Pursuant to Item 403 of Regulation S-K, the number of shares listed for each individual reflects their beneficial ownership except as otherwise noted. For purposes of this table, a person or group of persons is deemed to have (1) “beneficial ownership” of any shares that such person or group has the right to acquire within 60 days after March 31, 2014. The beneficial ownership in the table includes the following share equivalents:

Name	Options	OP Units	Total
Jordan L. Kaplan	5,431,550	6,078,458	11,510,008
Kenneth M. Panzer	5,431,550	5,505,543	10,937,093
Dan A. Emmett	274,355	8,520,874	8,795,229

William E. Simon, Jr.	—	—	—
All officers, directors and nominees as a group	11,137,455	23,641,604	34,779,059

These share equivalents are deemed to be outstanding for purposes of computing the percentage of outstanding shares held by each person or group as of March 31, 2014, but are not deemed to be outstanding for the purpose of computing the percentage ownership of any other person. Accordingly, as in the case of Messrs. Emmett and Panzer, a beneficial owner with fewer share equivalents deemed to be outstanding can be deemed to have a greater percentage of our Common Stock even though they own fewer total share equivalents.

Board Recommendation

OUR BOARD RECOMMENDS THAT STOCKHOLDERS VOTE FOR EACH OF THE ABOVE-NAMED NOMINEES.

NON-BINDING ADVISORY VOTE ON EXECUTIVE COMPENSATION

(Proposal 2)

We are seeking an advisory vote (sometimes referred to as “say on pay”) from our stockholders to approve our executive officers' compensation. Our Board recommends that you approve this resolution for the following reasons (for more information, please also see “Executive Compensation,” including the Compensation Discussion and Analysis section):

First, we tie the compensation of our executive officers directly to their performance (“pay for performance”):

Strong Link Between Pay and Performance. After consultation with our stockholders, we developed our compensation system to make the link between pay and performance explicit and transparent. Our Compensation Committee approves written Operating and Financial Goals, as well as a target for our Funds From Operations (“FFO”), at the beginning of each year, and we disclose those goals in our proxy statement. At the end of each year, our Compensation Committee determines our executives' compensation based on the achievement of those goals, our financial results (in the form of FFO) as well as our acquisitions, dispositions and development and redevelopment activities during the year, and (when appropriate and disclosed) other factors.

System Overwhelmingly Approved by our Stockholders. We developed this system in 2012 after consultation with our stockholders, and the revised compensation approach was approved in 2012 by over 99% of our stockholders voting on say on pay at our annual meeting.

Benchmarking of Pay. We benchmark our executive officers against a consistent peer group of companies selected by our Compensation Committee with the advice of an independent compensation consultant. Our Benchmark Group for 2013 was the same as for 2012. Our compensation consultant designed our Benchmark Group to include REITs where office and/or industrial properties constitute a significant portion of their portfolio and with which we would compete for talent and assets. The list focuses on the office REITs against which we are most frequently compared by the investment community as well as REITs based in Southern California.

Most Pay Dependant on Performance. We pay our Chief Executive Officer a base salary that represents only about 15% to 20% of his expected annual compensation, and our Compensation Committee determines the remainder of his compensation (none of which is guaranteed) after the end of the year based on performance during the year. We provide very limited perquisites for our executive officers, including no pension benefits beyond participation in our 401(k) plan on the same basis as our other employees.

Pay Largely in Restricted Equity. We pay most (over 50% for our Chief Executive Officer and Chief Operating Officer in 2013) of our senior executives' compensation in the form of equity that vests over time and is contingent upon our future stock price exceeding the price at grant, and we restrict our senior executives from selling or transferring that equity for not less than two, and as much as five, years after grant. By doing so, we tie the value of the compensation for our executive officers directly to the ultimate total return to our stockholders over a multi-year period.

Significant Long-Term Equity Ownership Creates a Strong Tie to Our Stockholders. In accordance with our share ownership and retention policy (described at “Corporate Governance-Equity Ownership Guidelines”), on March 31, 2014 our executive officers and directors held almost 21% of our outstanding share equivalents (common stock, OP Units and LTIP Units, but not including options), with a market value of approximately \$941.4 million.

Overpayment Clawback; No Excise Tax Gross Up or Hedging. The employment agreements for our executive officers include a provision requiring repayment of any overpayment of compensation following a restatement of our financial statements and do not contain any excise tax gross-ups. We also prohibit hedging transactions in our securities by our employees and directors.

Second, our Compensation Committee fairly implemented this approach for 2013:

Our Compensation Committee concluded that our Chief Executive Officer's performance in 2013 exceeded expectations with respect to the goals adopted in early 2013. Most notably, during 2013,

We completed the refinancing of our unconsolidated Fund X debt, closing a five year \$325 million loan with interest fixed at 2.35% per annum for four years. In December, 2013, we closed a four year, \$300 million secured revolving line of credit with interest at LIBOR plus 140 basis points. Our net leverage was 44% as of December 31, 2013, well within our announced target range.

Excluding the impact of acquisitions during the year, occupancy in our total office portfolio increased by 1% and we increased net effective office rents in all of our submarkets except Warner Center. We raised multifamily asking rents an average of 5.3% during 2013.

Based on external estimates of competitors in our submarkets, the leased rate of our office portfolio at December 31, 2013 exceeded the average Class A office leased rate in our submarkets by over 400 basis points.

In 2013, our general and administration expenses ("G&A") represented 4.5% of our revenues, lower than our 4.8% in 2012 and significantly less than the average of over 7.0% for our office peers.

Our FFO substantially exceeded the target approved at the beginning of the year. Our independent compensation consultant compared this growth in FFO per share (as projected on November 29, 2013, the date of its report) to the comparable growth in FFO per share of the companies in our Benchmark Group, and concluded that this increase placed us at the 85th percentile of the Benchmark Group.

Our Compensation Committee believed that the two acquisitions we made in 2013 were well negotiated and executed. They did note that the number of acquisitions we made during 2013 was disappointing as a result of limited properties in our submarkets coming to market, but did not believe, even in hindsight, that we should have purchased any other properties sold in our submarkets during 2013. Our Compensation Committee noted our progress on the two residential development projects on land that we already own. Our Compensation Committee supported our decision not to dispose of any properties during 2013.

Excellent Total Shareholder Return. Based on its calculations through November 29, 2013 (the day of its report), our Compensation Committee's independent compensation consultant reported that, as compared to the Benchmark Group, our total shareholder return ("TSR") ranked at the 77th percentile for the three-year period, the 73rd percentile for the five-year period and the 82nd percentile since our initial public offering ("IPO"). Although our total shareholder return ranked at the 46th percentile for the year-to-date period, our Compensation Committee noted that that figure can be affected by the measurement date. Thus, our 2013 one year TSR was adversely affected when our stock price declined towards the end of 2013, only to recover strongly thereafter, rising in the first quarter of 2014 by over 16.5% to \$27.14 per share (an annualized TSR of just under 70% for that quarter).

Strong overall performance. Based on its analysis, FTI reached the following conclusions as of November 29, 2013, the date of its report:

"Overall, we believe that the Company's performance places DEI at approximately the top of the Peer Group (i.e., 65th - 75th percentile). Our determination is based on equally weighting the market based performance (TRS), fundamental performance (FFO) and other key performance measures (management of balance sheet and management of portfolio, etc.)."

Fair Comparative Compensation. Despite the evaluation of the independent compensation consultant, our Compensation Committee did not increase the compensation for all of our Executive Officers (other than Mr. Emmett, who had a small increase in salary) in 2013. Our Chief Executive Officer's total compensation for 2013 (including salary, cash bonus, annual equity grants and one quarter of the quadrennial grants made in 2010) placed him between the 55th percentile (based on the average of Chief Executive Officer compensation) and the 60th percentile (based on the average of Chief Executive Officer and Chief Operating Officer compensation) of our Benchmark Group according to the survey by our Compensation Committee's independent compensation consultant.

No Salary Increases for 2013. The 2013 base salaries for our executive officers, other than Mr. Emmett, were the same as they were in 2008.

Required Vote

As an advisory vote, the vote on this proposal is not binding upon us, our Board, or our Compensation Committee. However, our Compensation Committee, which is responsible for designing and administering our executive compensation program, and our Board, value the opinions expressed by stockholders in their vote on this proposal and will consider the outcome of the vote when making future compensation decisions for executive officers. Abstentions, broker non-votes and instructions on a proxy to withhold authority to vote on this proposal will not be counted in determining the number of shares present and entitled to vote and will therefore have no effect on the outcome. Unless a proxy directs otherwise, the shares represented by each properly executed unrevoked proxy will vote “for” Proposal 2.

Board Recommendation

For all of these reasons, our Board recommends a vote “FOR” the following resolution at our Annual Meeting: “RESOLVED, that the stockholders of Douglas Emmett, Inc. hereby approve, on an advisory basis, the compensation paid to its named executive officers, as disclosed in its Proxy Statement for its 2014 Annual Meeting of Stockholders, including the Compensation Discussion and Analysis, the Summary Compensation Table and the other related tables and disclosures.”

OUR BOARD RECOMMENDS THAT STOCKHOLDERS VOTE FOR PROPOSAL 2.

RATIFICATION OF APPOINTMENT OF ERNST & YOUNG LLP

(Proposal 3)

Our Audit Committee has approved the appointment of Ernst & Young LLP as our independent registered public accounting firm to audit our consolidated financial statements for 2014. We are seeking our stockholders' ratification of such action. A representative of Ernst & Young LLP will be available at our Annual Meeting to respond to appropriate questions or make any other statements such representative deems appropriate.

