Edgar Filing: HELIX TECHNOLOGY CORP - Form 10-Q

-----  
In the opinion of the Company, the accompanying consolidated financial statements for the three months and nine months ended September 28, 2001, and September 29, 2000, contain all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the financial position as of September 28, 2001, and December 31, 2000, and the results of operations and cash flows for the three months and nine months ended September 28, 2001, and September 29, 2000.

The results of operations for the nine months ended September 28, 2001, are not necessarily indicative of the results expected for the full year.

The consolidated financial statements included herein have been prepared by the Company, without audit of the three months and nine months ended September 28, 2001, and September 29, 2000, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to present fairly the Company's financial position and results of operations. These consolidated financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's latest Annual Report on Form 10-K.

Note 2 - Investments  
-----

The Company had investments of \$14,150,000 and \$16,654,000 as of September 28, 2001, and December 31, 2000, respectively. The investments were classified as "available-for-sale," and the difference between the cost and fair value of these investments was immaterial and is included in other comprehensive income.

Note 3 - Inventories  
-----

(in thousands)	Sept. 28, 2001	Dec. 31, 2000
Finished goods	\$ 8,410	\$ 9,522

	=====	=====

Inventories are stated at the lower of cost or market on a first-in, first-out basis.

## Edgar Filing: HELIX TECHNOLOGY CORP - Form 10-Q

### Note 4 - Income Taxes

-----

The net federal, state and foreign income tax benefit was \$1,125,000 for the nine months ended September 28, 2001. For the nine months ended September 29, 2000, the Company had a net federal, state and foreign income tax provision of \$15,022,000. Tax credits are treated as reductions of income tax provisions in the year in which the credits are realized. The Company does not provide for federal income taxes on the undistributed earnings of its wholly-owned foreign subsidiaries, since these earnings are indefinitely reinvested.

The effective income tax rate for both the nine months ended September 28, 2001, and September 29, 2000, was 32.5%.

The major components of deferred tax assets are compensation and benefit plans, inventory valuation and depreciation. Based on past experience, the Company expects that the future taxable income will be sufficient for the realization of the deferred tax assets. The Company believes that a valuation allowance is not required.

### Note 5 - Net Income Per Share

-----

Basic net income per common share is based on the weighted average number of common shares outstanding during the period. Diluted net income per common share reflects the potential dilution that could occur if outstanding stock options were exercised.

The following table sets forth the computation of basic and diluted net income per common share:

(in thousands except per share data)	Three Months Ended		Nine Months Ended	
	Sept. 28, 2001	Sept. 29, 2000	Sept. 28, 2001	Sept. 29, 2000
