares may lose part or all of their investment. Therefore, you should consider carefully the following risks that are assumed when investing in New VRDP Shares of the Fund. See also "The Fund's Investments" and "How the Fund Manages Portfolio Risk."

Risks of Investing in New VRDP Shares

Insolvency and/or Bankruptcy of, or Resolutions Proceedings Relating to, a Liquidity Provider. In the event of a material credit or capital impairment of a Liquidity Provider, there is no assurance that the Liquidity Provider will be able to fulfill its obligation to purchase New VRDP Shares of the applicable series. A Liquidity Provider's solvency and ability to fulfill its obligation to pay for New VRDP Shares of the applicable series that are tendered for Remarketing and cannot successfully be remarketed by the applicable Remarketing Agent or that are subject to Mandatory Purchase may deteriorate before a holder of New VRDP Shares of the applicable series can successfully tender the New VRDP Shares for Remarketing or purchase or before the occurrence of the Mandatory Purchase Date, as applicable. In addition, an NRSRO could downgrade the ratings of a Liquidity Provider, which could affect the liquidity of the New VRDP Shares of the applicable series as discussed more fully below. In the event of the filing of an insolvency or bankruptcy proceeding of, or resolution proceedings relating to, a Liquidity Provider, the corresponding New VRDP Purchase Agreement may be terminated prior to a Mandatory Purchase being effected, and the Fund may not be able to enter into a new VRDP Purchase Agreement with a replacement liquidity provider in a timely manner, if at all. In this instance, a holder of New VRDP Shares of the applicable series may not be able to sell New VRDP Shares or may experience delays in receiving payment or may not recover all or a portion of any loss sustained from having to sell the New VRDP Shares without the benefit of the applicable New VRDP Purchase Agreement.

The bank currently acting as Liquidity Provider for the VRDP Shares of Dividend Advantage 3 is a bank incorporated in the United Kingdom and regulated by the United Kingdom's Prudential Regulatory Authority and Financial Conduct Authority, and the Fund currently expects that the same bank will act as the Liquidity Provider for the New VRDP Shares, Series 8, for which the VRDP Shares of Dividend Advantage 3 are exchanged in the Reorganizations. The obligations of the United Kingdom bank that will act as Liquidity Provider under the New VRDP Purchase Agreement for the

New VRDP Shares, Series 8 (and currently under the Dividend Advantage 3 VRDP Purchase Agreement) may be subject to the exercise of so called write-down and conversion powers (also sometimes referred to as resolution powers or bail-in action) in accordance with the Banking Act 2009 of the United Kingdom (as amended) and other laws, regulations, rules or requirements of the United Kingdom relating to the transposition of Directive 2014/59/EU of the European Parliament and of the Council of 14 May 2014 (the European Bank Recovery and Resolution Directive), including the power of United Kingdom regulators to reduce, cancel or convert to equity liabilities of unsound or failing financial institutions. In addition, as required under the European Bank Recovery and Resolution Directive, as implemented in the United Kingdom, under the terms of the New VRDP Purchase Agreement for the New VRDP Shares, Series 8, each holder and beneficial owner of the New VRDP Shares, Series 8, is deemed to have agreed to be bound by the exercise of any bail-in action by the United Kingdom regulators. See the form of the New VRDP Purchase Agreement for the New VRDP Shares, Series 8 attached hereto as part of Appendix B. The United Kingdom regulators are required to determine that certain statutory conditions, including that the bank is failing or likely to fail, are met before exercising the resolution powers; however, the power of the regulators to exercise the resolution powers does not depend on the terms of the New VRDP Purchase Agreement for the New VRDP Shares, Series 8, or the contractual effectiveness of those terms, and they have the authority to exercise those powers without advance notice to, or the consent of, holders or beneficial owners of New VRDP Shares, Series 8, and those powers apply equally to the obligations of the bank under the Dividend Advantage 3 VRDP Purchase Agreement. Accordingly, as in the case of a bank insolvency, in the event that the United Kingdom regulators exercise one or more of their write-down and conversion powers, a holder or beneficial owner of the New VRDP Shares, Series 8, (or Dividend Advantage 3 VRDP Shares) may not be able to sell the New VRDP Shares, Series 8, (or Dividend Advantage 3 VRDP Shares) or may experience delays in receiving payment or may not recover all or a portion of any loss sustained from having to sell the New VRDP Shares, Series 8, (or Dividend Advantage 3 VRDP Shares) without the benefit of the applicable VRDP Purchase Agreement.

Remarketing Risk. Holders of VRDP Shares of each series may elect to tender their New VRDP Shares to the Tender and Paying Agent for Remarketing by the applicable Remarketing Agent pursuant to an Optional Tender, or a Mandatory Tender may occur as described herein. There can be no assurance that the applicable Remarketing Agent will be able to remarket all the New VRDP Shares tendered in a Remarketing. The applicable Remarketing Agent in its sole discretion may purchase for its own account New VRDP Shares in a Remarketing; however, a Remarketing Agent will not be obligated to purchase any New VRDP Shares that would otherwise remain unsold in a Remarketing. If any New VRDP Shares tendered in a Remarketing are not remarketed, the Tender and Paying Agent will tender such New VRDP Shares for purchase, pursuant to a Final Notice of Purchase, to the applicable Liquidity Provider. During the term of the relevant New VRDP Purchase Agreement, the Liquidity Provider has an unconditional and irrevocable obligation to purchase New VRDP Shares of the applicable series tendered for purchase on the relevant Purchase Date pursuant to a Final Notice of Purchase.

Failure of a Liquidity Provider to Fulfill its Purchase Obligation. If New VRDP Shares of any series are not sold in a Remarketing on or before the Purchase Date, or an attempted Remarketing results in unsold New VRDP Shares, or if a Mandatory Purchase Event occurs, the applicable Liquidity Provider will be obligated to purchase the New VRDP Shares pursuant to a Final Notice of Purchase. The ability of a holder of New VRDP Shares to realize payment from the applicable Liquidity Provider will depend on the ability of the Liquidity Provider to pay for the New VRDP Shares tendered pursuant to a Final Notice of Purchase. If a Liquidity Provider should default on its

purchase obligation under the corresponding New VRDP Purchase Agreement, a holder of New VRDP Shares of the applicable series might have limited or no ability to sell its New VRDP Shares or to recover all or a portion of any loss sustained from otherwise selling the New VRDP Shares, especially when market interest rates are rising. If a Liquidity Provider continues to fail to perform its duties and the Fund cannot find a replacement liquidity provider, holders of VRDP Shares of the applicable series may be required to continue to hold their New VRDP Shares for an indefinite period of time.

Inability to Extend the Purchase Obligation or Engage a Successor Liquidity Provider. In the event the Fund is unable to extend a New VRDP Purchase Agreement beyond the Scheduled Termination Date or engage a successor liquidity provider pursuant to an alternate VRDP Purchase Agreement providing for a purchase obligation on the same terms and conditions as the corresponding New VRDP Purchase Agreement and that can be maintained on a commercially reasonable basis, as determined in the sole discretion of the Board, a Mandatory Purchase Event will occur and each holder of New VRDP Shares of the applicable series will be required to deliver its New VRDP Shares for purchase by the applicable Liquidity Provider.

A Mandatory Tender Event or Mandatory Purchase Event May Occur At Times When Attractive Alternative Investment Opportunities Are Not Available. A Mandatory Tender Event or Mandatory Purchase Event with respect to the New VRDP Shares of any series may occur in circumstances that are unfavorable to holders of New VRDP Shares of the applicable series, at times when attractive alternative investment opportunities for reinvestment of the proceeds of a Remarketing or purchase by the applicable Liquidity Provider are not available.

Interest Rate and Income Shortfall Risk. VRDP Shares generally pay dividends based on short-term interest rates, and the proceeds from the issuance of the Fund's preferred shares are used to buy municipal bonds, which pay interest based on long-term yields. Long-term municipal bond yields are typically, although not always, higher than short-term interest rates. Long-term, intermediate-term and short-term interest rates may fluctuate. If short-term interest rates rise, VRDP Share rates may rise so that the amount of dividends paid to the VRDP shareholders exceeds the income from the portfolio securities purchased with the proceeds from the sale of VRDP Shares. Because income from the Fund's entire investment portfolio (not just the portion of the portfolio attributable to the proceeds from the issuance of preferred shares) is available to pay dividends on the Fund's outstanding preferred shares, however, dividend rates on the preferred shares, including the New VRDP Shares, would need to greatly exceed the Fund's net portfolio income before the Fund's ability to pay dividends on the New VRDP Shares would be jeopardized. If long-term rates rise, the value of the Fund's investment portfolio will decline, reducing the amount of assets serving as the Minimum VRDP Asset Coverage for the New VRDP Shares.

Additionally, in certain market environments, short-term market interest rates may be higher than the Maximum Rate allowable for the dividend reset for the New VRDP Shares. In such extreme circumstances, this scenario may adversely affect the valuation of the New VRDP Shares and the liquidity of the New VRDP Shares through the remarketing process.

No Public Trading Market. The New VRDP Shares of each series will be a new issue of securities and there is currently no established trading market for such shares. The Fund does not intend to apply for a listing of the New VRDP Shares of any series on a securities exchange. Accordingly, there can be no assurance as to the development or liquidity of any market for the New VRDP Shares of any series outside of Remarketings by the applicable Remarketing Agent and the

purchase obligation of the applicable Liquidity Provider. Unless otherwise permitted by the Fund, a holder of New VRDP Shares of each series may sell, transfer or otherwise dispose of New VRDP Shares only in whole shares and only pursuant to a Remarketing in accordance with the remarketing procedures set forth in the applicable New VRDP Statement (attached hereto as [Appendix A](#)); *provided, however*, that (a) a sale, transfer or other disposition of New VRDP Shares from a holder of New VRDP Shares who holds New VRDP Shares through an Agent Member to another holder of New VRDP Shares who holds New VRDP Shares through the same Agent Member will be permitted, and (b) in the case of all transfers other than pursuant to Remarketings, the Agent Member (or other person, if permitted by the Fund) to whom such transfer is made will advise the applicable Remarketing Agent and Tender and Paying Agent. The Fund has not registered, and does not intend to register, the New VRDP Shares under the Securities Act. Accordingly, the New VRDP Shares are subject to restrictions on transferability and resale and may only be purchased by and sold to qualified institutional buyers (as defined in Rule 144A under the Securities Act or any successor provision) in accordance with Rule 144A under the Securities Act or any successor provision. In addition, in the case of New VRDP Shares of each series tendered for Remarketing by any Beneficial Owner other than the applicable Liquidity Provider or the applicable Remarketing Agent, the applicable Remarketing Agent will remarket the New VRDP Shares tendered by such Beneficial Owner only to persons that also are registered investment companies under the 1940 Act (other than New VRDP Shares that the applicable Remarketing Agent in its sole discretion purchases for its own account). If at any time the Fund is not subject to Section 13 or 15(d) of the Securities Exchange Act of 1934 (the Exchange Act), in order to preserve the exemption for resales and transfers under Rule 144A, the Fund will furnish, or cause to be furnished, to holders of New VRDP Shares and prospective purchasers of New VRDP Shares, upon request, information with respect to the Fund satisfying the requirements of subsection (d)(4) of Rule 144A. See Available Information.

The Ability to Sell the VRDP Shares other than through a Remarketing May Be Limited. The applicable Remarketing Agent may buy and sell New VRDP Shares of the applicable series other than through a Remarketing. However, it is not obligated to do so and may cease doing so at any time without notice and may require holders that wish to sell their New VRDP Shares to instead tender their VRDP Shares through the Tender and Paying Agent with appropriate notice. Further, investors who purchase New VRDP Shares should not assume that they will be able to sell their New VRDP Shares other than by tendering the New VRDP Shares in accordance with the Remarketing process. The Purchase Obligation does not apply to New VRDP Shares of the applicable series other than those tendered in accordance with the Remarketing process for that series and, as such, would not be available for New VRDP Shares of such series that a New VRDP shareholder attempts to sell outside of the Remarketing process. The Purchase Obligation will apply only to New VRDP Shares of the applicable series that have been properly tendered for Remarketing and that are the subject of a failed Remarketing or Mandatory Purchase.

Under Certain Circumstances, a Remarketing Agent May Be Removed, Resign or Cease Remarketing New VRDP Shares, Without a Successor Being Named. Under certain circumstances, a Remarketing Agent may be removed or have the ability to resign or cease its remarketing efforts, without a successor having been named, subject to the terms of the applicable Remarketing Agreement.

Subordination Risk. While holders of New VRDP Shares of each series will have equal liquidation and distribution rights to the VRDP Shares of each other series and any other preferred shares that might be issued by the Fund, they will be subordinated to the rights of holders of

indebtedness and the claims of other creditors of the Fund. Therefore, dividends, distributions and other payments to holders of New VRDP Shares in liquidation or otherwise will be subject to prior payments due, if any, to the holders of indebtedness or other creditors of the Fund. Creditors of the Fund may include lenders and counterparties in connection with any borrowings, delayed delivery purchases and/or forward delivery contracts or derivatives, including interest rate swaps or caps, entered into by the Fund.

Ratings and Asset Coverage Risk. The Target Funds are not, and, as discussed below, the Fund will not be, required under the respective Target Fund VRDP Statements and New VRDP Statements to maintain any particular (or particular level of) ratings for the VRDP Shares, except that, under the New VRDP Statements, the Fund will be required to use reasonable best efforts to maintain at least one short-term rating of each New VRDP Series to the extent that the applicable Liquidity Provider has a short-term debt rating.

The short-term ratings on each New VRDP Series are directly related to the short-term ratings assigned to the applicable Liquidity Provider. Changes in the credit quality of a Liquidity Provider could cause a downgrade in the short-term credit ratings of the applicable New VRDP Series and make the New VRDP Shares of such series less liquid in the secondary market and cause losses to holders of New VRDP Shares of such series.

There can be no assurance that one or more Rating Agencies will not downgrade the New VRDP Shares of any series, including as a result of altering its or their rating criteria, that the Fund will maintain any ratings of the New VRDP Shares of any series or, if at any time the New VRDP Shares of any series have one or more ratings, that any particular ratings will be maintained. In addition, because investments in lower rated securities are subject to higher risks than investments in higher rated securities, including a higher risk that the issuer will be unable to pay interest or principal when due, the Fund's greater allocation to lower rated municipal securities under its recently amended investment mandate may have a negative effect on one or more long-term ratings of the Fund's preferred shares. The Fund may, at any time, replace a rating agency with another rating agency or terminate the services of any Rating Agencies then providing a rating for the New VRDP Shares of the applicable series without replacement, in either case, without the approval of holders of New VRDP Shares of the applicable series or other shareholders of the Fund (as each Target Fund may do currently with respect to any rating agency rating its outstanding Target Fund VRDP Shares). In the event a rating agency ceases to furnish a long-term rating or the Fund terminates the services of a rating agency then providing a long-term rating for the New VRDP Shares of any series, such rating, to the extent it would have been taken into account in any of the provisions of the New VRDP Shares of the applicable series that are included in the applicable New VRDP Statement, will be disregarded, and only the ratings of the then-designated rating agency or Agencies, if any, will be taken into account (other than the effect of the absence of such ratings for purposes of determining the Maximum Rate) for such series. In addition, the rating agency guidelines adopted by the Fund may be changed or eliminated at any time without the approval of the holders of New VRDP Shares of any series or other shareholders of the Fund, including in connection with the change or elimination of any or all long-term ratings of the New VRDP Shares of any series.

Additionally, so long as the preferred shares are rated, the Fund will be required to meet certain asset coverage or other criteria in order to maintain such rating. The Fund's failure to meet such criteria may cause the Fund to sell portfolio positions or to redeem preferred shares at inopportune times in an amount necessary to restore compliance with such criteria, or may result in a downgrade of ratings.

The ratings do not eliminate or necessarily mitigate the risks of investing in New VRDP Shares. A rating issued by a rating agency is only the opinion of the entity issuing the rating at that time and is not a guarantee as to quality, or an assurance of the future performance, of the rated security. In addition, the manner in which the rating agency obtains and processes information about a particular security may affect the rating agency's ability to timely react to changes in an issuer's (in this case, the Fund's) circumstances that could influence a particular rating. The short-term credit ratings address the timely payment of the Purchase Price of the New VRDP Shares of each series by the applicable Liquidity Provider pursuant to the corresponding New VRDP Purchase Agreement. The ratings on the New VRDP Shares are not recommendations to purchase, hold, or sell those shares, inasmuch as the ratings do not comment as to market price or suitability for a particular investor. The rating agency guidelines do not address the likelihood that an owner of the New VRDP Shares will be able to sell such shares in a Remarketing or otherwise.

Risk of Mandatory and Optional Redemptions. The Fund may be forced to redeem New VRDP Shares of any series to meet Minimum VRDP Asset Coverage requirements, or requirements under a New VRDP Fee Agreement, or may voluntarily redeem New VRDP Shares of any series at any time, including in circumstances that are unfavorable to holders of New VRDP Shares, at times when attractive alternative investment opportunities for reinvestment of the redemption proceeds are not available.

Tax Risk. The Fund is relying on an opinion of special tax counsel that the New VRDP Shares will qualify as equity in the Fund for U.S. federal income tax purposes. Because there is no direct legal authority on the classification of instruments similar to the New VRDP Shares, investors should be aware that the Internal Revenue Service (the IRS) and other governmental taxing authorities could assert a contrary position. See Material Income Tax Matters.

Dividend Rate Risk. The New VRDP Shares are variable dividend rate securities. The value of such securities generally are less sensitive to interest and dividend rate changes but may decline in value if their dividend rate does not rise as much, or as quickly, as interest and dividend rates in general. Conversely, variable dividend rate securities will not generally increase in value if interest and dividend rates decline.

Multiple Series Risk. The Fund currently has six series of VRDP Shares outstanding and one series of VMTP Shares outstanding and, following the Reorganizations, expects to have eight series of VRDP Shares outstanding. While the preferred shares issued by the Fund in connection with the Reorganizations will have equal priority with each other and with the Fund's other preferred shares outstanding from time to time as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, there are certain differences between the terms applicable to each series. VMTP Shares have a short-term mandatory redemption date while VRDP Shares have a long-term mandatory redemption date with a liquidity feature. The Fund may in the future issue other types of preferred shares. To the extent that the terms of the various series or types of preferred shares differ, there is a risk that market or other events may impact one series of preferred shares differently from other series. If market or other events cause the Fund to breach covenants applicable to one series or type of preferred shares but not others, the Fund may nevertheless be granted discretion to redeem shares of any series of preferred shares, including the affected series, in order to restore compliance, subject to the redemption terms of each series. In addition, the voting power of certain series of preferred shares may be more concentrated than others, and holders of Target Fund VRDP Shares may hold reduced voting percentages of preferred shares in the Fund than they

held in a Target Fund individually. Shareholders are urged to review the terms of each series of preferred shares described elsewhere in this Information Memorandum. The Fund, without the consent of shareholders, may from time to time issue additional preferred shares of a new or existing series in connection with new financings, refinancings or reorganizations. The issuance by the Fund of additional preferred shares may require the consent of Liquidity Providers or other Fund counterparties.

Income Risk. The Fund's income is based primarily on the interest it earns from its investments, which can vary widely over the short and long term. If interest rates drop, the Fund's income available over time to make dividend payments with respect to the New VRDP Shares could drop as well if the Fund purchases securities with lower interest coupons. This risk is magnified when prevailing short-term interest rates increase and the Fund holds residual interest municipal bonds.

Other Dividend Risks. In addition to the interest rate risks noted above, the Fund may otherwise be unable to pay dividends on New VRDP Shares in extraordinary circumstances.

Certain Affiliations of the Liquidity Provider and Remarketing Agent. The Fund expects that the Liquidity Provider and the Remarketing Agent for each New VRDP Series will be affiliates of each other (as is currently the case for those entities). In addition, the Fund expects that the Liquidity Provider and the Remarketing Agent for the New VRDP Shares, Series 7, will be the same entities that act in such capacities with respect to the Outstanding VRDP Shares, Series 4. Because the Liquidity Provider and its affiliated Remarketing Agent serve multiple roles, such affiliated entities may be subject to potential conflicts of interest in connection with their various legal duties and contractual obligations relating to the VRDP Shares of the applicable series. These affiliations could, among other things, affect the Remarketing Agent's determination of the Applicable Rate and the Fund's ability to change Remarketing Agents should the Fund seek to do so during the tenure of the affiliated Liquidity Provider.

Each Remarketing Agent is Paid by the Fund. Each Remarketing Agent's responsibilities include determining the Applicable Rate from time to time and remarketing VRDP Shares of the applicable series that are optionally or mandatorily tendered by the owners thereof (subject, in each case, to the terms of the applicable Remarketing Agreement), all as further described in this Information Memorandum. Each Remarketing Agent is appointed by the Fund and is paid by the Fund for its services. As a result, the interests of Remarketing Agents may differ from those of existing holders and potential purchasers of VRDP Shares.

General Risks of Investing in the Fund

Credit and Below-Investment-Grade Risk. Credit risk is the risk that one or more municipal securities in the Fund's portfolio will decline in price, or the issuer thereof will fail to pay interest or principal when due, because the issuer of the security experiences a decline in its financial status. In general, lower-rated municipal securities carry a greater degree of risk that the issuer will lose its ability to make interest and principal payments, which could have a negative impact on the Fund's net asset value or dividends. Credit risk is increased when a portfolio security is downgraded or the perceived creditworthiness of the issuer deteriorates. If a downgrade occurs, the Investment Adviser and/or the Sub-Adviser will consider what action, including the sale of the security, is in the best interests of the Fund. Municipal securities of below-investment-grade quality, commonly referred to as junk bonds, are regarded as having predominantly speculative characteristics with respect to the

issuer's capacity to pay interest and repay principal when due, and they are more susceptible to default or decline in market value due to adverse economic and business developments than investment-grade municipal securities. Also, to the extent that the rating assigned to a municipal security in the Fund's portfolio is downgraded by any NRSRO, the market price and liquidity of such security may be adversely affected. The market values for municipal securities of below-investment-grade quality tend to be volatile, and these securities are less liquid than investment-grade municipal securities. For these reasons, an investment in the Fund, compared with a portfolio consisting predominately or solely of investment-grade securities, may experience the following:

increased price sensitivity resulting from a deteriorating economic environment and/or changing interest rates;

greater risk of loss due to default or declining credit quality;

adverse issuer-specific events that are more likely to render the issuer unable to make interest and/or principal payments; and

the possibility that a negative perception of the below-investment-grade market develops, resulting in the price and liquidity of below-investment-grade securities becoming depressed, and this negative perception could last for a significant period of time.

Adverse changes in economic conditions are more likely to lead to a weakened capacity of a below-investment-grade issuer to make principal payments and interest payments compared to an investment-grade issuer. The principal amount of below-investment-grade securities outstanding has proliferated in the past decade as an increasing number of issuers have used below-investment-grade securities for financing. An economic downturn may severely affect the ability of highly leveraged issuers to service their debt obligations or to repay their obligations upon maturity. In the event of an economic downturn, with decreased tax and other revenue streams of municipal issuers, or in the event interest rates rise sharply, increasing the interest cost on variable rate instruments and negatively impacting economic activity, the number of defaults by below-investment-grade municipal issuers would likely increase. Similarly, prolonged downturns in profitability in specific industries could adversely affect private activity bonds. The market values of lower-quality debt securities tend to reflect individual developments of the issuer to a greater extent than do higher-quality securities, which react primarily to fluctuations in the general level of interest rates. In addition, the Fund may incur additional expenses to the extent it is required to seek recovery upon a default in payment of principal or interest on its portfolio holdings. In certain circumstances, the Fund may be required to foreclose on an issuer's assets and take possession of its property or operations. In such circumstances, the Fund would incur additional costs in disposing of such assets and potential liabilities from operating any business acquired.

The secondary market for below-investment-grade securities may not be as liquid as the secondary market for more highly rated securities, a factor that may have an adverse effect on the Fund's ability to dispose of a particular security. There are fewer dealers in the market for below-investment-grade municipal securities than the market for investment-grade municipal securities. The prices quoted by different dealers for below-investment-grade municipal securities may vary significantly, and the spread between the bid and ask price is generally much larger for below-investment-grade municipal securities than for higher-quality instruments. Under adverse market or economic conditions, the secondary market for below-investment-grade securities could contract,

independent of any specific adverse changes in the condition of a particular issuer, and these instruments may become illiquid. As a result, the Fund could find it more difficult to sell these securities or may be able to sell the securities only at prices lower than if such securities were widely traded. Prices realized upon the sale of such lower rated or unrated securities, under these circumstances, may be less than the prices used in calculating the Fund's net asset value.

Issuers of such below-investment-grade securities are typically highly leveraged and may not have available to them more traditional methods of financing. Therefore, the risk associated with acquiring the securities of such issuers generally is greater than is the case with higher rated securities. For example, during an economic downturn or a sustained period of rising interest rates, highly leveraged issuers of below-investment-grade securities may experience financial stress. During such periods, such issuers may not have sufficient revenues to meet their interest payment obligations. The issuer's ability to service its debt obligations also may be adversely affected by specific developments, the issuer's inability to meet specific projected forecasts or the unavailability of additional financing. The risk of loss from default by the issuer is significantly greater for the holders of below-investment-grade securities because such securities are generally unsecured and are often subordinated to other creditors of the issuer. Prices and yields of below-investment-grade securities will fluctuate over time and, during periods of economic uncertainty, volatility of below-investment-grade securities may adversely affect the Fund's net asset value. In addition, investments in below-investment-grade zero coupon bonds rather than income-bearing below-investment-grade securities, may be more speculative and may be subject to greater fluctuations in value due to changes in interest rates.

The Fund may invest in distressed securities, which are securities issued by issuers that are involved in bankruptcy or insolvency proceedings or are experiencing other financial difficulties at the time of acquisition by the Fund. The issuers of such securities may be in transition, out of favor, financially leveraged or troubled, or potentially troubled, and may be or have recently been involved in major strategic actions, restructurings, bankruptcy, reorganization or liquidation. These characteristics of these issuers can cause their securities to be particularly risky, although they also may offer the potential for high returns. These issuers' securities may be considered speculative, and the ability of the issuers to pay their debts on schedule could be adversely affected by interest rate movements, changes in the general economic climate, economic factors affecting a particular industry or specific developments within the issuers. Distressed securities frequently do not produce income while they are outstanding and may require the Fund to bear certain extraordinary expenses in order to protect and recover its investment.

Investments in lower rated or unrated securities may present special tax issues for the Fund, including where the issuers of these securities default on their obligations pertaining thereto, and the federal income tax consequences to the Fund as a holder of such distressed securities may not be clear.

Municipal Securities Market Risk. Investing in the municipal securities market involves certain risks. The municipal securities market is one in which dealer firms make markets in bonds on a principal basis using their proprietary capital, and during periods of market turmoil these firms' capital may be severely constrained. As a result, under such conditions, some firms may be unwilling to commit their capital to purchase and to serve as a dealer for municipal securities. The amount of public information available about the municipal securities in the Fund's portfolio is generally less than that for corporate equities or bonds, and the Fund's investment performance may therefore be more dependent on the analytical abilities of the Investment Adviser and the Sub-Adviser than if the Fund were to invest in stocks or taxable bonds. The secondary market for municipal securities, particularly

the below-investment-grade securities in which the Fund may invest, also tends to be less well-developed or liquid than many other securities markets, which may adversely affect the Fund's ability to sell its municipal securities at attractive prices or at prices approximating those at which the Fund values them from time to time. Municipal securities may contain redemption provisions, which may allow the securities to be called or redeemed prior to their stated maturity, potentially resulting in the distribution of principal and a reduction in subsequent interest distributions.

The ability of municipal issuers to make timely payments of interest and principal may be diminished during general economic downturns and as governmental cost burdens are reallocated among federal, state and local governments. In addition, laws enacted in the future by Congress or state legislatures or by referenda could extend the time for payment of principal and/or interest, or impose other constraints on enforcement of such obligations, or on the ability of municipalities to levy taxes. Further, some state and local governments have been and in the future may be subject to direct ballot referenda that could limit their financial flexibility, or their ability to levy taxes or raise tax revenues, which may adversely affect the marketability of notes and bonds issued by those state and local governments. Issuers of municipal securities might seek protection under the bankruptcy laws. In the event of bankruptcy of such an issuer, the Fund could experience delays in collecting principal and interest and the Fund may not, in all circumstances, be able to collect all principal and interest to which it is entitled. To enforce its rights in the event of a default in the payment of interest or repayment of principal, or both, the Fund may take possession of and manage the assets securing the issuer's obligations on such securities, which may increase the Fund's operating expenses. Any income derived from the Fund's ownership or operation of such assets may not be tax-exempt and may not be of the type that would allow the Fund to continue to qualify as a regulated investment company for federal income tax purposes.

Revenue bonds issued by state or local agencies to finance the development of low-income, multi-family housing involve special risks in addition to those associated with municipal securities generally, including that the underlying properties may not generate sufficient income to pay expenses and interest costs. These bonds are generally non-recourse against the property owner, may be junior to the rights of others with an interest in the properties, may pay interest the amount of which changes based in part on the financial performance of the property, may be prepayable without penalty and may be used to finance the construction of housing developments which, until completed and rented, do not generate income to pay interest. Additionally, unusually high rates of default on the underlying mortgage loans may reduce revenues available for the payment of principal or interest on such mortgage revenue bonds.

Special Risks Related to Certain Municipal Obligations. Municipal leases and certificates of participation involve special risks not normally associated with general obligations or revenue bonds. Leases and installment purchase or conditional sale contracts (which normally provide for title to the leased asset to pass eventually to the governmental issuer) have evolved as a means for governmental issuers to acquire property and equipment without meeting the constitutional and statutory requirements for the issuance of debt. The debt issuance limitations are deemed to be inapplicable because of the inclusion in many leases or contracts of "non-appropriation" clauses that relieve the governmental issuer of any obligation to make future payments under the lease or contract unless money is appropriated for such purpose by the appropriate legislative body on a yearly or other periodic basis. In addition, such leases or contracts may be subject to the temporary abatement of payments in the event that the governmental issuer is prevented from maintaining occupancy of the leased premises or utilizing the leased equipment. Although the obligations may be secured by the

leased equipment or facilities, the disposition of the property in the event of non-appropriation or foreclosure might prove difficult, time consuming and costly, and may result in a delay in recovering or the failure to fully recover the Fund's original investment. In the event of non-appropriation, the issuer would be in default and taking ownership of the assets may be a remedy available to the Fund, although the Fund does not anticipate that such a remedy would normally be pursued. To the extent that the Fund invests in unrated municipal leases or participates in such leases, the credit quality rating and risk of cancellation of such unrated leases will be monitored on an ongoing basis. Certificates of participation, which represent interests in unmanaged pools of municipal leases or installment contracts, involve the same risks as the underlying municipal leases. In addition, the Fund may be dependent upon the municipal authority issuing the certificates of participation to exercise remedies with respect to the underlying securities. Certificates of participation also entail a risk of default or bankruptcy, both of the issuer of the municipal lease and also the municipal agency issuing the certificate of participation.

Tender Option Bond Regulatory Risk. The federal banking regulators, the SEC and the CFTC in recent years have adopted rules and regulations that have impacted or may impact TOB trusts and securities issued by such trusts, including most notably the so-called Volcker Rule, added to the Bank Holding Company Act of 1956 with the adoption of the Dodd-Frank Act. The Volcker Rule places certain restrictions on the ability of any banking entity to sponsor, acquire interests in and engage in certain activities with a TOB trust. As a result, certain activities to support the remarketing of floating rate certificates undertaken by banking entities, in their role as remarketing agents or liquidity providers to TOB trusts, before the compliance date for the Volcker Rule, are no longer permitted under the standard TOB trust structure. To be compliant with the Volcker Rule, the standard TOB trust structure has been modified since the Rule's adoption (i) to shift certain rights and responsibilities from the remarketing agent and liquidity provider to the owners of the inverse floating rate securities such as the Fund itself, and (ii) to change the way in which liquidity is provided to support remarketing of the floating rate securities. Holders of inverse floating rate securities, including the Fund, may delegate many of these responsibilities to a third party administrator, which would generate additional costs relative to the standard TOB trust structure. The total impact of these modifications remains to be fully seen, but the operational and structural changes associated with these modifications may make early unwinds of TOB trusts in adverse market scenarios more likely, may make the use of TOB trusts more expensive and, overall, may make it more difficult to use TOB trusts to effectively leverage municipal investments to the extent that the Fund may desire. In addition, these modifications have raised or may raise other regulatory issues that may require further refinement to the structure, may impede the future use of TOB trusts as a means of financing leverage, or may increase future costs of TOB-based leverage.

Interest Rate Risk. Generally, when market interest rates rise, bond prices fall, and vice versa. Interest rate risk is the risk that the municipal securities in the Fund's portfolio will decline in value because of increases in market interest rates. As interest rates decline, issuers of municipal securities may prepay principal earlier than scheduled, forcing the Fund to reinvest in lower-yielding securities and potentially reducing the Fund's income. As interest rates increase, slower-than-expected principal payments may extend the average life of securities, potentially locking-in a below-market interest rate and reducing the Fund's value. In typical market interest rate environments, the prices of longer-term municipal securities generally fluctuate more than prices of shorter-term municipal securities as interest rates change. Because the values of lower-rated and comparable unrated debt securities are affected both by credit risk and interest rate risk, the price movements of such lower grade securities typically have not been highly correlated to the fluctuations of the prices of investment-grade-quality securities in response to changes in market interest rates.

Market Conditions. The 2007-2009 financial crisis in the United States and global economies and the ongoing European sovereign debt crisis resulted in an unusually high degree of volatility in the financial markets, both domestic and foreign, and in the net asset values of many investment companies, including to some extent the Fund. A financial crisis of a similar nature in the future may result in fixed-income instruments again experiencing unusual liquidity issues, increased price volatility and, in some cases, credit downgrades and increased likelihood of default. The financial condition of federal, state and local governments may be sensitive to market events, which may, in turn, adversely affect the marketability of notes and bonds they issue. In the event of a general economic downturn, declines in real estate prices and general business activity may reduce tax revenues of many state and local governments and could affect the economic viability of projects that are the sole source of revenue to support various municipal securities. In addition, global economies and financial markets are becoming increasingly interconnected, which increases the possibilities that conditions in one country or region might adversely impact issuers in a different country or region. As a result, it may be unusually difficult to identify both risks and opportunities using past models of the interplay of market forces, or to predict the duration of unfavorable market conditions.

In response to the 2007-2009 financial crisis and its aftermath and the ongoing European sovereign debt crisis, the U.S. and other governments and the Federal Reserve and certain foreign central banks have taken steps to support the financial markets. Where economic conditions in the United States and elsewhere have been recovering for several years, they are nevertheless perceived in many regards as still fragile. Withdrawal of government support, failure of efforts in response to a future crisis, or investor perception that such efforts are not succeeding could adversely affect the value and liquidity of certain securities. The severity or duration of unfavorable economic conditions may also be affected by policy changes made by governments or quasi-governmental organizations. See [Municipal Securities Market Risk](#).

Concentration Risk. The Fund's policy of investing in municipal securities of issuers located in California makes each Fund more susceptible to the adverse economic, political or regulatory occurrences affecting such issuers. The information set forth below and the related information in [Appendix D](#) is derived from sources that are generally available to investors. The information is intended to give a recent historical description and is not intended to indicate future or continuing trends in the financial or other positions of California. It should be noted that the creditworthiness of obligations issued by local California issuers may be unrelated to the creditworthiness of obligations issued by the State of California, and that there is no obligation on the part of the State to make payment on such local obligations in the event of default.

The two most recent California State budgets have resulted in modest surpluses. California has nonetheless experienced budget problems in prior years, which problems were driven in part by large fluctuations in its tax revenue and fixed spending obligations. Such fluctuations may occur again in future years and State fiscal leaders may again be challenged to address any resulting budget gaps. Other continued risks to the State's long-term stability include pension liabilities, debt and increasing annual obligations, potential cost increases associated with the federal deficit, uncertainty regarding the cost of providing health care under the recent federal health care legislation and expenditure mandates.

California's fiscal situation affects the risk of investing in bonds issued by the State and its political subdivisions, agencies, instrumentalities and authorities, including the risk of default, and also affects the risk that the prices of California municipal securities, and each Fund's net asset value, will experience greater volatility. As of January 2014, California general obligation bonds were rated [A1](#)

by Moody's, and A- by S&P and A- by Fitch. These ratings are among the lowest of any of the 50 states. There can be no assurance that such ratings will be maintained in the future. The State's credit rating, and any future revisions or withdrawal of a credit rating, could have a negative effect on the market price of the State's general obligation bonds, as well as notes and bonds issued by California's public authorities and local governments. Lower credit ratings make it more expensive for the State to raise revenue, and in some cases, could prevent the State from issuing general obligation bonds in the quantity otherwise desired. Further, downgrades can negatively impact the marketability and price of securities in the Fund's portfolio.

The foregoing information constitutes only a brief summary of some of the general factors that may impact certain issuers of municipal bonds and does not purport to be a complete or exhaustive description of all adverse conditions to which the issuers of municipal bonds held by the Funds are subject. Additionally, many factors, including national economic, social and environmental policies and conditions, which are not within the control of the issuers of the municipal bonds, could affect or could have an adverse impact on the financial condition of the issuers. The Funds are unable to predict whether or to what extent such factors or other factors may affect the issuers of the municipal securities, the market value or marketability of the municipal securities or the ability of the respective issuers of the municipal bonds acquired by the Funds to pay interest on or principal of the municipal securities. This information has not been independently verified.

See [Appendix D](#) to this Memorandum for a further discussion of factors affecting municipal securities in California.

Inverse Floating Rate Securities Risk. Typically, inverse floating rate securities represent beneficial interests in TOB trusts that hold municipal bonds. In general, income on inverse floating rate securities will decrease when interest rates increase and increase when interest rates decrease. Investments in inverse floating rate securities may subject the Fund to the risks of reduced or eliminated interest payments and losses of principal in respect of the underlying municipal bonds.

In the case of certain TOB trusts, neither the holders of the associated floating rate securities nor the TOB trust itself have recourse to the holder of the inverse floating rate securities for losses on the underlying municipal bonds. In that case, the risk of loss to the Fund generally is limited to its investment in such securities. However, in certain circumstances and in the Sub-Adviser's discretion, the Fund may enter into a recourse arrangement with the liquidity provider to a TOB trust in the form of a separate shortfall and forbearance agreement by which the Fund will agree to reimburse the liquidity provider for any amounts paid by it under the liquidity facility. The Fund may enter into such recourse agreements: (1) when the liquidity provider to the TOB trust requires such an agreement because the level of leverage in the trust exceeds the level that the liquidity provider is willing to support absent such an agreement; and/or (2) to seek to prevent the liquidity provider from collapsing the trust in the event that the underlying municipal bond held in the trust has declined in value to the point where it may cease to exceed the face amount of outstanding short-term floaters. Such an agreement would require the Fund to reimburse the liquidity provider, among other amounts, upon termination of the TOB trust for the shortfall of the liquidation value of the bonds held in the trust relative to the amount of principal and unpaid interest due to the holders of floating rate securities. In such instances, the Fund may be at risk of loss that exceeds its investment in the inverse floating rate securities.

Inverse floating rate securities may increase or decrease in value at a greater rate than the underlying municipal bonds, which effectively leverages the Fund's investment. As a result, the market value of such securities generally will be more volatile than that of otherwise comparable municipal bonds held on an unleveraged basis outside a TOB trust.

The Fund may invest in inverse floating rate securities issued by TOB trusts in which the liquidity provider has recourse to the Fund (a recourse TOB trust) to the extent that the value of the bonds deposited in the TOB trust may fall in value below the principal amount of the short-term floating rate securities issued by that trust. The inverse floating rate securities issued by such recourse TOB trusts may be highly leveraged. The structure and degree to which the Fund's inverse floating rate securities are highly leveraged will vary based upon a number of factors, including the size of the trust itself and the terms of the underlying municipal bonds. An inverse floating rate security generally is considered highly leveraged if the ratio of (i) the principal amount of the short-term floating rate securities issued by the TOB trust to (ii) the principal amount of that TOB trust's inverse floating rate securities equals or exceeds 3:1. In the event of a significant decline in the value of an underlying municipal bond held in a recourse TOB trust, the Fund may suffer losses in excess of the amount of its investment in the inverse floating securities (typically up to an amount equal to the outstanding face amount of such municipal bonds) as a result of liquidating the trust.

The amount of fees paid to the Investment Adviser (which in turn pays a portion of its fees to the Sub-Adviser) for investment advisory services will be higher when the Fund uses leverage because the advisory fees are calculated based on the Fund's managed assets. This may create an incentive for the Investment Adviser and/or the Sub-Adviser to leverage the Fund.

Inverse floating rate securities have varying degrees of liquidity based, among other things, upon the liquidity of the underlying municipal bonds deposited in the TOB trust.

The leverage attributable to inverse floating rate securities may be called away on relatively short notice and therefore may be less permanent than more traditional forms of leverage. In certain circumstances, the likelihood of an increase in the volatility of net asset value may be greater for a fund (like the Fund) that relies primarily on inverse floating rate securities to achieve a desired effective leverage ratio. The Fund may be required to sell its inverse floating rate securities at less than favorable prices, or liquidate other Fund portfolio holdings in certain circumstances, including, but not limited to, the following:

if the Fund has a need to reduce leverage by reducing or eliminating the amount of short-term floating rate securities issued by a TOB trust, and the municipal bonds in the TOB trust are not actively trading due to adverse market conditions; or

if the value of an underlying municipal bond declines significantly (to a level below the notional value of the floating rate securities issued by the TOB trust) and if additional collateral has not been posted by the Fund.

There is no assurance that the Fund's strategy of investing in inverse floating rate securities will be successful.

Insurance Risk. The Fund may purchase municipal securities that are secured by insurance, bank credit agreements or escrow accounts. The credit quality of the companies that provide such

credit enhancements will affect the value of those securities. During and following the 2007-2009 financial crisis, certain significant providers of insurance for municipal securities incurred significant losses as a result of exposure to sub-prime mortgages and other lower credit quality investments that experienced defaults or otherwise suffered extreme credit deterioration. Such losses reduced the insurers' capital and called into question their continued ability to perform their obligations under such insurance should they be called upon to do so. While an insured municipal security will typically be deemed to have the rating of its insurer, if the insurer of a municipal security suffers a downgrade in its credit rating or the market discounts the value of the insurance provided by the insurer, the rating of the underlying municipal security will be more relevant and the value of the municipal security would more closely, if not entirely, reflect such rating. In such a case, the value of insurance associated with a municipal security would decline and may not add any value. The insurance feature of a municipal security does not guarantee the full payment of principal and interest through the life of an insured obligation, the market value of the insured obligation.

Tax Risk. To qualify for the favorable U.S. federal income tax treatment generally accorded to regulated investment companies, among other things, the Fund must derive in each taxable year at least 90% of its gross income from certain prescribed sources and satisfy a diversification test on a quarterly basis. If the Fund fails to satisfy the qualifying income or diversification requirements in any taxable year, the Fund may be eligible for relief provisions if the failures are due to reasonable cause and not willful neglect and if a penalty tax is paid with respect to each failure to satisfy the applicable requirements. Additionally, relief is provided for certain *de minimis* failures of the diversification requirements where the Fund corrects the failure within a specified period. In order to be eligible for the relief provisions with respect to a failure to meet the diversification requirements, the Fund may be required to dispose of certain assets. If these relief provisions are not available to the Fund and it fails to qualify for treatment as a regulated investment company, all of its taxable income (including its net capital gains) would be subject to federal income tax at regular corporate rates without any deduction for distributions to shareholders, and all distributions from the Fund (including underlying distributions attributable to tax exempt interest income) would be taxable to shareholders as ordinary dividends to the extent of the Fund's current and accumulated earnings and profits.

To qualify to pay exempt-interest dividends, which are treated as items of interest excludable from gross income for federal income tax purposes, at least 50% of the value of the total assets of the Fund must consist of obligations exempt from regular income tax as of the close of each quarter of the Fund's taxable year. If the proportion of taxable investments held by the Fund exceeded 50% of the Fund's total assets as of the close of any quarter of the Fund's taxable year, the Fund would not satisfy the general eligibility test that would permit it to pay exempt-interest dividends for that taxable year.

The value of the Fund's investments and its net asset value may be adversely affected by changes in tax rates and policies. Because interest income from municipal securities held by the Fund is normally not subject to regular federal income tax, the attractiveness of municipal securities in relation to other investment alternatives is affected by changes in federal income tax rates or changes in the tax-exempt status of interest income from municipal securities. Any proposed or actual changes in such rates or exempt status, therefore, can significantly affect the demand for and supply, liquidity and marketability of municipal securities. This could in turn affect the Fund's net asset value and ability to acquire and dispose of municipal securities at desirable yield and price levels. Additionally, the Fund is not a suitable investment for individual retirement accounts, for other tax-exempt or tax-advantaged accounts or for investors who are not sensitive to the federal income tax consequences of their investments.

Taxability Risk. The Fund will invest in municipal securities in reliance at the time of purchase on an opinion of bond counsel to the issuer (or on the basis of other authority believed by the Investment Adviser and/or the Sub-Adviser to be reliable) that the interest paid on those securities will be excludable from gross income for regular federal income tax purposes, and neither the Investment Adviser nor the Sub-Adviser will independently verify that opinion. Subsequent to the Fund's acquisition of such a municipal security, however, the security may be determined to pay, or to have paid, taxable income. As a result, the treatment of dividends previously paid or to be paid by the Fund as exempt-interest dividends could be adversely affected, subjecting the Fund's shareholders to increased federal income tax liabilities. In certain circumstances, the Fund will make payments to holders of preferred shares to offset the tax effects of a taxable distribution.

Under highly unusual circumstances, the IRS may determine that a municipal bond issued as tax-exempt should in fact be taxable. If the Fund held such a bond, it might have to distribute taxable ordinary income dividends or to reclassify as taxable amounts previously distributed as exempt-interest dividends. In addition, future legislation may change the tax treatment of municipal bond interest.

For federal income tax purposes, distributions of ordinary taxable income (including any net short-term capital gain) will be taxable to shareholders as ordinary income (and will not be eligible for favorable taxation as qualified dividend income), and capital gain dividends will be taxed at long-term capital gain rates.

Borrowing Risk. Borrowing may exaggerate changes in the Fund's net asset value and may affect the Fund's net income. When the Fund borrows money, it must pay interest and other fees, which will reduce the Fund's returns if such costs exceed the returns on the portfolio securities purchased or retained with such borrowings. Any such borrowings are intended to be temporary. However, under certain market conditions, including periods of low demand or decreased liquidity in the municipal bond market, such borrowings might be outstanding for longer periods of time.

Inflation Risk. Inflation is the reduction in the purchasing power of money resulting from the increase in the price of goods and services. Inflation risk is the risk that the inflation-adjusted (or real) value of assets or income from investment will be worth less in the future. As inflation increases, dividends paid to preferred shareholders can decline. In addition, during any period of rising inflation, interest rates on borrowings would likely increase.

Deflation Risk. Deflation risk is the risk that prices throughout the economy decline over time—the opposite of inflation risk. Deflation may have an adverse effect on the creditworthiness of issuers and may make issuer default more likely, which may result in a decline in the value of the Fund's portfolio.

Derivatives Risk, Including the Risk of Swaps. The Fund's use of derivatives involves risks different from, and possibly greater than, the risks associated with investing directly in the investments underlying the derivatives, including: the imperfect correlation between the value of such instruments and the underlying assets of the Fund, which creates the possibility that the loss on such instruments may be greater than the gain in the value of the underlying assets in the Fund's portfolio; the loss of principal; the possible default of the other party to the transaction; and illiquidity of the derivative investments. If the Fund enters into a certain derivatives transactions, it could lose more than the principal amount invested. Whether the Fund's use of derivatives is successful will depend on, among other things, if the Investment Adviser and/or the Sub-Adviser correctly forecast market values,

interest rates and other applicable factors. If the Investment Adviser and/or the Sub-Adviser incorrectly forecast these and other factors, the investment performance of the Fund will be unfavorably affected.

The Fund may enter into debt-related derivative instruments including credit default swap contracts and interest rate swaps. Like most derivative instruments, the use of swaps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio securities transactions. In addition, the use of swaps requires an understanding by the Investment Adviser and/or Sub-Adviser of not only the referenced asset, rate or index, but also of the swap itself. The derivatives market is subject to a changing regulatory environment. It is possible that regulatory or other developments in the derivatives market could adversely affect the Fund's ability to successfully use derivative instruments.

Furthermore, derivative investments may be illiquid. Although both OTC and exchange-traded derivatives markets may experience a lack of liquidity, OTC non-standardized derivatives transactions are generally less liquid than exchange-traded instruments. The illiquidity of the derivatives markets may be due to various factors, including congestion, disorderly markets, limitations on deliverable supplies, the participation of speculators, government regulation and intervention, and technical and operational or system failures. In addition, the liquidity of a secondary market in an exchange-traded derivative contract may be adversely affected by daily price fluctuation limits established by the exchanges which limit the amount of fluctuation in an exchange-traded contract price during a single trading day. Once the daily limit has been reached in the contract, no trades may be entered into at a price beyond the limit, thus preventing the liquidation of open positions. Prices have in the past moved beyond the daily limit on a number of consecutive trading days. If it is not possible to close an open derivative position entered into by the Fund, the Fund would continue to be required to make cash payments of variation (or mark-to-market) margin in the event of adverse price movements. In such a situation, if the Fund has insufficient cash, it may have to sell portfolio securities to meet variation margin requirements at a time when it may be disadvantageous to do so. The absence of liquidity may also make it more difficult for the Fund to ascertain a market value for such instruments. The inability to close futures or derivatives positions also could have an adverse impact on the Fund's ability to effectively hedge its portfolio.

Derivatives Regulatory Risk. Future regulatory developments could impact the Fund's ability to invest in certain derivatives. It is possible that government regulation of various types of derivative instruments, including futures, options and swap agreements, may limit or prevent the Fund from using such instruments as a part of its investment strategies, and could ultimately prevent the Fund from being able to achieve its investment objectives. It is impossible to fully predict the effects of past, present or future legislation and regulation in this area, but the effects could be substantial and adverse. There is a likelihood of future regulatory developments altering, perhaps to a material extent, the nature of an investment in the Fund or the ability of the Fund to continue to implement its investment strategies. It is possible that legislative and regulatory activity could limit or restrict the ability of the Fund to use certain instruments as a part of its investment strategies. Limits or restrictions applicable to the counterparties with which the Fund engages in derivatives transactions (for example, the Volcker Rule) could also prevent the Fund from using certain instruments.

The Dodd-Frank Act sets forth a regulatory framework for OTC derivatives, including financial instruments, such as swaps, in which the Fund may invest. The Dodd-Frank Act grants significant authority to the SEC and the CFTC to regulate OTC derivatives and market participants, and requires clearing and exchange trading of many current OTC derivatives transactions. The implementation of

the provisions of the Dodd-Frank Act by the SEC and the CFTC could adversely affect the Fund's ability to pursue its investment strategies. The Dodd-Frank Act and the rules promulgated thereunder could, among other things, adversely affect the value of the investments held by the Fund, restrict the Fund's ability to engage in derivatives transactions and/or increase the costs of such derivatives transactions.

