Shares that abstain from voting as to a particular matter will be counted for purposes of determining whether a quorum exists and for purposes of calculating the vote with respect to such matter, but will not be deemed to have been voted in favor of such matter. Shares held in "street name" by banks, brokers or other nominees who indicate on their proxy cards that they do not have discretionary authority to vote such shares as to a particular matter, which we refer to as "broker non-votes," will be counted for the purpose of determining whether a quorum exists but will not be considered as present and entitled to vote with respect to a particular matter. PROPOSAL 1: ELECTION OF DIRECTORS

The health of the Company depends on a strong, independent and attentive Board. The Nominating Committee of the Board of Directors believes that it is necessary for each of the Company's Directors to possess a considerable amount of business management and educational experience. In addition, Directors must have sound judgment, wisdom, integrity and ethics. Directors are encouraged to attend seminars and courses to enhance their directorship skills. Each of our outside Directors brings to the Company knowledge from his or her field of expertise, including leadership, finance, marketing and human resources through the management of their own companies or professional practices. These experiences provide perspective and objectivity when overseeing and evaluating Management. In addition, all Directors serve as a referral source for the Company's subsidiary. All Directors of the Company also serve on the subsidiary's Board and meet the requirements for Directors as set forth by the Office of the Comptroller of the Currency. The Board's familiarity with the Bank's systems and controls is crucial in maintaining the Company's safety and soundness. In order to be a candidate for a Director of the Company, each individual must meet the following criteria:

- Be a citizen of the United States.
- Have the financial capacity to own and/or purchase the minimum equity interest in the Company as specified in the Company's bylaws.
- Be available to attend the monthly meetings of the Board of Directors and Board Committee meetings, as scheduled from time to time.
 - Have the ability and willingness to represent the interests of the Shareholders of the Company.

- Meet any additional criteria that the Office of the Comptroller of the Currency may establish for directors of a national bank.

If any person named as nominee should be unwilling or unable to stand for election at the time of the Annual

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE SHAREHOLDERS VOTE FOR PROPOSAL NO. 1

About the Board of Directors and Its Committees

As of the date of this Proxy Statement, The First Bancorp, Inc. had a Board comprised of nine Directors. During 2009 there were nine regular Board meetings, and one Annual Meeting. After each regular Board meeting an executive session was held without Management present. The Board's Attendance Policy states that all members of the Board are strongly encouraged to attend each meeting of the Board and Committees on which they serve. All Directors attended at least 75% of Board meetings and meetings held by Committees of which they were members in 2009. The aggregate attendance at Board and Committee meetings by all members of the Board of Directors and its Committees in 2009 was in excess of 90%. All Directors are expected to attend the 2010 Annual Meeting of Shareholders, and all Directors except Katherine M. Boyd were in attendance at the 2009 Annual Meeting.

Although the Company does not have a formal policy with respect to diversity, the Board and the Nominating Committee believe it is essential that the Board members represent diverse view points (such as gender, race, national origin and education as well as professional experience), and considers each nominee's/Director's credentials, competencies and skills as well as the candidate's area of qualifications and expertise that would enhance the Board's composition.

Audit Committee. The members of the Company's Audit Committee for 2010 are David B. Soule, Jr., - Chairman, Robert B. Gregory and Mark N. Rosborough. This Committee met four times during 2009. The Company's Audit Committee receives and reviews reports on examinations and accounting audits of the Company, and works to ensure the adequacy of operating practices, procedures and controls. The Company's Board of Directors has adopted a written charter for the Company's Audit Committee, which was published in the Company's 2004 Annual Proxy Statement and can be found on the Company's website www.thefirstbancorp.com. The 2009 report of the Audit Committee can be found on page 29 of this document.

Nominating Committee. The members of the Company's Nominating Committee are Mark N. Rosborough - Chairman, Carl S. Poole, Jr. and Stuart G. Smith. This Committee met once during 2009. As stated in the Nominating Committee Charter adopted on February 19, 2004, the Company's Nominating Committee is responsible for the nomination of Board of Director members, establishing the tenure and the retirement policies for members of the Board of Directors and reviewing the Board of Directors' overall effectiveness. The charter can be found on the Company's website www.thefirstbancorp.com. Each of the members of the Nominating Committee is independent as defined under the listing standards of the NASDAQ stock market.

Compensation Committee. The Company's Compensation Committee is a standing committee of the Bank's Board of Directors since all executive compensation is paid by the Bank. The Committee consists of Bruce B. Tindal - Chairman, Carl S. Poole, Jr., Mark N. Rosborough and Stuart G. Smith. This Committee met four times

The First Bancorp 2010 Proxy Statement

Page 4

during 2009. None of the members of this Committee or Executive Officers of the Company serve on a similar committee or Board of any other public company. The function of this Committee is to establish the compensation of the Chief Executive Officer and to review and approve the compensation of other Senior Executive Officers. The Compensation Committee Charter adopted in 2007 can be found in the Company's 2007 Annual Proxy Statement and on the Company's website www.thefirstbancorp.com.

In addition to the Compensation Committee, there are five other standing committees of the Bank's Board of Directors: Executive, Audit, Asset/Liability, Trust and Directors' Loan. Certain members of Management also serve on some committees of the Bank. There are no family relationships among any of the Directors of the Company. Except as set forth in the merger agreement between the Company and FNB, in which it was specified that Messrs. McKim and Rosborough and one additional person to be named later will be added to the Company's Board of Directors, there are no arrangements or understandings between any Director and any other person pursuant to which that Director has been or is to be elected. No Director of the Bank or the Company serves as a Director on the board of any other corporation with a class of securities registered pursuant to Section 12 of the Securities Exchange Act of 1934 or that is subject to the reporting requirements of Section 15(d) of the Securities Exchange Act of 1934, or of any company registered as an investment company under the Investment Company Act of 1940, as amended.

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

No member of the Compensation Committee was, or ever has been, an officer or employee of the Company or the Bank. All Committee members are customers of and engage in transactions with the Bank in the ordinary course of business. As described in "Certain Relationships and Related Transactions", all loans to such individuals were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with persons not related to the lender and, in the opinion of Management, did not involve more than the normal risk of collectability or present other unfavorable features.

Director Independence

The Board reviewed the independence of the Company's Directors in January 2010 on the basis of the standards adopted by NASDAQ. In this review, the Board considered transactions and relationships between each Director (and any member of his or her immediate family) and the Company or the Bank and between certain entities in which any Director or any immediate family member has certain interests, on the one hand, and the Company or the Bank, on the other hand. The purpose of this review was to determine which of such transactions or relationships were inconsistent with a determination that the Director is independent under NASDAQ rules. As a result of the review, the Board affirmatively determined that as of January 2010 all of the Directors are independent of the Company and the Bank under NASDAQ rules with the exception of President Daigneault and EVP McKim.

Risk Oversight

The Board takes an active role as a whole and also at the committee level in overseeing Management of the Company's risk. The Board regularly reviews information regarding the Company's liquidity and operations as well as the risks associated with each. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board of Directors is regularly informed through committee reports about such risk. The Company's Compensation Committee is responsible for overseeing the management of risks relating to the Company's executive compensation practices and plans. The Asset/ Liability Committee is responsible for overseeing financial risk. The Audit Committee oversees reports from examiners and auditors of both the internal audit function and independent outside auditors and federal regulators. The Director's Loan Committee monitors lending policies to ensure they are adequate and that the lending function follows sound lending practices. The Trust Committee reviews

activities of the Trust and Investment Department to ensure that all trust functions are conducted in accordance with Bank policy, applicable laws and regulations and in a sound manner consistent with fiduciary standards and duties. The

Nominating Committee manages risk associated with the independence of the Board of Directors and potential conflicts.

Leadership Structure

The Company believes that having an independent Director serving as Chairman of the Board is prudent. The Chairman of the Board is elected by a vote of the Directors to serve a four-year term with a maximum appointment of two terms. The Chief Executive Officer serves on the Board of Directors; however, his main focus is to provide leadership to the Company for accomplishing the directives established by the Board of Directors and is responsible for the general administration, oversight, care and management of all property, business of the Company, and for all of its departments as well as full authority over all officers, managers and employees.

Code of Ethics

The Company's Code of Ethics for Senior Financial Officers, which was adopted by the Board of Directors on June 19, 2003, and the Company's Code of Business Conduct and Ethics, which was adopted by the Board of Directors on April 15, 2004, are incorporated in the Company's 2006 Annual Report on Form 10-K as Exhibits 14.1 and 14.2, respectively. They are available on the Company's website at www.thefirstbancorp.com, and a copy may be obtained, free of charge, by written request to the Company.

Audit Committee Financial Expert

Pursuant to Section 407 of the Sarbanes-Oxley Act of 2002 and Item 306 of Regulation S-K promulgated by the Securities and Exchange Commission, the Company is required to disclose whether it has at least one "Financial Expert" serving on its Audit Committee and if so, the name of the expert and whether the expert is independent of Management. A company that does not have an Audit Committee Financial Expert must disclose this fact and explain why it has no such expert.

At the present time, the Company's Audit Committee does not have a member who meets the Securities and Exchange Commission's complete definition of a financial expert. It is the opinion of the Company's Board of Directors, however, that the Company addresses its audit functions with a depth of penetration and rigor that meets the intent of the requirements of the Sarbanes-Oxley Act for the following reasons:

- The Company is a one-bank holding company owning all of the capital stock in the Bank. All Directors of the Bank meet the requirements and qualifications imposed by the Office of the Comptroller of the Currency, the Bank's principal regulator, which conducts regular supervisory examinations of the Bank. In addition to requiring knowledge of the banking industry and the financial regulatory system, these qualifications require a "background, knowledge, and experience in business or another discipline to oversee the Bank."
- All members of the Audit Committee of the Bank and the Company are independent Directors, as defined by the Securities and Exchange Commission and NASDAQ. The three members operate their own businesses and have knowledge of accounting for both their own businesses as well as for the Bank and the Company. The members of the Audit Committee have considerable experience as Directors of the Bank and the Company.
- Internal audit work of the Bank and the Company is outsourced to a professional firm which conducts all internal audits except for loan review, for which a second professional firm performs quality control loan review. Both firms provide detailed quarterly reports to the Audit Committee and the Directors' Loan Committees, respectively.
- The Bank is a highly regulated entity which undergoes regular and thorough examination by the Office of the Comptroller of the Currency, with additional oversight by the Federal Deposit Insurance Corporation. The Company is a "Financial Holding Company" as defined by the Federal Reserve Board and as such is regulated and regularly examined by the Federal Reserve Board.

