J. W. MAYS, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Accounting Records and Use of Estimates:

The accounting records are maintained in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of the Company's financial statements in accordance with GAAP requires management to make estimates that affect the reported consolidated statements of income and retained earnings, comprehensive income, and the consolidated balance sheets and related disclosures. Actual results could differ from those estimates.

The interim financial statements are prepared pursuant to the requirements for reporting on Form 10-Q. The July 31, 2008 balance sheet was derived from audited financial statements but does not include all disclosures required by GAAP. The interim financial statements and notes thereto should be read in conjunction with the financial statements and notes included in the Company's latest Form 10-K Annual Report for the fiscal year ended July 31, 2008. In the opinion of management, the interim financial statements reflect all adjustments of a normal recurring nature necessary for a fair statement of the results for interim periods. The results of operations for the current period are not necessarily indicative of the results for the entire fiscal year ending July 31, 2009.

2. Income Per Share of Common Stock:

Income per share has been computed by dividing the net income for the periods by the weighted average number of shares of common stock outstanding during the periods, adjusted for the purchase of treasury stock. Shares used in computing income per share were 2,015,780 for the three and nine months ended April 30, 2009 and April 30, 2008.

## Edgar Filing: MAYS J W INC - Form 10-Q

### 3. Comprehensive Income:

Statement of Financial Accounting Standards (SFAS) No. 130, "Reporting Comprehensive Income", establishes standards for the reporting of comprehensive income and its components. It requires all items that are required to be recognized as components of comprehensive income be reported in a financial statement that is displayed with the same prominence as other income statement information. Comprehensive income is defined to include all changes in equity except those resulting from investments by and distributions to shareholders.

### 4. Marketable Securities:

The Company categorizes marketable securities as either trading, available-for-sale or held-to-maturity. Trading securities are carried at fair value with unrealized gains and losses included in income. Available-for-sale securities are carried at fair value measurements using quoted prices in active markets for identical assets or liabilities (level 1) with unrealized gains and losses recorded as a separate component of shareholders' equity. Held-to-maturity securities are carried at amortized cost. Dividends and interest income are accrued as earned. Realized gains and losses are determined on a specific identification basis. The Company reviews marketable securities for impairment whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recovered. The Company did not classify any securities as trading during the nine months ended April 30, 2009 and April 30, 2008. The implementation of Statement of Financial Accounting Standards No. 157, Fair Value Measurements, had no impact on the presentation of marketable securities in the Company's financial statements.

- 6-

As of April 30, 2009, the Company's marketable securities were classified as follows:

	April 30, 2009				
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value	Unr Cost
Current:					
Held-to-maturity:					
Certificate of deposit	\$49,776	\$-	\$-	\$49,776	\$49,097
Noncurrent:					
Available-for-sale:					
Equity securities	\$1,710,276	\$-	\$(575,492)	\$1,134,784	\$1,810,252

The gross unrealized losses have been in existence for less than twelve months and management does not anticipate selling any of the securities at a loss, although it is possible that the Company may, depending upon market conditions, sell certain of the securities at a loss.

Investment income consists of the following:

<b>Total</b>	<b>\$32,240</b>	<b>\$47,132</b>	<b>\$5,608</b>	<b>\$159,649</b>

5. Financial Instruments and Credit Risk Concentrations:

Financial instruments that are potentially subject to concentrations of credit risk consist principally of marketable securities, cash and cash equivalents and receivables. Marketable securities, cash and cash equivalents are placed with multiple financial institutions and instruments to minimize risk. No assurance can be made that such financial institutions and instruments will minimize all such risk.

The Company derives rental income from fifty-five tenants, of which one tenant accounted for 12.51% and another tenant accounted for 16.63% of rental income during the nine months ended April 30, 2009. No other tenant accounted for more than 10% of rental income during the same period.

The Company has three irrevocable Letters of Credit totaling \$367,500 at April 30, 2009 and July 31, 2008, provided by three tenants.

