THE FINISH LINE, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. Summary of Significant Accounting Policies

Basis of Presentation. The accompanying unaudited consolidated financial statements of The Finish Line, Inc., along with its consolidated subsidiaries (individually and collectively referred to as the “Company”), have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by GAAP for complete financial statements. Preparation of the financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, considered necessary for a fair presentation, have been included. All intercompany transactions and balances have been eliminated.

The Company has experienced, and expects to continue to experience, significant variability in sales, net income and merchandise inventories from reporting period to reporting period. Therefore, the results of the interim periods presented herein are not necessarily indicative of the results to be expected for any other interim period or the full year.

These financial statements should be read in conjunction with the financial statements and notes thereto contained in the Company’s Annual Report on Form 10-K for the year ended March 1, 2014 (“fiscal 2014”), as filed with the Securities and Exchange Commission (“SEC”) on April 29, 2014.

Segment Information. The Company is a premium retailer of athletic shoes, apparel and accessories for men, women and kids, throughout the United States, through four operating segments: brick and mortar stores, digital (which includes internet, mobile and tablet), shops within department stores and Running Specialty. Given the similar economic characteristics of brick and mortar stores, digital and shops within department stores, which include a similar nature of products sold, type of customer and method of distribution, and Running Specialty being immaterial, the Company’s operating segments are aggregated into one reportable segment. The following table sets forth net sales of the Company by major category for each of the following periods (in thousands):

Category	Thirteen Weeks Ended					
	August 30, 2014		August 31, 2013			
Footwear	\$417,827	89	%	\$389,325	89	%
Softgoods	49,053	11	%	46,705	11	%
Total net sales	\$466,880	100	%	\$436,030	100	%

Category	Twenty-Six Weeks Ended					
	August 30, 2014		August 31, 2013			
Footwear	\$787,017	90	%	\$705,176	90	%
Softgoods	86,394	10	%	81,907	10	%
Total net sales	\$873,411	100	%	\$787,083	100	%

The brick and mortar stores and digital operating segments are collectively referred to as “Finish Line” throughout this document.

Recent Accounting Pronouncements. In April 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-08, Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This guidance states that the disposal of a component of an entity is to be reported in discontinued operations only if the disposal represents a strategic shift that has (or will have) a major effect on an entity’s operations and financial results. The pronouncement also requires additional disclosures regarding individually significant disposals of components that do not meet the criteria to be recognized as a discontinued operation as well as additional and expanded disclosures. The guidance is effective for all disposals (or classifications as held for sale) of components of an entity and all businesses or nonprofit activities that, on acquisition, are classified as held for sale that occur within annual periods beginning on or after December 15, 2014, and interim periods within annual periods beginning on or after December 15, 2015; it is applied prospectively. Early adoption is permitted, but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issuance. The adoption of this guidance did not have a material impact on our consolidated financial position, results of operations or cash flows.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, to clarify the principles used to recognize revenue for all entities. The new guidance is effective for annual and interim periods beginning after December 15, 2016, with no early adoption permitted. The Company is currently evaluating the impact, if any, the adoption of this guidance will have on its financial position, results of operations and cash flows.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements - Going Concern, which requires management to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern and provide related footnote disclosures. The guidance is effective for annual and interim reporting periods beginning on or after December 15, 2016. Early adoption is permitted for financial statements that have not been previously issued. The standard allows for either a full retrospective or modified retrospective transition method. The Company does not expect this standard to have a material impact on the Company’s consolidated financial statements upon adoption.

2. Acquisitions and Goodwill

During the twenty-six weeks ended August 30, 2014, the Company completed one immaterial acquisition of assets for total consideration of \$4.3 million, net of cash acquired, which was funded through the Company’s existing cash. In addition to the cash consideration, the transaction included aggregate contingent consideration with an estimated fair value of \$0.4 million, which is included within other long-term liabilities on the consolidated balance sheets. The Company determined the estimated fair value based on a discounted cash flow analysis and estimates made by management. The entity from which the assets were acquired operated eight specialty running stores in Michigan. In connection with this acquisition, the Company recorded goodwill of \$3.8 million during the twenty-six weeks ended August 30, 2014. Goodwill is deductible for U.S. federal income tax purposes.

