ITEM 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

Compensatory Arrangements of Certain Officers

At the regularly scheduled meetings on February 22-23, 2012, the Board of Directors of HealthSouth Corporation ("HealthSouth" or the "Company"), and its Compensation Committee, undertook the customary review and approval of annual compensation decisions. The Compensation Committee oversees HealthSouth's compensation and employee benefit objectives, plans and policies and reviews and approves the compensation of executive officers, except that of the Chief Executive Officer which is ultimately approved by the independent members of the Board of Directors. The following changes to the compensation of HealthSouth's named executive officers were approved:

increased the annual base salary rate of Mark Tarr, Executive Vice President and Chief Operating Officer, to \$600,000 effective March 1, 2012 from \$529,318 in 2011;

established the following target equity award opportunity and equity award types (by value) for the 2012 awards under HealthSouth's long-term incentive plan:

Named Executive Officer	Title	Total Target Equity Award Opportunity	Options	Performance-based Restricted Stock	Time-based Restricted Stock
Jay Grinney	President and Chief Executive Officer	\$5,000,000	30%	50%	20%
Douglas E. Coltharp	Executive Vice President and Chief Financial Officer	\$790,647	30%	50%	20%
John P. Whittington	Executive Vice President, General Counsel and Secretary	\$790,647	30%	50%	20%
Mark J. Tarr	Executive Vice President and Chief Operating Officer	\$790,647	30%	50%	20%
Dexanne B. Clohan	Senior Vice President and Chief Medical Officer	\$279,451	0%	50%	50%
Edmund M. Fay	Senior Vice President and Treasurer	\$286,051	0%	50%	50%

established that all of the performance-based restricted stock, or performance share units, issued under the 2012 long-term incentive plan will be linked to the two-year earnings per share objective and, as in prior years, the shares earned at the end of the related performance period will, assuming continuing employment, fully vest one year thereafter.

HealthSouth's executive compensation plans and arrangements are otherwise described in the section captioned "Executive Compensation" in its Definitive Proxy Statement on Schedule 14A filed on April 4, 2011.

Departure of Director

On February 23, 2012, Edward Blechschmidt informed the Board of Directors he did not wish to be nominated for re-election as a director at the annual meeting of the stockholders of HealthSouth to be held on May 3, 2012. Mr. Blechschmidt conveyed that he had no disagreement with the Company.

ITEM 7.01. Regulation FD Disclosure.

Subsequent to its earnings release for the fourth quarter of 2011, HealthSouth assembled an Investor Reference Book, which is attached to this Current Report on Form 8 K as Exhibit 99.1. The Investor Reference Book addresses, among other things, an overview of the Company and its industry, a historical perspective of the Company, the Company's business outlook, the Company's financial and operational metrics and initiatives, and the Company's value proposition. The Investor Reference Book is available at <http://investor.healthsouth.com> by clicking on an available link.

The Company will participate in the RBC Capital Markets' Global Healthcare Conference in New York City on February 28-29, 2012. HealthSouth President and Chief Executive Officer, Jay Grinney, will participate in a fireside chat on Wednesday, February 29<sup>th</sup> at 9:00 a.m. ET using information included in the Investor Reference Book attached to this Current Report on Form 8-K as Exhibit 99.1.

The Company will also participate in the Raymond James 33<sup>rd</sup> Annual Institutional Investors Conference in Orlando, Florida on March 5-7, 2012. Mr. Grinney will make a presentation on Tuesday, March 6<sup>th</sup> at 7:30 a.m. ET using information included in the Investor Reference Book attached to this Current Report on Form 8-K as Exhibit 99.1. The fireside chat and presentation will be webcast live and will be available at <http://investor.healthsouth.com> by clicking on an available link. The Company will distribute to attendees a copy of the Investor Reference Book attached to this Current Report on Form 8-K as Exhibit 99.1.

The Company reiterates as of the date hereof its guidance for 2012, as previously reported in the press release furnished as an exhibit to the Current Report on Form 8-K dated February 23, 2012 and during the Company's earnings conference call held on February 24, 2012.

The Company uses "same store" comparisons to explain the changes in certain performance metrics and line items within its financial statements. Same store comparisons are calculated based on hospitals open throughout both the full current periods and throughout the full prior periods presented. These comparisons include the financial results of market consolidation transactions in existing markets, as it is difficult to determine, with precision, the incremental impact of these transactions on the Company's results of operations.

