NOTE 1. BASIS OF PREPARATION AND OTHER

Basis of Preparation -The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. There has been no material change in the information disclosed in the notes to the consolidated financial statements included in the Annual Report on Form 10-K of Rollins, Inc. (the “Company”) for the year ended December 31, 2013. Accordingly, the quarterly condensed consolidated financial statements and related disclosures herein should be read in conjunction with the 2013 Annual Report on Form 10-K.

The preparation of interim financial statements requires management to make estimates and assumptions for the amounts reported in the condensed consolidated financial statements. Specifically, the Company makes estimates in its interim condensed consolidated financial statements for the termite accrual which includes future costs including termiticide life expectancy and government regulations, the insurance accrual which includes self insurance and worker’s compensation, inventory adjustments, discounts and volume incentives earned, among others.

In the opinion of management, all adjustments necessary for a fair presentation of the Company’s financial results for the interim periods have been made. These adjustments are of a normal recurring nature. The results of operations for the three and nine month periods ended September 30, 2014 are not necessarily indicative of results for the entire year.

The Company has only one reportable segment, its pest and termite control business. The Company’s results of operations and its financial condition are not reliant upon any single customer, or a few customers, or the Company’s foreign operations.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

New Accounting Standards

Recently adopted accounting standards

In February 2013, the Financial Accounting Standard Board (“FASB”) issued Accounting Standard Update (“ASU”) No. 2013-02, Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income (ASU 2013-02) to Comprehensive Income. The guidance requires disclosure of significant amounts reclassified out of accumulated other comprehensive income by component and their corresponding effect on the respective line items of net income. The provision of the new guidance was effective as of the beginning of our 2014 fiscal year. Adoption of this new guidance did not have a material impact on the Company’s reported results of operations or financial position.

In February 2013, FASB issued ASU No. 2013-04, Liabilities (Topic 405): Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date (a consensus of the FASB Emerging Issues Task Force). This guidance requires an entity to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date. This stipulates that (1) it will include the amount the entity agreed to pay for the arrangement between them and the other entities that are also obligated to the liability and (2) any additional amount the entity expects to pay on behalf of the other entities. The objective of this update is to provide guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements. The provision of the new guidance was effective as of the beginning of our 2014 fiscal year. Adoption of this new guidance did not have a material impact on the Company’s reported results of operations or financial position.

In July 2013, FASB issued ASU No 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. Topic 740, Income Taxes, does not include explicit guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. There is diversity in practice in the presentation of unrecognized tax benefits in those instances. Some entities present unrecognized tax benefits as a liability unless the unrecognized tax benefit is directly associated with a tax position taken in a tax year that results in, or that resulted in, the recognition of a net operating loss or tax credit carryforward for that year and the net operating loss or tax credit carryforward has not been utilized. Other entities present unrecognized tax benefits as a reduction of a deferred tax asset for a net operating loss or tax credit carryforward in certain circumstances. The objective of the amendments in this Update is to eliminate that diversity in practice. The provision of the new guidance was effective as of the beginning of our 2014 fiscal year. Adoption of this new guidance did not have a material impact on the Company’s reported results of operations or financial position.

ROLLINS, INC. AND SUBSIDIARIES

Recently issued accounting standards to be adopted

In April 2014, FASB issued ASU 2014-08, (Topic 205 and 360): Reporting Discontinued Operations and Disclosure of Disposals of Components of an Entity. ASU 2014-08 amends the definition for what types of asset disposals are to be considered discontinued operations, and amends the required disclosures for discontinued operations and assets held for sale. ASU 2014-08 also enhances the convergence of the FASB's and the International Accounting Standard Board's reporting requirements for discontinued operations. The amendments in this update are effective for fiscal periods beginning on or after December 15, 2014, and interim periods within annual periods beginning on or after December 15, 2015. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

In May 2014, FASB issued Accounting Standards Update ASU No. 2014-09, (Topic 606): Revenue from Contracts with Customers (ASU 2014-09) supersedes the revenue recognition requirements in "Topic 605, Revenue Recognition" and requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 is effective retrospectively for annual or interim reporting periods beginning after December 15, 2016, with early application not permitted. The Company is currently evaluating the impact of this standard on its consolidated financial statements.

NOTE 3. EARNINGS PER SHARE

The Company follows ASC 260, *Earnings Per Share* (ASC 260) that requires the reporting of both basic and diluted earnings (loss) per share. Basic earnings (loss) per share is computed by dividing net income available to participating common stockholders by the weighted average number of participating common shares outstanding for the period. The calculation of diluted earnings (loss) per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. In accordance with ASC 260, any anti-dilutive effects on net earnings (loss) per share, of which there were none at September 30, 2014 and September 30, 2013, are excluded.