(a) The Company, on September 11, 1996, closed a loan with a bank in the amount of \$4,000,000. The loan is secured by a first mortgage lien

## Edgar Filing: MAYS J W INC - Form 10-Q

covering the entire leasehold interest of the Company, as tenant, in a certain ground lease and building in the Jamaica, New York property. In March 2007, the Company extended the loan for five years with an option for an additional five year period. The interest rate for the initial five years is 6.00% per annum. Interest and amortization of principal will be made in constant monthly amounts based on a fifteen year (15) payout period. The outstanding balance of the loan totaling \$1,036,602 will become due and payable on April 1, 2012.

- (b) The Company, on December 13, 2000, closed a loan with a bank in the amount of \$3,500,000. The loan is secured by a second position leasehold mortgage covering the entire leasehold interest of the Company, as tenant, in a certain ground lease and building in the Jamaica, New York property. The outstanding balance of the loan, totaling \$2,739,452, became due and payable on October 1, 2006. The Company exercised its option to extend the loan for an additional five (5) years to October 1, 2011. The interest rate for the extended period is 6.81% per annum. At the end of the five year period there will be a balance due on the loan of \$2,077,680.

As additional collateral security, the Company conditionally assigned to the bank all leases and rents on the premises, or portions thereof, whether now existing or hereafter consummated. The Company has an option to prepay principal, in whole or in part, plus interest accrued thereon, at any time during the term, without premium or penalty. Other provisions of the loan agreement provide certain restrictions on the incurrence of indebtedness on the Jamaica property and the sale or transfer of the Company's ground lease interest in the premises.

- (c) The Company, on May 7, 2004, closed a loan with an affiliated corporation owned by members, including certain directors of the Company, of the family of the late Joe Weinstein, former Chairman of the Board of Directors, in the amount of \$1,350,000. The term of the loan was for a period of five (5) years at an interest rate of 9.00% per annum. Interest and amortization of principal were paid quarterly based on a fifteen (15) year level amortization period. The constant quarterly payments of interest and principal were \$40,316. The outstanding balance of the loan, totaling \$764,648, became due and payable on April 1, 2009. Interest paid for the nine months ended April 30, 2009 and April 30, 2008 was \$48,148 and \$77,154, respectively. On September 22, 2008, the Company made a payment in the amount \$300,000, which was a partial payment towards the principal amount of the loan and in March 2009 the Company paid the balance of the loan in the amount of \$764,648.

- 8-

- (d) On August 19, 2004, the Company extended the then existing loan for an additional forty-two (42) months, with an option to convert the loan to a seven (7) year permanent mortgage loan. (See Note 6(e) below). The Company in February 2008 converted the loan to a seven (7) year permanent mortgage loan. The interest rate on conversion was 6.98%.
- (e) The Company, on August 19, 2004, closed a loan with a bank for a \$12,000,000 multiple draw term loan. This loan finances seventy-five (75%) percent of the cost of capital improvements for an existing lease to a tenant and capital improvements for future tenant leases at the Company's Brooklyn, New York (Bond Street building) and Fishkill, New York properties. The loan will also finance \$850,000 towards the construction of two new elevators at the Company's Brooklyn, New York property (Bond Street building). The Company had three and one-half years to draw down amounts under this loan. The loan consists of: a) a permanent, first mortgage loan to refinance an existing first mortgage loan affecting the Fishkill Property, which matured on July 1, 2004 (the "First Permanent