Further, in February 2012, the CFTC issued a final rule rescinding and amending certain exemptions from registration requirements under the CEA previously available to investment advisers registered with the SEC under the 1940 Act, including the exemption available under CFTC Rule 4.5. In the event that the Fund's investments in derivative instruments regulated under the CEA, including futures, swaps and options, exceed a certain threshold, the Investment Adviser and/or the Sub-Adviser may be required to register as a commodity pool operator and/or a commodity trading advisor with the CFTC. In the event the Investment Adviser and/or the Sub-Adviser is required to register with the CFTC, it will become subject to additional recordkeeping and reporting requirements with respect to the Fund, which may increase the Fund's expenses.

Clearing Broker and Central Clearing Counterparty Risk. The CEA requires swaps and futures clearing brokers registered as futures commission merchants to segregate all funds received from customers with respect to any orders for the purchase or sale of U.S. domestic futures contracts and cleared swaps from the brokers' proprietary assets. Similarly, the CEA requires each futures commission merchant to hold in a separate secure account all funds received from customers with respect to any orders for the purchase or sale of foreign futures contracts and segregate any such funds from the funds received with respect to domestic futures contracts. However, all funds and other property received by a clearing broker from its customers are held by the clearing broker on a commingled basis in an omnibus account and may be freely accessed by the clearing broker, which may also invest any such funds in certain instruments permitted under the applicable regulation. There is a risk that assets deposited by the Fund with any swaps or futures clearing broker as margin for futures contracts or cleared swaps may, in certain circumstances, be used to satisfy losses of other clients of the Fund's clearing broker. In addition, the assets of the Fund might not be fully protected in the event of the bankruptcy of the Fund's clearing broker, as the Fund would be limited to recovering only a pro rata share of all available funds segregated on behalf of the clearing broker's combined domestic customer accounts.

Similarly, the CEA requires a clearing organization approved by the CFTC as a derivatives clearing organization to segregate all funds and other property received from a clearing member's clients in connection with domestic cleared futures and derivative contracts from any funds held at the clearing organization to support the clearing member's proprietary trading. Nevertheless, all customer funds held at a clearing organization in connection with any futures and derivative contracts are held in a commingled omnibus account and are not identified to the name of the clearing member's individual customers. With respect to futures and options contracts, a clearing organization may use assets of a non-defaulting customer held in an omnibus account at the clearing organization to satisfy payment obligations of a defaulting customer of the clearing member to the clearing organization. As a result, in the event of a default of the clearing broker's other clients or the clearing broker's failure to extend its own funds in connection with any such default, the Fund would not be able to recover the full amount of assets deposited by the clearing broker on behalf of the Fund with the clearing organization.

Hedging Risk. The Fund's use of derivatives or other transactions to reduce risk involves costs and will be subject to the Investment Adviser's and/or the Sub-Adviser's ability to predict

correctly changes in the relationships of such hedge instruments to the Fund's portfolio holdings or other factors. No assurance can be given that the Investment Adviser's and/or the Sub-Adviser's judgment in this respect will be correct and no assurance can be given that the Fund will enter into hedging or other transactions at times or under circumstances in which it may be advisable to do so. Hedging activities may reduce the Fund's opportunities for gain by offsetting the positive effects of favorable price movements and may result in net losses.

Other Investment Companies Risk. An investment in the securities of another investment company will expose the Fund to the risks of investing in the securities held in such other investment company's portfolio. The securities of other investment companies may also be leveraged. As a result, the Fund may be indirectly exposed to leverage through an investment in such securities. Utilization of leverage is a speculative investment technique and involves certain risks. An investment in securities of other investment companies that are leveraged may expose the Fund to higher volatility in the market value of such securities and the possibility that the Fund's long-term returns on such securities will be diminished.

Counterparty Risk. Changes in the credit quality of the companies that serve as the Fund's counterparties with respect to derivatives, insured municipal securities or other transactions supported by another party's credit will affect the value of those instruments. Certain entities that have served as counterparties in the markets for these transactions have incurred or may incur in the future significant financial hardships including bankruptcy and losses as a result of exposure to sub-prime mortgages and other lower-quality credit investments that have experienced recent defaults or otherwise suffered extreme credit deterioration. As a result, such hardships have reduced these entities' capital and called into question their continued ability to perform their obligations under such transactions. By using such derivatives or other transactions, the Fund assumes the risk that its counterparties could experience similar financial hardships. In the event of insolvency of a counterparty, the Fund may sustain losses or be unable to liquidate a derivatives position.

Illiquid Securities Risk. Illiquid securities are securities that are not readily marketable and may include restricted securities, which are securities that may not be resold unless they have been registered under the Securities Act or that can be sold in a private transaction pursuant to an exemption from registration. Illiquid securities involve the risk that the securities will not be able to be sold at the time desired by the Fund or at prices approximating the value at which the Fund is carrying the securities on its books from time to time.

Market Disruption Risk. Certain events have a disruptive effect on the securities markets, such as terrorist attacks, war and other geopolitical events. The Fund cannot predict the effects of similar events in the future on the U.S. economy. Below-investment-grade securities tend to be more volatile than higher rated securities, meaning that these events and any actions resulting from them may have a greater impact on the prices and volatility of below-investment-grade securities than on higher rated securities.

Municipal Bond Market Liquidity Risk. Inventories of municipal bonds held by brokers and dealers have decreased in recent years, lessening their ability to make a market in these securities. This reduction in market making capacity has the potential to decrease the Fund's ability to buy or sell bonds, and increase bond price volatility and trading costs, particularly during periods of economic or market stress. In addition, recent changes to federal banking regulations may cause certain dealers to reduce their inventories of municipal bonds, which may further decrease the Fund's ability to buy or

sell bonds. As a result, the Fund may be forced to accept a lower price to sell a security, to sell other securities to raise cash, or to give up an investment opportunity, any of which could have a negative effect on performance. If the Fund needed to sell large blocks of bonds, those sales could further reduce the bonds' prices and hurt performance.

Income Risk. The Fund's income is based primarily on the interest it earns from its investments, which can vary widely over the short-term and long-term. If interest rates drop, the Fund's income available over time to make dividend payments could drop as well if the Fund purchases securities with lower interest coupons.

Call Risk or Prepayment Risk. During periods of declining interest rates or for other purposes, issuers of callable bonds with higher interest coupons may exercise their option to call (or prepay) bonds before their maturity date, forcing the Fund to reinvest in lower-yielding securities.

Reinvestment Risk. Reinvestment risk is the risk that income from the Fund's portfolio will decline if and when the Fund invests the proceeds from matured, traded or called bonds at market interest rates that are below the Fund's portfolio's current earnings rate.

Economic Sector Risk. The Fund may invest 25% or more of its total assets in municipal securities in the same economic sector. This may make the Fund more susceptible to adverse economic, political or regulatory occurrences affecting an economic sector. As concentration increases, so does the potential for fluctuation in the value of the Fund's assets. In addition, the Fund may invest a significant portion of its net assets in certain sectors of the municipal securities market, such as hospitals and other health care facilities, charter schools and other private educational facilities, special taxing districts and start-up utility districts, as well as private activity bonds, including industrial development bonds on behalf of transportation companies such as airline companies, whose credit quality and performance may be more susceptible to economic, business, political, regulatory and other developments than other sectors of municipal issuers. If the Fund invests a significant portion of its net assets in the sectors noted above, the Fund's performance may be subject to additional risk and variability. To the extent that the Fund focuses its net assets in the hospital and healthcare facilities sector, for example, the Fund will be subject to risks associated with such sector, including adverse government regulation and reduction in reimbursement rates, as well as government approval of products and services and intense competition. Securities issued with respect to special taxing districts will be subject to various risks, including real-estate development related risks and taxpayer concentration risk. Further, the fees, special taxes or tax allocations and other revenues established to secure the obligations of securities issued with respect to special taxing districts are generally limited as to the rate or amount that may be levied or assessed and are not subject to increase pursuant to rate covenants or municipal or corporate guarantees. Charter schools and other private educational facilities are subject to various risks, including the reversal of legislation authorizing or funding charter schools, the failure to renew or secure a charter, the failure of a funding entity to appropriate necessary funds and competition from alternatives such as voucher programs. Issuers of municipal utility securities can be significantly affected by government regulation, financing difficulties, supply and demand of services or fuel and natural resource conservation. The transportation sector, including airports, airlines, ports and other transportation facilities, can be significantly affected by changes in the economy, fuel prices, labor relations, insurance costs and government regulation.

Cybersecurity Risk. Technology, such as the Internet, has become more prevalent in the course of business, and as such, the Fund and its service providers are susceptible to operational and

information security risk resulting from cyber incidents. Cyber incidents refer to both intentional attacks and unintentional events including: processing errors, human errors, technical errors including computer glitches and system malfunctions, inadequate or failed internal or external processes, market-wide technical-related disruptions, unauthorized access to digital systems (through hacking or malicious software coding), computer viruses, and cyber-attacks which shut down, disable, slow or otherwise disrupt operations, business processes or website access or functionality (including denial of service attacks). Cyber incidents could adversely impact the Fund and cause the Fund to incur financial loss and expense, as well as face exposure to regulatory penalties, reputational damage, and additional compliance costs associated with corrective measures. Cyber incidents may cause a Fund or its service providers to lose proprietary information, suffer data corruption, lose operational capacity or fail to comply with applicable privacy and other laws. Among other potentially harmful effects, cyber incidents also may result in theft, unauthorized monitoring and failures in the physical infrastructure or operating systems that support the Fund and its service providers. In addition, substantial costs may be incurred in order to prevent any cyber incidents in the future. While the Fund's service providers have established business continuity plans in the event of, and risk management systems to prevent, such cyber incidents, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cybersecurity plans and systems put in place by its service providers or any other third parties whose operations may affect the Fund.

Certain Affiliations. Certain broker-dealers may be considered to be affiliated persons of the Fund, the Investment Adviser, the Sub-Adviser, Nuveen Investments and/or TIAA. Absent an exemption from the SEC or other regulatory relief, the Fund generally is precluded from effecting certain principal transactions with affiliated brokers, and its ability to purchase securities being underwritten by an affiliated broker or a syndicate including an affiliated broker, or to utilize affiliated brokers for agency transactions, is subject to restrictions. This could limit the Fund's ability to engage in securities transactions and take advantage of market opportunities.

Anti-Takeover Provisions. The Fund's organizational documents include provisions that could limit the ability of other entities or persons to acquire control of the Fund or convert the Fund to open-end status.

MATERIAL INCOME TAX MATTERS

Any discussion of U.S. federal and state income tax considerations in this Information Memorandum was written in connection with the issuance by the Fund of the New VRDP Shares as part of the Reorganizations. Such discussion was not intended or written to be legal or tax advice to any person and was not intended or written to be used, and cannot be used, by any person for the purpose of avoiding any U.S. federal or state tax penalties. Each investor should seek advice based on its particular circumstances from an independent tax advisor.

The discussion below is the opinion of Sidley Austin LLP (Special Tax Counsel) on the anticipated U.S. federal and California income tax consequences to United States persons (as defined by Section 7701(a)(30) of the Code) of acquiring, holding and disposing of the New VRDP Shares. Vedder Price P.C. will provide an opinion on the anticipated U.S. federal income tax consequences of certain aspects of the Reorganizations, including an opinion substantially to the effect that the Fund will not recognize gain or loss upon the receipt of substantially all the assets of each

Target Fund in exchange for shares of the Fund (including New VRDP Shares) and the assumption of substantially all the liabilities of each Target Fund and a holder of the Target Fund VRDP Shares will not recognize gain or loss upon the exchange of such shares solely for New VRDP Shares. Such opinion will be based, in part, on Special Tax Counsel's opinion that the New VRDP Shares will constitute equity of the Fund for federal income tax purposes.

Because the discussion below is general in nature and does not address all of the tax consequences related to the New VRDP Shares and because the tax laws governing the New VRDP Shares and their acquisition are complex, you should consult your tax adviser about the federal, and any state, local and foreign tax consequences to you of acquiring and holding the New VRDP Shares under your particular circumstances.

Federal Income Tax Matters

This discussion is based on the current provisions and interpretations of the Code and the accompanying Treasury regulations and on current judicial and administrative rulings. All of these authorities are subject to change and any change can apply retroactively.

Subject to certain assumptions and conditions, and based upon certain representations made by the Fund, including representations regarding the terms of the exchange, the nature of the Fund's assets and the conduct of the Fund's business, Special Tax Counsel is of the opinion that for federal income tax purposes, upon issuance of the New VRDP Shares (1) the Fund will qualify as a regulated investment company under the Code, (2) the New VRDP Shares will qualify as equity in the Fund, and (3) distributions made with respect to the New VRDP Shares will qualify as exempt-interest dividends to the extent reported by the Fund and not otherwise limited under Section 852(b)(5)(A) of the Code (under which the total amount of dividends that may be reported as exempt-interest dividends is limited, based on the total amount of exempt interest generated by the Fund).

Investors should be aware that Special Tax Counsel's opinions are not binding on the Internal Revenue Service (previously defined as the IRS) or any court. See the discussions below under the captions Treatment of New VRDP Shares as Equity and Demand Feature as Part of Stock. In addition, the Fund's qualification and taxation as a regulated investment company depends upon the Fund's ability to meet on a continuing basis, through actual annual operating results, certain requirements in the federal tax laws. Special Tax Counsel will not review the Fund's compliance with those requirements. Accordingly, no assurance can be given that the actual results of the Fund's operations for any particular taxable year will satisfy such requirements.

Qualification and Taxation of the Fund. The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Code, and intends to distribute substantially all of its net income and gains to its shareholders. Therefore, it is not expected that the Fund will be subject to any federal income tax to the extent its earnings are so distributed. To qualify under Subchapter M of the Code for tax treatment as a regulated investment company, the Fund must, among other requirements: (a) distribute to its shareholders at least 90% of the sum of (i) its investment company taxable income (as that term is defined in the Code) determined without regard to the deduction for dividends paid and (ii) its net tax-exempt income (the excess of its gross tax-exempt interest income over certain disallowed deductions) and (b) diversify its holdings so that, at the end of each fiscal quarter of the Fund (i) at least 50% of the value of the Fund's total assets is represented by cash, cash items, U.S. government securities, securities of other regulated investment companies, and

other securities, with these other securities limited, with respect to any one issuer, to an amount not greater in value than 5% of the Fund's total assets, and to not more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund's total assets is invested in the securities of any one issuer (other than U.S. government securities or securities of other regulated investment companies), two or more issuers (other than securities of other regulated investment companies) controlled by the Fund and engaged in the same, similar or related trades or businesses, or one or more qualified publicly traded partnerships. In meeting these requirements of Subchapter M of the Code, the Fund may be restricted in the utilization of certain of the investment techniques described under The Fund's Investments. If in any year the Fund should fail to qualify under Subchapter M of the Code for tax treatment as a regulated investment company and not cure such failure, the Fund would incur a regular federal corporate income tax on its taxable income for that year, and distributions to its shareholders, including distributions derived from tax-exempt interest income, would be taxable to such holders as ordinary income to the extent of the earnings and profits of the Fund.

A regulated investment company that fails to distribute, by the close of each calendar year, an amount equal to the sum of 98% of its ordinary taxable income for such year and 98.2% of its capital gain net income for the one year period ending October 31 in such year, plus any shortfalls from the prior year's required distribution, is liable for a 4% excise tax on the excess of the required distribution for such calendar year over the distributed amount for such calendar year. To avoid the imposition of this excise tax, the Fund generally intends to make the required distributions of its ordinary taxable income, if any, and its capital gain net income, to the extent possible, by the close of each calendar year.

Treatment of New VRDP Shares as Equity. In order for any distributions to owners of the Fund's New VRDP Shares to be eligible to be treated as exempt-interest dividends, the New VRDP Shares must be classified as equity for federal income tax purposes. The Investment Adviser believes and, as discussed above, Special Tax Counsel will deliver its opinion concluding that, the New VRDP Shares will qualify as equity in the Fund for federal income tax purposes. By acquiring New VRDP Shares, an investor agrees to treat the New VRDP Shares as equity for federal income tax purposes.

Distributions on New VRDP Shares. A holder of New VRDP Shares will be required to report the dividends declared by the Fund for each day on which such holder of New VRDP Shares is the shareholder of record. In connection with any transfer of New VRDP Shares, the transferor as beneficial owner of the New VRDP Shares will be deemed to have agreed pursuant to the terms of the New VRDP Shares to transfer to the transferee the right to receive from the Fund any dividends declared and unpaid for each day prior to the transferee becoming the beneficial owner of the New VRDP Shares in exchange for payment of the purchase price for such New VRDP Shares by the transferee. Distributions, if any, in excess of the Fund's earnings and profits will first reduce the adjusted tax basis of a shareholder's shares and, after that basis has been reduced to zero, will constitute capital gain to the shareholder (assuming the shares are held as a capital asset). As long as the Fund qualifies as a regulated investment company under the Code, no part of its distributions to shareholders are expected to qualify for the dividends received deduction available to corporate shareholders or qualified dividend income treatment for non-corporate shareholders.

Tax Character of Distributions

In General. The tax character of the Fund's distributions in the hands of the Fund's shareholders will be primarily determined by the tax character of the Fund's underlying income. Although the Fund expects that most of its income will be tax-exempt, some of the Fund's income may be taxable as capital gains or ordinary income. In addition, the Fund's tax-exempt income may be subject to the federal alternative minimum tax. The IRS requires a regulated investment company that has two or more classes of shares outstanding to report to each such class proportionate amounts of each type of its income for each tax year based upon the percentage of total dividends distributed to each class for such year. The Fund intends each year to allocate, to the fullest extent practicable, net tax-exempt interest, net capital gain and ordinary income, if any, between its common shares and preferred shares in proportion to the total dividends paid to each class with respect to such year. To the extent permitted under applicable law, the Fund reserves the right to make special allocations of income within a class, consistent with the objectives of the Fund.

Exempt-Interest Dividends. The Fund intends to qualify to pay exempt-interest dividends, as defined in the Code, on its preferred shares by satisfying the requirement that at the close of each quarter of its taxable year, at least 50% of the value of its total assets consists of tax-exempt municipal bonds. Exempt-interest dividends are dividends paid by the Fund that are attributable to interest on municipal bonds and are so reported by the Fund in written statements to its shareholders. The Fund intends to invest primarily in municipal bonds the income of which is exempt from regular federal income taxes. Thus, substantially all of the Fund's dividends to the preferred shareholders is expected to qualify as exempt-interest dividends. Exempt-interest dividends will be exempt from federal income tax, subject to the possible application of the federal alternative minimum tax.

Dividends Attributable to Ordinary Income and Capital Gains. Distributions to shareholders by the Fund of net income received, if any, from taxable temporary investments and net short-term capital gains, if any, realized by the Fund will be taxable to its shareholders as ordinary income. In addition, gains of the Fund that are attributable to market discount on municipal securities will be treated as ordinary income. Distributions by the Fund of net capital gain (that is, the excess of net long-term capital gain over net short-term capital loss), if any, are taxable as long-term capital gain regardless of the length of time the shareholder has owned shares of the Fund. The amount of capital gains and ordinary income allocable to the Fund's New VRDP Shares will depend upon the amount of such income realized by the Fund, but is not generally expected to be significant. Except for dividends paid on New VRDP Shares that include an allocable portion of any net capital gain or ordinary income, the Fund anticipates that all other dividends paid on New VRDP Shares will constitute exempt-interest dividends for federal income tax purposes.

The Fund may notify the Remarketing Agent of the amount of any net capital gain or ordinary income taxable for regular federal income tax purposes to be included in any dividend on New VRDP Shares prior to the Rate Determination Date establishing the Applicable Rate for such dividend. If the Fund allocates any net capital gain or ordinary income for regular federal income tax purposes to New VRDP Shares without having given such advance notice, the Fund will make certain payments to owners of New VRDP Shares to which such allocation was made to offset the federal income tax effects thereof.

Sales, Exchanges and Other Dispositions of New VRDP Shares. On the sale or other disposition of New VRDP Shares (other than redemptions, the rules for which are described below

under the caption "Redemptions of New VRDP Shares"), the amount paid for the seller's right to any dividends that are accumulated but unpaid at the time of such sale or other disposition will be treated as dividends and subject to the rules described above under the caption "Tax Character of Distributions." The balance of the amount paid, will generally be treated as (1) capital gain to the extent it exceeds the seller's basis in the New VRDP Shares, and (2) capital loss to the extent it is less than the seller's basis in the New VRDP Shares. Present law taxes both long-term and short-term capital gains of corporations at the rates applicable to ordinary income. In the case of non-corporate taxpayers, current law taxes short-term capital gains and ordinary income at a maximum rate of 39.6% and long-term capital gains at a maximum rate of 20%. In addition, because of certain limitations on itemized deductions and the deduction for personal exemptions, the effective rate of tax may be higher in certain circumstances.

Losses realized by a shareholder on the sale or exchange of New VRDP Shares held for six months or less are disallowed to the extent of any distribution of exempt-interest dividends received (or deemed received on a sale) with respect to such shares, unless the Fund declares exempt-interest dividends on a daily basis in an amount equal to at least 90% of its net tax-exempt interest and distributes such dividends on a monthly or more frequent basis. If not disallowed, such losses are treated as long-term capital losses to the extent of any distribution of long-term capital gain received with respect to such shares. For purposes of determining whether New VRDP Shares have been held for six months or less, the holding period will be suspended by reason of the New VRDP Purchase Agreement, thus causing the rules described in the preceding sentences to apply unless with respect to the loss disallowance rule, the Fund satisfies the exception described above.

Any loss realized on a sale or exchange of New VRDP Shares will be disallowed to the extent those shares are replaced by substantially identical stock or securities within a period of 61 days beginning 30 days before and ending 30 days after the date of disposition of the original shares. In that event, the basis of the replacement shares of the Fund will be adjusted to reflect the disallowed loss.

Redemptions of New VRDP Shares. Gain or loss, if any, resulting from a redemption of the New VRDP Shares (determined by treating any part of the redemption price that represents accrued but unpaid dividends as dividends on the New VRDP Shares rather than as part of the amount paid in exchange for the New VRDP Shares) will be taxed as gain or loss from the sale or exchange of the New VRDP Shares under Section 302 of the Code rather than as a dividend, but only if the redemption distribution (a) is deemed not to be essentially equivalent to a dividend, (b) is in complete redemption of an owner's interest in the Fund, (c) is substantially disproportionate with respect to the owner, or (d) with respect to non-corporate owners, is in partial liquidation of the Fund. For purposes of (a), (b) and (c) above, a shareholder's ownership of the common shares and preferred shares will be taken into account, as will shares attributed to such shareholder under attribution rules contained in the Code.

Tax on Net Investment Income. A 3.8% federal tax is imposed on the net investment income of individuals, estates and trusts with incomes above certain threshold amounts. The types of investment income used to calculate net investment income include taxable distributions (if any) made by the Fund with respect to the New VRDP Shares and gains (if any) from the sale or other disposition of the New VRDP Shares.

Consequences of Insufficient Distributions. If at any time when the Fund's New VRDP Shares are outstanding the Fund fails to meet asset coverage (as determined pursuant to the 1940 Act) of at least 200%, the Fund will be required to suspend distributions to holders of its common shares.

until such asset coverage is restored. This may prevent the Fund from distributing at least 90% of its investment company taxable income (as that term is defined in the Code) determined without regard to the deduction for dividends paid and net tax-exempt income and may therefore jeopardize the Fund's qualification for taxation as a regulated investment company or cause the Fund to incur an income tax liability or the non-deductible 4% excise tax on the undistributed taxable income (including gain), or both. Upon failure to meet the Minimum VRDP Asset Coverage, the Fund will be required to redeem preferred shares in order to maintain or restore such asset coverage and avoid the adverse consequences to the Fund and its shareholders of failing to qualify as a regulated investment company. There can be no assurance, however, that any such redemption would achieve such objectives.

Demand Feature as Part of Stock. The New VRDP Statements generally require that the Fund maintain the New VRDP Purchase Agreements, which contain a demand feature pursuant to a purchase obligation. Under the New VRDP Statements, each holder and beneficial owner of New VRDP Shares is deemed to have agreed, for federal income tax purposes, to treat this purchase obligation as part of the New VRDP Shares rather than as a separate property right. Such treatment is not, however, binding on the IRS or any court. If a New VRDP Share and the corresponding demand feature under the applicable New VRDP Purchase Agreement are treated as separate property rights (for example, as a share of stock and an option), then the tax consequences to investors, including the timing and character of income, gain and loss, will be different from those described in this Information Memorandum, and the tax consequences of the Reorganizations to holders of Target Fund VRDP Shares will be different from those described in the Proxy Statement and this Information Memorandum. You should consult your tax adviser about the tax consequences to you if New VRDP Shares and the demand feature under the corresponding New VRDP Purchase Agreement are treated as separate property rights.

The foregoing is a general summary of the provisions of the Code and regulations thereunder presently in effect as they directly govern the federal income taxation of the Fund and holders of New VRDP Shares. These provisions are subject to change by legislative, judicial or administrative action, and any such change may be retroactive. Moreover, the foregoing does not address many of the factors that may be determinative of whether an investor will be liable for the federal alternative minimum tax. Shareholders are advised to consult their own tax advisors for more detailed information concerning the regular federal income tax and federal alternative minimum income tax consequences of purchasing, holding and disposing of New VRDP Shares.

California Tax Matters

The following is based on the advice of Special Tax Counsel to the Fund.

The following is based on the assumptions that the Fund will qualify under Subchapter M of the Code as a regulated investment company and that it will satisfy the conditions that will cause distributions by the Fund to qualify as exempt-interest dividends to shareholders for federal and California purposes.

The Fund intends to distribute substantially all of its net income and gains to its shareholders, and therefore, it is not expected that the Fund will be subject to California corporate franchise or corporation income tax to the extent its earnings are so distributed.

If, at the close of each quarter of the Fund's taxable year, at least 50% of the aggregate value of its total assets consists of obligations that, when held by individuals, pay interest that is exempt from tax by California under California or federal law, then distributions by the Fund that are attributable to interest on any such obligation will not be subject to the California personal income tax; provided that such distributions are properly reported by the Fund as exempt-interest dividends in written statements furnished to the Fund's shareholders. All other distributions, including distributions attributable to capital gains, will be includable in gross income for purposes of the California personal income tax.

Interest on indebtedness incurred or continued for the purpose of acquiring or maintaining an investment in the New VRDP Shares will not be deductible for purposes of the California personal income tax.

All distributions of the Fund, regardless of source, to corporate shareholders that are subject to the California corporate franchise tax will be included in gross income for purposes of such tax, notwithstanding that all or a portion of such distributions may be exempt from California personal income tax.

Gain on the sale, exchange, or other disposition of New VRDP Shares will be subject to the California personal income and corporate franchise tax. In addition, any loss realized by a holder of New VRDP Shares upon the sale of shares held for six months or less may be disallowed to the extent of any exempt interest dividends received with respect to such shares. For purposes of determining whether New VRDP Shares have been held for six months or less, the holding period will be suspended by reason of the applicable New VRDP Purchase Agreement, thus causing the rule described in the preceding sentence to apply. Moreover, any loss realized upon the sale of New VRDP Shares within thirty days before or after the acquisition of other New VRDP Shares may be disallowed under the "wash sale" rules.

New VRDP Shares may be subject to the California estate tax if held by a California decedent at the time of death.

The foregoing is a general summary of certain provisions of the applicable California tax law as presently in effect as it directly governs the taxation of California resident individual and corporate holders of New VRDP Shares. These provisions are subject to change by legislative, judicial or administrative action, and any such change may be retroactive. This summary does not address the taxation of other shareholders nor does it discuss any local taxes that may be applicable. Shareholders should consult with their own tax advisor for more detailed information concerning California state and local tax matters.

Other State and Local Tax Matters

While distributions qualifying as exempt-interest dividends under federal and California law will be exempt from regular federal and California personal income taxes, they may not be exempt from other state or local income or other taxes. Some states exempt from state income tax that portion of any exempt-interest dividend that is derived from interest a regulated investment company receives on its holdings of securities of that state and its political subdivisions and instrumentalities. Therefore, the Fund will report annually to its shareholders the percentage of interest income the Fund earned during the preceding year on tax-exempt obligations and the Fund will indicate, on a state-by-state basis, the source of this income. Shareholders are advised to consult with their own tax advisors for more detailed information concerning California tax matters or the tax laws of their state and locality of residence.

HOW THE FUND MANAGES PORTFOLIO RISK

Investment Limitations

The Fund has adopted certain investment limitations designed to limit investment risk and maintain portfolio diversification. These limitations are fundamental and may not be changed without the approval of the holders of a majority of the outstanding common shares and preferred shares voting together as a single class, and the approval of the holders of a majority of the outstanding preferred shares voting as a separate class. When used with respect to particular shares of the Fund, a majority of the outstanding shares means (i) 67% or more of the shares present at a meeting, if the holders of more than 50% of the shares are present or represented by proxy, or (ii) more than 50% of the shares, whichever is less. Among other restrictions, the Fund may not invest more than 25% of total Fund assets in securities of issuers in any one industry, except that this limitation does not apply to municipal bonds backed by the assets and revenues of governments or political subdivisions of governments or to the investment of 25% of its total assets. The Fund may become subject to guidelines which are more limiting than the investment restrictions set forth above in order to obtain and maintain ratings from Fitch, Moody's or S&P on the New VRDP Shares. See The Fund's Investments Investment Restrictions for a complete list of the fundamental and non-fundamental investment policies of the Fund.

Quality Investments

As a non-fundamental policy, under normal circumstances, the Fund will be permitted to invest up to 20% of its Managed Assets in municipal securities rated, at the time of investment, below the three highest grades (Baa or BBB or below) by at least one NRSRO, which includes below-investment-grade municipal securities, or unrated securities judged to be of comparable quality by the Sub-Adviser.

Hedging Strategies

The Fund may use various investment strategies designed to limit the risk of bond price fluctuations and to preserve capital. These hedging strategies include using financial futures contracts, options on financial futures or options based on either an index of long-term municipal securities or on taxable debt securities whose prices, in the opinion of the Investment Adviser and/or the Sub-Adviser, correlate with the prices of the Fund's investments. These hedging strategies may generate taxable income. See The Fund's Investments Derivatives and Hedging Strategies.

DESCRIPTION OF OUTSTANDING SHARES

Common Shares

The Declaration of Trust authorizes an unlimited amount of common shares, par value \$0.01 per share. If the Reorganizations are consummated, the Fund will issue additional common shares to the common shareholders of each Target Fund based on the relative per share net asset value of the Fund and the net asset values of the assets of such Target Fund that are transferred in connection with the Reorganizations, in each case as of the Valuation Time (as defined in the Agreement and Plan of Reorganization). The value of the Fund's and each Target Fund's net assets shall be calculated net of the liquidation preference (including accumulated and unpaid dividends) of all of the Fund's and each Target Fund's outstanding preferred shares.

The terms of the Fund's common shares to be issued pursuant to the Reorganizations will be identical to the terms of the Fund's common shares that are then outstanding. All of the Fund's common shares have equal rights with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. The Fund's common shares, when issued, will be fully paid and non-assessable and have no preemptive, conversion or exchange rights or rights to cumulative voting.

Whenever preferred shares, including the New VRDP Shares, are outstanding, the Fund may not declare a dividend or distribution to common shareholders (other than a distribution in common shares of the Fund) or purchase its common shares unless all accumulated dividends on preferred shares have been paid, and unless asset coverage (as defined in the 1940 Act) with respect to preferred shares at the time of declaration of such dividend or distribution or at the time of such purchase would be at least 200% after giving effect to the dividend, distribution or purchase price.

Outstanding VMTP Shares

The Fund currently has outstanding 1,450 VMTP Shares, Series 2019, par value \$0.01 per share, with a total liquidation preference per share of \$100,000, which will remain outstanding following the completion of the Reorganizations. The Fund initially issued the outstanding VMTP Shares to a single institutional investor in a private transaction exempt from registration under the Securities Act.

Holders of VMTP Shares are entitled to receive cash dividends when, as and if declared by the Fund's Board. The amount of dividends per VMTP Share payable on any dividend payment date will equal the sum of dividends accumulated but not yet paid for each rate period during the relevant monthly dividend period. The dividend rate applicable to any rate period (which typically consists of seven days) is an index rate based on the SIFMA Municipal Swap Index plus an applicable spread. The applicable spread is subject to adjustment in certain circumstances, including a change in the credit rating assigned to the VMTP Shares.

VMTP Shares are subject to optional and mandatory redemption in certain circumstances. The Fund is obligated to redeem the VMTP Shares on July 1, 2019, unless earlier redeemed or repurchased by the Fund, at a redemption price per share equal to the liquidation preference per share (\$100,000) plus any accumulated but unpaid dividends thereon. VMTP Shares also may be redeemed in whole or in part at the option of the Fund at a redemption price per share equal to the liquidation preference per share plus any accumulated but unpaid dividends thereon, plus a certain redemption premium. In the event the Fund fails to comply with asset coverage and/or effective leverage ratio requirements and any such failure is not cured within the applicable cure period, the Fund may become obligated to redeem such number of preferred shares as are necessary to achieve compliance with such requirements.

Except as otherwise provided in the Fund's declaration of trust, the statement establishing and fixing the rights and preferences of VMTP Shares, or as otherwise required by applicable law, (1) each holder of VMTP Shares is entitled to one vote for each VMTP Share held on each matter submitted to a vote of shareholders of the Fund, and (2) the holders of VMTP Shares, along with holders of other outstanding preferred shares of the Fund, vote with holders of common shares of the Fund as a single class; provided, however, that holders of preferred shares, including VMTP Shares, are entitled as a class to elect two trustees of the Fund at all times. The holders of outstanding common shares and preferred shares, including VMTP Shares, voting as a single class, elect the balance of the trustees of the Fund.

Holders of VMTP Shares, as a separate class, have voting and consent rights with respect to certain actions that would materially and adversely affect any preference, right or power of the VMTP Shares or holders of VMTP Shares. In addition, holders of VMTP Shares have certain consent rights under the purchase agreement for the VMTP Shares with respect to certain actions that would affect their investment in the Fund. Holders of VMTP Shares also are entitled to vote as a class with holders of other preferred shares of the Fund on matters that relate to the conversion of the Fund to an open-end investment company, certain plans of reorganization adversely affecting holders of the preferred shares or any other action requiring a vote of security holders of the Fund under Section 13(a) of the 1940 Act. In certain circumstances, holders of preferred shares, including VMTP Shares, are entitled to elect additional trustees in the event at least two full years' dividends are due and unpaid and sufficient cash or specified securities have not been deposited for their payment, or at any time holders of preferred shares are entitled under the 1940 Act to elect a majority of the trustees of the Fund.

The VMTP Shares are senior in priority to the Fund's common shares as to the payment of dividends and as to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. The VMTP Shares have equal priority as to the payment of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund with other preferred shares of the Fund, including the Outstanding VRDP Shares and the New VRDP Shares to be issued in connection with the Reorganizations.

Outstanding VRDP Shares

The Fund currently has outstanding 1,362 VRDP Shares, Series 1, 910 VRDP Shares, Series 2, 498 VRDP Shares, Series 3, 1,056 VRDP Shares, Series 4, 1,589 VRDP Shares, Series 5, and 1,581 VRDP Shares, Series 6, each with a par value of \$0.01 per share and a liquidation preference of \$100,000 per share, for an aggregate of 6,996 VRDP shares (previously defined as the Outstanding VRDP Shares). The Fund expects that the Outstanding VRDP Shares will remain outstanding following the completion of the Reorganizations. The Fund initially issued the Outstanding VRDP shares of each series in a private transaction exempt from registration under the Securities Act.

The Fund's Series 1 VRDP Shares have a final mandatory redemption date of June 1, 2041, the Fund's Series 2 VRDP Shares have a final mandatory redemption date of December 1, 2040, the Fund's Series 3 VRDP Shares have a final mandatory redemption date of March 1, 2040, the Fund's Series 4 VRDP Shares have a final mandatory redemption date of December 1, 2042, and the Fund's Series 5 VRDP Shares and Series 6 VRDP Shares each have a final mandatory redemption date of August 1, 2040, in each case subject to earlier redemption or repurchase by the Fund. The Outstanding VRDP Shares of each series pays an adjustable dividend rate set weekly by the applicable remarketing agent. Holders of the Outstanding VRDP Shares of each series have the right to give notice on any business day to tender the securities for remarketing in seven days. The Outstanding VRDP Shares of each series are also subject to a mandatory tender for remarketing upon the occurrence of certain events, such as the non-payment of dividends by the Fund. Should a remarketing be unsuccessful, the dividend rate will reset to a maximum rate as defined in the governing documents of the Outstanding VRDP Shares of the applicable series.

The Outstanding VRDP Shares of each series have the benefit of an unconditional demand feature pursuant to a purchase agreement provided by a bank acting as liquidity provider to ensure full and timely repayment of the liquidation preference amount plus any accumulated and unpaid dividends to holders upon the occurrence of certain events. The agreement for the Outstanding VRDP Shares of

each series requires the applicable liquidity provider to purchase from holders all Outstanding VRDP Shares of such series tendered for sale that were not successfully remarketed. The liquidity provider also must purchase all Outstanding VRDP Shares of the applicable series prior to termination of the purchase agreement for such series, including by reason of the failure of the liquidity provider to maintain the requisite level of short-term ratings, if the Fund has not obtained an alternate purchase agreement before the termination date.

The obligation of the liquidity provider for the Outstanding VRDP Shares of each series to purchase the Outstanding VRDP Shares of such series pursuant to the purchase agreement for such series runs to the benefit of the holders of the Outstanding VRDP Shares of such series and is unconditional and irrevocable, and as such the short-term ratings assigned to the Outstanding VRDP Shares of each series are directly linked to the short-term creditworthiness of the associated liquidity provider. The liquidity provider for each series of the Outstanding VRDP Shares of each series entered into a purchase agreement with respect to the Outstanding VRDP Shares of such series, subject to periodic extension by agreement with the Fund.

Prior to the applicable final mandatory redemption date, the Outstanding VRDP Shares of each series are subject to optional and mandatory redemption by the Fund in certain circumstances. Outstanding VRDP Shares of each series may be redeemed at any time, at the option of the Fund (in whole or, from time to time, in part), out of funds legally available therefor, at a redemption price per share equal to the sum of \$100,000 plus an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared) until, but not excluding, the date fixed for redemption. Pursuant to the VRDP Statement for the Outstanding VRDP Shares of each series and the fee agreement with the liquidity provider for such series, the Fund will have an obligation to redeem, at a redemption price equal to \$100,000 per share plus accumulated but unpaid dividends thereon (whether or not earned or declared) until, but excluding, the date fixed by the Board for redemption, shares of such series purchased by the liquidity provider pursuant to its obligations under the purchase agreement if the liquidity provider continues to be the beneficial owner for a period of six months and such shares cannot be successfully remarketed. The Fund also will redeem, at a redemption price equal to the liquidation preference per share plus accumulated but unpaid dividends thereon (whether or not earned or declared) until, but excluding, the date fixed by the Board for redemption, such number of preferred shares as is necessary to achieve compliance with the applicable requirement, if the Fund fails to maintain (1) the minimum VRDP asset coverage required under the 1940 Act and the Fund's agreement with the liquidity provider for the Outstanding VRDP Shares of each series or (2) the VRDP basic maintenance amount (if any) prescribed by the applicable rating agencies then rating the Outstanding VRDP Shares of each series, and such failures are not cured by the applicable cure date. In the event of changes in, or elimination of, any or all long-term ratings of the Outstanding VRDP Shares of each series, the requirement to effect a mandatory redemption after the applicable cure date upon a failure to maintain the VRDP basic maintenance amount may be changed or eliminated. The Fund is not required under the VRDP Statement for the Outstanding VRDP Shares of any series to maintain any particular long-term ratings for the Outstanding VRDP Shares of such series and may, at any time, replace a rating agency with another rating agency or terminate the services of any rating agency then providing a rating for the Outstanding VRDP Shares of such series without replacement, in either case without the approval of holders of the Outstanding VRDP Shares of such series or other shareholders of the Fund.

Except as otherwise provided in the Fund's Declaration of Trust or the VRDP Statements for the Outstanding VRDP Shares or as otherwise required by applicable law, (1) each holder of

Outstanding VRDP Shares is entitled to one vote for each Outstanding VRDP Share held on each matter submitted to a vote of shareholders of the Fund, and (2) the holders of Outstanding VRDP Shares, along with holders of other outstanding preferred shares, if any, of the Fund, vote with holders of common shares of the Fund as a single class; provided, however, that holders of preferred shares, including the Outstanding VRDP Shares of each series, are entitled as a class to elect two trustees of the Fund at all times. The holders of outstanding common shares and preferred shares, including the Outstanding VRDP Shares of each series, voting as a single class, elect the balance of the trustees of the Fund.

Holders of the Outstanding VRDP Shares of each series, as a separate class, have voting and consent rights with respect to certain actions that would materially and adversely affect any preference, right or power of the Outstanding VRDP Shares of such series or holders of the Outstanding VRDP Shares of such series. Holders of Outstanding VRDP Shares of each series, together, are also entitled to vote as a class with holders of other preferred shares of the Fund on matters that relate to the conversion of the Fund to an open-end investment company, certain plans of reorganization adversely affecting holders of the preferred shares or any other action requiring a vote of security holders of the Fund under Section 13(a) of the 1940 Act. Holders of preferred shares, including the Outstanding VRDP Shares of each series, together, are entitled to elect additional trustees constituting, when added to the two trustees elected exclusively by the holders of preferred shares, a majority of the trustees, in the event at least two full years' dividends are due and unpaid and sufficient cash or specified securities have not been deposited for their payment, or at any time holders of preferred shares are entitled under the 1940 Act to elect a majority of the trustees of the Fund.

The Outstanding VRDP Shares of each series are senior in priority to the Fund's common shares as to the payment of dividends and as to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. The Outstanding VRDP Shares of each series have equal priority as to the payment of dividends and as to distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund with each other and with other preferred shares of the Fund, including the Fund's outstanding VMTP Shares, the Outstanding VRDP Shares and the New VRDP Shares to be issued in connection with the Reorganizations.

NET ASSET VALUE

The Fund's net asset value per common share is determined as of the close of the regular session trading (normally 4:00 p.m. Eastern time) on each day the NYSE is open for business. Net asset value is calculated by taking the market value of the Fund's total assets, including interest or dividends accrued but not yet collected, less all liabilities, and dividing by the total number of shares outstanding. The result, rounded to the nearest cent, is the net asset value per share. All valuations are subject to review by the Fund's Board or its delegate.

The Fund's custodian calculates the Fund's net asset value. The custodian uses prices for portfolio securities from a pricing service the Fund's Board has approved. The pricing service values portfolio securities at the mean between the quoted bid and asked price or the yield equivalent when quotations are readily available. Securities for which quotations are not readily available (which will constitute the majority of the Fund's portfolio securities) are valued at fair value as determined by the Board in reliance upon data supplied by the pricing service. The pricing service uses methods that consider yields or prices of municipal securities of comparable quality, type of issue, coupon, maturity,

and ratings; dealers' indications of value; and general market conditions. The pricing service may use electronic data processing techniques or a matrix system, or both. The Fund's officers review the pricing service's procedures and valuations, under the general supervision of the Board.

CERTAIN PROVISIONS IN THE DECLARATION OF TRUST AND BY-LAWS

Under Massachusetts law, shareholders could, under certain circumstances, be held personally liable for the obligations of the Fund. However, the Declaration of Trust contains an express disclaimer of shareholder liability for debts or obligations of the Fund and requires that notice of such limited liability be given in each obligation, contract or instrument made or issued by the Fund or the trustees. The Fund's Declaration of Trust further provides for indemnification out of the assets and property of the Fund for all loss and expense of any shareholder held personally liable for the obligations of the Fund. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Fund would be unable to meet its obligations. The Fund believes that the likelihood of such circumstances is remote.

The Fund's Declaration of Trust includes provisions that could limit the ability of other entities or persons to acquire control of the Fund or to convert the Fund to open-end status. Specifically, the Fund's Declaration of Trust requires a vote by holders of at least two-thirds of the outstanding common shares and preferred shares, voting as a single class, except as described below, to authorize (1) a conversion of the Fund from a closed-end to an open-end investment company, (2) a merger or consolidation of the Fund with any corporation, association, trust or other organization or a reorganization or recapitalization of the Fund or a series or class of the Fund, (3) a sale, lease or transfer of all or substantially all of the Fund's assets (other than in the regular course of the Fund's investment activities), (4) in certain circumstances, a termination of the Fund or a class or a series of the Fund, or (5) a removal of trustees by shareholders, and then only for cause, unless, with respect to (1) through (4), such transaction has already been authorized by the affirmative vote of two-thirds of the total number of trustees fixed in accordance with the Fund's Declaration of Trust or the Fund's by-laws, in which case the affirmative vote of the holders of at least a majority of the Fund's outstanding common shares and preferred shares, voting as a single class, is required; provided, however, that, where only a particular class or series is affected (or, in the case of removing a trustee, when the trustee has been elected by only one class), only the required vote by the applicable class or series will be required. For the purposes of the foregoing, the term "recapitalization" will not mean, without limitation, the issuance or redemption of preferred shares pursuant to the terms of the Declaration of Trust or the applicable VRDP Statement adopted with respect to such preferred shares, whether or not in conjunction with the issuance, retirement or redemption of other securities or indebtedness of the Fund. However, approval of shareholders is not required for any transaction, whether deemed a merger, consolidation, reorganization or otherwise, whereby the Fund issues shares in connection with the acquisition of assets (including those subject to liabilities) of any other investment company or similar entity. In the case of the conversion of the Fund to an open-end investment company, or in the case of any of the foregoing transactions constituting a plan of reorganization (as that term is used in the 1940 Act) which adversely affects the holders of preferred shares, the action in question will also require the affirmative vote of the holders of at least two-thirds of the Fund's preferred shares outstanding at the time, voting as a separate class, or, if such action has been authorized by the affirmative vote of two-thirds of the total number of trustees fixed in accordance with the Fund's Declaration of Trust or the Fund's by-laws, the affirmative vote of the holders of at least a majority of the Fund's preferred shares outstanding at the time, voting as a separate class. None of the foregoing

voting provisions may be amended or repealed except by the vote of at least two-thirds of the common shares and preferred shares, voting as a single class. The votes required to approve the conversion of the Fund from a closed-end to an open-end investment company or to approve transactions constituting a plan of reorganization which adversely affects the holders of preferred shares are higher than those required by the 1940 Act. The Fund's Board believes that the provisions of the Fund's Declaration of Trust relating to such higher votes are in the best interests of the Fund.

The Fund's Declaration of Trust provides that the obligations of the Fund are not binding upon the Fund's trustees individually, but only upon the assets and property of the Fund, and that the trustees will not be liable for errors of judgment or mistakes of fact or law. However, nothing in the Fund's Declaration of Trust protects a trustee against any liability to which he or she would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his or her office.

In addition, the Fund's by-laws require the Board be divided into three classes with staggered terms. This provision of the by-laws could delay for up to two years the replacement of a majority of the Board. Holders of preferred shares, voting as a separate class, are entitled to elect two of the Fund's trustees.

The provisions of the Fund's Declaration of Trust and by-laws described above could have the effect of depriving the common shareholders of opportunities to sell their common shares at a premium over the then-current market price of the common shares by discouraging a third party from seeking to obtain control of the Fund in a tender offer or similar transaction. The overall effect of these provisions is to render more difficult the accomplishment of a merger or the assumption of control by a third party. However, they provide the advantage of potentially requiring persons seeking control of the Fund to negotiate with its management regarding the price to be paid and facilitating the continuity of the Fund's investment objectives and policies. The Fund's Board has considered the foregoing anti-takeover provisions and concluded that they are in the best interests of the Fund.

The Fund's Declaration of Trust provides that common shareholders will have no right to acquire, purchase or subscribe for any shares or securities of the Fund, other than such right, if any, as the Fund's Board in its discretion may determine.

Reference should be made to the Fund's Declaration of Trust and by-laws on file with the SEC for the full text of these provisions.

CUSTODIAN, TRANSFER AGENT, DIVIDEND DISBURSING AGENT, REDEMPTION AGENT AND REMARKETING AGENT

The custodian of the assets of the Fund is State Street Bank and Trust Company, One Lincoln Street, Boston, Massachusetts 02111. The custodian performs custodial, fund accounting and portfolio accounting services and also serves as the Fund's transfer, shareholder services and dividend paying agent with respect to the Fund's common shares.

It is anticipated that the Tender and Paying Agent for the New VRDP Shares will be The Bank of New York Mellon, Corporate Trust Division, Dealing and Trading Group, 101 Barclay Street, Floor 7E, New York, New York 10286. The Tender and Paying Agent will act as the Fund's tender agent, transfer agent and registrar, dividend disbursing agent, paying agent and redemption price disbursing agent with respect to the New VRDP Shares.

The Fund anticipates that it will enter into a remarketing agreement with a remarketing agent for each series of New VRDP Shares that is a nationally recognized securities dealer with expertise in remarketing variable-rate securities and that will be either the current remarketing agent for the corresponding Target Fund VRDP Shares or a replacement appointed in accordance with the applicable VRDP Statement and related agreements. For more information on the role of the Remarketing Agent, please see each New VRDP Statement.

Ernst & Young's reports on the Fund for the fiscal years ended prior to February 29, 2015 contained no adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles. For the fiscal years ended prior to February 28, 2015 for the Fund and for the period March 1, 2014 through August 11, 2014, there were no disagreements with Ernst & Young on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of Ernst & Young, would have caused it to make reference to the subject matter of the disagreements in connection with its reports on the Fund's financial statements.

SECOND: The preferences (including liquidation preference), voting powers, restrictions, limitations as to dividends, qualifications, and terms and conditions of redemption, of the Series 7 Variable Rate Demand Preferred Shares designated below are as follows or as set forth in an amendment or supplement hereto:

DESIGNATION OF SERIES 7 VRDP

Series 7: A series of preferred shares, par value \$.01 per share, liquidation preference \$100,000 per share, is hereby authorized and designated Series 7 Variable Rate Demand Preferred Shares, also referred to herein as Series 7 VRDP, Series 7 VRDP Shares or shares of Series 7 VRDP, and references to such Series with respect to the Series 7 VRDP Shares shall be interpreted as references to shares of such Series, as the context may require. Each share of Series 7 VRDP shall be issued on a date determined by the Board of Trustees of the Fund or pursuant to their delegated authority; and have such other preferences, voting powers, limitations as to dividends, qualifications and terms and conditions of redemption, in addition to those required by applicable law or as set forth in the Declaration, as set forth in Parts I and II of this Statement (as defined below). With respect to the initial issuance of Series 7 VRDP, each share of Series 7 VRDP shall have an Applicable Rate equal to the rate determined by the Remarketing Agent on the Target Fund VRDP (as defined below) on Wednesday, [], 2016 for the Initial Rate Period from, and including the Date of Original Issue to, and including Wednesday, [], 2016 and an initial Dividend Payment Date of [], 2016. The Series 7 VRDP shall constitute a separate series of preferred shares of the Fund and each share of Series 7 VRDP shall be identical.

The number of Series 7 VRDP Shares which the Board of Trustees has initially authorized for issuance is 980. The Board of Trustees may, from time to time, authorize the issuance of additional Series 7 VRDP Shares in accordance with the terms hereof.

One share of Series 7 VRDP initially authorized for issuance as stated above shall be issued and distributed in respect of each share of Series 1 Variable Rate Demand Preferred Shares of Nuveen California Dividend Advantage Municipal Fund 2 (the Target Fund VRDP) outstanding on the date of distribution in connection with the reorganization of Nuveen California Dividend Advantage Municipal Fund 2 (the Target Fund) as described in the Information Memorandum (as defined below).

