Denny's Corporation and Subsidiaries
 Notes to Condensed Consolidated Financial Statements
 (Unaudited)

Note 1. Introduction and Basis of Presentation

Denny's Corporation, through its wholly owned subsidiaries, Denny's Holdings, Inc. and Denny's, Inc., owns and operates the Denny's restaurant brand, or Denny's.

Our unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Therefore, certain information and notes normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. In our opinion, all adjustments considered necessary for a fair presentation of the interim periods presented have been included. Such adjustments are of a normal and recurring nature. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions; however, we believe that our estimates, including those for the above-described items, are reasonable.

These interim condensed consolidated financial statements should be read in conjunction with our consolidated financial statements and notes thereto for the year ended December 26, 2007 and the related Management's Discussion and Analysis of Financial Condition and Results of Operations, both of which are contained in our Annual Report on Form 10-K for the fiscal year ended December 26, 2007. The results of operations for the interim periods presented are not necessarily indicative of the results for the entire fiscal year ending December 31, 2008.

Note 2. Summary of Significant Accounting Policies

Effective December 27, 2007, the first day of fiscal 2008, we adopted Statement of Financial Accounting Standards No. 159 ("SFAS 159"), "The Fair Value Option for Financial Assets and Financial Liabilities." SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. We did not elect the fair value reporting option for any assets and liabilities not previously recorded at fair value.

Effective December 27, 2007, the first day of fiscal 2008, we adopted the provisions of Statement of Financial Accounting Standards No. 157 ("SFAS 157"), "Fair Value Measurements" for financial assets and liabilities, as well as any other assets and liabilities that are carried at fair value on a recurring basis in financial statements. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements, the Financial Accounting Standards Board ("FASB") having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, SFAS 157 does not require any new fair value measurements. We also applied the provisions of FSP FAS 157-2, "Effective Date of FASB Statement 157," which defers the provisions of SFAS 157 for nonfinancial assets and liabilities to the first fiscal period beginning after November 15, 2008. The deferred nonfinancial assets and liabilities include items such as goodwill and other nonamortizable intangibles. We are required to adopt SFAS 157 for nonfinancial assets and liabilities in the first quarter of fiscal 2009 and are still evaluating the impact on our Condensed Consolidated Financial Statements.

Financial assets and liabilities measured at fair value on a recurring basis are summarized below:

Fair Value Measurements as of September 24, 2008

Total	\$ 3,529	\$ 6,132	\$ (2,603)	\$ —	\$ —	\$ —	

There have been no other material changes to our significant accounting policies and estimates from the information provided in Note 2 of our Consolidated Financial Statements included in our Form 10-K for the fiscal year ended December 26, 2007, except as noted in Note 3.

Note 3. Adjustments Related to Goodwill

In March 2008, we recorded adjustments to correct an error in accounting for goodwill in relation to the sale of restaurant operations during the quarters ending March 28, 2007, June 27 2007, September 26, 2007 and December 26, 2007. Historically, we did not write-off goodwill when we sold restaurant units to franchisees. Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" requires that a portion of the entity level goodwill should be written off based on the relative fair values of the restaurant unit being sold and the remaining value of the entity, in our case, Denny's. The adjustments had no impact on previously reported cash flows.

The following line items on the Consolidated Statements of Operations for the quarter and three quarters ended September 26, 2007 and the fiscal year ended December 26, 2007 were impacted by the adjustments:

(a) Per share amounts do not necessarily sum to the total year amounts due to changes in shares outstanding and rounding.

Note 4. Assets Held for Sale

Assets held for sale of \$3.0 million and \$6.7 million, as of September 24, 2008 and December 26, 2007, respectively, include restaurants to be sold to franchisees and certain real estate properties. We expect to sell each of these assets within 12 months. Our Credit Facility (defined in Note 7) requires us to make mandatory prepayments to reduce outstanding indebtedness with the net cash proceeds from the sale of specified real estate properties and restaurant operations to franchisees. As a result, we classified a corresponding \$3.0 million and \$0.4 million of our long-term debt as a current liability in our Consolidated Balance Sheet as of September 24, 2008 and December 26, 2007, respectively. This amount represents the net book value of the specified properties as of the balance sheet date.

Note 5. Goodwill and Other Intangible Assets

The changes in carrying amounts of goodwill for the three quarters ended September 24, 2008 are as follows:

As of September 24, 2008 and December 26, 2007, we had accrued severance and other restructuring charges of \$1.5 million and \$1.3 million, respectively. The balance as of September 24, 2008 is expected to be paid during the next 12 months.

Note 7. Long-Term Debt

Credit Facility

Our subsidiaries, Denny's, Inc. and Denny's Realty, LLC (the "Borrowers"), have a senior secured credit agreement consisting of a \$50 million revolving credit facility (including up to \$10 million for a revolving letter of credit facility), a \$136.7 million term loan and an additional \$37 million letter of credit facility (together, the "Credit Facility"). At September 24, 2008, we had outstanding letters of credit of \$35.4 million (comprised of \$35.2 million under our letter of credit facility and \$0.2 million under our revolving facility). There were no revolving loans outstanding at September 24, 2008. These balances result in availability of \$1.8 million under our letter of credit facility and \$49.8 million under the revolving facility.

The revolving facility matures on December 15, 2011. The term loan and the \$37 million letter of credit facility mature on March 31, 2012. The term loan amortizes in equal quarterly installments at a rate equal to approximately 1% per annum with all remaining amounts due on the maturity date. The Credit Facility is available for working capital, capital expenditures and other general corporate purposes. We will be required to make mandatory prepayments under certain circumstances (such as required payments related to asset sales) typical for this type of credit facility and may make certain optional prepayments under the Credit Facility. We believe that our estimated cash flows from operations for 2008, combined with our capacity for additional borrowings under our Credit Facility, will enable us to meet our anticipated cash requirements and fund capital expenditures over the next twelve months.

