Stage Stores, Inc.
Notes to Condensed Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

The accompanying Condensed Consolidated Financial Statements (Unaudited) of Stage Stores, Inc. and its subsidiary ("Stage Stores" or the "Company") have been prepared in accordance with Rule 10-01 of Regulation S-X and do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. Those adjustments that are, in the opinion of management, necessary for a fair presentation of the results of the interim periods have been made. The results of operations for such interim periods are not necessarily indicative of the results of operations for a full year. The Condensed Consolidated Financial Statements (Unaudited) should be read in conjunction with the Audited Consolidated Financial Statements and notes thereto filed with Stage Stores' Annual Report on Form 10-K for the year ended February 1, 2014.

References to a particular year are to Stage Stores' fiscal year, which is the 52- or 53-week period ending on the Saturday closest to January 31st of the following calendar year. For example, a reference to "2013" is a reference to the fiscal year ended February 1, 2014 and a reference to "2014" is a reference to the fiscal year ending January 31, 2015. References to the "three months ended August 2, 2014" pertain to the thirteen weeks ended August 2, 2014, and references to the "three months ended August 3, 2013" pertain to the thirteen weeks ended August 3, 2013. References to the "six months ended August 2, 2014" pertain to the twenty-six weeks ended August 2, 2014, and references to the "six months ended August 3, 2013" pertain to the twenty-six weeks ended August 3, 2013.

Stage Stores, Inc., a Houston, Texas-based retailer, operates primarily in small and mid-sized towns and communities. Its stores, which operate under the BEALLS, GOODY'S, PALAIS ROYAL, PEEBLES and STAGE nameplates, offer moderately priced, nationally recognized brand name and private label apparel, accessories, cosmetics and footwear for the entire family. As of August 2, 2014, the Company operated 850 stores located in 40 states. The Company also offers its merchandise direct-to-consumer through its eCommerce website and Send program. The eCommerce website features assortments of merchandise similar to that found in the Company's stores, as well as products not carried in its stores. The Send program allows customers in the stores to have merchandise shipped directly to their homes if the merchandise is not available in the local store.

Recent Accounting Standards. In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, which changes the criteria for reporting discontinued operations and also requires additional disclosures about discontinued operations. For public companies, the standard is effective prospectively for disposals that occur within annual periods beginning on or after December 15, 2014, and interim periods within those years. The Company has decided not to early adopt this ASU.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which provides a five-step analysis of transactions to determine when and how revenue is recognized. The core principle of the guidance is that a Company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This update will be effective for the Company retrospectively beginning in the first quarter of fiscal 2017 with early adoption not permitted. The Company is evaluating the impact of this ASU on its financial statements.

2. Discontinued Operations

In the first quarter of 2014, the Company made the decision to divest its Steele's stores, an off-price concept the Company had launched in November 2011, in order to focus all of its attention on its core department store business. On March 7, 2014, the Company completed the sale of the Steele's operations. Accordingly, the results of operations of Steele's are reflected in Loss from Discontinued Operations on the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) (Unaudited) for all periods presented.

The following table summarizes the revenues and pre-tax loss of Steele's, which includes the loss on the sale of Steele's of \$9.7 million, for each period presented (in thousands):

	Three Months Ended		Six Months Ended	
	August 2, 2014	August 3, 2013	August 2, 2014	August 3, 2013
Net sales	\$—	\$5,340	\$2,414	\$11,874
Pre-tax loss from discontinued operations	—	1,941	11,005	3,007

There were no assets or liabilities related to Steele's included in the Condensed Consolidated Balance Sheet (unaudited) as of August 2, 2014. The carrying values of the major assets and liabilities related to Steele's included in the Consolidated Balance Sheet as of February 1, 2014 were as follows (in thousands):

	February 1, 2014
Merchandise inventories, net	\$10,498
Property, equipment and leasehold improvements, net	732
Other assets	442
Liabilities	809

3. Stock-Based Compensation

As approved by the Company's shareholders, the Company established the Amended and Restated 2001 Equity Incentive Plan (the "2001 Equity Incentive Plan") and the Second Amended and Restated 2008 Equity Incentive Plan (the "2008 Equity Incentive Plan" and collectively with the 2001 Equity Incentive Plan, the "Equity Incentive Plans") to reward, retain and attract key personnel. The Equity Incentive Plans provide for grants of nonqualified or incentive stock options, stock appreciation rights ("SARs"), performance shares or units, stock units and stock grants. To fund the 2001 Equity Incentive Plan and 2008 Equity Incentive Plan, 12,375,000 and 4,550,000 shares of the Company's common stock were reserved for issuance upon exercise of awards, respectively.

The following table summarizes stock-based compensation expense by type of grant for each period presented (in thousands):

Table of Contents

As of August 2, 2014, the Company had unrecognized compensation cost of \$21.2 million related to stock-based compensation awards granted. That cost is expected to be recognized over a weighted average period of 2.5 years.

Stock Options and SARs

The Company historically granted nonqualified stock options and SARs to its employees. The right to exercise stock options and SARs generally vests over four years from the date of grant, with 25% vesting at the end of each of the first four years following the date of grant. Stock options and SARs are settled by issuance of common stock. Stock options issued prior to January 29, 2005 will generally expire, if not exercised, within ten years from the date of the grant, while stock options and SARs granted after that date will generally expire, if not exercised, within seven years from the date of grant. No stock options or SARs were granted during the six months ended August 2, 2014 or August 3, 2013.