(c) **Notice of Proposed Special Rate Period.** If the Fund proposes to designate a Special Rate Period to succeed a Minimum Rate Period pursuant to paragraph (a)(i) of this Section 4, not less than 20 (or such lesser number of days as may be agreed to from time to time by the Remarketing Agent) nor more than 30 days prior to the date the Fund proposes to designate as the first day of such Special Rate Period (which shall be a day that would otherwise be the first day of a Minimum Rate Period), a notice (a Notice of Proposed Special Rate Period) shall be sent by the Fund by Electronic Means (or by first-class mail, postage prepaid, where the Series 7 VRDP Shares are in physical form outside the book-entry system of the Securities Depository) to the Holders of shares of such Series with copies provided to the Remarketing Agent, the Tender and Paying Agent and the Liquidity Provider. Each such notice shall state (A) that the Fund may exercise its option to designate a succeeding Subsequent Rate Period for the Series 7 VRDP Shares as a Special Rate Period, specifying the first day thereof, (B) that the Fund will, by 11:00 a.m., New York City time, on the second Business Day immediately preceding such first day (or by such later time or date, or both, as may be agreed to by the Remarketing Agent) notify the Remarketing Agent of either (x) its determination, subject to certain conditions, to exercise such option, or (y) its determination not to exercise such option, (C) the Rate Determination Date immediately prior to the first day of such Special Rate Period, (D) that such Special Rate Period shall not commence if (1) any Series 7 VRDP Shares are owned by the Liquidity Provider pursuant to the Purchase Obligation on either the Rate Determination Date for such proposed Special Rate Period or on the first day of such Special Rate Period or (2) full cumulative dividends or any amounts due with respect to redemptions payable prior to such Rate Determination Date have not been paid in full, in each case, on the Series 7 VRDP Shares, (E) the scheduled Dividend Payment Dates for shares of such Series during such Special Rate Period and (F) a description of the Other Special Rate Period Provisions, if any, applicable to shares of such Series in respect of such Special Rate Period.

(d) **Notices in Respect of Special Rate Period.** The Fund shall deliver a notice of Special Rate Period (a Notice of Special Rate Period) in accordance with paragraph (i)(A) or (ii) below or a notice that the Fund is electing not to designate a Special Rate Period in accordance with paragraph (i)(B) below, as applicable:

(i) In connection with the designation of a Special Rate Period to succeed a Minimum Rate Period pursuant to paragraph (a)(i) of this Section 4, no later than 11:00 a.m., New York City time, on the second Business Day immediately preceding the first day of any proposed Special Rate Period for the Series 7 VRDP Shares as to which notice has been given as set forth in paragraph (c) of this Section 4 (or such later time or date, or both, as may be agreed to by the Remarketing Agent), the Fund shall deliver to the Remarketing Agent and the Liquidity Provider either:

(A) a Notice of Special Rate Period stating (1) that the Fund has determined to designate the next succeeding Rate Period for shares of such Series as a Special Rate Period, specifying the same and the first day thereof, (2) the Rate Determination Date immediately prior to the first day of such Special Rate Period, (3) that such Special Rate Period shall not commence if (x) any Series 7 VRDP Shares are owned by the Liquidity Provider pursuant to the Purchase Obligation on either such Rate Determination Date or on the first day of such Special Rate Period or (y) full cumulative dividends or any amounts due with respect to redemptions payable, in each case, on Series 7 VRDP Shares, prior to such Rate Determination Date have not been paid in full, (4) the scheduled Dividend Payment Dates for shares of such Series during

such Special Rate Period and (5) the Other Special Rate Period Provisions, if any, applicable to shares of such Series in respect of such Special Rate Period; or

(B) a notice stating that the Fund has determined not to exercise its option to designate a Special Rate Period for shares of such Series and that the next succeeding Rate Period of shares of such Series shall be a Minimum Rate Period.

(ii) In connection with designation of a Special Rate Period to succeed a Special Rate Period pursuant to paragraph (a)(ii) of this Section 4, the Fund shall deliver a Notice of Special Rate Period as specified in and otherwise in accordance with the Notice of Special Rate Period that designated the Special Rate Period being succeeded.

(e) **Failure to Deliver Notice of Special Rate Period.** If the Fund fails to deliver either of the notices described in paragraphs (d)(i)(A) or (d)(ii) of this Section 4 of any proposed Special Rate Period to the Remarketing Agent and the Liquidity Provider by 11:00 a.m., New York City time, on the second Business Day immediately preceding the first day of such proposed Special Rate Period (or by such later time or date, or both, as may be agreed to by the Remarketing Agent and the Liquidity Provider), the Fund shall be deemed to have delivered a notice to the Remarketing Agent and the Liquidity Provider with respect to such Special Rate Period to the effect set forth in paragraph (d)(i)(B) of this Section 4. In the event the Fund delivers to the Remarketing Agent and the Liquidity Provider a notice described in paragraph (d)(i)(A) of this Section 4, it shall file a copy of such notice with the Secretary of the Fund, and the contents of such notice shall be binding on the Fund.

(f) **Other Special Rate Period Provisions.** In connection with any Special Rate Period designated pursuant to this Section 4, the Fund, without the vote or consent of any Holder of Series 7 VRDP Shares, but with the prior written consent of the Liquidity Provider, if any (and to the extent that the Liquidity Provider is appointed as such for such Special Rate Period), may provide for provisions relating solely to such Special Rate Period that differ from those provided in this Statement, including, but not limited to, with respect to the Purchase Obligation, optional tender provisions, mandatory tender provisions, mandatory purchase provisions, the dividend rate setting provisions (including as to the Maximum Rate), and, if the dividend may be determined by reference to an index, formula or other method, the manner in which it will be determined, Special Redemption Provisions or other redemption provisions (other than Section 9(b)(i)(A) of this Statement) and modified or new definitions (Other Special Rate Period Provisions); provided that such provisions do not affect the parity ranking of Series 7 VRDP Shares relative to any other series of Preferred Shares of the Fund then outstanding with respect to dividends or distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund.

(g) **Minimum Rate Period Succeeding a Special Rate Period.** The Fund, at its option, may designate the Rate Period (together with succeeding Rate Periods until the establishment of a Subsequent Rate Period as a Special Rate Period) succeeding a Special Rate Period as a Minimum Rate Period. Notice thereof shall be delivered in accordance with the Notice of Special Rate Period that designated the Special Rate Period being succeeded by the Minimum Rate Period.

5. Voting Rights.

(a) **One Vote Per VRDP Share.** Except as otherwise provided in the Declaration or as otherwise required by law, (i) each Holder of VRDP Shares shall be entitled to one vote for each

VRDP Share held by such Holder on each matter submitted to a vote of shareholders of the Fund, and (ii) the holders of outstanding Preferred Shares, including each VRDP Share, and of Common Shares shall vote together as a single class; provided, however, that the holders of outstanding Preferred Shares, including VRDP Shares, voting as a class, to the exclusion of the holders of all other securities and classes of shares of beneficial interest of the Fund, shall be entitled to elect two trustees of the Fund at all times, each Preferred Share, including each VRDP Share, entitling the holder thereof to one vote. Subject to paragraph (b) of this Section 5, the holders of outstanding Common Shares and Preferred Shares, including VRDP Shares, voting together as a single class, shall elect the balance of the trustees.

(b) **Voting for Additional Trustees.**

(i) **Voting Period.** During any period in which any one or more of the conditions described in subparagraphs (A) or (B) of this paragraph (b)(i) shall exist (such period being referred to herein as a Voting Period), the number of trustees constituting the Board of Trustees shall be automatically increased by the smallest number that, when added to the two trustees elected exclusively by the holders of Preferred Shares, including VRDP Shares, would constitute a majority of the Board of Trustees as so increased by such smallest number; and the holders of Preferred Shares, including VRDP Shares, shall be entitled, voting as a class on a one-vote-per-share basis (to the exclusion of the holders of all other securities and classes of shares of beneficial interest of the Fund), to elect such smallest number of additional trustees, together with the two trustees that such holders are in any event entitled to elect. A Voting Period shall commence:

(A) if at the close of business on any Dividend Payment Date accumulated dividends (whether or not earned or declared) on any outstanding Preferred Shares, including VRDP Shares, equal to at least two full years' dividends shall be due and unpaid and sufficient cash or specified securities shall not have been deposited with the Tender and Paying Agent for the payment of such accumulated dividends; or

(B) if at any time holders of Preferred Shares are entitled under the 1940 Act to elect a majority of the trustees of the Fund.

Upon the termination of a Voting Period, the voting rights described in this paragraph (b)(i) shall cease, subject always, however, to the reversion of such voting rights in the holders of Preferred Shares upon the further occurrence of any of the events described in this paragraph (b)(i).

(ii) **Notice of Special Meeting.** As soon as practicable after the accrual of any right of the holders of Preferred Shares to elect additional trustees as described in paragraph (b)(i) of this Section 5, the Fund shall call a special meeting of such holders, and the Fund shall mail a notice of such special meeting to such holders, such meeting to be held not less than 10 nor more than 20 days after the date of mailing of such notice. If a special meeting is not called by the Fund, it may be called by any such holder on like notice. The record date for determining the holders entitled to notice of and to vote at such special meeting shall be the close of business on the fifth Business Day preceding the day on which such notice is mailed. At any such special meeting and at each meeting of holders of Preferred Shares held during a Voting Period at which trustees are to be elected, such holders, voting together as a class (to the exclusion of the holders of all other securities and

classes of shares of beneficial interest of the Fund), shall be entitled to elect the number of trustees prescribed in paragraph (b)(i) of this Section 5 on a one-vote-per-share basis.

(iii) **Terms of Office of Existing Trustees.** The terms of office of all persons who are trustees of the Fund at the time of a special meeting of Holders and holders of other Preferred Shares to elect trustees shall continue, notwithstanding the election at such meeting by the Holders and such other holders of other Preferred Shares of the number of trustees that they are entitled to elect, and the persons so elected by the Holders and such other holders of other Preferred Shares, together with the two incumbent trustees elected by the Holders and such other holders of other Preferred Shares and the remaining incumbent trustees elected by the holders of the Common Shares and Preferred Shares, shall constitute the duly elected trustees of the Fund.

(iv) **Terms of Office of Certain Trustees to Terminate Upon Termination of Voting Period.** Simultaneously with the termination of a Voting Period, the terms of office of the additional trustees elected by the Holders and holders of other Preferred Shares pursuant to paragraph (b)(i) of this Section 5 shall terminate, the remaining trustees shall constitute the trustees of the Fund and the voting rights of the Holders and such other holders to elect additional trustees pursuant to paragraph (b)(i) of this Section 5 shall cease, subject to the provisions of the last sentence of paragraph (b)(i) of this Section 5.

(c) **Holders of VRDP Shares to Vote on Certain Other Matters.**

(i) **Increases in Capitalization and Certain Amendments.** The Board of Trustees, without the vote or consent of the Holders of Series 7 VRDP Shares, may from time to time authorize and create, and the Fund may from time to time issue additional shares of, any Series of VRDP, including Series 7 VRDP Shares, or any classes or series of Preferred Shares ranking on a parity with Series 7 VRDP Shares with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. So long as any Series 7 VRDP Shares are Outstanding, the Fund shall not, without the affirmative vote or consent of the Holders of at least a majority of the Series 7 VRDP Shares Outstanding at the time, in person or by proxy, either in writing or at a meeting, voting as a separate class: (a) authorize, create or issue any class or series of shares ranking prior to the Series 7 VRDP Shares with respect to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund or (b) amend, alter or repeal the provisions of the Declaration, or this Statement, whether by merger, consolidation or otherwise, so as to materially and adversely affect any preference, right or power of the Series 7 VRDP Shares or the Holders or the Beneficial Owners thereof; provided, however, that (i) none of the actions permitted by the first sentence of this paragraph (c) or by paragraph (a) of Section 12 of Part I of this Statement will be deemed to so affect such preferences, rights or powers, (ii) a division of a VRDP Share will be deemed to so affect such preferences, rights or powers only if the terms of such division adversely affect the Holders of Series 7 VRDP Shares and (iii) the authorization, creation and issuance of classes or series of shares ranking junior to the Series 7 VRDP Shares with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund will be deemed to so affect such preferences, rights or powers only if such issuance would, at the time thereof, cause the Fund not to satisfy the Minimum VRDP Asset Coverage. For purposes of the foregoing, except as otherwise set forth in this

Statement, no matter shall be deemed to materially and adversely affect any right, preference or power of the Series 7 VRDP Shares or the Holders thereof unless such matter (i) alters or abolishes any preferential right of such Series; (ii) alters or abolishes any right in respect of redemption of such Series; or (iii) creates or alters (other than to abolish or to comply with applicable law) any restriction on transfer applicable to such Series. So long as any Series 7 VRDP Shares are Outstanding, the Fund shall not, without the affirmative vote or consent of the Holders of at least $66\frac{2}{3}\%$ of the Series 7 VRDP Shares Outstanding at the time, in person or by proxy, either in writing or at a meeting, voting as a separate class, file a voluntary application for relief under federal bankruptcy law or any similar application under state law for so long as the Fund is solvent and does not foresee becoming insolvent. If any action set forth above requiring the vote of Holders of Series 7 VRDP Shares would adversely affect the rights of Series 7 VRDP in a manner different from any other Series of VRDP, the Fund will not approve any such action without the affirmative vote or consent of the Holders of at least a majority of the shares of the Series 7 VRDP Outstanding at the time, in person or by proxy, either in writing or at a meeting (the Series 7 VRDP voting as a separate class). Notwithstanding the foregoing, as set forth in paragraph (b) of Section 8 of Part I of this Statement, the Fund, without the vote, approval or consent of Holders of Series 7 VRDP Shares or other shareholders of the Fund, has the right to (x) terminate the services of any and all Rating Agencies providing a long-term rating for the Series 7 VRDP Shares, and such rating or ratings, to the extent it or they would have been taken into account in any of the provisions in this Statement, will be disregarded (other than the effect of the absence of such ratings for purposes of determining the Maximum Rate) and (y) provide for Other Special Rate Period Provisions in accordance with, but subject to the limitations set forth in, paragraph (f) of Section 4 of Part I of this Statement. No vote of the holders of Common Shares shall be required to amend, alter or repeal the provisions of this Statement.

(ii) **1940 Act Matters.** Unless a higher percentage is provided for in the Declaration, the affirmative vote of the holders of at least a majority of the Outstanding Preferred Shares, including VRDP Shares, outstanding at the time, voting as a separate class, shall be required to approve any (A) conversion of the Fund from a closed-end to an open-end investment company, (B) any plan of reorganization (as such term is used in the 1940 Act) adversely affecting such shares and (C) any other action requiring a vote of security holders of the Fund under Section 13(a) of the 1940 Act. For purposes of the foregoing, majority of the Outstanding Preferred Shares means (i) 67% or more of such shares present at a meeting, if the holders of more than 50% of such shares are present or represented by proxy, or (ii) more than 50% of such shares, whichever is less.

(iii) **Exclusive Right to Vote on Certain Matters.** Except as otherwise required by the 1940 Act, other applicable law or the Declaration, (i) whenever a vote of Holders of Series 7 VRDP Shares is otherwise required by this Statement, Holders of Outstanding Series 7 VRDP Shares will be entitled as a Series, to the exclusion of the holders of all other shares, including other Preferred Shares, Common Shares and other classes of shares of beneficial interest of the Fund, to vote on matters affecting Series 7 VRDP Shares only and (ii) Holders of Outstanding Series 7 VRDP Shares will not be entitled to vote on matters affecting any other Preferred Shares that do not adversely affect any of the rights of Holders of Series 7 VRDP Shares, as expressly set forth in the Declaration and this Statement.

(d) **Fund May Take Certain Actions Without Shareholder Approval.** The Fund is not required to maintain any particular short-term or long-term ratings for the Series 7 VRDP Shares, and, subject only to Section 8 of this Part I, the Fund, without the vote, approval or consent of any holder of Preferred Shares, including any Series of VRDP, or any other shareholder of the Fund, may from time to time adopt, amend, alter or repeal any or all of the definitions contained herein, add covenants and other obligations of the Fund, or confirm the applicability of covenants and other obligations set forth herein, in connection with obtaining, maintaining or changing the rating of any Rating Agency which is then rating the Series 7 VRDP Shares, and any such adoption, amendment, alteration or repeal will not be deemed to affect the preferences, rights or powers of Series 7 VRDP Shares, or the Holders thereof.

Subject only to Section 8 of this Part I, the Fund may, at any time, replace a Rating Agency or terminate the services of any Rating Agencies then providing a rating for the Series 7 VRDP Shares without replacement, in either case, without the vote, approval or consent of Holders of Series 7 VRDP Shares or other shareholders of the Fund. In the event a Rating Agency ceases to furnish a long-term rating for the Series 7 VRDP Shares or the Fund terminates the services of a Rating Agency then providing a long-term rating for the Series 7 VRDP Shares, such rating, to the extent it would have been taken into account in any of the provisions of the Series 7 VRDP Shares included in this Statement, will be disregarded, and only the ratings of the then-designated Rating Agency or Agencies, if any, will be taken into account (other than the effect of the absence of such ratings for purposes of determining the Maximum Rate).

Notwithstanding the foregoing, nothing in this Section 5 is intended in any way to limit the ability of (i) the Fund to make certain adjustments in the Remarketing Agreement as provided under the definition of Maximum Rate, subject to the limitations set forth in such definition, or (ii) the Board of Trustees to amend or alter other provisions of this Statement, without the vote, approval or consent of any Holder of Series 7 VRDP Shares, or any other shareholder of the Fund, as otherwise provided in this Statement.

(e) **Voting Rights Set Forth Herein are Sole Voting Rights.** Unless otherwise required by law, the Holders of Series 7 VRDP Shares shall not have any voting rights, relative rights or preferences or other special rights other than those specifically set forth herein.

(f) **No Preemptive Rights or Cumulative Voting.** The Holders of Series 7 VRDP Shares shall have no preemptive rights or rights to cumulative voting.

(g) **Sole Remedy for Fund's Failure to Pay Dividends**In the event that the Fund fails to pay any dividends on the Series 7 VRDP Shares, the sole remedy of the Holders under this Statement, without limitation of any rights to payment of such dividends or other rights under the Declaration, this Statement and applicable law, shall be the right to vote for trustees pursuant to the provisions of this Section 5.

(h) **Holders Entitled to Vote.** For purposes of determining any rights of the Holders to vote on any matter, whether such right is created by this Statement, by the other provisions of the Declaration, by statute or otherwise, no Holder shall be entitled to vote any Series 7 VRDP Share and no Series 7 VRDP Share shall be deemed to be outstanding for the purpose of voting or determining the number of shares required to constitute a quorum if, prior to or concurrently with the time of determination of shares entitled to vote or shares deemed outstanding for quorum purposes, as

the case may be, the requisite Notice of Redemption with respect to such shares shall have been provided as set forth in paragraph (c) of Section 9 of Part I of this Statement and Deposit Securities with a Market Value at least equal to the Redemption Price for the redemption of such shares shall have been deposited in trust with the Tender and Paying Agent for that purpose. Series 7 VRDP Shares owned (legally or beneficially) or controlled by the Fund shall not have any voting rights or be deemed to be Outstanding for voting or for calculating the voting percentage required on any other matter or other purposes.

6. **Minimum VRDP Asset Coverage.** The Fund shall maintain, as of the close of business on the last Business Day of each month on which any Series 7 VRDP Share is Outstanding, the Minimum VRDP Asset Coverage.

7. **Restrictions on Dividends and Other Distributions.**

(a) **Dividends on Preferred Shares Other than the Series 7 VRDP Shares.** Except as set forth in the next sentence, no dividends shall be declared or paid or set apart for payment on the shares of any class or series of shares of beneficial interest of the Fund ranking, as to the payment of dividends, on a parity with the Series 7 VRDP Shares for any period unless full cumulative dividends have been or contemporaneously are declared and paid on the shares of each Series of VRDP through its most recent dividend payment date. When dividends are not paid in full upon the shares of each Series of VRDP through its most recent dividend payment date or upon the shares of any other class or series of shares of beneficial interest of the Fund ranking on a parity as to the payment of dividends with VRDP Shares through their most recent respective dividend payment dates, all dividends declared and paid upon VRDP Shares and any other such class or series of shares of beneficial interest ranking on a parity as to the payment of dividends with VRDP Shares shall be declared and paid pro rata so that the amount of dividends declared and paid per share on VRDP Shares and such other class or series of shares of beneficial interest shall in all cases bear to each other the same ratio that accumulated dividends per share on the VRDP Shares and such other class or series of shares of beneficial interest bear to each other (for purposes of this sentence, the amount of dividends declared and paid per Series 7 VRDP Share shall be based on the Applicable Rate for such share for the Dividend Periods during which dividends were not paid in full).

(b) **Dividends and Other Distributions With Respect to Common Shares Under the 1940 Act.** The Board of Trustees shall not declare any dividend (except a dividend payable in Common Shares), or declare any other distribution, upon the Common Shares, or purchase Common Shares, unless in every such case the Preferred Shares have, at the time of any such declaration or purchase, an asset coverage (as defined in and determined pursuant to the 1940 Act) of at least 200% (or such other asset coverage as may in the future be specified in or under the 1940 Act as the minimum asset coverage for senior securities which are shares or stock of a closed-end investment company as a condition of declaring dividends on its common shares or stock) after deducting the amount of such dividend, distribution or purchase price, as the case may be.

(c) **Other Restrictions on Dividends and Other Distributions.** For so long as any Series 7 VRDP Share is Outstanding, and except as set forth in paragraph (a) of this Section 7 and paragraph (c) of Section 10 of this Part I, the Fund shall not declare, pay or set apart for payment any dividend or other distribution (other than a dividend or distribution paid in shares of, or in options, warrants or rights to subscribe for or purchase, Common Shares or other shares, if any, ranking junior to the Series 7 VRDP Shares as to the payment of dividends and the distribution of assets upon

dissolution, liquidation or winding up) in respect of the Common Shares or any other shares of the Fund ranking junior to or on a parity with the Series 7 VRDP Shares as to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up, or call for redemption, redeem, purchase or otherwise acquire for consideration any Common Shares or any other such junior shares (except by conversion into or exchange for shares of the Fund ranking junior to the Series 7 VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up), or any such parity shares (except by conversion into or exchange for shares of the Fund ranking junior to or on a parity with Series 7 VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up), unless (i) full cumulative dividends on the Series 7 VRDP Shares through the most recently ended Dividend Period therefor shall have been paid or shall have been declared and sufficient funds for the payment thereof deposited with the Tender and Paying Agent and (ii) the Fund has redeemed the full number of Series 7 VRDP Shares required to be redeemed by any provision for mandatory redemption pertaining thereto.

8. Ratings.

(a) **Short-Term Ratings.** The Fund will use its reasonable best efforts to maintain at least one short-term rating on the Series 7 VRDP Shares, to the extent that the Liquidity Provider then has a short-term debt rating.

(b) **Long-Term Ratings.** The Fund is not required to maintain any, or any particular, long-term ratings for the Series 7 VRDP Shares. To the extent that the Fund does at any time maintain one or more long-term ratings for the Series 7 VRDP Shares from one or more Rating Agencies, the Fund may take any action resulting in a change in, or addition or termination of, any long-term rating for the Series 7 VRDP Shares without the vote, approval or consent of Holders of Series 7 VRDP Shares or any other shareholders of the Fund. The Rating Agency Guidelines, if any, as they may be amended from time to time by the respective Rating Agency, will be reflected in written documents, including the ratings methodologies of the applicable Rating Agency. The Rating Agency Guidelines may be amended by the respective Rating Agency without the approval of the Fund or its Board of Trustees or any Holders of Series 7 VRDP Shares, or any other shareholder of the Fund, and may be changed or eliminated at any time without the vote, approval or consent of Holders of Series 7 VRDP Shares or any other shareholders of the Fund, including in connection with the change or termination by the Fund of any or all long-term ratings then applicable to the Series 7 VRDP Shares.

9. Redemption.

(a) **Optional Redemption.**

(i) Subject to the provisions of paragraph (iv) of this paragraph (a), the Series 7 VRDP Shares may be redeemed, at the option of the Fund, at any time, as a whole or from time to time in part, out of funds legally available therefor, at a redemption price per share equal to the sum of \$100,000 *plus* an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared) to, but not including, the date fixed for redemption; provided, however, that (1) the Series 7 VRDP Shares may not be redeemed in part if after such partial redemption fewer than 50 shares of such Series would remain Outstanding; (2) shares of Series 7 VRDP are not redeemable by the Fund during the Initial Rate Period; and (3) subject to subparagraph (ii) of this paragraph (a), the Notice of Special Rate Period relating to a Special Rate Period for shares of Series 7 VRDP, as delivered to the Remarketing Agent and filed with the Secretary of the Fund, may provide that shares of such

Series shall not be redeemable during the whole or any part of such Special Rate Period or shall be redeemable during the whole or any part of such Special Rate Period only upon payment of such redemption premium or premiums as shall be specified therein (Special Redemption Provisions).

(ii) A Notice of Special Rate Period relating to the Series 7 VRDP for a Special Rate Period thereof may contain Special Redemption Provisions only if the Fund's Board of Trustees, after consultation with the Remarketing Agent and the Liquidity Provider (to the extent that the Remarketing Agent and the Liquidity Provider are appointed as such for such Special Rate Period), determines that such Special Redemption Provisions are in the best interest of the Fund.

(iii) If fewer than all of the Outstanding shares of Series 7 VRDP are to be redeemed pursuant to subparagraph (i) of this paragraph (a), the number of shares of such Series to be redeemed shall be selected either *pro rata* from the Holders of shares of such Series in proportion to the number of shares of such Series held by such Holders or by lot or in such manner as the Fund's Board of Trustees may determine to be fair and equitable and, in each case, in accordance with the applicable rules of the Securities Depository so long as the Series 7 VRDP Shares are held in the book-entry system of the Securities Depository. Subject to the provisions of this Statement and applicable law, the Fund's Board of Trustees will have the full power and authority to prescribe the terms and conditions upon which Series 7 VRDP Shares will be redeemed from time to time.

(iv) The Fund may not on any date send a Notice of Redemption pursuant to paragraph (c) of this Section 9 in respect of a redemption contemplated to be effected pursuant to this paragraph (a) unless on such date the Fund has available Deposit Securities with maturity or tender dates not later than the day preceding the applicable Redemption Date and having a Market Value not less than the amount (including any applicable premium) due to Holders of Series 7 VRDP Shares by reason of the redemption of such shares on such Redemption Date.

(b) **Mandatory Redemption.** (i) (A) The Fund shall redeem all Outstanding Series 7 VRDP Shares on August 3, 2043, at a redemption price equal to \$100,000 per share *plus* accumulated but unpaid dividends thereon (whether or not earned or declared) to, but excluding, such date.

(B) The Fund shall redeem Preferred Shares if the Fund fails to maintain the Minimum VRDP Asset Coverage in accordance with this Statement and such failure is not cured on or before the Minimum VRDP Asset Coverage Cure Date. The number of Preferred Shares to be redeemed, which at the Fund's sole option (to the extent permitted by the 1940 Act and Massachusetts law) may include any number or proportion of Preferred Shares of any series, shall be equal to the lesser of (i) the minimum number of Preferred Shares, the redemption of which, if deemed to have occurred immediately prior to the opening of business on the Minimum VRDP Asset Coverage Cure Date, would, together with all other Preferred Shares subject to retirement, result in the Fund's maintaining the Minimum VRDP Asset Coverage on such Minimum VRDP Asset Coverage Cure Date (provided, however, that, if there is no such minimum number of Preferred Shares the redemption of which would have such result, all VRDP Shares and other Preferred Shares then Outstanding shall be

redeemed) and (ii) the maximum number of Preferred Shares that can be redeemed out of funds legally available therefor in accordance with the Declaration and applicable law. To the extent that the Fund redeems VRDP Shares in accordance with the foregoing, the Fund shall allocate the number of VRDP Shares to be redeemed *pro rata* among each Series of VRDP subject to redemption. The Fund shall effect such redemption on the date fixed by the Fund therefor, which date shall not be earlier than 10 days nor later than 30 days after the Minimum VRDP Asset Coverage Cure Date, except that, if the Fund does not have funds legally available for the redemption or retirement of all of the required number of VRDP Shares and other Preferred Shares which are subject to redemption or retirement or the Fund otherwise is unable as a result of applicable law to effect such redemption on or prior to 30 days after the Minimum VRDP Asset Coverage Cure Date, the Fund shall redeem those VRDP Shares and other Preferred Shares which it was unable to redeem or retire on the earliest practicable date on which it is able to effect such redemption or retirement. The Fund will redeem any Series 7 VRDP Shares at a redemption price equal to \$100,000 per share, plus accumulated but unpaid dividends thereon (whether or not earned or declared) to, but excluding, the date fixed by the Board of Trustees for redemption.

(C) Except in the case of a Failed Remarketing Condition Purchased VRDP Shares Redemption, as described below, if fewer than all of the Outstanding shares of Series 7 VRDP are to be redeemed pursuant to this paragraph (b), the number of shares of such Series to be redeemed shall be selected either *pro rata* from the Holders of shares of such Series in proportion to the number of shares of such Series held by such Holders or by lot or in such manner as the Fund's Board of Trustees may determine to be fair and equitable and, in each case, in accordance with the applicable rules of the Securities Depository so long as the Series 7 VRDP Shares are held in the book-entry system of the Securities Depository.

(ii) (A) In accordance with this Statement and if then required pursuant to the VRDP Fee Agreement, if the Liquidity Provider acquires any Series 7 VRDP Shares pursuant to the Purchase Obligation and continues to be the beneficial owner for federal income tax purposes of such Purchased VRDP Shares for a period of six months during which such Purchased VRDP Shares cannot be successfully remarketed (i.e., a Failed Remarketing Condition Purchased VRDP Shares shall have occurred and be continuing for such period of time with respect to such Purchased VRDP Shares), the Fund shall effect a Failed Remarketing Condition Purchased VRDP Shares Redemption; provided, that, as of the date of redemption: (i) to the extent any Series 7 VRDP Shares are Outstanding and held by Persons other than the Liquidity Provider, the Purchase Obligation of the Liquidity Provider whose Series 7 VRDP Shares are subject to the Failed Remarketing Condition Purchased VRDP Shares Redemption remains in effect to the extent required by, and in accordance with, the VRDP Purchase Agreement to which such Liquidity Provider is a party, and (ii) to the extent (a) any Series 7 VRDP Shares are Outstanding and held by Persons other than the Liquidity Provider and (b) the Purchase Obligation of the Liquidity Provider whose Series 7 VRDP Shares are subject to the Failed Remarketing Condition Purchased VRDP Shares Redemption remains in effect to the extent required by, and in accordance with, the VRDP Purchase Agreement to which such Liquidity Provider is a party, the Liquidity Provider whose Series 7 VRDP Shares are subject to the Failed Remarketing Condition Purchased VRDP Shares Redemption shall have made written affirmation to the

Fund not later than the Business Day immediately preceding the Redemption Date to the effect that the Liquidity Provider is in compliance with the Purchase Obligation in accordance with its terms. Notwithstanding the foregoing proviso, any failure or delay by the Liquidity Provider whose Series 7 VRDP Shares are subject to the Failed Remarketing Condition Purchased VRDP Shares Redemption to deliver the affirmation referred to in the foregoing proviso shall not relieve the Fund of its obligation to effectuate a Failed Remarketing Condition Purchased VRDP Shares Redemption and shall only result in a delay by the Fund to effectuate a Failed Remarketing Condition Purchased VRDP Shares Redemption until one (1) Business Day following the date that such Liquidity Provider delivers such affirmation or on which such affirmation is no longer required to be delivered. The six-month holding period for Purchased VRDP Shares acquired and held as a result of a continuing Failed Remarketing Condition Purchased VRDP Shares shall be determined by the Fund on a first-in, first-out basis. The Fund shall effect a Failed Remarketing Condition Purchased VRDP Shares Redemption on the date fixed by the Fund therefor, which date shall not be later than three Business Days after the expiration of the six-month holding period in respect of the applicable Purchased VRDP Shares, except that if the Fund does not have funds legally available for the redemption of all of the required number of Purchased VRDP Shares which are subject to the Failed Remarketing Condition Purchased VRDP Shares Redemption or the Fund otherwise is unable as a result of applicable law to effect such redemption on or prior to three Business Days after the expiration of the applicable six-month holding period, the Fund shall redeem those Series 7 VRDP Shares which it was unable to redeem on the earliest practicable date on which it is able to effect such redemption. In the event that the Liquidity Provider receives any Series 7 VRDP Shares in the distribution referred to under Designation of Series 7 VRDP above in respect of shares of Target Fund VRDP (x) beneficially owned by the Liquidity Provider for federal income tax purposes and that were acquired pursuant to the Liquidity Provider's purchase obligation with respect to the Target Fund VRDP, (y) continuously beneficially owned for federal income tax purposes by the Liquidity Provider from the date of acquisition and (z) not successfully remarketed, then (I) the Series 7 VRDP Shares so received shall be treated as Purchased VRDP Shares, (II) a Failed Remarketing Condition Purchased VRDP Shares shall be deemed to exist and be continuing as of the date of distribution of the Series 7 VRDP Shares and to have commenced on the date the Liquidity Provider acquired the related shares of Target Fund VRDP pursuant to the Liquidity Provider's purchase obligation with respect to the Target Fund VRDP and (III) any notices given by the Liquidity Provider in accordance with the VRDP fee agreement relating to the Target Fund VRDP shall be deemed to have been given in accordance with the VRDP Fee Agreement for purposes of this subsection (b)(ii).

(B) Upon the occurrence and during the continuance of a Failed Remarketing Condition Purchased VRDP Shares with respect to any Series 7 VRDP Shares, by the fifth Business Day following delivery of notice thereof from the Liquidity Provider in accordance with the VRDP Fee Agreement, the Fund shall cause the Custodian to segregate, by means of appropriate identification on its books and records or otherwise in accordance with the Custodian's normal procedures, from the other assets of the Fund (a Liquidity Account) Liquidity Account Investments with a Market Value equal to at least 110% of the Liquidation Preference of such Purchased VRDP Shares. If, while the Failed Remarketing Condition Purchased VRDP Shares with respect to such Purchased VRDP Shares is continuing, the aggregate Market Value of the Liquidity Account Investments included in the Liquidity Account for such

Purchased VRDP Shares as of the close of business on any Business Day is less than 110% of the Liquidation Preference of such Purchased VRDP Shares, then the Fund shall cause the Custodian and the Investment Adviser to take all such necessary actions, including segregating additional assets of the Fund as Liquidity Account Investments, so that the aggregate Market Value of the Liquidity Account Investments included in the Liquidity Account for such Purchased VRDP Shares is at least equal to 110% of the Liquidation Preference of such Purchased VRDP Shares not later than the close of business on the next succeeding Business Day. With respect to assets of the Fund segregated as Liquidity Account Investments, the Investment Adviser, on behalf of the Fund, shall be entitled to instruct the Custodian with a copy to the Liquidity Provider on any date to release any Liquidity Account Investments with respect to any Purchased VRDP Shares from such segregation and to substitute therefor other Liquidity Account Investments, so long as (x) the assets of the Fund segregated as Liquidity Account Investments with respect to such Purchased VRDP Shares at the close of business on such date have a Market Value equal to 110% of the Liquidation Preference of such Purchased VRDP Shares and (y) the assets of the Fund designated and segregated as Deposit Securities at the close of business on such date have a Market Value equal to the Liquidity Requirement (if any) determined in accordance with subparagraph (C) below with respect to such Purchased VRDP Shares for such date. The Fund shall cause the Custodian not to permit any lien, security interest or encumbrance to be created or permitted to exist on or in respect of any Liquidity Account Investments included in the Liquidity Account for any Purchased VRDP Shares, other than liens, security interests or encumbrances arising by operation of law and any lien of the Custodian with respect to the payment of its fees or repayment for its advances.

(C) Subject to notice having been received as referred to in subparagraph (B) above, the Market Value of the Deposit Securities held in the Liquidity Account for any Purchased VRDP Shares, from and after the day (or if such day is not a Business Day, the next succeeding Business Day) preceding the expiration of the six-month holding period for the Failed Remarketing Condition Purchased VRDP Shares applicable to such Purchased VRDP Shares (which may result in multiple six month holding periods, each in respect of a Failed Remarketing Condition Purchased VRDP Shares in respect of applicable Purchased VRDP Shares) specified in the table set forth below, shall not be less than the percentage of the Liquidation Preference for such Purchased VRDP Shares set forth below opposite such day (the Liquidity Requirement), but in all cases subject to the cure provisions of paragraph (D) below:

Number of Days* Preceding the Six-Month Anniversary of Liquidity Provider's Purchase	Value of Deposit Securities as Percentage of Liquidation Preference
135	20%
105	40%
75	60%
45	80%
15	100%

* Or if such day is not a Business Day, the next succeeding Business Day

(D) If the aggregate Market Value of the Deposit Securities included in the Liquidity Account for any Purchased VRDP Shares as of the close of business on any Business Day is less than the Liquidity Requirement in respect of such Purchased VRDP Shares for such Business Day, then the Fund shall cause the segregation of additional or substitute Deposit Securities in respect of the Liquidity Account for such Purchased VRDP Shares, so that the aggregate Market Value of the Deposit Securities included in the Liquidity Account for such Purchased VRDP Shares is at least equal to the Liquidity Requirement for such Purchased VRDP Shares not later than the close of business on the next succeeding Business Day.

(E) The Deposit Securities included in the Liquidity Account for any Purchased VRDP Shares may be applied by the Fund, in its discretion, towards payment of the Redemption Price for such Purchased VRDP Shares. Upon the earlier to occur of (x) the successful Remarketing of the Purchased VRDP Shares or (y) the deposit by the Fund with the Tender and Paying Agent with arrangements satisfactory to the Liquidity Provider of Deposit Securities having an initial combined Market Value sufficient to effect the redemption of such Purchased VRDP Shares on the Redemption Date for such Purchased VRDP Shares, the requirement of the Fund to maintain a Liquidity Account for such Purchased VRDP Shares as contemplated by this Section 9(b)(ii) shall lapse and be of no further force and effect.

(F) The provisions of subparagraphs (A) through (E) of this Section 9(b)(ii) may be amended by the Fund, by resolution of the Board of Trustees duly adopted, without shareholder approval in order to conform to the terms of a VRDP Fee Agreement or as otherwise necessary or desirable in the judgment of the Board of Trustees, provided that the Fund receives the prior written consent of the Liquidity Provider.

(iii) At least six months prior to the scheduled mandatory Redemption Date of August 3, 2043 specified in Section 9(b)(i) above, if any Series 7 VRDP Shares then remain Outstanding, the Fund shall cause the Custodian to segregate in a Liquidity Account (but without duplication of any Liquidity Account then in effect pursuant to Section 9(b)(ii) above), by means of appropriate identification on its books and records or otherwise in accordance with the Custodian's normal procedures, from the other assets of the Fund, Liquidity Account Investments with a Market Value equal to at least 110% of the Liquidation Preference of the then Outstanding Series 7 VRDP Shares. The Fund shall maintain such Liquidity Account in accordance with Section 9(b)(ii)(B), (C) and (D) above and comply with the requirements set forth therein with respect to Liquidity Account Investments and the Liquidity Requirement; provided, that for purposes of this Section 9(b)(iii) all references therein to Purchased VRDP Shares shall be deemed to be to all Outstanding Series 7 VRDP Shares, all references therein to the Failed Remarketing Condition Purchased VRDP Shares or the related six-month period shall be deemed to be to the six-month period preceding the scheduled mandatory Redemption Date of August 3, 2043, and the references to notice by the Liquidity Provider shall not be applicable. The Deposit Securities included in the Liquidity Account for the Outstanding Series 7 VRDP Shares may be applied by the Fund, in its discretion, towards payment of the Redemption Price for the Outstanding Series 7 VRDP Shares. Upon the deposit by the Fund with the Tender and Paying Agent with arrangements satisfactory to the Liquidity Provider of Deposit Securities having an initial combined Market Value sufficient to effect the redemption of the Outstanding Series 7 VRDP Shares on the

August 3, 2043 Redemption Date for the Outstanding Series 7 VRDP Shares, the requirement of the Fund to maintain a Liquidity Account for the Outstanding Series 7 VRDP Shares as contemplated by this Section 9(b)(iii) shall lapse and be of no further force and effect.

(c) **Notice of Redemption.** If the Fund shall determine or be required to redeem, in whole or in part, shares of Series 7 VRDP pursuant to paragraph (a) or (b)(i) of this Section 9, the Fund will send a notice of redemption (a Notice of Redemption), by Electronic Means (or by first class mail, postage prepaid, in the case where the Series 7 VRDP Shares are in physical form outside the book-entry system of the Securities Depository), to Holders thereof and the Liquidity Provider or, in the case of a redemption pursuant to paragraph (b)(ii) of this Section 9, only to the Liquidity Provider, or request the Tender and Paying Agent, on behalf of the Fund to promptly do so by Electronic Means (or by first class mail, postage prepaid, in the case where the Series 7 VRDP Shares are in physical form outside the book-entry system of the Securities Depository) so long as the Notice of Redemption is furnished by the Fund to the Tender and Paying Agent in electronic format at least five (5) Business Days prior to the date a Notice of Redemption is required to be delivered to the Holders, unless a shorter period of time shall be acceptable to the Tender and Paying Agent. A Notice of Redemption shall be sent to Holders not less than 10 days prior to the date fixed for redemption in such Notice of Redemption (the Redemption Date). Each such Notice of Redemption shall state: (i) the Redemption Date; (ii) the number of Series 7 VRDP Shares to be redeemed and the Series thereof; (iii) the CUSIP number for the Series 7 VRDP Shares; (iv) the Redemption Price or, if not then ascertainable, the manner of calculation thereof; (v) if applicable, the place or places where the certificate(s), if any, for such VRDP Shares (properly endorsed or assigned for transfer, if the Board of Trustees requires and the Notice of Redemption states) are to be surrendered for payment of the Redemption Price; (vi) that dividends on the Series 7 VRDP Shares to be redeemed will cease to accumulate from and after such Redemption Date; and (vii) the provisions of this Statement under which such redemption is made. If fewer than all Series 7 VRDP Shares held by any Holder are to be redeemed, the Notice of Redemption delivered to such Holder shall also specify the number of Series 7 VRDP Shares to be redeemed from such Holder. The Fund may provide in any Notice of Redemption relating to an optional redemption contemplated to be effected pursuant to this Statement that such redemption is subject to one or more conditions precedent not otherwise expressly stated herein and that the Fund shall not be required to effect such redemption unless each such condition has been satisfied at the time or times and in the manner specified in such Notice of Redemption. No defect in the Notice of Redemption or delivery thereof shall affect the validity of redemption proceedings, except as required by applicable law.

(d) **No Redemption Under Certain Circumstances.** Notwithstanding the provisions of paragraphs (a) or (b) of this Section 9, if any dividends on shares of Series 7 VRDP (whether or not earned or declared) are in arrears, no shares of such Series shall be redeemed unless all Outstanding shares of such Series are simultaneously redeemed, and the Fund shall not purchase or otherwise acquire any shares of such Series; provided, however, that the foregoing shall not prevent the purchase or acquisition of all Outstanding shares of such Series pursuant to the successful completion of an otherwise lawful purchase or exchange offer made on the same terms to, and accepted by, Holders of all Outstanding shares of such Series.

(e) **Absence of Funds Available for Redemption.** To the extent that any redemption for which a Notice of Redemption has been provided is not made by reason of the absence of legally available funds therefor in accordance with the Declaration and applicable law, such redemption shall be made as soon as practicable to the extent such funds become available. A failure to redeem Series 7 VRDP Shares shall be deemed to exist at any time after the date specified for

redemption in a Notice of Redemption when the Fund shall have failed, for any reason whatsoever, to deposit in trust with the Tender and Paying Agent the Redemption Price with respect to any shares for which such Notice of Redemption has been sent; provided, however, that the foregoing shall not apply in the case of the Fund's failure to deposit in trust with the Tender and Paying Agent the Redemption Price with respect to any shares where (i) the Notice of Redemption relating to such redemption provided that such redemption was subject to one or more conditions precedent and (ii) any such condition precedent shall not have been satisfied at the time or times and in the manner specified in such Notice of Redemption. Notwithstanding the fact that the Fund may not have redeemed Series 7 VRDP Shares for which a Notice of Redemption has been provided, dividends shall be declared and paid on Series 7 VRDP Shares in accordance with and subject to the conditions of this Statement and shall be included in the Redemption Price in respect of those Series 7 VRDP Shares for which a Notice of Redemption has been provided.

(f) **Tender and Paying Agent as Trustee of Redemption Payments by Fund.** All moneys paid to the Tender and Paying Agent for payment of the Redemption Price of Series 7 VRDP Shares called for redemption shall be held in trust by the Tender and Paying Agent for the benefit of Holders of shares so to be redeemed.

(g) **Deposit with the Tender and Paying Agent; Shares for Which Notice of Redemption Has Been Given Are No Longer Outstanding.** Provided a Notice of Redemption has been given pursuant to paragraph (c) of this Section 9, not later than 12:00 noon, New York City time, on a Business Day not less than ten (10) days preceding the Redemption Date specified in such notice, the Fund shall irrevocably deposit with the Tender and Paying Agent an aggregate amount of Deposit Securities with a Market Value at least equal to the Redemption Price to be paid on the Redemption Date for the Series 7 VRDP Shares that are subject to such notice. Provided a Notice of Redemption has been given pursuant to paragraph (c) of this Section 9, upon the deposit with the Tender and Paying Agent of Deposit Securities with a Market Value at least equal to the Redemption Price to be paid on the Redemption Date for the Series 7 VRDP Shares that are the subject of such notice, dividends on such shares shall cease to accumulate, except as included in the Redemption Price, and such shares shall no longer be deemed to be Outstanding, except as noted below with respect to the VRDP Purchase Agreement, for any purpose, and all rights of the Holders of the shares so called for redemption shall cease and terminate, except the right of such Holders to receive the Redemption Price, but without any interest or other additional amount, except as provided in paragraph (e)(i) of Section 2 of this Part I and in Section 3 of Part I of this Statement. Upon surrender in accordance with the Notice of Redemption of the certificates for any shares so redeemed (properly endorsed or assigned for transfer, if the Board of Trustees shall so require and the Notice of Redemption shall so state), the Redemption Price shall be paid by the Tender and Paying Agent to the Holders of Series 7 VRDP Shares subject to redemption. In the case that fewer than all of the shares represented by any such certificate are redeemed, a new certificate shall be issued, representing the unredeemed shares, without cost to the Holder thereof. The Fund shall be entitled to receive from the Tender and Paying Agent, promptly after the date fixed for redemption, any cash deposited with the Tender and Paying Agent in excess of (i) the aggregate Redemption Price of the Series 7 VRDP Shares called for redemption on such date and (ii) all other amounts to which Holders of Series 7 VRDP Shares called for redemption may be entitled. Any funds so deposited that are unclaimed at the end of 90 days from such Redemption Date shall, to the extent permitted by law, be repaid to the Fund, after which time the Holders of Series 7 VRDP Shares so called for redemption may look only to the Fund for payment of the Redemption Price and all other amounts to which they may be entitled. The Fund shall be entitled to receive, from time to time after the date fixed for redemption, any interest on the funds so deposited.

Notwithstanding the foregoing, Series 7 VRDP Shares will be deemed to be Outstanding for purposes of the VRDP Purchase Agreement until redeemed by the Fund.

(h) **Compliance With Applicable Law.** In effecting any redemption pursuant to this Section 9, the Fund shall use its best efforts to comply with all applicable conditions precedent to effecting such redemption under the 1940 Act and any applicable Massachusetts law, but shall effect no redemption except in accordance with the 1940 Act and any applicable Massachusetts law.

(i) **Only Whole VRDP Shares May Be Redeemed.** In the case of any redemption pursuant to this Section 9, only whole Series 7 VRDP Shares shall be redeemed, and in the event that any provision of the Declaration would require redemption of a fractional share, the Tender and Paying Agent shall be authorized to round up so that only whole shares are redeemed.

(j) **Modification of Redemption Procedures.** Notwithstanding the foregoing provisions of this Section 9, the Fund may, in its sole discretion, modify the procedures set forth above with respect to notification of redemption for the Series 7 VRDP Shares, provided that such modification does not materially and adversely affect the Holders of the Series 7 VRDP Shares or cause the Fund to violate any law, rule or regulation; and provided further that no such modification shall in any way alter the obligations of the Tender and Paying Agent without its prior written consent. Furthermore, if in the sole discretion of the Board of Trustees, after consultation with counsel, modification of the foregoing redemption provisions are permissible under the rules and regulations or interpretations of the SEC and the Code with respect to the redemption of Series 7 VRDP Shares owned by the Liquidity Provider, the Fund, without shareholder approval, by resolution of the Board of Trustees, may modify such redemption procedures.

10. **Liquidation Rights.**

(a) **Ranking.** The shares of Series 7 VRDP shall rank on a parity with each other, with shares of any other Series of VRDP and with shares of any other series of Preferred Shares as to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund.

(b) **Distributions Upon Liquidation.** Upon the dissolution, liquidation or winding up of the affairs of the Fund, whether voluntary or involuntary, the Holders of Series 7 VRDP Shares then Outstanding shall be entitled to receive and to be paid out of the assets of the Fund available for distribution to its shareholders, before any payment or distribution shall be made on the Common Shares or on any other class of shares of the Fund ranking junior to the Series 7 VRDP Shares upon dissolution, liquidation or winding up, an amount equal to the Liquidation Preference with respect to such shares *plus* an amount equal to all dividends thereon (whether or not earned or declared) accumulated but unpaid to (but not including) the date of final distribution in same day funds, together with any payments required to be made pursuant to Section 3 of Part I of this Statement in connection with the liquidation of the Fund. After the payment to the Holders of the Series 7 VRDP Shares of the full preferential amounts provided for in this paragraph (b), the Holders of Series 7 VRDP Shares as such shall have no right or claim to any of the remaining assets of the Fund.

(c) **Pro Rata Distributions.** In the event the assets of the Fund available for distribution to the Holders of Series 7 VRDP Shares upon any dissolution, liquidation or winding up of the affairs of the Fund, whether voluntary or involuntary, shall be insufficient to pay in full all amounts to which such Holders are entitled pursuant to paragraph (b) of this Section 10, no such distribution

shall be made on account of Series 7 VRDP or any shares of any other class or series of Preferred Shares ranking on a parity with the Series 7 VRDP Shares with respect to the distribution of assets upon such dissolution, liquidation or winding up unless proportionate distributive amounts shall be paid on account of the Series 7 VRDP Shares, ratably, in proportion to the full distributable amounts for which holders of Series 7 VRDP Shares and all such parity shares are respectively entitled upon such dissolution, liquidation or winding up.

(d) **Rights of Junior Shares.** Subject to the rights of the holders of shares of any other series or class or classes of shares ranking on a parity with the Series 7 VRDP Shares with respect to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, after payment shall have been made in full to the Holders of the Series 7 VRDP Shares as provided in paragraph (b) of this Section 10, but not prior thereto, any other series or class or classes of shares ranking junior to the Series 7 VRDP Shares with respect to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund shall, subject to the respective terms and provisions (if any) applying thereto, be entitled to receive any and all assets remaining to be paid or distributed, and the Holders of the Series 7 VRDP Shares shall not be entitled to share therein.