The Company also continuously reviews, at its own initiative, the expertise of the members of its Board of Directors and its Audit Committee.

The following table sets forth the number of shares of Common Stock of the Company beneficially owned as of February 17, 2010 by (i) each person known by the Company to own beneficially more than 5.0% of the Company's Common Stock, (ii) each nominee for Director of the Company, (iii) the Named Executive Officers, and (iv) all Executive Officers and Directors of the Company as a group. In 2005, Mr. Wootton was promoted to Executive Vice President. From 1981 to 2000 Mr. Wootton was employed by Camden National Bank, serving as branch manager, commercial loan and business development officer, becoming Vice President responsible for branch administration in 1996.

Susan A. Norton (49) has been employed by the Bank since 1992 and was promoted to Senior Vice President, Human Resources and Compliance in 2005. In January 2009 Ms. Norton was promoted to Executive Vice President. Ms. Norton has also served as Assistant Compliance Officer and Education Officer. She currently holds the position of CRA Officer and Compliance Officer for the Company and is certified as a Senior Professional in Human Resources.

Richard M. Elder (44) has been employed by the Bank since 1993. In 2001 Mr. Elder was promoted to Vice President of Retail Services and in 2005, Mr. Elder was promoted to Senior Vice President. employed by Seaman's Bank from 2004 to 2006 and by Cape Code Five from 1993 to 2001.

There are no family relationships among any of the Executive Officers, nor are there any arrangements or understandings between any Executive Officer and any other person pursuant to which that Executive Officer has been or is to be elected.

Certain Relationships and Related Transactions

The Federal Reserve Act permits the Bank to contract for or purchase property from any of its Directors only when such purchase is made in the regular course of business upon terms not less favorable to the Bank than those offered by others unless the purchase has been authorized by a majority of the Board of Directors not interested in the transaction. Similarly, the Federal Reserve Act prohibits loans to Executive Officers of the Bank unless such transactions have been made upon substantially the same terms, including interest rates and collateral, as those prevailing at the same time for comparable transactions with persons not related to the lender, and certain other prescribed conditions have been met.

The Bank has had, and expects to have in the future, banking transactions in the ordinary course of its business with Directors, Executive Officers and principal Shareholders of the Company and their affiliates. All such transactions have been made upon substantially the same terms, including interest rates and collateral, as those prevailing at the same time for comparable transactions with persons not related to the lender. In the opinion of Management, such loans have not involved more than the normal risk of collectibility nor have they presented other unfavorable features. The total amount of loans outstanding at December 31, 2009 to the Company's Directors, Executive Officers and their affiliates was \$25,375,313.48, which constituted 2.66% of the Bank's total loans outstanding at that date.

Compensation Discussion and Analysis

Executive Summary

The Compensation Committee of the Board of Directors of The First Bancorp, Inc. oversees the Company's executive compensation program. The Committee consist solely of "Independent Directors", i.e., those Directors who are neither officers or employees of the Company or its subsidiaries nor have a relationship which, in the opinion of the Board, would interfere with the exercise of independent judgment to carry out the responsibilities of a Director and who are otherwise "independent" under the rules of the NASDAQ Stock Market, Inc.

The Committee has the direct responsibility to:

1. Review and approve corporate goals and objectives relevant to the compensation of the Company's Chief Executive Officer ("CEO"), evaluate the CEO's performance in light of those goals and objectives and determine the CEO's compensation level based on this evaluation. The corporate goals are established jointly between the Compensation Committee and the CEO and are driven by the Company's strategic plan and annual operating budget. In addition to the Company-wide goals, the Committee and the CEO jointly agree on individual performance goals for the CEO. Examples of these goals, which may vary from year to year, include the Company's earnings targets, loan and deposit growth objectives, risk management analysis, as well as specific individual goals such as implementing components of the approved strategic plan and leadership development.
2. Review and approve the compensation of all other Executive Officers of the Company with recommendation and input from the CEO.
3. Review and approve grants, awards and issuances under, or any material amendment of, any stock option or other similar plan.
4. In consultation with Management, oversee regulatory compliance with respect to compensation matters, including overseeing the Company's policies on structuring compensation programs to preserve tax deductibility and, as and when required, establish performance goals and certify that performance goals have been attained for purposes of Section 162(m) of the Internal Revenue Code.

5. Review and approve any severance or similar termination payments proposed to be made to any current or former Executive Officer of the Company, and any agreements providing for such payments.

In 2008, the Company's Shareholders approved the Company's participation in the Capital Purchase Program (CPP) offered by the United States Department of the Treasury. As a participant in this program, the Company is subject to certain restrictions on executive compensation. The compensation limits apply to Senior Executive Officers ("SEOs") of public or private institutions that participate in the CPP. SEOs include the Chief Executive Officer ("CEO"), the Chief financial officer ("CFO") and the three most highly compensated Executive Officers other than the CEO and CFO as determined by compensation at the time the Company entered into the program. The officers affected are Messrs. Daigneault, Ward, McKim and Wootton and Ms. Norton. The specific compensation limits under the CPP and the Company's compliance with them are detailed below:

1. **Limits on Incentives Tied to Unnecessary and Excessive Risk:** In accordance with the CPP guidelines, in 2009 the Compensation Committee met two times with the Company's Senior Risk Officer, Mr. Daigneault, to discuss the Company's compensation programs and whether they present an unnecessary and excessive risk. The Compensation Committee concluded the Company's compensation program is designed with an appropriate balance of risk and reward in relation to the Company's overall business strategy and does not incentivize executives to take unnecessary or excessive risks. The Compensation Committee will meet with the Senior Risk Officer as required to recertify this information. The Senior Risk Officer is the employee principally responsible for risk monitoring and oversight. Other employees who are involved in monitoring risk, such as the Chief Financial Officer, the Chief Operating Officer, the Senior Loan Officer, the Senior Credit Officer and the Compliance Officer, report directly to the Senior Risk Officer with respect to such matters.
2. **Restrictions on Payment of Incentive Compensation:** The CPP prohibits the Company from paying any incentive compensation to the SEOs other than "long-term restricted stock" meeting certain criteria and limitations. Thus, the SEOs are not eligible, while the Company remains a CPP participant, to receive cash bonus compensation or stock options.
3. **Clawback Provision:** As required under the Capital Purchase Program, any bonus or incentive compensation paid to a SEO may be recovered if the bonus or incentive was based on financial statements or other performance metric criteria later found to be materially inaccurate. This provision applies to all SEOs.
4. **Prohibition on Severance Payments:** Under the CPP, the Company may not enter into agreements with any of its SEOs providing for severance payments. As noted elsewhere in the proxy statement, FNB had entered into a severance agreement with Mr. McKim in 2000 which became an obligation of the Company by virtue of the merger of FNB into the Company in 2005. No other agreements providing for severance payments to an SEO by the Company are in place.
5. **Deductibility Under Section 162(m):** The CPP imposes stricter rules on the tax deductibility of compensation under new Code Section 162(m)(5).

Philosophy of Our Executive Compensation Program

The Company recognizes that the attraction and retention of high-performing employees are the key component to the organization's past performance and future success. In support of that objective, the Compensation Committee believes that the most effective executive compensation program is one that rewards annually the achievement of established long-term and strategic goals, and aligns executives' interests with those of Shareholders and the long-term interests of the Company. The Committee evaluates both performance and compensation of our executives relative to the compensation paid to similar executives at comparably sized and similarly performing banks. Our goal is to maintain an appropriate relationship between the compensation of our

executives and the Company's performance. The overall objectives of our compensation program are:

- a) To provide both short-term and long-term alignment between pay and performance;
- b) To align executive interests with those of Shareholders;
- c) To remain competitive within the relevant marketplace in terms of total compensation; and
- d) To enable the Company to retain, attract, and motivate top talent.

The elements of our compensation program are discussed in brief below, but in summary, the elements of our program are as follows:

- a) Base Pay will target the market median (50th percentile) of the Company's peer group, established by Pearl Meyer & Partners and described below, and will reflect the executive's role, experience and contribution to the Company.
- b) Short-term incentives will reflect annual goals related to the Company's profitability and achievement and may or may not be awarded on an annual basis.
- c) Long-term incentives may also be awarded on an annual basis and are intended to promote the retention of the executive team. These are independent of previous long-term incentive awards and related gains.
- d) The Committee will determine an appropriate mix of base, pay, short-term and long-term incentives based on the executive's position and tenure in the Company.
 - e) Other benefits will be competitive and appropriate to retain and attract talented individuals.

Total compensation is expected to vary each year, and evolve over the long-term to reflect our performance relative to our peers and the industry with corresponding returns for our Shareholders.

Considerations in Determining Executive Compensation

In 2009, Pearl Meyer & Partners, a consulting firm specializing in compensation and benefits for financial institutions, conducted a comprehensive total compensation analysis for the Company. The peer group utilized by the Company was New England non-metropolitan banks. The results of this review were used to guide the Committee's refinement of the Company's compensation philosophy and resulting compensation programs for senior executives.

Compensation Benchmarking: Understanding and having a comparative analysis of the compensation of senior banking executives in the banking industry is a key element considered by the Committee in making compensation decisions. Similar to the Company's past internal practices, Pearl Meyer & Partners assisted the Committee with defining a peer group of institutions of similar asset size and regional location. The peer group includes the two comparable banks located in the state of Maine and other banks located in similar non-metropolitan areas in the Northeast. The comparable companies are reviewed annually and may change slightly depending on changes either in the market or in the peer group banks themselves. The peer group targets approximately 20 institutions ranging from two-thirds to two times the Company's size in terms of assets. The overall objective is to position the Company at approximately the median salary levels of the peer group. Performance factors will also be taken into account should a company in the peer group have performance that varies greatly from that of the group and/or The First Bancorp. We may discount a defined peer bank or drop a company from the group should performance vary widely. The peer group used for 2009 was as follows:

In addition to the peer group, the consultant included data from other industry data bases and surveys including Watson Wyatt Financial Institutions Benchmark Survey and Pearl Meyer & Partners' own annual survey. Data and competitive perspectives were assessed relative to base salary, total cash compensation, short- and long-term incentives, total direct compensation, benefits and other compensation, and total compensation. The Committee reviewed data individually and in the aggregate. Data from the review was used to develop pay guidelines and as a reference for decisions for both short-term and long-term compensation.

