1. ORGANIZATION

References herein to Blackstone Mortgage Trust, Company, we, us or our refer to Blackstone Mortgage Trust, Inc. and its subsidiaries unless context specifically requires otherwise.

Blackstone Mortgage Trust is a real estate finance company that originates senior loans collateralized by commercial real estate in North America, Europe, and Australia. Our investment objective is to preserve and protect shareholder capital while producing attractive risk-adjusted returns primarily through dividends generated from current income from our loan portfolio. We are externally managed by BXMT Advisors L.L.C., or our Manager, a subsidiary of The Blackstone Group L.P., or Blackstone, and are a real estate investment trust, or REIT, traded on the New York Stock Exchange, or NYSE, under the symbol BXMT. Our principal executive offices are located at 345 Park Avenue, 14th Floor, New York, New York 10154. We were incorporated in Maryland in 1998, when we reorganized from a California common law business trust into a Maryland corporation.

We conduct our operations as a REIT for U.S. federal income tax purposes. We generally will not be subject to U.S. federal income taxes on our taxable income to the extent that we annually distribute all of our net taxable income to stockholders and maintain our qualification as a REIT. We also operate our business in a manner that permits us to maintain an exclusion from registration under the Investment Company Act of 1940, as amended. We are organized as a holding company and conduct our business primarily through our various subsidiaries.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, for interim financial information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. The consolidated financial statements, including the notes thereto, are unaudited and exclude some of the disclosures required in audited financial statements. We believe we have made all necessary adjustments, consisting of only normal recurring items, so that the consolidated financial statements are presented fairly and that estimates made in preparing our consolidated financial statements are reasonable and prudent. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year. The accompanying unaudited consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018 filed with the Securities and Exchange Commission, or the SEC.

Basis of Presentation

The accompanying consolidated financial statements include, on a consolidated basis, our accounts, the accounts of our wholly-owned subsidiaries, majority-owned subsidiaries, and variable interest entities, or VIEs, of which we are the primary beneficiary. All intercompany balances and transactions have been eliminated in consolidation.

Certain reclassifications have been made in the presentation of the prior period secured debt agreements in Note 5 to conform to the current period presentation.

Principles of Consolidation

We consolidate all entities that we control through either majority ownership or voting rights. In addition, we consolidate all VIEs of which we are considered the primary beneficiary. VIEs are defined as entities in which

Table of Contents

Blackstone Mortgage Trust, Inc.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

equity investors (i) do not have the characteristics of a controlling financial interest and/or (ii) do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The entity that consolidates a VIE is known as its primary beneficiary and is generally the entity with (i) the power to direct the activities that most significantly affect the VIE's economic performance and (ii) the right to receive benefits from the VIE or the obligation to absorb losses of the VIE that could be significant to the VIE.

In the third quarter of 2018, we contributed a loan to a single asset securitization vehicle, or the 2018 Single Asset Securitization, which is a VIE, and invested in the related subordinate risk retention position. We are not the primary beneficiary of the VIE because we do not have the power to direct the activities that most significantly affect the VIE's economic performance and, therefore, do not consolidate the 2018 Single Asset Securitization on our balance sheet. We have classified the subordinate risk retention position as a held-to-maturity debt security that is included in other assets on our consolidated balance sheets. Refer to Note 15 for additional discussion of our VIEs.

In April 2017, we entered into a joint venture, or our Multifamily Joint Venture, with Walker & Dunlop Inc. to originate, hold, and finance multifamily bridge loans. Pursuant to the terms of the agreements governing the joint venture, Walker & Dunlop contributed 15% of the venture's equity capital and we contributed 85%. We consolidate the Multifamily Joint Venture as we have a controlling financial interest. The non-controlling interests included on our consolidated balance sheets represent the equity interests in our Multifamily Joint Venture that are owned by Walker & Dunlop. A portion of our Multifamily Joint Venture's consolidated equity and results of operations are allocated to these non-controlling interests based on Walker & Dunlop's pro rata ownership of our Multifamily Joint Venture.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may ultimately differ from those estimates.

Revenue Recognition

Interest income from our loans receivable portfolio and debt securities is recognized over the life of each investment using the effective interest method and is recorded on the accrual basis. Recognition of fees, premiums, and discounts associated with these investments is deferred and recorded over the term of the loan or debt security as an adjustment to yield. Income accrual is generally suspended for loans at the earlier of the date at which payments become 90 days past due or when, in the opinion of our Manager, recovery of income and principal becomes doubtful. Income is then recorded on the basis of cash received until accrual is resumed when the loan becomes contractually current and performance is demonstrated to be resumed. In addition, for loans we originate, the related origination expenses are deferred and recognized as a component of interest income, however expenses related to loans we acquire are included in general and administrative expenses as incurred.

Cash, Cash Equivalents, and Restricted Cash

Cash and cash equivalents represent cash held in banks and liquid investments with original maturities of three months or less. We may have bank balances in excess of federally insured amounts; however, we deposit our cash and cash equivalents with high credit-quality institutions to minimize credit risk exposure. We have not experienced, and do not expect, any losses on our cash or cash equivalents.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)**

Restricted cash represents cash held in a segregated bank account related to a letter of credit.

The following table provides a reconciliation of cash, cash equivalents, and restricted cash in our consolidated balance sheets to the total amount shown in our consolidated statements of cash flows (\$ in thousands):

	March 31, 2019	March 31, 2018
Cash and cash equivalents	\$ 79,437	\$ 57,396
Restricted cash		17,082
Total cash, cash equivalents, and restricted cash shown in our consolidated statements of cash flows	\$ 79,437	\$ 74,478

Through our subsidiaries, we have oversight of certain servicing accounts held with third-party servicers, or Servicing Accounts, which relate to borrower escrows and other cash balances aggregating \$291.3 million as of March 31, 2019. This cash is maintained in segregated bank accounts, and these amounts are not included in the assets and liabilities presented in our consolidated balance sheets. Cash in these Servicing Accounts will be transferred by the respective third-party servicer to the borrower or us under the terms of the applicable loan agreement upon occurrence of certain future events. We do not generate any revenue or incur any expenses as a result of these Servicing Accounts.

Loans Receivable and Provision for Loan Losses

We originate and purchase commercial real estate debt and related instruments generally to be held as long-term investments at amortized cost. We are required to periodically evaluate each of these loans for possible impairment. Impairment is indicated when it is deemed probable that we will not be able to collect all amounts due to us pursuant to the contractual terms of the loan. If a loan is determined to be impaired, we write down the loan through a charge to the provision for loan losses. Impairment of these loans, which are collateral dependent, is measured by comparing the estimated fair value of the underlying collateral, less costs to sell, to the book value of the respective loan. These valuations require significant judgments, which include assumptions regarding capitalization rates, leasing, creditworthiness of major tenants, occupancy rates, availability of financing, exit plan, loan sponsorship, actions of other lenders, and other factors deemed necessary by our Manager. Actual losses, if any, could ultimately differ from these estimates.

Our Manager performs a quarterly review of our portfolio of loans. In conjunction with this review, our Manager assesses the risk factors of each loan, and assigns it a risk rating based on a variety of factors, including, without limitation, loan-to-value ratio, or LTV, debt yield, property type, geographic and local market dynamics, physical condition, cash flow volatility, leasing and tenant profile, loan structure and exit plan, and project sponsorship. Based on a 5-point scale, our loans are rated 1 through 5, from less risk to greater risk, which ratings are defined as follows:

1 Very Low Risk

2 Low Risk

3 Medium Risk

- 4 **High Risk/Potential for Loss:** A loan that has a risk of realizing a principal loss.

- 5 **Impaired/Loss Likely:** A loan that has a very high risk of realizing a principal loss or has otherwise incurred a principal loss.

Debt Securities Held-to-Maturity

We classify our debt securities as held-to-maturity, as we have the intent and ability to hold these securities until maturity. We include our debt securities in other assets on our consolidated balance sheets at amortized cost.

If, based on current information and events, there is an adverse change in cash flows expected to be collected from the cash flows previously projected for one of our debt securities, an other-than-temporary impairment is deemed to have occurred. A change in expected cash flows is considered adverse if the present value of the revised cash flows (taking into consideration both the timing and amount of cash flows expected to be collected), discounted using the debt security's current yield, is less than the present value of the previously estimated remaining cash flows. If an other-than-temporary impairment is considered to have occurred, the debt security is written down to fair value. The total other-than-temporary impairment is bifurcated into (i) the amount related to expected credit losses, and (ii) the amount related to fair value adjustments in excess of expected credit losses. The other-than-temporary impairment related to expected credit losses is calculated by comparing the amortized cost basis of the security to the present value of cash flows expected to be collected, discounted at the security's current yield, and is recognized in earnings in the consolidated statement of operations. The remaining other-than-temporary impairment that is not related to expected credit losses is recognized in other comprehensive income (loss). A portion of other-than-temporary impairments recognized through earnings is accreted back to the amortized cost basis of the security through interest income, while amounts recognized through other comprehensive income (loss) are amortized over the life of the security with no impact on earnings.

Derivative Financial Instruments

We classify all derivative financial instruments as either other assets or other liabilities on our consolidated balance sheets at fair value.

On the date we enter into a derivative contract, we designate each contract as (i) a hedge of a net investment in a foreign operation, or net investment hedge, (ii) a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability, or cash flow hedge, (iii) a hedge of a recognized asset or liability, or fair value hedge, or (iv) a derivative instrument not to be designated as a hedging derivative, or non-designated hedge. For all derivatives other than those designated as non-designated hedges, we formally document our hedge relationships and designation at the contract's inception. This documentation includes the identification of the hedging instruments and the hedged items, its risk management objectives, strategy for undertaking the hedge transaction and our evaluation of the effectiveness of its hedged transaction.

On a quarterly basis, we also formally assess whether the derivative we designated in each hedging relationship is expected to be, and has been, highly effective in offsetting changes in the value or cash flows of the hedged items. If it is determined that a derivative is not highly effective at hedging the designated exposure, hedge accounting is discontinued and the changes in fair value of the instrument are included in net income prospectively. Changes in the fair value of our derivative instruments that qualify as hedges are reported as a component of accumulated other comprehensive income (loss) on our consolidated financial statements. Deferred gains and losses are reclassified out of accumulated other comprehensive income (loss) and into net income in the same period or periods during which the hedged transaction affects earnings, and are presented in the same line item as the earnings effect of the hedged item. For cash flow hedges, this is typically when the periodic swap settlements are made, while for net investment hedges, this occurs when the hedged item is sold or substantially liquidated. To the extent a derivative does not qualify for hedge accounting and is deemed a non-designated hedge, the changes in its fair value are included in net income concurrently.

Secured Debt Agreements

Where applicable, we record investments financed with repurchase agreements as separate assets and the related borrowings under any repurchase agreements are recorded as separate liabilities on our consolidated balance sheets. Interest income earned on the investments and interest expense incurred on the repurchase agreements are reported separately on our consolidated statements of operations.

Senior Loan Participations

In certain instances, we finance our loans through the non-recourse syndication of a senior loan interest to a third-party. Depending on the particular structure of the syndication, the senior loan interest may remain on our GAAP balance sheet or, in other cases, the sale will be recognized and the senior loan interest will no longer be included in our consolidated financial statements. When these sales are not recognized under GAAP we reflect the transaction by recording a loan participations sold liability on our consolidated balance sheet, however this gross presentation does not impact stockholders' equity or net income. When the sales are recognized, our balance sheet only includes our remaining subordinate loan and not the non-consolidated senior interest we sold.