The following table summarizes information about stock options and SARs outstanding under the Equity Incentive Plans as of August 2, 2014 and changes during the six months ended August 2, 2014:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in thousands)

Forfeited	(15,375)) 8.59
Non-vested at August 2, 2014	79,513	\$8.57

The aggregate intrinsic value of stock options and SARs, defined as the amount by which the market price of the underlying stock on the date of exercise exceeds the exercise price of the award, exercised during the six months ended August 2, 2014 and August 3, 2013, was \$3.5 million and \$5.6 million, respectively.

Table of Contents

Non-vested Stock

The Company grants shares of non-vested stock to its employees and non-management directors. The non-vested stock converts one for one to common stock at the end of the vesting period at no cost to the recipient. The vesting period of the non-vested stock ranges from one to four years from the date of grant.

The following table summarizes information about non-vested stock granted by the Company as of August 2, 2014 and changes during the six months ended August 2, 2014:

Non-vested Stock	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding at February 1, 2014	652,459	\$20.40
Granted	334,354	23.11
Vested	(245,323)	19.90
Forfeited	(55,720)	21.28
Outstanding at August 2, 2014	685,770	\$21.83

The aggregate intrinsic value of non-vested stock that vested during the six months ended August 2, 2014 was \$5.5 million. The payment of the employees' tax liability for a portion of the vested shares was satisfied by withholding shares with a fair value equal to the tax liability. As a result, the actual number of shares issued was 182,156.

Performance Shares

The Company grants performance shares to members of senior management, at no cost to the recipient, as a means of rewarding them for the Company's long-term performance based on shareholder return performance measures. The actual number of shares that may be issued if earned ranges from zero to two times the number of granted shares outstanding as reflected in the table below. The actual number of shares issued is determined by the Company's shareholder return performance relative to a specific group of companies over a three-year performance cycle. Compensation expense, which is recorded ratably over the vesting period, is based on the fair value at grant date and the anticipated number of shares of the Company's common stock, which is determined on a Monte Carlo probability model. Grant recipients do not have any shareholder rights until the granted shares have been issued.

The following table summarizes information about the performance shares that remain outstanding as of August 2, 2014:

Period Granted	Target Shares Outstanding at February 1, 2014	Target Shares Granted	Target Shares Vested	Target Shares Forfeited	Target Shares Outstanding at August 2, 2014	Weighted Average Grant Date Fair Value Per Share
2012	198,200	—	(8,300)	(20,800)	169,100	\$18.04
2013	151,250	—	(9,941)	(23,059)	118,250	33.81
2014	—	168,445	—	—	168,445	33.84
Total	349,450	168,445	(18,241)	(43,859)	455,795	

During the six months ended August 2, 2014, 16,620 shares vested related to the 2011 performance share grant. The aggregate intrinsic value of shares that vested during the six months ended August 2, 2014 was \$0.8 million. The payment of the recipients' tax liability for shares that vested during the six months ended August 2, 2014 of

approximately \$0.2 million was satisfied by withholding shares with a fair value equal to the tax liability. As a result, the actual number of shares issued was 24,508.

4. Debt Obligations

Debt obligations as of August 2, 2014 and February 1, 2014 consist of the following (in thousands):

	August 2, 2014	February 1, 2014
Revolving Credit Facility	\$ 103,160	\$ 55,395
Finance lease obligations	5,165	5,584
Other financing	1,253	2,246
Total debt obligations	109,578	63,225
Less: Current portion of debt obligations	2,163	2,354
Long-term debt obligations	\$ 107,415	\$ 60,871

The Company has a \$250.0 million senior secured revolving credit facility that matures on June 30, 2016 (the "Revolving Credit Facility"). The Revolving Credit Facility includes an uncommitted accordion feature to increase the size of the facility to \$350.0 million. The Revolving Credit Facility is used by the Company to provide financing for working capital, capital expenditures and other general corporate purposes. Borrowings under the Revolving Credit Facility are limited to the availability under a borrowing base that is determined principally on eligible inventory as defined by the Revolving Credit Facility agreement. Inventory and cash and cash equivalents are pledged as collateral under the Revolving Credit Facility. The daily interest rates under the Revolving Credit Facility are determined by a prime rate or LIBOR, plus an applicable margin, as set forth in the Revolving Credit Facility agreement. For the six months ended August 2, 2014, the weighted average interest rate on outstanding borrowings and the average daily borrowings under the Revolving Credit Facility were 1.70% and \$77.8 million, respectively.

The Company also issues letters of credit under the Revolving Credit Facility to support certain merchandise purchases and to collateralize retained risks and deductibles under various insurance programs. At August 2, 2014, the Company had outstanding letters of credit totaling approximately \$9.6 million. These letters of credit expire within twelve months of issuance. Excess borrowing availability under the Revolving Credit Facility at August 2, 2014, net of letters of credit outstanding, outstanding borrowings and accrued interest of \$0.1 million, was \$137.1 million.

The Revolving Credit Facility agreement contains covenants which, among other things, restrict, based on required levels of excess availability, (i) the amount of additional debt or capital lease obligations, (ii) the payment of dividends and repurchase of common stock under certain circumstances and (iii) related party transactions. The Revolving Credit Facility agreement also contains a fixed charge coverage ratio covenant in the event excess availability is below a defined threshold or an event of default has occurred. At August 2, 2014, the Company was in compliance with all of the debt covenants of the Revolving Credit Facility agreement and expects to remain in compliance during fiscal year 2014.

