Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): Not applicable.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused the Report to be signed on its behalf by the undersigned, thereunto duly authorized.

Date: October 26, 2007

SADIA S.A.

By:/s/Welson Teixeira Junior

Name: Welson Teixeira Junior
Title: Investor Relations Officer

3Q07	<p>São Paulo, October 25, 2007. SADIA S.A. (BOVESPA: SDIA3 and SDIA4; NYSE: SDA; LATIBEX: XSDI), a national leader in the segment of processed food, poultry and pork products, releases today its results for the third quarter of 2007 (3Q07). The Company's operating and financial information are presented in thousands of reais – except where indicated otherwise – based on figures restated in accordance with the corporate legislation. In this release, all comparisons are made in relation to the same period in 2006 (3Q06), except where specified otherwise.</p> <p>"Performance in the third quarter of 2007 was marked by a sustainable growth both in the domestic and in the export markets. Gross revenues had a growth of 19.5%, reaching R\$2.5 billion. EBITDA totaled R\$273.2 million, 65.8% higher than the 3Q06, and provided an expansion of 3.5 percentage points in margin, reaching 12.7%. We highlight the growth in sales of processed products in both markets, aligned with Sadia's strategy of enhancing the mix with higher value-added products. In the export market, the demand for poultry continued to be strong and this contributed to an increase in volumes and in US\$ prices of this segment. The poultry slaughtering unit of Lucas do Rio Verde, in the State of Mato Grosso, will start its operations by the first half of 2008. A pork slaughtering unit will follow by the second half of 2008. Operations in Russia, where the Sadia brand is already well-known, will be expanded with the opening of a new meat processing unit in Kaliningrad in December of this year. Our challenge is for accelerated growth. Favorable conditions in both the domestic and export markets, the advances of the sales and distribution processes, the improvement in operational efficiency of our plants, and the promotion of a culture towards results, supported by a strong investment in expanding the production capacity will allow the Company to double its revenues in the next five years. Thus, Sadia reaffirms its commitment to all of its stakeholders, by ensuring the quality of its products and the sustainability of its initiatives and by strengthening its credibility to investors." Gilberto Tomazoni – Chief Executive Officer</p>

<i>EBITDA Margin</i>	6.5%	12.1%		9.2%	12.7%	
Exports / Gross Revenue	43.6%	46.7%		46.4%	46.5%	

In the first nine months of 2007, gross operating revenue grew 24.0% as compared to the same period of 2006, to R\$6,926.0 million, boosted by the favorable performance of volumes sold, and prices in the processed products and poultry segment. Domestic market revenues had a growth of 17.2%, while export revenues showed a growth of 32.8%. Thus, sales to the export market accounted for 46.7% of total revenues, in line with the corporate strategy of maintaining both market shares at roughly 50/50. In the 9M07, volumes increased by 11.8% in relation to the same period of 2006 and reached 1.6 million tons.

Edgar Filing: SADIA S.A. - Form 6-K

In the 3Q07, revenues increased by 19.5%, to R\$ 2,455.1 million; the domestic market grew by 19.2% and the export market by 19.9% . Volumes reached 535.2 thousand tons, 9.0% higher than that of the 3Q06, of which 247.2 thousand tons were sold in the domestic market (+4.4%) and 288.0 thousand tons were exported (+13.2%) .

The performance of the processed products segment remained strong in the 9M07, and revenues totaled R\$3,289.7 million, a growth of 18.3% . In the 3Q07, this segment generated revenues of R\$1,167.5 million, representing an increase of 20.3% over the same period of 2006. Volumes sold increased by 15.5% over the 9M07 and 15.2% in the quarter. The domestic market accounts for almost 90.0%, as much of sales volumes as of revenues from this segment.

In the 9M07, the poultry segment generated revenues of R\$2,579.5 million, representing a growth of 26.9% as compared with the same period of 2006. In the 3Q07, this segment generated revenues of R\$915.9 million, corresponding to a growth of 17.1% and reflecting an increase of 11.5% in average price and of 4.9% in volumes sold. The average price of poultry recorded the highest rise both in YTD and in quarterly comparisons.