Elements of the Compensation Program – Detail

Base Pay: Base salary is used to recognize the experience, skills, knowledge and responsibilities required of all our employees, including our executives. When establishing base salaries for 2009, as noted previously, the Compensation Committee engaged the services of Pearl Meyer & Partners to conduct a comprehensive compensation analysis. One result of this analysis was the establishment of a peer group, detailed above, and the Committee made a decision to target base salaries at the median (50th percentile) of that peer group's base compensation for similarly positioned executives. In addition to the peer group comparison, a variety of other factors are used to determine base compensation, including: the seniority of the individual, the level of the officer's responsibility and the performance of the officer in meeting his/her annual goals. The annual goals of the Named Executive Officers, other than the CEO, are set jointly by the CEO and the Named Officer, and reviewed by the Compensation Committee. These goals are aligned with the Company's annual goals and individualized for the area of responsibility of the Named Executive. For example, goals of the Senior Loan Officer center on loan growth targets and loan quality parameters, the latter being measured on the basis of loan delinquency rates, level of non-performing loans and amount of loan charge-offs for the year. The CFO has goals based on asset/liability management, investment portfolio performance and quality of financial reporting. As a high-performing Company with consistent results, specifically in the categories of Return on Assets, Return on Equity and Efficiency ratio and in the upper quartile of our peer group, we believe that the base salaries of our executives should be reflective of our performance within our industry. Base salaries are reviewed at least annually by the Compensation Committee. The CPP guidelines impose significant restrictions on certain compensation payable by CPP participants, such as the Company, to its CEOs. It is not the intent of the Compensation Committee to use increased base pay to make up any shortfall for the CEOs. Should the 2010 Equity Incentive Plan be approved by the Shareholders, the Compensation Committee, with assistance from Pearl Meyer & Partners, intends to design an effective program to motivate and retain CEOs, utilizing long-term restricted stock, as permitted under the CPP regulations.

Short-Term Incentives

Stakeholder Cash Bonus: In 1994, the Company instituted a formal performance-based compensation program called “Performance Compensation for Stakeholders”. The objective of the program is to align the performance of all employees with the Company’s short-term and long-term objectives. In 2009, the Company did not pay out a bonus under the Stakeholder program. One of the triggers for 2009 was that net income be greater than in the previous year. Because net income in 2009 was not higher than that of 2008, a Stakeholder Bonus was not paid. In years for which a bonus is paid, the aggregate payout is the weighted average payout for nine key performance indicators. The weight assigned to each indicator is based on the contribution that indicator makes toward revenues and/or net income. Generally, key performance indicators include loan volume, core deposit volume, net interest income, non-interest income, wealth management revenues, checking account openings, past-due loan percentage, non-accrual loan levels and efficiency ratio. These indicators are internally generated and prepared by Management. The targets are based on past performance of the Company, economic conditions and industry expectations for growth. Weights are also prepared by Management and both indicators and weights are reviewed and approved by the Board of Directors. The final payout percentage is approved by the Board.

The Stakeholder Bonus component of the performance compensation program has an overall goal of maximizing the long-term viability of the Company and increasing shareholder value. It addresses this by tying the performance payout to multiple goals which include profitability, growth, productivity and loan quality. The guiding principle is to reach a balance of profitability, growth, productivity and loan quality which should collectively have a positive impact on maximizing long-term shareholder value without incentivizing the exposure of the Company to undue risk. The Committee believes that this performance based program provides a reward for high levels of current performance without sacrificing the achievement of long-term goals. Each year specific key performance indicators are chosen along with Company-wide financial performance trigger levels. As noted above, while the Company participates in the CPP, its five most highly compensated executives cannot receive bonus compensation of the type available under this program.

Discretionary Bonus Program: In addition to the Stakeholder Bonus Program, the Company has established a discretionary bonus program. The objective of this program is to provide additional cash bonuses to employees and Named Executives who have had an outstanding year of performance and/or who had an extraordinary accomplishment during the year. Any cash bonus awarded to a named Executive Officer requires the approval of the Compensation Committee and bonuses may not be awarded every year. Outstanding performance recognized in prior year discretionary cash bonuses included above – budget growth in net income, loan growth, and non-interest income revenue growth exceeding annual budget. In addition, bonuses may be paid for one-time events such as a successful technology conversion and, as in 2004, for successful consummation of the merger with FNB Bankshares.

Long-Term Incentives

Stock Options: The Company has a stock option plan that is administered by the Compensation Committee of the Board of Directors. The purpose of this plan is to grant options to executives to better align their interests through equity ownership with those of the Shareholders. It is among the objectives of this plan that, by having a portion of the executive’s compensation tied to the performance of the Company’s stock, the individual will be rewarded for maximizing long-term shareholder value. Stock options also focus on a mid- to long-term outlook which serves as a good balance to the short-term rewards of base compensation, the Stakeholder Bonus Program and the discretionary bonus program.

Stock options are also intended to encourage an executive to remain with the Company. The plan has a vesting schedule which takes up to five years before the executive is fully vested in the stock option grant. The grants do not have to be exercised until the tenth anniversary of the grant. The amount of options granted reflects the executive’s position in the organization, level of responsibility, impact on the Company’s

The First Bancorp 2010 Proxy Statement

Page 13

performance and actual performance in meeting individual performance goals.

This stock option plan expired in April 2005. Prior to the expiration date, all of the options available under the plan were granted, with the last awards being made in January 2005. In 2009, the Company did not have an active option program and therefore no grants were awarded.

In 2010, Shareholders are being asked to vote on the establishment of a new equity-based long-term incentive program which will allow the Board and Management the authority to issue stock options, restricted stock and other equity-based grants to retain existing high performing employees and to attract new members to the Management team should the need arise, while providing mid-term and longer-term incentives tied to overall Company performance. The plan is discussed in detail in another section of this proxy. As noted above, while the Company participates in the CPP, its five most highly compensated executives will not be eligible to receive awards under this plan other than "long-term" restricted stock. Should this plan be approved by Shareholders, the Company will implement all safeguards required under CPP, including clawbacks, to curtail short-term risk taking. The Compensation Committee will be responsible for the design and oversight for these safeguards.

Compensation Mix

With assistance from Pearl Meyer & Partners, the Compensation Committee has developed an appropriate mix of base pay, short-term incentives and long-term incentives for the Senior Executive Officers. Currently, based on the compensation vehicles available, base pay constitutes 90 to 95% of total compensation, with the remainder being paid through the Stakeholder Bonus Program. Should the 2010 Equity Incentive Plan be approved by the Shareholders, the Compensation Committee will review the mix and determine how long-term incentives will fit in with total compensation. The Committee's expectation is that long-term incentives will constitute 10% to 25% of total compensation depending on the executive and his or her position in the Company. These percentages are based on industry averages and best practices.

Supplemental Executive Retirement Plan: The Company also sponsors an un-funded, non-qualified supplemental retirement plan established in 1997 for certain Executive Officers. The plan provides supplemental retirement benefits payable in installments over 20 years upon retirement or death. The costs for this plan are recognized over the service lives of the participating Executive Officers. As of December 31, 2009, only two active executives (CEO Daigneault and CFO Ward) were participants in the plan. As originally adopted, the plan provides a projected retirement benefit for Mr. Daigneault, assuming he remains employed by the Bank until normal retirement age of 65, of \$169,329 per year, with such payments beginning in the year 2017. The projected retirement benefit for Mr. Ward, assuming he remains employed by the Bank until normal retirement age of 65, is \$61,127 per year, with such payments beginning in the year 2018. The benefits are capped at the above amounts. On December 30, 2008, the Company amended the plans to change the normal retirement age to receive the full benefit under the Plan from age 65 to age 63. The date on which the Executive Officer may begin to collect the retirement benefit payments does not change, however, and remains January 1 of the year in which the Executive Officer turns age 65. The plan also contains a restrictive covenant that may result in the Executive Officer forfeiting all accrued benefits should he accept employment with a competing financial institution within five years after his termination of employment with the Company.

Other Benefits

401(k) and Other Benefits: The Company's primary retirement plan is the 401(k) Plan. It is available to any employee who has attained the age of 21 and completed six months of continuous service. The Company typically provides a match at 50% of employee deferrals to the extent that the deferral does not exceed 6% of eligible compensation. In addition, an annual profit sharing component of 2% to 3% may also be paid. The Board makes a determination at the end of each fiscal year as to what, if any, amount is to be paid based on the financial performance of the Company for that year. Employee contributions are 100% vested at all times, while employer contributions are vested over a

five-year period. Upon termination of employment for any reason, a plan participant may receive his or her contribution account and earnings allocated to it, as well as the vested portion of his or her employer-matching account and earnings allocated to it. Non-vested amounts are forfeited

The First Bancorp 2010 Proxy Statement

Page 14

and are used by the Company to help defray plan administration expenses.

Stock Purchase Plan: The Company has a stock purchase plan available to all employees and Directors that provides an opportunity to purchase shares through payroll deduction. For Directors, they may elect to have up to 100% of their fees placed in the stock purchase plan. The purchase price is at the fair market value of the shares without a commission as determined by the NASDAQ closing price on the day the shares are purchased.

Severance and Change of Control Benefits: The Company does not have any employment agreements with any of the executives of the Company. The Company also does not have a severance program for employees and executives, except for Mr. McKim, who entered into such agreement while employed by FNB Bankshares.

As a result of not having employment agreements with the Company's executives, the Company does not have any formal change-of-control benefits except for those in favor of Mr. McKim.