5. Earnings per Share

Basic earnings per share is computed using the weighted average number of common shares outstanding during the measurement period. Diluted earnings per share is computed using the weighted average number of common shares as well as all potentially dilutive common share equivalents outstanding during the measurement period. For the six months ended August 2, 2014, 113,523 shares were attributable to stock options, SARs and non-vested stock grants that would have been considered dilutive securities but were excluded from the calculation of diluted earnings per share because the effect was anti-dilutive due to the net loss for the period.

Under Accounting Standards Codification ("ASC") 260-10, Earnings Per Share, non-vested stock grants that contain non-forfeitable rights to dividends or dividend equivalents are considered participating securities and are included in the calculation of basic and diluted earnings per share pursuant to the two-class method. The two-class method

determines earnings per share for each class of common stock and participating securities according to dividends or dividend equivalents and their respective participation rights in undistributed earnings. Earnings per share have been calculated under the two-class method.

6. Stockholders' Equity

On June 11, 2014, the Company announced that its Board of Directors (the "Board") approved a 12% increase in the Company's quarterly cash dividend rate to \$0.14 per share from the previous quarterly rate of \$0.125 per share. The quarterly rate of \$0.14 per share is applicable to dividends declared by the Board beginning August 21, 2014. During the six months ended August 2, 2014, the Company paid cash dividends totaling \$8.0 million. On August 21, 2014, the Company's Board of Directors declared a quarterly cash dividend of \$0.14 per share of common stock, payable on September 17, 2014 to shareholders of record at the close of business on September 2, 2014.

7. Retirement Plan

The Company sponsors a frozen defined benefit plan. The components of pension cost for each period presented are as follows (in thousands):

	Three Months Ended		Six Months Ended	
	August 2, 2014	August 3, 2013	August 2, 2014	August 3, 2013
Employer service cost	\$54	\$90	\$106	\$180
Interest cost	423	432	846	862
Expected return on plan assets	(535) (560) (1,068) (1,119
Net loss amortization	99	152	199	305
Net periodic pension cost	\$41	\$114	\$83	\$228

The Company's funding policy is to make contributions to maintain the minimum funding requirements for its pension obligations in accordance with the Employee Retirement Income Security Act. The Company may elect to contribute additional amounts to maintain a level of funding to minimize the Pension Benefit Guaranty Corporation premium costs or to cover the short-term liquidity needs of the plan in order to maintain current invested positions. No contributions were made by the Company during the six months ended August 2, 2014.

8. Fair Value Measurements

The Company recognizes or discloses the fair value of its financial and non-financial assets and liabilities on a recurring and non-recurring basis. Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities which are required to be recorded at fair value, the Company assumes the highest and best use of the asset by market participants in which the Company would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability.

The Company applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels, and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 –

Inputs that are both unobservable and significant to the overall fair value measurement reflect the Company's estimates of assumptions that market participants would use in pricing the asset or liability.

Table of Contents

The following tables present the Company's financial assets and liabilities measured at fair value on a recurring basis in the Condensed Consolidated Balance Sheets (Unaudited) (in thousands):

August 2, 2014

	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other assets:				
Securities held in grantor trust for deferred compensation plans (1)(2)	\$20,881	\$20,881	\$—	\$—

February 1, 2014

	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Other assets:				
Securities held in grantor trust for deferred compensation plans (1)(2)	\$21,023	\$21,023	\$—	\$—
Accrued expenses and other current liabilities:				
Deferred non-employee director equity compensation plan liability (2)	\$226	\$226	\$—	\$—

(1) The Company has recorded in other long-term liabilities amounts related to these assets for the amount due to participants corresponding in value to the securities held in the grantor trust.

(2) Using the market approach, the fair values of these items represent quoted market prices multiplied by the quantities held. Net gains and losses related to the changes in fair value in the assets and liabilities under the various deferred compensation plans are recorded in selling, general and administrative expenses and were nil for the six months ended August 2, 2014 and for the fiscal year ended February 1, 2014.

Table of Contents

The following table shows the Company's non-financial assets measured at fair value on a nonrecurring basis in the Condensed Consolidated Balance Sheets (Unaudited) (in thousands):

August 2, 2014

	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Store property, equipment and leasehold improvements (3)	\$350	\$—	\$—	\$350

February 1, 2014

	Balance	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Store property, equipment and leasehold improvements (3)	\$4,562	\$—	\$—	\$4,562

In accordance with ASC No. 360-10, Accounting for the Impairment or Disposal of Long-Lived Assets, using an undiscounted cash flow model, the Company identified certain stores whose cash flow trends indicated that the carrying value of store property, equipment and leasehold improvements may not be fully recoverable and recognized impairment charges to reflect the assets at fair value. The Company uses a discounted cash flow model to determine the fair value of its impaired assets. Key assumptions in determining future cash flows include, among other things, expected future operating performance and changes in economic conditions. Impairment charges of \$0.4 million recognized during the six months ended August 2, 2014 and \$0.6 million recognized during fiscal year 2013 are recorded in cost of sales and related buying, occupancy and distribution expenses in the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) (Unaudited). In addition, approximately \$7.4 million of impairment charges for Steele's were recognized in fiscal year 2013.

Financial instruments not measured at fair value are cash and cash equivalents, payables and debt obligations. The Company believes that the Revolving Credit Facility approximates fair value since interest rates are adjusted to reflect current rates.