Required Vote

Proposal 3 requires the affirmative vote of a majority of the votes cast on the proposal (assuming a quorum is present). Stockholders may vote “for” or “against” the proposal, or they may abstain from voting on the proposal. Abstentions, broker non-votes and instructions on a proxy to withhold authority to vote on this proposal will not have any effect on the outcome of this proposal. In the event the stockholders do not approve this proposal, our Audit Committee will reconsider the appointment of Ernst & Young LLP as our independent registered public accounting firm. Unless a proxy directs otherwise, the shares represented by each properly executed unrevoked proxy will vote “for” the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm.

Board Recommendation

OUR BOARD RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE RATIFICATION OF APPOINTMENT OF ERNST & YOUNG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

We have adopted Corporate Governance Guidelines, which are available on our website at douglasemmett.com/governance. Our Board adopted these guidelines to assist in the exercise of its responsibilities. The guidelines describe such matters as the role of directors, the selection of new directors, Board membership criteria, independence requirements, self-evaluation by our Board and procedural matters of the Board and its committees. In accordance with our guidelines, our Board annually reviews management's long-range planning for executive development and succession.

Our Corporate Governance Guidelines provide that an independent director may not serve on the Board for more than seven years unless that limit is waived by our Governance Committee. Our Governance Committee has waived this rule with respect to the continued service of Messrs. Bider and O'Hern after determining that their continued service is in the best interests of the Company.

Code of Business Conduct and Ethics

Our Code of Business Conduct and Ethics, which is applicable to our directors, officers and employees (including our Chief Executive Officer and Chief Financial Officer), embodies our principles and practices relating to the ethical conduct of our business, and our commitment to honesty, fair dealing and compliance with laws. Our Code of Business Conduct and Ethics is available at douglasemmett.com/governance. If we make any amendments to this code other than technical, administrative or other non-substantive amendments, or grant any waivers, including implicit waivers, from a provision of this code to our Chief Executive Officer, Chief Financial Officer or Principal Accounting Officer, we will disclose the nature of any such amendment or waiver to the code, its effective date and to whom it applies, on our website or in a report on Form 8-K filed with the SEC.

Equity Ownership Guidelines

Our Board has adopted a policy to encourage our executive officers and directors to reach target equity ownership levels (through a combination of common stock, OP Units, and/or LTIP Units) within five years of their becoming subject to the policy, equal to the lesser of a multiple (based on fair market value of the equity at each year end) of annual salary/retainer at the previous year-end or a fixed share amount, as follows:

Title	Share Equivalents	Multiple of Salary/retainer
Chief Executive Officer	200,000	4x
Other executive officers	50,000	3x
Directors	7,500	2x

As of March 31, 2013, each of our directors and executive officers owned at least 27,000 share equivalents, and all were in compliance with the applicable standards. As of March 31, 2014, our directors and executive officers owned an aggregate of approximately 34.7 million share equivalents (including common stock, OP Units and LTIP Units, but not including options) with a market value of approximately \$941.4 million.

Director Independence

Our Board annually reviews and determines the independence of each director and nominee for election as a director in accordance with our Corporate Governance Guidelines, which incorporates all elements of the independence standards set forth in the New York Stock Exchange ("NYSE") rules. Our director independence standards are available on our website at douglasemmett.com/governance. Based on these standards, our Board determined that each of Christopher H. Anderson, Leslie E. Bider, Dr. David T. Feinberg, Thomas E. O'Hern and William E. Simon, Jr. is independent.

Board Leadership Structure

Our Board currently separates the role of Chairman of the Board from the role of our Chief Executive Officer. In addition, our Corporate Governance Guidelines designate the chairperson of our Governance Committee as our lead independent director, responsible for matters such as presiding over the executive meetings of our independent directors. Our Board believes that this structure combines accountability with effective oversight. This structure also gives us the continued benefits of the experience and knowledge of our Chairman, who has been overseeing our

operations and those of our predecessor for over 40 years, while reflecting the current responsibilities and contributions of the team of our Chief Executive Officer and Chief Operating Officer. It also provides a single independent director with responsibility for coordinating the actions of our independent directors.

Board Role in Risk Oversight

Our Board is actively involved in overseeing our risk management through our Audit Committee. Under its charter, our Audit Committee is responsible for discussing guidelines and policies governing the process by which our senior management and our relevant departments assess and manage our exposure to risk, as well as our major financial risk exposures and the steps management has taken to monitor and control such exposures. Although the separation of the roles of Chairman and Chief Executive Officer could potentially affect risk oversight function by our Board, this was not a significant issue in determining our Board's leadership structure.

Stockholder and Interested Party Communications

Communications to our Board, any of its committees, or the chairperson of our Governance Committee (who chairs the quarterly executive sessions of our non-management directors) may be addressed to Corporate Secretary, Douglas Emmett, Inc., 808 Wilshire Blvd., Suite 200, Santa Monica, CA 90401, marked to the attention of the appropriate recipient. Copies of all communications so addressed will be promptly forwarded to the chairperson of the committee involved or, in the case of communications addressed to our Board as a whole, to the chairperson of our Governance Committee.

Annual Meeting Attendance

We expect that all of our Board members will attend our annual meetings of stockholders in the absence of a showing of good cause for failure to do so. Seven members of our Board attended our 2013 annual meeting of stockholders.

BOARD MEETINGS AND COMMITTEES

During 2013, our Board held four meetings and acted by written consent four times. Our Board has three separately designated standing committees: our Governance Committee, our Audit Committee and our Compensation Committee. Each member of these standing committees has been determined to meet the standards for "director independence" under the rules of the SEC and the rules and regulations of the NYSE. Each incumbent director attended at least 75% of the aggregate number of meetings of our Board and its committee on which he served during 2013.

Nominating and Corporate Governance Committee

The members of our Governance Committee are Dr. David T. Feinberg, Chairperson, Christopher H. Anderson and Thomas E. O'Hern. Our Governance Committee has adopted a charter that is available on our website at

douglasemmet.com/charters. In addition to any other duties or responsibilities as may be assigned by the Board, our Governance Committee is responsible for (i) reviewing the size and composition of our Board; (ii) evaluating and recommending candidates for director; (iii) reviewing the frequency and structure of meetings and procedures of our Board; (iv) reviewing the size, composition and functioning of committees of our Board; (v) reviewing our corporate governance guidelines; (vi) reviewing our director compensation levels and practices; (vii) overseeing our Board's self-evaluation process; and (viii) considering any other corporate governance issues that may arise. Under our Corporate Governance Guidelines, the chairperson of our Governance Committee also chairs the executive sessions of non-management directors. Our Governance Committee met three times during 2013, and did not act by written consent.

Our Governance Committee manages the process for evaluating current Board members at the time they are considered for re-nomination. After considering the appropriate skills and characteristics required on our Board, the current makeup of our Board, the results of the evaluations, and the wishes of our Board members to be re-nominated, our Governance Committee recommends to our Board whether those individuals should be re-nominated.

On at least an annual basis, our Governance Committee reviews with our Board whether it believes our Board would benefit from adding any new member(s), and if so, the appropriate skills and characteristics required for any new member(s). If our Board determines that a new member would be beneficial, our Governance Committee solicits and receives recommendations for candidates and manages the process for evaluating candidates. All potential candidates, regardless of their source (including candidates recommended by stockholders), are reviewed under the same process. Our Governance Committee (or its chairperson) screens the available information about the potential candidates. Based on the results of the initial screening, interviews with viable candidates are scheduled with Governance Committee members, other members of our Board and senior members of our management. Upon completion of these interviews and other due diligence, our Governance Committee may recommend to our Board the election or nomination of a candidate.

All Board nominees must demonstrate an ability to make meaningful contributions to the oversight of our business and affairs, and must also have a reputation for honesty and ethical conduct in their personal and professional activities. Our Governance Committee also believes that all directors should share qualities such as objectivity, experience and strong communication and analytical skills. Our Governance Committee may also consider additional factors, including a candidate's specific experiences and skills, relevant industry background and knowledge, time availability in light of other commitments (such as service on other public company boards or on other governing boards), potential conflicts of interest, material relationships with us and independence from our management. Our Governance Committee does not have a formal policy with respect to diversity; however, our Board and our Governance Committee believe that it is important that we have Board members whose diversity of skills, experience and background are complementary to those of our other Board members. In considering candidates for our Board, the Governance Committee considers the entirety of each candidate's credentials.

We have typically found candidates for independent Board members through recommendations from directors or others associated with us. We may in the future also use the help of executive search firms (which receive a fee for their services). In any given search, our Governance Committee may also define particular characteristics for candidates to balance the overall skills and characteristics of our Board and our perceived needs. However, during any search, our Governance Committee reserves the right to modify its stated search criteria for exceptional candidates. Our stockholders may recommend candidates by sending the candidate's name and resume to our Governance Committee under the provisions set forth above for communication with our Board. No such suggestions from our stockholders were received in time for our Annual Meeting.

We require specific approval by our Governance Committee of service by any of our directors on more than three boards of directors of public companies (including service on our Board), or on more than two audit committees of other public companies if such director also serves on our Audit Committee. Our Corporate Governance Guidelines limits service of independent directors on our Board to seven years, unless that limit is waived by our Governance Committee. Finally, our policy requires our directors to submit a letter of resignation upon a material change in their current employment status or job responsibilities, which our Governance Committee may accept or reject in its sole discretion.