The Credit Facility is guaranteed by Denny's Corporation and its other subsidiaries and is secured by substantially all of the assets of Denny's and its subsidiaries. In addition, the Credit Facility is secured by first-priority mortgages on 118 company-owned real estate assets. The Credit Facility contains certain financial covenants (i.e., maximum total debt to EBITDA (as defined under the Credit Facility) ratio requirements, maximum senior secured debt to EBITDA ratio requirements, minimum fixed charge coverage ratio requirements and limitations on capital expenditures), negative covenants, conditions precedent, material adverse change provisions, events of default and other terms, conditions and provisions customarily found in credit agreements for facilities and transactions of this type. We were in compliance with the terms of the Credit Facility as of September 24, 2008.

A commitment fee of 0.5% is paid on the unused portion of the revolving credit facility. Interest on loans under the revolving facility is payable at per annum rates equal to LIBOR plus 250 basis points and will adjust over time based on our leverage ratio. Interest on the term loan and letter of credit facility is payable at per annum rates equal to LIBOR plus 200 basis points. Prior to considering the impact of the interest rate swap described below, the weighted-average interest rate under the term loan was 4.8% and 7.1% as of September 24, 2008 and September 26, 2007, respectively.

Interest Rate Swap

During the second quarter of fiscal 2007, we entered into an interest rate swap with a notional amount of \$150 million to hedge a portion of the cash flows of our variable rate debt. We designated the interest rate swap as a cash flow hedge of our exposure to variability in future cash flows attributable to interest payments on the first \$150 million of floating rate debt. Under the terms of the swap, we pay a fixed rate of 4.8925% on the \$150 million notional amount and receive payments from the counterparties based on the 3-month LIBOR rate for a term ending on March 30, 2010, effectively resulting in a fixed rate of 6.8925% on the \$150 million notional amount at the inception of the swap. Interest rate differentials paid or received under the swap agreement are recognized as adjustments to interest expense.

Prior to December 26, 2007, to the extent the swap was effective in offsetting the variability of the hedged cash flows, changes in the fair value of the swap were not included in current earnings, but were reported as adjustments to other comprehensive income. At December 26, 2007, we determined that a portion of the underlying cash flows related to the swap (i.e., interest payments on \$150 million of floating rate debt) were no longer probable of occurring over the term of the interest rate swap as a result of the probability of paying the debt down below \$150 million through scheduled repayments and prepayments with cash from the sale of company-owned restaurant operations to franchisees. As a result, we discontinued hedge accounting treatment. The losses related to the fair value of the swap included in accumulated other comprehensive income as of December 26, 2007 will be amortized to other nonoperating expense over the remaining term of the interest rate swap. Additionally, changes in the fair value of the swap are recorded in other nonoperating expense.

The changes in accumulated other comprehensive income related to the swap for the quarter and three quarters ended September 24, 2008 are as follows:

Fair value of the interest rate swap, end of period	\$ (2,603)	\$ (2,603)

On March 26, 2008, we terminated \$50 million notional amount of the interest rate swap. The termination resulted in a \$2.4 million cash payment, which was made during the quarter ended June 25, 2008.

By using a derivative instrument to hedge exposures to changes in interest rates, we expose ourselves to credit risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. We minimize the credit risk by entering into transactions with high-quality counterparties whose credit rating is evaluated on a quarterly basis.

Note 8. Defined Benefit Plans

The components of net pension cost of our pension plan and other defined benefit plans as determined under Statement of Financial Accounting Standards No. 87, "Employers' Accounting for Pensions," as amended by Statement of Financial Accounting Standards No. 158, "Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans," are as follows:

We made contributions of \$1.3 million and \$2.8 million to our qualified pension plan during the three quarters ended September 24, 2008 and September 26, 2007, respectively. We made contributions of \$0.7 million and \$0.2 million to our other defined benefit plans during the three quarters ended September 24, 2008 and September 26, 2007, respectively. We expect to contribute \$0.1 million to our qualified pension plan and \$0.1 million to our other defined benefit plans during the remainder of fiscal 2008.

Additional minimum pension liability of \$10.8 million is reported as a component of accumulated other comprehensive loss in the Condensed Consolidated Statement of Shareholders' Deficit and Comprehensive Loss as of September 24, 2008 and December 26, 2007.

Note 9. Share-Based Compensation

Total share-based compensation included as a component of net income was as follows:

	Quarter Ended		Three Quarters Ended	
	September	September	September	September
	24, 2008	26, 2007	24, 2008	26, 2007

Board deferred stock units	61	81	184	241
Total share-based compensation related to equity classified awards	968	705	2,591	2,342
Total share-based compensation	\$ 849	\$ 681	\$ 2,511	\$ 3,000

Additionally, during the three quarters ended September 24, 2008, we issued approximately 97,000 shares of common stock in lieu of cash to pay approximately \$0.3 million of incentive compensation.

Stock Options

During the three quarters ended September 24, 2008, we granted approximately 1.5 million stock options to certain employees and approximately 0.2 million stock options to the non-employee members of our Board of Directors. These stock options vest evenly over 3 years and have a 10-year contractual life.

The weighted average fair value per option of options granted during the three quarters ended September 24, 2008 was \$1.18. The fair value of the stock options granted in the period ended September 24, 2008 was estimated at the date of grant using the Black-Scholes option pricing model. Use of this option pricing model requires the input of subjective assumptions. These assumptions include estimating the length of time employees will retain their vested stock options before exercising them (“expected term”), the estimated volatility of our common stock price over the expected term and the number of options that will ultimately not complete their vesting requirements (“forfeitures”). Changes in the subjective assumptions can materially affect the estimate of the fair value of share-based compensation and consequently, the related amount recognized in the Consolidated Statements of Operations.

We used the following weighted average assumptions for the stock option grants for the three quarters ended September 24, 2008:

Dividend yield	0.0%
Expected volatility	50.1%
Risk-free interest rate	2.7%
Weighted-average expected term	4.6 years

The dividend yield assumption was based on our dividend payment history and expectations of future dividend payments. The expected volatility was based on the historical volatility of our stock for a period approximating the expected life. The risk-free interest rate was based on published U.S. Treasury spot rates in effect at the time of grant with terms approximating the expected life of the option. The weighted average expected term of the options represents the period of time the options are expected to be outstanding based on historical trends.