9. South Hill Consolidation

On February 11, 2013, the Company announced its plans to consolidate its South Hill, Virginia operations into its Houston, Texas corporate headquarters (the "South Hill Consolidation"). This action was the culmination of an initiative that the Company began in 2012. The reasons for the South Hill Consolidation were: (i) to have department store functions and processes entirely together in one location, (ii) to strengthen collaboration, teamwork and communications, while streamlining operations, enhancing overall operational efficiency and reducing costs, and (iii) to create consistency in merchandising, marketing and eCommerce.

The South Hill Consolidation was completed during 2013 and all liabilities related to the consolidation have been paid. Total expenses associated with the South Hill Consolidation for the six months ended August 3, 2013 were \$9.0 million. The costs, which were primarily for severance and transitional payroll and related benefits, recruiting and relocation costs, and visual presentation supplies and other, were recorded in selling, general and administrative expenses in the Condensed Consolidated Statement of Operations and Comprehensive Income (Loss). Merchandise cost of sales for the six months ended August 3, 2013 also included approximately \$7.2 million related to the South Hill Consolidation due to inventory liquidation costs associated with discontinued vendors and merchandise and advertising allowances deferred in inventory.

During 2013, the Company committed to a plan to sell the building which housed its former South Hill operations. Accordingly, the disposal group with a carrying value of \$0.6 million has been reclassified as held for sale and included in prepaid expenses and other current assets on the Condensed Consolidated Balance Sheet as of August 2, 2014.

Cautionary Statement Concerning Forward-Looking Statements for Purposes of the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995

The Private Securities Litigation Reform Act of 1995 ("Act") provides a safe harbor for forward-looking statements to encourage companies to provide prospective information, so long as those statements are identified as forward-looking and are accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those discussed in the statements. The Company wishes to take advantage of the "safe harbor" provisions of the Act.

Certain statements in this report are forward-looking statements within the meaning of the Act, and such statements are intended to qualify for the protection of the safe harbor provided by the Act. The words "anticipate," "estimate," "expect," "objective," "goal," "project," "intend," "plan," "believe," "will," "should," "may," "target," "forecast," "guidance," "outlook," and similar expressions generally identify forward-looking statements. Similarly, descriptions of the Company's objectives, strategies, plans, goals or targets are also forward-looking statements. Forward-looking statements relate to the expectations of management as to future occurrences and trends, including statements expressing optimism or pessimism about future operating results or events and projected sales, earnings, capital expenditures and business strategy.

Forward-looking statements are based upon a number of assumptions and factors concerning future conditions that may ultimately prove to be inaccurate and could cause actual results to differ materially from those in the forward-looking statements. Forward-looking statements that are made herein and in other reports and releases are not guarantees of future performance and actual results may differ materially from those discussed in such forward-looking statements as a result of various factors. These factors include, but are not limited to, the ability of the Company to maintain normal trade terms with vendors, the ability of the Company to comply with the various covenant requirements contained in the Revolving Credit Facility agreement, the demand for apparel, and other factors. The demand for apparel and sales volume can be affected by significant changes in economic conditions, including an economic downturn, employment levels in the Company's markets, consumer confidence, energy and gasoline prices and other factors influencing discretionary consumer spending. Other factors affecting the demand for apparel and sales volume include unusual weather patterns, an increase in the level of competition in the Company's market areas, competitors' marketing strategies, changes in fashion trends, changes in the average cost of merchandise purchased for resale, availability of product on normal payment terms and the failure to achieve the expected results of the Company's merchandising and marketing plans as well as its store opening plans. Additional assumptions, factors and risks concerning future conditions are discussed in the Risk Factors section of the Company's Annual Report on Form 10-K for the year ended February 1, 2014 ("10-K"), and may be discussed from time to time in the Company's other filings with the SEC, including Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. Most of these factors are difficult to predict accurately and are generally beyond the Company's control.

Forward-looking statements are and will be based upon management's then-current views and assumptions regarding future events and operating performance, and are applicable only as of the dates of such statements. Although management believes the expectations expressed in forward-looking statements are based on reasonable assumptions within the bounds of our knowledge, forward-looking statements, by their nature, involve risks, uncertainties and other factors, any one or a combination of which could materially affect our business, financial condition, results of operations or liquidity.

Readers should carefully review the Form 10-K in its entirety including, but not limited to, the Company's financial statements and the notes thereto and the risks and uncertainties described in Item 1A - "Risk Factors" of the Form

10-K. This report should be read in conjunction with the Form 10-K, and you should consider all of these risks, uncertainties and other factors carefully in evaluating forward-looking statements.

Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date they are made. The Company undertakes no obligation to publicly update forward-looking statements whether as a result of new information, future events or otherwise. Readers are advised, however, to consult any further disclosures the Company makes on related subjects in our public announcements and SEC filings.

General

Stage Stores, Inc., a Houston, Texas-based retailer, operates primarily in small and mid-sized towns and communities. Its stores, which operate under the Bealls, Goody's, Palais Royal, Peebles and Stage nameplates, offer moderately priced, nationally recognized brand name and private label apparel, accessories, cosmetics and footwear for the entire family. The Company also offers its merchandise direct-to-consumer through its eCommerce website and Send program. The eCommerce website features assortments of merchandise similar to that found in the Company's stores, as well as products not carried in its stores. The Send program allows customers in the stores to have merchandise shipped directly to their homes if the merchandise is not available in the local store. At August 2, 2014, the Company operated 850 stores located in 40 states.