Audit Committee

The members of our Audit Committee are Thomas E. O'Hern, Chairman, Leslie E. Bider and William E. Simon, Jr. Our Audit Committee has adopted a charter, which is available on our website at douglasemmett.com/charters. The information contained in this paragraph shall not be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended (the "Securities Act") or the Securities Exchange Act of 1934 as amended (the "Exchange Act"), whether made before or after the date hereof and irrespective of any general incorporation language in any such filing (except to the extent that we specifically incorporate this information by reference) and shall not otherwise be deemed "soliciting material" or "filed" with the SEC or subject to Regulation 14A or 14C, or to the liabilities of Section 18 of the Exchange Act (except to the extent that we specifically request that this information be treated as soliciting material or specifically incorporate this information by reference).

The principal functions of our Audit Committee include (i) approving the appointment, compensation and retention of, and overseeing the work of, our independent registered public accounting firm; (ii) reviewing our financial statements, earnings releases, and internal controls over financial reporting, including the impact of any material risks, legal matters, regulatory and accounting initiatives, accounting principles and financial statement presentations and off-balance sheet structures; (iii) reviewing and granting waivers under our policies relating to conflicts of interest and our Code of Business Conduct and Ethics; and (iv) establishing procedures with respect to reports of questionable accounting or auditing matters, or illegal, unethical or other questionable conduct or conflicts of interest. Our Audit Committee must approve any decision to hire any person who served as a senior member of the audit team of our independent auditor within the prior two years. Our Audit Committee met four times during 2013, and acted once by written consent.

As required in our Audit Committee Charter, our Board has determined that each member of our Audit Committee is "independent," as defined under the rules and regulations of the SEC and the NYSE, and that Thomas E. O'Hern, Chairman of our Audit Committee, is an "audit committee financial expert" as defined under the rules of the SEC.

Compensation Committee

The members of our Compensation Committee are Leslie E. Bider, Chairman, Dr. David T. Feinberg and William E. Simon, Jr. Our Compensation Committee has adopted a charter, which is available on our website at

douglasemmett.com/charters. The principal

functions of our Compensation Committee include (i) evaluating the performance of our Chief Executive Officer and Chief Operating Officer, and determining their compensation, including salary, bonus, incentive and equity compensation and perquisites and other personal benefits; (ii) reviewing the performance, compensation, perquisites or other personal benefits of our other executive officers; (iii) reviewing our executive compensation plans, general compensation plans and other employee benefit plans, including incentive-compensation and equity-based plans; (iv) approving grants of equity; (v) approving any employment, change in control, severance or termination agreement or arrangement to be made with any executive officer; and (vi) overseeing our policies relating to the compensation of, and other matters relating to, our employees generally. Our Compensation Committee has the authority to delegate to its subcommittees such power and authority as it deems appropriate to the extent consistent with laws, regulations or listing standards, but has not done so. Our Compensation Committee met three times during 2013, and acted twice by written consent.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Our Executive Compensation Philosophy

Our Compensation Committee, comprised entirely of independent directors as defined by the SEC and the NYSE, is responsible for overseeing our compensation and employee benefit plans and practices, incentive compensation, and equity-based plans (including compensation for our executive officers). Over 80% of our stockholders voting approved our executive officers' compensation last year. Our Compensation Committee tries to design our compensation programs to reflect the following principles:

Pay for Performance: We believe in paying our executive officers based on their performance (so-called “pay for performance”). Accordingly, performance-based pay represents a substantial majority of the compensation of our executive officers. Only about 15 to 20% of our Chief Executive Officer's compensation is guaranteed, with the remainder determined at the end of each year based on performance during the year. To avoid excessive focus on any one element, as discussed below, our Compensation Committee considers a variety of factors in determining the specific level of compensation that we provide to our Chief Executive Officer and our other executive officers.

Alignment with Long Term Stockholder Value: We believe that our executive compensation should align incentive compensation opportunities with the long-term interests of our stockholders. For example, more than 50% of our Chief Executive Officer's compensation in 2013 was in the form of restricted equity whose transfer is restricted for between two and five years after grant, which further aligns his interests with those of our stockholders.

Competitiveness: Our Compensation Committee seeks to pay competitive compensation that allows us to attract and retain talented and experienced executives. To do this, we benchmark our Chief Executive Officer's compensation against those of a group of competitive companies. We also pay a significant portion of compensation in restricted equity that vests over three years, and whose transfer is restricted for up to five years, which encourages our executives to stay with us.

Alignment of Risk Profile: We seek to structure compensation to discourage excessive risk-taking and to encourage ethical and social responsibility. To avoid situations where management focuses on the selected metrics to the detriment of real performance or where a mechanical formula produces anomalous results, our Compensation Committee does not use such formulas to measure success. This approach, together with our benchmark approach, also eliminates the chance that a formula produces uncapped excessive compensation, and allows our Compensation Committee to factor into its compensation decisions its analysis of the risks taken to achieve the results. We also reduce the potential for excessive risk taking by paying more than 50% of our Chief Executive Officer's annual compensation in restricted equity whose transfer is restricted for between two and five years after grant, by imposing a clawback of compensation in the event of a restatement, and by having our directors and executive officers maintain significant stock ownership.

Role of Compensation Consultants

In 2013, our Compensation Committee again retained FTI Consulting, Inc. (“FTI”) to assist in our Compensation Committee's determination of executive compensation, including base salary, annual cash incentive and annual equity-based incentive compensation. FTI had been retained by our Compensation Committee in prior years to make recommendations concerning the structure and amount of compensation for our executive officers and our Board. In its engagement letter, FTI specifically confirmed that (i) it was ultimately accountable to our Compensation Committee, which had the ultimate authority to engage, evaluate and, if appropriate, terminate FTI's services; (ii) it would timely report directly to our Compensation Committee any difficulties encountered in the course of its work, including any restriction on the scope of activities or access to required information; and (iii) while it would meet with management in the course of performing its services to gather and check facts, and to obtain their reactions to alternatives that FTI believed should be considered by our Compensation Committee, our management was not

empowered to set the nature or scope of, or to give FTI instructions or directions concerning the engagement of FTI, all of which powers were exclusively reserved to our Compensation Committee. In hiring FTI and other professionals, our Compensation Committee specifically considered factors including (i) the provision of other services to us by the professional's firm; (ii) the amount of fees received from us by that firm as a percentage of its total revenue; (iii) the policies and procedures of that firm that are designed to prevent conflicts of interest; (iv) any business or personal relationship of the professional or his or her firm with a member of our Compensation Committee; (v) any of our stock owned by the professional; and (vi) any business or personal relationship of the professional or his or her firm with any of our executive officers. In the case of FTI, it has no other relationships with us, or any of our executive officers or Compensation Committee members, and FTI represented that the fees we pay to it represent less than 1% of its revenues.

Components for Compensation for our Executive Officers

The principal components of annual compensation for our executive officers for 2013 were:

Salary. We establish salary levels for our executive officers annually (as well as upon any promotion or other change in job responsibility) as part of their total compensation package based on matters including (i) the responsibilities of the position, (ii) the individual's salary history, performance and perceived ability to influence our financial performance in the short and long-term, (iii) the compensation of our other employees, and (iv) an evaluation of salaries for similar positions in our Benchmark Group and other competitive factors. We believe that base salary should represent a modest portion of the compensation for our executive officers; our Chief Executive Officer's base salary constitutes only about 15% to 20% of his expected annual compensation. In addition, our Compensation Committee has generally not increased base salaries for our executive officers, believing that any increases in compensation should be based on performance; the 2014 base salaries for our executive officers other than Mr. Emmett are the same as they were in 2008. For information concerning base salaries of each of our executive officers during 2013, see "Summary Compensation Table" below.

Annual Incentive Compensation. We pay most of the annual compensation for our executive officers in the form of discretionary compensation, none of which is guaranteed. We have also paid most of the annual bonuses of our senior employees in the form of equity that vests over three years and is contingent upon our future stock price exceeding the price at grant, and we restrict our executives from transferring that equity for between two and five years after grant. This better aligns the interests of our executives with our stockholders, makes their compensation dependent on future performance and functions as "golden handcuffs." For information concerning annual incentive compensation of each of our executive officers during 2013, see "Summary Compensation Table" below.

Perquisites and Other Personal Benefits. We provide very limited perquisites for our executive officers, including no pension benefits beyond participation in our 401(k) plan on the same basis as our other employees. Our executive officers are entitled to a car or car allowance in lieu of mileage reimbursement and participate in our employee plans on the same basis as our other employees, including vacation, medical and health benefits and our 401(k) retirement savings plan. Messrs. Emmett, Kaplan and Panzer are also entitled to use their secretaries for personal matters, which we believe is minimal and can increase the efficiency of their efforts for us. These benefits are considered by our Compensation Committee in its review of compensation for our executive officers. We believe these perquisites, while not representing a significant portion of our executive officers' total compensation, reflect our intent to create overall market comparable compensation packages. For information concerning the perquisites of each of our executive officers during 2013, see "Summary Compensation Table" below.

Quadrennial Restricted Equity Grants. Although many companies in our Benchmark Group use so called "Outperformance Plans" for longer term compensation, our Compensation Committee has instead used restricted equity grants every four years (most recently in 2010), which minimize potential conflicts between our management and our stockholders with respect to risk. No such grants were made in 2013.