The FNB Bankshares Continuity Agreement assumed by the Company in the merger, as subsequently amended in 2006 by agreement between the Company and Mr. McKim, provides that (a) if Mr. McKim's employment is terminated by the Company other than (i) for Cause (as defined in the agreement) or (ii) upon Mr. McKim's death or (b) if Mr. McKim terminates for Good Reason as defined in the agreement, he shall receive a severance in a single lump sum. The amount of the severance payment is calculated on a declining scale over a ten-year period that commenced in January 2005. Should another change of control take place under this amended Continuity Agreement, Mr. McKim shall be paid the amount set forth in his agreement based on the declining schedule.

In the event of a change of control, the non-vested portion of outstanding stock option grants will become fully vested upon the change of control. In addition, for the two active executives covered under the SERP, being CEO Daigneault and CFO Ward, their defined benefits under the SERP shall become fully vested upon a change of control.

Company Vehicle: Senior executives are provided mileage reimbursement for business travel when using their own vehicles. For certain named Executive Officers, a Company-owned vehicle may be provided subject to approval of the Compensation Committee. The non-business use of the vehicle is taxable income to the executive and is included as part of the executive's total compensation. In 2009 the four executives with Company-provided vehicles were CEO Daigneault, CFO Ward, EVP McKim and EVP Wootton.

Bank Owned Life Insurance: The Company may purchase a single-premium life insurance policy on the life of an executive with a split dollar benefit between the Company and the executive's estate. The Company believes that Bank Owned Life Insurance is a good investment option for the Company and also provides key man protection upon the untimely death of a senior executive. The cash surrender value is an asset of the Company.

Compensation of Chief Executive Officer and Named Executive Officers

Base Salary

In fiscal 2009, CEO Daigneault's base salary was at an annual rate of \$350,200. This represents a \$10,200 or 3.00% increase above his 2008 base of \$340,000. At the outset of 2009, Management had decided to not award normal salary increases effective January 1 as has happened in prior years. This decision was based on the economic environment and the challenges faced by the Bank. Later in the year, the Board reviewed the Bank's performance to date as well as the competitive marketplace and decided to award all Management employees a 3% cost of living adjustment that was effective July 1, 2009. While 2009 was a challenging year for The First Bancorp given the prevailing economic environment and its effect on interest rates, loan performance and deposit and borrowing activity, the Company had a net income of \$13.0 million, and was able to improve its efficiency ratio to 43.39% from 46.1% in 2008. This ratio, along with other key ratios and performance data, is detailed in Management's Discussion and Analysis.

Stakeholder Cash Bonus

The Stakeholder Bonus Program, which is available to all eligible employees, did not produce a bonus payout for the year ended December 31, 2009. In 2008 a bonus of 7.0% was paid out and this trend is consistent with the economic climate. When there is a bonus payout, the payout for CEO Daigneault is also the same percentage of base paid to the other named Executive Officers and other employees still employed as of December 31st of the year for which the bonus is being paid. As noted earlier in this discussion, the Company also has a discretionary bonus program. No bonus was paid to CEO Daigneault in 2009 under the discretionary program. None of the SEOs are eligible to participate in such bonus programs due to the restrictions in the CPP regulations.

Other Compensation

In 2009, there were no additional compensation items other than those detailed in the accompanying compensation table for CEO Daigneault, CFO Ward, EVP McKim, EVP Wootton and EVP Norton. The change in pension value and non-qualified retirement plan earnings for CEO Daigneault and CFO Ward represent the required accounting accruals under the Supplemental Executive Retirement Plan and do not constitute cash payments.

Executive Compensation

The following Summary Compensation Table sets forth the cash and non-cash compensation for each of the last three fiscal years earned by the Principal Executive Officer, the Principal Financial Officer as well as the three other highest paid active Executive Officers in fiscal 2009. The Company made no stock awards in the last five fiscal years.

Bank employees, including Executive Officers, are paid on a biweekly basis, generally resulting in 26 pay periods per year, so the Officers' annual salaries are divided by 26 to determine the periodic pay. In 2008, there were 27 pay periods within the calendar year so each salaried employee of the Bank, including Executive Officers, received an additional two-weeks' pay above and beyond their predetermined annual salary. This additional pay for Executive Officers in 2008 was approved by the Compensation Committee.

- 2 Bonuses listed are over and above the Stakeholder Cash Bonus program which is listed as non-equity incentive plan compensation.
- 3 Non-equity incentive plan compensation includes the Stakeholder Cash Bonus program. It is listed in the year earned and normally accrued, but it may be paid in the following year. The named Executive Officers earned the same percentage paid to all employees, which equaled 7.0% of base salary in 2008 and 8.1% of base salary in 2007. No payment was paid in 2009 under the Stakeholder Cash Bonus program.
- 4 The amount shown represents the change in accrued liability in each of the years listed for the Supplemental Executive Retirement Plan detailed in the Pension Table.
- 5 All Other Compensation is detailed in the table below and includes the following:
 - 401(k) Matching and Profit Sharing Contributions. In all years, the Company provided a match at 50% of employee deferrals to the extent that the deferral does not exceed 6% of eligible compensation. The Company also provides a profit-sharing contribution to employees who have been employed one year or more. This was 2.0% of base salary in 2009, 2008 and 2007. All 401(k) match and profit share contributions are subject to the IRS regulations that govern the maximum amount of an Officer's earnings which are eligible to be considered for the match and profit share components of compensation.

Stock Options

On December 15, 1994, the Company's Board of Directors adopted a Stock Option Plan (the "Option Plan") for the benefit of officers and other full-time employees of the Company and the Bank. This plan was approved by the Company's Shareholders at the 1995 Annual Meeting. Under the Option Plan, 600,000 shares (subject to adjustment to reflect stock splits and similar events) are reserved from the authorized but unissued Common Stock of the Company for future issuance by the Company for exercise of stock options granted to certain key employees of the Company and the Bank from time to time. The purpose of the Option Plan is to encourage the retention of such key employees by facilitating their purchase of a stock interest in the Company. The Option Plan is intended to provide for the granting of incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended (the "Code") to employees of the Company or the Bank.

The Option Plan is administered by the Compensation Committee of the Company's Board of Directors, which is comprised solely of Directors who are ineligible to receive grants of stock options under the Option Plan and who have not received grants of options within the 12 months preceding their appointment to the Compensation Committee. The Compensation Committee selects the employees of the Bank and the Company to whom options are to be granted and designates the number of options to be granted. The Option Plan may be amended only by the vote of the holders of a majority of the Company's outstanding Common Stock if such amendment would increase the number of shares available for issuance under the Option Plan, change the eligibility criteria for grants of options under the Option Plan, change the minimum option exercise price or increase the maximum term of options. Other amendments may be effected by the Compensation Committee.

Employees selected by the Compensation Committee receive, at no cost, options under the Option Plan. The option exercise prices are equal to or exceed the fair market value of the shares on the date of the grant, and no option is exercisable after the expiration of ten years from the date it is granted. The fair market value of the shares is determined by the Compensation Committee as specified in the Option Plan. The optionee cannot transfer or assign

any option other than by will or in accordance with the laws of descent and distribution, and the option may be exercised only by the employee during the employee's lifetime. After an employee's death, options may be exercised by the employee's estate or heirs up to one year following the date of death. Code

The First Bancorp 2010 Proxy Statement

Page 18

Section 422 limits option grants by providing that during the term of the Option Plan, no grant may be made to any employee owning more than 10% of the Company's outstanding shares unless the exercise price is at least 110% of the underlying shares' fair market value and such option is not exercisable more than five years following the option grant. The aggregate fair market value of the stock for which any employee may be granted incentive stock options which are first exercisable in any calendar year may generally not exceed \$100,000.

While generally no options may be exercisable before the second anniversary of the grant date, in the event of a change in control involving the Company, all options (other than those held by Officers or Directors of the Company or the Bank for less than six months) shall become immediately exercisable. Also, an employee whose employment is terminated in connection with or within two years after such a change in control event shall be entitled to exercise all options for up to three months following the date of termination; provided that options held by officers or Directors shall not be exercisable until six months after the grant date. Employees whose services are terminated, other than following a change in control as described above, shall thereupon forfeit any options held; provided, however, that following termination due to disability an employee shall be entitled to exercise options for up to one year (provided, further, that officers may exercise only with respect to options held for at least six months).

The Company receives no monetary consideration for the granting of incentive stock options. Upon exercise, the Company receives a cash payment from optionees in exchange for shares issued. No federal income tax consequences are incurred by the Company at the time incentive stock options are granted or exercised, unless the optionee incurs liability for ordinary income tax treatment upon exercise of the option, as discussed below, in which event the Company would be entitled to a deduction equal to the optionee's ordinary income attributable to the options. Provided the employee holds the shares received on exercise of a stock option for the longer of two years after the option was granted or one year after it was exercised, the optionee will realize capital gains income (or loss) in the year of sale in an amount equal to the difference between the sale price and the option exercise price paid for shares. If the employee sells the shares prior to the expiration of the period, the employee realizes ordinary income in the year of disposition equal to the difference between the fair market value of the shares on the date of exercise and the exercise price and capital gains income (or loss) equal to the difference (if any) between the sale price of the shares and the fair market value of the shares on the date of exercise. In addition to the tax consequences discussed above, the excess of the option price over the fair market value of the optioned stock at the time of option exercise is required to be treated by an incentive optionee as an item of tax preference for purposes of the alternative minimum tax.

The following table summarizes the Company's Stock Option Plan as of December 31, 2009:

The Company does not have Plan-Based Awards as part of its compensation program. No awards have been granted subject to Shareholder approval under the 2010 Equity Incentive Plan, which is to be voted on by the Company's Shareholders at the 2010 Annual Meeting.