Convertible Notes

The Debt with Conversion and Other Options Topic of the Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or ASC, requires the liability and equity components of convertible debt instruments that may be settled in cash upon conversion, including partial cash settlement, to be separately accounted for in a manner that reflects the issuer's nonconvertible debt borrowing rate. The initial proceeds from the sale of convertible notes are allocated between a liability component and an equity component in a manner that reflects interest expense at the rate of similar nonconvertible debt that could have been issued at such time. The equity component represents the excess initial proceeds received over the fair value of the liability component of the notes as of the date of issuance. We measured the estimated fair value of the debt component of our convertible notes as of the respective issuance dates based on our nonconvertible debt borrowing rate. The equity component of each series of our convertible notes is reflected within additional paid-in capital on our consolidated balance sheet, and the resulting debt discount is amortized over the period during which such convertible notes are expected to be outstanding (through the maturity date) as additional non-cash interest expense. The additional non-cash interest expense attributable to such convertible notes will increase in subsequent periods through the maturity date as the notes accrete to their par value over the same period.

Deferred Financing Costs

The deferred financing costs that are included as a reduction in the net book value of the related liability on our consolidated balance sheets include issuance and other costs related to our debt obligations. These costs are amortized as interest expense using the effective interest method over the life of the related obligations.

Fair Value of Financial Instruments

The Fair Value Measurements and Disclosures Topic of the FASB, or ASC 820, defines fair value, establishes a framework for measuring fair value, and requires certain disclosures about fair value measurements under GAAP. Specifically, this guidance defines fair value based on exit price, or the price that would be received upon the sale of an asset or the transfer of a liability in an orderly transaction between market participants at the measurement date.

(Unaudited)

ASC 820 also establishes a fair value hierarchy that prioritizes and ranks the level of market price observability used in measuring financial instruments. Market price observability is affected by a number of factors, including the type of financial instrument, the characteristics specific to the financial instrument, and the state of the marketplace, including the existence and transparency of transactions between market participants. Financial instruments with readily available quoted prices in active markets generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Financial instruments measured and reported at fair value are classified and disclosed based on the observability of inputs used in the determination, as follows:

Level 1: Generally includes only unadjusted quoted prices that are available in active markets for identical financial instruments as of the reporting date.

Level 2: Pricing inputs include quoted prices in active markets for similar instruments, quoted prices in less active or inactive markets for identical or similar instruments where multiple price quotes can be obtained, and other observable inputs, such as interest rates, yield curves, credit risks, and default rates.

Level 3: Pricing inputs are unobservable for the financial instruments and include situations where there is little, if any, market activity for the financial instrument. These inputs require significant judgment or estimation by management of third-parties when determining fair value and generally represent anything that does not meet the criteria of Levels 1 and 2.

The estimated value of each asset reported at fair value using Level 3 inputs is determined by an internal committee composed of members of senior management of our Manager, including our Chief Executive Officer, Chief Financial Officer, and other senior officers.

Certain of our other assets are reported at fair value either (i) on a recurring basis, as of each quarter-end, or (ii) on a nonrecurring basis, as a result of impairment or other events. Our assets that are recorded at fair value are discussed further in Note 14. We generally value our assets recorded at fair value by either (i) discounting expected cash flows based on assumptions regarding the collection of principal and interest and estimated market rates, or (ii) obtaining assessments from third-party dealers. For collateral-dependent loans that are identified as impaired, we measure impairment by comparing our Manager's estimation of the fair value of the underlying collateral, less costs to sell, to the book value of the respective loan. These valuations may require significant judgments, which include assumptions regarding capitalization rates, leasing, creditworthiness of major tenants, occupancy rates, availability of financing, exit plan, loan sponsorship, actions of other lenders, and other factors deemed necessary by our Manager.

We are also required by GAAP to disclose fair value information about financial instruments, which are not otherwise reported at fair value in our consolidated balance sheet, to the extent it is practicable to estimate a fair value for those instruments. These disclosure requirements exclude certain financial instruments and all non-financial instruments.

The following methods and assumptions are used to estimate the fair value of each class of financial instruments, for which it is practicable to estimate that value:

Cash and cash equivalents: The carrying amount of cash and cash equivalents approximates fair value.

Edgar Filing: BLACKSTONE MORTGAGE TRUST, INC. - Form 10-Q

Restricted cash: The carrying amount of restricted cash approximates fair value.

Loans receivable, net: The fair values of these loans were estimated by our Manager based on a discounted cash flow methodology, taking into consideration various factors including capitalization rates,

discount rates, leasing, occupancy rates, availability and cost of financing, exit plan, sponsorship, actions of other lenders, and indications of market value from other market participants.

Debt securities held-to-maturity: The fair value of these instruments was estimated by utilizing third-party pricing service providers. In determining the value of a particular investment, pricing service providers may use broker-dealer quotations, reported trades, or valuation estimates from their internal pricing models to determine the reported price.

Derivative financial instruments: The fair value of our foreign currency and interest rate contracts was estimated using advice from a third-party derivative specialist, based on contractual cash flows and observable inputs comprising foreign currency rates and credit spreads.

Secured debt agreements, net: The fair value of these instruments was estimated based on the rate at which a similar credit facility would currently be priced.

Loan participations sold, net: The fair value of these instruments was estimated based on the value of the related loan receivable asset.

Securitized debt obligations, net: The fair value of these instruments was estimated by utilizing third-party pricing service providers. In determining the value of a particular investment, pricing service providers may use broker-dealer quotations, reported trades, or valuation estimates from their internal pricing models to determine the reported price.

Convertible notes, net: Each series of the convertible notes is actively traded and their fair values were obtained using quoted market prices.

Income Taxes

Our financial results generally do not reflect provisions for current or deferred income taxes on our REIT taxable income. We believe that we operate in a manner that will continue to allow us to be taxed as a REIT and, as a result, we generally do not expect to pay substantial corporate level taxes other than those payable by our taxable REIT subsidiaries. If we were to fail to meet these requirements, we may be subject to federal, state, and local income tax on current and past income, and penalties. Refer to Note 12 for additional information.

Stock-Based Compensation

Our stock-based compensation consists of awards issued to our Manager and certain individuals employed by an affiliate of our Manager that vest over the life of the awards, as well as deferred stock units issued to certain members of our board of directors. Stock-based compensation expense is recognized for these awards in net income on a variable basis over the applicable vesting period of the awards, based on the value of our class A common stock. Refer to Note 13 for additional information.

Earnings per Share

Edgar Filing: BLACKSTONE MORTGAGE TRUST, INC. - Form 10-Q

Basic earnings per share, or Basic EPS, is computed in accordance with the two-class method and is based on the net earnings allocable to our class A common stock, including restricted class A common stock and deferred stock units, divided by the weighted-average number of shares of our class A common stock, including restricted class A common stock and deferred stock units outstanding during the period. Our restricted class A common stock is considered a participating security, as defined by GAAP, and has been included in our Basic EPS under the two-class method as these restricted shares have the same rights as our other shares of class A common stock, including participating in any gains or losses.

Table of Contents

Blackstone Mortgage Trust, Inc.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Diluted earnings per share, or Diluted EPS, is determined using the treasury stock method, and is based on the net earnings allocable to our class A common stock, including restricted class A common stock and deferred stock units, divided by the weighted-average number of shares of our class A common stock, including restricted class A common stock and deferred stock units. Refer to Note 10 for additional discussion of earnings per share.

Foreign Currency

In the normal course of business, we enter into transactions not denominated in United States, or U.S., dollars. Foreign exchange gains and losses arising on such transactions are recorded as a gain or loss in our consolidated statements of operations. In addition, we consolidate entities that have a non-U.S. dollar functional currency. Non-U.S. dollar denominated assets and liabilities are translated to U.S. dollars at the exchange rate prevailing at the reporting date and income, expenses, gains, and losses are translated at the average exchange rate over the applicable period. Cumulative translation adjustments arising from the translation of non-U.S. dollar denominated subsidiaries are recorded in other comprehensive income (loss).

Underwriting Commissions and Offering Costs

Underwriting commissions and offering costs incurred in connection with common stock offerings are reflected as a reduction of additional paid-in capital. Costs incurred that are not directly associated with the completion of a common stock offering are expensed when incurred.

Recent Accounting Pronouncements

In June 2016, the FASB issued ASU 2016-13 Financial Instruments – Credit Losses – Measurement of Credit Losses on Financial Instruments (Topic 326), or ASU 2016-13. ASU 2016-13 significantly changes how entities will measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. ASU 2016-13 will replace the incurred loss model under existing guidance with an expected loss model for instruments measured at amortized cost, and require entities to record allowances for available-for-sale debt securities rather than reduce the carrying amount, as they do today under the other-than-temporary impairment model. It also simplifies the accounting model for purchased credit-impaired debt securities and loans. ASU 2016-13 is effective for fiscal years beginning after December 15, 2019 and is to be adopted through a cumulative-effect adjustment to retained earnings as of January 1, 2020. While we are currently evaluating the impact ASU 2016-13 will have on our consolidated financial statements, we expect that the adoption will result in an increased amount of provisions for potential loan losses as well as the recognition of such provisions earlier in the lending cycle. We currently do not have any provision for loan losses in our consolidated financial statements.

The following table details overall statistics for our loans receivable portfolio (\$ in thousands):

	March 31, 2019	December 31, 2018
Number of loans	122	125
Principal balance	\$ 14,603,831	\$ 14,293,970
Net book value	\$ 14,508,735	\$ 14,191,200
Unfunded loan commitments (1)	\$ 3,123,059	\$ 3,405,945
Weighted-average cash coupon (2)	5.63%	5.67%
Weighted-average all-in yield (2)	5.99%	6.00%
Weighted-average maximum maturity (years) (3)	3.8	3.9

- (1) Unfunded commitments will primarily be funded to finance our borrowers' construction or development of real estate-related assets, capital improvements of existing assets, or lease-related expenditures. These commitments will generally be funded over the term of each loan, subject in certain cases to an expiration date.
- (2) As of March 31, 2019, 99% of our loans by principal balance earned a floating rate of interest, primarily indexed to USD LIBOR, and 1% earned a fixed rate of interest. As of December 31, 2018, 98% of our loans by principal balance earned a floating rate of interest, primarily indexed to USD LIBOR, and 2% earned a fixed rate of interest. Cash coupon and all-in yield assume applicable floating benchmark rates as of March 31, 2019 and December 31, 2018, respectively, for weighted-average calculation. In addition to cash coupon, all-in yield includes the amortization of deferred origination and extension fees, loan origination costs, and purchase discounts, as well as the accrual of exit fees.
- (3) Maximum maturity assumes all extension options are exercised by the borrower, however our loans may be repaid prior to such date. As of March 31, 2019, 65% of our loans by principal balance were subject to yield maintenance or other prepayment restrictions and 35% were open to repayment by the borrower without penalty. As of December 31, 2018, 75% of our loans were subject to yield maintenance or other prepayment restrictions and 25% were open to repayment by the borrower without penalty.

Loan Risk Ratings

As further described in Note 2, our Manager evaluates our loan portfolio on a quarterly basis. In conjunction with our quarterly loan portfolio review, our Manager assesses the risk factors of each loan, and assigns a risk rating based on several factors. Factors considered in the assessment include, but are not limited to, risk of loss, current LTV, debt yield, collateral performance, structure, exit plan, and sponsorship. Loans are rated 1 (less risk) through 5 (greater risk), which ratings are defined in Note 2.

