J. W. MAYS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Accounting Records and Use of Estimates:

The accounting records are maintained in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of the Company's financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses during the reporting period. The estimates that we make include allowance for doubtful accounts, depreciation and amortization, income tax assets and liabilities, fair value of marketable securities and revenue recognition. Estimates are based on historical experience where applicable or other assumptions that management believes are reasonable under the circumstances. Due to the inherent uncertainty involved in making estimates, actual results may differ from those estimates under different assumptions or conditions.

The interim financial statements are prepared pursuant to the requirements for reporting on Form 10-Q. The July 31, 2010 balance sheet was derived from audited financial statements but does not include all disclosures required by GAAP. The interim financial statements and notes thereto should be read in conjunction with the financial statements and notes included in the Company's latest Form 10-K Annual Report for the fiscal year ended July 31, 2010. In the opinion of management, the interim financial statements reflect all adjustments of a normal recurring nature necessary for a fair statement of the results for interim periods. The results of operations for the current period are not necessarily indicative of the results for the entire fiscal year ending July 31, 2011.

The computation of the annual expected effective tax rate at each interim period requires certain estimates and assumptions including, but not limited to, the expected operating income for the year, projections of the proportion of income (or loss), and permanent and temporary differences. The accounting estimates used to compute the provision for income taxes may change as new events occur, more experience is acquired, or as additional

Edgar Filing: MAYS J W INC - Form 10-Q

information is obtained. To the extent that the estimated annual effective tax rate changes during a quarter, the effect of the change on prior quarters is included in tax expense for the current quarter.

In the second quarter of 2011, the Company recorded an out-of-period tax adjustment of approximately \$65,000 related to the calculation of the 2010 income tax provision that was prepared during the 2010 year-end close and related to the impact of the discontinued operations. We have performed an evaluation to determine if the financial statement impacts resulting from this error in accounting were material, considering both quantitative and qualitative factors. Based on this materiality analysis, we concluded that correcting the cumulative error would be immaterial to the expected current year financial results and a correction of the error would not have a material impact to any individual prior period financial statements.

2. Income Per Share of Common Stock:

Income per share has been computed by dividing the net income for the periods by the weighted average number of shares of common stock outstanding during the periods, adjusted for the purchase of treasury stock. Shares used in computing income per share were 2,015,780 for the six months ended January 31, 2011 and January 31, 2010.

3. Comprehensive Income:

FASB ASC 220-10 (formerly known as SFAS No. 130), "Reporting Comprehensive Income", establishes standards for the reporting of comprehensive income and its components. It requires all items that are required to be recognized as components of comprehensive income be reported in a financial statement that is displayed with the same prominence as other income statement information. Comprehensive income is defined to include all changes in equity except those resulting from investments by and distributions to shareholders.

-7-

4. Discontinued Operations:

The Company's lease with its landlords at the Jowein building in Brooklyn, New York expired on April 30, 2010. The Company returned the premises in "as is" condition and the Company will have no obligation to correct, cure or take any action relating to repairing such premises other than the cure of certain existing violations.

As part of the settlement the Company paid to the landlords' successor ("490 Owner") \$1,000,000. The Company also transferred to 490 Owner title to 484 Fulton Street, Brooklyn, New York (with an appraised value of \$4,490,000) subject to the existing tenancy and 490 Owner has caused title to 14 Hanover Place, Brooklyn, New York (with an appraised value of \$900,000) to be transferred to the Company. The appraised values of the two buildings were based upon a review of "comparables" (other properties which are believed by the appraisers to be similar to the properties subject to the appraisals). The appraised values of the two properties were not derived from a negotiation between the parties as to the actual purchase and sale prices for such properties since no such negotiation took place. Nor were such appraised values derived using other valuation methods, such as the net present value from cash flows. Accordingly, these appraised values are merely estimated values of the properties. The exchange was accounted for under ASC Topic 805 "Exchanges of Nonmonetary Assets."

The Condensed Consolidated Statements of Income and Retained Earnings have

Edgar Filing: MAYS J W INC - Form 10-Q

been reclassified to show discontinued operations as a line item. The Components are as follows:

5. Marketable Securities:

The Company categorizes marketable securities as either trading, available-for-sale or held-to-maturity. Trading securities are carried at fair value with unrealized gains and losses included in income. Available-for-sale securities are carried at fair value measurements using quoted prices in active markets for identical assets or liabilities with unrealized gains and losses recorded as a separate component of shareholders' equity. Held-to-maturity securities are carried at amortized cost. Dividends and interest income are accrued as earned. Realized gains and losses are determined on a specific identification basis. The Company reviews marketable securities for impairment whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recovered. The Company did not classify any securities as trading during the six months ended January 31, 2011 and January 31, 2010. The implementation of ASC 820-10, Fair Value Measurements, had no impact on the presentation of marketable securities in the Company's financial statements. During 2009, the Company adopted ASC 320-10-65, Transition Related to FSB FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary Impairment ("ASC 320-10-65"). The implementation of ASC 320-10-65 did not have an impact on the Company's financial statements.