In the 9M07, pork revenues increased by 36.6% and volumes sold exceeded those of the 9M06 by 35.4% . Pork volumes grew by 13.1% in the 3Q07, while the average price of this protein fell 6.7% between those quarters, causing revenues to grow 5.5% only.

In the 9M07, the beef segment grew 20.5% in volumes sold and 21.5% in revenues. In the 3Q07, this segment recorded a performance below that reached in the 3Q06, when both volumes sold and revenues dropped 23.1% and 24.6% respectively, reflecting a reduction of 1.9% in the average price.

Domestic Market

Revenues from the domestic market increased by 19.2% in the 3Q07 and 17.2% in the 9M07, while volumes sold increased 4.4% and 4.0%, respectively. Average prices in the domestic market rose 12.8% in the 3Q07 and 11.3% in the 9M07.

Processed products segment recorded a significant growth, of 11.1% in volumes and 19.7% in revenues in the 3Q07. The average price of this segment increased 7.6% in the quarter in relation to the same quarter of the prior year and already reflects the efforts of Sadia's team in the pass through of prices due to the pressure from rising grain costs during this year. In the 9M07, volumes grew by 12.5% and revenues by 17.3%, representing an increase of 4.3% in the average price.

Edgar Filing: SADIA S.A. - Form 6-K

In the poultry segment, volumes fell 28.1% and revenues 2.7% in 3Q07, a fact minimized by the rise of 35.0% in the average price. Over the 9M07, redirecting this product to the export market caused a reduction in sales to the domestic market, which recorded a fall of 32.0% and a growth of 4.2% in revenues, due to the increase of 53.2% in the average price in relation to the same period last year.

Pork volumes sold dropped 5.5% in the 3Q07, while revenues rose 10.1% in the period as a result of the increase of 16.4% in the average price. In the 9M07, volumes rose 3.9% and revenues 13.8%, an increase of 9.6% in the average price.

The beef segment posted the highest percentage growth in revenues between the quarters, of 94.0%, and its share grew from 0.8% in the 3Q06 to 1.3% in the 3Q07 of the domestic market total revenues. Volumes sold grew 40.6% in the quarter, reflecting the redirection of products towards the domestic market due to a temporary interruption of these exports to Venezuela. The average price in the quarter rose 38.1% . In the 9Q07, revenues rose 16.2% and volumes fell 7.4%, with an average price 25.6% higher than those charged in the 9M06.

Export Market

Sadia's performance in the export market during the 3Q07 was positive. The effects of the agriculture inspectors' strike during a couple of days in July and September were not sufficient to adversely affect the Company's operating results.

The processed products segment recorded an increase in volumes of 56.0% in the 3Q07, reaching 29.4 thousand tons and of 42.1% in the 9M07, reaching 81.9 thousand tons. The share of the processed products segment in total volumes grew from 7.4% in the 3Q06 to 10.2% in the 3Q07. Revenues generated by this segment grew 25.7% in the 3Q07 and 27.0% in the 9M07. Nonetheless, in the quarterly comparison, the average price of processed products fell 19.5% in Brazilian reais due to product mix, representing a fall of 6.2% in U.S. dollars.

In the poultry segment, export revenues increased by 20.2% in the 3Q07 and 30.8% in the 9M07. Poultry sales volumes grew 11.1% in the 3Q07, when 222.1 thousand tons were sold, but its share in total volumes exported fell to 77.0%, compared with 78.6% in the 3Q06, reducing the Company's exposure to this commodity. The continuous growth in poultry volumes sold reflects the diminution of global concern about the consumption of this kind of protein due to the Avian Influenza. Its average price in Brazilian reais increased by 8.3% in relation to 3Q06, representing an increase of 21.8% in U.S. dollars.

In the pork segment, export revenues increased by 3.9% in the 3Q07 and 47.2% in the 9M07. Physical sales of pork protein grew 21.9% in the 3Q07 and 53.4% in the 9M07. In the 3Q07, the average price fell 14.8% in Brazilian reais when compared to the 3Q06, representing a fall of 2.0% in U.S. dollars. Pork volumes exported continues to be affected by the Russian embargo to the Brazilian pork but the dependence upon this market has fallen during the last two years.