Setting Incentive Compensation: Matching Pay for Performance.

Our Incentive Compensation Structure. In determining incentive compensation, our Compensation Committee assesses performance based on the following factors:

Operating and Financial Goals. Our Compensation Committee evaluates whether our management achieved the specific operating and financial goals set by our Compensation Committee at the beginning of the year and disclosed in our Proxy Statement. Our Compensation Committee seeks to set goals for matters within the control of our management, and which it believes are the key factors in the year related to both our annual and long-term success.

External Business Activities. Our Compensation Committee evaluates our external business activities during the year, which includes the effectiveness and financial results of acquisitions, dispositions and development and

redevelopment activities. Our Compensation Committee does not set any numeric targets for these activities, since the best course of action necessarily depends on market developments, including the availability and pricing of opportunities, during the year. Our Compensation Committee believes it is equally important that we avoid bad acquisitions as it is that we make good acquisitions.

FFO Targets. Our Compensation Committee evaluates whether our management achieved the quantitative FFO⁽¹⁾ targets set at the beginning of the year. We use FFO as a performance yardstick because many of our investors use it to compare our operating performance with that of other Real Estate Investment Trusts ("REITs"). In evaluating management's performance, our Compensation Committee looks at the "quality" of our FFO as well as its absolute amount. Increases in leasing fundamentals, for example, may (or may not) reflect better management performance than increases that are solely attributable to acquisitions. At the time it is set at the beginning of the year, our FFO targets typically excludes the effect of factors such as acquisitions, dispositions, equity issuances and repurchases, debt financings and repayments, recapitalizations and similar matters, but our Compensation Committee considers such matters in evaluating our management's performance.

Other Factors. Our Compensation Committee also reserves the right to take into account additional factors beyond those identified at the beginning of the year.

Our Compensation Committee uses the above factors as performance yardsticks, as well as evaluating the totality of our management's performance in the context of changing operating environments, to avoid situations where management focuses on the selected metrics to the detriment of real performance or where a formula produces anomalous results. This approach, together with our benchmark approach, also eliminates the chance that a formula produces uncapped excessive compensation, and allows our Compensation Committee to factor into the compensation decisions its analysis of the risk taken.

Based on its assessment of these performance factors, our Compensation Committee then determines management's incentive compensation based on performance and comparison to a Benchmark Group of 13 public REITs in three sectors (office, industrial and diversified) (our "Benchmark Group"). Our independent Compensation Consultant estimated the 2013 compensation at the Benchmark Group by increasing the data for 2012 (the latest data available when the compensation decisions were made for 2013) by 5%, which our Compensation Consultant believed would be the average increase in compensation at our Benchmark Group.

Our Compensation Committee does not tie compensation directly and formulaically to past changes in our stock price. Our stock performance in any year depends significantly on factors beyond the control of our management in that period, such as changes in the equity markets or the performance of our submarkets compared to the East Coast markets where most of the other members of our Benchmark Group operate. However, we do tie our management's compensation directly and substantially to the future performance of our stock. Thus, over 50% of our Chief Executive Officer's total annual compensation in 2013 was in the form of contingent restricted equity. Those grants vest over three years, are subject to restrictions on transfer for not less than two, and as much as five, years after grant and are contingent upon the future stock price performance exceeding the price at which the restricted equity was originally granted.

⁽¹⁾ FFO represents net income (loss) before noncontrolling interests computed in accordance with U.S. generally accepted accounting principles ("GAAP"), excluding gains (or losses) from sales of depreciable operating property, real estate depreciation and amortization (other than amortization of deferred financing costs), and after adjustments for unconsolidated partnerships and joint ventures. We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts (NAREIT). Like any metric, FFO is not perfect as a measure of our performance, because it excludes depreciation and amortization, and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our results from operations. Other equity REITs may not calculate FFO in accordance with our definition and, accordingly, our FFO may not be comparable to those other REITs' FFO. Therefore, FFO should be

considered only as a supplement to net income as a measure of our performance. FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends. FFO should not be used as a supplement to or substitute measure for cash flow from operating activities computed in accordance with GAAP.

⁽²⁾ Our Benchmark Group for 2013 was the same as 2012, and included Alexandria Real Estate Equities, Inc., Boston Properties, Inc., Brandywine Realty Trust, Digital Realty Trust, Inc., Duke Realty Corporation, Hudson Pacific Properties, Inc., Kilroy Realty Corporation, Mack-Cali Realty Corporation, Piedmont Office Realty Trust, Inc., ProLogis, PS Business Parks, Inc., SL Green Realty Corp. and Vornado Realty Trust.

2013 Compensation Determinations

Chief Executive Officer

In implementing the approach discussed above for 2013, our Compensation Committee made the following determinations:

Operating and Financial Goals. The following table sets forth the Operating and Financial goals adopted by our Compensation Committee and disclosed in our 2013 proxy for our Chief Executive Officer and well as its evaluation of the results actually achieved in 2013:

Area	Announced Goal	Results
1. Leasing	Improve occupancy in our office portfolio.	Excluding the impact of acquisitions during the year, occupancy in our office portfolio increased by 1% during 2013, even after the impact of 50 to 60 basis points of deferred move-outs from 2012.
	Occupancy in our office portfolio to exceed the average Class A office occupancy in our submarkets.	Based on external estimates of occupancy in our submarkets, at December 31, 2013, occupancy in our office portfolio exceeded the average for Class A office in our submarkets by over 400 basis points.
	Increase rents in our office portfolio.	During 2013, we increased net effective rents in all of our submarkets except Warner Center.
	Increase rents in our multi-family portfolio.	During 2013, we had raised multifamily asking rents 5.3% from a year earlier.
2. Operations	Continue automation projects to move towards paperless systems.	During 2013, we successfully implemented new software packages for our accounts payable, the over 800 electrical sub-meters in our office portfolio, tracking our equity compensation, preparing our public company reports, tracking IT access, and the hiring and terminations of employees. We continued to improve our automated systems for tenant and prospect tracking, and for construction management.
	Improve systems for managing strategic vendors.	During 2013, we implemented electronic systems for the billing of our associate employees and worked with vendors to consolidate billings.
	Complete full implementation of our construction platform in Hawaii.	During 2013, we completed full implementation of our construction platform in Hawaii.
	Maintain our general and administrative expenses in the lower half of our Benchmark Group as a percentage of revenue.	Our 2013 G&A percentage was 4.5% of revenues, significantly less than the average of 6.4% for our Benchmark Group and 7.0% for the office REITs in that group.
3. Capital	Complete the refinance of the Fund X debt maturing in 2013.	During 2013, we completed the refinancing of the Fund X loan, closing a five year \$325 million loan with interest fixed at 2.35% per annum for four years.
	Pursue development process for potential multifamily projects.	We expect to break ground in Hawaii during 2014 on a 450+ unit multifamily project, and are moving towards a 2015 groundbreaking in West LA on a 300+ unit high rise.
	Continue to develop relationships with potential joint venture partners.	During 2013, we continued to strengthen and expand our relationships with potential joint venture partners.

External Business Activities. Our Compensation Committee determined that the two acquisitions that we completed in 2013 were well negotiated and executed. In both cases, we acquired buildings with substantial vacancy, and we were able to reduce that vacancy by more than half within a few months after closing. Our Compensation Committee noted that the number of acquisitions that we completed during 2013 was disappointing, but did not believe, even in hindsight, that we should have purchased any other properties that were sold in our submarkets during 2013. Our Compensation Committee concluded that we had made substantial progress on the two residential development projects on land that we already own. Our Compensation Committee supported our decision not to dispose of any properties during 2013.

FFO Targets. For 2013, we achieved FFO per share of \$1.49, compared to the \$1.42 FFO target set by the Compensation Committee at the beginning of the year, an increase of 9.6% from 2012. Our independent compensation consultant compared this growth in FFO per share (as projected on November 29, 2013, the date of its report) to the comparable growth in FFO per share of the companies in our Benchmark Group, and concluded that the increase from the beginning of the year placed us at the 85th percentile of the Benchmark Group. Our Compensation Committee also considered the factors affecting these results, which included higher net operating income from both our office and multifamily portfolios and lower interest expense.

Other Factors. Our Compensation Committee also reviewed the analysis of its compensation consultant FTI, which reported on its assessment of both the factors outlined above, as well as an analysis of our TSR. FTI's report to our Compensation Committee compared DEI's historical TSR (including share price appreciation and dividends) to the comparable total return of the Benchmark Group over five performance periods:

Performance Period (as of 11/29/13)[Date of FTI Report]	Our Total Shareholder Return ("TSR")	Benchmark Group Ranking
Year-to-date	1%	46th percentile
3-Year	48%	77th percentile
5-Year	163%	73th percentile
Since IPO	36%	82nd percentile

Although our TSR ranked at the 46th percentile for the year-to-date period, our Compensation Committee noted that this particular statistic can be significantly affected by the measurement date used in the calculation. Thus, for 2013 our one year TSR was adversely affected when our stock price declined towards the end of 2013, only to recover strongly thereafter, rising in the first quarter of 2014 by over 16.5% to \$27.14 per share (an annualized TSR of just under 70% for that quarter)

Based on its analysis, FTI reached the following conclusions as of November 29, 2013, the date of its report:

"Overall, we believe that the Company's performance places DEI at approximately the top of the Peer Group (i.e., 65th - 75th percentile). Our determination is based on equally weighting the market based performance (TRS), fundamental performance (FFO) and other key performance measures (management of balance sheet and management of portfolio, etc.)."