The Company allocated the aggregated preliminary purchase price for the acquisition based upon the tangible and intangible assets acquired, net of liabilities. The allocation of the preliminary purchase price is detailed below (in thousands):

	Allocation of Purchase Price
Goodwill	\$3,811
Tangible assets, net of liabilities	821
Contingent consideration	(350)
Total purchase price	\$4,282

During fiscal 2014, the Company completed four individually immaterial acquisitions of assets for total consideration of \$13.4 million, net of cash acquired, which were funded through the Company’s existing cash. In addition to cash consideration, the transactions included aggregate contingent consideration with an estimated fair value of \$0.5 million, which is included within other long-term liabilities on the consolidated balance sheets. The Company determined the estimated fair value based on discounted cash flow analyses and estimates made by management. The entities from which the assets were acquired operated fifteen specialty running stores in Ohio, Kentucky, Indiana,

Colorado and Virginia. In connection with these acquisitions, the Company recorded goodwill of \$11.6 million during fiscal 2014.

7

During the twenty-six weeks ended August 30, 2014, the Company made the final working capital payments for two of the fiscal 2014 acquisitions, which did not have a material effect on the preliminary purchase price allocation. The Company allocated the aggregated preliminary purchase price based upon the tangible and intangible assets acquired, net of liabilities. The allocation of the preliminary purchase price for the fiscal 2014 acquisitions is detailed below (in thousands):

	Allocation of Purchase Price
Goodwill	\$11,647
Tangible assets, net of liabilities	2,190
Contingent consideration	(450)
Total purchase price	\$13,387

A reconciliation of goodwill is detailed below (in thousands):

	Goodwill
Balance as of March 2, 2013	\$13,888
Acquisitions	11,608
Other	112
Balance as of March 1, 2014	25,608
Acquisitions	3,811
Other	39
Balance as of August 30, 2014	\$29,458

3. Fair Value Measurements

Fair value measurements are determined based upon the exit price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants exclusive of any transaction costs. The Company utilizes a fair value hierarchy based upon the observability of inputs used in valuation techniques as follows:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs in which there is little or no market data, which require the Company to develop its own assumptions.

The following table provides a summary of the recognized assets and liabilities that are measured at fair value on a recurring basis (in thousands):

	August 30, 2014			August 31, 2013			March 1, 2014		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Assets:									
Non-qualified deferred compensation plan	\$6,279	\$—	\$—	\$5,238	\$—	\$—	\$5,869	\$—	\$—
Liabilities:									
Contingent consideration liabilities	\$—	\$—	\$800	\$—	\$—	\$1,903	\$—	\$—	\$1,903

Included in Level 1 assets are mutual fund investments under a non-qualified deferred compensation plan. The Company estimates the fair value of these investments on a recurring basis using readily available market prices.

As of August 30, 2014, the Company had two liabilities that are measured at fair value on a recurring basis related to the contingent consideration for two acquisitions for \$0.8 million. The liabilities are adjusted to fair value each reporting period. The categorization of the framework used to price the liabilities is considered Level 3, due to the subjective nature of the unobservable inputs used to determine the fair values.

There were no transfers into or out of Level 1, Level 2 or Level 3 assets or liabilities for any of the periods presented.

Level 3 Valuation Techniques

Financial assets and liabilities are considered Level 3 when their fair values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable.

The following table provides a reconciliation of the Company's Level 3 contingent consideration liabilities during the twenty-six weeks ended August 30, 2014 (in thousands):

	Level 3 Liabilities
Balance as of March 1, 2014	\$1,903
Contingent consideration from acquisition	350
Settlement of contingent consideration	(1,453)
Balance as of August 30, 2014	\$800

The Company has certain assets that are measured at fair value on a non-recurring basis and are adjusted to fair value under certain circumstances that include those described in Note 8, Impairment Charges. The categorization used to price the assets is considered a Level 3 measurement due to the subjective nature of the unobservable inputs used to determine the fair values.

Additionally, in connection with the acquisitions and purchase price allocations that are described in Note 2, Acquisitions and Goodwill, the Company recognized the acquired assets and liabilities at fair value. All amounts are recognized as Level 3 measurements due to the subjective nature of the unobservable inputs used to determine the fair values.