As of September 24, 2008, there was approximately \$2.4 million of unrecognized compensation cost related to unvested stock option awards outstanding, which is expected to be recognized over a weighted average of 2.0 years.

Restricted Stock Units

In July 2008, we granted approximately 0.3 million restricted stock units under the 2004 Omnibus Plan and approximately 0.9 million restricted stock units under the 2008 Omnibus Plan to certain employees. The awards (which are equity classified) have a grant date fair value of \$2.57 per share. These restricted units will be earned and vest in 1/3 increments (from 50% to 120% of the target award for each such increment) based on the appreciation/(depreciation) of our common stock from the date of grant to each of three vesting periods (July 16, 2009, July 16, 2010 and July 16, 2011). Subsequent to the vesting periods, the earned restricted stock units will be paid to the holder in shares of common stock, provided the holder is then still employed with Denny’s or an affiliate. As these restricted stock units contain a market condition, the compensation expense is based on the Monte Carlo valuation method, which utilizes multiple input variables to determine the probability of the Company achieving the market condition and the fair value of the award. The awards granted to our named executive officers also contain a performance condition based on certain operating measures for the four fiscal quarters ending prior to July 16, 2009.

During the quarter ended September 24, 2008, we made payments of \$0.5 million (before taxes) in cash and issued 0.2 million shares of common stock related to the restricted stock unit awards that vested as of June 30, 2008. In addition,

we made payments of less than \$0.1 million (before taxes) in cash related to the restricted stock unit awards that vested as of July 9, 2008. During the first quarter of 2008, we made payments of \$0.4 million (before taxes) in cash and issued 0.1 million shares of common stock related to the restricted stock unit awards that vested as of December 26, 2007.

Edgar Filing: DENNYS CORP - Form 10-Q

Accrued compensation expense included as a component of the Condensed Consolidated Balance Sheet was as follows:

	September 24, 2008	December 26, 2007
	(In thousands)	
Liability classified restricted stock units:		
Other current liabilities	\$ 2,042	\$ 1,170
Other noncurrent liabilities	\$ 924	\$ 2,828
Equity classified restricted stock units:		
Additional paid-in capital	\$ 4,179	\$ 3,925

As of September 24, 2008, we had approximately \$4.7 million of unrecognized compensation cost (approximately \$0.7 million for liability classified units and approximately \$4.0 million for equity classified units) related to all unvested restricted stock unit awards outstanding, which is expected to be recognized over a weighted average of 1.7 years.

Board Deferred Stock Units

During the three quarters ended September 24, 2008, we granted approximately 0.1 million deferred stock units (which are equity classified) with a weighted-average grant date fair value of \$3.27 per unit to non-employee members of our Board of Directors. These awards are restricted in that they may not be converted to shares until the recipient has ceased serving as a member of the Board of Directors for Denny's Corporation at which time the awards automatically convert to shares. During the second quarter of 2008, one board member did not stand for reelection. As a result, the board member's deferred stock units were converted into shares of common stock.

Note 10. Accumulated Other Comprehensive Income (Loss)

Total comprehensive income was \$18.7 million and \$19.2 million for the three quarters ended September 24, 2008 and September 26, 2007, respectively.

The components of Accumulated Other Comprehensive Income (Loss) in the Condensed Consolidated Statement of Shareholder's Deficit are as follows:

	September 24, 2008	December 26, 2007
	(In thousands)	
Additional minimum pension liability	\$ (10,791)	\$ (10,791)
Unrealized gain on hedged transaction	(1,501)	(2,353)
Accumulated other comprehensive income (loss)	\$ (12,292)	\$ (13,144)

Note 11. Income Taxes

The provision for income taxes was \$0.7 million and \$1.4 million for the quarter and three quarters ended September 24, 2008, respectively, compared with \$0.4 million and \$2.8 million for the quarter and three quarters ended September 26, 2007, respectively. The provision for income taxes for the first three quarters of 2008 and 2007 was determined using our effective rate estimated for the entire fiscal year. The quarter and three quarters ended September 24, 2008 also included the recognition of \$0.6 million of current tax benefits. This item resulted from the enactment of certain federal laws that benefited us during the third quarter of 2008. The three quarters ended

Edgar Filing: DENNYS CORP - Form 10-Q

September 26, 2007 also included the recognition of \$0.3 million of current tax benefits and a \$0.6 million reduction to the valuation allowance. These items resulted from the enactment of certain federal and state laws that benefited us during the second quarter of 2007.

We have provided valuation allowances related to any benefits from income taxes resulting from the application of a statutory tax rate to our net operating losses (“NOL”) generated in previous periods. In addition, during 2008 and 2007, we utilized certain federal and state NOL carryforwards whose valuation allowances were established in connection with fresh start reporting on January 7, 1998. Accordingly, federal and state deferred tax expense was recorded in connection with fresh start reporting on January 7, 1998 with a corresponding adjustment to goodwill. The amounts recognized were an increase of approximately \$0.1 million and a decrease of approximately \$0.0 million for the quarter and three quarters ended September 24, 2008, respectively, and decreases of \$0.4 million and \$2.9 million for the quarter and three quarters ended September 26, 2007, respectively.

The reduction in our effective tax rate for the three quarters ended September 24, 2008 was due primarily to the utilization of federal net operating loss carryforwards from periods prior to fresh start reporting on January 7, 1998. These federal net operating loss carryforwards were fully utilized during fiscal 2007. We still have certain state net operating loss carryforwards from periods prior to fresh start reporting that have been utilized in both fiscal 2007 and 2008.

During the quarter and three quarters ended September 24, 2008, we sold company-owned restaurants to franchisees that are former employees. We received cash proceeds of \$1.0 million and \$2.9 million from the sale of restaurant operations to these related parties during the two periods, respectively.

Note 15. Implementation of New Accounting Standards

In May 2008, the FASB issued Statement of Financial Accounting Standards No. 162 ("SFAS 162"), "The Hierarchy of Generally Accepted Accounting Principles." SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). This Statement is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AICPA Codification of Auditing Standards, AU Section 411, "The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles." We do not currently believe that adopting SFAS 162 will have a material impact on our Condensed Consolidated Financial Statements.