(e) **Certain Events Not Constituting Liquidation.** Neither the sale of all or substantially all the property or business of the Fund, nor the merger, consolidation or reorganization of the Fund into or with any business or statutory trust, corporation or other entity nor the merger, consolidation or reorganization of any business or statutory trust, corporation or other entity into or with the Fund shall be a dissolution, liquidation or winding up, whether voluntary or involuntary, for the purposes of this Section 10.

11. **Purchase Obligation.** As long as Series 7 VRDP Shares are Outstanding, except as otherwise provided pursuant to Section 4 of Part I of this Statement in connection with a Special Rate Period, the Fund shall maintain a VRDP Purchase Agreement providing for a Purchase Obligation with a Liquidity Provider with short-term debt ratings in one of the two highest ratings categories from the Requisite NRSROs or such other short-term debt ratings, if any, as may be required for the Series 7 VRDP Shares to satisfy the eligibility criteria under Rule 2a-7 under the 1940 Act on an ongoing basis to the extent that the Fund can do so on a commercially reasonable basis as determined in the sole discretion of the Board of Trustees. If the Fund maintains a VRDP Purchase Agreement providing a Purchase Obligation, the provisions herein relating to the Liquidity Provider shall be operative and the following shall apply:

(a) The Fund shall notify, or cause the Tender and Paying Agent to notify, Holders by Electronic Means, or by first class mail, postage prepaid, in the case in which Series 7 VRDP Shares are in physical form outside the book-entry system of the Securities Depository, (A) of the occurrence of a Mandatory Tender Event or Mandatory Purchase Event, (B) in the event that there is a substitute Liquidity Provider (including, but not limited to, as to the Liquidity Provider, its consolidation or amalgamation with, or merger with or into, another entity, or the transfer of all or substantially all of the Liquidity Provider's assets to another entity), such notice to be provided at least seven days prior to any such substitution, or (C) any downgrade in the short-term or long-term rating of the Series 7 VRDP Shares or the short-term rating of the Liquidity Provider by an NRSRO then rating the Series 7 VRDP Shares or the Liquidity Provider, as applicable.

(b) In the event of a Failed Remarketing Condition, the Fund will require in the Tender and Paying Agent Agreement that the Tender and Paying Agent will notify the Fund and

Holders by telephone or Electronic Means, or by first class mail, postage prepaid, in the case in which Series 7 VRDP Shares are in physical form outside the book-entry system of the Securities Depository, of such Failed Remarketing Condition.

(c) Each Series 7 VRDP Share shall be subject to Tender to the Tender and Paying Agent for Remarketing on the related Purchase Date or, in the event (i) no Remarketing occurs or (ii) pursuant to an attempted Remarketing shares remain unsold and the Remarketing Agent does not purchase for its own account the unsold Series 7 VRDP Shares tendered to the Tender and Paying Agent for Remarketing (provided that the Remarketing Agent may seek to sell such Series 7 VRDP Shares in a subsequent Remarketing prior to the Purchase Date), for purchase by the Liquidity Provider on such Purchase Date pursuant to a Final Notice of Purchase. If there is no Tender and Paying Agent or the Tender and Paying Agent does not perform such obligation pursuant to the VRDP Purchase Agreement, Beneficial Owners and their Agent Members shall have the right to tender their Series 7 VRDP Shares directly to the Liquidity Provider pursuant to a Final Notice of Purchase. In the event there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not, or in the reasonable judgment of the Fund will not, perform its obligations under the VRDP Purchase Agreement, the Fund (i) upon becoming aware thereof, shall promptly notify the Liquidity Provider, the Remarketing Agent and the Holders by Electronic Means of such event, and (ii) so long as such event is continuing, shall use its best efforts to direct the Remarketing Agent to forward, concurrently with the delivery thereof to the Liquidity Provider or as promptly as practicable thereafter, any Remarketing Notice to each Beneficial Owner or Holder tendering Series 7 VRDP Shares that are the subject of such notice.

(d) The Fund will require in the Tender and Paying Agent Agreement that, pursuant to a Tender, Series 7 VRDP Shares that are not sold in a Remarketing will be tendered by the Tender and Paying Agent to the Liquidity Provider for payment of the Purchase Price on the Purchase Date pursuant to the VRDP Purchase Agreement.

(e) Except as set forth in Section 9(b)(ii) of Part I of this Statement in connection with a mandatory redemption of Series 7 VRDP Shares, the Fund shall have no obligation to purchase Series 7 VRDP Shares acquired by the Liquidity Provider pursuant to the VRDP Purchase Agreement or otherwise.

(f) Series 7 VRDP Shares are subject to Mandatory Purchase by the Liquidity Provider upon the occurrence of a Mandatory Purchase Event. Promptly following the occurrence of a Mandatory Purchase Event, and in any event within three (3) Business Days thereafter, the Fund, or the Tender and Paying Agent at the direction of the Fund (provided, that the Tender and Paying Agent may require up to two (2) Business Days prior notification by Electronic Means by the Fund), shall provide a Mandatory Purchase Notice by Electronic Means to the Holders and the Liquidity Provider, specifying a Mandatory Purchase Date for all Outstanding Series 7 VRDP Shares. The Mandatory Purchase Date shall not be later than seven days following the date a Mandatory Purchase Notice is sent to Holders by Electronic Means, and in any event shall be not later than the Business Day immediately preceding the termination of the VRDP Purchase Agreement. Any notice given in respect of a Mandatory Purchase under this Statement shall be conclusively presumed to have been duly given, whether or not the Holders or Beneficial Owners receive such notice. Upon the occurrence of a Mandatory Purchase Event, all Outstanding Series 7 VRDP Shares automatically shall be subject to Mandatory Purchase by the Liquidity Provider at the Purchase Price on the Mandatory Purchase Date, including any Series 7 VRDP Shares tendered pursuant to an Optional Tender or Mandatory Tender for which the Purchase Date has not yet occurred.

(g) In the event Series 7 VRDP Shares are issued in certificated form outside the book-entry system of the Securities Depository and a Holder fails to deliver such Series 7 VRDP Shares to which a Mandatory Purchase relates, on or prior to the Mandatory Purchase Date, the Holder of such Series 7 VRDP Shares will not be entitled to any payment (including any accumulated but unpaid dividends thereon, whether or not earned or declared) other than the Purchase Price of such undelivered Series 7 VRDP Shares as of the scheduled Purchase Date. Any such undelivered Series 7 VRDP Shares will be deemed to be delivered to the Tender and Paying Agent, and the Tender and Paying Agent will place stop-transfer orders against the undelivered Series 7 VRDP Shares. Any moneys held by the Tender and Paying Agent for the purchase of undelivered Series 7 VRDP Shares shall be held in a separate account, shall not be invested, and shall be held for the exclusive benefit of the Holder of such undelivered Series 7 VRDP Shares. The undelivered Series 7 VRDP Shares shall be deemed to be no longer Outstanding (except as to entitlement to payment of the Purchase Price), and the Fund will issue to the purchaser replacement Series 7 VRDP Share certificates in lieu of such undelivered Series 7 VRDP Shares.

(h) The Fund shall use its best efforts to engage at all times a Tender and Paying Agent to perform the duties specified in this Statement, the Tender and Paying Agent Agreement and the VRDP Purchase Agreement with respect to the Tender and Paying Agent.

The provisions of paragraphs (a) through (g) of this Section 11 may be amended by the Board of Trustees, by resolution duly adopted, without shareholder approval in order to conform to a VRDP Purchase Agreement providing a Purchase Obligation.

12. Miscellaneous.

(a) **Amendment of or Supplements to this Statement.** The Board of Trustees may, by resolution duly adopted, without shareholder approval (except as otherwise provided by this Statement or required by applicable law), amend or supplement this Statement to (1) reflect any amendments or supplements hereto which the Board of Trustees is entitled to adopt pursuant to the terms of this Statement without shareholder approval or (2) provide for the issuance of additional shares of Series 7 VRDP (and terms relating thereto). Each such additional share of Series 7 VRDP shall be governed by the terms of this Statement as so amended or supplemented.

(b) **No Fractional Shares.** No fractional Series 7 VRDP Shares shall be issued.

(c) **Status of VRDP Shares Redeemed, Exchanged or Otherwise Acquired by the Fund.** Series 7 VRDP Shares which are redeemed, exchanged or otherwise acquired by the Fund shall return to the status of authorized and unissued Preferred Shares without designation as to series, provided, however, that any Series 7 VRDP Shares which are provisionally delivered by the Fund to or for the account of an agent of the Fund or to or for the account of a purchaser of such Series 7 VRDP Shares, but for which final payment is not received by the Fund, shall return to the status of authorized and unissued Series 7 VRDP Shares.

(d) **Purchase Obligation Part of VRDP Shares.** Each Holder and Beneficial Owner, by virtue of acquiring Series 7 VRDP Shares, is deemed to have agreed, for U.S. federal income tax purposes, to treat the Purchase Obligation as part of the Series 7 VRDP Shares rather than as a separate property right.

- (e) **Treatment of VRDP Shares as Stock.** Each Holder and Beneficial Owner, by virtue of acquiring Series 7 VRDP Shares, is deemed to have agreed, for U.S. federal income tax purposes, to treat the Series 7 VRDP Shares as stock in the Fund.
- (f) **Board May Resolve Ambiguities.** To the extent permitted by applicable law, the Board of Trustees may interpret or adjust the provisions of this Statement to resolve any inconsistency or ambiguity or to remedy any formal defect.
- (g) **Headings Not Determinative.** The headings contained in this Statement are for convenience of reference only and shall not affect the meaning or interpretation of this Statement.
- (h) **Notices.** All notices or communications, unless otherwise specified in the by-laws of the Fund or this Statement, shall be sufficiently given if in writing and delivered in person, by Electronic Means or mailed by first-class mail, postage prepaid.

PART II

1. Remarketing Procedures.

- (a) Pursuant to an Optional Tender, Beneficial Owners may elect to tender their Series 7 VRDP Shares (in denominations of \$100,000 and integral multiples thereof) for Remarketing at the Purchase Price on the Purchase Date designated in a Notice of Tender (or if such day is not a Business Day, on the next succeeding Business Day). Each Notice of Tender shall be irrevocable (except as described below) and effective upon receipt and shall:
- (i) be delivered by a Beneficial Owner, directly or through its Agent Member, by email transmission (or if email transmission shall be unavailable, by facsimile transmission), to the Tender and Paying Agent not later than 2:00 p.m., New York City time, on any Business Day;
 - (ii) state the series and the aggregate number of Series 7 VRDP Shares to be purchased, the CUSIP number of the Series 7 VRDP Shares to be purchased, and the Purchase Date and be in substantially the form of and contain such other information specified in an exhibit to the VRDP Purchase Agreement; and
 - (iii) state that the tendering Beneficial Owner acknowledges that such Beneficial Owner is required to deliver the Series 7 VRDP Shares that are the subject of a Notice of Tender (that has not been duly revoked as described below) on or before 2:00 p.m., New York City time, on the Purchase Date.
- (b) Upon receipt of a Notice of Tender, the Tender and Paying Agent shall provide a copy to the Liquidity Provider and the Remarketing Agent (with a copy to the Fund) as promptly as practicable by Electronic Means, but no later than 4:00 p.m., New York City time, on the date of receipt or deemed receipt.
- (c) Any Notice of Tender delivered to the Tender and Paying Agent by a Beneficial Owner or its Agent Member after 2:00 p.m., New York City time, shall be deemed to have been received by the Tender and Paying Agent on the next succeeding Business Day, and the Purchase Date

shall be adjusted such that the Purchase Date shall be the Business Day next succeeding the date specified as the Purchase Date in the relevant Notice of Tender.

- (d) The determination of the Tender and Paying Agent as to whether a Notice of Tender has been properly delivered pursuant to the foregoing in paragraph (a)(i) and (ii) shall be conclusive and binding upon the Beneficial Owner and its Agent Member.
- (e) (i) Series 7 VRDP Shares are subject to Mandatory Tender upon the occurrence of a Mandatory Tender Event.
- (ii) Promptly following the occurrence of a Mandatory Tender Event, and in any event within three (3) Business Days thereafter, the Fund, or the Tender and Paying Agent at the direction of the Fund (provided, that the Tender and Paying Agent may require up to two (2) Business Days prior notification by Electronic Means by the Fund), shall provide a Mandatory Tender Notice by Electronic Means to Holders, the Remarketing Agent and the Liquidity Provider, specifying a Purchase Date for all Outstanding Series 7 VRDP Shares. Any notice given in respect of a Mandatory Tender under this Statement will be conclusively presumed to have been duly given, whether or not the Holders or Beneficial Owners receive such notice.
- (iii) Upon the occurrence of a Mandatory Tender Event, all Outstanding Series 7 VRDP Shares automatically shall be subject to Mandatory Tender and delivered to the Tender and Paying Agent for purchase on the designated Purchase Date by purchasers in the Remarketing in the event of a successful Remarketing or otherwise by the Liquidity Provider, including any Series 7 VRDP Shares previously tendered pursuant to an Optional Tender for which the Purchase Date has not yet occurred. In the event that Series 7 VRDP Shares are issued in certificated form outside the book-entry system of the Securities Depository and a Holder of Series 7 VRDP Shares fails to deliver such Series 7 VRDP Shares to which a Mandatory Tender relates on or prior to the Purchase Date, the Holder of such Series 7 VRDP Shares shall not be entitled to any payment (including any accumulated but unpaid dividends thereon, whether or not earned or declared) other than the Purchase Price of such undelivered Series 7 VRDP Shares as of the scheduled Purchase Date. Any such undelivered Series 7 VRDP Shares will be deemed to be delivered to the Tender and Paying Agent, and the Tender and Paying Agent will place stop-transfer orders against the undelivered Series 7 VRDP Shares. Any moneys held by the Tender and Paying Agent for the purchase of undelivered Series 7 VRDP Shares will be held in a separate account by the Tender and Paying Agent, will not be invested, and will be held for the exclusive benefit of the Holder of such undelivered Series 7 VRDP Shares. The undelivered Series 7 VRDP Shares will be deemed to be no longer Outstanding (except as to entitlement to payment of the Purchase Price), and the Fund will issue to the purchaser replacement Series 7 VRDP Share certificates in lieu of such undelivered Series 7 VRDP Shares.
- (f) A Beneficial Owner or its Agent Member that delivered a Notice of Tender in connection with an Optional Tender may deliver in writing by email transmission (or if email transmission shall be unavailable, by facsimile transmission) to the Tender and Paying Agent, not later than 10:00 a.m., New York City time, on or prior to the Business Day immediately preceding the Purchase Date, a notice to the effect that such Beneficial Owner wishes to revoke its election to tender

some or all of the Series 7 VRDP Shares that were specified in such Notice of Tender to be purchased (a Notice of Revocation). Any Notice of Revocation delivered to the Tender and Paying Agent shall be promptly delivered by Electronic Means by the Tender and Paying Agent to the Liquidity Provider and the Remarketing Agent (with a copy to the Fund) by 12:00 noon, New York City time, on the Business Day immediately preceding the relevant Purchase Date. The Remarketing Agent (following receipt of such Notice of Revocation) shall notify the Tender and Paying Agent and the Liquidity Provider of the number of Series 7 VRDP Shares specified in such Notice of Revocation that are subject to an agreement of sale pursuant to a Remarketing by Electronic Means not later than 2:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date. The Tender and Paying Agent will contact the Remarketing Agent by Electronic Means by 1:45 p.m., New York City time, if such notification has not been received by that time. The Tender and Paying Agent shall deliver such notification to the Beneficial Owner or its Agent Member promptly following receipt from the Remarketing Agent, and in any event by 4:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date. Any such Notice of Revocation shall be effective (without further action on the part of the Beneficial Owner or its Agent Member) as a revocation of the Optional Tender of the number of Series 7 VRDP Shares specified therein as being sought to be revoked, but (except as set forth below) only if and to the extent that the Remarketing Agent has not entered into an agreement to sell such Series 7 VRDP Shares. A Notice of Revocation shall be effective as to the number of Series 7 VRDP Shares specified therein as having been revoked less the number of such Series 7 VRDP Shares in respect of which the Remarketing Agent has so notified the Tender and Paying Agent and the Liquidity Provider that it has entered into an agreement of sale. Notwithstanding the foregoing, (x) tendered Series 7 VRDP Shares, if any, unsold and in respect of which the Remarketing Agent has not entered into an agreement of sale at or after the time of receipt by the Remarketing Agent of a Notice of Revocation may, at the discretion of the Remarketing Agent, be allocated by the Remarketing Agent to such Notice of Revocation and (y) tendered Series 7 VRDP Shares, if any, that remain unsold on the related Purchase Date shall be allocated by the Remarketing Agent to each Notice of Revocation received in respect of Series 7 VRDP Shares tendered for purchase on such Purchase Date and not already satisfied in the chronological order in which each such Notice of Revocation was received by the Tender and Paying Agent, and each such Notice of Revocation shall be effective only to the extent of such allocation and availability of unsold Series 7 VRDP Shares.

(g) Except as otherwise provided pursuant to Section 4 of Part I of this Statement in connection with a Special Rate Period, the Fund shall use its best efforts to engage at all times a Remarketing Agent that is a nationally recognized securities dealer with expertise in remarketing variable-rate securities to use its best efforts to remarket all Series 7 VRDP Shares properly tendered pursuant to a Tender in accordance with Part II of this Statement.

2. Remarketing Schedule.

(a) In connection with any attempted Remarketing, all tendered Series 7 VRDP Shares shall be remarketed at the Purchase Price of such Series 7 VRDP Shares. The calculation of the Purchase Price of the Series 7 VRDP Shares that are remarketed or purchased by the Liquidity Provider shall be made by the Remarketing Agent in advance of such Remarketing or purchase and, together with the details of the aggregate number and Purchase Price of remarketed Series 7 VRDP Shares and the aggregate number and Purchase Price of Series 7 VRDP Shares to be purchased by the Liquidity Provider pursuant to the Purchase Obligation, shall be communicated by the Remarketing Agent to the Fund, the Liquidity Provider and the Tender and Paying Agent by Electronic Means by 2:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date, as

described below. The proceeds of the sale of any remarketed Series 7 VRDP Shares by the Remarketing Agent relating to tendered Series 7 VRDP Shares shall be used by the Tender and Paying Agent for the purchase of the tendered Series 7 VRDP Shares at the Purchase Price, and the terms of the sale will provide for the wire transfer of such Purchase Price by the Remarketing Agent to be received by the Tender and Paying Agent no later than 11:00 a.m., New York City time, on the related Purchase Date for payment to the Agent Member of the Beneficial Owner, in the case of an Optional Tender, or Holder, in the case of a Mandatory Tender, tendering Series 7 VRDP Shares for sale through the Securities Depository in immediately available funds against delivery of the tendered Series 7 VRDP Shares to the Tender and Paying Agent through the Securities Depository, the delivery of such Series 7 VRDP Shares to the Tender and Paying Agent through the Securities Depository no later than 2:00 p.m., New York City time, on the related Purchase Date, and the re-delivery of such Series 7 VRDP Shares by means of FREE delivery through the Securities Depository to the Remarketing Agent for delivery to the purchaser's Agent Member through the Securities Depository by 3:00 p.m., New York City time, on the related Purchase Date.

(b) By 2:00 p.m., New York City time, on the Business Day immediately preceding each Purchase Date, the Remarketing Agent shall deliver a notice to the Tender and Paying Agent and the Liquidity Provider (a Remarketing Notice), by Electronic Means, that sets forth the number of Series 7 VRDP Shares, if any, that it successfully remarketed for purchase on such Purchase Date and the aggregate Purchase Price of such sold Series 7 VRDP Shares and the number of Series 7 VRDP Shares, if any, not successfully remarketed for purchase on such Purchase Date and the aggregate Purchase Price of such unsold Series 7 VRDP Shares to be paid by the Liquidity Provider. If the Remarketing Notice states that the Remarketing Agent has not successfully remarketed all of the Series 7 VRDP Shares to be purchased on such Purchase Date, the Tender and Paying Agent will promptly, and in any event not later than 4:00 p.m., New York City time, on such Business Day, deliver by Electronic Means to the Liquidity Provider (with a copy to the Fund) a Preliminary Notice of Purchase that, subject to delivery of the Final Notice of Purchase on the Purchase Date described below, provides for the purchase by the Liquidity Provider of the number of Series 7 VRDP Shares that the Remarketing Agent stated in the Remarketing Notice as not having been successfully remarketed, including the aggregate Purchase Price of such Series 7 VRDP Shares, as calculated by the Remarketing Agent. If the Remarketing Notice states that the Remarketing Agent has not successfully remarketed all of the Series 7 VRDP Shares to be purchased on such Purchase Date (or if remarketing proceeds for any tendered Series 7 VRDP Shares have not been received for any reason by the Tender and Paying Agent by 11:00 a.m., New York City time, on the Purchase Date), the Tender and Paying Agent will deliver by Electronic Means to the Liquidity Provider (with a copy to the Fund) by 12:00 noon, New York City time, on such Purchase Date a Final Notice of Purchase that states the number of Series 7 VRDP Shares required to be purchased by the Liquidity Provider. For purposes of the Final Notice of Purchase, any tendered Series 7 VRDP Shares for which Remarketing proceeds have not been received for any reason by the Tender and Paying Agent by 11:00 a.m., New York City time, on the Purchase Date (other than VRDP Shares owned by the Liquidity Provider and tendered for Remarketing), shall be treated as not having been successfully remarketed and shall be required to be purchased by the Liquidity Provider. Except for manifest error, the payment obligation of the Liquidity Provider shall equal the Purchase Price of the Series 7 VRDP Shares stated in the Final Notice of Purchase delivered to the Liquidity Provider as being required to be purchased by the Liquidity Provider.

(c) The Liquidity Provider shall, no later than 2:00 p.m., New York City time, on a Purchase Date for any Series 7 VRDP Shares, wire transfer the aggregate Purchase Price of all Series 7

VRDP Shares in respect of which Final Notices of Purchase have been delivered to it for purchase on such date, as follows: (i) in the case of a Final Notice of Purchase delivered by the Tender and Paying Agent, by wire transfer, in immediately available funds, to the account of the Tender and Paying Agent specified by the Tender and Paying Agent in any such Final Notice of Purchase; and (ii) in the case of a Final Notice of Purchase delivered by a Beneficial Owner or its Agent Member, in the case of an Optional Tender, or by a Holder, in the case of a Mandatory Tender, in the event there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not perform its obligations under the VRDP Purchase Agreement and the Liquidity Provider has received a Remarketing Notice that such Series 7 VRDP Shares have not been the subject of an agreement of sale in a Remarketing and has received written notice from the Fund that there is no Tender and Paying Agent or that the Tender and Paying Agent does not intend to perform its obligations under the VRDP Purchase Agreement, by payment against delivery of the Series 7 VRDP Shares that are the subject of any such Final Notice of Purchase, through means of the Securities Depository in the case of Series 7 VRDP Shares in the form of global securities.

(d) Upon receipt by the Tender and Paying Agent from the Beneficial Owner or its Agent Member, in the case of an Optional Tender, or from the Holder, in the case of a Mandatory Tender, of tendered Series 7 VRDP Shares and the payment by the Tender and Paying Agent to such Beneficial Owner or its Agent Member, or such Holder, as the case may be, of the Purchase Price therefor on the applicable Purchase Date, the Tender and Paying Agent shall deliver to the Liquidity Provider, by means of FREE delivery through the system of the Securities Depository, Series 7 VRDP Shares in satisfaction of the Liquidity Provider's Purchase Obligation on such Purchase Date. Any funds paid by the Liquidity Provider and held in the account of the Tender and Paying Agent for the payment of the Purchase Price shall be held in trust for the benefit of the Liquidity Provider until the Series 7 VRDP Shares are delivered, against payment therefor, by the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, or by the tendering Holder, in the case of a Mandatory Tender, or returned to the Liquidity Provider. Any funds paid by the Remarketing Agent and held in an account of the Tender and Paying Agent for the payment of the Purchase Price in connection with a Remarketing shall be held in trust for the benefit of the Remarketing Agent on account of purchasers purchasing in a Remarketing until the Series 7 VRDP Shares are delivered, against payment therefor, by the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, or by the tendering Holders, in the case of a Mandatory Tender, or returned to the Remarketing Agent on account of purchasers purchasing in a Remarketing. Upon receipt of Series 7 VRDP Shares from the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, or from the tendering Holders, in the case of a Mandatory Tender, by the Tender and Paying Agent, the Tender and Paying Agent shall pay, subject to receipt of the Purchase Price by the Tender and Paying Agent in the form of Remarketing proceeds from the Remarketing Agent, with respect to Series 7 VRDP Shares successfully remarketed by the Remarketing Agent, or in the form of payment pursuant to the VRDP Purchase Agreement from the Liquidity Provider, with respect to Series 7 VRDP Shares subject to purchase pursuant to the Purchase Obligation, the Purchase Price for such Series 7 VRDP Shares to the relevant tendering Beneficial Owners, Agent Members or Holders, as the case may be. In accordance with and subject to the foregoing, the Tender and Paying Agent shall effect any such payment on the applicable Purchase Date.

(e) Except as otherwise expressly provided for herein, the purchase and delivery of tendered Series 7 VRDP Shares in the form of global securities, the Remarketing or purchase by the Liquidity Provider thereof, and payments with respect to the foregoing, will be accomplished in accordance with the applicable procedures of the Securities Depository.

(f) The Remarketing Agent and the Tender and Paying Agent each shall use commercially reasonable efforts to meet the timing requirements set forth above. At any time that no Purchase Obligation is in effect (or with respect to a Remarketing of Series 7 VRDP Shares held by the Liquidity Provider as to which any then-effective Purchase Obligation by a successor liquidity provider is inapplicable pursuant to the terms of the VRDP Fee Agreement), any Series 7 VRDP Shares unsold in a Remarketing shall be returned to the relevant tendering Beneficial Owners or their Agent Members, or the relevant tendering Holders, as the case may be, by the Tender and Paying Agent. The Remarketing Agent may, in its sole discretion, modify the settlement procedures set forth above with respect to any Remarketing upon ten (10) days' prior written notice to the Fund, the Liquidity Provider and the Tender and Paying Agent, provided any such modification does not adversely affect the Holders, the Beneficial Owners, the Tender and Paying Agent, the Liquidity Provider or the Fund. The Remarketing Agent may sell Series 7 VRDP Shares for its own account outside of a Remarketing at a price other than the Purchase Price.

(g) In connection with the allocation of Series 7 VRDP tendered for Remarketing by the Liquidity Provider and any other Holder or Beneficial Owner of shares of Series 7 VRDP in any Remarketing, the Remarketing Agent shall allocate those shares of Series 7 VRDP previously acquired by the Liquidity Provider pursuant to its Purchase Obligation first to any purchasers in a Remarketing (such allocation coming first from those shares of Series 7 VRDP acquired earliest by the Liquidity Provider).

3. Determination of Applicable Rate.

(a) The Applicable Rate shall be determined by the Remarketing Agent on and as of each Rate Determination Date as the lowest rate under then-existing market conditions that in the Remarketing Agent's sole judgment would result in the Series 7 VRDP Shares on the first day of the Subsequent Rate Period next succeeding the Rate Determination Date having a market value equal to the Liquidation Preference thereof (*plus* accumulated but unpaid dividends thereon, whether or not earned or declared). Such determination shall be conclusive and binding upon the interested parties. The Applicable Rate shall not exceed the Maximum Rate.

(b) The Remarketing Agent shall establish the Applicable Rate by 5:00 p.m., New York City time, on each Rate Determination Date to the nearest one-thousandth (0.001) of one percent per annum for the Subsequent Rate Period. The Applicable Rate shall be in effect from and including the first day following such Rate Determination Date to and including the following Rate Determination Date. The Remarketing Agent shall make the Applicable Rate available after 5:00 p.m., New York City time, on the Rate Determination Date by Electronic Means to the Fund, the Tender and Paying Agent and the Liquidity Provider and post the Applicable Rate on Bloomberg.

(c) In the event that the Remarketing Agent establishes the Maximum Rate as the Applicable Rate for a Subsequent Rate Period, the Remarketing Agent shall notify the Fund and the Tender and Paying Agent. The Fund will require in the Tender and Paying Agent Agreement that the Tender and Paying Agent will notify the Liquidity Provider and the Holders of Series 7 VRDP Shares by first class mail, postage prepaid (in the case of physical shares outside the book-entry system of the Securities Depository), or Electronic Means (in the case of Series 7 VRDP Shares in the form of global securities) that the Applicable Rate for the Subsequent Rate Period is the Maximum Rate.

(d) In the event the Remarketing Agent does not or is unable to determine the Applicable Rate, or if there is no Remarketing Agent, the Applicable Rate shall be the Maximum Rate.

(e) In the event of a Failed Remarketing Condition, the Applicable Rate as of the close of business on the day the Failed Remarketing Condition first occurs will be adjusted to the Maximum Rate (with the Applicable Spread subject to adjustment as set forth in the definition of Applicable Spread) and the Maximum Rate will continue to be the Applicable Rate (i) until the first day of the next succeeding Subsequent Rate Period after a Failed Remarketing Condition no longer exists in the case of a Minimum Rate Period, and (ii) as may be provided in the Notice of Special Rate Period in the case of a Special Rate Period.

4. **Failed Remarketing Condition.** In the event of a Failed Remarketing Condition, pursuant to the Tender and Paying Agent Agreement, the Tender and Paying Agent shall provide notice of a Failed Remarketing Condition, promptly but in any event within two (2) Business Days of receipt by the Tender and Paying Agent of notice from the Fund of the occurrence of such Failed Remarketing Condition, by Electronic Means (or by first class mail, postage prepaid, in the case where the Series 7 VRDP Shares are in physical form outside the book-entry system of the Securities Depository) to the Holders (with a copy to the Fund).

5. **Purchase of Series 7 VRDP Shares by Remarketing Agent.** The Remarketing Agent in its sole discretion may purchase for its own account Series 7 VRDP Shares in a Remarketing; however, the Remarketing Agent shall not be obligated to purchase any Series 7 VRDP Shares that would otherwise remain unsold in a Remarketing. None of the Fund, the Tender and Paying Agent or any Remarketing Agent shall be obligated in any case to provide funds to make payment to a Beneficial Owner or its Agent Member or a Holder upon such Beneficial Owner's or Holder's tender of its Series 7 VRDP Shares in a Remarketing unless, in each case, such Series 7 VRDP Shares were acquired for the account of the Fund, the Tender and Paying Agent or the Remarketing Agent.

6. **Notification of Allocations.** Whenever the Fund intends to include any net capital gains or ordinary income taxable for regular federal and California personal income tax purposes in any dividend on the Series 7 VRDP Shares, the Fund shall (except as provided below) notify the Remarketing Agent and Tender and Paying Agent of the amount to be so included (i) not later than 14 calendar days preceding the first Rate Determination Date on which the Applicable Rate for such dividend is to be established, and (ii) for any successive Rate Determination Date on which the Applicable Rate for such dividend is to be established, not later than the close of business on the immediately preceding Rate Determination Date. Whenever such notice is received from the Fund, the Tender and Paying Agent will notify each Holder and the Remarketing Agent will notify each potential Beneficial Owner or its Agent Member. With respect to a Rate Period for which such advance notice was given and whose dividends are comprised partly of such ordinary income or capital gains and partly of exempt-interest income, the different types of income will be paid in the same relative proportions for each day during the Rate Period. The Fund may also include such ordinary income or capital gains in a dividend on shares of Series 7 VRDP without giving advance notice thereof if it increases the dividends by an additional amount calculated as if such income was a Taxable Allocation and the additional amount was a Gross-up Payment, provided the Fund will notify the Tender and Paying Agent of the additional amounts to be included in such dividend at least five Business Days prior to the applicable Dividend Payment Date.

7. **Transfers.**

(a) Unless otherwise permitted by the Fund, a Beneficial Owner or Holder may sell, transfer or otherwise dispose of Series 7 VRDP Shares only in whole shares and only pursuant to a

Remarketing in accordance with the Remarketing Procedures, provided, however, that (a) a sale, transfer or other disposition of Series 7 VRDP Shares from a Beneficial Owner who holds shares through an Agent Member to another Beneficial Owner who holds shares through the same Agent Member shall be permitted, and (b) in the case of all transfers other than pursuant to Remarketings, the Agent Member (or other Person, if permitted by the Fund) to whom such transfer is made shall advise the Remarketing Agent. The Fund has not registered the Series 7 VRDP Shares under the Securities Act. Accordingly, the Series 7 VRDP Shares are subject to restrictions on transferability and resale and may only be purchased by and sold to qualified institutional buyers (as defined in Rule 144A under the Securities Act or any successor provision) in accordance with Rule 144A under the Securities Act or any successor provision or any exemption from registration available and otherwise in accordance with the legend set forth on the face of the Series 7 VRDP Shares.

(b) The Investment Adviser, affiliated persons of the Investment Adviser (as defined in Section 2(a)(3) of the 1940 Act) (other than the Fund, in the case of a purchase of Series 7 VRDP Shares which are to be cancelled within 10 days of purchase by the Fund), and Persons over which the Investment Adviser, or affiliated persons of the Investment Adviser (as defined in Section 2(a)(3) of the 1940 Act), exercise discretionary investment or voting authority (other than the Fund, in the case of a purchase of Series 7 VRDP Shares which are to be cancelled within 10 days of purchase by the Fund), are not permitted to purchase, directly or indirectly, Series 7 VRDP Shares without the prior written consent of the Liquidity Provider, and any such purchases without such consent shall be void ab initio; provided, however, that the Fund shall give prompt notice to Beneficial Owners by Electronic Means upon any of the foregoing Persons, singly or in the aggregate, acquiring a beneficial interest in 20% or more of the Series 7 VRDP Shares; provided, further, that, without regard to the preceding requirements, purchases of Series 7 VRDP Shares may be made by broker-dealers that are affiliated persons of the Investment Adviser in riskless principal transactions with respect to such purchases of Series 7 VRDP Shares.

(c) If at any time the Fund is not furnishing information to the SEC pursuant to Section 13 or 15(d) of the Exchange Act, in order to preserve the exemption for resales and transfers under Rule 144A, the Fund shall furnish, or cause to be furnished, to holders of Series 7 VRDP Shares and prospective purchasers of Series 7 VRDP Shares, upon request, information with respect to the Fund satisfying the requirements of subsection (d)(4) of Rule 144A.

8. **Global Certificate.**

So long as any share of Series 7 VRDP shall be represented by one or more global certificates registered in the name of the Securities Depository or its nominee, no registration of transfer of such share of Series 7 VRDP shall be made on the books of the Fund to any Person other than the Securities Depository or its nominee.

NUVEEN CALIFORNIA DIVIDEND ADVANTAGE MUNICIPAL FUND

STATEMENT ESTABLISHING AND FIXING THE RIGHTS AND PREFERENCES OF SERIES 8 VARIABLE RATE DEMAND PREFERRED SHARES

(effective date: [], 2016)

NUVEEN CALIFORNIA DIVIDEND ADVANTAGE MUNICIPAL FUND, a Massachusetts business trust (the Fund), hereby certifies that:

FIRST: Pursuant to authority expressly vested in the Board of Trustees of the Fund by Article IV of the Fund's Declaration of Trust, the Board of Trustees has, by resolution, authorized the issuance of preferred shares, \$.01 par value per share, classified as Variable Rate Demand Preferred Shares with a liquidation preference of \$100,000 per share in such one or more series as may be authorized and issued from time to time (each, a Series, and each such Series being referred to herein as a Series of VRDP, and shares of all such Series being referred to herein individually as a VRDP Share and collectively as VRDP Shares or VRDP);

SECOND: The preferences (including liquidation preference), voting powers, restrictions, limitations as to dividends, qualifications, and terms and conditions of redemption, of the shares of the Series 8 Variable Rate Demand Preferred Shares designated below are as follows or as set forth in an amendment or supplement hereto:

DESIGNATION OF SERIES 8 VRDP

Series 8: A series of preferred shares, par value \$.01 per share, liquidation preference \$100,000 per share, is hereby authorized and designated Series 8 Variable Rate Demand Preferred Shares, also referred to herein as Series 8 VRDP. Series 8 VRDP Shares or shares of Series 8 VRDP, and references to such Series with respect to the Series 8 VRDP Shares shall be interpreted as references to shares of such Series, as the context may require. Each share of Series 8 VRDP shall be issued on a date determined by the Board of Trustees of the Fund or pursuant to their delegated authority; and have such other preferences, voting powers, limitations as to dividends, qualifications and terms and conditions of redemption, in addition to those required by applicable law or as set forth in the Declaration, as set forth in Parts I and II of this Statement (as defined below). (a) **Length of and Preconditions for Special Rate Period.** The Fund, at its option, may designate any succeeding Subsequent Rate Period for the Series 8 VRDP Shares as a Special Rate Period having the duration specified by the Fund in accordance with this Section 4 and ending on a Wednesday, subject to adjustment as provided in paragraph (b) of this Section 4, or, if so designated by the Fund, ending on the final redemption date specified in paragraph (b)(i)(A) of Section 9 of Part I of this Statement. Except for Special Rate Periods, each Subsequent Rate Period will be a Minimum Rate Period. A designation of a Special Rate Period shall be effective only if (i) in the case of the designation of a Special Rate Period to succeed a Minimum Rate Period, (A) notice thereof shall have been given in accordance with paragraph (c) and paragraph (d)(i) of this Section 4, (B) no Series 8 VRDP Shares are owned by the Liquidity Provider pursuant to the Purchase Obligation on either the

Rate Determination Date for such proposed Special Rate Period or on the first day of such Special Rate Period and full cumulative dividends and any amounts due with respect to redemptions payable prior to such date have been paid in full, in each case, on the Series 8 VRDP Shares, and (C) if any Notice of Redemption shall have been provided by the Fund pursuant to paragraph (c) of Section 9 of Part I of this Statement with respect to any shares of such Series, the Redemption Price with respect to such shares shall have been deposited with the Tender and Paying Agent, or (ii) in the case of the designation of a Special Rate Period to succeed a Special Rate Period, notice thereof shall have been given in accordance with paragraph (d)(ii) of this Section 4.

(b) **Adjustment of Length of Special Rate Period.** In the event the Fund wishes to designate a Subsequent Rate Period for the Series 8 VRDP Shares as a Special Rate Period, but the day that would otherwise be the last day of such Special Rate Period is a Wednesday that is not a Business Day, then the Special Rate Period shall end on the next Business Day and the succeeding Subsequent Rate Period (if it is a Minimum Rate Period) will end on the following Wednesday, or, if such day is not a Business Day, the next succeeding Business Day.

(c) **Notice of Proposed Special Rate Period.** If the Fund proposes to designate a Special Rate Period to succeed a Minimum Rate Period pursuant to paragraph (a)(i) of this Section 4, not less than 20 (or such lesser number of days as may be agreed to from time to time by the Remarketing Agent) nor more than 30 days prior to the date the Fund proposes to designate as the first day of such Special Rate Period (which shall be a day that would otherwise be the first day of a Minimum Rate Period), a notice (a Notice of Proposed Special Rate Period) shall be sent by the Fund by Electronic Means (or by first-class mail, postage prepaid, where the Series 8 VRDP Shares are in physical form outside the book-entry system of the Securities Depository) to the Holders of shares of such Series with copies provided to the Remarketing Agent, the Tender and Paying Agent and the Liquidity Provider. Each such notice shall state (A) that the Fund may exercise its option to designate a succeeding Subsequent Rate Period for the Series 8 VRDP Shares as a Special Rate Period, specifying the first day thereof, (B) that the Fund will, by 11:00 a.m., New York City time, on the second Business Day immediately preceding such first day (or by such later time or date, or both, as may be agreed to by the Remarketing Agent) notify the Remarketing Agent of either (x) its determination, subject to certain conditions, to exercise such option, or (y) its determination not to exercise such option, (C) the Rate Determination Date immediately prior to the first day of such Special Rate Period, (D) that such Special Rate Period shall not commence if (1) any Series 8 VRDP Shares are owned by the Liquidity Provider pursuant to the Purchase Obligation on either the Rate Determination Date for such proposed Special Rate Period or on the first day of such Special Rate Period or (2) full cumulative dividends or any amounts due with respect to redemptions payable prior to such Rate Determination Date have not been paid in full, in each case, on the Series 8 VRDP Shares, (E) the scheduled Dividend Payment Dates for shares of such Series during such Special Rate Period and (F) a description of the Other Special Rate Period Provisions, if any, applicable to shares of such Series in respect of such Special Rate Period.

(d) **Notices in Respect of Special Rate Period.** The Fund shall deliver a notice of Special Rate Period (a Notice of Special Rate Period) in accordance with paragraph (i)(A) or (ii) below or a notice that the Fund is electing not to designate a Special Rate Period in accordance with paragraph (i)(B) below, as applicable:

(i) In connection with the designation of a Special Rate Period to succeed a Minimum Rate Period pursuant to paragraph (a)(i) of this Section 4, no later than 11:00 a.m.,

New York City time, on the second Business Day immediately preceding the first day of such proposed Special Rate Period for the Series 8 VRDP Shares as to which notice has been given as set forth in paragraph (c) of this Section 4 (or such later time or date, or both, as may be agreed to by the Remarketing Agent), the Fund shall deliver to the Remarketing Agent and the Liquidity Provider either:

(A) a Notice of Special Rate Period stating (1) that the Fund has determined to designate the next succeeding Rate Period for shares of such Series as a Special Rate Period, specifying the same and the first day thereof, (2) the Rate Determination Date immediately prior to the first day of such Special Rate Period, (3) that such Special Rate Period shall not commence if (x) any Series 8 VRDP Shares are owned by the Liquidity Provider pursuant to the Purchase Obligation on either such Rate Determination Date or on the first day of such Special Rate Period or (y) full cumulative dividends or any amounts due with respect to redemptions payable, in each case, on Series 8 VRDP Shares, prior to such Rate Determination Date have not been paid in full, (4) the scheduled Dividend Payment Dates for shares of such Series during such Special Rate Period and (5) the Other Special Rate Period Provisions, if any, applicable to shares of such Series in respect of such Special Rate Period; or

(B) a notice stating that the Fund has determined not to exercise its option to designate a Special Rate Period for shares of such Series and that the next succeeding Rate Period of shares of such Series shall be a Minimum Rate Period.

(ii) In connection with designation of a Special Rate Period to succeed a Special Rate Period pursuant to paragraph (a)(ii) of this Section 4, the Fund shall deliver a Notice of Special Rate Period as specified in and otherwise in accordance with the Notice of Special Rate Period that designated the Special Rate Period being succeeded.

(e) **Failure to Deliver Notice of Special Rate Period.** If the Fund fails to deliver either of the notices described in paragraphs (d)(i)(A) or (d)(ii) of this Section 4 of any proposed Special Rate Period to the Remarketing Agent and the Liquidity Provider by 11:00 a.m., New York City time, on the second Business Day immediately preceding the first day of such proposed Special Rate Period (or by such later time or date, or both, as may be agreed to by the Remarketing Agent and the Liquidity Provider), the Fund shall be deemed to have delivered a notice to the Remarketing Agent and the Liquidity Provider with respect to such Special Rate Period to the effect set forth in paragraph (d)(i)(B) of this Section 4. In the event the Fund delivers to the Remarketing Agent and the Liquidity Provider a notice described in paragraph (d)(i)(A) of this Section 4, it shall file a copy of such notice with the Secretary of the Fund, and the contents of such notice shall be binding on the Fund.

(f) **Other Special Rate Period Provisions.** In connection with any Special Rate Period designated pursuant to this Section 4, the Fund, without the vote or consent of any Holder of Series 8 VRDP Shares, but with the prior written consent of the Liquidity Provider, if any (and to the extent that the Liquidity Provider is appointed as such for such Special Rate Period), may provide for provisions relating solely to such Special Rate Period that differ from those provided in this Statement, including, but not limited to, with respect to the Purchase Obligation, optional tender provisions, mandatory tender provisions, mandatory purchase provisions, the dividend rate setting provisions (including as to the Maximum Rate), and, if the dividend may be determined by reference to an index, formula or other method, the manner in which it will be determined, Special Redemption Provisions or

other redemption provisions (other than Section 9(b)(i)(A) of this Statement) and modified or new definitions (Other Special Rate Period Provisions); provided that such provisions do not affect the parity ranking of Series 8 VRDP Shares relative to any other series of Preferred Shares of the Fund then outstanding with respect to dividends or distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund.

(g) **Minimum Rate Period Succeeding a Special Rate Period.** The Fund, at its option, may designate the Rate Period (together with succeeding Rate Periods until the establishment of a Subsequent Rate Period as a Special Rate Period) succeeding a Special Rate Period as a Minimum Rate Period. Notice thereof shall be delivered in accordance with the Notice of Special Rate Period that designated the Special Rate Period being succeeded by the Minimum Rate Period.

5. Voting Rights.

(a) **One Vote Per VRDP Share.** Except as otherwise provided in the Declaration or as otherwise required by law, (i) each Holder of VRDP Shares shall be entitled to one vote for each VRDP Share held by such Holder on each matter submitted to a vote of shareholders of the Fund, and (ii) the holders of outstanding Preferred Shares, including each VRDP Share, and of Common Shares shall vote together as a single class; provided, however, that the holders of outstanding Preferred Shares, including VRDP Shares, voting as a class, to the exclusion of the holders of all other securities and classes of shares of beneficial interest of the Fund, shall be entitled to elect two trustees of the Fund at all times, each Preferred Share, including each VRDP Share, entitling the holder thereof to one vote. Subject to paragraph (b) of this Section 5, the holders of outstanding Common Shares and Preferred Shares, including VRDP Shares, voting together as a single class, shall elect the balance of the trustees.

(b) **Voting for Additional Trustees.**

(i) **Voting Period.** During any period in which any one or more of the conditions described in subparagraphs (A) or (B) of this paragraph (b)(i) shall exist (such period being referred to herein as a Voting Period), the number of trustees constituting the Board of Trustees shall be automatically increased by the smallest number that, when added to the two trustees elected exclusively by the holders of Preferred Shares, including VRDP Shares, would constitute a majority of the Board of Trustees as so increased by such smallest number; and the holders of Preferred Shares, including VRDP Shares, shall be entitled, voting as a class on a one-vote-per-share basis (to the exclusion of the holders of all other securities and classes of shares of beneficial interest of the Fund), to elect such smallest number of additional trustees, together with the two trustees that such holders are in any event entitled to elect. A Voting Period shall commence:

(A) if at the close of business on any Dividend Payment Date accumulated dividends (whether or not earned or declared) on any outstanding Preferred Shares, including VRDP Shares, equal to at least two full years' dividends shall be due and unpaid and sufficient cash or specified securities shall not have been deposited with the Tender and Paying Agent for the payment of such accumulated dividends; or

(B) if at any time holders of Preferred Shares are entitled under the 1940 Act to elect a majority of the trustees of the Fund.

Upon the termination of a Voting Period, the voting rights described in this paragraph (b)(i) shall cease, subject always, however, to the reversion of such voting rights in the holders of Preferred Shares upon the further occurrence of any of the events described in this paragraph (b)(i).

(ii) **Notice of Special Meeting.** As soon as practicable after the accrual of any right of the holders of Preferred Shares to elect additional trustees as described in paragraph (b)(i) of this Section 5, the Fund shall call a special meeting of such holders, and the Fund shall mail a notice of such special meeting to such holders, such meeting to be held not less than 10 nor more than 20 days after the date of mailing of such notice. If a special meeting is not called by the Fund, it may be called by any such holder on like notice. The record date for determining the holders entitled to notice of and to vote at such special meeting shall be the close of business on the fifth Business Day preceding the day on which such notice is mailed. At any such special meeting and at each meeting of holders of Preferred Shares held during a Voting Period at which trustees are to be elected, such holders, voting together as a class (to the exclusion of the holders of all other securities and classes of shares of beneficial interest of the Fund), shall be entitled to elect the number of trustees prescribed in paragraph (b)(i) of this Section 5 on a one-vote-per-share basis.

(iii) **Terms of Office of Existing Trustees.** The terms of office of all persons who are trustees of the Fund at the time of a special meeting of Holders and holders of other Preferred Shares to elect trustees shall continue, notwithstanding the election at such meeting by the Holders and such other holders of other Preferred Shares of the number of trustees that they are entitled to elect, and the persons so elected by the Holders and such other holders of other Preferred Shares, together with the two incumbent trustees elected by the Holders and such other holders of other Preferred Shares and the remaining incumbent trustees elected by the holders of the Common Shares and Preferred Shares, shall constitute the duly elected trustees of the Fund.

(iv) **Terms of Office of Certain Trustees to Terminate Upon Termination of Voting Period.** Simultaneously with the termination of a Voting Period, the terms of office of the additional trustees elected by the Holders and holders of other Preferred Shares pursuant to paragraph (b)(i) of this Section 5 shall terminate, the remaining trustees shall constitute the trustees of the Fund and the voting rights of the Holders and such other holders to elect additional trustees pursuant to paragraph (b)(i) of this Section 5 shall cease, subject to the provisions of the last sentence of paragraph (b)(i) of this Section 5.

(c) **Holders of VRDP Shares to Vote on Certain Other Matters.**

(i) **Increases in Capitalization and Certain Amendments.** The Board of Trustees, without the vote or consent of the Holders of Series 8 VRDP Shares, may from time to time authorize and create, and the Fund may from time to time issue additional shares of, any Series of VRDP, including Series 8 VRDP Shares, or any classes or series of Preferred Shares ranking on a parity with Series 8 VRDP Shares with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. So long as any Series 8 VRDP Shares are Outstanding, the Fund shall not, without the affirmative vote or consent of the Holders of at least a majority of the Series 8 VRDP Shares Outstanding at the time, in person or by proxy, either in writing or at a meeting, voting as a separate class: (a) authorize, create or issue any class or series of shares

ranking prior to the Series 8 VRDP Shares with respect to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund or (b) amend, alter or repeal the provisions of the Declaration, or this Statement, whether by merger, consolidation or otherwise, so as to materially and adversely affect any preference, right or power of the Series 8 VRDP Shares or the Holders or the Beneficial Owners thereof; provided, however, that (i) none of the actions permitted by the first sentence of this paragraph (c) or by paragraph (a) of Section 12 of Part I of this Statement will be deemed to so affect such preferences, rights or powers, (ii) a division of a VRDP Share will be deemed to so affect such preferences, rights or powers only if the terms of such division so affect the Holders of Series 8 VRDP Shares and (iii) the authorization, creation and issuance of classes or series of shares ranking junior to the Series 8 VRDP Shares with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund will be deemed to so affect such preferences, rights or powers only if such issuance would, at the time thereof, cause the Fund not to satisfy the Minimum VRDP Asset Coverage. For purposes of the foregoing, except as otherwise set forth in this Statement, no matter shall be deemed to materially and adversely affect any right, preference or power of the Series 8 VRDP Shares or the Holders thereof unless such matter (i) alters or abolishes any preferential right of such Series; (ii) alters or abolishes any right in respect of redemption of such Series; or (iii) creates or alters (other than to abolish or to comply with applicable law) any restriction on transfer applicable to such Series. So long as any Series 8 VRDP Shares are Outstanding, the Fund shall not, without the affirmative vote or consent of the Holders of at least $66\frac{2}{3}\%$ of the Series 8 VRDP Shares Outstanding at the time, in person or by proxy, either in writing or at a meeting, voting as a separate class, file a voluntary application for relief under federal bankruptcy law or any similar application under state law for so long as the Fund is solvent and does not foresee becoming insolvent. If any action set forth above requiring the vote of Holders of Series 8 VRDP Shares would adversely affect the rights of Series 8 VRDP in a manner different from any other Series of VRDP, the Fund will not approve any such action without the affirmative vote or consent of the Holders of at least a majority of the shares of the Series 8 VRDP Outstanding at the time, in person or by proxy, either in writing or at a meeting (the Series 8 VRDP voting as a separate class). Notwithstanding the foregoing, as set forth in paragraph (b) of Section 8 of Part I of this Statement, the Fund, without the vote, approval or consent of Holders of Series 8 VRDP Shares or other shareholders of the Fund, has the right to (x) terminate the services of any and all Rating Agencies providing a long-term rating for the Series 8 VRDP Shares, and such rating or ratings, to the extent it or they would have been taken into account in any of the provisions in this Statement, will be disregarded (other than the effect of the absence of such ratings for purposes of determining the Maximum Rate) and (y) provide for Other Special Rate Period Provisions in accordance with, but subject to the limitations set forth in, paragraph (f) of Section 4 of Part I of this Statement. No vote of the holders of Common Shares shall be required to amend, alter or repeal the provisions of this Statement.

