In the first quarter of 2005 and 2004, the Company entered into capital leases for office and computer equipment for approximately \$1.4 million and \$0.4 million, respectively, related to non-cash activity.

See notes to condensed consolidated financial statements.

FIRST ALBANY COMPANIES INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all normal, recurring adjustments necessary for a fair presentation of results for such periods. The results for any interim period are not necessarily indicative of those for the full year. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes for the year ended December 31, 2004.

2. Reclassification

Certain 2004 amounts on the Statements of Operations and Statements of Cash Flows have been reclassified to conform to the 2005 presentation. The reclassifications made for 2004 include, primarily: in the Statements of Operations, \$0.4 million in fees received for remarketing municipal bonds were reclassified to Investment banking from Principal transactions, and approximately \$0.4 million of transaction related fees related to equity securities that previously had been netted were grossed-up to increase Principal transactions revenue by \$0.4 million and increase Clearance, settlement and brokerage expense by the same amount. Reclassifications made on the Statements of Cash Flows were made pursuant to changes made to the December 31, 2003 Statements of Financial Condition in the Company's December 2004 10-K.

3. Comprehensive Income

The Company has no components of other comprehensive income; therefore comprehensive income equals net income.

4. Earnings Per Common Share

Basic earnings per share have been computed based upon the weighted average number of common shares outstanding. Dilutive earnings per share have been computed based upon the weighted average number of common shares outstanding plus the effect of all potentially dilutive common stock equivalents outstanding during the reporting period.

Three Months Ended

	March 31	
	2005	2004
Weighted average shares for basic earnings per share	12,707,216	11,011,213
Weighted average shares and dilutive common stock equivalents for dilutive earnings per share	12,707,216	11,011,213

For the three months ended March 31, 2005 and 2004, the Company excluded approximately 0.9 million and 1.5 million, respectively, common stock equivalents in its computation of dilutive earnings per share because they were anti-dilutive.

5. Receivables from and Payables to Brokers, Dealers and Clearing Agencies

Amounts receivable from and payable to brokers, dealers and clearing agencies consists of the following at March 31:

<i>(In thousands of dollars)</i>	2005	2004
Adjustment to record securities owned on a trade date basis, net	\$ 9,191	\$ 16,009
Securities borrowed	1,041	462
Securities failed-to-deliver	5,586	22,452
Commissions receivable	1,873	3,072
Receivable from clearing organizations	5,711	4,234
Other	1,863	-
Total receivables	\$ 25,265	\$ 46,229
Payable to clearing organizations	\$ 14,348	\$ 14,685
Securities failed-to-receive	11,614	2,050
Total payables	\$ 25,962	\$ 16,735

Proprietary securities transactions are recorded on trade date, as if they had settled. The related amounts receivable and payable for unsettled securities transactions are recorded net in receivables or payables to brokers, dealers and clearing agencies on the Statement of Financial Condition.

6. Receivables from Customers

At March 31, 2005, receivables from customers are mainly comprised of the purchase of securities by institutional clients. Delivery of these securities is made only when the Company is in receipt of the funds from the institutional clients.

The majority of the Company's non-institutional customers securities transactions, including those of officers, directors, employees and related individuals, are cleared through a third party under a clearing agreement. Under this agreement, the clearing agent executes and settles customer securities transactions, collects margin receivables related to these transactions, monitors the credit standing and required margin levels related to these customers and, pursuant to margin guidelines, requires the customer to deposit additional collateral with them or to reduce positions, if necessary. In the event the customer is unable to fulfill its contractual obligations, the clearing agent may purchase or sell the financial instrument underlying the contract, and as a result may incur a loss.

If the clearing agent incurs a loss, it has the right to pass the loss through to the Company which exposes the Company to off-balance-sheet risk. The Company has retained the right to pursue collection or performance from customers who do not perform under their contractual obligations and monitors customer balances on a daily basis along with the credit standing of the clearing agent. As the potential amount of losses during the term of this contract has no maximum, the Company believes there is no maximum amount assignable to this right. At March 31, 2005, substantially all customer obligations were fully collateralized and the Company has not recorded a liability related to the clearing agent's right to pass losses through to the Company.

7. Securities Owned And Sold, But Not Yet Purchased

Securities owned and sold, but not yet purchased consisted of the following at:

<i>(In thousands of dollars)</i>	March 31, 2005		December 31, 2004	
	Owned	Sold, but not yet Purchased	Owned	Sold, but not yet Purchased
Marketable Securities				
U.S. Government and federal agency obligations	\$ 77,858	\$ 73,737	\$ 65,364	\$ 60,642
State and municipal bonds	125,221	133	115,819	4,501
Corporate obligations	30,625	817	32,273	726
Corporate stocks	15,750	1,696	10,669	606
Options	166	-	56	-
Not Readily Marketable Securities				
Securities with no publicly quoted market	1,687	-	1,732	-
Securities subject to restrictions	2,468	-	2,824	-
Total	\$ 253,775	\$ 76,383	\$ 228,737	\$ 66,475

Securities not readily marketable include securities (a) for which there is no market on a securities exchange or no independent publicly quoted market, (b) that cannot be publicly offered or sold unless registration has been effected under the Securities Act of 1933, or (c) that cannot be offered or sold because of other arrangements, restrictions or conditions applicable to the securities or to the Company.

8. Investments

The Company's investment portfolio includes interests in publicly and privately held companies. Information regarding these investments has been aggregated and is presented below.

<i>(In thousands of dollars)</i>	March 31,		December 31,	
	2005		2004	
Carrying Value				
Public	\$ 13,430	\$	19,970	\$
Private	18,820		19,405	

Edgar Filing: FIRST ALBANY COMPANIES INC - Form 10-Q

Consolidation of Employee Investment Funds, net of Company's ownership interest		5,317		5,170
Total carrying value	\$	37,567	\$	44,545

Investment gains and losses were comprised of the following for the three months ended March 31:

(In thousands of dollars)		2005		2004
Public (net realized and unrealized gains and losses)	\$	(4,666)	\$	(313)
Private (net realized gains and losses)		(15)		32
Private (net unrealized gains and losses)		883		4
Investment gains (losses)	\$	(3,798)	\$	(277)

Publicly held investments include 2,849,091 shares of Mechanical Technology Incorporated (MKTY). As of March 31, 2005, the MKTY shares have a market value of \$12.6 million. Shares of MKTY may be sold without restriction pursuant to Rule 144(k) of the Securities act of 1933.

At March 31, 2005, the Company owned 121,088 shares of Plug Power Inc. (PLUG) with a market value of \$0.8 million. PLUG shares may be sold pursuant to Rule 144. Under the restrictions of Rule 144 as applied to PLUG currently, the Company may sell the entire 121,088 shares at any time.

Privately held investments include an investment of \$7.0 million in FA Technology Ventures L.P. (the Partnership). At March 31, 2005, \$7.0 million is the Company's maximum exposure to loss in the Partnership. The Partnership's primary purpose is to provide investment returns consistent with risks of investing in venture capital. At March 31, 2005 total Partnership capital for all investors in the Partnership equaled \$27.5 million. The Partnership is considered a variable interest entity, but since the Company is not the primary beneficiary, it has not consolidated the Partnership in these financial statements but has only recorded the value of its investment. FA Technology Ventures Corporation (FATV), a wholly-owned subsidiary of the Company, is the investment advisor for the Partnership. Revenues derived from management of this investment for the three months ended March 31, 2005 were \$0.4 million in consolidation.

The Company has consolidated its Employee Investment Funds (EIF). The EIF are limited liability companies, established by the Company for the purpose of having select employees invest in private equity placements. The EIF is managed by FAC Management Corp., a wholly-owned subsidiary of the Company, which has contracted with FATV to act as an investment advisor with respect to funds invested. The Company's carrying value of this EIF is \$2.8 million, excluding the effects of consolidation. The Company has loaned \$2.4 million to the EIF and is also committed to loan approximately \$0.5 million to the EIF. The effect of consolidation was to increase Investments by \$5.3 million, decrease Receivable from Others by \$2.4 million and increase the Net Payable to Others by \$2.9 million. The Payable to Others amounts relate to the value of the EIF owned by employees.

