The projections, while presented with numerical specificity, were based on numerous variables and assumptions that are inherently uncertain and necessarily involve judgments with respect to, among other things, revenue growth, product launch, estimated costs and expenses, pricing, competition, market share, regulatory approvals, and future economic, competitive and regulatory conditions, all of which are difficult or impossible to predict and many of which are beyond the Company's control. Forward-Looking Statements (cont'd) In addition, certain of the projected financial information set forth above, such as Adjusted EBITDA, Pro Forma EBITDA, Adjusted Operating Profit, Pro Forma Adjusted Operating Profit and Levered Free Cash Flow, are non-GAAP financial measures. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-GAAP financial measures as used by the Company may not be comparable to similarly titled amounts used by other companies. No reconciliation of non-GAAP measures in the projections to GAAP measures was created or used in connection with the Transactions. Fuji Xerox Co., Ltd. ("Fuji Xerox") is a joint venture between Xerox Corporation and Fujifilm in which Xerox holds a noncontrolling 25% equity interest and Fujifilm holds the remaining equity interest. In April 2017, Fujifilm formed an independent investigation committee ("IIC") to primarily conduct a review of the appropriateness of the accounting practices at Fuji Xerox's New Zealand subsidiary and at other subsidiaries. The IIC completed its review during the second quarter 2017 and identified aggregate adjustments to Fuji Xerox's financial statements of approximately JPY 40 billion (approximately \$360 million) primarily related to misstatements at Fuji Xerox's New Zealand and Australian subsidiaries. We determined that our share of the total adjustments identified as part of the investigation was approximately \$90 million and impacted our fiscal years 2009 through 2017. We concluded that we should revise our previously issued annual and interim consolidated financial statements for 2014, 2015 and 2016 and the first quarter of 2017 the next time they are filed. Our review of this matter has been completed. However, Fujifilm and Fuji Xerox continue to review Fujifilm's oversight and governance of Fuji Xerox as well as Fuji Xerox's oversight and governance over its businesses in light of the findings of the IIC. At this time, we can provide no assurances relative to the outcome of any potential governmental investigations or any consequences thereof that may happen as a result of this matter. Safe Harbor