The following table allocates the principal balance and net book value of our loans receivable based on our internal risk ratings (\$ in thousands):

- (2) Excludes investment exposure to the \$1.0 billion 2018 Single Asset Securitization. See Note 4 for details of the subordinated risk retention interest we own in the 2018 Single Asset Securitization.

The weighted-average risk rating of our total loan exposure was 2.7 as of both March 31, 2019 and December 31, 2018.

We did not have any impaired loans, nonaccrual loans, or loans in maturity default as of March 31, 2019 or December 31, 2018.

Multifamily Joint Venture

As discussed in Note 2, we entered into a Multifamily Joint Venture in April 2017. As of March 31, 2019 and December 31, 2018, our Multifamily Joint Venture held \$343.4 million and \$334.6 million of loans, respectively, which are included in the loan disclosures above. Refer to Note 2 for additional discussion of our Multifamily Joint Venture.

- (1) Potential borrowings represents the total amount we could draw under each facility based on collateral already approved and pledged. When undrawn, these amounts are immediately available to us at our sole discretion under the terms of each credit facility.
- (2) Represents the principal balance of the collateral assets.
- (3) These facilities finance the loan investments of our consolidated Multifamily Joint Venture. Refer to Note 2 for additional discussion of our Multifamily Joint Venture.

The weighted-average outstanding balance of our secured credit facilities was \$7.7 billion for the three months ended December 31, 2018. As of December 31, 2018, we had aggregated borrowings of \$8.9 billion outstanding under our secured credit facilities, with a weighted-average cash coupon of LIBOR plus 1.72% per annum, a weighted-average all-in cost of credit, including associated fees and expenses, of LIBOR plus 1.90% per annum, and a weighted-average advance rate of 79.5%. As of December 31, 2018, outstanding borrowings under these facilities had a weighted-average maturity, including extension options, of 3.5 years.

Borrowings under each facility are subject to the initial approval of eligible collateral loans by the lender and the maximum advance rate and pricing rate of individual advances are determined with reference to the attributes of the respective collateral loan.

- (1) These floating rate loans and related liabilities are indexed to the various benchmark rates relevant in each arrangement in terms of currency and payment frequency. Therefore the net exposure to each benchmark rate is in direct proportion to our net assets indexed to that rate. In addition to cash coupon, yield/cost includes the amortization of deferred origination fees / financing costs.
- (2) Borrowings under our asset-specific financings are non-recourse to us.
- (3) The weighted-average term is determined based on the maximum maturity of the corresponding loans, assuming all extension options are exercised by the borrower. Each of our asset-specific financings are term-matched to the corresponding collateral loans.

The weighted-average outstanding balance of our asset-specific financings was \$88.9 million for the three months ended March 31, 2019 and \$68.0 million for the three months ended December 31, 2018.

Revolving Credit Agreement

under the agreement are subject to availability under a specified borrowing base and accrue interest at a per annum pricing rate equal to the sum of (i) an applicable base rate or Eurodollar rate and (ii) an applicable margin, in each case, dependent on the applicable type of loan collateral. The maturity date of the facility is April 4, 2020.

During the three months ended March 31, 2019, the weighted-average outstanding borrowings under the revolving credit agreement was \$43.8 million and we recorded interest expense of \$969,000, including \$268,000 of amortization of deferred fees and expenses. As of March 31, 2019, we had \$43.8 million of borrowings outstanding under the agreement.

During the three months ended December 31, 2018, the weighted-average outstanding borrowings under the revolving credit agreement was \$63.5 million and we recorded interest expense of \$1.2 million, including \$297,000 of amortization of deferred fees and expenses. As of December 31, 2018, we had \$43.8 million of borrowings outstanding under the agreement.

Debt Covenants

Each of the guarantees related to our secured debt agreements contain the following uniform financial covenants: (i) our ratio of earnings before interest, taxes, depreciation, and amortization, or EBITDA, to fixed charges, as defined in the agreements, shall be not less than 1.4 to 1.0; (ii) our tangible net worth, as defined in the agreements, shall not be less than \$2.6 billion as of each measurement date plus 75% of the net cash proceeds of future equity issuances subsequent to March 31, 2019; (iii) cash liquidity shall not be less than the greater of (x) \$10.0 million or (y) 5% of our recourse indebtedness; and (iv) our indebtedness shall not exceed 83.33% of our total assets. As of March 31, 2019 and December 31, 2018, we were in compliance with these covenants.

6. LOAN PARTICIPATIONS SOLD, NET

The financing of a loan by the non-recourse sale of a senior interest in the loan through a participation agreement generally does not qualify as a sale under GAAP. Therefore, in the instance of such sales, we present the whole loan as an asset and the loan participation sold as a liability on our consolidated balance sheet until the loan is repaid. The obligation to pay principal and interest on these liabilities is generally based on the performance of the related loan obligation. The gross presentation of loan participations sold does not impact stockholders' equity or net income.

- (1) As of March 31, 2019, all of our loans financed by securitized debt obligations earned a floating rate of interest. As of December 31, 2018, 98% of our loans financed by securitized debt obligations earned a floating rate of interest. In addition to cash coupon, all-in yield includes the amortization of deferred origination and extension fees, loan origination costs, purchase discounts, and accrual of exit fees. All-in yield for the total portfolio assume applicable floating benchmark rates for weighted-average calculation.
- (2) Loan term represents weighted-average final maturity, assuming all extension options are exercised by the borrower. Repayments of securitized debt obligations are tied to timing of the related collateral loan asset repayments. The term of these obligations represents the rated final distribution date of the securitizations.

March 2018	\$ 220,000	4.75%	5.33%	27.6052	March 15, 2023

- (1) Includes issuance costs that are amortized through interest expense over the life of the Convertible Notes using the effective interest method.
- (2) Represents the shares of class A common stock per \$1,000 principal amount of Convertible Notes, which is equivalent to a conversion price of \$35.67 and \$36.23 per share of class A common stock, respectively, for the May 2017 and March 2018 convertible notes. The cumulative dividend threshold as defined in the respective May 2017 and March 2018 convertible notes supplemental indentures have not been exceeded as of March 31, 2019.

The Convertible Notes are convertible at the holders' option into shares of our class A common stock, only under specific circumstances, prior to the close of business on January 31, 2022 and December 14, 2022 for the May 2017 and March 2018 convertible notes, respectively, at the applicable conversion rate in effect on the conversion date. Thereafter, the Convertible Notes are convertible at the option of the holder at any time until the second scheduled trading day immediately preceding the maturity date. We may not redeem the Convertible Notes prior to maturity. The last reported sale price of our class A common stock of \$34.56 on March 29, 2019, the last trading day in the quarter ended March 31, 2019, was less than the per share conversion price of the May 2017 and March 2018 convertible notes. We have the intent and ability to settle each series of the Convertible Notes in cash and, as a result, the Convertible Notes did not have any impact on our diluted earnings per share.

Upon our issuance of the May 2017 convertible notes, we recorded a \$979,000 discount based on the implied value of the conversion option and an assumed effective interest rate of 4.57%, as well as \$8.4 million of initial debt discount and issuance costs. Including the amortization of the discount and issuance costs, our total cost of the May 2017 convertible notes issuance is 4.91% per annum.

Upon our issuance of the March 2018 convertible notes, we recorded a \$1.5 million discount based on the implied value of the conversion option and an assumed effective interest rate of 5.25%, as well as \$5.2 million of initial debt discount and issuance costs. Including the amortization of the discount and issuance costs, our total cost of the March 2018 convertible notes issuance is 5.49% per annum.

9. DERIVATIVE FINANCIAL INSTRUMENTS

The sole objective of our use of derivative financial instruments is to minimize the risks and/or costs associated with our investments and/or financing transactions. These derivatives may or may not qualify as net investment, cash flow, or fair value hedges under the hedge accounting requirements of ASC 815 Derivatives and Hedging. Derivatives not designated as hedges are not speculative and are used to manage our exposure to interest rate movements and other identified risks. Refer to Note 2 for additional discussion of the accounting for designated and non-designated hedges.

The use of derivative financial instruments involves certain risks, including the risk that the counterparties to these contractual arrangements do not perform as agreed. To mitigate this risk, we only enter into derivative financial instruments with counterparties that have appropriate credit ratings and are major financial institutions with which we and our affiliates may also have other financial relationships.

Net Investment Hedges of Foreign Currency Risk

Certain of our international investments expose us to fluctuations in foreign interest rates and currency exchange rates. These fluctuations may impact the value of our cash receipts and payments in terms of our functional currency, the U.S. dollar. We use foreign currency forward contracts to protect the value or fix the amount of certain investments or cash flows in terms of the U.S. dollar.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)**

The following table details our outstanding foreign exchange derivatives that were designated as net investment hedges of foreign currency risk (notional amount in thousands):

Sell CAD Forward	2	C\$	78,700	Sell CAD Forward	1	C\$	70,600

Cash Flow Hedges of Interest Rate Risk

Certain of our transactions expose us to interest rate risks, which include a fixed versus floating rate mismatch between our assets and liabilities. We use derivative financial instruments, which include interest rate caps and swaps, and may also include interest rate options, floors, and other interest rate derivative contracts, to hedge interest rate risk.

The following tables detail our outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk (notional amount in thousands):

Amounts reported in accumulated other comprehensive income (loss) related to derivatives will be reclassified to interest expense as interest payments are made on our floating rate debt. During the twelve months following March 31, 2019, we estimate that an additional \$63,000 will be reclassified from accumulated other comprehensive income (loss) as an increase to interest income.

Non-designated Hedges

During the three months ended March 31, 2019 and 2018, we recorded gains of \$660,000 and \$215,000, respectively, related to non-designated hedges that were reported as a component of interest expense in our consolidated financial statements.

Credit-Risk Related Contingent Features

We have entered into agreements with certain of our derivative counterparties that contain provisions where if we were to default on any of our indebtedness, including default where repayment of the indebtedness has not been accelerated by the lender, we may also be declared in default on our derivative obligations. In addition, certain of our agreements with our derivative counterparties require that we post collateral to secure net liability positions. As of March 31, 2019, we were in a net asset position with each such derivative counterparty, and posted collateral of \$5.1 million under these derivative contracts. As of December 31, 2018, we were in a net asset position with each such derivative counterparty and did not have any collateral posted under these derivative contracts.

10. EQUITY**Stock and Stock Equivalents***Authorized Capital*

As of March 31, 2019, we had the authority to issue up to 300,000,000 shares of stock, consisting of 200,000,000 shares of class A common stock and 100,000,000 shares of preferred stock. Subject to applicable NYSE listing requirements, our board of directors is authorized to cause us to issue additional shares of authorized stock without stockholder approval. In addition, to the extent not issued, currently authorized stock may be reclassified between class A common stock and preferred stock. We did not have any shares of preferred stock issued and outstanding as of March 31, 2019.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)***Class A Common Stock and Deferred Stock Units*

Holders of shares of our class A common stock are entitled to vote on all matters submitted to a vote of stockholders and are entitled to receive such dividends as may be authorized by our board of directors and declared by us, in all cases subject to the rights of the holders of shares of outstanding preferred stock, if any.