9. Payables to Others

Amounts payable to others consisted of the following at:

<i>(In thousands of dollars)</i>	March 31, 2005	December 31, 2004
Drafts payable	\$ 10,012	\$ 1,748
Others	5,762	1,648
Payable to Employees for the Employee Investment Funds (see Investments footnote)	2,682	2,535
Total	\$ 18,456	\$ 5,931

Drafts payable represent amounts drawn by the Company against bank overdrafts under a sweep agreement with a bank.

10. Subordinated Debt

A select group of management and highly compensated employees are eligible to participate in the First Albany Companies Inc. Deferred Compensation Plan for Key Employees (the "Plan"). The employees enter into subordinate loans with the Company to provide for the deferral of compensation and employer allocations under the Plan. The New York Stock Exchange has approved the Company's subordinated debt agreements related to the Plan. Pursuant to these approvals, these amounts are allowable in the Company's computation of net capital. The accounts of the participants of the Plan are credited with earnings and/or losses based on the performance of various investment benchmarks selected by the participants. Maturities of the subordinated debt are based on the distribution election made by each participant, which may be deferred to a later date by the participant. Principal debt repayment requirement as of March 31, 2005, are as follows:

(In thousands of dollars)

2005	\$	-
2006		1,288
2007		1,462
2008		1,299
2009		141
Thereafter		1,117
Total	\$	5,307

11. Notes Payable

Notes payable includes a note for \$0.2 million, which is payable \$34,924 per month through September 2005. The interest rate on this loan is 5.95% per annum.

Notes payable also includes a note for \$1.0 million with a fixed interest rate of 7%, payable in quarterly principal payments of \$525,000 plus interest, and maturing September 1, 2006. The Company anticipates the note will be paid-in-full in July 2005. The note is collateralized by \$5.8 million in marketable securities classified as investments in the Statement of Financial Condition, of which only \$1.7 million was required as of March 31, 2005.

Notes payable also includes Senior Notes dated June 13, 2003 for \$10 million with a fixed interest rate of 8.5%, payable semiannually, maturing on June 30, 2010. Principal payments of \$2 million are due on June 30th of each year, commencing June 30, 2006 through June 30, 2010. The purchasers of these notes are customers of the Company. At March 31, 2005, based on current estimated interest rate, the fair value of the Senior Notes approximates \$9.4 million.

The Company's notes payable include Senior Notes for \$10 million which contain various covenants, as defined in the agreements, including restrictions on the incurrence of debt, the maintenance of not less than \$50 million of net worth (at March 31, 2005, the Company's net worth was \$80.7 million) and an adjusted cash flow coverage rate for First Albany Capital Inc. (a wholly owned subsidiary) of not less than 1.2 to 1 as at the end of each fiscal quarter based on the most recently concluded period of four consecutive quarters (as of the end of the March 31, 2005 quarter, the Company's adjusted cash flow coverage rate was 2.6 to 1).

There were 437,000 warrants issued to the purchasers of the Senior Notes, which are exercisable between \$10.08 and \$11.54 per share through June 13, 2010. The value assigned to the warrants was \$1 million. The value of the Senior Notes was discounted by the value of the warrants and is being amortized over the term of the notes.

Notes payable also includes an \$18.8 million Term Loan to finance the acquisition of Descap Securities, Inc. Interest rate is 2.4% over the 30-day London InterBank Offered Rate (LIBOR) (2.87% at March 31, 2005). Interest only was payable through October 31, 2004, and thereafter monthly payments of principal and interest over the life of loan which matures on May 14, 2011. The Term Loan contains various covenants, as defined in the agreement.

As of March 31, 2005, the Company was not in compliance with certain covenants contained in the Term Loan. On April 22, 2005 the lender agreed to waive the financial covenants contained in the term loan agreement for the quarter ended March 31, 2005. The financial covenants require the maintenance of not less than \$22.5 million of earnings before interest, taxes, depreciation, amortization and lease expense plus pro forma adjustments related to Descap, Scheduled Adjustment Expenditures and Scheduled Adjustment Earnings as defined in the modified term loan agreement and referred to as EBITDAR (for the twelve month period ending March 31, 2005, the Company's EBITDAR was \$18.2 million), operating cash flow to total fixed charge

ratio (as defined) of not less than 1.15 to 1 (for the twelve month period ending March 31, 2005, the operating cash flow to total fixed charge ratio 1.10 to 1) and modified total funded debt to EBITDAR ratio of less than 1.75 to 1 (for the twelve month period ending March 31, 2005, modified total funded debt to EBITDAR ratio was 1.89 to 1).

Principal payments for all notes, which include \$648,000 discounted on the Senior Notes, are due as follows:

(In thousands of dollars)

2005 (remaining)	\$	3,347
2006		4,857
2007		4,857
2008		4,857
2009		4,857
Thereafter		7,239
Total principal payments		30,014
Less: remaining amortization of value of warrants		648
Total principal payments remaining	\$	29,366

12. Obligations Under Capitalized Leases

The following is a schedule of future minimum lease payments under capital leases for office equipment and the present value of the minimum lease payments at March 31, 2005:

(In thousands of dollars)

2005 (remaining)	\$	1,307
2006		1,446
2007		1,078
2008		514
2009		348
Thereafter		455
Total minimum lease payments		5,148
Less: amount representing interest		629
Present value of minimum lease payments	\$	4,519

13. Commitments and Contingencies

Commitments: As of March 31, 2005, the Company had a commitment through July 2006 to invest up to \$10.4 million in FA Technology Ventures L.P. (the Partnership). The Company intends to fund this commitment from the sale of other investments and operating cash flow. The Partnership's primary purpose is to provide investment returns consistent with risks of investing in venture capital. In addition to the Company, certain other limited partners of the Partnership are officers or directors of the Company. The majority of the commitments to the Partnership are from non-affiliates of the Company.

The General Partner for the Partnership is FATV GP LLC. The General Partner is responsible for the management of the Partnership, including among other things, making investments for the Partnership. The members of the General Partnership are George McNamee, Chairman of the Company, First Albany Enterprise Funding, Inc., a wholly owned subsidiary of the Company, and other employees and former employees of the Company or its subsidiaries. Mr. McNamee is required under the Partnership agreement to devote a majority of his business time to the conduct of the affairs of the Partnership and any parallel funds. Subject to the terms of the Partnership agreement, under certain conditions, the General Partnership is entitled to share in the gains received by the Partnership in respect of its investment in a portfolio company. The General Partner will receive a carried interest on customary terms. The General Partner has contracted with FA Technology Ventures Corporation (FATV), a wholly owned subsidiary of the Company, to act as investment advisor to the General Partner.

As of March 31, 2005, the Company had an additional commitment through July 2006 to invest up to \$7.8 million in funds that invest in parallel with the Partnership, which it intends to fund, at least in part, through current and future Employee Investment Funds (EIF). EIF are limited liability companies, established by the Company for the purpose of allowing select employees to invest their own funds in private equity placements.

The EIF are managed by FAC Management Corp., which has contracted with FATV to act as an investment advisor with respect to funds invested in parallel with the Partnership. The Company anticipates that the portion of the commitment that is not funded by employees through the EIF will be funded by the Company through the sale of other investments and operating cash flow.