(ii) **1940 Act Matters.** Unless a higher percentage is provided for in the Declaration, the affirmative vote of the holders of at least a majority of the Outstanding Preferred Shares, including VRDP Shares, outstanding at the time, voting as a separate class, shall be required to approve (A) any conversion of the Fund from a closed-end to an open-end investment company, (B) any plan of reorganization (as such term is used in the 1940 Act) adversely affecting such shares and (C) any other action requiring a vote of security holders of the Fund under Section 13(a) of the 1940 Act. For purposes of the

foregoing, majority of the Outstanding Preferred Shares means (i) 67% or more of such shares present at a meeting, if the holders of more than 50% of such shares are present or represented by proxy, or (ii) more than 50% of such shares, whichever is less.

(iii) **Exclusive Right to Vote on Certain Matters.** Except as otherwise required by the 1940 Act, other applicable law or the Declaration, (i) whenever a vote of Holders of Series 8 VRDP Shares is otherwise required by this Statement, Holders of Outstanding Series 8 VRDP Shares will be entitled as a Series, to the exclusion of the holders of all other shares, including other Preferred Shares, Common Shares and other classes of shares of beneficial interest of the Fund, to vote on matters affecting Series 8 VRDP Shares only and (ii) Holders of Outstanding Series 8 VRDP Shares will not be entitled to vote on matters affecting any other Preferred Shares that do not adversely affect any of the rights of Holders of Series 8 VRDP Shares, as expressly set forth in the Declaration and this Statement.

(d) **Fund May Take Certain Actions Without Shareholder Approval.**

The Fund is not required to maintain any particular short-term or long-term ratings for the Series 8 VRDP Shares, and, subject only to Section 8 of this Part I, the Fund, without the vote, approval or consent of any holder of Preferred Shares, including any Series of VRDP, or any other shareholder of the Fund, may from time to time adopt, amend, alter or repeal any or all of the definitions contained herein, add covenants and other obligations of the Fund, or confirm the applicability of covenants and other obligations set forth herein, in connection with obtaining, maintaining or changing the rating of any Rating Agency which is then rating the Series 8 VRDP Shares, and any such adoption, amendment, alteration or repeal will not be deemed to affect the preferences, rights or powers of Series 8 VRDP Shares, or the Holders thereof.

Subject only to Section 8 of this Part I, the Fund may, at any time, replace a Rating Agency or terminate the services of any Rating Agencies then providing a rating for the Series 8 VRDP Shares without replacement, in either case, without the vote, approval or consent of Holders of Series 8 VRDP Shares or other shareholders of the Fund. In the event a Rating Agency ceases to furnish a long-term rating for the Series 8 VRDP Shares or the Fund terminates the services of a Rating Agency then providing a long-term rating for the Series 8 VRDP Shares, such rating, to the extent it would have been taken into account in any of the provisions of the Series 8 VRDP Shares included in this Statement, will be disregarded, and only the ratings of the then-designated Rating Agency or Agencies, if any, will be taken into account (other than the effect of the absence of such ratings for purposes of determining the Maximum Rate).

Notwithstanding the foregoing, nothing in this Section 5 is intended in any way to limit the ability of (i) the Fund to make certain adjustments in the Remarketing Agreement as provided under the definition of Maximum Rate, subject to the limitations set forth in such definition, or (ii) the Board of Trustees to amend or alter other provisions of this Statement, without the vote, approval or consent of any Holder of Series 8 VRDP Shares, or any other shareholder of the Fund, as otherwise provided in this Statement.

(e) **Voting Rights Set Forth Herein are Sole Voting Rights.** Unless otherwise required by law, the Holders of Series 8 VRDP Shares shall not have any voting rights, relative rights or preferences or other special rights other than those specifically set forth herein.

- (f) **No Preemptive Rights or Cumulative Voting.** The Holders of Series 8 VRDP Shares shall have no preemptive rights or rights to cumulative voting.
- (g) **Sole Remedy for Fund's Failure to Pay Dividends.** In the event that the Fund fails to pay any dividends on the Series 8 VRDP Shares, the sole remedy of the Holders under this Statement, without limitation of any rights to payment of such dividends or other rights under the Declaration, this Statement and applicable law, shall be the right to vote for trustees pursuant to the provisions of this Section 5.
- (h) **Holders Entitled to Vote.** For purposes of determining any rights of the Holders to vote on any matter, whether such right is created by this Statement, by the other provisions of the Declaration, by statute or otherwise, no Holder shall be entitled to vote any Series 8 VRDP Share and no Series 8 VRDP Share shall be deemed to be outstanding for the purpose of voting or determining the number of shares required to constitute a quorum if, prior to or concurrently with the time of determination of shares entitled to vote or shares deemed outstanding for quorum purposes, as the case may be, the requisite Notice of Redemption with respect to such shares shall have been provided as set forth in paragraph (c) of Section 9 of Part I of this Statement and Deposit Securities with a Market Value at least equal to the Redemption Price for the redemption of such shares shall have been deposited in trust with the Tender and Paying Agent for that purpose. Series 8 VRDP Shares owned (legally or beneficially) or controlled by the Fund shall not have any voting rights or be deemed to be Outstanding for voting or for calculating the voting percentage required on any other matter or other purposes.
6. **Minimum VRDP Asset Coverage.** The Fund shall maintain, as of the close of business on the last Business Day of each month on which any Series 8 VRDP Share is Outstanding, the Minimum VRDP Asset Coverage.
7. **Restrictions on Dividends and Other Distributions.**
- (a) **Dividends on Preferred Shares Other than the Series 8 VRDP Shares.** Except as set forth in the next sentence, no dividends shall be declared or paid or set apart for payment on the shares of any class or series of shares of beneficial interest of the Fund ranking, as to the payment of dividends, on a parity with the Series 8 VRDP Shares for any period unless full cumulative dividends have been or contemporaneously are declared and paid on the shares of each Series of VRDP through its most recent dividend payment date. When dividends are not paid in full upon the shares of each Series of VRDP through its most recent dividend payment date or upon the shares of any other class or series of shares of beneficial interest of the Fund ranking on a parity as to the payment of dividends with VRDP Shares through their most recent respective dividend payment dates, all dividends declared and paid upon VRDP Shares and any other such class or series of shares of beneficial interest ranking on a parity as to the payment of dividends with VRDP Shares shall be declared and paid pro rata so that the amount of dividends declared and paid per share on VRDP Shares and such other class or series of shares of beneficial interest shall in all cases bear to each other the same ratio that accumulated dividends per share on the VRDP Shares and such other class or series of shares of beneficial interest bear to each other (for purposes of this sentence, the amount of dividends declared and paid per Series 8 VRDP Share shall be based on the Applicable Rate for such share for the Dividend Periods during which dividends were not paid in full).
- (b) **Dividends and Other Distributions With Respect to Common Shares Under the 1940 Act.** The Board of Trustees shall not declare any dividend (except a dividend payable in

Common Shares), or declare any other distribution, upon the Common Shares, or purchase Common Shares, unless in every such case the Preferred Shares have, at the time of any such declaration or purchase, an asset coverage (as defined in and determined pursuant to the 1940 Act) of at least 200% (or such other asset coverage as may in the future be specified in or under the 1940 Act as the minimum asset coverage for senior securities which are shares or stock of a closed-end investment company as a condition of declaring dividends on its common shares or stock) after deducting the amount of such dividend, distribution or purchase price, as the case may be.

(c) **Other Restrictions on Dividends and Other Distributions.**

For so long as any Series 8 VRDP Share is Outstanding, and except as set forth in paragraph (a) of this Section 7 and paragraph (c) of Section 9 of this Part I, the Fund shall not declare, pay or set apart for payment any dividend or other distribution (other than a dividend or distribution paid in shares of, or in options, warrants or rights to subscribe for or purchase, Common Shares or other shares, if any, ranking junior to the Series 8 VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up) in respect of the Common Shares or any other shares of the Fund ranking junior to or on a parity with the Series 8 VRDP Shares as to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up, or call for redemption, redeem, purchase or otherwise acquire for consideration any Common Shares or any other such junior shares (except by conversion into or exchange for shares of the Fund ranking junior to the Series 8 VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up), or any such parity shares (except by conversion into or exchange for shares of the Fund ranking junior to or on a parity with Series 8 VRDP Shares as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up), unless (i) full cumulative dividends on the Series 8 VRDP Shares through the most recently ended Dividend Period therefor shall have been paid or shall have been declared and sufficient funds for the payment thereof deposited with the Tender and Paying Agent and (ii) the Fund has redeemed the full number of Series 8 VRDP Shares required to be redeemed by any provision for mandatory redemption pertaining thereto.

8. **Ratings.**

(a) **Short-Term Ratings.** The Fund will use its reasonable best efforts to maintain at least one short-term rating on the Series 8 VRDP Shares, to the extent that the Liquidity Provider then has a short-term debt rating.

(b) **Long-Term Ratings.** The Fund is not required to maintain any, or any particular, long-term ratings for the Series 8 VRDP Shares. To the extent that the Fund does at any time maintain one or more long-term ratings for the Series 8 VRDP Shares from one or more Rating Agencies, the Fund may take any action resulting in a change in, or addition or termination of, any long-term rating for the Series 8 VRDP Shares without the vote, approval or consent of Holders of Series 8 VRDP Shares or any other shareholders of the Fund. The Rating Agency Guidelines, if any, as they may be amended from time to time by the respective Rating Agency, will be reflected in written documents, including the ratings methodologies of the applicable Rating Agency. The Rating Agency Guidelines may be amended by the respective Rating Agency without the approval of the Fund or its Board of Trustees or any Holders of Series 8 VRDP Shares, or any other shareholder of the Fund, and may be changed or eliminated at any time without the vote, approval or consent of Holders of Series 8 VRDP Shares or any other shareholders of the Fund, including in connection with the change or termination by the Fund of any or all long-term ratings then applicable to the Series 8 VRDP Shares.

9. **Redemption.**

(a) **Optional Redemption.**

(i) Subject to the provisions of paragraph (iv) of this paragraph (a), the Series 8 VRDP Shares may be redeemed, at the option of the Fund, at any time, as a whole or from time to time in part, out of funds legally available therefor, at a redemption price per share equal to the sum of \$100,000 plus an amount equal to accumulated but unpaid dividends thereon (whether or not earned or declared) to, but not including, the date fixed for redemption; provided, however, that (1) the Series 8 VRDP Shares may not be redeemed in part if after such partial redemption fewer than 50 shares of such Series would remain Outstanding; (2) shares of Series 8 VRDP are not redeemable by the Fund during the Initial Rate Period; and (3) subject to subparagraph (ii) of this paragraph (a), the Notice of Special Rate Period relating to a Special Rate Period for shares of Series 8 VRDP, as delivered to the Remarketing Agent and filed with the Secretary of the Fund, may provide that shares of such Series shall not be redeemable during the whole or any part of such Special Rate Period or shall be redeemable during the whole or any part of such Special Rate Period only upon payment of such redemption premium or premiums as shall be specified therein (Special Redemption Provisions).

(ii) A Notice of Special Rate Period relating to the Series 8 VRDP for a Special Rate Period thereof may contain Special Redemption Provisions only if the Fund's Board of Trustees, after consultation with the Remarketing Agent and the Liquidity Provider (to the extent that the Remarketing Agent and the Liquidity Provider are appointed as such for such Special Rate Period), determines that such Special Redemption Provisions are in the best interest of the Fund.

(iii) If fewer than all of the Outstanding shares of Series 8 VRDP are to be redeemed pursuant to subparagraph (i) of this paragraph (a), the number of shares of such Series to be redeemed shall be selected either pro rata from the Holders of shares of such Series in proportion to the number of shares of such Series held by such Holders or by lot or in such manner as the Fund's Board of Trustees may determine to be fair and equitable and, in each case, in accordance with the applicable rules of the Securities Depository so long as the Series 8 VRDP Shares are held in the book-entry system of the Securities Depository. Subject to the provisions of this Statement and applicable law, the Fund's Board of Trustees will have the full power and authority to prescribe the terms and conditions upon which Series 8 VRDP Shares will be redeemed from time to time.

(iv) The Fund may not on any date send a Notice of Redemption pursuant to paragraph (c) of this Section 9 in respect of a redemption contemplated to be effected pursuant to this paragraph (a) unless on such date the Fund has available Deposit Securities with maturity or tender dates not later than the day preceding the applicable Redemption Date and having a Market Value not less than the amount (including any applicable premium) due to Holders of Series 8 VRDP Shares by reason of the redemption of such shares on such Redemption Date.

(b) **Mandatory Redemption.** (i) (A) The Fund shall redeem all Outstanding Series 8 VRDP Shares on [], at a redemption price equal to \$100,000 per share *plus* accumulated but unpaid dividends thereon (whether or not earned or declared) to, but excluding, such date.

(B) The Fund shall redeem Preferred Shares if the Fund fails to maintain the Minimum VRDP Asset Coverage in accordance with this Statement and such failure is not cured on or before the Minimum VRDP Asset Coverage Cure Date. The number of Preferred Shares to be redeemed, which at the Fund's sole option (to the extent permitted by the 1940 Act and Massachusetts law) may include any number or proportion of Preferred Shares of any series, shall be equal to the lesser of (i) the minimum number of Preferred Shares, the redemption of which, if deemed to have occurred immediately prior to the opening of business on the Minimum VRDP Asset Coverage Cure Date, would, together with all other Preferred Shares subject to retirement, result in the Fund's maintaining the Minimum VRDP Asset Coverage on such Minimum VRDP Asset Coverage Cure Date (provided, however, that, if there is no such minimum number of Preferred Shares the redemption of which would have such result, all VRDP Shares and other Preferred Shares then outstanding shall be redeemed) and (ii) the maximum number of Preferred Shares that can be redeemed out of funds legally available therefor in accordance with the Declaration and applicable law. To the extent that the Fund redeems VRDP Shares in accordance with the foregoing, the Fund shall allocate the number of VRDP Shares to be redeemed pro rata among each Series of VRDP subject to redemption. The Fund shall effect such redemption on the date fixed by the Fund therefor, which date shall not be earlier than 10 days nor later than 30 days after the Minimum VRDP Asset Coverage Cure Date, except that, if the Fund does not have funds legally available for the redemption or retirement of all of the required number of VRDP Shares and other Preferred Shares which are subject to redemption or retirement or the Fund otherwise is unable as a result of applicable law to effect such redemption on or prior to 30 days after the Minimum VRDP Asset Coverage Cure Date, the Fund shall redeem those VRDP Shares and other Preferred Shares which it was unable to redeem or retire on the earliest practicable date on which it is able to effect such redemption or retirement. The Fund will redeem any Series 8 VRDP Shares at a redemption price equal to \$100,000 per share, plus accumulated but unpaid dividends thereon (whether or not earned or declared) to, but excluding, the date fixed by the Board of Trustees for redemption.

(C) Except in the case of a Failed Remarketing Condition Purchased VRDP Shares Redemption, as described below, if fewer than all of the Outstanding shares of Series 8 VRDP are to be redeemed pursuant to this paragraph (b), the number of shares of such Series to be redeemed shall be selected either pro rata from the Holders of shares of such Series in proportion to the number of shares of such Series held by such Holders or by lot or in such manner as the Fund's Board of Trustees may determine to be fair and equitable and, in each case, in accordance with the applicable rules of the Securities Depository so long as the Series 8 VRDP Shares are held in the book-entry system of the Securities Depository. Subject to the provisions of this Statement and applicable law, the Fund's Board of Trustees will have the full power and authority to prescribe the terms and conditions upon which Series 8 VRDP Shares will be redeemed from time to time.

(ii) (A) In accordance with this Statement and if then required pursuant to the VRDP Fee Agreement, if the Liquidity Provider acquires any Series 8 VRDP Shares pursuant to the Purchase Obligation and continues to be the beneficial owner for federal income tax purposes of such Purchased VRDP Shares for a period of six months during which such Purchased VRDP Shares cannot be successfully remarketed (i.e., a Failed Remarketing Condition Purchased VRDP Shares shall have occurred and be continuing for such period of time with respect to such Purchased VRDP Shares), the Fund shall effect a

Failed Remarketing Condition Purchased VRDP Shares Redemption: provided, that, as of the date of redemption: (i) to the extent any Series 8 VRDP Shares are Outstanding and held by Persons other than the Liquidity Provider, the Purchase Obligation of the Liquidity Provider whose Series 8 VRDP Shares are subject to the Failed Remarketing Condition Purchased VRDP Shares Redemption remains in effect to the extent required by, and in accordance with, the VRDP Purchase Agreement to which such Liquidity Provider is a party, and (ii) to the extent (a) any Series 8 VRDP Shares are Outstanding and held by Persons other than the Liquidity Provider and (b) the Purchase Obligation of the Liquidity Provider whose Series 8 VRDP Shares are subject to the Failed Remarketing Condition Purchased VRDP Shares Redemption remains in effect to the extent required by, and in accordance with, the VRDP Purchase Agreement to which such Liquidity Provider is a party, the Liquidity Provider whose Series 8 VRDP Shares are subject to the Failed Remarketing Condition Purchased VRDP Shares Redemption shall have made written affirmation to the Fund not later than the Business Day immediately preceding the Redemption Date to the effect that the Liquidity Provider is in compliance with the Purchase Obligation in accordance with its terms. Notwithstanding the foregoing proviso, any failure or delay by the Liquidity Provider whose Series 8 VRDP Shares are subject to the Failed Remarketing Condition Purchased VRDP Shares Redemption to deliver the affirmation referred to in the foregoing proviso shall not relieve the Fund of its obligation to effectuate a Failed Remarketing Condition Purchased VRDP Shares Redemption and shall only result in a delay by the Fund to effectuate a Failed Remarketing Condition Purchased VRDP Shares Redemption until one (1) Business Day following the date that such Liquidity Provider delivers such affirmation or on which such affirmation is no longer required to be delivered. The six-month holding period for Purchased VRDP Shares acquired and held as a result of a continuing Failed Remarketing Condition Purchased VRDP Shares shall be determined by the Fund on a first-in, first-out basis. The Fund shall effect a Failed Remarketing Condition Purchased VRDP Shares Redemption on the date fixed by the Fund therefor, which date shall not be later than three Business Days after the expiration of the six-month holding period in respect of the applicable Purchased VRDP Shares, except that if the Fund does not have funds legally available for the redemption of all of the required number of Purchased VRDP Shares which are subject to the Failed Remarketing Condition Purchased VRDP Shares Redemption or the Fund otherwise is unable as a result of applicable law to effect such redemption on or prior to three Business Days after the expiration of the applicable six-month holding period, the Fund shall redeem those Series 8 VRDP Shares which it was unable to redeem on the earliest practicable date on which it is able to effect such redemption. In the event that the Liquidity Provider receives any Series 8 VRDP Shares in the distribution referred to under Designation of Series 8 VRDP above in respect of shares of Target Fund VRDP (x) beneficially owned by the Liquidity Provider for federal income tax purposes and that were acquired pursuant to the Liquidity Provider's purchase obligation with respect to the Target Fund VRDP, (y) continuously beneficially owned for federal income tax purposes by the Liquidity Provider from the date of acquisition and (z) not successfully remarketed, then (I) the Series 8 VRDP Shares so received shall be treated as Purchased VRDP Shares, (II) a Failed Remarketing Condition Purchased VRDP Shares shall be deemed to exist and be continuing as of the date of distribution of the Series 8 VRDP Shares and to have commenced on the date the Liquidity Provider acquired the related shares of Target Fund VRDP pursuant to the Liquidity Provider's purchase obligation with respect to the Target Fund VRDP and (III) any notices given by the Liquidity Provider in accordance with the VRDP fee agreement relating to the Target Fund VRDP shall be deemed to have been given in accordance with the VRDP Fee Agreement for purposes of this subsection (b)(ii).

(B) Upon the occurrence and during the continuance of a Failed Remarketing Condition Purchased VRDP Shares with respect to any Series 8 VRDP Shares, by the fifth Business Day following delivery of notice thereof from the Liquidity Provider in accordance with the VRDP Fee Agreement, the Fund shall cause the Custodian to segregate, by means of appropriate identification on its books and records or otherwise in accordance with the Custodian's normal procedures, from the other assets of the Fund (a Liquidity Account) Liquidity Account Investments with a Market Value equal to at least 110% of the Liquidation Preference of such Purchased VRDP Shares. If, while the Failed Remarketing Condition Purchased VRDP Shares with respect to such Purchased VRDP Shares is continuing, the aggregate Market Value of the Liquidity Account Investments included in the Liquidity Account for such Purchased VRDP Shares as of the close of business on any Business Day is less than 110% of the Liquidation Preference of such Purchased VRDP Shares, then the Fund shall cause the Custodian and the Investment Adviser to take all such necessary actions, including segregating additional assets of the Fund as Liquidity Account Investments, so that the aggregate Market Value of the Liquidity Account Investments included in the Liquidity Account for such Purchased VRDP Shares is at least equal to 110% of the Liquidation Preference of such Purchased VRDP Shares not later than the close of business on the next succeeding Business Day. With respect to assets of the Fund segregated as Liquidity Account Investments, the Investment Adviser, on behalf of the Fund, shall be entitled to instruct the Custodian with a copy to the Liquidity Provider on any date to release any Liquidity Account Investments with respect to any Purchased VRDP Shares from such segregation and to substitute therefor other Liquidity Account Investments, so long as (x) the assets of the Fund segregated as Liquidity Account Investments with respect to such Purchased VRDP Shares at the close of business on such date have a Market Value equal to 110% of the Liquidation Preference of such Purchased VRDP Shares and (y) the assets of the Fund designated and segregated as Deposit Securities at the close of business on such date have a Market Value equal to the Liquidity Requirement (if any) determined in accordance with subparagraph (C) below with respect to such Purchased VRDP Shares for such date. The Fund shall cause the Custodian not to permit any lien, security interest or encumbrance to be created or permitted to exist on or in respect of any Liquidity Account Investments included in the Liquidity Account for any Purchased VRDP Shares, other than liens, security interests or encumbrances arising by operation of law and any lien of the Custodian with respect to the payment of its fees or repayment for its advances.

(C) Subject to notice having been received as referred to in subparagraph (B) above, the Market Value of the Deposit Securities held in the Liquidity Account for any Purchased VRDP Shares, from and after the day (or, if such day is not a Business Day, the next succeeding Business Day) preceding the expiration of the six-month holding period for the Failed Remarketing Condition Purchased VRDP Shares applicable to such Purchased VRDP Shares (which may result in multiple six month holding periods, each in respect of a Failed Remarketing Condition Purchased VRDP Shares in respect of applicable Purchased VRDP Shares) specified in the table set forth below, shall not be less than the percentage of

the Liquidation Preference for such Purchased VRDP Shares set forth below opposite such day (the Liquidity Requirement), but in all cases subject to the cure provisions of paragraph (D) below:

Number of Days* Preceding the Six-Month Anniversary of Liquidity Provider's Purchase	Value of Deposit Securities as Percentage of Liquidation Preference
135	20%
105	40%
75	60%
45	80%
15	100%

* Or if such day is not a Business Day, the next succeeding Business Day

(D) If the aggregate Market Value of the Deposit Securities included in the Liquidity Account for any Purchased VRDP Shares as of the close of business on any Business Day is less than the Liquidity Requirement in respect of such Purchased VRDP Shares for such Business Day, then the Fund shall cause the segregation of additional or substitute Deposit Securities in respect of the Liquidity Account for such Purchased VRDP Shares, so that the aggregate Market Value of the Deposit Securities included in the Liquidity Account for such Purchased VRDP Shares is at least equal to the Liquidity Requirement for such Purchased VRDP Shares not later than the close of business on the next succeeding Business Day.

(E) The Deposit Securities included in the Liquidity Account for any Purchased VRDP Shares may be applied by the Fund, in its discretion, towards payment of the Redemption Price for such Purchased VRDP Shares. Upon the earlier to occur of (x) the successful Remarketing of the Purchased VRDP Shares or (y) the deposit by the Fund with the Tender and Paying Agent with arrangements satisfactory to the Liquidity Provider of Deposit Securities having an initial combined Market Value sufficient to effect the redemption of such Purchased VRDP Shares on the Redemption Date for such Purchased VRDP Shares, the requirement of the Fund to maintain a Liquidity Account for such Purchased VRDP Shares as contemplated by this Section 9(b)(ii) shall lapse and be of no further force and effect.

(F) The provisions of subparagraphs (A) through (E) of this Section 9(b)(ii) may be amended by the Fund, by resolution of the Board of Trustees duly adopted, without shareholder approval in order to conform to the terms of a VRDP Fee Agreement or as otherwise necessary or desirable in the judgment of the Board of Trustees, provided that the Fund receives the prior written consent of the Liquidity Provider.

(iii) At least six months prior to the scheduled mandatory Redemption Date of [] specified in Section 9(b)(i) above, if any Series 8 VRDP Shares then remain Outstanding, the Fund shall cause the Custodian to segregate in a Liquidity Account (but without duplication of any Liquidity Account then in effect pursuant to Section 9(b)(ii) above), by means of appropriate identification on its books and records or otherwise in accordance with the Custodian's normal procedures, from the other assets of the Fund,

Liquidity Account Investments with a Market Value equal to at least 110% of the Liquidation Preference of the then Outstanding Series 8 VRDP Shares. The Fund shall maintain such Liquidity Account in accordance with Section 9(b)(ii)(B), (C) and (D) above and comply with the requirements set forth therein with respect to Liquidity Account Investments and the Liquidity Requirement; provided, that for purposes of this Section 9(b)(iii) all references therein to Purchased VRDP Shares shall be deemed to be to all Outstanding Series 8 VRDP Shares, all references therein to the Failed Remarketing Condition Purchased VRDP Shares or the related six-month period shall be deemed to be to the six-month period preceding the scheduled mandatory Redemption Date of [], and the references to notice by the Liquidity Provider shall not be applicable. The Deposit Securities included in the Liquidity Account for the Outstanding Series 8 VRDP Shares may be applied by the Fund, in its discretion, towards payment of the Redemption Price for the Outstanding Series 8 VRDP Shares. Upon the deposit by the Fund with the Tender and Paying Agent with arrangements satisfactory to the Liquidity Provider of Deposit Securities having an initial combined Market Value sufficient to effect the redemption of the Outstanding Series 8 VRDP Shares on the [] Redemption Date for the Outstanding Series 8 VRDP Shares, the requirement of the Fund to maintain a Liquidity Account for the Outstanding Series 8 VRDP Shares as contemplated by this Section 9(b)(iii) shall lapse and be of no further force and effect.

(c) **Notice of Redemption.** If the Fund shall determine or be required to redeem, in whole or in part, shares of Series 8 VRDP pursuant to paragraph (a) or (b)(i) of this Section 9, the Fund will send a notice of redemption (a Notice of Redemption), by Electronic Means (or by first class mail, postage prepaid, in the case where the Series 8 VRDP Shares are in physical form outside the book-entry system of the Securities Depository), to Holders thereof and the Liquidity Provider or, in the case of a redemption pursuant to paragraph (b)(ii) of this Section 9, only to the Liquidity Provider, or request the Tender and Paying Agent, on behalf of the Fund to promptly do so by Electronic Means (or by first class mail, postage prepaid, in the case where the Series 8 VRDP Shares are in physical form outside the book-entry system of the Securities Depository) so long as the Notice of Redemption is furnished by the Fund to the Tender and Paying Agent in electronic format at least five (5) Business Days prior to the date a Notice of Redemption is required to be delivered to the Holders, unless a shorter period of time shall be acceptable to the Tender and Paying Agent. A Notice of Redemption shall be sent to Holders not less than 10 days prior to the date fixed for redemption in such Notice of Redemption (the Redemption Date). Each such Notice of Redemption shall state: (i) the Redemption Date; (ii) the number of Series 8 VRDP Shares to be redeemed and the Series thereof; (iii) the CUSIP number for the Series 8 VRDP Shares; (iv) the Redemption Price or, if not then ascertainable, the manner of calculation thereof; (v) if applicable, the place or places where the certificate(s), if any, for such VRDP Shares (properly endorsed or assigned for transfer, if the Board of Trustees requires and the Notice of Redemption states) are to be surrendered for payment of the Redemption Price; (vi) that dividends on the Series 8 VRDP Shares to be redeemed will cease to accumulate from and after such Redemption Date; and (vii) the provisions of this Statement under which such redemption is made. If fewer than all Series 8 VRDP Shares held by any Holder are to be redeemed, the Notice of Redemption delivered to such Holder shall also specify the number of Series 8 VRDP Shares to be redeemed from such Holder. The Fund may provide in any Notice of Redemption relating to an optional redemption contemplated to be effected pursuant to this Statement that such redemption is subject to one or more conditions precedent not otherwise expressly stated herein and that the Fund shall not be required to effect such redemption unless each such condition has been satisfied at the time or times and in the manner specified in such Notice of Redemption. No defect in the Notice of Redemption or delivery thereof shall affect the validity of redemption proceedings, except as required by applicable law.

(d) **No Redemption Under Certain Circumstances.** Notwithstanding the provisions of paragraphs (a) or (b) of this Section 9, if any dividends on shares of Series 8 VRDP (whether or not earned or declared) are in arrears, no shares of such Series shall be redeemed unless all Outstanding shares of such Series are simultaneously redeemed, and the Fund shall not purchase or otherwise acquire any shares of such Series; provided, however, that the foregoing shall not prevent the purchase or acquisition of all Outstanding shares of such Series pursuant to the successful completion of an otherwise lawful purchase or exchange offer made on the same terms to, and accepted by, Holders of all Outstanding shares of such Series.

(e) **Absence of Funds Available for Redemption.** To the extent that any redemption for which a Notice of Redemption has been provided is not made by reason of the absence of legally available funds therefor in accordance with the Declaration and applicable law, such redemption shall be made as soon as practicable to the extent such funds become available. A failure to redeem Series 8 VRDP Shares shall be deemed to exist at any time after the date specified for redemption in a Notice of Redemption when the Fund shall have failed, for any reason whatsoever, to deposit in trust with the Tender and Paying Agent the Redemption Price with respect to any shares for which such Notice of Redemption has been sent; provided, however, that the foregoing shall not apply in the case of the Fund's failure to deposit in trust with the Tender and Paying Agent the Redemption Price with respect to any shares where (i) the Notice of Redemption relating to such redemption provided that such redemption was subject to one or more conditions precedent and (ii) any such condition precedent shall not have been satisfied at the time or times and in the manner specified in such Notice of Redemption. Notwithstanding the fact that the Fund may not have redeemed Series 8 VRDP Shares for which a Notice of Redemption has been provided, dividends shall be declared and paid on Series 8 VRDP Shares in accordance with and subject to the conditions of this Statement and shall be included in the Redemption Price in respect of those Series 8 VRDP Shares for which a Notice of Redemption has been provided.

(f) **Tender and Paying Agent as Trustee of Redemption Payments by Fund.** All moneys paid to the Tender and Paying Agent for payment of the Redemption Price of Series 8 VRDP Shares called for redemption shall be held in trust by the Tender and Paying Agent for the benefit of Holders of shares so to be redeemed.

(g) **Deposit with the Tender and Paying Agent; Shares for Which Notice of Redemption Has Been Given Are No Longer Outstanding.** Provided a Notice of Redemption has been given pursuant to paragraph (c) of this Section 9, not later than 12:00 noon, New York City time, on a Business Day not less than ten (10) days preceding the Redemption Date specified in such notice, the Fund shall irrevocably deposit with the Tender and Paying Agent an aggregate amount of Deposit Securities with a Market Value at least equal to the Redemption Price to be paid on the Redemption Date for the Series 8 VRDP Shares that are subject to such notice. Provided a Notice of Redemption has been given pursuant to paragraph (c) of this Section 9, upon the deposit with the Tender and Paying Agent of Deposit Securities with a Market Value at least equal to the Redemption Price to be paid on the Redemption Date for the Series 8 VRDP Shares that are the subject of such notice, dividends on such shares shall cease to accumulate, except as included in the Redemption Price, and such shares shall no longer be deemed to be Outstanding, except as noted below with respect to the VRDP Purchase Agreement, for any purpose, and all rights of the Holders of the shares so called for redemption shall cease and terminate, except the right of such Holders to receive the Redemption Price, but without any interest or other additional amount, except as provided in paragraph (e)(i) of Section 2 of this Part I and in Section 3 of Part I of this Statement. Upon surrender in accordance with

the Notice of Redemption of the certificates for any shares so redeemed (properly endorsed or assigned for transfer, if the Board of Trustees shall so require and the Notice of Redemption shall so state), the Redemption Price shall be paid by the Tender and Paying Agent to the Holders of Series 8 VRDP Shares subject to redemption. In the case that fewer than all of the shares represented by any such certificate are redeemed, a new certificate shall be issued, representing the unredeemed shares, without cost to the Holder thereof. The Fund shall be entitled to receive from the Tender and Paying Agent, promptly after the date fixed for redemption, any cash deposited with the Tender and Paying Agent in excess of (i) the aggregate Redemption Price of the Series 8 VRDP Shares called for redemption on such date and (ii) all other amounts to which Holders of Series 8 VRDP Shares called for redemption may be entitled. Any funds so deposited that are unclaimed at the end of 90 days from such Redemption Date shall, to the extent permitted by law, be repaid to the Fund, after which time the Holders of Series 8 VRDP Shares so called for redemption may look only to the Fund for payment of the Redemption Price and all other amounts to which they may be entitled. The Fund shall be entitled to receive, from time to time after the date fixed for redemption, any interest on the funds so deposited. Notwithstanding the foregoing, Series 8 VRDP Shares will be deemed to be Outstanding for purposes of the VRDP Purchase Agreement until redeemed by the Fund.

(h) **Compliance With Applicable Law.** In effecting any redemption pursuant to this Section 9, the Fund shall use its best efforts to comply with all applicable conditions precedent to effecting such redemption under the 1940 Act and any applicable Massachusetts law, but shall effect no redemption except in accordance with the 1940 Act and any applicable Massachusetts law.

(i) **Only Whole VRDP Shares May Be Redeemed.** In the case of any redemption pursuant to this Section 9, only whole Series 8 VRDP Shares shall be redeemed, and in the event that any provision of the Declaration would require redemption of a fractional share, the Tender and Paying Agent shall be authorized to round up so that only whole shares are redeemed.

(j) **Modification of Redemption Procedures.** Notwithstanding the foregoing provisions of this Section 9, the Fund may, in its sole discretion, modify the procedures set forth above with respect to notification of redemption for the Series 8 VRDP Shares, provided that such modification does not materially and adversely affect the Holders of the Series 8 VRDP Shares or cause the Fund to violate any law, rule or regulation; and provided further that no such modification shall in any way alter the obligations of the Tender and Paying Agent without its prior written consent. Furthermore, if in the sole discretion of the Board of Trustees, after consultation with counsel, modification of the foregoing redemption provisions are permissible under the rules and regulations or interpretations of the SEC and the Code (including in respect of the treatment of the Series 8 VRDP Shares as stock for U.S. federal income tax purposes) with respect to the redemption of Series 8 VRDP Shares owned by the Liquidity Provider, the Fund, without shareholder approval, by resolution of the Board of Trustees, may modify such redemption procedures.

10. **Liquidation Rights.**

(a) **Ranking.** The shares of Series 8 VRDP shall rank on a parity with each other, with shares of any other Series of VRDP and with shares of any other series of Preferred Shares as to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund.

(b) **Distributions Upon Liquidation.** Upon the dissolution, liquidation or winding up of the affairs of the Fund, whether voluntary or involuntary, the Holders of Series 8 VRDP Shares

then Outstanding shall be entitled to receive and to be paid out of the assets of the Fund available for distribution to its shareholders, before any payment or distribution shall be made on the Common Shares or on any other class of shares of the Fund ranking junior to the Series 8 VRDP Shares upon dissolution, liquidation or winding up, an amount equal to the Liquidation Preference with respect to such shares *plus* an amount equal to all dividends thereon (whether or not earned or declared) accumulated but unpaid to (but not including) the date of final distribution in same day funds, together with any payments required to be made pursuant to Section 3 of Part I of this Statement in connection with the liquidation of the Fund. After the payment to the Holders of the Series 8 VRDP Shares of the full preferential amounts provided for in this paragraph (b), the Holders of Series 8 VRDP Shares as such shall have no right or claim to any of the remaining assets of the Fund.

(c) **Pro Rata Distributions.** In the event the assets of the Fund available for distribution to the Holders of Series 8 VRDP Shares upon any dissolution, liquidation or winding up of the affairs of the Fund, whether voluntary or involuntary, shall be insufficient to pay in full all amounts to which such Holders are entitled pursuant to paragraph (b) of this Section 10, no such distribution shall be made on account of Series 8 VRDP or any shares of any other class or series of Preferred Shares ranking on a parity with the Series 8 VRDP Shares with respect to the distribution of assets upon such dissolution, liquidation or winding up unless proportionate distributive amounts shall be paid on account of the Series 8 VRDP Shares, ratably, in proportion to the full distributable amounts for which holders of Series 8 VRDP Shares and all such parity shares are respectively entitled upon such dissolution, liquidation or winding up.

(d) **Rights of Junior Shares.** Subject to the rights of the holders of shares of any other series or class or classes of shares ranking on a parity with the Series 8 VRDP Shares with respect to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, after payment shall have been made in full to the Holders of the Series 8 VRDP Shares as provided in paragraph (b) of this Section 10, but not prior thereto, any other series or class or classes of shares ranking junior to the Series 8 VRDP Shares with respect to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund shall, subject to the respective terms and provisions (if any) applying thereto, be entitled to receive any and all assets remaining to be paid or distributed, and the Holders of the Series 8 VRDP Shares shall not be entitled to share therein.

(e) **Certain Events Not Constituting Liquidation.** Neither the sale of all or substantially all the property or business of the Fund, nor the merger, consolidation or reorganization of the Fund into or with any business or statutory trust, corporation or other entity nor the merger, consolidation or reorganization of any business or statutory trust, corporation or other entity into or with the Fund shall be a dissolution, liquidation or winding up, whether voluntary or involuntary, for the purposes of this Section 10.

11. **Purchase Obligation.** As long as Series 8 VRDP Shares are Outstanding, except as otherwise provided pursuant to Section 4 of Part I of this Statement in connection with a Special Rate Period, the Fund shall maintain a VRDP Purchase Agreement providing for a Purchase Obligation with a Liquidity Provider with short-term debt ratings in one of the two highest ratings categories from the Requisite NRSROs or such other short-term debt ratings, if any, as may be required for the Series 8 VRDP Shares to satisfy the eligibility criteria under Rule 2a-7 under the 1940 Act on an ongoing basis to the extent that the Fund can do so on a commercially reasonable basis as determined in the sole

discretion of the Board of Trustees. If the Fund maintains a VRDP Purchase Agreement providing a Purchase Obligation, the provisions herein relating to the Liquidity Provider shall be operative and the following shall apply:

- (a) The Fund shall notify, or cause the Tender and Paying Agent to notify, Holders by Electronic Means, or by first class mail, postage prepaid, in the case in which Series 8 VRDP Shares are in physical form outside the book-entry system of the Securities Depository, (A) of the occurrence of a Mandatory Tender Event or Mandatory Purchase Event, (B) in the event that there is a substitute Liquidity Provider (including, but not limited to, as to the Liquidity Provider, its consolidation or amalgamation with, or merger with and into, another entity, or the transfer of all or substantially all of the Liquidity Provider's assets to another entity), such notice to be provided at least seven days prior to any such substitution, or (C) of any downgrade in the short-term or long-term rating of the Series 8 VRDP Shares or the short-term rating of the Liquidity Provider by an NRSRO then rating the Series 8 VRDP Shares or the Liquidity Provider, as applicable.
- (b) In the event of a Failed Remarketing Condition, the Fund will require in the Tender and Paying Agent Agreement that the Tender and Paying Agent will notify the Fund and Holders by telephone or Electronic Means, or by first class mail, postage prepaid, in the case in which Series 8 VRDP Shares are in physical form outside the book-entry system of the Securities Depository, of such Failed Remarketing Condition.
- (c) Each Series 8 VRDP Share shall be subject to Tender to the Tender and Paying Agent for Remarketing on the related Purchase Date or, in the event (i) no Remarketing occurs or (ii) pursuant to an attempted Remarketing shares remain unsold and the Remarketing Agent does not purchase for its own account the unsold Series 8 VRDP Shares tendered to the Tender and Paying Agent for Remarketing (provided that the Remarketing Agent may seek to sell such Series 8 VRDP Shares in a subsequent Remarketing prior to the Purchase Date), for purchase by the Liquidity Provider on such Purchase Date pursuant to a Final Notice of Purchase. If there is no Tender and Paying Agent or the Tender and Paying Agent does not perform such obligation pursuant to the VRDP Purchase Agreement, Beneficial Owners and their Agent Members shall have the right to tender their Series 8 VRDP Shares directly to the Liquidity Provider pursuant to a Final Notice of Purchase. In the event there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not, or in the reasonable judgment of the Fund will not, perform its obligations under the VRDP Purchase Agreement, the Fund (i) upon becoming aware thereof, shall promptly notify the Liquidity Provider, the Remarketing Agent and the Holders by Electronic Means of such event, and (ii) so long as such event is continuing, shall use its best efforts to direct the Remarketing Agent to forward, concurrently with the delivery thereof to the Liquidity Provider or as promptly as practicable thereafter, any Remarketing Notice to each Beneficial Owner or Holder tendering Series 8 VRDP Shares that are the subject of such notice.
- (d) The Fund will require in the Tender and Paying Agent Agreement that, pursuant to a Tender, Series 8 VRDP Shares that are not sold in a Remarketing will be tendered by the Tender and Paying Agent to the Liquidity Provider for payment of the Purchase Price on the Purchase Date pursuant to the VRDP Purchase Agreement.
- (e) Except as set forth in Section 9(b)(ii) of Part I of this Statement in connection with a mandatory redemption of Series 8 VRDP Shares, the Fund shall have no obligation to purchase Series 8 VRDP Shares acquired by the Liquidity Provider pursuant to the VRDP Purchase Agreement or otherwise.

(f) Series 8 VRDP Shares are subject to Mandatory Purchase by the Liquidity Provider upon the occurrence of a Mandatory Purchase Event. Promptly following the occurrence of a Mandatory Purchase Event, and in any event within three (3) Business Days thereafter, the Fund, or the Tender and Paying Agent at the direction of the Fund (provided, that the Tender and Paying Agent may require up to two (2) Business Days prior notification by Electronic Means by the Fund), shall provide a Mandatory Purchase Notice by Electronic Means to the Holders and the Liquidity Provider, specifying a Mandatory Purchase Date for all Outstanding Series 8 VRDP Shares. The Mandatory Purchase Date shall not be later than seven days following the date a Mandatory Purchase Notice is sent to Holders by Electronic Means, and in any event shall be not later than the Business Day immediately preceding the termination of the VRDP Purchase Agreement. Any notice given in respect of a Mandatory Purchase under this Statement shall be conclusively presumed to have been duly given, whether or not the Holders or Beneficial Owners receive such notice. Upon the occurrence of a Mandatory Purchase Event, all Outstanding Series 8 VRDP Shares automatically shall be subject to Mandatory Purchase by the Liquidity Provider at the Purchase Price on the Mandatory Purchase Date, including any Series 8 VRDP Shares tendered pursuant to an Optional Tender or Mandatory Tender for which the Purchase Date has not yet occurred.

(g) In the event Series 8 VRDP Shares are issued in certificated form outside the book-entry system of the Securities Depository and a Holder fails to deliver such Series 8 VRDP Shares to which a Mandatory Purchase relates, on or prior to the Mandatory Purchase Date, the Holder of such Series 8 VRDP Shares will not be entitled to any payment (including any accumulated but unpaid dividends thereon, whether or not earned or declared) other than the Purchase Price of such undelivered Series 8 VRDP Shares as of the scheduled Purchase Date. Any such undelivered Series 8 VRDP Shares will be deemed to be delivered to the Tender and Paying Agent, and the Tender and Paying Agent will place stop-transfer orders against the undelivered Series 8 VRDP Shares. Any moneys held by the Tender and Paying Agent for the purchase of undelivered Series 8 VRDP Shares shall be held in a separate account, shall not be invested, and shall be held for the exclusive benefit of the Holder of such undelivered Series 8 VRDP Shares. The undelivered Series 8 VRDP Shares shall be deemed to be no longer Outstanding (except as to entitlement to payment of the Purchase Price), and the Fund will issue to the purchaser replacement Series 8 VRDP Share certificates in lieu of such undelivered Series 8 VRDP Shares.

(h) The Fund shall use its best efforts to engage at all times a Tender and Paying Agent to perform the duties specified in this Statement, the Tender and Paying Agent Agreement and the VRDP Purchase Agreement with respect to the Tender and Paying Agent.

The provisions of paragraphs (a) through (g) of this Section 12 may be amended by the Board of Trustees, by resolution duly adopted, without shareholder approval in order to conform to a VRDP Purchase Agreement providing a Purchase Obligation.

12. Miscellaneous.

(a) **Amendment of or Supplements to this Statement.** The Board of Trustees may, by resolution duly adopted, without shareholder approval (except as otherwise provided by this Statement or required by applicable law), amend or supplement this Statement to (1) reflect any amendments or supplements hereto which the Board of Trustees is entitled to adopt pursuant to the terms of this Statement without shareholder approval or (2) provide for the issuance of additional shares of Series 8 VRDP (and terms relating thereto). Each such additional share of Series 8 VRDP shall be governed by the terms of this Statement as so amended or supplemented.

- (b) **No Fractional Shares.** No fractional Series 8 VRDP Shares shall be issued.
- (c) **Status of VRDP Shares Redeemed, Exchanged or Otherwise Acquired by the Fund.** Series 8 VRDP Shares which are redeemed, exchanged or otherwise acquired by the Fund shall return to the status of authorized and unissued Preferred Shares without designation as to series, provided, however, that any Series 8 VRDP Shares which are provisionally delivered by the Fund to or for the account of an agent of the Fund or to or for the account of a purchaser of such Series 8 VRDP Shares, but for which final payment is not received by the Fund, shall return to the status of authorized and unissued Series 8 VRDP Shares.
- (d) **Purchase Obligation Part of VRDP Shares.** Each Holder and Beneficial Owner, by virtue of acquiring Series 8 VRDP Shares, is deemed to have agreed, for U.S. federal income tax purposes, to treat the Purchase Obligation as part of the Series 8 VRDP Shares rather than as a separate property right.
- (e) **Treatment of VRDP Shares as Stock.** Each Holder and Beneficial Owner, by virtue of acquiring Series 8 VRDP Shares, is deemed to have agreed, for U.S. federal income tax purposes, to treat the Series 8 VRDP Shares as stock in the Fund.
- (f) **Board May Resolve Ambiguities.** To the extent permitted by applicable law, the Board of Trustees may interpret or adjust the provisions of this Statement to resolve any inconsistency or ambiguity or to remedy any formal defect.
- (g) **Headings Not Determinative.** The headings contained in this Statement are for convenience of reference only and shall not affect the meaning or interpretation of this Statement.
- (h) **Notices.** All notices or communications, unless otherwise specified in the by-laws of the Fund or this Statement, shall be sufficiently given if in writing and delivered in person, by Electronic Means or mailed by first-class mail, postage prepaid.

PART II

1. Remarketing Procedures.

- (a) Pursuant to an Optional Tender, Beneficial Owners may elect to tender their Series 8 VRDP Shares (in denominations of \$100,000 and integral multiples thereof) for Remarketing at the Purchase Price on the Purchase Date designated in a Notice of Tender (or, if such day is not a Business Day, on the next succeeding Business Day). Each Notice of Tender shall be irrevocable (except as described below) and effective upon receipt and shall:
- (i) be delivered by a Beneficial Owner, directly or through its Agent Member, by email transmission (or, if email transmission shall be unavailable, by facsimile transmission), to the Tender and Paying Agent not later than 2:00 p.m., New York City time, on any Business Day;
 - (ii) state the series and the aggregate number of Series 8 VRDP Shares to be purchased, the CUSIP number of the Series 8 VRDP Shares to be purchased, and the Purchase Date and be in substantially the form of and contain such other information specified in an exhibit to the VRDP Purchase Agreement; and

- (iii) state that the tendering Beneficial Owner acknowledges that such Beneficial Owner is required to deliver the Series 8 VRDP Shares that are the subject of a Notice of Tender (that has not been duly revoked as described below) on or before 2:00 p.m., New York City time, on the Purchase Date.
- (b) Upon receipt of a Notice of Tender, the Tender and Paying Agent shall provide a copy to the Liquidity Provider and the Remarketing Agent (with a copy to the Fund) as promptly as practicable by Electronic Means, but no later than 4:00 p.m., New York City time, on the date of receipt or deemed receipt.
- (c) Any Notice of Tender delivered to the Tender and Paying Agent by a Beneficial Owner or its Agent Member after 2:00 p.m., New York City time, shall be deemed to have been received by the Tender and Paying Agent on the next succeeding Business Day, and the Purchase Date shall be adjusted such that the Purchase Date shall be the Business Day next succeeding the date specified as the Purchase Date in the relevant Notice of Tender.
- (d) The determination of the Tender and Paying Agent as to whether a Notice of Tender has been properly delivered pursuant to the foregoing in paragraph (a)(i) and (ii) shall be conclusive and binding upon the Beneficial Owner and its Agent Member.
- (e) (i) Series 8 VRDP Shares are subject to Mandatory Tender upon the occurrence of a Mandatory Tender Event.
- (ii) Promptly following the occurrence of a Mandatory Tender Event, and in any event within three (3) Business Days thereafter, the Fund, or the Tender and Paying Agent at the direction of the Fund (provided, that the Tender and Paying Agent may require up to two (2) Business Days prior notification by Electronic Means by the Fund), shall provide a Mandatory Tender Notice by Electronic Means to Holders, the Remarketing Agent and the Liquidity Provider, specifying a Purchase Date for all Outstanding Series 8 VRDP Shares. Any notice given in respect of a Mandatory Tender under this Statement will be conclusively presumed to have been duly given, whether or not the Holders or Beneficial Owners receive such notice.
- (iii) Upon the occurrence of a Mandatory Tender Event, all Outstanding Series 8 VRDP Shares automatically shall be subject to Mandatory Tender and delivered to the Tender and Paying Agent for purchase on the designated Purchase Date by purchasers in the Remarketing in the event of a successful Remarketing or otherwise by the Liquidity Provider, including any Series 8 VRDP Shares previously tendered pursuant to an Optional Tender for which the Purchase Date has not yet occurred. In the event that Series 8 VRDP Shares are issued in certificated form outside the book-entry system of the Securities Depository and a Holder of Series 8 VRDP Shares fails to deliver such Series 8 VRDP Shares to which a Mandatory Tender relates on or prior to the Purchase Date, the Holder of such Series 8 VRDP Shares shall not be entitled to any payment (including any accumulated but unpaid dividends thereon, whether or not earned or declared) other than the Purchase Price of such undelivered Series 8 VRDP Shares as of the scheduled Purchase Date. Any such undelivered Series 8 VRDP Shares will be deemed to be delivered to the Tender and Paying Agent, and the Tender and Paying Agent will place stop-transfer orders against the undelivered Series 8 VRDP Shares. Any moneys held by the Tender and Paying Agent for

the purchase of undelivered Series 8 VRDP Shares will be held in a separate account by the Tender and Paying Agent, will not be invested, and will be held for the exclusive benefit of the Holder of such undelivered Series 8 VRDP Shares. The undelivered Series 8 VRDP Shares will be deemed to be no longer Outstanding (except as to entitlement to payment of the Purchase Price), and the Fund will issue to the purchaser replacement Series 8 VRDP Share certificates in lieu of such undelivered Series 8 VRDP Shares.