In accordance with the provisions of Fair Value Measurements, the following are the entity's financial assets presented at fair value at January 31, 2011.

6. Financial Instruments and Credit Risk Concentrations:

Financial instruments that are potentially subject to concentrations of credit risk consist principally of marketable securities, cash and cash equivalents and receivables. Marketable securities and cash and cash equivalents are placed with multiple financial institutions and instruments to minimize risk. No assurance can be made that such financial institutions and instruments will minimize all such risk.

The Company derives rental income from fifty tenants, of which one tenant accounted for 18.20% and another tenant accounted for 16.59% of rental income during the six months ended January 31, 2011. No other tenant accounted for more than 10% of rental income during the same period.

The Company has two irrevocable Letters of Credit totaling \$297,500 at January 31, 2011 and July 31, 2010, provided by two tenants.

- (a) The Company, on September 11, 1996, closed a loan with a bank in the amount of \$4,000,000. The loan is secured by a first mortgage lien covering the entire leasehold interest of the Company, as tenant, in a certain ground lease and building in the Jamaica, New York property. In March 2007, the Company extended the loan for five years with an option for an additional five year period. The interest rate for the initial five years is 6.00% per annum. Interest and amortization of principal will be made in constant monthly amounts based on a fifteen year (15) payout period. The outstanding balance of the loan totaling \$1,036,602 will become due and payable on April 1, 2012.
- (b) The Company, on December 13, 2000, closed a loan with a bank in the amount of \$3,500,000. The loan is secured by a second position leasehold mortgage covering the entire leasehold interest of the Company, as tenant, in a certain ground lease and building in the Jamaica, New York property. The outstanding balance of the loan, totaling \$2,739,452, became due and payable on October 1, 2006. The Company exercised its option to extend the loan for a additional five (5) years. The interest rate for the extended period is 6.81% per annum. The outstanding balance of the loan totaling \$2,077,680 will become due and payable on October 1, 2011. The Company has not determined whether it will extend this loan or pay it in full upon maturity.

As additional collateral security, the Company conditionally assigned to the bank all leases and rents on the premises, or portions thereof, whether now existing or hereafter consummated. The Company has an option to prepay principal, in whole or in part, plus interest accrued thereon, at any time during the term, without premium or penalty. Other provisions of the loan agreement provide certain restrictions on the incurrence of indebtedness on the Jamaica property and the sale or transfer of the Company's ground lease interest in the premises.

-11-

- (c) On August 19, 2004, the Company extended the then existing loan for an additional forty-two (42) months, with an option to convert the loan to a seven (7) year permanent mortgage loan. (See Note 7(d) below). The Company in February 2008 converted the loan to a seven (7) year permanent mortgage loan. The interest rate on conversion was 6.98%.
- (d) The Company, on August 19, 2004, closed a loan with a bank for a \$12,000,000 multiple draw term loan. This loan finances seventy-five (75%) percent of the cost of capital improvements for an existing lease to a tenant and capital improvements for potential future tenant leases at the Company's Brooklyn, New York (Bond Street building) and Fishkill, New York properties through February 2008. The loan also financed \$850,000 towards the construction of two new elevators at the Company's Brooklyn, New York property (Bond Street building). The loan consists of: a) a permanent, first mortgage loan to refinance an existing first mortgage loan affecting the Fishkill, New York property, which matured on July 1, 2004 (the "First

Edgar Filing: MAYS J W INC - Form 10-Q

Permanent Loan") (see Note 7(c)), b) a permanent subordinate mortgage loan in the amount of \$1,870,000 (the "Second Permanent Loan"), and c) multiple, successively subordinate loans in the amount \$8,295,274 ("Subordinate Building Loans"). As of August 19, 2004, the Company refinanced the existing mortgage on the Company's Fishkill, New York property, which balance was \$1,834,726 and took down an additional \$2,820,000 for capital improvements for two tenants at the Company's Bond Street building in Brooklyn, New York. In fiscal 2006, 2007 and 2008, the Company drew down additional amounts totaling \$916,670, on its multiple draw term loan to finance tenant improvements and brokerage commissions for the leasing of 13,026 square feet for office use at the Company's Bond Street building in Brooklyn, New York. The Company in February 2008 converted the loan to a seven (7) year permanent mortgage loan. The interest rate on conversion was 6.98%. Since the loan has been converted to a permanent mortgage loan, the balance of the financing on this loan was for the new elevators at the Company's Bond Street building in Brooklyn, New York in the amount of \$850,000 referred to above. The \$850,000 was drawn down in fiscal 2010.