Basic and diluted earnings per share attributable to common and restricted shares of common stock for the period were as follows:

	Three Months Ended September 30, 2014		Nine Months Ended September 30, 2013	
Basic earnings per share				
Common stock	\$0.28	\$0.25	\$0.74	\$0.65
Restricted shares of common stock	\$0.28	\$0.24	\$0.72	\$0.64
Total shares of common stock	\$0.28	\$0.25	\$0.74	\$0.65
Diluted earnings per share				
Common stock	\$0.28	\$0.25	\$0.74	\$0.65
Restricted shares of common stock	\$0.28	\$0.24	\$0.72	\$0.64
Total shares of common stock	\$0.28	\$0.25	\$0.74	\$0.65

NOTE 4. CONTINGENCIES

In the normal course of business, certain of the Company's subsidiaries are defendants in a number of lawsuits, claims or arbitrations which allege that the subsidiaries' services caused damage. In addition, the Company defends employment related cases and claims from time to time. We are involved in certain environmental matters primarily arising in the normal course of business. We are actively contesting each of these matters.

Presently, the Company and a subsidiary, The Industrial Fumigant Company, LLC, are named defendants in Severn Peanut Co. and Meherrin Agriculture & Chemical Co. v. Industrial Fumigant Co., et al. The Severn lawsuit, a matter related to a fumigation service, has been filed in the United States District Court for the Eastern District of North Carolina. The court dismissed plaintiffs' claim for breach of contract on March 15, 2014; plaintiffs' pending claim for damages is for negligence.

On April 29, 2014, Foster Poultry Farms sued Orkin, LLC and Orkin Services of California, Inc., for breach of contract, breach of covenant of good faith and fair dealing, and negligence. The lawsuit is pending in the United States District Court for the Northern District of California. Foster Farms is seeking damages related to pest control services performed at its chicken processing facility during a nine month period. The Company intends to defend this matter vigorously.

ROLLINS, INC. AND SUBSIDIARIES

Management does not believe that any pending claim, proceeding or litigation, either alone or in the aggregate will have a material adverse effect on the Company's financial position, results of operations or liquidity; however, it is possible that an unfavorable outcome of some or all of the matters, however unlikely, could result in a charge that might be material to the results of an individual quarter or year.

NOTE 5. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash and cash equivalents, short-term investments, trade receivables, notes receivable, accounts payable and other short-term liabilities. The carrying amounts of these financial instruments approximate their fair values. The Company has a Revolving Credit Agreement with SunTrust Bank and Bank of America, N.A. for an unsecured line of credit of up to \$175.0 million, which includes a \$75.0 million letter of credit subfacility and a \$25.0 million swingline subfacility. This is the Company’s first acquisition outside of North America and places the Company as the number one pest control provider in Western Australia. A valuation of the acquired assets of Allpest is currently being performed and an estimate has been recorded in the Company’s financial statements. The effect of any adjustments to these estimates for Allpest is not expected to have a material effect on the Company’s financial statements as the net total adjustment will effect a combination of goodwill, customer contracts, and other intangible assets at the end of the measurement period.

Acquisition of Wilco Enterprises, Inc. (sole holder of PermaTreat Exterminating Company, Inc. d/b/a PermaTreat Pest Control, Inc.) (“PermaTreat”) – The Company completed the acquisition of PermaTreat effective August 1, 2014. ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

On October 29, 2014, the Company reported its 34th consecutive quarter of improved revenue and earnings with net income of \$41.1 million for the third quarter ended September 30, 2014, as compared to \$36.2 million for the prior year quarter, a 13.6% improvement. Revenues increased by 6.3% to \$384.9 million for the third quarter 2014 as compared to \$362.2 million for the prior year third quarter. Earnings for the third quarter ended September 30, 2014 increased to \$0.28 per diluted share, as compared to \$0.25 per diluted share for the same period in 2013.

Rollins continues its solid financial performance generating \$157.4 million in cash from operations year to date.

Results of Operations:

THREE MONTHS ENDED SEPTEMBER 30, 2014 COMPARED TO THREE MONTHS ENDED SEPTEMBER 30, 2013

Revenue

Revenues for the third quarter ended September 30, 2014 increased \$22.7 million or 6.3% to \$384.9 million compared to \$362.2 million for the third quarter ended September 30, 2013. Growth occurred across all service lines and brands. Acquisitions, pricing and organic growth roughly equally accounted for the growth.