Revenues from the beef segment declined 38.3% in the 3Q07 and increased by 22.4% in the 9M07. Sales volumes fell 34.6% in the 3Q07 and rose 27.1% in the 9M07. A temporary suspension of beef shipments to Venezuela, which has already been normalized, contributed to this setback in the 3Q07. The average price dropped 5.6% in the 3Q07 and rose 6.5% in U.S. dollars. The export market accounts for more than 80.0% of beef revenues.

With its continuing efforts, Sadia has managed to explore new markets and to expand sales in the existing ones.

EXPORTS BY REGION

OPERATING RESULTS

In the 3Q07, Sadia recorded a net operating revenue of R\$ 2.2 billion, a rise of 19.8% in relation to the same period in 2006, as a result of the growth in volumes and in average prices. Along the nine months of 2007, it showed an expansion of 25.3% over the 9M06 results, totaling R\$ 6.1 billion.

Costs per ton sold in the quarter increased by 6.2% in relation to 3Q06 mostly due to the increase in grain prices.

The cost of sales to net operating income ratio in the 3Q07 reached 27.7%, an improvement which resulted from the strong growth in revenues due to the pass through of prices and volume increase.

The market prices (ESALQ North Paraná) for corn and soya bean in the 3Q07 were 40.3% and 25.4%, respectively, higher than those in the 3Q06.

Operating expenses - selling, general and administrative and other expenses ratio in the 3Q07 totaled R\$422.3 million, 15.6% higher than that of the 3Q06. Net income reached 19.6% in the 3Q07, a percentage lower than the 20.4% in the 3Q06.

Selling expenses fell to 17.2% in the 3Q07 compared to 18.6% in the 3Q06, mostly reflecting a better dilution of fixed expenses.

EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) in the 3Q07 amounted to R\$273.2 million and the EBITDA margin, of 12.7%, exceeded by 3.5 percentage points that reached in the 3Q06. In the 9M07, EBITDA reached R\$733.9 million and a margin of 12.1%, aligned with the corporate guidance for the EBITDA margin of the year, of 12.0% to 13.0% and 5.6 percentage points higher than that reached in the 9M06.

EBITDA CALCULATION = EBIT + DEPRECIATION/AMORTIZATION/SUBVENTION + EMPLOYEE PROFIT SHARING

	9M06	9M07	3Q06	3Q07

EBITDA	315,577	733,915	164,801	273,211
EBITDA MARGIN	6.5%	12.1%	9.2%	12.7%

The Company is entitled to investment grants scheduled to expire between 2014 and 2020, provided by the Governments of the States of Minas Gerais and Mato Grosso, where some of its industrial plants are located. Until March 31, 2007, such grants had been recognized in the net income for the year, since they were not directly related to the Company's investment projects. As already disclosed to the market, the Company has been investing in a project to expand and modernize its production units, consisting of an increase in installed capacity, expansion of the manufacturing concern, increase of production and generation of jobs. As of April 1, 2007, those States started to bind grants to investments and this led the Company to recognize those grants in the Capital Reserve account, under "Stockholders Equity". The amount of those grants recorded for the period ended at September 30, 2007 was R\$15.1 million (R\$10.6 million at June 30, 2007).

FINANCIAL RESULT

Sadia's financial results are the consequence of the risk and management policies which aim to protect its assets and liabilities on a consolidated basis. Net income for the 3Q07 was a negative R\$ 11.7 million, while in the 3Q06 it was a negative R\$ 3.7 million.

At the end of September 2007, Sadia's net financial debt totaled R\$ 1,208.4 million and net debt to shareholders' equity ratio was 43.9% .

** Moving average of the last 36 months.*

NET INCOME

Net income in the 3Q07 was R\$188.4 million. Net margin in the quarter was 8.8%. Along the nine months of 2007, net income reached R\$ 393.9 million, while in the 9M06 it reached R\$ 153.6 million. This enabled the Company to record a return on equity (ROE) of 14.3%, against 6.6% for the nine months in 2006.

