## Glossary of Portfolio Abbreviations

FRN	Floating Rate Note
HKD	Hong Kong Dollar
LIBOR	London Interbank Offered Rate
MLP	Master Limited Partnership
TruPS	Trust Preferred Securities
USD	United States Dollar

Note: Percentages indicated are based on the net assets of the Fund.

Represents shares.

- (a) All or a portion of the security is pledged as collateral in connection with the Fund's credit agreement. \$1,757,081,568 in aggregate has been pledged as collateral.
- (b) Non-income producing security.
- (c) Resale is restricted to qualified institutional investors. Aggregate holdings amounting to \$193,279,638, which represents 9.4% of the net assets of the Fund, of which 0.3% are illiquid.
- (d) A portion of the security has been rehypothecated in connection with the Fund's credit agreement. \$781,304,803 in aggregate has been rehypothecated.
- (e) Perpetual security. Perpetual securities have no stated maturity date, but they may be called/redeemed by the issuer.
- (f) Security converts to floating rate after the indicated fixed-rate coupon period.
- (g) Variable rate. Rate shown is in effect at September 30, 2018.

- (h) Contingent Capital security (CoCo). CoCos are preferred securities with loss absorption characteristics built into the terms of the security for the benefit of the issuer. Aggregate holdings amounted to \$66,179,465, which represents 3.2% of the net assets of the Fund (2.2% of the managed assets of the Fund).
- (i) Securities exempt from registration under Regulation S of the Securities Act of 1933. These securities are subject to resale restrictions. Aggregate holdings amounted to \$40,415,179, which represents 2.0% of the net assets of the Fund, of which 0.0% are illiquid.
- (j) Security value is determined based on significant unobservable inputs (Level 3).
- (k) Rate quoted represents the annualized seven-day yield.

**COHEN & STEERS INFRASTRUCTURE FUND, INC.**

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited)

**Note 1. Portfolio Valuation**

Investments in securities that are listed on the New York Stock Exchange (NYSE) are valued, except as indicated below, at the last sale price reflected at the close of the NYSE on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and ask prices on such day or, if no ask price is available, at the bid price.

Securities not listed on the NYSE but listed on other domestic or foreign securities exchanges (including NASDAQ) are valued in a similar manner. Securities traded on more than one securities exchange are valued at the last sale price reflected at the close of the exchange representing the principal market for such securities on the business day as of which such value is being determined. If after the close of a foreign market, but prior to the close of business on the day the securities are being valued, market conditions change significantly, certain non-U.S. equity holdings may be fair valued pursuant to procedures established by the Board of Directors.

Readily marketable securities traded in the over-the-counter (OTC) market, including listed securities whose primary market is believed by Cohen & Steers Capital Management, Inc. (the investment manager) to be OTC, are valued on the basis of prices provided by a third-party pricing service or third-party broker-dealers when such prices are believed by the investment manager, pursuant to delegation by the Board of Directors, to reflect the fair value of such securities.

Fixed-income securities are valued on the basis of prices provided by a third-party pricing service or third-party broker-dealers when such prices are believed by the investment manager, pursuant to delegation by the Board of Directors, to reflect the fair value of such securities. The pricing services or broker-dealers use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services or broker-dealers may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services or broker-dealers also utilize proprietary valuation models which may consider market transactions in comparable securities and the various relationships between securities in determining fair value and/or characteristics such as benchmark yield curves, option-adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features which are then used to calculate the fair values.

Short-term debt securities with a maturity date of 60 days or less are valued at amortized cost, which approximates fair value. Investments in open-end mutual funds are valued at net asset value (NAV).

The policies and procedures approved by the Fund's Board of Directors delegate authority to make fair value determinations to the investment manager, subject to the oversight of the Board of Directors. The investment manager has established a valuation committee (Valuation Committee) to administer, implement and oversee the fair valuation process according to the policies and procedures approved annually by the Board of Directors. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers and other market sources to determine fair value.