Conclusion. Although our Compensation Committee did not assign any specific weighting for the factors in considered for 2013, they weighted the external operating activities somewhat less than the other factors given the lack of attractive acquisition opportunities during the year. Based on its assessment of all of these factors, our Compensation Committee concluded that our Chief Executive Officer's performance in 2013 exceeded expectations. Accordingly, our Compensation Committee determined to place our Chief Executive Officer's total compensation⁽¹⁾ at approximately the 55th percentile (based on the average of Chief Executive Officer compensation) and the 60th percentile (based on the average of Chief Executive Officer and Chief Operating Officer compensation⁽²⁾) of our Benchmark Group. For more detailed information on 2013 compensation, see "Summary Compensation Tables."

Other Executive Officers

We use similar principles to set the compensation of our other officers, although less senior officers have a higher portion of compensation represented by base compensation increases and the variation in incentive compensation based on performance decreases. For more detailed information on the amounts of the 2013 compensation of our other executive officers, including the cash bonus paid and equity awards granted, see "Summary Compensation Tables" and "Grants of Plan-based Awards" table below.

⁽¹⁾ In determining our Chief Executive Officer's total compensation in 2013, our Compensation Committee included base salary, incentive compensation, perquisites and one quarter of his 2010 quadrennial grant.

⁽²⁾ Given the allocation of responsibilities between our CEO and our COO, we pay them equal compensation. Accordingly, our Compensation Committee asked our Compensation Consultant to compare our Chief Executive Officer's compensation to the average of the CEO and COO compensation at the Benchmark Group as well as to the compensation of the CEO alone.

2014 Operating and Financial Goals

For 2014, we intend to use a similar methodology for determining incentive compensation. Our Compensation Committee has established the following 2014 Operating and Financial Goals:

Area	Goal
Leasing	Achieve increased occupancy in our office portfolio.
	Achieve occupancy in our office portfolio that exceeds the average Class A office occupancy in our submarkets.
	Increase rents in our office portfolio.
	Increase rents in our multi-family portfolio.
	Institute upgraded information technology systems to improve efficiency and reduce reliance on manual systems.
Operations	Implement practices and equipment to improve energy costs.
	Improve systems for managing strategic vendors.
	Expand and enhance our customer service program.
	Limit our general and administrative expenses to a percentage of revenue in the lower half of comparable REITs.
Capital	Complete plans, obtain governmental approvals and start construction on the new Moanalua Apartments.
	Continue the entitlement process on Landmark Residential so that we can start construction in 2015.
	Refinance our DEG joint venture's debt and develop a strategy for our 2015 loan on the Hawaii property where we are pursuing development.
	Expand relationships with potential joint venture partners.

Our Compensation Committee set a target for 2014 FFO of \$1.60 per share. This assumes we exercise our option with respect to the land under a building we own in Honolulu, but excludes any impact from future acquisitions, dispositions, equity issuances or repurchases, debt financings or repayments, recapitalizations or similar matters. As noted above, we use similar principles to set the compensation of our other executive officers, although base compensation of executive officers other than Mr. Kaplan and Mr. Panzer represents a higher portion of overall compensation so that variation in compensation based on performance decreases. The 2014 base salaries for our executive officers other than Mr. Emmett are the same as they were in 2008. Our Compensation Committee continues to believe that Mr. Emmett's compensation is significantly below that of other executives with his seniority, abilities and experience.

Compensation and Risk

We seek to structure compensation to discourage excessive risk-taking and to encourage ethical and social responsibility:

We align the interests of our executives with those of our stockholders by paying a significant portion of the compensation of our executive officers in equity (for example, more than 50% for our Chief Executive Officer in 2013), in addition, as of March 31, 2014, our directors and executive officers owned approximately 21% of our outstanding share equivalents (common stock, OP Units and LTIP Units, but not including options), with a market value of approximately \$941.4 million, well in excess of what is required by our stock ownership guidelines.

We tie our executives' compensation to the long-term impact of their decisions by paying them in restricted equity whose transfer is restricted for not less than two, and as much as five, years after grant.

We avoid potential anomalies from relying on mechanical formulas, including distortion by unanticipated events, uncapped excessive compensation and undue focus on the metrics chosen. Our Compensation Committee also factors into its compensation decisions the risk taken to achieve the results achieved.

Our clawback/recoupment policy reduces the chance that our executive officers benefit if earnings were misstated.

Tax and Accounting Implications

Our Compensation Committee considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that we may not deduct compensation of more than \$1,000,000 that is paid to certain individuals under certain circumstances. Our Compensation Committee's policy with respect to Section 162(m) is to make every reasonable effort to make that compensation deductible while simultaneously providing the executives with appropriate compensation for their performance. We believe that the compensation paid to our executive officers in 2013 should generally be fully deductible under Section 162(m) for federal income tax purposes. We account for stock-based payments, including awards under our 2006 Plan (defined below), in accordance with the requirements of Accounting Standards Codification ("ASC") 718.

Role of Executive Officers in Compensation Decisions

Under its charter, our Compensation Committee makes all compensation decisions with respect to our Chief Executive Officer and Chief Operating Officer, and recommends to our Board the compensation for our other executive officers and all other elected officers, although it may consult with other advisors, including our Chief Executive Officer and other officers, as it deems appropriate. In determining the appropriate compensation levels for our Chief Executive Officer and our Chief Operating Officer, our Compensation Committee meets outside the presence of all of our executive officers. As noted above, although FTI's engagement letter allowed it to meet with management in the course of performing its services to gather and check facts, and to obtain their reactions to alternatives that FTI believed should be considered by our Compensation Committee, our management was not empowered to set the nature or scope of, or to give FTI instructions or directions concerning its engagement, all of which powers were exclusively reserved to our Compensation Committee.

Change of Control Payments

As described below under "Principal Compensation Agreements and Plans-Employment Agreements," we are obligated under our employment contracts with Messrs. Kaplan, Panzer, Kamer and Guth to make severance payments to them in the event they terminate their employment within 18 months after a change of control as defined in those agreements. In addition, the awards that we have made under our 2006 Plan (defined below) provide that if following a change of control, either the employment of a participant (including any of our executive officers) is terminated without cause by us or for good reason by the participant, or our common stock is no longer publicly traded, then any unvested options or LTIP Units will immediately vest. Our employment agreements do not contain any excise tax gross up provisions.

Principal Compensation Agreements and Plans

2006 Omnibus Stock Incentive Plan

The Douglas Emmett, Inc. 2006 Omnibus Stock Incentive Plan was adopted by our Board and approved by our stockholders prior to the consummation of our IPO in 2006 and was amended with the approval of our stockholders in 2009 (our "2006 Plan"). Our 2006 Plan is designed to be an important component of overall compensation for our key employees, directors and other persons by permitting participation by these key persons in our long-term growth and profitability. This summary of our 2006 Plan does not purport to be exhaustive and is expressly qualified in its entirety by reference to the full text of our 2006 Plan.

Our 2006 Plan is administered and interpreted by our Compensation Committee. All full-time and part-time officers, employees, directors and other key persons (including consultants and prospective employees) are eligible to participate in our 2006 Plan. As of December 31, 2013, approximately 18.9 million shares (subject to adjustment for stock splits, stock dividends or similar changes in our capitalization) of our common stock remained available for future issuance under our 2006 Plan. Subject to certain exceptions, shares that are forfeited or canceled from awards under our 2006 Plan become available for future awards. Our 2006 Plan is a "Fungible Share" plan, under which so called "full value" awards made after the date of the 2009 amendment (such as Deferred Stock Awards, Restricted Stock Awards and LTIP Unit awards) count against our 2006 Plan overall limits as two shares (rather than one), while options and stock appreciation rights ("SARs") are counted as one share (0.9 shares for options or SARs with terms of five years or less).

Our 2006 Plan provides our Compensation Committee with the authority to grant a variety of types of equity awards: Incentive Stock Options or Non-Qualified Stock Options. Options entitle the participant to purchase shares of our common stock over time for an exercise price fixed on the date of the grant. The exercise price may not be less than 100% of the fair market value of our common stock on the date of the grant, and may be paid in cash, or by the transfer of shares of our common stock meeting certain criteria or by a combination thereof. Although we expect to grant only non-qualified stock options, our 2006 Plan permits the grant of options that qualify as “incentive stock options” under the Internal Revenue Code.

Stock Appreciation Rights. SARs entitle the participant to receive the appreciation in the fair market value of our common stock between the date of grant and the exercise date in the form of shares of our common stock.

Restricted Stock and Deferred Stock Awards. Restricted stock awards are shares of our common stock that vest in accordance with terms and conditions established by our Compensation Committee. Deferred stock awards are stock units entitling the participant to receive shares of our common stock paid out on a deferred basis. Shares of restricted stock or deferred stock awards that do not satisfy any vesting conditions are subject to our right of repurchase or forfeiture.

Dividend Equivalent Rights. Dividend equivalent rights entitle the participant to receive credits for dividends that would be paid if the participant had held specified shares of our common stock.

Other Stock-based Awards. Other stock-based awards permitted under our 2006 Plan include awards that are valued in whole or in part by reference to shares of our common stock, including convertible preferred stock, convertible debentures and other convertible or exchangeable securities, partnership interests in a subsidiary or our operating partnership, awards valued by reference to book value, fair value or performance of a subsidiary, and any class of profits interest or limited liability company membership interest.