Sadia made investments of R\$ 269.7 million for the 3Q07. Out of the total amount invested in the quarter, R\$107.4 million (39.8%) were allocated to the poultry segment; R\$49.7 million (18.4%) to the processed products segment; R\$49.8 million (18.5%) to the pork segment; R\$28.2 million (10.5%) to the beef segment and R\$34.6 million (12.8%) to other.

The Company's operation in Russia, where the brand is widely well-known, will be expanded with the opening, in December 2007, of the new meat processing unit in Kaliningrad, a total investment made by the Company of R\$95.0 million.

Sadia investments in 2007 will total about R\$800.0 million, in addition to some R\$150.0 million in breeding stock to increase the production capacity of Sadia plants.

OUTLOOK

For 2007, Sadia expects a growth between 12.0% and 14.0% in volume sales compared with 2006 and an EBITDA margin between 12.0% and 13.0%. In addition, the Company expects to resume the growth shown in recent years, with successive production and profitability records, making use of new business opportunities both in the domestic and in the export markets.

Due to the strong comeback in international poultry demand after the Bird Flu crisis in 2006, the product has been redirected to the export market during the 9M07, which caused a drop of 32.0% in the volumes in the domestic market. Therefore, Sadia's growth for the period amounted to 4.0% - figure below the guidance of 8.0% to 10.0% growth in volumes for the domestic market, even though the processed products segment grew 12.5% for the 9M07.

In the export market, however, the Company grew 19.4% in volumes between January and September, above the guidance of 16.0% to 18.0%. The main reason was the high performance in sales in all segments during that period. This performance will allow Sadia to reach the average estimated growth of 12.0% to 14.0% for the whole Company for 2007.

Sadia reiterates its commitment to growth and keeps the expectations to double revenues in the next five years. The Board of Directors approved an investment plan for the July 2007 to December 2008 period, of R\$2.0 billion, distributed as follows: R\$720.0 million to the processed products segment; R\$640.0 million to the Lucas do Rio Verde plant; R\$130.0 million to the beef segment; and other R\$510.0 million to expansion projects, IT, infrastructure and breeding stock.

Investments in the processed products segment of R\$720 million are for the refrigerated line, baked grilled and breaded products, besides other non-meat products. These products will be directed towards both markets. Among these investments are the new plant in the northeastern part of Brasil and the plant of processed products in Lucas do Rio Verde. The new plant in the state of Pernambuco, the Company's first plant in the northeast will be in the city of Vitoria de Santo Antão, 50km from Recife and will produce processed meat products such as bolognas, hot-dogs, and sausages and should generate additional revenues of R\$390 million for the Company. This unit will generate 1.2 thousand direct jobs and approximately 3.6 thousand indirect jobs. Construction will begin in January 2008 and the expectation is that the unit begins its activities in January 2009. Aside from the plant, Sadia plans on constructing a distribution center in the town with the objective of supplying the demand of the northeastern region of the country. All together the Company plans on investing R\$ 250 million.

Edgar Filing: SADIA S.A. - Form 6-K

Investments of R\$640.0 million in Lucas do Rio Verde includes the construction of new poultry and pork slaughtering units and an animal feed factory.

Regarding the beef segment, Sadia shall slaughter 6,000 heads/day by 2009. In order to do so, the Company will expand its slaughter capacity in Várzea Grande from 1,000 heads/day to 2,000 heads/day in 2007 and will add a new plant with capacity to slaughter 2,000 heads/day in 2008.

CAPITAL MARKETS

São Paulo Stock Exchange - BOVESPA

The Company's preferred shares are part of the theoretical portfolio of the São Paulo Stock Exchange Index (IBOVESPA). This portfolio lists 63 papers and for the four-month period from September to December/07, the relative weight of Sadia in that index is 0.93% .

Sadia s preferred shares (SDIA4) had a year-to-date increase of 72.3% in the latest twelve months (September 30, 2006 to September 30, 2007) while the variation of the Ibovespa in the period was 65.9% .

Sadia s preferred shares were distributed among the various categories of Bovespa investors, the highlight of which, was the number of foreign investors. The daily average volume over the last 12 months grew 70.8%, to R\$19.3 million.