The Company has three primary service offerings. During the third quarter ended September 30, 2014, commercial pest control revenue approximated 41.1% of the Company's revenues, residential pest control approximated 42.5% of the Company's revenues, and termite and ancillary service revenue approximated 16.4% of the Company's revenues. Comparing third quarter 2014 to third quarter 2013, the Company's commercial pest control revenue grew 7.0%, residential pest control revenue grew 4.9%, and termite and ancillary services revenue grew 8.2%.

Foreign operations accounted for approximately 9% and 8% of total revenues during the third quarter of 2014 and 2013, respectively.

Revenues are impacted by the seasonal nature of the Company's pest and termite control services. The increase in pest activity, as well as the metamorphosis of termites in the spring and summer (the occurrence of which is determined by the change in seasons), has historically resulted in an increase in the Company's revenues as evidenced by the following chart:

Consolidated Net Revenues

First Quarter	\$313,388	\$299,714	\$289,465

ROLLINS, INC. AND SUBSIDIARIES

Depreciation and Amortization

Depreciation and Amortization expenses for the third quarter ended September 30, 2014 increased \$1.4 million to \$11.4 million, an increase of 13.5%, increasing 0.2 percentage points to 3.0% of revenue primarily reflecting an increase in depreciation and amortization related to acquisitions that occurred over the previous twelve months.

Sales, General and Administrative

Sales, General and Administrative Expenses for the third quarter ended September 30, 2014 increased \$5.7 million or 5.0 %, to 30.8% of revenues, decreasing from 31.2% for the third quarter ended September 30, 2013. The decrease in margin percent is due to reductions made in administrative salaries reflecting realignment of some of our operations and cost containment programs initiated at the corporate offices late last year. Last year additional expenses were incurred which did not reoccur for advertising related to our commercial pricing initiative.

Interest expense/ (income), net

Interest expense/ (income), net for the third quarter ended September 30, 2014 increased to \$24 thousand expense compared to \$101 thousand income for the third quarter ended September 30, 2013. The increase in interest expense was due to increased interest on contingent considerations.

Income Taxes

Income taxes for the third quarter ended September 30, 2014 increased \$3.0 million or 13.7% to \$24.8 million from \$21.8 million reported for third quarter ended September 30, 2013. This is due to increased pretax earnings. The effective tax rate was 37.6% for the third quarter ended September 30, 2014 and the third quarter ended September 30, 2013.

NINE MONTHS ENDED SEPTEMBER 30, 2014 COMPARED TO NINE MONTHS ENDED SEPTEMBER 30, 2013

Revenue

Revenues for the nine months ended September 30, 2014 increased \$54.9 million or 5.4% to \$1.1 billion compared to \$1.0 billion for the nine months ended September 30, 2013. Most of the increase was due to an increase in lead closure and average price in most categories and acquisitions. The higher sales resulted in growth across all services lines.

During the nine months ended September 30, 2014, commercial pest control revenue approximated 41.2% of the Company's revenues, residential pest control revenue approximated 41.4% of the Company's revenues, and termite and ancillary service revenue made up approximated 17.4% of the Company's revenues. The Company's commercial pest control revenue grew 7.0%, residential pest control revenue grew 4.2%, and termite and ancillary services revenue grew 4.3%.

Foreign operations accounted for approximately 8% of total revenues for each of the first nine months of 2014 and 2013, respectively.

Cost of Services provided

Cost of Services provided for the nine months ended September 30, 2014, increased \$21.7, or 4.2% compared to the nine months ended September 30, 2013. Gross margins year-to-date increased to 50.1% from the prior year gross margin of 49.5% due to favorable termite and casualty claim development, reduced fleet costs and good cost controls across most spending categories.

Depreciation and Amortization

Depreciation and Amortization for the nine months ended September 30, 2014 increased \$2.5 million to \$32.3 million, an increase of 8.5%, increasing 0.1 percentage points to 3.0% of revenue. The dollar increase was due to amortization related to acquisitions that occurred over the previous 12 months.

Sales, General and Administrative

Sales, general and administrative expenses for the nine months ended September 30, 2014 increased \$8.1 million or 2.5% to \$329.8 million or 30.9% of revenues, decreasing from \$321.7 million or 31.8% of revenues in the prior year period due to the Company being able to leverage our administrative and sales salaries, along with a lower advertising run rate than last year.

Interest expense/ (income), net

Interest expense/ (income), net for the period ended September 30, 2014 was \$138 thousand income, a decrease of \$135 thousand from \$273 thousand income for the period ended September 30, 2013.