## Edgar Filing: MAYS J W INC - Form 10-Q

Loan") (see Note 6(d)), b) a permanent subordinate mortgage loan in the amount of \$1,870,000 (the "Second Permanent Loan"), and c) multiple, successively subordinate loans in the amount \$8,295,274 ("Subordinate Building Loans"). The loan is structured in two phases: 1) a forty-two (42) month loan with payments of interest only at the floating one-month LIBOR rate plus 2.25% per annum, but not less than 3.40%; and 2) after the forty-two month period, the loan would convert to a seven-year (7) permanent mortgage loan on a seventeen (17) year level amortization, plus interest, at the option of the Company. The interest rate on the permanent loan would be at a fixed rate equal to the Federal Home Loan Bank of New York's seven-year (7) fixed interest rate plus 2.25% per annum at the time of conversion. As of August 19, 2004, the Company refinanced the existing mortgage on the Company's Fishkill, New York property, which balance was \$1,834,726 and took down an additional \$2,820,000 for capital improvements for two tenants at the Company's Bond Street building in Brooklyn, New York. In fiscal 2006, 2007 and 2008, the Company drew down additional amounts totaling \$916,670, on its multiple draw term loan to finance tenant improvements and brokerage commissions for the leasing of 13,026 square feet for office use at the Company's Bond Street building in Brooklyn, New York. The Company in February 2008 converted the loan to a seven (7) year permanent mortgage loan. The interest rate on conversion was 6.98%. Since the loan has been converted to a permanent mortgage loan, the balance of the financing on this loan is for the new elevators at the Company's Bond Street building in Brooklyn, New York in the amount of \$850,000 referred to above. As of April 30, 2009, the Company has not drawn down any of the \$850,000. The \$850,000 is not available until the elevator work is completed. The monthly payments to the bank will increase once the \$850,000 is drawn down.

- (f) On February 18, 2005, the Company secured financing in the amount of \$1,700,000, from a bank whose president is a director of the Company. The loan is a multiple draw loan, for a period of five (5) years, and is self-amortizing, at an interest rate of 6.50% per annum.
- (g) The Company, on July 22, 2005, closed a loan with a bank for \$1,200,000. The loan was used to finance the construction costs and brokerage commissions associated with the leasing of 15,000 square feet for office use to a tenant at the Company's Jowein building in Brooklyn, New York. The loan is secured by the assignment of lease of 15,000 square feet. The loan is for a period of five (5) years and is self-amortizing, at a floating interest rate of prime plus 1.00% per annum. The interest rate at April 30, 2009 was 4.25% per annum. 7. Property and Equipment - at cost:

8. Note Payable:

On December 15, 2004, the Company borrowed \$1,000,000 from a former director of the Company, who is also a greater than 10% beneficial owner of the outstanding common stock of the Company. The term of the loan was for a period of three (3) years maturing on December 15, 2007, at an interest rate of 7.50% per annum. The loan is unsecured. The note is prepayable in whole or in part at any time without penalty. The constant quarterly payments of interest are \$18,750. The Company extended the note for an additional three (3) years maturing on December 15, 2010, at an interest rate of 7.50% per annum.

9. Unbilled Receivables and Rental Income:

Unbilled receivables represent the excess of scheduled rental income recognized on a straight-line basis over rental income as it becomes receivable according to the provisions of each lease.

10. Employees' Retirement Plan:

The Company sponsors a noncontributory Money Purchase Plan covering substantially all of its non-union employees. Operations were charged \$73,000 and \$225,000 as contributions to the Plan for the three and nine months ended April 30, 2009, respectively, and \$73,337 and \$234,211 as contributions to the Plan for the three and nine months ended April 30, 2008, respectively.

-10-

11. Cash Flow Information:

For purposes of reporting cash flows, the Company considers cash equivalents to consist of short-term highly liquid investments with maturities of three months or less, which are readily convertible into cash.

### 12. Capitalization:

The Company is capitalized entirely through common stock with identical voting rights and rights to liquidation. Treasury stock is recorded at cost and consists of 162,517 shares at April 30, 2009 and at July 31, 2008.

### 13. Contingencies:

There are various lawsuits and claims pending against the Company. It is the opinion of management that the resolution of these matters will not have a material adverse effect on the Company's Consolidated Financial Statements.

