### Same stores sales up 4.8% in March and April

**São Paulo, Brazil, May 15, 2008. Grupo Pão de Açúcar [NYSE: CBD; BOVESPA: PCAR4 (PN)]** has announced its sales performance for April 2008 (preliminary, unaudited results). The information presented below was calculated based on the consolidated figures in Brazilian Reais according to the Corporate Legislation.

Gross sales totaled R\$1,588.1 million in April 2008, up 6.1%, while net sales grew by 8.7%, totaling R\$1,372.4 million.

As expected, sales performance in March and April was impacted by seasonality given that, in 2008, Easter took place in March, while in 2007, it was in April. In view of this, same store sales figure was calculated taking the two-month period (March and April) into account.

Thus, same store gross sales in the two-month period had a 4.8% increase, while net sales grew by 6.2%. In April, sales were impacted by the calendar effect and recorded a decrease in gross and net terms of 4.6% and 2.2%, respectively. According to our estimates, the calendar effect (Easter) represented an impact of 700 to 800 basis points. In the four-month period, in the same store concept, gross sales grew by 5.0% and net sales climbed 6.0%.

Food product sales grew by 2.8% in the same store concept in March and April. In the same period, non-food product sales recorded a positive performance of 10.9% in same store terms, driven by the electronic ( Mundo Entretenimento ) and general merchandise ( Mundo Casa ) sub-categories.

Note: "Same store" sales include stores in operation for at least 12 months.

As of November 2007 the "total sales" concept includes by the Assai stores.

Statements included in this report regarding the Company's business prospects, the outlook for operating and financial results, and referring to the Company's growth potential are merely projections and were based on Management's expectations regarding the Company's future. Those projections are highly dependent on market changes, on the Brazilian general economic performance, on the industry and on international markets and are, therefore, subject to change.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