In the first quarter of 2014, the Company made the decision to divest its Steele's stores, an off-price concept the Company had launched in November 2011, in order to focus all of its attention on its core department store business. On March 7, 2014, the Company completed the sale of the Steele's operations. Accordingly, the results of operations of Steele's are reflected in Loss from Discontinued Operations on the Condensed Consolidated Statements of Operations and Comprehensive Income (Loss) (Unaudited) for all periods presented.

The Company made progress on a number of its key initiatives during the six months ended August 2, 2014. The Company installed 21 new Estee Lauder and 21 new Clinique counters and plans to add additional counters in more than 50 stores by year end. The Company opened 7 new stores during the six months ended August 2, 2014 and plans to open an additional 11 stores during 2014. The Company implemented store-level mark down optimization and continued to make progress on size pack optimization with plans to roll out by year end. The Company also continued to make enhancements to its eCommerce website, continued to roll out its new prototype fixtures package and made final preparations for the mid-third quarter relaunch of its home assortments.

The financial information, discussion and analysis that follow should be read in conjunction with the Company's Consolidated Financial Statements as included in the Form 10-K.

Non-GAAP Financial Measures

The following supplemental information presents the results from operations for the three and six months ended August 2, 2014 and August 3, 2013. All periods are presented on a basis in conformity with accounting principles generally accepted in the United States of America ("GAAP") and on a non-GAAP basis to show earnings with and without charges associated with the South Hill Consolidation. Management believes this supplemental financial information enhances an investor's understanding of the Company's financial performance as it excludes those items which impact comparability of operating trends. The non-GAAP financial information should not be considered in isolation or viewed as a substitute for net income, cash flow from operations or other measures of performance as defined by GAAP. Moreover, the inclusion of non-GAAP financial information as used herein is not necessarily comparable to other similarly titled measures of other companies due to the potential inconsistencies in the method of presentation and items considered. The following tables set forth the supplemental financial information and the reconciliation of GAAP disclosures to non-GAAP financial metrics (in thousands, except diluted earnings per share):

	Three Months Ended		Six Months Ended	
	August 2, 2014	August 3, 2013	August 2, 2014	August 3, 2013

Three Months Ended August 2, 2014 Compared to Three Months Ended August 3, 2013

Sales for the three months ended August 2, 2014 of \$377.4 million decreased \$12.6 million, or 3.2%, from \$390.0 million for the three months ended August 3, 2013. Comparable store sales, which are sales in stores that are open for at least 14 full months prior to the reporting period, including eCommerce sales, decreased 4.2% in the three months ended August 2, 2014 compared to a 1.7% increase in the three months ended August 3, 2013. Excluding eCommerce sales, comparable store sales decreased 4.5% in the three months ended August 2, 2014 compared to a 1.2% increase in the three months ended August 3, 2013. For the three months ended August 2, 2014, the sales mix was more weighted toward regular priced merchandise, which helped drive a 2.1% increase in average unit retail. The 4.2% decrease in comparable store sales reflects a decline in number of transactions, partially offset by the increase in average unit retail and an increase in the units per transaction.

Sales performance for the three months ended August 2, 2014 was relatively consistent across market sizes and geographies. On a market population basis, utilizing a ten-mile radius from each store, the small market stores (populations less than 50,000), mid-sized market stores (populations of 50,000 to 150,000) and higher-density market stores (populations greater than 150,000) for the three months ended August 2, 2014 had comparable store sales decreases of 4.2%, 5.3% and 4.9%, respectively.

On a merchandise category basis, cosmetics was the best performing category due to the ongoing growth in Clinique and Estee Lauder. Other areas of strength were the core back-to-school businesses such as children's and footwear, which are brand dominated by Carter's, Nike and Sketchers. The Company also had positive comparable sales in its juniors business.

The following is a summary of the changes in the components of the cost of sales rate between the three months ended August 2, 2014 and the three months ended August 3, 2013, expressed as a percent of sales:

	Increase (Decrease)	
Merchandise cost of sales rate	(1.0)	%
Buying, occupancy and distribution expenses rate	0.8	
Cost of sales rate	(0.2)	%

Gross profit for the three months ended August 2, 2014 was \$112.3 million, a decrease of \$3.3 million or 2.8%, from \$115.6 million for the three months ended August 3, 2013. Gross profit, as a percent of sales, increased to 29.8% for the three months ended August 2, 2014 from 29.6% for the three months ended August 3, 2013. The decrease in merchandise cost of sales rate reflects the impact in the three months ended August 3, 2013 of approximately \$4.4 million, or 1.1% of sales, related to the South Hill Consolidation due to inventory liquidation costs associated with discontinued vendors and merchandise and advertising allowances deferred in inventory. The increase in the buying, occupancy and distribution expense rate is a result of deleveraging from lower sales in the three months ended August 2, 2014 compared to the three months ended August 3, 2013.

Selling, general and administrative ("SG&A") expenses for the three months ended August 2, 2014 decreased \$4.4 million to \$93.1 million from \$97.5 million for the three months ended August 3, 2013. As a percent of sales, SG&A expenses decreased to 24.7% for the three months ended August 2, 2014 from 25.0% for the three months ended August 3, 2013. SG&A for the three months ended August 2, 2014 contained charges of approximately \$2.1 million related to the South Hill Consolidation. The three months ended August 2, 2014 also benefited from lower advertising costs and increased credit income from the Company's private label credit program, partly offset by higher medical, workers compensation and general liability claims expense.