In response to a termination notice that the Company received concerning its tenancy in a portion of the Jowein building, Brooklyn, New York, on April 25, 2007, the Company filed a lawsuit against its landlords in New York State Supreme Court, Kings County. In the lawsuit, the Company seeks a judgment declaring that the landlords' termination notice was improperly issued and that the Company is not required to correct or cure the purported defaults cited in the termination notice. In addition, the Company seeks an order temporarily, preliminarily and permanently enjoining the landlords from taking any action to terminate the lease or otherwise interfere with the Company's possession of the premises.

On May 16, 2007, the New York State Supreme Court granted the Company's motion for preliminary injunctive relief and enjoined the landlords, during the pendency of this action, from taking any action to evict the Company, terminate the Company's lease which is scheduled to expire on April 30, 2010, and/or commencing summary action adverse to the Company's rights or otherwise disturb the Company's possession of the premises. The landlords have answered the complaint denying the allegations and asserting counterclaims against the Company relating to the premises. Discovery has been completed and the case is awaiting the scheduling of a trial date. Management of the Company is unable to predict the outcome of this matter or whether the Company will be required to expend significant amounts of money in order to correct any of the purported defaults.

### J. W. MAYS, INC. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our financial statements and related notes thereto contained in this report. In this discussion, the words "Company", "we", "our" and "us" refer to J.W. Mays, Inc. and subsidiaries.

The following can be interpreted as including forward-looking statements under the Private Securities Litigation Reform Act of 1995. The words "outlook", "intend", "plans", "efforts", "anticipates", "believes", "expects" or words of similar import typically identify such statements. Various important factors that could cause actual results to differ materially from those expressed in

## Edgar Filing: MAYS J W INC - Form 10-Q

the forward-looking statements are identified under the heading "Cautionary Statement Regarding Forward-Looking Statements" below. Our actual results may vary significantly from the results contemplated by these forward-looking statements based on a number of factors including, but not limited to, availability of labor, marketing success, competitive conditions and the change in economic conditions of the various markets we serve.

### Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosure of contingent assets and liabilities. We believe the critical accounting policies in Note 1 to the Consolidated Financial Statements affect our more significant judgments and estimates used in the preparation of our financial statements. Actual results may differ from these estimates under different assumptions and conditions. (See Note 1 on page 6 to the Consolidated Financial Statements herein and Note 1 on pages 8 and 9 to the Consolidated Financial Statements in the Annual Report to Shareholders for the fiscal year ended July 31, 2008).

### Results of Operations:

Three Months Ended April 30, 2009 Compared to the Three Months Ended April 30, 2008:

In the three months ended April 30, 2009, the Company reported net income of \$343,651, or \$.17 per share. In the comparable three months ended April 30, 2008, the Company reported income of \$66,797, or \$.03 per share.

Revenues in the current three months increased to \$4,071,951 from \$3,488,774 in the comparable 2008 three months. The increase in revenues was due to the Company's leasing to three additional tenants at the Company's Brooklyn, New York properties.

The recovery of real estate taxes in the current three months in the amount of \$9,591, net of legal expenses, represents prior years' real estate taxes from one of the Company's properties.

Real estate operating expenses in the current three months increased to \$2,338,071 from \$2,259,838 in the comparable 2008 three months primarily due to increases in rent expense, real estate taxes, maintenance costs and payroll costs, partially offset by decreases in utility costs and leasing commission costs.

Administrative and general expenses in the current three months decreased to \$802,000 from \$822,555 in the comparable 2008 three months primarily due to a bad debt expense due to a tenant vacating the premises at the Company's Jowein building in Brooklyn, New York in the 2008 three months, partially offset by increases in payroll costs.

Depreciation and amortization expense in the current three months increased to \$402,944 from \$394,924 in the comparable 2008 three months.

-12-

Interest expense and other expenses in the current three months exceeded investment income by \$147,285 and by \$140,660 in the comparable 2008 three months. The increase in the excess of interest expense over investment income was due primarily to a decrease in investment income, partially offset by scheduled repayments of debt.