Leases: The Company's headquarters and sales offices, and certain office and communication equipment, are leased under non-cancelable operating leases, certain of which contain renewal options and escalation clauses, and which expire at various times through 2015. Future minimum annual lease payments, and sublease rental income, are as follows:

	Future Minimum Lease Payments	Sublease Rental Income	Net Lease Payments
<i>(In thousands of dollars)</i>			
2005 (remaining)	\$ 5,581	\$ 1,024	\$ 4,557
2006	7,427	1,360	6,067

Edgar Filing: FIRST ALBANY COMPANIES INC - Form 10-Q

2007	7,049	902	6,147
2008	6,330	676	5,654
2009	3,162	-	3,162
Thereafter	12,754	-	12,754
Total	\$ 42,303	\$ 3,962	\$ 38,341

Litigation: 1998 the Company was named in lawsuits by Lawrence Group, Inc. and certain related entities (the Lawrence Parties) in connection with a private sale of Mechanical Technology Incorporated stock from the Lawrence Parties that was previously approved by the United States Bankruptcy Court for the Northern District of New York (the "Bankruptcy Court"). The Company acted as placement agent in that sale, and a number of employees and officers of the Company, who have also been named as defendants, purchased shares in the sale. The complaints alleged that the defendants did not disclose certain information to the sellers and that the price approved by the court was therefore not proper. The cases were initially filed in the Bankruptcy Court and the United States District Court for the Northern District of New York (the "District Court"), and were subsequently consolidated in the District Court. The District Court dismissed the cases, and that decision was subsequently vacated by the United States Court of Appeals for the Second Circuit, which remanded the cases for consideration of the plaintiffs' claims as motions to modify the Bankruptcy Court sale order. The plaintiffs' claims have now been referred back to the Bankruptcy Court for such consideration. The Company believes that it has strong defenses to, and intends to vigorously defend itself against the plaintiffs' claims, and believes that the claims lack merit.

In the normal course of business, the Company has been named a defendant, or otherwise has possible exposure, in several claims. Certain of these are class actions, which seek unspecified damages, which could be substantial.

Although there can be no assurance as to the eventual outcome of litigation in which the Company has been named as a defendant or otherwise has possible exposure, the Company has provided for those actions most likely of adverse dispositions. Although further losses are possible, the opinion of management, based upon the advice of its attorneys, is that such litigation will not, in the aggregate, have a material adverse effect on the Company's liquidity or financial position, although it could have a material effect on quarterly or annual operating results in the period in which it is resolved.

Other: In February of 2005, the Company was informed that the general partner of Ardent Research Partners LP, an investment fund in which Company is a limited partner, was the subject of an SEC investigation. The complaint by the SEC alleges the general partner, Northshore Asset Management LLC, misappropriated fund assets in making illiquid, and potentially improper, investments. As of March 31, 2005 the value of the Company's investment in the limited partnership is approximately \$568,000 and is classified as securities owned on the Statement of Financial Condition. The Company has not recognized any adjustment to the carrying value of this investment because at this time it is unable to estimate what the future loss, if any, might be.

The Company enters into underwriting commitments to purchase securities as part of its investment banking business and may also purchase or sell securities on a when-issued basis. As of March 31, 2005, the Company had \$102.0 million in outstanding underwriting commitments, of which all but \$32.7 million had been pre-sold, and had purchased no securities on a when-issued basis.

In connection with a \$47.4 million underwriting transaction, the Company sent unauthorized e-mails to 223 addressees, each of which may have constituted a nonconforming prospectus under the Securities Act of 1933. A recipient of the unauthorized e-mails may be entitled to rescission rights if they purchased shares of common stock issued through the underwriting transaction. The rescission rights would allow any recipient of the communication, for a period of one year from March 30, 2004, the date of such recipient's purchase of shares of common stock issued through the underwriting, to seek recovery of the consideration paid in connection with the purchase. The Company has agreed to indemnify the company whose common stock was underwritten for losses, costs and expenses that might be incurred as a result of the unauthorized communications. In an effort to avoid further Securities Act implications and to minimize the risk related to the indemnification provided as a result of the unauthorized communication, the Company took a number of steps to control the solicitation, allocation and distribution of the shares of common stock issued in the transaction, which included selling only to institutional investors and prohibiting sales to those who were among the 223 original addressees. As of March 31, 2005, the Company has not accrued any liability related to this agreement.

14. Temporary Capital

In connection with the Company's acquisition of Descap Securities, Inc., the Company issued 549,476 shares of stock which provides the Sellers the right to require the Company to purchase back the shares issued, at a price of \$6.14 per share. Accordingly, the Company has recognized as temporary capital the amount that it may be required to pay under the agreement. The put right expires on May 31, 2007. If the put is not exercised by the time it expires, the Company will reclassify the temporary capital to stockholders' equity.

15. Stockholders' Equity

Dividend: In February 2005, the Board of Directors declared a quarterly cash dividend of \$ 0.05 per share payable on March 10, 2005, to shareholders of record on February 24, 2005.

Treasury Stock

In December 2003, the Board of Directors authorized a stock repurchase program of up to 500,000 shares of its outstanding common stock. Under the program, the Company may periodically repurchase shares on the open market at prevailing market prices or in privately negotiated transactions from time to time through May 9, 2005. Shares purchased under the program will be held in treasury and used for general corporate purposes. At March 31, 2005, the Company had repurchased 15,300 shares pursuant to this program.

Acquisition - Descap Securities, Inc.

The shares issued to the sellers of Descap provide the sellers the right to require the Company to purchase back these shares at a price of \$6.14 per share. The Company also has the right to purchase back these shares from the sellers at a price of \$14.46. Both the put and call rights expire on May 31, 2007. The value assigned to the shares of common stock issued (\$10.39 per share) approximated the market value of the stock on the date Descap was acquired (\$10.30 per share). The difference in the value assigned and the market value was due to the put and call features attached to

the stock.

Deferred Compensation and Employee Stock Trust

The Company has adopted or may hereafter adopt various nonqualified deferred compensation plans (the "Plans") for the benefit of a select group of highly compensated employees who contribute significantly to the continued growth and development and future business success of the Company. Plan participants may elect under the Plans to have the value of their Plans Accounts track the performance of one or more investment benchmarks available under the Plans, including First Albany Companies Common Stock Investment Benchmark, which tracks the performance of First Albany Companies Inc. common stock ("Company Stock"). With respect to the First Albany Companies Common Stock Investment Benchmark, the Company contributes Company Stock to a rabbi trust (the "Trust") it has established in connection with meeting its related liability under the Plans.

Assets of the Trust have been consolidated with those of the Company. The value of the Company's stock at the time contributed to the Trust has been classified in stockholders' equity and generally accounted for in a manner similar to treasury stock.

The deferred compensation arrangement requires the related liability to be settled by delivery of a fixed number of shares of Company Stock. Accordingly, the related liability is classified in equity under deferred compensation and changes in the fair market value of the amount owed to the participant in the Plan is not recognized.

Unearned Compensation

The Company has established several stock incentive plans through which employees of the Company may be awarded stock options, stock appreciation rights and restricted common stock. The unamortized amount related to restricted common stock awarded under these plans is classified in equity under unearned compensation.

16. Benefit Plans

First Albany Companies Inc. has established several stock incentive plans through which eligible employees of the Company may be awarded stock options, stock appreciation rights and restricted common stock of the Company. The purpose of these stock incentive plans are to promote the interests of the Company, its subsidiaries and its stockholders by enabling the Company and its subsidiaries to attract, retain and motivate employees and officers or those who will become employees or officers of the Company and/or its subsidiaries, and to align the interest of those individuals with the Company's stockholders. To do this, these plans offer performance-based incentive awards and equity-based opportunities to provide such persons with a proprietary interest in maximizing the growth, profitability and overall success of the Company.

Restricted Stock: 1,310,362 shares of restricted stock were awarded under the plans during the first quarter of 2005, at a weighted average grant date price of \$9.30. The fair market value of the awards will be amortized over the three-year period in which the restrictions are outstanding.

Options: Stock-based compensation cost related to stock options awards is measured at the grant date based on the fair value method and is recognized as expense over the vesting period for awards granted after December 31, 2002.