(f) A Beneficial Owner or its Agent Member that delivered a Notice of Tender in connection with an Optional Tender may deliver in writing by email transmission (or if email transmission shall be unavailable, by facsimile transmission) to the Tender and Paying Agent, not later than 10:00 a.m., New York City time, on or prior to the Business Day immediately preceding the Purchase Date, a notice to the effect that such Beneficial Owner wishes to revoke its election to tender some or all of the Series 8 VRDP Shares that were specified in such Notice of Tender to be purchased (a Notice of Revocation). Any Notice of Revocation delivered to the Tender and Paying Agent shall be promptly delivered by Electronic Means by the Tender and Paying Agent to the Liquidity Provider and the Remarketing Agent (with a copy to the Fund) by 12:00 noon, New York City time, on the Business Day immediately preceding the relevant Purchase Date. The Remarketing Agent (following receipt of such Notice of Revocation) shall notify the Tender and Paying Agent and the Liquidity Provider of the number of Series 8 VRDP Shares specified in such Notice of Revocation that are subject to an agreement of sale pursuant to a Remarketing by email transmission or facsimile transmission not later than 2:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date. The Tender and Paying Agent will contact the Remarketing Agent by Electronic Means by 1:45 p.m., New York City time, if such notification has not been received by that time. The Tender and Paying Agent shall deliver such notification to the Beneficial Owner or its Agent Member promptly following receipt from the Remarketing Agent, and in any event by 4:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date. Any such Notice of Revocation shall be effective (without further action on the part of the Beneficial Owner or its Agent Member) as a revocation of the Optional Tender of the number of Series 8 VRDP Shares specified therein as being sought to be revoked, but (except as set forth below) only if and to the extent that the Remarketing Agent has not entered into an agreement to sell such Series 8 VRDP Shares. A Notice of Revocation shall be effective as to the number of Series 8 VRDP Shares specified therein as having been revoked less the number of such Series 8 VRDP Shares in respect of which the Remarketing Agent has so notified the Tender and Paying Agent and the Liquidity Provider that it has entered into an agreement of sale. Notwithstanding the foregoing, (x) tendered Series 8 VRDP Shares, if any, unsold and in respect of which the Remarketing Agent has not entered into an agreement of sale at or after the time of receipt by the Remarketing Agent of a Notice of Revocation may, at the discretion of the Remarketing Agent, be allocated by the Remarketing Agent to such Notice of Revocation and (y) tendered Series 8 VRDP Shares, if any, that remain unsold on the related Purchase Date shall be allocated by the Remarketing Agent to each Notice of Revocation received in respect of Series 8 VRDP Shares tendered for purchase on such Purchase Date and not already satisfied in the chronological order in which each such Notice of Revocation was received by the Tender and Paying Agent, and each such Notice of Revocation shall be effective only to the extent of such allocation and availability of unsold Series 8 VRDP Shares.

(g) Except as otherwise provided pursuant to Section 4 of Part I of this Statement in connection with a Special Rate Period, the Fund shall use its best efforts to engage at all times a Remarketing Agent that is a nationally recognized securities dealer with expertise in remarketing

variable-rate securities to use its best efforts to remarket all Series 8 VRDP Shares properly tendered pursuant to a Tender in accordance with Part II of this Statement.

2. Remarketing Schedule.

(a) In connection with any attempted Remarketing, all tendered Series 8 VRDP Shares shall be remarketed at the Purchase Price of such Series 8 VRDP Shares. The calculation of the Purchase Price of the Series 8 VRDP Shares that are remarketed or purchased by the Liquidity Provider shall be made by the Remarketing Agent in advance of such Remarketing or purchase and, together with the details of the aggregate number and Purchase Price of remarketed Series 8 VRDP Shares and the aggregate number and Purchase Price of Series 8 VRDP Shares to be purchased by the Liquidity Provider pursuant to the Purchase Obligation, shall be communicated by the Remarketing Agent to the Fund, the Liquidity Provider and the Tender and Paying Agent by email transmission or facsimile transmission by 2:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date, as described below. The proceeds of the sale of any remarketed Series 8 VRDP Shares by the Remarketing Agent relating to tendered Series 8 VRDP Shares shall be used by the Tender and Paying Agent for the purchase of the tendered Series 8 VRDP Shares at the Purchase Price, and the terms of the sale will provide for the wire transfer of such Purchase Price by the Remarketing Agent to be received by the Tender and Paying Agent no later than 11:00 a.m., New York City time, on the related Purchase Date for payment to the Agent Member of the Beneficial Owner, in the case of an Optional Tender, or Holder, in the case of a Mandatory Tender, tendering Series 8 VRDP Shares for sale through the Securities Depository in immediately available funds against delivery of the tendered Series 8 VRDP Shares to the Tender and Paying Agent through the Securities Depository, the delivery of such Series 8 VRDP Shares to the Tender and Paying Agent through the Securities Depository no later than 2:00 p.m., New York City time, on the related Purchase Date, and the re-delivery of such Series 8 VRDP Shares by means of FREE delivery through the Securities Depository to the Remarketing Agent for delivery to the purchaser's Agent Member through the Securities Depository by 3:00 p.m., New York City time, on the related Purchase Date.

(b) (b) By 2:00 p.m., New York City time, on the Business Day immediately preceding each Purchase Date, the Remarketing Agent shall deliver a notice to the Tender and Paying Agent and the Liquidity Provider (a Remarketing Notice), by email transmission or facsimile transmission, that sets forth the number of Series 8 VRDP Shares, if any, that it successfully remarketed for purchase on such Purchase Date and the aggregate Purchase Price of such sold Series 8 VRDP Shares and the number of Series 8 VRDP Shares, if any, not successfully remarketed for purchase on such Purchase Date and the aggregate Purchase Price of such unsold Series 8 VRDP Shares to be paid by the Liquidity Provider. If the Remarketing Notice states that the Remarketing Agent has not successfully remarketed all of the Series 8 VRDP Shares to be purchased on such Purchase Date, the Tender and Paying Agent will promptly, and in any event not later than 4:00 p.m., New York City time, on such Business Day, deliver by Electronic Means to the Liquidity Provider (with a copy to the Fund) a Preliminary Notice of Purchase that, subject to delivery of the Final Notice of Purchase on the Purchase Date described below, provides for the purchase by the Liquidity Provider of the number of Series 8 VRDP Shares that the Remarketing Agent stated in the Remarketing Notice as not having been successfully remarketed, including the aggregate Purchase Price of such Series 8 VRDP Shares, as calculated by the Remarketing Agent. If the Remarketing Notice states that the Remarketing Agent has not successfully remarketed all of the Series 8 VRDP Shares to be purchased on such Purchase Date (or if Remarketing proceeds for any tendered Series 8 VRDP Shares have not been received for any reason by the Tender and Paying Agent by 11:00 a.m., New York City time, on

the Purchase Date), the Tender and Paying Agent will deliver by Electronic Means to the Liquidity Provider (with a copy to the Fund) by 12:00 noon, New York City time, on such Purchase Date a Final Notice of Purchase that states the number of Series 8 VRDP Shares required to be purchased by the Liquidity Provider. For purposes of the Final Notice of Purchase, any tendered Series 8 VRDP Shares for which Remarketing proceeds have not been received for any reason by the Tender and Paying Agent by 11:00 a.m., New York City time, on the Purchase Date (other than VRDP Shares owned by the Liquidity Provider and tendered for Remarketing), shall be treated as not having been successfully remarketed and shall be required to be purchased by the Liquidity Provider. Except for manifest error, the payment obligation of the Liquidity Provider shall equal the Purchase Price of the Series 8 VRDP Shares stated in the Final Notice of Purchase delivered to the Liquidity Provider as being required to be purchased by the Liquidity Provider.

(c) The Liquidity Provider shall, no later than 2:00 p.m., New York City time, on a Purchase Date for any Series 8 VRDP Shares, wire transfer the aggregate Purchase Price of all Series 8 VRDP Shares in respect of which Final Notices of Purchase have been delivered to it for purchase on such date, as follows: (i) in the case of a Final Notice of Purchase delivered by the Tender and Paying Agent, by wire transfer, in immediately available funds, to the account of the Tender and Paying Agent specified by the Tender and Paying Agent in any such Final Notice of Purchase; and (ii) in the case of a Final Notice of Purchase delivered by a Beneficial Owner or its Agent Member, in the case of an Optional Tender, or by a Holder, in the case of a Mandatory Tender, in the event there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not perform its obligations under the VRDP Purchase Agreement and the Liquidity Provider has received a Remarketing Notice that such Series 8 VRDP Shares have not been the subject of an agreement of sale in a Remarketing and has received written notice from the Fund that there is no Tender and Paying Agent or that the Tender and Paying Agent does not intend to perform its obligations under the VRDP Purchase Agreement, by payment against delivery of the Series 8 VRDP Shares that are the subject of any such Final Notice of Purchase, in each case, through means of the Securities Depository in the case of Series 8 VRDP Shares in the form of global securities.

(d) Upon receipt by the Tender and Paying Agent from the Beneficial Owner or its Agent Member, in the case of an Optional Tender, or from the Holder, in the case of a Mandatory Tender, of tendered Series 8 VRDP Shares and the payment by the Tender and Paying Agent to such Beneficial Owner or its Agent Member, or such Holder, as the case may be, of the Purchase Price therefor on the applicable Purchase Date, the Tender and Paying Agent shall deliver to the Liquidity Provider, by means of FREE delivery through the system of the Securities Depository, Series 8 VRDP Shares in satisfaction of the Liquidity Provider's Purchase Obligation on such Purchase Date. Any funds paid by the Liquidity Provider and held in the account of the Tender and Paying Agent for the payment of the Purchase Price shall be held in trust for the benefit of the Liquidity Provider until the Series 8 VRDP Shares are delivered, against payment therefor, by the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, or by the tendering Holder, in the case of a Mandatory Tender, or returned to the Liquidity Provider. Any funds paid by the Remarketing Agent and held in an account of the Tender and Paying Agent for the payment of the Purchase Price in connection with a Remarketing shall be held in trust for the benefit of the Remarketing Agent on account of purchasers purchasing in a Remarketing until the Series 8 VRDP Shares are delivered, against payment therefor, by the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, or by the tendering Holders, in the case of a Mandatory Tender, or returned to the Remarketing Agent on account of purchasers purchasing in a Remarketing. Upon receipt of Series 8 VRDP Shares from the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, or from the tendering

Holders, in the case of a Mandatory Tender, by the Tender and Paying Agent, the Tender and Paying Agent shall pay, subject to receipt of the Purchase Price by the Tender and Paying Agent in the form of Remarketing proceeds from the Remarketing Agent, with respect to Series 8 VRDP Shares successfully remarketed by the Remarketing Agent, or in the form of payment pursuant to the VRDP Purchase Agreement from the Liquidity Provider, with respect to Series 8 VRDP Shares subject to purchase pursuant to the Purchase Obligation, the Purchase Price for such Series 8 VRDP Shares to the relevant tendering Beneficial Owners, Agent Members or Holders, as the case may be. In accordance with and subject to the foregoing, the Tender and Paying Agent shall effect any such payment on the applicable Purchase Date.

(e) Except as otherwise expressly provided for herein, the purchase and delivery of tendered Series 8 VRDP Shares in the form of global securities, the Remarketing or purchase by the Liquidity Provider thereof, and payments with respect to the foregoing, will be accomplished in accordance with the applicable procedures of the Securities Depository.

(f) The Remarketing Agent and the Tender and Paying Agent each shall use commercially reasonable efforts to meet the timing requirements set forth above. At any time that no Purchase Obligation is in effect (or with respect to a Remarketing of Series 8 VRDP Shares held by the Liquidity Provider as to which any then-effective Purchase Obligation by a successor liquidity provider is inapplicable), any Series 8 VRDP Shares unsold in a Remarketing shall be returned to the relevant tendering Beneficial Owners or their Agent Members, or the relevant tendering Holders, as the case may be, by the Tender and Paying Agent. The Remarketing Agent may, in its sole discretion, modify the settlement procedures set forth above with respect to any Remarketing upon ten (10) days' prior written notice to the Fund, the Liquidity Provider and the Tender and Paying Agent, provided any such modification does not adversely affect the Holders, the Beneficial Owners, the Tender and Paying Agent, the Liquidity Provider or the Fund. The Remarketing Agent may sell Series 8 VRDP Shares for its own account outside of a Remarketing at a price other than the Purchase Price.

(g) In connection with the allocation of Series 8 VRDP tendered for Remarketing by the Liquidity Provider and any other Holder or Beneficial Owner of shares of Series 8 VRDP in any Remarketing, the Remarketing Agent shall allocate those shares of Series 8 VRDP previously acquired by the Liquidity Provider pursuant to its Purchase Obligation first to any purchasers in a Remarketing (such allocation coming first from those shares of Series 8 VRDP acquired earliest by the Liquidity Provider).

3. **Determination of Applicable Rate.**

(a) The Applicable Rate shall be determined by the Remarketing Agent on and as of each Rate Determination Date as the lowest rate under then-existing market conditions that in the Remarketing Agent's sole judgment would result in the Series 8 VRDP Shares on the first day of the Subsequent Rate Period next succeeding the Rate Determination Date having a market value equal to the Liquidation Preference thereof (*plus* accumulated but unpaid dividends thereon, whether or not earned or declared). Such determination shall be conclusive and binding upon the interested parties. The Applicable Rate shall not exceed the Maximum Rate.

(b) The Remarketing Agent shall establish the Applicable Rate by 5:00 p.m., New York City time, on each Rate Determination Date to the nearest one-thousandth (0.001) of one percent per annum for the Subsequent Rate Period. The Applicable Rate shall be in effect from and

including the first day following such Rate Determination Date to and including the following Rate Determination Date. The Remarketing Agent shall make the Applicable Rate available after 5:00 p.m., New York City time, on the Rate Determination Date by email transmission or facsimile transmission to the Fund, the Tender and Paying Agent and the Liquidity Provider and post the Applicable Rate on Bloomberg.

(c) In the event that the Remarketing Agent establishes the Maximum Rate as the Applicable Rate for a Subsequent Rate Period, the Remarketing Agent shall notify the Fund and the Tender and Paying Agent. The Fund will require in the Tender and Paying Agent Agreement that the Tender and Paying Agent will notify the Liquidity Provider and the Holders of Series 8 VRDP Shares by first class mail, postage prepaid (in the case of physical shares outside the book-entry system of the Securities Depository), or Electronic Means (in the case of Series 8 VRDP Shares in the form of global securities) that the Applicable Rate for the Subsequent Rate Period is the Maximum Rate.

(d) In the event the Remarketing Agent does not or is unable to determine the Applicable Rate, or if there is no Remarketing Agent, the Applicable Rate shall be the Maximum Rate.

(e) In the event of a Failed Remarketing Condition, the Applicable Rate as of the close of business on the day the Failed Remarketing Condition first occurs will be adjusted to the Maximum Rate (with the Applicable Spread subject to adjustment as set forth in the definition of Applicable Spread) and the Maximum Rate will continue to be the Applicable Rate (i) until the first day of the next succeeding Subsequent Rate Period after a Failed Remarketing Condition no longer exists in the case of a Minimum Rate Period, and (ii) as may be provided in the Notice of Special Rate Period in the case of a Special Rate Period.

4. **Failed Remarketing Condition.** In the event of a Failed Remarketing Condition, pursuant to the Tender and Paying Agent Agreement, the Tender and Paying Agent shall provide notice of a Failed Remarketing Condition, promptly but in any event within two (2) Business Days of receipt by the Tender and Paying Agent of notice from the Fund of the occurrence of such Failed Remarketing Condition, by Electronic Means (or by first class mail, postage prepaid, in the case where the Series 8 VRDP Shares are in physical form outside the book-entry system of the Securities Depository) to the Holders (with a copy to the Fund).

5. **Purchase of Series 8 VRDP Shares by Remarketing Agent.** The Remarketing Agent in its sole discretion may purchase for its own account Series 8 VRDP Shares in a Remarketing; however, the Remarketing Agent shall not be obligated to purchase any Series 8 VRDP Shares that would otherwise remain unsold in a Remarketing except that, if so provided in the Remarketing Agreement, if the Remarketing Agent obtains a bid at the Purchase Price for any Series 8 VRDP Shares being remarketed, which, if accepted, would be binding on the bidder for the consummation of the sale of such Series 8 VRDP Shares (an actionable bid), and the Remarketing Agent elects in its sole discretion to accept such actionable bid, the Remarketing Agent will (i) purchase the tendered Series 8 VRDP Shares, as a principal and not as an agent, from the Beneficial Owner or Holder thereof on the Purchase Date at the Purchase Price, (ii) resell such Series 8 VRDP Shares, as a principal and not as an agent, to the Person making such actionable bid at the Purchase Price, and (iii) record such purchase and resale on its books and records in accordance with the Remarketing Agreement. Any such purchases by the Remarketing Agent from the Beneficial Owner or Holder will be made with the Remarketing Agent's own funds. None of the Fund, the Tender and Paying Agent or any Remarketing Agent (subject, in the case of the Remarketing Agent, to (i), (ii) and (iii) above) shall be obligated in

any case to provide funds to make payment to a Beneficial Owner or its Agent Member or a Holder upon such Beneficial Owner's or Holder's tender of its Series 8 VRDP Shares in a Remarketing unless, in each case, such Series 8 VRDP Shares were acquired for the account of the Fund, the Tender and Paying Agent or the Remarketing Agent.

6. **Notification of Allocations.** Whenever the Fund intends to include any net capital gains or ordinary income taxable for regular federal or California personal income tax purposes in any dividend on the Series 8 VRDP Shares, the Fund shall (except as provided below) notify the Remarketing Agent and Tender and Paying Agent of the amount to be so included (i) not later than 14 calendar days preceding the first Rate Determination Date on which the Applicable Rate for such dividend is to be established, and (ii) for any successive Rate Determination Date on which the Applicable Rate for such dividend is to be established, not later than the close of business on the immediately preceding Rate Determination Date. Whenever such notice is received from the Fund, the Tender and Paying Agent will notify each Holder and the Remarketing Agent will notify each potential Beneficial Owner or its Agent Member. With respect to a Rate Period for which such advance notice was given and whose dividends are comprised partly of such ordinary income or capital gains and partly of exempt-interest income, the different types of income will be paid in the same relative proportions for each day during the Rate Period. The Fund may also include such ordinary income or capital gains in a dividend on shares of Series 8 VRDP without giving advance notice thereof if it increases the dividends by an additional amount calculated as if such income was a Taxable Allocation and the additional amount was a Gross-up Payment, provided the Fund will notify the Tender and Paying Agent of the additional amounts to be included in such dividend at least five Business Days prior to the applicable Dividend Payment Date.

7. **Transfers.**

(a) Unless otherwise permitted by the Fund, a Beneficial Owner or Holder may sell, transfer or otherwise dispose of Series 8 VRDP Shares only in whole shares and only pursuant to a Remarketing in accordance with the Remarketing Procedures, provided, however, that (a) a sale, transfer or other disposition of Series 8 VRDP Shares from a Beneficial Owner who holds shares through an Agent Member to another Beneficial Owner who holds shares through the same Agent Member shall be permitted, and (b) in the case of all transfers other than pursuant to Remarketings, the Agent Member (or other Person, if permitted by the Fund) to whom such transfer is made shall advise the Remarketing Agent. The Fund has not registered the Series 8 VRDP Shares under the Securities Act. Accordingly, the Series 8 VRDP Shares are subject to restrictions on transferability and resale and may only be purchased by and sold to qualified institutional buyers (as defined in Rule 144A under the Securities Act or any successor provision) in accordance with Rule 144A under the Securities Act or any successor provision or any exemption from registration available and otherwise in accordance with the legend set forth on the face of the Series 8 VRDP Shares.

(b) The Investment Adviser, affiliated persons of the Investment Adviser (as defined in Section 2(a)(3) of the 1940 Act) (other than the Fund, in the case of a purchase of Series 8 VRDP Shares which are to be cancelled within 10 days of purchase by the Fund), and Persons over which the Investment Adviser, or affiliated persons of the Investment Adviser (as defined in Section 2(a)(3) of the 1940 Act), exercise discretionary investment or voting authority (other than the Fund, in the case of a purchase of Series 8 VRDP Shares which are to be cancelled within 10 days of purchase by the Fund), are not permitted to purchase, directly or indirectly, Series 8 VRDP Shares without the prior written consent of the Liquidity Provider, and any such purchases without such consent shall be

void ab initio; provided, however, that the Fund shall give prompt notice to Beneficial Owners by Electronic Means upon any of the foregoing Persons, singly or in the aggregate, acquiring a beneficial interest in 20% or more of the Series 8 VRDP Shares; provided, further, that, without regard to the preceding requirements, purchases of Series 8 VRDP Shares may be made by broker-dealers that are affiliated persons of the Investment Adviser in riskless principal transactions with respect to such purchases of Series 8 VRDP Shares.

(c) If at any time the Fund is not furnishing information to the SEC pursuant to Section 13 or 15(d) of the Exchange Act, in order to preserve the exemption for resales and transfers under Rule 144A, the Fund shall furnish, or cause to be furnished, to holders of Series 8 VRDP Shares and prospective purchasers of Series 8 VRDP Shares, upon request, information with respect to the Fund satisfying the requirements of subsection (d)(4) of Rule 144A.

8. Global Certificate.

So long as any share of Series 8 VRDP shall be represented by one or more global certificates registered in the name of the Securities Depository or its nominee, no registration of transfer of such share of Series 8 VRDP shall be made on the books of the Fund to any Person other than the Securities Depository or its nominee.

The Declaration is on file with the Secretary of the Commonwealth of Massachusetts, and such officers of the Fund have executed this Statement as officers and not individually, and the obligations of the Fund set forth in this Statement are not binding upon any such officers, or the trustees of the Fund or shareholders of the Fund, individually, but are binding only upon the assets and property of the Fund.

The undelivered VRDP Shares shall be deemed to be no longer Outstanding (except as to entitlement to payment of the Purchase Price), and the Fund will issue to the purchaser replacement VRDP Share certificates in lieu of such undelivered VRDP Shares.

(d) A Beneficial Owner or its Agent Member that delivered a Notice of Tender in connection with an Optional Tender may deliver in writing by email transmission (or, if email transmission shall be unavailable, by facsimile transmission) to the Tender and Paying Agent, not later than 10:00 a.m., New York City time, on or prior to the Business Day immediately preceding the Purchase Date, a notice to the effect that such Beneficial Owner wishes to revoke its election to tender some or all of the VRDP Shares that were specified in such Notice of Tender to be purchased (a Notice of Revocation). Any Notice of Revocation delivered to the Tender and Paying Agent shall be promptly delivered by Electronic Means by the Tender and Paying Agent to the Liquidity Provider and the Remarketing Agent by 12:00 noon, New York City time, on the Business Day immediately preceding the relevant Purchase Date. The Remarketing Agent (following receipt of such Notice of Revocation) shall notify the Tender and Paying Agent and the Liquidity Provider of the number of VRDP Shares specified in such Notice of Revocation that are subject to an agreement of sale pursuant to a Remarketing by email transmission or facsimile transmission not later than 2:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date. The Tender and Paying Agent will deliver such notification to the Beneficial Owner or its Agent Member promptly following receipt from the Remarketing Agent, and in any event by 4:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date. Any such Notice of Revocation will be effective (without further action on the part of the Beneficial Owner or its Agent Member) as a revocation of the Optional Tender of the number of VRDP Shares specified therein as being sought to be revoked, but (except as set forth below) only if and to the extent that the Remarketing Agent has not entered into an agreement to sell such VRDP Shares. A Notice of Revocation will be effective as to the number of VRDP Shares specified therein as having been revoked less the number of such VRDP Shares in respect of which the Remarketing Agent has so notified the Tender and Paying Agent and the Liquidity Provider that it has entered into an agreement of sale. Notwithstanding the foregoing, tendered VRDP Shares, if any, that remain unsold on the related Purchase Date will be allocated by the Remarketing Agent to each Notice of Revocation received in respect of VRDP Shares tendered for purchase on such Purchase Date and not already satisfied in the chronological order in which each such Notice of Revocation was received by the Tender and Paying Agent, and each such Notice of Revocation will be effective only to the extent of such allocation and availability of unsold VRDP Shares.

(e) Pursuant to the Statement and except as may otherwise be provided in connection with a Special Rate Period, the Fund has agreed in the VRDP Fee Agreement to use its best efforts at all times to engage a Remarketing Agent that is a nationally recognized securities dealer with expertise in remarketing variable-rate securities whose appointment has been consented to in writing by the Liquidity Provider (which consent shall not be unreasonably withheld) to use its best efforts to find

purchasers for all VRDP Shares properly tendered pursuant to a Tender. All such VRDP Shares shall be remarketed at the Purchase Price of such VRDP Shares.

(f) In connection with any attempted Remarketing, all tendered VRDP Shares will be remarketed at the Purchase Price of such VRDP Shares. The calculation of the Purchase Price of the VRDP Shares that are remarketed or purchased by the Liquidity Provider will be made by the Remarketing Agent in advance of such Remarketing or purchase and, together with the details of the aggregate number and Purchase Price of remarketed VRDP Shares and the aggregate number and Purchase Price of VRDP Shares to be purchased by the Liquidity Provider pursuant to the Purchase Obligation, will be communicated by the Remarketing Agent to the Fund, the Liquidity Provider and the Tender and Paying Agent by email transmission or facsimile transmission by 2:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date, as described below. The proceeds of any sale of any remarketed VRDP Shares by the Remarketing Agent relating to tendered VRDP Shares will be used for the purchase of the remarketed VRDP Shares at the Purchase Price, and the terms of the sale will provide for the wire transfer of such Purchase Price by the Remarketing Agent to be received by the Tender and Paying Agent no later than 11:00 a.m., New York City time, on the related Purchase Date for payment to the Agent Member of the Beneficial Owner, in the case of an Optional Tender, or Holder, in the case of a Mandatory Tender, tendering VRDP Shares for sale through the Securities Depository in immediately available funds against delivery of the tendered VRDP Shares to the Tender and Paying Agent through the Securities Depository, the delivery of such VRDP Shares to the Tender and Paying Agent through the Securities Depository no later than 2:00 p.m., New York City time, on the Purchase Date, and the re-delivery of such VRDP Shares by means of FREE delivery through the Securities Depository to the Remarketing Agent for delivery to the purchaser's Agent Member through the Securities Depository by 3:00 p.m., New York City time, on the relevant Purchase Date.

(g) By 2:00 p.m., New York City time, on the Business Day immediately preceding each Purchase Date, the Remarketing Agent shall deliver a notice to the Tender and Paying Agent and the Liquidity Provider (a Remarketing Notice), by email transmission or facsimile transmission, that sets forth the number of VRDP Shares, if any, that it successfully remarketed for purchase on such Purchase Date and the aggregate Purchase Price of such sold VRDP Shares and the number of VRDP Shares, if any, not successfully remarketed for purchase on such Purchase Date and the aggregate Purchase Price of such unsold VRDP Shares to be paid by the Liquidity Provider. If the Remarketing Notice states that the Remarketing Agent has not successfully remarketed all of the VRDP Shares to be purchased on such Purchase Date, the Tender and Paying Agent shall promptly, and in any event not later than 4:00 p.m., New York City time, on such Business Day, deliver by Electronic Means to the Liquidity Provider (with a copy to the Fund) a Preliminary Notice of Purchase that, subject to delivery of the Final Notice of Purchase on the Purchase Date described below, provides for the purchase by the Liquidity Provider of the number of such VRDP Shares that the Remarketing Agent stated in the Remarketing Notice as not having been successfully remarketed, including the aggregate Purchase Price of such VRDP Shares, as calculated by the Remarketing Agent. If the Remarketing Notice states that the Remarketing Agent has not successfully remarketed all of the VRDP Shares to be purchased on such Purchase Date (or if remarketing proceeds for any tendered VRDP Shares have not been received for any reason by the Tender and Paying Agent by 11:00 a.m., New York City time, on the Purchase Date), the Tender and Paying Agent shall deliver by Electronic Means to the Liquidity Provider (with a copy to the Fund) by 12:00 noon, New York City time, on such Purchase Date a Final Notice of Purchase that states the number of VRDP Shares required to be purchased by the Liquidity Provider. For purposes of the Final Notice of Purchase, any tendered VRDP Shares for which remarketing proceeds have not been received

for any reason by the Tender and Paying Agent by 11:00 a.m., New York City time, on the Purchase Date, shall be treated as not having been successfully remarketed and shall be required to be purchased by the Liquidity Provider. The payment obligation of the Liquidity Provider shall equal the Purchase Price of the VRDP Shares stated in the Final Notice of Purchase delivered to the Liquidity Provider as being required to be purchased by the Liquidity Provider.

(h) The Liquidity Provider shall, no later than 2:00 p.m., New York City time, on a Purchase Date for any VRDP Shares, wire transfer the aggregate Purchase Price of all VRDP Shares in respect of which Final Notices of Purchase have been delivered to it for purchase of VRDP Shares on such date, as follows: (i) in the case of a Final Notice of Purchase delivered by the Tender and Paying Agent, by wire transfer, in immediately available funds, to the account of the Tender and Paying Agent specified by the Tender and Paying Agent in any such Final Notice of Purchase; and (ii) in the case of a Final Notice of Purchase delivered by a Beneficial Owner or its Agent Member, in the case of an Optional Tender, or by a Holder, in the case of a Mandatory Tender, in the event there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not perform its obligations under this Agreement and the Liquidity Provider has received a Remarketing Notice that such VRDP Shares have not been the subject of an agreement of sale in a Remarketing and has received written notice from the Fund that there is no Tender and Paying Agent or that the Tender and Paying Agent does not intend to perform its obligations hereunder, by payment against delivery of the VRDP Shares that are the subject of any such Final Notice of Purchase, through means of the Securities Depository in the case of Global VRDP Shares. The Fund is required pursuant to the Statement, in the event there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not, or in the reasonable judgment by the Fund will not, perform its obligations under this Agreement, to (i) upon becoming aware thereof, promptly notify the Liquidity Provider, the Remarketing Agent and Holders by Electronic Means of such event, and (ii) so long as such event is continuing, use its best efforts to direct and request the Remarketing Agent to forward, concurrently with the delivery thereof to the Liquidity Provider or as promptly as practicable thereafter, any Remarketing Notice to each Beneficial Owner or Holder tendering VRDP Shares that are the subject of such notice.

(i) Upon receipt by the Tender and Paying Agent from the Beneficial Owner or its Agent Member, in the case of an Optional Tender, or from the Holder, in the case of a Mandatory Tender, of tendered VRDP Shares and the payment by the Tender and Paying Agent to such Beneficial Owner or its Agent Member, or such Holder as the case may be, of the Purchase Price therefor on the applicable Purchase Date, the Tender and Paying Agent shall deliver to the Liquidity Provider, by means of FREE delivery through the system of the Securities Depository, VRDP Shares in satisfaction of the Liquidity Provider's Purchase Obligation on such Purchase Date. Any funds paid by the Liquidity Provider and held in the account of the Tender and Paying Agent for the payment of the Purchase Price shall be held in trust for the benefit of the Liquidity Provider until the VRDP Shares are delivered by the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, and by the tendering Holder, in the case of a Mandatory Tender, against payment therefor or returned to the Liquidity Provider. Any funds paid by the Remarketing Agent and held in an account of the Tender and Paying Agent for the payment of the Purchase Price in connection with a Remarketing shall be held in trust for the benefit of the Remarketing Agent on account of purchasers purchasing in a Remarketing until the VRDP Shares are delivered by the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, or by the tendering Holders, in the case of a Mandatory Tender, against payment therefor, or returned to the Remarketing Agent on account of purchasers purchasing in a Remarketing. Upon receipt of VRDP Shares from the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, or from the tendering Holders, in the case of a

Mandatory Tender, by the Tender and Paying Agent, the Tender and Paying Agent shall pay, subject to receipt of the Purchase Price by the Tender and Paying Agent in the form of remarketing proceeds from the Remarketing Agent, with respect to VRDP Shares remarketed by the Remarketing Agent, or in the form of payment pursuant to the VRDP Purchase Agreement from the Liquidity Provider, with respect to VRDP Shares subject to purchase pursuant to the Purchase Obligation, the Purchase Price for such VRDP Shares to such tendering Beneficial Owner, Agent Member or Holder, as the case may be. In accordance with and subject to the foregoing, the Tender and Paying Agent shall effect any such payment on the applicable Purchase Date.

(j) Except as otherwise expressly provided for herein, the purchase and delivery of tendered Global VRDP Shares and their Remarketing will be accomplished in accordance with the applicable procedures of the Securities Depository.

(k) In the event of a Failed Remarketing Condition, of which the Tender and Paying Agent, pursuant to the Tender and Paying Agent Agreement, has received notice by Electronic Means, the Tender and Paying Agent will promptly provide notice of such Failed Remarketing Condition, by Electronic Means, to the Fund and Holders.

(l) At any time that no Purchase Obligation is in effect (or with respect to a remarketing of VRDP Shares held by the Liquidity Provider as to which any then-effective Purchase Obligation by a successor liquidity provider is inapplicable as provided in the VRDP Fee Agreement), any VRDP Shares unsold in a Remarketing shall be returned to the tendering Beneficial Owners or their Agent Members, or the tendering Holders, as the case may be, by the Tender and Paying Agent. For purposes of the parenthetical in the preceding sentence, the Purchase Obligation of a successor liquidity provider shall be treated as inapplicable to VRDP Shares held by the Liquidity Provider unless and until either the Fund or the Liquidity Provider shall have given the Tender and Paying Agent written notice that the VRDP Fee Agreement has been amended to make it applicable.

(m) VRDP Shares are subject to Mandatory Purchase by the Liquidity Provider upon the occurrence of a Mandatory Purchase Event. Promptly following the occurrence of a Mandatory Purchase Event, and in any event within three (3) Business Days thereafter, the Fund, or the Tender and Paying Agent at the direction of the Fund (provided, that the Tender and Paying Agent may require up to two (2) Business Days prior notification by Electronic Means by the Fund), shall provide a Mandatory Purchase Notice by Electronic Means to Holders and the Liquidity Provider, specifying a Mandatory Purchase Date for all Outstanding VRDP Shares. The Mandatory Purchase Date shall not be later than seven days following the date a Mandatory Purchase Notice is sent to Holders by Electronic Means, and in any event shall be not later than the Business Day immediately preceding the termination of this Agreement. Any notice given in respect of a Mandatory Purchase under the Statement shall be conclusively presumed to have been duly given, whether or not the Holders receive such notice. Upon the occurrence of a Mandatory Purchase Event, all Outstanding VRDP Shares automatically shall be subject to Mandatory Purchase by the Liquidity Provider at the Purchase Price on the Mandatory Purchase Date, including any VRDP Shares tendered pursuant to an Optional Tender or Mandatory Tender for which the Purchase Date has not yet occurred. In the event that VRDP Shares are issued in certificated form and a Holder fails to deliver such VRDP Shares to which a Mandatory Purchase relates on or prior to the Mandatory Purchase Date, the Holder of such VRDP Shares will not be entitled to any payment (including any accumulated but unpaid dividends thereon, whether or not earned or declared) other than the Purchase Price of such undelivered VRDP Shares as of the scheduled Purchase Date. Any such undelivered VRDP Shares will be deemed to be delivered to the

Tender and Paying Agent, and the Tender and Paying Agent will place stop-transfer orders against the undelivered VRDP Shares. Any moneys held by the Tender and Paying Agent for the purchase of undelivered VRDP Shares shall be held in a separate account, shall not be invested, and shall be held for the exclusive benefit of the Holder of such undelivered VRDP Shares. The undelivered VRDP Shares shall be deemed to be no longer Outstanding (except as to entitlement to payment of the Purchase Price), and the Fund will issue to the purchaser replacement VRDP Share certificates in lieu of such undelivered VRDP Shares.

(n) The Liquidity Provider shall not have any responsibility for, or incur any liability in respect of, any losses, claims, damages, liabilities or expenses (including reasonable fees and expenses of counsel) (Losses) relating to any act by the Tender and Paying Agent, or any failure to act or to perform any of its obligations, other than Losses arising out of the bad faith, gross negligence or willful misconduct of the Liquidity Provider.

(o) VRDP Shares purchased by the Liquidity Provider pursuant to this Section 2.02 shall be delivered to the Liquidity Provider or its nominee as specified by the Liquidity Provider.

(p) If there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not perform any of its foregoing obligations hereunder on behalf of any Beneficial Owner or Holder, such Beneficial Owner or its Agent Member or Holder may perform any such obligations in place of the Tender and Paying Agent (if any) with respect to the VRDP Shares of such Beneficial Owner or Holder and payments shall be made to the account(s) specified by such Beneficial Owners or Holders.

(q) In connection with any Special Rate Period designated pursuant to Section 4 of the Statement, the Fund, without the vote or consent of any Holder of VRDP Shares but with the prior written consent of the Liquidity Provider, in the Notice of Proposed Special Rate Period relating to the VRDP Shares, as delivered to the Remarketing Agent and the Liquidity Provider, may provide for provisions relating solely to such Special Rate Period that differ from those provided in the Statement, including with respect to the Purchase Obligation, optional tender provisions, mandatory tender provisions, mandatory purchase provisions, the dividend rate setting provisions (including as to the Maximum Rate), and, if the dividend may be determined by reference to an index, formula or other method, the manner in which it will be determined, Special Redemption Provisions or other redemption provisions (other than Section 10(b)(i)(A) of the Statement) and modified or new definitions as specified in the Notice of Proposed Special Rate Period for such Special Rate Period; provided that such provisions do not affect the parity ranking of the VRDP Shares relative to any other series of Preferred Shares of the Fund then outstanding with respect to dividends or distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. Any such Special Rate Period, and establishment of any such provisions applicable during such Special Rate Period, must be preceded by a Mandatory Tender as provided in this Agreement.

SECTION 2.03. Extension of Scheduled Termination Date.

Under the VRDP Fee Agreement, the Fund shall have the right, exercisable not more than 120 days nor less than 90 days prior to the Scheduled Termination Date, to request that the Liquidity Provider extend the term of such Scheduled Termination Date for an additional period, which request may be conditioned upon terms and conditions that are different from the terms and conditions of this Agreement and the VRDP Fee Agreement then in effect. Under the VRDP Fee Agreement, the Fund

will acknowledge and agree that the Liquidity Provider may grant or deny any request for extension of the Scheduled Termination Date in its sole and absolute discretion.

SECTION 2.04. Reduction of Available Commitment.

As of the opening of business on the day following the Liquidity Provider's receipt of written notice (which the Tender and Paying Agent will provide within two (2) Business Days of receipt of notice from the Fund) of any redemption or other repurchase of VRDP Shares consummated by the Fund, the Available Commitment shall automatically be reduced by the amount applicable to the VRDP Shares so redeemed or otherwise repurchased; and the Available Commitment in respect of such VRDP Shares shall be extinguished and shall not thereafter be revived, except with the prior written consent of the Liquidity Provider.

SECTION 2.05. Claw-Back Provision.

In the event that any dividends or redemption proceeds paid by the Fund on Outstanding VRDP Shares prior to the occurrence of a Fund Insolvency Event are required to be, and are, paid over to the bankruptcy estate of the Fund pursuant to a final, non-appealable judgment of a court of competent jurisdiction arising out of a Fund Insolvency Event, any Beneficial Owner (or former Beneficial Owner) of VRDP Shares that has paid over to the bankruptcy estate of the Fund pursuant to such judgment any dividends or redemption proceeds previously received from the Fund may demand reimbursement from the Liquidity Provider of any amounts so paid. The Liquidity Provider agrees to make such reimbursement payment within three Business Days of receipt of any such demand for payment made in writing and accompanied by evidence reasonably satisfactory to the Liquidity Provider, of payment made to the bankruptcy estate of the Fund by or on behalf of the demanding party. In connection with any reimbursement payment by the Liquidity Provider, the Beneficial Owner (or former Beneficial Owner) of VRDP Shares shall be deemed to have transferred, assigned and conveyed to the Liquidity Provider the right to receive from the Fund and the bankruptcy estate of the Fund any such dividends or redemption proceeds in exchange for the reimbursement payment by the Liquidity Provider, and the Beneficial Owner (or former Beneficial Owner) shall execute, acknowledge and deliver such further conveyances, assignments and other documents as the Liquidity Provider may reasonably request and are reasonably necessary in order to effectuate such assignment. The provisions of this Section 2.05 shall survive any expiration or termination of this Agreement, in respect of any dividends or redemption proceeds paid by the Fund on Outstanding VRDP Shares during the term of this Agreement, and shall be in addition to any other obligation of the Liquidity Provider under this Agreement.

DUTIES OF THE TENDER AND PAYING AGENT

SECTION 5.01. Duties and Responsibilities.

- (a) The Tender and Paying Agent is acting solely as agent for the Fund hereunder and owes no duties, fiduciary or otherwise, to any other Person by reason of this Agreement, other than to the Liquidity Provider as and to the extent expressly provided for herein.
- (b) The Tender and Paying Agent undertakes to perform such duties and only such duties as are specifically set forth in this Agreement and no implied covenants or obligations shall be read into this Agreement against the Tender and Paying Agent.
- (c) In the absence of gross negligence (and, with respect to the handling of funds, in the absence of negligence), willful misconduct or bad faith on its part, the Tender and Paying Agent shall not be liable for any action taken, suffered or omitted or for any error of judgment made by it in the performance of its duties under this Agreement. The Tender and Paying Agent shall not be liable for any error of judgment made in good faith unless and to the extent resulting from its own gross negligence (and with respect to the handling of funds, its own negligence).

SECTION 5.02. Rights of the Tender and Paying Agent.

- (a) The Tender and Paying Agent shall not incur liability for following the instructions herein contained or expressly provided for, or written instructions authorized hereby. The Tender and Paying Agent may conclusively rely and shall be fully protected in acting or refraining from acting upon any communication authorized hereby and upon any written instruction, notice, request, direction, consent, report, certificate, share certificate or other instrument, paper or document, in the absence of gross negligence, believed by it to be genuine. The Tender and Paying Agent shall not be liable for acting upon any telephone communication authorized hereby which the Tender and Paying Agent believes in the absence of gross negligence to have been given by the Fund, a Holder, a Beneficial Owner, an Agent Member, the Liquidity Provider or the Remarketing Agent. The Tender and Paying Agent may record telephone communications with the Fund, the Liquidity Provider and the Remarketing Agent in connection with its duties hereunder.

- (b) The Tender and Paying Agent may consult with counsel of its choice and the advice or opinion of such counsel shall be full and complete authorization and protection in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon.
- (c) The Tender and Paying Agent shall not be required to advance, expend or risk its own funds or otherwise incur or become exposed to financial liability in the performance of its duties hereunder.
- (d) The Tender and Paying Agent may perform its duties and its rights hereunder either directly or by or through agents or attorneys.
- (e) Anything in this Agreement to the contrary notwithstanding, in no event shall the Tender and Paying Agent be liable for special, indirect, punitive or consequential loss or damage of any kind whatsoever (including but not limited to lost profits), even if the Tender and Paying Agent has been advised of the likelihood of such loss or damage and regardless of the form of action.
- (f) The Tender and Paying Agent shall not be obligated to take any legal action hereunder that might, in its judgment, involve any expenses or liability, unless it has been furnished with indemnity reasonably satisfactory to it.
- (g) The Tender and Paying Agent shall not be responsible or liable for any failure or delay in the performance of its obligations under this Agreement arising out of or caused, directly or indirectly, by circumstances beyond its reasonable control, including, without limitation, acts of God; earthquakes; flood; terrorism; wars and other military disturbances; sabotage; epidemics; riots; interruptions; loss or malfunction of utilities, computer (hardware or software) or communication services; accidents; labor disputes; acts of civil or military authority and governmental action. The Tender and Paying Agent shall use commercially reasonable efforts to commence performance of its obligations during any of the foregoing circumstances.
- (h) The Tender and Paying Agent makes no representation as to, and shall have no liability with respect to, the correctness of the recitals in, or the validity (with respect to parties other than the Tender and Paying Agent), accuracy or adequacy of this Agreement (including any schedules hereto), any VRDP Shares, the Statement, any offering material used in connection with the offer and sale of any VRDP Shares or any other agreement or instrument executed in connection with the transactions contemplated herein or in any thereof.
- (i) The permissive right of the Tender and Paying Agent under this Agreement to take or omit to take any action shall not be construed as a duty.
- (j) The Tender and Paying Agent may request that the Liquidity Provider deliver a certificate setting forth the names of individuals and/or titles of officers authorized at such time to take specified actions pursuant to this Agreement, which certificate may be signed by any person authorized to sign such a certificate, including any person specified as so authorized in any such certificate previously delivered and not superseded.
- (k) Unless otherwise mutually agreed between the Liquidity Provider and the Tender and Paying Agent, the Tender and Paying Agent shall have no duty to invest any funds deposited with it at any time pursuant to this Agreement and shall be under no duty or obligation to pay any interest or earnings on or with respect to amounts held or deposited hereunder. In the event the Liquidity Provider

and the Tender and Paying Agent shall otherwise agree, any interest or earnings on or with respect to any amount held or deposited hereunder shall be remitted to the Fund in accordance with such agreement. The Tender and Paying Agent shall be under no duty or obligation to collateralize or pledge any security therefor, or to segregate any amounts hereunder except as may be required by law; provided, however, that the Tender and Paying Agent shall hold any Purchase Price received from the Liquidity Provider in a separate account in trust for the benefit of the Liquidity Provider pending delivery of such Purchase Price to a Holder or Beneficial Owner or its Agent Member in payment of any VRDP Shares that are the subject of a Tender or Mandatory Purchase.

(l) The Tender and Paying Agent, in its individual or any other capacity, may become the owner or pledgee of VRDP Shares with the same rights it would have if it were not Tender and Paying Agent.

(m) Nothing contained herein shall be construed to require the Tender and Paying Agent to advance its own funds to any Holder if sufficient funds have not been deposited with the Tender and Paying Agent by the Fund for the purpose of making payments hereunder.

(n) The Tender and Paying Agent shall have no duty to examine and shall not be charged with knowledge of the contents of any report, information or document delivered to it hereunder. The Tender and Paying Agent shall have no duty to determine the occurrence or continuance of any event or events that constitute a Liquidity Provider Ratings Event, Mandatory Tender Event, Mandatory Purchase Event or Failed Remarketing Condition or to determine whether any agreement satisfies the requirements of an Alternate VRDP Purchase Agreement.

(o) The Tender and Paying Agent has no obligation under the terms of this Agreement or otherwise to enforce any rights or exercise any remedies that may be available to any Holder or Beneficial Owner or other Person that arise out of or relate to this Agreement or otherwise.

SECTION 5.03. Tender and Paying Agent's Disclaimer.

The Tender and Paying Agent makes no representation as to the validity (except with respect to itself) or adequacy of this Agreement or any VRDP Shares issued or to be issued.

SECTION 5.04. Concerning the Securities Depository.

(a) Neither the Liquidity Provider nor the Tender and Paying Agent shall have any responsibility or obligation to any Beneficial Owner of an interest in a Global VRDP Share, an Agent Member or other Person with respect to the accuracy of the records of the Securities Depository or its nominee or of any Agent Member, with respect to any ownership interest in the Global VRDP Shares or with respect to the delivery to any Agent Member, Beneficial Owner or other Person (other than the Securities Depository) of any notice (including any Notice of Redemption) or the payment of any amount, under or with respect to such VRDP Shares. All notices and communications to be given to the Holders and all payments to be made to Holders under this Agreement or the Related Documents shall be given or made only to or upon the order of the registered holders (which shall be the Securities Depository or its nominee in the case of Global VRDP Shares). The rights of Beneficial Owners in the Global VRDP Shares shall be exercised only through the Securities Depository subject to the applicable procedures of the Securities Depository. The Liquidity Provider and the Tender and Paying Agent shall be entitled to rely and shall be fully protected in acting upon information furnished by the

(b) If, in the case of any proceeding in the court of any jurisdiction referred to in clause (ii) of this Section 7.18, there is a change in the rate of exchange between the Judgment Currency and the Required Currency prevailing between the Judgment Conversion Date and the date of actual payment of the amount due, the Liquidity Provider shall pay such additional amount (if any, but in any event not a lesser amount) as may be necessary to ensure that the amount paid in the Judgment Currency, when converted at the rate of exchange prevailing on the date of payment, will produce the amount of Required Currency which could have been purchased with the amount of Judgment Currency stipulated in the judgment or judicial order at the rate of exchange prevailing on the Judgment Conversion Date; provided, that if the amount paid in the Judgment Currency when converted at such rate would exceed the amount due in the Required Currency, the excess shall be returned to the Liquidity Provider.

(c) The Liquidity Provider also agrees, to the fullest extent that it may effectively do so under applicable law, that its obligations under this Agreement, including the Purchase Obligation, to make payments in the Required Currency (i) shall not be discharged or satisfied by any tender, or any recovery pursuant to any judgment, in any currency other than the Required Currency, except to the extent that such tender or recovery shall result in the effective receipt by the payee of the full amount of the Required Currency expressed to be payable in respect of such payments or adjudged to be due in such judgment, (ii) shall be enforceable as an alternative or additional cause of action for the purpose of recovering in the Required Currency the amount, if any, by which such effective receipt shall fall short of the full amount of the Required Currency so expressed to be payable or adjudged to be due and (iii) shall not be affected by judgment being obtained for any other sums due under this Agreement, including the Purchase Obligation.

ARTICLE II

PURCHASE OBLIGATION

SECTION 2.01. Commitment to Purchase VRDP Shares.

(a) The Liquidity Provider agrees, commencing on the Effective Date, to purchase at the Purchase Price any Outstanding VRDP Shares that are properly tendered in accordance with the Statement and this Agreement, including, without limiting any other provision of this Agreement, on the Purchase Date for a Mandatory Tender in connection with the Fund obtaining an Alternate VRDP Purchase Agreement and the Purchase Date for a Mandatory Purchase Event. The Liquidity Provider agrees that in no event shall amounts paid by it in respect of the Purchase Price be paid from funds or property of the Fund, including, without limitation, any funds derived from funds that the Fund may have on deposit with the Liquidity Provider. The obligation of the Liquidity Provider to purchase VRDP Shares pursuant to this Agreement shall run to the benefit of those beneficiaries identified in Section 7.10 and shall be unconditional and irrevocable in accordance with the provisions hereof, without regard to, without limitation, any breach of or failure to perform any of the representations, warranties or agreements of the Tender and Paying Agent set forth herein or of the Fund set forth in the VRDP Fee Agreement or the termination of the obligations of the Remarketing Agent under Section 10 of the Remarketing Agreement.