4. Debt Agreement

On November 30, 2012, the Company entered into an unsecured \$100 million Amended and Restated Revolving Credit Facility Credit Agreement (the "Amended Credit Agreement") with certain Lenders, which expires on November 30, 2017. The Amended Credit Agreement provides that, under certain circumstances, the Company may increase the maximum amount of the credit facility in an aggregate principal amount not to exceed \$200 million. The Amended Credit Agreement will be used by the Company, among other things, to issue letters of credit, support working capital needs, fund capital expenditures and other general corporate purposes.

Approximately \$1.9 million in stand-by letters of credit were outstanding as of August 30, 2014 under the Amended Credit Agreement. No advances were outstanding under the Amended Credit Agreement as of August 30, 2014. Accordingly, the total revolving credit availability under the Amended Credit Agreement was \$98.1 million as of August 30, 2014.

The Company's ability to borrow monies in the future under the Amended Credit Agreement is subject to certain conditions, including compliance with certain covenants and making certain representations and warranties. The Amended Credit Agreement contains restrictive covenants that limit, among other things, mergers and acquisitions. In addition, the Company must maintain a maximum leverage ratio (as defined in the Amended Credit Agreement) and minimum consolidated tangible net worth (as defined in the Amended Credit Agreement). The Company was in compliance with all such covenants as of August 30, 2014.

The Amended Credit Agreement pricing grid is adjusted quarterly and is based on the Company's leverage ratio (as defined in the Amended Credit Agreement). The minimum pricing is LIBOR plus 0.90% or Base Rate (as defined in the Amended Credit Agreement) and the maximum pricing is LIBOR plus 1.75% or Base Rate plus 0.75%. The Company is subject to an unused commitment fee based on the Company's leverage ratio with minimum pricing of 0.10% and maximum pricing of 0.25%. In addition, the Company is subject to a letter of credit fee based on the Company's leverage ratio with minimum pricing of 0.40% and maximum pricing of 1.25%.

5. Start-Up Costs

The Company entered into a department license agreement and an on-line shop license agreement (the “Agreements”) with Macy’s, Inc. (“Macy’s”) whereby the Company is the exclusive provider of men’s, women’s and kids’ athletic shoes (“Athletic Shoes”) within Macy’s stores and macys.com. The Company merchandises and fulfills inventory at all of Macy’s locations, and will perform in-store build outs and staffing at up to approximately 400 of Macy’s locations. The Company incurred start-up costs to accommodate a conversion of Macy’s Athletic Shoes inventory to Finish Line assortments. The Company took full control of Macy’s Athletic Shoes inventory at Macy’s department store locations as of April 14, 2013 and macys.com as of May 14, 2013. As a part of the conversion, the Company agreed to purchase certain of Macy’s Athletic Shoes at Macy’s original cost.

The charges from start-up costs related to the Agreements with Macy’s included the following: freight and handling of inventory from Macy’s to the Company; leased warehouse space at a third party for sorting; and inventory reserves established for inventory purchased from Macy’s to record at the lower of cost or market.

For the twenty-six weeks ended August 31, 2013, the Company incurred \$5.8 million in start-up costs in cost of sales and \$2.2 million in selling, general and administrative expenses within the consolidated statements of income for a combined \$8.0 million. No start-up costs were incurred during the twenty-six weeks ended August 30, 2014.

6. Earnings Per Share

Basic earnings per share attributable to The Finish Line, Inc. shareholders is calculated by dividing net income attributable to The Finish Line, Inc. associated with common shareholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share attributable to The Finish Line, Inc. shareholders assumes the issuance of additional shares of common stock by the Company upon exercise of all outstanding stock options and contingently issuable securities if the effect is dilutive, in accordance with the treasury stock method or two-class method (whichever is more dilutive) discussed in Accounting Standards Codification (“ASC”) 260-10, Earnings Per Share.

ASC 260-10 requires the inclusion of restricted stock as participating securities, since they have the right to share in dividends, if declared, equally with common shareholders. During periods of net income, participating securities are allocated a proportional share of net income attributable to The Finish Line, Inc. determined by dividing total weighted average participating securities by the sum of total weighted average common shares and participating securities (“the two-class method”). During periods of net loss, no effect is given to participating securities since they do not share in the losses of the Company. Participating securities have the effect of diluting both basic and diluted earnings per share during periods of net income.