The following table details our issuance of class A common stock during the three months ended March 31, 2019:

	Three Months Ended March 31, 2019
Shares issued (1)	1,909,628
Gross share issue price (2)	\$ 34.63
Net share issue price (3)	\$ 34.28
Net proceeds (4)	\$ 65,389

- (1) Issuance represents shares issued under our at-the-market program.
- (2) Represents the weighted-average gross price per share paid by the underwriters or sales agents, as applicable.
- (3) Represents the weighted-average net proceeds per share after underwriting or sales discounts and commissions.
- (4) Net proceeds represents proceeds received from the underwriters less applicable transaction costs.

We also issue restricted class A common stock under our stock-based incentive plans. Refer to Note 13 for additional discussion of these long-term incentive plans. In addition to our class A common stock, we also issue deferred stock units to certain members of our board of directors in lieu of cash compensation for services rendered. These deferred stock units are non-voting, but carry the right to receive dividends in the form of additional deferred stock units in an amount equivalent to the cash dividends paid to holders of shares of class A common stock.

The following table details the movement in our outstanding shares of class A common stock, including restricted class A common stock and deferred stock units:

Dividend Reinvestment and Direct Stock Purchase Plan

On March 25, 2014, we adopted a dividend reinvestment and direct stock purchase plan, under which we registered and reserved for issuance, in the aggregate, 10,000,000 shares of class A common stock. Under the dividend reinvestment component of this plan, our class A common stockholders can designate all or a portion of their cash dividends to be reinvested in additional shares of class A common stock. The direct stock purchase

component allows stockholders and new investors, subject to our approval, to purchase shares of class A common stock directly from us. During the three months ended March 31, 2019 and 2018, we issued 281 shares and 455 shares, respectively, of class A common stock under the dividend reinvestment component of the plan. As of March 31, 2019, a total of 9,994,957 shares of class A common stock remained available for issuance under the dividend reinvestment and direct stock purchase plan.

At the Market Stock Offering Program

On November 14, 2018, we entered into equity distribution agreements, or ATM Agreements, pursuant to which we may sell, from time to time, up to an aggregate sales price of \$500.0 million of our class A common stock. Sales of class A common stock made pursuant to our ATM Agreements may be made in negotiated transactions or transactions that are deemed to be at the market offerings as defined in Rule 415 under the Securities Act of 1933, as amended. Actual sales will depend on a variety of factors including market conditions, the trading price of our class A common stock, our capital needs, and our determination of the appropriate sources of funding to meet such needs. During the three months ended March 31, 2019, we issued and sold 1,909,628 shares of class A common stock under ATM Agreements, generating net proceeds totaling \$65.4 million. We did not sell any shares of our class A common stock under ATM Agreements during the three months ended March 31, 2018. As of March 31, 2019, shares of our class A common stock with an aggregate sales price of \$363.8 million remained available for issuance under our ATM Agreements.

Dividends

We generally intend to distribute substantially all of our taxable income, which does not necessarily equal net income as calculated in accordance with GAAP, to our stockholders each year to comply with the REIT provisions of the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code. Our dividend policy remains subject to revision at the discretion of our board of directors. All distributions will be made at the discretion of our board of directors and will depend upon our taxable income, our financial condition, our maintenance of REIT status, applicable law, and other factors as our board of directors deems relevant.

On March 15, 2019, we declared a dividend of \$0.62 per share, or \$77.9 million, that was paid on April 15, 2019, to stockholders of record as of March 29, 2019. The following table details our dividend activity (\$ in thousands, except per share data):

	Three Months Ended March 31,	
	2019	2018
Dividends declared per share of common stock	\$ 0.62	\$ 0.62
Total dividends declared	\$ 77,913	\$ 67,066

Earnings Per Share

We calculate our basic and diluted earnings per share using the two-class method for all periods presented as the unvested shares of our restricted class A common stock qualify as participating securities, as defined by GAAP. These restricted shares have the same rights as our other shares of class A common stock, including participating in any dividends, and therefore have been included in our basic and diluted net income per share calculation. Our Convertible Notes are excluded from dilutive earnings per share as we have the intent and ability to settle these instruments in cash.

Other Balance Sheet Items*Accumulated Other Comprehensive Loss*

As of March 31, 2019, total accumulated other comprehensive loss was \$30.8 million, primarily representing (i) \$99.3 million of cumulative unrealized currency translation adjustments on assets and liabilities denominated in foreign currencies and (ii) an offsetting \$68.5 million of net realized and unrealized gains related to changes in the fair value of derivative instruments. As of December 31, 2018, total accumulated other comprehensive loss was \$34.2 million, primarily representing (i) \$104.6 million of cumulative unrealized currency translation adjustments on assets and liabilities denominated in foreign currencies and (ii) an offsetting \$70.4 million of net realized and unrealized gains related to changes in the fair value of derivative instruments.

Non-Controlling Interests

The non-controlling interests included on our consolidated balance sheets represent the equity interests in our Multifamily Joint Venture that are not owned by us. A portion of our Multifamily Joint Venture's consolidated equity and results of operations are allocated to these non-controlling interests based on their pro rata ownership of our Multifamily Joint Venture. As of March 31, 2019, our Multifamily Joint Venture's total equity was \$81.3 million, of which \$69.1 million was owned by us, and \$12.2 million was allocated to non-controlling interests. As of December 31, 2018, our Multifamily Joint Venture's total equity was \$69.9 million, of which \$59.4 million was owned by us, and \$10.5 million was allocated to non-controlling interests.

11. OTHER EXPENSES

Our other expenses consist of the management and incentive fees we pay to our Manager and our general and administrative expenses.

Management and Incentive Fees

Pursuant to a management agreement between our Manager and us, or our Management Agreement, our Manager earns a base management fee in an amount equal to 1.50% per annum multiplied by our outstanding equity balance, as defined in the Management Agreement. In addition, our Manager is entitled to an incentive fee in an amount equal to the product of (i) 20% and (ii) the excess of (a) our Core Earnings (as defined in our Management Agreement) for the previous 12-month period over (b) an amount equal to 7.00% per annum multiplied by our outstanding

Edgar Filing: BLACKSTONE MORTGAGE TRUST, INC. - Form 10-Q

Equity, provided that our Core Earnings over the prior three-year period is greater than zero. Core Earnings, as defined in our Management Agreement, is generally equal to our net income (loss) prepared in accordance with GAAP, excluding (i) certain non-cash items (ii) the net income (loss) related to our legacy portfolio and (iii) incentive management fees.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)**

During the three months ended March 31, 2019 and 2018, we incurred management fees payable to our Manager of \$13.1 million and \$11.1 million, respectively. In addition, during the three months ended March 31, 2019 and 2018, we incurred incentive fees payable to our Manager of \$6.7 million and \$4.4 million, respectively.

As of March 31, 2019 and December 31, 2018 we had accrued management and incentive fees payable to our Manager of \$19.8 million and \$18.6 million, respectively.

General and Administrative Expenses

General and administrative expenses consisted of the following (\$ in thousands):

	Three Months Ended March 31,	
	2019	2018
Professional services (1)	\$ 1,096	\$ 1,223
Operating and other costs (1)	449	509

Director stock-based compensation	125	125
Subtotal	7,768	6,976
Total general and administrative expenses	\$ 9,313	\$ 8,708

- (1) During the three months ended March 31, 2019 and 2018, we recognized an aggregate \$169,000 and \$101,000, respectively, of expenses related to our Multifamily Joint Venture.

12. INCOME TAXES

We have elected to be taxed as a REIT under the Internal Revenue Code for U.S. federal income tax purposes. We generally must distribute annually at least 90% of our net taxable income, subject to certain adjustments and excluding any net capital gain, in order for U.S. federal income tax not to apply to our earnings that we distribute. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our net taxable income, we will be subject to U.S. federal income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under U.S. federal tax laws.

Our qualification as a REIT also depends on our ability to meet various other requirements imposed by the Internal Revenue Code, which relate to organizational structure, diversity of stock ownership, and certain restrictions with regard to the nature of our assets and the sources of our income. Even if we qualify as a REIT, we may be subject to certain U.S. federal income and excise taxes and state and local taxes on our income and assets. If we fail to maintain our qualification as a REIT for any taxable year, we may be subject to material penalties as well as federal,

Edgar Filing: BLACKSTONE MORTGAGE TRUST, INC. - Form 10-Q

state, and local income tax on our taxable income at regular corporate rates and we would not be able to qualify as a REIT for the subsequent four full taxable years. As of March 31, 2019 and December 31, 2018, we were in compliance with all REIT requirements.

Securitization transactions could result in the creation of taxable mortgage pools for federal income tax purposes. As a REIT, so long as we own 100% of the equity interests in a taxable mortgage pool, we generally

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)**

would not be adversely affected by the characterization of the securitization as a taxable mortgage pool. Certain categories of stockholders, however, such as foreign stockholders eligible for treaty or other benefits, stockholders with net operating losses, and certain tax-exempt stockholders that are subject to unrelated business income tax, or UBTI, could be subject to increased taxes on a portion of their dividend income from us that is attributable to the taxable mortgage pool. We currently own no UBTI producing assets and we do not intend to purchase or generate assets that produce UBTI distributions in the future.

During the three months ended March 31, 2019 and 2018, we recorded a current income tax provision of \$101,000 and \$120,000, respectively, primarily related to activities of our taxable REIT subsidiaries and various state and local taxes. We did not have any deferred tax assets or liabilities as of March 31, 2019 or December 31, 2018.

Effective January 1, 2018, under legislation from the Tax Cuts and Jobs Act of 2017, the maximum U.S. federal corporate income tax rate was reduced from 35% to 21%. Accordingly, to the extent that the activities of our taxable REIT subsidiaries generate taxable income in future periods, they may be subject to lower U.S. federal income tax rates.

We have net operating losses, or NOLs, generated by our predecessor business that may be carried forward and utilized in current or future periods. As a result of our issuance of 25,875,000 shares of class A common stock in May 2013, the availability of our NOLs is generally limited to \$2.0 million per annum by change of control provisions promulgated by the Internal Revenue Service with respect to the ownership of Blackstone Mortgage Trust. As of December 31, 2018, we had estimated NOLs of \$159.0 million that will expire in 2029, unless they are utilized by us prior to expiration.

As of March 31, 2019, tax years 2015 through 2018 remain subject to examination by taxing authorities.

13. STOCK-BASED INCENTIVE PLANS

We are externally managed by our Manager and do not currently have any employees. However, as of March 31, 2019, our Manager, certain individuals employed by an affiliate of our Manager, and certain members of our board of directors were compensated, in part, through the issuance of stock-based instruments.

We had stock-based incentive awards outstanding under nine benefit plans as of March 31, 2019. Seven of such benefit plans have expired and no new awards may be issued under them. Under our two current benefit plans, a maximum of 5,000,000 shares of our class A common stock may be issued to our Manager, our directors and officers, and certain employees of affiliates of our Manager. As of March 31, 2019, there were 3,977,788 shares available under the Current Plans.

The following table details the movement in our outstanding shares of restricted class A common stock and the weighted-average grant date fair value per share:

	Restricted Class A Common Stock	Weighted-Average Grant Date Fair Value Per Share
Balance as of December 31, 2018	1,614,907	\$ 32.94

These shares generally vest in installments over a three-year period, pursuant to the terms of the respective award agreements and the terms of the Current Plans. The 1,782,157 shares of restricted class A common stock outstanding as of March 31, 2019 will vest as follows: 796,115 shares will vest in 2019; 650,663 shares will vest in 2020; and 335,379 shares will vest in 2021. As of March 31, 2019, total unrecognized compensation cost relating to unvested share-based compensation arrangements was \$52.6 million based on the grant date fair value of shares granted, subsequent to July 1, 2018. The compensation cost of our share based compensation arrangements for awards granted before July 1, 2018 is based on \$31.43, the closing price of our class A common stock on the last trading day prior to July 1, 2018. This cost is expected to be recognized over a weighted-average period of 1.2 years from March 31, 2019.

