REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Fiduciary Committee of

the ABIOMED Retirement Savings Plan and Plan Participants:

Opinion on the Financial Statements

We have audited the accompanying Statements of Net Assets Available for Plan Benefits of the ABIOMED Retirement Savings Plan (the Plan) as of December 31, 2017 and 2016, and the related Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2017, and the related notes (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for plan benefits for the year ended December 31, 2017, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Information

The supplemental Schedule H, Line 4(i) Schedule of Assets (Held at End of Year) as of December 31, 2017 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial

statements as a whole.

/s/ Caron & Bletzer, PLLC

We have served as the Plan's auditor since 2014

Table of Contents

ABIOMED RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the Abiomed Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for more detailed information.

General

The Plan is a defined contribution plan sponsored by ABIOMED, Inc. (the Company or Plan Administrator). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

ABIOMED, Inc. is the Plan Administrator and has assigned responsibility for the operation and administration of the Plan to the Corporate Retirement Committee (the Committee) members of which are formally appointed by the Company's Chief Executive Officer. Fidelity Management Trust Company (Fidelity) is the trustee and record keeper for the Plan.

Eligibility

The Plan allows substantially all U.S. Company employees age twenty or older to participate in the Plan. Employees become eligible to participate in the Plan beginning on the date of hire.

Participant Contributions

The Plan permits participants to defer annually up to 100% of eligible compensation provided their total annual elective deferral does not exceed Internal Revenue Code (IRC) limitations (\$18,000 for the 2017 Plan year). The Plan allows for after-tax Roth contributions in addition to pre-tax contributions. Participants who are age 50 or older and are making deferral contributions to the plan are also eligible to make an additional catch-up contribution of up to \$6,000 during the Plan year. Newly hired employees are automatically enrolled in the Plan at a pre-tax contribution rate of 3% of eligible compensation beginning with the first pay period occurring 30 days after the employee's participation date. The participant may elect to cease or change the amount of these contributions at any time. The amount of deferred compensation is treated as a salary reduction and is not subject to income tax until withdrawn from the Plan. Participants may also contribute amounts (rollover contributions) representing distributions from other qualified retirement plans.

Employer Contributions

All employer contributions are subject to certain limitations. To be a qualified participant eligible to receive employer matching or profit sharing contributions for a plan year, an employee must be credited with at least 501 hours of service in the Plan year and be an employee on the last day of the Plan year, or retire, die, or become disabled during

the Plan year.

Effective January 1, 2017, the Company changed its matching contribution to a rate of 50% of first 6% of salary contributed by the participant during the Plan year. For employees earning under \$50,000 in employment income in the Plan year, the Company will continue to match 50% for the first \$3,000 of salary contributed by a participant in the Plan year with a maximum employer contribution of \$1,500 per Plan year for these employees. The Company incurred \$2,218,302 in employer contributions during the year ended December 31, 2017. Additional profit sharing contributions may be made at the discretion of the Company's Board of Directors. There were no additional profit sharing contributions made during the year ended December 31, 2017.

Table of Contents

ABIOMED RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Forfeitures

When certain terminations of participation in the Plan occur, the non-vested portion of a participant's profit sharing account represents a forfeiture, as defined by the Plan. Forfeitures may be reallocated to participants as an additional profit sharing or used to pay Plan administrative expenses. During the year ended December 31, 2017, \$1,136 of forfeitures were used to pay administrative expenses. Total unapplied forfeitures were \$36 and \$646 at December 31, 2017 and 2016, respectively.

Unallocated Assets

The Plan holds assets in an unallocated revenue credit account which receives contributions as a result of a revenue sharing agreement with Fidelity Management Trust Company. During the year ended December 31, 2017, no contributions to the account were made. Funds in the account are used to pay qualified plan expenses including investment management fees, trustee fees, audit fees, and legal fees. During the year ended December 31, 2017, \$6,583 from this account were used to pay Plan expenses. Unallocated assets were \$12,786 and \$19,292 at December 31, 2017 and 2016, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, the participant's allocation of the Company's contributions, and the participant's proportional allocation of the Plan's earnings, including realized and unrealized gains and losses, and expenses. Participants determine the percentage in which contributions are to be invested in each fund. Participants may change their investment options as set forth in the Plan document.

Vesting

Participants are immediately vested in 1) their contributions, including rollover contributions from another employer's qualified retirement plan, 2) employer matching contributions, and 3) actual earnings from any of these contributions. Vesting in the Company's discretionary profit sharing contribution portion of participant accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service as shown below.

Years of Service	Vested Percentage
Less than 2 years	0%

2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years or more	100%

Distribution of Benefits

On termination of service due to retirement, disability, death, or other separation of service, a participant (or designated beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a series of cash payments in substantially equal installments over a period of time as provided in the Plan document.

Participants may make an in-service withdrawal of their vested account balance at age 59 $\frac{1}{2}$ or upon demonstration of a hardship. A hardship withdrawal from a participant's account may be permitted while a participant is still actively employed if the participant has a financial hardship for which funds are not reasonably available from other resources of the participant.