The following is a reconciliation of the numerators and denominators used in computing earnings per share (in thousands, except per share amounts):

Diluted weighted-average number of common shares outstanding	48,202	48,757	48,281	48,744
Diluted earnings per share attributable to The Finish Line, Inc. shareholders	\$0.54	\$0.54	\$0.79	\$0.64

The computation of diluted earnings per share attributable to The Finish Line, Inc. shareholders excludes options to purchase approximately 0.7 million and 1.3 million shares of common stock in the thirteen weeks ended August 30, (a)2014 and August 31, 2013, respectively, and 0.6 million and 1.3 million shares of common stock in the twenty-six weeks ended August 30, 2014 and August 31, 2013, respectively, because the impact of such options would have been anti-dilutive.

7. Common Stock

On July 21, 2011, the Company's Board of Directors authorized a share repurchase program (the "2011 Share Repurchase Program") to repurchase up to 5,000,000 shares of the Company's common stock outstanding through December 31, 2014. On January 3, 2013, the Company's Board of Directors amended the 2011 Share Repurchase Program (the "Amended Program") and authorized the repurchase of an additional 5,000,000 shares of the Company's common stock, which authorization shall expire on December 31, 2017.

The Company purchased 833,333 shares at an average price of \$26.69 per share for an aggregate amount of \$22.2 million during the twenty-six weeks ended August 30, 2014. As of August 30, 2014, there were 3,071,170 shares remaining available to repurchase under the Amended Program.

As of August 30, 2014, the Company held as treasury shares 11,962,612 shares of its common stock at an average price of \$19.00 per share for an aggregate carrying amount of \$227.3 million. The Company's treasury shares may be issued upon the exercise of employee stock options, under the Employee Stock Purchase Plan, in the form of restricted stock or for other corporate purposes. Further purchases will occur from time to time as market conditions warrant and as the Company deems appropriate when judged against other alternative uses of cash.

On July 17, 2014, the Company announced a quarterly cash dividend of \$0.08 per share of the Company's common stock. The Company declared dividends of \$7.7 million during the twenty-six weeks ended August 30, 2014, of which \$3.9 million was included in other liabilities and accrued expenses on the Company's consolidated balance sheet as of August 30, 2014 and was paid on September 15, 2014 to shareholders of record on August 29, 2014. Further

declarations of dividends remain at the discretion of the Company's Board of Directors.

8. Impairment Charges

The \$2.3 million in impairment charges that were recorded during the twenty-six weeks ended August 30, 2014 were primarily the result of a \$2.1 million charge for the write-off of assets related to one of the Company's websites, as the Company determined that the website was no longer going to be used for its originally intended purpose. The remaining impairment charges were related to the write-off of obsolete store fixtures. The asset impairment charges were calculated as the difference between the carrying amount of the impaired assets and their estimated future discounted cash flows.

9. Commitments and Contingencies

Demandware, Inc. (the "Plaintiff") filed an action against the Company in the United States District Court for the Southern District of New York on or about August 12, 2013, alleging breach of contract as it relates to the parties' engagement to replace Finish Line's web commerce platform (the "Dispute"). The Company subsequently filed a counterclaim against the Plaintiff related to the Dispute. During the thirteen weeks ended August 30, 2014, the parties entered into a Settlement Agreement and Release, which, among other things, included a provision releasing both parties of all claims and counterclaims in the matter (the "Settlement"). The Settlement did not have a material adverse effect on the Company's financial position, results of operations or cash flows.

The Company is subject, from time to time, to certain legal proceedings and claims in the ordinary course of conducting its business. Although it is not possible to predict with certainty the eventual outcome of any litigation, in the opinion of management, the Company's legal proceedings are not expected to have a material adverse effect on the Company's financial position, results of operations or cash flows.

10. Stock Plans

General

Total share-based compensation expense for the twenty-six weeks ended August 30, 2014 and August 31, 2013 was \$4.2 million and \$3.4 million, respectively.