LTIP Units. LTIP Units are a separate series of units of limited partnership interests in Douglas Emmett Properties, LP, our operating partnership, valued by reference to the value of our common stock. LTIP Unit awards, whether vested or unvested, entitle the participant to receive, currently or on a deferred or contingent basis, dividends or dividend equivalent payments with respect to the number of shares of our common stock underlying the LTIP Unit award or other distributions from our operating partnership. LTIP Unit awards that do not satisfy any vesting conditions are subject to our right of repurchase or forfeiture. LTIP Units are structured as “profits interests” for federal income tax purposes, and we do not expect the grant, vesting or conversion of LTIP Units to produce a tax deduction for us. As profits interests, LTIP Units initially will not have full parity with our operating partnership's common units with respect to liquidating distributions. Upon the occurrence of specified events, LTIP Units can achieve full parity with those common units with respect to liquidating distributions. If full parity is achieved, LTIP Units may be converted, subject to the satisfaction of applicable vesting conditions, on a one-for-one basis into OP Units, which in turn are redeemable by the holder for shares of our common stock or for the cash value of such shares, at our election. Until full parity is reached, the value that a participant could realize for a given number of LTIP Units will be less than the value of an equal number of shares of our common stock and may be zero. Under the legal designation establishing the LTIP Units, grantees must be restricted from selling or transferring that equity for a minimum of two years.

Our 2006 Plan is not an “evergreen” plan and has a ten-year term ending in October 2016, so that awards may not be made under our 2006 Plan after October 2016. Any awards made under our 2006 Plan that remain outstanding after that date will continue to be governed by the terms of our 2006 Plan. Our 2006 Plan generally prohibits the transfer of awards, and only allows the participant to exercise an award during his or her lifetime, although our Compensation Committee may allow certain transfers to family members or entities. If we experience a change-in-control, our Board and the board of directors of the surviving or acquiring entity must make appropriate provisions for the continuation

or assumption of awards outstanding under our 2006 Plan, and may provide for the acceleration of vesting with respect to existing awards. We may amend, suspend or terminate our 2006 Plan at any time, but we will obtain stockholder approval of any such action if it is required to comply with applicable law or NYSE regulations. Further, we will need the holder's consent if in doing so we adversely affect any rights under outstanding awards.

Employment Agreements

Kaplan, Panzer, Kamer and Guth Employment Agreements. We have employment agreements with each of Messrs. Kaplan, Panzer, Kamer and Guth. Mr. Kamer's employment agreement was amended effective as of January 31, 2014, in connection with his retirement from full time employment. None of the other agreements were amended within the past twelve months. The principal terms of these agreements include the following:

Salary: Each of Messrs. Kaplan and Panzer is entitled to receive a salary of not less than \$1,000,000, and Mr. Guth is entitled to receive a salary of not less than \$600,000. Mr. Kamer is entitled to receive a salary of not less than \$150,000.

Bonus: Each of Messrs. Kaplan, Panzer and Guth is entitled to receive an annual bonus based on their individual performance and our overall performance during the year, as evaluated by our Compensation Committee in consultation with that officer.

Perquisites and Other Benefits: Mr. Kaplan and Mr. Panzer are entitled to the use of an automobile and family health insurance. Mr. Guth is entitled to a car allowance.

Term: The term of each employment agreement ends December 31, 2014, subject to earlier termination with or without cause (although 30-days' prior notice is required where the termination is by us without cause or by the officer for good reason). Good reason includes a termination by the officer within 18 months after the occurrence of a change of control.

Severance Payments: If we terminate an officer's employment without cause, or if the officer terminates his employment for good reason, they will receive severance equal to (a) compensation equal to three (two in the case of Mr. Kamer and Mr. Guth) times the average of their total compensation over the last three calendar years ending prior to the termination date, including (i) their salary, (ii) their annual bonus and (iii) the value (based on the Black-Scholes value in the case of options, and based on the value of the underlying grants in the case of LTIP Unit awards or outperformance plans) of any equity or other compensation plans granted or awarded to the officer and (b) continued coverage under our medical and dental plans for the officer and their eligible dependents for a three-year period (two-year period for Mr. Kamer and Mr. Guth) following their termination. See "Potential Payments Upon Termination or Change of Control" below.

Other Termination Payments: Upon an officer's death or disability, they will receive continued medical benefits for themselves (in the case of disability only) and their eligible dependents for a period of twelve months plus a pro-rated portion of their annual bonus.

Non-competition: Each of these employment agreements also contains confidentiality and non-solicitation provisions effective through the term of the agreement, and for a period of two years (confidentiality) and one year (non-solicitation) thereafter, as well as a non-competition provision that applies during the term of the agreement, and under which the officer covenants that they will not: (i) for their own account engage in any business that invests in or deals with large and mid-size office buildings and multifamily properties in Los Angeles County and Hawaii (larger than 50,000 square feet for office properties and 50 units for apartment buildings); (ii) enter the employment of, or render any consulting or any other services to, any such entities that so compete, directly or indirectly, with any business carried on by us or any of our subsidiaries; or (iii) become interested in any such competing entity in any capacity, including, without limitation, as an individual, partner, shareholder, officer, director, principal, agent, trustee or consultant; provided, however, that the officer may own, directly or indirectly, solely as a passive investment, 5% or less of any class of securities of any entity traded on any national securities exchange and any assets acquired in compliance with the requirements of the aforementioned non-competition provisions.

Summary Compensation Tables

The following tables set forth the salary and other compensation earned for 2011, 2012 and 2013 by our President and Chief Executive Officer, our Chief Financial Officer and our other executive officers who received more than \$100,000 in aggregate compensation for 2013.

With respect to 2010 and 2011, we paid the cash and the restricted equity incentive compensation in January of the following year. Unfortunately, SEC rules require that we include the cash portion of an annual bonus in the year for which it is earned (even though paid after year end) and the equity portion in the year in which it is granted (even though representing compensation for the prior year). As a result, the Summary Compensation Table at the top of the next page reports the cash and equity portions of each executive officer's annual bonus in different years, making any pay for performance analysis problematic.

Commencing with the incentive compensation for 2012, we now pay the incentive compensation at the end of the year to which it relates. As a result, commencing with 2012, the top table on the next page (which reflects the SEC rules) includes the equity incentive compensation in the year to which it relates. However, this change also means that the top table on the next page includes equity incentive compensation for two years (that for 2011 which was paid in January 2012 and that for 2012 which was paid in December 2012) in the 2012 column, so that the results from year to year are not comparable.

To assist readers in comparing annual compensation for each year, we have included the bottom table on the next page in which both the cash and the equity portion of the annual incentive compensation are included in the year earned, as shown in the following table.

Notes to summary compensation tables

In accordance with SEC rules, the top table includes the equity portions of the annual bonus for years prior to 2012 in the subsequent year. Accordingly, the equity bonus for 2011 in the top table relates to performance in 2010, and the equity bonus for 2012 in that table includes two years of grants (with respect both to 2011, which was granted in January 2012, and to 2012, which was granted in December 2012). To assist readers with the evaluation of the

(1) annual incentive compensation awards, the bottom table reflects both the cash and the equity portion of the bonus in the year with respect to which it was earned. The amounts in the equity column in each table represent the aggregate grant date fair value of restricted equity grants issued, calculated in accordance with ASC 718, under the assumptions set forth in Note 11 to our audited financial statements for 2013 included in our 2013 Annual Report on Form 10-K.

(2) Bonuses are cash amounts paid to each officer with respect to the year in which it was earned, whether paid in that year or the following year.

All amounts reflect the compensation awarded by our Compensation Committee. Our Chief Executive Officer and Chief Operating Officer each voluntarily reduced their 2011 compensation by \$550,000, or approximately 9%.

(3) Giving effect to the reductions reduced the value of their incentive compensation with respect to 2011 to \$2.6 million and their total compensation with respect to 2011 to approximately \$5.6 million.

We have made quadrennial grants of equity to our executive officers every four years as part of a long-term incentive compensation program. Messrs. Kaplan, Panzer and Kamer received quadrennial restricted equity grants at the end of 2010, vesting annually at the end of 2011 through 2014, with aggregate grant date fair values of \$3,900,000, \$3,900,000 and \$1,040,000, respectively. The LTIP Units Awards for Mr. Guth in 2011 in the top table include a quadrennial restricted equity grant made when he joined us, vesting annually at the end of 2011

(4) through 2014, with an aggregate grant date fair value of \$1,338,758. Under SEC rules, all of these grants are included in the year of grant, although the value is realizable over the following four years. In contrast, our Compensation Committee allocates one quarter of these quadrennial grants to each of the four years. Including one quarter of each executive officer's quadrennial grants, total compensation with respect to 2013 would have been \$7.8 million for Mr. Kaplan, \$7.8 million for Mr. Panzer, \$1.7 million for Mr. Kamer and \$1.9 million for Mr. Guth.

The amount presented in 2013 includes auto allowances (in lieu of mileage reimbursements), reimbursement of medical insurance premiums in lieu of participation in our insurance program, matching contributions under our

(5) 401(k) Plan and the estimated incremental cost of personal use of an administrative assistant. For details, see "Employment Agreements".