Table of Contents

ABIOMED RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Hardship is defined in applicable regulations promulgated or to be promulgated pursuant to Section 401(k) of the Internal Revenue Code or standards established by the Secretary of the Treasury or his delegate. All hardship withdrawal requests are subject to approval of the Plan Administrator.

A withdrawal of all or a portion of any rollover contributions in the Plan, along with any pre-tax earnings on those contributions, is allowed for any reason upon request while the participant is still actively employed.

Participant Notes Receivable

Participants may borrow from their fund accounts a maximum principal amount of \$50,000 or 50% of their vested balances, whichever is less. The minimum principal amount of any loan is \$1,000. Loans must be repaid over a period of no more than five years, unless used to acquire a principal residence, in which case the maximum repayment period is ten years. Participants borrowing from their vested account balances are required to sign promissory notes pledging up to half the value of their vested account balances. These notes bear interest at a fixed rate determined by the Plan Administrator based on prevailing interest rates charged by persons in the business of lending money for loans, which would be made under similar circumstances. Principal and interest is paid ratably through payroll deductions each pay period. Participant loans are accounted for separately within the participant's account. Participant loans are valued at the unpaid principal balance plus any accrued but unpaid interest and categorized as notes receivable from participants on the statements of net assets available for plan benefits. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. As of December 31, 2017 and 2016, the balance in participant loans outstanding was \$600,226 and \$536,426, respectively. These loans are shown as participant notes receivable in the Statements of Net Assets Available for Benefits.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Table of Contents

ABIOMED RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Plan Expenses

Expenses for participant loans are paid by the Plan by reducing balances of those participants initiating the transaction. All other expenses incurred in the administration of the Plan are first offset against forfeitures, if any, with any remaining balances paid by the Company at its discretion or by the Plan.

Risks and Uncertainties

The Plan provides investment options which may invest in any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. In addition, there is a concentration in the Company stock fund which represents 23% of the Plan's investments at December 31, 2017 and 2016. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Note 3. Fair Value Measurements

Accounting standards establish a framework for measuring fair value. That framework sets forth a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds - Valued at the net asset value of the shares held by the Plan at year end as determined by quoted market prices.

Company stock fund - Valued based on the closing price reported on the active market on which the individual securities are traded.

Common collective trust - Valued at net asset value of units of a collective trust. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

Table of Contents

ABIOMED RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level and by investment class, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2017			
Description	Total	Level 1	Level 2	Level 3
Investments measured at fair value subject to fair value leveling:				
Mutual funds	\$ 56,386,857	\$ 56,386,857	\$	\$
Company stock fund	16,899,884	16,899,884		
Total investments in the fair value hierarchy	73,286,741	\$ 73,286,741	\$	\$
Investments measured at NAV (1):				
Common collective trust	1,308,588			
Total investments measured at fair value	\$ 74,595,329			

	2016			
Description	Total	Level 1	Level 2	Level 3
Investments measured at fair value subject to fair value leveling:				
Mutual funds	\$ 38,831,080	\$ 38,831,080	\$	\$
Company stock fund	11,952,644	11,952,644		
Total investments in the fair value hierarchy	50,783,724	\$ 50,783,724	\$	\$
Investments measured at NAV (1):				
Common collective trust	1,078,243			

Total investments measured at fair value	\$ 51,861,967
--	---------------

- (1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for plan benefits.

The common collective trust held by the Plan requires twelve months' notice for a complete liquidation, however the trustee, at their discretion, may waive the twelve month waiting period. Participant directed redemptions are allowed daily with no restrictions. There are no unfunded commitments.

Table of Contents

ABIOMED RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4. Tax Status

The Plan has adopted the volume submitter profit sharing plan document of Fidelity. The volume submitter sponsor received a favorable opinion letter dated March 31, 2014 in which the Internal Revenue Service stated that the form of the volume submitter plan was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is designed, except as discussed below, have operated in compliance with the applicable requirements of the IRC, and that the related trust is therefore tax-exempt. Management has noted certain issues with regard to eligibility determination for a small subset of employees that it is in the process of addressing in order to preserve the qualified status of the Plan. Accordingly, no provision for income taxes has been included in the financial statements.

Note 5. Parties-In-Interest

A party-in-interest is defined under Section 3(14) of the Employee Retirement Income Security Act (ERISA) to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, loans to participants and the management of investments held by the trustee are considered party-in-interest transactions.

Fidelity manages a number of mutual funds available to Plan participants. Fidelity is the trustee as defined by the Plan and, therefore, transactions with any of the Fidelity Advisor mutual funds also qualify as party-in-interest transactions. The ABIOMED Common Stock Index Fund is an indexed fund that values its fund units based on changes in the stock price of Abiomed, Inc., the Plan sponsor. As of December 31, 2017 and 2016, there was \$16,899,884 and \$11,952,644 in the ABIOMED Common Stock Index Fund in the Plan's assets, respectively. During the year ended December 31, 2017, the ABIOMED Common Stock Index Fund included in the Plan's assets appreciated by \$6,394,607. Fees paid for trustee and administrative services amounted to \$87,942 for the year ended December 31, 2017.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