The following table reflects the effect on net income if the fair value based method had been applied to all outstanding and unvested stock options in each period:

	Three Months Ended	
	March 31, 2005	March 31, 2004
<i>(In thousands of dollar except for per share amounts)</i>

Basic	\$ (0.56)	\$ (0.20)
Diluted	\$ (0.56)	\$ (0.20)

17. Net Capital Requirements

First Albany Capital is subject to the Securities and Exchange Commission's Uniform Net Capital Rule, which requires the maintenance of a minimum net capital. First Albany Capital has elected to use the alternative method permitted by the rule, which requires it to maintain a minimum net capital amount of 2% of aggregate debit balances arising from customer transactions as defined or \$1 million, whichever is greater. As of March 31, 2005, First Albany Capital had aggregate net capital, as defined, of \$11.4 million, which equaled 77.7% of aggregate debit balances and \$10.4 million in excess of required minimum net capital.

Descap is subject to the Securities and Exchange Commission Uniform Net Capital Rule, which requires the maintenance of minimum net capital and that the ratio of aggregate indebtedness to net capital, both as defined by the rule, shall not exceed 15:1. The rule also provides that capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10:1. As of March 31, 2005, Descap had net capital of \$6.6 million, which

was \$6.5 million in excess of its required net capital. Descap's ratio of Aggregate Indebtedness to Net Capital was 0.25 to 1.

18. Segment Analysis

The Company is organized around products and operates through the following segments: Equities, Fixed Income, which is comprised of Taxable Fixed Income, Descap Securities, Municipal Capital Markets and Fixed Income - Other.

The Company evaluates the performance of its segments and allocates resources to them based on various factors, including prospects for growth, return on investment, and return on revenue.

The Company's Equities business is comprised of equity sales and trading and equities investment banking services. Equities sales and trading provides equity trade execution to institutional investors and generates revenues primarily through commissions and sales credits earned on executing equity transactions. Equities investment banking generates revenues by providing financial advisory, capital raising, mergers and acquisitions, and restructuring services to small and mid-cap companies.

Included in the Company's Fixed Income business are the following segments: Taxable Fixed Income, Descap Securities, Municipal Capital Markets and Fixed income-Other. The Fixed Income business consists of fixed income sales and trading and fixed income investment banking. Fixed Income sales and trading provides trade execution to institutional investors and generates revenues primarily through commissions and sales credits earned on executing fixed income transactions in the following products:

-

High Grade (Investment Grade and Government Bonds)

-

High Yield (Below Investment Grade)

-

Mortgage-Backed and Asset-Backed Securities

-

Municipal Bonds (Tax-exempt and Taxable Municipal Securities)

These products can be sold through any of the Company's Fixed Income segments. Fixed Income investment banking generates revenues by providing financial advisory and capital raising services to municipalities, government agencies and other public institutions.

The Company's Other segment includes the results from the Company's investment portfolio, venture capital and asset management businesses, and costs related to corporate overhead and support. The Company's investment portfolio generates revenue from unrealized gains and losses as a result of changes in value of the firm's investments, realized gains and losses as a result of sales of equity holdings. The Company's asset management business generates revenue through managing institutional investors' assets through its convertible arbitrage group. This segment also includes results related to the Company's investment in these funds. The Company's venture capital business generates revenue through the management of a private equity fund.

Intersegment revenue has been eliminated for purposes of presenting net revenue so that all net revenue presented is from external sources. Interest revenue is allocated to the operating segments and is presented net of interest expense for purposes of assessing the performance of the segment. Depreciation and amortization is allocated to each segment.

Information concerning operations in these segments is as follows for the three months ended March 31:

<i>(In thousands of dollars)</i>	2005	2004
<i>Net revenue (including net interest income)</i>		
Equities	\$ 14,010	\$ 22,176

Other		309		311
Total	\$	795	\$	751

For presentation purposes, net revenue within each of the businesses is classified as sales and trading, investment banking, investment gains (losses), or net interest / other. Sales and trading net revenue includes commissions and principal transactions. Investment banking includes revenue related to underwritings and other investment banking transactions. Investment gains (losses) reflects gains and losses on the Company's investment portfolio. Net interest / other includes interest income, interest expense, fees and other revenue. Net revenue presented within each category may differ from that presented in the financial statements as a result of differences in categorizing revenue within each of the revenue line items listed below for purposes of reviewing key business performance.

The following table reflects revenues for the Company's major products and services as of March 31:

<i>(In thousands of dollars)</i>	2005	2004
<i>Capital Markets (Fixed Income & Equities)</i>		
<i>Net revenue</i>		
<i>Institutional Sales & Trading</i>		
Equities	\$ 10,853	\$ 16,625
Fixed Income	10,989	14,638
Total Institutional Sales & Trading	21,842	31,263

Equities	3,130	5,478
Fixed Income	5,424	4,499
Total Investment Banking	8,554	9,977
Net Interest Income	765	451
Fees and Other	34	73
Total Net Revenues	\$ 31,195	\$ 41,764

The Company's segments financial policies are the same as those described in the Summary of Significant Accounting Policies note. Asset information by segment is not reported since the Company does not produce such information.

All assets are located in the United States of America. Prior periods' financial information has been reclassified to conform to the current presentation.

19. Discontinued Operations

In February 2005, the Company sold its asset management operations, other than its institutional convertible arbitrage group, to Johnson Illington Advisors LLC, a related party. Hugh Johnson, a Director of First Albany Companies Inc., is Chairman of Johnson Illington Advisors LLC. The Company will account for the disposition of the asset management business as discontinued operations.

Additionally, in 2000 the Company sold its Private Client Group and continues to report the receipt and settlement of pending contractual obligations as discontinued operations.

Amounts reflected in the condensed consolidated statement of operations are presented in the following table:

20. Business Combination

On May 14, 2004, the Company acquired 100 percent of the outstanding common shares of Descap Securities, Inc. (Descap), a New York-based broker-dealer and investment bank. Descap specializes in the primary issuance and secondary trading of mortgage-backed securities, asset-backed securities, collateralized mortgage obligations and derivatives, and commercial mortgage-backed securities. Its investment banking group provides advisory and capital raising services, and specializes in structured finance and asset-backed securities and should serve to enhance the Company s product offering. Descap will continue to operate under its current name.

Per the acquisition agreement, Descap Securities Inc. can receive future contingent consideration based on the following: For each of the next three years ending June 1, 2007, if Descap s Pre-Tax Net Income (as defined) (i) is greater than \$10 million, the Company shall pay to the Sellers an aggregate amount equal to fifty percent (50%) of Descap s Pre-Tax Net Income for such period, or (ii) is equal to or less than \$10 million, the Company shall pay to the Sellers an aggregate amount equal to forty percent (40%) of Descap s Pre-Tax Net Income for such period

Based upon Descap s Pre-Tax Net Income from June 1, 2004 through March 31, 2005, \$1.7 million of contingent consideration would be payable to the Sellers. The contingent consideration will not be accrued in the Company s financial statement until the contingency is resolved and the consideration is distributable.

The following table presents pro forma information as if the acquisition of Descap Securities, Inc. had occurred on January 1, 2004.

21. New Accounting Standards

In December 2004, the FASB issued SFAS No. 123-Revised, Share-Based Payment. SFAS 123R is a revision of SFAS No. 123 Accounting for Stock-Based Compensation, and will become effective for the interim or annual reporting periods of the first fiscal year beginning after June 15, 2005. SFAS 123R will impact the measurement and reporting of stock-based compensation. The Company has not yet determined the impact these revisions will have on its results of operations.

The following is management's discussion and analysis of certain significant factors, which have affected the Company's financial position and results of operations during the periods included in the accompanying condensed consolidated financial statements.

There are included or incorporated by reference in this document statements that may constitute forward-looking statements within the meaning of the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are usually preceded by words such as may, will, expect, anticipate, believe, estimate, and continue or similar words. statements other than historical information or current facts should be considered forward-looking statements.