The information contained in this Item 7.01 is being furnished pursuant to Item 7.01 of Form 8-K, "Regulation FD Disclosure." This information shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

#### Note Regarding Presentation of Non-GAAP Financial Measures

The financial data contained in the Investor Reference Book attached as Exhibit 99.1 includes non-GAAP financial measures, including the Company's leverage ratio and Adjusted EBITDA. The leverage ratio referenced therein is defined as the ratio of consolidated total debt to Adjusted EBITDA for the trailing four quarters. The Company believes its leverage ratio and Adjusted EBITDA are measures of its ability to service its debt and its ability to make capital expenditures. Additionally, the leverage ratio is a standard measurement used by investors to gauge the creditworthiness of an institution. The Company's credit agreement also includes a maximum leverage ratio financial covenant which allows the Company to deduct up to \$75 million of cash on hand from consolidated total debt. The Company uses Adjusted EBITDA on a consolidated basis as a liquidity measure. The Company believes this financial measure on a consolidated basis is important in analyzing its liquidity because it is the key component of certain material covenants contained within the Company's credit agreement, which is discussed in more detail in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, "Liquidity and Capital Resources," and Note 8, Long-term Debt, to the consolidated financial statements included in its Annual Report on Form 10 K for the year ended December 31, 2011 (the "2011 Form 10 K"). These covenants are material terms of the credit agreement, and the credit agreement represents a substantial portion of the Company's liquidity.

Non-compliance with these financial covenants under the credit agreement—its interest coverage ratio and its leverage ratio—could result in the Company's lenders requiring the Company to immediately repay all amounts borrowed. If the Company anticipated a potential covenant violation, it would seek relief from its lenders, which would have some cost to the Company, and such relief might not be on terms favorable to those in the Company's existing credit agreement.

In addition, if the Company cannot satisfy these financial covenants, it would be prohibited under the credit agreement from engaging in certain activities, such as incurring additional indebtedness, making certain payments, and acquiring and disposing of assets. Consequently, Adjusted EBITDA is critical to the Company's assessment of its liquidity.

In general terms, the credit agreement definition of Adjusted EBITDA, referred to as "Adjusted Consolidated EBITDA" there, allows the Company to add back to consolidated net income interest expense, income taxes, and depreciation and amortization and then add back to or subtract from consolidated net income unusual non-cash or non-recurring items. These items have included, but may not be limited to, (1) amounts associated with government, class action, and related settlements, (2) amounts related to discontinued operations and closed locations, (3) charges in respect of

Edgar Filing: HEALTHSOUTH CORP - Form 8-K

professional fees for reconstruction and restatement of financial statements, including fees paid to outside professional firms for matters related to internal controls and legal fees for continued litigation and support matters discussed in Note 21, Settlements, and Note 22,

---

Contingencies and Other Commitments, to the consolidated financial statements included in the 2011 Form 10 K, (4) stock-based compensation expense, (5) net investment and other income (including interest income), and (6) fees associated with the Company's divestiture activities.

In accordance with the credit agreement, the Company has been allowed to add certain other items to the calculation of Adjusted EBITDA, and there may also be certain other deductions required. This includes net income attributable to noncontrolling interests and interest income associated with income tax recoveries, as discussed in Note 19, Income Taxes, to the consolidated financial statements included in the 2011 Form 10-K. In addition, the Company has been allowed to add non-recurring cash gains, such as the cash proceeds from the UBS Settlement (see Note 21, Settlements, to the consolidated financial statements included in the 2011 Form 10-K) to the calculation of Adjusted EBITDA. As these adjustments may not be indicative of the Company's ongoing performance, they have been excluded from Adjusted EBITDA presented herein and in the Investor Reference Book attached as Exhibit 99.1. However, Adjusted EBITDA is not a measure of financial performance under generally accepted accounting principles in the United States of America ("GAAP"), and the items excluded from Adjusted EBITDA are significant components in understanding and assessing financial performance. Therefore, Adjusted EBITDA should not be considered a substitute for net income or cash flows from operating, investing, or financing activities. The Company reconciles Adjusted EBITDA to net income, which reconciliation is set forth in the Investor Reference Book attached as Exhibit 99.1, and to net cash provided by operating activities, which reconciliation is set forth below. Because Adjusted EBITDA is not a measurement determined in accordance with GAAP and is thus susceptible to varying calculations, Adjusted EBITDA, as presented, may not be comparable to other similarly titled measures of other companies. Revenues and expenses are measured in accordance with the policies and procedures described in the 2011 Form 10 K.

The Company also uses adjusted free cash flow as an analytical indicator to assess its performance. Management believes the presentation of adjusted free cash flow provides investors an efficient means by which they can evaluate the Company's capacity to reduce debt and pursue development activities. The calculation of adjusted free cash flow is included in the Investor Reference Book attached as Exhibit 99.1. This measure is not a defined measure of financial performance under GAAP and should not be considered as an alternative to net cash provided by operating activities. Our definition of adjusted free cash flow is limited and does not represent residual cash flows available for discretionary spending. Because this measure is not determined in accordance with GAAP and is susceptible to varying calculations, it may not be comparable to other similarly titled measures presented by other companies. See the consolidated statements of cash flows included in the 2011 Form 10-K for the GAAP measures of cash flows from operating, investing, and financing activities. A reconciliation of net cash provided by operating activities to adjusted free cash flow is included in the Investor Reference Book attached as Exhibit 99.1.

For the three months ended December 31, 2011, net cash used in investing activities was \$57.3 million and resulted primarily from capital expenditures, the acquisition of a business, and the net change in restricted cash. Net cash used in financing activities during the three months ended December 31, 2011 was \$89.8 million and resulted primarily from net debt payments, distributions paid to noncontrolling interests of consolidated affiliates, and dividends paid on the Company's convertible perpetual preferred stock.