- (e) The Company, on July 22, 2005, closed a loan with a bank for \$1,200,000. The loan was used to finance the construction costs and brokerage commissions associated with the leasing of 15,000 square feet for office use to a tenant at the Company's Jowein building in Brooklyn, New York. The loan was secured by the assignment of lease of 15,000 square feet. The loan was for a period of five (5) years and was self-amortizing, at a floating interest rate of prime plus 1.00% per annum. The loan was paid in full as of August 1, 2010.

The constant quarterly payment of interest is \$12,500.

10. Unbilled Receivables and Rental Income:

Unbilled receivables represent the excess of scheduled rental income recognized on a straight-line basis over rental income as it becomes receivable according to the provisions of each lease.

11. Employees' Retirement Plan:

The Company contributes to a union sponsored multi-employer pension plan covering its union employees. The Company contributions to the Pension Plan were \$6,844 and \$13,316 for the three and six months ended January 31, 2011, respectively, and \$5,959 and \$10,609 for the three and six months ended January 31, 2010, respectively. The Company also contributes to union sponsored health benefit plans.

Edgar Filing: MAYS J W INC - Form 10-Q

13. Capitalization:

The Company is capitalized entirely through common stock with identical voting rights and rights to liquidation. Treasury stock is recorded at cost and consists of 162,517 shares at January 31, 2011 and at July 31, 2010.

14. Contingencies:

There are various lawsuits and claims pending against the Company. It is the opinion of management that the resolution of these matters will not have a material adverse effect on the Company's Condensed Consolidated Financial Statements.

In response to a termination notice that the Company received concerning its tenancy in a portion of the Jowein building, Brooklyn, New York, on April 25, 2007, the Company filed a lawsuit against its landlords in New York State Supreme Court, Kings County. In the lawsuit, the Company sought a judgment declaring that the landlords' termination notice was improperly issued and that the Company was not required to correct or cure the purported defaults cited in the termination notice. In addition, the Company sought an order temporarily, preliminarily and permanently enjoining the landlords from taking any action to terminate the lease or otherwise interfere with the Company's possession of the premises.

The lawsuit that was brought by the Company against its prior landlords concerning the Company's tenancy in a portion of the Jowein building at 490 Fulton Street, Brooklyn, New York ("490 Fulton") has been dismissed pursuant to a stipulation of discontinuance filed on June 1, 2010. The dismissal of the lawsuit is with prejudice and includes all claims and counterclaims relating to the Company's tenancy and the lawsuit.

In connection with the settlement, the Company has paid to the landlords' successor ("490 Owner") \$1,000,000. In return, 490 Owner has provided to the Company general releases of past, present and future claims relating to the lease of 490 Fulton from former landlords Snyder Fulton Street, LLC and Fulton Interest, LLC and successor landlord 490 Owner.

The Company has transferred to 490 Owner title to 484 Fulton Street, Brooklyn, New York (with an appraised value of \$4,490,000) subject to the existing tenancy and 490 Owner has caused title to 14 Hanover Place, Brooklyn, New York (with an appraised value of \$900,000) to be transferred to the Company. The appraised values of the two buildings were merely based upon a review of "comparables" (other properties which are believed by the appraisers to be similar to the properties subject to the appraisals). The appraised values of the two properties were not derived from a negotiation between the parties as to the actual purchase and sale prices for such properties since no such negotiation took place. Nor were such appraised values derived using other valuation methods, such as the net present value from cash flows. Accordingly, these appraised values are merely estimated values of the properties.

-14-

The Company has entered into a 49-year lease with a designee of 490 Owner for approximately 20,000 square feet in the basement, first and second floors of 25 Elm Place, Brooklyn, New York at an annual rental of \$100,000, with 10% rent escalations every five years.

The Company surrendered to 490 Owner possession of 490 Fulton as of May 1,

Edgar Filing: MAYS J W INC - Form 10-Q

2010 in "as is" condition and the Company has no obligation to correct, cure or take any action relating to repairing such premises other than the cure of certain existing violations as documented in the settlement agreement. The Company retains rights to access and maintain certain offices, equipment and systems in the alleyway between 490 Fulton and 25 Elm Place.