Pension Plan

Although the 401(k) Plan is the Company's primary retirement plan, the Company also sponsors an un-funded, non-qualified supplemental retirement plan for certain Executive Officers. The plan provides supplemental retirement benefits payable in installments over 20 years upon retirement or death. The costs for this plan are recognized over the service lives of the participating Executive Officers. The projected retirement benefit for Mr. Daigneault, assuming he remains employed by the Company until normal retirement age of 65, is \$169,329 per year, with such payments beginning in the year 2017. The projected retirement benefit for Mr. Ward, assuming he remains employed by the Company until normal retirement age of 65, is \$61,127 per year, with such payments beginning in the year 2018. The benefits are capped at the above amounts. On December 30, 2008, the Company amended the plans to change the normal retirement age to receive the full benefit under the Plan from age 65 to age 63. The date on which the Executive Officer may begin to collect the retirement benefit payments does not change, however, and remains

January 1 of the year in which the Executive Officer turns age 65. The Plan also contains a restrictive covenant that may result in the Executive Officer forfeiting all accrued benefits should he accept employment with a competing financial institution within five years after his termination of employment with the Company.

The Company does not have Nonqualified Deferred Compensation as part of its compensation program.

Other Employee Benefits

The Bank provides all full-time employees with group life, health, and long-term-disability insurance through the Independent Bankers' Trust of Maine and Bankers Health Trust. A Flexible Benefits Plan is available to all full-time employees after satisfying eligibility requirements and to part-time employees scheduled to work 20 or more hours a week.

Compensation Policies and Practices

Compensation Programs

The Company has two primary means of compensating its employees: base pay and the Stakeholder bonus program. Full detail on these programs is provided in the Compensation Discussion and Analysis. A summary is provided below.

Base Pay

Base salary is used to recognize the experience, skills and responsibilities of all of the Company's employees, including its Senior Executive Officers. To determine appropriate levels of base pay for employees other Senior Executive Officers, the Company participates in a salary survey conducted by Berry Dunn McNeil and Parker. This survey, conducted of financial institutions in Northern New England, provides much of the information needed to determine base pay for hourly employees, line supervisors and members of middle Management. In 2009, the Company also utilized the Pearl Meyer & Partners Northeast Banking survey to provide further guidance on base pay for these groups of employees. For the average employee of the Company, it is expected that total compensation will be comprised of base pay, equaling 90% to 95% of total compensation, and that the Stakeholder Bonus Program will

be 5% to 10% of total compensation. The total compensation mix for Senior Executive Officers is detailed in the Compensation Discussion and Analysis.

The First Bancorp 2010 Proxy Statement

Page 21

Stakeholder Bonus Program

The other key component of compensation for all employees is the Stakeholder Cash Bonus program. The Stakeholder program was originally implemented in 1994 and is available to all eligible employees, (generally employees hired by March 31st of the year for which the bonus is being awarded and still employed at year-end). This element of the performance compensation program is designed to support the long-term viability of the Company and increase shareholder value. It addresses these objectives by tying the performance payout to multiple goals which include profitability, growth, productivity and loan quality. The guiding principle is to reach a balance of profitability, growth, productivity and loan quality which should collectively have a positive impact on maximizing long-term shareholder value without incentivizing the exposure of the Company to undue risk. The Committee believes that this performance-based program provides a reward for high levels of current performance without sacrificing the achievement of long-term goals. Each year specific key performance indicators are chosen along with Company-wide financial performance trigger levels. The objective of the program is to align the performance of all employees with the Company's short and long term objectives so that neither set of goals is sacrificed for the other.

Miscellaneous Compensation

In addition to the above two primary means of compensation, the Company has a discretionary bonus program under which employees may be receive a cash reward for the successful completion of a major project, or taking on additional responsibilities on a temporary basis. The Company also offers a small cash bonus for successful hiring referrals and for referrals to the Company's investment management division.

Compensation Policies and Practices and Risk Management

Management does not believe that the Company's compensation policies and practices for its employees are reasonably likely to have a material adverse effect on the Company. Incentive compensation is not tied to individual production volumes or other short-term measures, but is instead focused on a balance of measures which reward enhancing the Company's long-term viability and performance. The Company has extensive risk monitoring and robust internal controls, and internal and external audit activities provide a deterrent for and detection of such risk behaviors.

Compensation Committee Certification

During 2009, the Compensation Committee met with Senior Risk Officer, Daniel R. Daigneault, to review the Company's overall compensation program, for all employees as well as for Senior Executive Officers. Meetings were held on February 5, 2009, August 20, 2009, October 22, 2009 and November 3, 2009. After discussion with Mr. Daigneault and a thorough review of the Company's compensation programs, the Committee concluded that the compensation program for all employees, including Senior Executive Officers, is balanced, aligning employees' interests with those of Shareholders, and is not reasonably likely to have a material adverse effect on the Company, including by incentivizing undue risk-taking.

Use of Compensation Consultants

The Compensation Committee contracted with Pearl Meyer & Partners in 2009 to conduct a comprehensive analysis of total compensation for the Company's Senior Executive Officers as well as for other selected members of Management. In 2009, the Committee began to explore the possibility of providing a long-term stock incentive program for members of the Company's Management team. Pearl Meyer & Partners acted as a consultant on this project and continues to do so in 2010. No fees were paid to this firm for non-executive compensation consulting

services.

Director Compensation

Fees paid by the Bank to its Directors as a group totaled \$194,967 in 2009, but no fees are paid to Directors of the Company in their capacities as such. Of the \$194,967 paid to the outside Directors, 45.1% of this portion was reinvested in the Company through the Employee Stock Purchase Plan. In addition, \$37,500 in compensation was paid for other services, as detailed below, and such fees are on terms no more favorable to the recipient than are generally paid by the Bank for such services to other providers in the area. CEO Daigneault and EVP McKim, who are the only Directors who are also employees of the Company, receive no additional compensation for serving on the Board of Directors of the Company or the Bank. The following table of Director Compensation details compensation paid to Directors in 2009.

| Bruce B. Tindal | 28,500 | 37,500 | 66,500 |

¹ In 2009, the Chairman of the Board received an annual fee of \$31,668. Each of the outside Directors of the Bank, with the exception of the Chairman of the Board, received a Director's fee in the amount of \$750 for each meeting attended, and \$450 for each meeting attended of a committee of which the Director is a member. In addition to meeting fees paid for meetings attended, the Chairman of the Audit Committee received a stipend of \$8,000. Each of the outside Directors also received a monthly retainer of \$800, with the exception of the Chairman of the Board.

² Certain Board members were paid fees for other services, and such fees are on terms no more favorable to the recipient than are generally paid by the Bank for such services to other providers in the area. Mr. Tindal is a licensed real estate broker and the amount listed was a real estate commission paid to his firm in connection with the sale of a bank-owned property.

Report of the Compensation Committee

March 12, 2010

To the Board of Directors of The First Bancorp, Inc.:

The Compensation Committee of The First Bancorp, Inc. certifies the following related to the Senior Executive Officer (“SEO”) compensation plans and employee compensation plans:

- a. The Compensation Committee of The First Bancorp, Inc. has discussed, reviewed, and evaluated with the senior risk officer at least every six months during the period beginning on January 1, 2009 and ending December 31, 2009 (the “applicable period”), the SEO compensation plans and the employee compensation plans and the risks these plans pose to The First Bancorp, Inc.;
- b. The Compensation Committee has reviewed, at least every six months during the applicable period, the terms of each employee compensation plan and identified any features of the plan that could encourage the manipulation of reported earnings of The First Bancorp, Inc. to enhance the compensation of an employee, and has limited any such features;

The Compensation Committee of The First Bancorp, Inc. has reviewed and found no reason during any part of the most recently completed fiscal year to limit the features in:

- a. SEO compensation plans that could lead SEOs to take unnecessary and excessive risks that could threaten the value of The First Bancorp, Inc.;
- b. Employee compensation plans that unnecessarily expose The First Bancorp, Inc. to risks; and
- c. Employee compensation plans that could encourage the manipulation of reported earnings of The First Bancorp, Inc. to enhance the compensation of an employee.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires that the Company’s Directors, Executive Officers, and any person holding more than ten percent of the Company’s Common Stock file with the SEC reports of ownership changes, and that such individuals furnish the Company with copies of the reports.

Based solely on a review of the reports furnished to the Company, or written representations from reporting persons that all reportable transactions were reported,¹ the Company believes that during the fiscal year ended December 31, 2009 the Company’s officers, Directors and greater than ten percent owners timely filed all reports they were required to file under Section 16(a) except for EVP F. Stephen Ward who filed a Form 4 one day late in February 2009.

¹ An issuer does not have an obligation to research or make inquiry regarding delinquent Section 16(a) filings beyond reviewing copies of the Forms 3, 4 and 5 received by the issuer. In addition, Item 405 of Regulation S-K provides that an issuer may rely on a written representation from an insider to the effect that no Form 5 was required to be filed.

PROPOSAL 2 – NON-BINDING VOTE ON THE COMPANY’S EXECUTIVE COMPENSATION

In February 2009, the United States Congress passed, and President Obama signed into law, the American Recovery and Reinvestment Act of 2009 (the “Stimulus Law”). This law, which includes a number of measures aimed at stimulating the U.S. economy and addressing the ongoing financial and economic turbulence in the U.S., also includes several provisions that retroactively impose additional restrictions and legal requirements on financial institutions and financial institution holding companies, such as the Company, that have participated in the Troubled Assets Relief Program’s Capital Purchase Program (“CPP”).

Among the requirements imposed on the Company by the Stimulus Law is a mandate that, in connection with any annual or other meeting of its Shareholders held while the preferred stock issued by the Company under the CPP remains outstanding, the Company permit a non-binding vote by its Shareholders with respect to the compensation of the Company’s executives as disclosed in the proxy statement and the accompanying annual report of the Company with respect to the preceding year (in the case of this meeting, as disclosed with respect to the year ended December 31, 2009). The Stimulus Law expressly provides that any such Shareholder vote shall not be binding on the Company’s Board of Directors, and shall not be construed as overruling any decision by the Company’s Board of Directors. In addition, the Stimulus Law states that any such vote shall not create or imply any additional fiduciary duty applicable to the Company’s Board of Directors, nor shall any such vote be construed to restrict or limit the ability of Shareholders to make proposals for inclusion in proxy materials related to the Company’s executive compensation.

Approval of the Company’s executive compensation policies and procedures would require that the number of votes cast in favor of the proposal exceed the number of votes cast against it. Abstentions and broker non votes will not be counted as votes cast and therefore will not affect the determination as to whether the Company’s executive compensation policies and procedures are approved. Because this Shareholder vote is advisory, it will not be binding upon the Company’s Board of Directors.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE SHAREHOLDERS VOTE FOR PROPOSAL NO. 2.