Grants of Plan-based Awards

The following table sets forth the grants of plan-based awards during 2013 to our executive officers:

Name	Grant Date ⁽¹⁾	Approval Date ⁽¹⁾	LTIP Units (#)	Grant Date Fair Value of LTIP Unit Awards ⁽²⁾
Dan A. Emmett	December 16, 2013	December 6, 2013	5,566	\$81,264
Jordan L. Kaplan	December 16, 2013	December 6, 2013	244,880	\$3,575,248
Kenneth M. Panzer	December 16, 2013	December 6, 2013	244,880	\$3,575,248
William Kamer	December 16, 2013	December 6, 2013	32,651	\$476,705
Theodore E. Guth	December 16, 2013	December 6, 2013	35,619	\$520,037

Consistent with our annual practice, our Compensation Committee approved the dollar value of the grants on December 6, 2013, stipulating that they be issued on December 16, 2013, with the number of shares to be based on (1) the closing price of our common stock on the date of grant (\$22.46 at December 16, 2013). Our Compensation Committee does so because we wish to inform our employees of the grants in their reviews, which are then scheduled to occur between the date of approval and the date of grant.

The amounts in this column represent the aggregate grant date fair value of the LTIP Units calculated in (2) accordance with ASC 718, under the assumptions set forth in Note 11 to our audited financial statements for 2013 included in our 2013 Annual Report on Form 10-K.

Option Exercises and Equity Vested

None of our executive officers exercised any stock options during 2013. The following table sets forth the LTIP Units held by our executive officers that vested during 2013:

Dan A. Emmett	5,581	\$ 128,826
Jordan L. Kaplan	290,134	\$ 6,655,596
Kenneth M. Panzer	290,134	\$ 6,655,596
William Kamer	49,686	\$ 1,150,412
Theodore E. Guth	42,874	\$ 991,144

(1) Amounts represent market value as of the vesting of the award, based on the closing price for our common stock on the date of vesting of the LTIP Units at the rate of one share for each LTIP Unit.

Potential Payments Upon Termination or Change of Control

The section below provides information concerning the amount of compensation payable to each of our executive officers in the event of termination of such executive's employment, including certain estimates of the amounts that would have been paid on certain dates under what we believe to be reasonable assumptions. However, the actual amounts to be paid out can only be determined at the time of such executive's termination.

Payments Made Upon Termination

Regardless of the manner in which any of our employees (including any of our executive officers) is terminated, the employee would be entitled to receive certain amounts due during such employee's term of employment. Such amounts would include:

- any unpaid salary from the date of the last payroll to the date of termination;

- reimbursement for any properly incurred unreimbursed business expenses; and

- unpaid, accrued and unused personal time off through the date of termination.

In addition, the officer would retain the following rights:

- any existing rights to indemnification for prior acts through the date of termination; and

- any options and LTIP Units awarded pursuant to our 2006 Plan to the extent provided in that plan and the grant or award.

The awards that we have made under the 2006 Plan provide that if the employment of a participant (including any of our executive officers who have unvested options or LTIP Units) is terminated without cause by us, or for good reason by the participant, or if our common stock is no longer publicly traded following a change of control, then any unvested options or LTIP Units will immediately vest.

Mr. Emmett. Mr. Emmett does not have any contractual severance arrangements on termination, except that under the terms of our standard award agreements. Mr. Emmett's unvested LTIP Units would become vested if his employment is terminated without cause by us, or for good reason by him, or if our common stock is no longer publicly traded following a change of control. As a result, based on our common stock closing price at December 31, 2013, we estimate that the approximate value of these severance payments in the case of a termination without cause by us, or with good reason by Mr. Emmett, immediately following December 31, 2013 would have been approximately \$192,515.

Messrs. Kaplan, Panzer, Kamer and Guth. As noted above under "Principal Compensation Agreements and Plans -Employment Agreements", each of Messrs. Kaplan, Panzer, Kamer and Guth has an employment agreement with us. In addition to those payments made upon termination noted above, these agreements provide for the following additional benefits on certain terminations:

Payments Made Upon Termination by Us Without Cause or by the Officer for Good Reason. If we terminate Messrs. Kaplan, Panzer, Kamer or Guth's employment without cause, or if the officer terminates his employment for good reason, he will receive severance equal to (a) compensation equal to three (two in the case of Mr. Kamer and Mr. Guth) times the average of his total compensation over the last three full calendar years ending prior to the termination date, including (i) his salary, (ii) his annual bonus and (iii) the value (based on the Black-Scholes value in the case of options and the value of the underlying grants in the case of LTIP Unit awards) of any equity or other compensation granted or awarded to him (we note that most of these grants are in lieu of annual bonuses); and (b) continued coverage under our medical and dental plans for the officer and his eligible dependents for a three-year period (two-year period for Mr. Kamer and Mr. Guth) following his termination. Under the applicable employment agreements for Messrs. Kaplan, Panzer, Kamer and Guth, good reason includes a termination by the officer within 18 months after the occurrence of a change of control. In order to receive such severance, the officer must execute a release of all claims and comply with the remaining confidentiality and non-solicitation provisions of his employment

agreement.

Based on the compensation paid, and the grants of options and LTIP Units, in 2011, 2012 and 2013, and using medical insurance premiums and the price of our common stock as of December 31, 2013, we estimate that the approximate value of these severance payments and benefits in the case of a termination without cause by us, or with good reason by the officer, immediately following December 31, 2013, would have been \$29,940,016 for Messrs. Kaplan and Panzer, \$4,283,479 for Mr. Kamer and \$4,168,080 for Mr. Guth. In addition, the unvested LTIP Units of each executive would vest immediately, which we estimate would result in additional value of \$5,481,791 for Messrs. Kaplan and Panzer, \$1,188,791 for Mr. Kamer and \$1,614,393 for Mr. Guth based on the price of our common stock at December 31, 2013.

Payments on Termination following a Change of Control. As noted above, under the employment agreements for Messrs. Kaplan, Panzer, Kamer and Guth, good reason includes a termination by the officer within 18 months after the occurrence of a change of control. As a result, on any such termination, the officer involved would be entitled to the same severance payment, and the same additional value for the acceleration of the unvested option and LTIP Units outlined above. Under their current employment agreements, these payments would not be grossed up to adjust for any excise taxes under Section 280G of the Internal Revenue Code.

Payments Made Upon Death or Disability. In the event of the death or disability of Messrs. Kaplan, Panzer, Kamer or Mr. Guth, the officer (or his estate) will receive continued medical benefits for him (in the case of disability only) and his eligible dependents for a period of 12 months, plus a pro-rated portion of the officer's annual bonus, that he otherwise would have been paid based upon actual performance for the year and the percentage of the year that elapsed through the date of his termination of employment. Using current medical insurance premiums, we estimate that the approximate value of the continued medical benefit payments in the case of a termination for death or disability immediately following December 31, 2013 would have been \$33,126 for Messrs. Kaplan and Panzer, \$14,400 for Mr. Kamer and \$19,136 for Mr. Guth.

COMPENSATION COMMITTEE REPORT

The information contained in this Compensation Committee Report shall not be deemed incorporated by reference in any filing under the Securities Act or the Exchange Act, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing (except to the extent that we specifically incorporate this information by reference) and shall not otherwise be deemed "soliciting material" or "filed" with the SEC or subject to Regulation 14A or 14C, or to the liabilities of Section 18 of the Exchange Act (except to the extent that we specifically request that this information be treated as soliciting material or specifically incorporate this information by reference).

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to our Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

COMPENSATION COMMITTEE

Leslie E. Bider, Chairman

David T. Feinberg

William E. Simon, Jr.

DIRECTOR COMPENSATION

The compensation for our directors who are not our employees is determined by our Board, after recommendation from our Governance Committee, and is reviewed periodically as appropriate. Our Governance Committee consists solely of independent directors, and our executive officers do not participate in its vote on director compensation, although Messrs. Emmett, Kaplan and Panzer, as members of our Board, are involved in the Board decision approving the decision of our Governance Committee. Each of our non-employee directors receives annual fees equal to \$155,000, consisting of (i) an annual retainer of \$85,000, any or all of which (at the election of the director) may be paid in cash or in LTIP Units at face value that vest on a quarterly basis over the year involved and (ii) the equivalent of \$70,000 per year based on one third of a triennial grant of \$210,000 of LTIP Units at face value that vest over three years. For purposes of calculating the number of units, LTIP Units are valued based on the value of the underlying shares of common stock.

Directors elected to our Board for the first time during a year receive pro-rata grants on election. The chairperson of our Audit Committee receives an additional annual fee of \$20,000, while the chairperson of our Compensation Committee or of our Governance Committee each receives an additional annual fee of \$12,500, all paid in cash on a quarterly basis. We also reimburse directors for their reasonable expenses incurred in connection with their service as a director.

LTIP Units granted to our directors cannot be exchanged for common stock and are subject to restrictions on transfer for two years after the date of grant.

The table below summarizes the compensation we paid to our non-employee directors in 2013:

Name ⁽¹⁾	Fees Earned or Paid in Cash	LTIP Unit Awards ⁽²⁾	Total
Christopher Anderson	\$ —	\$ 64,542	\$ 64,542
Leslie E. Bider	\$ 12,500	\$ 64,542	\$ 77,042
Dr. David Feinberg	\$ 6,250	\$ 64,542	\$ 70,792
Thomas E. O'Hern	\$ 20,000	\$ 64,542	\$ 84,542
Dr. Andrea L. Rich ⁽³⁾	\$ 6,250	\$ —	\$ 6,250
William E. Simon, Jr.	\$ —	\$ 64,542	\$ 64,542

Our directors who are our employees are not entitled to receive additional compensation for their services as (1) directors, and thus Messrs. Emmett, Kaplan and Panzer are not included in this table. The compensation received by Messrs. Emmett, Kaplan and Panzer as our employees is shown in the Summary Compensation Table.