Store opening costs of \$0.2 million for the three months ended August 2, 2014 include costs related to the relocation of 2 stores and expansion of 1 store. During the three months ended August 3, 2013, the Company incurred \$0.1 million in store opening costs related to the relocation of 2 stores and expansion of 2 stores. Store opening costs are expensed as incurred and include costs of stores opening in future quarters.

Net interest expense was \$0.8 million for the three months ended August 2, 2014 compared to \$0.7 million for the three months ended August 3, 2013. Interest expense is primarily comprised of interest on borrowings under the Revolving Credit Facility (see "Liquidity and Capital Resources"), related letters of credit and commitment fees, amortization of debt issuance costs and interest on finance lease obligations. The increase in interest expense is primarily due to an increase in the average daily borrowings under the Revolving Credit Facility for the three months ended August 2, 2014 as compared with the three months ended August 3, 2013.

Table of Contents

The Company's effective tax rate for the three months ended August 2, 2014 was 38.7%, resulting in estimated tax expense from continuing operations of \$7.1 million. This compares to an effective tax rate of 37.3% and income tax expense from continuing operations of \$6.4 million for the three months ended August 3, 2013.

Discontinued operations had no impact on the three months ended August 2, 2014 earnings as compared to a loss of \$1.2 million, net of the tax benefit of \$0.7 million, for the three months ended August 3, 2013.

The Company had net income of \$11.2 million for the three months ended August 2, 2014 as compared to net income of \$9.6 million for the three months ended August 3, 2013.

Six Months Ended August 2, 2014 Compared to Six Months Ended August 3, 2013

Sales for the six months ended August 2, 2014 of \$749.5 million decreased \$12.6 million, or 1.7%, from \$762.1 million for the six months ended August 3, 2013. Comparable store sales, which are sales in stores that are open for at least 14 full months prior to the reporting period, including eCommerce sales, decreased 2.2% for the six months ended August 2, 2014 compared to a 1.2% increase for the six months ended August 3, 2013. Excluding eCommerce sales, comparable store sales decreased 2.5% for the six months ended August 2, 2014 as compared to a 0.6% increase for the six months ended August 3, 2013. The 2.2% decrease in comparable store sales reflects a 2.5% decrease in average unit retail and a decline in number of transactions, partially offset by an increase in the units per transaction.

On a market population basis, utilizing a ten-mile radius from each store, the small market stores (populations less than 50,000), mid-sized market stores (populations of 50,000 to 150,000) and higher-density market stores (populations greater than 150,000) had comparable store sales decreases of 2.1%, 3.2% and 2.7%, respectively. Geographically, the Northwest, Southwest, Southeast and Mid Atlantic regions performed better than the Company's overall comparable store sales.

On a merchandise category basis, cosmetics, children's, footwear and missy and junior sportswear all outperformed the Company's comparable store sales average. The cosmetics line of business continues to be a strong performer and is a growth area for the Company. During the six months ended August 2, 2014, the Company installed 21 new Estee Lauder and 21 new Clinique counters. The Company also continues to focus on sales growth through the introduction of new product offerings and the expansion of existing sought-after brand names.

The following is a summary of the changes in the components of the cost of sales rate between the six months ended August 2, 2014 and the six months ended August 3, 2013, expressed as a percent of sales:

	Increase	%
Merchandise cost of sales rate	1.0	%
Buying, occupancy and distribution expenses rate	0.5	
Cost of sales rate	1.5	%

Gross profit for the six months ended August 2, 2014 was \$190.3 million, a decrease of \$14.9 million or 7.3%, compared to \$205.2 million for the six months ended August 3, 2013. Gross profit, as a percent of sales, decreased to 25.4% for the six months ended August 2, 2014 from 26.9% for the six months ended August 3, 2013. The increase in the merchandise cost of sales rate is primarily the result of the highly promotional retail environment and elevated clearance sales in the first quarter of 2014 as compared with the first quarter of 2013. This was partially offset by costs associated with the South Hill Consolidation in the six months ended August 3, 2013 of approximately \$7.2 million, or 0.9% of sales, due to inventory liquidation costs associated with discontinued vendors and merchandise and advertising allowances deferred in inventory.

Selling, general and administrative ("SG&A") expenses for the six months ended August 2, 2014 decreased \$6.2 million to \$189.2 million, from \$195.4 million for the six months ended August 3, 2013. As a percent of sales, SG&A expenses decreased to 25.2% for the six months ended August 2, 2014 from 25.6% for the six months ended August 3, 2013. The decrease in SG&A expenses is primarily due to charges of approximately \$9.0 million incurred in the six months ended August 3, 2013 related to the South Hill Consolidation, partly offset by higher medical, workers compensation and general liabilities claims expense in the six months ended August 2, 2014.

Table of Contents

Store opening costs of \$1.0 million for the six months ended August 2, 2014 include costs related to the opening of 7 new stores and the relocation of 3 stores. During the six months ended August 3, 2013, the Company incurred \$1.1 million in store opening costs related to the opening of 10 new stores and the relocation of 2 stores.