In April 2008, the FASB issued FASB Staff Position Financial Accounting Standard 142-3 ("FSP FAS 142-3"), "Determination of the Useful Life of Intangible Assets." FSP FAS 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142 ("SFAS 142"), "Goodwill and Other Intangible Assets." The intent of the FSP is to improve the consistency between the useful life of a recognized intangible asset under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS No. 141, "Business Combinations." We are required to adopt FSP FAS 142-3 in the first quarter of 2009 and will apply it prospectively to intangible assets acquired after the effective date. We do not currently believe that adopting FSP FAS 142-3 will have a material impact on our Condensed Consolidated Financial Statements.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161 ("SFAS 161"), "Disclosures about Derivative Instruments and Hedging Activities," which amends and expands Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS 161 requires tabular disclosure of the fair value of derivative instruments and their gains and losses. This Statement also requires disclosure regarding the credit-risk related contingent features in derivative agreements, counterparty credit risk, and

strategies and objectives for using derivative instruments. We are required to adopt SFAS 161 in the first quarter of 2009. We do not currently believe that adopting SFAS 161 will have a material impact on our Condensed Consolidated Financial Statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 ("SFAS 160"), "Noncontrolling Interests in Consolidated Financial Statements — an amendment of ARB No. 51." SFAS 160 amends Accounting Research Bulletin No. 51, "Consolidated Financial Statements" to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary, which is sometimes referred to as minority interest, is an ownership interest in the consolidated entity that should be reported as equity in our Consolidated Financial Statements. Among other requirements, this Statement requires that the consolidated net income attributable to the parent and the noncontrolling interest be clearly identified and presented on the face of the consolidated income statement. SFAS 160 is effective for the first fiscal period beginning on or after December 15, 2008. We are required to adopt SFAS 160 in the first quarter of 2009. We do not currently believe that adopting SFAS 160 will have a material impact on our Condensed Consolidated Financial Statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007) ("SFAS 141R"), "Business Combinations." SFAS 141R establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in an acquiree and the goodwill acquired. SFAS 141R applies to business combinations for which the acquisition date is on or after the first fiscal period beginning on or after December 15, 2008. SFAS 141R will also require that any additional reversal of deferred tax asset valuation allowance established in connection with fresh start reporting on January 7, 1998 be recorded as a component of income tax expense rather than as currently reflected as a reduction to the goodwill established in connection with the fresh start reporting. We are required to adopt SFAS 141R in the first quarter of 2009. The impact of SFAS 141R on our Condensed Consolidated Financial Statements will be dependent upon the extent to which we have transactions or events occur that are within its scope.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements." SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, SFAS 157 does not require any new fair value measurements. Effective December 27, 2007, the first day of fiscal 2008, we adopted the provisions of SFAS 157 for financial assets and liabilities, as well as any other assets and liabilities that are carried at fair value on a recurring basis in financial statements. See Note 2 to the Condensed Consolidated Financial Statements. We applied the provisions of FSP FAS 157-2, "Effective Date of FASB Statement 157," which defers the provisions of SFAS 157 for nonfinancial assets and liabilities to the first fiscal period beginning after November 15, 2008. The deferred nonfinancial assets and liabilities include items such as goodwill and other nonamortizable intangibles. We are required to adopt SFAS 157 for nonfinancial assets and liabilities in the first quarter of fiscal 2009 and are still evaluating the impact on our Condensed Consolidated Financial Statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on our Condensed Consolidated Financial Statements upon adoption.

Note 16. Commitments and Contingencies

There are various claims and pending legal actions against or indirectly involving us, including actions concerned with civil rights of employees and guests, other employment related matters, taxes, sales of franchise rights and businesses and other matters. Based on our examination of these matters and our experience to date, we have recorded our best estimate of liability, if any, with respect to these matters. However, the ultimate disposition of these matters cannot be

determined with certainty. We record legal expenses and other litigation costs as those costs are incurred.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to highlight significant changes in our financial position as of September 24, 2008 and results of operations for the quarter and three quarters ended September 24, 2008 compared to the quarter and three quarters ended September 26, 2007. The forward-looking statements included in Management's Discussion and Analysis of Financial Condition and Results of Operations, which reflect our best judgment based on factors currently known, involve risks, uncertainties, and other factors which may cause our actual performance to be materially different from the performance indicated or implied by such statements. Such factors include, among others: competitive pressures from within the restaurant industry; the level of success of our operating initiatives and advertising and promotional efforts; adverse publicity; changes in business strategy or development plans; terms and availability of capital; regional weather conditions; overall changes in the general economy (including with regard to energy costs), particularly at the retail level; political environment (including acts of war and terrorism); and other factors included in the discussion below or in Part II. Item 1A. Risk Factors in this Quarterly Report on Form 10-Q, or in Part II. Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and Part I. Item 1A. Risk Factors, contained in our Annual Report on Form 10-K for the year ended December 26, 2007.

Company Restaurant Operations

During the quarter ended September 24, 2008, we incurred a 2.7% decrease in same-store sales, comprised of a 6.7% increase in guest check average and a 8.8% decrease in guest counts. Company restaurant sales decreased \$56.2 million, or 25.9%, primarily resulting from a 137 equivalent-unit decrease in company-owned restaurants. The decrease in equivalent-units primarily resulted from the sale of company-owned restaurants to franchisees as part of our Franchise Growth Initiative.

Total costs of company restaurant sales as a percentage of company restaurant sales decreased to 86.7% from 88.1%. Product costs decreased to 24.2% from 25.6% due to favorable shifts in menu mix. Payroll and benefits costs increased to 40.8% from 40.7% primarily as a result of increased workers compensation and group insurance costs, offset by a decrease in management labor and restaurant staffing related to improved scheduling. Occupancy costs decreased slightly to 5.9% from 6.1% due to a benefit in general liability expense during the current quarter. Other operating expenses were comprised of the following amounts and percentages of company restaurant sales:

	Quarter Ended			
	September 24, 2008		September 26, 2007	
	(Dollars in thousands)			
Utilities	\$ 9,139	5.7%	\$ 10,960	5.1%

Other direct costs	6,172	3.8%	8,548	3.9%
Other operating expenses	\$ 25,384	15.8%	\$ 33,842	15.6%

The overall decrease in other operating expenses primarily results from the sale of company-owned restaurants to franchisees.