Forward-looking statements may contain projections regarding revenues, earnings, operations, and other financial projections, and may include statements of future performance, strategies and objectives. However, there may be events in the future which the Company is not able to accurately predict or control which may cause actual results to differ, possibly materially, from the expectations set forth in the Company's forward-looking statements. All forward-looking statements involve risks and uncertainties, and actual results may differ materially from those discussed as a result of various factors. Such factors include, among others, market risk, credit risk and operating risk.

These and other risks are set forth in greater detail throughout this document. The Company does not intend or assume any obligation to update any forward-looking information it makes.

Overview

The Company is a full-service investment bank and institutional securities firm. The Company operates through three primary businesses: Equities, Fixed Income and Other.

The Company's Equities segment is comprised of equities sales and trading and equities investment banking. Equities sales and trading provides equity trade execution to institutional investors and generates revenues primarily through commissions and sales credits earned on executing equity transactions. Equities investment banking generates revenues by providing financial advisory, capital raising, mergers and acquisitions, and restructuring services to small and mid-cap companies.

Included in the Fixed Income business are the following segments: Taxable Fixed Income, Descap Securities, Municipal Capital Markets, and Fixed Income-Other. The Company's Fixed Income business consists of fixed income sales and trading and fixed income investment banking. Fixed Income sales and trading provides trade execution to institutional investors and generates revenues primarily through commissions and sales credits earned on executing

fixed income transactions in the following products:

-

High Grade (Investment Grade and Government Bonds)

-

High Yield (Below Investment Grade)

-

Mortgage-Backed and Asset-Backed Securities

-

Municipal Bonds (Tax-exempt and Taxable Municipal Securities)

These products can be sold through any of the Company's Fixed Income segments. Fixed income investment banking generates revenues by providing financial advisory and capital raising services to municipalities, government agencies and other public institutions.

The Company's Other segment includes the results from the Company's investment portfolio, venture capital and asset management businesses, and costs related to corporate overhead and support. The Company's investment portfolio generates revenue from unrealized gains and losses as a result of changes in value of the firm's investments, realized gains and losses as a result of sales of equity holdings, and the equity in income and loss of affiliate. The Company's venture capital business generates revenue through the management of private equity funds. This segment also includes results related to the Company's investment in these private equity funds. The Company's asset management business generates revenue through managing institutional investors' assets through its convertible arbitrage group.

The Company believes it has an opportunity to become one of the premier investment banking boutiques serving the middle market in what the Company believes is largely an under-served market. The Company has focused on growing its middle market position by broadening its product line through acquisition and investments in key personnel and shedding non-core businesses. The Company's investment in the Equities business over the last three years, the 2004 acquisition of Descap Securities, Inc., a boutique investment bank and broker-dealer specializing in mortgage-backed securities, the investment in a high yield group in the third quarter of 2004, and decision to exit the asset management business in Albany, New York and Sarasota, Florida, in April of 2004 represent important steps to realizing the Company's goal to create a premier investment bank serving the middle market.

Business Environment

During first quarter the equities markets experienced declining underwriting and trading volumes compared to the year ago period. The number of equity underwriting transactions fell 27.7 percent versus the first quarter of 2004. During that time period follow-on underwriting activity declined 35.7 percent while initial public offering activity was down 2 percent (Source: Commscan Excludes closed-end funds and REITS). Equity trading volumes were relatively unchanged to down compared to prior year. Listed volume was up 2 percent but declined 22 percent when adjusting for the impact of program trading. Program trading on the NYSE now accounts for over 55 percent of total trading volume up from 42.3 percent in the first quarter of 2004. Average daily NASDAQ volume was down 4 percent to 1.9 billion.

In the fixed income markets, relatively low market volatility and price transparency have negatively impacted spreads in secondary market for high grade and mortgage-backed securities. Total municipal underwriting activity was up slightly compared to a year-ago, with negotiated underwriting dollar volume up 4 percent and competitive underwriting dollar volume unchanged (Source: Thomson Financial Securities Data).

Financial Overview

For the three months ended March 31, 2005, consolidated net revenues from continuing operations for the Company were \$28.6 million, compared to \$42.4 million for 2004. The Company reported a net loss from continuing operations of \$6.7 million for the quarter compared to a net loss from continuing operations of \$1.2 million for the same period in 2004. Results for the quarter ended March 31, 2005 were negatively impacted by a poor fixed income trading environment, a decline in equities revenue, weakness in equities investment banking and investment losses related to a decline in the market value of the Company's investment portfolio. Consolidated earnings from continuing operations for the three months ended March 31, 2005 were a net loss of \$0.53 per diluted share compared to a net loss of \$0.11 per diluted share for 2004. The Company reported a consolidated net loss of \$6.9 million for the three months ended March 31, 2005, compared to a consolidated net loss of \$1.9 million for the three months ended March 31, 2004. Consolidated earnings per share for the three months ended March 31, 2005, were a net loss of \$0.54 per diluted share compared with a net loss of \$0.18 per diluted share for same period in 2004.

Net Revenue

Net revenue of \$28.6 million was down \$13.8 million, or 32.6 percent, versus the first quarter of 2004. Included in the results for the first quarter was a \$3.8 million decline in the market value of the Company's investment portfolio. Commission revenue was down \$1.2 million, or 20.9 percent, due to a \$1.2 million decline in listed commissions.

Principal transaction revenue was down \$7.3 million, or 29.4 percent, compared to the first quarter of 2004. The decline in principal transaction revenue was the result of a poor trading environment in fixed income, a \$4.2 million drop in NASDAQ principal revenue and a \$4.7 million decline in high grade corporate bond principal revenue. These declines were offset to some extent by Descap Securities, which recorded \$4.5 million in net revenue during the quarter. Investment banking revenue of \$8.5 million represented a 20.5 percent decline versus the same period last year. Strength in Public Finance was more than offset by weakness in Equities investment banking. Fees and other

was up \$0.2 million to \$0.7 million due to an increase in investment management fees in the convertible arbitrage group. Net interest income increased \$0.2 million. Descap Securities added \$0.6 million in net interest income compared to the first quarter of 2004. An increase in inventory financing costs resulted in a \$0.3 million decline in municipal net interest income.

Non-Interest Expense

Non-interest expense was down \$4.7 million, or 10.5 percent, to \$40.5 million. The decline was primarily the result of a \$2.5 million decline in other expense and a \$2.4 million drop in compensation expense.

Compensation and benefits expense declined 7.6 percent, or \$2.4 million, to \$28.9 million. Incentive compensation was down \$4.5 million as a result of the decline in net revenue. Offsetting the decline in incentive compensation was a \$1.2 million increase in restricted stock amortization and \$0.9 million increase in severance expense. The increase in restricted stock amortization was due to the stock grants in the first quarter related to 2004 bonuses. Severance expense was up due to staff reductions in Equities and Fixed Income.

Clearing, settlement, and brokerage costs declined 1.8 percent to \$1.7 million. A \$0.2 million decline in Equities was somewhat offset by a \$0.1 million increase in Descap Securities. In Equities, floor brokerage expense was down \$0.1 million as a result of a year-over-year decline in customer share volume.

Communications and data processing costs were down \$0.3 million to \$3.7 million. Data processing expense was down \$0.8 million, or 55.6 percent, as a result of more favorable pricing from the Company's back-office vendor. This decline was offset by a \$0.2 million year-over-year increase in market data costs in Descap Securities and a \$0.2 million increase in market data costs in Equities.

Occupancy and depreciation expense increased 22.7 percent, or \$0.5 million. Occupancy costs at Descap Securities and costs associated with new offices in High Yield and Equities accounted for the majority of the year-over-year variance.

Selling expense was unchanged compared to the first quarter of 2004.

Other expense declined \$2.5 million to \$1.7 million. The decline was the result of a \$2.2 million decline in legal expense and \$0.3 million drop in professional fees. In the first quarter of 2004, the Company incurred \$1.5 million in legal expense related to a previously disclosed customer dispute in Fixed Income and \$0.6 million to settle an employment matter in Equities.

Income tax benefit as a percentage of pre-tax income was 43.1 percent compared to 54.9 percent in the first quarter of 2004.