(b) The obligation of the Liquidity Provider hereunder to purchase VRDP Shares of any Holder or Beneficial Owner on any Purchase Date shall be unconditional upon delivery to the Liquidity Provider of a written Final Notice of Purchase from the Tender and Paying Agent by Electronic Means or, if there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not perform its obligations hereunder, from any Holder or Beneficial Owner; provided that, in the case of a Mandatory Purchase, the Final Notice of Purchase shall automatically be deemed given upon the Mandatory Purchase Notice being delivered to the Liquidity Provider in accordance herewith.

(c) In the case of an Optional Tender or a Mandatory Tender, the Liquidity Provider shall be obligated to purchase only those VRDP Shares subject to a Final Notice of Purchase. In the case of a Mandatory Purchase, the Liquidity Provider shall be obligated to purchase all Outstanding VRDP Shares.

SECTION 2.02. Method of Purchasing.

(a) Pursuant to an Optional Tender, Beneficial Owners may elect to tender their VRDP Shares (in denominations of \$100,000 and integral multiples thereof) for purchase at the Purchase Price on the Purchase Date designated in a Notice of Tender (or, if such day is not a Business Day, on the next succeeding Business Day). Each Notice of Tender will be irrevocable (except as described below) and effective upon receipt and shall:

(i) be delivered by a Beneficial Owner, directly or through its Agent Member, by email transmission (or, if email transmission shall be unavailable, by facsimile transmission), to the Tender and Paying Agent not later than 2:00 p.m., New York City time, on any Business Day;

(ii) state the series and the aggregate number of VRDP Shares to be purchased, the CUSIP number of the VRDP Shares to be purchased and the Purchase Date and be in substantially the form of and contain such other information specified in Exhibit C to this Agreement; and

- (iii) state that the tendering Beneficial Owner acknowledges that such Beneficial Owner is required to deliver the VRDP Shares that are the subject of a Notice of Tender (that has not been duly revoked as described below) on or before 2:00 p.m., New York City time, on the Purchase Date.
- (b) Upon receipt of a Notice of Tender, the Tender and Paying Agent will provide a copy to the Liquidity Provider and the Remarketing Agent as promptly as practicable by Electronic Means, but no later than 4:00 p.m., New York City time, on the date of receipt or deemed receipt. Any Notice of Tender that is delivered to the Tender and Paying Agent by a Beneficial Owner or its Agent Member after 2:00 p.m., New York City time, will be deemed to have been received by the Tender and Paying Agent on the next succeeding Business Day, and the Purchase Date will be adjusted such that the Purchase Date will be the Business Day next succeeding the date specified as the Purchase Date in the Notice of Tender. The Tender and Paying Agent's determination as to whether a Notice of Tender has been properly delivered will be conclusive and binding on a Beneficial Owner and its Agent Member.
- (c) VRDP Shares are subject to Mandatory Tender upon the occurrence of a Mandatory Tender Event.
- (i) Promptly following the occurrence of a Mandatory Tender Event, and in any event within three (3) Business Days thereafter, the Fund, or the Tender and Paying Agent at the direction of the Fund (provided, that the Tender and Paying Agent may require up to two (2) Business Days prior notification by Electronic Means by the Fund), shall provide a Mandatory Tender Notice by Electronic Means to the Holders, the Remarketing Agent and the Liquidity Provider, specifying a Purchase Date for all Outstanding VRDP Shares. Any notice given in respect of a Mandatory Tender in accordance with the Statement shall be conclusively presumed to have been duly given, whether or not the Holders or Beneficial Owners receive such notice.
- (ii) To the extent permitted under applicable confidentiality restrictions, the Liquidity Provider shall provide (a) written notice of an Extraordinary Corporate Event and (b) the written notice referred to in clause (y) in the definition of an Extraordinary Corporate Event to the Fund at least 10 days prior to the scheduled date of the occurrence of an Extraordinary Corporate Event or 10 days prior to the applicable listed occurrence in clause (i) of such definition, respectively.
- (iii) Upon the occurrence of a Mandatory Tender Event, all Outstanding VRDP Shares automatically will be subject to Mandatory Tender and delivered to the Tender and Paying Agent for purchase on the designated Purchase Date by purchasers in the Remarketing in the event of a successful Remarketing or otherwise by the Liquidity Provider, including any VRDP Shares previously tendered pursuant to an Optional Tender for which the Purchase Date has not yet occurred. In the event that VRDP Shares are issued in certificated form outside the book-entry system of the Securities Depository and a Holder of VRDP Shares fails to deliver such VRDP Shares to which a Mandatory Tender relates on or prior to the Purchase Date, the Holder of such VRDP Shares will not be entitled to any payment (including any accumulated but unpaid dividends thereon, whether or not earned or declared) other than the Purchase Price of such undelivered VRDP Shares as of the scheduled Purchase Date. Any such undelivered VRDP Shares will be deemed to be delivered to the Tender and Paying Agent, and the Tender and Paying Agent will place stop-transfer orders against the undelivered VRDP Shares. Any moneys held by the Tender and Paying Agent for the purchase of undelivered VRDP Shares shall be held in a

separate account by the Tender and Paying Agent, will not be invested, and shall be held for the exclusive benefit of the Holder of such undelivered VRDP Shares. The undelivered VRDP Shares shall be deemed to be no longer Outstanding (except as to entitlement to payment of the Purchase Price), and the Fund will issue to the purchaser replacement VRDP Share certificates in lieu of such undelivered VRDP Shares.

(d) A Beneficial Owner or its Agent Member that delivered a Notice of Tender in connection with an Optional Tender may deliver in writing by email transmission (or, if email transmission shall be unavailable, by facsimile transmission) to the Tender and Paying Agent, not later than 10:00 a.m., New York City time, on or prior to the Business Day immediately preceding the Purchase Date, a Notice of Revocation with respect to some or all of the VRDP Shares that were specified in such Notice of Tender to be purchased. Any Notice of Revocation delivered to the Tender and Paying Agent shall be promptly delivered by Electronic Means by the Tender and Paying Agent to the Liquidity Provider and the Remarketing Agent by 12:00 noon, New York City time, on the Business Day immediately preceding the relevant Purchase Date. The Remarketing Agent (following receipt of such Notice of Revocation) shall notify the Tender and Paying Agent and the Liquidity Provider of the number of VRDP Shares specified in such Notice of Revocation that are subject to an agreement of sale pursuant to a Remarketing by email transmission or facsimile transmission not later than 2:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date. The Tender and Paying Agent will contact the Remarketing Agent by Electronic Means by 1:45 p.m., New York City time, if such notification has not been received by that time. The Tender and Paying Agent will deliver such notification to the Beneficial Owner or its Agent Member promptly following receipt from the Remarketing Agent, and in any event by 4:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date. Any such Notice of Revocation will be effective (without further action on the part of the Beneficial Owner or its Agent Member) as a revocation of the Optional Tender of the number of VRDP Shares specified therein as being sought to be revoked, but (except as set forth below) only if and to the extent that the Remarketing Agent has not entered into an agreement to sell such VRDP Shares. A Notice of Revocation will be effective as to the number of VRDP Shares specified therein as having been revoked less the number of such VRDP Shares in respect of which the Remarketing Agent has so notified the Tender and Paying Agent and the Liquidity Provider that it has entered into an agreement of sale. Notwithstanding the foregoing, (x) tendered VRDP Shares, if any, unsold and in respect of which the Remarketing Agent has not entered into an agreement of sale at or after the time of receipt by the Remarketing Agent of a Notice of Revocation may, at the discretion of the Remarketing Agent, be allocated by the Remarketing Agent to such Notice of Revocation and (y) tendered VRDP Shares, if any, that remain unsold on the related Purchase Date will be allocated by the Remarketing Agent to each Notice of Revocation received in respect of VRDP Shares tendered for purchase on such Purchase Date and not already satisfied in the chronological order in which each such Notice of Revocation was received by the Tender and Paying Agent, and each such Notice of Revocation will be effective only to the extent of such allocation and availability of unsold VRDP Shares.

(e) Pursuant to the Statement and except as may otherwise be provided in connection with a Special Rate Period, the Fund has agreed in the VRDP Fee Agreement to use its best efforts at all times to engage a Remarketing Agent that is a nationally recognized securities dealer with expertise in remarketing variable-rate securities whose appointment has been consented to in writing by the Liquidity Provider (which consent shall not be unreasonably withheld) to use its best efforts to remarket for all VRDP Shares properly tendered pursuant to a Tender in accordance with Part II of the Statement.

(f) In connection with any attempted Remarketing, all tendered VRDP Shares will be remarketed at the Purchase Price of such VRDP Shares. The calculation of the Purchase Price of the VRDP Shares that are remarketed or purchased by the Liquidity Provider will be made by the Remarketing Agent in advance of such Remarketing or purchase and, together with the details of the aggregate number and Purchase Price of remarketed VRDP Shares and the aggregate number and Purchase Price of VRDP Shares to be purchased by the Liquidity Provider pursuant to the Purchase Obligation, will be communicated by the Remarketing Agent to the Fund, the Liquidity Provider and the Tender and Paying Agent by email transmission or facsimile transmission by 2:00 p.m., New York City time, on the Business Day immediately preceding the Purchase Date, as described below. The proceeds of the sale of any remarketed VRDP Shares by the Remarketing Agent relating to tendered VRDP Shares will be used by the Tender and Paying Agent for the purchase of the tendered VRDP Shares at the Purchase Price, and the terms of the sale will provide for the wire transfer of such Purchase Price by the Remarketing Agent to be received by the Tender and Paying Agent no later than 11:00 a.m., New York City time, on the related Purchase Date for payment to the Agent Member of the Beneficial Owner, in the case of an Optional Tender, or Holder, in the case of a Mandatory Tender, tendering VRDP Shares for sale through the Securities Depository in immediately available funds against delivery of the tendered VRDP Shares to the Tender and Paying Agent through the Securities Depository, the delivery of such VRDP Shares to the Tender and Paying Agent through the Securities Depository no later than 2:00 p.m., New York City time, on the related Purchase Date, and the re-delivery of such VRDP Shares by means of FREE delivery through the Securities Depository to the Remarketing Agent for delivery to the purchaser's Agent Member through the Securities Depository by 3:00 p.m., New York City time, on the related Purchase Date. With respect to the Remarketing Agent's responsibilities, but without affecting the Tender and Paying Agent's role as intermediary, the Remarketing Agent has agreed in the Remarketing Agreement that, if the Remarketing Agent obtains a bid at the Purchase Price for any VRDP Shares being remarketed, which, if accepted, would be binding on the bidder for the consummation of the sale of such VRDP Shares (an actionable bid), and the Remarketing Agent elects in its sole discretion to accept such actionable bid, the Remarketing Agent shall (i) purchase the tendered VRDP Shares, as a principal and not as an agent, from the Beneficial Owner or Holder thereof on the Purchase Date at the Purchase Price, (ii) resell such VRDP Shares, as a principal and not as an agent, to the Person making such actionable bid at the Purchase Price, and (iii) record such purchase and resale on its books and records in accordance with the Remarketing Agreement. Any such purchases by the Remarketing Agent from the Beneficial Owner or Holder will be made with the Remarketing Agent's own funds.

(g) By 2:00 p.m., New York City time, on the Business Day immediately preceding each Purchase Date, the Remarketing Agent shall deliver a notice to the Tender and Paying Agent and the Liquidity Provider (a Remarketing Notice), by email transmission or facsimile transmission, that sets forth the number of VRDP Shares, if any, that it successfully remarketed for purchase on such Purchase Date and the aggregate Purchase Price of such sold VRDP Shares and the number of VRDP Shares, if any, not successfully remarketed for purchase on such Purchase Date and the aggregate Purchase Price of such unsold VRDP Shares to be paid by the Liquidity Provider. If the Remarketing Notice states that the Remarketing Agent has not successfully remarketed all of the VRDP Shares to be purchased on such Purchase Date, the Tender and Paying Agent shall promptly, and in any event not later than 4:00 p.m., New York City time, on such Business Day, deliver by Electronic Means to the Liquidity Provider (with a copy to the Fund) a Preliminary Notice of Purchase that, subject to delivery of the Final Notice of Purchase on the Purchase Date described below, provides for the purchase by the Liquidity Provider of the number of such VRDP Shares that the Remarketing Agent stated in the Remarketing Notice as not having been successfully remarketed, including the aggregate Purchase

Price of such VRDP Shares, as calculated by the Remarketing Agent. If the Remarketing Notice states that the Remarketing Agent has not successfully remarketed all of the VRDP Shares to be purchased on such Purchase Date (or if Remarketing proceeds for any tendered VRDP Shares have not been received for any reason by the Tender and Paying Agent by 11:00 a.m., New York City time, on the Purchase Date), the Tender and Paying Agent shall deliver by Electronic Means to the Liquidity Provider (with a copy to the Fund) by 12:00 noon, New York City time, on such Purchase Date a Final Notice of Purchase that states the number of VRDP Shares required to be purchased by the Liquidity Provider. For purposes of the Final Notice of Purchase, any tendered VRDP Shares for which Remarketing proceeds have not been received for any reason by the Tender and Paying Agent by 11:00 a.m., New York City time, on the Purchase Date (other than VRDP Shares owned by the Liquidity Provider and tendered for Remarketing) shall be treated as not having been successfully remarketed and shall be required to be purchased by the Liquidity Provider. Except for manifest error, the payment obligation of the Liquidity Provider shall equal the Purchase Price of the VRDP Shares stated in the Final Notice of Purchase delivered to the Liquidity Provider as being required to be purchased by the Liquidity Provider.

(h) The Liquidity Provider shall, no later than 2:00 p.m., New York City time, on a Purchase Date for any VRDP Shares, wire transfer the aggregate Purchase Price of all VRDP Shares in respect of which Final Notices of Purchase have been delivered to it for purchase on such date, as follows: (i) in the case of a Final Notice of Purchase delivered by the Tender and Paying Agent, by wire transfer, in immediately available funds, to the account of the Tender and Paying Agent specified by the Tender and Paying Agent in any such Final Notice of Purchase; and (ii) in the case of a Final Notice of Purchase delivered by a Beneficial Owner or its Agent Member, in the case of an Optional Tender, or by a Holder, in the case of a Mandatory Tender, in the event there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not perform its obligations under this Agreement and the Liquidity Provider has received a Remarketing Notice that such VRDP Shares have not been the subject of an agreement of sale in a Remarketing and has received written notice from the Fund that there is no Tender and Paying Agent or that the Tender and Paying Agent does not intend to perform its obligations hereunder, by payment against delivery of the VRDP Shares that are the subject of any such Final Notice of Purchase, in each case, through means of the Securities Depository in the case of Global VRDP Shares. The Fund is required pursuant to the Statement, in the event there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not, or in the reasonable judgment by the Fund will not, perform its obligations under this Agreement, to (i) upon becoming aware thereof, promptly notify the Liquidity Provider, the Remarketing Agent and Holders by Electronic Means of such event, and (ii) so long as such event is continuing, use its best efforts to direct and request the Remarketing Agent to forward, concurrently with the delivery thereof to the Liquidity Provider or as promptly as practicable thereafter, any Remarketing Notice to each Beneficial Owner or Holder tendering VRDP Shares that are the subject of such notice.

(i) Upon receipt by the Tender and Paying Agent from the Beneficial Owner or its Agent Member, in the case of an Optional Tender, or from the Holder, in the case of a Mandatory Tender, of tendered VRDP Shares and the payment by the Tender and Paying Agent to such Beneficial Owner or its Agent Member, or such Holder, as the case may be, of the Purchase Price therefor on the applicable Purchase Date, the Tender and Paying Agent shall deliver to the Liquidity Provider, by means of FREE delivery through the system of the Securities Depository, VRDP Shares in satisfaction of the Liquidity Provider's Purchase Obligation on such Purchase Date. Any funds paid by the Liquidity Provider and held in the account of the Tender and Paying Agent for the payment of the Purchase Price shall be held in trust for the benefit of the Liquidity Provider until the VRDP Shares are delivered,

against payment therefor, by the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, and by the tendering Holder, in the case of a Mandatory Tender, or returned to the Liquidity Provider. Any funds paid by the Remarketing Agent and held in an account of the Tender and Paying Agent for the payment of the Purchase Price in connection with a Remarketing shall be held in trust for the benefit of the Remarketing Agent on account of purchasers purchasing in a Remarketing until the VRDP Shares are delivered, against payment therefor, by the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, or by the tendering Holders, in the case of a Mandatory Tender, or returned to the Remarketing Agent on account of purchasers purchasing in a Remarketing. Upon receipt by the Tender and Paying Agent of VRDP Shares from the tendering Beneficial Owners or their Agent Members, in the case of an Optional Tender, or from the tendering Holders, in the case of a Mandatory Tender, the Tender and Paying Agent shall pay, subject to receipt of the Purchase Price by the Tender and Paying Agent in the form of Remarketing proceeds from the Remarketing Agent, with respect to VRDP Shares successfully remarketed by the Remarketing Agent, or in the form of payment pursuant to the VRDP Purchase Agreement from the Liquidity Provider, with respect to VRDP Shares subject to purchase pursuant to the Purchase Obligation, the Purchase Price for such VRDP Shares to the relevant tendering Beneficial Owners, Agent Members or Holders, as the case may be. In accordance with and subject to the foregoing, the Tender and Paying Agent shall effect any such payment on the applicable Purchase Date.

(j) Except as otherwise expressly provided for herein, the purchase and delivery of tendered Global VRDP Shares, the Remarketing or purchase by the Liquidity Provider thereof, and payments with respect to the foregoing will be accomplished in accordance with the applicable procedures of the Securities Depository.

(k) In the event of a Failed Remarketing Condition, of which the Tender and Paying Agent, pursuant to the Tender and Paying Agent Agreement, has received notice by Electronic Means, the Tender and Paying Agent will promptly provide notice of such Failed Remarketing Condition, by Electronic Means, to the Fund and the Holders.

(l) At any time that no Purchase Obligation is in effect (or with respect to a Remarketing of VRDP Shares held by the Liquidity Provider as to which any then-effective Purchase Obligation by a successor liquidity provider is inapplicable), any VRDP Shares unsold in a Remarketing shall be returned to the relevant tendering Beneficial Owners or their Agent Members, or the relevant tendering Holders, as the case may be, by the Tender and Paying Agent. For purposes of the parenthetical in the preceding sentence, the Purchase Obligation of a successor liquidity provider shall be treated as inapplicable to VRDP Shares held by the Liquidity Provider unless and until either the Fund or the Liquidity Provider shall have given the Tender and Paying Agent written notice that such Purchase Obligation is so applicable.

(m) VRDP Shares are subject to Mandatory Purchase by the Liquidity Provider upon the occurrence of a Mandatory Purchase Event. Promptly following the occurrence of a Mandatory Purchase Event, and in any event within three (3) Business Days thereafter, the Fund, or the Tender and Paying Agent at the direction of the Fund (provided, that the Tender and Paying Agent may require up to two (2) Business Days prior notification by Electronic Means by the Fund), shall provide a Mandatory Purchase Notice by Electronic Means to the Holders and the Liquidity Provider, specifying a Mandatory Purchase Date for all Outstanding VRDP Shares. The Mandatory Purchase Date shall not be later than seven days following the date a Mandatory Purchase Notice is sent to the Holders by

Electronic Means, and in any event shall be not later than the Business Day immediately preceding the termination of this Agreement. Any notice given in respect of a Mandatory Purchase in accordance with the Statement shall be conclusively presumed to have been duly given, whether or not the Holders or Beneficial Owners receive such notice. Upon the occurrence of a Mandatory Purchase Event, all Outstanding VRDP Shares automatically shall be subject to Mandatory Purchase by the Liquidity Provider at the Purchase Price on the Mandatory Purchase Date, including any VRDP Shares tendered pursuant to an Optional Tender or Mandatory Tender for which the Purchase Date has not yet occurred. In the event that VRDP Shares are issued in certificated form outside the book-entry system of the Securities Depository and a Holder fails to deliver such VRDP Shares to which a Mandatory Purchase relates, on or prior to the Mandatory Purchase Date, the Holder of such VRDP Shares will not be entitled to any payment (including any accumulated but unpaid dividends thereon, whether or not earned or declared) other than the Purchase Price of such undelivered VRDP Shares as of the scheduled Purchase Date. Any such undelivered VRDP Shares will be deemed to be delivered to the Tender and Paying Agent, and the Tender and Paying Agent will place stop-transfer orders against the undelivered VRDP Shares. Any moneys held by the Tender and Paying Agent for the purchase of undelivered VRDP Shares shall be held in a separate account, shall not be invested, and shall be held for the exclusive benefit of the Holder of such undelivered VRDP Shares. The undelivered VRDP Shares shall be deemed to be no longer Outstanding (except as to entitlement to payment of the Purchase Price), and the Fund will issue to the purchaser replacement VRDP Share certificates in lieu of such undelivered VRDP Shares.

(n) The Liquidity Provider shall not have any responsibility for, or incur any liability in respect of, any losses, claims, damages, liabilities or expenses (including reasonable fees and expenses of counsel) (Losses) relating to any act by the Tender and Paying Agent, or any failure by it to act or to perform any of its obligations, other than Losses arising out of the bad faith, gross negligence or willful misconduct of the Liquidity Provider.

(o) VRDP Shares purchased by the Liquidity Provider pursuant to this Section 2.02 shall be delivered to the Liquidity Provider or its nominee as specified by the Liquidity Provider.

(p) If there is no Tender and Paying Agent or for any reason the Tender and Paying Agent does not perform any of its foregoing obligations hereunder on behalf of any Beneficial Owner or Holder, such Beneficial Owner or its Agent Member or Holder may perform any such obligations in place of the Tender and Paying Agent (if any) with respect to the VRDP Shares of such Beneficial Owner or Holder and payments shall be made to the account(s) specified by such Beneficial Owner or Holder.

(q) In connection with any Special Rate Period designated pursuant to Section 4 of the Statement, the Fund, without the vote or consent of any Holder of VRDP Shares but with the prior written consent of the Liquidity Provider, in the Notice of Proposed Special Rate Period relating to the VRDP Shares, as delivered to the Remarketing Agent and the Liquidity Provider, may provide for provisions relating solely to such Special Rate Period that differ from those provided in the Statement, including with respect to the Purchase Obligation, optional tender provisions, mandatory tender provisions, mandatory purchase provisions, the dividend rate setting provisions (including as to the Maximum Rate), and, if the dividend may be determined by reference to an index, formula or other method, the manner in which it will be determined, Special Redemption Provisions or other redemption provisions (other than Section 9(b)(i)(A) of the Statement) and modified or new definitions as specified in the Notice of Proposed Special Rate Period for such Special Rate Period; provided that

such provisions do not affect the parity ranking of the VRDP Shares relative to any other series of Preferred Shares of the Fund then outstanding with respect to dividends or distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund. Any such Special Rate Period, and establishment of any such provisions applicable during such Special Rate Period, must be preceded by a Mandatory Tender as provided in this Agreement.

SECTION 2.03. Extension of Scheduled Termination Date.

Under the VRDP Fee Agreement, the Fund shall have the right, exercisable not more than 120 days nor less than 90 days prior to the Scheduled Termination Date and otherwise in accordance with the terms of the VRDP Fee Agreement, to request that the Liquidity Provider extend the term of such Scheduled Termination Date for an additional period, which request may be conditioned upon terms and conditions that are different from the terms and conditions of this Agreement and the VRDP Fee Agreement then in effect. Under the VRDP Fee Agreement, the Fund will acknowledge and agree that the Liquidity Provider may grant or deny any request for extension of the Scheduled Termination Date in its sole and absolute discretion.

SECTION 2.04. Reduction of Available Commitment.

As of the opening of business on the day following the Liquidity Provider's receipt of written notice (which the Tender and Paying Agent will provide within two (2) Business Days of receipt of notice from the Fund) of any redemption or other repurchase of VRDP Shares consummated by the Fund, the Available Commitment shall automatically be reduced by the amount applicable to the VRDP Shares so redeemed or otherwise repurchased; and the Available Commitment in respect of such VRDP Shares shall be extinguished and shall not thereafter be revived, except with the prior written consent of the Liquidity Provider. Notwithstanding the foregoing, nothing herein is intended to expand the terms of the Purchase Obligation.

SECTION 2.05. Claw-Back Provision.

In the event that any dividends or redemption proceeds paid by the Fund on Outstanding VRDP Shares prior to the occurrence of a Fund Insolvency Event are required to be, and are, paid over to the bankruptcy estate of the Fund pursuant to a final, non-appealable judgment of a court of competent jurisdiction arising out of a Fund Insolvency Event, any Beneficial Owner (or former Beneficial Owner) of VRDP Shares that has paid over to the bankruptcy estate of the Fund pursuant to such judgment any dividends or redemption proceeds previously received from the Fund may demand reimbursement from the Liquidity Provider of any amounts so paid. The Liquidity Provider agrees to make such reimbursement payment within three Business Days of receipt of any such demand for payment made in writing and accompanied by evidence reasonably satisfactory to the Liquidity Provider, of payment made to the bankruptcy estate of the Fund by or on behalf of the demanding party. In connection with any reimbursement payment by the Liquidity Provider, the Beneficial Owner (or former Beneficial Owner) of VRDP Shares shall be deemed to have transferred, assigned and conveyed to the Liquidity Provider the right to receive from the Fund and the bankruptcy estate of the Fund any such dividends or redemption proceeds in exchange for the reimbursement payment by the Liquidity Provider, and the Beneficial Owner (or former Beneficial Owner) shall execute, acknowledge and deliver such further conveyances, assignments and other documents as the Liquidity Provider may reasonably request and are reasonably necessary in order to effectuate such assignment. The provisions of this Section 2.05 shall survive any expiration or termination of this Agreement, in respect of any

dividends or redemption proceeds paid by the Fund on Outstanding VRDP Shares during the term of this Agreement, and shall be in addition to any other obligation of the Liquidity Provider under this Agreement.

DUTIES OF THE TENDER AND PAYING AGENT

SECTION 5.01. Duties and Responsibilities.

- (a) The Tender and Paying Agent is acting solely as agent for the Fund hereunder and owes no duties, fiduciary or otherwise, to any other Person by reason of this Agreement, other than to the Liquidity Provider as and to the extent expressly provided for herein.
- (b) The Tender and Paying Agent undertakes to perform such duties and only such duties as are specifically set forth in this Agreement and no implied covenants or obligations shall be read into this Agreement against the Tender and Paying Agent.
- (c) In the absence of gross negligence (and, with respect to the handling of funds, in the absence of negligence), willful misconduct or bad faith on its part, the Tender and Paying Agent shall not be liable for any action taken, suffered or omitted or for any error of judgment made by it in the performance of its duties under this Agreement. The Tender and Paying Agent shall not be liable for any error of judgment made in good faith unless and to the extent resulting from its own gross negligence (and, with respect to the handling of funds, its own negligence).

SECTION 5.02. Rights of the Tender and Paying Agent.

- (a) The Tender and Paying Agent shall not incur liability for following the instructions herein contained or expressly provided for, or written instructions authorized hereby. The Tender and Paying Agent may conclusively rely and shall be fully protected in acting or refraining from acting upon any communication authorized hereby and upon any written instruction, notice, request, direction, consent, report, certificate, share certificate or other instrument, paper or document, in the absence of gross negligence, believed by it to be genuine. The Tender and Paying Agent shall not be liable for acting upon any telephone communication authorized hereby which the Tender and Paying Agent believes in the absence of gross negligence to have been given by the Fund, a Holder, a Beneficial Owner, an Agent Member, the Liquidity Provider or the Remarketing Agent. The Tender and Paying Agent may record telephone communications with the Fund, the Liquidity Provider and the Remarketing Agent in connection with its duties hereunder.
- (b) The Tender and Paying Agent may consult with counsel of its choice and the advice or opinion of such counsel shall be full and complete authorization and protection in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon.
- (c) The Tender and Paying Agent shall not be required to advance, expend or risk its own funds or otherwise incur or become exposed to financial liability in the performance of its duties hereunder.
- (d) The Tender and Paying Agent may perform its duties and its rights hereunder either directly or by or through agents or attorneys.
- (e) Anything in this Agreement to the contrary notwithstanding, in no event shall the Tender and Paying Agent be liable for special, indirect, punitive or consequential loss or damage of any kind whatsoever (including but not limited to lost profits), even if the Tender and Paying Agent has been advised of the likelihood of such loss or damage and regardless of the form of action.

(f) The Tender and Paying Agent shall not be obligated to take any legal action hereunder that might, in its judgment, involve any expenses or liability, unless it has been furnished with indemnity reasonably satisfactory to it.

(g) The Tender and Paying Agent shall not be responsible or liable for any failure or delay in the performance of its obligations under this Agreement arising out of or caused, directly or indirectly, by circumstances beyond its reasonable control, including, without limitation, acts of God; earthquakes; flood; terrorism; wars and other military disturbances; sabotage; epidemics; riots; interruptions; loss or malfunction of utilities, computer (hardware or software) or communication services; accidents; labor disputes; acts of civil or military authority and governmental action. The Tender and Paying Agent shall use commercially reasonable efforts to commence performance of its obligations during any of the foregoing circumstances.

(h) The Tender and Paying Agent makes no representation as to, and shall have no liability with respect to, the correctness of the recitals in, or the validity (with respect to parties other than the Tender and Paying Agent), accuracy or adequacy of this Agreement (including any schedules hereto), any VRDP Shares, the Statement, any offering material used in connection with the offer and sale of any VRDP Shares or any other agreement or instrument executed in connection with the transactions contemplated herein or in any thereof.

(i) The permissive right of the Tender and Paying Agent under this Agreement to take or omit to take any action shall not be construed as a duty.

(j) The Tender and Paying Agent may request that the Liquidity Provider deliver a certificate setting forth the names of individuals and/or titles of officers authorized at such time to take specified actions pursuant to this Agreement, which certificate may be signed by any person authorized to sign such a certificate, including any person specified as so authorized in any such certificate previously delivered and not superseded.

(k) Unless otherwise mutually agreed between the Liquidity Provider and the Tender and Paying Agent, the Tender and Paying Agent shall have no duty to invest any funds deposited with it at any time pursuant to this Agreement and shall be under no duty or obligation to pay any interest or earnings on or with respect to amounts held or deposited hereunder. In the event the Liquidity Provider and the Tender and Paying Agent shall otherwise agree, any interest or earnings on or with respect to any amount held or deposited hereunder shall be remitted to the Fund in accordance with such agreement. The Tender and Paying Agent shall be under no duty or obligation to collateralize or pledge any security therefor, or to segregate any amounts hereunder except as may be required by law; provided, however, that the Tender and Paying Agent shall hold any Purchase Price received from the Liquidity Provider in a separate account in trust for the benefit of the Liquidity Provider pending delivery of such Purchase Price to a Holder or Beneficial Owner or its Agent Member in payment of any VRDP Shares that are the subject of a Tender or Mandatory Purchase.

(l) The Tender and Paying Agent, in its individual or any other capacity, may become the owner or pledgee of VRDP Shares with the same rights it would have if it were not Tender and Paying Agent.

(m) Nothing contained herein shall be construed to require the Tender and Paying Agent to advance its own funds to any Holder if sufficient funds have not been deposited with the Tender and Paying Agent by the Fund for the purpose of making payments hereunder.

(n) The Tender and Paying Agent shall have no duty to examine and shall not be charged with knowledge of the contents of any report, information or document delivered to it hereunder. The Tender and Paying Agent shall have no duty to determine the occurrence or continuance of any event or events that constitute a Liquidity Provider Ratings Event, Mandatory Tender Event, Mandatory Purchase Event or Failed Remarketing Condition or to determine whether any agreement satisfies the requirements of an Alternate VRDP Purchase Agreement.

(o) The Tender and Paying Agent has no obligation under the terms of this Agreement or otherwise to enforce any rights or exercise any remedies that may be available to any Holder or Beneficial Owner or other Person that arise out of or relate to this Agreement or otherwise.

SECTION 5.03. Tender and Paying Agent's Disclaimer.

The Tender and Paying Agent makes no representation as to the validity (except with respect to itself) or adequacy of this Agreement or any VRDP Shares issued or to be issued.

SECTION 5.04. Concerning the Securities Depository.

(a) Neither the Liquidity Provider nor the Tender and Paying Agent shall have any responsibility or obligation to any Beneficial Owner of an interest in a Global VRDP Share, an Agent Member or other Person with respect to the accuracy of the records of the Securities Depository or its nominee or of any Agent Member, with respect to any ownership interest in the Global VRDP Shares or with respect to the delivery to any Agent Member, Beneficial Owner or other Person (other than the Securities Depository to the extent provided in the Related Documents) of any notice (including any Notice of Redemption) or any amount paid, under or with respect to the VRDP Shares. All notices and communications to be given to the Holders and all payments to be made to Holders under this Agreement or the Related Documents shall be given or made only to or upon the order of the registered holders (which shall be the Securities Depository or its nominee in the case of Global VRDP Shares). The rights of Beneficial Owners in the Global VRDP Shares shall be exercised only through the Securities Depository subject to the applicable procedures of the Securities Depository. The Liquidity Provider and the Tender and Paying Agent shall be entitled to rely and shall be fully protected in acting upon information furnished by the Securities Depository with respect to its members, participants and any beneficial owners. The Fund and the Tender and Paying Agent shall be entitled to deal with the Securities Depository, and any nominee thereof that is the registered holder of any Global VRDP Shares for all purposes of this Agreement and the Related Documents relating to such Global VRDP Shares (including the payment of dividends, redemption price, if any, and additional amounts, if any, and the giving of instructions or directions by or to the owner or holder of a beneficial ownership interest in such Global VRDP Shares), as the sole holder of such Global VRDP Shares and shall have no obligations to the Beneficial Owners thereof. Neither the Liquidity Provider nor the Tender and Paying Agent shall have any responsibility or liability for any acts or omissions of the Securities Depository with respect to such Global VRDP Shares, for the records of the Securities Depository, including records in respect of beneficial ownership interests in respect of any such Global VRDP Shares, for any transactions between the Securities Depository and any Agent Member or between or among the Securities Depository, any such Agent Member and/or any holder or owner of a beneficial interest in such Global VRDP Shares, or for any transfers of beneficial interests in any such Global VRDP Shares.

(b) The Tender and Paying Agent shall have no obligation or duty to monitor, determine or inquire as to compliance with any restrictions on transfer imposed under the Related Documents or this Agreement or under applicable law with respect to any transfer of any interest in any VRDP Share (including any transfers between or among Agent Members or Beneficial Owners of interests in any Global VRDP Shares), other than to require delivery of such certificates, other documentation or evidence, if any, as are expressly required by, and to do so if and when expressly required by the terms of this Agreement, and to examine the same to determine substantial compliance as to form with the express requirements hereof.

SECTION 7.19. Contractual Recognition of Bail-in.

The Tender and Paying Agent acknowledges and agrees, and the Holders and Beneficial Owners from time to time of the VRDP Shares are deemed to have acknowledged and agreed, that notwithstanding any other term of this Agreement or any other agreement, arrangement or understanding with the Liquidity Provider, any liability arising under or in connection with this Agreement may be subject to Bail-In Action (as defined below) and the Tender and Paying Agent accepts, and the Holders and Beneficial Owners from time to time of the VRDP Shares are deemed to have accepted, to be bound by the effect of:

APPENDIX C RATINGS OF INVESTMENTS

Standard & Poor's Ratings Services

A brief description of the applicable Standard & Poor's Ratings Services, a Standard & Poor's Financial Services LLC business (Standard & Poor's or S&P), rating symbols and their meanings (as published by S&P) follows:

A Standard & Poor's issue credit rating is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The opinion reflects Standard & Poor's view of the obligor's capacity and willingness to meet its financial commitments as they come due, and may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default.

Issue credit ratings can be either long-term or short-term. Short-term ratings are generally assigned to those obligations considered short-term in the relevant market. In the U.S., for example, that means obligations with an original maturity of no more than 365 days including commercial paper. Short-term ratings are also used to indicate the creditworthiness of an obligor with respect to put features on long-term obligations. The result is a dual rating, in which the short-term rating addresses the put feature, in addition to the usual long-term rating. Medium-term notes are assigned long-term ratings.

Long-Term Issue Credit Ratings

Issue credit ratings are based, in varying degrees, on Standard & Poor's analysis of the following considerations:

1. Likelihood of payment capacity and willingness of the obligor to meet its financial commitment on an obligation in accordance with the terms of the obligation;
2. Nature of and provisions of the obligation; and
3. Protection afforded by, and relative position of, the obligation in the event of bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors' rights.

Issue ratings are an assessment of default risk, but may incorporate an assessment of relative seniority or ultimate recovery in the event of default. Junior obligations are typically rated lower than senior obligations, to reflect the lower priority in bankruptcy, as noted above. (Such differentiation may apply when an entity has both senior and subordinated obligations, secured and unsecured obligations, or operating company and holding company obligations.)

AAA

An obligation rated AAA has the highest rating assigned by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.

AA

An obligation rated AA differs from the highest-rated obligations only to a small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

A

An obligation rated A is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

BBB

An obligation rated BBB exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

BB, B, CCC, CC, and C

Obligations rated BB, B, CCC, CC, and C are regarded as having significant speculative characteristics. BB indicates the least degree of speculation and C the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

BB

An obligation rated BB is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

B

An obligation rated B is more vulnerable to nonpayment than obligations rated BB, but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitment on the obligation.

CCC

An obligation rated CCC is currently vulnerable to nonpayment, and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation.

CC

An obligation rated CC is currently highly vulnerable to nonpayment.

C

A C rating is assigned to obligations that are currently highly vulnerable to nonpayment, obligations that have payment arrearages allowed by the terms of the documents, or obligations of an issuer that is the subject of a bankruptcy petition or similar action which have not experienced a payment default. Among others, the C rating may be assigned to subordinated debt, preferred stock or other obligations on which cash payments have been suspended in accordance with the instrument's terms or when preferred stock is the subject of a distressed exchange offer, whereby some or all of the issue is either repurchased for an amount of cash or replaced by other instruments having a total value that is less than par.

D

An obligation rated D is in payment default. The D rating category is used when payments on an obligation are not made on the date due, unless Standard & Poor's believes that such payments will be made within five business days, irrespective of any grace period. The D rating also will be used upon the filing of a bankruptcy petition or the taking of similar action if payments on an obligation are jeopardized. An obligation's rating is lowered to D upon completion of a distressed exchange offer, whereby some or all of the issue is either repurchased for an amount of cash or replaced by other instruments having a total value that is less than par.

The ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

NR

This indicates that no rating has been requested, that there is insufficient information on which to base a rating, or that Standard & Poor's does not rate a particular obligation as a matter of policy.

Short-Term Issue Credit Ratings

A-1

A short-term obligation rated A-1 is rated in the highest category by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

A-2

A short-term obligation rated A-2 is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

A-3

A short-term obligation rated A-3 exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

B

A short-term obligation rated **B** is regarded as vulnerable and has significant speculative characteristics. The obligor currently has the capacity to meet its financial commitments; however, it faces major ongoing uncertainties which could lead to the obligor's inadequate capacity to meet its financial commitments.

C

A short-term obligation rated **C** is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation.

D

A short-term obligation rated **D** is in payment default. The **D** rating category is used when payments on an obligation are not made on the date due, unless Standard & Poor's believes that such payments will be made within any stated grace period. However, any stated grace period longer than five business days will be treated as five business days. The **D** rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if payments on an obligation are jeopardized.

Moody's Investors Service, Inc.

A brief description of the applicable Moody's Investors Service, Inc. (Moody's) rating symbols and their meanings (as published by Moody's) follows:

Moody's U.S. Municipal ratings are opinions of the investment quality of issuers and issues in the US municipal market. As such, these ratings incorporate Moody's assessment of the default probability and loss severity of these issuers and issues. The default and loss content for Moody's municipal long-term rating scale differs from Moody's general long-term rating scale. Historical default and loss rates for obligations rated on the U.S. Municipal Scale are significantly lower than for similarly rated corporate obligations. It is important that users of Moody's ratings understand these differences when making rating comparisons between the Municipal and Global Scales.

U.S. Municipal Long-Term Debt Ratings

Municipal Ratings are based upon the analysis of five primary factors related to municipal finance: market position, financial position, debt levels, governance, and covenants. Each of the factors is evaluated individually and for its effect on the other factors in the context of the municipality's ability to repay its debt.

Aaa

Issuers or issues rated Aaa demonstrate the strongest creditworthiness relative to other U.S. municipal or tax-exempt issuers or issues.

Aa

Issuers or issues rated Aa demonstrate very strong creditworthiness relative to other U.S. municipal or tax-exempt issuers or issues.

A

Issuers or issues rated A present above-average creditworthiness relative to other U.S. municipal or tax-exempt issuers or issues.

Baa

Issuers or issues rated Baa represent average creditworthiness relative to other U.S. municipal or tax- exempt issuers or issues.

Ba

Issuers or issues rated Ba demonstrate below-average creditworthiness relative to other U.S. municipal or tax-exempt issuers or issues.

B

Issuers or issues rated B demonstrate weak creditworthiness relative to other U.S. municipal or tax- exempt issuers or issues.

Caa

Issuers or issues rated Caa demonstrate very weak creditworthiness relative to other U.S. municipal or tax-exempt issuers or issues.

Ca

Issuers or issues rated Ca demonstrate extremely weak creditworthiness relative to other U.S. municipal or tax-exempt issuers or issues.

C

Issuers or issues rated C demonstrate the weakest creditworthiness relative to other U.S. municipal or tax-exempt issuers or issues.

Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating category from Aa through Caa. The modifier 1 indicates that the issuer or obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

U.S. Municipal Short-Term Obligation Ratings

MIG 1

This designation denotes superior credit quality. Excellent protection is afforded by established cash flows, highly reliable liquidity support, or demonstrated broad-based access to the market for refinancing.

MIG 2

This designation denotes strong credit quality. Margins of protection are ample, although not as large as in the preceding group.

MIG 3

This designation denotes acceptable credit quality. Liquidity and cash-flow protection may be narrow, and market access for refinancing is likely to be less well-established.

SG

This designation denotes speculative-grade credit quality. Debt instruments in this category may lack sufficient margins of protection.

U.S. Municipal Demand Obligation Ratings

In the case of variable rate demand obligations (VRDOs), a two-component rating is assigned; a long or short-term debt rating and a demand obligation rating. The first element represents Moody's evaluation of the degree of risk associated with scheduled principal and interest payments. The second element represents Moody's evaluation of the degree of risk associated with the ability to receive purchase price upon demand (demand feature), using a variation of the MIG rating scale, the Variable Municipal Investment Grade or VMIG rating.

When either the long- or short-term aspect of a VRDO is not rated, that piece is designated NR, e.g., Aaa/NR or NR/VMIG 1.

VMIG rating expirations are a function of each issue's specific structural or credit features.

VMIG 1

This designation denotes superior credit quality. Excellent protection is afforded by the superior short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

VMIG 2

This designation denotes strong credit quality. Good protection is afforded by the strong short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

VMIG 3

This designation denotes acceptable credit quality. Adequate protection is afforded by the satisfactory short-term credit strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price upon demand.

SG

This designation denotes speculative-grade credit quality. Demand features rated in this category may be supported by a liquidity provider that does not have an investment grade short-term rating or may lack the structural and/or legal protections necessary to ensure the timely payment of purchase price upon demand.

Short-Term Ratings

Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations. Ratings may be assigned to issuers, short-term programs or to individual short-term debt instruments. Such obligations generally have an original maturity not exceeding thirteen months, unless explicitly noted.

Moody's employs the following designations to indicate the relative repayment ability of rated issuers:

P-1

Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

P-2

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

P-3

Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

NP

Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

Additional Information

Provisional Ratings (P): When applied to forward delivery bonds, indicates the rating is provisional pending delivery of the bonds. The rating may be revised prior to delivery if changes occur in the legal documents or the underlying credit quality of the bonds.

Refunded # : Issues that are secured by escrowed funds held in trust, reinvested in direct, non-callable U.S. government obligations or non-callable obligations unconditionally guaranteed by the U.S. government or Resolution Funding Corporation are identified with a # (hatch mark) symbol, e.g., #Aaa.

Withdrawn WR: When Moody's no longer rates an obligation on which it previously maintained a rating, the symbol WR is employed. Please see Moody's Guidelines for the Withdrawal of Ratings, available on www.moodys.com.

Not Rated NR: NR is assigned to an unrated issuer, obligation and/or program.

Fitch Ratings, Inc.

A brief description of the applicable Fitch Ratings, Inc. (Fitch Ratings or Fitch) ratings symbols and meanings (as published by Fitch) follows:

Long-Term Ratings

Ratings of structured finance, project finance and public finance obligations on the long-term scale, including the financial obligations of sovereigns, consider the obligations' relative vulnerability to default. These ratings are typically assigned to an individual security or tranche in a transaction and not to an issuer.

AAA

Highest credit quality. AAA ratings denote the lowest expectation of default risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

AA

Very high credit quality. AA ratings denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

A

High credit quality. A ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

BBB

Good credit quality. BBB ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate but adverse business or economic conditions are more likely to impair this capacity.

BB

Speculative. BB ratings indicate an elevated vulnerability to default risk, particularly in the event of adverse changes in business or economic conditions over time.

B

Highly speculative. B ratings indicate that material default risk is present, but a limited margin of safety remains. Financial commitments are currently being met; however, capacity for continued payment is vulnerable to deterioration in the business and economic environment.

CCC

Substantial credit risk. Default is a real possibility.

CC

Very high levels of credit risk. Default of some kind appears probable.

C

Exceptionally high levels of credit risk. Default appears imminent or inevitable.

D

Default. Indicates a default. Default generally is defined as one of the following:

failure to make payment of principal and/or interest under the contractual terms of the rated obligation;

the bankruptcy filings, administration, receivership, liquidation or other winding-up or cessation of the business of an issuer/obligor; or

the distressed exchange of an obligation, where creditors were offered securities with diminished structural or economic terms compared with the existing obligation to avoid a probable payment default.

The modifiers + or - may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the AAA Long-Term Rating category, or categories below B .

Specific limitations relevant to the structured, project and public finance obligation rating scale include:

The ratings do not predict a specific percentage of default likelihood over any given time period.

The ratings do not opine on the market value of any issuer's securities or stock, or the likelihood that this value may change.

The ratings do not opine on the liquidity of the issuer's securities or stock.

The ratings do not opine on the possible loss severity on an obligation should an obligation default.

The ratings do not opine on any quality related to a transaction's profile other than the agency's opinion on the relative vulnerability to default of each rated tranche or security.

Ratings assigned by Fitch Ratings articulate an opinion on discrete and specific areas of risk. The above list is not exhaustive, and is provided for the reader's convenience.

Short-Term Ratings

A short-term issuer or obligation rating is based in all cases on the short-term vulnerability to default of the rated entity or security stream and relates to the capacity to meet financial obligations in accordance with the documentation governing the relevant obligation. Short-Term Ratings are assigned to obligations whose initial maturity is viewed as short term based on market convention. Typically, this means up to 13 months for corporate, sovereign, and structured obligations, and up to 36 months for obligations in U.S. public finance markets.

F1

Highest short-term credit quality. Indicates the strongest intrinsic capacity for timely payment of financial commitments; may have an added + to denote any exceptionally strong credit feature.

F2

Good short-term credit quality. Good intrinsic capacity for timely payment of financial commitments.

F3

Fair short-term credit quality. The intrinsic capacity for timely payment of financial commitments is adequate.

B

Speculative short-term credit quality. Minimal capacity for timely payment of financial commitments, plus heightened vulnerability to near term adverse changes in financial and economic conditions.

C

High short-term default risk. Default is a real possibility.

RD

Restricted default. Indicates an entity that has defaulted on one or more of its financial commitments, although it continues to meet other financial obligations. Typically applicable to entity ratings only.

D

Default. Indicates a broad-based default event for an entity, or the default of a short-term obligation.

+ or - may be appended to a rating to denote relative status within a major rating category. Such suffixes are not added to short-term ratings other than F1.

Specific limitations relevant to the Short-Term Ratings scale include:

The ratings do not predict a specific percentage of default likelihood over any given time period.

The ratings do not opine on the market value of any issuer's securities or stock, or the likelihood that this value may change.

The ratings do not opine on the liquidity of the issuer's securities or stock.

The ratings do not opine on the possible loss severity on an obligation should an obligation default.

The ratings do not opine on any quality related to an issuer or transaction's profile other than the agency's opinion on the relative vulnerability to default of the rated issuer or obligation.

Ratings assigned by Fitch Ratings articulate an opinion on discrete and specific areas of risk. The above list is not exhaustive, and is provided for the reader's convenience.

Additional Information

A designation of Not Rated or NR is used to denote securities not rated by Fitch where Fitch has rated some, but not all, securities comprising an issuance capital structure.

Withdrawn : The rating has been withdrawn and the issue or issuer is no longer rated by Fitch Ratings. Indicated in rating databases with the symbol WD.

Rating Watch: Rating Watches indicate that there is a heightened probability of a rating change and the likely direction of such a change. These are designated as Positive, indicating a potential upgrade, Negative, for a potential downgrade, or Evolving, if ratings may be raised, lowered or affirmed. However, ratings that are not on Rating Watch can be raised or lowered without being placed on Rating Watch first, if circumstances warrant such an action.

Rating Outlook: Rating Outlooks indicate the direction a rating is likely to move over a one- to two-year period. They reflect financial or other trends that have not yet reached the level that would trigger a rating action, but which may do so if such trends continue. The majority of Outlooks are generally Stable, which is consistent with the historical migration experience of ratings over a one- to two-year period. Positive or Negative rating Outlooks do not imply that a rating change is inevitable and, similarly, ratings with Stable Outlooks can be raised or lowered without a prior revision to the Outlook, if circumstances warrant such an action. Occasionally, where the fundamental trend has strong, conflicting elements of both positive and negative, the Rating Outlook may be described as Evolving.

APPENDIX D

FACTORS AFFECTING MUNICIPAL SECURITIES IN CALIFORNIA

Following is a brief summary of some of the factors that may affect the financial condition of the State of California (referred to herein as the State or California) and its political subdivisions. The summary is neither a complete nor a comprehensive description of these factors or an analysis of financial conditions and may not be indicative of the financial condition of issuers of obligations or any particular projects financed with the proceeds of such obligations. Many factors not included in the summary, such as the national economy, social and environmental policies and conditions, developments in municipal bankruptcies and the national and international markets for products produced in California, could have an adverse impact on the financial condition of California and its political subdivisions. It is not possible to predict whether and to what extent those factors may affect the financial condition of California and its political subdivisions.

The following summary is based upon the most recent publicly available budget documents and offering statements relating to public debt offerings of the State. This summary has not been updated nor will it be updated during the year. Neither the Funds nor their legal counsel has independently verified this information.

Overview

The State labor market conditions have improved significantly since the depths of the recession. As of March 2016, the State's unemployment rate was 5.4 percent, approximately 0.4 percent higher than the national average of 5.0 percent and less than the State's 6.1 percent unemployment rate before the recession at the beginning of 2008.

The California economy also continues to recover from the 2008 recession. Although the State has faced serious budgetary problems in the past resulting from structural imbalances, the State significantly improved its general fiscal condition with the approval by the voters in November 2012 of a seven-year personal income tax increase and a four-year sales tax increase (collectively known as Proposition 30). As a result of the passage of Proposition 30 and other measures taken by the administration, the Department of Finance reported in April 2016 that the State budget has been structurally balanced for the last five fiscal years. See The State Budget Constraints on the State Budget Proposition 30 below.