Franchise Operations

Franchise and license revenue and costs of franchise and license revenue were comprised of the following amounts and percentages of franchise and license revenue for the periods indicated:

	Quarter Ended			
	September 24, 2008		September 26, 2007	
	(Dollars in thousands)			
Royalties	\$ 17,791	62.1%	\$ 16,779	68.2%
Initial and other fees	1,376	4.8%	1,180	4.8%
Occupancy revenue	9,500	33.1%	6,658	27.0%
Franchise and license revenue	28,667	100.0%	24,617	100.0%
Occupancy costs	7,354	25.6%	5,098	20.7%
Other direct costs	1,403	4.9%	1,760	7.2%
Costs of franchise and license revenue	\$ 8,757	30.5%	\$ 6,858	27.9%

Royalties increased by \$1.0 million, or 6.0%, primarily resulting from a 141 equivalent-unit increase in franchised and licensed units, as compared to the prior year quarter, offset by the effects of a 6.1% decrease in same-store sales. The increase in equivalent-units resulted from the sale of company-owned restaurants to franchisees. The increase in occupancy revenue of \$2.8 million, or 42.7%, is also primarily the result of the sale of restaurants to franchisees.

Costs of franchise and license revenue increased by \$1.9 million, or 27.7%. The increase in occupancy costs of \$2.3 million, or 44.3%, is primarily the result of the sale of company-owned restaurants to franchisees. Other direct costs decreased by \$0.4 million, or 20.3%, primarily as a result of the reorganization of the field management structure that occurred in the third quarter of 2007. As a percentage of franchise and license revenue, costs of franchise and license revenue increased to 30.5% for the quarter ended September 24, 2008 from 27.9% for the quarter ended September 26, 2007.

Other Operating Costs and Expenses

Other operating costs and expenses such as general and administrative expenses and depreciation and amortization expense relate to both company and franchise operations.

General and administrative expenses are comprised of the following:

	Quarter Ended	
	September 24, 2008	September 26, 2007
	(In thousands)	
Share-based compensation	\$ 849	\$ 681
General and administrative expenses	14,045	15,293
Total general and administrative expenses	\$ 14,894	\$ 15,974

The \$1.2 million decrease in general and administrative expenses is due primarily to the reorganization to support our ongoing transition to a franchise-focused business model.

Depreciation and amortization is comprised of the following:

	Quarter Ended	
	September 24, 2008	September 26, 2007
	(In thousands)	
Depreciation of property and equipment	\$ 7,706	\$ 9,423
Amortization of capital lease assets	871	1,181
Amortization of intangible assets	1,400	1,513
Total depreciation and amortization expense	\$ 9,977	\$ 12,117

The overall decrease in depreciation and amortization expense is due primarily to the sale of company-owned restaurants to franchisees during fiscal 2007 and 2008.

Operating gains, losses and other charges, net are comprised of the following:

	Quarter Ended	
	September 24, 2008	September 26, 2007
	(In thousands)	
Gains on sales of assets and other, net	\$ (5,290)	\$ (4,197)
Restructuring charges and exit costs	752	3,701
Impairment charges	244	180
Operating gains, losses and other charges, net	\$ (4,294)	\$ (316)

During the quarter ended September 24, 2008, we recognized \$3.5 million of gains on the sale of 21 restaurant operations to six franchisees for net proceeds of \$8.3 million compared to \$2.4 million of gains on the sale of 22 restaurant operations to eight franchisees for net proceeds of \$8.7 million during the prior year quarter. The remaining gains for the two periods resulted from the sale of real estate related to closed restaurants and restaurants operated by franchisees and the recognition of deferred gains.

Restructuring charges and exit costs were comprised of the following:

	Quarter Ended	
	September 24, 2008	September 26, 2007
	(In thousands)	

Edgar Filing: DENNYS CORP - Form 10-Q

Exit costs	\$	821	\$	276
Severance and other restructuring charges		(69)		3,425
Total restructuring and exit costs	\$	752	\$	3,701

The \$3.7 million in severance and other restructuring charges recognized during the quarter ended September 26, 2007 primarily related to the reorganization of the field management structure.

Operating income was \$20.7 million for the quarter ended September 24, 2008 compared with \$15.9 million for the quarter ended September 26, 2007.

Interest expense, net is comprised of the following:

	Quarter Ended	
	September 24, 2008	September 26, 2007
	(In thousands)	
Interest on senior notes	\$ 4,363	\$ 4,363
Interest on credit facilities	2,178	3,871
Interest on capital lease liabilities	989	960
Letters of credit and other fees	498	571
Interest income	(232)	(401)
Total cash interest	7,796	9,364
Amortization of deferred financing costs	273	301
Interest accretion on other liabilities	692	824
Total interest expense, net	\$ 8,761	\$ 10,489

The decrease in interest expense resulted primarily from the repayment of \$15.9 million and \$100.3 million on the credit facilities during 2008 and 2007, respectively.

The provision for income taxes was \$0.7 million and \$0.4 million for the quarter ended September 24, 2008 and September 26, 2007, respectively. The provision for income taxes for the quarters of 2008 and 2007 was determined using our effective rate estimated for the entire fiscal year. The quarter ended September 24, 2008 also included the recognition of \$0.6 million of current tax benefits. This item resulted from the enactment of certain federal laws that benefited us during the third quarter of 2008. We have provided valuation allowances related to any benefits from income taxes resulting from the application of a statutory tax rate to our net operating losses ("NOL") generated in previous periods. In addition, during 2008 and 2007, we utilized certain federal and state NOL carryforwards whose valuation allowances were established in connection with fresh start reporting on January 7, 1998. Accordingly, for the quarter ended September 24, 2008 and September 26, 2007, we recognized an increase of approximately \$0.1 million and a decrease of \$0.4 million, respectively, of federal and state deferred tax expense with a corresponding adjustment to the goodwill that was recorded in connection with fresh start reporting on January 7, 1998. The reduction in our effective tax rate for the quarter ended September 24, 2008, as compared to the quarter ended September 26, 2007, was due primarily to the utilization of federal net operating loss carryforwards during 2007 from periods prior to fresh start reporting on January 7, 1998. These federal net operating loss carryforwards were fully utilized during fiscal 2007. We still have certain state net operating loss carryforwards from periods prior to fresh start reporting that have been utilized in both fiscal 2007 and 2008.