Business Highlights

For presentation purposes, net revenue within each of the businesses is classified as sales and trading, investment banking, investment gains (losses), or net interest / other. Sales and trading net revenue includes commissions and principal transactions. Investment banking includes revenue related to underwritings and other investment banking transactions. Investment gains (losses) reflects gains and losses on the Company's investment portfolio. Net interest / other includes interest income, interest expense, fees and other revenue. Net revenue presented within each category may differ from that presented in the financial statements as a result of differences in categorizing revenue within each of the revenue line items listed below for purposes of reviewing key business performance.

Equities

<i>(In thousands of dollars)</i>	Three Months Ended March 31	
	2005	2004
<i>Net revenue</i>		
Sales and Trading	\$ 10,853	\$ 16,625
Investment Banking	3,130	5,478
Net Interest / Other	27	73
Total Net Revenue	\$ 14,010	\$ 22,176
Operating Income	\$ (1,923)	\$ 2,660

Q1 2005 vs. Q1 2004

Total equities net revenue was down 36.8 percent, or \$8.2 million. NASDAQ net revenue fell \$4.2 million to \$7.1 million while listed net revenue of \$3.8 million was down 23.3 percent compared to the same period in 2004. A \$1.1 million decline in underwriting revenue and a \$1.0 million decline in fee revenue helped drive Investment Banking net revenue down \$2.3 million.

Fixed Income

<i>(In thousands of dollars)</i>	Three Months Ended March 31	
	2005	2004
<i>Net revenue</i>		
Sales and Trading	\$ 10,989	\$ 14,638
Investment Banking	5,424	4,499
Net Interest / Other	772	451
Total Net Revenue	\$ 17,185	\$ 19,588
Operating Income	\$ 477	\$ 2,193

Q1 2005 vs. Q1 2004

Total Fixed Income net revenue of \$17.2 million represented a 12.3 percent decline over the prior year.

Year-over-year improvements in mortgage-backed, high yield, and public finance net revenue were overshadowed by declines in high grade corporate bond net revenue and municipal net revenue. Sales and trading net revenue was down 24.9 percent as spread compression in the high grade secondary corporate bond market continued to negatively impact the group's performance. Mortgaged-backed sales and trading net revenue increased 285 percent to \$4.7 million. The nearly three-fold year-over-year increase in mortgaged backed revenue was driven primarily by Descap Securities, which reported \$3.8 million in sales and trading net revenue for the first quarter. High yield net revenue of \$1.9 million represented a 56 percent increase compared to the first quarter of 2004. High grade net revenues of \$2.0 million were down \$4.7 million, or 71 percent. Municipal sales and trading net revenue of \$2.5 million represented a 25 percent decline compared to the first quarter of 2004. A strong quarter in Public Finance helped drive a 20.6 increase in Fixed Income investment banking net revenue. Public Finance underwriting revenue increased \$0.5 million to \$4.6 million. Public Finance advisory and other fee revenue was \$0.8 million, an increase of \$0.3 compared to the same period in 2004.

Other

<i>(In thousands of dollars)</i>	Three Months Ended March 31	
	2005	2004
<i>Net revenue</i>		
Investment Gain (Losses)	\$ (3,798)	\$ (277)

Net Interest / Other	1,215	939
Total Net Revenue	\$ (2,583)	\$ 662
Operating Income	\$ (10,399)	\$ (7,613)

Q1 2005 vs. Q1 2004

Other net revenue declined \$3.2 million primarily as a result of a \$3.8 million decline in the value of the Company's investment portfolio. A \$0.2 million increase in management fee income in the convertible arbitrage group was the primary reason for the increase in Net Interest / Other revenue.

Liquidity and Capital Resources

A substantial portion of the Company's assets, similar to other brokerage and investment banking firms, are liquid, consisting of cash and assets readily convertible into cash. These assets are financed primarily by the Company's payables to brokers, dealers and clearing agencies, bank lines of credit and customer payables. The level of assets and liabilities will fluctuate as a result of the changes in the level of positions held to facilitate customer transactions and changes in market conditions.

Short-term Bank Loans

Management believes that funds provided by operations, sale of investments and a variety of bank lines of credit totaling at least \$300 million, of which approximately \$146 million were unused as of March 31, 2005, will provide sufficient resources to meet present and reasonably foreseeable short-term and long-term financial needs. These bank lines of credit consist of credit lines that the Company has been advised are available but for which no contractual lending obligations exist and are repayable on demand. These bank lines of credit are limited to financing securities eligible for collateralization, which includes Company owned securities.

Notes Payable

The Company's notes payable also include a \$18.8 million Term Loan to finance the acquisition of Descap Securities, Inc. which contains various covenants, as defined in the agreement. As of March 31, 2005, the Company was not in compliance with certain covenants contained in the Term Loan. On April 22, 2005 the lender agreed to waive the financial covenants contained in the term loan agreement for the quarter ended March 31, 2005. The financial covenants require the maintenance of not less than \$22.5 million of earnings before interest, taxes, depreciation,

amortization and lease expense plus pro forma adjustments related to Descap, Scheduled Adjustment Expenditures and Scheduled Adjustment Earnings as defined in the modified term loan agreement and referred to as EBITDAR (for the twelve month period ending March 31, 2005, the Company's EBITDAR was \$18.2 million), operating cash flow to total fixed charge ratio (as defined) of not less than 1.15 to 1 (for the twelve month period ending March 31, 2005, the operating cash flow to total fixed charge ratio 1.10 to 1) and modified total funded debt to EBITDAR ratio of less than 1.75 to 1 (for the twelve month period ending March 31, 2005, modified total funded debt to EBITDAR ratio was 1.89 to 1).

The Company's notes payable include Senior Notes for \$10 million which contain various covenants, as defined in the agreements, including restrictions on the incurrence of debt, the maintenance of not less than \$50 million of net worth (at March 31, 2005, the Company's net worth was \$80.7 million) and an adjusted cash flow coverage rate for First Albany Capital Inc. (a wholly owned subsidiary) of not less than 1.2 to 1 as at the end of each fiscal quarter based on the most recently concluded period of four consecutive quarters (as of the end of the March 31, 2005 quarter, the Company's adjusted cash flow coverage rate was 2.6 to 1). As of March 31, 2005, the Company was in compliance with these covenants.

Notes payable include a note for \$1.0 million with a fixed interest rate of 7%, payable in quarterly principal payments of \$525,000 plus interest, and maturing September 1, 2006. The Company anticipates the note will be paid-in-full in July 2005. The note is collateralized by \$5.8 million in marketable securities classified as investments in the Statement of Financial Condition, of which only \$1.7 million was required as of March 31, 2005.

Notes payable include a note for \$0.2 million, which is payable \$34,924 per month through September 2005. The interest rate on this loan is 5.95% per annum.

Regulatory

As of March 31, 2005, First Albany Capital Inc. and Descap Securities, Inc., both registered broker-dealer subsidiaries of First Albany Companies Inc., were in compliance with the net capital requirements of the Securities and Exchange Commission. The net capital rules restrict the amount of a broker-dealer's net assets that may be distributed. Also, a significant operating loss or extraordinary charge against net capital may adversely affect the ability of the Company's broker-dealer subsidiaries to expand or even maintain their present levels of business and the ability to support the obligations or requirements of the Company. As of March 31, 2005, First Albany Capital Inc. had net capital of \$11.4 million, which exceeded minimum net capital requirements by \$10.4 million, while Descap Securities, Inc. had net capital of \$6.6 million, which exceeded minimum net capital requirements by \$6.5 million.

The Company enters into underwriting commitments to purchase securities as part of its investment banking business and may also purchase and sell securities on a when-issued basis. As of March 31, 2005, the Company had \$102.0 million outstanding underwriting commitments, of which all but \$32.7 million had been pre-sold, and had purchased no securities on a when-issued basis.