14. FAIR VALUES**Assets and Liabilities Measured at Fair Value**

The following table summarizes our assets and liabilities measured at fair value on a recurring basis (\$ in thousands):

Estimates of fair value for cash and cash equivalents, restricted cash, and convertible notes are measured using observable, quoted market prices, or Level 1 inputs. Estimates of fair value for debt securities held to maturity and securitized debt obligations are measured using observable, quoted market prices, in inactive markets, or Level 2 inputs. All other fair value significant estimates are measured using unobservable inputs, or Level 3 inputs. See Note 2 for further discussion regarding fair value measurement of certain of our assets and liabilities.

15. VARIABLE INTEREST ENTITIES**Consolidated Variable Interest Entities**

We have financed a portion of our loans through the CLO and the 2017 Single Asset Securitization, both of which are VIEs. We are the primary beneficiary and consolidate the CLO and the 2017 Single Asset Securitization on our balance sheet as we (i) control the relevant interests of the CLO and the 2017 Single Asset Securitization that give us power to direct the activities that most significantly affect the CLO and the 2017 Single Asset Securitization, and (ii) have the right to receive benefits and obligation to absorb losses of the CLO and the 2017 Single Asset Securitization through the subordinate interests we own.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)**

The following table details the assets and liabilities of our consolidated CLO and 2017 Single Asset Securitization VIEs (\$ in thousands):

	March 31, 2019	December 31, 2018
Assets:		
Loans receivable, net	\$ 1,463,702	\$ 1,500,000
Other assets	41,565	5,440
Total assets	\$ 1,505,267	\$ 1,505,440
Liabilities:		
Securitized debt obligations, net	\$ 1,286,417	\$ 1,285,471
Other liabilities	2,342	2,155
Total liabilities	\$ 1,288,759	\$ 1,287,626

Assets held by these VIEs are restricted and can be used only to settle obligations of the VIEs, including the subordinate interests owned by us. The liabilities of these VIEs are non-recourse to us and can only be satisfied from the assets of the VIEs. The consolidation of these VIEs results in an increase in our gross assets, liabilities, interest income and interest expense, however it does not affect our stockholders' equity or net income.

Non-Consolidated Variable Interest Entities

In the third quarter of 2018, we contributed a \$517.5 million loan to the \$1.0 billion 2018 Single Asset Securitization, which is a VIE, and invested in the related \$99.0 million subordinate risk retention position. We are not the primary beneficiary of the VIE because we do not have the power to direct the activities that most significantly affect the VIE's economic performance and, therefore, do not consolidate the 2018 Single Asset Securitization on our balance sheet. We have classified the subordinate risk retention position as a held-to-maturity debt security that is included in other assets on our consolidated balance sheets. We are not obligated to provide, have not provided, and do not intend to provide, financial support to the 2018 Single Asset Securitization, and therefore, our maximum exposure to loss is limited to our book value of \$95.9 million as of March 31, 2019. Refer to Note 16 for further details of this transaction.

We are not obligated to provide, have not provided, and do not intend to provide financial support to these consolidated and non-consolidated VIEs.

16. TRANSACTIONS WITH RELATED PARTIES

We are managed by our Manager pursuant to the Management Agreement, the current term of which expires on December 19, 2019, and will be automatically renewed for a one-year term upon such date and each anniversary thereafter unless earlier terminated.

As of March 31, 2019 and December 31, 2018, our consolidated balance sheet included \$19.8 million and \$18.6 million of accrued management and incentive fees payable to our Manager, respectively. During the three months ended March 31, 2019, we paid management and incentive fees to our Manager of \$18.6 million, compared to \$14.3 million during the same period of 2018. In addition, during the three months ended March 31, 2019, we reimbursed our Manager for expenses incurred on our behalf of \$188,000 compared to \$190,000 during the same period of

2018.

Blackstone Mortgage Trust, Inc.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

As of March 31, 2019, our Manager held 882,524 shares of unvested restricted class A common stock, which had an aggregate grant date fair value of \$27.9 million, and vest in installments over three years from the date of issuance. During the three months ended March 31, 2019 and 2018, we recorded non-cash expenses related to shares held by our Manager of \$3.8 million and \$3.2 million, respectively. Refer to Note 13 for further details on our restricted class A common stock.

An affiliate of our Manager is the special servicer of the CLO. This affiliate did not earn any special servicing fees related to the CLO during the three months ended March 31, 2019 or 2018.

During the three months ended March 31, 2019 and 2018, we incurred \$86,000 and \$141,000, respectively, of expenses for various administrative, compliance, and capital market data services to third-party service providers that are affiliates of our Manager.

In the first quarter of 2019, we originated £240.1 million of a total £490.0 million senior loan to a borrower that is wholly owned by a Blackstone-advised investment vehicle. We will forgo all non-economic rights under the loan, including voting rights, so long as the Blackstone-advised investment vehicle controls the borrower. The senior loan terms were negotiated by a third-party without our involvement and our 49% interest in the senior loan was made on such market terms.

In the first quarter of 2018, we originated 1.0 billion of a total 7.3 billion senior term facility, or the Senior Term Facility, for the acquisition of a portfolio of Spanish real estate assets and a Spanish real estate management and loan servicing company by a joint venture between Banco Santander S.A. and certain Blackstone-advised investment vehicles. These investment vehicles own 51% of the joint venture, and we will forgo all non-economic rights under the Senior Term Facility, including voting rights, so long as Blackstone-advised investment vehicles control the joint venture. The Senior Term Facility was negotiated by the joint venture with third-party investment banks without our involvement, and our 14% interest in the Senior Term Facility was made on such market terms.

In the first quarter of 2018, we originated a \$330.0 million senior loan, the proceeds of which were used by the borrower to repay an existing loan owned by a Blackstone-advised investment vehicle.

17. COMMITMENTS AND CONTINGENCIES

Unfunded Commitments Under Loans Receivable

As of March 31, 2019, we had unfunded commitments of \$3.1 billion related to 89 loans receivable, which amounts will generally be funded to finance our borrowers' construction or development of real estate related assets, capital improvements of existing assets, or lease-related expenditures. These commitments will generally be funded over the term of each loan, subject in certain cases to an expiration date.

Table of Contents**Blackstone Mortgage Trust, Inc.****Notes to Consolidated Financial Statements (continued)****(Unaudited)****Principal Debt Repayments**

Our contractual principal debt repayments as of March 31, 2019 were as follows (\$ in thousands):

	Payment Timing				
	Total Obligation	Less Than 1 Year	1 to 3 Years	3 to 5 Years	More Than 5 Years
Principal repayments under secured debt agreements (1)	\$ 9,235,365	\$ 392,854	\$ 3,484,304	\$ 5,172,469	\$ 185,738

Total (3)	\$ 9,857,865	\$ 392,854	\$ 3,484,304	\$ 5,794,969	\$ 185,738

- (1) The allocation of repayments under our secured debt agreements is based on the earlier of (i) the maturity date of each facility, or (ii) the maximum maturity date of the collateral loans, assuming all extension options are exercised by the borrower.
- (2) Reflects the outstanding principal balance of convertible notes, excluding any potential conversion premium. Refer to Note 8 for further details on our convertible notes.
- (3) As of March 31, 2019, the total does not include \$107.3 million of loan participations sold, \$449.5 million of non-consolidated senior interests, and \$1.3 billion of securitized debt obligations, as the satisfaction of these liabilities will not require cash outlays from us.

Litigation

From time to time, we may be involved in various claims and legal actions arising in the ordinary course of business. As of March 31, 2019, we were not involved in any material legal proceedings.

Board of Directors Compensation

As of March 31, 2019, of the eight members of our board of directors, our five independent directors are entitled to annual compensation of \$175,000 each, \$75,000 of which will be paid in the form of cash and \$100,000 in the form of deferred stock units. The other three board members, including our chairman and our chief executive officer, are not compensated by us for their service as directors. In addition, (i) the chair of our audit committee receives additional annual cash compensation of \$20,000, (ii) the other members of our audit committee receive additional annual cash compensation of \$10,000, and (iii) the chairs of each of our compensation and corporate governance committees receive additional annual cash compensation of \$10,000.

18. SUBSEQUENT EVENTS

On April 23, 2019, we closed on a \$500.0 million senior secured term loan facility, or the Secured Term Loan. The Secured Term Loan accrues interest at a floating rate equal to LIBOR plus 2.50% and was issued at a 99.75% price. It has a maturity date of April 23, 2026 and is open to prepayment after October 23, 2019. The covenant package includes an 83.33% maximum debt-to-total assets covenant consistent with those in our secured debt agreements and does not include any borrowing base covenant.

Certain investment funds advised by affiliates of our Manager were allocated an aggregate \$55.0 million participation in the Secured Term Loan as a part of a broad syndication lead-arranged by JP Morgan. Blackstone Advisory Partners L.P., an affiliate of our Manager, was engaged as a

book-runner for the transaction and received a fee of \$500,000 in such capacity.

Introduction

Blackstone Mortgage Trust is a real estate finance company that originates senior loans collateralized by commercial real estate in North America, Europe, and Australia. Our investment objective is to preserve and protect shareholder capital while producing attractive risk-adjusted returns primarily through dividends generated from current income from our loan portfolio. We are externally managed by BXMT Advisors L.L.C., or our Manager, a subsidiary of The Blackstone Group L.P., or Blackstone, and are a real estate investment trust, or REIT, traded on the New York Stock Exchange, or NYSE, under the symbol BXMT. We are headquartered in New York City.

We conduct our operations as a REIT for U.S. federal income tax purposes. We generally will not be subject to U.S. federal income taxes on our taxable income to the extent that we annually distribute all of our net taxable income to stockholders and maintain our qualification as a REIT. We also operate our business in a manner that permits us to maintain an exclusion from registration under the Investment Company Act of 1940, as amended. We are organized as a holding company and conduct our business primarily through our various subsidiaries.

I. Key Financial Measures and Indicators

As a real estate finance company, we believe the key financial measures and indicators for our business are earnings per share, dividends declared, Core Earnings, and book value per share. For the three months ended March 31, 2019 we recorded earnings per share of \$0.62, declared a dividend of \$0.62 per share, and reported \$0.71 per share of Core Earnings. In addition, our book value per share as of March 31, 2019 was \$27.32. As further described below, Core Earnings is a measure that is not prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP. We use Core Earnings to evaluate our performance excluding the effects of certain transactions and GAAP adjustments that we believe are not necessarily indicative of our current loan activity and operations.

Table of Contents**Earnings Per Share and Dividends Declared**

The following table sets forth the calculation of basic and diluted net income per share and dividends declared per share (\$ in thousands, except per share data):

	Three Months Ended	
	March 31, 2019	December 31, 2018
Net income (1)	\$ 76,565	\$ 73,643
Weighted-average shares outstanding, basic and diluted	124,333,048	121,588,404
Net income per share, basic and diluted	\$ 0.62	\$ 0.61
Dividends declared per share	\$ 0.62	\$ 0.62

(1) Represents net income attributable to Blackstone Mortgage Trust, Inc.