Income Taxes

Income taxes for the nine months ended September 30, 2014 increased to \$65.2 million, a 18.4% increase from \$55.0 million reported for the same period in 2013, and reflect increased pre-tax income over the prior year period. The effective tax rate was 37.7% for the nine months ended September 30, 2014 versus 36.6% for the nine months ended September 30, 2013 primarily due to favorable adjustments made in 2013 and differences in state tax rates.

ROLLINS, INC. AND SUBSIDIARIES

Liquidity and Capital Resources

The Company believes its current cash and cash equivalents balances, future cash flows expected to be generated from operating activities and available borrowings under its \$175.0 million credit facility will be sufficient to finance its current operations and obligations, and fund expansion of the business for the foreseeable future. The Company's operating activities generated net cash of \$157.4 million and \$127.5 million for the nine months ended September 30, 2014, and 2013, respectively.

The Company made contributions of \$3.3 million and \$2.5 million to its defined benefit retirement plans (the "Plans") during the nine months ended September 30, 2014 and September 30, 2013, respectively. The Company is planning on making no further contributions to the Plans during the fiscal year ending December 31, 2014. In the opinion of management, Plan contributions will not have a material effect on the Company's financial position, results of operations or liquidity for 2014.

The Company invested approximately \$22.7 million in capital expenditures during the nine months ended September 30, 2014, compared to \$13.3 million during the same period in 2013, and expects to invest approximately \$7.0 million for the remainder of 2014. Capital expenditures for the first nine months consisted primarily of the purchase of equipment replacements and technology related projects. During the nine months ended September 30, 2014, the Company made expenditures for acquisitions totaling \$59.7 million, compared to \$12.1 million during the same period in 2013. A total of \$45.9 million was paid in cash dividends (\$0.315 per share) during the first nine months of 2014, compared to \$39.4 million or (\$0.27 per share) during the same period in 2013. On October 28, 2014, the Company announced that the Board of Directors declared a regular quarterly cash dividend on its common stock of \$0.105 per share payable December 10, 2014 to stockholders of record at the close of business November 10, 2014 to be funded with existing cash balances. The Company expects to continue to pay cash dividends to common stockholders, subject to the earnings and financial condition of the Company and other relevant factors. The Company repurchased 1.0 million shares at a weighted average price of \$29.19 from the open market during the first nine months of 2014 compared to the repurchase of 0.3 million shares at a weighted average price of \$24.56 during the first nine months of 2013. The Company has had a buyback program in place for a number of years and has routinely purchased shares when it felt the opportunity was desirable. The Board authorized the purchase of 5.0 million additional shares of the Company's common stock in July 2012. These authorizations enable the Company to continue the purchase of Company common stock when appropriate, which is an important benefit resulting from the Company's strong cash flows. The stock buy-back program has no expiration date. In total, 4.0 million additional shares may be purchased under the share repurchase program. The Company repurchased \$6.2 million and \$5.3 million of common stock for the nine months ended September 30, 2014 and 2013, respectively, from employees for the payment of taxes on vesting restricted shares. The acquisitions, capital expenditures, share repurchases and cash dividends were funded through existing cash balances and operating activities.

The Company's balance sheets as of September 30, 2014 and December 31, 2013 includes short-term unearned revenues of \$104.3 million and \$91.0 million, respectively, representing approximately 8% of our annual revenue. This represents cash paid to the Company by its customers in advance of services that will be recognized over the next twelve months.

The Company's \$114.2 million of total cash at September 30, 2014, is held at various banking institutions. Approximately \$32.7 million is held in cash accounts at foreign bank institutions and the remaining \$81.5 million is primarily held in non-interest-bearing accounts at various domestic banks.

The Company's international business is expanding and we intend to continue to grow the business in foreign markets in the future through reinvestment of foreign deposits and future earnings as well as acquisitions of unrelated companies. Repatriation of cash from the Company's foreign subsidiaries is not a part of the Company's current business plan.

The Company maintains a large cash position in the United States while having little third-party debt to service. The Company maintains adequate liquidity and capital resources that are directed to finance domestic operations and obligations and to fund expansion of its domestic business for the foreseeable future without regard to its foreign deposits.

On October 31, 2012, the Company entered into a Revolving Credit Agreement with SunTrust Bank and Bank of America, N.A. for an unsecured line of credit of up to \$175.0 million, which includes a \$75.0 million letter of credit subfacility, and a \$25.0 million swingline subfacility. The Company had no outstanding borrowings under the line of credit or under the swingline subfacility as of September 30, 2014. The Company remained in compliance with applicable debt covenants through the date of this filing and expects to maintain compliance through 2014.