The First Bancorp 2010 Proxy Statement

PROPOSAL 3: APPROVAL OF THE 2010 EQUITY INCENTIVE PLAN

Effective as of January 21, 2010, our Board of Directors adopted, subject to Shareholder approval, our 2010 Equity Incentive Plan, referred to as the 2010 Plan. The 2010 Plan currently reserves 400,000 shares of our Common Stock for issuance in connection with stock options, restricted stock awards and other equity-based awards granted under such Plan. In light of the fact that no stock options remain available for grant under our 1995 Stock Option Plan, the Board of Directors wishes to provide for a new equity incentive plan to ensure that shares of Common Stock are available for the grant of options and other equity or equity-based awards to attract and retain the best available personnel, provide additional incentive to our officers, employees and non-employee Directors and promote the success of our business, while structuring such grants and awards in a manner that does not encourage the recipients to expose the Company to undue or inappropriate risk.

Shareholders are asked to approve the 2010 Plan to qualify options for treatment as incentive stock options for purposes of Section 422 of the Internal Revenue Code, to qualify compensation under the 2010 Plan as performance-based for purposes of Section 162(m) of the Internal Revenue Code, and in order to satisfy NASDAQ guidelines relating to equity compensation. If Shareholder approval is not received, the Board of Directors will reconsider the adoption of the 2010 Plan.

The 2010 Plan is summarized below. This summary is qualified in its entirety by reference to the full text of the 2010 Plan, a copy of which is attached to this Proxy Statement as Appendix A. Our Executive Officers and Directors may be deemed to have an interest in this proposal insofar as they are eligible to receive awards under the 2010 Plan. However, none of these persons has been granted an award under the 2010 Plan.

Board Recommendation

The Board of Directors believes that the future success of the Company depends, in large part, upon our ability to maintain a competitive position in attracting, retaining and motivating our officers, employees and non-employee Directors. Accordingly, the Board of Directors unanimously recommends a vote "FOR" the approval of the 2010 Equity Incentive Plan.

Summary of the 2010 Plan Features

The following is a brief summary of the 2010 Plan and is qualified in its entirety by reference to the copy of the 2010 Plan attached to this proxy statement as Appendix A.

Description of Awards

The 2010 Plan provides for the grant of incentive stock options intended to qualify under Section 422 of the Internal Revenue Code, nonstatutory stock options, restricted stock awards, and other stock-based awards, including the grant of shares based upon certain conditions, the grant of securities convertible into shares of our Common Stock and the grant of stock appreciation rights, which are collectively referred to as awards.

Incentive Stock Options and Nonstatutory Stock Options. Optionees receive the right to purchase a specified number of shares of Common Stock at a specified option price and subject to such other terms and conditions as are specified in connection with the option grant. Options may not be granted at an exercise price less than the fair market value of the Common Stock on the date of grant. Options may not be granted for a term in excess of ten years. The 2010 Plan permits the Board to determine the manner of payment of the exercise price of options, including through payment by cash, check or in connection with a "cashless exercise" through a broker, by surrender to The First Bancorp Inc. of shares of Common Stock, by delivery of a promissory note, or by any other lawful means.

Restricted Stock Awards. Restricted stock awards award shares of Common Stock to recipients, or entitle recipients to acquire shares of Common Stock, subject to forfeiture or to our right to repurchase all or part of such shares from the recipient in the event that the conditions specified in the applicable award are not satisfied prior to the end of the

applicable restriction period established for such award.

Other Stock-Based Awards. Under the 2010 Plan, the board has the right to grant other awards based upon the Common Stock having such terms and conditions as the board may determine, including the grant of shares based upon certain conditions, the grant of securities convertible into Common Stock and the grant of stock

appreciation rights; provided, however, that no other awards shall be made unless and until the terms the 2010 Plan and of any such award are in compliance with Section 409A of the Internal Revenue Code.

Shares Available for Issuance under the 2010 Plan. 400,000 shares of our Common Stock are currently reserved for issuance under the 2010 Plan.

Eligibility to Receive Awards

Officers, employees and Directors of The First Bancorp, Inc. and its subsidiaries, including persons who have entered into an agreement with us under which they will be employed by us in the future, are eligible to be granted awards under the 2010 Plan. Under present law, however, incentive stock options may only be granted to employees. As of March 1, 2010, approximately 205 employees including our Executive Officers and seven non-employee Directors, were eligible to receive awards under the 2010 Plan. We expect that we may make option grants to our Directors, our named Executive Officers and other employees under the 2010 Plan in the future. However, the granting of awards under the 2010 Plan is discretionary, and we cannot now determine the number or type of awards to be granted in the future to any particular officer, employee, Director or group thereof.

Administration

The 2010 Plan is administered by our Board of Directors. The board has the authority to adopt, amend and repeal the administrative rules, guidelines and practices relating to the 2010 Plan and to interpret the provisions of the 2010 Plan. Pursuant to the terms of the 2010 Plan, the Board of Directors may delegate authority under the 2010 Plan to one or more committees of the board. Subject to any applicable limitations contained in the 2010 Plan, the Board of Directors, or any other committee to whom the board delegates authority, as the case may be, selects the recipients of awards and determines:

- the number of shares of Common Stock covered by options (or other awards) and the dates upon which such options become exercisable or upon which such awards vest or cease to be subject to forfeiture or repurchase by the Company,
 - the exercise price of options or the purchase price of restricted stock,
 - the duration of such awards, and
- the number of shares of Common Stock subject to any restricted stock or other stock-based awards and the terms and conditions of such awards, including conditions, as applicable, for repurchase, forfeiture, issue price and repurchase price.

The Board of Directors is required to make appropriate adjustments in connection with the 2010 Plan and any outstanding awards to reflect stock dividends, stock splits and certain other events. In the event of a merger, liquidation or other reorganization event, as defined in the 2010 Plan, the Board of Directors is authorized to provide for outstanding options or other stock-based awards to be assumed or substituted for, and, if the acquiring or succeeding corporation does not agree to assume or substitute for, such awards, the Board of Directors is authorized to provide for the acceleration of any award, and, if applicable, to make an award fully exercisable prior to consummation of the reorganization event or to provide for a cash out of the value of any outstanding options. Upon the occurrence of a reorganization event, the repurchase and other rights of the Company under each outstanding award shall inure to the benefit of the Company's successor and shall apply to the cash, securities or other property which the Common Stock was converted into or exchanged for pursuant to such reorganization event in the same manner and to the same extent as they applied to the Common Stock subject to such restricted stock award.

Amendment or Termination

No award may be made under the 2010 Plan after April 28, 2020, but awards previously granted may extend beyond that date. The Board of Directors may at any time amend, suspend or terminate the 2010 Plan; provided however, that to the extent required by Section 162(m) of the Internal Revenue Code, no award granted to a participant in the 2010 Plan that is intended to comply with Section 162(m) after the date of such amendment shall become exercisable, realizable or vested, as applicable to such award, unless and until such amendment has been approved by our

Shareholders.

Federal Income Tax Consequences

The following generally summarizes the United States federal income tax consequences that generally will arise with respect to awards granted under the 2010 Plan. This summary is based on the tax laws in effect as of the date of this proxy statement. This summary assumes that all awards granted under the 2010 Plan are exempt from, or comply with, the rules under Section 409A of the Internal Revenue Code related to nonqualified deferred compensation. Changes to these laws could alter the tax consequences described below.

Incentive Stock Options

A participant will not have income upon the grant of an incentive stock option. Also, except as described below, a participant will not have income upon exercise of an incentive stock option if the participant has been employed by us or a 50% or more owned corporate subsidiary at all times beginning with the option grant date and ending three months before the date the participant exercises the option. If the participant has not been so employed during that time, then the participant will be taxed as described below under "Nonstatutory Stock Options." The exercise of an incentive stock option may subject the participant to the alternative minimum tax. A participant will have income upon the sale of the stock acquired under an incentive stock option at a profit (if sales proceeds exceed the exercise price). The type of income will depend on when the participant sells the stock. If a participant sells the stock more than two years after the option was granted and more than one year after the option was exercised, then all of the profit will be long-term capital gain. If a participant sells the stock prior to satisfying these waiting periods, then the participant will have engaged in a disqualifying disposition and a portion of the profit will be ordinary income and a portion may be capital gain. This capital gain will be long-term if the participant has held the stock for more than one year and otherwise will be short-term. If a participant sells the stock at a loss (sales proceeds are less than the exercise price), then the loss will be a capital loss. This capital loss will be long-term if the participant held the stock for more than one year and otherwise will be short-term.

Nonstatutory Stock Options

A participant will not have income upon the grant of a nonstatutory stock option. A participant will have ordinary compensation income upon the exercise of a nonstatutory stock option equal to the value of the stock on the day the participant exercised the option less the exercise price. Upon sale of the stock, the participant will have capital gain or loss equal to the difference between the sales proceeds and the value of the stock on the day the option was exercised. This capital gain or loss will be long-term if the participant has held the stock for more than one year and otherwise will be short-term.

Restricted Stock

A participant will not have income upon the grant of restricted stock unless an election under Section 83(b) of the Internal Revenue Code is made within 30 days of the date of grant. If a timely 83(b) election is made, then a participant will have compensation income equal to the value of the stock less the purchase price, if any, paid by the participant for such stock. When the stock is sold, the participant will have capital gain or loss equal to the difference between the sales proceeds and the value of the stock on the date of grant. If the participant does not make an 83(b) election, then when the stock vests the participant will have compensation income equal to the value of the stock on the vesting date less the purchase price, if any, paid by the participant for such stock. When the stock is sold, the participant will have capital gain or loss equal to the sales proceeds less the value of the stock on the vesting date. Any capital gain or loss will be long-term if the participant held the stock for more than one year and otherwise will be short-term.

Tax Consequences to The First Bancorp Inc.

There will be no tax consequences to The First Bancorp, Inc. except that we will be entitled to a deduction when a participant has ordinary compensation income. Any such deduction will be subject to the limitations of Section 162(m) of the Internal Revenue Code.