Edgar Filing: DENNYS CORP - Form 10-Q

Net income was \$10.6 million for the quarter ended September 24, 2008 compared with \$5.0 million for the quarter ended September 26, 2007 due to the factors noted above.

Company Restaurant Operations

During the three quarters ended September 24, 2008, we incurred a 0.9% decrease in same-store sales, comprised of a 6.3% increase in guest check average and a 6.7% decrease in guest counts. Company restaurant sales decreased \$157.5 million, or 24.2%, primarily resulting from a 136 equivalent-unit decrease in company-owned restaurants. The decrease in equivalent-units primarily resulted from the sale of company-owned restaurants to franchisees as part of our Franchise Growth Initiative.

Total costs of company restaurant sales as a percentage of company restaurant sales decreased to 87.8% from 88.4%. Product costs decreased to 24.3% from 25.7% due to favorable shifts in menu mix. Payroll and benefits increased to 42.2% from 42.0% primarily as a result of increased workers compensation, group insurance and management staffing costs, offset by a decrease in restaurant staffing related to improved scheduling. Occupancy costs increased to 6.1% from 6.0%. Other operating expenses were comprised of the following amounts and percentages of company restaurant sales:

	Three Quarters Ended

Other operating expenses	\$ 75,322	15.3%	\$ 95,937	14.7%

The overall decrease in other operating expenses primarily results from the sale of company-owned restaurants to franchisees. As a percentage of company restaurant sales, other direct costs in fiscal 2007 benefited from \$0.6 million

of insurance proceeds resulting from income lost due to hurricanes.

Franchise Operations

Franchise and license revenue and costs of franchise and license revenue were comprised of the following amounts and percentages of franchise and license revenue for the periods indicated:

	Three Quarters Ended			
	September 24, 2008		September 26, 2007

Other direct costs	4,687	5.7%	5,634	8.3%
Costs of franchise and license revenue	\$ 25,448	31.0%	\$ 20,266	29.7%

Royalties increased by \$4.7 million, or 9.9%, primarily resulting from a 141 equivalent-unit increase in franchised and licensed units, as compared to the prior year period, offset by the effects of a 3.6% decrease in same-store sales. The increase in equivalent-units resulted from the sale of company-owned restaurants to franchisees. The increase in occupancy revenue of \$8.5 million, or 47.1%, is also primarily the result of the sale of company-owned restaurants to franchisees.

Costs of franchise and license revenue increased by \$5.2 million, or 25.6%. The increase in occupancy costs of \$6.1 million, or 41.9%, is primarily the result of the sale of company-owned restaurants to franchisees. Other direct costs benefited by \$0.9 million, or 16.8%, primarily as a result of the reorganization of the field management structure that occurred in the third quarter of 2007. As a percentage of franchise and license revenue, costs of franchise and license revenue increased to 31.0% for the three quarters ended September 24, 2008, as compared to 29.7% for the three quarters ended September 26, 2007.

Other Operating Costs and Expenses

General and administrative expenses are comprised of the following:

	Three Quarters Ended	
	September 24, 2008	September 26, 2007

Share-based compensation	\$ 2,511	\$ 3,000
General and administrative expenses	43,535	46,067
Total general and administrative expenses	\$ 46,046	\$ 49,067

The decrease in share-based compensation expense is primarily due to the adjustment of the liability classified restricted stock units to fair value as of September 24, 2008. The \$2.5 million decrease in general and administrative expenses is due primarily to the reorganization to support our ongoing transition to a franchise-focused business model.

Depreciation and amortization is comprised of the following:

	Three Quarters Ended	
	September 24, 2008	September 26, 2007
	(In thousands)	
Depreciation of property and equipment	\$ 23,247	\$ 28,860

During the three quarters ended September 24, 2008, we recognized \$15.4 million of gains on the sale of 62 restaurant operations to 17 franchisees for net proceeds of \$30.2 million compared to \$15.3 million of gains on the sale of 56 restaurant operations to 12 franchisees for net proceeds of \$30.6 million during the prior year period. The remaining gains for the two periods resulted from the sale of real estate related to closed restaurants and restaurants operated by franchisees and the recognition of deferred gains.

Restructuring charges and exit costs were comprised of the following:

Exit costs	\$ 2,476	\$ 1,011
Severance and other restructuring charges	5,030	4,520
Total restructuring and exit costs	\$ 7,506	\$ 5,531

During the three quarters ended September 24, 2008, we recognized \$5.0 million in severance and other restructuring charges related to a reorganization to support our ongoing transition to a franchise-focused business model. The reorganization led to the elimination of approximately 50 positions.

Operating income was \$50.5 million for the three quarters ended September 24, 2008 compared with \$51.8 million for the three quarters ended September 26, 2007.

Interest expense, net is comprised of the following:

	Three Quarters Ended	
	September 24, 2008	September 26, 2007
	(In thousands)	
Interest on senior notes	\$ 13,089	\$ 13,089

Amortization of deferred financing costs	827	886
Interest accretion on other liabilities	2,122	2,443
Total interest expense, net	\$ 26,845	\$ 32,783

The decrease in interest expense resulted primarily from the repayment of \$15.9 million and \$100.3 million on the credit facilities during 2008 and 2007, respectively.

Other nonoperating expenses, net were \$4.4 million for the three quarters ended September 24, 2008 compared with other nonoperating income of \$0.4 million for the three quarters ended September 26, 2007. Approximately \$3.1 million of the increase in other nonoperating expense resulted from the discontinuance of hedge accounting related to the interest rate swap. The \$3.1 million increase is comprised of a \$2.2 million change in the fair value of the swap and \$0.9 million of amortization of losses included in accumulated other comprehensive income.

