ECN Message (from Doug)

Headline: Announcing a strategic combination with Newfield Exploration, an increase to our dividend and expansion of share buyback program

I am very excited to tell you that earlier this morning, in parallel with our third quarter results, we announced a strategic combination with Newfield Exploration. Together we become the second largest producer of shale resources, have an incredible portfolio of high-quality investment opportunities in the best plays in North America, a track record of delivery and innovation and a very strong balance sheet. Upon completion, Encana will acquire 100 percent of the stock of Newfield. In addition to the combination, we announced that we are expanding our share buyback program to \$1.5 billion and increasing our dividend by 25 percent, highlighting our ability to deliver quality growth and shareholder returns.

The Newfield team has done a tremendous job capturing premium positions in some of North America's best plays. This includes 360,000 net acres in the world-class, oil-rich, STACK/SCOOP. This stacked pay asset contains approximately 3 billion barrels of net unrisks resource and over 6,000 gross risks well locations. We see a big opportunity to work with our new colleagues from Newfield to enhance and accelerate the value of this asset by applying our cube development approach. Their portfolio also includes positions in the core of the Bakken and Uinta oil plays and a natural gas asset in the Arkoma.

This transaction complements and strengthens our already world-class portfolio, which includes premium positions in the best parts of North America's best plays. Upon closing, Encana will become North America's second largest producer of unconventional resources, with total production of 577,000 BOE/d, including liquids production of 300,000 bbls/d.

Our ability to undertake this transaction is testimony to our collective accomplishments over the past few years. By embracing our culture and values, we have created a company that is widely recognized as a leader in developing unconventional resources and a consistent driver of efficient growth and quality returns.

I'll talk more about this strategic transaction during this afternoon's Virtual Town Hall, which we have rescheduled to 2 p.m. MST. In a change to the usual format, this video broadcast will be delivered directly to your desktop computer via an email which will contain a link to my video message. It will also be available on the ECN homepage.