Core Earnings

Core Earnings is a non-GAAP measure, which we define as GAAP net income (loss), including realized gains and losses not otherwise included in GAAP net income (loss), and excluding (i) net income (loss) attributable to our CT Legacy Portfolio, (ii) non-cash equity compensation expense, (iii) depreciation and amortization, (iv) unrealized gains (losses), and (v) certain non-cash items. Core Earnings may also be adjusted from time to time to exclude one-time events pursuant to changes in GAAP and certain other non-cash charges as determined by our Manager, subject to approval by a majority of our independent directors.

We believe that Core Earnings provides meaningful information to consider in addition to our net income and cash flow from operating activities determined in accordance with GAAP. This adjusted measure helps us to evaluate our performance excluding the effects of certain transactions and GAAP adjustments that we believe are not necessarily indicative of our current loan portfolio and operations. Although, according to the management agreement between our Manager and us, or our Management Agreement, we calculate the incentive and base management fees due to our Manager using Core Earnings before our incentive fee expense, we report Core Earnings after incentive fee expense, as we believe this is a more meaningful presentation of the economic performance of our class A common stock.

Core Earnings does not represent net income or cash generated from operating activities and should not be considered as an alternative to GAAP net income, or an indication of our GAAP cash flows from operations, a measure of our liquidity, or an indication of funds available for our cash needs. In addition, our methodology for calculating Core Earnings may differ from the methodologies employed by other companies to calculate the same or similar supplemental performance measures, and accordingly, our reported Core Earnings may not be comparable to the Core Earnings reported by other companies.

Table of Contents

The following table provides a reconciliation of Core Earnings to GAAP net income (\$ in thousands, except per share data):

	Three Months Ended	
	March 31, 2019	December 31, 2018
Net income (1)	\$ 76,565	\$ 73,643
Non-cash compensation expense	7,768	7,666
Hedging and foreign currency income, net (2)	3,271	1,942
Other items	95	394
Core Earnings	\$ 87,699	\$ 83,645
Weighted-average shares outstanding, basic and diluted	124,333,048	121,588,404
Core Earnings per share, basic and diluted	\$ 0.71	\$ 0.69

- (1) Represents net income attributable to Blackstone Mortgage Trust.
- (2) Primarily represents the forward points earned on our foreign currency forward contracts, which reflect the interest rate differentials between the applicable base rate for our foreign currency investments and USD LIBOR. These forward contracts effectively convert the rate exposure to USD LIBOR, resulting in additional interest income earned in U.S. dollar terms. These amounts are not included in GAAP net income, but rather as a component of Other Comprehensive Income in our consolidated financial statements.

Book Value Per Share

The following table calculates our book value per share (\$ in thousands, except per share data):

Book value per share	\$ 27.32	\$ 27.20

II. Loan Portfolio

During the quarter ended March 31, 2019, we originated or acquired \$698.7 million of loans. Loan fundings during the quarter totaled \$806.2 million, including \$6.9 million of non-consolidated senior interests. Loan repayments during the quarter totaled \$508.2 million, including \$12.7 million of non-consolidated senior interests. We generated interest income of \$224.8 million and incurred interest expense of \$118.7 million during the quarter, which resulted in \$106.1 million of net interest income during the three months ended March 31, 2019.

- (1) Excludes investment exposure to the \$98.6 million subordinate risk retention interest we own in the \$1.0 billion 2018 Single Asset Securitization. Refer to Notes 4 and 15 to our consolidated financial statements for further discussion of the 2018 Single Asset Securitization.
- (2) In certain instances, we finance our loans through the non-recourse sale of a senior loan interest that is not included in our consolidated financial statements. Total loan exposure encompasses the entire loan we originated and financed, including \$449.5 million of such non-consolidated senior interests that are not included in our balance sheet portfolio.
- (3) Includes investment exposure to the \$1.0 billion 2018 Single Asset Securitization. We do not consolidate the 2018 Single Asset Securitization on our consolidated financial statements, and instead reflect our \$98.6 million subordinate risk retention investment as a component of other assets on our consolidated balance sheet. Refer to Notes 4 and 15 to our consolidated financial statements for further discussion of the 2018 Single Asset Securitization.
- (4) Unfunded commitments will primarily be funded to finance our borrowers' construction or development of real estate-related assets, capital improvements of existing assets, or lease-related expenditures. These commitments will generally be funded over the term of each loan, subject in certain cases to an expiration date.
- (5) As of March 31, 2019, 96% of our loans by total loan exposure earned a floating rate of interest, primarily indexed to USD LIBOR, and 4% earned a fixed rate of interest. Cash coupon and all-in yield assume applicable floating benchmark rates as of March 31, 2019 for weighted-average calculation. In addition to cash coupon, all-in yield includes the amortization of deferred origination and extension fees, loan origination costs, and purchase discounts, as well as the accrual of exit fees.
- (6) Maximum maturity assumes all extension options are exercised by the borrower, however our loans and other investments may be repaid prior to such date. As of March 31, 2019, 67% of our loans and other investments were subject to yield maintenance or other prepayment restrictions and 33% were open to repayment by the borrower without penalty.
- (7) Based on LTV as of the dates loans and other investments were originated or acquired by us.

Table of Contents

The charts below detail the geographic distribution and types of properties securing our investment portfolio, as of March 31, 2019:

Refer to section VI of this Item 2 for details of our loan portfolio, on a loan-by-loan basis.

Asset Management

We actively manage the investments in our loan portfolio and exercise the rights afforded to us as a lender, including collateral level budget approvals, lease approvals, loan covenant enforcement, escrow/reserve management, collateral release approvals, and other rights that we may negotiate.

As discussed in Note 2 to our consolidated financial statements, our Manager performs a quarterly review of our loan portfolio, assesses the performance of each loan, and assigns it a risk rating between 1 and 5, from less risk to greater risk.

The following table allocates the principal balance and total loan exposure balances based on our internal risk ratings (\$ in thousands):

March 31, 2019			
Risk Rating	Number of Loans	Net Book Value	Total Loan Exposure (1)(2)
1	3	\$ 255,229	\$ 255,899

4			
5			
	122	\$ 14,508,735	\$ 15,053,372

(1) In certain instances, we finance our loans through the non-recourse sale of a senior loan interest that is not included in our consolidated financial statements. See Note 2 to our consolidated financial statements for further discussion. Total loan exposure encompasses the entire loan we originated and financed, including \$449.5 million of such non-consolidated senior interests as of March 31, 2019.

(2) Excludes investment exposure to the \$1.0 billion 2018 Single Asset Securitization. Refer to Notes 4 and 15 to our consolidated financial statements for details of the subordinated risk retention interest we own in the 2018 Single Asset Securitization.

The weighted-average risk rating of our total loan exposure was 2.7 as of both March 31, 2019 and December 31, 2018.

Table of Contents*Multifamily Joint Venture*

As of March 31, 2019, our Walker & Dunlop Multifamily Joint Venture held \$343.4 million of loans, which are included in the loan disclosures above. Refer to Note 2 to our consolidated financial statements for additional discussion of our Multifamily Joint Venture.

Portfolio Financing

Our portfolio financing arrangements include secured credit facilities, asset-specific financings, a revolving credit agreement, loan participations sold, non-consolidated senior interests, and securitized debt obligations.

The following table details our portfolio financing (\$ in thousands):

	Portfolio Financing	
	Outstanding Principal Balance	
	March 31, 2019	December 31, 2018
Secured credit facilities	\$ 9,093,821	\$ 8,870,897

- (1) Potential borrowings represents the total amount we could draw under each facility based on collateral already approved and pledged. When undrawn, these amounts are immediately available to us at our sole discretion under the terms of each credit facility.
- (2) Represents the principal balance of the collateral assets.
- (3) These facilities finance the loan investments of our consolidated Multifamily Joint Venture. Refer to Note 2 to our consolidated financial statements for additional discussion of our Multifamily Joint Venture.

Asset-Specific Financings

The following tables detail our asset-specific financings (\$ in thousands):

Asset-Specific Financings	Count	Principal Balance	Book Value	March 31, 2019 Wtd. Avg. Yield/Cost (1)		Wtd. Avg. Term (3)
				Guarantee (2)		
Collateral assets	2	\$ 122,699	\$ 112,093	L+6.05%	n/a	Aug. 2022
Financing provided	2	\$ 97,699	\$ 91,624	L+4.06%	n/a	Aug. 2022

- (1) These floating rate loans and related liabilities are indexed to the various benchmark rates relevant in each arrangement in terms of currency and payment frequency. Therefore the net exposure to each benchmark rate is in direct proportion to our net assets indexed to that rate. In addition to cash coupon, yield/cost includes the amortization of deferred origination fees / financing costs.
- (2) Borrowings under our asset-specific financings are non-recourse to us.
- (3) The weighted-average term is determined based on the maximum maturity of the corresponding loans, assuming all extension options are exercised by the borrower. Each of our asset-specific financings are term-matched to the corresponding collateral loans.

Revolving Credit Agreement

We have a \$250.0 million full recourse secured revolving credit agreement with Barclays that is designed to finance first mortgage originations for up to nine months as a bridge to term financing or syndication. Advances under the agreement are subject to availability under a specified borrowing base and accrue interest at a per annum pricing rate equal to the sum of (i) an applicable base rate or Eurodollar rate and (ii) an

applicable margin, in each case, dependent on the applicable type of loan collateral. The maturity date of the facility is April 4, 2020.

Table of Contents

During the three months ended March 31, 2019, the weighted-average outstanding borrowings under the revolving credit agreement was \$43.8 million and we recorded interest expense of \$969,000, including \$268,000 of amortization of deferred fees and expenses. As of March 31, 2019, we had \$43.8 million of borrowings outstanding under the agreement.

Loan Participations Sold

The following table details our loan participations sold (\$ in thousands):

Loan Participations Sold	Count	Principal Balance	Book Value	March 31, 2019			Term
				Yield/ Cost (1)	Guarantee (2)		
Total loan	1	\$ 140,504	\$ 139,504	L+5.96%	n/a		Feb. 2022
Senior participation (3)(4)	1	107,330	107,237	L+4.06%	n/a		Feb. 2022

- (1) Our floating rate loans and related liabilities are indexed to the various benchmark rates relevant in each arrangement in terms of currency and payment frequency. Therefore the net exposure to each benchmark rate is in direct proportion to our net assets indexed to that rate. In addition to cash coupon, yield/cost includes the amortization of deferred fees/financing costs.
- (2) As of March 31, 2019, our loan participations sold was non-recourse to us.
- (3) During the three months ended March 31, 2019, we recorded \$1.7 million of interest expense related to our loan participations sold.
- (4) The difference between principal balance and book value of loan participations sold is due to deferred financing costs of \$93,000 as of March 31, 2019.

Refer to Note 6 to our consolidated financial statements for additional details of our loan participations sold.

Non-Consolidated Senior Interests

In certain instances, we finance our loans through the non-recourse sale of a senior loan interest that is not included in our consolidated financial statements. These non-consolidated senior interests provide structural leverage for our net investments which are reflected in the form of mezzanine loans or other subordinate interests on our balance sheet and in our results of operations. The following table details the subordinate interests retained on our balance sheet and the related non-consolidated senior interests as of March 31, 2019 (\$ in thousands):

Non-Consolidated Senior Interests	Count	Principal Balance	Book Value	March 31, 2019			Wtd. Avg. Term
				Wtd. Avg. Yield/Cost (1)	Guarantee		
Total loan	3	\$ 552,310	n/a	6.10%	n/a		Oct. 2022
Senior participation	3	449,542	n/a	4.60%	n/a		Oct. 2022

- (1) Our floating rate loans and related liabilities were indexed to the various benchmark rates relevant in each arrangement in terms of currency and payment frequency. Therefore the net exposure to each benchmark rate is in direct proportion to our net assets indexed to that rate. In addition to cash coupon, all-in yield/cost includes the amortization of deferred fees / financing costs.