Investments and Commitments

In February of 2005, the Company was informed that the general partner of Ardent Research Partners LP, an investment fund in which Company is a limited partner, was the subject of an SEC investigation. The complaint by the SEC alleges the general partner, Northshore Asset Management LLC, misappropriated fund assets in making illiquid, and potentially improper, investments. As of March 31, 2005 the value of the Company's investment in the limited partnership is approximately \$568,000 and is classified as securities owned on the Statement of Financial Condition. The Company has not recognized any adjustment to the carrying value of this investment because at this time it is unable to estimate what the future loss, if any, might be.

Publicly held investments include 2,849,091 shares of Mechanical Technology Incorporated (MKTY). As of March 31, 2005, the MKTY shares have a market value of \$12.6 million. Shares of MKTY may be sold without restriction pursuant to Rule 144(k) of the Securities act of 1933.

At March 31, 2005, the Company owned 121,088 shares of PLUG with a market value of \$0.8 million. PLUG shares may be sold pursuant to Rule 144. Under the restrictions of Rule 144 as applied to PLUG currently, the Company may sell the entire 121,088 shares at any time.

As of March 31, 2005, the Company had a commitment through July 2006 to invest up to \$10.4 million in FA Technology Ventures, LP (the Partnership). The Company intends to fund this commitment from the sale of other investments and operating cash flow. The Partnership's primary purpose is to provide investment returns consistent with risks of investing in venture capital. In addition to the Company, certain other limited partners of the Partnership are officers or directors of the Company. The majority of the commitments to the Partnership are from non-affiliates of the Company.

The General Partner for the Partnership is FATV GP LLC. The General Partner is responsible for the management of the Partnership, including among other things, making investments for the Partnership. The members of the General Partnership are George McNamee, Chairman of the Company, First Albany Enterprise Funding, Inc., a wholly owned subsidiary of the Company, and other employees and former employees of the Company or its subsidiaries. Mr. McNamee is required under the Partnership agreement to devote a majority of his business time to the conduct of the affairs of the Partnership and any parallel funds. Subject to the terms of the Partnership agreement, under certain conditions, the General Partnership is entitled to share in the gains received by the Partnership in respect of its investment in a portfolio company. The General Partner will receive a carried interest on customary terms. The General Partner has contracted with FA Technology Ventures Corporation, a wholly owned subsidiary of the Company, to act as investment advisor to the General Partner.

As of March 31, 2005, the Company had an additional commitment through July 2006 to invest up to \$7.8 million in funds that invest in parallel with the Partnership, which it intends to fund, at least in part, through current and future Employee Investment Funds (EIF). EIF are limited liability companies, established by the Company for the purpose of allowing select employees to invest their own funds in private equity placements.

Other

The Company has deferred tax assets of \$21.3 million and deferred tax liabilities of \$8.1 million as of March 31, 2005 reflecting net operating losses and other deductible temporary differences, which reduce taxable income in future years. We are required to assess the realization of our deferred tax assets. Significant changes in circumstances may require adjustments in future periods. Although realization is not assured, we have concluded that it is more likely than not that the remaining net deferred tax assets will be realized principally based upon forecasted taxable income generally within net operating loss carryforward periods giving consideration to our restructuring program. The amount of the net deferred tax assets actually realized could vary if there are differences in the timing or amount of future reversals of existing deferred tax liabilities or changes in the actual amounts of future taxable income. If our forecast is determined to no longer be reliable due to uncertain market conditions or improvement in our results of operations does not materialize, our long-term forecast will require reassessment. As a result, we may need to establish valuation allowances for all or a portion of the net deferred tax assets. The net deferred tax asset of \$13.2 million is recorded on the Statement of Financial Condition. At December 31, 2004 the Company had a net deferred tax asset of \$8.5 million.

On May 14, 2004, the Company acquired 100 percent of the outstanding common shares of Descap Securities, Inc., a New York-based broker-dealer and investment bank. The value of the transaction was approximately \$31 million, which consisted of \$25 million in cash and 549,476 shares of the Company's common stock, plus future consideration based on financial performance (see Business Combination footnote in the Notes to Condensed Consolidated Financial Statements). The shares of the Company's stock issued to the sellers of Descap Securities, Inc. provide the sellers the right to require the Company to purchase back these shares at a price of \$6.14 per share. The Company also has the right to purchase back these shares from the sellers at a price of \$14.46. Both the put and call rights expires on May 31, 2007.

Per the acquisition agreement, Descap Securities Inc. can receive future contingent consideration based on the following: For each of the next three years ending June 1, 2007, if Descap's Pre-Tax Net Income (as defined) (i) is greater than \$10 million, the Company shall pay to the Sellers an aggregate amount equal to fifty percent (50%) of Descap's Pre-Tax Net Income for such period, or (ii) is equal to or less than \$10 million, the Company shall pay to the Sellers an aggregate amount equal to forty percent (40%) of Descap's Pre-Tax Net Income for such period. Based upon Descap's Pre-Tax Net Income from June 1, 2004 through March 31, 2005, \$1.7 million of contingent consideration would be payable to the Sellers.

CONTRACTUAL OBLIGATIONS

First Albany Companies Inc. has contractual obligations to make future payments in connection with our short-term debt, long-term debt, capital leases, and operating leases. See Notes to Condensed Consolidated Financial Statements for additional disclosures related to our commitments.

The following table sets forth these contractual obligations by fiscal year:

<i>(In thousands of dollars)</i>	2005	2006	2007	2008	2009	Thereafter	Total
Short-term bank loans	\$ 153,950	\$ -	\$ -	\$ -	\$ -	\$ -	153,950
Long term debt (1)	3,347	4,857	4,857	4,857	4,857	7,239	30,014
Purchase obligations	-	-	-	-	-	-	-
Capital lease obligations (including interest)	1,307	1,446	1,078	514	348	455	5,148
Operating leases (net of sublease rental income)	4,557	6,067	6,147	5,654	3,162	12,754	38,341
Subordinated debt (2)	-	1,288	1,462	1,299	141	1,117	5,307
Total	\$ 163,161	\$ 13,658	\$ 13,544	\$ 12,324	\$ 8,508	\$ 21,565	\$ 232,760

(1)

The Company has several notes payable which have principal and interest payments associated with each. For notes payable with variable interest rates, current interest rates were used for the calculation of interest payment for future periods. See Notes to the Condensed Consolidated Financial Statements.

(2)

The Company's headquarters and sales offices, and certain office and communication equipment, are leased under non-cancelable operating leases, certain of which contain escalation clauses and which expire at various times through 2015.

(3)

A select group of management and highly compensated employees are eligible to participate in the First Albany Companies Inc. Deferred Compensation Plan for Key Employees (the "Plan"). The employees enter into subordinate loans with the Company to provide for the deferral of compensation and employer allocations under the Plan. The accounts of the participants of the Plan are credited with earnings and/or losses based on the performance of various investment benchmarks selected by the participants. Maturities of the subordinated debt are based on the distribution election made by each participant, which may be deferred to a later date by the participant.

NEW ACCOUNTING STANDARDS

In December 2004, the FASB issued SFAS No. 123-Revised, Share-Based Payment. SFAS 123R is a revision of SFAS No. 123 Accounting for Stock-Based Compensation, and will become effective for the interim or annual reporting periods of the first fiscal year beginning after June 15, 2005. SFAS 123R will impact the measurement and reporting of stock-based compensation. The Company has not yet determined the impact these revisions will have on its results of operations.

FIRST ALBANY COMPANIES INC.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Item 3. Quantitative and Qualitative Disclosures about Market Risk**MARKET RISK**

Market risk generally represents the risk of loss that may result from the potential change in the value of a financial instrument as a result of fluctuations in interest rates and equity prices, changes in the implied volatility of interest rates and equity prices and also changes in the credit ratings of either the issuer or its related country of origin.

Market risk is inherent to both derivative and non-derivative financial instruments, and accordingly, the scope of the Company's market risk management procedures extends beyond derivatives to include all market-risk-sensitive financial instruments. The Company's exposure to market risk is directly related to its role as a financial intermediary in customer-related transactions and to its proprietary trading.