APPENDIX A

THE FIRST BANCORP, INC. 2010 EQUITY INCENTIVE PLAN

1. Purpose

The purpose of this 2010 Equity Incentive Plan (the “Plan”) of The First Bancorp, Inc., a Maine corporation (the “Company”), is to advance the interests of the Company’s Shareholders by enhancing the Company’s ability to attract, retain and motivate persons who make (or are expected to make) important contributions to the Company by providing such persons with equity ownership opportunities and performance-based incentives and thereby better aligning the interests of such persons with those of the Company’s Shareholders, while structuring such incentives in a manner that does not encourage such persons to expose the Company to undue or inappropriate risk. Except where the context otherwise requires, the term “Company” shall include any of the Company’s present or future parent or subsidiary corporations as defined in Sections 424(e) or (f) of the Internal Revenue Code of 1986, as amended, and any regulations promulgated thereunder (the “Code”) and any other business venture (including, without limitation, joint venture or limited liability company) in which the Company has a controlling interest, as determined by the Board of Directors of the Company (the “Board”).

2. Eligibility

All of the Company’s employees, officers and Directors (including persons who have entered into an agreement with the Company under which they will be employed by the Company in the future) are eligible to be granted restricted stock awards, options or such other stock-based awards as the Board may approve in accordance with Section 7 (each, an “Award”) under the Plan. Each person who has been granted an Award under the Plan shall be deemed a “Participant”.

3. Administration and Delegation.

Administration by Board of Directors. The Plan will be administered by the Board. The Board shall have authority to grant Awards and to adopt, amend and repeal such administrative rules, guidelines and practices relating to the Plan as it shall deem advisable. The Board may correct any defect, supply any omission or reconcile any inconsistency in the Plan or any Award in the manner and to the extent it shall deem expedient to carry the Plan into effect and it shall be the sole and final judge of such expediency. All decisions by the Board shall be made in the Board’s sole discretion and shall be final and binding on all persons having or claiming any interest in the Plan or in any Award. No Director or person acting pursuant to the authority delegated by the Board shall be liable for any action or determination relating to or under the Plan made in good faith.

Appointment of Committees. To the extent permitted by applicable law, the Board may delegate any or all of its powers under the Plan to one or more committees or subcommittees of the Board (a “Committee”). All references in the Plan to the “Board” shall mean the Board or a Committee of the Board to the extent that the Board’s powers or authority under the Plan have been delegated to such Committee.

4. Stock Available for Awards.

Subject to adjustment under Section 8, Awards may be made under the Plan for up to 400,000 shares of Common Stock of the Company (the “Common Stock”). If any Award expires or is terminated, surrendered or canceled without having been fully exercised or is forfeited in whole or in part (including as the result of shares of Common Stock subject to such Award being repurchased by the Company at the original issuance price pursuant to a contractual repurchase right) or results in any Common Stock not being issued, the unused Common Stock covered by such

Award shall again be available for the grant of Awards under the Plan, subject, however, in the case of Incentive Stock Options (as hereinafter defined), to any limitations under the Code. Shares issued under the Plan may consist in whole or in part of authorized but unissued shares.

The First Bancorp 2010 Proxy Statement

5. Restricted Stock.

Grants. The Board may grant Awards entitling recipients to acquire shares of Common Stock, subject to the right of the Company to repurchase all or part of such shares at their issue price or other stated or formula price (or to require forfeiture of such shares if issued at no cost) from the recipient in the event that conditions specified by the Board in the applicable Award are not satisfied prior to the end of the applicable restriction period or periods established by the Board for such Award (each, a “Restricted Stock Award”).

Terms and Conditions. The Board shall determine the terms and conditions of any such Restricted Stock Award, including the conditions for repurchase (or forfeiture) and the issue price, if any.

Stock Certificates. Any stock certificates issued in respect of a Restricted Stock Award shall be registered in the name of the Participant and, unless otherwise determined by the Board, deposited by the Participant, together with a stock power endorsed in blank, with the Company (or its designee). At the expiration of the applicable restriction periods, the Company (or such designee) shall deliver the certificates no longer subject to such restrictions to the Participant or if the Participant has died, to the beneficiary designated, in a manner determined by the Board, by a Participant to receive amounts due or exercise rights of the Participant in the event of the Participant’s death (the “Designated Beneficiary”). In the absence of an effective designation by a Participant, Designated Beneficiary shall mean the Participant’s estate.

The First Bancorp 2010 Proxy Statement

6. Stock Options.

General. The Board may grant options to purchase Common Stock (each, an “Option”) and determine the number of shares of Common Stock to be covered by each Option, the exercise price of each Option and the conditions and limitations applicable to the exercise of each Option, including conditions relating to applicable federal or state securities laws, as it considers necessary or advisable. An Option that is not intended to be an Incentive Stock Option (as hereinafter defined) shall be designated a “Nonstatutory Stock Option”.

Incentive Stock Options. An Option that the Board intends to be an “incentive stock option” as defined in Section 422 of the Code (an “Incentive Stock Option”) shall only be granted to employees of the Company, any of the Company’s present or future parent or subsidiary corporations as defined in Sections 424(e) or (f) of the Code, and any other entities the employees of which are eligible to receive Incentive Stock Options under the Code and shall be subject to and shall be construed consistently with the requirements of Section 422 of the Code. The Company shall have no liability to a Participant, or any other party, if an Option (or any part thereof) that is intended to be an Incentive Stock Option is not an Incentive Stock Option.

Exercise Price. The Board shall establish the exercise price at the time each Option is granted and specify it in the applicable option agreement, provided however, that the exercise price shall be not less than 100% of the Fair Market Value (as defined below) of the Common Stock at the time the Option is granted.

Duration of Options. Each Option shall be exercisable at such times and subject to such terms and conditions as the Board may specify in the applicable option agreement, provided, however, that no Option will be granted for a term in excess of ten years.

Exercise of Option. Options may be exercised by delivery to the Company of a written notice of exercise signed by the proper person or by any other form of notice (including electronic notice) approved by the Board together with payment in full as specified in Section 6 for the number of shares for which the Option is exercised.

Payment Upon Exercise. Common Stock purchased upon the exercise of an Option granted under the Plan shall be paid for as follows:

- in cash or by check, payable to the order of the Company;
- except as the Board may, in its sole discretion, otherwise provide in an option agreement, by (i) delivery of an irrevocable and unconditional undertaking by a creditworthy broker to deliver promptly to the Company sufficient funds to pay the exercise price and any required tax withholding or (ii) delivery by the Participant to the Company of a copy of irrevocable and unconditional instructions to a creditworthy broker to deliver promptly to the Company cash or a check sufficient to pay the exercise price and any required tax withholding;
- if provided for in the applicable Option agreement or approved by the Company in its sole discretion, by delivery of shares of Common Stock owned by the Participant valued at their fair market value as determined by (or in a manner approved by) the Board in good faith (“Fair Market Value”), provided that (i) such method of payment is then permitted under applicable law, (ii) such Common Stock, if acquired directly from the Company, was owned by the Participant at least six months prior to such delivery and (iii) such Common Stock is not subject to any repurchase, forfeiture, unfulfilled vesting or other similar requirements;
- if provided for in the applicable Option agreement or approved by the Company in its sole discretion, and not otherwise contrary to applicable law, by (i) delivery of a promissory note of the Participant to the Company on terms determined by the Board, or (ii) payment of such other lawful consideration as the Board may determine, including without limitation surrender and cancellation of vested but unexercised Options or vested Restricted Stock Awards or Other Stock Unit Awards previously granted to such Participant valued at their respective Fair Market Values; or
- by any combination of the above permitted forms of payment.

Substitute Options. In connection with a merger or consolidation of an entity with the Company or the acquisition by the Company of property or stock of an entity, the Board may grant Options in substitution for

The First Bancorp 2010 Proxy Statement

any options or other stock or stock-based awards granted by such entity or an affiliate thereof. Substitute Options may be granted on such terms as the Board deems appropriate in the circumstances, notwithstanding any limitations on Options contained in the other sections of this Section 6 or in Section 2.

7. Other Stock-Based Awards.

The Board shall have the right to grant to Participants other Awards based upon the Common Stock having such terms and conditions as the Board may determine, including the grant of shares based upon certain conditions, the grant of securities convertible into Common Stock, the grant of stock appreciation rights and other Awards that are comprised of, valued in whole or in part by reference to, or are otherwise based on, shares of Common Stock or other property (“Other Stock Unit Awards”), including without limitation Awards entitling recipients to receive shares of Common Stock to be delivered in the future; provided, however, that no Other Stock Unit Awards shall be made unless and until the terms of the Plan and of any such Award are in compliance with Section 409A of the Code. Such Other Stock Unit Awards shall also be available as a form of payment in the settlement of other Awards granted under the Plan or as payment in lieu of compensation to which a Participant is otherwise entitled. Other Stock Unit Awards may be paid in shares of Common Stock or cash, as the Board shall determine. Subject to the provisions of the Plan, the Board shall determine the conditions of each Other Stock Unit Awards, including any purchase price applicable thereto. At the time any Award is granted, the Board may provide that, at the time Common Stock would otherwise be delivered pursuant to the Award, the Participant will instead receive an instrument evidencing the Participant's right to future delivery of the Common Stock.

8. Adjustments for Changes in Common Stock and Certain Other Events.

Changes in Capitalization. In the event of any stock split, reverse stock split, stock dividend, recapitalization, combination of shares, reclassification of shares, spin-off or other similar change in capitalization or event, or any distribution to holders of Common Stock other than an ordinary cash dividend, (i) the number and class of securities available under this Plan, (ii) the number and class of securities and exercise price per share subject to each outstanding Option, (iii) the repurchase price per share subject to each outstanding Restricted Stock Award, and (iv) the share- and per-share-related provisions of each outstanding Restricted Stock Award and Other Stock Unit Award, shall be appropriately adjusted by the Company (or substituted Awards may be made, if applicable) to the extent the Board shall determine, in good faith, that such an adjustment (or substitution) is necessary and appropriate. If this Section 8 applies and Section 8 also applies to any event, Section 8(c) shall be applicable to such event, and this Section 8 shall not be applicable.