## Edgar Filing: MAYS J W INC - Form 10-Q

Nine Months Ended April 30, 2009 Compared to the Nine Months Ended April 30, 2008:

In the nine months ended April 30, 2009, the Company reported net income of \$664,585, or \$.33 per share. In the comparable nine months ended April 30, 2008, the Company reported a net loss of (\$214,021), or (\$.11) per share.

Revenues in the current nine months increased to \$12,491,692 from \$10,701,425 in the comparable 2008 nine months. The increase in revenues was due to the Company's leasing to five additional tenants at the Company's Brooklyn, New York and Circleville, Ohio properties, and the recovery of real estate taxes discussed below.

The recovery of real estate taxes in the current nine months in the amount of \$546,418, net of legal expenses, represents prior years' real estate taxes from two of the Company's properties. The comparable 2008 nine months had a recovery of real estate taxes in the amount of \$91,043, net of legal expenses, from one of the Company's properties.

Real estate operating expenses in the current nine months increased to \$7,008,128 from \$6,798,639 in the comparable 2008 nine months primarily due to increases in rental expense, real estate taxes and payroll costs, partially offset by decreases in utility costs, insurance costs and leasing commission costs.

Administrative and general expenses in the current nine months increased to \$2,686,213 from \$2,673,445 in the comparable 2008 nine months primarily due to increases in payroll costs, insurance costs and legal and professional costs partially offset by a bad debt expense due to a tenant vacating the premises at the Company's Jowein building in Brooklyn, New York in the 2008 nine months.

Depreciation and amortization expense in the current nine months increased to \$1,212,442 from \$1,188,573 in the comparable 2008 nine months.

Interest expense and other expenses in the current nine months exceeded investment income by \$560,324 and by \$497,789 in the comparable 2008 nine months. The increase in the excess of interest expense over investment income was due to the principal write-down of \$99,976 due to the impairment of the Company's investment in Lehman Brothers Holdings Inc. preferred stock, and a decrease in investment income, partially offset by scheduled repayments of debt.

### Liquidity and Capital Resources:

The Company has been operating as a real estate enterprise since the discontinuance of the retail department store segment of its operations on January 3, 1989.

Management considers current working capital and borrowing capabilities adequate to cover the Company's planned operating and capital requirements. The Company's cash and cash equivalents amounted to \$1,742,212 at April 30, 2009.

In July 2008, the Company entered into a lease agreement with a tenant for 57,209 square feet of office space at its Bond Street, Brooklyn, New York property. Rent commenced in February 2009. The cost of construction to the Company for this tenant was insignificant.

## Edgar Filing: MAYS J W INC - Form 10-Q

On September 22, 2008, the Company made a payment in the amount of \$300,000, which was a partial payment towards the principal amount of its loan on the Jowein Building in Brooklyn, New York and in March 2009, the Company paid the balance of the loan in the amount of \$764,648 in addition to quarterly payments. (See Note 6(c) to the Consolidated Financial Statements.)

As part of the \$12,000,000 multiple draw term loan, the bank agreed to finance the cost of two new elevators at the Company's Bond Street building in Brooklyn, New York. The amount to be financed will be \$850,000. (See Note 6(e) to the Consolidated Financial Statements). The total cost of the elevator project is estimated to be \$1,100,000 and is anticipated to be completed in fiscal 2009.

The leases with the Company's landlords at the Jowein building in Brooklyn, New York, expire on April 30, 2010. The Company is committed to return the premises in the condition the Company received it, taking into account normal wear and tear. At this time we are unable to determine the costs required to separate the building.

### Cash Flows From Operating Activities:

Payroll and Other Accrued Liabilities: The Company paid \$272,453 for commissions incurred in order to lease space at the Company's properties in the nine months ended April 30, 2009. The original amount of the brokerage commissions was \$2,540,474. As of April 30, 2009, \$2,341,135 had been paid.

A tenant at the Company's Jowein building in Brooklyn, New York paid the rent in advance to the end of the lease term which is April 2010. The amount paid in advance as of April 30, 2009 was \$357,696.