---

**COHEN & STEERS INFRASTRUCTURE FUND, INC.**

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) (Continued)

Securities for which market prices are unavailable, or securities for which the investment manager determines that the bid and/or ask price or a counterparty valuation does not reflect market value, will be valued at fair value, as determined in good faith by the Valuation Committee, pursuant to procedures approved by the Fund's Board of Directors. Circumstances in which market prices may be unavailable include, but are not limited to, when trading in a security is suspended, the exchange on which the security is traded is subject to an unscheduled close or disruption or material events occur after the close of the exchange on which the security is principally traded. In these circumstances, the Fund determines fair value in a manner that fairly reflects the market value of the security on the valuation date based on consideration of any information or factors it deems appropriate. These may include, but are not limited to, recent transactions in comparable securities, information relating to the specific security and developments in the markets.

Foreign equity fair value pricing procedures utilized by the Fund may cause certain non-U.S. equity holdings to be fair valued on the basis of fair value factors provided by a pricing service to reflect any significant market movements between the time the Fund values such securities and the earlier closing of foreign markets.

The Fund's use of fair value pricing may cause the NAV of Fund shares to differ from the NAV that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security.

Fair value is defined as the price that the Fund would expect to receive upon the sale of an investment or expect to pay to transfer a liability in an orderly transaction with an independent buyer in the principal market or, in the absence of a principal market, the most advantageous market for the investment or liability. The hierarchy of inputs that are used in determining the fair value of the Fund's investments is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing investments may or may not be an indication of the risk associated with those investments.

---

**COHEN & STEERS INFRASTRUCTURE FUND, INC.**

## NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) (Continued)

The following is a summary of the inputs used as of September 30, 2018 in valuing the Fund's investments carried at value:

	<b>Total</b>	<b>Quoted Prices in Active Markets for Identical Investments (Level 1)</b>	<b>Other Significant Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>
<b>Common Stock:</b>				
Thailand	\$ 41,959,494	\$	\$ 41,959,494	\$
Other Countries	2,403,774,267	2,403,774,267		
<b>Preferred Securities \$25 Par Value:</b>				
United States	125,502,685	121,366,199	4,136,486	
Other Countries	6,484,760	6,484,760		
<b>Preferred Securities Capital Securities:</b>				
United States	137,290,441		131,190,361	6,100,080
Other Countries	157,627,121		157,627,121	
Short-Term Investments	40,999,781		40,999,781	
<b>Total Investments in Securities(a)</b>	<b>\$ 2,913,638,549</b>	<b>\$ 2,531,625,226</b>	<b>\$ 375,913,243</b>	<b>\$ 6,100,080(b)</b>

(a) Portfolio holdings are disclosed individually on the Schedule of Investments.

(b) Level 3 investments are valued by a third-party pricing service. The inputs for these securities are not readily available or cannot be reasonably estimated. A change in the significant unobservable inputs could result in a significantly lower or higher value in such Level 3 investments.

The following is a reconciliation of investments for which significant unobservable inputs (Level 3) were used in determining fair value:

	<b>Preferred Securities Capital Securities United States</b>
Balance as of December 31, 2017	\$ 6,301,302
Change in unrealized appreciation (depreciation)	(201,222)

Balance as of September 30, 2018	\$	6,100,080
----------------------------------	----	-----------

The change in unrealized appreciation (depreciation) attributable to securities owned on September 30, 2018 which were valued using significant unobservable inputs (Level 3) amounted to \$(201,222).

**Item 2. Controls and Procedures**

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) are effective based on their evaluation of these disclosure controls and procedures required by Rule 30a-3(b) under the Investment Company Act of 1940 and Rule 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934 as of a date within 90 days of the filing of this report.
  
- (b) During the last fiscal quarter, there were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

**Item 3. Exhibits**

- (a) Certifications of principal executive officer and principal financial officer as required by Rule 30a-2(a) under the Investment Company Act of 1940.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
