ITEM 9. REGULATION FD DISCLOSURE

The ATWOOD SOUTHERN CROSS is currently expected to complete its one-well drilling program for Oil Fields Ltd in Israel around September 6, 2002. When this drilling program is completed, the rig will be idle three to four weeks while completing certain upgrades to meet certain Italian requirements before it can commence its next contract for Eni S.p.A. - AGIP division ("AGIP"). These required upgrades are estimated to cost approximately \$750,000, with AGIP covering \$550,000 of these costs. The operating dayrate for the AGIP work is \$60,000, with the work estimated to take 60 to 90 days to complete.

Additional information with respect to the Company's contract status summary at September 3, 2002 is attached hereto as EXHIBIT 99.2, which is being furnished in accordance with Rule 101 (e) (1) under Regulation FD and should not be deemed to be filed.

Statements contained in this report with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors; the Company's dependence on the oil and gas industry; the risks involved in upgrade to the Company's rigs; competition; operating risks; risks involved in foreign operations; risks associated with possible disruptions in operations due to terrorism; and governmental regulations and environmental matters. A list of additional risk factors can be found in the Company's Annual Report on Form 10-K for the year ended September 30, 2001, filed with the Securities and Exchange Commission.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

FOR IMMEDIATE RELEASE

Atwood Oceanics, Inc. (a Houston based internationally offshore drilling contractor - NYSE - ATW) announced today that the VICKSBURG has been awarded a two year contract by ExxonMobil Exploration and Production Malaysia Inc. ("EMEPMI") for operations off the coast of Malaysia, with EMEPMI having the right to terminate the contract after one year at any time with a 120 days notice period. The operating dayrate is \$64,500, with EMEPMI having an option for one additional year at a mutually agreed dayrate. The contract provides for EMEPMI to reimburse the Company for approximately \$3.6 million of certain modifications and equipment upgrades to be performed on the rig, which is expected to take at least 18 days to complete, prior to it commencing the drilling program. The contract provides for the Company to receive a dayrate of \$52,000 for 18 days during the upgrade period. The VICKSBURG completed its contract with Carigali-Triton Operating Company on September 1, 2002 and is currently undergoing the modifications and upgrades for the EMEPMI contract.