The Company trades tax exempt and taxable debt obligations, including U.S. Treasury bills, notes, and bonds; U.S. Government agency notes and bonds; bank certificates of deposit; mortgage-backed securities, and corporate obligations. The Company is also an active market maker in the NASDAQ equity markets. In connection with these activities, the Company may be required to maintain inventories in order to ensure availability and to facilitate customer transactions. In connection with some of these activities, the Company attempts to mitigate its exposure to such market risk by entering into hedging transactions, which may include highly liquid future contracts, options and U.S. Government and federal agency securities.

The following table categorizes the Company's market risk sensitive financial instruments by type of security and maturity date. The amounts shown are net of long and short positions:

<i>(In thousands of dollars)</i>	2005	2006	2007	2008	2009	Thereafter	Total
Fair value of securities							
Corporate bonds	\$ 179	\$ 1,883	\$ 2,578	\$ 2,815	767	\$ 24,050	\$ 32,272

Edgar Filing: FIRST ALBANY COMPANIES INC - Form 10-Q

State and municipal bonds	4,342	3,077	2,873	5,381	3,064	106,351	125,088
US Government and federal agency obligations	599	(1,911)	(737)	305	(28)	5,893	4,121
Subtotal	5,120	3,049	4,714	8,501	3,803	136,294	161,481
Equity securities	15,911	-	-	-	-	-	15,911
Investments	37,567	-	-	-	-	-	37,567
Fair value of securities	\$ 58,598	\$ 3,049	\$ 4,714	\$ 8,501	\$ 3,803	\$ 136,294	\$ 214,959

Following is a discussion of the Company's primary market risk exposures as of March 31, 2005, including a discussion of how those exposures are currently managed.

Interest Rate Risk

Interest rate risk is a consequence of maintaining inventory positions and trading in interest-rate-sensitive financial instruments. In connection with trading activities, the Company exposes itself to interest rate risk, arising from changes in the level or volatility of interest rates or the shape and slope of the yield curve. The Company's fixed income activities also expose it to the risk of loss related to changes in credit spreads. The Company attempts to hedge its exposure to interest rate risk primarily through the use of U.S. Government securities, highly liquid futures and options designed to reduce the Company's risk profile.

A sensitivity analysis has been prepared to estimate the Company's exposure to interest rate risk of its net inventory positions. The fair market value of these securities included in the Company's inventory at March 31, 2005 was \$104.7 million and \$111.2 million at December 31, 2004 (net of municipal futures positions). Interest rate risk is estimated as the potential loss in fair value resulting from a hypothetical one-half percent change in interest rates. At March 31, 2005, the potential change in fair value using a yield to maturity calculation and assuming this hypothetical change, was \$4.1 million and at year-end 2004 was \$4.5 million. The actual risks and results of such adverse effects may differ substantially.

Equity Price Risk

The Company is exposed to equity price risk as a consequence of making markets in equity securities. Equity price risk results from changes in the level or volatility of equity prices, which affect the value of equity securities or instruments that derive their value from a particular stock. The Company attempts to reduce the risk of loss inherent in its inventory of equity securities by monitoring those security positions constantly throughout each day.

Marketable equity securities included in the Company's inventory were recorded at a fair value of \$15.9 million in securities owned at March 31, 2005 and \$11.9 million in securities owned at December 31, 2004, have exposure to equity price risk. This risk is estimated as the potential loss in fair value resulting from a hypothetical 10% adverse change in prices quoted by stock exchanges and amounts to \$1.6 million at March 31, 2005 and \$1.2 million at year-end 2004. The Company's investment portfolio excluding the consolidation of Employee Investment Fund (see Investments note in the Consolidated Financial Statement) at March 31, 2005 and December 31, 2004, had a fair market value of \$32.3 million and \$39.4 million, respectively. This equity price risk is also estimated as the potential loss in fair value resulting from a hypothetical 10% adverse change in equity security prices or valuations and amounts to \$3.2 million at March 31, 2005 and \$3.9 million at year-end 2004. The actual risks and results of such adverse effects may differ substantially.

CREDIT RISK

The Company is engaged in various trading and brokerage activities whose counter parties primarily include broker-dealers, banks, and other financial institutions. In the event counter parties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the credit worthiness of the counter party or issuer of the instrument. The Company seeks to control credit risk by following an established credit approval process, monitoring credit limits, and requiring collateral where it deems appropriate.

The Company purchases debt securities and may have significant positions in its inventory subject to market and credit risk. In order to control these risks, security positions are monitored on at least a daily basis. Should the Company find it necessary to sell such a security, it may not be able to realize the full carrying value of the security due to the size of the position sold. The Company attempts to reduce its exposure to changes in municipal securities valuation with the use as hedges of highly liquid municipal bond index futures contracts.

OPERATING RISK

Operating risk is the potential for loss arising from limitations in the Company's financial systems and controls, deficiencies in legal documentation and the execution of legal and fiduciary responsibilities, deficiencies in technology and the risk of loss attributable to operational problems. These risks are less direct than credit and market risk, but managing them is critical, particularly in a rapidly changing environment with increasing transaction volumes. In order to reduce or mitigate these risks, the Company has established and maintains an internal control environment that incorporates various control mechanisms at different levels throughout the organization and within such departments as Finance, Accounting, Operations, Legal, Compliance and Internal Audit. These control mechanisms attempt to ensure that operational policies and procedures are being followed and that the Company's various businesses are operating within established corporate policies and limits.

OTHER RISKS

Other risks encountered by the Company include political, regulatory and tax risks. These risks reflect the potential impact that changes in local laws, regulatory requirements or tax statutes have on the economics and viability of

current or future transactions. In an effort to mitigate these risks, the Company seeks to review new and pending regulations and legislation and their potential impact on its business.

Item 4. Controls and Procedures

As of the end of the period covered by this Form 10Q, the Company's management, with the participation of the Chief Executive Officer and the Principal Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on that evaluation, the Company's management, including the Chief Executive Officer and the Principal Financial Officer, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report. In addition, no changes in the Company's internal control over financial reporting occurred during the March 31, 2005 quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II-Other Information

Item 1. Legal Proceedings

In 1998 the Company was named in lawsuits by Lawrence Group, Inc. and certain related entities (the "Lawrence Parties") in connection with a private sale of Mechanical Technology Incorporated stock from the Lawrence Parties that was previously approved by the United States Bankruptcy Court for the Northern District of New York (the "Bankruptcy Court"). The Company acted as placement agent in that sale, and a number of employees and officers of the Company, who have also been named as defendants, purchased shares in the sale. The complaints alleged that the defendants did not disclose certain information to the sellers and that the price approved by the court was therefore not proper. The cases were initially filed in the Bankruptcy Court and the United States District Court for the Northern District of New York (the "District Court"), and were subsequently consolidated in the District Court. The District Court dismissed the cases, and that decision was subsequently vacated by the United States Court of Appeals for the Second Circuit, which remanded the cases for consideration of the plaintiffs' claims as motions to modify the Bankruptcy Court sale order. The plaintiffs' claims have now been referred back to the Bankruptcy Court for such consideration. The Company believes that it has strong defenses to and intends to vigorously defend itself against the plaintiffs' claims, and believes that the claims lack merit.

In the normal course of business, the Company has been named a defendant, or otherwise has possible exposure, in several claims. Certain of these are class actions, which seek unspecified damages, which could be substantial.

Although there can be no assurance as to the eventual outcome of litigation in which the Company has been named as a defendant or otherwise has possible exposure, the Company has provided for those actions most likely of adverse dispositions. Although further losses are possible, the opinion of management, based upon the advice of its attorneys, is that such litigation will not, in the aggregate, have a material adverse effect on the Company's liquidity or financial position, although it could have a material effect on quarterly or annual operating results in the period in which it is resolved.

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits

Item

Number Item