The provision for income taxes was \$1.4 million and \$2.8 million for the three quarters ended September 24, 2008 and September 26, 2007, respectively. The provision for income taxes for the three quarters of 2008 and 2007 was determined using our effective rate estimated for the entire fiscal year. The three quarters ended September 24, 2008 also included the recognition of \$0.6 million of current tax benefits. This item resulted from the enactment of certain federal laws that benefited us during the third quarter of 2008. The three quarters ended September 26, 2007 also included the recognition of \$0.3 million of current tax benefits and a \$0.6 million reduction to the valuation allowance. These items resulted from the enactment of certain federal and state laws that benefited us during the second quarter of 2007. We have provided valuation allowances related to any benefits from income taxes resulting from the application of a statutory tax rate to our net operating losses (“NOL”) generated in previous periods. In addition, during 2008 and 2007, we utilized certain federal and state NOL carryforwards whose valuation allowances were established in connection with fresh start reporting on January 7, 1998. Accordingly, for the three quarters ended September 24, 2008 and September 26, 2007, we recognized approximately \$0.0 million and \$2.9 million, respectively, of federal and state deferred tax expense with a corresponding reduction to the goodwill that was recorded in connection with fresh start reporting on January 7, 1998. The reduction in our effective tax rate for the three quarters ended September 24, 2008, as compared to the three quarters ended September 26, 2007, was due primarily to the utilization of federal net operating loss carryforwards during 2007 from periods prior to fresh start reporting on January 7, 1998. These federal net operating loss carryforwards were fully utilized during fiscal 2007. We still have certain state net operating loss carryforwards from periods prior to fresh start reporting that have been utilized in both fiscal 2007 and 2008.

Net income was \$17.8 million for the three quarters ended September 24, 2008 compared with \$16.6 million for the three quarters ended September 26, 2007 due to the factors noted above.

Liquidity and Capital Resources

Our primary sources of liquidity and capital resources are cash generated from operations, borrowings under our Credit Facility (as defined in Note 7) and, in recent years, cash proceeds from the sale of surplus properties and sales of restaurant operations to franchisees. Principal uses of cash are operating expenses, capital expenditures and debt repayments.

The following table presents a summary of our sources and uses of cash and cash equivalents for the periods indicated:

	Three Quarters Ended	
	September 24, 2008	September 26, 2007
	(In thousands)	
Net cash provided by operating activities	\$ 7,954	\$ 35,444
Net cash provided by investing activities	10,218	14,002
Net cash used in financing activities	(18,315)	(46,597)
Net increase (decrease) in cash and cash equivalents	\$ (143)	\$ 2,849

The decrease in operating cash flows primarily resulted from the runoff of working capital deficit following the sale of restaurant operations to franchisees and the timing of certain operating expense payments. We believe that our estimated cash flows from operations for 2008, combined with our capacity for additional borrowings under our credit facility, will enable us to meet our anticipated cash requirements and fund capital expenditures over the next twelve months.

Net cash flows provided by investing activities were \$10.2 million for the three quarters ended September 24, 2008. These cash flows primarily represent net proceeds of \$31.4 million on sales of restaurant operations to franchisees, real estate related to restaurants operated by franchisees and other assets. The proceeds were offset by capital

expenditures of \$25.7 million for the three quarters ended September 24, 2008, of which \$4.5 million was financed through capital leases. Our principal capital requirements have been largely associated with the maintenance of our existing company-owned restaurants and facilities, new construction, remodeling and our strategic initiatives, as follows:

	Three Quarters Ended	
	September 24, 2008	September 26, 2007
	(In thousands)	
Facilities	\$ 7,393	\$ 9,417
New construction	4,567	5,533
Remodeling	6,434	3,288
Strategic initiatives	2,502	24
Other	277	545
Total capital expenditures	21,173	18,807
Acquisitions	—	2,208
Total capital expenditures and acquisitions	\$ 21,173	\$ 21,015

Cash flows used in financing activities were \$18.3 million for the three quarters ended September 24, 2008, which included \$14.8 million of prepayments and \$4.4 million of scheduled debt payments made through a combination of asset sale proceeds, as noted above, and surplus cash.

Our credit facility consists of a \$50 million revolving credit facility (including up to \$10 million for a revolving letter of credit facility), a \$136.7 million term loan and an additional \$37 million letter of credit facility. At September 24, 2008 we had outstanding letters of credit of \$35.4 million (comprised of \$35.2 million under our letter of credit facility and \$0.2 million under our revolving facility). There were no revolving loans outstanding at September 24, 2008. These balances result in availability of \$1.8 million under our letter of credit facility and \$49.8 million under the revolving facility.

The revolving facility matures on December 15, 2011. The term loan and the \$37 million letter of credit facility mature on March 31, 2012. The term loan amortizes in equal quarterly installments at a rate equal to approximately 1% per annum with all remaining amounts due on the maturity date. The credit facility is available for working capital, capital expenditures and other general corporate purposes. We will be required to make mandatory prepayments under certain circumstances (such as required payments related to asset sales) typical for this type of credit facility and may make certain optional prepayments under the credit facility.

The credit facility is guaranteed by Denny's Corporation and its other subsidiaries and is secured by substantially all of the assets of Denny's and its subsidiaries. In addition, the credit facility is secured by first-priority mortgages on 118 company-owned real estate assets. The credit facility contains certain financial covenants (i.e., maximum total debt to EBITDA (as defined under the credit facility) ratio requirements, maximum senior secured debt to EBITDA ratio requirements, minimum fixed charge coverage ratio requirements and limitations on capital expenditures), negative covenants, conditions precedent, material adverse change provisions, events of default and other terms, conditions and provisions customarily found in credit agreements for facilities and transactions of this type. We were in compliance with the terms of the credit facility as of September 24, 2008.

As of September 24, 2008, interest on loans under the revolving facility is payable at per annum rates equal to LIBOR plus 250 basis points and will adjust over time based on our leverage ratio. Interest on the term loan and letter of credit facility is payable at per annum rates equal to LIBOR plus 200 basis points. Prior to considering the impact of the interest rate swap, the weighted-average interest rate under the term loan was 4.8% as of September 24, 2008.