Stock Option Activity

Stock options have been granted to directors, officers and other key employees. Generally, options outstanding under the plans are exercisable at a price equal to the fair market value on the date of grant, vest over four years and expire ten years after the date of grant. During the twenty-six weeks ended August 30, 2014 and August 31, 2013, the Company granted approximately 684,000 and 682,000 options, respectively. The estimated weighted-average fair value of the individual options granted during the twenty-six weeks ended August 30, 2014 and August 31, 2013, was \$8.58 and \$8.13, respectively, on the date of the grant. The fair values for all options were determined using a Black-Scholes option-pricing model with the following weighted average assumptions:

	Twenty-Six Weeks Ended		
	August 30, 2014	August 31, 2013	
Dividend yield	1.19	% 1.38	%
Volatility	36.9	% 53.6	%
Risk-free interest rate	1.72	% 0.82	%
Expected life	5.0 years	5.0 years	

The dividend yield assumption is based on the Company's history and expectation of dividend payouts. The expected volatility assumption is based on the Company's analysis of historical volatility. The risk-free interest rate assumption is based upon the average daily closing rates during the period for U.S. treasury notes that have a life, which approximates the expected life of the options. The expected life of employee stock options represents the weighted-average period the stock options are expected to remain outstanding based on historical exercise experience. As of August 30, 2014, there was \$9.5 million of total unrecognized compensation expense, net of estimated forfeitures, related to non-vested options. That expense is expected to be recognized over a weighted average period of 1.9 years.

Restricted Stock Activity

The Company has granted shares of its common stock to non-employee directors, officers and other key employees that are subject to restrictions. The restricted stock granted to employees under the 2002 and 2009 Incentive Plans either vest upon the achievement of specified levels of net income growth over a three-year period or cliff-vest after a three-year period. For performance-based awards, should the net income criteria not be met over the three-year period, the shares will be forfeited. All restricted stock awards issued to non-employee directors cliff-vest after a one-year period from the grant date. During the twenty-six weeks ended August 30, 2014 and August 31, 2013, the Company granted approximately 208,000 and 321,000 restricted shares, respectively.

As of August 30, 2014, there was \$8.0 million of total unrecognized compensation expense, net of estimated forfeitures, related to non-vested restricted stock. That expense is expected to be recognized over a weighted average period of 2.1 years.

11. Redeemable Noncontrolling Interest

On March 29, 2012, GCPI SR LLC (“GCPI”) made a \$10.0 million strategic investment in Running Specialty, though the Company remained the majority owner. GCPI has the right to “put” and the Company has the right to “call” after March 4, 2017, under certain circumstances, GCPI’s interest in Running Specialty at an agreed upon price approximating fair value. Also, as part of the transaction, GCPI issued to the Company a \$4.0 million related-party promissory note (the “Promissory Note”), which was collateralized with GCPI’s interest in Running Specialty, due March 31, 2021 or earlier depending on certain stipulated events in the control of GCPI. The Promissory Note called for interest payments based in part on a fixed rate and in part on participation in the value of other investments held by GCPI. The balance of the Promissory Note and related accrued interest was zero and \$4.1 million at August 30, 2014 and August 31, 2013, respectively, and is netted against the redeemable noncontrolling interest, net on the consolidated balance sheets.

On April 25, 2014, the Company entered into a Membership Interest Purchase Agreement (“Membership Agreement”) with GCPI to increase Finish Line’s ownership in Running Specialty for a purchase price of \$10.5 million. The Company paid GCPI \$9.0 million of the purchase price in cash at closing after deducting the \$4.1 million balance of the Promissory Note that was due from GCPI to the Company. The remaining \$1.5 million purchase price is due to GCPI upon the earlier of April 30, 2017 or the date of liquidation or consummation of a sale of Running Specialty. The balance of the \$1.5 million liability is included in other long-term liabilities on the consolidated balance sheet. In addition, the Membership Agreement provided an additional “put” to GCPI and “call” to the Company of GCPI’s interest in Running Specialty at an agreed upon price commencing on April 25, 2015 and ending on June 30, 2015, which would close on July 31, 2015.

The redeemable noncontrolling interest is classified as mezzanine equity and measured at the greater of estimated fair value at the end of each reporting period or the historical cost basis of the redeemable noncontrolling interest, net of the Promissory Note and related accrued interest and adjusted for cumulative earnings or loss allocations. The resulting increases or decreases in the estimated redemption amount are affected by corresponding charges against retained earnings, or in the absence of retained earnings, additional paid-in capital. As of August 30, 2014 and August 31, 2013 the redeemable noncontrolling interest was measured at historical cost basis.