The amounts in this column represent the aggregate grant date fair value of awards made in 2013 (not the grant date face value of \$85,000). The grant date fair value is calculated in accordance with ASC 718, based on the assumptions disclosed in Note 11 to our audited financial statements for 2013, which are included in our 2013 (2) Annual Report on Form 10-K. The aggregate grant date fair values in this column are equal to the individual grant date fair values of the 3,785 LTIP Units granted on December 16, 2013 to each director for their 2014 annual service fees. On December 31, 2013, no non-employee director held any options.

(3) Dr. Andrea L. Rich retired from our Board on June 4, 2013.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The members of our Compensation Committee are Leslie E. Bider, Chairman, Dr. David Feinberg and William E. Simon, Jr. No member of our Compensation Committee is or was one of our officers or employees, or is related to any other member of our Compensation Committee or any member of our Board, or any of our executive officers by blood, marriage or adoption, or had any other relationships requiring disclosure under SEC rules. None of our executive officers has served on the board of directors or on the compensation committee of any other entity that had an officer who served on our Board or our Compensation Committee.

TRANSACTIONS WITH RELATED PERSONS

Fund X. Mr. Kaplan, our Chief Executive Officer, in his individual capacity, and Messrs. Emmett and Panzer, our Chairman of the Board and Chief Operating Officer, respectively, through an affiliated limited partnership and living trust, respectively, each invested \$750,000 to a fund for individual investors that is a member of our institutional real estate fund ("Fund X") on the same basis as we and other investors contributed approximately \$300 million. We currently own approximately 68% of Fund X. During the life of Fund X, we are entitled to certain additional cash based on committed capital and on any profits that exceed certain specified cash returns to the investors. Certain of our wholly-owned affiliates provide property management and other services to Fund X, for which we are paid fees and/or reimbursed our costs. Fund X contemplates a value creation period through 2023 (subject to extension under certain circumstances).

Code of Conduct. Our Code of Business Conduct and Ethics defines a conflict of interest as any situation in which a director, officer or employee has competing professional or personal interests, which could possibly make it difficult to fulfill his or her duties and responsibilities in an impartial manner. Our Code of Business Conduct and Ethics specifically requires that all of our officers, directors and employees (i) fully disclose to the appropriate parties all actual or perceived conflicts of interest, and (ii) ensure that their duties and responsibilities are handled in such a manner that ensures impartiality. Under our Code of Business Conduct and Ethics, conflicts of interest involving our directors and executive officers must be approved by a majority of disinterested directors on our Board, with any interested members abstaining. If such a waiver is granted, a written authorization will be provided indicating that the individual may proceed with the proposed activity.

REPORT OF THE AUDIT COMMITTEE

The information contained in this Report of the Audit Committee shall not be deemed incorporated by reference in any filing under the Securities Act or the Exchange Act, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing (except to the extent that we specifically incorporate this information by reference) and shall not otherwise be deemed "soliciting material" or "filed" with the SEC or subject to Regulation 14A or 14C, or to the liabilities of Section 18 of the Exchange Act (except to the extent that we specifically request that this information be treated as soliciting material or specifically incorporate this information by reference).

Although the Audit Committee oversees our financial reporting process on behalf of our Board, consistent with the Audit Committee's written charter, management has the primary responsibility for preparation of our consolidated financial statements in accordance with generally accepted accounting principles and the reporting process, including disclosure controls and procedures and the system of internal control over financial reporting. Our independent registered public accounting firm is responsible for auditing the annual financial statements prepared by management. The Audit Committee has reviewed and discussed with management and our independent registered public accounting firm, Ernst & Young LLP, our 2013 audited financial statements and management's assessment of the effectiveness of our internal control over financial reporting as of December 31, 2013. Prior to the commencement of the audit, the Audit Committee discussed with our management and independent registered public accounting firm the overall scope and plans for the audit. Subsequent to the audit, and each of the quarterly reviews, the Audit Committee discussed with the independent registered public accounting firm, with and without management present, the results of their examinations or reviews, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of specific judgments and the clarity of disclosures in the consolidated financial statements.

The Audit Committee has discussed with our independent auditors, Ernst & Young LLP, the matters required to be discussed under Auditing Standard No. 16, Communications with Audit Committees (AS16), adopted by the Public Company Accounting Oversight Board. The Audit Committee has also received the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accounting firm's communications with the Audit Committee concerning independence. The Audit Committee discussed with the independent registered public accounting firm its independence from us, and considered the compatibility of non-audit services with its independence.

Based upon the reviews and discussions referred to in the foregoing paragraphs, the Audit Committee recommended to our Board that the audited financial statements be included in our Annual Report on Form 10-K for 2013 filed with the Securities and Exchange Commission.

AUDIT COMMITTEE

Thomas E. O'Hern, Chairperson

Leslie E. Bider

William E. Simon, Jr.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

For 2013 and 2012, our independent registered public accounting firm was Ernst & Young, LLP, an Independent Registered Public Accounting Firm. The following table presents fees for professional services rendered by Ernst & Young LLP to us for those years:

Fees	2013	2012
Audit Fees	\$ 987,550	\$ 996,450
Audit-Related Fees	—	—
Tax Fees ⁽¹⁾	711,850	697,950
All Other Fees	—	—
Total	\$ 1,699,400	\$ 1,694,400

(1) Tax fees include fees principally incurred for assistance with tax compliance matters.

Audit Committee Authorization of Audit and Non-Audit Services

Our Audit Committee has the sole authority to authorize all audit and non-audit services to be provided by the independent registered public accounting firm engaged to conduct the annual audit of our consolidated financial statements. In addition, our Audit Committee has adopted pre-approval policies and procedures that are detailed as to each particular service to be provided by the independent registered public accounting firm and require our Audit Committee to be informed of each service provided by the independent registered public accounting firm. Such policies and procedures do not permit our Audit Committee to delegate its responsibilities under the Exchange Act to management.

Our Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by Ernst & Young LLP, and did so in the case of all of the fees for 2013. Pre-approval is generally provided by our Audit Committee for up to one year, with limits by the particular service or category of services to be rendered, and may be subject to a specific budget. Our Audit Committee may also pre-approve additional services of specific engagements on a case-by-case basis. Our Audit Committee considered and determined that the provision of non-audit services by Ernst & Young LLP was compatible with maintaining their independence.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and executive officers, as well as persons who own more than ten percent of our common stock, to file with the SEC initial reports of beneficial ownership and reports of changes in beneficial ownership of our common stock. Directors, executive officers and greater-than-ten percent stockholders are required by the SEC regulations to furnish us with copies of all Section 16(a) forms they file. Based solely on a review of copies of Forms 3, 4 and 5 filed with the SEC and submitted to us, and on written representations by certain directors and executive officers received by us, we believe that all Section 16(a) reports for our directors and executive officers, as well as persons who own more than ten percent of our common stock, were timely filed.

STOCKHOLDERS' NOMINATIONS AND OTHER PROPOSALS FOR THE 2015 ANNUAL MEETING OF STOCKHOLDERS

The deadline for submission of stockholder proposals in our proxy statement and form of proxy for the 2015 annual meeting of stockholders calculated in accordance with SEC Rule 14a-8 is December 26, 2014.

A stockholder wishing to submit a nomination or other proposal for consideration at the 2015 annual meeting outside of SEC Rule 14a-8 is required to give written notice addressed to the Corporate Secretary, Douglas Emmett, Inc., 808 Wilshire Blvd., Suite 200, Santa Monica, CA 90401, of his or her intention to make such a proposal. The notice of a nomination or other proposal must be received by our Corporate Secretary no later than 5:00 p.m. Eastern Standard

Time on December 26, 2014.

DISCRETIONARY PROXY VOTING AUTHORITY

Rule 14a-4(c) promulgated under the Exchange Act, as amended, governs our use of discretionary proxy voting authority with respect to a stockholder proposal that the stockholder has not sought to include in our proxy statement. The rule provides that if we have not received notice of such a proposal at least 45 days before the date of mailing of the prior year's proxy statement, then the management proxies will be allowed to use their discretionary voting authority when the proposal is raised at the meeting. With respect to our 2015 Annual Meeting of Stockholders, if we are not provided notice of a stockholder proposal which the stockholder has not previously sought to include in our proxy statement by March 2, 2015, management proxies will be allowed to use their discretionary authority as indicated above. Proxies solicited by us will confer discretionary voting authority with respect to these proposals, subject to SEC rules governing the exercise of this authority.

FORWARD-LOOKING STATEMENTS

This proxy statement contains “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements relate to expectations concerning matters that are not historical facts. The risks included are not exhaustive, and additional factors could adversely affect our business and financial performance. We operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time, and it is not possible for management to predict all such risk factors, nor can it assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

OTHER MATTERS

Our Board is not aware of any matter to be acted upon at our Annual Meeting other than as described in this Proxy Statement. However, if any other matter properly comes before the meeting, the proxy holders are authorized to vote on that matter or matters in accordance with their best judgment.

ANNUAL REPORT TO STOCKHOLDERS

Our Annual Report to Stockholders for 2013 is being mailed to stockholders along with this Proxy Statement.