Litigation

In the normal course of business, certain of the Company's subsidiaries are defendants in a number of lawsuits, claims or arbitrations which allege that the subsidiaries' services caused damage. In addition, the Company defends employment related cases and claims from time to time. We are involved in certain environmental matters primarily arising in the normal course of business. We are actively contesting each of these matters.

ROLLINS, INC. AND SUBSIDIARIES

Presently, the Company and a subsidiary, The Industrial Fumigant Company, LLC, are named defendants in *Severn Peanut Co. and Meherrin Agriculture & Chemical Co. v. Industrial Fumigant Co., et al.* The *Severn* lawsuit, a matter related to a fumigation service, has been filed in the United States District Court for the Eastern District of North Carolina. The court dismissed plaintiffs' claim for breach of contract on March 15, 2014; plaintiffs' pending claim for damages is for negligence.

On April 29, 2014, Foster Poultry Farms sued Orkin, LLC and Orkin Services of California, Inc., for breach of contract, breach of covenant of good faith and fair dealing, and negligence. The lawsuit is pending in the United States District Court for the Northern District of California. Foster Farms is seeking damages related to pest control services performed at its chicken processing facility during a nine month period. The Company intends to defend this matter vigorously.

Management does not believe that any pending claim, proceeding or litigation, either alone or in the aggregate will have a material adverse effect on the Company's financial position, results of operations or liquidity; however, it is possible that an unfavorable outcome of some or all of the matters, however unlikely, could result in a charge that might be material to the results of an individual quarter or year.

Critical Accounting Policies

There have been no changes to the Company's critical accounting policies since the filing of its Form 10-K for the year ended December 31, 2013.

New Accounting Standards

See Note 2 of the Notes to Condensed Consolidated Financial Statements for a description of recent accounting pronouncements, including the expected dates of adoption and estimated effects on results of operations and financial condition.

Forward-Looking Statements

This Quarterly Report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, without limitation, the effect of the future adoption of recent accounting pronouncements on the Company's financial statements; statements regarding management's expectation regarding the effect of the ultimate resolution of pending claims, proceedings or litigation on the Company's financial position, results of operation and liquidity; management's belief that future costs of the Company for environmental matters will not be material to the Company's financial condition, operating results, and liquidity; the Company's belief that its current cash and cash equivalent balances, future cash flows expected to be generated from operating activities and available borrowings will be sufficient to finance its current operations and obligations, and fund expansion of the business for the foreseeable future; our expectation that the Company will continue to pay dividends; our expectation that repatriation of cash is not a part of the Company's business plan; possible defined benefit retirement plan contributions and their effect on the Company's financial position, results of operations and liquidity; estimated 2014 capital expenditures; the Company's expectation to maintain compliance with debt covenants; and the Company's belief that interest rate exposure and foreign exchange rate risk will not have a material effect on the Company's results of operations going forward. The actual results of the Company could differ materially from those indicated by the forward-looking statements because of various risks and uncertainties including, without limitation, the possibility of an adverse ruling against the Company in pending litigation; general economic conditions; market risk; changes in industry practices or technologies; the degree of success of the Company's termite process and pest control selling and treatment methods; the Company's ability to identify and integrate potential acquisitions; climate and weather conditions; competitive factors and pricing practices; our ability to attract and retain skilled workers, and potential increases in labor costs; and changes in various government laws and regulations, including environmental regulations. All of the foregoing risks and uncertainties are beyond the ability of the Company to control, and in many cases the Company cannot predict the risks and uncertainties that could cause its actual results to differ materially from those indicated by the forward-looking statements. A more detailed discussion of potential risks facing the Company can be found in the Company's Report on Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2013. The Company does not undertake to update its forward looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As of September 30, 2014, the Company maintained an investment portfolio (included in cash and cash equivalents) subject to short-term interest rate risk exposure. The Company is subject to interest rate risk exposure through borrowings on its \$175 million credit facility. The Company is also exposed to market risks arising from changes in foreign exchange rates. The Company believes that this foreign exchange rate risk will not have a material impact upon the Company's results of operations going forward. There have been no material changes to the Company's market risk exposure since the end of fiscal year 2013.

ROLLINS, INC. AND SUBSIDIARIES

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of September 30, 2014 (the “Evaluation Date”). In addition, management’s quarterly evaluation identified no changes in our internal control over financial reporting during the third quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. As of September 30, 2014 we did not identify any material weaknesses in our internal controls, and therefore no corrective actions were taken.