Net interest expense was \$1.5 million for the six months ended August 2, 2014 and \$1.3 million for the six months ended August 3, 2013. Interest expense is primarily comprised of interest on borrowings under the Revolving Credit Facility (see "Liquidity and Capital Resources"), related letters of credit and commitment fees, amortization of debt issuance costs and interest on finance lease obligations. The increase in interest expense is primarily due to an increase in the average daily borrowings under the Revolving Credit Facility for the six months ended August 2, 2014 as compared with the six months ended August 3, 2013.

The Company's effective tax rate for the six months ended August 2, 2014 was 38.7%, resulting in an estimated tax benefit from continuing operations of \$0.5 million. This compares to an income tax expense from continuing operations of \$2.7 million for the six months ended August 3, 2013 at an effective rate 37.0%.

Loss from discontinued operations, net of the tax benefit of \$4.3 million, was \$6.7 million for the six months ended August 2, 2014 compared to \$1.9 million, net of the tax benefit of \$1.1 million, for the six months ended August 3, 2013. The loss from discontinued operations for the six months ended August 2, 2014 includes the loss on the sale of the Steele's operations of \$9.7 million before tax.

As a result of the foregoing, the Company had a net loss of \$7.6 million for the six months ended August 2, 2014 as compared to net income of \$2.8 million for the six months ended August 3, 2013.

Seasonality and Inflation

Historically, the Company's business is seasonal and sales are traditionally lower during the first three quarters of the fiscal year (February through October) and higher during the last quarter of the fiscal year (November through January). The fourth quarter usually accounts for slightly more than 30% of the Company's annual sales, with the other quarters accounting for approximately 22% to 24% each. Working capital requirements fluctuate during the year and generally reach their highest levels during the third and fourth quarters. The Company does not expect inflation will have a material impact on its operations. However, there can be no assurance that the Company's business will not be affected by inflation in the future.

Liquidity and Capital Resources

The Company's liquidity is currently provided by (i) existing cash balances, (ii) operating cash flows, (iii) normal trade credit terms from the vendor and factor community and (iv) the Revolving Credit Facility. The Company's primary cash requirements are for capital expenditures related to new stores, store relocations and remodeling, and seasonal and new store inventory purchases.

Key components of the Company's cash flows for the six months ended August 2, 2014 and the six months ended August 3, 2013 are summarized below (in thousands):

	Six Months Ended	
	August 2, 2014	August 3, 2013
Net cash provided by (used in):		
Operating activities	\$ (2,089)) \$ (829)
Investing activities	(28,838)) (29,926)
Financing activities	42,259	46,964

Operating Activities

During the six months ended August 2, 2014, the Company used \$2.1 million in cash from operating activities. Net loss, adjusted for non-cash expenses, provided cash of approximately \$28.0 million. Changes in operating assets and liabilities used net cash of approximately \$32.9 million, which included a \$17.1 million increase in merchandise inventories primarily due to the seasonal build of inventories and strategic investments in cosmetics, partly offset by the reduction associated with the sale of the Steele's operations, an increase in other assets of \$8.4 million and a decrease in accounts payable and other liabilities of \$7.4 million. Additionally, cash flows from operating activities included construction allowances from landlords of \$2.8 million, which funded a portion of the capital expenditures related to store leasehold improvements in new and relocated stores.

Table of Contents

During the six months ended August 3, 2013, the Company used \$0.8 million in cash from operating activities. Net income, adjusted for non-cash expenses, provided cash of approximately \$38.2 million. Changes in operating assets and liabilities used net cash of approximately \$40.4 million, which included a \$28.3 million increase in merchandise inventories primarily due to planned investments in inventory, the seasonal build of inventories and higher number of open stores, an increase in other assets of \$11.8 million, and a decrease in accounts payable and other liabilities of \$0.3 million. Additionally, cash flows from operating activities included construction allowances from landlords of \$1.4 million, which funded a portion of the capital expenditures related to store leasehold improvements in new and relocated stores.

Investing Activities

Capital expenditures were \$30.3 million for the six months ended August 2, 2014 as compared to \$29.9 million for the six months ended August 3, 2013. During the six months ended August 2, 2014, the Company opened 7 new stores and relocated 3 stores, as compared to 10 new stores, 1 reopened store and 2 relocated stores in the six months ended August 3, 2013. As noted above, the Company received construction allowances from landlords of \$2.8 million in the six months ended August 2, 2014 and \$1.4 million in the six months ended August 3, 2013 to fund a portion of the capital expenditures related to store leasehold improvements in new and relocated stores. These funds are recorded as a deferred rent credit on the balance sheet and are recognized as an offset to rent expense over the lease term commencing with the date the allowances are earned.

Management currently estimates that capital expenditures in 2014, net of construction allowances to be received from landlords, will be approximately \$63 million. The expenditures will principally be for the opening of new stores, store expansions, relocations and remodels and investments in technology.

Financing Activities

The Company has a \$250.0 million senior secured revolving credit facility that matures on June 30, 2016 (the "Revolving Credit Facility"). The Revolving Credit Facility includes an uncommitted accordion feature to increase the size of the facility to \$350.0 million. The Revolving Credit Facility is used by the Company to provide financing for working capital, capital expenditures and other general corporate purposes. Borrowings under the Revolving Credit Facility are limited to the availability under a borrowing base that is determined principally on eligible inventory as defined by the Revolving Credit Facility agreement. Inventory and cash and cash equivalents are pledged as collateral under the Revolving Credit Facility. The daily interest rates under the Revolving Credit Facility are determined by a prime rate or LIBOR, plus an applicable margin, as set forth in the Revolving Credit Facility agreement. For the six months ended August 2, 2014, the weighted average interest rate on outstanding borrowings and the average daily borrowings under the Revolving Credit Facility were 1.70% and \$77.8 million, respectively.