A rollforward of redeemable noncontrolling interest, net is detailed below (in thousands):

Net sales increased 7.1% for the thirteen weeks ended August 30, 2014 compared to the thirteen weeks ended August 31, 2013. The increase was attributable to a Finish Line comparable store sales increase of 1.5%, an increase in shops within department stores sales of \$19.6 million and an increase in Running Specialty sales of \$5.3 million. The Finish Line comparable store sales increase of 1.5% is due to an increase in average dollar per transaction, digital traffic and digital conversion, partially offset by a decrease in store conversion and store traffic.

Net sales increased 11.0% for the twenty-six weeks ended August 30, 2014 compared to the twenty-six weeks ended August 31, 2013. The increase was attributable to a Finish Line comparable store sales increase of 3.1%, an increase in shops within department stores sales of \$50.4 million and an increase in Running Specialty sales of \$12.9 million. The Finish Line comparable store sales increase of 3.1% is due to an increase in average dollar per transaction and digital traffic, partially offset by a decrease in digital and store conversion and store traffic.

Gross profit as a percentage of net sales	33.2	% 33.6	% 32.5	% 32.2	%

The 0.4% decrease in gross profit, as a percentage of net sales, for the thirteen weeks ended August 30, 2014 as compared to the thirteen weeks ended August 31, 2013, was primarily due to a 0.1% decrease in product margin, net of shrink, as a percentage of net sales, and a 0.3% increase in occupancy costs, as a percentage of net sales. The 0.1% decrease in product margin, net of shrink, as a percentage of net sales, was primarily due to sales mix being negatively affected by lower basketball sales. The 0.3% increase in occupancy costs, as a percentage of net sales, was primarily due to deleveraging against the 1.5% Finish Line comparable store sales increase.

The 0.3% increase in gross profit, as a percentage of net sales, for the twenty-six weeks ended August 30, 2014 as compared to the twenty-six weeks ended August 31, 2013, was primarily due to a 0.3% increase in product margin, net of shrink, as a percentage of net sales. The 0.3% increase in product margin, net of shrink, as a percentage of net sales, was primarily due to the prior year containing \$5.8 million in start-up costs related to inventory reserves established for inventory purchased from Macy's, while in the current year, Running Specialty took higher markdowns to clear certain of its excess and aged inventory which was partially offset by favorable product margins at Finish

Line.

Selling, general and administrative expenses as a percentage of net sales	24.0	% 23.8	% 25.3	% 25.8	%

The \$8.4 million increase in selling, general and administrative expenses for the thirteen weeks ended August 30, 2014 as compared to the thirteen weeks ended August 31, 2013 was primarily due to the following: (1) the increased cost associated with building teams for the shops within department stores and Running Specialty; (2) variable costs in fulfillment, freight and payroll in conjunction with the 7.1% increase in consolidated net sales; and (3) capital investments to support the Company's technology upgrades, digital platform and omnichannel strategy and to support shops within department stores and Running Specialty, which has increased depreciation by \$0.5 million, or 5.3%, compared to the thirteen weeks ended August 31, 2013.

The \$18.0 million increase in selling, general and administrative expenses for the twenty-six weeks ended August 30, 2014 as compared to the twenty-six weeks ended August 31, 2013 was primarily due to the following: (1) the increased cost associated with building teams for the shops within department stores and Running Specialty; (2) variable costs in fulfillment, freight and payroll in conjunction with the 11.0% increase in consolidated net sales; and (3) capital investments to support the Company's technology upgrades, digital platform and omnichannel strategy and to support shops within department stores and Running Specialty, which has increased depreciation by \$1.3 million, or 7.2%, compared to the twenty-six weeks ended August 31, 2013. These increases were partially offset by \$2.2 million in start-up costs associated with shipping and handling for the initial inventory takeover and assortment of Macy's athletic footwear in the prior year.