490 Owner will indemnify and hold the Company harmless from all claims by its affiliates and the landlord concerning the Company's obligations under its lease at 14 Hanover Place.

The Company is required to remove the foot bridge over Bond Street in Brooklyn, New York by June 2012. The cost of the removal of the bridge is \$302,360. The removal of the foot bridge is anticipated to be completed in March, 2011.

If the Company sells, transfers, disposes of or demolishes 25 Elm Place, Brooklyn, New York, then the Company may be liable to create a condominium unit for the loading dock. The necessity of creating the condominium unit and the cost of such condominium unit cannot be determined at this time.

The Company has a commitment to do construction work in connection with a new lease agreement for 18,218 square feet at the Company's Nine Bond Street Brooklyn, New York building. The costs related to the construction work are estimated at \$1,500,000.

Our actual results may vary significantly from the results contemplated by these forward-looking statements based on a number of factors including, but not limited to, availability of labor, marketing success, competitive conditions and the change in economic conditions of the various markets we serve.

Critical Accounting Policies and Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosure of contingent assets and liabilities. Actual results may differ from these estimates under different assumptions and conditions. (See Note 1 on page 7 to the Condensed Consolidated Financial

Real estate operating expenses from continuing operations in the current three months increased to \$2,068,244 from \$2,002,163 in the comparable 2010 three months primarily due to an increase in maintenance expense, partially offset by decreases in real estate taxes, insurance costs, utilities and rental expense.

Administrative and general expenses from continuing operations in the current three months increased to \$1,024,686 from \$927,586 in the comparable 2010 three months primarily due to increases in payroll costs, medical costs and bad debt expense due to a tenant at the Company's Jamaica, New York building, partially offset by decreases in insurance costs and legal and professional costs.

Depreciation and amortization expense from continuing operations in the current three months increased to \$390,083 from \$375,069 in the comparable 2010 three months. The increase was due to improvements on the Nine Bond Street building in Brooklyn, New York.

Interest expense in the current three months exceeded investment income by \$138,532 and by \$162,501 in the comparable 2010 three months. The decrease in the excess of interest expense over investment income was due primarily to scheduled repayments of debt.

Revenues from continuing operations in the current six months decreased to \$7,315,221 from \$7,378,074 in the comparable 2010 six months. The decrease in revenues was primarily due to a real estate tax refund in the 2010 year (see below).

There was a recovery of real estate taxes, net of legal expenses in the 2010 six months in the amount of \$114,251. The comparable 2011 six months did not have a recovery of real estate taxes.

-16-

Real estate operating expenses from continuing operations in the current six months increased to \$3,932,221 from \$3,863,100 in the comparable 2010 six months primarily due to an increase in maintenance expense, partially offset by decreases in real estate taxes, insurance costs, utilities and rental expense.

Liquidity and Capital Resources:

The Company has been operating as a real estate enterprise since the discontinuance of the retail department store segment of its operations on January 3, 1989.

Management considers current working capital and borrowing capabilities adequate to cover the Company's planned operating and capital requirements. The Company's cash and cash equivalents amounted to \$2,793,348 at January 31, 2011.

In September 2009, the Company entered into a lease agreement with a drive-in restaurant at the Company's Massapequa premises. The drive-in restaurant intends to construct a new building. The tenant's occupancy is subject to it receiving the necessary building permits and licenses to construct the building and open for business within a reasonable time period. Rent is anticipated to commence in late 2011. This will replace the tenant that vacated the premises in April 2009. The rental income from this lease agreement will more than offset the rental income lost from the previous tenant.

Edgar Filing: MAYS J W INC - Form 10-Q

In October, 2010, the Company entered into a lease agreement with a tenant for 18,218 square feet for office space at the Company's Nine Bond Street, Brooklyn, New York building. Item 3. Quantitative and Qualitative Disclosures About Market Risks:

The Company uses fixed-rate debt to finance its capital requirements. These transactions expose the Company to market risk related to changes in interest rates. The Company does not use derivative financial instruments. At January 31, 2011, the Company had fixed-rate debt of \$10,274,600.

Item 4. Controls and Procedures:

The Company's management reviewed the Company's internal controls and procedures and the effectiveness of these controls. As of January 31, 2011, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rules 13a-14(c) and 15d-14(c) of the Securities Exchange Act of 1934. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company required to be included in its periodic SEC filings.

There was no change in the Company's internal controls over financial reporting or in other factors during the Company's last fiscal quarter that materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting. There were no significant deficiencies or material weaknesses, and therefore there were no corrective actions taken.