Table of Contents**Securitized Debt Obligations**

Financing provided (4)	2	\$ 1,292,120	\$ 1,286,417	L+1.65%	

- (1) In addition to cash coupon, all-in yield includes the amortization of deferred origination and extension fees, loan origination costs, purchase discounts, and accrual of exit fees. All-in yield for the total portfolio assume applicable floating benchmark rates for weighted-average calculation.
- (2) Loan term represents weighted-average final maturity, assuming all extension options are exercised by the borrower. Repayments of securitized debt obligations are tied to timing of the related collateral loan asset repayments. The term of these obligations represents the rated final distribution date of the securitizations.
- (3) The collateral assets for the 2017 Single Asset Securitization include the total loan amount, of which we securitized \$500.0 million.
- (4) During the three months ended March 31, 2019, we recorded \$13.5 million of interest expense related to our securitized debt obligations. Refer to Notes 7 and 15 to our consolidated financial statements for additional details of our securitized debt obligations.

Floating Rate Portfolio

Generally, our business model is such that rising interest rates will increase our net income, while declining interest rates will decrease net income. As of March 31, 2019, 96% of our loans by total loan exposure earned a floating rate of interest and were financed with liabilities that pay interest at floating rates, which resulted in an amount of net equity that is positively correlated to rising interest rates, subject to the impact of interest rate floors on certain of our floating rate loans. As of March 31, 2019, the remaining 4% of our loans by total loan exposure earned a fixed rate of interest, but are financed with liabilities that pay interest at floating rates, which resulted in a negative correlation to rising interest rates to the extent of our financing. In certain instances where we have financed fixed rate assets with floating rate liabilities, we have purchased interest rate swaps or caps to limit our exposure to increases in interest rates on such liabilities.

Table of Contents

Our liabilities are generally currency and index-matched to each collateral asset, resulting in a net exposure to movements in benchmark rates that varies by currency silo based on the relative proportion of floating rate assets and liabilities. The following table details our loan portfolio's net exposure to interest rates by currency as of March 31, 2019 (\$/£/ A\$/C\$ in thousands):

	USD	GBP	EUR	AUD	CAD
Floating rate loans (1)	\$ 11,665,025	£ 837,541	1,020,697	A\$ 468,020	C\$ 315,393
Floating rate debt (1)(2)(3)	(8,644,829)	(546,781)	(779,119)	(255,270)	(353,849)
Net floating rate exposure (4)	\$ 3,020,196	£ 290,760	241,578	A\$ 212,750	C\$ (38,456)

- (1) Our floating rate loans and related liabilities are indexed to the various benchmark rates relevant in each case in terms of currency and payment frequency. Therefore the net exposure to each benchmark rate is in direct proportion to our net assets indexed to that rate.
- (2) Includes borrowings under secured debt agreements, loan participations sold, non-consolidated senior interests, and securitized debt obligations.
- (3) Balance includes two interest rate swaps totaling C\$17.3 million (\$13.0 million as of March 31, 2019) that are used to hedge a portion of our fixed rate debt.
- (4) In addition, we have interest rate caps of \$178.4 million and C\$21.7 million (\$16.3 million as of March 31, 2019) to limit our exposure to increases in interest rates.

Convertible Notes

As of March 31, 2019, the following convertible senior notes, or Convertible Notes, were outstanding (\$ in thousands):

Convertible Notes Issuance	Face Value	Coupon Rate	All-in Cost (1)	Maturity

Income from loans and other investments, net

Income from loans and other investments, net increased \$20.6 million during the three months ended March 31, 2019 compared to the corresponding period in 2018. The increase was primarily due to (i) an increase in LIBOR and (ii) an increase in the weighted-average principal balance of our loan portfolio, which increased by \$4.4 billion during the three months ended March 31, 2019, as compared to the corresponding period in 2018. This was offset by the increase in the weighted-average principal balance of our outstanding financing arrangements, which increased by \$4.0 billion during the three months ended March 31, 2019, as compared to the corresponding period in 2018.

Other expenses

Other expenses are composed of management and incentive fees payable to our Manager and general and administrative expenses. Other expenses increased by \$4.9 million during the three months ended March 31, 2019 compared to the corresponding period in 2018 due to (i) an increase of \$2.3 million of incentive fees payable to our Manager as a result of an increase in Core Earnings, (ii) an increase of \$2.0 million of management fees payable to our Manager, primarily as a result of net proceeds received from the sale of our class A common stock during 2018, and (iii) \$792,000 of additional non-cash restricted stock amortization related to shares awarded under our long-term incentive plans. These were partially offset by a decrease of \$186,000 of general operating expenses.

Net income attributable to non-controlling interests

During the three months ended March 31, 2019 and 2018, we recorded \$302,000 and \$158,000, respectively, of net income attributable to non-controlling interests related to our Multifamily Joint Venture.

Table of Contents

Dividends per share

During the three months ended March 31, 2019, we declared a dividend of \$0.62 per share, or \$77.9 million, which was paid on April 15, 2019 to common stockholders of record as of March 29, 2019. During the three months ended March 31, 2018, we declared a dividend of \$0.62 per share, or \$67.1 million.

IV. Liquidity and Capital Resources

Capitalization

We have capitalized our business to date through, among other things, the issuance and sale of shares of our class A common stock, borrowings under secured debt agreements, and the issuance and sale of Convertible Notes. As of March 31, 2019, we had 125,666,550 shares of our class A common stock outstanding representing \$3.5 billion of stockholders' equity, \$9.2 billion of outstanding borrowings under secured debt agreements, and \$622.5 million of Convertible Notes outstanding.

As of March 31, 2019, our secured debt agreements consisted of secured credit facilities with an outstanding balance of \$9.1 billion and \$97.7 million of asset-specific financings. We also finance our business through the sale of loan participations and non-consolidated senior interests. As of March 31, 2019 we had \$107.3 million of loan participations sold and \$449.5 million of non-consolidated senior interests outstanding. In addition, as of March 31, 2019, our consolidated balance sheet included \$1.3 billion of securitized debt obligations related to our CLO and our 2017 Single Asset Securitization.

See Notes 5, 6, 7, and 8 to our consolidated financial statements for additional details regarding our secured debt agreements, loan participations sold, securitized debt obligations, and Convertible Notes, respectively.

Debt-to-Equity Ratio and Total Leverage Ratio

The following table presents our debt-to-equity ratio and total leverage ratio:

	March 31, 2019	December 31, 2018
Debt-to-equity ratio (1)	2.8x	2.8x
Total leverage ratio (2)	3.7x	3.7x

- (1) Represents (i) total outstanding secured debt agreements and convertible notes, less cash, to (ii) total equity, in each case at period end.
 (2) Represents (i) total outstanding secured debt agreements, convertible notes, loan participations sold, non-consolidated senior interests, and securitized debt obligations, less cash, to (ii) total equity, in each case at period end.

Table of Contents**Sources of Liquidity**

Our primary sources of liquidity include cash and cash equivalents, available borrowings under our secured debt agreements, and net receivables from servicers related to loan repayments which are set forth in the following table (\$ in thousands):

	March 31, 2019	December 31, 2018
Cash and cash equivalents	\$ 79,437	\$ 105,662
Available borrowings under secured debt agreements	370,514	359,618
Loan principal payments held by servicer, net (1)	37,285	4,855
	\$ 487,236	\$ 470,135

(1) Represents loan principal payments held by our third-party servicer as of the balance sheet date which were remitted to us during the subsequent remittance cycle, net of the related secured debt balance.

In addition to our current sources of liquidity, we have access to liquidity through public offerings of debt and equity securities. To facilitate such offerings, in July 2016, we filed a shelf registration statement with the Securities and Exchange Commission, or the SEC, that is effective for a term of three years and expires in July 2019. The amount of securities to be issued pursuant to this shelf registration statement was not specified when it was filed and there is no specific dollar limit on the amount of securities we may issue. The securities covered by this registration statement include: (i) class A common stock; (ii) preferred stock; (iii) debt securities; (iv) depositary shares representing preferred stock; (v) warrants; (vi) subscription rights; (vii) purchase contracts; and (viii) units consisting of one or more of such securities or any combination of these securities. The specifics of any future offerings, along with the use of proceeds of any securities offered, will be described in detail in a prospectus supplement, or other offering materials, at the time of any offering.

We may also access liquidity through a dividend reinvestment plan and direct stock purchase plan, under which 9,994,957 shares of class A common stock were available for issuance as of March 31, 2019, and our at-the-market stock offering program, pursuant to which we may sell, from time to time, up to \$363.8 million of additional shares of our class A common stock as of March 31, 2019. Refer to Note 10 to our consolidated financial statements for additional details.

Our existing loan portfolio also provides us with liquidity as loans are repaid or sold, in whole or in part, and the proceeds from such repayments become available for us to reinvest.

Liquidity Needs

In addition to our ongoing loan origination activity, our primary liquidity needs include interest and principal payments under our \$9.2 billion of outstanding borrowings under secured debt agreements, our Convertible Notes, our unfunded loan commitments, dividend distributions to our stockholders, and operating expenses.

Table of Contents**Contractual Obligations and Commitments**

Our contractual obligations and commitments as of March 31, 2019 were as follows (\$ in thousands):

	Total Obligation	Less Than 1 Year	Payment Timing		
			1 to 3 Years	3 to 5 Years	More Than 5 Years
Unfunded loan commitments (1)	\$ 3,123,059	\$ 194,868	\$ 1,253,409	\$ 1,674,782	\$
Principal repayments under secured debt agreements (2)	9,235,365	392,854	3,484,304	5,172,469	185,738
Principal repayments of convertible notes (3)	622,500			622,500	
Interest payments (2)(4)	1,242,888	402,734	622,760	209,286	8,108
Total (5)	\$ 14,223,812	\$ 990,456	\$ 5,360,473	\$ 7,679,037	\$ 193,846

- (1) The allocation of our unfunded loan commitments is based on the earlier of the commitment expiration date or the loan maturity date.
- (2) The allocation of repayments under our secured debt agreements for both principal and interest payments is based on the earlier of (i) the maturity date of each facility, or (ii) the maximum maturity date of the collateral loans, assuming all extension options are exercised by the borrower.
- (3) Reflects the outstanding principal balance of convertible notes, excluding any potential conversion premium. Refer to Note 8 to our consolidated financial statements for further details on our convertible notes.
- (4) Represents interest payments on our secured debt agreements and convertible notes. Future interest payment obligations are estimated assuming the amounts outstanding and the interest rates in effect as of March 31, 2019 will remain constant into the future. This is only an estimate as actual amounts borrowed and interest rates will vary over time.
- (5) Total does not include \$107.3 million of loan participations sold, \$449.5 million of non-consolidated senior interests, and \$1.3 billion of securitized debt obligations, as the satisfaction of these liabilities will not require cash outlays from us.

We are also required to settle our foreign currency forward contracts and interest rate swaps with our derivative counterparties upon maturity which, depending on foreign exchange and interest rate movements, may result in cash received from or due to the respective counterparty. The table above does not include these amounts as they are not fixed and determinable. Refer to Note 9 to our consolidated financial statements for details regarding our derivative contracts.