Diluted earnings per share attributable to The Finish Line, Inc. shareholders	\$0.54	\$0.54	\$0.79	\$0.64	

The \$0.4 million decrease in net income attributable to The Finish Line, Inc. for the thirteen weeks ended August 30, 2014 compared to the thirteen weeks ended August 31, 2013 was primarily due to the decrease in gross profit as a percentage of net sales, the increase in selling, general and administrative expenses to support the increase in sales in shops within department stores and Running Specialty, the increase in impairment charges and the decrease in net loss attributable to redeemable noncontrolling interest in the current year. These decreases were partially offset by an increase in net sales in the current year.

The \$7.0 million increase in net income attributable to The Finish Line, Inc. for the twenty-six weeks ended August 30, 2014 compared to the twenty-six weeks ended August 31, 2013 was primarily due to the increase in net sales, the increase in net loss attributable to redeemable noncontrolling interest due to higher markdowns in Running Specialty in the current year and an \$8.0 million (\$4.9 million net of taxes) charge for start-up costs related to shops within department stores recorded in the twenty-six weeks ended August 31, 2013. These increases were partially offset by the increase in impairment charges and the increase in selling, general and administrative expenses to support the increase in sales in shops within department stores and Running Specialty in the current year.

Liquidity and Capital Resources

The Company's primary source of working capital is cash-on-hand and cash flows from operations. The following table sets forth material balance sheet and liquidity measures of the Company (in thousands):

	August 30, 2014	August 31, 2013	March 1, 2014
Cash and cash equivalents	\$190,583	\$203,832	\$229,079

Operating Activities

Net cash provided by operating activities during the twenty-six weeks ended August 30, 2014 was \$38.8 million compared to net cash provided by operating activities of \$40.6 million for the twenty-six weeks ended August 31, 2013. This decrease was primarily due to a net increase in the cash outflow from working capital balances, which was partially offset by an increase in net income for the twenty-six weeks ended August 30, 2014 compared to the twenty-six weeks ended August 31, 2013.

At August 30, 2014, the Company had cash and cash equivalents of \$190.6 million, which represents a \$13.2 million decrease from August 31, 2013. Cash and cash equivalents consist primarily of cash on hand and highly liquid instruments with a maturity of three months or less at the date of purchase. At August 30, 2014, substantially all of the Company's cash was invested in deposit accounts at banks.

Merchandise inventories increased 11.5% at August 30, 2014 compared to August 31, 2013, and increased 8.5% from March 1, 2014. The increase in merchandise inventories over the prior year quarter is primarily related to the increase in inventory to support the Company's merchandise assortment within shops within department stores and the increase in inventory at Running Specialty to support the increase in stores. The increase in merchandise inventories from March 1, 2014 is due to seasonality as the Company increased inventories for the back to school selling season. Accounts payable increased correspondingly with the increase in merchandise inventories.

Investing Activities

Net cash used in investing activities for the twenty-six weeks ended August 30, 2014 was \$49.4 million compared to \$51.5 million for the twenty-six weeks ended August 31, 2013. The decrease in cash used in investing activities was primarily due to a \$3.6 million decrease in Running Specialty acquisitions in the current year, which was partially offset by a \$0.7 million increase in capital expenditures and a \$0.8 million investment in the current year.

The Company intends to invest approximately \$90-\$95 million in capital expenditures during the Company's fiscal year 2015. Of this amount, approximately \$5 million is intended for the construction of approximately 9 new Finish Line stores and approximately \$18 million is intended for the remodeling or repositioning of existing Finish Line stores with additional brand shops such as Finish Line's Nike Track Club and Brand Jordan, as well as other key brand partnerships for "store-within-store" models. In addition, approximately \$16 million is expected to be spent on building out shops within department stores. The remaining \$51-\$56 million to be invested is related primarily to projected capital expenditures of approximately \$48 million intended for technology investments to support the multi-year core systems upgrade and growth in our digital business and approximately \$3 million to support Running Specialty new store growth and other corporate maintenance, which excludes acquisition capital. The Company anticipates satisfying all of these capital expenditures through the use of cash-on-hand and operating cash flows.

Financing Activities

Net cash used in financing activities for the twenty-six weeks ended August 30, 2014 was \$27.9 million compared to \$12.3 million for the twenty-six weeks ended August 31, 2013. The \$15.6 million increase in cash used in financing activities was primarily due to a \$10.0 million increase in stock repurchases, the purchase of redeemable noncontrolling interest of \$9.0 million, a \$1.0 million increase in dividends paid to shareholders and a \$0.5 million decrease in excess tax benefits from share-based compensation, offset partially by \$4.1 million of proceeds from the repayment of a related-party promissory note and a \$1.1 million increase in proceeds from the issuance of common stock during the twenty-six weeks ended August 30, 2014.