Our working capital deficit was \$58.3 million at September 24, 2008 compared with \$73.6 million at December 26, 2007. We are able to operate with a substantial working capital deficit because (1) restaurant operations and most food service operations are conducted primarily on a cash (and cash equivalent) basis with a low level of accounts receivable, (2) rapid turnover allows a limited investment in inventories, and (3) accounts payable for food, beverages and supplies usually become due after the receipt of cash from the related sales.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We have exposure to interest rate risk related to certain instruments entered into for other than trading purposes. Specifically, borrowings under the term loan and revolving credit facility bear interest at variable rates based on LIBOR plus a spread of 200 basis points per annum for the term loan and letter of credit facility and 250 basis points per annum for the revolving credit facility.

During the second quarter of fiscal 2007, we entered into an interest rate swap with a notional amount of \$150 million to hedge a portion of the cash flows of our variable rate debt. The interest rate swap economically hedges our exposure to variability in future cash flows attributable to interest payments on the first \$150 million of floating rate debt. Under the terms of the swap, through March 26, 2008, we paid a fixed rate of 4.8925% on the \$150 million notional amount and received payments from the counterparties based on the 3-month LIBOR rate for a term ending on March 30, 2010, effectively resulting in a fixed rate of 6.8925% on the \$150 million notional amount. On March 26, 2008, we terminated \$50 million of the notional amount of the interest rate swap. As of September 24, 2008, the swap effectively increases our ratio of fixed rate debt from approximately 56% of total debt to approximately 88% of total debt.

Based on the levels of borrowings under the credit facility at September 24, 2008, if interest rates changed by 100 basis points our annual cash flow and income before income taxes would change by approximately \$0.4 million. This computation is determined by considering the impact of hypothetical interest rates on the variable rate portion of the credit facility at September 24, 2008. However, the nature and amount of our borrowings under the credit facility may vary as a result of future business requirements, market conditions and other factors.

Our other outstanding long-term debt bears fixed rates of interest. The estimated fair value of our fixed rate long-term debt (excluding capital lease obligations and revolving credit facility advances) was approximately \$161.4 million, compared with a book value of \$175.4 million at September 24, 2008. This computation is based on market quotations for the same or similar debt issues or the estimated borrowing rates available to us. Specifically, the difference between the estimated fair value of long-term debt compared with its historical cost reported in our consolidated balance sheets at September 24, 2008 relates primarily to market quotations for our Denny's Holdings, Inc. 10% Senior Notes due 2012.

We also have exposure to interest rate risk related to our pension plan, other defined benefit plans and self-insurance liabilities. A 25 basis point increase or decrease in discount rate would decrease or increase our projected benefit obligation related to our pension plan and other defined benefit plans by \$1.7 million and \$0.1 million, respectively, and impact our net periodic benefit cost related to our pension plan by \$0.1 million. The impact of a 25 basis point increase or decrease in discount rate on periodic benefit costs related to our other defined benefit plans would be less than \$0.1 million. A 25 basis point increase or decrease in discount rate related to our self-insurance liabilities would result in a decrease or increase of \$0.2 million, respectively.

Commodity Price Risk

We purchase certain food products such as beef, poultry, pork, eggs and coffee, and utilities such as gas and electricity, which are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors that are outside our control and which are generally unpredictable. Changes in commodity prices affect us and our competitors generally and often simultaneously. In general, we purchase food products and utilities based upon market prices established with vendors. Although many of the items purchased are subject to changes in commodity prices, the majority of our purchasing arrangements are structured to contain features that minimize price volatility by establishing fixed pricing and/or price ceilings and floors. We use these types of purchase arrangements to control costs as an alternative to using financial instruments to hedge commodity prices. We have determined that our purchasing agreements do not qualify as derivative financial instruments or contain embedded derivative instruments. In many cases, we believe we will be able to address commodity cost increases which are significant and appear to be long-term in nature by adjusting our menu pricing or changing our product delivery strategy. However, competitive circumstances could limit such actions and, in those circumstances, increases in commodity prices could lower our margins. Because of the often short-term nature of commodity pricing aberrations and our ability to change menu pricing or product delivery strategies in response to commodity price increases, we believe that the impact of commodity price risk is not significant.

We have established a policy to identify, control and manage market risks which may arise from changes in interest rates, commodity prices and other relevant rates and prices. We do not enter into financial instruments for trading or speculative purposes.

Item 4. Controls and Procedures

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended, (the "Exchange Act") our management conducted an evaluation (under the supervision and with the participation of our President and Chief Executive Officer, Nelson J. Marchioli, and our Executive Vice President, Growth Initiatives, Chief Administrative Officer and Chief Financial Officer, F. Mark Wolfinger) as of the end of the period covered by this report, of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) under the Exchange Act. Based on that evaluation, Messrs. Marchioli and Wolfinger each concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and is accumulated and communicated to our management, including our principal executive officer and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) of the Exchange Act that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

There are various claims and pending legal actions against or indirectly involving us, including actions concerned with civil rights of employees and guests, other employment related matters, taxes, sales of franchise rights and businesses and other matters. Based on our examination of these matters and our experience to date, we have recorded our best estimate of legal and financial liabilities, if any, with respect to these matters. However, the ultimate disposition of these matters cannot be determined with certainty.

Item 1A. Risk Factors

Risks that could have a negative impact on our business, revenues and performance results include risks associated with the following:

- Our business may be adversely affected by changes in consumer tastes, economic conditions, demographic trends, bad publicity, regional weather conditions and increased supply and labor costs
- Our growth strategy, including the Franchise Growth Initiative and Market Growth Incentive Plan, depends on our ability and that of our franchisees to open new restaurants. Delays or failures in opening new restaurants could materially and adversely affect our planned growth.
- A majority of Denny’s restaurants are owned and operated by independent franchisees, and as a result the financial performance of franchisees can negatively impact our business.

A more detailed description of each of these risk factors can be found under the caption “Risk Factors” in our Annual Report on Form 10-K for the year ended December 26, 2007. We encourage you to read these risk factors in their entirety. Other factors may also exist that we cannot anticipate or that we do not consider to be significant based on information that is currently available.