The adopted State budget for fiscal year 2015-16 (the 2015-16 Budget Act), which began with a surplus of approximately \$2.4 billion at June 30, 2015, was projected to leave a fiscal year-end reserve in the Special Fund for Economic Uncertainties (the SFEU) of approximately \$1.1 billion at June 30, 2016. The Governor revised the projected June 30, 2016 SFEU balance in May 2016 to be approximately \$3.9 billion, resulting in part from an all-time high in capital gains revenue in calendar year 2015. The projected budget results demonstrate continued improvement in the State's fiscal condition.

Many local government agencies, however, continue to face budget constraints due to limited taxing powers and a weakened, albeit improving, economy, among other factors. Unfunded pension and other post-retirement liabilities also weigh heavily upon the State as well as many local jurisdictions, and have been the principal cause of several well-publicized municipal bankruptcy filings.

Economic Factors

California is by far the most populous state in the nation, almost 50 percent larger than Texas, the second-ranked state, according to the 2010 United States Census. The July 2015 estimate of the State's population is 38.9 million, which represents approximately 12 percent of the total United States population.

California's economy, the largest among the 50 states and one of the largest and most diverse in the world, has major components in high technology, trade, entertainment, agriculture, manufacturing, government, tourism, construction and services. The relative proportion of the various components of the California economy closely resembles the make-up of the national economy.

California's unemployment rate increased from 6.1 percent at the start of 2008 to a high of 12.5 percent in the last four months of 2010. The rate has improved thereafter with the State's unemployment falling to 5.4 percent in March 2016, compared with the United States unemployment rate, which was 5.0 percent in March 2016.

State personal income declined by 3.7 percent in 2009 from the previous year due to the large toll of lost jobs during the recession. This was the State's first decline in personal income on a year-over-year basis since 1938. However, the State has made substantial gains since 2009. Between 2009 and 2013, State personal income rose approximately 5.1 percent annually. In 2011, State personal income surpassed pre-recession, 2008 levels. The Department of Finance estimated that personal income increased approximately 4.7 percent in 2014 and 5.3 percent in 2015. As of April 2016, the State had projected personal income to grow by 5.5 percent in 2016 and 5.2 percent in 2017.

In 2009, taxable sales were down nearly 15 percent from the prior year and down nearly 20 percent from the peak reached in 2007. However, substantial gains in taxable sales have occurred since 2009. Taxable sales increased from the previous year by approximately 4.3 percent and 9.1 percent in 2010 and 2011, respectively. Taxable sales during 2012 and 2013 further increased approximately 7.2 percent and 5.8 percent from the previous year, respectively, recovering to approximately the same level as taxable sales in 2008. The Department of Finance estimated that taxable sales increased approximately 5.4 percent in 2014 and 5.6 percent in 2015. As of April 2016, the State had projected taxable sales to grow by 4.2 percent in 2016 and 5.7 percent in 2017.

The Statewide median price for existing single-family homes decreased more than 6 percent from 2010 to 2011, bringing the average median price to approximately \$300,000. In February 2016, the Department of Finance reported that this number had increased to \$446,460, which was an increase of 3.8 percent from a year earlier. Still, this median price is significantly lower than the pre-recession peak median price of \$594,530.

Residential building permitting, which suffered a long, steady decline from calendar years 2006 through 2009, increased steadily over the past several years, from 44,365 in 2010 (approximately \$13.7 billion valuation) to 95,922 in 2015 (approximately \$28.3 billion valuation), representing an average annual increase of approximately 43.2 percent, but still down from a pre-recession high of 164,187 (approximately \$38.2 billion valuation) in 2006.

After slowing sharply in 2009, nonresidential construction increased steadily over the past several years, from a total valuation of approximately \$11.2 billion in 2010 to \$24.8 billion in 2015,

representing an average annual increase of approximately 44.3 percent, surpassing the pre-recession high of \$22.5 billion in 2007.

Constitutional Limitations on Taxes, Other Charges, Appropriations and General Fund Revenues

Over the years, a number of constitutional amendments have been enacted, often through voter initiatives, which have increased the difficulty of raising State taxes or restricted the use of State Treasury General Fund (the General Fund) revenues. Some of the more significant of these approved constitutional amendments are described below. Because of the complex nature of these initiatives and the ambiguities and possible inconsistencies in their terms, it is not possible to predict with certainty the impact on California debt obligations or on the ability of the State or local governments to pay debt service on such California debt obligations. Further initiatives or legislative changes in laws or the California Constitution may also affect the ability of the State or local issuers to repay their obligations.

Limitation on Property Taxes. Certain California debt obligations may be obligations of issuers that rely in whole or in part, directly or indirectly, on *ad valorem* property taxes as a source of revenue. The taxing powers of California local governments and districts are limited by Article XIII A of the California Constitution (Article XIII A), enacted by the voters in 1978 and commonly known as Proposition 13. Briefly, Article XIII A limits the rate of *ad valorem* property taxes to 1 percent of full cash value of real property and generally restricts the reassessment of property to 2 percent per year, except upon new construction or change of ownership (subject to a number of exemptions).

Taxing entities, however, may raise ad valorem taxes above the 1 percent limit to pay debt service on voter-approved bonded indebtedness.

Under Article XIII A, the basic 1 percent ad valorem tax levy is applied against the assessed value of property as of the owner's date of acquisition (or as of March 1, 1975, if acquired earlier), subject to certain adjustments. This system has resulted in widely varying amounts of tax on similarly situated properties. Several lawsuits were filed challenging the acquisition-based assessment system of Proposition 13, but it was upheld by the U.S. Supreme Court in 1992.

Article XIII A prohibits local governments from raising revenues through ad valorem taxes above the 1 percent limit; it also requires voters of any governmental units to give two-thirds approval to levy certain taxes. For further discussion on Proposition 13, see Local Governments Constitutional and Statutory Limitations on Local Government below. For further discussion on voter approval requirements under Article XIII A, see Voter Requirements for Taxes and Fees below.

Limitations on Other Taxes, Fees and Charges. On November 5, 1996, the voters of the State approved Proposition 218, called the Right to Vote on Taxes Act. Proposition 218 added Article XIII C (Article XIII C) and Article XIII D (Article XIII D) to the State Constitution, which contain a number of provisions affecting the ability of local agencies to levy and collect both existing and future taxes, assessments, fees and charges.

Article XIII C requires that all new or increased local taxes be submitted to the voters before they become effective. Proposition 26, discussed below under the caption entitled Voter Requirements for Taxes and Fees, amended Article XIII C by adding an expansive definition of taxes to include many regulatory fees currently imposed by the State and its municipalities. Taxes for

general governmental purposes require a majority vote and taxes for specific purposes require a two-thirds vote.

Article XIID contains several provisions making it generally more difficult for local agencies to levy and maintain assessments for municipal services and programs. Article XIID also contains several provisions affecting fees and charges, defined for purposes of Article XIID to mean any levy other than an ad valorem tax, a special tax, or an assessment, imposed by a local government upon a parcel or upon a person as an incident of property ownership, including a user fee or charge for a property related service. All new and existing property related fees and charges must conform to requirements prohibiting, among other things, fees and charges that generate revenues exceeding the funds required to provide the property related service or are used for unrelated purposes. Article XIID imposes notice, hearing and protest procedures for levying or increasing property related fees and charges, and, except for fees or charges for sewer, water and refuse collection services (or fees for electrical and gas service, which are not treated as property related for purposes of Article XIID), no property related fee or charge may be imposed or increased without majority approval by the property owners subject to the fee or charge or, at the option of the local agency, two-thirds voter approval by the electorate residing in the affected area.

In addition to the provisions described above, Article XIIC removes limitations on the initiative power in matters of local taxes, assessments, fees and charges. Consequently, local voters, by future initiative, could repeal, reduce or prohibit the future imposition or increase of any local tax, assessment, fee or charge. It is unclear how this right of local initiative may be used in cases where taxes or charges have been or will be specifically pledged to secure debt issues.

Limitations on the State's Ability to Transfer Funds from Local Agencies. On November 2, 2010, voters in the State approved Proposition 22. Proposition 22, known as the Local Taxpayer, Public Safety, and Transportation Protection Act of 2010, eliminated or reduced the State's authority to (i) temporarily shift property taxes from cities, counties and special districts to schools, (ii) use vehicle license fee revenues to reimburse local governments for state-mandated costs (the State will have to use other revenues to reimburse local governments), (iii) redirect property tax increment from redevelopment agencies to any other local government, (iv) use State fuel tax revenues to pay debt service on State transportation bonds or (v) borrow or change the distribution of State fuel tax revenues.

Voter Requirements for Taxes and Fees. Proposition 26, known as the Supermajority Vote to Pass New Taxes and Fees Act, was approved by State voters on November 2, 2010. Proposition 26 amended provisions of Article XIII A and Article XIIC governing the imposition of taxes. Proposition 26 requires a two-thirds supermajority vote in the State Legislature prior to the imposition of any change in State statute which results in any taxpayer paying a higher tax. This requirement eliminated the prior practice that allowed, via majority vote, one tax to be increased if another tax is lowered by an equivalent amount. Furthermore, any increase in a fee beyond the amount needed to provide the specific service or benefit is deemed a tax, and thus would require two-thirds vote of any governmental units for passage. Finally, Proposition 26 applies retroactively to any measures passed on or after January 1, 2010. Thus, any tax or fee that was adopted after January 1, 2010 with a majority vote that would have required a two-thirds vote were Proposition 26 in place, was repealed on November 2, 2011, unless readopted by the necessary two-thirds vote.

Appropriations Limits. The State and its local governments are subject to an annual appropriations limit imposed by Article XIII B of the California Constitution (Article XIII B), enacted by the voters in 1979 and significantly amended by Propositions 98 and 111 in 1988 and 1990, respectively. Article XIII B prohibits the State or any covered local government from spending appropriations subject to limitation in excess of the appropriations limit imposed. Appropriations subject to limitation are authorizations to spend proceeds of taxes, which consist of tax revenues and certain other funds, including proceeds from regulatory licenses, user charges or other fees, to the extent that such proceeds exceed the cost of providing the product or service, but proceeds of taxes exclude most State subventions to local governments. No limit is imposed on appropriations of funds which are not proceeds of taxes, such as reasonable user charges or fees, and certain other non-tax funds, including bond proceeds.

Among the expenditures not included in the Article XIII B appropriations limit are (i) the debt service cost of bonds issued or authorized prior to January 1, 1979, or subsequently authorized by the voters, (ii) appropriations to comply with mandates of courts or the federal government, (iii) appropriations for certain capital outlay projects, (iv) appropriations by the State of post-1989 increases in gasoline taxes and vehicle weight fees and (v) appropriations made in certain cases of emergency.

The appropriations limit for each year is adjusted annually to reflect changes in cost of living and population, and any transfers of service responsibilities between government units.

Excess revenues are measured over a two year cycle. Local governments must return any excess to taxpayers by rate reductions. The State must refund 50 percent of any excess, with the other 50 percent paid to schools and community colleges.

With more liberal annual adjustment factors since 1988, and depressed revenues in the early 1990s because of a recession, few governments have been operating near their spending limits, but this condition may change over time. Local governments may by voter approval exceed their spending limits for up to four years. The Department of Finance estimated in April 2016 that the State was \$18.4 billion under the limit in fiscal year 2013-14 and projected the State would be approximately \$9.4 billion, \$6.6 billion and \$7.8 billion under its limit in fiscal years 2014-15 through 2016-17, respectively.

Dedication of General Fund Revenues to Schools. The single largest portion of the State budget is support for K-12 public schools and community college districts. Proposition 98, an initiative measure adopted originally in 1988, mandates that a set percentage of General Fund revenues be spent for K-14 schools, with the balance of school funding provided by a share of local property taxes. Proposition 98 is extremely complex, and results in significant fiscal problems when General Fund revenues fall short of the projections on which the original appropriations to schools were made. For further discussion regarding Proposition 98, see Proposition 98 and K-14 Funding below.

Obligations of the State

The State has always paid when due the principal of and interest on its general obligation bonds, general obligation commercial paper notes, lease-revenue obligations and short-term obligations, including revenue anticipation notes and revenue anticipation warrants. The State Constitution prohibits the creation of general obligation indebtedness of the State unless a bond measure is approved by a majority of the electorate voting at a general election or a direct primary.

Capital Facilities Financing. The State builds and acquires capital facilities primarily through the use of general obligation bonds and lease-purchase borrowing. Under the State Constitution, debt service on outstanding general obligation bonds is the second charge to the General Fund after support of the public school system and public institutions of higher education. Since 2006, the voters and/or the State Legislature have authorized a significant amount of new general obligation bonds, lease revenue bonds and other General Fund-supported debt. From July 1, 2006 to January 1, 2016, the State aggregate principal amount of outstanding obligations primarily supported by the General Fund rose from \$44.8 billion to approximately \$86.0 billion. This outstanding debt consists of approximately \$75.2 billion of general obligation bonds and approximately \$10.8 billion of lease-revenue bonds. Moreover, as of January 1, 2016, the State had approximately \$32.9 billion of authorized and unissued General Fund-supported general obligation bonds (\$29.3 billion) and lease revenue bonds (\$3.6 billion).

Based upon estimates included in the State's most recent general obligation bond disclosure, debt service on General Fund-supported general obligation bonds and lease-revenue debt is estimated to equal approximately 5.4 percent of General Fund revenues in fiscal year 2016-17 and 5.4 percent of General Fund revenues again in fiscal year 2017-18. This debt service cost is net of reimbursement from various special funds and subsidy payments from the federal government for taxable Build America Bonds.

Future Bond Issuance Plans. As the State had approximately \$32.9 billion of authorized but unissued General Fund-supported debt as of January 1, 2016, the amount of General Fund-supported debt, primarily general obligation bonds, is likely to increase in coming years. Based upon estimates from the Department of Finance, approximately \$4.4 billion of such obligations will be issued in fiscal year 2016-17 (consisting of approximately \$4.0 billion of general obligation bonds and approximately \$358 million of lease revenue bonds). However, the exact amount that may be issued will depend on market conditions, budget priorities, the ratings of State bonds and other factors. See Bond Ratings below.

Cash Management. As part of its cash management program, the State has regularly issued short-term obligations to meet cash flow needs. External borrowing is typically done with revenue anticipation notes that are payable later in the fiscal year in which they are issued. The State issued \$5.5 billion of revenue anticipation notes for fiscal year 2013-14 and \$2.8 billion of revenue anticipation notes for fiscal year 2014-15, all of which have been repaid. The State is not expected to issue revenue anticipation notes in 2015-16 or 2016-17.

The State is also authorized under certain circumstances to issue revenue anticipation warrants that are payable in the succeeding fiscal year, as well as registered refunding warrants issued to refund revenue anticipation warrants. The State has issued revenue anticipation warrants to bridge short-term cash flow shortages in five years since 1992. From time to time, the State Legislature defers various payments due under State statute, in order to more closely align the State's revenues with its expenditures. This technique has been used in past budgets, in order to reduce the State's need for external borrowing to bridge any cash flow deficit. Further, State law gives the State Controller some flexibility to delay payments to various payees, including State vendors, when the State Controller foresees a relatively short-term cash flow shortage. In addition, the State issued IOUs in lieu of cash payments in July and August 2009, the second such issuance since the 1930s. For information regarding the State's recent cash management programs, see Recent Financial Results below.

Obligations of State Agencies

A number of State agencies and authorities issue obligations secured or payable from specified revenue streams. These obligations are not payable from the General Fund and carry different ratings than the State's general obligation bonds. As of December 31, 2015, the State Department of Water Resources had approximately \$7.7 billion of outstanding revenue bonds secured by power and water users, and the California Housing Finance Agency had approximately \$3.1 billion of outstanding revenue bonds secured by mortgage loans made for single family and multi-family housing units. The Regents of the University of California has been one of the largest issuers of revenue bonds in recent years, with approximately \$16.0 billion of outstanding revenue bonds secured by certain revenues of the University of California, as of December 31, 2015. None of these revenue bonds are backed by the State's faith and credit or taxing power.

Recent Financial Results

Historically, the principal sources of General Fund revenues are personal income tax, sales and use tax and corporation tax. Based on the most recent figures provided in the Governor's proposed 2016-17 State budget, these sources are expected to contribute approximately 67.3 percent, 21.1 percent and 8.7 percent, respectively, of total General Fund revenues and transfers in fiscal year 2015-2016. The State's personal income tax structure is highly progressive, with the top 1 percent of taxpayers paying approximately 45.5 percent of the total personal income tax in tax year 2013. The personal income tax was made even more progressive with the passage of Proposition 30, which imposed additional taxes on earnings over \$250,000 (retroactive to calendar year 2012, and expiring at the end of calendar year 2018), resulting in an income tax of 12.3 percent on earnings over \$1 million. A large portion of personal income tax receipts is derived from capital gains realizations and stock option income. These revenue sources can be particularly volatile.

Along with personal income taxes, sales and use taxes and corporation taxes are subject to economic fluctuations as well, and were adversely affected during the State's recovery from the recent recession. Total personal income taxes, sales and use taxes and corporation taxes went from approximately \$92.6 billion in fiscal year 2007-08 to approximately \$76.7 billion in fiscal year 2008-09, recovering to approximately \$98.4 billion in fiscal year 2013-14. Moreover, compared to the rest of the nation, California relies less on a relatively stable revenue source, the property tax, because of Proposition 13. See "Limitations on Property Taxes" above. Approximately 90% of all State revenues and transfers come from personal income taxes, sales and use taxes and corporation taxes.

The State is required to maintain the SFEU, derived from General Fund revenues, as a reserve to meet cash needs of the General Fund, but which is required to be replenished as soon as sufficient revenues are available. Year-end balances in the SFEU are included for financial reporting purposes in the General Fund balance. As of June 30, 2011 and 2012, recurring cash flow shortfalls caused by the recession and structural budget shortfalls, resulted in SFEU deficits of approximately \$3.9 billion and \$3.6 billion, respectively. As the State economy and the State's finances have improved, SFEU fund balances have turned positive and improved significantly. Estimated SFEU balances as of June 30, 2013, 2014 and 2015 were \$254 million, \$2.9 billion and \$2.4 billion, respectively. The 2015-2016 Budget Act projected an SFEU balance of approximately \$1.1 billion as of June 30, 2016, although, due to larger-than-expected capital gains revenue, the Governor revised this projection in May 2016 to be approximately \$3.9 billion. In January 2016, the Governor cautioned that capital gains revenue is very volatile and that the seven-year economic expansion was already two years beyond the average

economic expansion. See Governor's Proposed 2016-17 Budget General Fund Budget Summary below.

The last five budget acts were each enacted timely. Further, with the approval by the voters of Proposition 30 in November 2012, the State significantly improved its general fiscal condition. As a result of the passage of Proposition 30 and other measures taken by the administration, the State Legislative Analyst's Office (the LAO) reported in November 2013 that there is no longer a structural imbalance in the State's budget. The sales tax portion and the property tax portion of Proposition 30 expire on December 31, 2016 and December 31, 2018, respectively. See The State Budget Constraints on the State Budget Proposition 30 below.

Proposition 98 and K-14 Funding

Throughout the 1980s, State spending increased rapidly as the State population and economy also grew rapidly. Such spending included increased spending for many assistance programs to local governments, which were constrained by Proposition 13 and other laws. The largest State assistance program is to local public school districts. In 1988, the voters of the State approved Proposition 98, a combined initiative constitutional amendment and statute, which (subject to suspension by a two-thirds vote of the State Legislature and the Governor) guarantees local school districts and community college districts a minimum share of General Fund revenues (the Proposition 98 Guarantee). The Proposition 98 Guarantee is calculated each fiscal year using one of three tests that apply under varying fiscal and economic conditions. The 2015-16 Budget Act provides approximately 42.8 percent of General Fund revenues in fiscal year 2015-16 for K-14 programs covered by the Proposition 98 Guarantee. For fiscal year 2015-16, the Proposition 98 Guarantee is \$68.4 billion, of which \$49.4 billion is payable from the General Fund, although the Governor's proposed 2016-17 State budget revises such estimates to be approximately \$69.2 billion and \$50.0 billion, respectively. The 2015-16 Budget Act Proposition 98 Guarantee level is an increase of \$7.6 billion over the 2014-15 Budget Act level. This Proposition 98 Guarantee level reflects an increase of more than \$4.7 billion in General Fund revenues in fiscal year 2014-15 from the prior fiscal year, and the adjustment of the Proposition 98 Guarantee for revenue and program shifts. The Proposition 98 guarantee includes a portion of revenue from the tax increases reflected in Proposition 30 and Proposition 39. In prior years, the State Legislature has approved deferrals of the Proposition 98 Guarantee to satisfy budget shortfalls. The 2015-16 Budget Act repays approximately \$897 million of such deferred Proposition 98 payments to schools and community colleges. For further information on the limitations on General Fund revenues imposed by Proposition 98, see Constitutional Limitations on Taxes, Other Charges, Appropriations and General Fund Revenues Dedication of General Fund Revenues to Schools above.

State and Local Pension and Post-Retirement Liabilities

State. The financial condition of the State and its localities is also subject to pension and other post-retirement benefit risks. The pension funds managed by the State's retirement systems, the California Public Employees Retirement System (CalPERS) and the California State Teachers Retirement System (CalSTRS), sustained significant investment losses during the economic downturn and currently have substantial unfunded liabilities which will require increased contributions from the General Fund in future years. Fiscal year 2016-17 General Fund contributions to CalPERS and CalSTRS (as of April 2016) are estimated to be approximately \$3.2 billion and \$2.5 billion, respectively. The combined contributions represent approximately 4.6 percent of all General Fund expenditures for fiscal year 2016-17. The State also provides other post-employment health care and

dental benefits to state to its employees and certain of their spouses and dependants (hereinafter referred to as OPEB), which utilize a pay-as-you-go funding policy. Fiscal year 2016-17 General Fund contributions to OPEB (as of April 2016) were estimated to be approximately \$2.0 billion or approximately 1.6 percent of the total General Fund expenditures shown in the 2016-17 May Revision (defined below).

The most recent report released by the CalPERS Board in April 2016 showed, as of June 30, 2015, an accrued unfunded liability allocable to state employees (excluding judges and elected officials) of \$49.6 billion on a market value of assets (MVA) basis. CalPERS no longer measures on an actuarial value of assets (AVA) basis. CalSTRS reported the unfunded accrued actuarial liability of its Defined Benefit Plan as of June 30, 2014 at \$72.7 billion on an AVA basis, and \$61.8 billion on an MVA basis. The State s most recent OPEB actuarial accrued liability report estimated an approximately \$71.4 billion unfunded actuarial accrued liability as of June 30, 2015 (compared to \$71.8 billion estimated as of June 30, 2014).

Government Accounting Standards Board (GASB) Statements 74 and 75, each of which affects OPEB financial reporting, were issued in June 2015. As a result, there is an increased focus on OPEB liability as GASB Statement No. 74 becomes effective for fiscal years beginning after June 15, 2016 and GASB Statement No. 75 becomes effective for fiscal years beginning after June 15, 2017. In January 2016, the State Controller noted that, if OPEB funding is left unchanged, the OPEB actuarial accrued liability could rise to more than \$100 billion by fiscal year 2020-21 and to more than \$300 billion by fiscal year 2047-48. The Governor has proposed prefunding the entire unfunded liability by fiscal year 2044-45.

The recent economic recession has called into question the reliability of assumed rates of return used to determine actuarial unfunded pension liabilities. Prior to 2012, CalPERS and CalSTRS had used an assumed 7.75 percent rate of return to calculate their respective unfunded liabilities. However, at meetings in February 2012 and March 2012, the CalSTRS Board and the CalPERS Board, respectively, voted to lower the investment earnings assumption to 7.50 percent (a reduction of 0.25 percent) commencing for actuarial valuations dated June 30, 2011. These assumption changes resulted in significant increases in unfunded liability. The assumption changes also increased retirement contributions for many local agencies which contract with CalPERS to manage their pension programs.

As of June 30, 2014, CalPERS had 5-year and 10-year time weighted average returns of 12.5 and 7.2 percent, respectively, and CalSTRS had 5-year and 10-year time weighted average returns of 13.7 and 7.6 percent, respectively. The most recent CalPERS and CalSTRS investment returns have been below the assumed rate of return. On July 13, 2015, CalPERS reported a 2.4 percent return on investments for the twelve months ended June 30, 2015, and on July 17, 2015 CalSTRS reported a 4.8 percent return on investments for the same period compared with 18.4 and 18.7 percent in fiscal year 2013-14, respectively.

In April 2013, CalPERS approved new actuarial policies that are aimed at returning the CalPERS system to fully-funded status within 30 years. These new policies include a rate-smoothing method with a 30-year fixed amortization period for gains and losses (rather than the current 30-year rolling amortization method). CalPERS delayed the implementation of the new policy until fiscal year 2015-16 for the State, schools and all public agencies. These new policies are projected to increase required State and local contributions. It is possible that, in the future, the State will be forced to

significantly increase its pension fund and post-retirement benefit contributions, reducing discretionary funds available for other State programs. In February 2014, the CalPERS Board approved new demographic assumptions that take into account increased life expectancies (2.1 years for men; 1.6 years for women) and to fully phase in the resulting increased costs to the State (of approximately \$1.2 billion per year) within 3 years. In April 2014, CalPERS adopted a new annual state contribution rate of \$4.3 billion, an increase of more than \$450 million. Further, the State's credit ratings may be affected if the State does not reduce or manage these unfunded liabilities. See [Bond Ratings](#) below.

In June 2014, the Governor signed Chapter 47, Statutes of 2014 (AB 1469), which increased statutorily required contributions to CalSTRS from the state, school districts, and teachers beginning July 1, 2014. The AB 1469 funding plan includes additional increases in contribution rates for the state, school districts, and teachers over the next several years in order to eliminate the current CalSTRS unfunded liability by 2045-46. The 2014-15 Budget Act also included a plan to fully fund CalSTRS in approximately 30 years. The increased funding requirements imposed upon local school districts may have an adverse affect on their financial condition.

Local. Many local governments in the State, many of which are current members of CalPERS, face similar and, in many cases, more severe issues relating to unfunded pension and post-retirement benefit liabilities. The credit ratings, and even solvency of these local governments may be at risk in the future if these liabilities are not appropriately addressed through wage concessions and restructuring of benefits. Cities are particularly at risk because one of their primary missions is safety, and safety personnel labor and retirement benefit costs are significantly greater than labor and retirement costs of general municipal employees. Three cities, Vallejo, Stockton and San Bernardino, entered bankruptcy under Chapter 9 of the Federal bankruptcy code, largely as a result of escalating labor cost and unfunded pension and post-retirement liabilities. All three of these cities have agreements with CalPERS to administer their pension obligation, and their respective obligations to CalPERS have proven to be a pivotal reason for their insolvency. Other cities (including other cities that contract with CalPERS) and counties have expressed public concerns about their ability to meet their unfunded pension and other post-retirement liabilities, and a willingness to entertain bankruptcy as an option to resolve their fiscal problems. Recently, a federal bankruptcy court has suggested that CalPERS contracts may be subject to adjustment in bankruptcy. Any definitive ruling might encourage other financially-stressed municipalities to explore a Chapter 9 bankruptcy. There can be no assurance that the fiscal stress and cash pressures currently facing certain of the State's localities will not continue or become more difficult, particularly if the economic recovery falters.

Pension Reform. Both constitutional initiatives and State legislation have been circulated or proposed attempting to reform the State's pension systems on the State and local basis. In September 2012, the Governor signed into law a comprehensive pension reform package affecting State and local government known as California Public Employees' Pension Reform Act of 2013 (PEPR A), which became effective January 1, 2013. PEPR A implements lower defined-benefit formulas with higher retirement ages for new State employees hired on or after January 1, 2013, and includes provisions to increase employee contributions. Provisions in the reform legislation affecting the CalSTRS system do not change the State's statutory contribution rate and did not have a material effect on State contributions in the short term, although a Senate Concurrent Resolution approved by both houses in August 2012 declared legislative intent to adopt measures during the 2013-14 legislative session to address the long-term funding needs of CalSTRS. Accordingly, the legislature passed and the Governor signed AB 1469 in June 2014. See [Local](#) above.

The LAO's analysis of PEPRA concluded that the legislation would have little or no immediate effect on State finances. However, in a preliminary actuarial analysis of PEPRA, CalPERS projected total savings to the State of between \$10.3 billion and \$12.6 billion over the next 30 years due primarily to increased employee contributions and, as the workforce turns over, lower benefit formulas that will gradually reduce normal costs. Total savings to the State and local governments combined have been reported at between \$40 billion and \$60 billion over the next 30 years. Costs for OPEB are not addressed in PEPRA.

There are many other bills (which could impact the General Fund) passed by the State Legislature in the recent legislative session which remain under consideration by the Governor. However, California courts have been largely supportive of the vested or earned pension rights of State and local employees. Thus reform efforts have been focused largely on limitations on future benefits for new employees, bringing limited, if any, immediate financial relief.

The State Budget

Overview. The State's fiscal year begins on July 1 and ends on June 30 of the following year. The annual budget is proposed by the Governor by January 10 of each year for the next fiscal year (the Governor's Budget). Under State law, the Governor's Budget cannot provide for projected expenditures in excess of projected revenues for the ensuing fiscal year. State law also requires the Governor to update the Governor's Budget projections and budgetary proposals by May 14 of each year (the May Revision). The May Revision is generally the basis for final negotiations between the Governor and the State Legislature to reach agreement on appropriations and other legislation to fund State government for the upcoming fiscal year (the Budget Act). The budget must be balanced, as required by Proposition 58 (discussed below) and pursuant to Proposition 25, enacted on November 2, 2010, must be approved by a majority (instead of two-thirds, under prior law) of each house of the State Legislature. State law requires the Governor to sign the budget by the start of the fiscal year on July 1, a requirement that, prior to Proposition 25's enactment, had only been met 12 times in the preceding three decades. Following enactment of Proposition 25, the Legislature has approved and Governor Brown has signed five consecutive Budget Acts before the start of each such fiscal year.

Constraints on the State Budget. Recent State Constitutional amendments approved by State voters have affected the budget process. Several such amendments are described below.

Balanced Budget Amendment. On March 2, 2004, voters approved Proposition 58, a constitutional amendment called the Balanced Budget Amendment, which requires the State to enact a balanced budget and establish a special reserve and restricts future borrowing to cover fiscal year-end deficits. As a result of the provisions requiring the enactment of a balanced budget and restricting borrowing, the State would in some cases have to take more immediate actions to correct budgetary shortfalls. Proposition 58 requires the State Legislature to pass a balanced budget and provides for mid-year adjustments in the event that the budget falls out of balance and the Governor calls a special legislative session to address the shortfall. The balanced budget determination is made by subtracting expenditures from all available resources, including prior-year balances.

Under Proposition 58, if the Governor determines that the State is facing substantial revenue shortfalls or spending increases, the Governor is authorized to declare a fiscal emergency. The Governor would then be required to propose legislation to address the emergency and call the State Legislature into special session for that purpose. If the State Legislature fails to pass and send to the

Governor legislation to address the fiscal emergency within 45 days, the State Legislature would be prohibited from acting on any other bills or adjourning in joint recess until such legislation is passed.

Proposition 58 also established the Budget Stabilization Account (the BSA), a special reserve account funded by annual transfers of specified amounts from the General Fund, unless suspended or reduced by the Governor or until a specified maximum amount has been deposited. Until the 2014-15 Budget Act, the Governor had suspended the annual transfer of money from the General Fund to the BSA every year since 2007. The 2014-15 Budget Act and the 2015-16 Budget Act each allocated transfers to the BSA. Funding for the BSA is estimated by the 2015-16 Budget Act to be approximately \$1.6 billion as of June 30, 2015 and approximately \$3.5 billion as of June 30, 2016 although, due to higher than expected capital gains revenue, the Governor's proposed 2016-17 State budget revised the June 30, 2016 projection to be approximately \$3.4 billion and projected a June 30, 2017 BSA balance of approximately \$6.7 billion. In November 2014, voters approved a constitutional amendment (Proposition 2) intended to strengthen the BSA by, among other things, basing deposits on when capital gains revenues rise above 8 percent, creating a Proposition 98 reserve and doubling the maximum size of the BSA from 5 percent to 10 percent of revenues. Certain provisions of Proposition 58 relating to the BSA were replaced by the provisions of Proposition 2. See Revisions to Balanced Budget Amendment below.

Proposition 58 also prohibits certain future borrowing to cover fiscal year-end deficits. This restriction applies to general obligation bonds, revenue bonds and certain other forms of long-term borrowing. The restriction does not apply to certain other types of borrowing, such as short-term borrowing to cover cash shortfalls in the General Fund (including revenue anticipation notes or revenue anticipation warrants currently used by the State), or inter-fund borrowings.

Revisions to Balanced Budget Amendment. Proposition 2 was approved by voters in November 2014. Certain provisions of Proposition 58 relating to the BSA were replaced by the provisions of Proposition 2. Beginning with the 2015-16 fiscal year, Proposition 2 requires that, among other things: deposits be made into the BSA whenever capital gains revenues rise to more than 8 percent of General Fund tax revenues; 1.5 percent of annual General Fund revenues be set aside each year; half of each year's deposit through fiscal year 2030-31 be used for supplemental payments to pay down long-term liabilities, after which at least half of each year's deposit must be saved, with the remainder used for supplemental debt payments or savings; that the maximum size of the BSA be increased 10 percent of General Fund revenues; withdrawal of funds be only for a disaster or if spending remains at or below the highest level of spending from the prior three years; the maximum amount that could be withdrawn in the first year of a recession be limited to half of the BSA's balance; the state provide a multiyear budget forecast to help better manage the state's longer term finances; and a Proposition 98 reserve be created, whereby spikes in funding are to be saved for future years to smooth school spending and minimize future cuts.

State-Local Fiscal Relations. The enactment of Proposition 1A in November 2004 (Proposition 1A of 2004) and Proposition 22, or the Local Taxpayer, Public Safety, and Transportation Protection Act of 2010 (Proposition 22), in November 2010, significantly changed the fiscal relationship between the State and local governments by severely limiting the State's access to local funding sources.

Specifically, Proposition 1A of 2004 amended the State Constitution to, among other things, reduce the State's access to property tax, sales tax and vehicle license fee revenues raised by local

governments. Proposition 1A of 2004 also prohibits the State from mandating activities on cities, counties or special districts without providing funding to comply with the mandates. If the State does not provide funding for the activity that has been mandated, the requirement to abide by the mandate is suspended.

In addition, Proposition 22 prohibits the State Legislature, among other things, from taking or reallocating money raised by local governments for local purposes, from making changes in the allocation of property taxes among local governments designed to aid State finances, from using State fuel tax revenues to pay debt service on State transportation bonds, from borrowing or changing the distribution of State fuel tax revenues, and from using vehicle licensing fee revenues to reimburse local governments for State-mandated costs. The inability of the State to borrow or redirect funds from these sources, as it has in recent fiscal years, will reduce the State's flexibility in reaching budget solutions in the future.

Proposition 30. On November 6, 2012, voters approved The Schools and Local Public Safety Protection Act of 2012 (also known as Proposition 30), which provided temporary increases in personal income tax rates for high-income taxpayers and a temporary increase in the State's sales tax rate. A portion of the tax increases will be used to pay for the State's Proposition 98 school funding obligations. The sales tax portion and the property tax portion of Proposition 30 expire on December 31, 2016 and December 31, 2018, respectively. See Proposition 98 and K-14 Funding herein.

Proposition 30 also constitutionally guarantees that 1.0625 percent of the sales tax rate is dedicated to the cost of the realignment of certain defined public safety services programs from the State to the counties and excludes this amount for purposes of calculating the Proposition 98 Guarantee. For further information regarding the realignment of services to local governments, see Local Governments Realigning Services to Local Governments below.

The LAO projected that Proposition 30 would result in an average annual State revenue gain of \$6.0 billion per year from fiscal years 2012-13 through 2016-17, and approximately \$5.4 billion in fiscal 2017-18 and \$2.2 billion in fiscal year 2018-19. There can be no assurance that a further deterioration in State revenues and/or increases in State expenditures in current or future fiscal years will allow the State to retire these borrowings as projected by the Governor.

The California Clean Energy Jobs Act. On November 6, 2012, voters approved The California Clean Energy Jobs Act (Proposition 39), which, among other things, dedicates up to \$550 million annually for five years to clean energy projects out of an expected \$1 billion annual increase in corporate tax revenue due to the reversal of a provision adopted in 2009 that gave corporations an option as to how to calculate their State income tax liability. However, there can be no assurance that the State will realize the expected increase in corporate tax revenue.

Governor's Proposed 2016-17 Budget

Governor's Proposed Budget. On January 7, 2016, the Governor proposed a State budget for fiscal year 2016-17 (Governor's Proposed 2016-17 Budget). The Governor's Proposed 2016-17 Budget reflects continued improvement in the State's finances (resulting in significant part from the enhanced revenues from Proposition 30) and high capital gains revenues. The Governor's Proposed 2016-17 Budget assumes a modest operating surplus at the end of fiscal year 2016-17, and includes the third deposit into the BSA since 2007.

The Governor’s Proposed 2016-17 Budget includes annual funding increases for public higher education, as well as funding to continue implementation of the federal Affordable Care Act that was enacted on March 23, 2011. See **Other Factors** **Health Care Reform** below.

2016-17 May Revision and LAO Overview. On May 13, 2016, Governor Brown released the May Revision (the **2016-17 May Revision**) to the Governor’s Proposed 2016-17 Budget, which updated policy proposals, revenue projections and estimated expenditures for fiscal years 2015-16 and 2016-17. The 2016-17 May Revision reduces revenue estimates by \$1.9 billion for 2014-15 through 2016-17 combined. The LAO reported that the largest driver of this change is a reduction of \$1.8 billion in revenues from the personal income tax in 2015-16 and 2016-17.

General Fund Budget Summary. A summary of the condition of the State’s General Fund, as projected in the 2016-17 May Revision, is set forth below.

Future Budgets

The State’s ability to balance its budget going forward may be affected by budget pressures, including particularly potential significant increases in required State contributions to pension funds or other post-employment benefits, increased debt service payments, potential adverse decisions in litigation, and deferred obligations to schools and local governments.

Pending Litigation

There are currently numerous legal proceedings pending against the State, that if determined adversely against the State, could affect the State’s expenditures, and in some cases, its revenues and cash flow. Information regarding some of the more significant litigation pending against the State would ordinarily be included in various public documents issued by the State, such as the official statements prepared in connection with the issuance of general obligation bonds of California. See **Additional Information** below for information on how to obtain such official statements.

Bond Ratings

As of May 1, 2016, the following ratings for the State’s general obligation bonds have been received from Moody’s, S&P and Fitch:

Moody’s	S&P	Fitch
Aa3	AA-	A+

These ratings apply only to the State’s general obligation bonds and are not indicative of the ratings assigned to bonds issued by local governments, such as counties, cities, school districts and other local agencies of the State.

Any explanation of the significance of such ratings may be obtained only from the rating agency furnishing such ratings. There is no assurance that such ratings will continue for any given period of time or that they will not be revised downward or withdrawn entirely if, in the judgment of the particular rating agency, circumstances so warrant.

Additional Information

Information regarding the State’s financial condition is included in various public documents issued by the State, such as the official statements prepared in connection with the issuance of general obligation bonds of California. Such official statements may be obtained by contacting the State Treasurer’s Office at (800) 900-3873 or at www.treasurer.ca.gov.

Periodic reports on revenues and/or expenditures during the fiscal year are issued by the Administration, the State Controller’s Office and the LAO. The Department of Finance issues a monthly bulletin, which reports the most recent revenue receipts as reported by State departments, comparing those receipts to budget projections. The State Controller issues a monthly report on General Fund cash receipts and disbursements. These reports are normally released on the 10th day of every calendar month for the period ended on the last day of the prior month. The Administration also formally updates its budget projections three times during each fiscal year in January, May and at the time of budget enactment. These bulletins and reports are available on the internet at websites maintained by the agencies and by contacting the agencies at their offices in Sacramento, California. Investors are cautioned that interim financial information is not necessarily indicative of results for a fiscal year.

Publications from the LAO can be read in full by accessing the LAO’s website (www.lao.ca.gov) or by contacting the LAO at (916) 445-4656.

Complete text of the Budget Acts may be found at the Electronic Budget website of the Department of Finance (www.ebudget.ca.gov).

Local Governments

General. The primary units of local government in California are the 58 counties, which range in population from approximately 1,200 in Alpine County to approximately 10 million in Los Angeles County.

Counties are responsible for the provision of many basic services, including indigent health care, welfare, jails, and public safety in unincorporated areas. There are also 482 incorporated cities in California and thousands of special districts formed for education, utilities, and other services.

To the extent the State is constrained by its obligation to schools under Proposition 98, or other fiscal considerations, the absolute level (or the rate of growth) of State assistance to local governments may be affected. Any such reductions in State aid could compound the serious fiscal constraints already experienced by many local governments, particularly counties and schools.

Many local governments are also facing substantial increases in pension liabilities and health care costs for retirees, as a result of generous retirements benefits granted during prior economic boom times. For more information regarding pension liabilities, see *State and Local Pension and Post-Retirement Liabilities* above. At the same time that local governments are facing rising labor and benefit costs, local governments are limited in their ability to levy and raise property taxes and other forms of taxes, fees or assessments, due to State Constitutional as well as (in some cases) local initiatives. Further, the major sources of revenues for local government, property taxes and sales taxes, as well as fees based on real estate development were adversely impacted by the recent economic recession. As a consequence, local governments may increasingly be forced to cut local services to address budget shortfalls or to take even more drastic actions, such as a bankruptcy filing.

Constitutional and Statutory Limitations on Local Government. The fiscal condition of local governments was changed when Proposition 13, which added Article XIII A to the State Constitution, was approved by California voters in 1978. Proposition 13 reduced and limited the future growth of property taxes and limited the ability of local governments to impose special taxes (those devoted to a specific purpose) without two-thirds voter approval. Although Proposition 13 limited property tax growth rates, it also has had a smoothing effect on property tax revenues, ensuring greater stability in annual revenues than existed before Proposition 13 passed. For further information on Proposition 13, see *Constitutional Limitations on Taxes, Other Charges, Appropriations and General Fund Revenues* Limitation on Property Taxes above.

Proposition 218, another constitutional amendment enacted by initiative in 1996, further limited the ability of local governments to raise taxes, fees, and other exactions. See *Constitutional Limitations on Taxes, Other Charges, Appropriations and General Fund Revenues* Limitations on Other Taxes, Fees and Charges above.

In the aftermath of Proposition 13, the State provided aid to local governments from the General Fund to make up some of the loss of property tax moneys, including assuming principal responsibility for funding K-12 schools and community colleges. During the recession of the early 1990s, the State Legislature reduced the post-Proposition 13 aid to local government entities other than K-12 schools and community colleges by requiring cities and counties to transfer some of their property tax revenues to school districts. However, the State Legislature also provided additional funding sources, such as sales taxes, and reduced certain mandates for local services funded by cities and counties.

Beginning in 2000, and in part caused by the internet bubble, the State was faced with increasing financial stress and began to divert local revenue resources, including sales tax, vehicle license fees and redevelopment moneys, to the State coffers. The 2004-05 Budget Act, related legislation and the enactment of Proposition 1A in 2004 and Proposition 22 in 2010 dramatically changed the State-local fiscal relationship.

Proposition 1A of 2004 amended the State Constitution to, among other things, reduce the State Legislature's authority over local government revenue sources by placing restrictions on the State's access to local governments' property, sales, and vehicle license fee revenues as of November 3, 2004. Proposition 22 supersedes Proposition 1A of 2004 and completely prohibits any future borrowing by the State from local government funds, and generally prohibits the State Legislature from making changes in local government funding sources. For further discussion regarding Proposition 22 and Proposition 1A of 2004, see *The State Budget Constraints on the State Budget State-Local Fiscal Relations* above.

Realigning Services to Local Governments. Commencing with the 2011-12 Budget Act, the State implemented a realignment plan to shift certain State program costs to counties and provided a comparable amount of funds to support these new county commitments. Under the realignment plan, a total of \$6.3 billion in fiscal year 2011-12 was, and ongoing funds for such programs thereafter are required to be, provided to counties for court security, corrections and public safety, mental health services, substance abuse treatment, child welfare programs, adult protective services, and CalWORKS. Consequently, local governments, particularly counties, have borne an increased part of the financial burden of providing program services, including the risks of cost overruns, revenue declines and insufficient revenue growth. The State reported in April 2016 that, during fiscal year 2016-17, it expected to transfer approximately \$6.9 billion in sales tax revenues and \$589 million in vehicle license fee revenue to local governments under the realignment plan.

Obligations of Other Issuers

Other Issuers of California Debt Obligations. There are a number of State agencies, instrumentalities and political subdivisions of the State that issue municipal obligations, some of which may be conduit revenue obligations payable from payments from private borrowers. These entities are subject to various economic risks and uncertainties, and the credit quality of the securities issued by them may vary considerably from the credit quality of obligations backed by the full faith and credit of the State. For example, assessment bonds may be adversely affected by a general decline in real estate values or a slowdown in real estate sales activity.

California Long-Term Lease Obligations. Based on a series of court decisions, certain long-term lease obligations, though typically payable from the General Fund or a municipality, are not considered indebtedness requiring voter approval. Such leases, however, are subject to abatement in the event the facility being leased is unavailable for beneficial use and occupancy by the municipality during the term of the lease. Abatement is not a default, and there may be no remedies available to the holders of the certificates evidencing the lease obligation in the event abatement occurs. The most common cases of abatement are failure to complete construction of the facility before the end of the period during which lease payments have been capitalized and uninsured casualty losses to the facility (e.g., due to earthquake). In the event abatement occurs with respect to a lease obligation, lease payments may be interrupted (if all available insurance proceeds and reserves are exhausted) and the certificates may not be paid when due. Further, lease obligations may represent executory contracts which could be rejected in a bankruptcy proceeding under Chapter 9 of the United States Bankruptcy

Code. In recent bankruptcy proceedings involving the City of Stockton, the confirmed plan of adjustment included the discharge of lease obligations at significant discounts from their face value. Although the Federal bankruptcy judge stated that the obligations to CalPERS could be adjusted in federal bankruptcy proceedings, the plan of adjustment was confirmed without reducing such obligations to CalPERS. The plan became effective February 25, 2015.

Tax Increment and the Dissolution of Redevelopment Agencies. Until 2011, local redevelopment agencies throughout the State issued tax allocation bonds or similar obligations secured by the increase in assessed valuation of a redevelopment project area after the start of redevelopment activity. Throughout the years, redevelopment agencies issued billions of dollars of tax allocation bonds. In addition, the State has regularly borrowed or appropriated redevelopment tax increments to address its budget shortfalls.

In late-December 2011, the State Supreme Court upheld the validity of legislation, enacted earlier in 2011, that would eliminate redevelopment agencies (as well as the issuance of tax allocation bonds) in the State. On February 1, 2012, all redevelopment agencies in California were dissolved and the process of unwinding their financial affairs began.

The legislation dissolving redevelopment agencies preserved the pledge of tax increment revenues to the payment of tax allocation bonds or tax allocation supported obligations. In addition, the passage of clean-up legislation has clarified many outstanding issues relating to the implementation of the legislation, and in particular the mechanics of assuring the payment of outstanding tax allocation obligations. Consequently, tax allocation bonds and other obligations continue to be paid in accordance with their terms, although some of these bonds continue to experience financial stress due to the decline in tax increment revenues as a result of the continuing mortgage crisis. In addition, the clean-up legislation has enabled many jurisdictions to refinance outstanding tax increment bonds.

Many jurisdictions (largely cities) with redevelopment agencies subsidized their general fund operations through the use of tax increment revenues. Consequently, the dissolution of redevelopment agencies and the reallocation of tax increment revenue to other taxing entities has resulted in additional fiscal stress for many of these local jurisdictions. Over time, the elimination of redevelopment agencies and the redirection of tax increment revenues to local taxing entities may provide some relief to the State as well as the local taxing entities.

Statutory Lien Securing General Obligation Bonds. Certain local government agencies, particularly school districts, issue general obligation bonds secured by *ad valorem* property taxes. California Senate Bill 222 (2015) (SB 222) added provisions to the California Education Code and the California Government Code to provide that general obligation bonds issued and sold by local government agencies in California will be secured by a statutory lien on the *ad valorem* property taxes levied and collected to pay the principal and interest on such general obligation bonds. A statutory lien provides bondholders with a security interest in *ad valorem* property taxes that should survive a bankruptcy of the local agency. SB 222 took effect on January 1, 2016 and it is unclear whether SB222 applies to bonds issued prior to the effective date.

Other Considerations. The repayment of industrial development securities or single family mortgage revenue bonds secured by real property may be affected by California laws limiting foreclosure rights of creditors. Under California law, mortgage loans secured by single family homes can be prepaid at any time without penalty, except in the first five years of the loan, and subject to

limits on the size of the penalty. Such prepayments may affect the ability of the issuer of single family mortgage bonds to repay the bonds. Securities backed by health care and hospital revenues may be affected by changes in State regulations governing cost reimbursements to health care providers under Medi-Cal (the State's Medicaid program), including risks related to the policy of awarding exclusive contracts to certain hospitals. See [Obligations of State Agencies](#) and [Obligations of Other Issuers](#) [Other Issuers of California Debt Obligations](#) above.

Other Factors

Earthquake Risk. Substantially all of California is within an active geologic region subject to major seismic activity. Northern California in 1989 and Southern California in 1994 experienced major earthquakes causing billions of dollars in damages. The federal government provided more than \$13 billion in aid for both earthquakes, and neither event has had any long-term negative economic impact. Any obligation in the Fund could be affected by an interruption of revenues because of damaged facilities, or, consequently, income tax deductions for casualty losses or property tax assessment reductions. Compensatory financial assistance could be constrained by the inability of (i) an issuer to have obtained earthquake insurance coverage rates; (ii) an insurer to perform on its contracts of insurance in the event of widespread losses; or (iii) the federal or State government to appropriate sufficient funds within their respective budget limitations.

Health Care Reform. In April 2015, the State indicated in disclosure in an official statement that the federal Affordable Care Act (the ACA) had resulted in a significant net increase of General Fund program costs in fiscal year 2013-14 and beyond. The net impact of the ACA on the General Fund will depend on a variety of factors, including levels of individual and employer participation, changes in insurance premiums, and expected savings from the reform as beneficiaries in current State-only programs receive coverage through Medi-Cal or the California Health Benefit Exchange also known as Covered California. The 2013-14 State Budget implemented the ACA's optional expansion to include adults up to 138 percent of the federal poverty level. The Governor estimated in January 2015 that approximately \$573.3 million from the General Fund would be required to cover the costs of expanded eligibility under the ACA. Under the ACA, the federal government has promised initially to pay for 100 percent of the cost of benefits for newly eligible individuals served under this optional expansion; federal funding will gradually decrease to 90 percent by 2020. Other costs will be shared 50-50, with the State's estimated share of these other costs being approximately \$2.9 billion (\$1.4 billion from the General Fund) for fiscal year 2015-16. While not providing an update of the expected costs of implementing the ACA, the Governor indicated in his proposed 2016-17 State budget that there have been numerous recent federal actions in the health and human services area that have increased State costs or created substantial fiscal uncertainty, citing potential increased annual General Fund costs of nearly \$2.0 billion. The Governor further noted that his administration would work with its federal partners to relieve the fiscal impact to the State from such federal actions.