### Cash Flows From Investing Activities:

The Company had expenditures of \$464,550 in the nine months ended April 30, 2009 for the construction of two new elevators. The total cost of the project is estimated to be approximately \$1,100,000, of which \$850,000 will be financed by a bank. The project is anticipated to be completed in fiscal 2009.

### Cash Flows From Financing Activities:

On September 22, 2008, the Company made a payment in the amount of \$300,000, which was a partial payment towards the principal amount of its loan on the Jowein Building in Brooklyn, New York and in March 2009, the Company paid the balance of the loan in the amount of \$764,648 in addition to quarterly payments. (See Note 6(c) to the Consolidated Financial Statements.)

### Quantitative and Qualitative Disclosures About Market Risks:

The Company uses both fixed-rate and variable-rate debt to finance its capital requirements. These transactions expose the Company to market risk related to changes in interest rates. The Company does not use derivative financial instruments. At April 30, 2009, the Company had fixed-rate debt of \$10,439,479 and variable-rate debt of \$320,000. Because of the Jowein building, Brooklyn, New York loan (presently with a balance of \$320,000), if interest rates were to change 100 basis points, the effect on net income from operations and future cash flows would be a decrease, should the rates increase, or an increase, should the rates decline, of \$3,200 for this loan.

### Cautionary Statement Regarding Forward-Looking Statements:

## Edgar Filing: MAYS J W INC - Form 10-Q

This section, Management's Discussion and Analysis of Financial Condition and Results of Operations, other sections of this Report on Form 10-Q and other reports and verbal statements made by our representatives from time to time may contain forward-looking statements that are based on our assumptions, expectations and projections about us and the securities industry. These include statements regarding our expectations about revenues, our liquidity, our expenses and our continued growth, among others. Such forward-looking statements by their nature involve a degree of risk and uncertainty. We caution that a variety of factors, including but not limited to the factors listed below, could cause business conditions and our results to differ materially from what is contained in forward-looking statements:

- .. changes in the rate of economic growth in the United States;
- .. the ability to obtain credit from financial institutions and at what costs;
- .. changes in the financial condition of our customers;
- .. changes in regulatory environment;
- .. lease cancellations;
- .. changes in our estimates of costs;
- .. war and/or terrorist attacks on facilities where services are or may be provided;
- .. outcomes of pending and future litigation;
- .. increasing competition by other companies;
- .. compliance with our loan covenants;
- .. recoverability of claims against our customers and others by us and claims by third parties against us; and
- .. changes in estimates used in our critical accounting policies.

Other factors and assumptions not identified above were also involved in the formation of these forward-looking statements and the failure of such other assumptions to be realized, as well as other factors, may also cause actual results to differ materially from those projected. Most of these factors are difficult to predict accurately and are generally beyond our control. You should consider the areas of risk described above in connection with any forward-looking statements that may be made by us.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any additional disclosures we make in proxy statements, quarterly reports on Form 10-Q, Annual Reports on Form 10-K and current reports on Form 8-K filed with the Securities and Exchange Commission.

### Controls and Procedures:

The Company's management reviewed the Company's internal controls and procedures and the effectiveness of these controls. As of April 30, 2009, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to

## Edgar Filing: MAYS J W INC - Form 10-Q

Rules 13a-14(c) and 15d-14(c) of the Securities Exchange Act of 1934. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company required to be included in its periodic SEC filings.

There was no change in the Company's internal controls over financial reporting or in other factors during the Company's last fiscal quarter that materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting. There were no significant deficiencies or material weaknesses, and therefore there were no corrective actions taken.

Our Accounting Department is comprised of four persons. Due to such a limited number of persons, a complete segregation of all of the duties as to which the department is responsible is not possible. In order to make sure that the inability to segregate all duties does not affect our timely and accurate financial reporting, we need to remain vigilant in maintaining compensating controls. These compensating controls will continue to be monitored in order to assure us that our internal controls over financial reporting remain at a high level despite the limited number of Accounting Department personnel.