For the three months ended December 31, 2010, net cash used in investing activities was \$35.1 million and resulted primarily from capital expenditures and net settlement payments related to interest rate swaps. Net cash used in financing activities during the three months ended December 31, 2010 was \$174.1 million and resulted primarily from net debt payments, debt amendment and issuance costs, distributions paid to noncontrolling interests of consolidated affiliates, and dividends paid on the Company's convertible perpetual preferred stock.

For the year ended December 31, 2011, net cash used in investing activities was \$24.6 million and resulted primarily from capital expenditures, net settlement payments related to interest rate swaps, and purchases of restricted investments offset by proceeds from the sale of five long-term acute care hospitals in August 2011. Net cash used in financing activities during the year ended December 31, 2011 was \$336.4 million and resulted primarily from net debt payments, including the optional redemption of the Company's 10.75% Senior Notes due 2016, distributions paid to noncontrolling interests of consolidated affiliates, and dividends paid on the Company's convertible perpetual preferred stock.

For the year ended December 31, 2010, net cash used in investing activities was \$125.9 million and resulted primarily from capital expenditures, net settlement payments related to interest rate swaps, acquisitions of businesses, and net purchases of restricted investments offset by a decrease in restricted cash and proceeds from the sale of our hospital in Baton Rouge. Net cash used in financing activities during the year ended December 31, 2010 was \$237.7 million and resulted primarily from net debt payments, distributions paid to noncontrolling interests of consolidated affiliates, dividends paid on the Company's convertible perpetual preferred stock, and debt amendment and issuance costs.

For the year ended December 31, 2009, net cash used in investing activities was \$133.0 million and resulted primarily from capital expenditures and net settlement payments related to interest rate swaps. Net cash used in financing activities during the year ended December 31, 2009 was \$224.3 million and resulted primarily from net debt payments, distributions paid to noncontrolling interests of consolidated affiliates, dividends paid on the Company's convertible perpetual preferred stock, and debt amendment and issuance costs.

For the year ended December 31, 2008, net cash used in investing activities was \$40.0 million and resulted primarily from capital expenditures, including expenditures associated with development activities, and net settlement payments related to an interest rate swap offset by proceeds from asset disposals, including our corporate campus. Net cash used in financing activities during the year ended December 31, 2008 was \$176.0 million and resulted primarily from net debt payments made during the period, as well as distributions paid to noncontrolling interests of consolidated affiliates and dividends paid on the Company's perpetual preferred stock, offset by proceeds from the issuance of common stock.

For the year ended December 31, 2007, net cash provided by investing activities was \$1,184.5 million and resulted primarily from the proceeds from the divestitures of the Company's surgery centers, outpatient, and diagnostic divisions. Net cash used in financing activities during the year ended December 31, 2007 was \$1,436.6 million and resulted primarily from net debt payments primarily using the net proceeds from the divestitures discussed above.

#### Forward-Looking Statements

Statements contained in this document and the Investor Reference Book attached as Exhibit 99.1 which are not historical facts are forward-looking statements. In addition, HealthSouth, through its senior management, may from time to time make forward-looking public statements concerning the matters described herein. All such estimates, projections, and forward-looking information speak only as of the date hereof, and HealthSouth undertakes no duty to publicly update or revise such forward-looking information, whether as a result of new information, future events, or otherwise. Such forward-looking statements are necessarily estimates based upon current information, involve a number of risks and uncertainties, and relate to, among other things, future events, HealthSouth's plan to repurchase shares of its common stock, dividend strategies, effective income tax rates, HealthSouth's business strategy, its

financial plans, its future financial performance, or its projected business results or model, or its projected capital expenditures. Actual events or results may differ materially from those anticipated in these forward-looking statements as a result of a variety of factors. While it is impossible to identify all such factors, factors which could cause actual events or results to differ materially from those estimated by HealthSouth include, but are not limited to, any adverse outcome of various lawsuits, claims, and legal or regulatory proceedings involving the Company, including the Houston HHS-OIG investigation; significant changes in HealthSouth's management team; HealthSouth's ability to successfully complete and integrate de novo developments, acquisitions, investments, and joint ventures consistent with its growth strategy;

---

changes, delays in (including in connection with resolution of Medicare payment reviews or appeals), or suspension of reimbursement for HealthSouth's services by governmental or private payors; changes in the regulation of the healthcare industry at either or both of the federal and state levels, including as part of national healthcare reform and deficit reduction; competitive pressures in the healthcare industry and HealthSouth's response thereto; HealthSouth's ability to obtain and retain favorable arrangements with third-party payors; HealthSouth's ability to attract and retain nurses, therapists, and other healthcare professionals in a highly competitive environment with often severe staffing shortages and the impact on HealthSouth's labor expenses from potential union activity and staffing shortages; general conditions in the economy and capital markets; the increase in the costs of defending and insuring against alleged professional liability claims and our ability to predict the estimated costs related to such claims; and other factors which may be identified from time to time in HealthSouth's SEC filings and other public announcements, including HealthSouth's Form 10-K for the year ended December 31, 2011.