We are required to pay our Manager a base management fee, an incentive fee, and reimbursements for certain expenses pursuant to our Management Agreement. The table above does not include the amounts payable to our Manager under our Management Agreement as they are not fixed and determinable. Refer to Note 11 to our consolidated financial statements for additional terms and details of the fees payable under our Management Agreement.

As a REIT, we generally must distribute substantially all of our net taxable income to stockholders in the form of dividends to comply with the REIT provisions of the Internal Revenue Code. Our taxable income does not necessarily equal our net income as calculated in accordance with GAAP, or our Core Earnings as described above.

Table of Contents**Cash Flows**

The following table provides a breakdown of the net change in our cash, cash equivalents, and restricted cash (\$ in thousands):

	Three Months Ended March 31,	
	2019	2018
Cash flows provided by operating activities	\$ 77,572	\$ 72,579
Cash flows used in investing activities	(333,446)	(967,495)
Cash flows provided by financing activities	229,678	857,676
Net decrease in cash, cash equivalents, and restricted cash	\$ (26,196)	\$ (37,240)

We experienced a net decrease in cash, cash equivalents, and restricted cash of \$26.2 million for the three months ended March 31, 2019, compared to a net decrease of \$37.2 million for the three months ended March 31, 2018. During the three months ended March 31, 2019, we (i) received \$463.5 million of proceeds from loan principal repayments, (ii) borrowed a net \$237.8 million under our secured debt agreements, and (iii) received \$65.4 million of net proceeds from the issuance of class A common stock. We used the proceeds from our loan repayments and debt and equity financing activities to fund \$799.3 million of new loans during the three months ended March 31, 2019.

Refer to Note 3 to our consolidated financial statements for further discussion of our loan activity. Refer to Notes 5 and 10 to our consolidated financial statements for additional discussion of our secured debt agreements and equity.

V. Other Items**Income Taxes**

We have elected to be taxed as a REIT under the Internal Revenue Code for U.S. federal income tax purposes. We generally must distribute annually at least 90% of our net taxable income, subject to certain adjustments and excluding any net capital gain, in order for U.S. federal income tax not to apply to our earnings that we distribute. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our net taxable income, we will be subject to U.S. federal income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under U.S. federal tax laws.

Our qualification as a REIT also depends on our ability to meet various other requirements imposed by the Internal Revenue Code, which relate to organizational structure, diversity of stock ownership, and certain restrictions with regard to the nature of our assets and the sources of our income. Even if we qualify as a REIT, we may be subject to certain U.S. federal income and excise taxes and state and local taxes on our income and assets. If we fail to maintain our qualification as a REIT for any taxable year, we may be subject to material penalties as well as federal, state and local income tax on our taxable income at regular corporate rates and we would not be able to qualify as a REIT for the subsequent four full taxable years. As of March 31, 2019 and December 31, 2018, we were in compliance with all REIT requirements.

Refer to Note 12 to our consolidated financial statements for additional discussion of our income taxes.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires our Manager to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. Actual results could differ from these estimates. There have been no material changes to our Critical Accounting Policies described in our annual report on Form 10-K filed with the SEC on February 12, 2019.

Refer to Note 2 to our consolidated financial statements for the description of our significant accounting policies.

- (1) Senior loans include senior mortgages and similar credit quality loans, including related contiguous subordinate loans and pari passu participations in senior mortgage loans.
- (2) Date loan was originated or acquired by us, and the LTV as of such date. Dates are not updated for subsequent loan modifications or upsizes.
- (3) In certain instances, we finance our loans through the non-recourse sale of a senior loan interest that is not included in our consolidated financial statements. As of March 31, 2019, three loans in our portfolio have been financed with an aggregate \$449.5 million of non-consolidated senior interest, which are included in the table above.
- (4) Portfolio excludes our \$98.6 million subordinate risk retention interest in the \$1.0 billion 2018 Single Asset Securitization. Refer to Notes 4 and 15 to our consolidated financial statements for details of the 2018 Single Asset Securitization.
- (5) As of March 31, 2019, our floating rate loans were indexed to various benchmark rates, with 81% of floating rate loans by loan exposure indexed to USD LIBOR. In addition to cash coupon, all-in yield includes the amortization of deferred origination and extension fees, loan origination costs, and purchase discounts, as well as the accrual of exit fees.
- (6) Maximum maturity assumes all extension options are exercised, however our loans may be repaid prior to such date.
- (7) Loan consists of one or more floating and fixed rate tranches. Coupon and all-in yield assume applicable floating benchmark rates for weighted-average calculation.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK****Interest Rate Risk***Loan Portfolio Net Interest Income*

Generally, our business model is such that rising interest rates will increase our net income, while declining interest rates will decrease net income. As of March 31, 2019, 96% of our loans by total loan exposure earned a floating rate of interest and were financed with liabilities that pay interest at floating rates, which resulted in an amount of net equity that is positively correlated to rising interest rates, subject to the impact of interest rate floors on certain of our floating rate loans. As of March 31, 2019, the remaining 4% of our loans by total loan exposure earned a fixed rate of interest, but are financed with liabilities that pay interest at floating rates, which resulted in a negative correlation to rising interest rates to the extent of our financing. In certain instances where we have financed fixed rate assets with floating rate liabilities, we have purchased interest rate swaps or caps to limit our exposure to increases in interest rates on such liabilities.

The following table projects the impact on our interest income and expense, net of incentive fees, for the twelve-month period following March 31, 2019, assuming an immediate increase or decrease of both 25 and 50 basis points in the applicable interest rate benchmark by currency (\$ in thousands):

- (1) Our floating rate loans and related liabilities are indexed to the various benchmark rates relevant in each case in terms of currency and payment frequency. Therefore the net exposure to each benchmark rate is in direct proportion to our net assets indexed to that rate.

Edgar Filing: BLACKSTONE MORTGAGE TRUST, INC. - Form 10-Q

Increases (decreases) in interest income and expense are presented net of incentive fees. Refer to Note 11 to our consolidated financial statements for additional details of our incentive fee calculation.

- (2) Includes borrowings under secured debt agreements, loan participations sold, non-consolidated senior interests, and securitized debt obligations.
- (3) Liabilities balance includes two interest rate swaps totaling C\$17.3 million (\$13.0 million as of March 31, 2019) that are used to hedge a portion of our fixed rate debt.

Table of Contents

Loan Portfolio Value

As of March 31, 2019, 4% of our loans by total loan exposure earned a fixed rate of interest and as such, the values of such loans are sensitive to changes in interest rates. We generally hold all of our loans to maturity and so do not expect to realize gains or losses on our fixed rate loan portfolio as a result of movements in market interest rates.

Risk of Non-Performance

In addition to the risks related to fluctuations in cash flows and asset values associated with movements in interest rates, there is also the risk of non-performance on floating rate assets. In the case of a significant increase in interest rates, the additional debt service payments due from our borrowers may strain the operating cash flows of the collateral real estate assets and, potentially, contribute to non-performance or, in severe cases, default. This risk is partially mitigated by various facts we consider during our underwriting process, which in certain cases include a requirement for our borrower to purchase an interest rate cap contract.

Credit Risks

Our loans and investments are also subject to credit risk. The performance and value of our loans and investments depend upon the sponsors ability to operate the properties that serve as our collateral so that they produce cash flows adequate to pay interest and principal due to us. To monitor this risk, our Manager's asset management team reviews our investment portfolios and in certain instances is in regular contact with our borrowers, monitoring performance of the collateral and enforcing our rights as necessary.

In addition, we are exposed to the risks generally associated with the commercial real estate market, including variances in occupancy rates, capitalization rates, absorption rates, and other macroeconomic factors beyond our control. We seek to manage these risks through our underwriting and asset management processes.

Capital Market Risks

We are exposed to risks related to the equity capital markets, and our related ability to raise capital through the issuance of our class A common stock or other equity instruments. We are also exposed to risks related to the debt capital markets, and our related ability to finance our business through borrowings under credit facilities or other debt instruments. As a REIT, we are required to distribute a significant portion of our taxable income annually, which constrains our ability to accumulate operating cash flow and therefore requires us to utilize debt or equity capital to finance our business. We seek to mitigate these risks by monitoring the debt and equity capital markets to inform our decisions on the amount, timing, and terms of capital we raise.

Counterparty Risk

The nature of our business requires us to hold our cash and cash equivalents and obtain financing from various financial institutions. This exposes us to the risk that these financial institutions may not fulfill their obligations to us under these various contractual arrangements. We mitigate this exposure by depositing our cash and cash equivalents and entering into financing agreements with high credit-quality institutions.

The nature of our loans and investments also exposes us to the risk that our counterparties do not make required interest and principal payments on scheduled due dates. We seek to manage this risk through a comprehensive credit analysis prior to making an investment and active monitoring of the asset portfolios that serve as our collateral.

Currency Risk

Our loans and investments that are denominated in a foreign currency are also subject to risks related to fluctuations in currency rates. We mitigate this exposure by matching the currency of our foreign currency assets to

the currency of the borrowings that finance those assets. As a result, we substantially reduce our exposure to changes in portfolio value related to changes in foreign currency rates. In certain circumstances, we may also enter into foreign currency derivative contracts to further mitigate this exposure.

The following table outlines our assets and liabilities that are denominated in a foreign currency (£/ /C\$/A\$ in thousands):

	March 31, 2019			
Foreign currency assets (1)	£ 1,207,738	1,033,564	C\$ 459,326	A\$ 471,467
Foreign currency liabilities (1)	(852,037)	(775,538)	(371,934)	(256,671)
Foreign currency contracts notional	(262,000)	(179,600)	(78,700)	(210,700)
Net exposure to exchange rate fluctuations	£ 93,701	78,426	C\$ 8,692	A\$ 4,096

(1) Balances include non-consolidated senior interests of £302.0 million

We estimate that a 10% appreciation of the United States dollar relative to the British Pound Sterling and the Euro would result in a decline in our net assets in U.S. dollar terms of \$46.4 million and \$28.9 million, respectively, as of March 31, 2019. Substantially all of our net asset exposure to the Canadian and Australian dollar has been hedged with foreign currency forward contracts.

ITEM 4. CONTROLS AND PROCEDURES**Evaluation of Disclosure Controls and Procedures**

An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as of the end of the period covered by this quarterly report on Form 10-Q was made under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer. Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (a) are effective to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by SEC rules and forms and (b) include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the period covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Fifth Amended and Restated Bylaws

Effective April 19, 2019, our board of directors approved our Fifth Amended and Restated Bylaws, which amend and restate our existing bylaws to allow stockholders the power to adopt, alter or repeal any provision of the bylaws, or adopt new bylaws, by the affirmative vote of a majority of the votes entitled to be cast on the matter by stockholders entitled to vote in the election of directors. The Fifth Amended and Restated Bylaws also incorporate conforming language and stylistic and clarifying changes, including to clarify the circumstances under which a properly submitted stockholder proposal shall be considered at a meeting of stockholders.

The foregoing description does not purport to be complete and is qualified in its entirety by reference to the full text of the Fifth Amended and Restated Bylaws, which is filed as Exhibit 3.1 to this quarterly report on Form 10-Q and is incorporated herein by reference. In addition, a version of the Fifth Amended and Restated Bylaws that has been marked to show changes from the bylaws that were previously in effect is included as Exhibit 3.2 and is incorporated herein by reference.