The Company also issues letters of credit under the Revolving Credit Facility to support certain merchandise purchases and to collateralize retained risks and deductibles under various insurance programs. At August 2, 2014, the Company had outstanding letters of credit totaling approximately \$9.6 million. These letters of credit expire within twelve months of issuance. Excess borrowing availability under the Revolving Credit Facility at August 2, 2014, net of letters of credit outstanding, outstanding borrowings and accrued interest of \$0.1 million, was \$137.1 million.

The Revolving Credit Facility agreement contains covenants which, among other things, restrict, based on required levels of excess availability, (i) the amount of additional debt or capital lease obligations, (ii) the payment of dividends and repurchase of common stock under certain circumstances and (iii) related party transactions. The Revolving Credit Facility agreement also contains a fixed charge coverage ratio covenant in the event excess availability is below a defined threshold or an event of default has occurred. At August 2, 2014, the Company was in compliance with all of the debt covenants of the Revolving Credit Facility agreement and expects to remain in

compliance during fiscal year 2014.

On June 11, 2014, the Company announced that its Board of Directors (the "Board") approved a 12% increase in the Company's quarterly cash dividend rate to \$0.14 per share from the previous quarterly rate of \$0.125 per share. The quarterly rate of \$0.14 per share is applicable to dividends declared by the Board beginning August 21, 2014. During the six months ended August 2, 2014, the Company paid cash dividends totaling \$8.0 million. On August 21, 2014, the Company's Board of Directors declared a quarterly cash dividend of \$0.14 per share of common stock, payable on September 17, 2014 to shareholders of record at the close of business on September 2, 2014.

While there can be no assurances, management believes that there should be sufficient liquidity to cover both the Company's short-term and long-term funding needs. The Company anticipates that it has adequate cash flows to cover its working capital needs, planned capital expenditures and debt service requirements for the remainder of 2014 and the foreseeable future.

Recent Accounting Standards

Disclosure concerning recent accounting standards is incorporated by reference to Note 1 of the Company's Condensed Consolidated Financial Statements (Unaudited) contained in this Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is subject to market risk from exposure to changes in interest rates on borrowings under the Revolving Credit Facility. An increase or decrease of 10% in interest rates would not have a material effect on the Company's financial condition, results of operations, or liquidity.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act"), the term "disclosure controls and procedures" means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Management of the Company, with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures and concluded that the Company's disclosure controls and procedures were effective as of August 2, 2014.

Internal Control Over Financial Reporting

As defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act, the term "internal control over financial reporting" means a process designed by, or under the supervision of, the issuer's principal executive and principal financial officers, or persons performing similar functions, and effected by the issuer's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the issuer;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the issuer are being made only in accordance with authorizations of management and directors of the issuer; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the issuer's assets that could have a material adverse effect on the financial statements.

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. There were no changes in the Company's internal control over financial reporting during the three months ended August 2, 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On March 7, 2011, the Company's Board of Directors (the "Board") approved a Stock Repurchase Program (the "2011 Stock Repurchase Program") which authorized the Company to repurchase up to \$200 million of its outstanding common stock. The 2011 Stock Repurchase Program will expire when the Company has repurchased \$200 million of its outstanding common stock, unless terminated earlier by the Board. Through June 10, 2012, the Company repurchased approximately \$100.1 million of its outstanding common stock under the 2011 Stock Repurchase Program. On June 11, 2012, the Company announced that its Board had chosen not to spend additional capital under the 2011 Stock Repurchase Program for the time being. In addition, the Board authorized the Company to repurchase shares of its outstanding common stock equal to the amount of proceeds and related tax benefits from the exercise of stock options, SARs and other equity grants. Purchases of shares of the Company's common stock may be made from time to time, either on the open market or through privately negotiated transactions and are financed by the Company's existing cash, cash flow and other liquidity sources, as appropriate.

The table below sets forth information regarding the Company's repurchases of its common stock during the three months ended August 2, 2014:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (2)
May 4, 2014 to May 31, 2014	493	\$18.96	—	\$99,938,428
June 1, 2014 to July 5, 2014	8,948	19.07	—	\$99,938,428
July 6, 2014 to August 2, 2014	2,243	18.71	—	\$99,938,428
Total	11,684	\$19.00	—	

(1) Although the Company did not repurchase any of its common stock during the three months ended August 2, 2014 under the 2011 Stock Repurchase Program:

The Company reacquired 9,672 shares of common stock from certain employees to cover tax withholding obligations from exercises of Stock Appreciation Rights and the vesting of restricted stock and performance shares at a weighted average acquisition price of \$19.03 per share; and

The trustee of the grantor trust established by the Company for the purpose of holding assets under the Company's Deferred Compensation Plan (the "Plan") purchased an aggregate of 2,012 shares of the Company's common stock in the open market at a weighted average price of \$18.84 in connection with the Company Stock Investment Option under the Plan and in connection with the reinvestment of dividends paid on the Company's common stock held in trust in the Plan.

(2) Reflects the \$200.0 million authorized under the 2011 Stock Purchase Program, less the \$100.1 million repurchased using the Company's existing cash, cash flow and other liquidity sources since March 2011.