Liquidation or Dissolution. In the event of a proposed liquidation or dissolution of the Company, the Board shall, upon written notice to the Participants, provide that all then unexercised Options will (i) become exercisable in full as of a specified time at least 10 business days prior to the effective date of such liquidation or dissolution and (ii) terminate effective upon such liquidation or dissolution, except to the extent exercised before such effective date. The Board may specify the effect of a liquidation or dissolution on any Restricted Stock Award granted under the Plan at the time of the grant.

Reorganization Events.

Definition. A “Reorganization Event” shall mean: (a) any merger or consolidation of the Company with or into another entity as a result of which all of the Common Stock of the Company is converted into or exchanged for the right to receive cash, securities or other property or (b) any exchange of all of the Common Stock of the Company for cash, securities or other property pursuant to a share exchange transaction.

Consequences of a Reorganization Event on Restricted Stock Awards and Other Stock-Based Awards. Upon the occurrence of a Reorganization Event, the repurchase and other rights of the Company under each outstanding Restricted Stock Award and (as applicable) each outstanding Other Stock-Based Award shall inure to the benefit of the Company's successor and shall apply to the cash, securities or other property which the Common Stock was

converted into or exchanged for pursuant to such Reorganization Event in the same manner and to the same extent as they applied to the Common Stock subject to such Restricted Stock Award or (as applicable) such Other Stock-Based Award.

The First Bancorp 2010 Proxy Statement

Page 35

Consequences of a Reorganization Event on Options. Upon the occurrence of a Reorganization Event, or the execution by the Company of any agreement with respect to a Reorganization Event, the Board shall provide that all outstanding Options shall be assumed, or equivalent options shall be substituted, by the acquiring or succeeding corporation (or an affiliate thereof). For purposes hereof, an Option shall be considered to be assumed if, following consummation of the Reorganization Event, the Option confers the right to purchase, for each share of Common Stock subject to the Option immediately prior to the consummation of the Reorganization Event, the consideration (whether cash, securities or other property) received as a result of the Reorganization Event by holders of Common Stock for each share of Common Stock held immediately prior to the consummation of the Reorganization Event (and if holders were offered a choice of consideration, the type of consideration chosen by the holders of a majority of the outstanding shares of Common Stock); provided, however, that if the consideration received as a result of the Reorganization Event is not solely common stock of the acquiring or succeeding corporation (or an affiliate thereof), the Company may, with the consent of the acquiring or succeeding corporation, provide for the consideration to be received upon the exercise of Options to consist solely of common stock of the acquiring or succeeding corporation (or an affiliate thereof) equivalent in fair market value to the per share consideration received by holders of outstanding shares of Common Stock as a result of the Reorganization Event.

Notwithstanding the foregoing, if the acquiring or succeeding corporation (or an affiliate thereof) does not agree to assume, or substitute for, such Options, then the Board shall, upon written notice to the Participants, provide that all then unexercised Options will become exercisable in full as of a specified time prior to the Reorganization Event and will terminate immediately prior to the consummation of such Reorganization Event, except to the extent exercised by the Participants before the consummation of such Reorganization Event; provided, however, that in the event of a Reorganization Event under the terms of which holders of Common Stock will receive upon consummation thereof a cash payment for each share of Common Stock surrendered pursuant to such Reorganization Event (the "Acquisition Price"), then the Board may instead provide that all outstanding Options shall terminate upon consummation of such Reorganization Event and that each Participant shall receive, in exchange therefor, a cash payment equal to the amount (if any) by which (A) the Acquisition Price multiplied by the number of shares of Common Stock subject to such outstanding Options (whether or not then exercisable), exceeds (B) the aggregate exercise price of such Options. To the extent all or any portion of an Option becomes exercisable solely as a result of the first sentence of this paragraph, upon exercise of such Option the Participant shall receive shares subject to a right of repurchase by the Company or its successor at the Option exercise price. Such repurchase right (1) shall lapse at the same rate as the Option would have become exercisable under its terms and (2) shall not apply to any shares subject to the Option that were exercisable under its terms without regard to the first sentence of this paragraph.

The First Bancorp 2010 Proxy Statement

9. General Provisions Applicable to Awards.

Transferability of Awards. Except as the Board may otherwise determine or provide in an Award, Awards shall not be sold, assigned, transferred, pledged or otherwise encumbered by the person to whom they are granted, either voluntarily or by operation of law, except by will or the laws of descent and distribution, and, during the life of the Participant, shall be exercisable only by the Participant. References to a Participant, to the extent relevant in the context, shall include references to authorized transferees.

Documentation. Each Award shall be evidenced in such form (written, electronic or otherwise) as the Board shall determine. Such written instrument may be in the form of an agreement signed by the Company and the Participant or a written confirming memorandum to the Participant from the Company. Each Award may contain terms and conditions in addition to those set forth in the Plan.

Board Discretion. Except as otherwise provided by the Plan, each Award may be made alone or in addition or in relation to any other Award. The terms of each Award need not be identical, and the Board need not treat Participants uniformly.

Termination of Status. The Board shall determine the effect on an Award of the disability, death, retirement, authorized leave of absence or other change in the employment or other status of a Participant and the extent to which, and the period during which, the Participant, the Participant's legal representative, conservator, guardian or Designated Beneficiary may exercise rights under the Award.

Withholding. Each Participant shall pay to the Company, or make provision satisfactory to the Board for payment of, any taxes required by law to be withheld in connection with Awards to such Participant no later than the date of the event creating the tax liability. Except as the Board may otherwise provide in an Award, when the Common Stock is registered under the Exchange Act, Participants may satisfy such tax obligations in whole or in part by delivery of shares of Common Stock, including shares retained from the Award creating the tax obligation, valued at their Fair Market Value; provided, however, that the total tax withholding where stock is being used to satisfy such tax obligations cannot exceed the Company's minimum statutory withholding obligations (based on minimum statutory withholding rates for federal and state tax purposes, including payroll taxes, that are applicable to such supplemental taxable income). The Company may, to the extent permitted by law, deduct any such tax obligations from any payment of any kind otherwise due to a Participant.

Amendment of Award. The Board may amend, modify or terminate any outstanding Award, including but not limited to, substituting therefor another Award of the same or a different type, changing the date of exercise or realization, and converting an Incentive Stock Option to a Nonstatutory Stock Option, provided that the Participant's consent to such action shall be required unless the Board determines that the action, taking into account any related action, would not materially and adversely affect the Participant.

Conditions on Delivery of Stock. The Company will not be obligated to deliver any shares of Common Stock pursuant to the Plan or to remove restrictions from shares previously delivered under the Plan until (i) all conditions of the Award have been met or removed to the satisfaction of the Company, (ii) in the opinion of the Company's counsel, all other legal matters in connection with the issuance and delivery of such shares have been satisfied, including any applicable securities laws and any applicable stock exchange or stock market rules and regulations, and (iii) the Participant has executed and delivered to the Company such representations or agreements as the Company may consider appropriate to satisfy the requirements of any applicable laws, rules or regulations.

Acceleration. The Board may at any time provide that any Award shall become immediately exercisable in full or in part, free of some or all restrictions or conditions, or otherwise realizable in full or in part, as the case may be.

Deferrals. The Board may permit Participants to defer receipt of any Common Stock issuable upon exercise of an Option or upon the lapse of any restriction applicable to any Restricted Stock Award, subject to such rules and procedures as it may establish.

Share Issuance. To the extent that the Plan provides for issuance of stock certificates to reflect the issuance of shares of Common Stock or Restricted Stock, the Board may provide for the issuance of such shares on a non-certificated basis, to the extent not prohibited by applicable law or the rules of any stock exchange on which the Common Stock is

traded.

10. Miscellaneous

No Right To Employment or Other Status. No person shall have any claim or right to be granted an Award, and the grant of an Award shall not be construed as giving a Participant the right to continued employment or any other relationship with the Company. The Company expressly reserves the right at any time to dismiss or otherwise terminate its relationship with a Participant free from any liability or claim under the Plan, except as expressly provided in the applicable Award.

No Rights As Shareholder. Subject to the provisions of the applicable Award, no Participant or Designated Beneficiary shall have any rights as a Shareholder with respect to any shares of Common Stock to be distributed with respect to an Award until becoming the record holder of such shares. Notwithstanding the foregoing, in the event the Company effects a split of the Common Stock by means of a stock dividend and the exercise price of and the number of shares subject to such Option are adjusted as of the date of the distribution of the dividend (rather than as of the record date for such dividend), then an optionee who exercises an Option between the record date and the distribution date for such stock dividend shall be entitled to receive, on the distribution date, the stock dividend with respect to the shares of Common Stock acquired upon such Option exercise, notwithstanding the fact that such shares were not outstanding as of the close of business on the record date for such stock dividend.

Effective Date and Term of Plan. The Plan shall become effective on the date on which it is adopted by the Board, but no Award granted to a Participant that is intended to comply with Section 162(m) shall become exercisable, vested or realizable, as applicable to such Award, unless and until the Plan has been approved by the Company's Shareholders to the extent Shareholder approval is required by Section 162(m) in the manner required under Section 162(m) (including the vote required under Section 162(m)). No Awards shall be granted under the Plan after the completion of ten years from the earlier of (i) the date on which the Plan was adopted by the Board or (ii) the date the Plan was approved by the Company's Shareholders, but Awards previously granted may extend beyond that date.

Amendment of Plan. The Board may amend, suspend or terminate the Plan or any portion thereof at any time, provided that to the extent required by Section 162(m), no Award granted to a Participant that is intended to comply with Section 162(m) after the date of such amendment shall become exercisable, realizable or vested, as applicable to such Award, unless and until such amendment shall have been approved by the Company's Shareholders if required by Section 162(m) (including the vote required under Section 162(m)), provided further that, to the extent determined by the Board, no amendment requiring Shareholder approval under any applicable legal, regulatory or listing requirement shall become effective until such Shareholder approval is obtained.

Governing Law. The provisions of the Plan and all Awards made hereunder shall be governed by and interpreted in accordance with the laws of the State of Maine, without regard to any applicable conflicts of law.

Adopted by the Board of Directors of the Corporation on January 21, 2010.