Share Repurchase Program

On July 21, 2011, the Company's Board of Directors authorized a share repurchase program (the "2011 Share Repurchase Program") to repurchase up to 5,000,000 shares of the Company's common stock outstanding through December 31, 2014. On January 3, 2013, the Company's Board of Directors amended the 2011 Share Repurchase Program (the "Amended Program") and authorized the repurchase of an additional 5,000,000 shares of the Company's common stock, which authorization shall expire on December 31, 2017.

The Company purchased 833,333 shares at an average price of \$26.69 per share for an aggregate amount of \$22.2 million during the twenty-six weeks ended August 30, 2014. As of August 30, 2014, there were 3,071,170 shares remaining available to repurchase under the Amended Program.

As of August 30, 2014, the Company held as treasury shares 11,962,612 shares of its common stock at an average price of \$19.00 per share for an aggregate carrying amount of \$227.3 million. The Company's treasury shares may be issued upon the exercise of employee stock options, under the Employee Stock Purchase Plan, in the form of restricted stock or for other corporate purposes. Further purchases will occur from time to time as market conditions warrant and as the Company deems appropriate when judged against other alternative uses of cash.

Dividends

On July 17, 2014, the Company announced a quarterly cash dividend of \$0.08 per share of the Company's common stock. The Company declared dividends of \$7.7 million during the twenty-six weeks ended August 30, 2014, of which \$3.9 million was included in other liabilities and accrued expenses on the Company's consolidated balance sheet as of August 30, 2014 and was paid on September 15, 2014 to shareholders of record on August 29, 2014. Further declarations of dividends remain at the discretion of the Company's Board of Directors.

Contractual Obligations

The Company's contractual obligations primarily consist of operating leases and open purchase orders for merchandise inventory. For the twenty-six weeks ended August 30, 2014, there were no significant changes to the Company's contractual obligations from those identified in the Company's Annual Report on Form 10-K for the year ended March 1, 2014, other than those which occur in the ordinary course of business (primarily changes in the Company's merchandise inventory related to purchase obligations, which fluctuate throughout the year as a result of the seasonal

nature of the Company's operations, and changes to operating leases due to store openings and closings).

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to adopt accounting policies related to estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period, as well as the related disclosure of contingent assets and liabilities at the date of the financial statements. On an ongoing basis, management evaluates the Company's accounting policies, estimates and judgments, including those related to inventories, long-lived assets and contingencies. Management bases its estimates and judgments on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For a discussion of the Company's market risk associated with interest rates as of March 1, 2014, see "Quantitative and Qualitative Disclosures about Market Risk" in Item 7A of Part II of the Company's Annual Report on Form 10-K for the fiscal year ended March 1, 2014. For the twenty-six weeks ended August 30, 2014, there has been no significant change in related market risk factors.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. With the participation of our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this Report. Based upon such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our disclosure controls and procedures were effective in ensuring that (i) information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities Exchange Commission's rules and forms and (ii) information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting. There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this Report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is subject, from time to time, to certain legal proceedings and claims in the ordinary course of conducting its business. Although it is not possible to predict with certainty the eventual outcome of any litigation, in the opinion of management, the Company's legal proceedings are not expected to have a material adverse effect on its financial position, results of operations or cash flows.

Item 1A. Risk Factors

Risk factors that affect the Company's business and financial results are discussed in "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended March 1, 2014. There has been no significant change to identified risk factors for the twenty-six weeks ended August 30, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On July 21, 2011, the Company's Board of Directors authorized a share repurchase program (the "2011 Share Repurchase Program") to repurchase up to 5,000,000 shares of the Company's common stock outstanding through December 31, 2014. On January 3, 2013, the Company's Board of Directors amended the 2011 Share Repurchase Program (the "Amended Program") and authorized the repurchase of an additional 5,000,000 shares of the Company's common stock, which authorization shall expire on December 31, 2017.

Details on the shares repurchased under the Amended Program during the thirteen weeks ended August 30, 2014 are as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share(1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Program
